7. Substance of business in Child Welfare Station:

(1) Situation of Child Welfare Station:
Child Welfare Station is in a central position among child welfare organizations which was set up to solve child welfare problems and was regarded quite seriously after the termination of war.

(2) Child problem and Child Welfare Station:
Children who shall be in charge of next generation of Japan should be born and brought up healthfully both in mind and body, (Article 1, Child Welfare Law) and should be guaranteed their livelihood and loved equally (Article 2, Child Welfare Law).
Due to the actual condition after the termination of the war, many children are hindered their normal growing, disregarded their livelihood, and quite neglected their loving protection. This kind of state cannot be permitted in view of the fundamental human right of Japanese new Constitution. Democratization and re-establishment of Japan also cannot be expected under such conditions.
The solution of this problem is truly urgent business and this very object is the duty assigned on newly born Children Welfare Station.

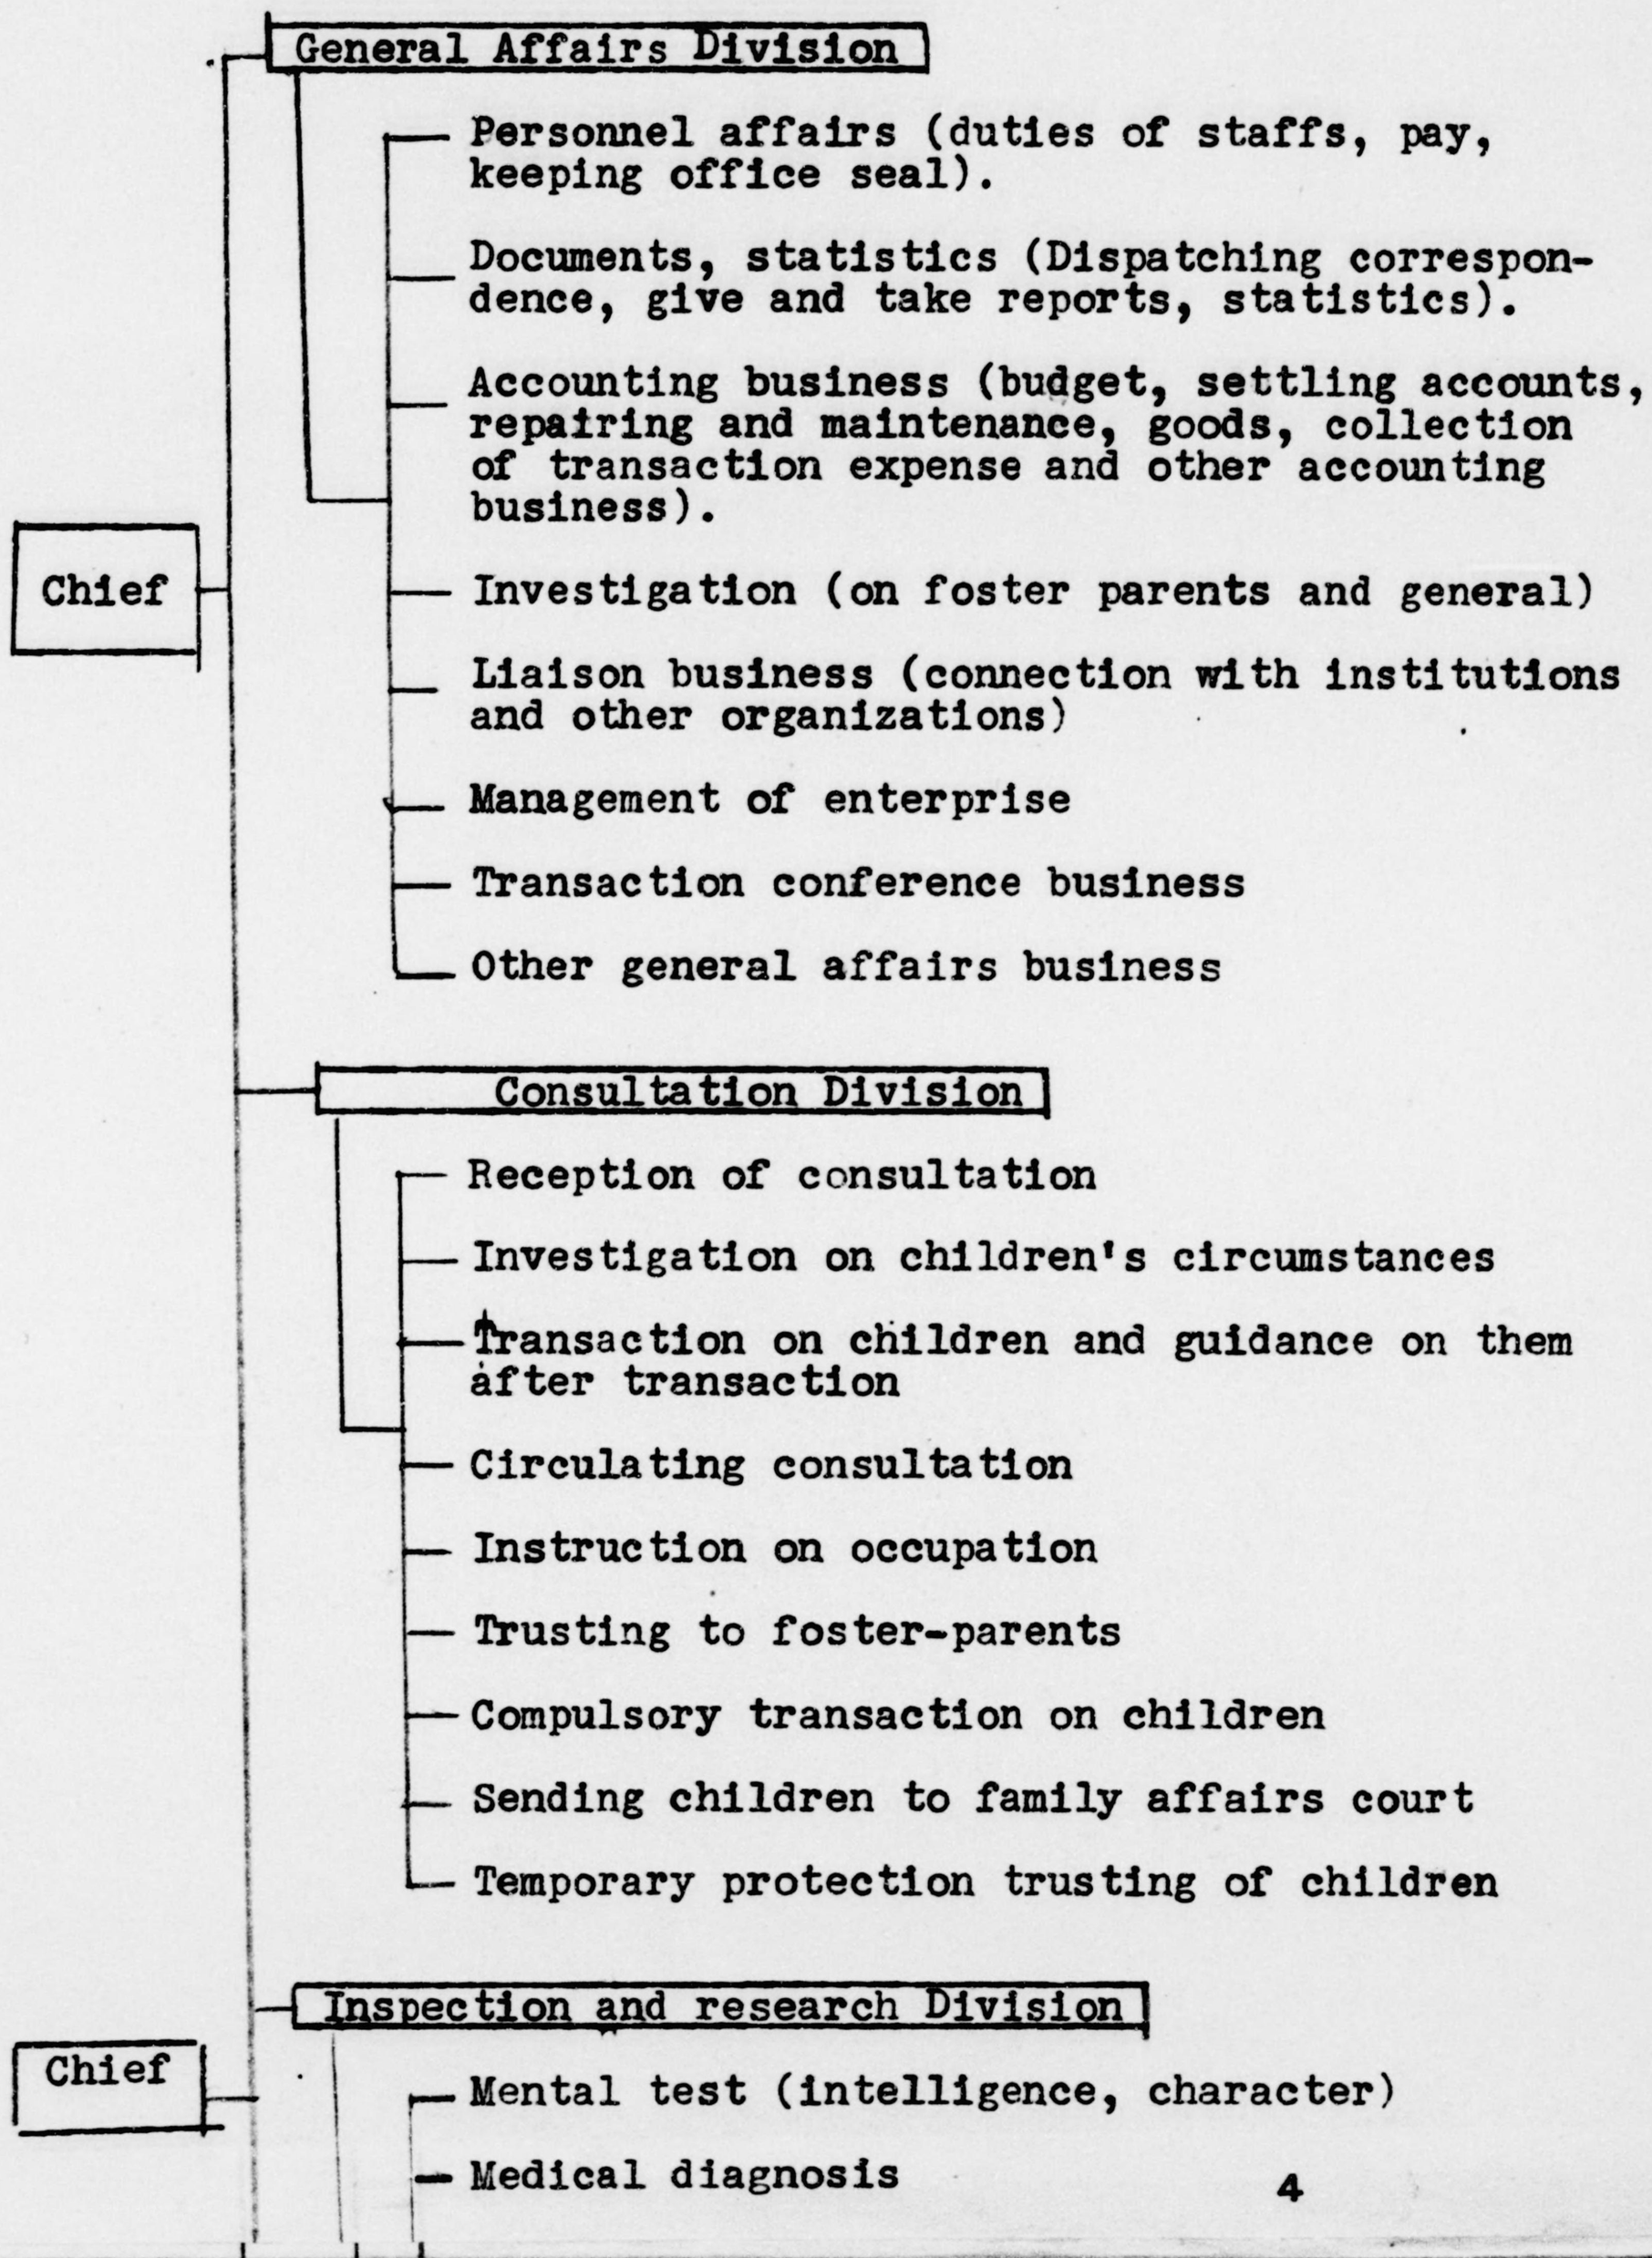
(3) Object child in Child Welfare Station:
Every kind of child from infants just born to 18 years old. However, following children are chiefly considered from the standpoint of real necessity: - Vagrant, Orphan, Delinquent, Poor, Eloped, Abandoned, Ill-treated, Infants, Feeble-ruinded, Mentally-deranged, Blind and deaf, children who lost the use of hand, foot or body.

