DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS NO. [illegible]

Name: NAKA IRON WORKS Code No. 11-8 (115)

Date 24 January 1951

SECTION I
INVENTORY DATA

1. Total items originally inventoried: 133

2. Originally inventoried items not available for allocation:

   a. EX items
      (1) Originally inventoried EX 0
      (2) Subsequently deleted from EX classification 0
      (3) Total (line a(1) less line d(2)) 0

   b. Subsequently released from custody 0
      (1) Woodworking* 0
      (2) Others* 0

   c. Destroyed SP* 1

   d. Subsequent losses from fire, theft, etc.* 0

   e. Released from dispersed location* 0

   f. Shipped to TID* 0

   g. Removed under PD* 0

   h. Removed on allocation 0

   i. RELEASED AS MELT-DOWN SCRAP BY CPC - (See Sec. VI C) 29

3. Total deduction from original inventory 30

4. Item missed from original inventory-subsequently picked up 0

5. Adjusted original inventory total (line 1 less line 3, plus line 4) 103

6. Subsequent additions to inventory

   a. Returned PD'd items* 0

   b. Added on evaluation ~~32~~ 29

   c. ———

   d. ——— ~~132~~ 135

7. Inventory total 32

8. "U" items

9. Total items available for allocation (line 7 less line 8) 103

SECTION II
MISCELLANEOUS

1. Non-inventoried items shipped to TID ———

2. Items inventoried under other plant code number (Not included in line 9, SEC I)

3. Authorized transformer capacity ——— KW

4. EX items subsequent to original inventory ———

* See reverse side

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF DESIGNATED REPARATION MACHINERY AND EQUIPMENT

MANUFACTURE AND INDUSTRY FILE 11-8(8)

Submitted to F. Ministry
29 June 50

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS No.

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF DESIGNATED REPARATION MACHINERY AND EQUIPMENT

Date. 10, May, 1950

To: Minister of Finance

From: President of Kawaminami Kogyo K.K.
Address: 1 Hoze-machi, Kita-ward, Osaka City

1) Name (Code No.) and Location for the Plant which intends to use the designated reparation machinery and equipment.
Koyagijima Shipyard, Kawaminami Kogyo K.K.
Koyagi-mura, Nishisonoki-gun, Nagasaki Prefecture

2) Name (Code No.) and Location of the Plant where the designated reparation machinery and equipment to be used actually exist.
Former 11th Naval Aeronautical Arsenal.

Hiro-machi, Kure-city, Hiroshima Prefecture

3) List of the designated reparation machinery and equipment to be moved and used.

Inventory No.	Name of Machine	Specification	Quantity
11-8(3)-142 Work Sheet page	Water Dynamometer Item No.	Cap. 24,000 HP. size	1
177	242 Surface Plate	4.8x4.8x0.5 M	1
"	" "	"	
148	54 "	"	1
Scrap No.	0-82 Accumulator	Capacity 800 liters	1
"	0-83 "	" " "	1
"	0-84 "	" " "	1
"	0-85 "	" " "	1
"	0-86 "	" " "	1
"	0-87 "	" " "	1
"	0-88 "	" " "	1

4) The machines are absolutely necessary for assembling and performance test of the large type internal combustion engines which are manufacturing at the Koyagijima Shipyard, Kawaminami Industry Co., Ltd.

In the present Japan, it is almost impossible to manufacture at our own yard or to purchase them from other source.

We shall be very glad if you would kindly five us approval of their movement to, and use at the Koyagijima Shipyard.

Kawaminami Kogyo K.K.
Tameyoshi Yoshida
T. Yoshida
President

Attached document:

Oath concerning responsibility for custodianship of designated reparation machinery and equipment.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

Oath

We hereby pledge ourselves that we will be responsible for perfect custodianship of the reparation machinery and equipment as per your order when authorized to use same.

Kawaminami Kogyo K.K.

Taneyoshi Yoshida
T. Yoshida.
President

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS NO. [illegible]

Copy.

