Organization contacted Shoisha-Sasei Doshikai Contacted persons Mr. Yasuno, President of organization

Location MMGT

Purpose: Mr. Yasuno stated he was member of a wounded veteran's association currently campaigning for money in Sendai.

Partinent Facts

Mr. Yasono is president of the organization, founded in June 1947, with an office in Tokyo. He stated that it is not a national organization but they want to start a new chapter here in Sendai, made of 50 veterans, mostly from the National Hospital. They want to raise funds for welfare purposes. A planned project is establishment of a dress repair shop (mending). . . . . .

Comments & Suggestions

Asked what benefits are available to such persons, he replied that soldiers who have lost both arms receive ~~fr~~ 500 yen a month pension from the Welfare Ministry and free railway transportation wherever they wish to go. He was aware that they could receive vocational training & assistance (if in need) through Daily Life Security, but said there was much red tape connected with obtaining vocational training.

He was informed that such an organization of purely wounded veterans might be in contradiction of SCAPIN but that they are part of a large problem for which apparently there is no definite program as yet - vocational rehabilitation of crippled persons. This matter is to be discussed with Prefectural officials and Mr. Yasuno will return Tuesday at 9.00 a.m for further discussion.

File No. 18

Date 7 July

By Mrs. Jones

Organization contacted Izoku-kai. Contacted persons: Mrs. Otomo and 200 members.

Location Iwanuma at the Takekomo Shrine

Purpose: Meeting of Bereaved Families.

Pertinent Facts

Talks were given by Mrs. Hayes* and a member of this section, one of encouragement and stimulation by Mrs. Hayes to the women as mothers, and one pointing out welfare laws and services available to them and encouraging them to form committees to study such services, so they can better advise their members upon their individual problems. 200 women were present, most of them bringing their children, pointing out the need for a day nursery even more strongly. Mrs. Otomo had mentioned that discussion of such a nursery is being held. She and some of the other women are planning to come in the office for further discussions, and all considered the meeting a success.

Comments & Suggestions

It was noted that the forms of parlimentary procedure suggested by Miss Corkran, Education Section, in her meetings at Iwanuma were being put into effect, and need only more practise to be smoothly operative efficient. The women were praised and a few suggestions made concerning the few weaknesses noted.

* Mrs. Hayes was cleared by Mr. Walterhouse and Maj. Burkhart.

Organization needs-

1. Day nursery
2. Sub-divisional meetings if audiences continue to be so large, with a joint meeting once a month.
3. Various committees, advisory, research, recreational, etc.
4. Definite elections of officers.

Subject; Organization of National Relief Association
and Management of Work.

I think you have been doing your best at your own branch to improve the organization and to manage work since the National Relief Association was organized as a purely private association in March of 1946.

About election of official staffs and establishment of the office, I have indicated, through several meetings of the superintendents of business and No. 215 which was issued on June 11th, 1947, that you should improve the organization as a purely private association.

However, such complete organizations are very few and many semi-official ones shall be seen in the charactor. On the side of management of work. I have sometime seen examples which were blamed by the masses. When we are doing our best to complete objects of the association, I am very sorry to see the preceding facts.

The purpose of the establishment of the Minsei Hodokai

Since the enactment of the law of protection of living (9th September 21year of Showa), as we say Magnacarta of love, it is a matter for congratulation that the relief measure are devised to all the people who are in difficulty.

But we presume that there are many troubles of the member of civil committee, who are concerned to this work directly and look-after the people who are in difficulty from day to night.

But inspite of the secrificing efforts of the member of the civil committee, the poor are inclined to inclease more and more together with the distitution of the social condition.

And the treatment and it's personality of the member of the civil committee who are take care of, or their charge area and number are never think sufficiently. So the exhaustive supportment are in very difficulty.

The Minsei hodokai pay attention to this points and connected with the civil committee always, and think the perfect plan of the guidance of life and occupation and support their indipendence and improvement of life from the side, and intend to support their independance and improvement of life in the end.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

The object of the establishment of the Sendaisi Minsei Hodo Kai

Time is tide and the age is changing but the life of the left people are left in poor situation for-ever.

The old father and mother who are lost their living supporter, and the widow who are crying with their children, and posthumous child who have no place to rest, these are living without planty of food and quivering like a leaf, in the great waives and feelings of uneasiness without any hope and gladness.

To see or to hear these misary distress situation, we are broken-hearted.

Neverthless it is a matter for sadness that these matters are left in the corner of the society in every age. I wonder it is very strange;

We think it don't permit to leave these poor people themselves from the point of view of humanity,and the soul of the predecessors.we have no words to apologize.

Then without the supportment of these people, real democratic country are never realized.

Democratic country are those that can seperate great blessing and gradness to the poor people and share the thanks and benefit to each other.

Note: Mr. Honzawa's (Pref) list of Training Conferences constitutes the In-Service Training Program for Miyagi.

REPORT ON JAPAN SOCIAL WORK ASSOCIATION, MIYAGI PREFECT

18 May 1948

Conference with Mr. Dosai regarding Japan Social Work Ass in Miyagi Prefecture which was listed as having received ¥500,000 (50,000) from the Community Chest. Purpose of visit was to learn what services and functions are being performed by the Ass and what use is to be made of the money secured from Community Chest.

The director is Mr. Abe, who also heads Community Chest (in addition to heading another agency receiving Community Chest funds--Year End Relief For Destitute People). His staff consists of 3 women clerks, no doubt the samewho assist him with Community Chest.

Little is done by the Association, aside from helping to sponsor "in-service training programs for the minseiiin" in cooperation with 2 or 3 other agencies. Activities of the organization should include the following:

a. Coordinating activities of all social welfare agencies.
b. Carry out research and investigations including the compilation of statistics in the field of social welfare.
c. Publish books and magazines and maintain a central library. (Several copies of a magazine printed by the National Association are received monthly by the Prefecture)
d. Develope and carry out welfare training and educational programs.
e. When requested, provide information to the Welfare Ministry concerning private welfare work in Japan.
f. Sponsoring social work conferences.

The ¥500,000 received from Community Chest is to be divided among the city and village branches of the Social Work Association.

It is hard to see what good the Association isdoing in the welfare field (since it neither contributes strongly to the professional training nor renders relief services) that a more active agency could not do in its place. This Association needs building up, strengthening, as its purposes could fill an important part in the ~~welfare field~~ welfare education of Minseiiin and prospective Minseiiin, and all other welfare personnel.

Questions for further study:
What agencies belong to the Social Work Ass. in Miyagi.
What is its present budget? Sources of funds?

Met trai n where union served tea and carried laggage for repatriates from Siberia, took personal history, mèdical examination, etc., a large infiltration of communists were present to meet the repatriates 22 repatriates came in at Sendai.

~~(Student Union~~ -- Communists came 2 times 10 May, (4 times altogether) to join thair work--- but were refused each time, at Station communists asked them to show list of repatria tes for their paper the "Red Banner" They copied all names. Union is afraid they will say "They found list and they will have communication with them and their homes". This morning clerk handled list to communists. The communists wait to enter platform of the student union. Hard for student union to fight against communist, because of strong system. They need chairs, megaphones, and paint for medical of fice.
