## I. APPLE DESSERTS

### Apple Cobbler (Four portions)

(A good old-fashioned recipe that nearly everybody likes. Successful equally for a family and a "company" dessert.)

Three cups peeled diced apples  
One-half cup sugar  
One level teaspoon ground cinnamon  
One-fourth level teaspoon salt  
Two level tablespoons butter  
One-half cup water  
One and one-half cups flour  
Three level teaspoons baking-powder  
One-third level teaspoon salt  
Three level tablespoons lard  
One-half cup milk  
One cup sugar  
One-half cup water  
One-half teaspoon vanilla

Mix the apples, sugar, cinnamon and salt. Place in a shallow buttered baking-pan. Dot the apple mixture with the butter and add the water. Mix and sift

the flour, baking-powder and salt. Cut in the lard with a knife. Slowly add the milk until a soft dough is formed. Toss upon a floured board and roll out to the thickness of two-thirds of an inch. Shape to fit on top of the apple mixture in the pan. Make three slits in the top of the dough. Bake in a moderate oven for twenty minutes. Boil the sugar and water together for three minutes and add the vanilla to the syrup. Pour this over the dough in the pan and continue baking the cobbler for ten minutes more in a moderate oven. Serve warm with cream.

#### Apple Dessert (Four portions)

(Sue and Robin are always begging for "apples stuffed with dates,"—and brown sugar improves the flavor of the dessert. Serve with plain cream if preferred.)

Four apples  
One cup brown sugar  
One cup water  
One level teaspoon ground cinnamon  
One-fourth level teaspoon ground cloves  
Eight dates  
One-half cup whipped cream

Wash and core the apples. Place in a baking-dish. Boil the sugar and water together for three minutes. Add the cinnamon and cloves. Remove the seeds from the dates and stuff each apple with two dates. Pour the syrup over the stuffed apples. Bake in a moderate oven for thirty minutes. Place portions of the whipped cream on top and serve at once.

**Apple Puffs** (Four portions)

(Good and unusual.)

One cup flour  
One level teaspoon baking-powder  
One-eighth level teaspoon salt  
One-half cup sugar  
One egg, well-beaten  
One-third cup milk  
One tablespoon melted fat  
One-half cup cooked apples  
One level teaspoon ground cinnamon

Mix and sift the flour, baking-powder, salt and sugar. Add the egg, milk and fat. Beat for two minutes. Mix the apples and ground cinnamon. Place a spoonful of the batter in a greased pudding-mold, add some of the apple mixture, and place another spoonful of the batter on top.

Steam in a closed steamer for thirty minutes. Serve warm with cream.

To prepare the apples, pare, core and dice them. Cover with cold water and cook slowly until soft. Cool, drain off the juice and use the apples in the recipe.

**Apple Sauce Cake** (A complete dessert)

(Good served with coffee as a dessert.)

One-half cup fat  
One cup sugar  
One egg, well-beaten  
One cup strained apple-sauce  
Two and one-half cups flour  
One level teaspoon soda  
One-fourth level teaspoon salt  
Two level teaspoons ground cinnamon

One-half level teaspoon ground cloves  
 One-half level teaspoon mace  
 One teaspoon vanilla

Cream the fat and sugar and add the egg. Add the apple sauce and all the dry ingredients, mixed and sifted. Add the vanilla. Beat the batter for three minutes. (It will be quite thin, but that is as it should be.) Pour into a loaf cake, lined with waxed paper. Bake in a moderate oven for forty minutes.

Remove from the oven, let stand for five minutes, then turn out the cake and remove the paper. When cool cut in one-inch slices. This cake will keep moist a long time.

(To make the apple sauce, take about one and a half cups of peeled, diced apples, cover with water and cook until tender. Press through a strainer.)

#### **Apple Tapioca Pudding (Four portions)**

(A simple home dessert that children like.)

One-half cup pearl tapioca  
 Cold water  
 Two and one-half cups boiling water  
 One-half level teaspoon salt  
 One and one-half cups chopped apples  
 One-third cup sugar  
 One teaspoon vanilla

Soak the tapioca in cold water to cover, for one hour. Add the boiling water and cook in a double boiler for thirty minutes. Add the salt, apples and sugar. Cook for thirty minutes. Add the vanilla and serve cold with cream.

**Baked Apple Dumplings** (Four portions)

(Nothing can take the place of "dumplin's" in apple season.)

