URMSO C 57782.

1. You are authorized to transfer GARIOA procured books and material in SCAP staff section reference libraries (other than information center libraries) prior to effective date of peace treaty to any or all of following GARIOA supported activities as deemed appropriate by content of books or material concerned:

A. Civil Administration, Ryukyus.
B. Diplomatic Section of SCAP.
C. Information center libraries (after careful screening).

2. Expected here that when Peace Treaty becomes effective executive order will direct transfer of Diplomatic Section and CIE property (including information center libraries) to appropriate activities of the State Dept. Any books previously transferred to Diplomatic Section under provs of para 1 above would then go over to Diplomatic representative of US automatically.

3. Reference books procured from military (non-GARIOA) appropriations should be transferred to the remaining GHQ FEC staff section libraries.

4. Reference books received by donation may be disposed of under either para 1 or 3 above as deemed appropriate by contents of books.

EHD/reg

28 Mar 51

FROM : DEPTAR (SAOOA FAOA) WASH DC

TO : CINCFE TOKYO JAPAN

NR : DA 86848

Our msg DA 85310, subject partial pay-as-you-go policy press release.

Para 1. Para 4 reference msg suggests joint SCAP-DA press statement after Japanese Diet has passed TOW budget and when withdrawal of GARIOA economic aid request for Japan is about to become public knowledge. Hearings before Bureau of Budget on GARIOA FY 52 request were held Friday, 23 Mar. In about one month GARIOA budget will be declassified and submitted to the Congress. Believed that maximum political advantage from partial pay-as-you-go policy requires public announcement of policy prior to declassification of GARIOA FY 52 budget.

Para 2. Recommend that subj of pre-treaty partial pay-as-you-go policy for Japan be declassified, together with any documents or cables which are classified exclusively due to mention of such policy, on an agreed date near the end of Apr 51 and that an agreed press statement be released simultaneously in Washington and Tokyo at the time.

Para 3. Due to fact that tentative mutual defense arrangements in Germany may require an increase in the local currency budget (similar to Japans TOW budget) with no great increase in dollar availability, State Dept here is anxious to avoid any wording of the press statement which would give Germany the impression that Japan was receiving preferential treatment.

SECRET
DEFERRED

FROM : DEPTAR (SAOCA FAOA) NR : DA 86848 28 MAR 51 CONT'D

Para 4. A suggested press statement for your comment follows:

A. "The Suppreme Commander for the Allied Powers announced today that effective 1 Jul 51 the United States plans to pay for a substantial portion of the cost to Japan of the maintenance of the US occupation forces in that country. At present the costs in question are met from the Japanese termination of war budget (TOW Budget) without reimbursement to Japan. These costs to Japan at present include such categories as rental of buildings, inland transportation of freight, port charges, local labor, maintenance of real estate, utilities, coal, communications, and certain other services.

B. "In view of the fact that the occupation forces in Japan furnish protection to that country in addition to occupying the islands, the new policy continues to provide for payment by Japan for a portion of the TOW expenses as a normal security cost. It is expected that this new policy will remain in operation until such time as a peace treaty with Japan supersedes the arrangement.

C. "So rapid has been the achievement of economic recovery and stabilization in Japan that her foreign exchange earnings from all sources, including expected earnings under the new policy announced today, may well prove adequate to permit the termination of US economic aid to Japan later this year."

Para 5. This msg was coordinated with the Navy, Air Force, Defense, and State Depts. Request your comments on paragraphs 1, 2 and 4 above.

FROM : AMEMB AT MELBOURNE

TO : CINCFE TOKYO JAPAN

INFO : CS USAF WASH DC

NR : 160130 Z

Joint Weeka Nr C-21 from SANA.
Political:
High court, 9 Mar, declared Communist Party Dissolution Act invalid on basis that only def power of institution could sustain legislation and these not applicable during state of peace. Decision is blow to govts Anti-Commie Program. On basis this invalidation and labors continuing opposition all meas directed at solving industrial disturbances, Prime Minister on 13 Mar challenged labor controlled senate to reject pending Commonwealth Bank Bill. This meas only possible curr basis dissolution both houses Parliament. Senate refused challenge to reject bill by referring it to Select Committee 14 Mar. Cabinet deliberations followed immediately and late repts State Prime Minister has requested apt with Governor Gen to recommend immediate doubled dissolution. In view Senates failure reject bill, its invocation for double this solution would require constitutional interpretation in absence precedent. Chief Justice may be called to advise Governor Gen. Labor conjectures that Governor Gen must await outcome of Select Committee findings 4 weeks hence under provisions of Constitution and will not grant double dissolution.

