1) Concerning the Enforcement of Law regulating the welfare of the phsically handicapped people.

The handicapped people's welfare law came into force April 1.
We opened the consultation office in our Section for them to rehabilitate; established the handicapped people's Welfare Deliberation Committee comprising of 18 members selected and entrusted by Governor. They are the representatives of the handicapped, of related organs of civil relief and cooperatiion, of those connected with the medical treatment and of the governmental agencies concerned.
We endevored to diffuse the purpose of the Law; expected the unhappy people to help themselves consorted with the kind heart and understanding of other people. Stress was put on the extension of the idea of the Law.
Posters and pamphlets and compilation issues of the new Law and regulations were distributed; On April 5 had a meeting with Gun Office and Kofu City Office officials to study and explain the Law; instructed them to do the same with necessary procedures for the rural autonomous governments under them.

1st Meeting of the Deriberative Committee was convened April 6; started the Law Enforcement Commemoration Week Apr. 22; lectures and recreation shows have been held and artificial leg mending group have been sent to do minor repairs for them.

There is 3,500 cripples in prefecture, they are prone to get their livelihood by collecting alms in the train or on the streets due to the lack of pride considering their deformity and thus they are devoid of will-power to support their selves.
Furthermore, we shall make sufficient deliberation for their assistance, listening to there griefs and requests and givind vocational guidance.

We shall install about 3 welfare Superintendents for them and together with their positive activities, we hope to attain the practical effect.
