atize a stronger discharge opposition strife.

2. As one of the links of joint strife with KOKUTETSU cooperate and develope the tactics of rejecting receiving mails (discharge notices) sent from KOKUTETSU authorities by sending back these mails to the sender. Furthermore, there is a tone of the government enforcing delivery even by disregarding the Postal Service Law, recently, (to be handled as lawsuit mail), but in these cases, to fight strongly by stabbling their violation taking up the Postal Service Law (Art. 52, in case when it is incapable to deliver the mail, to the receiver, to return it to the sender.) and immediately contact with the District Headquarters. At this Dist. Hq. we are determined to bring an administrative lawsuit against it, taking up the matter.

3. There are illegal actions of rotton officials taking advantage of the confusion made by separation of the two departments and personal transfers accompanying it. The Chiren Headquarters has newly established Illegal Actions Exposure Committee as measures against these facts. We wish all our branches to expose positively all illegalness standing on a new point as we are the host of our offices and to make reports on concrete facts to the District Committee.

Chief, Hiroshima Dist. Committee.

July 14, 1949 Central Strife Committee
Information No. 16

Zentei, Hiroshima
District.

1. There was a report at the Democratic Organization Cooperative Compilation Conference held on the 9th, that recently a certain Press is promoting plans on the following three items to rouse public oppinions of strengthening Police influence and settling public safety regulation.
   A. Is the police power alright as it is now? Should it be strengthened?
   B. Do you know the difference of National Rural Police and Municipal Police? Is it better to combine the two to one?
   C. Do you know what a public safety regulation is? Do you think this should be established?

The fact of this bourgeois press being alloted with special higher duty (furthermore there is the problem of SAIKI N.R.P. chief and the present government standing against one another), shows clearly the real situation that they (burgeois press) have degenerated to a watchdog of influence. So we wish the organs of all classes to propagate this with concrete facts.

July 22, 1949 Central Strife Information No. 23 July 19.

ZENTEI Hiroshima Dist. Information & Propaganda Section.

1. Informations from Tohoku CHIREN.

A. The KOKUTETSU authorities expressed that the first discharges were settled by the SHIMOYAMA case, and the 2nd by the vacant electric car case. The Kawakita Press (dated 18th) has also publicated alike, and an editor of a certain press says that there may be the same kind of unscrupulous method taken against personal-cuts of ZENTEI.

B. On the 18, 19 and 20, about 90 or 100 persons related with postal administration gathered at Matsushima Kanko Hotel and confered on personal-cuts and other matters, while at the Bekkan, they had made preparations of 3.8 'to of 'sake' and 60 bottles of beer, which is clear, drinks to be used for celebration in anticipation of the personal-cuts.
About 150 members of labour union attacked them suddenly and made demands of "Absolute opposition of personal-cuts" and "Make public the standards of discharges", but the post office masters group rejected saying, "Officially, we can't help carrying out the personal-cut. This enforcements might last till end of this month." and left. The Miyagi District are making preparations to take up/counter-measures, body of cells. as

2. Informations of Shinetsu CHIREN.

On the 18 and 19, post office masters within the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

former NAGANO Communication Bureau, held a conference concerning personal-cuts at Naganoyu Tanaka (hot spring resort). The CHIREN made negotiations with all its strength, but the post office master side made expressions of enforcing personal-cuts from the 1st, so emergent strife committee is being held to confer on its counter-measures.

3. ZENTEI Newspaper.

On standards of personal-cuts, MURAYAMA, Postal Savings Bureau chief, stated when party negotiation was held between MURAYAMA and 3 officers of the Savings Conference, on the 13th, that:--

"The adjustments of the Postal Savings Bureau Branch relations will not be adhered to the Regular Number Law (Teiin Ho), but take up the general adjustment standards of Postal Administrative Ministry, the following 6 items, to carry out the personal-cuts.

a) Persons having less than two years service period.
b) Patients with tuberculoses disease.
c) Persons of old age.
d) Persons with bad service record.
e) Persons serving only the labour union business.
f) Women employee. "

This is the same measures now being taken bby the KOKUTETSU personal-cuts. Besides the Teiin Ho (Regular Number Law) and discharges according to transfers of ledgers, it is anticipated that there will be a great amount of more cruel discharges enforced in the near future.

