Sultation of Chairman, Dr. Nagai

Half year has passed since we were appointed committee of child welfare council. According to the recent newspaper, we find the child problems are changing year by year. We should make effort to improve child welfare, wishing your further cooperation.

Report of investigation and disposition re matters discussed at the previous confernence by clerk of secretariat of the council are mentioned below.

1. Recommendation and advice of child culture material

For instance, to discuss again what is decided at the movie special committee at the general meeting is difficult from time-saving point of view. But this will be discussed later.

The movie special committee decided to recommended American movie "Snow-white and the seven dwarfs" and distributed admission tickets.

The special committee on books will get into action recently.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

2. Petition to prohibit scattering of leaflet from car on the street

In Marugame, there was am unfortunate accident that a child was killed when he was going to pick up leaflet on the street scattered from a running car.

Theis is suggested by Marugame committee member. The draft of petition to be submitted to the Prefectural Safety Committee is made to be discussed.

Discussion

1. Opinion of Kagawa Prefecture Child Welfare Council re Children's Charter Draft made by Central Child Welfare Council

Chairman; After we got this draft we printed and distributed 2,000 copies to get opinion for this Children's Charter draft made by Central Child Welfare Council on October, 1950.

But we got only 54 answers. The opinions answered to our inquiries are showed on attached papaer NO. 2.

We want to discuss these answers to unify the opinion as this Child Welfare Council.

Each opinion was read out. Alphabet means order of opinion showed on attached paper.

a. This is mentioned by 3 persons, and worth listening. Majority of attendants were agreed.
b. The man expressed this opinion is criticized by most that he did not understand the meaning or purpose of children's charter. This opinion is out of focus.
c. This is also an another wish not regarding directly to the original meaning of enactment of the charter. .
d. They agreed this.
e. This is an further wishes after the establishment of the charter.
f. This is also an another thing not relating directly to the enactment of the charter.
g. This opinion is out of focus.
i. They did not think much of them.
j.] This is also opinions made by people who did not understand the
k. true meaning of the enactment of the charter.
l. This is agreed partly by attendants, not wholly.
m. This is an request to the Council.
n. The man did not understand the original meaning of the enactment of the charter.
o. This is an further wish than the enactment.
p. They agreed to shorten No. of articles from 15 to 10.
q. This kind of things should be provided another laws or regulations.
r. He did not understand the meaning of the enactment.
s. This is a request after enactment.

* There are many people who do not understand the original meaning or purpose, namely, the charter is to the adult or to the child. Therefore, the meaning or purpose should be contained in the article or in the preface.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

* The expression is difficult to understand for many people. It should be described more intelligibly.
* No. of article is seems to be too many. It should be shortened.
* Description should be more concise.

Discussion about particular opinion of each article was omitted, because there was not a sufficient time to do.

Decision: Then, the opinion of Kagawa Prefecture Child Welfare Council for the children's charter draft made by Central Child Welfare Council will be submitted as soon as it is made in the secretariat of our council in consideration of above opinions.

2. Petition to the Prefectural Safety Committee for control of scattering leaflet from motor-car.

At the previous meeting, there was an proposal to make petition to the prefectural safety committee to control scattering leaflet from car, because it is very dangerous for children who want to pick up leaflets. Recently, we had an unfortunate accident that a child who was going to pick up leaflets scattered from running car on the street was killed in Marugame.

This proposition is made by Taishu Shinbun (The Newspaper of the Multitude), and the pressman of the paper awaiting for the decision of this proposal in the other room of this building.

Draft of the petition was made as below:

17 January, 1951

To: Chairman, Kagawa Prefecture Public Safety Committee
From: K. Nagai, Chairman, Kagawa Prefecture Child Welfare Council
Subject: Petition for maintaining safety of children on the street

Of late, there are many cases scattering various kinds of leaflets from running car. And children only interested in picking up leaflets frequently run after car regardless of their own danger, therefore, sudden stops or crossings of cars cause unexpected and sorrowful accidents very often. This is indeed a regretful thing.

