ECA advises that the Italian Govt is interested in rehab of the salt works in Somalia, which prior to war had extensive and profitable export business with the orient, with Japan reportedly the largest prewar customer. Italian Govt decision to rqst ECA assistance for new machinery and equip to replace present plant, which was ruined and abandoned during war, will be dependent in large part on likelihood ability of salt mines to regain oriental and particularly Jap markets.

Assuming competitive prices, rqst your opinion as to possible future importance Somali salt to Japan, in basis anticipated aval Japan salt from other exporting areas.

Appreciate, of course, that in any exent this matter would have to be subj to long-term negotiations between Jap and Italian traders.

This msg in 2 parts. Commodity committees is subj. Ref is State Circular 450 (Feb 030413 Z).

Part 1. State rqsts Sebald discuss the following matter with MacArthur and seek his advice. Reply may be sent either by MacArthur after discussion with Sebald or by Sebald after coordinating reply with MacArthur, but in either case will be fwdd to Department of the Army. Text of State msg is as follows:

"As stated State Department Circular telegram 450 of Feb 21951, U.S., U K and Fr have agreed on establishment of 6 committees and have issued invitations to Govts."

"The invitations were limited to a few leading producing and consuming countries; generally the 5 leading exporters and 5 leading importers were selected. Japan would qualify in some commodities on the basis of statistical position. Was understood in tripartite discussions that U.S. would represent Japanese interest pending peace treaty or agreement before peace treaty by commodity committees themselves for Japanese inclusion. Agreement was reached for inclusion Federal Republic Germany in view tri-partite occupation and control of Federal Republic over import-export programs under occupation statute."

"Although it is believed Japanese economic interest can be met adequately through U.S. representation as through direct representation, recognize that announcement of establishment of commodity committees including Germany but not Japan can cause unfavorable

reaction in Japan, and propose seek Japanese inclusion in Cotton Committe before public announcement. Appears that consideration Japanese inclusion in other groups may have to await organization of committees , which will then decide on membership themselves.

" Discussions now under way with U.K. and FR particularly re cotton committee. Rqst ur comments on:

1. Feasibility direct Japanese Governemnt representation on committee without SCAP observer or alternate.

2. Whether any official action can or should be taken by you to indicate clearly that Japanese Government has free hand in matters of commodity imports and exports."

"Press has reported constitution of commodity committees without names of countries invited. Agreed by 3 countries keep this info Confidential until replies received to invitations. Suggest countries invited to committees other than cotton not be discussed at this time with Japanese Government."

"Will keep you advised."

Part 2. From Department of the Army for info of MacArthur and Sebald. State has been informed of this note.

Both Defense and Army strongly of opinion that Japan should be be invited to sit on such of the committees as may be appropriate under the criteria established by US, UK and France (That is, 1 of the 5 leading exporters or importers). Appreciate your views as to committees in addition to cotton on which you believe Japanese representation would be justified.

Trustee bankruptcy of US Estate GNI Japanese shipping Corporation (Nippon Yusen Kaisya) has queried Dept of State re arrangements which may have been made between the US and Japan that would prevent trustees libeling corporations vessels calling at US ports. Trustee alleges claims of American creditors against the Japanese Corporation total $218,236.

States tentative opinion is that unless there have been legal proceedings in Japan which have created a new juridical entity, vessels of the Corporation would be subj to attachment or libel in courts of the US for prewar claims. Therefore, State feels only practical alternative would be for the company and the Japanese Govt either to make the fgn exchange available voluntarily for such claims or to pay the claims only after the libels have been adversely decided. To pay claims voluntarily might involve questions of equity toward claimants unable to attach assets of other Japanese debtor companies.

In view of the importance of this ques in connection with the revival of the Japanese merchant marine, and its relevance to other claims against Japanese companies which may be held by Nationals of the US, would appreciate your views on the specific problem of creditors here attaching or libeling Japanese vessels or other property to collect prewar debts. Would also appreciate your views with respect to general problem of attachment of libel action against Japanese vessels in other fgn countries.

State Dept is delaying final reply to trustee pending receipt of your views.

