DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

KYOTO CITY FIRE BUREAU

Kyoto, November I7, I948

T O : Col. F. Kowalski,
Commanding Officer,
Kyoto Military Government Team.

SUBJECT: Further Request for Exemption from Reparations on Fire Trucks

Sir,

As has been notified to you, the present fire trucks in Kyoto City total only 58, far less in number than those in other cities, affecting our fire activities a great deal. Though a plan is under way that IOO fire trucks or one per IO,000 population be increased, scarcity of distribution of fire trucks will in all probability prevent us from coming at its full materialization. In these circumstances, if the two fire trucks will be exempted from reparations through your good offices to bring them to our hands, our appreciation for your thoughtful kindness is really beyond description.

Please take the matter into your earnest consideration and see to it that the case will take a turn for the better. Detailed description on the matter is herewith attached so.

Yours respectfully,

KYOTO CITY FIRE BUREAU

for Chief
Y. Sakamoto (Deputy Chief)

Masamichi Mitsuaki
CHIEF

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Detailed Description

I. Two Fire Trucks: Toyoda I943 (No. I0602I)
Nissan I94I (No. I80I0II)

2. Purpose for Their Use: For use in fire fighting in Kyoto City.

3. Former Owner : Former Maizuru 3rd Naval Gunpowder Depot.

4. Capacity: The engines, most of whose parts being withdrawn, are impossible to operate unless the repairing work is conducted. Pumps getting rusty inside due to negligence of care are also in out of order. Thus uselessness in this present moment.

5. Remarks (Developments to date):

(I) In June, I947, permission was granted for us for disposing of two fire trucks owned by former Maizuru 3rd Naval Gunpowder Depot as the special property for fire fighting.

(2) To receive the immediate delivery of the said two fire trucks, the Kyoto City Fire Bureau members were dispatched to the Depot. However, this was not realized because of the fact that the fire trucks were found to be state-owned and placed as property for reparations in the custody of the Osaka Finance Bureau.

(3) Notification was made regarding impossibility of delivering the fire trucks to the Local Section (Chiho-ka), Kyoto Prefecture, in chargs of the special property. Simultaneously application for disposing of the fire trucks was filed with the Osaka Finance Bureau.

(4) Being notified of the decision of disposing the fire trucks in July I948 by the Osaka Finance Bureau, the Kyoto City Fire Bureau members were despatched so as to receive their delivery to the former Maizuru 3rd Naval Gunpowder Depot and the Osaka Finance Bureau's Maizuru Custodial Branch Office. Then they were told that it was impossible to receive the delivery of the fire trucks which were state-owned but possible to get them subject to permission following our application for temporary use of them.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(5) In September I947, we submitted the application for temporary use of the fire trucks owned by the state to the Osaka Finance Bureau.

(6) After the foregoing application, we came into frequent contact with the Osaka Finance Bureau, which resulted in unsatisfactory answer to us.

(7) In November I947, we sent again the members in charge to the Osaka Finance Bureau's Maizuru Custodial Branch Office, and were told that as the permission of the Occupation Forces authorities was prerequisite prior to delivery, it would be well for us to approach the Osaka Finance Bureau.

(8) We were advised in December I947 from the Osaka Finance Bureau's Maizuru Custodial Branch Office that the permission of the Occupation Forces authorities was granted but following the Japanese Government's permission the notification of delivery of the fire trucks through the Kyoto Prefectural Office would reach us.

(9) In February I948, the members in charge again went to Maizuru Custodial Branch Office and the Kyoto Prefectural Branch Office and were asked to set in touch with the Public Relations Section (Shogai-ka), Kyoto Prefecture, having the competence of disposing of special property.

(I0) Therefore Immediately after obtaining the permission of the delivery from the Public Relations Section, Kyoto Prefecture, the Kyoto City Fire Bureau's members went to Maizuru to hear from the Osaka Finance Bureau's Maizuru Custodial Branch Office that the lack of permission by the Kyoto Military Government Team would prevent us from receiving the delivery of the fire trucks.

