The following projects in progress shall be concluded to the extent possible and all data collected shall be summarized and reports issued not later than June 30, 1993:

1. Determine the minimum vegetation ground cover necessary for erosion control on reclaimed land;
2. Evaluate the predictability of regraded soil quality based on overburden quality;

The annual report of the land reclamation research center must also include any recommendations it may have for reducing unnecessary and duplicative regulatory costs that do not contribute to effective reclamation practices. For any new reclamation research project to be approved for funding, each proposed project must meet all of the following criteria:

1. Development of data and conclusions that will assist in returning the land to its original or better productivity;
2. Development of data and conclusions that will assist in returning the land to an approved postmining land use as soon as possible; and
3. Development of data and conclusions that will reduce unnecessary regulatory costs and assist in effectively reclaiming the land to its original or better productivity.

The negotiation required by this subsection must be based on a detailed accounting report to be furnished to the department of human services by red river human services foundation. SECTION 38. AMENDMENT. Section 57-58-01 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

57-58-01. Distribution to counties and local subdivisions. It is hereby provided that any political subdivision which has an existing bonded indebtedness for which a tax levy must be made in 1970 or any year thereafter, shall reduce its levy in each such year for current operating purposes by the amount which its tax levy on taxable property in that year for retirement of the bonded indebtedness is increased because of the exemption of personal property by subsection 25 of section 57-02-08. On or before February 1, 1971, the county auditor of each county shall certify to the state tax commissioner the total amount of taxes levied in the year 1968 for the state, county, cities, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes, and levies voted by the people, new or present levies increased by legislative action of such county on those items of personal property exempt under the provisions of section 57-02-08, and, in addition, the total valuation of real estate and taxes levied on real estate for the year 1968. On or before the fifth working day following June 30, 1990 ~~1991~~, and each year thereafter, the state tax commissioner shall certify for payment to the state treasurer an amount, for payment by the state treasurer to each chief county and city fiscal officer, determined to be due such county and city based upon the personal property taxes levied in the year 1968 for the political subdivisions herein mentioned on the items of personal property exempt from the personal property tax under the provisions of section 57-02-08, the per capita school tax under the provisions of former section 57-15-23, and the grain tax under the provisions of former chapter

\* NOTE: Section 57-01-04 was also amended by section 16 of Senate Bill No. 2594, chapter 53.

57-03, together with any adjustments to be made in the manner hereinafter provided. Within sixty days after the receipt of the revenue as provided by this section, the county treasurer shall allocate and remit to the county, park boards, school districts, airport authorities, townships, and all other units of government having the authority to levy taxes that amount of revenue which is received from the state in the same ratio as he would have distributed the revenue from the personal property tax, adjusting such amount by any increase or decrease in real property taxes as levied by each taxing authority according to the formula hereinafter provided. Any amount that would be apportioned and credited to the retirement of a bonded indebtedness existing in 1970 for which a tax levy was made in 1970 and in any year thereafter, must be credited to the general fund of the political subdivision. In the years after 1971, payments to the counties under this section must be made based upon ninety-five percent of such payment for 1971 together with a growth factor which must be based upon the dollar amount of increase or decrease in real property taxes levied within each county. For each seven dollar increase in real property taxation within a county, the state shall contribute an additional one dollar over that amount which equals ninety-five percent of such payment in the base year. For each seven dollar decrease in real property taxation within a county, the state shall contribute one dollar less than that amount which equals ninety-five percent of such payment in the base year.

On or before the fifth working day following June 30, ~~1990~~ 1991, and each year thereafter, the state tax commissioner shall certify to the state treasurer the amount determined to be due to the state based upon the personal property taxes levied in the year 1968 for the North Dakota state medical center. The amount so certified must be computed in accordance with the formula provided in this section for computing the amounts to be certified and paid to the counties. The state treasurer upon receiving the certification from the tax commissioner shall transfer from the general fund to the credit of the North Dakota state medical center the amount so certified.

Any political subdivision which levied taxes on taxable property in the year 1970 for a specific fund or purpose for which a levy was not made by it in the year 1968 shall be entitled to a distribution of revenue from the state in the year 1971 for any such levy. The amount of such distribution must be determined as follows: the county auditor shall certify to the state tax commissioner as soon as possible after March 30, 1971, the amount of each such levy made by and spread for each political subdivision on taxable real property in the county in the year 1970; the tax commissioner shall forthwith determine the correctness of such amounts and certify to the state treasurer for immediate payment to the county and cities an amount that is determined by dividing the total of such levies made and spread in 1970 on taxable real property in the county by the growth factor that is provided in the first paragraph of this section; the county treasurer within fifteen days after the receipt of such revenue from the state treasurer shall allocate and remit to each political subdivision its proportionate amount of that revenue.

If the classification of any property for taxation purposes is changed from real to personal property or from personal to real property because of legislative or judicial action, the county auditor of the county in which the property is located shall forthwith certify to the tax commissioner the amount of real estate taxes or personal property taxes that was levied on all such property by each taxing district in the year 1968 and in any other year thereafter that the tax commissioner may request. The tax commissioner, in

determining the amount to be certified to the state treasurer for payment to the political subdivisions pursuant to this section, shall adjust the amounts of taxes certified by the county auditor as levied on real property and on personal property in 1968 and in any other year as may be necessary by adding to or subtracting from each such amount the taxes on the reclassified property so that the distribution by the state to the county will be determined as though such property had been taxed in 1968 and all later years in the classification into which it was reclassified.

Notwithstanding the other provisions of this section, personal property tax replacement is an amount as determined under section 57-39.2-26.1, subject to legislative appropriation. If moneys appropriated by the legislative assembly for personal property tax replacement are not in the amount that would be provided under this section for distribution, the tax commissioner and the state treasurer shall provide for pro rata distribution of available funds on the basis of the formula contained in this section.

SECTION 2. APPROPRIATION. The amount of \$1,840,956, or so much thereof as may be necessary, as appropriated in the developmentally disabled facility loan fund line item in subdivision 2 of section 1 of this Act may be spent by the department of human services from the lands and minerals trust fund for the purpose of making payments of principal and interest to the common schools trust fund on any loans made from it pursuant to the developmentally disabled loan fund program nos. 2 and 3 for the biennium beginning July 1, 1991, and ending June 30, 1993. The amount of \$700,000, or so much thereof as may be necessary, as appropriated in the capital improvements line item in subdivision 8 may be spent by the department from the lands and minerals trust fund for asbestos removal and relocation of utilities at the state hospital for the biennium beginning July 1, 1991, and ending June 30, 1993.

SECTION 3. APPROPRIATION. There may be spent by the department of human services, on or before June 1, 1993, from the cash balance of, and any payments deposited in, the revolving loan fund created under section 6-09.6-01, the sum of \$1,500,000, or so much thereof as may be necessary, which is appropriated in subdivision 2 of section 1 of this Act.

SECTION 4. CHILDREN'S SERVICES COORDINATING COMMITTEE FUNDING. Notwithstanding any other statutory provision, the department of human services is authorized, subject to the approval of the office of management and budget, to accept and spend \$2,854,382 from funds available through the children's services coordinating committee which is hereby appropriated for the biennium beginning July 1, 1991, and ending June 30, 1993. Prior to acceptance of these funds, the department shall develop a comprehensive plan detailing staff to be hired and services to be provided.

**SECTION 5. TRANSFER.** Upon approval of the budget section, the director of the department of human services may transfer appropriation authority between agencies and institutions included in subdivisions 1 through 9 of section 1 of this Act.

**SECTION 6. APPROPRIATION.** Notwithstanding section 57-39.2-26.1, the amount of \$6,250,000, or so much thereof as may be necessary, as appropriated in section 1 of this Act, may be spent by the department of human services from the state aid distribution fund for the biennium beginning July 1, 1991, and ending June 30, 1993.

**SECTION 7. LEGISLATIVE INTENT - FEDERAL FINANCIAL PARTICIPATION.** In the event actual federal financial participation funds are less than estimated in section 1 of this Act during the biennium beginning July 1, 1991, and ending June 30, 1993, the department shall report to the budget section the amount of the prospective deficiency appropriation that will be introduced to the fifty-third legislative assembly.

**SECTION 8. MEDICAID FUNDS - TRANSFER.** Upon receipt of medicaid funds for expenditure at the state hospital, the human service centers, and the developmental center, the department of human services may transfer the funds to the state hospital, the human service centers, and the developmental center and then spend them pursuant to the appropriation of such funds in the state hospital, the human service centers, and the developmental center appropriations contained in subdivisions 7, 8, and 9 of section 1 of this Act.

**SECTION 9. DEPARTMENT OF HUMAN SERVICES MAY LEASE REAL AND PERSONAL PROPERTY.** The executive director of the department of human services is authorized to lease surplus farm and pasture land at the state hospital and the developmental center, and to lease space in a building at the developmental center for a child care center. The executive director is also authorized to enter into further leases of real or personal property at the developmental center or the state hospital upon a specific finding that the granting of each such leasehold interest will result in a net economic gain for the department, taking into account all identifiable costs. The executive director may prescribe the terms and conditions of any leases entered into pursuant to this section and may renew existing leases. Any lease entered into must be subject to renewal or cancelable each biennium. Any lease or lease renewal of unneeded building or building space may be made only after consultation with the administrator of the state fire and tornado fund.

**SECTION 10. LEGISLATIVE INTENT - UNANTICIPATED FEDERALLY MANDATED PROGRAMS.** The legislative assembly recognizes the need to comply with the mandatory provisions of the various federal programs and the uncertainties inherent in anticipating federal legislation and in estimating the funds needed to comply with the new program requirements, including many of the medicaid expansion provisions within the Omnibus Budget Reconciliation Act of 1990 [Pub. L. 101-508]. If the general fund appropriations contained in subdivision 4 of section 1 of this Act are determined by the department to be insufficient to comply with the federal mandates during the biennium beginning July 1, 1991, and ending June 30, 1993, the department shall report to the budget section the amount of the prospective deficiency appropriation that will be introduced to the fifty-third legislative assembly.

**SECTION 11. CONTINGENT APPROPRIATION.**

1. If House Bill No. 1511 becomes effective, and if the department of human services is able to negotiate a new lease with the red river human services foundation, relating to office space in the building located at 15 Broadway, Fargo, North Dakota, and currently used to house the southeast human service center, the amount of \$505,463, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the general fund of the state treasury, not otherwise appropriated, to the department of human services for the purpose of defraying the expenses of rental of office space in the building located at 15 Broadway, Fargo, North Dakota, used to house the southeast human service center, for the period beginning November 1, 1991, and ending June 30, 1993. This appropriation is sufficient to defray rental at an amount equal to \$7.37 per square foot per year, or 1.03 times \$7.16 per square foot per year. The highest rental amount provided for in any current lease by any other state agency tenant of office space in the building located at 15 Broadway, Fargo, North Dakota, is \$7.16 per square foot per year.
2. If House Bill No. 1511 becomes effective, but the department of human services is unable to negotiate a new lease with the red river human services foundation, relating to office space in the building located at 15 Broadway, Fargo, North Dakota, and currently used to house the southeast human service center, the amount of \$389,440, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the general fund of the state treasury, not otherwise appropriated, to the department of human services for the purpose of defraying the expenses of rental of office space in the building located at 15 Broadway, Fargo, North Dakota, used to house the southeast human service center, for the period beginning November 1, 1991, and ending October 31, 1992. No additional appropriation is necessary for the purpose of defraying the cost of rental of that office space because, under the circumstances described in this subsection, that office space would be vacated by the southeast human service center on or before October 31, 1992.
3. The amount of \$11,035,936 identified in subdivision 7 of section 1 of this Act for human service centers' operating expenses includes \$132,278 appropriated for the purpose of defraying the expenses of rental of office space in the building located at 15 Broadway, Fargo, North Dakota, for the period beginning July 1, 1991, and ending October 31, 1991. If House Bill No. 1511 becomes effective, the appropriations made in section 1 of this Act, together with the appropriations made under this section, provide insufficient funds for rent of human service facilities within North Dakota. Insufficient funds have been appropriated in order to permit the department of human services to cancel, on its own terms, the real estate lease, entered into between red river human services foundation and the state of North Dakota, department of human services, designated as contract number 05-123, relating to rental of office space in the building located at 15 Broadway, Fargo, North Dakota, used to house the southeast human service center.
4. If House Bill No. 1511 fails to become effective, the amount of \$661,389, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the general fund of the state

treasury, not otherwise appropriated, to the department of human services for the purpose of defraying the expenses of rental of office space in the building located at 15 Broadway, Fargo, North Dakota, used to house the southeast human service center.

SECTION 12. SALE OF SURPLUS STEAM HEAT - TERMS - NOT TO BE CONSTRUED AS THE DISTRIBUTION OF HEAT. The department, with the approval of the governor, is authorized but not required to determine if surplus steam heat is or may be produced at the developmental center, and to sell any surplus steam heat to the city of Grafton. The sale may be on such terms and conditions as may be deemed necessary by the department, provided that no sale may be made for less than the cost of producing the surplus steam heat. A sale of steam heat, if made by the department to the city of Grafton, may not be construed as the distribution of heat under title 49.

SECTION 13. ADMINISTRATION OF CHILD CARE BLOCK GRANT AND AT-RISK CHILD CARE PROGRAMS. The department of human services shall function as the designated state agency for administration of the Child Care and Development Block Grant Program under section 658C of the Omnibus Budget Reconciliation Act of 1990 [Pub. L. 101-508, Section 5081, 42 U.S.C. 602, et seq.] and the At-Risk Child Care Program under Section 5081 of the Omnibus Budget Reconciliation Act of 1990 [Pub. L. 101-508, Section 5081; 42 U.S.C. 602(i); 42 U.S.C. 603(n)]. The department may take actions reasonably necessary to conform the administration of programs under its supervision and direction to the requirements of federal law and regulations pertaining to the block grant and child care programs, including development of plan amendments and applications for federal funding and the issuance of policy manuals, forms, and program directives. Under the supervision and direction of the department, each county social service board shall administer the programs to the extent state and federal funds are available to defray the full costs of program administration and the provision of program benefits to eligible individuals and families. The department is authorized to employ such staff as is necessary for administration of the programs, within the limitations of appropriations therefor in section 1 of this Act.

SECTION 14. A new section to chapter 50-06 of the North Dakota Century Code is created and enacted as follows:

Insurance payments by the department. Notwithstanding any other eligibility requirements for human services programs, the department, pursuant to rules promulgated by the department, may pay health insurance premiums, copayments, and deductibles for a person with acquired immune deficiency syndrome if the payment of premiums, copayments, and deductibles is determined to be a cost-effective alternative to the payment of future medical assistance and economic assistance costs for that person.

SECTION 15. AMENDMENT. Section 50-24.1-02.2 of the North Dakota Century Code is amended and reenacted as follows:

50-24.1-02.2. Community spouse resource allowance. In determining eligibility for medical assistance applicants and recipients, the department of human services shall establish a community spouse resource allowance of at least twenty-five thousand dollars for an ineligible community spouse equal to the maximum community spouse resource allowance as provided by 42 U.S.C. 1396r-5(f)(2).

SECTION 16. Three new subsections to section 50-24.4-01 of the North Dakota Century Code are created and enacted as follows:

"Direct care costs" means the cost category for allowable nursing and therapy costs.

"Indirect care costs" means the cost category for allowable administration, plant, housekeeping, medical records, chaplain, pharmacy, and dietary, exclusive of food costs.

"Other direct care costs" means the cost category for allowable activities, social services, laundry, and food costs.

SECTION 17. Two new subsections to section 50-24.4-10 of the North Dakota Century Code are created and enacted as follows:

Effective July 1, 1991, the efficiency incentives to be established by the department pursuant to subsection 4 for a facility with an actual rate below the limit rate for indirect care costs must include the lesser of two dollars and sixty cents per resident day or the amount determined by multiplying seventy percent times the difference between the actual rate, exclusive of inflation indices, and the limit rate, exclusive of current inflation indices. The efficiency incentive must be included as a part of the indirect care cost rate.

Effective July 1, 1991, each nursing home must receive an operating margin of a least three percent based upon the lesser of the actual direct care and other direct care costs and the limit rate prior to inflation. The operating margin will then be added to the rate for direct care and other direct care cost categories.

SECTION 18. LEGISLATIVE INTENT - DEPARTMENT OF HUMAN SERVICES BUDGET ALLOTMENTS. Notwithstanding the provisions of section 17 of this Act or any other provision of law, it is the intent of the legislative assembly that all general fund appropriations in section 1 of this Act be subject to the provisions of North Dakota Century Code sections 54-44.1-12 and 54-44.1-13.1 relating to budget allotments and reductions. It is the further intent of the legislative assembly that moneys appropriated for medical assistance payments required under section 17 of this Act shall not be reduced by a percentage greater than any percentage allotment of general fund moneys required of the department pursuant to the provisions of North Dakota Century Code sections 54-44.1-12 and 54-44-13.1.

SECTION 19. LEGISLATIVE INTENT - CASELOAD REPROJECTIONS. It is the intent of the legislative assembly that the department of human services prepare updated caseload reprojections for the 1993-95 biennium by January 15, 1993, and present these reprojections to the appropriations committees as requested by the committees.

SECTION 20. LEGISLATIVE INTENT - DEVELOPMENTAL DISABILITIES PROVIDER SALARY INCREASES. It is the intent of the legislative assembly that community developmental disabilities provider agencies provide employee salary increases of four percent the first year of the 1991-93 biennium. Funds for these increases are to be made available contingent upon individual developmental disabilities provider agencies maintaining title XIX certification and ACDD accreditation.

SECTION 21. LEGISLATIVE INTENT - EXPANDED CHILDREN'S MENTAL HEALTH PROGRAM. The amount of \$260,030 in estimated income, or so much thereof as may be necessary, as appropriated in subdivision 6 of section 1 of this Act, shall be expended for the expansion of children's mental health programs in accordance with the terms of the federal children and adolescent service system program grant received by the children's services coordinating committee and subgranted, in part, to the department for administration. The department is authorized to employ a full-time mental health professional and a secretary for the administration of the program, within the limitations of appropriations therefor in subdivision 6 of section 1 of this Act.

SECTION 22. LEGISLATIVE INTENT - CHILDREN'S PROGRAMS. It is the intent of the legislative assembly that \$200,000 in federal IV-E revenues, or so much thereof as may be necessary, as appropriated in subdivision 6 of section 1 of this Act be dedicated by the department to augment the operation of those children's service programs financed through the receipt and expenditure of funds appropriated to and received from the children's services coordinating committee during the biennium beginning July 1, 1991, and ending June 30, 1993.

SECTION 23. LEGISLATIVE INTENT - STATE HOSPITAL INCOME - MEDICAID GRANTS. It is the intent of the legislative assembly that in the event the department of human services projects a deficiency appropriation relating to state hospital income or Medicaid grant funding that it report any anticipated general fund deficiencies to the budget section and seek its approval before it continues to spend at a level which would require a request for a deficiency appropriation from the next legislative assembly.

SECTION 24. LEGISLATIVE COUNCIL STUDY - IMPACT OF CHILD SUPPORT GUIDELINE MODELS. The legislative council shall consider studying the impact of various child support guideline models on family units, on the quality of the relationships among the persons in the families affected by the guidelines, and on children who receive child support. The study, if conducted, should address the impact of the various models and whether the various models provide adequate financial support for the children involved. The legislative council, if a study is conducted, shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the fifty-third legislative assembly.

SECTION 25. EFFECTIVE DATE. Section 15 of this Act is effective on July 1, 1992.