With a view to these facts, Kagawa Prefecture Child Welfare Council, from the standpoint of representative of public opinion on the improvement of child welfare in the prefecture, with an agreement of all members, hereby submit this petition by the name of Kagawa Prefecture Child Welfare Council so that the revision of public safety regulations and other rules concerned is done as soon as possible for the maintenance of safety of child on the street by Kagawa Prefecture Public Safety Committee.

* Regular meeting of public safety committee and confernce of police station chief will be held recently, we are going to make proposition about this problem. There are three ways on this probem to take. Namely, 1st is to let things as it is, 2nd is to allow them scattering leaflets only when the car is still, and entire interdiction of scattering leaflets from car is the last one. The entire prohibition

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

of scattering leaflets from car has met a hard objection by parties interested.

* If it is difficult to prohibit wholly, let them scatter leaflets from the rear part of the car.
* Majority of accidents were caused by cars not scattering leaflets but others crossing.
* Relating this , problem, I think it is desirable to urge to make children's playground.
* Most child get out when a strange car, different from common car; e,g, jeep, broadcasting car, etc. passes in front of children's house, especially in country, child get out and even run after it. Therefore, the scattering leaflets from car should be forbidden perfectly. The word "running" of "from running car" in the petition should be omitted.

Decision: Chairman will submit this petition revised (except word "running") to Kagawa Prefecture Public Safety Committee and make a supplementary explanation.

3. Partial modification of rules of special committee

The current regulations are based on that made by Central Child Welfare Council, And those regulations were partly modified in the said council and so we are going to take the same way as the central.

The revised draft is descrived as below:

Regulation re recommendation and advice for culture material by Kagawa Prefecture Child Welfare Council (draft)

Article 1. In accordance with the provisions of Article 8, Paragraph 7 of the Chil Welfare Law (Law No. 164 of 1947), matters relating to the recommendation of performance, publication, toy, and playing (Culture materials, the same as hereinafter), and advice to the manufacturer, performer, and seller made by Child Welfare Council (the council, the same as hereinafter) for the welfare of child, shall be provided under this regulation.

Article 2. The council shall recommend about the culture materials described below on application by parties concerned.

a. Cinema
b. Play (including puppet show)
c. Lantern slide
d. Paper show
e. Program showed, played, and performed as performance by combining those described in privious items
f. Publications, but as to the periodicals, including those that should be published periodically and continuously in future under the same compiling policy, by the same publisher and compiler
g. Toy and playing instrument

Article 3. The council shall recommend the previous culture material when they are approved to fall under the one of each item above.

a. Those which is a proper culture material for child, and has a positive effect to make child a healthy member of society by improving moral, sentiment, intelligence, and physique of child and making abundant of the contents of living.
b. Those which has a positive effect to develop and popularize the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

idea of child welfare, emphasizing the responsibility of society for child welfare, making the knowledge on healthy growth of child popular, and intensifying interest in and making intelligible the solution of child problem

c. Those which has a positive effect to popularize knowledge and technique on nursing, guidance, and recreation etc.

Article 4. Recommendation of the council under the provision of the previous article should be done as a rule only in the case that the said culture material fall under each condition described below.

a. Generally, those which can be obtained or utilize easily

b. As regards the culture material proper to the adult, generally, those which can be understand easily

c. Those which is written, published, devised, or made recently

Article 5. Those who want to be recommended of culture material or make anyone recommended should submit application for examination described of following matters (attaching the culture material, if possible) to the chairman of the council.

a. Address and name of applicant and relation with culture material

b. Kind of culture material

c. Name of the theme or material, shape, standard, and capacity etc.

d. Address and name of maker (performer, seller)

e. Reason for application

f. Summary or exposition

g. Mention it if they have ever been examined, recommended, or commended by another organization

Article 6. The council can, on recommendation, put such necessary conditions as object (scope of age, if necessary), matters that should be considered by maker, performer, and seller, and matters that should be cared on utilization.

Article 7. Consequence of examination shall be notified to the applicant with official document.