4 Feb 51

FROM : STATE DEPT WASH DC

TO : SCAP (USPOLAD) TOKYO JAPAN

INFO : DEPTAR (OOA) WASH DC

NR : 030420 Z (FEB 2 AT 8 PM) (THIS IS STATE 1212) (POLAD FWD AIR MAIL PUSAN) (BOOK MSG)

FYI and background, fol are Dept's views on course of action which might well be recommended by Comite for Collective Measures (CMC) established by penulimate para GA Res passed Feb 1 (see wireless bulletin Nr 28 Jan 30 and Nbr 30 Feb 1):

1. Mil: From outset, US has consistently sought prevent extension conflict beyond borders Korea, and UN Unified Command has refrained under greatest provocation and at considerable cost to UN forces, from ordering atks on Chi terr. US will continue seek confinement hostilities to Korea and in present circumstances wld not contemplate asking CMC recommend any mil opns against Chi terr.

2. Econ: We have ourselves applied complete embargo on trade with China. We wld wish have CM explore feasibility application econ sanctions by all other UN members. We are aware certain Eur Middle Eastern and Asian countries, notably India and UK, will probably express strong objection any effort impose full embargo on political as well as econ grounds. We are therefore willing accept initially, in order preserve greatest possible degree free world unity, recommendation that members apply selective embargo on export to China of key items for use Chi Red Army and directly serving Chi war making potential. These items wld certainly include petroleum products, munitions, and equipment and commodities directly employed in production munitions. Such a selective embargo is in our view an indispensable and irreducible minimum. It would have comparatively

COPY No.

little effect on Agrarian, largely self-sufficient economy of bulk of civ China, but wld tend hamper support and extension Chi mil operations. It wld not appreciably increase burden on western Eur suppliers, or cause them additional admin difficulties. (FYI these supplies are already applying export controls this character against China without public announcement, as element of east-west trade restriction. These controls are known only US, Canada, UK, Fr, Denmark, Italy, West Ger, Neth, Belg, Lux, Norway, as participants in org for control of trade with Sov Bloc, and shld not be made known elsewhere.) Since selective embargo cld be recommended to members within relatively short period, we cld start with that, reserving for subsequent study desirability and need of more complete trade embargo as now applied by US.

We do not wish advocate stronger econ program at this time, even for bargaining purposes, as we believe foregoing considerations are valid reasons for limiting our position at this stage to minimum and pressing most strongly for it.

3. Polit. While in our opinion we wld be fully justified in view of Chi Commie conduct, in seeking a UN recommendation that members who now recognize Chi Commies shld rupture dipl relations with them, we are not planning at present to apply pressure for such an internatl polit expression condemnation because we realize this wld be a formal gesture not worth strong pressure and resentments involved. We wld urge upon Comite it recommend that members which have not yet recognized Chi Commie regime shld not recognize that regime. This wld provide sufficient non-Sov representation in China handle free world interests, wld prevent Sovs from becoming sole channel communication with outside world; and shld avoid strong adverse reaction from India, Sweden and UK which we wld anticipate if we sought complete dipl break we wld also assume that Comite wld recommend that Chi Commies not be seated in UN organs and not be permitted participate as reps of Republic of China in UN activities. Together with this, we wld expect CMC recommend that GA adopt declaration that UN and its members wld not recognize legality any terr change or polit situation brought about as a consequence of Chi Commie aggression in Korea.

We recognize that any action along lines envisaged in preceding paras wld involve certain concomitant problem and difficulties which wld have to be worked out either in Comite or through dipl channels.

We believe program of foregoing type might hamper Chi mil preparations for future campaigns and increase drain on Sovs to supply Chi Red Army, and wld enable free world exert continuing pressure on

Chi Commies to change their policies and seek an accommodation with UN on acceptable terms. We are under no illusions that such a program will itself bring Chi Commies to their knees or noticeably affect Chi mil operations in Korea in near future. It is important not underestimate moral effect collective UN action apply sanctions against Chi Commies, either in China, in rest of Sov Bloc, or in outside world.

We have emphasized that passage of RES does not close door to future negots toward peaceful settlement on basis UN principles and objectives, for which RES provides suitable machinery, and that we continue earnestly seek confinement of conflict in Korea. You will note Para 8 of GA RES provides that Comite studying collective measures is authorized to defer its report if the Good Offices Comite reports satis progress in its efforts.