CHIREN Information No. 51

Chugoku CHIREN Information and Propaganda Section.

1. On July 21, from 1 p.m., OISHI, chairman of CHIREN and executive committees in Hiroshima together with Hiroshima District Executive Committee, made party negotiations with YASUHARA Post Office chief. The official-side expressed, "Concerning this, we are not able to secure the present members and have not received any notices concerning the number of personal-cuts from the Ministry, yet, but we expect there would be a great number of discharges. We also have the chief of specified post offices as objects of adjustment."
The union-side asked for cooperation to protect the business and make actions by holding a talk before the personal-cut is enforced, but the negotiation was cut off in a stated of this matter to be kept under custody for the present.

2. From 3 30 p.m., the union-side made party negotiation continuously with [illegible], chief of Telegraph Bureau and other managers, on the problem of personal-cuts. The following matters were made known.
a) On counter-measures of personal-cuts, the actual

2. From 3'30 p.m., the union-side made party negotiation continuously with MORITA, chief of Telegraph Bureau and other managers, on the problem of personal-cuts. The following matters were made known.
   a) On counter-measures of personal-cuts, the actual number of present members like that of Postal Administration is known, but the rate and standard of discharges are unknown.
   b) Will do our best to make few discharges as possible. We cannot protect persons absent from office a long period with illness.
   c) Will endeavour to delay personal-cuts related with Communication up to September if possible, for there is a spare period in the budget up to then.

   To this, the union-side asked for cooperation, the same points as demanded to the Postal Administrative Bureau chief, and was replied with promise to do their best in negotiation and cooperation.

<u>Special Central Strife Information</u> July 22

1. The results of the Personal Affairs Department Chiefs Conference was all taken back back to their districts, and secret post office chiefs meetings are being held and they are making the lists now. The Tohoku, Shinetsu and Tokai CHIREN are making mass mobilization and are holding party negotiations, thus making clear the intentions of the official-side. That is to say, the list ~~was~~ is scheduled to be announced at once on August 1, but the CHIRENs of various places started a strife with mass organization before this announcement. On July 21, Central Strife Committee issued the following instructions to organs of all classes under Shinetsu CHIREN.
   A. To make strong mobilization against official-side organs of various class and by party negotiation, delay as much as possible the announcement to be made on Aug-ust 1 by the official-side, and to fight to crush this by making close contactionw with all friendly organizations.
   B. ONO, vice minister of Postal Administrative Ministry, made clear to the negotiation that, "If we make discharges according to the Regular Number Law (Teiin Ho), we will loose balance so we are thinking of taking actual present members as standard."
   C. Recently, applications for resignations by request are being called for, but investigate how much business you can transact with just 100,000 or 150,000 yen resignation money, and make clear the disadvantage of resigning. It is important to start an anti-personal-cuts strife. The FUSO Metal Works (FUSO KINZOKU) of Osaka SODOMEI, fascinated by the resignation money almost a few hundred persons resigned and they (mostly youths) consumed this money in just two or three [illegible] became aware of the disadvantages. They are now

TO : COMMANDING OFFICER, HQ. of Hiroshima C.A.T.

FROM : Chief, OM-

SUBJECT: GROUP OF C.P. CELLS OF ZENTEI ONOMICHI BRANCH.

In spite of the personal-cuts hanging in front of them. the ZENTEI Onomichi Branch does not show any sign of movements such as opposition strife, propagandas, etc, which were seen in the KOKUTETSU and other enterprises against the adjustment made to them. Their outward attitude seems rather spectator-like and puzzling, reminding us of the night before a storm.

But we cannot neglect their predominant standpoint of their possibility to reach their goal with the communication institute in their hands which enables them to make all contactions and reports, and with their C.P. cells, all persons of talent, which cannot be seen in other organs.

