DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

31 October 1950

To : Commanding Officer
Chugoku Civil Affairs Region, Kure.

Through : Chugoku Liaison and Coordination Office.

Subject : Report on the Execution of Transfer of Designated Reparations Machinery.

Dear Sir:

The movement and temporary use of the undermentioned three (3) items of reparations machinery (not in use) under our custody to Hiroshima Shipyard and Engine Works (non reparations), West Japan Heavy-Industries, Ltd. has been granted approval as of 13 October 1950, CCAR 386.3. The approval for the movement of Circular Saw was given us by telephone from your Office on 24 October 1950 as an addition to the permission of 13 October 1950.

The transfer of the reparations items listed below has been executed duly, and we hereby wish to report its completion.

11-17
Sec II 8

Name of Machine	Maker	Type & Dimension	Inventory No.	Class	Date of Transfer
Boring Machine, Horizontal & Floor Type	Osaka Kiko	Model: BL-100 Dia. of spindle 102 mm Size of working table 1,830x2,740 mm	11-17-1A1-15	1	23, Oct. 1950
Drilling Machine, Radial, Plain	Carlton Machine Tool Co.	Model: 5' arm. 15" column Max. dis. from spindle center to column 5' Size of taper hole in spindle M.T. No.5	11-17-1A3-17	2	28, Oct. 1950

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

HIROSHIMA SHIPYARD & ENGINE WORKS,
WEST JAPAN HEAVY-INDUSTRIES, LTD.
Minamikwannon Machi, Hiroshima,
Japan

HSF-1050 Date: October 12, 1950

Application for Authorized Relocation and Use of Designated Reparation Machinery

To : Commanding Officer,
Chugoku Civil Affairs Region,
Kure, Japan

Thru : Hiroshima Prefectural Office

From : Masaya Hiraoka,
General Manager,
Hiroshima Shipyard & Engine Works,
West Japan Heavy-Industries, Ltd. (Non-reparation Plant)

Address: Minamikwannon Machi, Hiroshima City

1. Name (Code No.), Category and Location of Plant where Designated Reparation Machinery to be used actually exists :

1) Name of Plant : Hiroshima Machine Tool Works of Mitsubishi Heavy-Industries, Ltd. (Code No. 11- 17)

2) Category : Machine Tool

3) Location of Plant : Gion-machi, Asa-gun, Hiroshima-ken.

2. List of Designated Reparation Machinery to be Relocated and Used:

Name of Machine	Maker	Type & Size	Invt.No.	In Use or Idle	Q'ty
Drilling Machine, Radial	Carlton Mach. Tool Co.	Max. dis.from spindle to column - 5' Size of taper hole in spindle - M.T.No.5	1A3-17	Idle	1
Boring Machine, Horizontal	Osaka Kitō	Dia. of shindle - 102 mm.	1A1-15	Idle	1
				Total	2 sets

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3. Reasons Necessitating Relocation and Use of said Machinery:

a) Orders just received from Procurement Section, Hq. Japan Logistical Command, U.S. 8th Army, for the manufacture of Six (6) Sets of Trestle, in order to meet the urgent need in Korea. Deliveries are : one set at the end of October, 3 sets in mid-November, and the remaining 2 sets at the end of December.

b) The delivery dates are demanded to be strictly observed, while our present equipment to the purpose is not sufficient in number in order to satisfy the demand.

c) With regards the machines abovementioned, we have been preparing for an application for authorization of relocation and use, which is to be submitted to the Minister of International Trade and Industry, Japanese Government. It is our hope that formal authorization by G.H.Q. will be granted in due course, but we wish to add above machines to our existing equipment at the earliest possible date.

So we should be much obliged if you would kindly give a special consideration to our situation and as an emergency measure would grant your provisional permit to the relocation and use of said machines before we shall be able to have obtained the formal authorization.

Signed by _____

October 11, 1947

To Commanding Officer,
Hiroshima Military Government Team, Kure

Through: Chugoku Central Liaison Bureau, Kure

Subject: Loss of Reparations Instrument

Dear Sir:

We hereby report to you on the disappearance of the Reparations Instrument, A, described below from our Plant on 5th. inst:

(1) Lost Article:

(A)

SCAP NO.	IC2 - 26
Name	Hardness Tester, Shore
Model	Model SRB, Serial No.383
Class	A ... "Give up ... early delivery"
Maker	Iida & Co., Japan
Year Acquired	1939
Evaluated Price	¥ 442.00

(2) Particulars leading to the loss:

1. On 5th inst. around 7:30 P.M. the guard making rounds discovered a shadow of some suspicious person at a spot between the Tool-making Shop and the boundary fence of this Plant. Owingly he questioned who it was, but, whoever it was, the person in question made a runaway aided by the darkness of the night. The guard immediately made a thorough hunt within the compound for this person, but was unable to discover his whereabouts.

2. As a next step the guard made a careful search around the spot where his suspicion was first aroused in an effort to discover any evidences that might lead to the disclosure of the person in question, and as a result he found the article B described below which he seized.