(4) Substance of consultation:
Breeding up, nursing, education, giving accommodation, reforming, protection, sanitation, medical treatment, giving occupation, engage in occupation, arrangement, foster parents etc. including all kinds of problems concerning child welfare on Children as mentioned above.

(5) Transaction after consultation:
Every kind of transaction is considered according to the substance of consultation. That is, for example, a specialist's guidance on delinquent children or to let children enter following institutions: - . Reformatory for delinquent children, institutions for children who are out of protection or any other helpless children, institutions for feeble-minded children, institutions for blind and deaf children, sanitary institutions for weak children, Infant Home for infant etc.
With regard to other general child, such transactions are considered as guidance for school class promotion, guidance on nursing and sanitation, looking after for securing employment, examination for intelligence and character, mental test etc.

(6) Business other than consultation:
Except many business mentioned above, following are also very important tasks for Child Welfare Station to propagate and instruct Child Welfare idea, to prevent juvenile delinquency to research juvenile culture.

8. Business organization in Child Welfare Station:



- Research on child affairs (school children, materials, juvenile culture, social investigation, prevention of delinquency)

7. Substance of business in child welfare station:

1) Situation of child welfare station

Child Welfare Station is in a central position among child welfare organizations which was set up to solve child welfare problems and was regarded quite seriously after the termination of war.

2) Child problem and child welfare station:

Children who shall be in charge of next generation of Japan should be born and brought up healthfully both in mind and body, (Article 1, Child Welfare Law) and should be guaranteed their livelihood and loved equally (Article 2,

Child Welfare Law).

~~By the way, seeing~~ Due to the actual condition after the termination of the war, many children are hindered their normal growing, disregarded their livelihood, and quite neglected their loving protection. This kind of state cannot be permitted in view of the fundamental human right of Japanese new Constitution, ~~and~~ Democratization and re-establishment of Japan also cannot be expected under such conditions.

The solution of this problem is truly urgent business and this very object is the duty assigned on newly born Children Welfare Station.

3) Object child in Child Welfare Station:

Every kind of child ~~from~~ infants first born to 18 years old. ~~children are the object child,~~ Hereinafter, following children are chiefly considered from the standpoint of real necessity:—

Vagrant, Orphan, Delinquent, poor, Eloped, Abandoned, Ill-treated, Infants, Feeble-minded, Mentally-deranged, Blind and deaf, children who lost the use of hand, foot or body.

4) Substance of consultation:

Breeding up, nursing, education, giving accommodation, reforming, protection, sanitation, medical treatment, giving occupation, engage in occupation, arrangement of circumstances, inspecting temperament, foster parents etc. including all kinds of problems concerning child welfare on children as mentioned above.

5) Transaction after consultation:

Every kind of transaction is considered according to the substance of consultation. That is, for example, a specialist's guidance on delinquent children, or to let children enter following institutions:— reformatory for delinquent children, institutions for children who are out of protection or any other helpless children, institutions for feeble-minded children, institutions for blind and deaf children, sanitary institutions for weak children, Infant Home for infant etc. With regard to other general child, such transactions are considered as guidance for school class promotion, guidance on nursing and

sanitation, looking after for securing employment, examination for intelligence and character, mental test etc.

3. In June 1949 the name of the Child Welfare Section was changed to Women's and Children's Section due primarily, it is said, to the increase in the activities on behalf of widows. The total number of children in the prefecture is approximately 850,000. The number of children in the prefecture receiving direct assistance is 899. The appropriation for the current fiscal year is ¥15,742,960 which is ¥4,128,517 in excess of last year's expenditures.

4. The organization of the Section and the functions of the individual employees were studied and the attached chart was prepared. It is quite obvious that entirely too much effort is being expended in the direction of "enlightenment" and very little on the usual basic functions of a public Child Welfare

section.

5 The Child Welfare Center organization and functions were studied and it was pointed out that the 1084 cases handled by the Center last year did not appear to warrant the large staff employed. At first the figure of 1691 was given as the actual number of consultations, but closer questioning revealed the fact 607 of this number were handled by the Child Welfare Workers (Jido Fukushi Shi) and did not actually pass through the Center. About 20% of the 1084 cases were referred directly from the schools. The appropriation for the current fiscal year is ¥10,224,082,

Staff salaries —	¥833,906
Gratuities —	24,425
Traveling Expense	239,600
Child Welfare Institution	8,177,051
Administration C.W.C	280,000
Temporary Prot. Home	150,000
Total	¥10,224,082

including Temporary Protection Home expenses and salaries for both.

There are the following Child Welfare institutions operating at present.

7 Day Nurseries - all private - 638 children - 532 fed by them. average. ones/400 per month.

There are 5 pending applications for approval.

