DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

July 27, 1947

SUBJECT : Application for Permission to use Temporarily a Part of the Reparation Factory.

THRU : Liaison Bureau, Shizuoka Prefecture.

TO : Shizuoka Military Government Team.

FROM : The Fuji Seisakusho (The Fuji Works,Ltd.) No.401, Hinodecho, Numazu City, Shizuoka Prefecture.

1. Subject Factory:

   Numazu Plant of Fuji Seisakusho,Ltd. (Reparation Factory)

2. Location:

   No.401, Hinodecho, Numazu City, Shizuoka Prefecture.

3. Purpose:

   As an exhibition hall to exhibit wood-working machinery under the auspieces of the Japan Wood-Working Machinery Association.

4. Period for the Use of the Factory:

   For 60 days from September 1st to October 30th 1947.
   It is expected to take about 7 weeks for arranging machinery and about 2 weeks for exhibition.

5. Reasons why the use of the factory is desirous.

   a. Reasons why an Exhibition is necessary.

      As per an Application from the Japan Wood-Working Machinery attached.

   b. The Subject Factory has four major advantages as an Exhibition Hall.

      1. Railway siding.
      2. Ceiling travelling crane.
      3. Ample floor space of the factory, that is, one section comprising 3,300 sq.meters (1,000 tsubo) of floor space.
      4. Hotel accommodations available in the vicinity.
      It is absolutely necessary for an exhibition hall for such a heavy machinery as wood-working machinery to have railway-siding directly connected with the main line of railway and travelling crane to be able to set heavy machi-

Incl 1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

ery without trouble. As the factory is a ferroconcrete building, it is quite safe to store machinery. Ample floor space of one section having 3,300 square meters for exhibition hall are available besides storing reparation machinery.
For an exhibition hall, it must be situated at a very convenient place. Numazu is located in a tourist center and has many hot spring resorts around there such as Atami, Nagaoka, Shuzenji and Hakone where can accommodate many visitors and officials concerned from all parts of the country. There is no other place as in Tokyo, Nagoya or Osaka which can offer the same necessary conditions.

6. Qualification of our Company as a offerer of Exhibition Hall.

1. Our company is a special manufacturer of a band saw (wood-working) machinery and a member of the Japan Wood-Working Machinery Association. At present our company is of vice president the board of directors of the Japan Wood-Working Machinery Association and chief of the Kwanto Branch of the same association.

2. Our company has a 30 years history since 1918 in its foundation. Our company is a inventor of high speed band saw machinery and thinner blade (23-30 BWG).

3. Our company is manufacturing a high class high speed type machinery with thinner blade and 10,000-20,000 revolution per minute.

7. Isolation and Safe-keeping of Facilities Designated for Reparation.

We will isolate by fencing off an "Off Limit" area by bamboo fence according to attached map No.2 (Location of buildings). For exhibition hall, we make partition in one section of the factory with bamboo as shown on maps attached and the machinery which will impede the exhibition will be moved as shown in map 3 attached. Therefore, there will be no reparation machinery in an exhibition hall, thus making isolation complete and custody secure. During opening exhibition, we provide special guards to watch day and night to protect from fire and thieves.

8. Permission to use Travelling Crane.

The articles to be displayed will be mostly 5 to 10 ton heavy machinery which can be easily unloaded and brought to any desired place only with travelling crane.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Therefore we at the same time earnestly desire to give us permission to use the above crane.

We trust that this will receive your kind and careful consideration and that your approval will be forthcoming.

Jiro Tomomori

3. 3 Maps of the factory.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SHIZUOKA PREFECTURAL GOVERNMENT

4 August 1947

SUBJECT : Recommendation on Application of Fuji Seisakujo K.K., for Temporary Use of apart of the Building of Reparations Plant.

TO : Headquarters, Shizuoka Military Government Team.

THRU : Japanese Liaison Office, Shizuoka.