(B)

SCAP NO.	IC2 - 19
Name	Measuring Comparator (Orthotest)
Model	Serial No.2722
Class	A ... "Keep (K)"
Maker	Carl Zeiss, Germany
Year Acquired	1938
Evaluated Price	¥ 1,348

Mitsubishi #20 File

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(3) Both A and B, above, are articles ordinarily kept in the testing laboratory (Precision Measuring Room) which is a part of the Tool-making Shop; however, on that night (5th inst.) the keeper of the room, Isami Nishimura, an engineer, was absent from this Room during the hours between 4:00 and 6:30 P.M. making inspection of a woodworking machine being operated on trial in another place of the same Shop, and it is presumed that the instruments in question were removed from the Laboratory during these hours. Unfortunately, Nishimura locked the Room not noticing it and left the Shop.

(3) Measures Taken:

1. Immediately on the next morning a report on this happening was made to the jurisdictional Gion Police Station and simultaneously a thorough search within the Plant compound was made and we are still unable to recover the lost instrument to this day.

2. As a result of the search made by the Police it was learned that a purchase of a measuring instrument has been made recently at the Okuda Iron Works of Togochimura, Yamagata-gun; owingly, one of our men and the Police made a trip to the above Works to inspect the purchased instrument, but it w as found not to be the same as the one lost.

3. We are still to this day continuing the search in cooperation with the Police.

4. Hereafter, we shall be obliged to make stricter care and custody of especially such readily theftable small type reparations article and expend utmost effort in preventing such mishappening again.

Yours respectfully,

I. Seta

Copy

Mihara Locomotive & Air Brake Works,
Mitsubishi Heavy Industries, Ltd.
Mihara City, Hiroshima Prefecture.

July 27, 1946.

Commander Officer,
76 Military Government Company, Kure.
(Attn: Commander Higgins.)

Dear Sir,

Our Works, are now producing and repairing locomotives and air-brakes for the rehabilitation of the Japanese Railway. We are also making every effort to complete Deloi type electric locomotives for Korean Railway and 85 ton electric locomotive for Manchuria by the order from the Allied General Headquarters. Above all, Our Works are the only air-brake manufacturing works in Japan, and therefore the improvement of the Japanese railway traffic much depends upon the production of air-brakes of our factory, but our production is much bottle-necked by the insufficiency of some machine tools.

We tried every means in our power to acquire them, but were not successful, while Hiroshima Machine Tool Works of our Firm in Hiroshima hold these machine tools listed on the Annexed Sheet, and they are ordered by the Allied Military Government to preserve them until the decision of the reparation. If you grant us the permission to remove these machine tools from Hiroshima Works to our works and let us preserve them in their behalf and by the way utilize them for the manufacture of locomotives, and air-brakes, it will be a great favor for the improvement of the railway traffic in this country. Hiroshima Machine Tool Works also have no objection to this removal if you permit.

We should appreciate it very much if you would be good enough to grant us the above permission.

Of course, we will immediately restore these machine tools to Hiroshima Machine Tools Works by your order.

Thanking you in advance for your kind consideration to our request.

Yours very truly,

Mihara Locomotive and Air-brake Works,

S. Nagata
.....
General Manager.

On Completion of Restoration
of Dispersed Machines

Dear Sir,

This letter together with the attached List, in which The Weekly Progress Reports are combined, is to serve a report on the progress made by us in restoring to this Factory the dispersed machines as per your approval of March 16th.

Kindly note that we have completed restoration of entire machines on the May 31st that had been dispersed in the Terayama Zone (Kabe Town) and five other zones since June of the previous year.

Respectfully yours,

Hiroshima Machine Tools Works,
Mitsubishi Heavy Industries, Ltd.

Routine.

4. DISCUSSION:

"Alteration of Inventoried Items" showing the changes that have been made in the number of inventoried items from 30 August 1946 on which date original inventory was made to 1 December 1950 is in our file.

As of 5 January 1951, there were a total of 1273 inventoried reparations items coded under 11-17 and two items coded 27-09-1276 and 27-09-1611 respectively.

5. CONCLUSIONS:

Maintenance of reparations machinery was found to be in excellent condition with documental proof in order.

6. RECOMMENDATIONS:

None.

W. F. ARMSTRONG
Distribution & Industry Division

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

FIELD TRIP REPORT

R. P. LORD

12 August 1950

1. **Purpose:**

Inspection of Nishi Nihon Heavy Industry, Code No. 11-17.

2. **Background:**

Surveillance in accordance with O.D. 11, 10 April 1950.

3. **Discussion:**

Textile machinery is main item of production at this plant which is also producing tobacco stem flattening machines, and diesel engine parts. Reconversion permits authorizing production of above items and others are in section plant file. A considerable number of tatami mat weaving machines and rope winding machines are stockpiled at this plant. Management says the market for these items is very poor at present although negotiations are underway to sell rope winding machines to Kyushu firm.

No major production or labor troubles were reported.

4. **Conclusion:**

Reparations equipment inspected and found in good condition with exception of several items which appeared not too well maintained. This was brought to the attention of the management.

5. **Recommendations:**

None.

