offered or demanded in return for shipment? -- No.

b. Is there any evidence that fishermen qre with-holding their catch because of this enforcement drive? -- No, quantity of shipments has increased yet fishermen are obvicusly useing some of their catch to vuy supplies which are not supplied by the government as agreed.

c. Are fishermen diverting their catch from Class A to Class B ports? -- There is apparently some diversion. Both Marine Products and Economic Police officials are aware of this situation but to date seem to be unable to correct it fully.

35. Has the prefectural governor actually licensed shipping agencies at the Class B ports? -- Yes.

36. Does he provide these agencies with monthly plans of shipment and allocation? -- Yes.

II. Vegetable Shipment:

1. Are vegetable producers receiving link fertilizer promptly and in accordance with correct rates? -- Distribution cards are distributed immediately but it takes at least two months to receive the actual fertilizer.

2. Are the link commodities arriving at the vegetable producing areas? Fertilizer is being distributed as planned; cloth was distributed the first of this month, but tobacco has not yet been distributed.

3. Are they being distributed equitably and at the proper rates? -- Yes.

4. Is ther any evidence of local diversion of link commodities from legal channels? -- No.

5. a. Has any progress been made toward the establishment of special vegetable producing areas? -- Yes, preparations have been completed. Two are established in Maizuru

b. How many? -- About 50% was with held be

Subject: Application for the materialization to acquire crude rubbers, the essential raw material for the production on mining machinery.

March 5, 1948

Sir:

We beg to apply for the emergency measures to overcome the crisis of materialization of crude rubbers mentioned below.

We have already received the second allocation certificate (for 7,140 ton) for the third quarter of 1947 of crude rubbers on Feb. 10, 1948, and we have been in negotiation with Kobe Branch, Mining Goods Foreign Trade Corporation in order to materialize the allocation of this material thereafter.

Despite our efforts, we can't receive those goods by this time, owing to the delay of the arrival of the ship from foreign country.

Moreover, the present condition of the crude rubber stock on our hand is pretty worst such as: actual stock on hand is about 500 Kg, as of March 1st 1948, so we anxious very much that we can't help to stop our production if such a condition will be kept on, as those stock will be duly consumed by March 10 or so, and this will also mean a fatal blow for the production on mining machinery to be required the emergency demand.

Such being the circumstances, we earnestly here wish to give your emergency measures to the Mining Goods Foreign Trade Corporation who might be kept some stock of crude rubbers on their hand by your earnest cooperation.

Very truly yours

Edible oil	3 go
Sugar	1 kin
Canned food	5 lbs.
Flour	600 momme
Potatoes	1 kan

(2) B list (Non-Rice Dietary)

Sugar	1.5 kin
Butter	2 lbs
Edible oil	3 go
Canned food	7 lbs.
Beef, lean	200 momme
Flour	500 momme
Potatoes	3 kan

(3) List for Axis nationals

Sugar	1 kin
Butter	1 lb
Edible oil	3 go
Canned food	5 lbs.
Flour	400 momme
Potatoes	3 kan

2. The nationality of Chinese will be proved by a certificate which is issued by the Chinese Association and stamped with the official seal of the Chinese Mission in Japan.

3. Instruction No. 1563, dated December 3, 1945, has been rescinded by Instruction No. 1738, dated September 14, 1946.

Incl. 1 to O/D No. 83/2, Hq, Eighth Army, 19 Nov. 1946

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

KYOTO PREFECTURAL POLICE DEPT. HQ.

Kyoto, Feb. 27, 1948.

SUBJECT: Report on the result of investigation into silk suspected to be illegal hoarded goods.

TO : Capt. Commons,
Economic Section,
Kyoto Military Government Team.

It is a pleasure to submit you report on the result of our investigation, which was enforced according to order of Kyoto Military Government Team on Feb. 23, into silk as follows, which however, is possessed by Genzaburo Yoshimura (who is the president at the Yoshimura Boseki Kabushi Kaisha located at Anjyu, Yamashina, Higashiyamaku, Kyoto City and who is 65 years old) and which was ordered strictly to be kept at his own warehouse by 22nd C.I.D. on Oct. 31, 1947.

