TOKYO CIVIL AFFAIRS TEAM
APO 500

AGL 240

20 September 1949

SUBJECT: Wages of Clerical Workers and Service Personnel employed by the Allied Forces.

TO: All Labor Using Units in Tokyo-To.

1. a. Wage Scale, Ltr AGL 240, Hq TMGT dated 25 Feb. is rescinded.

b. The effective date of this scale is 1 Sept. 49.

2. Determination of Salaries.

a. The Special Procurement Board, a Japanese Government Agency, is the responsible organ for the fixing of job titles and salaries contained herein. This board is the final approving agency on applications for base salaries in excess of ¥ 9640. Determination and approval of salaries below ¥ 9640 is the responsibility of the Metropolitan Government. In all cases, recommendations for salaries in excess of ¥ 7500 will be submitted in accordance with par. 14, ltr. TMGT subject "Labor Regulations" dtd 28 May 49. Certain other titles (as marked by a double asterisk) below ¥ 7500 must also be submitted through TCAT.

b. In determining salaries, any figure between the minimum and maximum may be used. New employees should not be hired at the maximum salary, but rather as near the minimum salary as previous experience and service will permit. Subsequent readjustment should be made in small increments of ¥ 100 to ¥ 500. A ¥ 50 increase for every six months of satisfactory service will be granted up to the maximum grade upon application by unit. In no case will the basic wage exceed the maximum shown for the job title.

3. Classification.

a. In all cases employees will be classified in accordance with the nearest applicable title listed in attached scale. A guide for the purpose of classifying some of the more common jobs in terms of wage scale titles is shown as inclosure #2.

4. Wage scale "Prevailing Wages of Skilled Workers and Common Laborers employed by the Allied Forces", Headquarters TMGT dated 28 Feb. 49 is still in effect.

FOR THE CHIEF:

2 Incls.
1. Wage Scale for Clerical Workers.
2. Classification Guide.

CLYDE C. DUNCAN
WOJG, USA
Adjutant.

HC 230.14 (HJL) 1st Ind

HQ, HEADQUARTERS AND SERVICE GROUP, GHQ, FEC, APO 500 29 December 1949

TO: All Facilities Utilizing Indigenous Personnel

1. Attention is invited to basic communication which provides for the payment of extraordinary year-end allowances to indigenous employees.

2. In order to permit this headquarters to charge the allowances paid to each employee against the correct appropriation and project account code, the following method of preparing the required roster will prevail for all units, staff sections, and clubs utilizing indigenous personnel for which this headquarters has administrative and/or operational responsibility:

a. The names of all employees chargeable to a specific appropriation and project code will be listed under that code by service seniority based on the formula outlined in paragraph 3, a, b, and c of basic communication.

b. Units, sections, and clubs having multiple appropriation and project codes will list under each code the names of indigenous personnel chargeable to a specific code and again use the service seniority listing procedure.

c. The completed roster broken down by appropriation and project and service seniority will be forwarded to Japanese Labor Control Division, this headquarters in quadruplicate as soon as possible and in no case later than 7 January 1950. It is suggested that all rosters be hand carried to the Japanese Labor Control Division, Room 243a Finance Building, to expedite the consolidation of the rosters.

d. Rosters received must include the prescribed certificate noted in paragraph 5 of basic communication and signature of section, unit, or club labor officer must be affixed thereto. Certifying signature of anyone other than the section, unit, or club labor officer will not be honored.

3. Reports on yen expenditures relative to this year-end allowance will be made by the Japanese Labor Control Division, this headquarters. HSA #19, Monthly Report of Yen Expenditures, submitted by sections, units, and clubs will not include the yen paid under the provisions of this letter.

4. Attached for information and guidance is sample copy of completed roster. Further assistance in compiling and preparing the roster may be obtained by contacting the Japanese Labor Control Division, this headquarters, Room 243a Finance Building, telephone 26-6739.

HEADQUARTERS
HEADQUARTERS AND SERVICE GROUP
GENERAL HEADQUARTERS, FAR EAST COMMAND
APO 500

HC 230.14 (HJL) 4 August 1949

SUBJECT: Reports Required for Directly Employed Japanese Labor

TO: See Distribution

1. References:

a. Administrative Memorandum No. 37, this headquarters, dated 4 April 1949, subject: "Japanese Labor Serving the Occupation Forces".

b. Letter, this headquarters, HC 248 (HSA), dated 23 July 1949, subject: "Report of Yen Expenditures for Directly Employed Japanese Labor".

2. In order to avoid duplication in reporting, the QGD-23 (R1), Operative and Productive Labor Report, required by Section XI of reference 1 a, is cancelled effective with submission of the report for the month of June 1949. However, in order to furnish essential information to GHQ, SCAP, a revision of HSA Form 19 (23 July 1949), Monthly Report of Yen Expenditure for Directly Employed Japanese Labor, as required by reference 1 b, will be necessary.

3. Effective with the report for the month of July 1949, the Monthly Report of Yen Expenditure for Directly Employed Japanese Labor (revised form attached as Encl #1) will include the number of personnel employed for each appropriation, project and object account code. The number employed will be the daily average for the month. The daily average will be obtained by adding the number of Japanese personnel on pay status for each work day of the month and then dividing the total by the number of work days in the month. The number of work days in the month will vary from 21 to 23 for employees on a 40-hour week, and 25 to 27 for employees on a 48-hour week, dependent on the month being reported upon. All fractions arrived at when computing daily average will be counted as a whole number.

4. A study of the initial Monthly Report of Yen Expenditures for Directly Employed Japanese Labor submitted to this headquarters for the first quarter JFY 1949 (April, May and June) indicate that confusion still exists in computing the "Total Tax Deducted" column. The "Total Tax Deducted" column will include only the amount listed in the "Tax" column on the Japanese payroll. The amounts deducted for Health Insurance and Welfare Annuity will not be included as tax for the purpose of this report.