Article 8. Culture material which was not recommended by examination, can apply for examination again in case it is reformed or other necessary disposition is taken.

Article 9. The council can require its maker, performer, amd seller etc. to submit report to know the popularized condition of the culture material recommended, if necessary.

Article 10. The council shall advise maker, performer, and seller of the culture material fall under each item below, if necessary.

a. Those which spoil moral, sentiment, intelligence, and physique etc. of child

b. Those of which subjects are wrong idea for child or wrong knowledge for loving care of child

c. Those which spoil child welfare directly or indirectly by giving child intensive stimulation or making their circumstances unhealthy

Article 11. Advice shall be given by investigation, if necessary, on the notifiction by committee of the child welfare council, administrative organs concerned, child welfare parties concerned, and other common people.

Article 12. Advice shall be done with official document. If necessary, advice should be given publicity.

Article 13. The council can cancel the recommendation in case there ~~was~~ is such deed as violated the object of recommendation ~~are~~, the maker, performer, seller of the culture material recommended does not obey the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

conditions put or matters to be cared, made a strikingly exaggerated propaganda and advertisement, and performed or sold combined with other inferior culture material etc.

Article 14. The council can set up special committee, if necessary, on recommendation and advice of culture material.

Supplementary Provision

This regulation shall become effective on 18 January, 1951.

Decision: The previous regulation lacked Article 14. The modification is a mere addition of Article 14.

This is adopted without objection.

According to the addition of Article 14 of the previous regulation, special committee regulation draft is proposed to be discussed as below:

Regulation of special committee of Kagawa Prefecture Child Welfare Council (draft)

Article 1. Special committee under the provision of Article 14 of regulation re recommendation and advice of culture material by Kagawa Child Welfare Council (the council, the same as hereinafter) and the same under the provision of Article 4 of the regulation of Kagawa Prefecture Child Welfare Council shall be provided under this regulation.

Article 2. Special committee shall be made five as below:

a. The first special committee — Cenema and Lantern slide
b. The second special committee — Books (Publications)
c. The third special committee — Toy and Paper show
d. The fourth special committee — Health
e. The fifth special committee — Institution, lunch, propagation, and foster parent

Article 3. Each special committee carry on business as below:

a. Matters relating to the investigation of culture material
b. Matters relating to examination and dicision of those to be recommended or advised
c. Matters relating to making publicity and popularization of those recommended.
d. Matters relating to examination and investigation from the special point of view concerning matters on health, lunch, propagation, foster parent and others of child welfare agencies

Article 4. Secretariat of the committee shall be placed in Child Welfare section, Welfare Department, Kagawa Prefecture.

Article 5. Each special committee shall consist of committee members and a few temporary members.

Article 6. Each special committee shall be placed 1 chairman and vice chairman elected by mututal vote.

a. Chairman shall supervise business and represent the committee
b. In case of chirman's absence, vice chairman shall act for chairman

Article 7. Each special committee shall be convened by chairman after getting acknowledgement of chairman of the council.

Article 8. Each special committee should report matters investigated and examined to the council.

Article 9. Each special committee shall be placed of 1 clerk.

Clerk shall be appointed by the governor.

Article 10. Members of each special committee shall work when necessary.

Supplementary Provisions

Article 11. This regulation should be altered by decision of the council.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Article 12. This regulation shall become effective on 18 January, 1951

