Meguro Health Center

Meguro H. C. occupies 4 rooms plus 2 very small rooms of a Ward office bldg which was donated by a private individual. The remainder of the bldg is devoted to ward offices and a recreation place. This is an excellent bldg. The H C is comparatively clean but to small. One room and a very small one has tatami and is used by the staff. One nurse sleeps there at night. A guard with his family stay here at night. Effort should be made to use all existing rooms as H. C. (see attached form.)

Jan. 29, 1948

Dr. Hoshino, director came into the office. It was suggested that the room with tatami and the out room with tatami be used exclusively of clinic purposes.

Mar. 13 - 1948

Above work being done. Cupboard which was sent them is unsuitable. What was sent is more of a table. Need cloth

Oral Statement

By. Shimazaki Shichiro

2424. 5 chome Kami-meguro Meguro-ku. Tokyo.

On July 31st 1940 there was a donation by Mr. Moriya Tokiro ~~to~~ of 1186, 3 chome. Naka-meguro Meguro-ku Tokyo. to Meguro Ward. Regarding the lot of land of ~~935 tsubos~~ 935.69 tsubos and two-storied tiled-roof ~~brick~~ wooden building of 165.05 tsubos. at 3-1186, 3 chome Naka-meguro Meguro-ku Tokyo., as I rendered good services by coming in between the donor and the donee, I shall mention the will of the donor as follows:-

The account.

1 To utilize the building and land in their original state.

Reasons

(1) At first, Mrs. Moriya Kiyo, the widow of the late Mr. Moriya Zenbei, ~~herself~~ brought up the discussion that she herself wished to make the donation to Johongi Town Assembly, so I mentioned that it ~~is~~ was to be desired that the donation be made to the Meguro Ward instead of the Town Assembly as the value of the usefulness will be more, and that the party who received the donation of the building alone ~~will~~ would have some inconvenience in future so it is also to be desired that the lot of land be donated. In

that case she made the statement that she would make these donation after discussing with the heir.

(ii) As the result of the discussion with the heir, she decided to donate the land and well as the building to the Meguro Ward, but she desired that I, the native of the place ~~should arrange the execution~~ the native of the place, must with certainty arrange the execution of the ~~ex~~ conditions of the donations, which are.-

(a) ~~I should~~ It ~~was~~ was to be desired that I, the native of the place should recognize the execution of ~~my~~ her wish, as it was thought that even if she mentioned her wish through the Chief of the Ward, its execution would be impractical, as the Chief of the Ward changed often. Her wish was that ~~it was desired that~~ it should be arranged for the building as well as the land ~~should~~ to be used in their original state to preserve the relics of the late Mr. Moriya Yenbei, ~~and~~ no reconstruction whatsoever be done for the building, or regarding the land; ~~no stone or tree~~ none of the stones and trees be removed.

(b) To ~~make~~ erect the bust statue of the ~~donor, the late~~ ~~Mr.~~ father of the donor, the late Mr. Moriya Yenbei

(c) To erect a shrine where the spirit of the dead are worshipped

(d) The object of its use is to be applied to the settlement work.

The above conditions were attached by the donor and as I ~~was~~ became a member of the Ward Assembly at that time, and as Chief

of the Donees' Committee of the Moriya Memorial Hall, there was ~~not~~ no mistake that I made the excertion for receiving the donation at the ~~Comm~~ Ward Assembly.