Four apples  
One cup sugar  
One and one-fourth cups water  
One and one-half cups flour  
One level teaspoon baking-powder  
One-fourth level teaspoon salt  
Six level tablespoons lard  
One-fourth cup cold water  
Two level tablespoons butter  
One level teaspoon ground cinnamon

Wash, peel and core the apples. Boil the sugar and water together for three minutes, add the apples and cook slowly until they are tender and the syrup is thick. Turn the apples frequently during the cooking.

Mix and sift the flour, baking-powder and salt. Cut in the fat. Add the cold water slowly until a stiff dough is formed. (More water may be needed.) Divide the dough in fourths and roll out flat. Place a cooked apple in the center of each piece of dough. Add some of the syrup and sprinkle portions of cinnamon over the top. Add a bit of butter. Fold up the edges of the dough around the apple. Pinch together. Prick the top with a fork. Place upside down in a greased baking pan. Bake in a quick oven for fifteen minutes. Serve warm with Hard Sauce or Cream.

**Baked Apples with Brown Sugar** (Four portions)

(Another way to "make baked apples better.")

Four apples  
One-fourth cup raisins

One-half cup brown sugar  
 One-third cup nut-meats  
 One level teaspoon cinnamon  
 One-eighth level teaspoon salt  
 One cup water  
 Two level tablespoons butter

Wash and core the apples. Place in a buttered baking-dish. Mix the raisins, sugar, nuts, cinnamon and salt. Fill the apple cavities with the mixture and sprinkle what remains over the top. Add the water and the butter, melted. Bake in a moderate oven for forty minutes. Baste frequently. Serve warm with plain or whipped cream.

#### **Baked Apples with Marshmallows (Four portions)**

(A favorite with Sue and Robin.)

Four apples  
 One-half cup sugar  
 One-fourth level teaspoon ground cinnamon  
 Eight marshmallows  
 One-half teaspoon vanilla  
 One cup water  
 Two level tablespoons butter

Wash and core the apples and place in a buttered baking-dish. Sprinkle the sugar and cinnamon over the tops. Cut the marshmallows in quarters and stuff them in the cavities of the apples. Add the vanilla and water. Dot with butter. Bake in a moderate oven for forty minutes, basting frequently. Serve warm or cold with cream.

**Brown Betty** (Four portions)

(A delicious and economical dessert for the home meal.)

Two cups soft bread-crumbs  
Two and one-half cups peeled diced apples  
One cup water  
Two level tablespoons butter  
One-half cup sugar  
One level teaspoon ground cinnamon  
One-fourth level teaspoon grated nutmeg  
One tablespoon lemon juice

Mix all the ingredients, and place in a buttered baking-dish. Bake in a moderate oven for forty minutes or until the apples are soft.

Serve warm with Hard Sauce or Cream.

**Hard Sauce for the Brown Betty.**

One-fourth cup butter  
One teaspoon vanilla  
One-half teaspoon lemon extract  
One-eighth level teaspoon salt  
One tablespoon boiling water  
About one and one-fourth cups sifted powdered sugar.

Cream the butter, add the vanilla, lemon extract, salt and water. Slowly add the sifted powdered sugar, mixing well until a creamy mixture is formed. The exact amount of sugar can not be stated, but the sauce must be stiff enough to stand alone. Shape into a flat cake and place in a cold place for half an hour or more. Cut in thin slices and place on top of the warm pudding.

**Butterscotch Apples** (Four portions)

(Children usually like this simple and wholesome dessert.)

Four apples  
 One-third cup water  
 Two-thirds cup brown sugar  
 Two level tablespoons butter  
 Two level tablespoons flour  
 One-eighth level teaspoon salt  
 Three-fourths cup milk  
 One teaspoon vanilla

Wash, peel, quarter and core the apples. Boil the sugar and water together for three minutes, add the apples and cook until tender when pierced with a fork. Remove and place in serving dishes.

Melt the butter, add the flour and salt, and when well-mixed add the milk. Cook until creamy and then pour into the syrup in which the apples were cooked. Cook until well blended. (About three minutes.) Add the vanilla and pour over the apples. Serve warm or cold.

The syrup may not combine at once with the creamy mixture, but if allowed to cook slowly for a short time they will blend.

**Coddled Apples**

(When apples are plentiful, this is an attractive way of serving them.)

