August 1, 1949

To United States Army Head Quarters
Ibaraki Civil Affairs Team

For about four(4)years, the staff of the Sugahara Agricultural Association and some of bosses in our village have done something dishonest in regard with the agricultural affairs. The annexed report shows a part of their illegal acts.

Now our village stands at a cross-roads of Democracy and the influence of many bosses. Unless all of such corrupt elements as above-mentiontd, will be cleared, the Democratization of the village will be never seen for ever.

We wish you that your United States Army will do your best to help us, in order to build new democratized village.

It is our earnest hope that we may suceed with your help.

Very sincerely yours,

NRP said Furuya was a Communistic sympathizer. Mr. Matsuri visited MG + reported this case, Matsuri is a black mailer + he might be red.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

A REPORT OF CORRUPTION CASE IN AGRICULTURAL ASSOCIATION OF SUGAHARA VILLAGE, IBARAKI PREFECTURE

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

REPORT OF CORRUPTION CASE REGARDING THE AGRICULTURAL ASSOCIATION OF SUGAHARA VILLAGE, IBARAKI PREFECTURE

I. In accodance with the governmental order, our Sugahara Agricultural Association had to be dissolved on I4 AUG I948. But, as the former staff of the asociation did a wonderful dishonest act regarding a great quantity of staple food, such as rice, barley and potato, as well as fertilizer, agricultural medicines and farming tools, the liquidation of the association has not yet been completed; and the whole people of the village have been very much annoyed by it.

On IO OCT I948, two(2) liquidators were elected by the whole people of the village, and since then they have endevoured in the business of its liquidation.

Owing to the laws and requlation, the account books and records of the association should have been preserved. But many of them were lost by the former staff of the association, and the liquidators are now making desperate eforts. We beg you will sympathize with us in this predicament, and help us to solve this greast matter of our village.

II. The principal matters managed illegally by the former staff of the association are as follows:

(I) On about 3I MAR I947, wheat of one hundred twenty-five (I25) hyo was illegally managed by SUGANUMA Tsugi, TAMURA Kakuji, TOTSUKA Takeshi, KOJIMA Yataro, etc. Besides this, wheat of two and a half(2.5) hyo, which they calledthat it was damaged by rats, was illegally managed by them. The amount of its loss amounts to twenty one thousand seven hundred eighty-seven yen andtwenty sen(Y 2I,787.2Φ), because the public price of wheat is one hundred seventy yen and eighty-eight sen(YI70.88) per hyo.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) On 8 APR ~~1944~~ 1946, SUGANUMA Tsugi, TAMURA Kakuji, TOTSUKA Takeshi and KOJIMA Yataro sold two hundred fifty(250)hyo of wheat under the government control, without the direction by the authorities. Although they payed afterwards twelve thousand three hundred sixty one yen (¥I2,36I)as the amount of its loss, its real state should be disclosed.

(3) SUGANUMA Tsugi, KOJIMA Yataro, TOTSUKA Takeshi, TAMURA Kakuji, etc. misappropriated the government funds of ten thousand nine hundred ninty-four yen(Y IO,994), and on 8 APR I949, they handed cotten yarn of three(3)kan, three(3)rolls of cloth and ten thousand nine hundred ninty-four yen and sixty-seven sen(Y IO,994.67), to the liquidators of the Agricultural Association.

(4) In the fiscal year of I946, sweet potato of two hundred fifty-five(355)hyo and eight(8)kan was missed; but this time it has been disclosed that among the sweet potato its fifty(50)hyo was illegally sold to the Mizukaido Cooperative Society by SUGAMUMA Tsugi, KOJIMA Yataro, Horii Kyuma, TOZUKA Takeshi, Tamura Kakuji, etc. This time they have payed fourteen thousand four hundred sixty-seven yen and thirty-one sen(YI4,467.3I) as a supplement of its loss, but its real state should be strictly investigated.

(5) SAKANO Hiroko, ex-employee of the association, usurped eight thousand one hundred one yen andfour sen(Y8,IOI.04), the price of the reward goods, such as cotton cloth, Japanese socks and fatigue-dress, for the diligent farmers. It seems that there is some connection between Hiroko and YAMAGUCHI Shozaburo, draper. Therefore, her father refused to solve the matter. We wish that the matter will soon be solved by the help of the authorities.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(6) SAKANO Hiroko, ex-employee of the association, also embezzled eight thousand yen(Y8,000), savings by the farmers of the village. But her father refuses to solve this matter, asserting that this matter should be solved by the persons who were engaging in the cash account.

(7) In the fiscal year of I946, ammonium sulphate of seven hundred ninty-nine(797)kan, ammonium nitrate of three hundred fifty-five (355)kan, superphosphates of three hundred ninty-one(39I)kan, potassium of three hundred ninty-one(39I)kan and imported potassium of twenty-four(24)kan were illegally managed. The amount of their loss amounts to forty-five thousand two hundred eighty-three yen twenty-two sen(¥ 45,283.22). We hope that its real state will be soon investigated.