June 5, 1950

TO : Finance Minister Hayato Ikeda.

FROM : Takeshi Nishiyama, Nagasaki Branch
Chief of the Kyushu Maritime Bureau.

SUBJECT : Reapplication for permission of provisional use of the reparations equipment.

The Koyagishima Shipyard of Kawaminami Industry Company under the jurisdiction of the Nagasaki Branch of the Kyushu Maritime Bureau has approached me pertaining to an application for permission of the provisional use of the reparations equipment of the former Naval Arsenal located at Kure City, Hiroshima Prefecture.

In this connection, my observation is that the above plant is one of the foremost shipyards in Japan, capable to build ships of 60,000-ton maximum, and is playing a vital role in the rehabilitation of the national self-sufficiency economy as a shipbuilding and repair factory of large steel vessels. At present, the company is exerting intensive efforts in the construction of two steel vessels and the reconversion of five A-type wartime standard vessels under the fifth shipbuilding program, in line with the emergency ship construction plan of 300,000-ton ocean-going ships.

However, I see that the hull construction facilities of this shipyard is so far incommensurate with

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [redacted]

its engine production potentials in the working efficiency, so mechanically poor that large size main engines installed on the ships constructed by this shipyard have had to rely upon the outside orders. It is, therefore, timely that this shipyard has undertaken the rationalization of the management through an overall routine operation of hull and engine constructions in order to get rid of such difficulties and handicaps, and in that light embarked on the manufacture of large size main engines at own plant.

This shipyard is now in the course of preparations to turn out 4,500 H.P. Diesel engines through the authorization of the Government authorities concerned, and for that reason the reparations items listed in the application per annexed all of which, are and will be absolutely impossible to get through transaction channels within short period of time nowadays, are indispensable for the production of this particular type of engines.

Under these circumstances, I wish you would take this matter into your kind consideration and arrange to effect their provisional use to help the shipyard develop its full activity.

.....
Chief of the Nagasaki
Branch of the Kyushu
Maritime Bureau.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS NO.

Copy.

KYUSHU MARITIME BUREAU

June 6, 1950

Kyu-Kai-Ki 171

To : Director, Chugoku Regional Financial Bureau

From : Director, Kyushu Maritime Bureau

Subject : Re Application for Authorized Temporary Usage of Reparation Equipments.

The Koyakijima Shipyard of the Kawaminami Industrial Co., Ltd. within the jurisdiction of this bureau, being one of the best shipyards in Japan, has been striving for the development of Japanese merchant shipping and is now preparing for the manufacture of 4,500 horse-power Diesel engines. All the reparation machines listed on the application papers are recognized to be absolutely indespensable to the manufacture of such big main nautical engines and besides to be extremely difficult to be procured on the market for the present.

Such being the case, your good favor is cordially requested to help the said shipyard to get the permission of the authorized temporary usage of such machinery.

For s. Arafune
Director, Kyushu
Maritime Bureau.

KENZO ORIHASHI
Manager, Ship Division,
Kyushu Maritime Bureau.

DECLASSIFIED E.O. 12065 Section 3-402/NNDG No.

Application for Authorized Use and or Move of the Reparations Equipment (T.O. Approved already)

To : Minister of Finance

From : Naka Tekkosho (Naka Iron Works Co.)
7-1 Niihama, Yoshiwacho, Onomichi-shi, Hiroshima-ken

Date : 5 Feb. 1950

Sec. II

1. Name of plant (Code No.) : 11-8-(115) 11th Aeronautical Arsenal Experimental Department

2. Location of plant : Hiro-machi, Kure-shi

3. Name of products planned : Marine Engines

4. Experience of the production planned :

The Company established in October 1920 at Nichome Nishi gosho-machi, Onomichi-shi, for the purpose of making the marine equipments. In October 1936, We establish new plant at the same area for the purpose of making and repairing the marine Engines (Present Engine Department branch plant) However, it was not enough capacity for the Demand, so we establiesh new plants of casting, forging, metal working, and canning at 7-1 Niihama, Yoshiwa-cho, Onomichi-shi, in October 1939 and started belt System production as today.
In recently, we are making new engines for fishing boays succesfully. In future expert to ship them to fareign countries.

