SUBJECT: Negro Troops at GOTEMBA

TO : Chief of Staff

1. Information:

a. Information has been received from Mr. HISHIKARI, of the Office of the Prime Minister, that Negro troops located in the vicinity of GOTEMBRA (possibly Camp McNair) were molesting the Japanese by demanding food and girls from the farmers and other people living in that area.

b. One group of soldiers is alleged to have driven into the Prime Minister's home at GOTEMBA seeking food and girls. There were rumors of rape, but Mr. HISHIKARI knew of no specific case.

c. The mayor of one of the neighboring villages reported the actions of the Negro troops to the local Civil Affairs Detachment. This fact was apparently passed to the troops involved who in turn became rather hostile towards the mayor.

d. Mr. HISHIKARI further stated that the local Communists were utilizing the activity of these troops for propaganda purposes against the Occupation and local police. He was of the opinion that the activity was not wide-spread but that the Communists were enlarging on any small activity of this type to cause embarrassment to the Occupation.

SUBJECT: Crew Members Demand Apology from Daitaku-maru Repats

TO : Chief, CIS

1. Details:

a. Maizuru Sub-detachment of Kyoto CIC Area learned from chairman of the local branch of All Japan Seamen's Union that, on 9 Aug 49, when Daitaku-maru was leaving Nakhodka with repatriates aboard, ship's master issued order that there would be no singing or dancing aboard vessel enroute to Maizuru. While at sea, repatriates completely ignored order and engaged in singing and dancing which disturbed rest and sleep of ship's crew and caused friction between crew and repatriates.

b. Source said that several attempts by ship's captain and crew to enforce order failed. At this time, repatriates stated that crew should not sleep while aboard vessel, but should be replaced by new crew at end of each voyage.

c. Source continued that, on arrival of Daitaku-maru at Maizuru on 12 Aug 49, Oka Keizo, chairman of the local branch of All Japan Seamen's Union, demanded written apology from repatriates; three repatriates signed pledge for whole group stating that they would promise to thoroughly and clearly examine facts of dispute between repatriates and seamen and further promised to settle incident and submit answer. As of 1300, 18 Aug 49, no further reply has been given to seamen's union by repatriates. Majority of repatriates from Daitaku-maru have already left Taira Repatriation Center.

SUBJECT: Possible Soviet Agent

TO : Chief of Staff

1. Information:

a. CIC reports that the OTARU police on 14 July 1949, arrested a Japanese national named WATANABE Isao, who has confessed that he is a Soviet trained agent. He was arrested for failure to pay a 280 yen restaurant food and beer bill and is now in the SAPPORO jail.

b. WATANABE claims to have been born in Tokyo but that he was brought up in MAOKA, KARAFUTO and attended middle school until the end of the war when he was in his second year. He was repatriated to HOKKAIDO in December 1948, on the Chitose-maru. He is now 22 years of age, unemployed, and stated his address was KUSHIRO CITY, Hokkaido.

c. WATANABE told the police that he was trained in a Communist Training Center in TOYOHARA, SAKHALIN for four months commencing in June 1947. He claimed that he became a "leader" and that there were 17 Japanese and 500 North Koreans undergoing instruction at the same time.

d. WATANABE alleged that his mission in HOKKAIDO was to secure information on harbor facilities and to investigate the activities of the Japan Communist Party. He claimed to have turned over his secret information to an unnamed party member and was to make contact with one YOSHIDA Yosakichi in OTARU. He was also to attempt contact with a Soviet ship, the Kangaus, at sea in order to return to KARAFUTO via KAIBA ISLAND. He said the Soviets had given him 160,000 yen but he was without funds when arrested.

e. WATANABE has tatoo marks on both arms and hands. An anchor on his left hand, he stated, indicated that his special field was harbor facilities and a Russian word on his forearm indicated the rank of a junior officer. On his right arm a heart shaped symbol and Russian words allegedly show him to be a leader. He said that these marks entitled him to special treatment anywhere in Soviet Russia, Karafuto and North Korea.

f. Kyodo News Agency has received substantially the above story through a reporter who secured it from an OTARU policeman but is delaying publication at our request. An abbreviated version has been published in Sapporo.

g. CIC has interrogated WATANABE on three occasions since his incarceration. His stories are conflicting but generally follow the line reported by the police. A port card from HAKODATE shows WATANABE Isao (22 years), repatriated as claimed.

