THE SECRETARY OF THE NAVY

WASHINGTON

SPECIAL WAR PROBLEMS DIVISION

Instruction to London
File
DEPARTMENT OF STATE

The Honorable
The Secretary of State

My dear Mr. Secretary:

Receipt is acknowledged of your letter dated 30 May 1945, file SWP 711.94114/3-945, requesting additional details as to instructions promulgated by the Navy concerning the collection and disposition of personal effects of Japanese soldiers or sailors wounded or killed. This information is desired by the State Department for transmission to the Embassy at London and Subcommittee A of the Imperial Prisoners of War Committee.

It is agreed that the United States Government is morally obligated to observe as far as feasible in naval warfare the provisions embodied in the Geneva Red Cross Convention of 1929.

The Navy Department has issued no specific instructions as to the disposition of personal effects taken from Japanese soldiers and sailors killed in action. This matter has always been governed by War Department Graves Registration Technical Manual, TM10-630, and War Department Basic Field Manual, Rules of Land Warfare, FM27-10, and orders issued to combat commanders prescribing standard intelligence procedure. Necessary detailed instructions are issued by the combat zone commanders.

Excerpts from a recent letter issued by the Commander in Chief, U. S. Pacific Fleet and Pacific Ocean Areas to the Pacific Fleet and Naval Shore Activities, Pacific Ocean Areas on the subject "Disposition of Personal Effects of Enemy Dead" are quoted herewith.

> "Leadership of the United States among civilized nations requires a strongly humanitarian attitude toward enemy dead upon the field of battle.
>
> "When time and conditions permit, personal effects of enemy dead shall be accorded the same consideration given to those of United States and Allied dead as outlined in War Department Graves Registration Technical Manual, TM 10-630 and War Department Basic Field Manual, Rules of Land Warfare, FM 27-10.

All personal effects of enemy dead secured by the Navy, Marine Corps and Coast Guard in the Pacific Ocean Areas shall be sent to ----------. "The commanding officer of any unit securing these personal effects shall forward them in accordance with a special report form, a copy of which is enclosed.

It is noted that no authorization is specified for the retention of personal effects as souvenirs.

ATTENTION: Mr. E. Tomlin Bailey

Dear Sir:

Reference is made to SWP letter dated 2 July 1945 from the Acting Secretary of State to the Secretary of War in which information was requested concerning the number of Japanese prisoners and prisoner of war camps outside of the continental United States.

The records of the Enemy Prisoner of War Information Bureau disclose that as of 11 July 1945 there were 8,664 Japanese prisoners of war detained outside of the continental limits of the United States. This group consists of 126 officers and 8,538 enlisted men. They are located in prisoner of war camps in Hawaii, Saipan, Leyte, Luzon, and Mindanao. The theater commander has not furnished the Information Bureau with the specific number of camps or the specific prisoner population of each camp.

Within the United States there are at present 4,119 Japanese prisoners of war of which 104 are officers; 537, noncommissioned officers; and 3,478, enlisted men. These prisoners are located at Angel Island, California; Clarinda, Iowa; and Camp McCoy, Wisconsin.

If detailed information concerning the specific population of each camp is required, inquiry will be made of the theater commander.

Sincerely yours,

B. M. Bryan,

My dear General Bryan:

I have received your letter of July 12, 1945, which informed the Special War Problems Division that 8,664 Japanese prisoners of war were, as of July 11, 1945, detained in American custody outside the continental United States. You further state that if detailed information is required concerning the number of such camps and the prisoner population of each camp, inquiry will be made of the theater commander.

With the assumption by the Swiss Government of the representation of Japanese interests on July 23, 1945, it is most likely that this Department will be in need of detailed information regarding prisoner of war camps outside the United States. I should therefore appreciate it if steps might be taken to obtain a complete list of camps outside the continental United States, indicating their geographic location and their prisoner complement. It would be further appreciated if the Prisoner of War Information Bureau might furnish periodically to the Special War Problems Division lists of these camps and their respective prisoner personnel comparable to the lists now compiled by the Office of the Provost Marshal General concerning enemy prisoners of war in American custody within the continental United States.

