No. 429 — WEDNESDAY, SEPTEMBER 3, 1947 — Price 7.50 *yen*

CABINET ORDERS

I hereby promulgate the Cabinet Order concerning the partial amendments to the Regulations governing the rate of interest on Postal Savings Deposit.

Signed: HIROHITO, Seal of the Emperor

This third day of the ninth month of the twenty-second year of Showa (September 3, 1947)

Prime Minister
KATAYAMA Tetsu

Cabinet Order No. 187

The following amendments shall be made to the Regulations governing the rate of interest on Postal Savings Deposit:

In Article 1, "2.64% per annum" shall read "2.76% per annum."

In the table mentioned in Article 3, the line of those posted in the ledgers within the jurisdiction of the Ministry of Communications (except the ledgers bearing the marks indicating Saghalien or South Sea Islands) shall read as follows:

Those posted in the ledgers within the jurisdiction of the Ministry of Communications (except the ledgers bearing the marks indicating Saghalien or South Sea Islands)	3.5% per annum	3.35% per annum
	3.2% per annum	3.1 % per annum
	3.0% per annum	

In Article 4, "3.0% per annum" shall read "3.12% per annum."

Supplementary Provisions:

The present Cabinet Order shall be applicable as from August 1st, 1947.

As for the postal savings which was deposited up to July 31, 1947, on condition that neither withdrawal during a fixed period nor partial withdrawal is made, the old rules shall be applicable.

Minister of Communications
MIKI Takeo
Prime Minister
KATAYAMA Tetsu

INSTRUCTIONS

Ministry of Education Instructions No. 8

September 3, 1947

The Regulations governing Subsidies for the Establishment Expenses and the Ordinary Expenditure of Nurse-teacher Training Institutes shall be stipulated as follows:

Minister of Education
MORITO Tatsuo

Regulations governing Subsidies for the Establishments Expenses and the Ordinary Expenditure of Nurse-teacher Training Institutes

Article 1. The Nurse-teacher Training Institutes as called in the present Regulations are the institutions established by prefectural governments for training nurse-teachers.

Article 2. The National Treasury shall give subsidies for expenditure of Nurse-teacher Training Institutes in accordance with the budget every year.

Article 3. The subsidies from the National Treasury referred to in the foregoing Article shall be delivered to the prefectural governments which establish Nurse-teacher Training Institutes within the limits of one third of the expenses for establishing such institutes as well as one third of ordinary expenditure.

Article 4. When a prefectural government wants to obtain a subsidy from the National Treasury for the expenses for establishing a Nurse-teacher Training Institute, it shall apply to the Minister of Education with the description of the following items:

1. Name
2. Location
3. Date of inauguration
4. Regular-number of students
5. Length of course
6. Qalification for admission
7. School regulations
8. Map indicating the topography and area of the site, the position of the buildings, and the geographical features of the neighborhood
9. Building specification and a ground-plan, of the buildings
   (In case existing facilities are used for the purpose, it is to be expressly mentioned to that effect.)
10. Detailed account of the budget of the annual revenue and expenditure for the establishment expenses
11. Detailed account of the budget of the annual revenue and expenditure for the ordinary expenditure
12. Numbers of primary schools and secondary schools in the prefecture
13. Number of nurse-teachers of primary schools and secondary schools in the prefecture

The school regulations mentioned in Item 7 of the foregoing paragraph shall have stipulations for matters concerning the regular number of students, length of course and the qualification for admission, matters concerning the curriculum and the number of teaching hours per week, matters concerning the school year, school term and holidays, matters concerning the completion

of courses and the graduation, matters concerning admission, withdrawal and disciplinary punishment, matters concerning the dormitory and other necessary matters.

Article 5. When a prefectural government has obtained a subsidy from the National Treasury for the expenses for establishing a Nurse-teacher Training Institute, it shall report the settlement of the revenue and expenditure to the Minister of Education after the completion of the buildings of the Institute without delay together with a document containing a plan of the completed buildings as well as an outline description of furniture and equipments.