We beg hereby to lay before you our recommendation on the above application which states that the Numazu Plant, Fuji Seisakujo K.K. requests to use a part of the factory's building for 60 days from Sept. 1 to Oct. 30 for the purpose of holding an exhibition of latest wood working machinery made in whole Japan.

1. The Numazu Plant, Fuji Seisakujo K.K. is quite adequate for an exhibition hall of wood working machinery from the stand-point of it's location and installation, we suppose, and we accept also that there are no hindrances for custody and maintenance of Reparations equipments if it were carried out just as the plan of the company.

2. That an exhibition of wood working machinery be held in this prefecture will surely make a good deal of contribution not only to the technical progress of the wood working machinery's manufacturing industry, but to the promotion of the wood working one, which are both important industries in this prefecture,

3. It is expected that such an exhibition as with the participation of the nation-wide makers of subject machinery must result a good effect upon the prosperity of that district.

We wish cordially that you will grant your special permission to this application by your favorable consideration on the above reasons.

S. Takami (T. K.)

S.TAKAMI
Director
Economic Dept.,
Shizuoka Pref. Gov't.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Considerring situation from the standpoint of the aim to improve the technique of operating woodworking machinens as well as from the standpoint of present-day Japan's wood consumption, it is our strongest desire to hold an exhibition of woodworking machines at all costs.

We have found the Numazu Factory of the Fuji Seisakusho, Ltd., the most suitable place for holding such an exhibition, and being unable to locate any other place nearly so suitable, we earnestly request you to allow us the use of the said factory.

Signed. Daisuke Saito

Daisuke Saito.
Chief of the Machinery
Division,
The Commercial and Industrial Ministry.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

July 5, 1947

To: THE SUPREME COMMANDER FOR THE ALLIED POWERS.

Subject: APPLICATION FOR PERMISSION TO USE TEMPORARILY PART OF A FACTORY DESIGNATED FOR REPARATION.

Applicant: MINAMI, SEIJI, President of the Board of Directors, The Japan Woodworking Machinery Association.

1. Name of Factory in Question:- Fuji Seisakusho, Ltd., Numazu Factory.

2. Location of Factory:- No. 401 Hinode-cho, Numazu-shi, Shizuoka-ken.

3. Purpose:- As an exhibition hall to exhibit woodworking machinery.

4. Duration:- From Sept. 1, 1947, to Oct. 30, 1947 (60 days).

5. Reasons Why the Exhibition Is Necessary:- Refer to attached sheet.

6. Reasons why use of the above Factory is desired:- It has four great advantages as an exhibition hall:
(1) A private railway extension line.
(2) Electric overhead traveling crane.
(3) Each compartment encloses a floor space of 3,300 sq. Meters (1,000 tsubo).
(4) Lodging facilities in the vicinity.

The articles to be displayed in this exhibition will be mostly 5 to 10 ton heavy machinery and not such light articles as general merchandise or farm implements and equipments. They must be transported by reserved freight cars. By utilizing the private railway extension line leading into the factory as well as the two overhead weight transporters within of 10 and 15 tons respectively, these heavy machineries can be easily unloaded and brought to any desired place in the factory. Not only that, but the structure of the factory being of ferro-concrete, the building itself can be kept free from damage.

Moreover, Numazu City, the location of the exhibition, is only 30 and 60 minutes distance from Izu-Nagaoka and Atami City,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

which are both untouched by air raids and, therefore, convenient for lodging a large number of visitors and exhibition officials from all parts of the country. There is no other place either in Tokyo, Nagoya or Osaka which can offer the same necessary conditions.

7. Isolation and Safe-keeping of Facilities Designated for Reparations:-

The Fuji Seisakusho, Numazu Factory being designated for reparations, we will isolate by fancing off an "Off Limits" section according to attached map No. 1 (location of buildings).

Moreover, of the various facilities and machineries situated as of attached map No. 2 (location of machineries), the machineries which will impede the exhibition will be moved. Therefore, there will be not one machinery designated for reparations which will be seen within the premises of the exhibition, thus making isolation complete and custody secure.

