SUBJECT: Approval of Work Order Request

TO : Commanding General, Headquarters 24th Infantry Division Artillery, APO 24-4

1. While the main building consists of 6178 sq ft there are but 18 rooms, none of which are large enough for the permanent occupancy of more than one person. Considering the paucity of existing housing in relation to requirements and the announced policy of retrenchment in real estate procurement, these facilities should be placed in adequate condition to accommodate visiting representation of SCAP and Eighth Army incident to civil affairs as well as anticipated personnel increases. It is pointed out that the current T/O of 51 civilians is only tentative and the probability of additional assignments has been definitely indicated. Continuous housing problems must be anticipated with changing personnel. There are presently assigned a total of 8 civilians entitled to dependent housing, but the status of their replacements cannot ascertained.

2. The main building which is at present being rehabilitated will house the bulk of the male officer type civilians of bachelor status, but a number of them must of necessity be housed in the quonset huts, or in the transient billets in Fukuoka. A reasonable rehabilitation project on the quonset huts would solve the housing problem adequately.

3. It is urgently requested that this project be reconsidered in the light of the foregoing: that the Regional Post Engineer be instructed to reinspect the project, with a view to effecting all possible economies in rehabilitating the quarters and make reasonable allowances for the anticipated increase of personnel to be assigned this headquarters. It is submitted that the present quarters conform to the barest minimum standard for personnel of the status currently quartered therein.

1. In order to have a basis for the Engineers to effect economies it is requested that requirements for housing personnel be stated giving full details as to the following:

a. Authorized T/O.
b. Number of civilians entitled to dependent housing.
c. Number of female civilians to be housed.
d. Number of male officer type civilians to be housed.
e. Number of male EM type civilians to be housed.
f. All space in Civil Affairs compound be utilized as permanent billets. Visiting representation from higher and lower headquarters will be housed in transient billets in Fukuoka City.
g. Contemplated increase in personnel will not be included. Remark to that effect will be included when project is forwarded for approval. The limitation on approval at this command level is $200.00 thus necessitating forwarding to Army for approval.