5. 1939-1949 Production :

1939------------Y	376,000
1940------------Y	620,000
1941------------Y	587,000
1942------------Y	601,000
1943------------Y	1,180,000
1944------------Y	914,000
1945------------Y	120,000
1946------------Y	300,000
1947------------Y	550,000
1948------------Y	1,670,000
1949------------Y	1,900,000

DECLASSIFIED E.O. 12065 SECTION 3 NSC/MR 98-

6. Period of desired permission :

From the date of authorization permited to the date of release from reparation

7. Scale of the prosuction planned by month for period on this application :

Production of First quarter in 1950	April ----- ¥		2,785,000
	May ----- ¥		3,050,000
	June ------ ¥		3,100,000

1. New eng. for fishing boat

12	HP	-	3
15	HP	-	3
50	HP	-	3
100	HP	-	2

2. Repair boats

200	HP	-	6
115	HP	-	2
75	HP	-	4 etc.

3. Repair of Various mach.

4. Metal works of marine

8. Name and location to which products are to be delivered :

1. Torii Shoten Yamato-cho, Shimonoseki-shi Yamaguchi
2. Nishi Nihon Kisen K.K. Kaigandori Wakamatsu-shi, Fukuoka
3. Taiyo Gyogyo K.K. Yamato-sho, Shimonoseki-shi, Yamaguchi

9. Scale of proposed change in physical facilities :

1. Reference attached appricated Equipments
2. Under the present economical condition, short of material and lack of Monetary frozen, to use of appriseated equipment is the only way to reconstruct Japanese economical
3. There are no posibilility to replace new equipment instead of the reparation equipment.

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSG NO. [illegible]

10. Intended expence for authorized use :

1. for seting use cement 2 socks per a machine (26)
2. Labour ¥ 15,600
   ¥ 30,000

11. Plan and location to continne the production after reparation removal :

We must continues with old unefficiency machines

Signed Nagatoro Naka

File No: HMGT 386.3

14 February 1949

SUBJECT: Temporary Operation of Reparation Equipment-Kawaminami Kogyo K.K., Hiro.

THROUGH: Director
Chugoku Liaison and Coordination Office
Kure, Japan

TO : Chief of Kure Branch
Hiroshima Finance Bureau

1. Reference: Letter Hiroshima Finance Bureau KFL 9-21, dated 9 February 1949, subject; Application for Temporary Operation of Reparation Equipment-Kawaminami Kogyo K.K., Hiro.

2. Temporary Operation of the (7) seven reparation items listed below, is approved by this headquarters.

NAME	CODE No.
1. Boiler	11-8 (8)-132
2. Feed Water Pump	" "-123
3. " " "	" "-124
4. Steam Accumulator	" "-126
5. Oil Lubricating & Feed Water Pump	" "-127
6. Steam Ejecter	" "-225
7. Oil Cooler	" "-183

3. It is realized by this headquarters that equipment such as that listed above, is at present difficult to obtain. However if in the near future, equipment (identical to that listed above and) in a non-reparation status be available, the equipment should be purchased, marked EK, and installed to replace the equipment in temporary use.

39

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSC NO.

BASIC: Ltr to Chief of Kure Branch, Hiroshima Finance Bureau, HMGT 386.3, dtd. 14 Feb '49, subject: Temporary Operation of Reparation Equipment-Kawaminami Kogyo K.K., Hiro.

4. It was stated in the above referenced letter that the desired equipment was needed for the testing of ships engines to meet the requirements of the standards of the "American Bureau of Shiping", and the "Llyod Association". Taking this into consideration, when one of the claiment nations selects the equipment now in use for the testing of ships engines, and if this equipment had not been replaced by non-reparation equipment, the subject company will no longer be able to meet the standards required for the testing of ships engines and will be forced to cease operation of same. Therefore it is imperative that the subject company replace the reparation equipment listed in 2 above as soon as possible.