### MUNICIPAL BOND BANK SECURITIES

AN ACT to amend and reenact section 6-09.4-06 of the North Dakota Century Code, relating to lending and borrowing powers of the municipal bond bank.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 6-09.4-06 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

6-09.4-06. Lending and borrowing powers generally. The bond bank is authorized to lend money to political subdivisions through the purchase and holding of municipal securities which, in the opinion of the attorney general, are properly eligible for purchase by the bond bank under this chapter. ~~The bond bank is authorized to lend money to political subdivisions through the purchase and holding of municipal securities and for which the principal amount of any one issue does not exceed two hundred thousand dollars. However, the bond bank may lend money to political subdivisions, through the purchase and holding of securities issued by the political subdivisions without regard to the principal amount of the bonds issued, if the industrial commission approves a resolution that authorizes the bond bank to purchase and hold the securities. The authorizing resolution must state that the industrial commission has determined that private bond markets will not be responsive to the needs of the issuing political subdivision concerning the securities or, if it appears that the securities can be sold through private bond markets without the involvement of the bond bank, the authorizing resolution must state reasons for the bond bank's involvement in the bond issue. The bond bank may hold such municipal securities for any length of time it finds to be necessary. The bond bank, for the purposes authorized by this chapter, is authorized to issue its bonds payable solely from the revenues available to the bond bank which are authorized or pledged for payment of bond bank obligations, and to otherwise assist political subdivisions as provided in this chapter.~~

Bonds of the bond bank issued under this chapter are not in any way a debt or liability of the state and do not constitute a loan of the credit of the state or create any debt or debts, liability or liabilities, on behalf of the state, or constitute a pledge of the faith and credit of the state, but all such bonds are payable solely from revenues pledged or available for their payment as authorized in this chapter. Each bond must contain on its face a statement to the effect that the bond bank is obligated to pay such principal or interest, and redemption premium, if any, and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal or the interest on such bonds. Specific funds pledged to fulfill the bond bank's obligations are obligations of the bond bank.

All expenses incurred in carrying out the purposes of this chapter are payable solely from revenues or funds provided or to be provided under this chapter and nothing in this chapter may be construed to authorize the bond bank to incur any indebtedness or liability on behalf of or payable by the state.

### ABORTION INFORMED CONSENT

AN ACT to create and enact two new subsections to section 14-02.1-02 and three new sections to chapter 14-02.1 of the North Dakota Century Code, relating to requirement of informed consent for abortions and civil damages for performance of abortions without informed consent; and to amend and reenact subsection 5 of section 14-02.1-02 and subsection 1 of section 14-02.1-03 of the North Dakota Century Code, relating to informed consent for abortions.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 5 of section 14-02.1-02 of the North Dakota Century Code is amended and reenacted as follows:

5. "Informed consent" means voluntary consent to abortion by the woman upon whom the abortion is to be performed ~~only after full disclosure to her by the physician who is to perform the abortion of as much of the following information as is reasonably chargeable to the knowledge of the physician in his professional capacity:~~
  - a. ~~According to the best judgment of her attending physician; she is pregnant.~~
  - b. ~~The number of weeks elapsed from the probable time of the conception of her unborn child; based upon the information provided by her as to the time of her last menstrual period or based upon a history and physical examination and appropriate laboratory tests.~~
  - c. ~~The probable anatomical and physiological characteristics of the unborn child at the time the abortion is to be performed.~~
  - d. ~~The immediate and long-term physical dangers of abortion; psychological trauma resulting from abortion; sterility and increases in the incidence of premature births; tubal pregnancies and stillbirths in subsequent pregnancies; as compared to the dangers in carrying the pregnancy to term.~~
  - e. ~~The particular risks associated with her own pregnancy and the abortion technique to be performed.~~
  - f. ~~Alternatives to abortion such as childbirth and adoption and information concerning public and private agencies that will provide the woman with economic and other assistance and encouragement to carry her child to term including, if the~~

woman so requests; a list of the agencies and the services available from each.

- g- In cases where the fetus may reasonably be expected to have reached viability and thus be capable of surviving outside of her womb; the attending physician shall inform the woman of the extent to which he is legally obligated to preserve the life and health of her viable unborn child during and after the abortion.

In addition; the physician may inform the woman of any other material facts or opinions or provide any explanation of the above information which; in the exercise of his best medical judgment; is reasonably necessary to allow the woman to give her informed consent to the proposed abortion; with full knowledge of its nature and consequences.

Informed consent shall be evidenced by a written statement; in the form prescribed by the state department of health and consolidated laboratories and approved by the attorney general; signed by the physician and the woman upon whom the abortion is to be performed; in which statement the physician certifies that he has made the full disclosure provided above; and in which statement the woman upon whom the abortion is to be performed acknowledges that the above disclosures have been made to her and that she voluntarily consents to the abortion.

Informed consent shall not be required in the event of a medical emergency when the woman is incapable of giving her consent if a licensed physician certifies the abortion is necessary to prevent her death; provided that:

- a. The woman is told the following by the physician who is to perform the abortion, by the referring physician, or by the physician's agent, at least twenty-four hours before the abortion:
- (1) The name of the physician who will perform the abortion;
  - (2) The particular medical risks associated with the particular abortion procedure to be employed including, when medically accurate, the risks of infection, hemorrhage, danger to subsequent pregnancies, and infertility;
  - (3) The probable gestational age of the unborn child at the time the abortion is to be performed; and
  - (4) The medical risks associated with carrying her child to term.
- b. The woman is informed, by the physician or the physician's agent, at least twenty-four hours before the abortion:
- (1) That medical assistance benefits may be available for prenatal care, childbirth, and neonatal care;

- (2) That the father is liable to assist in the support of her child, even in instances in which the father has offered to pay for the abortion; and
- (3) That she has the right to review the printed materials described in section 3 of this Act. The physician or the physician's agent shall orally inform the woman the materials have been provided by the state of North Dakota and that they describe the unborn child and list agencies that offer alternatives to abortion. If the woman chooses to view the materials, copies of them must be furnished to her. The physician and the physician's agent may disassociate themselves from the materials and may comment or refrain from comment on them, as they choose.
- c. The woman certifies in writing, prior to the abortion, that the information described in subdivisions a and b has been furnished to her, and that she has been informed of her opportunity to review the information referred to in paragraph 3 of subdivision b.
- d. Prior to the performance of the abortion, the physician who is to perform or induce the abortion or the physician's agent receives a copy of the written certification prescribed by subdivision c.

SECTION 2. Two new subsections to section 14-02.1-02 of the North Dakota Century Code are created and enacted as follows:

"Medical emergency" means that condition which, on the basis of the physician's best clinical judgment, so complicates a pregnancy as to necessitate an immediate abortion to avert the death of the mother or for which a twenty-four hour delay will create grave peril of immediate and irreversible loss of major bodily function.

"Probable gestational age of the unborn child" means what, in the judgment of the attending physician, will with reasonable probability be the gestational age of the unborn child at the time the abortion is planned to be performed.

SECTION 3. A new section to chapter 14-02.1 of the North Dakota Century Code is created and enacted as follows:

Printed information.

1. The state department of health and consolidated laboratories shall cause to be published in English, and in every other language that the department determines is the primary language of a significant number of state residents, within one hundred eighty days after this Act becomes law, the following easily comprehensible printed materials:
- a. Geographically indexed materials designed to inform the woman of public and private agencies and services available to assist a woman through pregnancy, upon childbirth, and while the child is dependent, including adoption agencies. The materials must

include a comprehensive list of the agencies available, a description of the services they offer and a description of the manner, including telephone numbers, in which they might be contacted, or, at the option of the department, printed materials including a toll-free, twenty-four hour a day telephone number that may be called to obtain, orally, such a list and description of agencies in the locality of the caller and of the services they offer.

- b. Materials designed to inform the woman of the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from the time when a woman can be known to be pregnant to full term, including any relevant information on the possibility of the unborn child's survival. The materials must be objective, nonjudgmental, and designed to convey only accurate scientific information about the unborn child at the various gestational ages.

2. The materials required under this section must be available at no cost from the state department of health and consolidated laboratories upon request and in appropriate number to any person, facility, or hospital.

SECTION 4. AMENDMENT. Subsection 1 of section 14-02.1-03 of the North Dakota Century Code is amended and reenacted as follows:

1. No physician shall perform an abortion unless prior to such performance the physician certified in writing that the woman gave her informed consent fully and without coercion, after the attending physician had informed the woman of the information contained in section 14-02.1-02 not more than thirty days nor less than forty-eight hours prior to her consent to the abortion as defined and provided in section 14-02.1-02 and shall certify in writing the pregnant woman's marital status and age based upon proof of age offered by her. Prior to the period of pregnancy when the fetus may reasonably be expected to have reached viability, no abortion shall be performed upon an unemancipated minor unless the attending physician certifies in writing that each of the parents of the minor requesting the abortion has been provided by the physician in person with the information provided for in section 14-02.1-02 at least twenty-four hours prior to the minor's consent to the performance of abortion or unless the attending physician certifies in writing that he has caused materials of section 14-02.1-02 to be posted by certified mail to each of the parents of the minor separately to the last known addresses at least forty-eight hours prior to the minor's consent to the performance of abortion. When a parent of the minor has died or rights and interests of such parent have been legally terminated, this subsection shall apply to the sole remaining parent. When both parents have died or where the rights and interests of both parents have been legally terminated, this subsection shall apply to the guardian or other person standing in loco parentis. Notification by the attending physician is not required if the minor elects not to allow the notification of one or both parents or her guardian and the abortion is authorized by the juvenile court in accordance with section 14-02.1-03.1. None of the requirements of this subsection apply in the case of a medical emergency, except that

when a medical emergency compels the performance of an abortion, the physician shall inform the woman, prior to the abortion if possible, of the medical indications supporting the physician's judgment that an abortion is necessary to avert her death or for which a twenty-four hour delay will create grave peril of immediate and irreversible loss of major bodily function, and shall certify those indications in writing.

SECTION 5. A new section to chapter 14-02.1 of the North Dakota Century Code is created and enacted as follows:

Civil damages for performance of abortions without informed consent. Any person upon whom an abortion has been performed without informed consent as required by this Act may maintain an action against the person who performed the abortion for ten thousand dollars in punitive damages and treble whatever actual damages the plaintiff may have sustained. Any person upon whom an abortion has been attempted without complying with this Act may maintain an action against the person who attempted to perform the abortion for five thousand dollars in punitive damages and treble whatever actual damages the plaintiff may have sustained.

SECTION 6. A new section to chapter 14-02.1 of the North Dakota Century Code is created and enacted as follows:

Privacy of woman upon whom an abortion is performed or attempted. In every proceeding or action brought under section 5 of this Act, the court shall rule whether the anonymity of any woman upon whom an abortion is performed or attempted should be preserved from public disclosure if she does not give her consent to such disclosure. The court, upon motion or sua sponte, shall make such a ruling and, upon determining that her anonymity should be preserved, shall issue orders to the parties, witnesses, and counsel, and shall direct the sealing of the record and exclusion of individuals from courtrooms or hearing rooms, to the extent necessary to safeguard her identity from public disclosure. Each such order must be accompanied by specific written findings explaining why the anonymity of the woman should be preserved from public disclosure, why the order is essential to that end, how the order is narrowly tailored to serve that interest, and why no reasonable less restrictive alternative exists. This section may not be construed to conceal the identity of the plaintiff or of witnesses from the defendant.

The information disclosed by the agency or by the consenting parent may relate only to that consenting parent. If ~~either~~ a genetic parent or the adopted person has at any time filed with the department of human services an unrevoked affidavit stating that the identifying information should not be disclosed, the department of human services shall not disclose the information identifying that genetic parent or adopted person to the adopted ~~child~~ person or that genetic parent until the affidavit is revoked by the filing of a consent to disclosure by that parent or the adopted person.

This disclosure

will occur if, at any time during the sixty-one days, the genetic parent or the adopted person has filed an affidavit with the department of human services stating that the information shall be disclosed and the affidavit has not been revoked by the subsequent filing by the genetic parent or adopted person of an affidavit that the information shall not be disclosed.

The court shall grant the petition if, after consideration of the interests of all known persons involved, the court determines that disclosure of the information would be of greater benefit than nondisclosure.
- 9- 10. - d. The procedure used in contacting the genetic parents of the adopted child shall be a personal and confidential contact. Any necessary contact shall be made by an employee or agent of a licensed child-placing agency or the department of human services. The information requested of the genetic parents shall be limited to that information necessary to make a determination of the adopted person's eligibility for enrollment in an Indian tribe.
  - e. The department of human services may charge a reasonable investigation fee.
- ~~11-~~ 12. No person may be required to disclose the name or identity of either an adoptive parent or an adopted ~~child~~ person except:

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 5 of chapter 198 of the 1989 Session Laws of North Dakota is amended and reenacted as follows:

SECTION 5. A new section to chapter 15-34.1 of the North Dakota Century Code is created and enacted as follows:

Students receiving home-based instruction - Quality assurance. In order to meet the state's compelling interest in assuring that citizens of the state receive a quality education, the following minimum indices of quality education are established:

1. A standardized achievement test used by the school district in which the child resides or, if requested by the parent, a standardized achievement test used by a state-approved private or parochial school must be given annually to each child receiving home-based instruction. The test must be given in the child's learning environment and must be administered by a certified teacher employed by the public school district in which the parent resides or, if requested by the parent, employed by a state-approved private or parochial school. The cost of such testing must be borne by the local school district in which the child resides if the test is administered by a certified teacher employed by a public school district or by the parent of the child if the test is administered by a certified teacher employed by a state-approved private or parochial school. Results of such testing must be provided to the local public school superintendent. If the child resides in a school district which does not employ a local school superintendent, the results must be filed with the county superintendent of schools for the county of the child's residence.
2. If the child's basic composite score on a standardized achievement test falls below the thirtieth percentile nationally, the child must be professionally evaluated for a potential learning problem. If the multidisciplinary assessment team evaluation determines that the child is not handicapped according to the eligibility criteria of the department of public instruction and the child does not

require specially-designed instruction according to rules adopted by the department of public instruction, the parent providing instruction may continue to provide home-based instruction, upon filing with the superintendent of public instruction a statement, from an appropriately licensed professional, that the child is currently making reasonable academic progress when the learning abilities of the child are taken into consideration. If such statement is not filed, the parent is not entitled to an exemption under subsection 5 of section 15-34.1-03. If the evaluation of the multidisciplinary assessment team determines that the child is handicapped, but not developmentally disabled, according to the eligibility criteria of the department of public instruction, and the student requires specially-designed instruction due to the handicap and that this instruction cannot be provided without special education and related services, the parent providing instruction may continue to provide home-based instruction, upon filing with the superintendent of public instruction an individualized education program plan, formulated within rules adopted by the department of public instruction, indicating that the child's needs for special education are being appropriately addressed by persons qualified to provide special education or related services. If such a plan is not filed, the parent is not entitled to an exemption under subsection 5 of section 15-34.1-03.

3. Any certificated teacher supervising home-based instruction shall spend a minimum average ~~each month~~ of one hour per week in contact with ~~each the first student and in conjunction with the parent.~~ With two or more children under supervision, the teacher shall monitor a minimum additional one-half hour per month for each child under the teacher's supervision who is receiving home-based instruction. The teacher shall evaluate the student's progress and report the student's progress at least twice annually to the local public school superintendent. If the school district does not employ a local school superintendent, the report must be filed with the county superintendent of schools for the county of the child's residence.
4. If the local superintendent of public schools or the county superintendent of schools in those school districts that do not employ a local superintendent determines that the child is not making reasonable academic progress consistent with the child's age or stage of development, the parent of the child must be notified of the conclusion reached and the basis for the conclusion. Upon receipt of that notice, the parent shall make a good faith effort to remedy any deficiency. The appropriate official shall report the failure on the part of a parent to make a good faith effort to the state's attorney pursuant to section 15-34.1-04 as a violation of this chapter. The superintendent of public instruction shall adopt rules to assist local superintendents of schools, county superintendents of schools, and the licensed professionals referred to in subsection 2, in determining whether a child is making reasonable academic progress.

SECTION 2. A new section to chapter 198 of the 1989 Session Laws of North Dakota is created and enacted as follows:

Home-based instruction - Liability. No state agency, public school, or county superintendent may be found liable for accepting as correct the information on the statement of intent or for any damages resulting from the parent's failure to educate the child.

- (10) The cost for mediation services must be borne equally by the parties. The superintendent of public instruction shall determine the cost of the final offer of resolution process, including per diem compensation, and other costs and these costs must be borne equally by the parties, except that each party is responsible for the costs of its panel member and its witnesses.

If teacher contributions are paid by the employer, they shall be treated for the purposes of this chapter in the same manner and to the same extent as teacher contributions made prior to the date the contributions were assumed by the employer. The option given employers by this subsection shall be exercised in accordance with rules adopted by the board.

(At the request of the Teachers' Fund for Retirement)

### TFFR BENEFITS AND PARTIAL SERVICE

AN ACT to create and enact a new section to chapter 15-39.1 of the North Dakota Century Code, relating to postretirement benefit adjustments under the teachers' fund for retirement; to amend and reenact subsection 2 of section 15-39.1-10 and sections 15-39.1-12.1 and 15-39.2-01 of the North Dakota Century Code, relating to computation of benefits, partial service retirement, and the benefit formula for college teachers under the teachers' fund for retirement; and to provide for application of this Act.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 2 of section 15-39.1-10 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. The amount of retirement benefits is one and ~~two hundred seventy five thousandths~~ thirty-nine hundredths percent of the final average monthly salary of the member multiplied by the number of years of credited service. For the purposes of this subsection, final average monthly salary means one thirty-sixth of the total of the member's highest annual salaries earned between July first of a calendar year and June thirtieth of the subsequent calendar year for any three years of service under the fund.

SECTION 2. A new section to chapter 15-39.1 of the North Dakota Century Code is created and enacted as follows:

Postretirement adjustments. An individual who on June 30, 1991, is receiving monthly benefits from the fund on an account paid under this chapter or under former chapter 15-39 is entitled to receive three dollars per month multiplied by the individual's number of years of credited service for individuals who retired before 1980, two dollars per month multiplied by the individual's number of years of credited service for individuals who retired after 1979 and before 1984, or one dollar per month multiplied by the individual's number of years of credited service for individuals who retired after 1983 and who retire before July 1, 1991, or an increase of ten percent in the individual's currently payable annuity, whichever is greater. The minimum monthly increase under this section is five dollars and the maximum monthly increase under this section is seventy-five dollars.

