SUBJECT: Building Policy in Hiroshima Prefecture.

THROUGH: Liaison and Coordination Office

TO : Director of Hiroshima Prefecture Board of Reconstruction

1. Reference: a. Japanese Government Cabinent Ordinance No.6 promulgated 8 February 1947.

b. Conferences attended by representative from your headquarters in the office of Hiroshima Military Government Team Headquarters.

2. The referenced Japanese Cabinent Ordinance is designed to accomplish restriction of non-essential construction and expedite construction of acutely necessary housing and essential industrial reconstruction. Non essential construction is classified as follows:

a. Gift and Souvenir shops, theaters, dance halls blackmarket restaurants, tea and gambling houses and other places of amusement.

b. Office buildings, stores, and mercantile establishments, the construction of which requires large amounts of building materials but does not come under the classification of "Manufacturer or distributer of essential consumer goods.

3. Cabinent Order No.6 (All articles from 1 to 23 inclusive) is the basis of the Economic Stabilization Boards Plan to control the allocation of essential Building materials.

4. Recent inspections by this Headquarters have revealed approximately 1,684 violations that have taken place since 8 February 1948. Most violations are located in Hiroshima City, Kure City, Mihara City, Onomichi City, and Fukuyama - Fuchu Cities.

5. The use by contractors for construction of buildings with hoarded or blackmarket purchased critical items is not interpreted as strict adherence to Ordinance 6. Such critical items referenced above are glass

windows, doors, steel for all types of structural work, cement, hardware, other metal products and building materials.

6. It is estimated by this headquarters that 407 such buildings (as described in Para 5) are now erected in Hiroshima Prefecture.

7. The following report is requested by this Headquarters not later than 4 June 1948. Report to include the following:

a. Number of buildings erected with permit since 8 February 1947 to 1 May 1948.

b. Number of illegal buildings since same dates as above without permits.

c. Number of nonessential buildings permitted since 8 February 1947.

d. State proposed plan to correct this flagrant mal-practice.

Article 2, para. 2, sub-para. (c) of 'The gist of Office Work regarding the permission for construction and the allocation of materials'.

The floor coverage of the public residence (including the lodging-house) shall not exceed 40 sq. meters (including the parts jointly used) per one family (5 sq. meters shall be added per one family in the cold or snowy districts).

Article 4 of 'The Restriction for the Construction in War damaged cities'.

Prior to the Article 4, Article 3 must be referred here.

Article 3 of 'The Restriction for the Construction in War damaged cities'.

Governor can grant the construction of the temporary buildings irrespective of provision of the preceding article, insofar as the requisites referred in the following items are satisfied, if, in his judgment, the city plan is not affected by them.

1. The building shall have less than two stories (including balcony).

2. The building shall be constructed so that it can readiely be removed or evacuated.

3. The floor coverage of one building (in the case of expansion, total area of existing and additional buildings) shall not exceed 100 sq. meters.

4. The proportion of the building area for the total site (in the case of expansion, total area of existing and additional buildings) shall be less than, five tenth within the commercial districts, three tenth within the other districts (if the building area extends both commercial and other districts, shall be less than three tenth).

Governor can enable the above mentioned requisites listed in para. 3 and para. 4 unapplicable, when, in his judgment, there is an unavoidable circumstance in view of the use of building or the land situation, or it is necessary for the public benefit.

Article 4.

At the time Governor grants the preceding article for the constructions referred below, the existing term shall be given, if he considers it is necessary for the city plan.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78013

1. The building to be constructed within the premises of institutes rendered in Article 11 para 1 of Law relative to city plan (excluding the delimitation of the Land.)

2. The building not to be applicable to the requisites of the preceding article para 3 and para 4.

3. The building to be designated by the governor.

OEIB - No. 26

TO: Major Alfred P. Robertson
Commanding Officer
Okayama Military Government Team

SUBJECT: Violation of "Temporary Building Restriction Ordinance" by Kurashiki Autonomous Police

1. Regarding the above subject we have been continuing the investigation, the interim report is submitted as follows:

2. Kurashiki Municipal Office applied to the Okayama Construction Branch, the Construction Board for the permission to construct the official residence for the chief and assistant chief of Kurashiki Autonomous Police, but it was rejected.

3. On June 6, 1948, Kurashiki Municipal Office applied to the Okayama Construction Branch, the Construction Board for the permission to construct the conference room, recreation room and other additional facilities of Kurashiki Autonomous Police and for the necessary construction materials.

They intended to have chief and assistant chief of the said police temporarily live in these as the custodians.

4. On August 10, 1948, the permission for construction and the allocation of necessary construction materials were given by Okayama construction branch, the construction board. The list of materials allocated are as follows:

100 Koku	Lumber
1 ton	Cement
500 sq. fts	Glass
30 kgs	Nail
5 kgs	Electric wire

5. Then they started the construction, but they found that the materials allocated, especially cement, were short. So they schemed to apply for the additional allocation of materials as a materials for repair works.