HIROSHIMA FINANCE BUREAU

SYM/to

KFL No. 9-21 9 February 1949

To : Hiroshima Military Government Team

Through: Chugoku Liaison and Coordination Office

Subject: Application for temporary Operation of Reparations Equipment - Kawaminami Kogyo K.K., Hiro

We herewith apply to you for the permission of the above mentioned subject according to the following details.

1. Items requested for operation:

(Name)	(Code No.)	(Capacity)
Boiler,	11-8(8)-132	Pressure: 20 kg/m2, 3500 HP
Feed water pump,	" -123	15 t/h, Pressure: 7.5 kg/cm2
" " "	" -124	ditto
Steam accumulator,	" -126	Heating surface 20 m2
Oil lubricating & feed water pump	" -127	Volume: 24 l/h, output head 10 m, R.P.M. 3300
Steam ejecter,	" -225	Steam pressure 60kg/cm2
Oil cooler,	" -183	Vertical type, Cooling surface 25 m2

2. Location of machines and custodian:

Kawaminami Kogyo K.K., Hiro Shop
Represented by Director Nobutsugu Iwamoto.

3. Term of operation:

From the date of permit
Till they will be required by claimants.

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSC NO.

HIROSHIMA FINANCE BUREAU

4. Reasons for applied operation:

The company is manufacturing marine engines required for the ships of which construction is appoved by SCAP. But most of those ships which are now being constructed or reconditioned must come up to the test standard of the American Bureau of Shipping and the Lloyd Association. It is therefore absolutely necessary for the testing of engines to get through the steam testing. The company tried to get a complete steam testing equipment, but it could not be obtained at present because of the big capacity of the required boiler.
It is accordingly applied hereby to get your permission to temporarily operate the above mentioned equipment.

High consideration on your part will be greatly appreciated.

K. Yamashita

KL No. 279

SUBJECT: Application for operation of and report on industrial facilities.

TO : 76th Military Government Company.

With reference to your note, dated 25 May 1946, the Kure Liaison Office has the honour to present herewith the application for operation of and report on industrial facilities from the Naka Iron Works, No. 7, Shinhama, Yoshiwa-cho, Onomichi-shi, Hiroshima-ken.

The factory with its excellent work and good organization is now planning production of Semidiegels engines and agricultural implements and repair of semidiegels and machines concerned.

This office recommends this factory to you as one which is most necessary and it is cordially requested that favorable considerations be given to the above application.

T. Hattori,
Chief of Kure Liaison Office.

KFL No. 9-58 29 March 1949

To : Hiroshima Military Government Team

Through: Chugoku Liaison and Coordination Office

Subject: Application for Movement of Reparations Machines - Hiro Shop, Government Railway

We herewith apply to you for the permission of the above mentioned subject according to the following details.

1. Machines requested for movement:

   Total twenty-nine (29) as indicated in the enclosed list.

2. Locations of machines:

   Present: Bldg. No. 18, Hiro Shop, Government Railway.

   Proposed: Bldg. No. 4, in the same area as above.

3. Responsible custodian:

   Tsutomu Takeuchi, Chief of Hiro Shop, Government Railway.

4. Reasons for movement:

   The machines in question are presently located in the Bldg. No. 18 which is used as casting shop. They are all not in use and hardly maintained in good condition in the dusty casting shop. We therefore want for the better maintenance to move them into the Bldg. No. 4 which contains machines only under maintenance.

K. Yamashita

KATSUTOSHI YAMASHITA
Chief of Kure Reparations Branch,

V.- INSPECTION REPORTS

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO.

