ANNEX No. 2

PURPOSES OF USE OF THE DESIGNATED REPARATION MACHINERY

Ube Kosan Co., Ltd.

Inventory No.	Name of Machine	Purposes of Use
45-4-248 45-4-3295	Lathes	Shafts of milling machines of pulverized coal combustion equipment, pinions, cranes, transport equipments (conveyors, transporter, etc.), and other machinery and implements
45-4-335 45-3-38	Lathes	Shafts of compressors, pistons, fans, turbine pumps, etc.
45-4-3142 ~~45-4-3110~~ 45-4-1160	Boring Machines	Boring of trunnions, flangers of pulverized coal combustion equipments, metals, cranes, parts of transport equipments, and parts of machinery for chemical industry and coal mines.
45-4-3144 45-3-20	Boring Machines	Boring for metals, intermittent shafts used in the pulverized coal combustion equipments; boring of gear cases used for winches, coal selectors, and transport equipments; facing for those abovementioned; boring of fan-casings, centrifugal separators, crushers and of their parts; finishing or facing of those above mentioned
11-6(8) 173 11-6(8) 977	Milling Machines	Finishing work on parts, key ways, bearing of fans, pumps, transport equipments, and other machinery
45-3-31	Plainers	Plaining on frames for pulverized coal combustion equipments, cranes, transport equipments, machineries and tools for coal mines, and machinery for chemical industry
45-3-50	Griner	Finishing work on fan rotors for pulverized coal combustion equipments and for impellers of p umps
45-3-117	Universal Tools Grinder	Grinding and finishing work on plug gauges, drills, milling cutter reamers, etc.
45-3-288	Electric furnace	Heating for grinding tools and parts of machinery
45-3-275	Gas furnace	Same as above

MEMORANDUM FOR : Reparations Agency, Tokyo

SUBJECT : Application for Movement and Authorized Use of Items Listed for Reparations

1. Reference is attached R.A.R. No.1743 (MS), 6 December 1950, subject: Application for Movement and Authorized Use of reparations equipment of Hikari Naval Arsenal (Code No.45-04) Filed by Ube Iron Works, Ube Kosan Co., Ltd. (Non-reparations plant)

2. The application requesting permission for the transfer and authorized use of the seven (7) items of reparations machinery and equipment listed in reference 1, above, is approved as indicated below:

Present Location	No. of Items	To be Transferred To
Hikari Naval Arsenal (45-04)	7	Ube Kosan Co., Ltd. Ube Iron Works 1978-14, Kogushi, Ube city, Yamaguchi Prefecture

3. A rental fee shall be established for the authorized use of the equipment listed in reference 1, above, based upon current valuation and comparable to rental charges assessed by private interests for the use of similar equipment.

4. This permit is issued subject to any and all directives affecting reparations plants which have been issued or may hereafter be issued by the Supreme Commander for the Allied Powers. Reports will be rendered as required by current directives and instructions.

SUBJECT : Application for Movement and Authorized Use of Reparations Equipment of Hikari Naval Arsenal (Code No. 45-04) Filed by Ube Iron Works, Ube Kosan Co., Ltd. (Non-reparation plant)

R.A.R. No.1743 (MS)

1. The Reparation Agency hereby submits to your Headquarters an application for movement and authorized use of 7 items of reparations equipment now lying idle in the Hikari Naval Arsenal (Code No.45-04) filed by the Ube Iron Works, Ube Kosan Co., Ltd. (Non-reparations plant), to other with an application of the Ministry of Finance and a recommendation of the Ministry of International Trade and Industry as enclosed herewith.

2. The interested government agencies have decided that recommendation be given for 7 items out of 14 items as originally applied for by the subject sompany of the checking their non-availability.

3. This application has been investigated and has been coordinated with other interested government agencies.

4. It is requested that your most favorable consideration be given to this application at the earliest predicable date.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF DESIGNATED REPARATION MACHINERY AND EQUIPMENT

DATE : 27 March 1951

TO : MINISTER OF FINANCE

FROM : Akira TAWARADA, President of Ube Kosan K. K.

Address : 1976-1 Kogushi, Ube City, Yamaguchi Prefecture

1. Name and Location for the plant which intends to use designated reparation machinery and equipment :

   Ube Iron Works, Ube Kosan K. K.
   1978-19 Kogushi, Ube City, Yamaguchi Prefecture

2. Name (Code No.) and Location of the plant where designated reparation machinery and equipment to be used actually exist :

   1) Hikari Naval Arsenal (Code No. 45-4)
      Hikari City, Yamaguchi Prefecture

   2) Hiro Naval Aircraft Factory
      (Code No. 11-6 (8))
      Kure City, Hiroshima Prefecture

   3) Ube Branch Factory of Kure Naval Arsenal
      (Code No. 45-3)
      Ube City, Yamaguchi Prefecture

3. List of designated reparation machinery and equipment to be moved and used :

   Stated in the attached list No. 1

4. Necessity for movement and use of machinery and equipment :

   Main efforts of Ube Iron Works, Ube Kosan K.K. has been directed on the production of pulverized coal combustion equipment, loading equipment, transportation machines, machinery and equipment for the chemical products, such as cement, ammonium sulphate and soda, various kinds of machines and tools for coal mines, etc., including repair of those implements.