(II) In April I948, again negotiations were made among our Bureau's members, the Kyoto Prefectural Branch Office and the Osaka Finance Bureau's Maizuru Branch Office. Subsequent to the latter's acknowledgment, our members accompanied by the latter's members in charge visited the Kyoto Military Government Team's Maizuru Detachment who granted us the permission of the delivery.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(I2) In August I948, the application for exemption from reparations on the fire trucks was tendered through the Osaka Finance Bureau's Kyoto District Department to the Kyoto Military Government Team.

ANNEX

COPY

November 29, 1948

To : Chief of Kyoto District Department,
Osaka Finance Bureau.

Subject: Tranfer of jurisdiction over released motor-cars.

As the below-mentioned fire-engines (motor-cars) which were located in Maizuru 3rd Gun-Powder Mill have been released to the Japanese Government in accordance with APO 301 as shown in the annex, I hereby transfer the jurisdiction over them to you. Incidentally I call your attention to the fact that these fire-engines are being under the custody of Shimo Fire-Station of Kyoto City Fire Bureau.

Osaka Finance Bureau,
Maizuru Branch for Reparation

1 June. 1948

SUBJECT: Application for using the ground and building (excluded from reparation) in reparation arsenal

TO : K.M.G.T. Maizuru Detachment

Japan Starch Industrial Co., Ltd. have hope the conversion of a part of 3rd Naval Powder Plant(22-25), Oba District since last year. We gave our domestic permission to them under the opinion which their conversion plan will greatly contribute to the development of Japanese peace industry.(enclosure) And now are applying for the permission of G.H.Q. through your team.
Recently (Dated 2 March 1948) the ground and the building of 3rd Naval Powder Plant were excluded from the reparation.
And so for the time being we decided to let them use the ground and buildings which were shown in attached their application.
There are no inventoried machines in these buildings.
We intend to make the distinct fence between their using area and other, and to do all dealing which secure our proper custody of these area.
These building are idle in long times and being distructed by the wind and rain.
We believe that the leting them use these building and grounds as soon as possible is useful for Japan, and respedtfully ask you favourable permission.

TO: Kyoto Military Government Team.

THRU: Maizuru Detachment, K.M.G.T.

It is that Japan Starch Industrial Co., Ltd. were already applieded temporary use of a part of installation in Former 3rd Naval Powder Plant, Oba District, and it was determined domestically use plan that National Property Adjustment Committee recognize proper use of said Corporation.

The said district is submitted formal application for release on 8th Nov. 1947.

Above corporation have attached conversion program and wait your permission after completion of all preparation as open the operation as soon as your grant.

We respectfully ask your favourable permission.

M. Sakai

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPLICATION FOR CONVERSION OF INSTALLATION AND
OPERATION OF 3RD. NAVAL POWER PLANT, OSA DISTRICT

Dec. 8th 1947

TO: Kyoto Military Government Team

Dear Sir:

Our Company, Japan Starch Industrial Co., Ltd., has been planning to manufacture starch, glucose, caramel, sorbitol, water solubul paints and several other chemical reagents from potatoes and sweet potatoes, investigating at the same time various new kind of reagents. We have succeeded in grinding glucose to powder which had not been achieved by any other countries except Germany, and as the result we are able to produce some commodities, for instance, Baby Meal, Children's Joy which were made from powdered glucose, soluble starch, vitamines. These commodities were already designated by the Dept. of Welfare as nutriments for infants.

We aimed at the 3rd Naval Power Plant because its machineries and equipments are very suitable to establish a large scale of production plant of starch industry. For instance, its nitrators can be easily converted to converters which are necessary for conversion of starch to glucose or for evaporation of thin glucose juice to concentrate, and for other instance, its separators and centrifugal machines can be used as purifying machines without giving any alterations. In addition to these circumstances, the equipments in the 3rd Naval Power Plant are almost all made of alminum or stainless steel and this fact is very much suitable for our purpose because starch industry needs much amount of acid and alkali. We are quite aware of the fact that many of the machineries and equipments in the 3rd Naval Power Plant have been designated as compensated goods, but we can hardly accomplish our purpose unless we could get those compensated machineries and equipments.