Section V. INSPECTION REPORTS

Field Trip Report - Mr. Armstrong 19 February 1951

(11-08(115)) Naka Iron Works - Records at this installation are practically non-existent. There is a confused mass of paper and it is impossible to obtain information as to the status of reparation equipment now in this plant. Plant officials were advised to get their records in proper condition and copy of all action pertaining to reparation equipment be chronologically compiled and forwarded to this headquarters with-in two weeks.

Maintenance of equipment is very poor and it is suggested that work begin immediately for proper preservation of this equipment.

A representative of this headquarters should inspect this installation next month to ensure that maintenance work has been completed.

Field Trip Report - Mr. Nelson 14 May 1951

(1) Naka Iron Works, 11-08(115), Onomichi City

There are 32 items in A.U. and 132 reparations designated items in deadstorage. Maintenance and custody of the reparations items were found to be satisfactory. Mr. Naka was advised to keep oil soiled rugs out of the machines to eliminate fire hazard.

The plant has sufficient orders on hand for repairing of internal combustion engines that will keep the workers busy for several months to come. There is a total of 65 employees and no labor trouble is in evidence. Labor contract will expire in the early part of 1952.

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSS NO. [illegible]

CCAR 319.1

26 February 1951

SUBJECT: Report of Field Trip, Onomichi City, Naka Iron Works, 23 - 24 February 1951

TO : Chief
Economics Section

PREPARED BY: Tetsuro Kajiya, Distribution and Industry Division

1. REFERENCE:

O. D. 11.

2. PURPOSE:

Reparation Surveillance.

3. BACKGROUND:

Mr. Armstrong inspection report for 15 February 1951 indicates poor maintenance and poor upkeep of records.

4. DISCUSSION:

Assistance was extended by this office in establishing a comprehensive record of all reparation items at the Naka Iron Works. However, important documents pertaining to movement of items into the plant are lacking and the Kure Finance Bureau will be requested to furnish copies.

Inspections of reparation items in use revealed very good maintenance, which is undoubtedly the result of past inspections made by Mr. Armstrong and Mr. Levan.

The following is the status of reparation items at Naka Iron Works:

DATE OF ALTERATION	NO. OF ITEMS INVENTORIED	REASONS FOR ALTERATION
March 1946	133	Dispersed from 11th Aeronautical Arsenal (11-8) Shiraishi Tunnel

Naka Iron Works 11-8

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSC NO.

DATE OF ALTERATION	NO. OF ITEMS INVENTORIES	REASONS FOR ALTERATION
August 1947	133+26=159	Dispersed from 11-8(114) and revaluated under code No. 11-8(115)
20 March 1948	159- 1=158	SP machinery completely destroyed.
June 1948	158+ 3=161	Dispersed from Egi Orimono Evaluated under Code No. 11-8(115)
10 July 1950	161-29=132	Released as melt down scrap by CPC.

DATE OF ALTERATION	NO. OF AU ITEMS	REASON FOR ALTERATION
18 August 1948	51	Authorized by Hiroshima Military Government Team
22 March 1950	51-18=33	Rescission of AU items
10 July 1950	33- 1=32	Rescission of AU items

5. CONCLUSIONS:

None.

6. RECOMMENDATIONS:

None.

CCAR 319.1 23 December 1950

SUBJECT: Report of Field Trip, Onomichi-shi, Hiroshima Prefecture, 11 December 1950

TO : Chief
Economics Section

PREPARED BY: Robert P. Lord, Distribution & Industry Division

MANUFACTURING AND INDUSTRY FILE 11-8 (115)

1. REFERENCE:

Paragraph 3b, O.D. 11. 10 April 1950.

2. PURPOSE:

Surveillance of reparations custody and maintenance at Naka Iron Works 11-8(115).

3. BACKGROUND:

Ascertain if corrective action as outlined in previous field trip has been accomplished.

4. DISCUSSION:

All dead storage machinery at this installation has been given new maintenance and has been covered to prevent, as much as possible, collection of dust on newly maintained surfaces.

Code numbers previously illegible have been repainted.