Institutions are in operation, however,

1 Temporary Protection Home - public Cap. 45 - Inmates 7

1 Protection Inst. - private " 85 - " 85

19 Orphans - 47 from poor families - 5 abandoned

7 from Criminal families - 7 vagrants.

2 Boshi Kyo - private - operated by Shakai Fukushi Kyokai of the Prefecture - 50 women - 149 children.

1 Reformatory - public 67

1 Feeble-minded - private 13

1 Deaf and Dumb - public 53

It was said that the above institution finds it difficult to operate on present income from Ministry and Prefecture so is obliged to collect "tuition" from children. Most parents are unable to pay. Justification for collection of these funds is said to be found in Art. 56 of the C. W. L. - More specific information will

be obtained during an anticipated survey of institutions at a later date. At present there are 5 kindergartens for children 3 to 6 which have been operating 5 to 15 years under the Education Section but are now being operated by the Welfare Section under an agreement whereby they will be converted to Day Nurseries. It is quite obvious that the Day Nursery program is the one on which emphasis is being placed at present. The reason given for the transfer is that the children were not getting "proper care and instruction" under the former system. There is also a movement in progress in Ashikaga City to combine 1 Day Nursery and 1 Kindergarten and place them under Child Welfare in order to collect entrustment funds for both types of children from the Prefecture.

The foster-care program follows somewhat the same discouraging pattern of other prefectures. Out of a total of 237 applications, 206 were approved, 31 rejected. Fifteen have withdrawn so there remains at present a total of 191 approved homes with only 142 children having been placed. The procedure for making application is either through the Jido-in or the local offices. It was planned that even though the C.W. Law states applications should be made to the

X It is interesting to note that the one day nursery which has been constructed as a public day nursery by the prefecture and village with approval and 50% building expense subsidy from the Welfare Ministry was entrusted after a few months to Mr. Kenei Sepine, a Buddhist Priest who has operated a private day nursery for 6 years.

C.W. Center, it is the feeling of the Officials that the Jido-in and the local Officials are the ones who should give the guidance, etc, especially in view of the fact that the "general public is not well informed." Others claimed that there is no temporary foster care program.

8 The Officials admitted that the Child Welfare Deliberative Council is not at all active and apologized for the inactivity. Meetings have only been held once in three months.

9 The 6 Child Welfare Workers (Jido Fukushi Shi) were all present at the conference and were given an opportunity to participate. It is quite obvious that their duties have never been clearly outlined or if so they do not chose to follow the outline since it appeared that they are doing case work which is clearly the responsibility of the local social workers at present or the Jido-in in the past.

10 Future Plans –

The most important item in the estimation of the Officials is the enforcement of the "Widow's Occupation Loan Program." Three million yen have been appropriated by the prefecture to "establish the independence of women with children" by loaning money or equipment (sewing machines) to the value of ¥20,000 per individual at no interest for a 6-year period in the case of money or a 3-year period in the case of equipment. The local welfare offices will take the applications and a special deliberation committee is to be established to determine eligibility. The first meeting of the council is to be 15 June. One application has been received to date. It is from a mid-wife asking for a bicycle. It was claimed that this program is the brain-child of the local Section but it was admitted that there are similar programs being organized in Kume and Shizuoka. Reference to report on Kanagawa activities indicates that they also have a similar project. In questioning the value of the program inasmuch as only 150 persons could receive the maximum the Welfare Officer was informed that it will

probably be possible for additional appropriations to be made. The project is said to have been established as a result of an over-all survey of widows families made in August of last year. Statistics showed there were 860 widows with 19,000 children, 4100 of whom were receiving Daily Life Security Assistance. One of the questions asked was "Would you like Vocational Training?" 700 answered affirmatively.

2. Seasonal Day Nurseries are to be established for approximately a 2-week planting period in 30 localities throughout the prefecture. The prefecture has made a special appropriation of ¥100,000 and the Social Works Assn. will subsidize with ¥100,000, making available only about ¥6,000 each without further appropriations. The actual operators of the nurseries will be women school teachers, P.T.A. and the Fujin Kai. Money is expected to be used to purchase toys, candies, firewood, paper etc.

3. Further effort to urge the Ministry to send down further subsidies for the establishment of additional

playgrounds.

K. Establishment of an Infant Home since Prince Takamatsu during his visit of this morning said he understood there were no Infants' Homes in Tachigi and recommended the establishment of same.

11 There is no special In-Service Training plan for this fiscal year. Any money needed will come from the Welfare Section as there is no specific appropriation in the Child Welfare Budget.