Circumstances up to present surrounding this personal-cut, are as we have already reported to you before, but regarding the list of the C.P. cell group within the ZENTEI Onomichi Branch and what measures they will take once the announcement of the persons to be discharges is made, it is anticipated that this will flourish the final of the adjustments of this year.

Concerning the receptions of the repatriates, from 10 to 20 persons are going out to the station to welcome them in turns, which we cannot think of this act just coming straight from their kindness.

The name list of this group is as showned in the attached paper

Holding of Hiroshima District Liaison Conference of communists, National Railway and All Communication Trade Unions.

30 July

Concerning the above subject, we got the following informations.

Items.

1. Date & place .... 29 July at 10.00 A.M.
Seno (others unknown)

2. Attendants:

All Communication and National Railway:
Tsukuta; Inoue Tamiko, Hojyo, etc.

Communists:
Harada, Moriwaki, etc.

3. Contents of conference.

(1) As to fighting with the dismissal of All Communication Unionists as chance.

[84]

All Communication: A positive assistance from the Communist party is desired.

Moriwaki: Which is better, based on Communication Instruction No.1, or No.2 thereof?

All Communication: Hiroshima is better to base on No.2 Instruction.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Tukuta : Judging from National Railway, it will be no good unless spirits should be raised as from the time when the Authorities have announced the standard of dismissal.

All Communication : Half the number of unionists of All Communication, is considered not to follow us. However, our executive members will struggle persistently, so we request assistance of the outside.

Harada :
The goal is as from 10th.

All Communication :
That is good. Now in every district, a mass meeting is being held almost according to the instruction.

A. Returning of orders will be made en-bloc. ~~as matter~~.

B. ~~Mutual fighting with~~ fighting in cooperation with National Railway.

C. Saving of fund for mutual fighting
Goal is from ¥1,000 to ¥500.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) As to propaganda:

Hojyo: The number of employees dismissed of the National Railway includes 152 communists. As communists have given impressions to people that they are undilligent, unionists in general need propaganda to the inside of the Union.

National Railway:

Calling to people should be made with gentle words so that people may feel nice.

(3) As to acquisition of fund.

Inoue: We have been conducting fund campaign in the national railway official residences. The results ~~thereof~~ is good. The cell of National railway is selling blue plumage. From now on, campaign thereof should be made ~~[illegible]~~ to section chiefs conduct, who dismissed them.

(A) Half the amount of incentive money disbursed from

Kure District Committee of Nippon Communists party.

Regarding a tragedy of non-passenger tram-car which took place at Mitaka Railway Station, the Government and the Newspaper are making a big propaganda that it was conducted by the Communists. Our party requests to clarify this case through a thorough investigation for the sake of pitious victims as well as for preventing the whole people from such a misfortune. 83

The Authorities at present are trying to make this case the seeds for the only propaganda of anti-

Communism. They, contriving destruction of the proofs, arrested two communists who, however, had attended the conference when the case took place and therefore, it is clear that they had nothing to do with this case.

The newspaper highly propagates about the apprehension of these two boys as if the case had been done by communists. ~~This is the same way as that of militarists and facists who oppressed communists and unionists. Our party~~

Such is the case with Shimoyama Case, too. Everything wrong is burdened to the communists. Therefore, when an affair comes to be proved that it is not responsible for communists, it always lacks any clue to its solution.

This is entirely a same way as that of militarists and fascists who oppressed and injured communists and unionists. Our party is of objection to such unclear method of investigation.

Now, Yoshida Cabinet is destroying plants and the people's livelihood and is oppressing

Our party is trying to build a bright, abundant Japan together with people in general. The cases of Shimoyama and none-passenger street-car therefore are detrimental to us people, which are ~~of~~ separated from the actions of people.

Only ~~the~~ a ultra-rightist government such as Yoshida Cabinet needs such a case in order to make a pretext to oppress communists and people.

Our party hereby declare that we will make clear the actual status of none-passenger street car case as well as break down the Yoshida Cabinet attempting such plots.