* The word "decision" in the Article 3, Paragraph 1, Item 2 should be omitted, because if the decision is done in the special committee, duplicate troubles will be required and stillmore, the final decision should be made by the council.
* Members of special committee have already selected, but there is a chairman who is not a regular member of the council, such a chairman is inconvenient, because, he does not attend the regular meeting of the council.
* Both chairman and vice chairman should be regular member.
* If either of them is regular, it will do.
* The word "temporary member"is confusing with regular member. The word "temporary member" should be altered to the words "the learned and the experienced".
* It is desirable that those culture material spoil child are prohibited by law. As many examples you know, if some material is advised to reform, stop making or stop selling, people apt to see it vice versa.
* I have heard evils about paper show, child often have a nightmare at night of the day he saw paper show, except such attendant evils as spending money to see show and buy unhealthful candy.
* I know that the controlling regulation for paper show is enforced in the prefecture of Kochi and Tokushima, but the result is not successful. Why they can not make healthy and instructive shows in this prefecture?
* Performers in this prefecture are not so many as shows can be made in the prefecture. In making paper show, it is so expensive that we can not make ourselves except borrowing ones made in Hanshin Region.
* I t is not ~~to make~~ impossible to make paper show, I think. I hope the council will be active to make healthy and interesting paper show in this prefecture.
* There are many childs seeing strip show, of late, I hear. What can we do about this?
* We can not make performer stop show. But can ask him not to enter child.
* There was a signboard informing "no entrance of child" by ticket box before, but it was ignored recently.
* There is no signboard there these days.

Decision: The special committee regulation draft was approved by the council with a few alteration (omitting a word "decision" of Article 3, Paragraph 1, Item 2, altering words "temporary member" of Article 5 to "the learned and the experienced", and adding the clause "either of chairman or vice chairman of the special committee shall be selected in the regular member of the council" to Article 6, Paragraph 1).

Consultation

Re foster parent application

We were asked about the fitness of the following six families as foster parents.

Followings are the details of families applied for being foster parents

1.

Address: 161 Yashima-naka-machi, Takamatsu

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

	Householder	Wife	Others

2. Objection for enactment of Children's Charter None

3. Opinions

A. Generality

a. It is desirable to lessen No. of article and to be concise so as to remember constantly.
(School principal, 49 of age)(Teacher, female, 38 of age)
(Person without occupation, female, 49 of age)

b. An article should be added that voluntary service for human race and community throughout life is emphasized.

c. I hope such regime and laws is legislated as to purify the world of adult for the bright growth of children both physically and mentally.

d. Is there any other words that more stress is put on the spirit of loving care for children than this draft - which will give, even person without a child, a strong impression?
(These 3 are by farmer, male, 49 of age)

e. It is necessary to create deirctor whose duty is to guide people concretely so as to realize the spirit of the Charter.
(Public official, 33 of age)

f. Unification of organ to bring up children.

g. Necessity of giving moral standard for children.
(Person without occupation, male, 56 of age)

h. Enactment of the Charter should be under the premise of stabilization of living and restoration of social order.
Mother's attitude for looking after child, breeding in childhood, eagerness of kindergarten and primary school teachers are needed.
(Minsei-iin, male, 46 of age)

i. These are articles which ignores children's indepecdency. It only makes children dependent. As a rule, meaning is negative.
It is nothing more than explanation of protection of children.
It is desirable to change wordings more impressive.
(Bone-setter, male, 48 of age)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

ATTACHED NO. 2

j. Mental preparation for execution and institutional completion are more importamt than the discussion of each article.
(Farmer, male, 55 of age)

k. The Charter indicates only duty of state or gurdian, namely, right of children. No provision re children's duty. Duty should be added.
(Teacher, male, 49 of age)

l. What do you think about to shorten sentence and take form of motto? I believe that expression should be literary not formal and be appealing.
I feel superficial, because responsible person , how and when is not clear to realize such a high ideal like this.
(Teacher, male, 48 of age)

m. Though expression is made as "to give, to teach, to guide" in overall articles, how to give, teach, and guide is desirable to be the business of child welfare council.
In realizing ideal, without inducing methodology, every bodies will not going to conquer surrounded conditions. Child welfare council should deliberate how to realize.
(Teacher, male, 30 of age)

n. Method should be taken to be able to understand by every children.
(Teacher, male, 27 of age)

o. I hope concrete manner is considered and put into action on the second step.
(Teacher, female, 27 of age)

p. It contains whole without omission, but it seems to be a mere array as call to mind duplicatedly and scatteringly.
I think it should be lessened to 10 articles and it is possible.
(Public official, male, 48 of age)

q. It should be insisted not to show wrong world of adult which spoils children.
(Juvenile protector, Minsei-iin, male, 42 of age)

r. The draft is almost perfect from the standpoint of child welfare.
But Child Welfare Council should take positive countermeasure against children's health and sanitation.
(Doctor, male, 40 of age)

s. Articles should be limited to 5, abolish the wording of law and take recitable letter.
That will do if the lst article is expressed in polite letters, though it may be excessive demand. (Chief of institute, male,52 of age)

t. Consider how to make the most of the Charter lest it should become extinct automatically. (Juvenile protector, male, 38 of age)