Small Comment: Prime Minister scd make formal documented rqst 16 Mar to Governor Gen to dissolve present Parliament and call gen election on grouned labor dominated Senate has " failed to pass" urgent govt bill. Immediate decision by Governor Gen not

expected. Senate adjourned late 15 Mar for Easter Holidays without naming day to reassemble thereby suggesting that body expects double dissolution. Meanwhile Govt Industrial, Economic and Def Legislative Program stalled.

Industrial Disputes: Govt action past week includes passage by House of Representatives of Bill to Amend Conciliation and Arbitration Act providing powers to deal with industrial disputes by injunction and contempt proceedings. Bill now before Labor Controlled Senate which will oppose. Bill to amend Coal Industry Act on same basis stymied by intransigent of Labor Controlled Govt of New South Wales whose concurrence required. Bill providing for secret balloting in trade union elections introduced by govt 14 Mar will hit heavy weather in senate. Since govts declaration no quarter to Commie led labor disturbances dockers have lifted over time ban and miners agreed lift 1 day stoppages in New South Wales under threat of ACTU Exec to Breach labor solidarity if they did not return to legal channels of arbitration. Staggered stoppages week of 12 Mar probably last this series. Federated engine drivers and Firemans Association contd 1 day stoppages in coal fields still threat to production. Commie led unions apparently making tactical withdrawal before 2 pronged attack by govt and ACTU with hope that moderate labor will not CUTTANDY CSSER. This with drawal will help protect position these unions in event election because state of labor peace will be gen benefit labor party. Truce is only temporary awaiting devs.

Economic: Conf state prices ministers 14 Mar agreed to gen rises petrl products, bringing gas cost to highest level since First World War, 35.4 cents per gallon. Oil cos had asked 3 cent rise per gallon, of which only 1 cent granted, saying unless entire requested rise authorized Australia would be subject worst gas famine since 1943, due present shortage of tankers. Debate on possible appreciation of curr on sterling approaching new climax in press, although little mentioned in Parliament.

Mil: Senate finally passed Controversial National Svc Tng Bill 15 Mar. Registration youths attaining age 18 between 1 Nov 1950 and 30 Apr 51 to be conducted during 2 weeks beginning 14 Apr 1951. See Joint Weeka C-20.

Naval: Changes disposition operating forces ran 9 thru 15 Mar. PF Murchison Sydney. PF Shoal Haven SS Tactician en route Sydney. PF Condamine en route Melbourne. Ins Rajput Singapore 12 Mar.

Air: Negative.

ROUTINE

9 Mar 51

FROM : DEPTAR (CSUSA) WASH DC

TO : CINCFE TOKYO JAPAN

NR : DA 85310

President approved partial pay-as-you-go policy for Japan beginning 1 July 51 based on approximately 50% of tow-type budget costs. It is not deemed practicable to finalize detailed plans regarding this policy in time for inclusion of additional costs in regular FY 52 budget currently under consideration by Defense and Bureau of Budget because of uncertainty regarding the extent to which payment should be made by Japan and United States for each of the various services furnished under present tow concept. Also, it is desired that FY 52 pre-treaty financial arrangement be based on a plan which will allow smooth transition into post-treaty operations, agreements to which not yet finalized. Understanding here from Dulles Mission that tentative agreement reached with Japanese that they furnish certain post-treaty services without charge including real estate rentals, free use of jointly used facilities, and free transportation.

Plan here is that Department of Defense will submit supplemental FY 52 budget estimates when practicable which will include pay-as-you-go costs when developed by you based on level of tow support contemplated in Japanese FY 51-52 tow budget, including your additional requirements due to increased deployment, and the requirements to support Korean operation during such year. It is believed that justifications to Congress for this planned supplemental must include total estimated tow-type costs with Japanese contribution and United States partial

ROUTINE

FROM : DEPTAR NR : DA 85310 DTD 9 MAR 51 CONTINUED

pay-as-you-go estimate clearly identified to show portion to be paid by each. Also, for example, if Japanese are to furnish 100% of housing as part of their 50%, a comparison of estimated equivalent dollar value of dependents housing furnished with quarters allowances saved in United States appropriations should be included in justifications to enable complete evaluation of United States dollar costs by Congress. This also should apply to other similar offsets to United States appropriations to include free packing and crating, other transportation costs, etc.