   The Works has already presented its specifications for production covered by the special procurement orders. Under the current economic situations, it is planning to rehabilitate its facilities which have been superannuated by wear and tear caused by use for a long time since they were installed 30 years ago, and to improve them to cope with the presumed rush of orders under the special procurement and from foreign firms.

FILE

File - 45-3. Sect. II

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Improvement of its facilities could be achieved successfully if it can get the reparation machinery and equipment it applies herein for the aurhorized use of them.

A) Reasons :

As stated above, the facilities of Ube Iron Works have already been superannuated. 40% of them are now almost of no use because of wear and tear of incessant use for as much as 30 years. They are just the cause for headache on the way of rationalization of the plant. However, the products of the works are most important machinery and equipment necessary for rehabilitation and reconstruction of Japan.

The Works seeked and tried to pick up machines and tools which are the urgent needs for it among the civilian reparation objects, but failed. Even the competent authorities agree that it is almost impossible for the time being to get such precision machines needed at the Works from any other sources.

In short, the Works resorts to the last measure to get the supply of the necessary machines and tools through the permission of use of the designated reparation machinery and equipments kept at the munition factories of the former Japanese Military.

If the Works could surmout the current difficult situations aroung it derived from its superannuated facilities, it could carry out streamlining of its facilities to realize cutting down of costs of its products and to raise its productivities. Eventually it might be a powerful plant to tackle to the production of machinery for exportation.

B) Outline of undertaking plans from the view point of the Works' operation in the past :

In contrast with the current productivities which reach 37,000,000 yen a month on an average under the present facilities and manpower (700 employees), the productivities in the future when the works gets the permission for this application and can fully utilize the desired machinery, shall be lifted up to about 15% in the main parts of the processes.

The desired reparation machinery is mainly composed of shapers, plainers, and cutters for the precision process. They must save the overload upon its facilities under the current situations around the Works, which in effect enable the Works to shorten the term of delivery of its products and which, furthermore, might bring the Works more fame and more credit.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

C) Prospect for output :

Monthly Output Realized and To Be Realized

Products	At Present		By Use of Desired Machinery	
	ton	1,000 yen	ton	1,000 yen
Electric machinery	173	23,900	178	28,100
			(175)	(27,700)
M. for fertilizer industry	60	3,288	65	4,680
			(62)	(4,420)
M. for ceramic industry	42	2,321	44	3,140
			(44)	(3,140)
M. & tools for coal mines	18	775	22	1,375
			(21)	(1,320)
Coal wagons	14	600	15	855
			(16)	(710)
M. for chemical industry	12	1,110	13	1,520
			(12)	(1,405)
M. made of steel	9	600	10	800
			(9)	(720)
Others	8	950	11	1,920
			(10)	(1,740)
Crushing balls	120	4,200	120	4,700
			(120)	(4,700)
TOTAL	456	37,744	478	47,090
			(469)	(46,015)

NB : The figures in the brackets ( ) indicate the output reinforced by the 1st authorization of use of 7 sets of designated reparation machinery.

The figures shown out of the brackets indicate the output in event of the 2nd reinforcement with the designated reparation machinery desired herein.

D) Materials necessitated : Unit - ton.

Materials	At Present	By Use of Desired Machinery
Pig-iron	81	85
Steel	320	336
Scrap iron	125	132
Non-ferrous metal	3.5	3.7
Coal	194	204
Coke	84	88
Electric power	274,000 KWH	286,000 KWH

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

E) Fund necessitated :

The fund necessitated to receive the reparation machinery and equipment shall be appropriated from the increase of the capital which was approved by the general meeting of the shareholer held on 26 February 1951. The capital of 300,000,000 yen at present shall be increased to 600,000,000 yen.

F) Labor :

700 employees (at Ube Iron Works, only.)

G) Machinery and equipment now possessed :

339 sets in total.

a) Machine tools :

Lathes	69
Face lathes	9
Milling machines	5
Hopping machines	4
Plainers	7
Mold-shapers	10
Boring mills	11
Vertical plainers	4
Miscellaneous	27
TOTAL	146

b) Other machinery :

Hydraulic pressures	2
Frictional pressures	3
Krank pressures	5
Cutters	5
Bending rollers	2
Air hammers	7
Steam hammers	3
Rollers	2
Cupolas	5
Reverberatory furnaces	2
Electric furnaces	2
Miscellaneous	46
TOTAL	85

c) Other equipments :

Cranes	30
Air compressors	9
Boilers	4
Miscellaneous	65
TOTAL	108

1. The Reparation Agency hereby submits to your Headquarters an application for movement and authorized use of 7 items of reparations equipment now lying idle in the Hikari Naval Arsenal (Code No.45-04) filed by the Ube Iron Works, Ube Kosan Co., Ltd. (Non-reparations plant), to other with an application of the Ministry of Finance and a recommendation of the Ministry of International Trade and Industry as enclosed herewith.