SECTION 3. AMENDMENT. Section 15-39.1-12.1 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-39.1-12.1. Partial service retirement. A full-time teacher, except for an elected official or a member of the alternate retirement program under subsection 13 of section 15-10-17, who is ~~sixty-two~~ fifty-five or more years of age and has ~~ten~~ five or more years of service credit may negotiate a partial service retirement agreement with the teacher's employer which results in not less than a twenty percent reduction and not more than a sixty percent reduction in the teacher's full-time employment. The board shall pay a reduced retirement benefit to the teacher after the employer certifies to the board that a partial service retirement agreement has been approved by the teacher and the teacher's employer. The reduced retirement benefit must equal the full retirement benefit the teacher is eligible to receive at the time the partial service retirement agreement becomes effective less the percentage of full-time employment the teacher is working under the partial service retirement agreement. The board must disapprove any partial service retirement agreement that does not provide for proportionately reduced compensation and, except for any health and dental insurance benefits provided by the employer, other benefits customarily provided to teachers such as vacation and sick leave. A teacher subject to a partial service retirement agreement may further reduce worktime only once each school fiscal year and may elect only once in every five years after initial entry into the program to increase worktime to another less than full-time schedule. The employer shall certify to the board any amendments or changes to the partial service retirement agreement. A teacher who reduces worktime under this section must be given priority by the employer for return to a full-time position to the extent full-time work is available. A teacher subject to a partial service retirement agreement is not considered retired until the teacher becomes fully retired. Increased compensation and receipt of additional service credit by a teacher while subject to a partial service retirement agreement do not affect a partial service retirement benefit as initially determined by the board. An employer and a teacher subject to a partial service retirement agreement shall pay their respective required assessments under section 15-39.1-09 based on the full-time salary that would have been paid if the teacher had not entered into a partial service retirement agreement. A teacher subject to a partial service retirement agreement must receive at the time of full retirement a retirement benefit based on total service credit earned, including that earned during partial service retirement. The full retirement benefit must be based on the final average salary, as determined by the board, the teacher would have received if full-time employment had been maintained during the period the teacher was subject to a partial service retirement agreement. A teacher subject to a partial service retirement agreement may not elect a joint and survivor benefit payment option under section 15-39.1-16 to be effective while subject to a partial service retirement agreement. Disability and death benefits provided under this chapter may not be reduced under this section if a teacher dies while subject to a partial service retirement agreement.

SECTION 4. AMENDMENT. Section 15-39.2-01 of the North Dakota Century Code is amended and reenacted as follows:

15-39.2-01. Retired teachers - Election of coverage - Eligibility - Limitation. Notwithstanding the provisions of chapter 15-39.1, any person who retired from teaching under the teachers' insurance and retirement fund prior to July 1, 1971, who had ten or more years of teaching credit under that program ~~shall be~~ is entitled to elect to qualify for benefits under the teachers' fund for retirement by complying with the provisions of this chapter. A college teacher who retired from teaching after July 1, 1971, may, notwithstanding the provisions of section 15-39.1-25, elect to receive

benefits in accordance with chapter 15-39.1 and section 15-39.2-05. The amount of monthly benefits to which an annuitant electing to come under the 1971 law ~~shall be~~ is entitled until death ~~shall be~~ is equal to one and one-half percent of the monthly salary of the annuitant for the last school year for each year of service of ~~such~~ that annuitant. Monthly salary within the meaning of this provision ~~shall be~~ is deemed to be an amount equal to one-twelfth of the annual salary of the teacher. If for any reason the earnings of the teacher for the last year of teaching are shown to have been nonrepresentative of ~~his~~ the teacher's typical earnings, the board shall readjust the credit to be allowed for past years of service to the last year of typical earnings. As used in this section, "college teacher" means a retired teacher who is entitled to receive an annuity through the teachers' insurance and annuity association of America - college retirement equities fund (TIAA-CREF) as a result of having participated in the North Dakota state board of higher education TIAA-CREF retirement plan for North Dakota state institutions of higher education.

SECTION 5. APPLICATION OF ACT. Section 1 of this Act applies only to individuals who begin receiving monthly benefits from the fund under chapter 15-39.1 after June 30, 1991, and applies to those benefits payable after June 30, 1991. Sections 2 and 4 of this Act apply to benefits payable after June 30, 1991.

supported for the 1991-92 school year or for the first year that they become unaccredited in the amount of the educational support per pupil established in subdivision a, which is the basis for calculating grants-in-aid on a per-pupil basis as provided in section 15-40.1-07, but those school districts are not entitled to the amounts resulting from applying the factors in that section. Any high school that becomes accredited is entitled to the per-pupil payments provided for in section 15-40.1-07 for the entire school year in which the school becomes accredited.

- d. School districts operating elementary schools that are not accredited pursuant to the accreditation standards adopted by the superintendent of public instruction on July 1, 1992, or that become unaccredited in any succeeding school year must be supported for the 1992-93 school year or for the first year that they become unaccredited in the amount of the educational support per pupil established in subdivision a, which is the basis for calculating grants-in-aid on a per-pupil basis as provided in section 15-40.1-08, except that the amount of aid that a school district is entitled to under this subsection for each elementary school that is unaccredited must be reduced by two hundred dollars times the number of pupils in the school each year that the elementary school is unaccredited. Any elementary school that becomes accredited is entitled to the per-pupil payments provided for in section 15-40.1-08 for the entire school year in which the school becomes accredited.
3. 4. No school district may receive foundation payments beyond the October payment unless the following reports have been filed with the superintendent of public instruction:

Final notice of the determination not to renew a contract must be given in writing by May first as provided in section 15-47-27.

### **SPECIAL EDUCATION PROGRAM FUNDING INTENT**

AN ACT to amend and reenact section 15-59-02.1 of the North Dakota Century Code, relating to legislative intent and special education cost sharing.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-59-02.1 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-59-02.1. Legislative intent - Special education. This statement of legislative intent is provided to define more clearly the relationship between the state, school districts, and parents of handicapped children in the provision of special education and related services. "Related services" means transportation and such developmental and corrective or supportive services required to assist a handicapped child to benefit from special education.

The school administrator or his appointed representative or director of special education other than the child's teacher is responsible for bringing together professionals and parents to share assessment information related to all areas of suspected disability, develop an individualized education program plan for the handicapped student, and make recommendations for required special education and related services.

The legislative assembly believes that in order to assure equality of services which are provided for by limited state funds, the department of public instruction will be required to approve a contract for services based on an individualized education program developed for each handicapped student placed in a private school program or in programs outside the student's original special education unit.

The legislative assembly believes that when money is distributed to a school district for special education personnel, the department of public instruction should give consideration to the units of services provided by the district, the district's special education program costs, and the district's special education program needs.

The legislative assembly recognizes that a handicapped student whose individualized education program so requires is entitled to an educational program in excess of one hundred eighty days per year if regression caused by an interruption in educational programming, together with a student's limited recoupment capacity, renders it impossible or unlikely that the student will attain the level of self-sufficiency and independence from caretakers that the student would otherwise be expected to reach in view of the handicapping

condition. All summer programs attended by these students must have approval of the department of public instruction before receiving foundation aid or state special education reimbursement.

In the case of handicapped students who require boarding care away from the family residence in order to receive special education and related services in an approved program, it is the intent of the legislative assembly that the instructional costs and costs of related services, including boarding care, be borne by state special education funds and school district funds.

"All handicapped children have the right to a free appropriate education" means that all handicapped students have the right to special education and related services which must be provided at no cost to parents. "At no cost" means specifically designed instruction provided without charge but does not preclude expenses normally incurred or charged to parents of nonhandicapped children. Parents will assume such costs for a handicapped child as they would if the child was not handicapped. Personal items, including, but not limited to, hearing aids, eyeglasses, routine medical expenses, physical exams, medications, and all items necessary for a nonhandicapped child, will be the financial responsibility of the parent.

School districts must require use of family insurance, or similar third party payments, in whatever amount is allowed, as long as there is no financial loss to the child or the child's parent, for determining a child's medically related handicapping condition or other required related services which results in the child's need for special education. It is the school district's responsibility to assume costs not covered by the insurer or similar third party in the above situation.

The school district in which a handicapped student resides is responsible to provide transportation for the student as prescribed in the student's individualized education program.

Costs of transportation for the student to attend an approved special education program are the responsibility of the school district with aid from the department of public instruction.

The district of residence may use any reasonably prudent and safe means of transportation at its disposal to carry out the requirements of the individualized education program. Such means may include, but not be limited to, a regularly scheduled schoolbus, public or commercial transportation where appropriate, charter or specially contracted transportation, or transportation provided by a handicapped student's parent or other responsible party at school district expense.

If the transportation between the district of residence and the educational facility is provided by the parents, the reimbursement to the school district from department of public instruction funds must be for mileage costs only and may not include per diem costs for meals, lodging, lost wages, or other costs of any kind.

As the state department of health and consolidated laboratories human services has authority under chapter 25-16 to provide early intervention services to meet the needs of handicapped children ages zero through two years, the legislative assembly recognizes this provision and requires the department of public instruction, the state department of health and consolidated laboratories, and the department of human services to cooperate in planning and coordinating programs for these children.

AN ACT to create and enact a new section to chapter 15-59 of the North Dakota Century Code, relating to payment of attorneys' fees to the parent or guardian of a handicapped child or a handicapped adult in certain cases; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 15-59 of the North Dakota Century Code is created and enacted as follows:

Enforcement of right to education - Attorneys' fees. Each parent or guardian of a handicapped child as defined in subsection 3 of section 15-59-01, or a handicapped adult between the ages of eighteen and twenty-one is entitled to enforce that handicapped child's or handicapped adult's right to an education guaranteed by state and federal law, through an administrative proceeding, civil action, or other remedy available by common law or statute. The methods of sampling and analysis shall be those adopted by the department from sources such as the journal of the association of official agricultural chemists.

The department, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided solely by the official sample as defined in subsection 9 of section 19-13.1-02 and obtained and analyzed as provided for in this section. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded, the results of analysis shall be forwarded by the department to the distributor and the purchaser. Upon request within thirty days the department shall furnish to the distributor a portion of the sample concerned.

1. For the purpose of enforcement of this chapter, and in order to determine whether its provisions have been complied with, including whether or not any operations may be subject to such provisions, officers or employees duly designated by the department, upon presenting appropriate credentials, and a written notice to the owner, operator, or agent in charge, are authorized to enter, during normal business hours, any factory, warehouse, or establishment within the state in which commercial feeds are manufactured, processed, packed, or held for distribution, or to enter any vehicle being used to transport or hold such feeds; and to inspect at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling therein. The inspection may include the verification of only such records, and production and control procedures as may be necessary to determine compliance with the good manufacturing practice rules established under subsection 6 of section 19-13.1-07.
2. A separate notice must be given for each such inspection, but a notice is not required for each entry made during the period covered by the inspection. Each inspection must be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle must be so notified.
3. If the officer or employee making an inspection of a factory, warehouse, or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the officer or employee shall give to the owner, operator, or agent in charge a receipt describing the samples obtained.

4. If the owner, or agent of the owner, of any factory, warehouse, or establishment described in subsection 1, refuses to admit the officer or agent to inspect in accordance with this section, the department is authorized to obtain a warrant from any state court directing the owner or the owner's agent to submit the premises described in the warrant to inspection.
5. Any agent of the department is authorized to enter upon any public or private premises including any vehicle of transport during regular business hours to have access to, and to obtain samples, and to examine records relating to distribution of commercial feeds to enforce this chapter.
6. Sampling and analysis must be conducted in accordance with methods published by the association of official analytical chemists, or in accordance with other generally recognized methods.
7. The results of all analyses of official samples must be forwarded by the department to the person named on the label and to the purchaser. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded, the registrant may request a portion of the sample concerned within thirty days following receipt of the analysis.
8. In determining for administrative purposes whether a commercial feed is deficient in any component, the department must be guided by the official sample obtained and analyzed as provided for in this chapter.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 19-18 of the North Dakota Century Code is created and enacted as follows:

Environment and rangeland protection fund. The environment and rangeland protection fund is a special fund in the state treasury. The moneys in this fund may be used for rangeland improvement projects. These projects include noxious weed control; ground water testing, analysis, protection, and improvement; analysis of food products for residues of pesticides and other materials; and analysis and disposal of unusable pesticides and pesticide containers.

SECTION 2. A new section to chapter 19-18 of the North Dakota Century Code is created and enacted as follows:

Advisory board - Creation - Duties. The state health officer shall appoint and consult with a six-member advisory board regarding the testing and analyzing of North Dakota food and agricultural products for pesticide residue. The board must consist of a representative of a food processing company, a representative of the North Dakota agricultural experiment station, two representatives of North Dakota farm organizations, an individual representing agribusiness organizations, and a representative of the commissioner of agriculture.

SECTION 3. AMENDMENT. Section 19-18-04 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

19-18-04. Registration - Fees. Any person before selling or offering for sale any pesticide for use within this state shall file annually with the department an application for registration of such pesticide. The application must:

1. Give the name and address of each manufacturer or distributor.
2. Give the name and brand of each product registered.
3. Be accompanied by a current label of each product so registered.

4. Be accompanied by an inspection a registration fee of twenty-five one hundred fifty dollars for each product registered. But in cases where the registration fees have been paid by the manufacturer, jobber, or any person, as required by this section, then in that event nothing in this section may be construed as applying to retail dealers selling pesticides. At the close of each calendar month, the department shall transmit to the state treasurer all moneys received for such licenses registrations. The state treasurer shall credit such moneys twenty-five dollars for each registered product to the general fund of the state in the state treasury and the remainder of the registration fee for each registered product to the environment and rangeland protection fund.
5. Be accompanied by a material safety data sheet.

The department may require an applicant or registrant to provide efficacy, toxicity, residue, and any other data necessary to determine if the pesticide will perform its intended function without unreasonable adverse effects on the environment. If the department finds that the application conforms to law, the department shall issue to the applicant a certificate of registration of the product. If after public hearing before the department the application is denied, the product may not be offered for sale.

Each registration expires on the thirty-first of December following its issuance. A certificate of registration may not be issued for a term longer than one year, and is not transferable from one person to another, or from the ownership to whom issued to another ownership, or from one place to another place or location. A penalty of fifty percent of the license or registration fee must be imposed if the license or certificate of registration is not applied for on or before January first of each year, or within the same month such pesticides are first manufactured or sold within this state.

This section does not apply to a pesticide sold by a retail dealer if the registration fee has been paid by the manufacturer, jobber, or any other person, as required by this section.

SECTION 4. APPROPRIATION. SECTION 6. APPROPRIATION PRIORITY. If available moneys in the environment and rangeland protection fund are insufficient to fully fund all appropriations made from the fund by the fifty-second legislative assembly for the 1991-93 biennium, all other appropriations must be made from the fund prior to making the appropriation for noxious weed control as set forth in section 5 of this Act.

19-20.1-02. Definitions of words and terms. When used in this chapter:

- 00.1. "Auxiliary soil and plant substance" means any ~~chemical or biological substance or mixture of substances or device distributed in this state to be applied to soil, plants, or seeds for soil corrective purposes; or which is intended to improve germination, growth, yield, product quality, reproduction, flavor, or other desirable characteristics of plants; or which is intended to produce any chemical, biochemical, biological, or physical change in soil; except the following:~~

- a. Commercial fertilizers.
- b. Agricultural liming materials.
- c. Unmanipulated animal manures.
- d. Unmanipulated vegetable manures.
- e. Pesticides.

The term includes commercial fertilizers if the fertilizer is represented to contain, as an active ingredient, a substance other than a primary plant nutrient, or micronutrient or is represented as promoting plant growth by supplying something other than a primary plant nutrient or micronutrient.

1. "Brand" means a term, design, or trademark used in connection with one or several grades of commercial fertilizer or, soil amendments, auxiliary soil and or plant substance amendments.
2. "Bulk" means in a nonpackaged form.
3. "Commercial fertilizer" means any substance containing one or more primary plant nutrients which is used for its plant nutrient content and which is designed for use or claimed to have value in promoting plant growth, except unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and other products excluded by department regulation. The term includes:
  - a. "Agricultural fertilizer" which must contain a minimum of fifteen percent primary plant nutrients.
  - b. "Specialty fertilizer" which is distributed primarily for nonfarm use, such as home gardens, lawns, shrubbery, flowers, golf courses, municipal parks, cemeteries, greenhouses, and nurseries.
  - c. "Micronutrient" which contains essential chemical elements which are required at low levels for normal plant growth.
  - d. "Fertilizer material" is a commercial fertilizer which:
    - (1) Contains no more than one of the primary plant nutrients;
    - (2) Has approximately eighty-five percent of its primary plant nutrient content present in the form of a single chemical compound; or
    - (3) Is derived from a plant or animal residue or byproduct or a natural material deposit which has been processed in such a way that its content of primary plant nutrients has not been materially changed except by purification or concentration. "Compost" is a material derived primarily or entirely from biological decomposition of vegetative organic matter or animal manure that does not have inorganic fertilizer added other than to promote decomposition.

4. "Deficiency" means that amount of plant nutrient or active ingredient found by analysis is less than the amount guaranteed resulting from a lack of nutrient or active ingredients or from lack of uniformity.
- 4- 5. "Distributor" means any person who imports, consigns, manufactures, produces, compounds, mixes, or blends commercial fertilizer or, soil amendments, auxiliary soil and or plant substances amendments, or who sells commercial or offers for sale fertilizer or, soil amendments, or auxiliary soil and plant substances amendments in this state.
6. "Fertilizer" means any substance containing one or more recognized plant nutrients which is used for its plant nutrient content and which is designed for use or claimed to have value in promoting plant growth, except unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and other products excluded by department regulation.
7. "Fertilizer material" is a fertilizer which either:
- a. Contains no more than one of the primary plant nutrients;
  - b. Has approximately eighty-five percent of its primary plant nutrient content present in the form of a single chemical compound; or
  - c. Is derived from a plant or animal residue or byproduct or a natural material deposit which has been processed in such a way that its content of primary plant nutrients has not been materially changed except by purification or concentration.
8. "Foliar fertilizer" means a fertilizer designed and ordinarily applied directly to growing plant foliage to stimulate further growth.
- 5- 9. "Grade" means the percentages of total nitrogen, available phosphorus or phosphoric acid, and soluble potassium or soluble potash stated in the same terms, order, and percentages as in the "guaranteed analysis".
- 6- Until the department prescribes the alternative form of "guaranteed analysis" in accordance with the provisions of this subsection, "guaranteed "Guaranteed analysis" shall mean means the minimum percentage of plant nutrients claimed in the following order and form:
- a. Total Nitrogen (N) - - - - - percent  
Available Phosphoric Acid ( $P_2O_5$ ) - - - - - percent  
Soluble Potash ( $K_2O$ ) - - - - - percent
  - b. For unacidulated mineral phosphatic materials and basic slag, both total and available phosphoric acid and the degree of fineness. For bone, tankage, and other organic phosphatic materials, total phosphoric acid.

- c. Guarantees for plant nutrients other than nitrogen, phosphorus, and potassium may be permitted or required by regulation of the department. The guarantees for such other nutrients shall be expressed in the form of the element. The sources of such other nutrients, oxides, salt, chelates, etc., may be required to be stated on the application for registration and may be included as a parenthetical statement on the label. Other beneficial substances or compounds, determinable by laboratory methods, also may be guaranteed by permission of the department and with the advice of the director of the agricultural experiment station. When any plant nutrients or other substances or compounds are guaranteed, they shall be subject to inspection and analysis in accord with the methods and regulations prescribed by the department.
- d. Potential basicity or acidity expressed in terms of calcium carbonate equivalent in multiples of one hundred pounds {45.36 kilograms} per ton {907.18 kilograms} when required by regulation. At any time after July 1, 1967, when the department finds, after public hearing following due notice, that the requirement for expressing the guaranteed analysis of phosphorus and potassium in the elemental form would not impose an economic hardship on distributors and users of fertilizer by reason of conflicting labeling requirements among the states, it may require by regulation thereafter that the "guaranteed analysis" shall be in the following form:

Total Nitrogen (N)    - - - - - percent

Available Phosphorus (P) - - - - - percent

Soluble Potassium (K)  - - - - - percent

Provided, however, that the effective date of said regulation shall be not less than six months following the issuance thereof; and provided, further, that for a period of two years following the effective date of said regulation, the equivalent of phosphorus and potassium may also be shown in the form of phosphoric acid and potash; provided, however, that after the effective date of a regulation issued under the provisions of this section, requiring that phosphorus and potassium be shown in the elemental form, the guaranteed analysis for nitrogen, phosphorus, and potassium shall constitute the grade.