Six apples  
 Three cups water  
 One and one-half cups sugar  
 Four cinnamon candy drops  
 One-teaspoon vanilla  
 One level teaspoon butter

Wash the apples and remove the cores by cutting clear through the apple. Boil the sugar and water together for two minutes. Add the cinnamon drops and the apples. Place a lid over the apples and cook slowly for ten minutes. Turn the apples frequently; remove the lid and let the syrup cook down thicker; keep turning the apples. When they are soft and glazed remove the apples and place in a dish.

Add the vanilla and butter to the syrup, and when melted, pour over the apples.

### Dutch Apple Cake

(A good old dessert that our grandmothers liked.)

One and one-half cups flour  
Three level teaspoons baking-powder  
One-fourth level teaspoon salt  
Three level tablespoons lard or a lard substitute  
One-half cup milk

Mix and sift the flour, baking powder and salt. Cut in the fat with a knife and add the milk slowly, mixing with the knife until a soft dough is formed. Flatten out and place the apple mixture on top.

### Apple Mixture for the Cake

One cup thinly sliced quartered apples  
One-half cup water  
One-third cup sugar  
One teaspoon cinnamon  
Three level tablespoons butter

Peel the apples, cut in quarters and remove the cores. Cut in thin slices, add the water and sugar and cook slowly until the apples are a little soft, but

still retain their shapes. Flatten the dough to the thickness of half an inch. With a knife make little grooves one-half inch apart across the dough. When the apples are cool, place the slices in these grooves.

Sprinkle the cinnamon over the top, and dot with the butter. Bake in a moderate oven for fifteen minutes. Cut in squares and serve with Lemon Sauce.

### Glazed Apples (Four portions)

(Simple and wholesome.)

Four apples  
 One cup light brown sugar  
 One and one-half cups water  
 Two level tablespoons butter  
 One-half teaspoon vanilla

Wash, peel and core the apples. Boil the sugar, water, butter and vanilla together for four minutes. Add the apples, and cook slowly, turning the apples frequently, until they are tender and have a glazed appearance. Baste the apples during their cooking. Place the cooked apples in a serving dish and pour the remaining syrup over them. Serve warm or cold with cream.

### Individual Apple Rolls (Six portions)

(A favorite with most men.)

Three cups apples cut fine  
 One cup water  
 One and one-half cups flour  
 Three level teaspoons baking-powder  
 One-eighth level teaspoon salt  
 Three level tablespoons lard or a lard substitute

One-half cup milk  
Two level tablespoons butter  
One level teaspoon ground cinnamon  
One and one-half cups sugar  
One cup water

Cook the apples and water together for five minutes. Drain off the liquid. Mix and sift the flour, baking-powder and salt. Cut in the fat with a knife. Slowly add the milk until a soft dough is formed. Toss upon a floured board and pat into a rectangular shape half an inch thick. Arrange the drained apples on top. Spread the butter on top the apples and sprinkle the cinnamon over all the mixture. Roll up like a jelly roll and cut into one-inch slices.

Boil the sugar and water together for five minutes. Place in the bottom of a baking pan. Place the unbaked apple rolls in the pan, flat side down. Pour the liquid left from the cooked apples over the top.

Bake in a moderate oven for thirty minutes. Baste frequently during the baking. Serve with cream.

#### **Maple Rice and Apple Pudding (Four portions)**

(A simple home dessert that is a good dish in which to use up left-over boiled rice.)

Four apples  
One cup boiled rice  
One cup maple syrup  
One-fourth cup sugar  
One teaspoon vanilla  
One-half cup water  
Two level tablespoons butter

Wash, peel and core the apples. Place in a small buttered baking-dish. Spread the rice over the tops

of the apples. Add the maple syrup, sugar, vanilla, water and butter. Bake in a moderate oven for forty-five minutes. Serve warm with cream.

#### **Marshmallow Apple Dessert (Four portions)**

(A good home luncheon dish that is a favorite with most children.)

Two and one-half cups sliced peeled apples  
One cup light brown sugar  
One-half cup raisins  
One cup water  
One level teaspoon ground cinnamon  
One level tablespoon butter  
Twelve marshmallows

Mix the apples, sugar and raisins. Place in a buttered baking-dish. Add the water, and sprinkle the cinnamon over the top. Dot the top with the butter in small bits. Bake in a moderate oven for thirty minutes, or until the apples are soft. Place the marshmallows over the top and return to the oven for ten minutes, or until the marshmallows are well puffed up and brown. Serve warm with cream.

#### **Pineapple Baked Apples**

(An unusual combination that is really delicious.)