3. Leader: MIYAO Nishio of 27, Higashi Shikata-cho, Kure.
4. Members: 9 (including 4 officers) Refer to the annexed paper(no.1)
5. Gist of the league's action:

At the time of its establishment, the league had 37 members including Miyao and was carrying on a pretty active movement aiming at realizing a national character where Tenno system should be maintained absolutely which is the main object of the league.

The objective situation after the surrender was, however, inconsistent with yhr league plan of expanding the movement and the members have become less and less since. The number of the members was only 10 as of Mar. this year. But they have become active again in cooperation with the Headquarters and initiated inviting those members who have withdrawn from the league to rejoin the league and raising new members.

They put up notices in Kojin-machi district, Kure city under the title of " The communist party which has disclosed the real character of destructionism.", which was like a refreshing breeze which awoke one from one's indolence.

COMMUNIST PARTY WHICH HAS DISCLOSED THE REAL CHARACTER OF DESTRUCTIONISM

When we put up notices to solicit your criticism for secret instructions issued by the communist party the other day, relardlessly the instrctions are true or only a false rumour, those notices were tried to be splitted by some one.

For what reason did any one try to resort to such a reckless measure? Whe we refer each item of the instructions to the unrest of the society which are rooming up at present(it is anticipated that the situation seems to develop into violence revolution), we, as faithful Japanese, can't overlook their destructive and self-righteous character. So we have had recourse to your critieism.

RKKEN YOSEI KAI

If you want to hear the true story of the Nikko Incident which has been told unilaterally hitherto, A am very glad to do so.

MIZUNO Tsutomu of 58, Shimonaganoki-cho , Kure.

WHAT IS THE MIND OF THE COMMUNIST PARTY

The rightest political party throughout the world is the communist party. Those who don't support the communist party are whether all fools, lunatics or the foe of the people.
There is no need at all to recognize the right of those who are against the communist party. Be carefull not to be deceived by such a honeyed words as coalition peaple's government or friend for the peaple.
The Japan Communist Party of destructionism!
The Japan Communist Party , enemy of the general public!
You, youngsters, strayed sheep, retrospect and awake yourself!
Gaze at the present state of things, and let us strengthern conbination of right.

RIKKEN YOSEI KAI

BURY THE SELF RIGHTEOUS COMMUNIST PARTY!

You laborers,don't become the prey of the Japan Communist Pary.
Start a self-supporting union movement only by which reconstruction will be realized. The strengtherning of industry and the rehabilitation of our country will be attained only by our self-supporting conbination movement and then the independence of perfect Japan will be attained.

Subject: As to trend of KAKUSHIN SEINENTO(Renovation Youngsters Party).

I beg to inform you on the above subject as follows:

1. A lecture is slated to be held one of these days at the Sentokuji Temple at Nagahama, Hiro, Kure city under the auspice of the party inviting a certain professor of a university in Tokyo.

2. As to action of TANIBU Yoshio:
   It is evident that the incidents including Shimoyama,Tahira, Mitaka and Suita were caused by the leadership of the communist party.
   Why does the government let these incidents take their own courses.
   When Otsuru bomb throwing incident committed by a member of the unti-communism league Otsuru branch for the purpose of killing TOKUDA Kyuichi is compared with those recent incidents, the former is a minor one in its character and structure. The government was, however, cruel enough to order Otsuru branch dispersed. It is a matter of dissatisfaction for us that the government and controlling police officers could not resort to resolved attitude being threatened by the shriek of communists at the spot.

   On the contrary , if our renovation youngsters party should resort to a trifle act of violence, the government would order our party dispersed without fail. The recent incidents committed by the leadership of the communist party should be investigated thoroughly and dealt with strictly by the Groups Control regulation.

3. Reference:
   a. No meeting of the party has been held since the starting of labor aggression following the National Railway Corporation Personnel reduction.

   b. In Hiro area, the members are said to be engaged in raising new members by means of visiting ex-gendarmes and soldiers.

