MEMORANDUM FOR RECORD:

TO: J.R. Boner, Chief, Distribution Branch

SUBJECT: Programmed Distribution of Surplus U.S. Army Clothing Received under TOG and SIM Programs

1. The attached table on programmed distribution of surplus U.S. Army clothing shows total quantities available for incentive distribution. These quantities are obtained from lists of approved programs received from QMC. About 90% of the items have arrived in Japan at this date.

2. Allocations have been made to the three major incentive groups in the following proportions: 20% to coal miners, 20% to fishermen, 40% to farmers; the remaining 20% are kept in reserve.

3. These percentages are for purposes of overall allocation. Individual items have been allocated according to the varying needs of the different groups. For instance raincoats are allocated only to fishermen, while towels are allocated only to miners.

4. The table also indicates the amounts distributed to the three groups up to this time and the 2nd release programmed for coal miners for the 2nd half of 1948 fiscal year.

PLAN FOR INCENTIVE GOODS DISTRIBUTION TO COAL MINERS

The plan for incentive goods distribution to coal miners outlined in the following has been evolved after considerable discussion within ESS between PO&R, Labor and Industry Divisions and with representatives of ESS, the Ministry of Commerce and Industry, and the Coal Board. It has further been discussed with representatives of coal mine management and with coal miners unions. Agreement on all essential phases of the plan has finally been achieved among the many agencies concerned.

ESS proposes to put the plan into operation on the first of April, the beginning of the fiscal year 1948, on a trial basis for a three months period in order to study its practicability and make necessary revisions.

1. Types and Quantities of Incentive Goods

The following types and quantities of goods have been allocated to coal miners as incentives for the first half of the fiscal year 1948 (March - September) according to ESS:

Item	Unit	Quantity	Remarks
Work Clothes	pcs.	680,000	
Cotton Gloves	pair	790,000	
Socks	pair	100,000	Distributed with rubber boots
Jikatabi	pair	1,162,000	
Rubber Shoes & Boots	pair	100,000	Mostly for Hokkaido
Gaiters & Caps	pair & pcs.	213,000	
Towels	pcs.	513,000	
Underwear	pcs.	461,000	
Bedding	pcs.	24,000	For dormitories
Soap	pcs.	6,159,000	
Cigarettes (Jap)	pcs.	40,500,000	
Cigarettes (US)	pcs.	121,000,000	
Pipe Tobacco	pckg. (2 oz.)	250,000	
Sake	sho	2,430,000	
Sugar	kg.	810,000	
Edible Oil	kg.	135,000	
Caramels	kg.	743,000	
Saccharine	kg.	2,025	

The list of incentive goods represents an increase over previous allocations. Per capita square yards of allocated textile goods were 13.06 in 1947 while in 1948 the figure is 14.42 square yards. Several special food items such as sugar, oil, and caramels have been added to the list which had not been included in earlier programs. In comparison with other groups receiving incentive goods, such as farmers and fishermen, the per capita allocations for coal miners are substantially larger.