Article 6. When a prefecture government wants to obtain a subsidy from the National Treasury for the ordinary expenditure of a Nurse-teacher Training Institute, it shall apply to the Minister of Education with the description of the following items:

1. Name
2. Number of students
3. Date of inauguration
4. School regulations
5. List of the names, educational backgrounds, salaries and dates of appointment of the staff members
6. Detailed account of the budget of the annual revenue and expenditure for the ordinary expenditure
7. Settlement of accounts of the annual revenue and expenditure for the ordinary expenditure of the preceding fiscal year
8. Number of the graduates of the preceding year

Article 7. When a prefectural government has obtained a subsidy from the National Treasury for the ordinary expenditure of a Nurse-teacher Training Institute, it shall report the record of the works and the settlement of accounts of the revenue and expenditure in the current fiscal year to the Minister of Education by the end of May every year.

NOTIFICATIONS

Ministry of Finance Notification No. 203

September 3, 1947

Ministry of Finance Notification No, 478 of June, 1946 (re Designation in connection with Payment of Remuneration, Bonuses, Retirement Allowances, etc. of executive officers engaged in the business of designated companies as prescribed in Par. B of Item 3, Art. 2-(3) of Ministry of Finance Notification No. 97 of November, 1945) shall be revised as follows:

Minister of Finance
KURUSU Takeo

1. The amount of remuneration to executive officers (provided that such officers are restricted to persons devoting their full time to the company's business; hereinafter the same in the following three (3) Paragraphs) for which permission of the Minister of Finance shall not be necessary shall be the amount of remuneration made periodically each month, and the total amount whereof shall not exceed the amounts prescribed in each of the following Items:
   1. The amount corresponding to a figure of one hundred and ten percent (110%) of the total overall amount of salaries are received by the number, corresponding to the number of executive officers, of employes (exclusive of specialists) receiving the highest periodic remuneration as of May, 1947 (month of designation for companies which are designated pursuant to the provisions of Art. 1-(2) of Imperial Ordinance No. 657 of 1945 after this month; hereinafter the same).
   2. In cases wherein a salary exists which has been approved pursuant to the regulations of Art. 2 of Imperial Ordinance No. 657 of 1945 (inclusive of salaries payable without permission; hereinafter the same), and such salary exceeds the average salary to be paid to the executive officers in accordance with the limits computed according to the previous Item, such limit plus such excess amount.
   2. The periodic remuneration of the employes of Item 1 of the preceding Paragraph shall not include family allowances, but may include the monthly bonus average within ten percent (10%) of the salary of such employes less such bonuses of family allowances.
   3. In cases wherein salaries for executive officers have been approved under Article 2 of Imperial Ordinance No. 657 of 1945 and exceed the average for each individual executive officer as computed in Item 1 of Par. 1, the salaries to such executive officers shall not exceed one hundred and ten percent (110%) of such approval salaries.
   4. Family allowances which are paid to executive officers, provided that they are paid on the same basis as to employes, may be added separately to the amount of remuneration of the preceding three (3) Paragraphs.
   5. In computing the amount of production (as regards companies which are not related to productive business, transportation volume for transportation business, amount of deposits for banking, etc.; hereinafter the same), of each quarter of the preceding one (1) year, only if the amount of production of the quarter immediately preceding payment date of remuneration exceeds the highest amount of production of any of the three (3) quarters immediately preceding such quarter, may increase in remuneration as prescribed in Paragraph 1 be made without permission of the Minister of Finance. In such case, the extent of increase over the amount of remuneration stipulated in Paragraph 1 shall be according to the ratio determined by the General Stockholders' or Partners' Meeting or the Unanimous Assent of Partners within the extent of twenty percent (20%) of the total amount of remuneration as prescribed by Paragraph 1 to any individual for the first time and ten percent (10%) of the total amount of remuneration for any increase thereafter.
   6. In regard to the increase of the previous Item, it shall be provided that, the amount of increase may, if the amount of production of any subsequent quarter falls below the amount of production of any of the three (3) quarters immediately preceding such quarter, be reduced to an extent determined by the General Stockholders' of Partners' Meeting or the Unanimous Assent of Partners.
   7. Remuneration may be made without the permission of the Minister of Finance to executive officers and persons receiving the treatment of officers other than of Paragraph 1 to the extent of two thousand *yen* (¥2,000.00) per Directors' Meeting or such similar meeting participated in, provided that such payments shall not exceed a total of four thousand *yen* (¥4,000.00) per year.
   8. The amount of remuneration and such remuneration increase as prescribed in Paragraph 1 and the preceding three (3) Paragraphs shall be determined with the approval of the General Stockholder's or Partners' Meeting or the Unanimous Assent of Partners.
   9. Designated companies desiring to receive the approval of the General Stockholders' or Partners' Meeting or the Unanimous Assent of Kart-