I beg to inform you that the following poster was found in the vicinity of 1-chome, Boji-machi, Kure city.

CONTENT OF POSTER

INTRIGUE AGAINST OPPRESSION OF THE PEAOPLE

The government and some presses are vigorously propagandizing that the disastrous "Mitaka runaway murder train" was committed by communists. Our party requests this case shall be cleared up by drastically investigation from the viewpoint of protecting the people from such a disaster as well as for the sake of the pitijul victims.

The present governemtn is planning to take advantage of this case for their propaganda of unti-communism. The presses are propagandizing as if the 2 arrested communists were the offenders. But it goes without saying that the 2 communists have nothing to do with this case since they were present at a conference where non-communists also took part in the same meeting.

They intend to fix all guilts upon communists as seen in"the Shimoyama case." Consequently any case is shrouded in mistery if they have failed to put responsibility for the case upon the communist party. This is the same way which the militarists and fascists adopted in order to persecute the communist party and laborers unions before.

The Yos ida cabinet is now closing factories and destroying the life of the people on one side and oppressing these who oppose to their policy on the other. Only the extreme rightist government is engaged in active propaganda with the purpose of oppressing the people. We again request the government herewith to clear up the true phase of " the Mituka runaway train" case, at the same time, we pledge that we will fight out the intrigue of oppressing both the communists party and the people making use of every case.

4. Subject; " Expose the unfairness of the chief of the Yoshiura Agrarian word.

5. Hearers: About 40 including 5 women.

6. Gist of lecture.
   1) Firstly a certain UNEZAWA of the Yoshiura cell took the platform and said, " The present chief of Yoshiura Agrarian word embezzles the money appropriated for manure for distribution. We, communists, can't tolerate such unfairness. During his lecture which had lasted about half an hour, the following interpellations were made by TANIGUCHI Kinshiro, former chief of Yoshiura Agrarian word, who was among the hearers.

   The content of your speech is full of such words as "perhaps" or "maybe" but unilateral supposition should not be allowed when one tries to examine closely others' unfairness. You say also that it is the very communists who alone can expose such an immoral deeds.

   But I am confident that anyone else can expose unfair deeds. To this refutation the speaker made a poor excuse by saying, " I shall investigate the case more closely. "

   Thus the speaker changed his subject and explained a little the 3 fundamental policies of the communist party which were cited by TOKUDA Kyuichi when he came down to Hiroshima city on July 15.

   The 3 fundamental policies are to the following effects.
   a. Abolishment of imposing tax on the public at large.
   b. Opposition to unjust foreign trade.
   c. Abolishment of bureaucratic control. Then KONO Shinichi took the platform.

But his speech was so dull that the number of the hearers decreased to about 20 at the closing time, and more than half of the remaining hearers were communists. The lecture ended at midnight in law tone without any accident.

NO. 261

July 29,1949

TO : COMMANDING OFFICER, HQ. of Hiroshima C.A.T.

FROM : Chief, Onomichi Municipal Police Station.

SUBJECT: CIRCUMSTANCES OF REPATRIATION AT ONOMICHI RAILWAY STATION.

We hereby report you on the above subject of July 29, 1949, as stated hereunder.

1. Welcomers:
   A. General Public.....about 250
   B. Members of C.P.....12 (of which 5 were members of Koreans League
   C. Members of labour union:
      Chiren.....6
      Zentei.....10
      Hidachi.....10

2. Number of repatriates who got off: 4

3. No. of repatriates who entered the C.P.: None.

4. Circumstances at the platform:

As all the repatriated attended the mass meeting at Okayama Railway Station, the train scheduled to arrive at 11:26 p.m. was delayed 49 minutes. While waiting, ISHIKAWA Kiyoshi made the following address to the mass in front of the station titled "Announcements to comrades of all labour unions."

"Present members of labour unions are all but stifled to protect theirselves that they cannot be combined. For example, at this meeting here, we are short in members of all posts. 30,000 personal-cuts of ZENTEI will be enforced pretty soon. We are determined to stand up at this occassion with the comrades."