5. Schedule for submitting HSA Form 19, Monthly Report of Yen Expenditures for Directly Employed Japanese Labor, remains unchanged. Chiefs of staff sections and unit commanders must insure that this report arrives at the Japanese Personnel Division, S-1 Section, this headquarters, not later than the 20th day subsequent to the month for which the report is rendered.

6. Assistance in compiling and preparing this report may be obtained by contacting Japanese Personnel Division, Room 243a, Finance Building, telephone 26-6739.

7. Letter, this headquarters, HC 230.14 (HJL) subject: "Operative and Productive Labor Report on Japanese Personnel", 7 June 1949, is rescinded.

BASIC: Ltr fr Headquarters, Tokyo Civil Affairs Team, subject: "Release Notice of Japanese Nationals", dated 4 October 1949

HC 230.14 (HJL) 1st Ind

HQ, HEADQUARTERS AND SERVICE GROUP, GHQ, FEC, APO 500 14 October 1949

TO: All Facilities Utilizing Indigenous Personnel

1. Attention is invited to basic communication which prescribes the method and manner under which indigenous personnel will be released.

2. Particular attention is invited to par 3 of basic communication. HSA Form #6, Roster of Employees to be Released, attached as Incl #1 will list name or names of all indigenous personnel to be released and other pertinent data required. This roster will be submitted to the Japanese Area Management Office responsible for computing the pay of the personnel concerned at the time the employee is given his or her 30 days notice of release. The roster will serve as a tentative forecast for the number of indigenous personnel to be released and it is anticipated that more expedient disbursements of retirement and/or discharge payment by the various area management offices will result.

3. Attention is also invited to the number of days allowed each unit or section for the submission of the Release Notice of Japanese National after termination of the 30 days notice. Strict adherence to this time limitation will be exercised so that the pay and allowances for released employees can be reported on HSA Form #19, Monthly Report of Yen Expenditures for Directly Employed Japanese Labor, for the month during which the release actually took place.

4. The area management offices have been directed to furnish the units and sections with a copy of the voucher indicating the total retirement and/or discharge allowances paid each released employee. It is imperative that unit and section labor officers assure that a copy of this voucher is received for each employee released.

5. The total discharge and retirement allowances paid will be included in the "Gross Amount of Yen Expended" and "Total Tax Deducted" columns of Monthly Report of Yen Expenditures for Directly Employed Japanese Labor, HSA Form #19, under the appropriate appropriation and project code since they are proper charges against the yen budget of this headquarters for directly employed indigenous personnel.

6. MGL Form, Release Notice of Japanese National, has been revised by this headquarters to include the change required by par 4, basic communication, and designated HSA Form #5 (29 Sept 49) copy of which is attached as Incl #2.

FOR THE COMMANDING GENERAL:

James H. Wear

JAMES H. WEAR
Major, CAV
Adjutant

2 Incls:
#1 - HSA Form #6, Roster of Employees to be Released
#2 - HSA Form #5, Release Notice of Japanese National

DISTRIBUTION:
200 copies to S-1

HEADQUARTERS
TOKYO CIVIL AFFAIRS TEAM
APO 500

4 October 1949

SUBJECT: Release Notice of Japanese Nationals'

TO: All Labor Using Units, Tokyo-To.

1. The Japanese Government Area Labor Management Offices are finding it difficult to ascertain the clear meaning of the reasons for discharge of Japanese employees, and the intent of the unit as pertains to discharge and retirement allowances, as shown on the MGL Form "Release Notice of Japanese Nationals." It is necessary that all data requested on these forms be clearly explained, so that the government agency concerned can comply with existing labor laws as well as make correct disbursement in accordance with the desires of the unit. The following is not a change to current labor regulations, but rather an amplification of certain sections for your information and guidance.

a. Release of an employee "with prejudice" connotates that he is being released for misconduct or for his own personal reasons and therefore would not entitle him to the full retirement allowance. A release "without prejudice" would indicate that an individual is being released because of a personnel reduction or for some other reason for which he is not responsible. Employees released with prejudice are not employable by the Occupation Forces for 60 days from date of release.

b. Reasons for discharge should be given in specific terms. Care should be taken not to use ambiguous terms because it is this section of the "Release Notice" which is the basis for the individual receiving or not receiving the "retirement allowance."

(1) There are only two cases wherein an individual will not receive a full retirement allowance:

(a) A person released for <u>misconduct</u> is not eligible for either a discharge allowance or a retirement allowance.

(b) A person resigning for personal reasons is not eligible for a discharge allowance but receives one half (½) the retirement allowance, after 6 months service.

c. Discharge for misconduct would result from: stealing, lying, falsifying documents, disobedience, violating working rules, frequent absenteeism, failure to perform duties when competent, etc.

d. Discharge for inefficiency or for inaptness is not necessarily a discharge for misconduct. A person discharged for these reasons is eligible for retirement allowance unless the inefficiency or inaptitude is willful. In such a case the terms inefficiency or inaptitude should not be used, other more accurate terms are necessary.

2. Persons discharged as the result of a general personnel reduction are entitled to a discharge allowance unless given 30 days advance notice and are also entitled to full retirement allowance.

3. When a 30 day notice is given to employees, the Area Management Office (Ref. Ltr. AGL 240, Hq TMGT subject: Labor Regulations dated 28 May 49, par 5) should be notified by roster of the names of the employees and the date notices were given. The release notice MGL "Release Notice of Japanese Nationals" should be submitted within 5 days after date of separation but not before date of separation. An exception to this is the case wherein an employee finds new employment and is separated before 30 days elapses. In this case the release notice would be given within 5 days of his separation. The employee will be paid for only those days actually worked, not the full 30 days.

