MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Application for Permission to Use German Owned Patent Right

1. Reference is made to R.A.P. No. 552 (IS). 6 June 1950, subject, "Application for Approval to Use Patent Right Owned by a German National."

2. Subject application is approved. Use of German-owned patent No. 132,420, "Propeller for Marine Use," by West Japan Heavy-Industries, Ltd., hereinafter called "the company," is authorized subject to the following conditions and limitations:

a. Said authorization is non-exclusive, non-transferable, royalty free, and does not confer the right to grant sub-licences or to pledge or encumber this authorization

b. Said authorization is revocable at the option of the Supreme Commander for the Allied Powers

c. Use of subject patent in furtherance of any unlawful cartel or combination, or in any other way that is contrary to the laws of Japan is prohibited. The advertisement or the circulation of information by the company, tending to discredit products manufactured under subject patent by other manufacturers, is also prohibited

d. The company is prohibited from using the trade-mark or the name of the former German owner, wholly or in part, either alone or in conjunction with any other word or trade-mark

e. The company shall keep a record of and shall report to General Headquarters, Supreme Commander for the Allied Powers, the character and extent of the utilization of the patent. Unless otherwise directed by the Supreme Commander for the Allied Powers, such reports shall be made for the calendar year and submitted not later that 31 January of the following year

f. The company shall pay to the Japanese Patent Agency such annual administration fee as is required by Japanese law either in effect at present or enacted in the future

g. This authorization does not constitute a warranty of validity or that use of the patent does not infringe valid patents owned by other persons.

MEMORANDUM FOR: Civil Property Division, Reparations Agency, Japanese Government

SUBJECT: Application for Permission to use Patent Rights Owned by a German National

1. Reference is made to R.A.P. No. 615 (IS), 26 June 1950, subject as above, which requested permission for the use of formerly German owned patents Nos. 120,521, and 123,447 by West Japan Heavy Industries, Ltd.

2. Subject application is denied because of the existance of a prior exclusive license covering these patents which precludes the issuance of a second license.

MEMO FOR RECORD:

1. R.A.P. No. 615 (IS), 26 Jun 50, fwdd TOKU SO No. 301, 24 Jun 50, which transmitted the request, 31 Mar 50, of West Japan Heavy Industries, Ltd, for permission to use formerly German-owned Patents Nos. 120,521 and 123,447 on a royalty free, non-exclusive basis.

2. TOKU SO No. 301 states that these patents are already covered by an exclusive license held by Diesel Kiki K.K. (Diesel Pump and Parts Co.) but that this company is willing to waive its rights to the exclusive feature if both parties are treated equally with respect to royalties. It is believed that acceptance of such a waiver would result in attempts by the Diesel Pump and Parts Co, to have its royalty license canceled in favor of a royalty-free license, which would be undesirable.

3. Memo for CPS, RA, JC, advises that request for permission to use patent Nos. 120,521 and 123,447 by West Japan Heavy Industries, Ltd, is disapproved because of existence of prior, exclusive license covering these patents.

4. Authority: Rad W 86177, 13 Sep 47, and for dir comm, U/M fr C/S, 2 Apr 46.

5. Concurrences: not required.

6. Completes action on Line No. 54872.

FROM: SCAP TOKYO JAPAN

TO: DA WASH DC . . . . . PRIORITY

For OASFE REURMSG WCL 24934, 8 July 1949, concerning JEIA request for information on present regulations governing manufacture by Japanese firms under German held licenses:

Present policy stems from radio W 86177, 13 September 1947, from WAR (WDSCA ECON) to CINCFE, subject, "Disposition Vested German Patent Property", as follows: "...for the time being, therefore, you should preserbe these patents in the present status, 'administering' them..." "This would include: (1) collecting royalties under existing license agreements (which agreements ...are subject to deconcentration and anti-trust measures adopted in Japan), and (2) the grant of temporary licienses where immediate use of the patent in your judgment is essential to achieve occupation objectives..."