(8) In the fiscal year of I946, sweet potatoes of seventy-five (75)hyo were illegally sold by the staff of the association. On 8 APR I949, one thousand eighty-nine yen and twenty sen(YI,089.20) was payed as the arrears of the price, by SUGANUMA Tsugi, KOJIMA Yataro, TAMURA Kakuji, TOZUKA Takeshi, etc. The price for the sweet potatoes of sixty-eight(68) hyo has not yet been solved. As it seems that there is some connection between the sweet potatoes of sixty-eight (68)hyo and other wheat of one hundred twenty-five(I25)hyo, a strict investigation is required.

(9) According to the report of the inspection by Mr. YAZAWA, clerk of the Yuki district Office, the quantity of rice, which was exposured by the military police of the occupation forces, as the concealed goods in JUL I946, is one thousand two hundred five(I,205)hyo. But, according to the investigation by the liquidators its number is

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

one thousand two hundred seventy-three(I,273)hyo.

The president of the Agricultural Association and the village headman, of those days,had made the farmers of the village unlawfully deliver such a quantity of rice.

Of this rice of one thousand two hundred seventy-three(I,273) hyo,two hundred eighty(280)hyo was peculated by some of the landlords,three hundred forty-six(346)hyo was distributed among the delivers,five hundred forty-nine(549)hyo was exposured,the others were consumed for the other use,and eighteen(I8)hyo is not yet accounted for.

The staff of the Association of those days made the farmers deliver the barley and cereals as the the substitute for the acorn, and presented the barley to the authorities and reserved the rice, which was more worthy than the barley. This is the illegal and intentional act by the officials of the village.

Of one thousand two hundred seventy-three(I,273)hyo, the rice of four hundred twenty-five(425)hyo was illegally distributed to certain persons of the village. Regarding this matter,an exhaustive investigation by the authorities is required. It is said that some the receivers resold the rice to the refugees in this villages.

(IO) According to the report of the investigation by Mr.YAZAWA, the quantity of barley is two thousand two hundred sixty-ninty(2,269) hyo. Of this barley, the staff of the Association presented one thousand seven hundred seven(I,707)hyo to the authorities as the staple foods. Therefore,it is clear that the staff sold illegally the barley of five hundred sixty-two(5,62)hyo,that is they managed it as the so-called"GETABAKI".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(A) Quantity of special distribution to the repatriators----98 hyo

(B) Amount of consumption before the exposure----------33 hyo

(C) Quantity of special distribution by the counting of the public cooperative association----------270 hyo

(D) Amount of (A),(B) and (C)----------4OI hyo

(E) 562 hyo of "GETABAKI" minus 339 hyo of exposure is 223 hyo of consumption.

According to the report of the inspection by Mr.YAZAWA,four hundred ninty seven(497) hyo of barley is the unfair goods in a storehouse. But, according to our accounts,it is seven hundred forty(740)hyo of it. Of these hyo, three hundred thirty-nine(339)hyo was exposured and distributed through the regular procedure. It seems that of these hyo, four hundred one(40I) hyo wasmaneged illegally by the large loss of the village. Regarding this,a strict investigation is required.

(II) Acording to the report of the inspection by Mr.YAZAWA,the quantity of wheat is three thousand ninty-eight(3,098) hyo.

(A) Actual quantity of wheat minus two thousand nine hundred forty(2,940)hyo,which was presented to the authorities,is one hundred fifty-eight(I58)hyo.

(B) One hundred fifty eight(I58)hyo minus one hundred forteen (II4)hyo is forty)four(44)hyo.--------this is still missing.

We should like to know the place where the forty-four(44) hyo has gone and its source. Besides this,there is a suspicious case regarding some refined barley of two hundred fifty(250) hyo. Itseems that there is some connection between the above forty-four(44)hyo and the barley of two hundred fifty(250)hyo.

(I2) On the exposing case

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

On I7 JUL I946, the rice and barley of one thousand fifty three (I,053) hyo exposed by Mr. MATSUMI and the Military Police of the occupation forces,although Mr. MATSUMI says that he exposed the rice and barley of eight hundred(800)hyo. In connection with this exposing case, the account of rice of two hundred twenty-four(224) hyo,barley of seventy-seven(77)hyo and wheat of one hundred twenty-five(I25)hyo is outstanding. It is necessary to see where the responsibility lies. SUGANUMA Tsugi,KOJIMA Yataro, WADA Tsune,TAMURA Kakuji,TOZUKA Takeshi,etc.

They say that of this one thousand fifty-three(I,053)hyo,thirty-six(36)hyo was damaged by rats;but we cannot understand such a matter. This must be their falsefood.