B. Particulars

a. Omit Article 5 and 6, because i think these provisions are needless in the country at present condition of Japan.
Omit Article 5,6,8,10,11, and 12, for matters described in these provisions are the aims of education duplicatedly.
Omit Article 15, as matters prescribed in Article 15 are included the provisions of Article 7 and 14.
(Principal of primary school, male, 49 of age)

b. As for Article 10, it is very difficult (dangerous) to guide child to be able to act independently who is at the beginning of mental culture.
(Farmer, male, 47 of age)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

ATTACHED NO. 2

c. Combine Article 2 and 3 together to express as Article 1.
Article 6 - "healthy recreation and reading" - add two words "and reading".
Article 7 - "sickness, disaster, and delinquency" - add two words "and delinquency".
Article 14 - "abuse, negligence, and overdriving" - add two words "and overdriving".
Article 15 - "treatment, education, and custody" - add two words "and custody".

(Farmer, male, 64 of age)

d. Clause included in other clause or clause stated the opposite should be shortened concisely, e.g. Article 13 and 14 are only embodiment of matters described in Article 1, Paragraph 2.
Article 10 and 11 are involved in Article 4. I think Article 11 is needless.
If all other matters realized, child will act independently without any guidance or enforcement.

(Person without occupation, female, 49 of age)

e. There is no clause that means every child is free and equal. I hope the next clause is added or inserted. "Spirit of democracy that every child is free and equal in social life should be popularized".
I want to add a word "reading" after word "recreation" in the clause of Article 6.

(Minsei-iin, female, 45 of age)

f. The beginning of child activity will be matters in clauses Article 4, 10, and 11. At first, child should be given standing in the present society. People of society exclude child from society yet. Give child a social standing. Then they will begin their own activities, they will catch their own welfare.

(Teacher, male, 30 of age)

g. As to clauses of Article 3,4,6,7,8,10, and 11, it is possible to realize by effort of parents or people of society, I think.
For Article 1,a, and 5, it is impossible so long as people of society keeps present economic condition of living without any improvement (one can not grow up without any consideration of home economy). It is important that society is balanced in every respects.
Matters in the clauses of Article 9,11, and 12 are impossible on the present policy and system of education, I think. (These matters are separated from the present condition)
Matters of Article 13 and 14 means not so wide as other article and so they may realize them by utilizing laws.

(Public official, male, 45 of age)

h. In the clause of Article 3 or 4, it is desirable to insert such a clause as "every people of society should not act such deed as preventing child from progress of noble taste and sentiment. (For, considering the modern phase of life that obscene songs are popularized.)

(Buddhism priest, male, 53 of age)

i. In the clause of Article 1, Paragraph 2, a word "every" should be added before "child should be born", for generally, the Japanese have only intensive interest for their own child but not for every childs of society.

(Person without occupation, female, 60 of age)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

ATTACHED NO. 2

j. In order to realize Article 8, present school district system should be revised so as to be able to apply for entrance of the school corresponding to personality and capacity of the child.
(Doctor, 40 of age)

k. In Article 1, a word "equally" is duplicate with a first word "every", and so equally should be replaced by a word "strictly". Article 4 and 11 should be combined together. Article 8, 9, 10, and 12 will be the ultimate purpose of education, but in the clause "religious sentiment" is not treated significantly. Base of happiness of human society should stand on the right religious belief. The clause, therefore, "religious sentiment of every child should be respected and encouraged by home and society" should be inserted in Article 2 or 8, by all means.
(Christian priest, male, 35 of age)