2. G-2 Comment: From interrogation by CIC it is believed WATANABE is a Soviet trained agent of low caliber. There is no security risk in Kyodo News Agency releasing the story.

3. Action:

a. Kyodo News Agency informed we have no objection to release of story.

b. Following agencies notified: ADC, Deputy Chiefs of Staff/ SCAP and FEC, G-2 Eighth Army, CI&E, DS, GS.

SUBJECT: Developments in Communist China

TO : Chief of Staff

1. Information:

a. Reference ALUSNA, Nanking radio 161248Z (AG01165), 17 August 1949, which contains seven significant items of interest:

(1) Delay in convening date of People's Consultative Conference (PCC).

(2) Highest evaluated report tending to confirm the previously reported illness of MAO Tse-tung, Chairman of the Chinese Communist Party.

(3) Soviet-backed LIU Shao-chi making bid to succeed MAO Tse-tung.

(4) Additional evidence that the USSR possibly possesses the atom bomb.

(5) Discovery of uranium deposits in Manchuria and Sinkiang Province by Soviet geological teams.

(6) Soviet request to develop Manchurian deposits and protect same with Soviet troops.

(7) Possible split in CCP ranks.

2. G-2 Comment/Deductions:

a. A delay in convening the PCC will automatically delay the formation of the Chinese People's Republic which was scheduled for 15 September 1949. The bid for power by LIU Shao-chi represents the emergence of a relatively obscure CCP figure who, although not Moscow-trained, is probably more pro-Soviet than CHOU En-lai, LIN Piao, or CHU Teh. Although LIU is known to be of silent character and has never been in the limelight, he has been a member of the CCP since 1923. At present, he is vice-Chairman of the CCP and Chief of the Chinese Communist Central Intelligence Bureau. Soviet backing of LIU indicates the degree of Soviet determination to make Communist China subservient to Moscow.

b. The Soviets are probably attempting to bolster Chinese Communist morale and cement closer relations by providing some type of evidence that the USSR possesses the atom bomb.

c. Previous reports have indicated the presence of uranium deposits in Sinkiang Province and Manchuria. This may be another step in Soviet encroachment by exploiting uranium deposits in Manchuria and Sinkiang and possibly combining this exploitation with obtaining a firmer grip on these two important areas.

d. Numerous reports have indicated the possibility of a split within the CCP ranks. This report tends to furnish positive evidence that such a split will occur in the event of MAO Tse-tung's death.

Reference Spot Intelligence Report, Subj: Koreans Celebrate 15 August Anniversary, dated 1815, 15 August 1949

1. Information:

a. CIC reports an incident at Najima-mura (45/1348-1173) between rival Korean factions. Incident lasted from about 2015, 15 August to about 0225 16 August 1949. Approximately 90 members of the Korean Residence Union (Mindan), enroute to Kokura-shi were stoned by alleged members of the League of Koreans Residing in Japan (Choren). Three (3) of the Mindan group were injured.

b. Telephonic report from G-2 Section, Eighth Army, at 1815, 16 August, received through tactical intelligence channels, describes a similar incident of considerably more serious nature. Incident occurred at Onoda (21/660/1500) Yamaguchi prefecture starting at 2000, 15 August. Fighting broke out at 2015 between large groups of Koreans in which 41 South Koreans were injured seriously enough to require hospitalization. The remainder of the South Korean group, 130, took refuge in the Onoda police station. At 1600, 16 August they remained isolated in the police station which was surrounded by North Koreans. North Korean reinforcements are arriving from Shimonoseki (45/1390-1210) .

c. One hundred (100) national rural police reinforcements have been dispatched to Onoda and additional reinforcements have been alerted. Police officials on the ground fear that the Onoda police station may be over-run this evening. Headquarters I Corps reports that surveillance is continuing.