Four apples  
One-third cup sugar  
One-half cup grated pineapple  
Two level tablespoons butter

Wash the apples and remove the cores. Place the apples in a small pan. Sprinkle the sugar and pineapple over the top. Dot the tops of the apples with butter.

Bake in a moderate oven for forty minutes, or until the apples are soft. Serve with Whipped Cream Sauce.

#### **Whipped Cream Sauce**

One egg white  
One teaspoon vanilla  
One teaspoon lemon extract  
One cup stiffly-whipped cream  
One cup powdered sugar

Beat the egg white until stiff, add the extract and whipped cream, and slowly add the powdered sugar sifted. Continue beating until the mixture is stiff. Serve on the warm apples. (This is a good way in which to "amplify" whipped cream.)

#### **Rice Apple Pudding (Four portions)**

(For the simple home meal.)

Two cups sliced apples  
One cup water  
One-half cup sugar  
One-half level teaspoon ground cinnamon  
One cup cooked rice  
Two level tablespoons butter  
One tablespoon lemon juice

Wash the apples and peel, core and slice. Add the water and sugar and cook slowly until the apples are tender. Pour into a buttered baking-dish. Place the rice and cinnamon over the top. ## I. ICE CREAMS

### Plain Vanilla Ice Cream (Two quarts—Twelve portions)

(A dish that every housewife ought to know how to make well.)

Three pints cream  
One cup sugar  
One tablespoon vanilla

Mix the cream, sugar and vanilla. Let stand for five minutes to dissolve the sugar. Pour into a well sterilized freezer, which should never be more than three-fourths full. Place in the ice cream freezer bucket and fasten the top tightly in place. Mix three parts of chopped ice to each part of coarse salt. Pack this about and over the ice cream can.

Freeze slowly and evenly until the mixture becomes stiffer. (When crank is harder to turn). Turn quickly to produce smooth, fine-grained ice cream. Add more ice when necessary. When the handle becomes very hard to turn and the water is running freely from the hole on the side of the outside tub, the cream is frozen.

Ice Cream with Chop Suey Sauce

Tip the can and drain off the water. Remove the top and carefully wipe off the top of the can. Then remove the lid of the can holding the cream. Remove the dasher and carefully scrape off all the cream. With a long spoon, scrape off the cream from the side of the can and smooth it around the can. Place a waxed paper or cloth over the top and add the lid. Pack tightly with ice, using four parts to one part of coarse salt. Let stand for two hours or more to "ripen." After using, the cream remaining may be repacked, the water drained off, and the freezer stored in a cool place. In repacking, use the same proportions of ice and salt. Have at least four inches of the ice mixture on top of the packed can and then cover with a sack or an old piece of carpet.

#### IV. PARFAITS

**Maple Parfait** (Six portions)

One cup maple syrup  
 Four egg yolks, well-beaten  
 One teaspoon vanilla  
 One-eighth level teaspoon salt  
 Two cups stiffly-beaten cream

Heat the maple syrup, and pour slowly over the egg yolks. Beat for one minute. Cook slowly for a short time over hot water, until the mixture coats a silver spoon. Be very careful not to over-cook this mixture or it will curdle. Beat until cool and add the salt

and vanilla. Chill by keeping in a very cold place for ten minutes. Add the stiffly-beaten cream, and fill a moistened ice cream mold two-thirds full. Place a heavy piece of waxed paper over the top of the mold. Fix the lid firmly on top. Pack in equal parts of chopped ice and coarse salt, having six inches of this mixture surrounding the mold. Leave for several hours. Remove from the ice mixture and rinse off the mold with cold water. Wrap a warm cloth about the mold for one minute. Turn the parfait out onto a chilled platter.

#### Bettina's Parfait (Eight portions)

One and one-half cups sugar  
Two-thirds cup water  
Three egg whites  
One teaspoon vanilla  
One-half cup chopped nut-meats  
One-half cup candied cherries  
Three cups stiffly-beaten whipped cream

Mix the sugar and water and boil without stirring until the mixture spins a thread when dropped from the spoon. Very slowly pour onto the stiffly-beaten egg whites. Beat steadily until the mixture is cold, add the vanilla, nut-meats and cherries and set in a cold place for fifteen minutes.

Add the stiffly-whipped cream. Fill an ice cream mold, moistened with cold water. Place a piece of waxed paper on top of the mixture and add the lid. Be sure to have at least one inch of the paper extending outside the lid. This will keep salty water from entering the mold.

Pack in equal parts of coarse salt and chopped ice. Have eight inches of the ice mixture surrounding the mold. Let stand for four hours. Unmold by wrapping a hot cloth around the mold for one minute. Serve on a cold platter.