2. The interested government agencies have decided that recommendation be given for 7 items out of 14 items as originally applied for by the subject sompany of the checking their non-availability.

3. This application has been investigated and has been coordinated with other interested government agencies.

4. It is requested that your most favorable consideration be given to this application at the earliest predicable date.

(Y. Katsuno)

Director, Reparations Division

MEMORANDUM FOR : Reparations Agency, Tokyo

SUBJECT: Application for Movement and Authorized Use of Items Listed for Reparations

1. Reference is attached R.A.R. No.472 (MS), 19 May 1950, subject: Application for Movement and Authorized Use of Reparations Equipment of Omine Plant (Code No.45-18), Ube Iron Works, Ube Kosan Co., Ltd. Filed by Ube Iron Works (Non-Reparations Plant) or the same Company.

2. The application requesting permission for the transfer and authorized use of the three (3) items of reparations machinery listed in reference 1, above, is approved as indicated below:

Ube Kosan Co., Ltd. Interplant Transfer

Present Location	No. of Items	To be Transferred To
Omine Plant (45-18)	3	Ube Iron Works 1978-19 Kogushi Ube city, Yamaguchi Prefecture

3. This permit is issued subject to any and all directives effecting reparations plants which have been issued or may hereafter be issued by the Supreme Commander for the Allied Powers. Reports will be rendered as required by current directives and instructions.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF DESIGNATED REPARATION MACHINERY AND EQUIPMENT

September 2, 1950

To : Ministry of Finance

From : Akira Tawarada
President
Ube Kosan Co. Ltd.
1976 - 1 Kogushi, Ube City, Yamaguchi Prefecture

1. Name (Code No.) and location of the plant which intends to use designated reparation machinery and equipment.

   Ube Iron Works, Ube Kosan Co, Ltd. (non-designated plant)
   1978-19 Kogushi, Ube City, Yamaguchi Prefecture

2. Name (Code No.) and location of the plant where designated reparation machinery and equipment to be used actually exist.

   Ube Branch Factory of Kure Naval Arsenal (Code No.45-3)
   Ube City, Yamaguchi Prefecture

3. List of designated reparation machinery and equipment to be moved and used

   Annex No.1

4. Necessity for movement and use of machinery and equipment.

   (A) Purpose

   Main purposes of machineries applied for are explained by one of the annexes (Annex No.2-A. No.2-B)

   (B) Necessity for movement and use

   Ube Iron Works is manufacturing machineries and equipments essential to reconstruction of Japan's economy. The machine tools of the plant (about 150 sets) have been operating over 30 years and they are the largest barrier in carrying out the production plan and rationalization of production because approximately 40% of the facilities are superannuated and inefficient. We tried to find highly precise and strong machine tools so as to replace them, but we couldn't find any at private designated reparation works.

MANUFACTURING AND INDUSTRY FILE 45-3 Sec II

Submitted to F. Ministry 18 Sept 50

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

At present it is very difficult to get them in haste from domestic market and this is also the conclusion of the opinion of tne authorities concerned. But by renting the machineries applied for, we can replace the superannuated and inefficient machineries, increase production efficiency, raise quality of products, and lower the cost, and thus we can remove the barriers for rationalization of the production, plan to make better products in future, and make up production organization for foreign exports and special demand orders.

Recent average monthly production with present facilities with 700 employees is 32,000,000 Yen; and if we can obtain the machineries applied for, we can increase production of the main products about 5 %.

We would like to make clear the comparison between the actual monthly production (average of the three recent months) and expected one by excuting the new plan after getting reparation machineries by the attached paper (Annex No. 3)

We have a plan to install these applicated machineries at Ube Iron Works as shown in the plan attached to this application.

Akira Tawarada

Akira Tawarada

President
Ube Kosan Co., Ltd.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

ANNEX NO.2A

Purpose

(1) Main products in Ube Iron Works.

Pulverized coal combustion equipment for power plant.

Loading and transporting machineries.

Machineries for cement, ammonium sulphate, and soda industories.

Machineries for coal mines and other mines.

(2) Productive expansion.

For productive expansion of the said articles by powerfull demands of consumers.

(3) Arrangement of organization to meet the order and establishment of productive organization of special demanded commodities.

