Engle:

1. To have the whole educational picture in one place wouldn't it be a good idea to place either at top or bottom of special subjects list, each school class that graduates during the appropriate month, not listing hours & subjects but remarks in tabulation 1 no 2 no 6 month regular course — number of students, for overall total. All special courses carry as now do now.

2. Strikes me this would depict our police school educational effort more fully and have it all on one paper.