R. P. LORD
Distribution & Industry Division

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

FIELD TRIP REPORT

R.G. STRADLEY

7 April 1950
Hiroshima

1. Purpose:

Inspection of Reparations Plant at 11-17, Mitsubishi Jyukogyo K.K. Gion Plant (Mach. T.)

2. Background:

Surveillance in accordance with O.D. 51.

3. Discussion:

Participants.

Mr. Sakurai, Chief of Engineering Department.
Mr. Yamaki, Chief of General Affairs Section.
Mr. Takaba, In Charge of Reparations Machinery.

Discussions with the abovementioned staff and spot check of the plant revealed;

a. The plant has a total of 4428 reparations machinery under its custody.

Aug. 30 1946	No. of machine originally inventoried,	1,348
	Alterations of inventoried items	67
		1,281
Nov. 28 1949	Added on Evaluation	3,147
	Total	4,428

b. The data for the alterations of inventoried items which accounts for above listed 67 machines as of 28 November 1949 and the inventory form for machine tool and ball and roller bearing plants as of 7 May 1948 were reviewed and filed in our office.

c. The loss of one machine by theft was reported to HMGT by letter dated 11 Oct 1947 and has not been found to date.

Name	Hardness Tester, Shore
Model,	SRB, Serial No. 383
Class	A (Given up - early delivery)
Maker	IIDA and Co. Japan.
Purchased	1939
Evaluated price,	¥442,000.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

d. In accordance with HMGT letter dated 13 February 1948 which was reported to have been filed in the Prefectural Government Office, 33 S.P. machines were destroyed 3 (com--letely destroyed and scrapped down, 2 partially destroyed) and with the same letter 17 machine tools previously loaned to the Mihara Locomotive and Air Brake Works (Sharyo) Company were exempted from the inventory. The code numbers of above items are in our file.

e. Conversion Permit.

Date	Authority	Products Authorized	Remarks
November 15, 1945	File MG 9	a. Machine Tools b. Railway Car Parts c. Machine Parts.	

(In compliance with para 5, Scap/in 1133, 9 May 1946 ESS/in 13 August 1946, production of machine tools was not authorized).

May 9, 1946	SCAP Letter	a. Pulverizing machines for food. b. Agricultural machines and instruments.	
September 30, 1948	File No. HMGT 319	a. Tabacco Stem Remover and Stem Flattening machine.	
August 30,1949	SCAP Letter	a. Textile machinery and accessaries	330 sets.
		b. Internal confusion engine and accessaries	100 sets.
		c. Industrial Sewing machine and accessaries.	30 sets.
March 14, 1950	SCAP Letter	a. Machine Tools, standard type.	30 sets.

f. The plant is operating at one third of its full capacity employing a total of 655 staffs and workers. Average monthly base pay for the workers is about ¥8,500.

g. Production figures.

Name	Total Amount of per Month	Remarks
Textile machines	¥3,500,000	For rayon and staple fibre

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Diesel engine parts	¥5,000,000	For Nagasaki Zosen
Tabacco making machines & Repair	¥5,000,000	
Total	¥13,500,000	

h. There are a total of 164 reparations machines in the plant for which applications for use have been submitted by Nagasaki, Shimonoseki and Hiroshima Mitsubishi Zosens, and Nagasaki Sef Company.

4. Conclusion:

Three women are constantly engaged in maintenance work which was found to be satisfactory with the exception of a few rusty machines.

5. Recommendation:

Mr. Sakurai and 2 other company staffs were advised;

a. To remove the original code numbers painted on the following two items prior to the redesignation of the plant from air arsenal to machine tools plant.

Code Number Retained	Code Number to be deleted
11-17(1C2-37)	11-1-1020
11-17(1C2-52)	11-1-1036

b. The machine lost by theft should be represented in the company's inventory records of responsibility even if it is not physically present.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

August 28, 1948

TO : Commanding Officer,
Hiroshima Military Government Team.

THROUGH: Chugoku Liaison and Coordination Bureau, Kure.

SUBJECT: Application for Permission to Replace Old Motor-trucks On Reparations Inventory.

Dear Sir:

Our two motor-trucks on Reparations Inventory described below are so aged-worn and have become necessary of frequent repairs since last year that they are at present in a state of an almost entirely unusable condition. As we consider that making of further repairs on them is merely a wasting of money and that they will not be of any use even when removed in the future for reparations purpose, we think it would be more advantageous to us and for reparations purpose, if we could at this time sell them off and replace them with two other second-hand, or better, trucks procurable on the market, these two latter trucks each to resume the same Inventory Number as the one now used on each of the former, if such replacements will meet your approval.

Present Trucks Desired of Replacements

Inventory No.	Maker	Class (reported on Inventory Sheet submitted 1946	Age (As of 1948)
IB8-73 (Orginal Code No.11-1-1137)	Chevrolet (U.S.A.)	3	11 yrs.
IB8-74 (11-1-1138)	Chevrolet (U.S.A.)	1	11 "

We hereby submit you this Application for your most cordial consideration and approval.

Respectfully yours,
Hiroshima Machine Tool Works,
Mitsubishi Heavy-Industries, Ltd.