ners of the preceding paragraph, shall submit to the Minister of Finance and the Holding Company Liquidation Commission, not less than 30 days prior to the date of the proposed meeting, notification of such fact and documents clearly specifying the amount of remuneration to each person and the basis of computation of such remunerations. (English copies shall be attached.)

10. The remuneration as prescribed by the provisions of the preceding nine (9) paragraphs may be paid retroactively as from May, 1947.

Component of dioxids manganese (%)	Controlled price per ton
90	6.609

(a) The controlled price of metalic manganese ore having manganese Component over 57% shall be made by adding amount at the rate of ¥77 per ton for every increase of 190 component to the controlled price for the manganese having 57% component.

(b) The controlled price of dioxide manganese are having Component of over 40% but under 65% shall be amonut depending upon the manganese component and the controlled price for the metalic manganese are shall be applied. The controlled price of the dioxid manganese having component of over 90% shall be made by adding amount at the rate of ¥86 per ton for every increase of 190 component to the controlled price for the dioxid manganese raling 90% component.

(c) The controlled price of the preceding list shall permit percentage of weight of humidity contained up to 5%.

(d) The controlled price of metalic manganese shall be for those of silicic and component of 29% and as to those having of silicic and component of over 20% a deduction of at the rate of ¥7.00 for every increase of one percent shall be made from the controlled prices, and as to those having of silicic and component of under 20%, a addition at the rate of ¥4.00 for every decrease of one percent shall be made from the controlled prices.

(e) In computing the component of the metalic manganese ore dioxid manganese are, the calculation shall be made down to one place of decimal, counting fractions over 5 as one and disregarding the rest.

(f) The controlled prices in sale of specially processed dioxide manganese table (for special use of duy cell a chemical medicine, etc., or powder thereof shall be computed by the following method of calculation.

(Controlled price of dioxid manganese having equal component of dioxide manganese in table or powder).

1.08 plus ¥960 the controlled price to be arrived.

(g) The controlled price shall be f.o.r. at the nearest railway station (include the nearest stop of the government run motor cars) to teh mine, or f.o.b. at the nearest port to the mihe. The controlled prices of dioxide manganese in table or its powder shall be ex-processing factories.

(h) The controlled price of metalic manganese shall not include the wrapping and packing charge, the controlled price of dioxide manganese in table or its powder shall include the wrapping and packing charges.

Price Board Notification No. 557

September 3, 1947

Partial revision of the Price Board Notification No. 300 of June, 1947 (concerning the designation of the controlled selling prices of sugar and molasses) shall be made as follow:

Director-General of Price Board
WADA Hiroo

List of prices in 1 shall be revised as follows:

Description	Controlled selling price of Japan Sugar Co., Ltd. (per 100 *kin*)	Controlled selling price of wholesaler (per 100 *kin*)	Controlled selling price of retailer (per *kin*)
Centrifugal white sugar (TAB grade and upwares)	¥ 2,203.00	¥ 2,264.00	¥ 24.70
Non-centrifugal sugar	1,795.00	1,856.00	20.60
Impurities-mixed sugar	1,732.00	——	——
Sugar candy	2,800.00	2,861.00	30.70

Price Board Notification No. 558

September 3, 1947

In accordance with the provisions of Article 4 of the Price Control Ordinance, the controlled selling prices of animal oils and fats are designated as follows, and the Ministry of Finance Notification No. 538 of July, 1946 (concerning the designation of the controlled selling prices of aquate animal oils and fats) and the Ministry of Agriculture and Forestry Notification No. 224 of May, 1943 (concerning the designation of the maximum selling prices of chrysalis oil) shall hereby be abolished.