2. G-2 Comment: Incidents of this nature were expected and reported in the reference spot report.

3. Action:

a. CIC received similar report at 1900 and is continuing observation. Further developments at Onoda will be reported.

b. Following agencies notified: ADC, Deputy Chiefs of Staff, SCAP and FEC, DS, CI&E, CCS, PM, G-3, G-4, A-2 FEAF,

4. Additional late information:

SUBJECT: Chinese Capture Japanese Fishing Vessels

TO : Chief of Staff

1. Information:

a. CIC reports that at about 1230, 7 August 1949, two fishing vessels of about 75 tons belonging to Taiyo Fishing Company, Shimonoseki-shi, Yamaguchi-ken, were captured at point 30°50' N by 125° 30' E by armed Chinese.

b. Six armed Chinese aboard #25 Nitto-maru 2580 made the captures while two unidentified vessels of about 100 tons each stood by. No shots were fired according to owners report. One of the unidentified vessels carried a large number of Chinese personnel and possessed machine gun mounts.

c. Latest reports indicate the captured vessels, Akashi-maru #132 and Akashi-maru #147, were taken to port of Tinjhai on Chusan Island, where they are now in Chinese custody. Each vessel carried a crew of 12 men.

2. G-2 Comments: This is one of a continuing series of such reports. Perpetrators may be pirates, disaffected deserters from Chinese Army and/or Navy or could be connected with some large organization. Three ships traveling together and operating as a team makes one inclined to believe the latter.

3. Action:

a. S/I is being prepared by CIC for submission later.

SUBJECT: All-Communication Workers Union (Zentei)

TO : Chief of Staff

1. Information:

a. CIC reports to date indicate that issuance of dismissal notices to communications workers began 12 August and is proceeding in routine fashion.

b. The majority of those dismissed refused acceptance of notices and initiated orderly negotiations with section chiefs and other communications officials.

c. Negotiations are being coordinated by the Central Struggle Committee of the All Communications Workers Union (Zentei). Thirty of the thirty-seven members of this committee were included in the dismissals, but, contrary to what happened in the railway dispute, they will retain their positions with the union.

d. A large percentage of known and suspected Communists are included in the lists, including all twenty-one of the Communist members of the Central Struggle Committee.

e. Information from qualified, reliable informants verifies the fact that the Struggle Committee have decided against nation-wide strike tactics due to internal weakness in the union. Some dismissed members of the Committee have been sent out to various chapters to organize area struggles if conditions warrant.

f. Only two cases of violence or sabotage have been reported that might be charged to dismissed workers. One was the sabotage of an underground telephone cable reported in previous spot report dated 1800, 11 August 1949; and a similar incident occurring between Chiba-shi and Kisarazu Airfield at about 2400, 12 August 1949.

2. G-2 Comment: As in the railway dispute, internal problems within the union will probably prevent a mass struggle such as a nation-wide strike.

b. Col C. M. Young, Deputy A-2 FEAF, returned from Clark Field on 12 Aug 49 and has supplied the following details pertaining to the issuance of the confinement directive:

(1) Local intelligence agencies report the presence of 150 armed Hukbalahap in areas immediately adjacent to Clark Air Force Base; another 100 armed Huks scattered in and around the village of Dau, on the eastern perimeter of the base; and another 50 in and around the town of Angeles, approximately eight miles south of the base.

(2) Information obtained by the local CIC indicates that the Huks are planning to raid Angeles for the purpose of obtaining food and other supplies for consumption during the rainy season, and are formulating plans to replenish their ammunition supplies through a raid on Clark Air Force Base.

2. G-2 Comment/Deductions:

a. The area around Angeles, Pampanga has long been regarded as "sensitive" due to the prevalence of U.S. supplies of food, ammunition and clothing, all badly needed by the Huks. Although all villages immediately adjacent to the Clark Air Force Base have been raided periodically by Huks there have been no raids on the base itself to date.

(2) Information obtained by the local CIC indicates that the Huks are planning to raid Angeles for the purpose of obtaining food and other supplies for consumption during the rainy season, and are formulating plans to replenish their ammunition supplies through a raid on Clark Air Force Base.

