1. Reference is made to Para 4 of basic communication in which it is stated that the Japanese Government has failed to initiate work on subject property.

2. Mr. Apcar, Representative of Civil Property Custodian, Foreign Property Division, was advised in April 1948 by the Civil Property Custodian of this Team that occupation authorities had not allowed Prefectural representatives to enter the Noda installation for security reasons. For this reason on or about 17 June 48, Mr. Apcar during his visit to this headquarters personally visited G-4 Kobe Base in order to arrange for the Prefectural Construction to enter the plant. It does not appear therefor that the responsibility for not effecting necessary repairs and maintenance can be property charged against the Japanese Government.

3. Application has been made to Kobe Base to allow the Prefectural Construction Section to enter Takatori Plant to carry out necessary repairs and maintenance.