Subj is Post Treaty Civil Information and Education Program in Japan. This msg is in 3 parts.

Part 1. State and Army now engaged in discussions on form of future civil information and education program to be conducted by State Dept in Post Treaty period. Discussions include survey of State Dept plans and policies in this field as they relate to and may effect present Army program in scope, approach, and support.

Part 2.

1. In Germany and Austria, it was found advantageous to transfer ZI support of some phases of program to Dept of State prior to transfer of entire responsibility.

2. Preliminary view here is that ZI support of exchange of persons program, less US visiting experts phase, could be assumed by State Dept on 1 Jul 51. (This assumes that treaty becomes effective after this date).

Part 3. Bearing in mind preliminary character of discussions here and necessity for forward planning, your comments requested.

REURMSG Dec G 52373 subject Scrap and Salvage Operations in Trust Territory of Pacific. This msg in 2 parts.

Part 1. Following are pertinent excerpts from Chief of Navy Materiel msg DTG Jan 211419 Z for action to HICOMTERPACIS Admin:

"Subject is policy refer salvage and disposal sunken vessels. Due to shortage steel scrap it is desired to have sunken vessels salvaged where such salvage operations can be conducted at no expense to the government. Rqst HICOMTERPACIS offer sunken vessels to United States and SCAP approved Japanese salvage companies with provision that scrap can go to either United States or Japan. As Japanese industry under control SCAP being integrated with United States defense production Japanese industry will receive same considerations regards raw materials as United States industry. Office Navy Materiel will solicit names of United States salvage companies interested in bidding on salvage operations if such information desired by HICOMTERPACIS."

Part 2. The Secretary of the Navy and Chief of Naval Operations have concurred in above. Appreciate advice at your convenience as to progress negotiations with HICOMTERPACIS and final developments.

1st US Education Mission to Japan rptd concerning Japanese education, that "A well-organized system of councelling and guidance, both educational and vocational, will prove helpful."

2d US Education Mission concluded that counselling and guidance svcs "will need to be developed in Japanese higher educational institutions far beyond their prement range."

Based on these and similar rpts, several American Educational leaders have suggested that consideration be given to sponsorship by SCAP of 1-yr project at a leading Japanese University to instruct younger University Instructor in modern American student counselling and gudiance techniques and procedures. Objectives of such project would be to provide example for Japanese education in future and develop closer ties between American and Japanese Universities and Colleges, as well as train selected potential educational leaders in methods for bridging gulf between faculty and students.

It has been proposed that about 10 leading US Specialists cuuld be secured as Faculty Members to provide instruction for about 200 selected Japanese Assistant Professors for 1 yr school beginning 1 Sep 51. This opening date would permit recruiting better American Staff that other date not corresponding to US Academic yr.

Fiscal yr 51 funds can be made aval here for contract with agency such as American Council on Education, which has indicated interest informally, to advise on curriculum, recruit faculty,

In connection carrying out instructions under DEPCIRTEL 364 for background info shld be taken into account and used at your discretion in order lessen likelihood Asiatic govts interpreting course action outlined REFTEL as case high-handed action Western Powers draw up plans commodity controls without broad consultation other interested govts. Although tripartite initiative in part response to lead taken regional orgs such as OEEC and NATO, was at same time recognition that solution problem required cooperation non-European govts, which have no comparable regional orgs, as well as European govts. Throughout urgent discussions these problems, US keenly aware need and desirability bringing in Asiatic interests. (For URINFO only, ref tel conversation with Fr and UK govts and represented, after highest level efforts, best compromise obtainable re question broad participation). Plans set forth ref tel clearly intended permit programs be developed and carried out in consultation all interested govts.

Tremendous urgency taking action this field is reason for tripartite initiative. In problems involving commodities great importance Asiatic countries, such as tin and rubber, they have participated in discussions. In short, was no intention per se exclude prior Asiatic consultation, but urgency problems and absence existing machinery in which Asiatic govts participants made course action outlined ref tel 5 U 1. It will be firm intention US govt in helping set up machinery and carry out programs to attempt assure all free countries have opportunity appropriate participation.