For arrangement of organization to meet the demands of foreign orders and establishment of organization for production of special demanded commodities which are expected to increase, hereafter, by the new situation of the world.

(4) Purpose in progress of work.

Machineries which are applied, are used to produce the above-mentioned manufactures but main purpose in progress of work, is as next page.

ANNEX NO. 2B

PURPOSE

Inventory No.	Name of Machine	No. of Items	Use
45-3-20 21	boring machine	2	For boring and finishing gear case for crane, coal dressing machine; boring bearing metal for pulverized coal burning equipment; boring bearing for fan; finishing cast iron pipe and frame for crane.
~~45-3-50~~	~~grinder~~	~~1~~	~~For grinding fan rotor, pump impeller, etc.~~
~~45-3-117~~	~~universal horizontal grinder~~	~~1~~	~~For grinding plug gauge, etc.~~
45-3-275	gas heating furnace	1	For heat processing cutting tools.
~~45-3-288~~	~~electric heating furnace~~	~~1~~	~~Same as above.~~
~~07-13(1)-3~~	~~lathe~~	~~1~~	~~For turning shaft and bearing for crane, etc.~~

MANUFACTURING INDUSTRY
E 45-3 Loc. II

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Among the macheneries for power plant we have delivered pulverized coal burning device for power plants in Japan, Korea, and Manchuria since the pre-war days. In the future when increase of demand for electric power is expected we are planning to increase production of these machineries and increase of machine tools and heat processing equipments is necessary. When necessity for these machineries and equipments occurs, but the same kind of these equipments cannot be bought in the market and if they are difficult to obtain we plan to move to place where they have them, repair the borrowed equipments and use them.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

45-3
Sec. II

9 Feb. 1950

Subject : Recommendation for Authorized use of Reparation Facilities

To : Director, Hiroshima Finance Bureau

From : Chief, Yamaguchi Branch, Hiroshima Finance Bureau

Sir :

Application for authorized use of reparation facilities was presented to this office by the Bocho Kosan Co, Ltd.

Our investigation of the need of this facilities by the applicant revealed the advisability of permitting it from the standpoint of the advantage to not only the fishing boats repairing itself but also to the economic recovery effort of the counting.

It is therefore recommended that favorable consideration be given.

K. Onaga

Kintaro, Onaga
Chief, Yamaguchi Branch,
Hiroshima Finance Bureau

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPLICATION FOR AUTHORIZED USE (OR MOVE) OF THE REPARATION EQUIPMENTS

To : Minister of Finance
From : The Bocho Kosan Co, Ltd., No. 28, Sentoshoji, Yamaguchi-Shi.
Date : Feb. 8, 1950

1. Name of plant

The Kure Naval Arsenal Ube Branch.

2. Location of plant

Shogetsubori, Higashi-Ku, Ube-Shi.

3. Name of products planned

Fishing boats repairing.

4. Experience of the production planned

Our company has a considerable experiences in the field of the industry concerning to the internal combusion engine repairing and of iron works ever since the establishment of the firm and now we intend to extend the business and do the above-mentioned works.

5. 1939-1949 production

None.

6. Period of desired permission

From the period of permission granted to the day of reparation (or its release).

7. Scale of the production planned by month for period on this application.

Our Company's Sanin-Branch is now on the way of its establishment, but when it is completed the maximum capacity of the repairing is expected to amount to about 100 Ton by month. And we are going to start the business in August.

The materials needed are steel, friction-minimize-compounds-metal, carbite, mobiloil, coal and etc. amount to about 400,000 Yen.

We are able to manage the fund to procure the above-mentioned materials. The necessary fund 3500,000 Yen for the equipments of the plant is already contracted with our bank to be credited.

The members of personnel employed are estimated to be about 40 who are experienced.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

8. Name of location to which products are to be delivered.

Fishing villages in Yamaguchi Prefecture all over the coast of the Japan Sea.

9. Scale of proposed change in physical facilities.

The machines we desire to change are shown on the attached list. At present situations, the production of these machines are stoped, and also it is scarecely possible to procure them.

10. Intended expense for authorized use.

The expenses for the removal of the machines to be fixed to the authorized use and the other tools and machines lacked which must be supplied are estimated as follows:-

Materials needed.....about 70.000 Yen

Expenses for labour.....about 10.000 Yen

11. Plan of location to continue the production after reparation removal.

If the removal of the machines needed for the production were decided while our works are going, we shall do our best and hope to continue the business by the supplimentation of the substitutes.

Signed M. Kawagoe

Mugio, Kawagoe
President,
Bocho Kosan Co, Ltd.

9 Feb. 1950

Subject : Application for Authorized use of Reparation Facilities

To : Director, Hiroshima Finance Bureau

From : Chief, Yamaguchi Branch, Hiroshima Finance Bureau

Sir :

Application for authorized use of reparation facilities was presented to this office by the Matsuhama Coal Mine. Facilities relative to this application were given temporally use to the applicant by the former Civil Affairs Team of Yamaguchi on 20 December 1947 and are still being used by the Matsuhama Coal Mine.