Director-General of Price Board
WADA Hiroo

Kind	Grade	Unit	Controlled selling price of producer	Controlled selling price of collecting organs	Controlled selling price of Teikoku Yuryo K.K.	Controlled selling price of retailer	Controlled selling price of retailer for small lot under 1 "*sho*" (unit: 1 g.)

Soda Lees of Animal oils and Fats		16 Kg. net content	90.00	——	108.50	135.20	——

1. (a) The controlled selling prices of producer mentioned in this table shall be ex-factory of producer.

However, the controlled prices of coastal blue whale oil and coastal sperm whale oil shall be ex places mentioned in (1), (2), and (b) of (3).

(b) The controlled selling prices of collecting goods organs mentioned in this table shall be those described as below:

1) F.O.R. station of Government Railways or directly connected private lines nearest to the place of origin.

2) F.O.R. station of Government Railways, or directly connected private lines nearest to landing port, or quay nearest to landing port, as to those produced in islands other than the main island of Hokkaido, Honshu, Shikoku and Kyushu.

3) In case of delivery at places other than these mentioned in the preceding 2 paragraphs transpintation charge and other actual expenses may be added or deducted from the controlled prices of this table.

(c) The controlled selling prices of Teikoku Yuryo Kabushiki Kaisha (Teikoku Oil and Oilseeds Co., Ltd.) shall be F.O.R. station of Government Railways, or directly connected private lines nearest to the buyers, or f.o.b. quay of river bank nearest to the buyers. However, in case the buyers take delivery directly from the storage place of the Teikoku Yuryo K. K., the controlled prices shall be deducted by ¥2.00 per 5 gallon can and ¥22.00 per drum can containing 200 liters respectively from the controlled prices of this table.

(d) The controlled selling prices of retailer mentioned in the present table shall be ex store of seller.

2. The controlled prices mentioned in the present table shall be for goods without container. To the controlled prices, in case of sale with container, may be added ¥30.50 (including charges for filling and packing) per 5 gallon can.

3. (a) In case goods without container are of sold in a drum can 200 liters owned by the producer, or collecting goods organs, ¥200.00 including charges for filler and packing, freights, charges for washing, and other expenses) per drum can may be added to the controlled prices of this table.

(b) In case the producer, collecting goods organs or Teikoku Yuryo K. K. sells goods only packed in containers furnished by buyers, ¥2.40 per 5 gallon can and ¥8.00 per drum can of 200 liters respectively may be added to the controlled prices. However, in the abovementioned amounts shall be included charges for filler and packing, but not other expenses.

(c) In case goods only are sold in containers owned by the Teikoku Yuryo K. K., the controlled selling prices of producer and collecting goods organs shall correspond to (d) and the controlled selling prices of others shall correspond to (a).

4. In case, goods only are sold by lending the containers to buyers, and period required for returning the containers by the purchaser or seller exceeded the undermentioned periods, the following amount may be added for an excess of one month or its fraction.

(a) Period.

1) 2 months after receiving containers in case the buyers return containers to the producer.

collecting goods organs, or Teikoku Yuryo K. K., or seller.

2) 4 months after receiving containers, in case the sellers return containers to the Teikoku Yuryo K. K. or producer.

(b) Amount to be added.

¥ 75.00 per prum can.

5. In case the sellers sell goods in a small lot, amounts mentioned under (a) and in case the sellers refill the goods in containers owned by buyer, amounts mentioned under (b), respectively, may be added to the controlled prices of this table.

(a) ¥4.00 per *sho* for quantity over one *sho* but under one *to* (for the ¥0.80 per *go* added in case there is a fraction less than 1 *sho*).

(b) ¥20.00 per *to* or 16.5 kgs. (¥4.00 per *sho* added in case there is a faction less than 1 *sho*.)

6. The standard of animal oils and fats mentioned in this table shall be subject to the following:

(1) The controlled prices of sardine oil, herring oil, shark oil and other fish oil, blue whale oil, sperm whale oil and other and animal oil shall be those which have passed the inspection as 1st grade, 2nd grade and 3rd grade conducted by the prefecture of the place of origin, and the controlled prices shall be applicable to off-grade for.

