We shall be much obliged to you if you will kindly approve the expenditures for maintenance and centralization of machines and repair of a building at Yamaguchi Plant of Tachiarai Kogyo K.K. as mentioned in the accompaning cost reports after examining them:-

The cost for centralization means that which is necessary to centralize those machines which are now in 3 buildings of No. 5, 6 & 7 into one building of No. 1 with a view to facilitating custody, decreasing the number of custodians and at the same time cutting off the expenditure for repair of Building No. 5 damaged by the typhoon.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Since January, 1949, besides the maintenance of Occupation Forces' facilities, the plant has started the manufacture of parts of mining machines and tools as well as the repair of agricultural and other inplements.

Recently, the replenishment of our factory equipment, aided by prefectural subsidy, has been planned for the increase of production.

For this purpose, a small type finishing surface plate is required to be installed in this plant.

However, as it is very difficult to manufacture it, we apply for your permission to remove and use the said machine at our plant.