- e. The minimum quantity of each active ingredient contained in soil amendments, auxiliary soil and plant substances, shall be guaranteed in terms approved by the department or prescribed by its rules.

~~6.~~ 10. "Inert" means any ingredient not active.

11. "Investigational allowance" means an allowance for variations inherent in the taking, preparation, and analysis of an official sample of fertilizer, soil amendment, or plant amendment.

15. "Micronutrient" means a fertilizer that contains only essential chemical elements that are required at low levels for normal plant growth.
- ~~9-~~ 16. "Mobile mechanical unit" means any portable machine or apparatus used to blend, mix, or manufacture ~~fertilizer materials~~ fertilizers, soil ~~amendment,~~ ~~auxiliary soil and~~ amendments, or plant ~~substance~~ amendments.

Available Phosphoric Acid ( $P_2O_5$ ) \_\_\_\_\_ percent

Soluble Potash ( $K_2O$ ) \_\_\_\_\_ percent

2. For unacidulated mineral phosphatic materials and basic slag, bone, tannage, and other organic phosphatic materials, the total phosphoric acid or degree of fineness, or both, may also be guaranteed.
3. Guarantees for plant nutrients other than nitrogen, phosphorus, and potassium may be permitted or required by rules adopted by the department. The guarantees for such other nutrients must be expressed in the form of the element. The sources of other nutrients including oxides, salt, and chelates may be required to be stated on the application for registration and may be included as a parenthetical statement on the label. Other beneficial substances or compounds, determinable by laboratory methods, also may be guaranteed by permission of the department and with the advice of the director of the agricultural experiment station. When any plant nutrients or other substances or compounds are guaranteed, they are subject to inspection and analysis in accord with the methods and rules prescribed by the department.
4. The department may, by rule, require potential basicity or acidity expressed in terms of calcium carbonate equivalent in multiples of one hundred pounds [45.36 kilograms] per ton [907.18 kilograms].
5. At any time after July 1, 1967, when the department finds, after public hearing following due notice, that the requirement for expressing the guaranteed analysis of phosphorus and potassium in the elemental form would not impose an economic hardship on distributors and users of fertilizer by reason of conflicting labeling requirements among the states, it may require by rule that the guaranteed analysis be in the following form:

Total Nitrogen (N) \_\_\_\_\_ percent

Available phosphorus (P) \_\_\_\_\_ percent

Soluble Potassium (K) \_\_\_\_\_ percent

The effective date of a rule under this subsection may not be less than six months following the issuance of the rule and for a period of two years following the effective date of the rule the equivalent of phosphorus and potassium may also be shown in the form of phosphoric acid and potash. After the effective date of a rule issued under this section, requiring that phosphorus and potassium be shown in the elemental form, the guaranteed analysis for nitrogen, phosphorus, and potassium constitutes the grade.

6. The guaranteed analysis of a soil amendment or plant amendment must be an accurate statement of composition including the percentages of each ingredient. If the product is a microbiological product, the number of viable microorganisms per milliliter for a liquid or the number of viable microorganisms per gram for a dry product must also be listed.

SECTION 2. AMENDMENT. Section 20.1-01-06 of the North Dakota Century Code is amended and reenacted as follows:

20.1-01-06. ~~Going~~ Being afield with gun or other firearm ~~when or bow and arrow while~~ intoxicated prohibited - Penalty. No person ~~shall go~~ may be afield at any time, with a gun or other firearm, ~~when or a bow and arrow, while~~ intoxicated or under the influence of alcoholic beverages or drugs. Upon conviction of a person for violating this section, ~~his~~ that person's hunting license ~~shall become~~ is void. The judge of the convicting court shall take the license, mark it revoked, and send it to the department. If the conviction is reversed on appeal, the license ~~shall~~ must be restored to the defendant. Game wardens, including special wardens, ~~shall~~ have the authority of a general peace officer in the enforcement of this section. In addition to the penalty provided in this chapter, any person convicted of committing a subsequent offense under this section ~~shall be~~ is ineligible for a hunting license in this state for two years from and after ~~such~~ the conviction.

SECTION 3. A new subsection to section 20.1-02-15.1 of the 1989 Supplement to the North Dakota Century Code is created and enacted as follows:

To enforce sections 4 through 18 of this Act.

SECTION 4. Implied consent to determine alcoholic and drug content of blood. Any person who is afield with a gun or other firearm or a bow and arrow is deemed to have given consent, and shall consent, subject to sections 4 through 18, to a chemical test of the blood, breath, saliva, or urine for the purpose of determining the alcoholic, other drug, or combination thereof, content of the blood. As used in sections 4 through 18, "drug" means any drug or substance or combination of drugs or substances which renders a person incapable of safely hunting or being afield with a gun or other firearm or a bow and arrow, and "chemical test" means any test or tests to determine the alcoholic, or other drug, or combination thereof, content of the blood, breath, saliva, or urine, approved by the state toxicologist under sections 4 through 18. The chemical test must be administered at the direction of a game warden or a law enforcement officer only after placing the person, except persons mentioned in section 7, under arrest and informing that person that the person is or will be charged with the offense of being afield with a gun or other firearm or a bow and arrow while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of sections 4 through 18, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The game warden or law enforcement officer shall also inform the person charged that refusal of the person to submit to the chemical test determined appropriate will result in a revocation for up to four years of the person's hunting privileges. The game warden or law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating section 20.1-01-06, the game warden or law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the game warden or law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under sections 4 through 18.

SECTION 5. Chemical test of hunter in serious bodily injury or fatal accident. Notwithstanding section 4 or 9, when a hunter is involved in an accident resulting in the death or serious bodily injury, as defined in section 12.1-01-04, of another person, and there is probable cause to believe that the hunter is in violation of section 20.1-01-06, the hunter may be compelled by a game warden or a police officer to submit to a chemical test.

SECTION 6. Persons qualified to administer chemical test and opportunity for additional test. Only a physician, or a qualified technician, chemist, or registered nurse acting at the request of a game warden or a law enforcement officer may withdraw blood for the purpose of determining the alcoholic, drug, or combination thereof, content of the blood. This limitation does not apply to the taking of a breath, saliva, or urine specimen. The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of that person's own choosing administer a chemical test in addition to any administered at the direction of a game warden or a law enforcement officer with all costs of the additional chemical test to be the responsibility of the person charged. The failure or inability to obtain an additional chemical test by a person does not preclude the admission of the chemical test taken at the direction of a game warden or a law enforcement officer. Upon the request of the person who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, urine, or saliva sample test taken at the direction of the game warden

or law enforcement officer must be made available to that person by the department or law enforcement agency that administered the chemical test.

SECTION 7. Consent of person incapable of refusal not withdrawn. Any person who is dead, unconscious, or otherwise in a condition rendering that person incapable of refusal, is deemed not to have withdrawn the consent provided by section 4 and the chemical test may be given.

SECTION 8. Action following chemical test result for a hunter. If a person submits to a chemical test under section 4, 6, or 7 and the test shows that person to have an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of the test within two hours after being afield with a gun or other firearm or a bow and arrow, the following procedures apply:

1. The game warden or law enforcement officer shall immediately issue a statement of intent to revoke, suspend, or deny hunting privileges and take possession of the person's hunting license if it is then available. The issuance of a statement of intent to revoke, suspend, or deny hunting privileges and the taking of possession of the person's hunting license serves as the commissioner's official notification to the person of the commissioner's intent to revoke, suspend, or deny hunting privileges in this state.
2. If a chemical test administered under section 4 or 7 was by saliva or urine sample or by drawing blood as provided in section 6 and the person tested does not reside in an area in which the game warden or law enforcement officer has jurisdiction, the game warden or law enforcement officer shall, on receiving the analysis of the saliva, urine, or blood from the state toxicologist and if the analysis shows that person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that person's reappearance within the game warden's or officer's jurisdiction or notify a game warden or law enforcement agency having jurisdiction where the person resides. On that notification, that game warden or law enforcement agency shall immediately issue a statement of intent to revoke, suspend, or deny hunting privileges and take possession of the person's hunting license if it is then available and, within twenty-four hours, forward the license to the game warden or law enforcement agency making the arrest or to the commissioner. The issuance of a statement of intent to revoke, suspend, or deny hunting privileges and the taking of possession of the person's hunting license serves as the commissioner's official notification to the person of the commissioner's intent to revoke, suspend, or deny hunting privileges in this state.
3. The game warden or law enforcement officer, within five days of issuing the statement of intent and taking possession of the hunting license, shall forward to the commissioner a certified written report in the form required by the commissioner and the person's hunting license taken under subsection 1 or 2. If the notice was given and the license was taken because of the results of a chemical test, the report must show that the game warden or officer had reasonable grounds to believe the person had been

afield with a gun or other firearm or a bow and arrow while in violation of section 20.1-01-06, that the person was lawfully arrested, that the person was chemically tested under sections 4 through 18, and that the results of the test show that the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. In addition to the report, the game warden or law enforcement officer shall forward to the commissioner a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, saliva, or urine test for all tests administered at the direction of the game warden or officer.

SECTION 9. Revocation of privilege to hunt upon refusal to submit to testing.

1. If a person refuses to submit to testing under section 4 or 18, no chemical test may be given, but the game warden or law enforcement officer shall immediately issue a statement of intent to revoke, suspend, or deny hunting privileges and take possession of the person's hunting license if it is then available. The issuance of a statement of intent to revoke, suspend, or deny hunting privileges and the taking of possession of the person's hunting license serves as the commissioner's official notification to the person of the commissioner's intent to revoke hunting privileges in this state and of the hearing procedures under sections 4 through 18. The commissioner, upon the receipt of that person's hunting license and a certified written report of the game warden or law enforcement officer in the form required by the commissioner, forwarded by the warden or officer within five days after issuing the statement of intent and taking possession of the person's hunting license, showing that the warden or officer had reasonable grounds to believe the person had been afield with a gun or other firearm or a bow and arrow while in violation of section 20.1-01-06 or, for purposes of section 18, had reason to believe and had, through personal observations, formulated an opinion that the person's body contains alcohol, other drugs, or a combination thereof, that the person was lawfully arrested if applicable, and that the person had refused to submit to the chemical test under section 4 or 18, shall revoke that person's hunting privileges for the appropriate period under this section, or if the person is without hunting privileges in this state, the commissioner shall deny to the person hunting privileges for the appropriate period under this section after the date of the alleged violation, subject to the opportunity for a prerevocation hearing and postrevocation review as provided in sections 4 through 18. In the revocation of the person's hunting privileges the commissioner shall give credit for time in which the person was without hunting privileges after the day of the person's refusal to submit to the chemical test. The period of revocation or denial of hunting privileges under this section is:
  - a. Two years if the person's record shows that within the five years preceding the most recent refusal under this section, the person's hunting privileges have not previously been suspended, revoked, or issuance of a license denied for a violation of sections 4 through 18 or section 20.1-01-06.

- b. Three years if the person's record shows that within the five years preceding the most recent refusal under this section, the person's hunting privileges have been once previously suspended, revoked, or issuance of a license denied for a violation of sections 4 through 18 or section 20.1-01-06.
  - c. Four years if the person's record shows that within the five years preceding the most recent refusal under this section, the person's hunting privileges have at least twice previously been suspended, revoked, or issuance of a license denied under sections 4 through 18, or for a violation of section 20.1-01-06 and the suspensions, revocations, or denials resulted from at least two separate arrests.
2. A person's hunting privileges are not subject to revocation under this section if:
- a. No administrative hearing request is made under section 11;
  - b. The person mails an affidavit to the commissioner within ten days after the game warden or law enforcement officer issues the statement of intent and takes possession of that person's hunting license. The affidavit must state that the person:
    - (1) Intends to voluntarily plead guilty to violating section 20.1-01-06 within twenty-five days after the game warden or law enforcement officer issues the statement of intent and takes possession of the person's hunting license;
    - (2) Agrees that the person's hunting privileges must be suspended;
    - (3) Acknowledges the right to a section 11 administrative hearing and section 12 judicial review and voluntarily and knowingly waives these rights; and
    - (4) Agrees that the person's hunting privileges must be revoked as provided under this section without an administrative hearing or judicial review, if the person does not plead guilty within twenty-five days after the game warden or law enforcement officer issues the statement of intent and takes possession of the person's hunting license, or the court does not accept the guilty plea, or the guilty plea is withdrawn;
  - c. The person pleads guilty to violating section 20.1-01-06 within twenty-five days after the game warden or law enforcement officer issues the statement of intent and takes possession of the person's hunting license;
  - d. The court accepts the person's guilty plea and a notice of that fact is mailed to the commissioner within twenty-five days after the game warden or law enforcement officer issues the statement of intent and takes possession of the person's hunting license; and

- e. A copy of the final order or judgment of conviction evidencing the acceptance of the person's guilty plea is received by the commissioner prior to the return or reinstatement of the person's hunting privileges.
3. The court shall mail a copy of an order granting a withdrawal of a guilty plea to violating section 20.1-01-06 to the commissioner within ten days after it is ordered. Upon receipt of the order, the commissioner immediately shall revoke the person's hunting privileges as provided under this section without providing an administrative hearing.

SECTION 10. Administrative sanction for being afield with a gun or other firearm or a bow and arrow while having certain drug concentrations.

1. After the receipt of a person's hunting license, if taken under section 8, and the certified report of a game warden or a law enforcement officer and if no written request for hearing has been received from the arrested person under section 11, or if that hearing is requested and the findings, conclusion, and decision from the hearing confirm that the game warden or law enforcement officer had reasonable grounds to arrest the person and chemical test results show that the arrested person had been afield with a gun or other firearm or a bow and arrow while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a test within two hours after being afield with a gun or other firearm or a bow and arrow, the commissioner shall suspend the person's hunting privileges as follows:
  - a. For one year if the person's record shows that, within the five years preceding the date of the arrest, the person has not previously violated section 20.1-01-06 or the person's hunting privileges have not previously been suspended or revoked under sections 4 through 18.
  - b. For two years if the person's record shows that, within the five years preceding the date of the arrest, the person has once previously violated section 20.1-01-06 or the person's hunting privileges have once previously been suspended or revoked under sections 4 through 18.
  - c. For three years if the person's record shows that within the five years preceding the date of the arrest, the person's hunting privileges have at least twice previously been suspended, revoked, or issuance denied under sections 4 through 18, or for a violation of section 20.1-01-06, or any combination thereof, and the suspensions, revocations, or denials resulted from at least two separate arrests.
2. In the suspension of the person's hunting privileges the commissioner shall give credit for the time the person was without a hunting license after the day of the offense.

SECTION 11. Administrative hearing on request.

1. Before issuing an order of suspension, revocation, or denial under section 9 or 10, the commissioner shall afford that person an opportunity for a hearing if the person mails a request for the hearing to the commissioner within ten days after the date the game warden or law enforcement officer issued a statement of intent to revoke, suspend, or deny hunting privileges and took possession of that person's hunting license. The hearing must be held within twenty-five days after the date the game warden or law enforcement officer issued a statement of intent to revoke, suspend, or deny hunting privileges and took possession of that person's hunting license, but the hearing officer may extend the hearing to within thirty-five days after the date the game warden or law enforcement officer issued a statement of intent to revoke, suspend, or deny hunting privileges and took possession of that person's hunting license if good cause is shown.
2. If the issue to be determined by the hearing concerns suspension of hunting privileges for being afield with a gun or other firearm or a bow and arrow while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the commissioner and at a time and place designated by the commissioner. The hearing must be recorded and its scope may cover only the issues of whether the arresting warden or officer had reasonable grounds to believe the person had been afield with a gun or other firearm or bow and arrow in violation of section 20.1-01-06; whether the person was placed under arrest; whether the person was tested in accordance with section 4 or 7 and, if applicable, section 6; and whether the chemical test results show the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, urine, or saliva sample from the office of the state toxicologist, or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol, other drug, or a combination thereof concentration shown therein. Whether the person was informed that the privilege to hunt might be suspended based on the results of the chemical test is not an issue.
3. If the issue to be determined by the hearing concerns revocation of hunting privileges for refusing to submit to a chemical test under section 4 or 18, the hearing must be before a hearing officer assigned by the commissioner at a time and place designated by the commissioner. The hearing must be recorded. The scope of a hearing for refusing to submit to a chemical test under section 4 may cover only the issues of whether a game warden or law enforcement officer had reasonable grounds to believe the person had been afield with a gun or other firearm or a bow and arrow in violation of section 20.1-01-06; whether the person was placed under arrest; and whether that person refused to submit to the chemical test. The scope of a hearing for refusing to submit to a chemical test under section 18 may cover only the issues of whether the game warden or law enforcement officer had reason to believe and had, through the officer's observations, formulated an opinion that the person's body contains alcohol, other drugs, or a combination thereof and whether the person refused to submit to the

onsite screening test. Whether the person was informed that the privilege to hunt would be revoked or denied for refusal to submit to the test is not an issue.

4. At a hearing under this section, the regularly kept records of the commissioner may be introduced. Those records establish prima facie their contents without further foundation. For purposes of sections 4 through 18, any copy of a certified copy of an analytical report of a blood, urine, or saliva sample received by the commissioner from the office of the state toxicologist or a game warden or a law enforcement officer, a certified copy of the checklist and test records received by the commissioner from a certified breath test operator, and any copy of a certified copy of a certificate of the office of the state toxicologist relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol, other drug, or a combination thereof concentration received by the commissioner from the office of the state toxicologist or the clerk of district court, are regularly kept records of the commissioner.
5. At the close of the hearing, the hearing officer shall notify the person of the hearing officer's findings of fact, conclusions of law, and decision based on the findings and conclusions and shall immediately deliver to the person a copy of the decision. If the hearing officer does not find in favor of the person, the copy of the decision serves as the commissioner's official notification to the person of the revocation, suspension, or denial of hunting privileges in this state. The hearing officer shall report the findings, conclusions, and decisions to the commissioner within ten days of the conclusion of the hearing. If the hearing officer has determined in favor of the person, the commissioner shall return the person's hunting license.
6. If the person who requested a hearing under this section fails to appear at the hearing without justification, the right to the hearing is waived, and the hearing officer's determination on the revocation, suspension, or denial of hunting privileges will be based on the written request for hearing, game warden's or law enforcement officer's report, and other evidence as may be available. The hearing officer shall, on the date for which the hearing is scheduled, mail to the person, by regular mail, at the address on file with the commissioner, or at any other address for the person or the person's legal representative supplied in the request for hearing, a copy of the decision which serves as the commissioner's official notification to the person of the revocation, suspension, or denial of hunting privileges in this state. Even if the person for whom the hearing is scheduled fails to appear at the hearing, the hearing is deemed to have been held on the date for which it is scheduled for purposes of appeal under section 12.

SECTION 12. Judicial review. Any person whose hunting privileges have been suspended, revoked, or denied by the decision of the hearing officer under section 11 may appeal within seven days after the date of the hearing under section 11 as shown by the date of the hearing officer's decision, notwithstanding section 28-32-15, by serving on the commissioner and filing a notice of appeal and specifications of error in the district court in the

county where the events occurred for which the demand for a chemical test was made, or in the county in which the administrative hearing was held. The court shall set the matter for hearing, and the petitioner shall give twenty days' notice of the hearing to the commissioner and to the hearing officer who rendered the decision. Neither the commissioner nor the court may stay the decision pending decision on appeal. Within fifteen days after receipt of the notice of appeal, the commissioner or the hearing officer who rendered the decision shall file in the office of the clerk of court to which the appeal is taken a certified transcript of the testimony and all other proceedings. This record is the record on which the appeal must be determined. No additional evidence may be heard. The court shall affirm the decision of the commissioner or hearing officer unless it finds the evidence insufficient to warrant the conclusion reached by the commissioner or hearing officer. The court may direct that the matter be returned to the commissioner or hearing officer for rehearing and the presentation of additional evidence.