(2) Whale oils produced in the Antarctic Ocean shall be those produced in 1946–1947, and are required qualify the following standard:

Humidity and impurities	1.0% or under
Acid value (qualified)	4 or less
(off-grade)	4 or more

(3) Chrysalis oils shall be produced from silk worm chrysalis and have to qualify the following standard:

Humidity and impurities	2.0% or under
Iodine vale	120 to 140
Saponification value	180 to 199
Acid value (qualifie)	20 or less
(off-grade)	20 or more

(4) Soda-less of animal oils and fats.

These shed mean oil less produced during alkali refining of animal oils and fats, and have to qualify the following standard:

Humidity	45% or under
Total fatty substances	45% to 65%

Remarks:

1. Total fatty substances means "benzol" soluble substances in saponified oil less soapified with inorganic acids.

Price Board Notification No. 559

September 3, 1947

In accordance with the provisions of Article 4 of the Price Control Ordinance, the controlled selling prices of vegetable oil are designated as follows, and the Ministry of Finance Notification No. 181 of March, 1946 (concerning the of controlled selling price of vegetable oils etc.) and the Ministry of Finance Notification No. 535 of July, 1946 (concerning the designation of the controlled selling price of rice bran oil) shall hereby be abolished:

1. (a) The controlled selling prices of producer of this list shall be ex-factory of producer.

(b) The controlled price of Teikoku Yuryo Kabushiki Kaisha (Teikoku Oil and Oilseeds Co., Ltd.) shall f.o.r. stater, government railways or joint private railway lines nearest to purchaser, or free on board quay or river bank nearest to purchaser. However, if the purchaser take over the goods at the factory of producer or a place corresponding to it, the controlled price shall be amounts deducted by 2 *yen* per five gallon can and 22 *yen* per 200 liter drum from the control price or this list.

(c) The control selling prices of this list shall be ex-store of seller.

2. (a) The controlled prices of this list shall be for goods without any receptacle.

(b) In case the goods are to be sold in containers, 30 *yen* 50 *sen* (including cost of filling and packing) may be added to the control price of this list per 5 gallon can.

(c) In case the goods to be sold in 200 liter drums owned by the producer 200 *yen* (including cost of filling, packing, charges for returning, washing and other expenses) may be added to the controlled price of this list.

(d) In case the producer, or Teikoku Yuryo Kabushiki Kaisha, is to sell the goods in bungs's containers, 2 *yen* 40 *sen* per 5 gallon can and 8 *yen* per 200 liter drum may be added to the controlled price of this list.

However, the above sum shall include the cost of filling, and packing, but shall not include other expenses.

(e) In case the goods filled in Teikoku Yuryo Kabushiki Kaisha's containers and the goods are to be sold, the controlled selling prices of producer shall be corresponding to (d) and the controlled selling prices of persons shall be corresponding to (c).

3. In case goods are to be sold in containers the loan to purchaser and when the period required for return of containers by purchasers or dealers

exceeds the following period, the following amount there of may be added for each month, or a fraction.

(a) Period.

2 months from the day purchaser received the containers case purchasers are to return them to the producer, or Teikoku Yuryo Kabushiki Kaisha, or dealers.

4 months from the day dealer received the containers in case dealers are to return them to Teikoku Yuryo Kabushiki Kaisha or producers.

(b) Amount to be added.

75 *yen* per drum.

4. The amount in (a) in case dealers are to sell the goods only in small lots and the amount in (b) in case the goods are to be refilled in containers owned by dealers, may be added to the controlled price of this list.

(a) 4 *yen* for and *sho* for quantity over 1 *sho* but under 1 *to*. (If there is a fraction of a *sho*, for 80 *sen* for each old *go* shall be added).

(b) 20 *yen* per *to* or 16.5 kg. for quantity over 1 *to* or 16.5 kg. (If there is a fraction of a *to*, for 4 *yen* shall be added for each odd *sho*).

5. The controlled price of crude rice bran oil shall be for those having acid value of 30 but under 60, moisture and impurities less than 3.0%, and 30 *yen* shall be added if the acid value is less than 30, 10 *yen* for 60 or over, and deduct of 10 *yen* each increase of 2% content of fraction of moisture and impurities.

