REMARKS: The reason for the decrease (356) is that the following cases were included in this month's report. These cases will be coming up within the following months.

Land was handed over to the Central Government as a means of payment of taxes in kind. According to the announcement of the Home Ministry at the end of July, "All land applied for possession before the 15th June can be handed over to the central government as a means of tax." All such lands were included in the figures of the previous reports.

NARRATIVE REPORT ON PROGRESS

Agrarian Land Reform

1. During the month under review, June 1947, this team actively followed up the details in connection with the land reform program, and consequently an entire new set of figures were prepared for the month of May. The figures for the month of June and the six months period are, in our estimation, correct.

2. The revised figures for the five months period ending 31 May 1947 are as follows:

(In Cho)	Paddy Land	Upland
Area Available for Transfer	26,444	5405.6
Total Area Purchased - May	461.6	95.0
Total Area Purchased - 5 months	1582.4	269.8
Average Price Paid	¥ 810.	¥ 418.

3. The work of the various local commissions is progressing quite smoothly with only minor complaints which are being handled locally. For the month of June it is reported that 5,752.4 cho of paddy land and 1,004.5 cho of upland were purchased making total of 7,333.6 cho and 1,274.3 cho respectively. These figures exclude four (4) towns in Chikushi and two (2) towns in Sawara Gun which have not yet reported and are under investigation.

4. When questioned as to purchases of land in May and June, since purchase dates are set as of 31 March, 2 July, 2 October and 2 December, it was explained these figures represented commitments and not actual purchases. These commitments are tantamount to purchase and therefore represents a current picture which we believe is a lot better than waiting until actual purchase date arrives.

5. There has been some talk of landlord taking cases to local courts for decisions rather than accepting the decisions of the land commissions. These are being investigated.

mel 1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: FMGT, file no. 430.2 subj: "Narrative Report on Progress, Agrarian Land Reform", dtd 14 July 47.

It is also reported that in other prefectures the local land reform officials are having trouble getting publicity from the local newspapers. This does not appear to be the fact in this prefecture as no complaints have been received of that nature to date. Articles are written weekly and published in all of the local papers by this team and no objections have been raised by any of the papers. In fact, reporters usually accompany the team commander on his trips to the various commissions.

6. During the past month two (2) guns were visited and talks were made to the commissions, landlords and farmers with excellent results and promised cooperation. No reports of dissention amongst the members of the commissions were reported; the usual number of different types of persons were represented on each commission, one ten men commission consisted of 3 landlords, 2 owner cultivators and 5 tenants, and one 16 men commission was made up of 4 landlords, 4 owner cultivators and 8 tenants. All cases brought before these commissions had been settled excepting one where an owner of some land (2.4 tan) was formerly employed by the Yahata Steel Works, later drafted into the army and now a returned unemployed soldier, who would like to have this land for his own use. One year ago the landlord had agreed to take over this land from the tenant, but now the tenant refuses to vacate. The tenant has been on this land for ten years. The commission has not yet decided in this case, but is leaning toward the tenant.

7. Another case which was mentioned, but actually belonged to another commission was where an old man, who had an owner cultivator, died and his widow was unable to carry on. She rented the land to some Koreans. She has since adopted a young man as her son and wishes to have the land back so that this son can cultivate it. The Koreans refuse to give up the land, and the widow has no other source of income.

8. On the whole, the commissions are working earnestly and turning out sound judgment, conforming to the present law. During the month of July, plans have been made to visit Tagawa and Miyako guns during one week and Mizuma and Yame-guns the following week. The usual newspaper publicity will be continued.

1. In compliance with paragraph 5b (2), Operational Directive No. 10, Headquarters Eighth Army, subject: "Land Reform", dated 18 January 1947, the following narrative report for June 1947 is hereby rendered:

a. The Local Agricultural Land Commissions of Obama-machi and Nagaura-mura were visited in order to observe the manner in which the Land Reform Program is being carried out.

OBAMA-MACHI

The Obama Agricultural Land Commission was visited at the Town Office of Obama with representatives from both t his headquarters and from the Agrarian Land Section of the Prefectural Government. Discussions were conducted in order to determine their composition, the attitude of the individual members, their familiarity with the Agrarian Land Reform Law, and other items pertaining to the Land Reform Program.

Approximately 350 farmers attended the meeting. After an opening remark by the representative of the prefectural government on the importance of Land Reform, a discussion was held on problems confronting this land commission. The discussion was carried out actively and indicated that the farmers of this area are interested in the land reform program. The only complaint registered, was the inadequacy of funds that is appropriated to the commission.