SECTION 13. Credit for suspension of hunting privileges. After conviction of a person for violating section 20.1-01-06, the commissioner, in suspending the person's hunting privileges, shall give credit for the time in which the suspension or revocation of hunting privileges has been or is being imposed under sections 4 through 18 in connection with the same offense.

SECTION 14. Interpretation of chemical tests. Upon the trial of any action or proceeding arising out of acts alleged to have been committed by any person while being afield with a gun or other firearm or a bow and arrow while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol, drugs, or a combination thereof in the person's blood at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible. For the purpose of this section:

1. A person having, at that time, an alcohol, other drug, or a combination thereof concentration of not more than five one-hundredths of one percent by weight is presumed not to be under the influence of intoxicating liquor, drugs, or a combination thereof.
2. Evidence that there was at that time more than five one-hundredths of one percent by weight alcohol, other drug, or a combination thereof concentration in a person is relevant evidence, but it is not to be given prima facie effect in indicating whether the person was under the influence of intoxicating liquor, drugs, or a combination thereof.
3. A person having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after being afield with a gun or other firearm or a bow and arrow is under the influence of intoxicating liquor, drugs, or a combination thereof at the time of being afield with a gun or other firearm or bow and arrow.
4. Alcohol concentration is based upon grams of alcohol per one hundred cubic centimeters of blood or grams of alcohol per two hundred ten liters of alveolar air or grams of alcohol per sixty-seven cubic centimeters of urine.

5. The results of the chemical test must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the state toxicologist, and by an individual possessing a certificate of qualification to administer the test issued by the state toxicologist. The state toxicologist is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the person requested to take the chemical test.
6. The state toxicologist may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the state toxicologist for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the persons qualified to administer them, the state toxicologist shall prepare and file written record of the approval with the director and the clerk of the district court in each county and shall include in the record:
  - a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
  - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.
  - c. The operational checklist and forms prescribing the methods currently approved by the state toxicologist in using the devices during the administration of the tests.

The material filed under this section may be supplemented when the state toxicologist determines it to be necessary, and any supplemental material has the same force and effect as the material that it supplements.
7. Copies of the records referred to in subsections 5 and 6, certified by the clerk of the district court, must be admitted as prima facie evidence of the matters stated in the records.
8. A certified copy of the analytical report of a blood, urine, or saliva test issued by the office of the state toxicologist must be accepted as prima facie evidence of the results of a chemical test performed under sections 4 through 18.
9. Notwithstanding any statute or rule to the contrary, the defendant in any criminal proceeding may subpoena, without cost to the defendant, the person who conducted the chemical test referred to in this section to testify at the trial on the issue of the amount of alcohol, drugs, or a combination thereof in the defendant's blood, breath, saliva, or urine at the time of the alleged act.

10. A signed statement from the nurse or medical technician drawing the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of such evidence may be required.

SECTION 15. Proof of refusal admissible in any action or proceeding. If the person under arrest refuses to submit to the chemical test, proof of refusal is admissible in any action or proceeding arising out of acts alleged to have been committed while the person was afield with a gun or other firearm or bow and arrow while under the influence of intoxicating liquor, drugs, or a combination thereof.

SECTION 16. Effect of evidence of chemical test. Sections 4 through 18 do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of intoxicating liquor, drugs, or a combination thereof, but, if the chemical test results show an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent, the purpose of the evidence must be limited to the issues of probable cause, whether an arrest was made prior to the administering of the test, and the validity of the test results.

SECTION 17. Liability. Any licensed physician, nurse, technician, or an employee of a hospital who draws blood from any person pursuant to a request of any arresting warden or officer is not liable in any civil action for damages arising out of the act except for gross negligence.

SECTION 18. Screening tests. Any person who is afield with a gun or other firearm or a bow and arrow is deemed to have given consent to submit to an onsite screening test of the person's breath for the purpose of estimating the alcohol, other drug, or a combination thereof content of the person's blood upon the request of a game warden or a law enforcement officer who has reason to believe and has, through the officer's observations, formulated an opinion that the person's body contains alcohol, other drugs, or a combination thereof. A person may not be required to submit to a screening test of breath while at a hospital as a patient if the medical practitioner in immediate charge of the person's case is not first notified of the proposal to make the requirement, or objects to the test on the ground that such would be prejudicial to the proper care or treatment of the patient. The screening test must be performed by a game warden or an enforcement officer certified as a chemical test operator by the state toxicologist and according to methods and with devices approved by the state toxicologist. The results of the screening test must be used only for determining whether a further test is to be given under the provisions of section 4. The officer shall inform the person that refusal of the person to submit to a screening test will result in a revocation for up to four years of that person's hunting privileges. If the person refuses to submit to the screening test, none may be given, but the refusal is sufficient cause to revoke the person's hunting privileges in the same manner as provided in section 9, and a hearing as provided in section 11 and a judicial review as provided in section 12 must be available. However, the commissioner may not revoke a person's hunting privileges for refusing to submit to a screening test requested under this section if the person provides a sufficient breath, blood, or urine sample for a chemical test requested under section 4 for the same incident. This section does not supersede any provisions of sections 4 through 17, nor does any provision of sections 4 through 17 supersede this section except as provided herein. For the purposes of this section, "chemical test operator" means a person certified by the state toxicologist as qualified to perform analysis for alcohol, other drugs, or a combination thereof in a person's blood, breath, saliva, or urine.

6. The replacement of wetlands requirement for each drainage proposal or project must be accomplished with approximately fifty percent of the replacement wetlands being located in the county or contiguous counties in which the proposed drainage is located, and with the other approximately fifty percent of replacement wetlands being located anywhere in this state. If the state engineer and the ~~commissioner~~ director jointly find that replacement wetland acres are not available in the county or contiguous counties where the proposed drainage is located, replacement wetlands may be obtained anywhere in the same biotic area.
7. Any purchase, easement, lease, or other acquisition under sections 61-32-01 through 61-32-11 may not obstruct the natural or existing flow of water of any natural watercourse or artificial channel to the detriment of any upstream or downstream landowner.

### BOATING WHILE INTOXICATED

AN ACT to provide for implied consent to chemical testing for purposes of determining intoxication while operating a motorboat or vessel; to create and enact a new subsection to section 20.1-02-15.1 of the North Dakota Century Code, relating to the powers of the game and fish commissioner, deputy commissioner, and game wardens; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new subsection to section 20.1-02-15.1 of the 1989 Supplement to the North Dakota Century Code is created and enacted as follows:

To enforce sections 2 through 15 of this Act.

SECTION 2. Implied consent to determine alcoholic and drug content of blood. Any person who operates a motorboat or vessel in this state is deemed to have given consent, and shall consent, subject to sections 2 through 15, to a chemical test, or tests, of the blood, breath, saliva, or urine for the purpose of determining the alcoholic, other drug, or combination thereof, content of the blood. As used in sections 2 through 15, "operates" means to be in motion, en route, but not at anchor or aground; "vessel" means any watercraft used or designed to be used for navigation on the water such as a boat operated by machinery, either permanently or temporarily affixed, a sailboat other than a sailboard, an inflatable manually propelled boat, a canoe, kayak, or rowboat, but does not include an inner tube, air mattress, or other water toy; "drug" means any drug or substance or combination of drugs or substances which renders a person incapable of safely operating a motorboat or vessel; and "chemical test" means any test or tests to determine the alcoholic, or other drug, or combination thereof, content of the blood, breath, saliva, or urine, approved by the state toxicologist under sections 2 through 15. The chemical test must be administered at the direction of a game warden or a law enforcement officer only after placing the person, except persons mentioned in section 5, under arrest and informing that person that the person is or will be charged with the offense of operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of sections 2 through 15, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The game warden or law enforcement officer shall also inform the person charged that refusal of the person to submit to the chemical test determined appropriate will result in that person being prohibited from operating a motorboat or vessel for up to three years. The game warden or law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating section

20.1-13-07, the game warden or law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the game warden or law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under sections 2 through 15.

SECTION 3. Chemical test of operator in serious bodily injury or fatal accident. Notwithstanding section 2 or 7, when the operator of a motorboat or vessel is involved in an accident resulting in the death or serious bodily injury, as defined in section 12.1-01-04, of another person, and there is probable cause to believe that the operator is in violation of section 20.1-13-07, the operator may be compelled by a game warden or a police officer to submit to a chemical test.

SECTION 4. Persons qualified to administer chemical test and opportunity for additional test. Only a physician, or a qualified technician, chemist, or registered nurse acting at the request of a game warden or a law enforcement officer may withdraw blood for the purpose of determining the alcoholic, drug, or combination thereof, content of the blood. This limitation does not apply to the taking of a breath, saliva, or urine specimen. The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of that person's own choosing administer a chemical test in addition to any administered at the direction of a game warden or a law enforcement officer with all costs of the additional chemical test to be the responsibility of the person charged. The failure or inability to obtain an additional chemical test by a person does not preclude the admission of the chemical test taken at the direction of a game warden or a law enforcement officer. Upon the request of the person who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, urine, or saliva sample test taken at the direction of the game warden or law enforcement officer must be made available to that person by the department or law enforcement agency that administered the chemical test.

SECTION 5. Consent of person incapable of refusal not withdrawn. Any person who is dead, unconscious, or otherwise in a condition rendering that person incapable of refusal, is deemed not to have withdrawn the consent provided by section 2 and the chemical test may be given.

SECTION 6. Action following chemical test result for a motorboat or vessel operator. If a person submits to a chemical test under section 2, 4, or 5 and the test shows that person to have an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of the test within two hours after the operating of a motorboat or vessel, the following procedures apply:

1. The game warden or law enforcement officer shall immediately issue a statement of intent to prohibit the person from operating a motorboat or vessel. The issuance of a statement of intent to prohibit the person from operating a motorboat or vessel serves as the commissioner's official notification to the person of the commissioner's intent to prohibit the person from operating a motorboat or vessel in this state.

2. If a chemical test administered under section 2 or 5 was by saliva or urine sample or by drawing blood as provided in section 4 and the person tested does not reside in an area in which the game warden or law enforcement officer has jurisdiction, the game warden or law enforcement officer shall, on receiving the analysis of the saliva, urine, or blood from the state toxicologist and if the analysis shows that person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that person's reappearance within the game warden's or officer's jurisdiction or notify a game warden or law enforcement agency having jurisdiction where the person resides. On that notification, that game warden or law enforcement agency shall immediately issue a statement of intent to prohibit the person from operating a motorboat or vessel. The issuance of a statement of intent to prohibit the person from operating a motorboat or vessel serves as the commissioner's official notification to the person of the commissioner's intent to prohibit the person from operating a motorboat or vessel in this state.
3. The game warden or law enforcement officer, within five days of issuing the statement of intent, shall forward to the commissioner a certified written report in the form required by the commissioner. If the statement was given because of the results of a chemical test, the report must show that the game warden or officer had probable cause to believe the person had been operating a motorboat or vessel while in violation of section 20.1-13-07, that the person was lawfully arrested, that the person was chemically tested under sections 2 through 15, and that the results of the test show that the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. In addition to the report, the game warden or law enforcement officer shall forward to the commissioner a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, saliva, or urine test for all tests administered at the direction of the game warden or officer.

**SECTION 7. Revocation of privilege to operate motorboat or vessel upon refusal to submit to testing.**

1. If a person refuses to submit to testing under section 2, no chemical test may be given, but the game warden or law enforcement officer shall immediately issue to that person a statement of intent to prohibit the person from operating a motorboat or vessel. The statement serves as the commissioner's official notification to the person of the commissioner's intent to prohibit the person from operating a motorboat or vessel in this state and of the hearing procedures under sections 2 through 15. The commissioner, upon the receipt of the certified written report of the game warden or law enforcement officer in the form required by the commissioner, forwarded by the warden or officer within five days after issuing the statement of intent, showing that the warden or officer had probable cause to believe the person had been operating a motorboat or vessel while in violation of section 20.1-13-07 or had observed that the motorboat or vessel was operated in a negligent, reckless, or hazardous manner as defined by the commissioner by rule, that

the person was lawfully arrested if applicable, and that the person had refused to submit to the chemical test under section 2, shall prohibit the person from operating a motorboat or vessel in this state for the appropriate period under this section. The period for which a person is prohibited from operating a motorboat or vessel under this section is:

- a. One year if the person's record shows that within the five years preceding the most recent refusal under this section, the person has not been prohibited from operating a motorboat or vessel for a violation of sections 2 through 15, or for a violation of section 20.1-13-07.
  - b. Two years if the person's record shows that within the five years preceding the most recent refusal under this section, the person has once been prohibited from operating a motorboat or vessel for a violation of sections 2 through 15, or for a violation of section 20.1-13-07.
  - c. Three years if the person's record shows that within the five years preceding the most recent refusal under this section, the person has twice been prohibited from operating a motorboat or vessel under sections 2 through 15, or for a violation of section 20.1-13-07, and the prohibitions resulted from at least two separate arrests.
2. A person may not be prohibited from operating a motorboat or vessel under this section if:
- a. No administrative hearing request is made under section 9;
  - b. The person mails an affidavit to the commissioner within ten days after the game warden or law enforcement officer issues the statement of intent. The affidavit must state that the person:
    - (1) Intends to voluntarily plead guilty to violating section 20.1-13-07 within twenty-five days after the game warden or law enforcement officer issues the statement of intent;
    - (2) Agrees that the person may not operate a motorboat or vessel for the appropriate period;
    - (3) Acknowledges the right to a section 9 administrative hearing and section 10 judicial review and voluntarily and knowingly waives these rights; and
    - (4) Agrees that the person may not operate a motorboat or vessel for the appropriate period as provided under this section without an administrative hearing or judicial review, if the person does not plead guilty within twenty-five days after the game warden or law enforcement officer issues the statement of intent, or the court does not accept the guilty plea, or the guilty plea is withdrawn;

- c. The person pleads guilty to violating section 20.1-13-07 within twenty-five days after the game warden or law enforcement officer issues the statement of intent;
  - d. The court accepts the person's guilty plea and a notice of that fact is mailed to the commissioner within twenty-five days after the game warden or law enforcement officer issues the statement of intent; and
  - e. A copy of the final order or judgment of conviction evidencing the acceptance of the person's guilty plea is received by the commissioner prior to the end of the prohibition from operating a motorboat or vessel.
3. The court shall mail a copy of an order granting a withdrawal of a guilty plea to violating section 20.1-13-07 to the commissioner within ten days after it is ordered. Upon receipt of the order, the commissioner immediately shall prohibit the person from operating a motorboat or vessel as provided under this section without providing an administrative hearing.

SECTION 8. Administrative sanction for operating motorboat or vessel while having certain drug concentrations. After the receipt of the certified report of a game warden or a law enforcement officer and if no written request for hearing has been received from the arrested person under section 9, or if that hearing is requested and the findings, conclusion, and decision from the hearing confirm that the game warden or law enforcement officer had probable cause to arrest the person and chemical test results show that the arrested person was operating a motorboat or vessel while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a test within two hours after operating a motorboat or vessel, the commissioner shall prohibit the person from operating any motorboat or vessel in this state as follows:

1. For ninety-one days if the person's record shows that, within the five years preceding the date of the arrest, the person has not previously violated section 20.1-13-07 or the person has not been prohibited from operating a motorboat or vessel under sections 2 through 15.
2. For three hundred sixty-four days if the person's record shows that, within the five years preceding the date of the arrest, the person has once previously violated section 20.1-13-07 or the person has once been prohibited from operating a motorboat or vessel under sections 2 through 15.
3. For two years if the person's record shows that within the five years preceding the date of the arrest, the person has twice been prohibited from operating a motorboat or vessel under sections 2 through 15, or for a violation of section 20.1-13-07, or any combination thereof, and the prohibitions resulted from at least two separate arrests.

SECTION 9. Administrative hearing on request.

1. Before prohibiting a person from operating a motorboat or vessel under section 7 or 8, the commissioner shall afford that person an opportunity for a hearing if the person mails a request for the hearing to the commissioner within ten days after the date the game warden or law enforcement officer issued a statement of intent to prohibit the person from operating a motorboat or vessel. The hearing must be held within twenty-five days after the date of issuance of the statement of intent, but the hearing officer may extend the hearing to within thirty-five days after the issuance of the statement of intent if good cause is shown.
2. If the issue to be determined by the hearing concerns the prohibition from operating a motorboat or vessel for operating a motorboat or vessel while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the commissioner and at a time and place designated by the commissioner. The hearing must be recorded and its scope may cover only the issues of whether the arresting warden or officer had probable cause to believe the person had been operating a motorboat or vessel in violation of section 20.1-13-07; whether the person was placed under arrest; whether the person was tested in accordance with section 2 or 5 and, if applicable, section 4; and whether the chemical test results show the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, urine, or saliva sample from the office of the state toxicologist, or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol, other drug, or a combination thereof concentration shown therein. Whether the person was informed that that person may be prohibited from operating a motorboat or vessel based on the results of the chemical test is not an issue.
3. If the issue to be determined by the hearing concerns the prohibition from operating a motorboat or vessel for refusing to submit to a chemical test under section 2, the hearing must be before a hearing officer assigned by the commissioner at a time and place designated by the commissioner. The hearing must be recorded. The scope of a hearing for refusing to submit to a chemical test under section 2 may cover only the issues of whether a game warden or law enforcement officer had probable cause to believe the person had been operating a motorboat or vessel in violation of section 20.1-13-07; whether the person was placed under arrest; and whether that person refused to submit to the chemical test.
4. At a hearing under this section, the regularly kept records of the commissioner may be introduced. Those records establish prima facie their contents without further foundation. For purposes of sections 2 through 15, any copy of a certified copy of an analytical report of a blood, urine, or saliva sample received by the commissioner from the office of the state toxicologist or a game warden or a law enforcement officer, a certified copy of the checklist and test records received by the commissioner from a certified breath test operator, and any copy of a certified copy of

a certificate of the office of the state toxicologist relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol, other drug, or a combination thereof concentration received by the commissioner from the office of the state toxicologist or the clerk of district court, are regularly kept records of the commissioner.

5. At the close of the hearing, the hearing officer shall notify the person of the hearing officer's findings of fact, conclusions of law, and decision based on the findings and conclusions and shall immediately deliver to the person a copy of the decision. If the hearing officer does not find in favor of the person, the copy of the decision serves as the commissioner's official notification to the person that the person is prohibited from operating a motorboat or vessel in this state. The hearing officer shall report the findings, conclusions, and decisions to the commissioner within ten days of the conclusion of the hearing.
6. If the person who requested a hearing under this section fails to appear at the hearing without justification, the right to the hearing is waived, and the hearing officer's determination on prohibition of the person from operating a motorboat or vessel will be based on the written request for hearing, game warden's or law enforcement officer's report, and other evidence as may be available. The hearing officer shall, on the date for which the hearing is scheduled, mail to the person, by regular mail, at the address on file with the commissioner, or at any other address for the person or the person's legal representative supplied in the request for hearing, a copy of the decision which serves as the commissioner's official notification to the person that the person is prohibited from operating a motorboat or vessel in this state for the appropriate period. Even if the person for whom the hearing is scheduled fails to appear at the hearing, the hearing is deemed to have been held on the date for which it is scheduled for purposes of appeal under section 10.