l. In Article 1, "brought up healthy and justly"- add two words "and justly".
In Article 3, "every parents (or gurdians)" - add two words "or gurdians" in parentheses.
As to Article 14, protection in proper agency and right rearing from parents or gurdians who abuse and neglect childs, is necessary. Such a agency as this should be established many in number.
As to Article 3, I think more opportunities should be given parents to learn right love, knowledge, and technique through women's association, mother's school etc.
(Doctoress, 52 of age)

m. It is better to omit a word "negligence", as it seems to have no connection with precedings and followings. (It is natural to revise last half part.)
(Public official, male, 39 of age)

n. It is better to omit articles that same matters are stipulated in Educational Basic Law and School Education Law. For instance, Article 3, 4, 5, 7, 9, 10, 12, and 13.
(Chief of institute, male, 52 of age)

SUBJECT: Conference with Mr, Kato, Head of the Shikoku District Correction and Rehabilitation Office on 13 July 1950 (13:00 to 14:00)

Miss Randolph made recommendations to Mr Kato and was asked to say if it conflicts with the existing regulations. She suggested he have one or two matrons in the detention who will act like a mother. She should have a good educational background and should be an intelligent women. Her duty hours should not be over the labor standard in order to have her own private life . Two matrons in rotation are the most ideal.

Mr Kato said it does not conflict with the existing regulations. He said he would rather have a matron at the Zentsuji Juvenile Home than at the detention because the officials are against having a female mingle in the rough childrens who are very difficult to handle. As this a temporary detention for the children they are apt to run away before they get any affection from the matron.

Miss Randolph: Police attitude is still left in handling the children. Classification Office is set up to prevent police attitude toward children.

Mr Kato: The classification office is a place where the children are kept for a short term temporarily. The degree of warmth should be less than the Zentsuji Juvenile Home where the children are kept for a fixed term.

Miss Randolph? The classification office is a place where the children are protected until permanent destination is determined. You are thinking of over symphatetic or cuddling. The detention is at present too rigid. It should be the same for children in either places.

Mr Kato: Their should be priority to begin with. At present the Juvenile Home in Zentsuji should have a matron first.

Miss Randolph: What about having one at the same time?

Mr Kato: If the budget permits.

Miss Randolph: You have more staff than you need now.

Mr Kato: We are short of staff. We have plenty but they are for both day and night.

Miss Randolph: In the states we have a larger institution with less staff carrying on the same operation I am saying.

Mr Kato: Staffs are needed for court procedure too. Someone always has to take the children to and fro from the detention. As the domestic court is also short of staffs we have no regulation of who is to take the children to and fro.

Miss R: Why don't you set up a regulation? Do you have some reasons?

Mr Kato: At present it is a mutual assisting. The Japanese even think we

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

have too many staffs. I have never inspected the spot but the staffs handling the children are always complaining they are tired or worn out and more staff is needed etc. These were the requests from the staff which I thought and is true.

Miss R: At night the doors are all locked and the children asleep. I suggest you should have a kind man or women who will take care of the children at night . In case of illness and etc. The children are sick so should be taken care of carefully.

Mr Kato: I will study it over. Clerical workers are used to make many various reports requested from higher HQ. For instance, Ministry, Finance Ministry, Personnel and etc. A mental testing report for the court which is used for resources.

A mental testing report made by the staff of the classification in Kagawa was shown by miss R. to Mr Kato. No resources were indicated and was amazed at the good-for-nothing report. Mr Kato was told that his staff was not to blame because he was not trained properly. Mr Kato said this report should be more concrete and said he did not know what the report is. He was told that the social investigation of the childrens family and the condition of the children should be indicated. Mr Kato said that we have a lot of paper work which he thinks is a lot of waste. He agreed of havin unnecessary report cut down. Title of reports made at the office were requested by Miss Randolph. She also recommended that the ages of the staff should be from 25 to 45 years of age and not teenage staffs.