Your early comments on above plans will facilitate planning at this hq. Also, your recommendations concerning extent to which payment for each tow-type service should be made by Japan and the United States which will accomplish approved 50% pay-as-you-go plan bearing in mind transition to post-treaty operations on which your recommendations also desired. Approximate preliminary budget estimates for United States FY 52 in terms of dollars by Army, Navy and Air Force appropriation and project for each type service with amounts proposed for payment by Japan and United States also will be necessary for final coordination of plans. In this connection, your message C 69949 dtd 28 Nov 50 gave two tentative lists of services and supplies, one to be furnished by Japan and the other to be paid by United States in dollars. Another possible arrangement would be for Japanese to pay all tow-type costs with United States making 50% reimbursement periodically.

State Dept is also interested in methods of implementing pre-treaty partial pay-as-you-go because of political consequences of various possible ways of carrying out decision. In connection with the political aspect of the pay-as-you-go policy, the suggestion has been made that it would be highly desirable to eliminate or drastically reduce the tow account in the Japanese budget (by placing the Japanese 50% under a new designation in the Japanese budget), and to apply substantially the same standards for all occupation force procurement as are applied by the United States Armed Forces in the United States and in non-occupied areas. In this connection, assume you prefer Diet passage of Japanese FY 51-52 budget in present form, with such later internal revisions as are required. Also assume joint SCAP-DA press statement will be desirable at appropriate future time, probably after Diet has passed budget and when withdrawal

of GARIOA economic aid request for Japan becomes public knowledge. Premature disclosure of this subject undesirable in view of consideration of parallel problem in Germany. Request your comments on these political proposals also.

With respect to post-treaty arrangement, there is not at present a worldwide pattern for payment of certain costs by the United States and other costs by the Allied Government in cases where United States troops are stationed in Allied countries. In general, local conditions in each country will determine the extent to which services and supplies can be provided our forces under the Mutual Defense Assistance concept. It is possible that arrangements applicable to Japan may help to set such a pattern. Certain factors already appear more clear, however. These are:

A. Even in sovereign countries, such as the UK, where the United States considers itself on a pay-as-you-go basis, the Allied Government provides, on a nonreimbursable basis, certain facilities which are normally supplied to its own troops.

B. Where such facilities as housing, transportation, air fields, air field buildings, barracks, and equipment are furnished without reimbursement, any improvement of such facilities required by higher United States standards is normally paid for by the United States except that capital improvements of permanent benefit to the Allied nation are subject to negotiation.

C. Supplies and services furnished on a nonreimbursable basis by Allied Governments are not normally charged off against any old debts nor any credits involved. The costs are carried in the military budget of the nation involved.

D. Facilities furnished on a nonreimbursable basis are considered a contribution by the Allied Government to the joint defense effort, and in recognition of the fact that United States

troops stationed in the area concerned are furnishing protection to that area, as well as to the United States.

These matters discussed in detail here with Colonel Porter of your hq who is returning with copy of letter approved by the President and a tentative Treasury Dept proposal for internation suspense accounts on which your comments also desired. Further developments will be discussed with Mr Osborne of your hq while here. This message coordinated with Navy, Air Force, Defense and State Depts.

URMSG Z 29655 of 15 Dec 50 & MYMSG DA 20502, Feb, subj phosphate rock stockpiled on Fais Island matter further discussed at length with Adm Fiske, Deputy High Commissioner Pac Territories. Navy at present not willing to make commitment; first, because of agricultural study now under way in Trust Territory Islands which involves part local deposits phosphate rock may play in future agricultural development and second and more important, because of fact that Trust Territory is presently being turned over to civilian High Commissioner, Navy is unwilling to make commitment.

In view of foregoing, believe only solution is to give new authorities time to survey situation and to take matter up with them later. Comparatively small amount phosphate rock involved in stockpile not believed essential to Japanese supply.

REOURMSG 86923 of 9 Apr 49 and 88865 of 15 Aug 50 and REURMSG C 58966 of 29 Jul 50.