Our investigation of the need of this facilities by the applicant revealed the advisability of permitting it to continue their utilization from the standpoint of the advantage to not only the coal mine itself but also to the economic recovery effort of the counting.

Itis therefore recommended that favorable concidaration be given.

K. Onaga

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPLICATION FOR AUTHORIZED USE AND MOVEMENT OF REPARATIONS EQUIPMENT

To: Minister of Finance
From: Suematsu Tanaka, President, Matsuhama Coal Mine,
Asahi-cho, Nishi-ku, Ube City

1. Name and code number of ex-military arsenal:
   Name: Ex-Kure Naval Arsenal
   Code Number: (45 - 3)
2. Location:
   Shogetsubori, Higashi-ku, Ube City
3. Name of product planned:
   Coal
4. Past experience of production planned:
   Three years
5. Total output from 1947 through 1949:
   89,984 tons (Our colliery was established in 1947 and produced 3,154 tons in 1947, 33,967 tons in 1948 and 52,864 tons in 1949)
6. Period of desired permission:
   From date of authorization until final disposition of equipment is ordered by SCAP
7. Scale of the production planned by month for the period of authorization of this application:
   (A) Planned monthly production from January through June, 1950:-
   January-4,300 tons, February-4,300 tons, March-4,300 tons, April-4,500 tons, May-4,500 tons, June-4,500 tons
   (B) Number of employees:-
   A total of 340 workers is employed today, of which, four or five will be diverted to man the machines under application.
   (C) Funds:
   Our present monthly operational expenditures total about ₩7,000,000. It is estimated that the initial cost of operating each machine will amount to about ₩40,000, and each will require between ₩500 to ₩1,000 per month for repair purposes.
8. Names and locations to which product is to be delivered:

Plant Name	Location
(1) Ube Nitrogen Works	Ube City
(2) Ube Power Plant of Nippon Hassoden K.K.	Ube City
(3) Ube Coal Sales K.K.	Kyoto City

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

9. Scale of proposed change in physical facilities
(A)

Inventory Number	Name of Machine	Brief Specifications	Number of Machines	Remarks
45-3-82	Lathe	6 feet	1	/
45-3-144	"	8 "	1	/
45-3-145	"	8 "	1	/
45-3-150	"	8 "	1	/
45-3-92	Drill	16 inches	1	/
45-3-194	"	27 "	1	/
45-3-134	Shaper	16 "	1	/
		Total	7	

(B) The use of these machines will enable this colliery to undertake the repair of its mining machinery and equipment, and thereby boost its efficiency and coal output.

(C) Our plan is to move the above listed machines from their present location to our colliery and install them after making partial repairs.

10. Cost of installing authorized-use machines:

(A) Necessary materials per machine

Parts (gears, etc.)- ₱20,000 to ₱30,000

Portland cement- 1 ton, costing ₱4,450

Total cost per machine- Between ₱25,000 to ₱35,000

(B) Required labor to install machines

12 workers @ ₱300- ₱3,600 per machine

11. Plan and location to continue production after reparations removal:

Either purchase new machines or obtain loan of required machines from other plants, and undertake production at present colliery location.

S. Tanaka, President,

Matsuhama Coal Mine

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Application for Authorized Use and Move of
the Reparations Equipment

Ube-shi,
Yamaguchi Pref.
8 February 1950

TO: IKEDA Isato, Minister of Finance

FROM: FURUTANI Hiromi, Representative of the Ube Shinko Kogyo Corp. 5 chome, Kaigan-dori, Higashi-ku, Ube-shi, Yamaguchi-ken.

1. Name of Plant & Code No: Former Kure Navy Arsenal Ube Plant (45 - 3)

2. Location of Plant: Shogetsubori, Ube-shi, Yamaguchi-ken

3. Name of Products Planned: Rolled steel and manufacture of Coal Mine machinery. (crushers, cranes, pumps, washer, coal carriers etc.)

4. Experience of the Production planned: We established two plant for manufacturing of rolled steel and coal mine machinery under the urgent need of increased production of steel and coal after the war. The chief engineer was Harada Konoshin, an experienced plant manager of the Sanyo Kagaku. At the start of production, however, we could not attain as much production as had been expected, due to our insufficient experience on this line and rupture of machinery, in spite of our utmost effort. But since the latter part of 1948 we were on track and the production has generally increased as we had expected.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. 1939 - 1949 Production: 1947 ---------- 196 tons

1948 ---------- 624 "

1949 ---------- 995 "

Machinery

1947 ---------- ¥3,600,000

1948 ---------- ¥7,300,000

1949 ---------- ¥9,600,000

6. Period of desired permission: From the date of permission to the date of cancellation of reparations.

7. Scale of the production planned by month for period on this application:

Rolled steel ------ 130 tons

Machinery --------- ¥1,500,000

8. Name and location to which products are to be delivered:

Rolled steel ---- to --- Ataka Sangyo Company (Kyushu), coal mines, and builders in this prefecture.