15 minutes before the arrival of the train, welcomers, members of labour union with 5 red flags (Hidachi..10, Zentei..10, Chiren..6); about 10 of general public & 10 persons of the repatriates family, each holding the national flag; and 12 C.P. members (including 5 of Koreans League) with one Koreans League flag & 2 red flags;were admitted into the platform.

While singing the International Song forming a scrum, the train arrived at 0:15 a.m. All repatriates aboard leaned out from the window, shook hands, sang the International Song, cheered, etc.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Among the 4 who got off at Onomichi, AOYAMA Susumu disappeared immediately with the family. SHIRAICHI Satoru was also trying to escape by the back entrance, but was caught by C.P. members waiting at the underground passage and was led to the mass reception with KOBUKI Yukio and MATSUMOTO Suematsu.

5. Circumstances at the mass reception:

The C.P. and labour union members with 7 red flags and one Koreans League flag surrounded these three repatriates with about 200 general public surrounding them. Representative of C.P. made an address with the following gist.

"By the Yoshida reactionary Cabinet, at all factories, government and public offices, personal cuts are being enforced, and the streets are becoming desolated with the decreasing purchasing power. This Onomichi city is also in the same condition. Welcoming these three comrades home now is strengthens our spirists more than gaining 1,000,000 allies, when we are desperately fighting to save the present situation."

To this, SHIRAICHI Satoru made the following return address:

"We were expecting the same welcoming of comrades like yours on our arrival to Japan, when, instead, were received with clubs of police officers who are the very signs of the Yoshida reactionary Cabinet, at the Maizuru Port. It was the same at the Osaka Railway Station, also, where we were hurried by the police to exchange trains and could not even get near the comrades welcoming us. We could no longer restrain our indignation, so at Okayama Railway Station, we all got off the train and attended the mass meeting,, which resulted in delaying the train. We are very sorry we kept you waiting, but are very glad to receive your spirited welcome. We will endeavour to reconstruct Japan cooperating with you."

The meeting was dispersed at 0:45 a.m.

SUBJECT: REPATRIATION CIRCUMSTANCES OF THE ONOMICHI RAILWAY STATION.

We hereby report you on the above subject of August 12, 1949, as stated hereunder.

1. Welcomers:
   1. General public.....approx. 150
   2. C.P. members..... " 16
   3. Labour Union members:
      - ZENTEI..... 5
      - HIDACHI..... 5
      - Koreans League....about 4

2. Repatriates getting off: 10

3. " entering the C.P.: None.

4. Circumstances at the platform:

As this was the first repatriation since the Government Ordinance concerning the maintenance of orders of the repatriates was issued and enforced, about 10 from Repatirates Relief Association, 6 from Students League, about 20 members of repatriates families were admitted to the platform about 10 minutes before the arrival of the train, each holding a national flag in hand. The 360 repatirates were all riding in the last 6 cars of the train and were very quiet. There were exchanges of greetings such as "Thank you." "Hurrah!" etc., and as the beel start ringing signalling the departure of the train, the members of labour unions and C.P. gathered near the wicket started to sing the "International Song". Seeing this, the repatriates brightening up, started seinging, too.
9 repatriates out of 10 who got off at Onomichi disappeared with their relatives , but one while trying to go home with his family through the wicket, was caught by some members of the C.P., and notwithstanding the pleadings of his family to reject, he attended the reception mass meeting. His family was compelled to follow him, and a man, who seemed to be his father, was crying.

91

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. Circumstances at the mass meeting:

The repatriate and his family (three) were led into the center of a scrum formed by about 30 members of C.P. and labour unions with 5 red flags. Mr. DANJO, representative of labour union (HIDACHI) gave the following welcome address:--

"At present, we are being suffered by the Yoshida Cabinet, and we are determined to fight till we overturn the Yoshida Cabinet. Nothing is more strengthening to us than to be able to welcome you home and help us."

The repatriate made the following answer:--

"We had fought to the present for the benefit of invasion. We had been detained at the camp in Siberia and during that period had been awakened to class consciousness. We are determined to fight with you comrades."