4. Item 6 will be added to the "Release Notice of Japanese Nationals" and will include a statement that the individual is or is not entitled to a retirement allowance.

FOR THE CHIEF:

Clyde C. Duncan

CLYDE C. DUNCAN
WOJG USA
Adjutant.

ORIENTATION STATEMENT

Government Section Command

Form J

(For Appropriation Form J - 1, add:)

Appropriation: Adjutant General

Indigenous publications, both in the form of Japanese text and those which have been previously translated into English before being received by this section, as listed on Form J-4 attached, are necessary to complete the daily press report which is prepared by Government Section and which represents a summary of current important developments affecting the Japanese government. The screening and final consolidation of such information into the above referenced report is important to the Chief, Government Section, in his capacity as advisor to SCAP on internal affairs within the government of Japan.

Adjutant General 807

101 - Procurement of Periodicals

Subject daily publications and periodicals are necessary in order to prepare daily press reports which the Chief, Government Section uses daily to advise SCAP of current political and governmental developments within the Japanese Government. In the interest of economy, the need for the requested number of these publications has been carefully screened and reduced to the absolute minimum consistent with the operational requirements of the section.

1. Affects preparation of Daily Press Report prepared by Government Section for the information of SCAP and G-2.

HC 230.14 (HJL)

27 August 1949

SUBJECT: Physical Examination for Japanese Nationals and Foreign Nationals Employed by the Occupation Forces in Tokyo Prefecture

TO: See Distribution

1. References:

a. Section I, Circular 27, Headquarters Eighth Army, dated 4 April 1949.

b. Memorandum from General Headquarters, Supreme Commander for Allied Powers, to the Japanese Government AG-701 (25 Aug 49) PH SCAPIN 1949, dated 13 December 1948, subject: "Responsibility of Japanese Government Relative to Physical Examinations, Immunization, Medical Care, Hospitalization and Other Benefits for Japanese Nationals Employed for Occupation Forces".

2. General: The Purpose of this directive is to prescribe the procedure to be followed in accomplishing physical examinations, immunizations and medical care of Japanese and foreign nationals employed for the occupation forces by means of labor requisition.

3. Effective date: This directive will be placed in effect on 1 September 1949.

4. Responsibilities:

a. It is the responsibility of all unit commanders and chiefs of staff sections utilizing Japanese or foreign nationals to insure that labor officers initiate procedures necessary to fulfill the physical inspection requirements as specified herein for all Japanese nationals employed on a requisition labor basis and for all foreign nationals employed under their jurisdiction.

b. It is the responsibility of the labor officers and individual employers to acquaint employees with the types and frequency of physical examinations at the time of employment.

c. It is the responsibility of each individual employer of domestic servants to insure that the servants employed in their households receive all physical examinations as required.

5. Physical Examinations:

a. Under the provisions of the above cited references, labor officers will have the necessary physical examinations accomplished for Japanese nationals and foreign nationals under their supervision. Types and frequency of examinations to be determined as outlined in the following sub paragraphs.

b. Personnel Involved:

(1) All food handlers and domestic employees, such as cooks, waiters, waitresses, kitchen employees, maids, houseboys, etc.

(2) Office workers and those personnel in close daily contact with the occupation forces such as clerks, typists, interpreters, translators, receptionists, elevator operators, etc.

(3) Others: This includes drivers, mechanics, custodian employees of office buildings and other personnel not included in (1) or (2) above.

c. General nature of physical examination: The physical examination will normally consist of a thorough physical inspection for the presence of communicable diseases (skin, ears, eyes, nose, mouth and throat), plus such laboratory procedures as may hereinafter be specified. More detailed physical examinations together with complete history and applicable laboratory procedures will be made when deemed desirable or necessary in the opinion of the examining physician. Examination of female genitalia will not be performed except when properly indicated by history or otherwise considered necessary by the examining physician. Unit labor officers or individual employers will not request that this type of examination be performed.

d. Initial physical examination: Prospective employees prior to employment or assignment to duty will be examined as follows:

(1) All food handlers and domestic employees (see par 4 b (1) above).

(a) Physical inspection
(b) Chest X-ray
(c) Serological test for syphilis
(d) Stool examination (microscopic)
(e) Stool culture

(2) All office workers and those personnel who are in close daily contact with occupation personnel (see par 4 b (2) above).

(a) Physical inspection
(b) Chest X-ray
(c) Serological test for syphilis

(3) Others (see par 4 b (3) above).

(a) Physical inspection

e. Follow up physical examinations: During the course of employment, employees will be re-examined as follows:

(1) All food handlers in hospitals, unit and billet messes will receive monthly:

(a) Physical inspection
(b) Stool examination (microscopic)
(c) Stool culture

(2) Other food handlers and domestic servants will be re-examined as outlined in (1) above every three (3) months.

(3) Employees who are working under any of the following conditions will be re-examined every six (6) months.

(a) Work which requires handling of large quantities of hot substances and labor performed in extremely hot surroundings.

(b) Work which requires handling of large quantities of cold substances and labor performed in extremely cold surroundings.

(c) Employees exposed to radium rays, X-rays, and other injurious rays.

(d) Employees working in a place where a large quantity of dust is generated (stone dust, fur dust, etc.).

(e) Employees working under unusual atmospheric pressure.

(f) Employees occupied in labor which causes unusual concussion to the worker's body such as the use of rock drills and riveting hammers.

(g) Employees handling extremely heavy objects.

(h) Mine employees.

(i) Employees performing labor at night between 2200 to 0600 hours.

(j) Employees handling mercury, arsenic, phosphorus, hydrochloric acid, nitric acid, sulphuric acid, cyanic acid, caustic alkali, carbolic acid and other similar injurious substances.

(k) Employees in places where violent noises are occasioned (construction of boilers).