8. Assistance and Agreement to these plans:-

a. We are receiving the assistance of the Commerce and Industry Ministry, Machinery Bureau and Machinery Experiment Laboratory.
b. We have an agreement with the Fuji Seisakusho, Numazu Factory, concerning its use "providing GHQ will give consent."
c. We have the unanimous consent and approval of the members of this Association and have already received applications for exhibiting articles.
d. We have the active support of the Nippon Kikai Hamono Kogyo Kumiai and the Nippon Seizaiyo Nokogiri Kogyo Kai both of which are desirous of submitting articles for exhibit.
e. The Seizai Kokko Beniya Union have heartily approved of our plans.

We hereby earnestly beseech you to kindly permit us the use of a part of the Fuji Seisakusho Numazu Factory building as a temporary exhibition room on the reasons stated above.

J. Tomomori
President,
Fuji Seisakusho, Ltd.

Signed: S. Minami.
Seiji Minami,
President of the Board of Directors,
The Japan Woodworking Machinery Association.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

REASONS WHY THE EXHIBITION IS NECESSARY

At present, wood is being used for piles in mines, for building homes for employees, for construction work of the Occupation Forces, for packing reparations goods, for rebuilding war demolished buildings, for building homes for repatriates, for house furnishings, furniture, for wooden commodities for civilian consumption, for constructing railway cars, for shipbuilding, communications equipments, for farming implements, for weaving machines, spinning machines and for export purpose as well as for the manufacture of veneer and plywood and numerous other things, all of which are dependent on woodworking machinery (sawmill machines, woodworking machines and veneer machines). Moreover, woodworking machines themselves will be exported. Thus the demand for woodworking machines is necessarily large. We must bear in mind, however, that we shall not be able to meet the various demands stated above with our home products alone, and that it is inevitable that we must look forward to imports to fulfil those demands. Under these circumstances, we must think of some means by which we shall be able to utilize to the full our home products and eliminate any wasting. The most important role that can be played in this instance is in improving the efficiency of the sawmill machine, the woodworking machine and the veneer machine.

The manufacturers of woodworking machines are ever expending their efforts in improving the quality of their products, but compared to the products of Europe and America, so far theirs fall far short of the standard. They have endeavored to catch up by mutual toil and labor but their efforts have fallen short. It is necessary, therefore, that the best home made products be collected before a single view for the purpose of enlightening the manufacturers through practical illustrations on the merits of these machines. It is also necessary thus to broaden the knowledge of the lumber and woodwork manufacturers through such exhibition to encourage them to voice the demand from the standpoint of the users of these machines, thus to bring them to cooperate with the manufacturers in a common effort to improve the quality of woodworking machines.

Ordinarily, lumbermen and woodworkers are deficient as to knowledge regarding the true merits of woodworking machines. It is our sincere desire, therefore, to improve the knowledge of these wood manufacturers by offering them lectures on the theory of wood processing, cutting and shaving by various Japanese authorities, and at the same time to set the manufacturers of woodworking machines on the way to manufacture their machines on the basis of scientific theory.

The world of woodworking machines as well as wood processing is situated thusly at the present time. We do not doubt that by improving the knowledge of those engaged in these industries, we would be achieving the fullest utilization of the few manufacturers this country can lay claim to, and that it would be a contribution to the reconstruction effort of Japan. No similar

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

project has been attempted in the past. We believe that the present is an effective as well as requiring time for such an exhibition, and we hope to realize those aims set down above from this undertaking.

3 Sept. 46

SUBJECT : Movement of Machinery.

TO : Commanding Officer, Tokyo Detachment, Tokyo-Kanagawa Military Gov't Dist.
APO 181

THRU : Commanding Officer, Tokai Hokuriku Mil. Gov't Region
APO 710.

1. Reference is made to your letter 6 Aug. same subject received this Headquarters today authorizing transfer of machinery owned originally by Fuji Sangyo K. K. from Fuji Seisakusho, Numazu and from Marukuni Tekkosho, Shizuoka.