1. Total amount of silk possessed by the said Yoshimura Boseki Kabushiki Kaisha is 1482 Kan which was formerly purchased from Finance Bureau, Japanese Navy on Apr. 1, 1945 and which was already reported to the authority and therefore, is not illegal goods.

The said Company, which had been concerned with manufacturing shirts according to order of Finance Bureau, Japanese Navy during wartime, had always used silk as raw materials purchased from Finance Bureau, Japanese Navy.

Amount of final silk allotted by the authority on Apr. 1, 1945 was 4379 Kan and 184 Momme which was Chinese silk, and the money payed for was ¥348,583.04. The written contract for this is contained in the annexed paper.

Of all the Chinese silk mentioned, 477 kan was used for manufacturing 6816 sheets of shirts which were supplied to the Finance Bureau, Japanese Navy, and 2420 kan was burnt out owing to air-raid while it had been being improved at Nishimura Hosiery Factory located at No.540 Sugaharacho, Toyosato, Higashiyodogawa-ku, Osaka City.

1482 kan of Chinese silk, the remainder, was kept by the said Yoshimura at the time when the war was ceased.

However, the report on this amount of silk was already submitted to the authority according to the Decree concerning "Report on amount of silk kept by Japanese" issued on Dec. 31, 1945 and moreover, another report on the said silk was submitted to the Kyoto Prefectural Government according to order from Chief of Economic Department, Kyoto Pref. Government issued on Apr. 15, 1947. Copies of the said report are contained in the annexed papers.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

2. Case about 500 kan of silk.

While the said possessor was keeping the said 1482 kan of silk, which had already been registered, at the warehouse belonging to his own house and his factory, these two warehouses were sealed by 22nd C.I.D. on Oct. 27 last year on a charge that the said silk was suspected to be illegal hoarded goods.

According to the statement by Genzaburo Yoshimura, he was forced by Tamamura, interpreter at 22nd C.I.D. to state that he hoarded 500 kan of silk illegally.

On that occasion, showing the papers concerned, Yoshimura stated through interpreter Tamamura that the said silk was legal goods which had already been reported to the authority, with the result that his real will was not understood and that he was forced to sate groundless facts.

3. After that, Yoshimura, for fear of robbery, transferred the silk kept at the warehouse located at his factory to the warehouse at his own house after he got permission of Kyoto Military Government on Dec. 26 last year, and at present, all the silk mentioned, which was sealed by Chief of Yamashina Police Station, is taken into custody strictly.

4. As regards watching by policemen, Policemen belonging to Yamashina Police Station use to watch the said warehouse at several times every day. As regards the real quantity of the said silk, Yoshimura stated that he was not sure of the real amount of the silk kept in the said warehouse, because he has never examined its real amount even in case when C.I.D. men searched it. He only knows its amount through papers received from Finance Bureau, Japanese Navy at the time when he purchased the said silk from the said Bureau.

6 February 1948

SUBJECT: Freeze of Textile Dyeing

TO: ~~All~~ Economics Sections, Kyoto MG Team

Mrs. D. Edgars, Chief of the Consumers Goods Branch, Textile Division, ESS, came to our office and gave us following information regarding the freeze on dyeing of textile.

All processing of domestic goods will be stopped ten (10) days from 24 January 1948 (3 February).

All domestic goods shall be removed from plants processing same.

Plants processing domestic items and those processing both export and domestic items must request permission for continuing the processing of domestic items by making application to the Textile Bureau, Department of Commerce and Industry (who must relay the request to SCAP for final permission). The following information must be furnished:

1. Name of plant.
2. End use of item.
3. Quantity of dye stuff to be used.
4. Type of dye stuff to be used.

Consequently, all dyeing plants must have either an export permit for its export items, or a domestic processing permit received as outlined above. Any plants not holding either of the above permits will be considered as processing illegally.

Export items are not affected and processing of these items can continue as in the past.

This order does not affect goods being produced on PD for the Occupation Forces, nor goods produced for the Post Exchange.