Subject is Zaibatsu Trade names and trade marks. Fol is a State-Army cable.

Position here continues to be that set forth in our msg 86923 of 9 Apr 49. However, consider it undesirable at this time in view of imminence of peace settlement to insist upon execution of SCAPIN 1923 if Japanese govt strongly opposed to such action. If opposed by Japanese govt, would appear preferable that this matter be handled in connection with other SCAPINs which could be appropriately withdrawn rather than to treat problem of trade marks and names as an isolated matter. Such action would indicate our intent to leave final decision with Japanese.

Appreciate your comments soonest so that substantive reply can be made to Tide Water Oil Company.

TO : SCAP (USPOLAD) TOKYO JAPAN

NR : 271155 Z (FEB 26, 8 PM) (FOL FROM LONDON SENT DEPT 4619, FEB 26, 5 PM USPOLAD TOKYO 46)

FONOFF has handed emb aide memoire in reply to our representation on need for increased Jap participation in internatl relationships (Depts A-586 Oct 19 and EMBTEL 2835 Nov 15). Substance of aide memoire is as follows:

1. MFN treatment for Japan. Brit Govt is now giving same treatment to Jap trade as to trade of GATT members. Only restrictions on Jap imports at present are imposed on balance of payments grounds. Jap recovery is important to relieve burden of US taxpayer and to enable Jap to make contribution to econ development in S and SE Asia. Brit Govt is concerned about "unique phenomenon" of Jap competition which has caused serious difficulties for UK in past. Brit Govt cannot enter into any formal commitment to grant MFN to Jap but will continue to accord to Jap trade actually MFN treatment.

2. Jap trade representatives. Brit Govt will accept Jap overseas reps in UK. It will not be possible for some time to accept them in Brit colonial territories which were occupied by Jap during war, Malaya, H Kong, etc, because of hostile local feeling (position with respect to their colonies unclear and we have rqstd clarification).

3. Internatl conferences and organizations. Brit will in pre-peace treaty period welcome participation of Jap in internatl conferences and organizations on technical character as observer without right to vote. They will also examine possibility of Jap participation in such conferences and organizations as full member ship relevant to body in question. As exception to above principle Brit will not agree to Jap participation in GATT even as non-voting observer.

In delivering note to Emb off Muntz of FONOFF stated that govt

21 Feb 51

FROM : SCAP FOREIGN TRADE OFFICE (DEES) NEW YORK

TO : SCAP (GARRETT) TOKYO JAPAN (PASS TO BRIGADIER O'BRIEN)

NR : YON 16137

Subject Engineering Mission to Japan.

1. Conference held on 19 Feb with Dean H P Hammond, State College, Pennsylvania, and representatives from Unitarian Service Committee led to agreement in principle on following proposals:

A. Subject mission to be recruited by ASEE (Dean Hammond will personally contact outstanding US engineers: His list of possible participants is excellent, and includes several college deans and presidents as well as unusually outstanding professors and consultants).

B. All other administrative details to be responsibility of Unitarian Service Committee (USC), working under contract with DEPTAR, as in the case of PHW-sponsored Medical Education Mission.

2. Dean Hammond proposes that total period of mission, including travel time, be 62 days, with 15 American engineers composing party. ETA Tokyo 5 July 51.

3. Miss Dorothy Snavely, Assistant Executive Secretary, USC, to reach Japan in May 51 to aid in coordinating work of Second Medical Education Mission. USC proposes that she remain until end of August to similarly aid Engineering Mission.

(over)

57029

ROUTINE
UNCLASSIFIED

4. Estimates for mission costs are as follows:
A. Per Diem (15 men for 62 days at $10.00 per day) $9300.
B. USC service charges (including Dean Hammonds recruiting costs, general administrative expenses, per diem for USC Representative in Japan, insurance for mission members, teaching aids, shipping costs, etc etc) $6050.
C. Commercial travel in US for mission members (to Travis AFB) $4000.

5. Informal advice from OOA, OUS, DEPTAR indicates desirability of charging items 4 A and 4 C above against Project 415, and Item 48 B against Project 412. (Recommend that hence-forth subject mission be designated "Engineering Mission to Japan" in order to avoid difficulty which might otherwise arise through its being considered an educational mission chargeable against reorientation funds under Project 452).