Detention homes should be set up like a home instead of jail. Boys and girls to be separated and a bath and latrine for each sex. The matron in the living room where the children can come for motherlike atmosphere. A set up of rooms was suggested to Mr Kato. He regret the building they have already built but wishes to construct the Tokushima Detention Home in a more homelike place.

Mr Kato was told that children in Detention Home are unhappy children who needs understanding, feeling, warmth, affection with true interpretation in getting well and true expectation of expect. Mr Kato began to feel that qualified persons are necessary. Mr Kato said that children who graduates the Juvenile Home are not welcomed by the society or family. The welcome all depends on the social workers close relation with family. The social workers are not policemen they are builders.

Depart Matsuyama 0810

Arrive Takamatsu 1238

2. The above schedule had been given to the prefecture by telephone several days before my visit. I started out on schedule and remained on schedule throughout the visit.

3. During the first hour with the Prefecture Welfare Dept. Chief. We reviewed the schedule and discussed the purpose of my visit. Later when the section chiefs joined us the organization and function of the CA Region Welfare Section since the closing of the CA Teams was explained. It was stated that we would serve as consultants and advisors and that the majority of our contacts with them would be through planned and scheduled field visits. Their suggestions and comments as to how we could be of assistance to them would be appreciated. They can contact us by telephone, letter or in person. Personal visits to our office are welcomed but should be kept at a minimum since they would need the time and the money to apply to their specific duties. The importance of the prefecture officials assuming responsibility as outlined by Japanese Directives and laws and not depending upon Civil Affairs to make decisions for them was emphasized. The importance of the Japanese participation in

SUBJECT: Information at Kochi City Child Welfare Section Re Interpretation of Child Welfare Law, Article 24

Art 24: The mayor of city, town and village shall admit the infant the pre-school children or children prescribed in Art 39, para 2 to the day nursery for their case whose guardians are considered not able to give tham an adequate care due to their work or the illness etc, provided that in case there is an unavoidable reason such as no day nursery available in the neighborhood, etc, any adequate protection available should be given.

Interpretation:

a. Children of protected family)
b. Children of bordering family) full protection
c. Children of widow who got to work)

d. Children whose responsible guardian been sick or ill health over a month
e. Children whose both parents have been working
f. Children whose environment is bad
g. Children whose family having more than two infant (under schooling age)
h. Others

(*From d to h is roughly some full protection and some partial protection)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

A CRY FOR REFORM TO MISS RANDOLPH

By

Mr. Mitsuaki Hashida
Kochi Prefecture Welfare Department Chief

Items Demanded No date

1. A part of judicial power be given to Child Welfare Officials and Child Welfare Center staff.

Reason: As you see in the following classification of the violations of the Law, the number of children applicable to the Law Art. 34, abused children, children who committed crimes and children under 14 years of age who committed crimes reaches to a pretty big number, and it is in the trend of increase day by day. Among them, the number of cases in which the enforcement of judicial power was required is 36.

These are in the state which requires immediate protection, especially we cannot neglect the prostitution cases even a minute.

These criminal children and children under 14 years of age who committed crimes are mostly tools of delinquent bosses, and it is very difficult to keep child welfare activities smoothly looking over those bosses. In case we take proper action through respective legal agencies, it takes much time and hinders the security of child welfare. If the child welfare officials and the child welfare center staff members were endowed with a part of judicial power, even only the right for research, they would be able to take immediate action and our activities will be done more smoothly.

I sincerely request you will kindly understand such circumstances and take necessary procedures for us.

2. The right of recognition in the Daily Life Security Law be given to Child Welfare Officials

Reason: Omitted. (Apr 49)

Classification of the Violation of the Law (Jan 50)

(1)	Cases applicable to the Law Art. 34		8 cases
	Obscene act	3	
	Beggary	4	
	Play	1	
(2)	Abuse of children		17 cases
(3)	Criminal children and children under 14 years of age who committed crimes		83 cases
(4)	Total		108 cases

Among above, the cases in which enforcement of judicial power was required number 36.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Kochi City EK/ek

SUBJECT: Investigation of Foster Parent Registration as of 10 March1950