(I3) According to the accounts by Mr. YAZAWA,the quantity of rice,which was managed with some advance, is three hundred forty-two(342) hyo. But, according to our accounts,it is four hundred thirty-eight(438)hyo. KITAJIMA Kuniichi,KOJIMA Yataro,OKOSHI Shinnosuke and WADA Tsune,etc are to blame for it. The strict investigation is required.

(I4) The staff of the Association sold illegally the sweet potato of nine hundred sixty-xix(966)hyo to the JOSO Railway Company,and some of its price was in part payed. This case should be strictly investigation.

(I5) The price for the rice of two hundred two(202)hyo has not yet been payed. The strict investigation is required.

(I6) In the fiscal year of I946, forty-five thousand two hundred eighty-three yen and twenty-two sen(Y45,283.22),price for the fertilizer, was illegally managed. This is the case which SUGANUMA,KOJIMA,YAMAGUCHI,HORII,etc engaged in its transaction.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(I7) In the counting of saving, we cannot make the accounts balance, because the balance of accounts of the ledger is different from that of the register. The amount of seventy-two thousand seven hundred thirty-four yen and sixty sen is yet missing. This must be strictly investigated.

(I8) The staff of the Agricultural Association bought very often several kinds of miscellaneous goods and sold them to almost all of the people in the village. In this transaction, the association must have made a immense profit,because the profit must have been about ten per cent(I0%)of the volume of business. But, almost all of this profit must have been usurped by the staff of the association and others. The amount of the loss is fifty-two thousand six hundred fifty-six yen ninty-four sen(Y 52,656.94). This usurpation has been done from 3I MAR I946 to 3I MAR I947.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Report on Information concerning the scandal at SUGAHARA Agricultural Association, YUKI GUN, IBARAKI Pref.

From: MINORU UCHIDA, chief of IBARAKI Local E.I.B.

TO : Ibaraki C.A.T.

Listed herewith are the result of investigation concerning the scandal of SUGAHARA Agricultural Association, YUKI-GUN by the instruction on 27 June, 1949.

dates to be held investigation : 2 and 3, July 1949

place to be investigated : SUGAHARA village Agricultural Association

names of persons to be investigated : FURUYA, a member of liquidation committee

" TERADA, "

SUGANUMA, Present major and former chief of the association

Result of investigation :

It is very obvious that many bales of wheat and barley have been disposed

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

illegally. Concerning evidences that have been found, the Agricultural Association Assets Deposit Committee has taken the moderate measures and is making its effort to resolve the rest of evidences. The E.I.B. inspected the results of investigation which had been instructed by the Ibaraki Prefectural Government through YUKI County Office on 23 March 1949.

1. Of 165 bales of wheat which was found as the hoarded goods on 23 July 1946, 125 bales were deposed illegally. Concerning this, Takeshi Tozuka, offical concerned of the Association, was asked how to have been disposed of them. (40 bales went to mill legally out of 165 + the blankets) (125 went to BM. Case was turned over to NRP.)

2. In July 1949 - about 125 bales of wheat bales were sold (?) and the money of 12,361.15 were not received.
Ten officials of the Association collected the money and it was settled.

3. Officials of the agricultural association bought raw cotton at the price of ¥10,994.60

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

all of which were spent by them.
Officials at that time collected the money and the trouble was settled

4. Concerning the price of 255 bales of sweet potatoes delivery in 1949, officials have already collected ¥14,767.31

5. Concerning ¥8,101.45 of misappropriation of incentive goods, Miss HIROKO SAKANO who was the responsible man at that time escaped her house being afraid of her investigation. Therefore, the conclusion has not been found yet. Moreover, this girl stole ¥5,000 that had been deposited in the association, but as the same reason, it is difficult to investigate her.

6. About 10,999 ¥ of fertilizers that ~~was~~ has been distributed for the incentive goods, was stolen by some bodies. Concerning this,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Asset Liquidation Committee is now investigating note-books concerned, so the conclusion will be found soon

7. In 1946, 17 bales of dried sweet potato which had been sold to the Japanese Central Government, were sold at blackmarket price. As the result of investigation, those bales were ~~sold~~ sent to MIKFI Commercial Co. Ltd., Ohsaki, Tokyo. The ~~price~~ money of price were kept at the association

8. There is a different amount of money between receiption and payment concerning the saving money and the association has not been liquaded yet. Amount of fertilizer which old agricultural association had bought, is not clear, so the new A.C.A. has received the business concerned.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The MIZUKAIDO District Police Station is waiting result of investigation conducted by the Asset Deposition Commission, but has already began to investigate some of them. The F.I.B. think that this is a case of misappropriation of official money. The conclusion of the investigation will not be reached until the Asset Deposit Committee take moderate measures.

~~Results by Mizukaido~~

Results by Mizukaido Police a little late.