The meeting was dispersed at 11:45 p.m.

6. Special matters:

Just before the train departed, SHIMADA Sawaichi, a C.P. member, waved his hand holding something like a red cloth, so when he was coming out from the platform, he was stopped and investigated by police officer of Ekimae P.B. It was revealed that he had been holding the red flag all rounded up. He was ordered that by the issue of the government ordinance, no flags, streamers nor any other marks other than the national flag are strictly prohibited to be taken into the platform, and he was admonished never to take such action again.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Subject: Member acquisition movement of the communist party:

I beg to inform you on the above subject as the party is developing the following noticeable movement.

The "cell" manner of organization at Boji-cho, Kure city is carrying on a pretty active movement in order to get members of the party.

With the purpose of extending the party's influence, they visit house-to-house (1) old offenders, (2) delinquent fellows, (3) persons released on parole and (4) those hated by their neighbours and hear the criminal motives from the latter pretending as if they sympasize those crooks.

The "cell" attributes the criminal motives to the following reasons.

1) Politics performed by the Yoshida government is unfaborable.
2) It is the Yoshida cabinet that creats such a society as crimes are committed naturally.
3) Consequently you are irresponsible for the crime you have committed , the responsibility ought to be shouldered by the government.
4) In order to bring a innocent and bright society, there is no way but to establish a people's governemtn by the communist party by means of overthrowing the Yoshida reactionary government.

SUBJECT: MOVEMENTS OF C.P. TOWARDS THE REPATRIATES.

We hereby report you on the circumstances of the repatriates' attitudes towards the C.P.'s movements to expand their party influence, as stated hereunder.

1. On July 18, 1949, two members (names unknown) of C.P. Onomichi Dist. Office (entrance of Toyohi-cho), visited MURAKAMI Jugo, age 31, farmer, of Kurihara-cho, Onomichi-shi, who repatriated on July 4, 1949, on the second ship, EITOKU MARU They tried to persuade him to enter the Communist Party, but he rejected by saying that if there is any necessity of his joining the C.P., he will make the application himself. Furthermore, his father, MURAKAMI Gien (62 yrs old) saying, "As we are running a temple (MYOKO JI), we cannot be affiliated to any political party." and made them cut off the negotiation. The C.P.s seems to have left without accomplishing their purpose.

2. With the same steps as mentioned above, the C.P.s are making movements all over the Kurihara-cho, but the repatriates there, with the benevolent environments of brothers, parents, and also of the community, are all devoted to their business at home. At present, we cannot see any special thought relations in them.

Kure, July 18, 1949

Subject: -- Inquiring meeting from repatriateds:

1) Time: 1.30 --- 4.00 p.m. July 15, 1949

2) Place: Bukkyo Kaikan, or Budhist Hall, Furukawa Machi 4 chome, Kure.

3) Sponsors: Kure Fujin Rengo Kai, or Kure Budhist Women's Union, and Kur e Seinen Rengo Kai, or Kure Budhist Young Men's Union.

4) Attendants: 20, consisting of Zentei L.U., Kure Public Employment Security Office, Press-men in Kure and chief of Liason Section of Kure City Municipal Office.

5) Repatriateds presented: IDZUMIKAWA Yoshihiro, 25 yrs, 6 chome Higashi Niko dori 6 chome, Kure.

6) Outline ofthe meeting:

a. All 4 repatriateds in Kure were invited by letters, but only 1 above-mentioned was present at the meeting.

b. Address by the sponsors: The sponsors thanked for the repatriateds' toils and hard labors during their captive life in Soviet for many years.

c. The reports on several items were given by the repatriated in reply to inquires by the attendants.

7) As to labor in Soviet camps:

a. 8 hours a day, 6 days a week.
b. No special labor for captives; no special hard works for captives; their daily works are same at general Russian laborers.