6. The Specification of vegetable oils in this table shall be as follows:

1) Perilla Oil

Produced from perilla seeds and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.3%
Color	Yellowish brown with green tinge
Acid value	Less than 8.0
Iodine value	More than 192
Saponification value	189–195

2) Linseed Oil

Produced from linseed and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.3%
Color	Yellowish brown
Acid value	Less than 8.0
Iodine value	More than 175
Saponification value	189–195

3) Hempseed Oil

Produced from hempseed and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.3%
Color	Yellowish brown with green tinge
Acid value	Less than 8.0
Iodine value	159–170
Saponification value	190–195

4) Compounded Drying Oil

Produced from perilla seeds, linseed or hemp seed, two kinds or more compounded and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.3%
Color	Yellow to yellowish brown with green tinge
Acid value	Less than 8.0
Iodine value	More than 159

5) Indigenous Japanese Variety Tung Oil

Produced from nuts of Japanese variety oil Tung and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.3%
Color	Yellowish brown
Acid value	Less than 6.0
Index of refraction (20°C)	1.500–1.515

6) Indigenous Chinese Variety Tung Oil

Produced from nuts of Chinese variety oil tung and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.3%
Color	Yellowish brown
Acid value	Less than 6.0
Index of refraction (20°C)	1.515–1.525

7) Poppyseed Oil

Produced from poppyseeds and shall qualify to the following specification:

Characteristic	Clear without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow
Acid value	Less than 6.0
Iodine value	133–144
Saponification value	189–196

8) Soybean Oil

Produced from soy beans and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow with brown tinge
Acid value	Less than 4.0
Iodine value	128–142
Saponification value	188–197

9) Special Soybean Oil

Produced from soy beans, with little foaming and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow with brown tinge
Acid value	Less than 2.0
Iodine value	128–142
Saponification value	188–197

10) Soybean Salad Oil

Produced from soybeans, completely deodorized and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.2%
Color	Light yellow
Acid value	Less than 1.0
Iodine value	128–142
Saponification value	188–197

11) Soy Oil

Produced during brewery of soy and shall qualify to the following specification:

Moisture and impurities	Less than 1.0%

12) Sunflowerseed Oil

Produced from sunflower seeds and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow to yellowish brown
Acid value	Less than 6.0
Iodine value	127–144
Saponification value	188–195

13) Sunflowerseed Salad Oil

Produced from sunflower seeds, completely deodorized and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.2%
Color	Colorless to light yellow
Iodine value	127–144
Saponification value	188–195

14) No. 1 Cottonseed Oil

Produced from cottonseed oil and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow to yellowish brown
Acid value	Less than 6.0
Iodine value	103–125
Saponification value	190–197

15) No. 2 Cottonseed Oil

Produced from cotton seeds and shall qualify to the following specification:

Appearance	Shall be clear
Moisture and impurities	Less than 0.3%
Iodine value	103–125
Saponification value	190–197

16) Sesame Seed Oil

Produced from sesameseed, little foaming and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Reddish brown
Acid value	Less than 60%
Iodine value	103–116
Saponification value	187–194

17) Sesame Salad Oil

Produced from sesame seeds, completely deodorized and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.2%
Color	Light orange
Acid value	Less than 1.0%
Iodine value	103–116
Saponification value	187–194

18) Maize Oil

Produced from maize and shall qualify to the following specification:

Moisture and impurities	Less than 1.0%
Iodine value	105–120
Saponification value	187–193

19) Refined Maize Oil

Produced from maize and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.2%
Color	Light yellow to yellowish brown
Acid value	Less than 5.0%
Iodine value	105–120
Saponification value	188–192

20) Mustard Seed Oil

Produced from mustard seeds and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow to greenish brown
Acid value	Less than 6.0%
Iodine value	110–122
Saponification value	176–183

21) No. 1 Rapeseed Oil

Produced from rapeseeds and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.2%
Color	Yellow with brown tinge
Acid value	Less than 6.00
Iodine value	98–106
Saponification value	169–176

22) No. 2 Rapeseed Oil

Produced from rapeseeds and shall qualify to the following specification:

Appearance	Clear
Moisture and impurities	Less than 0.2%
Iodine value	98–106
Saponification value	169–176