Machinery ------- to --- The coal mines near by.

9. Scale of proposed change in physical facilities: Some minor repairings necessary.

10. Intended expense for authorized use:

A. Necessary materials: ¥80,000 for steel, cement, timber,

B. ¥50,000 for 100 laborers

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

11. Plan and location to continue the production after reparation removal:	Enlargement of plant and installation of machinery are planned to continue the production, though the reparation removal being made.

TO : COMMANDING OFFICER
YAMAGUCHI MILITARY GOVERNMENT TEAM

Sir:

We have received the application as attached sheets. These machines had been granted to use by Major Justice Yamaguchi Military Government Team, on 1st July 1946, for rehabilitation of Japanese industry, but that holder, Ube Tanko Kumiai, have changed their plan of manufacture, therefore, the said machines have not been necessary for that company.

We hereby recommended these machines should be canceled to use and taken under the reparation custody in Ube Branch of former Kure Naval Arsenal.

(I) The reason of applying for loan of machines.

By an anxious intentions of whole coal-master situated in this district, we decided to construct "The Ube Motor-lorry Repairing Workshop." for the purpose of repairing motor-lorry belong to coal mines of the Ube district in order to increase the production of coals that is most desirous fact in these time.

Thus we shall be able to resolve the hard question on the transportation of coals as the result of the increase of motor-car's operating percentage.

But in order to realize this desirous plan, we must have an excellent equipment and technique.

By the reason above mentioned, we want to borrow the machines of what designated as an object of indemnity.

Now, the motor-car belong to the coal mineral industry numbers 305, and then we shall find 220 motor-lorry in them. And if we open the workshop in this district with excellent technique and equipment, we small be able to increase the operating percentage to 30% more than nows.

Now we shall mention as follows:

a). Increasing amount of transport capacity.

Now, the motor-lorry belong to the coal mines are 200 in number, and 130 of them operating for the transportation of coals directly. But owing to some troubles of or engine or lack of types, about 60 motor-cars are transporting the coal in reality. So that, by borrowing the following mentioned machines we shall be able to increase about the 30% of working percentage of motor-lorry (about 40 motor-lorry in number). For the result of it, we shall be able to increase 30,000 tonage of transport ation capacity of coals at one month by counting the transporting capacity of motor-cars at 25 tonage at one day.

Operating condition of motor cars.

b). Increasing amount of coal production.

Now, the motor-lorry belong to the coal mines. are 220 in number and 90'of them are operating for the transportation of pit-timbers and important materials ntilized for coal mineral industry. But owing to some trouble of engine and lack of tyres, about 40 motor-cars are poerating in reclity. So that, by borrowing to the following mentioned machines, we shall be able to increase about 30% of working percentage of motor-cars (about 27 in number). For the result of it, we shall be able to increase 20,000 tonages of transportation capacity of pit-timber and other important materials at one months, by counting to transportations capacity of one motor-lorry at 25tonnage. And then, we shall be able to get the increasing production of coal about 37,500 tonage, at one month which is proper to 15% of present production capacity of 230,000 tonage.

	Number for belong to pit-timbers and impert-ant meteuals	Operating Number of motor-cars at one day	Transporting quaulity of pit-timbers at one month	Production capacity of coals at one month	Percent-age of coal product-ion

3 Office Branch
Kure
Naval Arsenal

Ube, December 17th 1947.

To the Commander of
Yamaguchi Military Government Term,
Head-quarters, Yamaguchi.

Sir,

45-3
II

Re. Ask for grant the use of Scap's godown, at Ube, temporarily.

I). Godown and it's Location: A empty godown, in the compound of Ube Branch office of Hiroshima Financial Bureau (Ex, Kure Naval Arsenal's Ube Branch) at Hinokuchi, Higashiku, Ube City.

2). Purpose: On account of storage of 1947 cereals year's rice.

3). Term: During the period-
from Dec. 17th 1947.
to ~~Jan. 31st 1948.~~
Mar. 31 1948.

Reason: We are very pleased to inform you that owing to enthusiastic encouragement by the Government and other all Authorities, concerned, and also the farmers' well understanding on National policy, at present, as well as their fraternity, a satisfacry result is being given on their daily supply of new creals year's rice, here.

Our warehouses, however, were all burnt down by air raids leaving a present godown which is too narrow and it was already full up with strorid rice, on the end of ultimo.

Since then, we asked for one of warehouses belonging the Food Stuffs Co-oporation, here, but that is also nearly became full and a little space being left.