Re desire of Maschinenfabrik Augsburg-Nuernberg A.G. to license Japanese manufacturers: assets, including patent properties and contractual rights in Japan of this company are vested in the GEPC under Law No. 5 of the Allied Control Council for Germany. Furthermore, SCAP now has for consideration (1) application from Mitsubishi Jukogyo K.K. (formerly Yokohama Shipyard and Engine Works Co., Ltd.) for validation of existing non-exclusive license agreement with MAN: and (2) application from Kawasaki Heavy Industries Co., Ltd. at Kobe for extension fo expired non-exclusive license agreement with MAN. Both agreements cover, generally, the construction of MAN type deisel motors, under MAN patents and experiences.

In accordance with the provisions radio W 86177 above quoted, sCAP will validate license to Mitsubishi Jukogyo K.K. and will extend license of Kawasaki Heavy Industries Col, Ltd., Kobe, collecting royalties reserved in these contracts.

"Allocation of Staff Responsibilities for the Execution of JCS Directive to SCAP"

CFC/rp SWS

17. MAY 1949

1. CFC is of the opinion that the construction placed upon the phrase, "new patent applications in Japan," in Check Note #2, 9 May 1949, by SWS is erroneous, for the following reasons:

a. JCS Directive, Serial No. 100 is clearly intended to secure Allied nationals of patent protection in Japan on their inventions which were made during the war, when such nationals were prevented from filing applications for Japanese patents on their inventions.

b. In order to secure the protection in Japan contemplated by JCS Directive, Serial No. 100, a "new" application for a Japanese patent must be filed. The subject matter of the "new" application, however, is not a new invention, but one that had been patented in an Allied country between 7 December 1940 and 2 September 1947. In addition, the "new" application must be accompanied by a certified copy of the old, or original, application previously filed in another country by that national.

c. The Japanese Board of Patents was authorized to accept and process applications for patents by any persons outside Japan with such priority rights as are provided by the International Convention for the Protection of Industrial Property, by SCAPIN 2081-A, 7 September 1948, which opened the door for new patents and new foreign technology. There has thus been no prohibition against the filing of "new patent applications" in Japan based on new inventions, since 7 September 1948. See SCAP Radio C 62328, par 6, 26 July 1948, and Washington Radio W 89316, 28 August 1948. Therefore, JCS Directive, Serial No. 100 is not concerned with new inventions, but with giving Allied nationals priority rights on patents which, by reason of the war, they could not acquire in Japan.

2. The right of an Allied national to a priority filing date based on a previous first filing date in any country, denied him because of the war, will therefore be restored to him under the provisions of JCS Directive, Serial No. 100. This right therefore becomes subject to restitution under CFC's restitution program.

3. It is therefore, suggested that staff action on the Directive remain with CFC as originally assigned.

MEMO FOR RECORD:

DHD/DA/mjc
17 May 1949

1. C/N #1, 29 Apr 49, from SNS to ESS, subj, "Allocation of Staff Responsibilities for the Execution of JCS Directives to SCAP," requested comments of ESS on proposed allocation to CFC of responsibility for JCS Directive, Serial No. 100, and in C/N #3, 12 May 49, from SNS to CFC, forwarded for CFC comments the non-concurrence of ESS. The non-concurrence was based on an erroneous construction of the words "new patent applications in Japan" which ESS construed to include patents granted to Allied nationals in other countries during the war.

2. C/N #4 to SNS sets forth the opinion of CFC that JCS Directive, Serial No. 100 is concerned only with restoration to Allied nationals of their right to protection in Japan on their wartime patents, i.e., patents granted in other countries from one year before the outbreak of hostilities to one year before the re-opening of the Japanese Board of Patents for acceptance of foreign applications; that while "new" applications for such protection must be filed, the subject matter is not new, as implied by ESS in its non-concurrence, but naturally falls under CFC's restitution program; and suggests that staff action remain with CFC as originally assigned.

3. Authority: Washington Rad # 68316, 28 Aug 48, and JCS 100, 24 Mar 49.

4. This is a matter of policy but not one of substance, and no surveillance by the 8th Army is required.

5. Completes action on Line No. 30048.