**SECTION 10. Judicial review.** Any person who has been prohibited from operating a motorboat or vessel by the decision of the hearing officer under section 9 may appeal within seven days after the date of the hearing under section 9 as shown by the date of the hearing officer's decision, notwithstanding section 28-32-15, by serving on the commissioner and filing a notice of appeal and specifications of error in the district court in the county where the events occurred for which the demand for a chemical test was made, or in the county in which the administrative hearing was held. The court shall set the matter for hearing, and the petitioner shall give twenty days' notice of the hearing to the commissioner and to the hearing officer who rendered the decision. Neither the commissioner nor the court may stay the decision pending decision on appeal. Within fifteen days after receipt of the notice of appeal, the commissioner or the hearing officer who rendered the decision shall file in the office of the clerk of court to which the appeal is taken a certified transcript of the testimony and all other proceedings. This record is the record on which the appeal must be determined. No additional evidence may be heard. The court shall affirm the decision of the commissioner or hearing officer unless it finds the evidence insufficient to warrant the conclusion reached by the commissioner or hearing officer. The court may direct that the matter be returned to the

commissioner or hearing officer for rehearing and the presentation of additional evidence.

SECTION 11. Interpretation of chemical tests. Upon the trial of any action or proceeding arising out of acts alleged to have been committed by any person while operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol, drugs, or a combination thereof in the person's blood at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible. For the purpose of this section:

1. A person having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after operating a motorboat or vessel is under the influence of intoxicating liquor, drugs, or a combination thereof at the time of operating a motorboat or vessel.
2. Alcohol concentration is based upon grams of alcohol per one hundred cubic centimeters of blood or grams of alcohol per two hundred ten liters of alveolar air or grams of alcohol per sixty-seven cubic centimeters of urine.
3. The results of the chemical test must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the state toxicologist, and by an individual possessing a certificate of qualification to administer the test issued by the state toxicologist. The state toxicologist is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the person requested to take the chemical test.
4. The state toxicologist may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the state toxicologist for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the persons qualified to administer them, the state toxicologist shall prepare and file written record of the approval with the director and the clerk of the district court in each county and shall include in the record:
  - a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
  - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.
  - c. The operational checklist and forms prescribing the methods currently approved by the state toxicologist in using the devices during the administration of the tests.

The material filed under this section may be supplemented when the state toxicologist determines it to be necessary, and any supplemental material has the same force and effect as the material that it supplements.

5. Copies of the records referred to in subsections 3 and 4, certified by the clerk of the district court, must be admitted as prima facie evidence of the matters stated in the records.
6. A certified copy of the analytical report of a blood, urine, or saliva test issued by the office of the state toxicologist must be accepted as prima facie evidence of the results of a chemical test performed under sections 2 through 15.
7. Notwithstanding any statute or rule to the contrary, the defendant in any criminal proceeding may subpoena, without cost to the defendant, the person who conducted the chemical test referred to in this section to testify at the trial on the issue of the amount of alcohol, drugs, or a combination thereof in the defendant's blood, breath, saliva, or urine at the time of the alleged act.
8. A signed statement from the nurse or medical technician drawing the blood sample for testing as set forth in subsection 3 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of such evidence may be required.

**SECTION 12. Proof of refusal admissible in any action or proceeding.** If the person under arrest refuses to submit to the chemical test, proof of refusal is admissible in any action or proceeding arising out of acts alleged to have been committed while the person was operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof.

**SECTION 13. Effect of evidence of chemical test.** Sections 2 through 15 do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of intoxicating liquor, drugs, or a combination thereof, but, if the chemical test results show an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent, the purpose of the evidence must be limited to the issues of probable cause, whether an arrest was made prior to the administering of the test, and the validity of the test results.

**SECTION 14. Liability.** Any licensed physician, nurse, technician, or an employee of a hospital who draws blood from any person pursuant to a request of any arresting warden or officer is not liable in any civil action for damages arising out of the act except for gross negligence.

**SECTION 15. Operation of motorboat or vessel during period of prohibition - Penalty.** Any person who operates a motorboat or vessel on the waters of this state during the period the person is prohibited from operating a motorboat or vessel under sections 2 through 15 is guilty of a class A misdemeanor.

Declaration made this ---- day of ----- (month, year).

I, -----, being at least eighteen years of age and of sound mind, willfully and voluntarily make known my desire that my life must not be artificially prolonged under the circumstances set forth below, and do hereby declare:

1. If at any time I should have an incurable condition caused by injury, disease, or illness certified to be a terminal condition by two physicians, and where the application of life-prolonging treatment would serve only to artificially prolong the process of my dying and my attending physician determines that my death is imminent whether or not life-prolonging treatment is utilized, I direct that such treatment be withheld or withdrawn, and that I be permitted to die naturally.
2. In the absence of my ability to give directions regarding the use of such life-prolonging treatment, it is my intention that this declaration be honored by my family and physicians as the final expression of my legal right to refuse medical or surgical treatment and accept the consequences of that refusal, which is death.
3. If I have been diagnosed as pregnant and that diagnosis is known to my physician, this declaration is not effective during the course of my pregnancy.

1. If at any time I should have an incurable condition caused by injury, disease, or illness certified to be a terminal condition by two physicians, I direct the use of life-prolonging treatment that could extend my life.
2. In the absence of my ability to give directions regarding the use of such life-prolonging treatment, it is my intention that this declaration be honored by my family and physicians as the final expression of my legal right to direct medical or surgical treatment and accept the consequences of that directive.

SECTION 3. AMENDMENT. Section 23-06.4-04 of the 1989 Supplement to the North Dakota Century Code is amended and reenacted as follows:

23-06.4-04. When declaration operative. A declaration becomes operative when it is communicated to the attending physician, and the declarant is determined by the attending physician and another physician to be in a terminal condition and no longer able to make decisions regarding administration of life-prolonging treatment. A declaration made under section 23-06.4-03 does not obligate the physician to use, withhold, or withdraw life-prolonging treatment but is presumptive evidence of the declarant's desires concerning the use, withholding, or withdrawal of such treatment and must be given great weight by the physician in determining the intent of the incompetent declarant. A declaration made under section 23-06.4-03 does not apply to emergency treatment performed in a prehospital situation.

SECTION 4. A new subsection to section 23-06.4-11 of the 1989 Supplement to the North Dakota Century Code is created and enacted as follows:

Declarations made under section 23-06.4-03 do not apply to emergency treatment performed in a prehospital situation.

(Senators Mushik, Redlin, Stenehjelm)

### HEALTH CARE POWER OF ATTORNEY

AN ACT to provide for durable powers of attorney for health care; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Statement of purpose. The purpose of this Act is to enable adults to retain control over their own medical care during periods of incapacity through the prior designation of an individual to make health care decisions on their behalf. This Act does not condone, authorize, or approve mercy killing, or permit an affirmative or deliberate act or omission to end life, other than to allow the natural process of dying.

SECTION 2. Definitions. In this Act, unless the context otherwise requires:

1. "Agent" means an adult to whom authority to make health care decisions is delegated under a durable power of attorney for health care.
2. "Attending physician" means the physician, selected by or assigned to a patient, who has primary responsibility for the treatment and care of the patient.
3. "Capacity to make health care decisions" means the ability to understand and appreciate the nature and consequences of a health care decision, including the significant benefits and harms of and reasonable alternatives to any proposed health care.
4. "Durable power of attorney for health care" means a document delegating to an agent the authority to make health care decisions executed in accordance with the provisions of this chapter.
5. "Health care decision" means consent to, refusal to consent to, withdrawal of consent to, or request for any care, treatment, service, or procedure to maintain, diagnose, or treat an individual's physical or mental condition.
6. "Health care provider" means an individual or facility licensed, certified, or otherwise authorized or permitted by law to administer health care, for profit or otherwise, in the ordinary course of business or professional practice.
7. "Long-term care facility" or "long-term care services provider" means a long-term care facility as defined in section 50-10.1-01.

8. "Principal" means an adult who is a resident of this state and who has executed a durable power of attorney for health care.

#### SECTION 3. Scope and duration of authority.

1. Subject to the provisions of this Act and any express limitations set forth by the principal in the durable power of attorney for health care, the agent has the authority to make any and all health care decisions on the principal's behalf that the principal could make.
2. After consultation with the attending physician and other health care providers, the agent shall make health care decisions:
  - a. In accordance with the agent's knowledge of the principal's wishes and religious or moral beliefs, as stated orally, or as contained in the durable power of attorney for health care or in declaration executed pursuant to chapter 23-06.4; or
  - b. If the principal's wishes are unknown, in accordance with the agent's assessment of the principal's best interests.
3. Under a durable power of attorney for health care, the agent's authority is in effect only when the principal lacks capacity to make health care decisions, as certified in writing by the principal's attending physician and filed in the principal's medical record.
4. The principal's attending physician shall make reasonable efforts to inform the principal of any proposed treatment, or of any proposal to withdraw or withhold treatment.
5. Nothing in this Act permits an agent to consent to admission to a mental health facility, state institution, or security unit of a long-term care facility for a period of more than forty-five days without a mental health proceeding or other court order, or to psychosurgery, abortion, or sterilization, unless the procedure is first approved by court order.

SECTION 4. Restrictions on who can act as agent. A person may not exercise the authority of agent while serving in one of the following capacities:

1. The principal's health care provider;
2. A nonrelative of the principal who is an employee of the principal's health care provider;
3. The principal's long-term care services provider; or
4. A nonrelative of the principal who is an employee of the principal's long-term care services provider.

SECTION 5. Execution and witnesses. The durable power of attorney for health care must be signed by the principal in the presence of at least two or more subscribing witnesses, neither of whom may, at the time of execution, be the agent, the principal's health or long-term care services provider or

the provider's employee, the principal's spouse or heir, a person related to the principal by blood or adoption, a person entitled to any part of the estate of the principal upon the death of the principal under a will or deed in existence or by operation of law, or any other person who has, at the time of execution, any claims against the estate of the principal. The witnesses shall affirm that the principal appeared to be of sound mind and free from duress at the time the durable power of attorney for health care was signed and that the principal affirmed that the principal was aware of the nature of the documents and signed it freely and voluntarily. If the principal is physically unable to sign, the durable power of attorney for health care may be signed by the principal's name being written by some other person in the principal's presence and at the principal's express direction.

**SECTION 6. Acceptance of appointment - Withdrawal.** To be effective, the agent must accept the appointment in writing. Subject to the right of the agent to withdraw, the acceptance creates a duty for the agent to make health care decisions on behalf of the principal at such time as the principal becomes incapable. Until the principal becomes incapable, the agent may withdraw by giving notice to the principal. After the principal becomes incapable, the agent may withdraw by giving notice to the attending physician. The attending physician shall cause the withdrawal to be recorded in the principal's medical record.

**SECTION 7. Revocation.**

1. A durable power of attorney for health care is revoked:
  - a. By notification by the principal to the agent or a health care or long-term care services provider orally, or in writing, or by any other act evidencing a specific intent to revoke the power;
  - b. By execution by the principal of a subsequent durable power of attorney for health care; or
  - c. By the divorce of the principal and spouse, where the spouse is the principal's agent.
2. A principal's health care or long-term care services provider who is informed of or provided with a revocation of a durable power of attorney for health care shall immediately record the revocation in the principal's medical record and notify the agent, the attending physician, and staff responsible for the principal's care of the revocation.

**SECTION 8. Inspection and disclosure of medical information.** Subject to any limitations set forth in the durable power of attorney for health care by the principal, an agent whose authority is in effect may for the purpose of making health care decisions:

1. Request, review, and receive any information, oral or written, regarding the principal's physical or mental health, including medical and hospital records;
2. Execute any releases or other documents which may be required in order to obtain such medical information;

3. Consent to the disclosure of such medical information.

#### SECTION 9. Action by provider.

1. A principal's health care or long-term care services provider, and employees thereof, having knowledge of the principal's durable power of attorney for health care, are bound to follow the directives of the principal's designated agent to the extent they are consistent with this Act and the durable power of attorney for health care.
2. If because of a moral or other conflict with a specific directive given by the agent, a principal's health care or long-term care services provider finds it impossible to follow that directive, the provider has the duty to inform the agent and if possible the principal, and take all reasonable steps to transfer care of the principal to another health care provider who is willing to honor the agent's directive.

#### SECTION 10. Freedom from influence.

1. A health care provider, long-term care services provider, health care service plan, insurer issuing disability insurance, self-insured employee welfare benefit plan, or nonprofit hospital service plan may not charge a person a different rate or require any person to execute a durable power of attorney for health care as a condition of admission to a hospital or long-term care facility nor as a condition of being insured for, or receiving, health care or long-term care services. Health care or long-term care services may not be refused because a person has executed a durable power of attorney for health care.
2. A durable power of attorney for health care is not effective if, at the time of execution, the principal is a resident of a long-term care facility unless a recognized member of the clergy, an attorney licensed to practice in this state, or a person as may be designated by the department of human services or the county court for the county in which the facility is located, signs a statement affirming that the person has explained the nature and effect of the durable power of attorney for health care to the principal. It is the intent of this subsection to recognize that some residents of long-term care facilities are insulated from a voluntary decision-making role, by virtue of the custodial nature of their care, so as to require special assurance that they are capable of willingly and voluntarily executing a durable power of attorney for health care.
3. A durable power of attorney for health care is not effective if, at the time of execution, the principal is being admitted to or is a patient in a hospital unless a person designated by the hospital signs a statement that the person has explained the nature and effect of the durable power of attorney for health care to the principal.

SECTION 11. Reciprocity. This chapter does not limit the enforceability of a durable power of attorney for health care or similar

instrument executed in another state or jurisdiction in compliance with the law of that state or jurisdiction.

**SECTION 12. Immunity.**

1. A person acting as agent pursuant to a durable power of attorney for health care may not be subjected to criminal or civil liability for making a health care decision in good faith pursuant to the terms of the durable power of attorney for health care and the provisions of this Act.
2. A health care or long-term care services provider, or any other person acting for the provider or under the provider's control may not be subjected to civil or criminal liability, or be deemed to have engaged in unprofessional conduct, for any act or intentional failure to act done in good faith and with ordinary care if the act or intentional failure to act is done pursuant to the dictates of the durable power of attorney for health care, the directives of the patient's agent and the provisions of this Act.

**SECTION 13. Guardianship authority - Conflicting declaration.**

1. Unless a court of competent jurisdiction determines otherwise, a durable power of attorney for health care executed pursuant to this Act takes precedence over any authority to make medical decisions granted to a guardian pursuant to chapter 30.1-28.
2. To the extent a durable power of attorney for health care conflicts with a declaration executed in accordance with chapter 23-06.4, the instrument executed later in time controls.

**SECTION 14. Liability for health care costs.** Liability for the cost of health care provided pursuant to the agent's decision is the same as if the health care were provided pursuant to the principal's decision.

**SECTION 15. Validity of previously executed durable powers of attorney.** This Act does not affect the validity or enforceability of durable powers of attorney pertaining to health care executed before the effective date of this Act.

**SECTION 16. Use of statutory form.** The statutory form of durable power of attorney described in section 17 of this Act may be used and is the preferred form by which a person may execute a durable power of attorney for health care pursuant to this Act. It is known as "the statutory form of durable power of attorney for health care".

**SECTION 17. Statutory form of durable power of attorney.** The statutory form of durable power of attorney is as follows:

The moratorium is established to provide the opportunity for additional study of the environmental effects of the disposal of municipal solid waste ash and the regulations necessary to obtain a permit for those solid waste disposal facilities. This section does not apply to any permit application for a landfill that receives for disposal ten tons [9071.80 kilograms] or less per day of the ash or to any North Dakota or federal court-ordered reapplication involving an application originally received prior to January 1, 1991, and which is limited to the type and amount of waste represented in the original application.

(Interim Political Subdivisions Committee)

### SOLID WASTE SURCHARGE

AN ACT to create and enact four new sections to chapter 23-29 of the North Dakota Century Code, relating to solid waste management; to provide a penalty; to provide an appropriation; and to state legislative intent.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 23-29 of the North Dakota Century Code is created and enacted as follows:

**Solid waste management fund - Administration.** The solid waste management fund is a special fund in the state treasury. The Bank of North Dakota shall administer the fund. The fund is a revolving fund, subject to appropriation by the legislative assembly. The Bank may annually deduct up to one-half of one percent of the fund balance including the principal balance of the outstanding loans as a service fee for administering the fund. The Bank shall contract with a certified public accounting firm to audit the fund once every two years. The cost of the audit and any other actual costs incurred by the Bank on behalf of the fund must be paid from the fund. Section 54-44.1-11 does not apply to the fund.

SECTION 2. A new section to chapter 23-29 of the North Dakota Century Code is created and enacted as follows:

**Surcharge - Penalty.** Beginning January 1, 1992, any person or political subdivision that provides services for the collection of municipal waste shall pay to the state tax commissioner a monthly surcharge of twenty cents for each household account, which includes any account resulting from the collection of municipal waste generated by a single residence, multiple residence of not more than three units, bunkhouse, crew quarters, campground, or picnic ground, and the following monthly surcharges for commercial accounts:

1. For each commercial account for which the monthly collection fee is not more than ten dollars, twenty cents.
2. For each commercial account for which the monthly collection fee is more than ten dollars but not more than fifty dollars, seventy-five cents.
3. For each commercial account for which the monthly collection fee is more than fifty dollars but not more than one hundred dollars, one dollar and fifty cents.

4. For each commercial account for which the monthly collection fee is more than one hundred dollars but not more than five hundred dollars, three dollars.
5. For each commercial account for which the monthly collection fee is more than five hundred dollars, one percent of the gross receipts for collection services.

The monthly surcharge for a multiple unit commercial account is twenty cents per unit or the applicable commercial rate under subsections 1 through 5, whichever is higher. For the purposes of this section, a commercial account includes any account resulting from the collection of municipal waste generated by a multiple residence of four or more units, mobile home park, motel, hotel, store, office building, restaurant, or warehouse. A multiple unit commercial account includes a multiple residence of four or more units, a mobile home park, a shopping center, an office building, and any other commercial account in which four or more units pay a single collection fee. The surcharge must be added to the price or charge for collection services, constitutes a part of that price or charge, is a debt from the generator of the waste to the collector until paid, and is recoverable at law in the same manner as other debts. A surcharge equivalent to that for commercial accounts must be assessed on fees imposed on municipal waste delivered directly to a landfill but not included in the collection surcharge above. The surcharge collected under this section must accompany the quarterly report required by section 3 of this Act. The state tax commissioner shall forward all moneys received under this section to the state treasurer quarterly. The state treasurer shall place the moneys in the solid waste management fund. A person who violates this section is guilty of a class B misdemeanor.

SECTION 3. A new section to chapter 23-29 of the North Dakota Century Code is created and enacted as follows:

Report of surcharge collection. No later than thirty days after the conclusion of each quarter, each person or political subdivision operating a service for collection of municipal waste shall send to the state tax commissioner a correct report of the surcharge collected for the previous quarter as required under section 2 of this Act. The provisions of chapter 57-39.2 relating to the administration of the sales tax, except the provisions relating to refunds and credits and any provision in conflict with this Act, govern the administration of the surcharge imposed under section 2 of this Act. A surcharge that has been collected, but which is not due, must be used to offset any surcharge to be imposed against the person from whom the surcharge was originally collected. A dispute relating to the imposition of the surcharge may be appealed to the department for a final decision. The department's decision may not be appealed under chapter 28-32.