While Scap's Order is issued recently that all cereals calleated in legal channel are strictly prohibited to retain them at the producing districts but should be

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

carried and stored at the area of consumption, but we are sorry that there is no suitable wanhouse here any more for storing rice safely.

If in case this state is continuedlonger, we are afraid that may be disturbed farmers present eagerness for supplying rice.

I, therefore, respectfully beg to ask you for your special consideration about our present straitened conditions and if you would grant the use of the heading godown, temporarily as for our rice storage, we are great appreciated

Hoping you would be'able to accept of our heartily request and much obliged.

I am,

Sir,

Yours Obediently.

Subject: Application for the permission on the temporary usage of the machines in the reperation plant.

Sir,

This coal mine, in order to remedy the now-a-days' urgent coal situation, was started up the business from December, 1946. Since then we have made strenuous efforto to produce the coal of good quality which is under the earthof the war-damaged places in Ube City. As the result we were able to produce ~~1,000 tons~~ 450 tons coal in October, and we shall be able to produce 1,000 tons in November. For these results we have had the feeling of secure a little, So we are planing to more than expansion of this business, expecting achievement of the goal of 5,000 tons coal in a month.

The matter which we are making most effort in this coal mine at present is that, owing to the gush out of much warter at the inside of the mine, we need the equipments of the pumping and draining machines as annexed paper (1) and in the case of their accedents we must repaire them quickly. Besides the repaires of the appurtenances of the winches, funs and blowers, compressors, machines for saw-mill, and the pepaire of coal- trucks, are increasing up day by day. So we must send most ~~pay high expenditure~~ of them to repaire to the other works in this city and must pay high expenditure to fix them, further more there is the shortage of electric current. Due to there reasons there are many cases which are no service to the emergency. So we are feeling a great deal in convenience trury. In order to open the above mentioned bottlencks and to preserve the output of the coal, we are necessary to complete the equipments which we can repaire in our coal mines, If we can have the temporary ~~location~~ loan of machines as annexed paper (1) and after that we can get the permission on usage of them, we shall be able to promote the increasing production of 5,000 tons coal as annexed paper (2) and to achieve our mission of this coal mine. So we are on the tiptoe of expectation to have your ravourable permission for this application after to special inguiry.

SUBJECT: Request for Temporary Borrowing of Machinery

Sir:-

We have been presented the request by Ube Coal Mine, Fujimagari, Ube-shi, for the temporary borrowing of the machinery as shown in the attached paper. The machinery is necessary to increase the coal production.

We hereby beg to ask for your permission for that the machinery be borrowed temporarily to the union.

Yours respectfully,

Tatsuo Tanaka

YAMAGUCHI CITY.

SUBJECT. REQEST FOR LEND OF THE MACHINES ATTACHED TO THE UBE BRANCH OF THE EX-~~HIKARI~~ KURE NAVAL ARSENAL.

DEAR SIR.

OUR COAL MINE COMPANY GUILD WAS PERMITTED TO ESTABLISH THE STEEL-ROLLING AND COAL MINE'S MACHINE FACTORY ON THE 25TH SEP 1946, ENTERPRISING TO MANUFACTURE SMALL-SIZED STEEL-MATERIALS AND SECONDARY PRODUCTS (FOR EXAMPLE, SPIKE, BOLT, WIRE, NAIL ETC) AT THE FORMER, VARIOUS MACHINES FOR COAL MINE AT THE LATER. THE FACTORY BEGAN TO WORK IN A PART OF IT'S MANUFACTURING COURSE, AND NOW STRAIN TO REPLY FOR THE DEMAND OF COAL MINES OF THIS DISTRICT. BUT SOME OF NECESSARY MACHINES ARE NOT YET FILLED, SO WE FEEL ANXIOUS NOT TO SATISFY QUICKLY DEMAND OF COAL MINE. AS YOU KNOW, INCREASE OF COAL IS A MOST URGENCY OF THE PRODUCTIVE WORLD AT THE PRESENT, SO WE REQUEST TO YOU FOR PERMISSION TO LEND THE MACHINES ATTACHED TO THE UBE BRANCH OF THE EX-~~HIKARI~~ KURE NAVAL ARSENAL ACCORDING TO THE ANNEXED,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

AND TO ARRANGE MACHINE'S EQUIPMENT QUICKLY AS SOON AS POSSIBLE AND PUSH ON OUR WORKS.

WE EARNESTLY HOPE THAT OUR REQUEST WILL BE GRANTED WITH YOUR FAVOURABLE CONSIDERATION.

YOUR'S RESPECTFULLY
RESPONSIBLE PERSON OF THE FACTORY
KONOSHIN, HARADA.

TO : Commanding Officer,
YAMAGUCHI MILITARY GOVERNMENT TEAM

SUBJECT : Report on the Damages of Registered Machines.