(1) Employees exposed to dust, powder, fumes or gas of lead, mercury, chrome, arsenic, phosphorus, fluorine, chlorine, hydrochloric acid, nitric acid, benzene, sulphur dioxide, sulphuric acid, carbon monoxide, carbon disulphide, cyanic acid and aniline. Employees unusually exposed to infections of pathogenic bodies.

(4) X-ray of chest and serological test for syphilis will be repeated when indicated for cause.

6. X-ray of the chest will be made as directed in paragraph 4 d (1) and (2) above at the time of employment and may be made of other employees or may be repeated whenever indicated for cause.

7. Serological test for syphilis will be made as directed in par 4 d (1) and (2) above at the time of employment and may be made of other employees or may be repeated whenever indicated for cause.

8. Immunization:

a. Vaccination against small pox and a full initial series of innoculations against typhoid, para-typhoid and typhus fevers will be required of all employees at the time of employment. A booster innoculation and small pox vaccination will be required of all employees annually following the initial series or a previous booster.

b. Typhoid and para-typhoid innoculations are required for Japanese personnel employed for the occupation forces. Japanese law also requires that triple typhoid be administered annually and that the expense of such innoculations be borne by the individual. Therefore, no claim will be recognized against the procurement demand for these innoculations.

9. Health Card:

a. Each employee when found physically qualified for employment will be given a health card on which will be recorded the following:

(1) Identification of employee
(2) Immunization record
(3) Dates of examination performed and signature of examining physician

b. Under no circumstances will diagnosis, treatment or recommendations for change of employment be entered upon the health card and given to the employee.

c. The health card will not be given to the employee unless or until physically qualified for employment. Wherever it is necessary that an employee be relieved from duty for a remediable defect, his or her health card will be withdrawn by the examining physician and retained with the employee's clinical records until such time as the employee is considered physically fit to return to duty.

10. Results of Physical Examinations:

a. Intestinal parasites: Persons found to be infected with intestinal parasites must be given an adequate course of treatment and will be re-examined after completion of treatment to determine freedom from the parasite or organism involved.

b. Tuberculosis: Any person on whom a diagnosis of active tuberculosis is made will immediately be terminated from employment.

c. Venereal diseases:

(1) Gonorrhea and Chancroid: Any person found to be suffering from gonorrhea and/or chancroid will immediately be placed under treatment according to the Veneral Disease Prevention Law and will not be issued a health card until found free of disease or diseases in question.

(2) Syphilis: Any person in whom a diagnosis of syphilis is definitely established should immediately be placed under treatment according to the Venereal Disease Prevention Law in the manner prescribed except when contra-indicated on medical grounds. In the case of new syphilis or in any other case in which the disease is in an infectious stage, the patient will be relieved from duty until the disease is no longer infectious. As long as the patient remains under treatment, he will not be discharged for the reason of the disease alone. The record of treatment will be dated and initialed by the treating physician or authorized administrative official of the clinic at the time of each treatment.

d. Other communicable diseases: Any employee found to be suffering from or found to be a carrier of a reportable communicable disease will be immediately relieved from duty and placed under proper treatment under applicable law until free from the disease and/or until the probability of communicating the disease has passed.

e. All employees suffering from communicable or infectious diseases or intestinal parasites will immediately be placed under treatment. In all cases they will be released from duty until the disease is cured or is no longer infectious. When the treatment will be of a prolonged nature, termination of employment will be effected.

f. The Health and Welfare Annuity effected 1 April 1949 will in most cases provide for treatment and medical care. Claims against the Procurement Demand will not be recognized for treatment and medical care under any circumstances.

11. Physical Inspection Report:

a. The unit labor officer will prepare Part I of the 8A Form 54 Physical Inspection Receipt (Incl 1) in quadruplicate for each required individual physical inspection, examination or immunization desired. All items not to be

included in the physical examination will be deleted. All four copies will be presented to examining physician by the examinee. When examination requested is completed, the examining physician will complete Part II of the Physical Inspection Receipt and distribute the completed copies as follows:

(1) Retain one copy
(2) Present one copy to Tokyo Prefectural Government
(3) Return two copies to examinee for presentation to the unit labor officer

The unit labor officer will in turn retain one copy for his file and forward the remaining copy to this headquarters. The copy of the Physical Inspection Receipts for this headquarters will be forwarded, attention: Japanese Labor Control Division, S-1 Section, so as to arrive not later than the 5th of the month following the month during which the physical inspections were performed.

b. The 8A Form 54 can be obtained by requisition through normal publication channels.

c. Account numbers: Account numbers have been assigned and labor officers will enter one of the following Procurement Account Code numbers in Part I of the Physical Inspection Receipt Form:

(1)	PAC 116-00-416-01	(Army)	SCC 96154238
(2)	PAC 216-00-416-01	(Air Force)	SCC 96154238
(3)	PAC 316-00-416-01	(Navy)	SCC 96154238
(4)	PAC 616-00-416-01	(BCOF)	SCC 96154238
(5)	PAC 816-00-416-01	(GHQ)	SCC 96154238

12. Hospitals and Dispensaries authorized to give examinations:

a. The Tokyo Civil Affairs Team will continue to prepare the schedule for monthly physical examinations. The following list of hospitals and dispensaries are the only agencies authorized to perform physical examinations in the Tokyo Prefecture:

(1) Nippon Idai No. 1 Hospital
(2) Nippon Idai No. 2 Hospital
(3) Nippon Daigaku Hospital
(4) Kudansaka Hospital
(5) Sanraku Hospital
(6) Keisatsu Hospital
(7) Central Health Center
(8) St. Lukes Hospital
(9) Tokyo Hospital
(10) Jikeidai Hospital
(11) Saiseikai Hospital
(12) Densenbyo Kenkyujo
(13) Okubo Hospital
(14) Keio Hospital
(15) National No. 1 Hospital
(16) Komagome Hospital

(17) Otsuka Hospital
(18) Iidabashi Hospital
(19) Medico Dental Hospital
(20) Juntendo Hospital
(21) Todai Bunin Hospital
(22) Shitaya Hospital
(23) Shinagawa Health Center
(24) Hiroo Hospital
(25) Red Cross Hospital
(26) Toshima Hospital
(27) Takinogawa Hospital
(28) Nakano Hospital

Cir 27

CIRCULAR
NUMBER 27

4 April 1949

SECTION I - PHYSICAL INSPECTIONS OF JAPANESE AND FOREIGN NATIONALS EMPLOYED FOR OCCUPATION FORCES.
SECTION II - SUGGESTED PROCUREMENT SOURCES OF OCCUPATION FORCES REQUIREMENTS.