2. G-2 Comment/Deductions:

a. The area around Angeles, Pampanga has long been regarded as "sensitive" due to the prevalence of U.S. supplies of food, ammunition and clothing, all badly needed by the Huks. Although all villages immediately adjacent to the Clark Air Force Base have been raided periodically by Huks there have been no raids on the base itself to date.

b. Over a period of approximately one year CIC reports have indicated that Huks plan to raid the base in order to get ammunition.

c. The greatest source of worry to U.S. forces has been nuisance shootings and ambushes, the majority of which have taken place near and in Dau and Angeles and in which several American military and dependent personnel have been killed. From time to time this activity has resulted in curfews and travel restrictions at the Clark base similiar to the present action.

d. Although an attack on Clark base has been a potential threat for some time, current reports indicate a more definite probability at this time.

3. Action:

a. Following agencies notified: ADC, JSPOG, G-3, G-4, and Diplomatic.

TO : Chief, CIS

1. Details:

a. Maizuru Sub-detachment of Kyoto CIC Area learned from Operations Section radio net, Port Commander's Office, and confidential source that at 0950, 12 Aug 49, repatriation vessel Daitaku-maru dropped anchor in Maizuru inner harbor with 2,000 repats aboard. Repats aboard were uncooperative and have stated that they will not complete ship's roster until they receive instructions from JCP, sources said.

b. New Imperial Japanese Ordinance had only slight effect on repats in that prior to its announcement aboard ship (Ref: CIC Spot Report, Code no 2967), repats had refused to accept demobilization forms. After announcement of enactment of new ordinance, repats took forms but refused to fill them out, sources said.

c. Debarkation from Daitaku-maru is not expected to take place on 12 Aug 49, port authorities stated. Repat leaders are holding meeting to decide whether or not repats will complete debarkation forms. Demobilization officials at Taira Repatriation Center, Maizuru, have allowed repats one hour to arrive at decision, sources stated.

d. What action will be taken by officials is unknown at this time.

2. Remarks: Ref: CIC Spot Report, Code no 2970.

1. Details:

a. Maizuru Sub-detachment of Kyoto CIC Area has reported no change in repatriate situation at Taira Repat Center, Maizuru, as of 0800, 12 Aug 49. Reports from Maizuru Sub-detachment of Kyoto CIC Area received on 11 Aug 49, disclose following developments in repat situation at Maizuru during day of 11 Aug 49:

(1) Maizuru Municipal Police report that 158 leaders and/or suspected repat leaders from Shinano-maru have been segregated from regular processing groups. Departure of this group is expected to be delayed for at least 24 hours.

(2) Maizuru Port Commander's Office revealed that 410 repats, presently hospitalized in Maizuru National Hospital, will be released from hospital and are expected to entrain for homes on 13 Aug 49.

(3) Oshide Toshikazu, representative of Demobilization Bureau aboard Eitoku-maru, revealed that he had been approached by unknown repats aboard vessel, while enroute to Maizuru from Nakhodka, with following demands:

(a) Reroute north-bound trains from Maizuru to include Yoyogi, Tokyo-to (near JCP Hq).
(b) Provide free transportation to repats' families and friends to greet repats at Maizuru.
(c) Make jobs available to returning repats.

(4) Occupation observers at Maizuru port report that as last repats were in process of debarking from Eitoku-maru at 1430, 10 Aug 49, approximately 25-30 crew members aboard vessel were heard shouting encouragement to repats; one crew member was seen waving small red flag. This apparent lack of hostilities between repats and crew members of repat vessels may indicate new trend of cooperation.

(1) Have north-bound repat trains rerouted to include stop at Noyogi, Tokyo-to (near JCP headquarters).
(2) Provide free transportation for families and friends of repats to enable them to greet returning repats at Higashi-maizuru Railway Station, Higashi-maizuru, Kyoto-fu.
(3) Provide jobs or methods of making living for returning repats.

b. Source said that if demands were not met, repats had been instructed to stage sitdown strike at Taira Repat Center, Maizuru. It is believed that these instructions were given in Nakhodka by Steering Committee prior to embarkation of repats.

c. Maizuru Sub-detachment of Kyoto CIC Area learned from Occupation observers that when last repats were in process of debarking from Eitoku-maru at 1430, 10 Aug 49, approximately 25-30 crew members were shouting encouragement to repats.