Sir:

We hereby submit the subject report.

Due to the strong winds which blew on the night of Nov. 29, 1946, the new shop of the TAMAZAKI Iron Works located at Ezaki-cho, Abu-gun, Yamaguchi Prefecture which was considerably strained, collapsed at about 6:00 A.M. on Nov. 30, 1946. By this, not only the machines owned by the company but also, the machines as indicated on the annexed sheet which were formerly attached to the Former Ube Branch of the Kure Naval Arsenal and at present in the custody of the said company were damaged.

Chief

Yamaguchi, Japan
10 August 1946

SUBJECT: Temporary Use of Reparations Property

TO : Commanding General, Eighth Army, APO 343

THROUGH: Commanding Officer, Chugoku Military Government Region, APO 317, Kure, Honshu

1. Application concerns Kure Naval Arsenal located in Ube City, Yamaguchi Ken.

2. In the past month the 5 NZ Engineer Company has been receiving from Eighth Army housing material and building supplies in large quantities to be used for the dependant housing program. Inspection of the town by a representative of this headquarters, the BCOF Liaison Officer, and an officer from the 5 NZ Engineer Company revealed no building in the vicinity suitable to house such quantities of material.

3. In order to unload the railway box cars, it is proposed to use the building outlined in red pencil and the areas marked with a red X. The reparations machinery is now being stored in buildings designated on attached map.

4. If permission is granted by your headquarters, it is planned to use subject mentioned area as stores facilities for the 5 NZ Engineer Company.

5. It is strongly recommended by this headquarters that, as a temporary emergency expediant, permission be granted to use the space as described above.

1 Incl
Annex Re: Permission to build Church

1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Subject: Re Permission to build Church on former Japanese Naval Property at Ube town, Yamaguchi Prefecture.

To Headquaters 62nd Counter Intelligence Corps, Yamaguchi shi, Yamaguchi ken.

I. History of proposal.

The Catholic Mission at Ube, although started some 8 years ago, did not make much progress until the end of the war, mostly on account of the rising tide of nationalism. With this situation completely changed after the war and because of the great prospects for missionary work in a large industrial town as Ube, plans were set up in October 1945 for the construction of a suitable church in the place of the present temporary chapel. When it was found that the present site would be too small for a suffiently large building, a proposal was made to turn the present site together with the buildings thereon over to a religious congregation in order to be used for some charity or social work, and apply for a new site to be obtained from the near-by former Naval Factory grounds.

The proposal met with the hearty approval of the Military Governor at Yamaguchi, Lt. Sadler, who directed me to the Prefectural Authorities of Yamaguchi ken in order to file a formal application with the Japanese Finance Ministry, to which the grounds had been turned back. After further approval by the Ube city authorities, the formal application was sent in December 1945. After an informal approval by the Tôkyô Finance Ministry early in January 1946, a verbal, yet formal approval was obtained from ~~obtained from~~ the local prefectural as well as Finance Ministry authorities at Yamaguchi late in January 1946.

The building site having been thus determined, materials were acquired and stored on the future building site with a view of starting building as soon as possible.

But then an altogether new situation arose, when the former Naval Factory at Ube was designated as property set aside for reparation purposes. On enquiry with the Japanese Police authorities it was learned that the former arrangements had been cancelled or at least temporarily suspended by this order, and if we wanted to proceed with our building plans we would have to send in a formal application through the C.I.C. authorities at Yamaguchi.

II. Contents of Proposal.

Object of petition: A building site for a church with the necessary annexes and grounds.

Size of site required: front opening 35 ken (cc. 70 yards), depth 30 ken (cc. 60 yards).

Location: The lot nearest to the present entrance, after cutting off parts to be used for the construction of public roads.

III. Reasons for the proposal.

1. Missionary work in a big industrial town like Ube has bright prospects for future development and demands a church suited for a congregation of about 1000.

2. The present site of the Catholic Church at Ube being too small for such a purpose could properly be used for the establishment of some charity work, so much in demand in a town like Ube and so heartily welcomed by everyone concerned.

3. The new site asked for would be most suitable, as it is near to the present site, resp. the site of the future charity work, and as there are no buildings on it that would have to be removed or destroyed, nor would it impede in any way the use of the remaining factory grounds and buildings.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The undersigned, as missionary of the Ube Catholic Church, humbly asks permission to build a church and all the other necessary buildings on the afore-said site, and if possible that property rights be given to the holder of all church property in this district, i.e. The Nippon Hiroshima Kyôku Tenshu Kôkyô Senkyôshi Shadan ("The Corporation of Missionaries of the Hiroshima Diocese in Japan"). The head of this Corporation is at present Rev. Akira Ogihara, the apostolic administrator of this diocese, whose headquaters are at: Hiroshima ken, Hiroshima town, Noborichô, Catholic Church.