Section I - Physical Inspections of Japanese and Foreign Nationals Employed for Occupation Forces.

1. Effective 1 April 1949, physical examination, immunization and medical care of Japanese and foreign nationals employed for the Occupation Forces by means of labor requisitions will be accomplished through the medium of procurement demands.

2. Procurement demands will be written for each prefecture in Japan and will list the prefectural military government labor officer as the receiving officer, with the following three exceptions:

Kanagawa Prefecture	-	Labor Officer, Yokohama Command
Tokyo-to	-	Labor Control Officer, Headquarters and Service Group, General Headquarters, Far East Command
Kyoto Prefecture	-	Labor Officer, Kyoto Post Command

Receiving officers will be responsible for:

a. Acquainting Occupation Force unit labor officers with the types of physical inspections which may be accomplished under the procurement demand in accordance with the reference.

b. Receiving, reviewing and signing monthly procurement receipts (GPA Form 2), prepared by the Japanese Prefectural Government in accordance with paragraph 4d below.

c. Distributing completed procurement receipts in accordance with current instructions.

3. Commanders will insure that unit labor officers:

a. Initiate physical inspection of employees of the Occupation Forces in accordance with information provided by receiving officers.

b. Accomplish PART I of Physical Inspection Receipt (inclosure 1) in accordance with instructions on the reverse side thereof for each individual physical inspection or immunization desired and furnish three (3) copies to the examinee.

c. Receive from the examinee, when the physical inspection or immunization has been completed, one copy of Physical Inspection Receipt completed by the examiner.

4. The Japanese Government has been instructed to:

a. Continue operation of established medical inspection facilities which are now operated by Japanese Government agencies.

b. Assume responsibility for and operation of medical inspection facilities which are presently housed in Occupation Forces buildings, staffed with indigenous personnel furnished on labor requisition.

c. Conclude contracts with private hospitals, dispensaries, or other medical installations now being used for such purposes for future physical inspection of Occupation Force employees.

d. Prepare monthly procurement receipts for services rendered under the prefectural procurement demands and supported by a copy of Physical Inspection Receipt for each physical inspection appearing on the procurement receipt, submit the procurement receipt to the receiving officer (Military Government Labor Officer) for verification and signature prior to the fifth day of the following month. The procurement receipt will reflect separately the types of physical inspections, by account codes appearing on each Physical Inspection Receipt.

5. The foregoing instructions do not constitute authority for construction or the addition or installation of equipment in medical inspection facilities.

Section II - <u>Suggested Procurement Sources of Occupation Forces Requirements.</u>

1. The Japanese Government Special Procurement Board is the sole agency authorized to select, or negotiate with, contractors for accomplishment of procurement of Occupation Force requirements (supplies and equipment, services, construction and real estate).

2. Officials of Occupation Force agencies will not suggest, name or select sources, or conduct preliminary discussions with potential contractors in connection with any indigenous procurement requirement, without the prior knowledge of the Special Procurement Board. Exceptions are authorized in special instances such as where a particular item can be supplied from one source only, where spare parts and appliances are required for items for which the

suggested source was the original supplier, and in cases where the contractor was originally performing functions in connection with an installation which is being acquired by the Occupation Forces.

3. When lists of prospective contractors, chosen by the Special Procurement Board, are submitted for consideration to Occupation Forces receiving officers, a prospective contractor may be disqualified for one or more of the following reasons:

a. Removal for cause from previous Occupation Force contracts.

b. Unsatisfactory performance, either as to time or quality, on previous Occupation Force contracts.

c. Conviction of contractor, his employees or agents for graft.

d. Lack of experience on the particular type of work.

e. Lack of necessary supervisory and technical personnel.

f. Lack of work force or source of skilled and unskilled labor.

g. Lack of sufficient quantity or quality of equipment and facilities.

h. Insufficient capital or means of financing the requirements.

i. Lack of technical knowledge.

j. Excessive amount of work already under contract.

4. Disqualification of a prospective contractor by a receiving officer will be reported through command channels to this headquarters, Attention: Procurement Section. Such a report will contain a statement of the reasons for disqualification and will include copies of official correspondence relating to the prospective contractor's past delinquency or present undesirability.

5. The provisions of the foregoing do not affect existing directives pertaining to the removal of contractors currently under contract with the Occupation Forces.

BY COMMAND OF LIEUTENANT GENERAL WALKER:

E.M.LANDRUM

HEADQUARTERS AND SERVICE GROUP
GENERAL HEADQUARTERS, FAR EAST COMMAND
APO 500

HC 230.14 (HJL) 4 August 1949

SUBJECT: Reports Required for Directly Employed Japanese Labor

TO: See Distribution

1. References:

a. Administrative Memorandum No. 37, this headquarters, dated 4 April 1949, subject: "Japanese Labor Serving the Occupation Forces".

b. Letter, this headquarters, HC 248 (HSA), dated 23 July 1949, subject: "Report of Yen Expenditures for Directly Employed Japanese Labor".