But the scheme of construction for the Store house and fences of the said conference room became necessary to be changed because the realization of the City Plan was indefinite.

6. On Sept. 1, 1948, Kurashiki Municipal Office applied to the Building Section, Okayama Prefectural Government for the permission to construct the store house and fences of the conference room, as the 2nd term construction, quite separately from the above mentioned scheme, together with the materials necessary for it.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

The permission and the materials applied for the above was granted on Sept. 30, 1948.

The materials allocated is as follows:

15 Koku	Lumber
1 Ton	Cement
2 kgs	Nail

7. Thus obtained cement for 2nd term construction, was misused for the 1st term construction and was not used for the foundation work of store house and fences for which the cement was applied.

8, Violation against the "Temporary Building Restriction Ordinance"

The permission for construction and materials allocated are done legally according to the Temporary Building Restriction Ordinance and the Regulation for the Allocation of Designated Production Materials.

The fact that they misused the cement which had been allocated for the 2nd term construction, for the 1st term construction corresponds a violation against Article 17 of the "Temporary Building Restriction Ordinande which says that the designated production materials allocated shall not be used for any other purpose but for the very construction for which they are applied.

9. Name of Agencies investigated

Building Section, Okayama Prefectural Government
Planning Section, Kurashiki Municipal Office
Account Section, Okayama Main Office, N.R.P.

10. Disposition

This case will be prococuted as the violation against the Articles 1 and 4 of Temporary Demand and Supply Adjustment Law and also against the Article 17, Temporary Building Restriction Ordinance after completing the investigation.

OEIB - No. 27

TO: Major Alfred P. Robertson
Commanding Officer,
Okayama Military Government Team

SUBJECT: Case of constructing the Police Boxes of Tsurajima Autonomous Police, Asakuchi-gun, without the permission for construction.

1. The end of August, 1948, Yasuhara Uichi, town headman of Tsurajima-cho, Asakuchi-gun, applied to the Building Section, Okayama Prefectural Government for permission to construct Enaga, Tsurushinden, and Miyaura Police Boxes and for allocation of the necessary construction materials.

The necessary materials are as follows:

55 koku	lumber	27 kgs	nail
16 mats	tatami	135 sq.fts	glass
1.3 kgs	electric wire		

But the construction has not been permitted because of the allocated materials not being available.

2. a. Enaga Police Box

In the middle of September 1948, he found an old house located at Hachioji, Kurashiki City, bought it for ¥ 55,000 to pull down and remove to another place to rebuild as the police box, and started the construction early November without the permission. The completion percentage is at present 80%. This building area is 27.5 tsubo that is over the coverage applied to get permission by 13.5 tsubo.

b. Tsurushinden & Miyaura Police Boxes

Without the permission for construction, contractor Nakata-gumi, 197 Tsurajima-cho, Asakuchi-gun, set to construction early November with the materials possessed by Nakata-gumi, and 80% has been completed at present. The building area of Miyaura Police Box exceeds the area applied to get permission by 1 tsubo.

3. We investigated Yasuhara Uichi, town headman of Tsurajima-cho and Police Inspector Miyamoto, Chief of the Police Station,

Their statement was as follows:

The budget of the construction for the above mentioned three police boxes is ¥ 150,000 per 1 police box, and ¥ 75,000 of which depends on the contribution by villagers.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

As we applied for the permission to build these three police boxes in the last ten days of August, believed the permission would be granted before long, besides, such police boxes being important for guard, we started the construction in November without the permission.

Regarding Enaga Police Box, as we thought that if we pulled down the old house obtained for ¥ 55,000 to build it using the old materials, the burden of villagers would be lightened, decided to build it changing the plan applied to get permission of construction.

Further, we intended to return the allocated materials to the Building Section, Okayama Prefectural Government, when we get the allocation.

4. Disposition

a. The suspension of construction was ordered.

The Building Section, Okayama Prefectural Government will procecute this case.

b. As for the building area which is over the applied coverage, the Building Section, Okayama Prefectural Government will dispose it by the Administrative Ordinance (Prohibition order of Using or Order for Changing Plan).

SUBJECT: Construction of Sunami Shukichi's Residence

The report on the above subject is submitted as follows:

1. a. Owner of the residence

Sunami Shukichi, Director of Kyosei-Kai
105, Kaminishigawa, Okayama City

b. Place

1/11, 12, 13, Uchisange, Okayama City

2. Use of the building and the building area

Dormitory for the Staff of Kyosei-Kai - 155 sq. meters (new building)

Ware-house - 25.75 sq. meters (expansion)

3. On 10 July 1947, Sunami Shukichi started construction of a dormitory with 155 sq. meters building area for the staff of Kyosei-Kai with out the permission of construction, because he could not obtain the permission of construction from the Reconstruction Bureau, Okayama Municipal Office, for the place was expected to be a green area of the city plan, and on 25 August 1947, it was found by a construction inspector of Okayama Construction Branch, the Construction Board.

