If child has no home, he is sent to the shelter while planning is done. Psychological and physical exams are given first. Child is placed in room according to sex; sometimes child is placed (if under 1 or 2 yrs or nervous staff takes care of. If doctor recommends, he is kept in an isolation room.

11 yr old girl (came on 4 Oct. 1950) from Shirakawa in August 1949 - wouldn't go to school & family very poor. Sometimes stole money from home, ran away from home (parents) a village official picked her up and sent her here. She stayed here Ten days and was placed in Wakamatsu orphanage where she stayed three months. She escaped and was found in Tokyo by the police who sent her to Tokyo C. Center who wrote here. In the two days before she was to be sent here she escaped again. In early Oct. Sendai CCC had her, & a man here went for her and brought her back. She has syphilis - sent to health center. She stayed 2 days & escaped again. In a few days heard from Tokyo that she entered Yoshiwara VD hospital for 5 days. Escaped again Present whereabouts unknown.

She said she left her home because her father treated her cruelly. He came here twice for interviews.

IQ was 81.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

Fukushima Ken Central Child Consultation Center

1. Organization & Job Discription

- Superintendent
  - Center
    - General affairs — personnel, documents, accounts, planning; liaison with institutions, public offices, etc; custody, acceptance and issuance of food, clothing LARA goods, fixtures; distribution to inmate-children; preparation of statistical materials
    - Consultation — interview, personal consultation, physical exam. foster parents, matters concerning Art. 26; surveys in general
    - Classification — psychological test, medical test; mental measurement, child study
  - Shelter — temporary care, observation & living guidance of inmates; care for, transportation to agency of, and transfer to guardian of, inmates

2. Activities: During the period 18 June 1948 through September 1950, the center dealt with a total of 2,675 cases. Predominent among them were delinquent children with 1,482(56%), followed by destitute children and vagrant children. Each is showing an increasing tendency. The causes involved were difficulties of making livelihood, family trouble, bad companion, social effects, etc. From a legal standpoint larceny is still heading the list, indicating that juvenile delinquency begins with the minor crime of theft. The fact that these juvenile offenders are mostly junior high school students and that their goings-on are largely attributable to scarcity of spending money and other material desires shows that how great psychological effects social and home environments have on youth. No small number of consultation s are being posed these days, however, of education and aptitude, which we interpret as evidence of improving people's idea toward the center.

Central Child Consultation Center, Aomori

Chief - Sakinsawa - grad Kyoto U. in literature
taught school 12 years. In May 2 years ago was appointed to Labor Section. Then 4 months. Then gov. appointed him as chief of CC center. Found asst elementary teaching and present job the most interesting.

Shelter

Takes chn 4/18 - now have 8 here and 1 in an infant's home. The longest period is a child who has been here since July. Tomorrow these children and one other are to be placed in a boy's home which opens tomorrow. Another child who entered 23 July returns to family tomorrow.

The shelter is located upstairs; has 5 rooms, one of which is the infirmary; two rooms are for boys and two for girls. The kitchen is downstairs. The couple who care for the chn have another room.

Most of the chn in the shelter come from the RR Public Safety Section. Chn are usually catching a ride on the train so the RR man turns chn over to Safety Section to Center. Police stations refer some + staff in T + V welfare offices refer others. JFS has first consultation with welfare office + JI and court submit information, also parents. A family history paper, issued by registry office of permanent residence, accompanies the child admitted from T + V. If there are no parents, the court submits to them a guardianship paper, usually that has to be issued by the court here. The relatives talk with the court + decide who is to be the guardian. JI cannot really handle chn problems for level is too low. JI have said yesterday that they could do

M1 works, but could not do CW work + please hire CW wkrs. M1 cannot write well enuf + so the officials are really doing the work + writing the records. So few welfare officials that reports are submitted very late. May take 6 months + then center may have to get it themselves. Maps on wall shows year old reports requested + not answered but chn are in own homes.

The doctor comes to the center on Friday of each week to examine the chn. Girls are sent to health center for VD exam. ~~—~~ only! VD found in boys to date. 1/2 girls 12/17 have VD. Boys are bathed at once, girls on return from health center. If there are sores or any other symptoms, a child may be taken to the doctor at once. If clothes are bad, supply with reserve clothes, if clothes are good they are desinfected with DDT. No isolation.

They have ping pong, picture books, shogi, go, ball, rabbits, chickens. No schooling but one boy who was here long enuf to go to school. Is now in an institution + going to school. Wants to be a barber + must have a hi school education. They have some text books here + any staff with free time go upstairs + teach them.

. Those who escape wander under different names from ken to ken, usually have IQ of 70. Cannot say if this is a true figure or not. They have had the tests in so many places or may be hungry so hurry thru to eat. Use IQ figure as a reference - watch him daily to see his usual behavior. Most of waifs are from Tokyo and probably began wandering in March 1945 when they had their most serious bombing there.
