DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Mr. Jones

KANTO LIAISON & COORDINATION OFFICE
Japanese Government

KLO No. 107 13 December 1949

TO : Chief, Kanto Civil Affairs Region

FROM : Kanto Liaison & Coordination Office

SUBJECT : Incentive Goods for 1949 Rice and Sweet Potatoes

With reference to KCAR Memorandum Ag-E430.2, on the above subject, received on 9 December, the following report is herewith submitted.

I. This office has lost no time in drawing the attention of the respective bureaus concerned of the Ministry of International Trade and Industry, the Agriculture-Forestry Ministry and the Ministry of Finance through the Tokyo Regional Economic Stabilization Agency, calling for their utmost endeavor to have the incentive goods distributed to consumers in Kanto Prefectures in the light of the contents of your communication.

II. Explanations on the matter given by an official of the section in charge of the said agency may be summarized as under.

(1) Items of incentive goods for 1949 rice and sweet potatoes excluding those released from the Occupation Forces are as follows:

(a) Towels (two kinds Japanese style and Western)

(b) Cotton piece goods

(c) Trousers

(d) Jika-tabi (Rubber soled shoes)

(e) Bicycle tubes and tyres

(f) Sake (Japanese wine)

(g) Cigarettes and tobacco

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) Reasons for distribution being in arrears

(a) Shipments of incentive goods to the distribution agencies from the shipping agencies are timed so as to make supply and demand between the distribution agencies on one hand and the consumers on the other meet according to their financial situation.

However, due to the present tight-money situation the distribution agencies appear to be reluctant to take upon themselves the incentive goods in large quantities.

This sometimes makes it difficult for the consumers to obtain the goods they desire.

(b) Consumers are apt to wait for the arrival at the distribution agencies of such goods as cotton piece goods, because the consumers prefer such goods to other items, even though, other incentive items are available to them.

In some cases, consumers themselves find it difficult to obtain the goods owing to shortage of funds at hand.

(3) A chart illustrating distribution channels of the incentive goods is herewith attached for your reference.