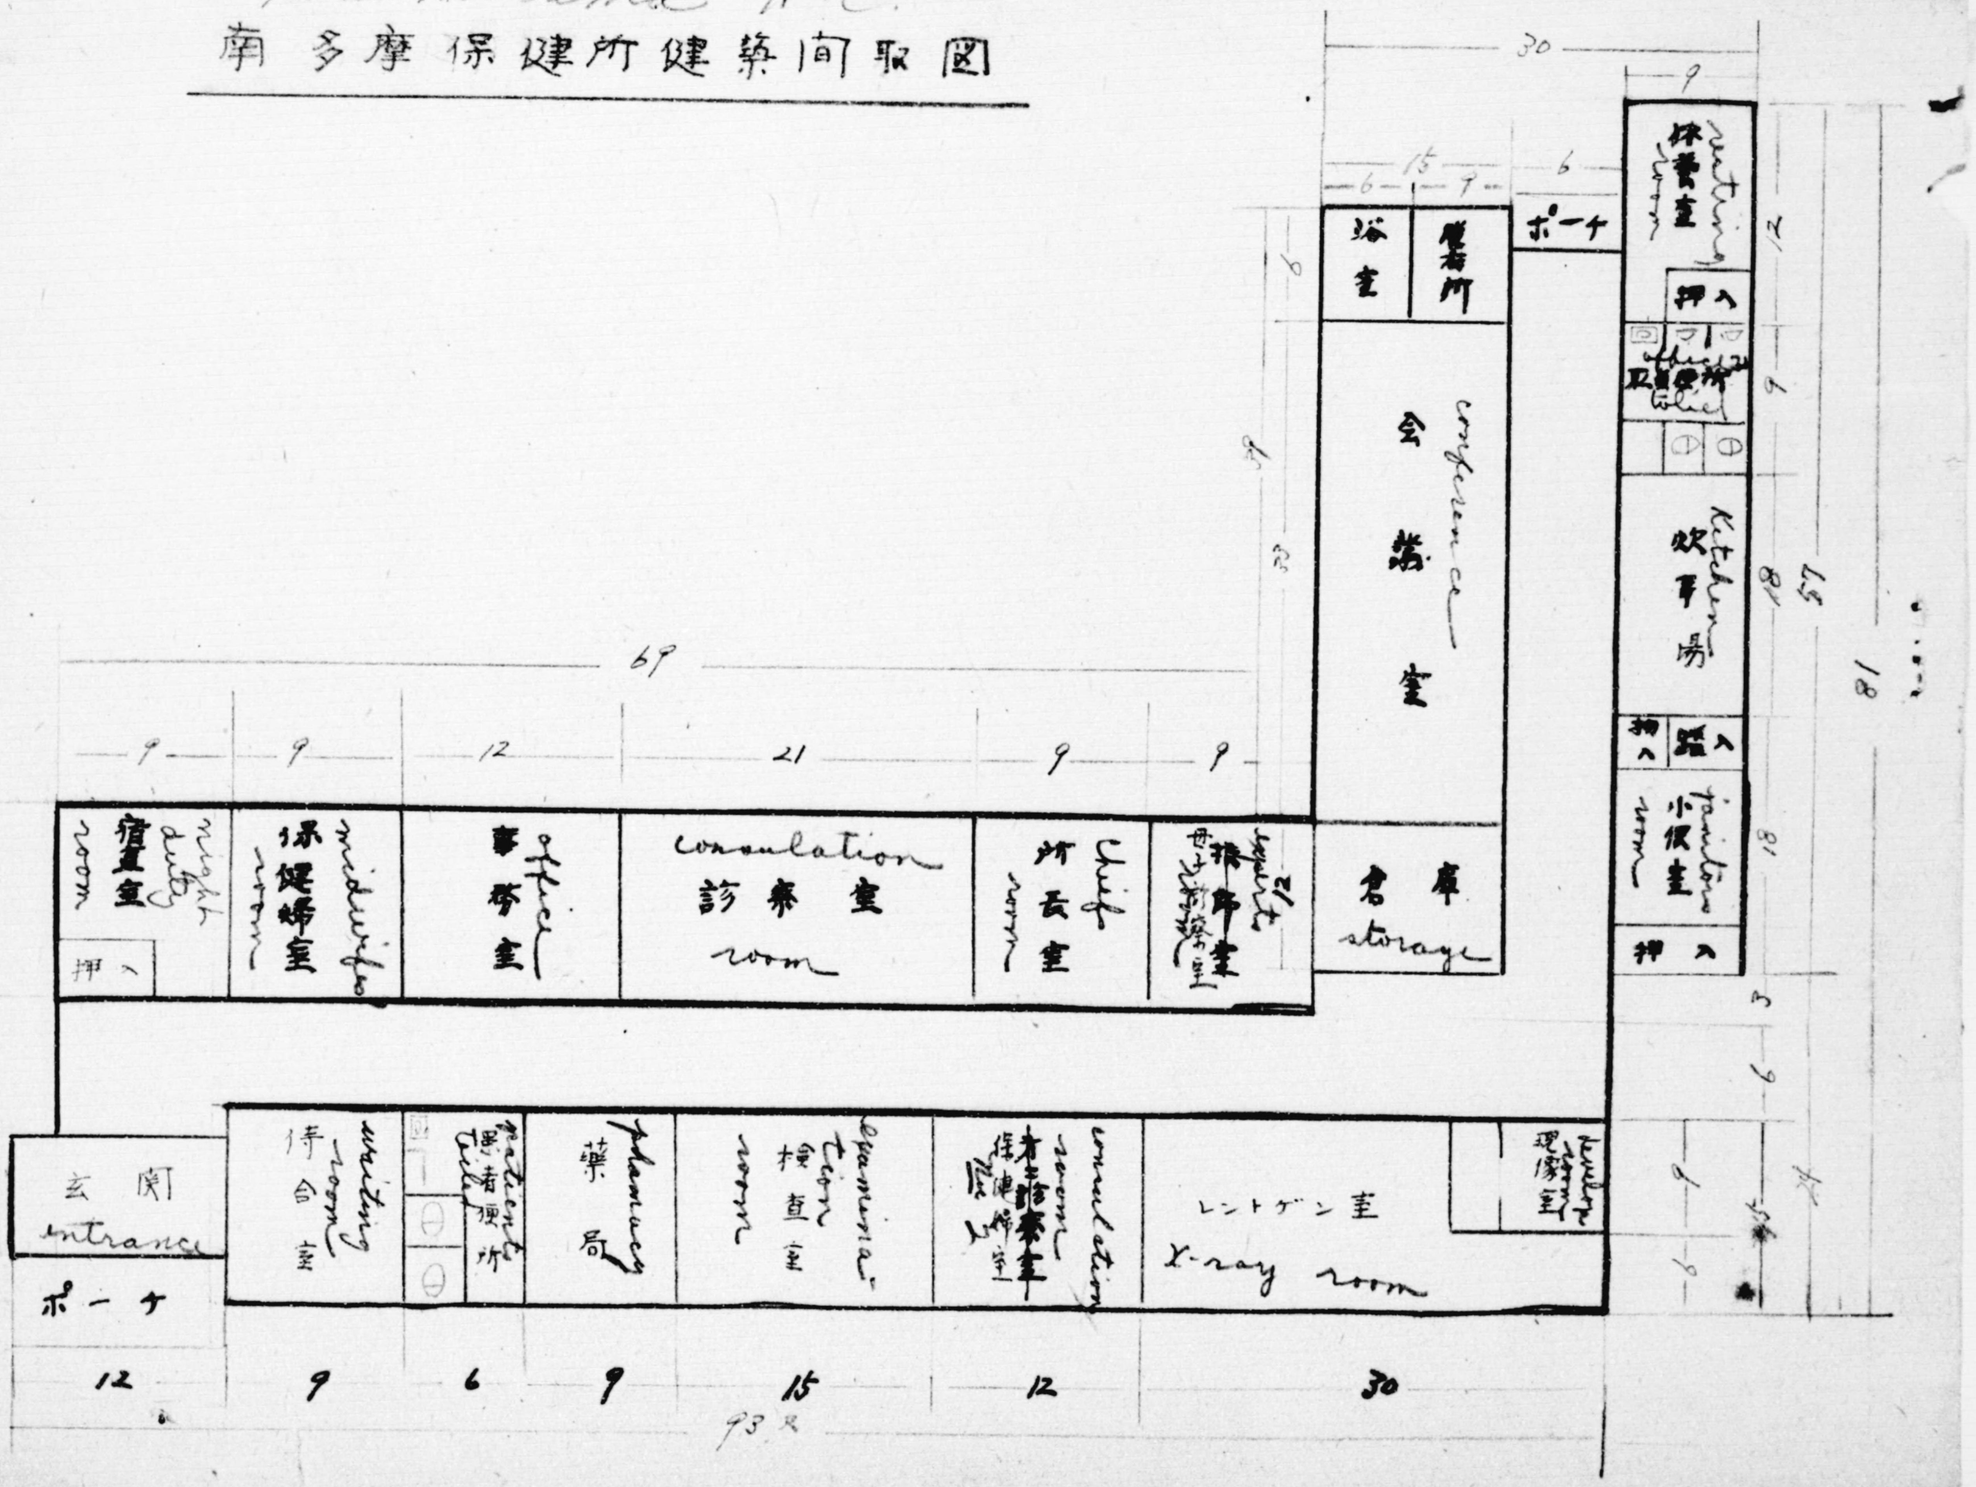
南多摩保健所建築間取図



保健所の育成につき種々御指導を賜り御礼申上げます。

さて私の勤務致して居ります東京都南多摩保健所（八王子市台町四一所在）の現状は紊乱をきはめ見るに堪えないものがありますので是非共貴官の賢明なる御裁断をお願い致したいと存じ失礼をも顧みずここに御手紙を差上げる次第であります。

保健所は現在非常に紛糾しておりますがその中心人物は予防課長の小野田彦義であります。彼は前代の所長のとき保健所の権威を失墜する陽の悪口雑言を放ち、虚構のことを言い触らし都衛生局理事者に対し無記名投書を以て誹謗するなどの方法をめぐらしたため前所長は責任上、他へ転勤になりました。只今の所長になつても色々と画策することがありました。その目的とする所は何とかして自分が所長に昇進したいという個人的利慾の発露であります。

勿論、所長に相応なる手腕力量があるならば異論をはさむ余地はありませんが小野田は左の点で全く所長たる資格を欠いて居ります。

一、レントゲン写真の判読が全く出来ません。明らかに病状を露呈している者すら判定できず異常なしとして業務に従事させていたため死亡した患者があります。

二、集団健康診断に出向くことの条件として、又は集団健康診断に出向いた謝礼として恩方村、由井村、元八王子村、日野町等に於て木炭

Miss Panesson — 1st letter Copy given to Dr. Kitayama Jan. 17, 49

I am sorry to bother you abruptly.
Will you please check up Minamitama H.C.
(141 Daimachi Hachioji-shi Tokyo-to)? Because
they are lazy against your Military Government
directions.

The fact is the following:

1. The director is living in the H.C., using the janitor for his private things, such as cooking and laundry etc. Also he was living in the previous H.C. too
2. Important staffs are doing Labor Unions work with great interest and during duty hours they took a part of election activity for the one who was recommended by the Unions.
3. The director can not keep the strict attitude to all personnels as he himself is not doing right things. So whole H.C. is not working properly, they are very lazy.
4. Saying, to have conference, always arrange some meetings to drink "Sake" and let the people of restrants etc, bring food to him.