6. It is assumed that the mission can be provided with MATS Transportation between Travis AFB and Tokyo, hence above estimates make no allowance for overseas air travel.

7. It is pointed out that cost of proposed mission is extremely modest in comparison with cost of missions involving salaries for visiting experts. Caliber of personnel to be approached by Dean Hammond (including such men as Karl Compton, Vannevar Bush, T K Sherwood, Leonard Carmichel, etc) assures recruiting of exceptionally well-qualified individuals as mission members, and points up overall desirability of implementation of this proposal.

8. Dean Hammond is anxious to begin recruiting efforts as soon as possible, and pointed out that this is essential because many possible mission members will soon begin to make other summer commitments.

9. In view of above, strongly recommend immediate and urgent action to obtain necessary concurrences and C/S approval to dispatch radio to DEPTAR requesting:
A. That 15 man Engineering Mission be recruited to visit Japan during July-August 51.
B. That a contract be negotiated with Unitarian Service Committee to handle administrative details of this mission.
C. That funds as outlined in Para 4 above be obligated from FY 51 funds for above purposes.

URMSG Feb C 55071.

1. Your comments on support given SCAP CIE Program by Reorientation Branch are appreciated.

2. It is agreed that CIE Program in Japan must remain responsibility of SCAP until Peace Treaty becomes effective. DA msg 82461 was not intended to imply any change in this responsibility nor to propose any modification of SCAP procedures or objectives. It is considered that future of this important program, including its transfer as a going concern to the Dept of State, can be assured only through increasingly close coordination and detailed planning here and in Japan between agencies now concerned and those which will carry on program in post-Treaty period. Objective of current discussions here with State is to determine best measures for orderly transfer without break in program activity.

3. Transfer will require that State secure capable experienced personnel to conduct program and that pre-transfer coordination take place in connection with activities such as procurement of supplies, requirements for which must be anticipated months in advance. Pre-employment security clearance of personnel for employment in USIE operations requires 3 to 6 or more months, which fact must be considered in contemplating utilization in USIE operation of personnel engaged in present program. Further, Dept State must prepare program and budget for FY 53 before fall of 1951, which action

ROUTINE

FROM : DEPTAR NR : DA 83768 DTD 17 FEB 51 CONTINUED

contemplates complete coordination between State and Army agencies. In addition, continuity of certain long-term projects should be uninterrupted.

4. Your objections to pre-Treaty transfer of some phases of ZI support to Dept State prior to assumption by State of full responsibility also were raised in connection with turnovers in Germany and Austria, but in those areas the anticipated difficulties did not materialize even though the changes were made prior to complete turnover. Over experiences in these other areas indicates the necessity for making some adjustments well ahead of the effective date of transfer of full responsibility. Based on these experiences, believe advantage lies in certain pre-Treaty negotiations although in view of very recent developments perhaps not as early as 1 July.

5. Would appreciate your comments on each of the above points, and in addition, your recommendation as to those phases of the present CIE Program which should be continued in the post-Treaty USIE Program.

Fol msg transmitted at rqst of State.

"Dept of State of view that independent of peace treaty developments it would be advisable that Japan apply for readmission ILO at Jun conference (POLAD's dispatch 581, Apr 17, 50). In its application, Japanese Govt shld make statement with SCAP's concurrence that it is in position to apply, and will apply, ILO Conventions which it ratified before it withdrew. Jap Govt [illegible] also be expected to recognize its financial obligations, although it is believed that amount unpaid dues of approximately $368,212 is open to negotiation.

"If foregoing acceptable to you and Jap Govt, Dept will solicit views member govts with view to securing their support. Your attention is called to Article 22 of ILO Constitution under which Jap Govt would be bound to make annual reports on ILO Conventions, and also to Article 26 et seq under which commission of inquiry could be constituted to consider complaints of nonobservance of ILO Conventions. Procedures in Article 26 et seq to be distinguished from that outlined DA 82682, 3 Feb 51 re allegations of infringement of Trade Union rights,-since latter procedure requires consent of govt concerned and it taken pursuant to ILO decision end ECOSOC resolutions, whereas Article 26 procedure does not require such consent and relates to violation of ratified conventions. Reply appreciated soonest so that US Del may discuss matter informally at meeting of governing body in Geneva late Feb."