23) Kapok Oil

Produced from seeds of Kapok and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow with brown tinge
Acid value	Less than 20.0
Iodine value	85–102
Saponification value	189–196

24) Peanut Oil

Produced from peanuts, little foaming and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow to light yellowish brown
Acid value	Less than 6.0
Iodine value	96–103
Saponification value	185–194

25) Compounded Semi-drying Oil

Produced from soy beans, sunflower seeds, cotton seeds sesame seeds, maize, mustard seeds, rape seeds, Kapok seeds, peanuts or rice bran, two or more kind compounded, little foaming and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow to yellowish brown
Acid value	Less than 6.0

26) Tea Seed Oil

Produced from tea seeds and shall qualify to the following specification:

Moisture and impurities	Less than 0.5%
Color	Yellowish brown
Acid value	Less 20.0
Iodine value	79–100
Saponification value	185–198

27) Castor Oil

Produced from castor beans and shall qualify to the following specification:

Moisture and impurities	Less than 0.3%
Color	Light yellow or light yellowish brown
Acid value	Less than 4.0%
Iodine value	80–88
Acid value	170–190
Solubility	Solution in Japanese Pharmaceutical Standard Alcohol (4 times volume) shall be transparent
Reaction	Neutral

28) Cold-pressed Castor Oil

Produced by cold-pressing castor beans and shall qualify to the following specification:

Characteristic	Clear, without bad odor
Moisture and impurities	Less than 0.3%
Color	Colorless or light yellow
Specific grovity (15°C/4°C)	0.95–0.97
Acid value	Less than 4.0
Iodine value	80–88
Saponification	170–190
Solubility	Solution in pure alcohol and glacial acetic acid (4 times volume each) shall be transparent
Reaction test	1. Neutral 2. No blackish brown color produced when this oil, 3 c.c. of carbon disulphide, and 1 c.c. of sulphuric acid are mixed and shaken for three minutes

29) Olive Oil

Produced from olives and shall qualify to the following specification:

Characteristic	Clear. without bad odor
Moisture and impurities	Less than 0.3%
Color	Yellow or yellow with green tinge
Acid value	Less than 4.0
Iodine value	75– 88
Saponification value	185–196

30) Palm Oil

Produced from flesh of palm nut and shall qualify to the following specification:

Moisture and impurities	Less than 1.0%
Color	Yellow to deep-brown
Acid value	Less than 30.0
Iodine value	43– 59
Saponification value	196–210

31) Coconut Oil

Produced from copra and shall qualify to the following specification:

Moisture and impurities	Less than 0.5%
Color	White to light brown
Acid value	Less than 30.0
Iodine value	7– 12
Saponification value	246–272

32) Refine Coconut Oil

Produced from copra, completely deordorized and shall qualify to the following specification:

Characteristic	Clear, with pleasant odor
Moisture and impurities	Less than 0.2%
Color	White to light yellow
Acid value	Less than 1.0
Iodine value	7– 12
Saponification value	246–272

33) Crude Rice Bran Oil

Produced from rice brans and shall qualify to the following specification:

Iodine value	92–112
Saponification value	179–195
Unsaponifiable matter	Less than 8.0%

34) Gas Oil

Produced from vegetable oil less and shall qualify to the following specification:

Moisture	Less than 5.0%
Total fatty substance	More than 85.0%
Reaction	Neutral

35) Ordinary Vegetable Oil and Fat Lees

Oil lees produced by precipitating and filtering or treat expressed vegetable oils and fats with contrifuge and shall qualify to the following specification:

Moisture	Less than 20%
Total fatty substance	20–40%

36) Extracted Vegetable Oil and Fat Lees

Oil lees produced by precipitating and filtering or treating extracted vegetable oils and fats with centrifuge and shall qualify to the following specification:

Moisture	Less than 40%.
Total fatty substance	30–40%

37) Vegetable Oil and Fat Soda Lees

Oil lees produced by alkali-refining of vegetable oils and fats and shall qualify to the following specification:

Moisture	Less than 45%
Total fatty substance	45–65%

Remarks:

1. Clearness in Appearance and Characteristic refers to clearness at below 30°C.
2. Total fatty substance refers to benzol soluble substance in saponified oil lees hydrolyzed with inorganic acids.
