RE: Production Report Date 3 June 1946

Company Name Yodoshi Workable Cast Iron Mfg. Co.

Address No.170 Ooza Nagano, Naganicho, Minami-kawachi-gun, Osaka.

Date Inspected 1 June 1946

Permit No. IG 99 Date 18 Jan. 1946

Authorized Items Produced	Number	Price

Farming tools (spade)	2 tons	

Unauthorized Items	Number	Price

Grain grinders	2,000	(3,000 semi finished)
Spools for wire	500	
Electric heaters	2,000	
7 HP motor cases	200	
parts of 3 kinds of electric grinders	30 tons	

Interviewed Kiyoshi Azuma the director. Report includes both the Nagano and Uwahara Factories for the month of April.

Only authorized articles were submitted on production report which made the report completely false. Attitude of Mr. Azuma in giving information was very poor. Only a complete inspection revealed the products made.

Permit was taken from company and production stopped on all unauthorized articles. This action finally convinced Mr. Azuma that we meant business and only then did he show any signs of interest in our inspection. A complete production report will be filed by the company and an application to make additional items to the Liaison Office immediately.

Inspection was unsatisfactory in all respects.

Approved H. H. Harmon