By above reason we have applied for Japanese Government the conversion use of the 3rd Naval Power Plant, and we have got the permission from Dept. of Finance on condition that we coul get the permission from Allied Military Government.

We herewith submit the documents connected with the application for conversion use. We have already completed all preparations and are now waiting for your permission.

We respectfully ask your favourable permission.

Yours Truly:

Morihei Takahashi

7. Raw Materials and supplies needed (monthly)

a. For present capacity (see B. 3 b. 2)

Description	Quantity
starch	25.5 tons

b. For maximum (see B. 3 b. 3)

Description	Quantity
starch waste	45 tons
starch	100 tons

8. Fuel needed (monthly) (do not include present stocks)

Description	Quantity
coal	85 tons

9. Personel required

Employees	Workers
20	200

10. Prices (give current selling prices in Yen of principal products)

Description	Unit	Price
starch	Kg	1280
glucose	Lbs	1511
chemical starch	Kg	6000
fructose syrup	Kg	3333
caramel	Kg	2440

11. On reverse side give outline sketch of plant lay out with approximate dimensions.

The factory being too large to sketch on reverse side, please see the attached plan.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

B. Outline of factory of applicant

1. Name of president or manager — Morihei Takahashi

2. History

a) Date of construction — Feb. 15th, 1947.

b) Date of first operation — Mar. 15th, 1947.

c) 1935-1941 Production (Annual value in Yen: Quantities of principal products by units or weights)

nil

d) Present capitalization in Yen ¥3,000,00000

e) Changes made in capital structure since 1935

Feb. 15th, 1947 ¥ 500,00000

Aug. 14th, 1947 ¥3,000,00000

f) Name and address of present company

Name Japan Starch Industrial Co., Ltd.

Address No. 5, Asahi-cho, Kanda, Chiyoda-ku, Tokyo.

g) Number of shares outstanding

60,000 shares (¥5000 per share)

h) Number of stock holders

(Give name of those owing 10% or more total)

stock holders 56

those owing 10% or more nil

i) Funds received from government(Bounties, subscription, etc.)

nil

3. Description

a) Principal products

1. War time — nil

2. At present — Baby Meal, Children's Joy

3. Planned for 1946-1947

Baby meal, Children's Joy, caramel and glucose

b) Capacity

1. War time — nil

2. At present — Baby Meal 6 tons per month; Children's Joy 10 tons per month

3. 1946-1947 — Baby meal 6 tons per month; Children's Joy 10 tons per month; caramel 9 tons per month; glucose 25 tons per month

c) Number of employees

1. War time — nil

2. At present — 39 employees and 10 workers

3. 1946-1947 (at maximum capacity)

59 employees and 210 workers

C. Certification by applicants

I certify that the information contained herein is to true to the best of my knowledge and belief.

Signed Morihei Takahashi

Title President

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Osaka Finance Bureau
Maizuru Branch for Reparation

27 January 1948.

Subject : Sub-application for permission begining of Operation in the distrct decision domestically temporary use.

To : Kyoto Military Goverment Team, Maizuru Detachment.

We, Japanese Goverment, permitted domestically temporary use of a part of installation in Former 3rd Naval Power Plant, (22-25) Oba District, for Japan Starch Industrial Co., Ltd. through National Property Adjustment Comittee.
They complete all preparation to open the operation, and wait your permission.
We respectifully ask your favourable permission.

Incl : Osaka Finance Bureau
Kyoto Branch Office Sub-application.
Conversion Program with map.

H. Yasuda

Signature. Hideo, Yasuda.

Chief of Osaka Finance Bureau, Maizuru Branch for reparetion.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

OSAKA FINANCE BUREAU
KYOTO BRANCH OFFICE

13 December 1947

SUBJECT: Sub-application for permission beginning of Operation in the district decision domestically temporary use.