2. Fuji Seisakusho was added to OD 5 plants by SCAPIN 1133 and it is believed the machinery should remain in its present location and be inventoried with other machinery of this plant.

3. Marukuni Tekkosho was among the plants put on inventory by SCAPIN 1133, but was already on inventory by recommendation, and by Headquarters I Corps endorsement 2 July was placed under Operations Instructions No. 1 12 Feb. The machinery has been inventoried and put in proper maintenance awaiting assignment of OD-5 number. It is requested that permit to move machinery be recalled and that machinery remain on inventory at present location.

4. This Headquarters has not authorized the removal of machinery from one OD 5 plant to another and it is not believed that such movement is the intent of present directives.

JAMES W. COLEMAN,
Major, INF.
Commanding.

TO : H.Q. TOKYO-KAMAKAWA AND TOKYO DETACHMENT
SUBJECT: APPLICATION FOR TRANSFER OF MACHINERY

(1) Present Location of Machinery

Fuji Seisakusho
Hinode-cho, Numazu-shi,
Shizuoka-ken

(2) Proposed Location of Machinery
Musashi Plant, Fuji Industrial Co., Ltd.
680, Hanikubo, Hachioji-cho,
Kitatama-gun, Tokyo-to.

(3) Reason for Transfer
During the war a part of the machinery of the former Nakajima Aircraft Co., Musashi Plant, was lent to [illegible] which had been one of the Nakajima's subsidiaries.
Since the end of the war, the machinery has been left in its improper custody.

(1) Present Location of Machinery

Fuji Seisakusho
Hinode-cho, Numazu-shi,
Shizuoka-ken

(2) Proposed Location of Machinery

Musashi Plant, Fuji Industrial Co., Ltd.
650, Nishikubo, Musashino-cho,
Kitatama-gun, Tokyo-to

(3) Reason for Transfer

During the war a part of the machinery of the former Nakajima Aircraft Co., Musashi Plant, was left to [illegible] which had been one of the Nakajima's subcontractors.

Since the end of the war, the machinery has been left in its incorrect custody.

Besides, for making inventory sheets, and also for the convenience of inspection by examiners it is hoped to the location proposed is desirable.

(4) Detailed List of Machinery

Please refer to the List attached.

(5) Date of Proposed Transfer.

15 August 1946

INDUSTRIAL SURVEY QUESTIONNAIRE

1. Date of Inspection _____ Serial Number of Installation _____

2. Inspecting Officer: _____
(Name, Rank, Unit)

3. Address. 401, Hinode-cho, Numazu City, Shizuoka Pref.

4. Coordinate Location: _____

5. History and Capital Structure: _____

a. Date of Construction: April 11, 1939.

b. Date of First Operation: February 11, 1939.

c. 1935-1941 Production (Annual value in Yen; quantities of principal products by unit or weight)

	unit	value in Yen
1935 - 1939	0	0
1940	111	¥1,443,096.00
1941	95	1,450,209.00

d. Present Capitalization in Yen ¥11,791,520.00 (Nov.30.1945.present)

e. Changes in Capital Structure since 1935: _____

March 5, 1938.	¥1,000,000.00	(Capital paid ¥500,000.)
May 25, 1939.	¥1,000,000.00	(paid up.)
May 30, 1941.	¥3,000,000.00	(Capital paid ¥2,000,000.00)
December 8, 1942.	¥3,000,000.00	(paid up.)

f. Name and address of parent company: --Continued on opposite side.

nothing.

g. Number of shares outstanding: 60,000 shares.

h. Value of each share: ¥ 50.00

i. Number of stock holders (Name of each individual owning more than 10% of total stocks) _____

Seiichi Tanaka	Chairman of the board of directors.
Jiro Tomomori	President

j. Funds received from Government (Bounties, subsidies, etc) _____

nothing.

continued on :

e. Changes in Capital Structure since 1939:

Debt. (each year end.)