Sincerely yours,

E. Tomlin Bailey

My dear Mr. Secretary:

The War Department is establishing a program of reorientation for Japanese prisoners of war along the lines of the present program now in effect for German prisoners of war. In the formulation of the program the War Department has had the advantage of advice and information from members of your Department and of the Office of War Information.

I wish to express my appreciation for the valuable aid already given to the War Department in connection with this program and to express the desire that the liaison already established will be continued in the extension and future activities of this program.

My dear Mr. Secretary:

I have received your letter dated July 18, 1945, in which you express appreciation for the advice and information given by members of the Department of State in connection with the establishment of a program for the reorientation of Japanese prisoners of war.

The Department believes such an undertaking to be one of importance and significance and you may be assured that its appropriate officers will continue to cooperate in every feasible way. In my opinion such informal association and consultation has proved of decided mutual advantage in the reorientation program for German prisoners of war.

Mr. Grew telephoned that he had received a call from Senator Austin whose constituents have become active in demanding the exchange of General Wainwright and other high officers for the group of Japanese officials captured in Europe. Mr. Grew said that he had told Senator Austin that the Department had been active in trying to prevail upon the Japanese to agree to the exchanges of prisoners of war for years but that so far the Japanese had not agreed. Mr. Grew wants a letter drafted to Senator Austin for Mr. Grew's signature setting forth what has been done in this respect and in so far as it can be said, what we are endeavoring to do now. This letter should be on Mr. Grew's desk by Monday evening.

CONFIDENTIAL

My dear Senator Austin:

I refer to our telephone conversation on July 21, 1945 concerning the exchange of General Wainwright and other American prisoners of war in Japanese custody.

As I pointed out, the question of the relief and exchange of American prisoners in Japanese hands has been constantly a preoccupation of the Department since the earliest days of the war. The Department has exercised its utmost endeavors to bring about exchanges of American prisoners in Japanese custody for Japanese in American custody, in addition to the two exchanges that have already been carried through. The British have had only one exchange with the Japanese so far. The attitude of the Japanese toward the question of further exchanges has been characterized by utter indifference and they have seized upon every pretext to avoid discussion of our many and various exchange proposals. In spite of this attitude the Department nevertheless is persisting in its efforts to obtain Japanese agreement to further exchanges. For your personal information a new exchange proposal is being formulated to include the group of recently captured Japanese officials which, it is hoped, will help to stimulate Japanese interest in the subject. This proposal is at present, of necessity, being coordinated with our Allies. It is expected that it will be possible to present the proposal to the Japanese at an early date. The success or failure of this new project will depend, of course, on the attitude that the Japanese Government adopts toward it. Without Japanese agreement and cooperation it is of course impossible

Warren R. Austin,
United States Senate.

impossible to repatriate Americans who are held by the Japanese.

The capture of the aforementioned group of high-ranking Japanese officials in Europe, we believe, has definitely strengthened our bargaining position in endeavoring to arrange for further exchanges. These Japanese officials will be used to the fullest extent possible to benefit all Americans in Japanese custody.

With reference to the specific problem of obtaining the release of General Wainwright, the question has been raised whether he would wish to be given preference over his fellow prisoners of war, particularly the sick and the wounded, and many vigorous letters from the public have protested the erroneous newspaper report that he would be asked for by name in an exchange. It is not impossible, however, that he might be included sooner or later in a general exchange for reasons which will be explained below.

Up to now the Department has been inhibited by lack of any ground in law or international custom from endeavoring in exchange negotiations to obtain Japanese agreement to the inclusion of American prisoners of war, other than the sick and wounded and sanitary personnel. However, with the completion of a period of three years of captivity by many American prisoners of war, particularly those who were captured in the Philippine campaign of 1941-42, it is hoped successfully to invoke the principle of Article 72 of the Geneva Convention relating to the repatriation of prisoners of war who have undergone a long period of captivity. If it be possible to obtain Japanese assent to the inclusion of American prisoners of war in such exchange operations as it may be feasible to arrange, it is believed that no American would wish priority allotted prisoners of war except upon medical grounds. Under this plan General Wainwright would of course receive consideration with his fellow prisoners of war in accordance with the broad directives laid down for

the

the selection of American prisoners of war eligible for exchange.