TO: Kyoto Military Government Team.

THRU: Maizuru Detachment, K.M.G.T.

It is that Japan Starch Industrial Co., Ltd. were already applieded temporary use of a part of installation in Former 3rd Naval Powder Plant, Oba District, and it was determined domestically use plan that National Property Adjustment Committee recognize proper use of said Corporation.

The said district is submitted formal application for release on 6th Nov. 1947.

Above corporation have attached conversion program and wait your permission after completion of all preparation as open the operation as soon as your grant.

We respectfully ask your favourable permission.

M. Sakai

M. Sakai
Director,
Kyoto Branch Office

Incl: Conversion Program
with map.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPLICATION FOR CONVERSION OF INSTALLATION AND OPERATION OF 3RD. NAVAL POWER PLANT, OSA DISTRICT

Dec. 5th 1947

TO: Kyoto Military Government Team

Dear Sir:

Our Company, Japan Starch Industrial Co., Ltd., has been planning to manufacture starch, glucose, caramel, sorbitol, water solubul paints and several other chemical reagents from potatoes and sweet potatoes, investigating at the same time various new kind of reagents. We have succeeded in grinding glucose to powder which had not been achieved by any other countries except Germany, and as the result we are able to produce same commodities, for instance, Baby Meal, Children's Joy which were made from powdered glucose, soluble starch, vitamines. These commodities were already designated by the Dept. of Welfare as nutriments for infants.

We aimed at the 3rd Naval Power Plant because its machineries and equipments are very suitable to establish a large scale of production plant of starch industry. For instance, its nitrators can be easily converted to converters which are necessary for conversion of starch to glucose or for evaporation of thin glucose juice to concentrate, and for other instance, its separators and centrifugal machines can be used as purifying machines without giving any alterations. In addition to these circumstances, the equipments in the 3rd Naval Power Plant are almost all made of aluminum or stainless steel and this fact is very much suitable for our purpose because starch industry needs much amount of acid and alkali. We are quite aware of the fact that many of the machineries and equipments in the 3rd Naval Power Plant have been designated as compensated goods, but we can hardly accomplish our purpose unless we could get those compensated machineries and equipments.

By above reason we have applied for Japanese Government the conversion use of the 3rd Naval Power Plant, and we have got the permission from Dept. of Finance on condition that we could get the permission from Allied Military Government.

We herewith submit the documents connected with the application for conversion use. We have already completed all preparations and are now waiting for your permission.

We respectfully ask your favourable permission.

Yours Truly:

Motikei Takahashi

		Washing Vessel	2	-	for fermentation of yeast
	No. 1. Explosive Factory	Dissolving Vessel	2	-	for vacuum pan in glucose factory
		Weighing Tank	3	-	for weighing of glucose solution
		Nitrator	2	-	for effect pan in glucose factory
		Distilation Kettle	2	-	
		Separator	4	-	for purification of glucose solution
		Centrifugal Machine	5	-	
		Solvent Vessel for Lifting Liquid	3	-	for waste solution of glucose
		Solvent Storage Tank	2	-	for fermentation of yeast in yeast factory
		" "	1	22-25-11E2	
		" "	1	22-25-12E2	
		Battery Track	1	-	for transport of raw materials to glucose factory
		Vessel for Melting Phenol	1	-	as supply tank of thin liquor in glucose factory

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

No. of factory	Previous Names	Machineries	Nos.	No. of inventry	Purpose of conversion use.
7	No. 1 Explosive Factory	Crystalizer	1	-	for purification of glucose solution
		Air Hoist	1	-	for repairings of vessels in glucose factory
		Fan	4	-	for drying of glucose
		Converter	3	-	for converters of starch solution
		Tank for Solvent	3	-	for storage of acids & alkalies in glucose factory
		Vacuum Chamber	1	22-25-8E2	for vacuum chamber in glucose factory
		Centrifugal Pump	1	22-25-549	for lifting and transport of starch and glucose solution in glucose factory
		" "	1	22-25-550