2. In order to avoid duplication in reporting, the QGD-23 (R1), Operative and Productive Labor Report, required by Section XI of reference 1 a, is cancelled effective with submission of the report for the month of June 1949. However, in order to furnish essential information to GHQ, SCAP, a revision of HSA Form 19 (23 July 1949), Monthly Report of Yen Expenditure for Directly Employed Japanese Labor, as required by reference 1 b, will be necessary.

3. Effective with the report for the month of July 1949, the Monthly Report of Yen Expenditure for Directly Employed Japanese Labor (revised form attached as Encl #1) will include the number of personnel employed for each appropriation, project and object account code. The number employed will be the daily average for the month. The daily average will be obtained by adding the number of Japanese personnel on pay status for each work day of the month and then dividing the total by the number of work days in the month. The number of work days in the month will vary from 21 to 23 for employees on a 40-hour week, and 25 to 27 for employees on a 48-hour week, dependent on the month being reported upon. All fractions arrived at when computing daily average will be counted as a whole number.

4. A study of the initial Monthly Report of Yen Expenditures for Directly Employed Japanese Labor submitted to this headquarters for the first quarter JFY 1949 (April, May and June) indicate that confusion still exists in computing the "Total Tax Deducted" column. The "Total Tax Deducted" column will include only the amount listed in the "Tax" column on the Japanese payroll. The amounts deducted for Health Insurance and Welfare Annuity will not be included as tax for the purpose of this report.

5. Schedule for submitting HSA Form 19, Monthly Report of Yen Expenditures for Directly Employed Japanese Labor, remains unchanged. Chiefs of staff sections and unit commanders must insure that this report arrives at the Japanese Personnel Division, S-1 Section, this headquarters, not later than the 20th day subsequent to the month for which the report is rendered.

6. Assistance in compiling and preparing this report may be obtained by contacting Japanese Personnel Division, Room 243a, Finance Building, telephone 26-6739.

7. Letter, this headquarters, HC 230.14 (HJL) subject: "Operative and Productive Labor Report on Japanese Personnel", 7 June 1949, is rescinded.

HEADQUARTERS
TOKYO MILITARY GOVERNMENT TEAM
APO 181

AGL-240 28 May 1949

SUBJECT: Labor Regulations.

TO: All Labor Using Units in Tokyo-To.

1. References:

Operational Directive #1, Hq 8th Army, 1946, as amended. Letter, GHQ, SCAP, subject: Operational and Productive Labor, dtd 21 March 1949. Letter: TMGT, APO 181, dtd 11 Feb. 49. Messageform 8th Army, dtd 30 March 1949.

2. Instructions contained in letter TMGT, subject: "Labor Regulations," dtd 11 Feb. 49 are hereby rescinded. All forms attached as inclosures will remain in use, except the personal history statement.

3. The following regulations apply concerning Japanese Labor working for the Occupation Forces in Tokyo-To.

4. Labor Requisitions.

All labor used by the Occupation Forces except that furnished by contractors on Procurement Demand or work order will be procured by means of a labor requisition. Labor Form #1, is the only instrument authorized for this purpose. Units desiring labor will submit requisitions in three (3) copies, 24 hours in advance of the date for which labor is required, to Tokyo Military Government Team for transmittal to the Japanese Government. Units receiving manning tables from GHQ will submit their requisitions through S-1, Hq & Sv Gp., GHQ. Military Government will be responsible to assure that all requisitions are promptly filled.

If requisitions for permanent labor are not filled within a reasonable length of time after submitting, unit Labor Officers are requested to contact the Tokyo Military Government Labor Officer by telephone.

5. Time Reports and Payrolls.

The Japanese Government will prepare all future payrolls and make disbursements to the employees, effective with the May payroll.

Units will prepare "Time Sheets" in 4 copies; one copy will be submitted to Labor Section, Mil. Govt.; two copies to the respective Area Management Office designated below, and one copy retained for unit file. The Area Management Office will prepare the unit payroll from the "Time Sheet," and make the payment to the employees by the 15th of the month following that for which the payment is being made. Payment will be made by the Area Management Office Paymaster at the time and place designed by the

Unit Labor Officer. Payment does not necessarily have to be made during the working hours of the employees. Upon completion of payment of the units' employees, the Area Management Office will immediately return one copy of the unit payroll and one copy of the R & U payroll to the unit. It is recommended that units permit their managers to assist the area management office in the preparation of their payrolls until such time as the office become proficient, and also in assisting the paymaster in making payment for the months of June, July and August and thereafter as required, in the estimation of the unit Labor Officer, to insure prompt and efficient payment in the time allocated by the unit for this purpose.

Units will prepare separate "Time Sheets" for all R & U personnel who are included in separate R & U manning tables. Units not having R & U manning tables will show maintenance personnel on unit time sheet. Two copies will be submitted to the area management office and one copy to Military Government. Upon receipt of payrolls after payment, one copy will be forwarded to R & U, GHQ, FEC, together with Time Sheet.

For the purpose of simplicity and convenience the prefecture has been divided into five areas with an area management office for each area, responsible for the general administration of the employees of the units in that area. Area offices will be located at Chiyoda, Shinjuku, Minato, Bunkyo, and Tachikawa and will be prepared to accept the "Time Sheets" after 1 June 1949. Units will submit their "Time Sheets" to their respective area offices as shown below, except Finance Bldg, Central Post Office, Washington Heights, Grant Heights, Haneda Air Base, 22nd Ordnance, Tokyo QM Depot, Tachikawa Air Force Base, Yokota Air Force Base, and JAMA Air Base who will have area sub offices from their main Area Management Office at their installation.

