The Campaign was introduced to engage all Wikimedians into the vast voluntary contribution of Audio Files in Wikimedia Commons, and to be making use of them worth encyclopedic.

The campaign plans to achieve many goals, part of which to upload 1,000,000,000 audio files before the end of 2030 in different languages.

Goals and Objectives Of WikiSound Audio Speaks Campaign

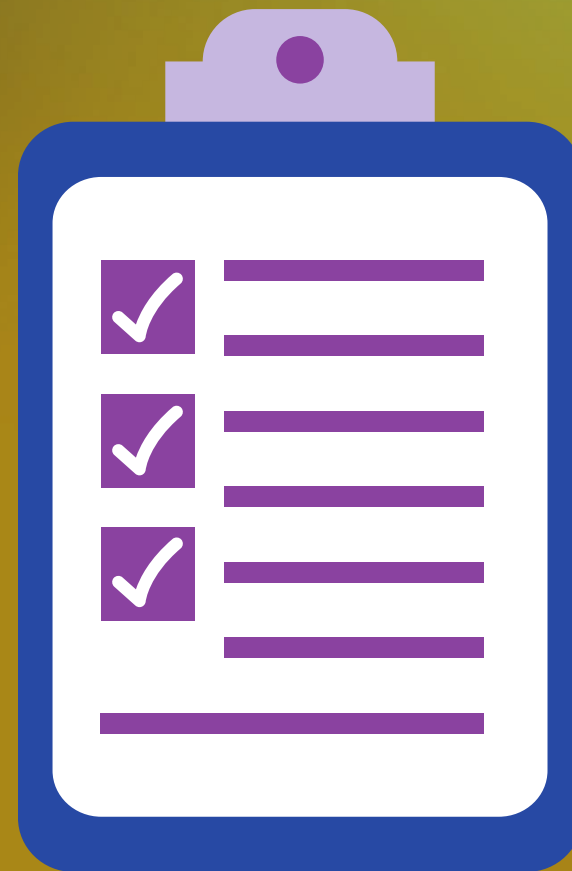

- To Enhance Wikimedians to the activities of audio files in Wikimedia Commons
- To have large number of editors contributing with Audio Files of different varieties.
- To mentor editors on how to record, equalise, convert and upload audio files.
- To have 1,000,000,000 audio files before 2030 through.....
- Organising Edith-athon, workshops and local Wikis events on audio files
- Through contest and quizzes.
- Having local Mentors, Organisers and Ambassadors on Audio Files.
- Making use of audio files that are worth encyclopedic in Wikipedias
- Provisions of words pronunciation in the available Wikitionaries.
- Having different language audio across Wikimedia Projects.
- Documenting languages orally in native (Mother tongue).
- E.t.c.....

**Team Work is the
key to Success**

A hand holding a pen over a notebook with a green-to-teal gradient overlay.

Write down your **PLANS** on how to engage yourself on the activities of **AUDIO FILES**, the Co-organising team will look into it critically to make the impactful plans works effectively.

The co-organising team wants **PARTICIPANTS** to join the course, in such away that the campaign will have **LOCAL LANGUAGE ORGANISERS**, moreover, we will have ambassador and User Group representatives from different languages and regions.

The campaign will bring new faces to the **WORLD of Wikimedia** on contributing with Audio files as well as new development to achieve it's goals.

We Shall Consider Off-Wiki Contributions, as well as the most required On-Wiki Contributions.

OFFLINE

OR

ONLINE

On-line **PARTICIPATION** is important to achieve this huge goals. The **higher we DEDICATE** the more impact we could possibly achieve.

**WE NEED
ONLINE PARTICIPATION**

Basic Frameworks to Rely On

Audio Analysis: examines the ways in which you will like to create audio, either through recording, vocalisations, instrumental etc..

If you have the experience of conversation and uploading files you can go ahead, if you don't feel free to learn from Audio Wikimedians and audio Mentors.
