Around 20th of this month, they rationed flour and noodles in adjustment of the difference of previous distribution. While they delivered about 2 kilogram flour to a family of four including children of about 15 and about 8 respectively, 20 bundles noodles and 10 kilogram flour were rationed to a family of four grown-ups. Tens of family including mine with the same number of members have been receiving rations all alike every month. But no adjustment ration has been given to them. We all are surprized at the difference. As it was too much to pass over in silence, I called at the distribution center in the hope of making enquiries, but was told that they were too busy with distribution of rice and wanted me to come again after 25th. All people in this district are suspicious of the way they distribute rationed foodstuffs. Under the circumstances, I

A letter addressed to Staple Food Division, Civil Affairs Section From a housewife at Shinano-machi, Shinjuku-ward. Dated December 23, 1949.

Petition.

I am a housewife residing within the jurisdiction of the Shinano-machi Rice Distribution Center in Shinjuk-ward. This distribution center (rice and other staple food) is situated at Shinano-machi, Shinjuku-ward on a street with car-line in front of the Keio-Hospital. Around 20th of this month, they rationed flour and noodles in adjustment of the difference of previous distributions. While they delivered about 2 Kilogram flour to a family of four including children of about 15 and about 8 respectively, 20 bundles noodles and 10 Kilogram flour were rationed to a family of four grown-ups. Tens of family including mine with the same number of members have been receiving rations all alike every month. But no adjustment ration has been given to them. We all are surprized at the difference. As it was too much to pass over in silence, I called at the distribution center in the hope of making enquiries, but was told that they were too busy with distribution of rice and wanted me to come again after 25th. All people in this district are suspicious of the way they distribute rationed foodstuffs. Under the circumstances, I

wish to ask for your investigation into the matter.

I applied to the Ward Office for investigation, but no investigation has thus far been conducted by them.

It is a mystery to us how they made calculation in the recent distribution.

1/ This liquor tax is divided between the producer and the whole saler is,
Producer price = ¥ 136.2 + ¥354(tax) = ¥ 490.2
Whole salers price = ¥ 490.2 + ¥494.0 (tax) + ¥ 35.42(margin) = ¥ 1019.62
Retail price = (¥ 1019.62 + ¥ 66.10 (margin)) x .05 (consumer tax) = ¥ 1140

(If transaction tax had not been eliminated, the new consumer price would be as follows:)
(¥ 1085.72 x 1.03 % x 1.05 % = ¥ 1174.2 or an increase of ¥ 14.2)

2/ Figures in parenthesis represent tax component of price.

These prices are effective 1 January 1950.
