New Orleans, Jackson and Great Northern Railroad.

DURING the continuance of the Bonnet Carre Crevasse, passengers will be transported between New Orleans and Manchac Station (twenty-seven miles from New Orleans) by the courtesy of the Carrollton Railroad to the Lake, thence by safe and commodious steamboats to Manchac Bridge, beyond which there is no interruption—passengers will leave New Orleans from the Carrollton Railroad Depot (Tivoli Circle) at 6 o'clock in the morning, and at 20 minutes past six in the afternoon, returning to New Orleans, will arrive at the Depot, at Tivoli Circle, at 8 o'clock in the morning and the same hour in the evening.

The trains for Kenner will leave the depot at the foot of Calliope street at 5 A. M. and 5 P. M. Returning, will leave Kenner at 7 A. M. and 7 P. M. Fare for the station will be received at the Depot—Passenger depot from 3 P. M. until 5 P. M. Fare, 50c. each way.

Freight for Manchac and stations above will be received at the warehouse on the south bank of the New Canal, between Liberty and Howard streets, until 5 o'clock, P. M.

Freight will be received unless consigned to parties residing at the established stations on the line of road or its connections.

It will be seen by the foregoing that passengers and freight will be transported without interruption, and that connections with other roads will be made regularly as heretofore.

Fare from New Orleans to	1st Class	2d Class	Fare from New Orleans to	1st Class	2d Class
Kenner	40c		Bahala	6 00	4 15
Manchac	50		Hazelhurst	6 50	4 65
Jackson	2 00	1 40	Crystal Springs	6 50	4 65
Terry	2 50	1 75	Bye	6 50	4 65
Clinton	3 00	2 10	Byram	6 50	4 65

DENTIFRICE WATER OF Dr. HENOQUE

PHYSICIAN OF THE FACULTY OF PARIS, SURGEON DENTIST, CHEVALIER OF THE LEGION OF HONOR.
Author of several Treatises of Dental Medicine, (Gold Medal awarded, Paris, 1855.)

Dr. HENOQUE has proved by a long practice that the best of tooth and dentrify of the gums are either the most simple and cheap. These dentifrices, offered by quacks, are more injurious than useful. Dr. HENOQUE, after a very protracted study, has succeeded in producing a dentifrice containing neither acid nor alkali, which, while it preserves the teeth, does not injure the enamel, and with this only of sound dentists, who, after having tried it, have recommended it to their patients. The use of which hence has become general, and consequently superseded the use of all other dentifrices.

NOTICE—Dr. HENOQUE'S POWDER and WATER are sold exclusively.

PARIS, at Dr. HENOQUE'S, Surgeon Dentist, No. 26 St. Honoré Street. SPECIAL ROOM, No. 41 Vivienne street.

N. B. Every tooth has a brush, powder and water, and many also have the tooth powder, which is in Europe, New York, by Dr. Hamilton; Gouraud, druggist; Fougera Bourgeois and Lenoir, pharmacists. MEXICO, by E. Mallarme Sorrento, druggist, and by the principal perfumers and druggists.

AYER'S AGUE CURE,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, caused by the malaria of miasmatic countries.

No one remedy is louder called for by the numerous ailments of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with perfect certainty that it will arrest the disease, and with assurance, founded on proof, that no harm can arise from its use in any country.

That which prevents from or prevents this disease must be of immense service to the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of the baleful distemper. This "Ague" expels the miasmatic poison of Fever and Ague from the system and thus prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever AND AGUE prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its production, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Colic, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Ague" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the miasmatic districts. If taken occasionally or daily while exposed to the infection, that will be secured from the fever, because it cannot accumulate in such less quantity to repose into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compounded that diseases within the range of their action are rarely withstood by any trade blood. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting in disease action, and restoring to healthy vitality. As a consequence of these properties, the diseases they are adapted to cure are many, and prominent among them are those with, pain or painful debility is attendant to the loss of health or energy restored by a remedy so easy to simple and so virtue.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases which have baffled medical skill. They are so much superior to all other cathartics that they are recommended by physicians, and are in extensive use in their practice, and are sent by them for their patients, wherever they can be obtained. Their sugar coating makes them pleasant to take, and they are free from injury to the most delicate constitution.