If you have not already seen the Department's summary of the efforts put forth to procure the exchange of Americans in Japanese custody, I should like to invite your attention to the enclosure on this subject.

Sincerely yours,

Joseph C. Grew

SECTION I

DISPOSITION OF ENEMY DEAD

1. GENEVA CONVENTION OF 1929. a. Enemy Dead. Terms of the Geneva Convention of 1929, officially adopted by the United States, bind signatories to the following with regard to enemy dead:

(1) Inform the enemy as soon as possible of names of his dead collected or discovered by our forces, as well as all indications which may serve for their identification.
(2) Draw up and forward death certificates to the enemy.
(3) Collect and send to the enemy all articles of personal use found on the field of battle or on his dead, especially one half of their identity tag.
(4) Make a careful examination, medical if possible, of the bodies of enemy dead prior to interment, in order to verify their death, establish their identity, and furnish a report thereon.

COPY

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NNDG# 760050

(5) Give honorable burial to enemy dead, and see that graves are respected and may always be found in the future.
(6) Upon termination of hostilities, forward to the enemy lists of graves of his dead buried by our forces in cemeteries and elsewhere.

b. Search for Dead. Paragraph 176.a. FM 27-10, Rules of Land Warfare, provides as follows: "After every engagement, the belligerent who remains in possession of the field of battle shall take measures to search for the wounded and the dead and to protect them from robbery and ill treatment".

c. Routing of Information. In compliance with the above paragraphs, and in accordance with provisions of paragraph 12.d. TM 10-630, Graves Registration, all information concerning enemy dead in this theater will be forwarded to the Prisoner of War Information Bureau, Headquarters, USAFFE, APO 501.

2. IDENTIFICATION OF ENEMY DEAD. a. Prior to Burial. Every effort will be made to establish the identity of enemy dead prior to burial. This may often be accomplished through documents, papers, letters, photographs, etc., found on the body.

b. Identification Devices. Since enemy identification devices do not always take the form of duplicate tags, identification devices of whatever character found will be forwarded. Duplicate identification devices, if any, or copies of originals, if practicable, will remain attached to the body. (See paragraph 7 below)

3. DISPOSITION OF ENEMY DEAD. a. Enemy Established Cemeteries. Enemy dead will be given honorable burial in enemy established cemeteries, if available.

b. United States Armed Forces Established Cemeteries. Where practicable, and where enemy established cemeteries are not available, burial will be made in separate sections of United States Armed Forces Cemeteries.

c. Establishment of Enemy Cemeteries. Where no established cemeteries are available, and where practicable, groups of twelve or more graves will be established, marked, and reported as provided for other cemeteries.

d. Isolated Burial. Isolated burial will be avoided wherever possible. Where conditions demand, graves will be marked and reported by grid coordinates on map overlay. Burial at sea will be reported by latitude and longitude.

4. CREMATED REMAINS OF ENEMY DEAD. a. Containers. Japanese frequently dispose of their dead by cremation, placing the ashes in small wooden, cubical containers, approximately three inches on an edge and covered with white silk. Name, rank and unit, date, place

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NNDG# 760050

and cause of death being inscribed thereon in Japanese characters.

b. Report of Discovery. When such containers are found they will be properly safeguarded, made available to authorized intelligence agencies, and report prepared in quintuplicate showing date and place of discovery, number and condition of containers, and identification of remains to include name, rank and unit, date, place and cause of death. Distribution of report will be made as follows:

(1) One copy forwarded with containers as outlined in subparagraph c(2) below.
(2) One copy to Prisoner of War Information Bureau, Headquarters, USAFFE, APO 501.
(3) Two copies to Commanding General, USASOS, APO 707.
(4) One copy retained for file.

c. Disposition of Containers. Containers will be disposed of as follows:

(1) Those containers not in condition for shipment will be buried and reported as prescribed for other enemy dead.
(2) Those containers in good condition will be forwarded by "Official Surface Mail" to Commanding General, USASOS, APO 707, marking thereon "Attention: Quartermaster".
(3) The Commanding General, USASOS, will deliver containers forwarded to him to the most convenient Swiss Consular Agent, securing therefor receipts on both copies of report referred to in subparagraph b(3) above. One copy of such receipt will be forwarded to the Prisoner of War Information Bureau, Headquarters, USAFFE, APO 501, and the other retained.