1939	¥ 280,000.00
1940	530,000.00
1941	250,000.00
1942	0
1943	330,252.79
1944	642,083.88
1945	2,785,318.91

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

6. General Description:

a. Principal Products:

(1) Wartime: Machine Tools

(2) Present: Wood Working Machines & Machine Tools.

(3) Planned for 1946-1947: ditto.

b. Capacity:

(1) Wartime:	Machine Tools	155	(unit)	¥4,729,000.00
	Wood Working Machines	189	"	¥3,736,000.00
(2) Present:	Machine Tools	57	"	2,330,000.00
(3) Planned for 1946-1947:				
1946	Wood Working Machines	189	(unit)	¥3,736,000.00
	Machine Tools	57	"	2,330,000.00

continued on opposite side.

c. Number of Employees:

(1) Wartime: 893

(2) Present: 161

(3) Planned for 1946-1947: 350 (1946) 600 (1947)

7. Machinery and Equipment in Plant at Present:

Description	Quantity	Condition
Machine Tools	166	usable
Production Machines	10	ditto.
Transformer	5	ditto.
Smelting Furnaces	2	ditto.
Alloy Furnaces	1	ditto.

8. Present stocks of raw materiels, supplies and unfinished products:

Description	Quantity	Condition
Pig Iron	138,675 kg	usable
Steels	16,600 "	ditto.
Special Steels	6,350 "	Ditto.
Copper	965 "	ditto.
Tin	205 "	ditto.
Lead	135 "	ditto.
Scrap	15,000 "	ditto.
Machine Tools (unfinished)-----	104(unit)	ditto.

9. Present stocks of finished products:

Description	Quantity	Condition
Machine Tools	2 (unit)	usable

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. Capacity:

(3) Planed for 1946-1947:

1947	Wood Working Machines	312(unit)	¥7,092,000.00
	Machine Tools	124 "	5,370,000.00

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

10. Present stocks of Fuel:

Description	Quantity
Cokes	46,000 kg

11. Machinery and equipment needed for maximum civilian production(1946-1947)

Description	Quantity
Machine Tools	166 (unit)
Production Machines	9 "
Transformer	5 "
Smelting Furnaces	3 "
Alloy Furnaces	1 "
Heat Treatment Furnaces	2 "
Drying Chamber	2 "

12. Raw materiels and supplies needed monthly:

a. For present capacity (6b2):

Description	Quantity
Pig Iron	50,000 kg
Scrap	3,500 "
Steels	9,525 "
Special Steels	1,630 "
Copper	362 "
Tin	145 "
Lead	14 "

b. For maximum capacity (6b3):

Description	Quantity (1946)	Quantity (1947)
Pig Iron	50,000 kg	122,000 kg
Scrap	8,500 "	20,900 "
Steels	9,525 "	21,000 "
Special Steels	1,630 "	3,942 "
Copper	362 "	707 "
Tin	145 "	295 "
Lead	14 "	20 "

13. Fuel needed monthly (Do not include present stocks):

Description	Quantity
Cokes	55,000 kg
Coal	10,000 "

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

14. Additional personnel required (not locally available):

Special Skills	Number
Metallurgist	2

15. Prices (current selling price in yen of principal products):

Description	Unit	Price
1. Wood Working Machines:		
~~42" Type Table Band Saw Mill~~	~~1~~	~~¥8,000.00~~
42" Type Band Saw Mill	1	40,000.00
44" Type " "	1	45,000.00
48" Type " "	1	55,000.00
42" Circular Saw	1	4,500.00
2. Machine Tools : (continued on opposite side.)		

16. Estimate of Damage suffered:

a. Structural

(1) Percent totally destroyed: 15 %

(2) Percent Damaged: 0

(3) Percent Undamaged: 85 %

b. Machinery and equipment:

(1) Percent totally destroyed: 5 %

(2) Percent Damaged: 0

(3) Percent Undamaged: 95 %