4. FEAM COM
5. Showa Sub Base
6. Tama Avammo Depot

6. Job Classification.

The job title (classification) of an employee must conform to that which is outlined in the current wage scales. If the jobs are not specifically mentioned, the employee will be paid at the nearest comparable job title. No other classification will be accepted except as specifically authorized. Employees will not be shown on time sheet, or payroll in a job position or title different from the jobs which they are actually performing. (The Clerical Wage Scale, and the Prevailing Wage Scale are distributed separately.)

7. Temporary Laborers.

The use of temporary laborers will be kept to a minimum and requested only in cases of an emergency for a limited job. Efforts should be made to utilize permanent employees to the utmost. Units employing temporary laborers that are virtually permanent should immediately affect a transfer. Temporary labor is chargeable against the using units manning table strength and all yen costs must be shown on labor reports, reports control symbol QGD-23 (R1)

a. Payment of daily laborers: Daily laborers will be paid by the area management office paymaster upon receipt of 2 certified copies of the "Daily Labor Time Report." This "Time Report" must be submitted to the Area Management Office, or

Area Management sub-office for those units authorized one, prior to 1400 of the day for which payment is to be made. A third copy of the "Time Report" will be submitted to Mil. Govt. and a fourth copy retained at the unit. The Paymaster will go to the unit to make the payment. This payment will not be made during the working hours unless specifically authorized by the unit Labor Officer.

8. Security Clearance.

All persons employed by the Occupation Forces (Japanese Nationals and Foreign Nationals) will have security clearance. The following procedure will be followed.

a. Japanese Nationals.

Units desiring clearance of Japanese Nationals will conform with provisions of the existing screening procedures as outlined by the Security Division, Office of the Provost Marshal, Metropolitan Tokyo Area, located in Room 35, Finance Bldg. Units will execute personal history statements, other allied forms and/or documents, and direct the prospective employees to handcarry the forms to the Security Division's offices in the Finance Bldg. for all routine clearances. Processing will be started and individuals must be present.

"Identification and Pass" cards will be issued to all GHQ units upon completion of clearance, and will be issued to 8th Army and other Allied Forces units only upon request.

The personal history statement, inclose #1 will be used. Forms will be obtained from the above mentioned Security Division.

b. Foreign Nationals.

Request for clearance of foreign nationals will be submitted in compliance with Sec. 1, par. 4, Cir. #14, Hqs. 8th Army, dtd 19 Feb. 48 to the labor officer Tokyo Military Government Team for transmittal to the Security Agency. Requests will be submitted in 4 copies.

c. Black List. Unit Labor Officers will submit a black list to the Military Government Labor Officer at the end of each month. The list will be submitted in two (2) copies, and contain the names of all persons discharged for cause during the month, and the nature of the cause for such discharge.

9. Special and Supplemental Rations.

It is the responsibility of the Japanese Government to make distribution to the employees, such special rations as are authorized. Occupation employees will not in any case be used to receive, procure or distribute Japanese rations, beverages, or clothing to the employees of the installation during duty hours except as expressly authorized by the unit Labor Officer.

10. Allowances.

a. Area Allowance: In addition to the basic wage an extra allowance is payable, based on the basic wage plus dependent allowance, according to the area in which performed. The city of Tokyo is considered to be a special area and therefore authorized a 30% allowance. For the other areas within Tokyo Prefecture the allowance is 20%. This allowance is for clerical workers and domestic only.

b. Dependent Allowance: All permanently employed Japanese Nationals are paid a dependent allowance for each person legally dependent on the employee. The allowance is ¥ 600 for the wife and ¥ 600 for the first child and ¥ 400 for each additional child, or authorized dependent.

c. Overtime: Overtime will be paid for hours worked in excess of 48 hours per week. Overtime hours appearing on the time sheet will be limited to those hours authorized by proper authority. Approval of overtime is not a function of Military Government. Domestic servants employed in dependent housing will not exceed 12 hours per week overtime.

d. Regular dayshift workers, employed on a day shift and required to be available on call for night work, but do not actually perform any work, receive 2 hours stand by time.

e. If the regular day time employee actually performs work during the time he is on call, at night, such time will be overtime, with the maximum being 6 hours.

f. Night Duty Allowance: Night Worker -- The regularly engaged night worker, employed on a night shift, is entitled to a special night duty allowance of 30% of his hourly base pay for all hours worked between 2200 and 0600 except those employees working on a 24 hour shift.

g. For work performed under hazardous or adverse conditions a special allowance is payable not to exceed thirty (30) percent of the base pay. For further information see current wage scale.

h. Accident and Illness Allowance: For sickness, accident or death resulting from work performed for the Occupation Forces, allowances will be granted, by the Japanese Government. In such cases, the unit Labor Officer will execute and sign 3 copies of labor form 8, and submit to the Military Government Labor Office. The subject of the form is "Report of Accident involving Civilian Laborers." The Military Government Labor Officer will forward these reports to the Japanese Government for payment.

i. Discharge Allowance: Permanent Japanese labor supplied to the Occupation Forces will be given 30 days notice prior to discharge when such discharge is not for cause or convenience of the discharged person. If such notice is not given, the employee is entitled to receive one month basic salary.