Fill a moistened ice cream mold very full. Add a heavy sheet of waxed paper and place the lid tightly in place. Pack for four hours in equal parts of coarse salt and chopped ice. Six inches of the ice mixture must entirely surround the filled mold. The Mousse will easily unmold if a warm cloth is held around the mold for one minute. Serve at once.

Pour into an ice cream mold, which has been moistened with cold water. Have the mold full to overflowing. Fit the lid tightly in place over a piece of waxed paper. Pack in equal parts of salt and ice, and let stand for four hours. The ice mixture should extend at least four inches under, above, and around the mold. ### Apple Pie (One medium-sized pie)

(Probably the most universally popular dessert in the book.)

- Four cups sliced apples
- One-half cup water
- One cup sugar
- One level tablespoon flour
- One-eighth level teaspoon salt
- One-fourth level teaspoon grated nutmeg
- One-half level teaspoon powdered cinnamon
- Two level tablespoons butter

Peel and core the apples and slice very thin. Add the water and cook slowly in a covered saucepan until the apples are a little tender. (This will take about seven minutes.) Add the sugar and cook for four minutes more or until the sugar is well dissolved and the filling a little thick. Add the flour, salt, nutmeg, and cinnamon, and cook for another minute. Pour into a pie pan lined with an unbaked pie-shell. Roll out the upper crust and spread the butter on its under side. (The side that will fit next to the apple filling.) Fit the crust carefully on top of the pie. Moisten the

Bettina's Pumpkin Pie

outside edge of the under crust with cold water and pinch the two crusts together. Cut off the superfluous dough with a knife. Place the pie on the lower shelf of a moderate oven for ten minutes. Place on the upper shelf and bake in a slower oven for twenty-five minutes more, or until the pie is well browned.

#### **Crust for a Two-Crust Pie**

Two cups flour

One-half level teaspoon salt

Two-thirds cup lard or a lard substitute

One-third cup cold water

Mix the flour and salt, and cut in the fat with a knife. When well mixed, add the water very slowly, mixing with the knife until a stiff dough is formed. The exact amount of water cannot be given, so care must be exercised in adding. Take two-thirds of the dough, cutting it off with a knife. Toss it upon a floured board and roll in a circular shape on one side of the dough only. When four inches larger than the diameter of the pan, fold over the dough and fit into a deep pie pan. Press the dough down into the sides of the pan, so that a good deep case for the pie filling will be made. The dough should extend over the edges of the pan. Do not cut it off until the upper crust is in place.

Take the rest of the dough and roll out to extend one inch beyond the crust. Make three or more slits in the center of the dough by folding in half and making the cuts in the center of the fold.

Pour the filling in the prepared lower crust, and carefully put the dough of the upper crust in place. Moisten the edge of the lower crust with cold water

and pinch the two crusts firmly together. Cut off the superfluous dough with a sharp knife.

Place the prepared pie on the lower shelf of a moderate oven for ten minutes. Remove to the upper shelf of the oven, and bake in slow heat for twenty-five minutes more.

- Two egg yolks, well-beaten
- One teaspoon vanilla

Wash the apricots well and soak over night in the cold water. In the morning cook slowly for twenty-five minutes in the water in which they were soaked. Mix the flour, one-half cup of apricot juice (or water, if there is not enough juice) and salt. Add the sugar to the cooked, drained, apricots and cook slowly for about three minutes or until the mixture is slightly thick. Add the flour mixture and lemon juice and cook slowly for about two minutes more. Stir constantly. Add the egg yolks well beaten and cook for two minutes more. Add the vanilla. Pour into a baked pie-shell and cover with a meringue. Bake in a moderate oven for about ten minutes or until the meringue is a delicate brown color.

**The Pie-Shell** (For one medium-sized one-crust pie)

One cup flour

#### Method of Steaming Puddings

Small baking-powder cans may be greased, filled half full, and used as molds. Creased papers should be tied on tightly or lids used which fit into place. If individual molds are used, the steaming need be for one and a quarter hours only, but a large mold requires two hours of steady steaming. When baking-powder cans are used, set them on some small article in the bottom

of a kettle. Add boiling water to cover by three inches, add a lid and boil for two hours. When adding more water (this is usually necessary) use it boiling. If a steamer is used, use small tin, aluminum, or enameled cups instead of earthenware custard cups, as the latter take so much more time for the steaming.