Custodial records are now in orderly fashion with exception of documents for the 63 items of EX equipment at the plant. Provisions of SCAPIN 1938 were explained to plant manager and he was advised to obtain necessary documents equipment. Plant manager was further advised that lack of proper documents for EX machinery will result in that machinery being coded for reparations claims as provided for in SCAPIN 1938.

5. CONCLUSION:

Maintenance of all machinery was found to be very good after a series of six (6) months of persuading by representatives of this headquarters during inspection trips.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO: [redacted]

6. RECOMMENDATIONS:

Included in discussion.

D/TK/fk

CCAR 319.1

8 November 1950

SUBJECT: Report of Field Trip, Fuchu-machi, Onomichi City, Itosaki-machi, 6 - 7 November 1950

TO : Chief
Economics Section

PREPARED BY: Tetsuro Kajiya, Distribution and Industry Division.

1. REFERENCE:

O. D. 11.

2. PURPOSE:

Inspection of Reparation Plants and Industries.

3. BACKGROUND:

None.

4. DISCUSSION:

The following plants were visited and inspection of reparation machineries made.

a. Okamoto Machine Tool Works

The number of machines on reparations was found to be 73 of which 37 are on "AU" status and 36 in dead storage. The dead storage warehouse was found to be very poor and recommended removal to a better site. There are many dead storage machineries also stored in the working part of the plant which, if moved, will greatly aid in alleviation of the crowded working space. It was recommended that consolidation of "dead storage" machinery is most advisable and that repainting of reparation code numbers should be done on several of the "AU" machines. Production statistics can be found in this section's plant file.

b. Kitagawa Iron Works

There are 332 machines on reparations of which 279 are on "AU" status and 53 in dead storage. It was also discovered that there

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

are 30 "EX" items for which any proof of transfer could not be established. It was advised that a letter be sent thru the Prefectural Government to this Headquarters establishing the fact that these items are not reparation machineries.

In August 104 machines were scrapped and melted down as authorized by C.P.C. SCAP on letter dated 10 July 1950. Prefectural Reparation officials were on hand intermittingly while scrapping was undertaken.

Items 11-13-286, 301 and 278 were inspected and found to be of scrap value as uneconimically operable and repairable. The company will submit an application in the near future.

Maintanance of machineries was found to be excellent. Production statistics is referred to this section's plant files.

c. Naka Iron Works 11-8(115) IV

A total of 132 machineries is on reparation of which 33 are on "AU" status. Dead storage machineries were found to be covered with dust. This dead storage warehouse is located by the main highway in Onomichi City whereby large amount of dust raised by passing vehicles negates any cleaning done. Therefore it was advised that upon cleaning of machineries oilpaper should be utilized to cover them. The records on reparation equipments in the plant was found to be very poor resulting in long delays before pertinent papers could be found. It was advised that inorder to improve this situation papers be filed separately according to type of documents such as, authorizations for use, "EX" machines, applications and etc.

d. Nippon Cement Company (Non reparation plant)

The following are questions asked and answers received:

(1)	Present Production:	10,000 tons per month which is the maximum capacity.
(2)	Present Stock:	Clinker 2,052 tons Cement 1,469 tons
(3)	Daily Shipments:	400 to 500 tons
(4)	Area of Shipment:	Chugoku and Kinki area - No exports
(5)	Source of Raw Materials:	Lime stone received from nearby Koge Island. Coal from Kyushu.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS NO. [redacted]

(6) Production problems:

(a) The supply of paper bags for cement is getting scarce.

(b) Increase allocations of box cars for shipments are needed to meet the demand.

(c) Electrical allocation is 60% of the requirement.

(7) Labor problems:

Although 9 employees were purged as communists no trouble has resulted or expected.

5. CONCLUSION:

None.

6. RECOMMENDATIONS:

None.

TETSURO KAJIYA
Distribution & Industry Division

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [redacted]

FIELD TRIP REPORT

R.C. STRADLEY

25 July 1950
Onomichi

1. Purpose:

Inspection of Reparations Machinery at Naka Iron Works, 11-8 (115).