5. REPORT OF BURIAL. Enemy dead, buried or otherwise disposed of by United States Army Forces, will be reported as prescribed by paragraph 21d, Section IV, TM 10-630. Records of the burial of enemy dead will be as complete as possible. One copy of report of burial will be forwarded direct to the Prisoner of War Information Bureau, Headquarters, USAFFE, APO 501.

6. DESECRATION OF ENEMY DEAD. . Terms of Geneva Convention. Robbery or maltreatment of enemy dead is in direct violation of provisions of the Geneva Red Cross Convention. The customary rules of land warfare under which our armed forces operate are even more broad than the terms of this convention. They prohibit abuses of enemy dead in any manner.

b. Possession or Dispatch as Trophies or Souvenirs. The exhumation, possession, taking, or sending from this theater of skulls, teeth, bones, or any other object which might be represented as part of an enemy body, or the mailing or otherwise dispatching thereof, is prohibited.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NNDG# 760050

c. Report of Violations. Indications of the desecration of enemy dead found in any area, or evidence of desecration intercepted by Unit Censors and Unit Postal Officers, will be promptly reported to immediate commanders.

d. Punishment of Offenders. Disciplinary action will be taken against persons guilty of desecration of enemy dead. Offenders may be sentenced to death or such other punishment as the trial tribunal may direct.

SECTION II

PERSONAL EFFECTS OF ENEMY DEAD

7. COLLECTION OF PERSONAL EFFECTS. a. Search Prior to Burial. Before any burial party from the United States Army buries, or otherwise disposes of enemy dead, bodies will be searched in order to collect personal effects in compliance with provisions of the Geneva Convention, establish identification as set forth in paragraph 2 above, and to secure articles and documents of probable intelligence value.

b. Important Items for Collection. Troops will be instructed concerning type of articles which may be useful in establishing identity of enemy dead and providing intelligence information. The following are especially important:

(1) Written papers of whatever nature, which may include orders, documents, maps, personal letters, diaries, etc.
(2) Pay books, which have a soft, khaki-colored cover.
(3) Post office savings account books, which are pink with red lettering on the cover.
(4) Identification tags, tabs, or discs, which are not standard in the Japanese Army. They may be made of wood or metal and worn around the wrist or neck or carried in the pocket or loin cloth. They may also be made of cloth and sewn on the outside or inside of various articles of clothing.

8. LIST OF PERSONAL EFFECTS. Individual list will be made of all personal effects, documents, and identification devices removed from enemy dead. List will show identity of owner as prescribed for containers in paragraph 10, below. One copy of such list will be placed in the container with effects and a duplicate copy forwarded direct, via air safe hand courier, to the Prisoner of War Information Bureau, Headquarters, USAFFE, APO 501.

9. PACKAGING PERSONAL EFFECTS. Standard bags to be used as containers for personal effects of enemy dead, and tags for identification thereof, will be provided to all organizations and Graves Registration Service by the Commanding General, United States Army Services of Supply. MEMORANDUM FOR THE FILES

The principle communication in the underlying file is in response to a memorandum from the Spanish Embassy which formerly protected Japanese interests in the United States. The Spanish representation of Japanese interests ceased in April of this year and the Swiss Government assumed the protection of those interests a few days ago. In view of the fact however, that (1) The Swiss Government has no courier service between Bern and Tokyo and, (2) Mr. Weingartner of the Swiss Legation in Washington has indicated to Mr. Marcy of SWP that he desires to start his work with a clean slate and not try and bridge the period when Japanese interests had no representation in the United States, it is suggested that the principle communication be ~~sent~~ to the Swedish Legation with the request that it be transmitted to Japan. The communications in the underlying file are prepared to effect transmission through the Swedish Legation
