"The foundation of my preference, is, that, Mr. Buchanan has administered the Executive Government with signal success and ability. He has been tried and found true, faithful, honest and conscientious."—HENRY CLAY.

If there is those, North or South, who vote on administration for the North, as against the South, or for the South as against the North, they are not the men who should give their suffrages to me. For my own part I know only my country, my whole country and nothing but my country."—MILLARD FILLMORE'S ADDRESS ON HIS LANDING AT New York.

REGISTER YOUR NAMES.

Citizen, though fully qualified by birth, naturalization, or residence, can vote at the ensuing Presidential election, UNLESS HE IS REGISTERED.

NORTHERN MAIL came through yesterday with the latest dates.

A MONSTROUS PROPOSITION.

[illegible] ago we heard it whispered in secrets that in the event of New York giving a majority to FILLMORE sufficient to overcome the Democratic majority elsewhere, Governor WICKLIFFE would carry the six electoral votes of Louisiana, by throwing out the Bloody Banner, John W. Price and Geo. Eustis, Jr. The attendance of ladies was very brilliant, and the enthusiasm of the occasion unprecedented.

REGISTRATION OF VOTERS.—The number of voters' names thus far registered for the city of New Orleans is 11,614. Of this number 221 names were enrolled yesterday. A German, we noticed, was not permitted to register, because his papers were not dated at the top, as required. He remarked to himself, as he tore them up, that they were dated below, and that if the Democrats could do no more for him than that, "up here goes"—the papers into pieces! Remember, citizens of New Orleans, that the office closes positively this evening, and hasten to have your names enrolled accordingly.

NEW ORLEANS, JACKSON AND GREAT NORTHERN RAILROAD.—[illegible] called to the attention of the citizens of Jackson and O. N. [illegible] plumin, giving notice of [illegible] hour of departure of the [illegible] freight trains.

On and after the 1st November, the passenger train will leave New Orleans daily, at 4 A. M., and the freight train at 4.18 A. M.

AUCTION STORE.—Our friend, MIGUEL HERNANDEZ, Jr., has removed his auction store from Frenchmen street to No. 2 Old Levee, (formerly Victory) between Esplanade and Frenchmen. We are happy to learn that Mr. HERNANDEZ is well patronized in his line of business by the citizens of the Third District. They will, by encouraging those who settle as business men among them, raise by degrees the commercial standard of their portion of the city to a level with that of the other Districts.

A NEW LIGHT KEROSENE OIL.—From the announcement in our columns by Mattson & Co., No. 25 Condé street, it will be seen that they are the sole agents in Louisiana for the sale of the Kerosene oil, a fluid which promises to eclipse lard, sperm, Sylvic and other burning oils. It is said to be non-explosive, and to diffuse a powerful and brilliant light. The Kerosene lubricating oil is superior to all others for lubricating purposes, and does not congeal in cold weather. Messrs. N. & Co. are likewise agents for the Kerosene bituminous oil, a superior description of the same article, manufactured expressly for ships use, and warranted to remain liquid in the coldest weather. Samples of these various oils may be examined at their store, and in a few days they will be provided with ample quantities.

ALL SAINTS' DAY.—We are requested to state that the French Benevolent Society will make a collection at Cemetery No. 1, on All Saints' Day, in behalf of the Catholic Orphan Asylum of the Third District; and that the Portuguese Benevolent Society will likewise solicit the charity of the same Cemetery, for the benefit of the Camp street Female Orphan Asylum.

A VETERAN.—Senator Clayton, the veteran of the Senate, we observe, is seriously ill. It is feared, lately, at his home, Delaware. He has had a long and a useful life. He has been a strong man, an able debater, a successful diplomatist, and a true patriot. He has already virtually withdrawn from politics, declaring his purpose to take no part in the pending canvass, but to support any Presidential ticket which may be elected by all efforts to promote the welfare and preserve the harmony of the Union.

The steamer *Hero*, of the opposition line between Boston and New York, sank in Providence river on the night of the 27th.—No lives lost.

FROM KANSAS.—Dates from Lawrence to the 14th inst. been received. The emigrants arrested at Plymouth had been released.—Governor Geary ordered them to disperse or leave the Territory, when they retired to the different settlements. The arms found in their wagons were restored to them.

Judge McLean is suffering much from injuries he sustained by the upsetting of an omnibus on Monday afternoon near the toll-gate at Clifton, in the vicinity of Cincinnati. His right ear was almost cut in two, and he was severely bruised about the head and neck. It is probable the accident will detain him from his judicial duties for a week or ten days.

A MILD ATTACK.—The Boston (Mass.) *Journal* says that wild raspberries of the second crop were picked by a correspondent at West Newton, in that State, a few days ago, and that if the weather continued favorable for another week there would be a large yield. A crop of peas, also, had been raised from seed grown this year.

HOW TO MAKE VOTERS.

It is said that fifteen thousand foreigners have been naturalized in New York city within the last six weeks. A morning paper says:

"They come from Poughkeepsie and other places along the North river, and Long Island has contributed a large number, in addition to the dwellers in New York, who form the great majority of the applicants. A few—and they are very few—apply of their own accord, but the great bulk are recruited by the Naturalization Committee of Tammany Hall and the Republican Central Club. The former have taken the Irish under their special care, while the Germans, whose tendencies are of a Republican character, seem to have fallen to the charge of the latter. Both the committees pay the naturalization fees in consideration, it is generally understood, of the votes which their candidates are expected to receive in return. Now, as each fee amounts to fifty cents, and as there have been about fifteen thousand naturalized, the whole amount paid must be over or even thousand dollars. The greater part of this has been paid, it is said, by the Democratic Committee, who have made a free citizen of every three presented by the Republicans. In the first week or two the German applicants predominated, but they have since been left in the minority by the constantly increasing majority of the Irish. The number naturalized in the Court of Common Pleas and the Superior Court exceeds four hundred per day, but during the last two days over three hundred applicants received their papers in the Court of Common Pleas. It is calculated that during the four days which yet remain there will be between four and five thousand added to the number of newly-made citizens, making a total of about twenty thousand since the first of September."

The process has been in full blast in New Orleans for several weeks, and though the material is not as abundant as in New York, yet in proportion to population we presume we are fully up to the mark.

PENNSYLVANIA COMPLETE.—Official returns from Pennsylvania show Democratic majorities of 2,774 for Canal Commissioner, 3,397 for Attorney General, 3,735 for Surveyor-General. The Union majority in the State Senate is three, and the Democrats have a majority of six in the House of Representatives.

The Philadelphia *Bulletin* says:

The majority of Pennsylvania for the Buchanan candidate for Canal Commissioner is now definitely ascertained by the official returns, to be [illegible] eight hundred and twenty-four. The total vote is [illegible] the increase of the Democratic party since the election of 1854, which over 14,000 votes. Philadelphia has added to the Democratic majority in the State, leaving but about 10,000 for all the rest of the State. Every day is adding to many, to get that the increased vote in this city, which carried the State election for the Democratic ticket, by hands of the voters. The public is awakening to the conviction of the, and already the [illegible] has been obtained to a great degree. [illegible] and the number in which it was [illegible] It is to be hoped that there will be a full complement of the ballot-boxes opened before the Presidential election.

[illegible] Fire Press proposes that "if New Orleans is not fairly given, it will be rejected and the city destroyed. Now, suppose New Orleans should vote fairly for FILLMORE, and this gives FILLMORE the State, this vote, we [illegible] to be considered as unfairly [illegible] counted, and must be [illegible] Neither will Cassidy [illegible] Neither will Cassidy [illegible] Neither will Cassidy