Okayama Construction Branch, the Construction Board ordered Sunami Shukichi to suspend the construction as the Administrative punishment.

4. On 17 December 1947, Sunami Shukichi applied to Okayama Construction Branch, the Construction Board to get permission for construction with the following conditions:

a. This building will be used as a dormitory for the staff to accommodate four families.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

b. The construction materials will be at his own hands.

c. The building will be evacuated without any compensation, should it cause any inconvenience for executing the city plan.

5. On 16 April 1948, Okayama Construction Branch, the Construction Board granted the permission for construction.

The reason for the permission are as follows:

a. As this construction was applied as a dormitory which accommodates four families, i.e., Sunami Shukich's (4 persons), Iwasaki Rokusaburo's (3 persons), Hiramatsu Torao's (2 persons), and ten nurses, the building with less than 160 sq. meters could be permitted for construction, according to the Article 2, para. 2, sub-para. (c) of 'The gist of Office work regarding the permission for construction and the allocation of materials' - issued by the Board of Reconstruction No. 48, dated 1 Feb. 1947 - which is shown on the attached sheet.

Okayama Construction Branch, the Construction Board gave a permission with the condition that a partition would be put in the nurses' room so as to accommodate 5 nurses in each separated room.

b. The construction in the expected green area of the city plan can be permitted, according to the Article 4 of 'The Restriction for the Construction in War damaged cities' - The Imperial Ordinance No. 389, dated August 15 1946 - which is shown on the attached sheet, with the conditions that the removal of the building will be done by the applicant without any compensation within the fixed term when the city plan be put in force.

6. The building section, Okayama Prefectural Government will investigate this building to make sure whether it is identified with the content of the permission as soon as its completion is reported.

Kurashiki Police Building — (~~cooperation~~ Corpr Erran)

Upon checking the permit #4080 issued to build two houses for the Police of Kurashiki, it was learned that another permit had been approved by the Governor to build a fence at the same location although fences were included in #4080. Also although the materials, listed as needed on the permit applications, were only partially allocated the buildings were almost completed.

The data was presented to the E.I.B. 1 Nov with suggestion that they determine the amount of materials used in the construction; the amount required; where the materials, other than that ~~required~~ allocated, came from; what the possibilities of blackmarketing activities with building materials would be for this group and who would profit by it. Also why a second fence permit was approved by the Governor and materials allocated when the fence will not be needed for at least 5 to 10 years according to a statement made one of the following Kurashiki officials;

Mr Harada, Asst Mayor
Mr Yasuhara, Chief of Police
Mr Sasaki, Chief of Planning
Mr Harada, Public Safety Commissioner.

The E.I.B. reported 4 Nov that there is no question about more materials having been used than were allocated. Evidence points to the Engineer who drew up the plans.

12 Nov. the EIB reported that they have grounds for charges against the Engineer for misuse of materials;

OKAYAMA PREFECTURAL GOVERNMENT

January 24, 1949

To: OKUYAMA Yoshio,
Oaza Shimo Kasaka,
Kasaka-son, Oku-gun.

Subject: In Reply to Your Petition.

With regard to your petition, the matter has been referred to us by the Okayama Military Government Team through Mr. Takasugi, representative of the Chugoku Liaison Coordination Office.

As the result of investigation of the actual circumstances, we wish to inform you as follows.

1. When the intended use of a farm land, which has been bought up and sold according to the provisions of the Law of Special Measures for Establishment of Owner-Farmer, is to be altered, it falls under the condition of the clause "when intending to quit owner-farming" as prescribed in Art. 28 of the said Law.

If, however, should the change in intended use of land is deemed fit and proper and given approval by the competent minister, the said land can be re-purchased by the government and made as state property, whereupon it can be offered for use other than as farm land.

2. When the intended use of land has to be altered out of necessity at the time the said land is to be purchased by the government, and it has been found that "the change of intended use of land in the near future is proper, and it is so disignated by the city, town or village commission with the approval of the prefectural agrarian commission, or by the prefectural agrarian commission" as according to para 5 Art. 5 of the above Law, the government, as a rule, will not buy up the land.

3. However, without any such procedure as above-stated being initiated, it is deemed that the land will not be offered for use other than for cultivation in midst of prosecution of the Agrarian Reformation, and as a rule the competent minister does not issue approval to such matters. Therefore, it is impossible to apply Art. 28 of the said Law.

4. As a result of investigation, we can understand the inevitable reasons on your part, but for the present, we can only recommend that you either select another tract of suitable land which was not purchased by the government, or wait construction until such approval is received from the competent minister according to the provision of Art. 28 of the above Law.