8) Provided meals:

a. At first meals for captives were very bad; millet soup was only served for a long time, but now-a-days meals were improved very much to some extent. i.e. daily main food; 2 rice dishes and 1 bread dish. Detail of daily food:

450	gramms	Corn or rice.
800	"	Vegitables
18	"	Sugar

64

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

9. General condition at internee camp:
   1) Bathing is permitted once a week. The sanitary facilities are generally good.
   2) In the year of the surrender 500 of our comrades were interned in a camp.
   3) But there was a fact that until toward Aug. 1496 almost half of them had died resulting from food conditions, labor situation and sanitary cirmumstances.
   4) But I think that as long as the present condition be kept, there will be neither death nor illness any more.
   5) Such a lynches as so-called" prayor at down" and etc. put on newspapers was hardly imposed as far as we are concerned.
   6) I have once witnessed the punishment commonly said as" hanging up".
   7) But such punishment was imposed by " peaple's judgment" on those who violated the regulation of the internee camp.
   8) Once a week when all the internees are off duty an athletic meeting is held under the title of" production meeting".
10. As to political education:
   1) Political education is conducted by "Peaple Group" members through the Soviet political members(usually one member is attached to every internee camp) by means of using Japanese newspaper published in the area.
   2) We were, therefore, kept informed almost all the news in Japan through the Japanese newspaper. But we were not allowed to hear radio news at all.
   3) I think the following matters seems to have been taken into consideration for those who were repatriated this time.
      a. family conditions.
      b. age.
      c. health.
      d. term of detention.
   4) I don't think that educated internees had the first claim on repatriation.
11.
   1) All the internees are looking forward to the day when they are repatriated as their sole pleasure.
   2) We were also educated that the Yoshida reactionary government did not take intentionally the necessary steps for the second repatriation.
   3) We are also informed that there are very few ships in Japan.
   4) In spite of the fact that the ship, by which we were repatriated, could accomodated thousands of our comrades, only 2.000 were allowed to go on board the ship.
   5) We harbor suspicion why repatriates are subjectedto "limit of embarkation" when there are enough ships for use of repatriation.
   6) It was not until I had been told about the reality of the efforts made by America for promotion of repatriation that I could catch the true state of things.
   7) There are 20.000 to 30.000 internees in Nahodka at present waiting for their repatriation. But all of them are slandering Japanese governemtn.
   8) The later their repatriation is carried out , the worse their thought will become.
12. As to Kyoto incident.
   1) I took part in the Kyoto incident myself.
   2) Alll the repatriates are united with a strong cO-operative spirit.
   3) We are, therefore, forbidden to act according to our own feeling.
   4) It will be probable that our families as well as ourselves will be sacrificed before the principle and group action.
   5) Individual liberty is not recognized before general action.
   6) In another word it may be called" dictatorial".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7) It seems that newspapers exaggerate a little about the conditions of the repatriates. I can never suppose that all the repatriates are affiliated with communism.

8) It is evident that almost all the repatriates except particular ones will change their mind after they have settled down at their homes.

13. Other references:

1) As to idea of art in Soviet:
   a. Every thing is based on idea of labor.
   b. As to pictures, for instance, such pictures as trains and farmers are valued as productive.
   c. Consequently all other pictures are excluded as capitalism.

2) The Soviet never harbor racial prejudice .
   a. They treated us as same as Russians.
   b. I thought that it is a merit to be learned by Japanese.

3) As to atomic bomb:
   a. The Soviet don't regard atomic bomb as dreadful weapon.
   b. We were told by Soviet announcement that the atomic bomb dropped on Hiroshima affected 50.000 citizens while that on Nagasaki 30.000.

Among the 4 who got off at Onomichi, SUGIHARA Seitaro and KUROTOBI Masato left immediately with their relatives, but MURAKAMI Eizo and HAMADA Katsumi attended the Reception held in front of the Station and stated:--

"There are 3 concentration camps in Soviet, and repatriates are coming in continuously, but only a part of them are sent to the port, and only half of the number fixed for the ship to carry are allowed to aboard. After arriving to Japan, we see about 50 comrades detained by police and we are not allowed to see them. Suppression against us are seen at all places.
