DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

(2) Added machines

Application presented previously have contained only the machines which are planned to use for manufacturing general goods. So the machines which are stocked in the warhouse and unused in the damaged conditions by attack are to be added.

(3) Materials on hand

(a) Materials for military use are very little by following reasons.

(1) In the case of army, orderes were to finish goods by using delivered materials and in fact, generally materials were too late to arrive and therefore we were used to finish by using our own materials in hand. At present there are no materials delivered and we are claiming for our own sacrificed materials.

(2) In the case of navy since several months before the end of the war we were ordered to change the kinds of goods from explosive mine to mine and

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

have used up the materials for the explosive mine by supplying completely and have not received the next materials for the mine when the war ended.

(b) Addition of materials on hand for general use.

added materials are found by the second investigation.

(4) Necessary materials

"Coal 360 Tons/month" is mistake and are to be corrected to "36 T/month".

1. Under paragraph 2, capital listed as ¥750,000. In 1940 the capital of this company was ¥500,000, in 1943 it was raised to ¥1,000,000, and in August 1945 the capital was reduced to ¥750,000, and also is the capital at the present time.

2. This is a private ownership. No stock outstanding, and no stockholders. Mr. Kotaro Takagi is the capital owner and no complete records were kept on the change of capital. This is an old company having started October 30, 1897.

3. The plant is now operating about 25% of production on parts of bicycles, sproket wheels, and cranks. The listed machinery listed was found to be incorrect. Additional list is, herewith, submitted. This additional machinery listed was discovered upon inspection.

4. Under paragraph 7 material on hand, this inventory is incorrect and a new inventory is, herewith, submitted. The error was, also, discovered upon inspection.

5. During the war this company manufactured some sproket wheels and cranks for bicycles, and also parts for bombs and mines. They now wish to convert to manufacturing, also, wheels, cranks, and pedals for bicycles, and recommend that approval be granted.