(写し)

突然で失礼ですが東京都八王子市元本郷町一四一番地東京都南多摩保健所は党軍指示で運営し、怠慢な勤務をしていますからお取締願ひます。

下の事実は

一、保健所長が保健所内に居住し女中を使って炊事洗濯其の他すべて私用に使って居る。尚その所長は前任地でも保健所内に居住した。

二、職員幹部は労働組合を復活し勤務時間中公用の[illegible]組合の支援する候補者への選挙運動を行って居る。

三、保健所長が妻子を伴って所内に居住しているため職員に対し厳然たる態度がとれないので職員はそれをよいことにして怠惰な勤務をし、所内は極めて乱れている。

四、会議の名を借りて酒を飲む会をつくり、業者から飲食物を提供させている。

Dear Miss Paressa,

I'm apreciating very much for your effort to bringing up health centers

Now, as I can not stand to see all messed up situation of the Minami Tama H.C. where I work now, I've decided to tell you about this trouble

This health center is in a big trouble, and it's center is Onoda Takayoshi, chief of C.D preventive Section. When the former director was here, this Onoda talked bad of health center, told lies about H.C., also sent a letter without putting his name and accused H.C. So the former director took responsibility and was transferred to other place. He is (Onoda) still trying to play tricks. His object is to become a director in any means.

Of course if he is too qualified to be a director, there is no argument But he lacks the qualification in the following points.

1. He can not read X-ray picture. There was one case that showed the disease clearly and still he told the patient it was O.K for him to work and the patient died

2. He requested to villages like Ongata, Nasuo motohachiji and Hino to give him charcoal flour, Rice vegetables or sweetpotatoes as c rewards of going out for mass health examinations. He tried to cover what he did and paid some money for them, but the amount

was very very little

3. No staff, specially no P.H. nurse respect him He never leads people with affection, no one can obey him His personality is treacherous and cowardly He does not try to raise his position with study and work. But he tries to play tricks and agitate the bad people to take his side. He never tries to raise technical standard at all.

He is not suitable to lead and teach people. also he does not fit to guide public health of the area. I would like to have you to take care of this trouble with your good understanding and judgement

Sincerely

II

Health Center in Ku office. Spacious center however not at all convenient, and can not be made convenient. It is on the third floor and there are very high ceilings. Have a new indirect x-ray which is located on the second floor. Center not clean. (Rodent control + ward chiefs room is a large room on second floor.) More convenient quarters are essential.

March 13 -

Conference held with Dr Inoue, director; Mr Masao Narita chief of Chuo ward; Dr Chikanaga Kumagai, chief of hygiene section and Dr Sakae. Dr Inouye had a planned for remodeling present quarters at a cost of 100,000. yen. Also stated elevator would be put in order. Nurse not in accordance to Tokyo - To spending so much money for a temporary location. If Ku wishes to spend it alright. Above Japanese will confer later regarding this matter.

REMARKS: Fairly good

Jan 9, 1948

Ota H. C.

H.C occupies a 2 story building. The first floor is occupied by the center and the second floor is used for sleeping rooms. At least 4 or 5 rooms are used by the personnel. The first floor is very dirty and cluttered and not large enough for a health center. Dr Sapia made the inspection with the nurse. He said, only the janitor should be living there; therefore the other people were advised to move. The following repairs are necessary: wooden floors in waiting room instead of tile; walls in waiting room need to be painted and benches there need to be covered. Water pipe needs to be repaired in sterile room. Small plaster patch needed in x-ray room also roof leaks in several places and small plaster patch is needed. All of the center could stand a painting it is so dismal.

Chief nurse smoked all through the inspection

Feb 3, 1948

There was considerable improvement in H C. Clinic room had been painted. Upstairs only housed janitor. Generally it was cleaner. However

..ary much more could be done such as.
1. relieve congestion in clinic room by moving doctors office upstairs
2. A room upstairs could be designated for a cloak room instead of having the wraps on chairs etc in back of inquiry room
Remove tea utensils from inquiry room.
3 Store broken equipment in a storage room.
4 Laboratory could be established (doctor not told).
5 Back of inquiry room could

There is a storage room upstairs with a cabinet full of drugs and other equipment that isn't being used.

Director was in the H.C. He understands some English. Mty clinics were discussed

Mar. 1948

Needs desk + chairs (5). Roof leaks, sink in clinic room needs repair, plaster in X-ray room needs repair. If he doesn't do this then Health Bureau must. Clerk slapped nurse