Discharges without 30-day notice will be kept to a minimum. Upon discharge each permanent employee will be given a discharge notice, labor form #10, by the unit Labor Officer. Two copies of this release notice will be forwarded to the Area Management Office by the Unit Labor Officer, and one copy to Military Government, for payment of the allowance. Employees discharged for their own convenience or personal reasons are not eligible for re-employment by the Occupation Forces for a period of 60 days.

j. Retirement Allowance: Retirement allowance for permanent Japanese employees will be paid by the Japanese Government. In case a person is re-employed after having been discharged, the period of employment shall be calculated as from the month of re-employment. This allowance will not be paid an employee if his retirement was the results of malpractice or unlawful acts.

k. Travel Expenses: For official travel directed by the Occupation Forces, travel expenses incurred by the employee will be reimbursed by the Japanese Government. The using unit should submit a travel voucher, Labor Form #9, in 3 copies to the Military Government Labor Officer for transmittal to the Japanese Government. Necessary receipts should be made available by the employee to the Japanese Government at their request.

l. Foreman Allowance: Labor foreman is not recognized as a special category of labor. A Japanese employee in charge of a group of workers will be authorized an allowance, depending on the job classification, in accordance with the following:

Asst. to the employee who supervises the working place	-- 10% of the base wage
Employee who supervises one working place	-- 20% of the base wage
Employee who supervises two or more places	-- 30% of the base wage

m. Language Differential Allowance: A foreign language allowance of 10 - 50% of the base pay will be granted to certain categories of clerical workers upon the recommendation of the unit Labor Officer and after a demonstration of proficiency in English and Japanese languages before the Japanese Government Testing Committee. Unit Labor Officers will submit information outlined in "Recommendation for Language Differentials" in 3 copies to the Military Government Labor Officer for transmittal to the Japanese Government. A separate form will be executed for each individual recommended. It should be noted by the recommending officer that both the candidate's linguistic abilities and the requirements of his job be considered in determining the percentage of allowance he is to receive. This allowance will not be paid to those who have been released from employment with

the Occupation Forces as the primary purpose is to keep competent interpreters and translators working for the Occupation Forces. The following rules apply in recommending a language differential.

(1) The employee must use a foreign language in the execution of his job, and fall within the category of Advisor, Technical Expert, English Stenographer, Special Interpreter and Translator, High Class Clerk, and other administrative personnel.

(2) The percentage of differential shall be fixed in consideration of the actual time spent in using the foreign language on the job and the ability and efficiency of each person in the use of it.

(3) In preparing the recommendation, the scale, 1 to 10 will be used with 10 as the maximum proficiency for each required evaluation.

(4) The differentials will be divided into the following five grades:

	As to time used	As to proficiency
A		10% to 50%
B		10% to 40%
C		10% to 30%
D		10% to 20%
E		10% to 10%

(5) Recommendations may be submitted as soon as possible after hiring.

11. Leave.

a. Each permanent male employee is entitled to two (2) days vacation per month with pay. Each permanent female employee is entitled to three (3) days vacation per month except that only two (2) of these days will be with pay. Before any employee is eligible for this vacation with pay, he must have worked at least one month. If the employee does not take this time off he will be paid one days wage for each day not taken off with the maximum being two (2) days paid leave for both male and female. Employees are entitled to all Army holidays and they will not be included as a part of the 2 days. For information regarding Army holidays see par. 16.

b. In case an employee, for personal reasons, absents himself from work, deductions from his pay will be made for each day absent.

c. Employees absenting themselves on Japanese holidays will receive no compensation.

d. Subject to limitations established by the Japanese Government employees for reasons of personal sickness or injury or on account of mourning, may be authorized leave with pay providing

appropriate medical or death certificates are furnished the Japanese Government by employees.

e. In cases of female workers, a vacation with pay shall be recognized before and after confinement for child birth.

12. Domestic Servants:

a. The term "domestic servants" applies only to those persons employed and working in properly designated dependent housing areas. Those laborers working in headquarters buildings, troops and officers billets will not be paid on this wage scale but will be classed on the payroll in an appropriate common or skilled labor category.

b. Wages include the basic rates, area allowance, family and overtime allowances, paid on a monthly basis. Basic wages will be paid on the basis of a 48 hour work week. In the case of newly hired or discharged personnel, wages will be computed for the total number of hours worked. In case an employee absents himself for personal reasons other than authorized leave or Army holidays, deductions will be made for each work hour absent except in the following cases:

(1) Sickness or mourning
(2) Lack of transportation due to storm, flood, earthquake, of fire.
(3) Other justifiable or excusable reasons.

c. Area and family allowances will be paid at the same rate as other types of labor.

13. Seniority.

Japanese employees who are taken from service contracts and placed on Labor Requisition will maintain seniority from the date of employment with Occupation Forces as "Procurement Demand" workers. These employees, however, will be paid, without exceptions, in accordance with current labor requisition regulations.

14. Wages.

Wages will be paid in accordance with the current wage scales, (Clerical Wage Scale and Prevailing Wage Scale) issued by Tokyo Military Government.

a. Recommendation for increase in wage.

Units desiring to recommend employees whose recommended salary is less than an d not including ¥ 7500 will make such recommendations to their own Japanese managers who in turn will transmit them to the Japanese Government, except for those specific categories as indicated on the current clerical scale on which recommendations must be submitted through M. G. regardless of salary. All other recommendations with a recommended salary of ¥ 7500 or above will be submitted in 2 copies through M. G. (Labor Form "Japanese National Personnel Action Request." All

recommendations will be accompanied by 2 copies of individuals "curriculum vitae."

b. Advisors: In classifying personnel as advisors, units recommending, should consider the following before submitting recommendation.

(1) Personnel whose services require specific knowledge, long training and experience, should not be considered for a salary in excess of ¥ 9,639.

(2) Personnel who have attained the highest degree of education, experience and competence, and actually working on an especially important job may be considered for a salary between ¥ 9,639 to ¥ 12,900.

15. Proselyting.

Proselyting of laborers between occupation force units is prohibited. Evidence of proselyting will be dealt with through proper military channels.

16. Working Hours.

The normal work week is established as a 48 hour week on the basis of an 8 hour day six days a week. Units may adjust hours worked per day and days worked per week, to meet operational needs. GHQ units must obtain approval of their schedules from S-1 Section, Hq & Sv Gp., GHQ. Sundays may be included as part of the normal six day work week, but Army holidays will not be included. Those employees required to work on Army holidays will be paid in accordance with the holiday pay rate. (Double Time)

FOR THE COMMANDING OFFICER:
