

FREDERICK

To those back home . . . whose love and teaching gave us the heritage by which we achieved our goal; to those whom, with fear in their hearts, endured each day; they who sacrificed that we might fly; they who had faith in us when we had doubt and kept us going with the words, "You can make it!" . . . To those back home the Class of 44-7 is dedicating this class book. We are deeply grateful.

HEADQUARTERS
ARMY AIR FORCES PILOT SCHOOL
(APPANERD 2 ENGINE)
FREDERICK ARMY AIR FIELD
Office of the Commanding Officer

FREDERICK, OKLAHOMA

TO THE GRADUATES OF AVIATION CADET CLASS 44-F

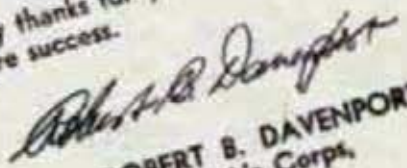

Yours is the largest class ever to graduate from Frederick Army Air Field, and the record you leave behind is a good one. You have earned your wings and commissions as pilots in the Army Air Forces after over a year of constant effort and application. You deserve credit.

As you leave Frederick Army Air Field to take your places in the Army Air Forces, you face an even greater task, which will offer you even less respite than your initial year of training.

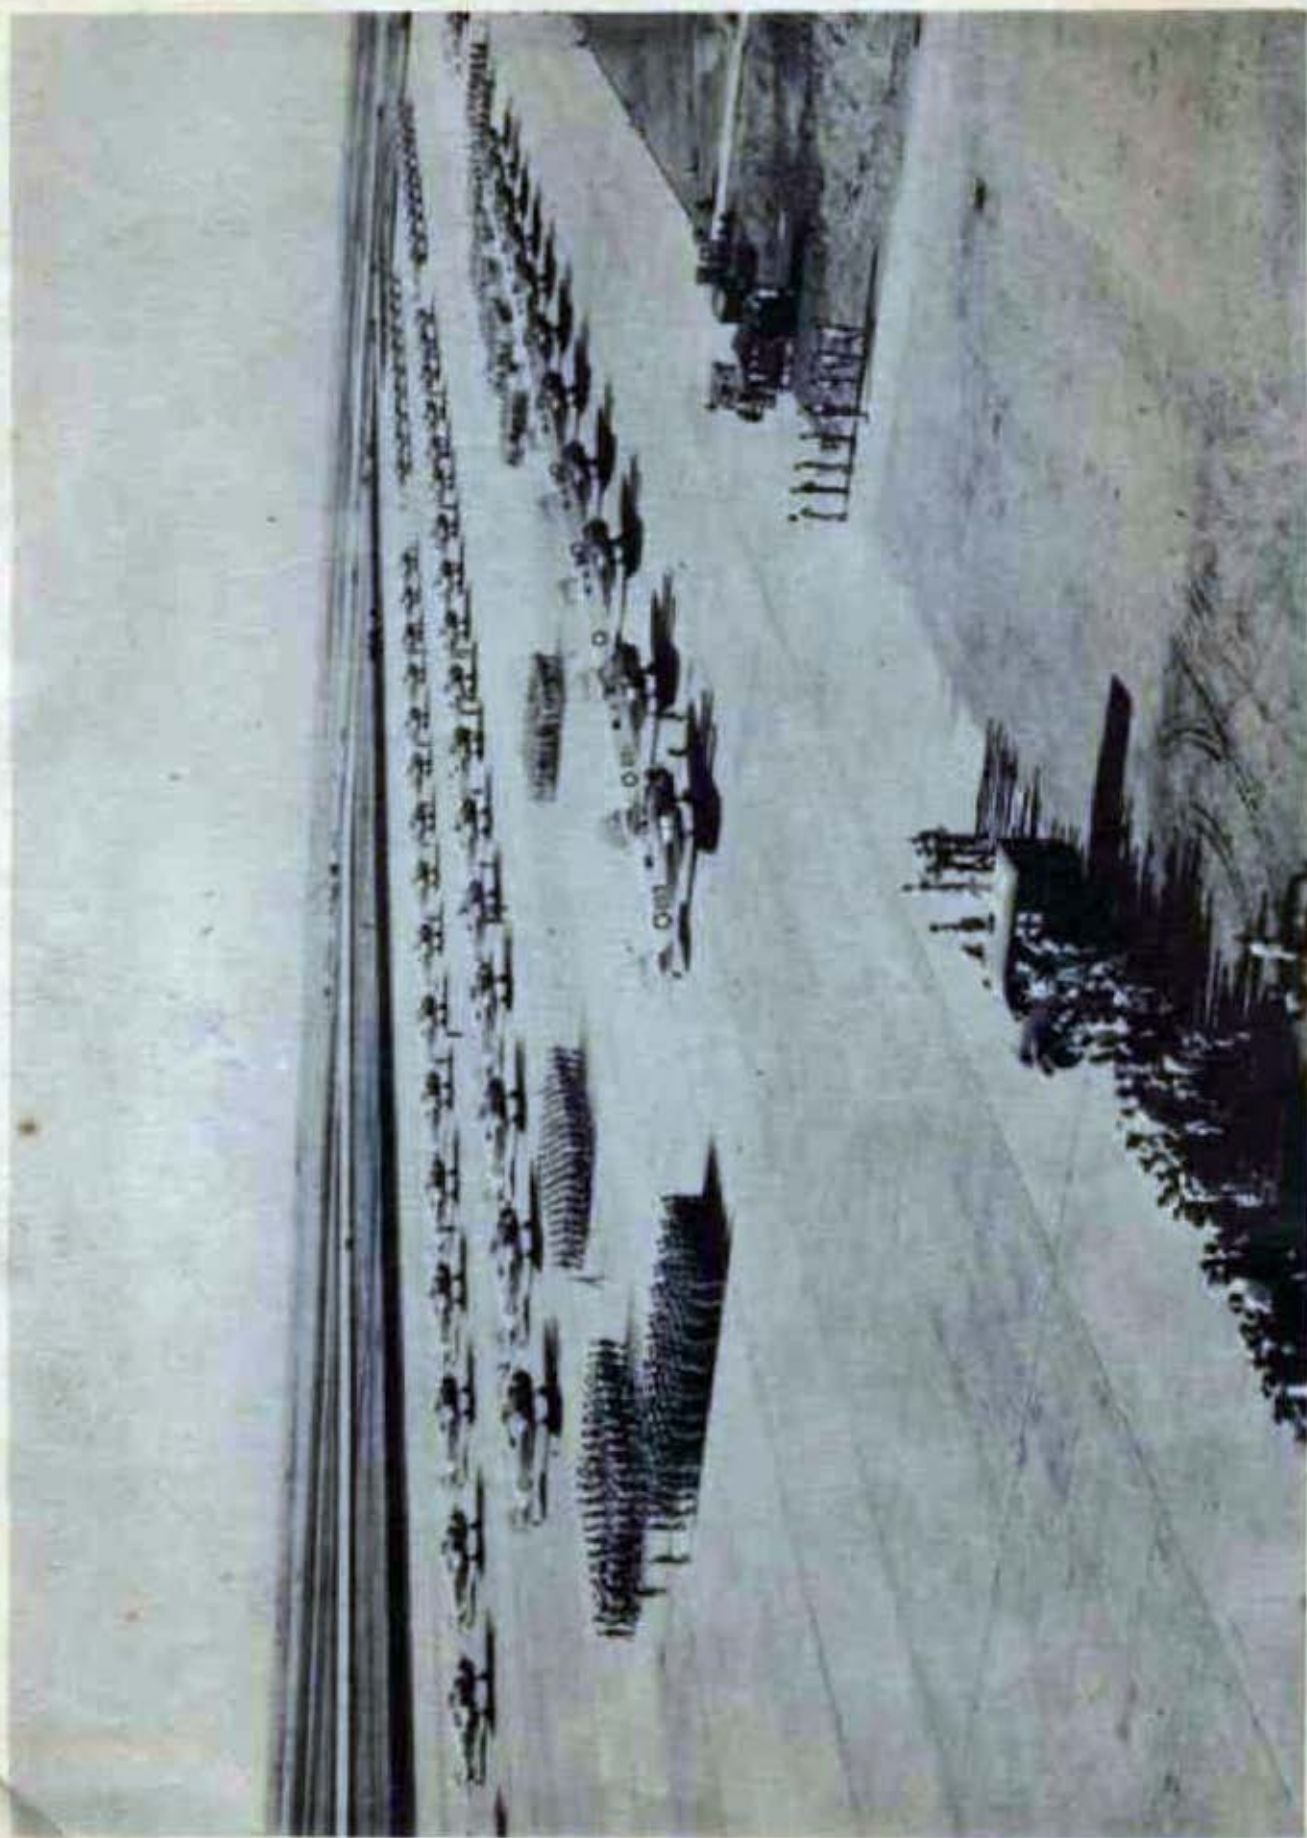

You have received the world's best flying training, and you will be flying the world's best combat ships. The kind of record you turn in is up to you personally. You have our confidence.

Many FAAF graduates are already hitting the enemy on all fronts. Some have made the supreme sacrifice.

As you join them, accept my thanks for your past cooperation, and my best wishes for your future success.

ROBERT B. DAVENPORT,
Colonel, Air Corps,
Commanding.

CAPT. D. C. STEPHENS
Ass't. Tactical Inspector

You have an important job ahead of you, Class 44-F—a job that will involve precision flying with no short cuts. As you go into tactical training, demand precision of yourself and never be satisfied with any maneuver or technique that is less than perfect. We have confidence in your ability. Here's wishing you the best of luck.