NR : 112140 Z (BOOK MSG) (CIRCULAR 370 11TH)

USDA Crop Report Jan 1,1950 farm grain and hay stocks million bushels:

Corn 2,161 wheat 336 oats 908 barley 139 rye 7 soybeans 98 and hay million tons 73.

Farm supplies feed grains larger than in all but 3 years on record but smaller than Jan 1st of past 2 years.

Farm stocks wheat smaller than average but slightly larger than year ago.

Soybean stocks largest for any Jan 1st on record because of record crop.

Hay stocks ample most areas. Factors which may affect 1951 crop outturns have not been entirely satisfactory to date. Sharp upturn in total acreage in crops may be expected from relatively low 1950 level.

Citrus fruit production in 1950 in thousands of boxes estimated as fols:

Oranges and tangarines 110,640 against 108,535 last year, grapefruit 47,520 against 36,500 last year and lemons 12,500 against 11,360 last year.

Milk productions in 1950 estimated 120,495 million pounds compared 119,136 in 1949.

Egg production 59,433 millions in 1950 compared 56,382 millions in 1949.

A relatively large winter wheat acreage a sixth more than average was sown in fall of 1950 under conditions mostly favorable to ideal for germination and early growth. However in the important control and southern great plains area large sections had insufficient rainfall. Good stands are mostly poorly rooted and probability of

Fol confidential until public release.

Govts of Fr, UK and US will release to press simultaneously in Wash, London and Paris, at 7:30 PM Jan 12, EST fol joint announcement re proposals for new internatl machinery to deal with materials shortages:

"In recent wks reps of Govts of US, UK and Fr have given consideration to ways and means of bringing about coop among countries of free world to increase production and availability of materials in short sup and assure their most eff use.

"Work in fld of materials has been going fwd for several mos in OEEC and, more recently, NATO and OAS. OEEC in particular has made valuable studies of growing problems of scarce materials and has recommended calling of appropriate internatl conference to deal with them.

"Events of last few wks have made these problems of even greater urgency. They have also made it clear that commodity problems cannot be dealt with on regional basis but must take account of needs and interests of whole of free world. Continuing internatl machinery needed through which all interested Govts of free world, whether or not members of OEEC, NATO, or OAS Orgs, can cooperate in solution of commodity shortages which are world-wide in scope and effect.

"Accordingly, three Govts have agreed that proposals shld be made to other interested Govts for creation of nbr of standing internatl commodity gps, representing Govts of producing and consuming countries throughout free world which have substantial interest in commodities concerned. These commodity gps wld consider and recommend to Govts the specific action which shld be taken, in case, ea commodity, in order expand production, increase availability to conserve sups, and assure most eff distribution and utilization of

FROM : STATE DEPT NR : 111759 Z 12 JAN 51 CONTINUED:

of sups among consuming countries.

"Early action is called for with respect certain commodities. The Govt of US has therefore agreed send invitations immed to other interested friendly Govts for estab of certain of standing commodity gps referred to above. Others can be created as needs of free world require. Also, three Govts will estab immed in Wash temporary central gp to provide a servicing mechanism for standing commodity gps. There will be early consultations with other Govts and appropriate internatl orgns with respect to continuing functions and membership of central gp.

"The new internatl arrangements on materials now proposed will, of course, be greatly assisted by contributions in this fld of OEEC, NATO, OAS, and the several existing internatl commodity orgns."

Pls communicate foregoing immed to Govt to which you accredited and express earnest hope that it will be able cooperate with new orgn machinery in dealing with materials problems of interest to it. In making proposal re foregoing machinery, consideration was given to alternative procedure of convening broad internatl conference, including Govt to which you accredited, to consider whole question of appropriate internatl machinery. However, urgency of problem and critical state world affairs have made this course impossible. You shld stress fact that it wld be standing commodity gps, on which substantially interested free world countries represented, which wld have auth to make firm recommendations to Govts on specific measures to be taken in fld of commodity concerned and that temporary central gp wld be initiating, coordinating and servicing mechanism. Participation in commodity gp wld not in any way commit Govt concerned to agree to specific measures affecting commodity. It is intended that Govts not participating in a particular standing commodity gp wld be able to make their views known. You shld also point out that there will be early consultations with interested Govts and orgns including OEEC, NATO and OAS re continuing functions and membership of central gp.