2. Background:

Surveillance in accordance with O.D. 11.

3. Discussion:

The plant is manufacturing Semi-diesel engines (150 HP - 200 HP) and parts of the spinning machines.

The monthly production of which amount to ¥ 2,000,000 (1-2 engines) and ¥ 350,000 respectively.

There are about 70 employees who have organized into a union which is affiliated wilh the Sodomei. No particular problems were in evidence in regard to the labor relations.

An "U" mark was still painted on the Reparation Machine bearing the code number of 11-8(115)-67 in No. 5 building even though it had been taken out of the status of A.U.

No. 6 Building, which is designated by the plant as a dead storage building, contains the following three dead storage items from which "U" marks had not been erased:

11-8(115)-6, 11-8(115)67 and 11-8(115)131.

All the reparation items in No. 2 and No. 7 buildings have been consolidated into No. 1 building.

No. 1 and No. 6 buildings are designated as dead storage buildings and No. 3, No. 5 and No. 12 buildings are in operation. There are two guards for custody and security.

4. Conclusions:

The reparations machines were found to be in better condition than at the time of the last inspection.

DECLASSIFIED E.O. 12065 SECTION 3 402/NARS NO.

The plant has reduced the total number of 51 A.U. machines to 32 A.U. machines.

The Chugoku Finance Bureau has not notified this company of SCAP approval for melt down scrapping of machines on 10 July 1950.

5. Recommendations:

It was recommended to Mr. Naka that:

a. Persons other than the Company personnel be requested to register on the guard book upon their entry to the plant.

b. The "U" marks be removed from the former A.U. machines that have been deleted from the staus of A.U. and removed into the dead storage buildings.

c. Send an information copy of the report which the plant will submit to CPC, SCAP through the Japanese Government channel, listing those former A.U. machines that are no longer in the A.U. status, upon the completion of the their removal into the dead storage buildings.

d. Scrapping of machinery approved by SCAP 10 July 1950 will be checked with the Chugoku Finance Bureau.

R. G. STRADLEY
Price, Distribution
and Industry Division

D/RGS/fk

DECLASSIFIED E.O. 12065 SECTION 3 402/MR83 #3

FIELD TRIP REPORT

R. P. LORD

21 August 1950

1. Purpose:

Inspection of Naka Iron Works, (Code No. 11-8(115)) Onomichi-shi, Hiroshima Prefecture.

2. Background:

Surveillance of reparations custody and maintenance in accordance with paragraph 3b O.D. 11, 10 April 1950.

3. Discussion:

The manufacture and repair of semi-diesel engines is done at this plant which has 32 reparations machines in authorized use. Nineteen (19) items have been deleted from authorized use since the time of last inspection by a representative of this headquarters. No report of this recession was submitted. Plant manager does not know if report was submitted to Finance Bureau. He was advised to find out and in the future report to Finance Bureau who in turn will send recession report to CCAR and CPC/SCAP.

4. Conclusion:

No improvement was noted in maintenance of equipment at this plant which has received poor maintenance reports from CPC and CCAR for the past six (6) months. Machinery needs cleaning and re-marking of code numbers. Three machines in dead storage area were marked with letter "U".

5. Recommendations:

a. Improve maintenance and marking on machinery in use.

b. Improve custodial accounting. It should be noted that neither the plant manager nor his assistants are able to locate pertinent reparations records when asked to produce same.

c. Improve spacing of machinery in dead storage and remove "U" marks from that machinery so marked and in storage.

R. P. LORD
Distribution & Industry Division

MANUFACTURING AND INDUSTRY FILE 11-8(115) Sec. I

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO: 1[illegible]

FIELD TRIP REPORT

R.G. STRADLEY

22 February 1950

1. Purpose:

Inspection of Dispersed Area at 11-08 (115) Naka Iron Works.

2. Background:

Surveillance in accordance with O.D. 51.