SECTION 4. A new section to chapter 23-29 of the North Dakota Century Code is created and enacted as follows:

Applications for grants or loans - Loan terms. Moneys in the solid waste management fund may be used to make grants or low interest loans to political subdivisions for waste reduction, planning, resource recovery, and recycling projects with an emphasis on marketing. An application for a grant or loan out of moneys in the solid waste management fund must be made to the department. The department shall review an application to determine if the purpose of the grant or loan is consistent with the purposes of the fund and

the district solid waste management plan. The department shall adopt rules to implement this section. If the department approves an application, the department shall forward the application and the results of the department's review of the application to the Bank of North Dakota. The Bank, in consultation with the department, shall determine the financial criteria that must be met for an application to be approved. A loan must be repaid within a period not exceeding twenty years at an interest rate of four percent.

SECTION 5. APPROPRIATION. There is hereby appropriated out of any moneys in the state aid distribution fund, not otherwise appropriated, the sum of \$350,000, or so much thereof as may be necessary, to the department of health and consolidated laboratories for distribution to the solid waste management districts to assist the districts in developing comprehensive solid waste management plans for each district, and \$100,000, or so much thereof as may be necessary, to the department of health and consolidated laboratories to provide assistance to the solid waste management districts in developing the comprehensive plans for the biennium beginning July 1, 1991, and ending June 30, 1993.

SECTION 6. LEGISLATIVE INTENT. It is the intent of the legislative assembly that any moneys remaining in the solid waste management fund on June 30, 1993, be available for appropriation for the biennium beginning July 1, 1993, and ending June 30, 1995, and that the fund be used solely for the purpose of solid waste management activities.

### GROUND WATER PROTECTION

AN ACT relating to protection of ground water resources, use of chemicals, coordination of educational programs and safe disposal of wastes, and water monitoring authority where contamination may exist.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Degradation prevention program - Maintenance of waters. This Act establishes a degradation prevention program for the purpose of protecting ground water resources, encouraging the wise use of agricultural chemicals, providing for ground water protection, providing for public education regarding preservation of ground water resources, and providing for safe disposal of wastes in a manner that will not endanger the state's ground water resource. Waters of the state must be maintained within standards established under this Act unless it can be affirmatively demonstrated that a change in quality is justifiable to provide necessary economic or social development and will not adversely affect the beneficial uses of water.

SECTION 2. Administration of Act. The state department of health and consolidated laboratories shall administer this Act. For purposes of this Act, "commissioner" means the commissioner of agriculture and "department" means the state department of health and consolidated laboratories. Notwithstanding section 4-35-06, the commissioner of agriculture shall administer chapter 4-35 as it relates to pesticide usage.

SECTION 3. Education program. The department, the commissioner, and the North Dakota state university extension service and North Dakota agricultural experiment station shall cooperate with other state and federal agencies on the development of a ground water protection education program.

SECTION 4. Chemical use data and confidentiality requirement. The department may require chemical use data from product registrants on products that have been or may likely be found in ground water in order to conduct its ground water protection program. This information must include chemical registration data and sales information. The department shall keep this information confidential.

SECTION 5. Ground water standards. The department shall establish standards for compounds in ground water as set forth by other states and the United States environmental protection agency unless new scientifically confirmed data provides justification for changing these standards.

SECTION 6. Ground water quality monitoring. The department shall conduct ground water quality monitoring activities in cooperation with the

state engineer and other state agencies. Based on monitoring results, the department shall implement or require appropriate mitigation activities or remedial action to prevent future contamination of ground water. The commissioner may implement or require appropriate mitigation activities pursuant to chapter 4-35 to prevent future contamination of ground water as it relates to the use of pesticides.

**SECTION 7. Notification requirement.** Any person with verifiable information on the presence of contamination of ground water within the state shall notify the department regarding such contamination.

**SECTION 8. Access for ground water monitoring.** The department may request landowners or operators to allow access for monitoring of ground water and of soils at a depth where pesticides may threaten ground water. If the department is denied access by the landowner or operator, the department may apply to any court of competent jurisdiction for authorization to obtain access. The court, upon such application and upon compliance with chapter 29-29.1, may issue the authorization for the purposes requested. After consultation with the landowner or operator, the department shall conduct the monitoring in a manner that causes the least possible economic impact or hindrance to the landowner's or operator's operations. The names and addresses of landowners and operators who participate in a ground water monitoring program may not be linked, in any public disclosure, to the findings of the program unless it is determined by rule that a compelling public interest justifies such disclosure. Without such a determination, disclosure of the information is a violation of section 12.1-13-01.

**SECTION 9. Pollution prevention criteria.** The commissioner, in cooperation with the department, North Dakota state university extension service, and the North Dakota agricultural experiment station, may develop pollution prevention criteria for areas utilized for mixing and storing of agricultural chemicals at the retail and end use levels.

**SECTION 10. Wellhead protection program.** The department in cooperation with the state engineer and state geologist shall assist in implementing a public water supply wellhead protection program for protection of ground water resources utilizing existing state and local statutory authority.

**SECTION 11. Rules.** The department, with the approval of the commissioner and the state engineer, shall adopt rules necessary for implementation of this Act.

**SECTION 12. Producer liability.** Liability may not be imposed upon an agricultural producer for costs of active cleanup, or for any damage associated with or resulting from the detection in ground water, of a pesticide if the applicator has complied with label instructions and other precautions for application of the pesticide and the applicator has a valid appropriate applicator's certification. Compliance with these requirements may be raised as an affirmative defense by an agricultural producer.

SENATE BILL NO. 2118  
(Committee on Human Services and Veterans Affairs)  
(At the request of the Department of Human Services)

### STATE HOSPITAL AND MENTAL HEALTH

AN ACT to create and enact a new section to chapter 25-02, a new subdivision to subsection 8 of section 25-03.1-02, and a new section to chapter 25-03.1 of the North Dakota Century Code, relating to maintenance of state hospital accreditation, definition of a mental health professional, and court-authorized involuntary treatment with prescribed medication.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 25-02 of the North Dakota Century Code is created and enacted as follows:

Maintenance of state hospital accreditation. The department of human services shall seek appropriations and resources sufficient to ensure maintenance of the state hospital's accreditation by the joint commission on accreditation of health care organizations and certification by the health care financing administration or by similar accrediting and certifying organizations and agencies possessing hospital standards recognized by the health care industry and accepted by the department.

SECTION 2. A new subdivision to subsection 8 of section 25-03.1-02 of the North Dakota Century Code is created and enacted as follows:

A licensed professional counselor with a master's degree in counseling from an accredited program who has either successfully completed the advanced training beyond the master's degree as required by the national academy of mental health counselors or a minimum of two years of clinical experience in a mental health agency or setting under the supervision of a psychiatrist or psychologist.

SECTION 3. A new section to chapter 25-03.1 of the North Dakota Century Code is created and enacted as follows:

Court authorized involuntary treatment with prescribed medication.

1. Upon advance notice to the court and the parties, a treating psychiatrist may request authorization from the court to treat a patient with prescribed medication in an involuntary treatment hearing if the treating psychiatrist and another licensed physician or psychiatrist not involved in the current diagnosis or treatment of the patient certify:

- a. That prescribed medication is clinically appropriate and necessary to effectively treat the patient;
- b. That the patient was offered such treatment and refused it or that the patient lacks the capacity to make or communicate a responsible decision about such treatment; and
- c. That the prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the patient.
- d. That the benefits of the treatment outweigh the known risks to the patient.

The court shall inquire whether the patient has had a sufficient opportunity to adequately prepare to meet the issue of involuntary treatment with prescribed medication and, at the request of the patient, may continue the involuntary treatment hearing for a period not exceeding seven days or may appoint an independent expert examiner as provided in subsection 4.

2. Evidence of the factors certified under subsection 1 may be presented to the court at an involuntary treatment hearing held pursuant to sections 25-03.1-19 and 25-03.1-22. The court in ruling on the requested authorization for involuntary treatment with prescribed medication shall consider all relevant evidence presented at the hearing, including:
  - a. The danger the patient presents to self or others;
  - b. The patient's current condition;
  - c. The patient's past treatment history;
  - d. The results of previous medication trials;
  - e. The efficacy of current or past treatment modalities concerning the patient;
  - f. The patient's prognosis; and
  - g. The effect of the patient's mental condition on the patient's capacity to consent.

Involuntary treatment with prescribed medication may not be authorized by the court solely for the convenience of facility staff or for the purpose of punishment.

3. If the factors certified under subsection 1 have been demonstrated by clear and convincing evidence, the court may include in its involuntary treatment order a provision authorizing the treating psychiatrist to involuntarily treat the patient with prescribed medication on such terms and conditions as are appropriate. However, no such provision is effective for more than ninety days, unless prior to the expiration of that time period the treating psychiatrist submits a report to the court indicating that the involuntary treatment with prescribed medication remains

appropriate and necessary to effectively treat the patient. Based on such reports, a review of the patient's progress, and the patient's concerns, the court may extend its authorization for involuntary treatment with prescribed medication for additional ninety-day periods if the patient remains under an involuntary treatment order.

4. If a patient has requested an examination by an independent expert examiner under this chapter, and if the treating psychiatrist has requested authorization for involuntary treatment with prescribed medication, only a licensed physician or psychiatrist may independently examine the patient as to the issue of involuntary treatment with prescribed medication.

Notwithstanding the provisions of section 57-38-57, this verification may include a review of such applicant's state income tax return or any other document or report submitted to or held by any office or department of the state of North Dakota or any of its political subdivisions.

SECTION 7. Owner or operator not identified. The department may cause legal action to be brought to compel performance of a corrective action if an identified owner or operator fails or refuses to comply with an order of the department, or the department may engage the services of qualified contractors for performance of a corrective action if an owner or operator cannot be identified.

SECTION 8. Imminent hazard. Upon receipt of information that a petroleum release has occurred which may present an imminent or substantial endangerment of health or the environment, the department may take such emergency action as it determines necessary to protect health or the environment.

SECTION 9. Duty to notify. Nothing in this Act limits any person's duty to notify the department and to take action related to a release. However, payment for corrective actions required as a result of a petroleum release is governed by this Act.

SECTION 10. Providing of information. Any person whom the administrator or the department has reason to believe is an owner or operator, or the owner of real property where corrective action is ordered to be taken, or any person who may have information concerning a release, shall, if requested by the administrator or the department, or any member, employee, or agent of the administrator or the department, furnish to the administrator or the department any information that person has or may reasonably obtain that is relevant to the release.

SECTION 11. Examination of records. Any employee of the administrator or the department may, upon presentation of official credentials:

2. Enter upon public or private property for the purpose of taking action authorized by this section, including obtaining information from any person who has a duty to provide the information under section 10 of this Act, conducting surveys and investigations, and taking corrective action.

SECTION 12. Responsibility for cost. The owner or operator is liable for the cost of the corrective action required by the department, including the cost of investigating the releases, and for legal actions of the administrator or the department. This Act does not create any new cause of action for damages on behalf of third parties for release of petroleum products against the fund or licensed dealers.

SECTION 13. Liability avoided. No owner or operator may avoid liability by means of a conveyance of any right, title, or interest in real property or by any indemnification, hold harmless agreement, or similar agreement. However, the provisions of this Act do not:

1. Prohibit a person who may be liable from entering into an agreement by which the person is insured or is a member of a risk retention group, and is thereby indemnified for part or all of the liability;
2. Prohibit the enforcement of an insurance, hold harmless, or indemnification agreement; or
3. Bar a cause of action brought by a person who may be liable or by an insurer or guarantor, whether by right of subrogation or otherwise.

SECTION 14. Other remedies. Nothing in this Act limits the powers of the administrator or department, or precludes the pursuit of any other administrative, civil, injunctive, or criminal remedies by the administrator or department or any other person. Administrative remedies need not be exhausted in order to proceed under this Act. The remedies provided by this Act are in addition to those provided under existing statutory or common law.

SECTION 15. Revenue to the fund. Revenue from the following sources must be deposited in the state treasury and credited to the fund:

1. Any registration fees collected under section 17 of this Act;
2. Any money recovered by the fund under section 23 of this Act, and any money paid under an agreement, stipulation, or settlement;
3. Any interest attributable to investment of money in the fund; and
4. Any money received by the administrator in the form of gifts, grants, reimbursements, or appropriations from any source intended to be used for the purposes of the fund.

SECTION 16. Penalty. A tank owner violating section 17 of this Act is guilty of a class B misdemeanor, unless another penalty is specifically provided.

SECTION 17. Registration fee. An owner or operator of a tank shall pay an annual registration fee of seventy-five dollars for each aboveground tank and one hundred twenty-five dollars for each underground tank owned or operated by that person. The registration fees collected under this section must be paid to the administrator for deposit in the state treasury for credit to the petroleum release compensation fund.

SECTION 18. Reimbursement for corrective action. The administrator shall reimburse an eligible owner or operator for ninety percent of the costs of corrective action, including the investigation, which are greater than five thousand dollars and less than one million dollars per occurrence and two million dollars in the aggregate. An eligible tank owner or operator may not be liable for more than twenty thousand dollars out-of-pocket expenses for any one release. A reimbursement may not be made unless the administrator determines that:

1. At the time the release was discovered the owner or operator and the tank were in compliance with state and federal rules and rules applicable to the tank, including rules relating to financial responsibility which were in effect at the time of the release;
2. The department was given notice of the release as required by federal and state law;
3. The owner or operator has paid the first five thousand dollars of the cost of corrective action; and
4. The owner or operator, to the extent possible, fully cooperated with the department and the administrator in responding to the release.

SECTION 19. Application for reimbursement. Any owner or operator who proposes to take corrective action or has undertaken corrective action in response to a release, the time of such release being unknown, may apply to the administrator for partial or full reimbursement under section 18 of this Act. An owner or operator may be reimbursed only for releases discovered and reported after the effective date of this Act.

SECTION 20. Administrator to determine costs. A reimbursement may not be made from the fund until the administrator has determined that the costs for which reimbursement is requested were actually incurred and were reasonable.

SECTION 21. Liability of responsible person. The right to apply for reimbursement and the receipt of reimbursement does not limit the liability of an owner or operator for damages or costs incurred as the result of a release.

SECTION 22. Reimbursement not subject to attachment. The amount of reimbursement to be paid for corrective action that was done by a third party is not subject to legal process or attachment if actually paid to a third party who performed the corrective action.

SECTION 23. Recovery of expenses. Any reasonable and necessary expenses incurred by the fund, which exceed the amount allowed by section 18 of this Act, in taking a corrective action, including costs of investigating a release, and in taking legal actions may be recovered in a civil action in district court brought by the administrator against an owner or operator. The certification of expenses by an approved agent of the fund is prima facie evidence that the expenses are reasonable and necessary. Any expenses that are recovered under this section must be deposited in the fund.

SECTION 24. Costs exceeding reimbursement. If the cost of any extraordinary authorized action under this Act exceeds amounts awarded to the administrator or the department from the federal government, the administrator may pay the department the cost of the corrective actions, including the cost of investigating a release, if the board finds that the cause was a petroleum substance, that an adequate amount exists in the fund to pay for the corrective action, that the occurrence was extraordinary in scope and size, and that a danger to the health and safety of citizens exists.

SECTION 25. Coordination of benefits. If an owner or operator has an insurance policy that provides the same coverage as the fund, the administrator of the fund shall pay the share of the covered loss or damage for which the fund is responsible. The share that must be paid from the fund is equal to the proportion that the applicable limit of coverage under the fund bears to the limits of insurance of all insurance coverage on the same basis.

SECTION 26. Third-party damages - Participation in actions and review of settlements.

1. An owner or operator who is sued for damages resulting from a release shall notify the administrator within forty-eight hours of being served with a summons and complaint. The owner or operator shall also advise the administrator if any insurer is defending the owner or operator and provide to the administrator the name of that insurer.
2. An owner or operator who, before litigation, enters into negotiations with a third party who claims to have been damaged by a release, or who receives a demand for payment of damages to a third party who claims to have been damaged by a release, shall

notify the administrator within forty-eight hours of the demand or the negotiations.

3. The administrator and the board shall review the conduct of any litigation or negotiation. The administrator may not assume any legal costs incurred by the defendant or plaintiff, but may participate in discovery, trial proceedings, or settlement negotiations that bear on the determination of a plaintiff's damages.
4. The administrator and the board shall review any settlement negotiations to determine the dollar amount of bodily injury or property damage actually, necessarily, and reasonably incurred by third parties which, if paid by the defendant, would be considered eligible costs.

**SECTION 27. Third-party damages - Documentation.**

1. An applicant's payments for third-party damages pursuant to a judgment entered in a court must include copies of the notice of entry of judgment, abstract of costs, and a declaration of the fees paid by the defendant to each attorney who appeared in the proceeding.
2. An applicant's payments for third-party damages made by agreement in settlement of litigation must include copies of the settlement agreement and such supporting documents as may be required by the administrator.
3. An applicant's payments for third-party damages made by agreement without reference to litigation must include copies of the settlement and such supporting documents as may be required by the administrator.
4. The administrator and the board may require a third party who claims bodily injury to be examined by a physician and require that the physician's report be submitted to the administrator. The administrator may require a third party who claims property damage to permit a property appraiser or claims adjuster retained by the administrator to inspect the property and report to the administrator.

**SECTION 28. Matching federal funds.** The administrator and the board may annually allow the department a ten percent matching grant for federal leaking underground storage tank funds to be paid out of the fund if the moneys are available and the administrator and the board determine the allowance appropriate.

**SECTION 29. Report to legislative assembly and governor.** The administrator and the board shall prepare by December 1, 1992, a report to the legislative assembly and the governor explaining the status of the government's and business' ability to respond to and clean up all past and future petroleum spills.

This chapter must be liberally interpreted to carry into effect this section.

SECTION 3. Section 26.1-25-02.1 of the North Dakota Century Code is created and enacted as follows:

26.1-25-02.1. Definitions.

1. "Advisory organization" means any entity, including its affiliates or subsidiaries, which either has two or more member insurers or is controlled either directly or indirectly by two or more insurers, and which assists insurers in ratemaking-related activities as enumerated in this chapter. Two or more insurers having a common ownership or operating in this state under common management or control constitute a single insurer for purposes of this definition.
2. "Commercial risk" means any kind of risk which is not a personal risk.
3. "Developed losses" means losses including loss adjustment expenses, adjusted, using standard actuarial techniques, to eliminate the effect of differences between current payment or reserve estimates and those needed to provide actual ultimate loss including loss adjustment expense payments.
4. "Expenses" means that portion of a rate attributable to acquisition, field supervision, collection expenses, general expenses, taxes, licenses, and fees.
5. "Joint underwriting" means a voluntary arrangement established to provide insurance coverage for a commercial risk pursuant to which two or more insurers jointly contract with the insured at a price and under policy terms agreed upon between the insurers.
6. "Loss trending" means any procedure for projecting developed losses to the average date of loss for the period during which the policies are to be effective.
7. "Personal risk" means homeowners, tenants, private passenger nonfleet automobiles, mobile homes, and other property and casualty insurance for personal, family, or household needs.
8. "Pool" means a voluntary arrangement, established on an ongoing basis, pursuant to which two or more insurers participate in the

- sharing of risks on a predetermined basis. The pool may operate through an association, syndicate, or other pooling agreement.
9. "Prospective loss costs" means that portion of a rate that does not include provisions for expenses other than loss adjustment expenses, or profit, and are based on historical aggregate losses and loss adjustment expenses adjusted through development to their ultimate value and projected through trending to a future point in time.
10. "Rate" means that cost of insurance per exposure unit whether expressed as a single member or as a prospective loss cost with an adjustment to account for the treatment of expenses, profit, and individual insurer variation in loss experience, prior to any application of individual risk variations based on loss or expense considerations, and does not include minimum premium.
11. "Residual market mechanism" means an arrangement, either voluntary or mandated by law, involving participation by insurers in the equitable apportionment among them of insurance which may be afforded applicants who are unable to obtain insurance through ordinary methods.
12. "Supplementary rating information" includes any manual or plan of rates, classification, rating schedule, minimum premium, policy fee, rating rule, underwriting rule, statistical plan, and any other similar information needed to determine the applicable rate in effect or to be in effect.
13. "Supporting information" means:
- a. The experience and judgment of the filer and the experience or date of other insurers or advisory organizations relied upon by the filer;
  - b. The interpretation of any other data relied upon by the filer; and
  - c. Descriptions of methods used in making the rates and any other information required by the commissioner to be filed.