3. Discussion:

There are fifty-one (51) reparation machines in authorized use status of which twenty-nine (29) machines are in actual operation and twenty-two(22) have been applied to be deleted from authorized status. This list was submitted.

Authorized use of the fifty-one (51) machine was approved by letter HMGT 3863 dated 18 August, 1948.

Four machines in authorized use status with code numbers 11-8-(115) 6, 131, 123 and 76 are not in operative condition and have never been used. They are also rusty due to lack of preservation oil.

One reparation machine now in dead storage with code number 11-8(115)-16 has been applied for authorized use.

4. Conclusion:

Reparation machines in dead storage are getting rusty due to lack of preservation oil, particularly machines with code numbers 11-8(115)-14, 6, 131, 123, 76.

5. Recommendation:

Custodians attention was called upon the proper maintenance of reparation machines. He was also advised to remove the old code number 11-8(115) 34 and 11-8(115) 106 painted together with 11-8(115)-136 and 11-8(115) 106 respectively.

RGS

R.G. Stradley

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS NO. [illegible]

FIELD TRIP REPORT

21 December 1949

1. Purpose:

Inspection of Reparations Machinery at Plant 11-08 (115) (Maka Iron Works)

2. Background:

Surveillance in accordance with O.D. 51 dated 27 September 1949

3. Discussion:

The engine conversion work for No 103 Kosan Maru was started on 1 September 1949 and completed on 27 September 1949. Engine was converted from 90 H.P. to 115 H.P. Machines in authorized use at this location are 51.

4. Conclusion:

Reparations machinery in authorized use is poorly marked and in many instances poorly maintained. Several machines in authorized use were rusty in spots. One machine found in operation without any approval.

5. Recommendations:

Plant should be informed of their responsibility regarding care of machinery they have in authorized use.

REPORT ON INSPECTION

HIROSHIMA CIVIL AFFAIRS TEAM DATE: 9 Auhust 1949

SECTION MAKING INSPECTION: Economics DATE OF INSPECTION: 9 August 1949

OFFICER OR E.M. MAKING INSPECTION: CWO S. R. Sowder

INSTALLATIONS INSPECTED: Naka Iron Works

LOCATION: Onomichi City (D-9)

TIME SPENT IN INSPECTION: 1 hour.

INSPECTION COVERED THE FOLLOWING: Condition of machinery - Application dated 4 August 1949 to move 11 machine from plant No.1 to Plant No.2.

REMARKS:

This plant was having a "Day off" - Guards knew nothing of the application to move machinery from one building to another, however visited both plants, located machinery and see no objection to moving since custodian will remain the same and distance between buildings is approximately 1000 yds.

HEADQUARTERS
HIROSHIMA MILITARY GOVERNMENT TEAM
APO 317

D/JRF/mn

Kure, Honshu
12 February 1948

Serial No. HMGT 386.3

SUBJECT: Release of Reparations Equipment to Japanese Government

THROUGH: Director
Chugoku Central Lisison Office
Kure, Japan

TO : Hircshima Finance Bureau

1. References:

a. Operational Directove 5 for 1946, dated 18 January 1946.

b. Radio DX 99529, dated 23 January 1948, Headquarters Eighth Army.

c. 1st Indorsement Headquarters Eighth Army 004, dated 2 January 1948.

2. The machinery and dispersal areas listed in inclosure 1 hereto are released from further reparations custody and control and returned to the Japanese Government for disposition, this release does not effect the machinery listed for destruction as Special Purpose or these Laboratory items presently planned for shipment to the Technical Intelligence Detachment Tokyo, or items held as looted property by the Civil Property Custodian.

3. The following machinery is released from control of the Finance Bureau and control will be assumed by the Reparations Section, Hiroshima Prefectural Government.

NAME OF FACTORY	CODE NO.	MACHINES
Kurashiki Boseki	11-5(89)	1
Asahi Heiki Company	11-5(73)	61
Dai Ichi Sangyo	11-5(136)	3
Kitagawa Iron Works	11-5(162)	2