SECTION 4. AMENDMENT. Subsections 1 and 2 of section 26.1-25-03 of the North Dakota Century Code are amended and reenacted as follows:

1. Rates must be made in accordance with the following provisions:
  - a. Due consideration must be given to past and prospective loss experience within this state and outside this state to the extent that the consideration is given to areas the commissioner determines are representative of this state, to any conflagration and catastrophe hazards, to a reasonable margin for ~~underwriting~~ profit and contingencies, to dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers, to past and prospective expenses both countrywide, as determined by the commissioner, and those specially applicable to this state, and to all other relevant factors within and outside

this state. In the case of fire insurance rates, consideration must be given to the experience of the fire insurance business during a period of not less than the most recent five-year period for which the experience is available. In determining the reasonableness of the profit, consideration may be given to investment income.

- b. ~~In the case of casualty insurance, the~~ The systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those of other insurers or group of insurers to reflect the requirements of the operating methods of any such insurer or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof for which subdivision or combination separate expense provisions are applicable.
- c. ~~In the case of casualty insurance, risks~~ Risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. The standards may measure any differences among risks that can be demonstrated to have a probable effect upon losses or expense. No risk classification, however, may be based upon race, creed, national origin, or the religion of the insured.
- d. ~~In the case of property insurance, manual, minimum, class rates, rating schedules, or rating plans must be made and adopted, except in the case of specified inland marine rates on risks specially rated:~~
- e. Rates may not be excessive, inadequate, or unfairly discriminatory.

2. Except to the extent necessary to meet subdivision ~~e~~ d of subsection 1, uniformity among insurers in any matters within the scope of this section is neither required nor prohibited.

SECTION 5. AMENDMENT. Section 26.1-25-04 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-04. Rate filings.

1. Every insurer shall file with the commissioner, except as to inland marine risks which by general custom of the business are not written according to manual rates or rating plans, every manual, minimum class rate, rating schedule or rating plan, and every other rating rule, and every modification of any of the foregoing which it proposes to use. Every filing must state the proposed effective date thereof and must indicate the character and extent of the coverage contemplated. When a filing is not accompanied by the information upon which the insurer supports the filing, and the commissioner does not have sufficient information to determine whether the filing meets the requirements of this chapter, the commissioner shall require the insurer to furnish the information upon which it supports the filing and the waiting period commences

as of the date the information is furnished. Every insurer shall file or incorporate by reference to material which has been approved by the commissioner, at the same time as the filing of the rate, all supplementary rating and supporting information to be used in support of or in conjunction with a rate. The information furnished in support of a filing may include:

- a. The experience or judgment of the insurer or rating advisory organization making the filing.
- b. Its interpretation of any statistical data upon which it relies.
- c. The experience of other insurers or rating advisory organizations.
- d. Any other relevant factors.

A filing and any supporting information is open to public inspection after the filing becomes effective. Specific inland marine rates on risks specially rated, made by a rating an advisory organization, must be filed with the commissioner.

2. An insurer may satisfy its obligation to make the filings by becoming a member of, or a subscriber to, a licensed rating organization which makes the filings; and by authorizing the commissioner to accept the filings on its behalf; provided, that upon the request of the commissioner the insurer shall file information relating to the insurer which supports the filing made by a rating organization prior to the filing becoming effective for the insurer. After reviewing an insurer's filing, the commissioner may require that the insurer's rates be based upon the insurer's own loss and expense information. If the insurer's loss or allocated loss adjustment expense information is not actuarially credible, as determined by the commissioner, the insurer may use or supplement its experience with information filed with the commissioner by an advisory organization. Insurers utilizing the services of an advisory organization must provide with their rate filing, at the request of the commissioner, a description of the rationale for such use, including its own information and method of utilization of the advisory organization's information. This chapter does not require any insurer to become a member of or a subscriber to any rating advisory organization.
3. The commissioner shall review filings as soon as reasonably possible after they have been made in order to determine whether they meet the requirements of this chapter.
4. Subject to the exceptions specified in subsection 5, each filing must be on file for a waiting period of sixty days before it becomes effective. The period may be extended by the commissioner for an additional period not to exceed fifteen days if the commissioner gives written notice within the waiting period to the insurer or rating advisory organization which made the filing that the commissioner needs the additional time for the consideration of the filing. Upon written application by the insurer or rating advisory organization, the commissioner may authorize a filing

which the commissioner has reviewed to become effective before the expiration of the waiting period or any extension thereof. A filing is deemed to meet the requirements of this chapter unless disapproved by the commissioner within the waiting period or any extension thereof.

5. Any special filing with respect to a surety or guaranty bond required by law or by court or executive order or by order or rule of a public body, not covered by a previous filing, becomes effective when filed and is deemed to meet the requirements of this chapter until such time as the commissioner reviews the filing and so long thereafter as the filing remains in effect. Specific inland marine rates on risks specially rated by a rating an advisory organization become effective when filed and are deemed to meet the requirements of this chapter until such time as the commissioner reviews the filing and so long thereafter as the filing remains in effect.
6. Under any rules the commissioner may adopt, the commissioner may, by written order, suspend or modify the requirement of filing as to any kind of insurance, subdivision, or combination thereof, or as to classes of risks, the rates for which cannot practicably be filed before they are used. The orders and rules must be made known to insurers and rating advisory organizations affected thereby. The commissioner may make any examination the commissioner deems advisable to ascertain whether any rates affected by the order meet the standards set forth in subdivision e of subsection 1 of section 26.1-25-03.
7. Upon the written application of the insured, stating the insured's reasons therefor, filed with and approved by the commissioner, a rate in excess of that provided by a filing otherwise applicable may be used on any specific risk.
8. No insurer may make or issue a contract or policy except in accordance with the filings that have been approved and are in effect for the insurer as provided in this chapter or in accordance with subsection 6 or 7.
9. Nothing in this chapter may be construed to require an advisory organization or its members or its subscribers to immediately refile final rates or premium charges previously approved by the commissioner. Members or subscribers of an advisory organization are authorized to continue to use insurance rates or premium charges approved before the effective date of this Act or decreases from those rates or premium charges filed by the advisory organization and subsequently approved after the effective date of this Act.

SECTION 6. AMENDMENT. Section 26.1-25-05 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-05. Disapproval of filings.

1. If within the waiting period or any extension thereof as provided in subsection 4 of section 26.1-25-04 the commissioner finds that a filing does not meet the requirements of this chapter, the

- commissioner shall send to the insurer or rating advisory organization which made the filing written notice of disapproval of the filing specifying therein in what respects the commissioner finds the filing fails to meet the requirements of this chapter and stating that the filing will not become effective.
2. If within thirty days after a filing subject to subsection 5 of section 26.1-25-04 has become effective the commissioner finds that the filing does not meet the requirements of this chapter, the commissioner shall send to the insurer or rating advisory organization that made the filing written notice of disapproval of the filing specifying therein in what respect the commissioner finds that the filing fails to meet the requirements of this chapter and stating when, within a reasonable period thereafter, the filing will be deemed no longer effective. The disapproval may not affect any contract made or issued prior to the expiration of the period set forth in the notice.
  3. If at any time subsequent to the applicable review period provided for in subsection 1 or 2 the commissioner finds that a filing does not meet the requirements of this chapter, the commissioner shall, after a hearing held upon not less than ten days' written notice, specifying the matters to be considered at the hearing, to every insurer and rating advisory organization which made the filing, issue an order specifying in what respects the commissioner finds that the filing fails to meet the requirements of this chapter, and stating when, within a reasonable period thereafter, the filing will be deemed no longer effective. Copies of the order must be sent to every such insurer and rating advisory organization. The order may not affect any contract or policy made or issued prior to the expiration of the period set forth in the order.
  4. Any person or organization aggrieved with respect to any filing which is in effect may make written application to the commissioner for a hearing thereon. However, the insurer or rating advisory organization that made the filing may not proceed under this subsection. The application must specify the grounds to be relied upon by the applicant. If the commissioner finds that the application is made in good faith, that the applicant would be so aggrieved if the grounds are established, and that the grounds otherwise justify holding such a hearing, the commissioner shall, within thirty days after receipt of the application, hold a hearing upon not less than ten days' written notice to the applicant and to every insurer and rating advisory organization which made the filing. If, after the hearing, the commissioner finds that the filing does not meet the requirements of this chapter, the commissioner shall issue an order specifying in what respects the filing fails to meet the requirements of this chapter, and stating when, within a reasonable period thereafter, the filing will be deemed no longer effective. Copies of the order must be sent to the applicant and to every such insurer and rating advisory organization. The order may not affect any contract or policy made or issued prior to the expiration of the period set forth in the order.
  5. A manual, minimum class rate, rating schedule, rating plan, or rating rule, or any modification of any of the foregoing, which has

been filed pursuant to the requirements of section 26.1-25-04, may not be disapproved if the rates thereby produced meet the requirements of this chapter.

SECTION 7. AMENDMENT. Section 26.1-25-09 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-09. Information to be furnished insureds - Hearings and appeals of insureds. Every ~~rating organization and every~~ insurer which ~~makes its own files~~ rates shall, within a reasonable time after receiving written request therefor and upon payment of such reasonable charge as it may make, furnish to any insured affected by a rate made by it, or to the authorized representative of such insured, all pertinent information as to the rate. Every ~~rating organization and every~~ insurer which ~~makes its own files~~ rates shall provide within this state reasonable means whereby any person aggrieved by the application of its rating system may be heard, in person or by an authorized representative, on the person's written request to review the manner in which the rating system has been applied in connection with the insurance afforded the person. If the ~~rating organization or~~ insurer fails to grant or reject the request within thirty days after it is made, the applicant may proceed in the same manner as if the application had been rejected. Any party affected by the action of the ~~rating organization or the~~ insurer on the request may, within thirty days after written notice of the action, appeal to the commissioner, who, after a hearing held upon not less than ten days' written notice to the appellant and to the ~~rating organization or~~ insurer, may affirm or reverse the action.

SECTION 8. Section 26.1-25-10.1 of the North Dakota Century Code is created and enacted as follows:

26.1-25-10.1. Licensing advisory organizations.

1. No advisory organization may provide any service relating to the rates of any insurance subject to this chapter, and no insurer may utilize the services of such organization for such purposes unless the organization has obtained a license under subsection 3.
2. No advisory organization may refuse to supply any services for which it is licensed in this state to any insurer authorized to do business in this state and offering to pay the fair and usual compensation for the services.
3. a. An advisory organization applying for a license shall include with its application:
  - (1) A copy of its constitution, charter, articles of organization, agreement, association or incorporation, and a copy of its bylaws, plan of operation, and any other rules or regulations governing the conduct of its business;
  - (2) A list of its members and subscribers;
  - (3) The name and address of one or more residents of this state upon whom notices, process affecting it, or orders of the commissioner may be served;

- (4) A statement showing its technical qualifications for acting in the capacity for which it seeks a license;
  - (5) A biography of the ownership and management of the organization; and
  - (6) Any other relevant information and documents that the commissioner may require.
- b. Every organization that has applied for a license shall notify the commissioner of every material change in the facts or in the documents on which its application was based. Any amendment to a document filed under this section must be filed at least thirty days before it becomes effective.
  - c. If the commissioner finds that the applicant and the natural persons through whom it acts are competent, trustworthy, and technically qualified to provide the services proposed, and that all requirements of the law are met, the commissioner shall issue a license specifying the authorized activity of the applicant. The commissioner may not issue a license if the proposed activity would tend to create a monopoly or to substantially lessen the competition in any market.
  - d. Licenses issued pursuant to this section are perpetual in duration unless the license is suspended or revoked. The fee for the license is fifty dollars per year. The commissioner may at any time, after hearing, revoke or suspend the license of an advisory organization that does not comply with the requirements and standards of this chapter.

SECTION 9. Section 26.1-25-10.2 of the North Dakota Century Code is created and enacted as follows:

26.1-25-10.2. Insurers and advisory organizations - Prohibited activity.

1. No insurer or advisory organization may:
  - a. Attempt to monopolize or combine or conspire with any other person to monopolize an insurance market.
  - b. Engage in a boycott, on a concerted basis, of an insurance market.
2. a. No insurer may agree with any other insurer or with an advisory organization to mandate adherence to or to mandate use of any rate, rating plan, rating schedule, rating rule, policy or bond form, rate classification, rate territory, underwriting rule, survey, inspection or similar material, except as needed to develop statistical plans permitted by subsection 1. The fact that two or more insurers, whether or not members or subscribers of an advisory organization, use consistently or intermittently the same rates, rating plans, rating schedules, rating rules, policy or bond forms, rate classifications, rate territories, underwriting rules, surveys or inspections, or

- similar materials is not sufficient in itself to support a finding that an agreement exists.
- b. Two or more insurers having a common ownership or operating in this state under common management or control may act in concert between or among themselves with respect to any matters pertaining to those activities authorized in this chapter as if they constituted a single insurer.
3. No insurer or advisory organization may make any arrangement with any other insurer, advisory organization, or other person which has the purpose or effect of restraining trade unreasonably or of substantially lessening competition in the business of insurance.
4. In addition to the other prohibitions contained in this chapter, except as specifically permitted under this section, no advisory organization may compile or distribute recommendations relating to rates that include expenses other than loss adjustment expenses, or profit.

SECTION 10. Section 26.1-25-10.3 of the North Dakota Century Code is created and enacted as follows:

26.1-25-10.3. Advisory organizations - Permitted activity. Any advisory organization in addition to other activities not prohibited, is authorized, on behalf of its members and subscribers, to:

1. Develop statistical plans including territorial and class definitions.
2. Collect statistical data from members, subscribers, or any other sources.
3. Prepare and distribute prospective loss costs.
4. Prepare and distribute factors, calculations, or formulas pertaining to classification, territory, increased limits, and other variables.
5. Prepare and distribute manuals of rating rules and rating schedules that do not include final rates, expense provisions, profit provisions, or minimum premiums.
6. Distribute information that is required or directed to be filed with the commissioner.
7. Conduct research and onsite inspections in order to prepare classifications of public fire defenses.
8. Consult with public officials regarding public fire protection as it would affect members, subscribers, and others.
9. Conduct research and collect statistics in order to discover, identify, and classify information relating to causes or prevention of losses.

10. Prepare policy forms and endorsements and consult with members, subscribers, and others relative to their use and application.
11. Conduct research and onsite inspections for the purpose of providing risk information relating to individual structures.
12. Collect, compile, and distribute past and current prices of individual insurers and publish such information.
13. File final rates, at the direction of the commissioner, for residual market mechanisms.
14. Furnish any other services, as approved or directed by the commissioner, related to those enumerated in this section.

SECTION 11. Section 26.1-25-10.4 of the North Dakota Century Code is created and enacted as follows:

26.1-25-10.4. Advisory organizations - Filing requirements. Every advisory organization shall file with the commissioner for approval all prospective loss costs and all supplementary rating information and every change or amendment or modification of any of the foregoing proposed for use in this state. The filings are subject to the provisions of this chapter relating to filings made by insurers.

SECTION 12. Section 26.1-25-10.5 of the North Dakota Century Code is created and enacted as follows:

26.1-25-10.5. Joint underwriting, joint reinsurance pool, and residual market activities.

1. Authorization. Notwithstanding subdivision a of subsection 2 of section 26.1-25-10.1, insurers participating in joint underwriting, joint reinsurance pools, or residual market mechanisms may in connection with such activity act in cooperation with each other in the making of rates, rating systems, policy forms, underwriting rules, surveys, inspections and investigations, the furnishing of loss and expense statistics or other information, or carrying on research. Joint underwriting, joint reinsurance pools, and residual market mechanisms may not be deemed an advisory organization.
2. Regulation.
  - a. Except to the extent modified by this section, insurers, joint underwriting, joint reinsurance pool, and residual market mechanism activities are subject to the other provisions of this chapter.
  - b. If, after hearing, the commissioner finds that any activity or practice of an insurer participating in joint underwriting or a pool is unfair, is unreasonable, will tend to lessen competition in any market, or is otherwise inconsistent with the provisions or purposes of this chapter, the commissioner may issue a written order and require the discontinuance of such activity or practice.

- c. Every pool shall file with the commissioner a copy of its constitution; its articles of incorporation, agreement, or association; its bylaws, rules, and regulations governing its activities; its members; the name and address of a resident of this state upon whom notices or orders of the commissioner or process may be served; and any changes in amendments or changes in the foregoing.
- d. Any residual market mechanism, plan, or agreement to implement such a mechanism, and any changes or amendments thereto, must be submitted in writing to the commissioner for consideration and approval, together with such information as may be reasonably required. The commissioner may approve only such agreements as are found to contemplate:
- (1) The use of rates that meet the standards prescribed by this chapter; and
  - (2) Activities and practices that are not unfair, unreasonable, or otherwise inconsistent with the provisions of this chapter.

At any time after such agreements are in effect, the commissioner may review the practices and activities of the adherents to such agreements and if, after a hearing, the commissioner finds that any such practice or activity is unfair or unreasonable, or is otherwise inconsistent with the provisions of this chapter, the commissioner may issue a written order to the parties and either require the discontinuance of such acts or revoke approval of any such agreement.

SECTION 13. AMENDMENT. Section 26.1-25-12 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-12. Examinations. The commissioner shall, at least once in five years, make or cause to be made an examination of each rating organization licensed in this state. The commissioner may, as often as the commissioner deems expedient, make or cause to be made an examination of each advisory organization referred to in section ~~26.1-25-10~~ 26.1-25-10.1 and of each group, association, or other organization referred to in section ~~26.1-25-11~~ 26.1-25-10.5. The reasonable costs of any examination must be paid by the ~~rating organization~~; advisory organization, or group, association, or other organization examined upon presentation to it of a detailed account of the costs. The officer, manager, agents, and employees of the ~~rating organization~~; advisory organization, or group, association, or other organization may be examined at any time under oath and shall exhibit all books, records, accounts, documents, or agreements governing its method of operation.

The commissioner shall furnish two copies of the examination report to the organization, group, or association examined and shall notify the organization, group, or association that it may, within twenty days thereafter, request a hearing on the report or on any facts or recommendations therein. Before filing any report for public inspection, the commissioner shall grant a hearing to the organization, group, or association examined. The report of any examination, when filed for public inspection,

is admissible in evidence in any action or proceeding brought by the commissioner against the organization, group, or association examined, or its officers or agents, and is prima facie evidence of the facts stated therein. The commissioner may withhold the report of any examination from public inspection for the time as the commissioner deems proper.

In lieu of any such examination the commissioner may accept the report of an examination made by the insurance supervisory official of another state, pursuant to the laws of that state.

SECTION 14. AMENDMENT. Section 26.1-25-13 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-13. Rate administration.

1. The commissioner shall adopt reasonable rules and statistical plans, reasonably adopted to each of the rating systems on file with the commissioner, which may be modified from time to time and which must be used thereafter by each insurer in the recording and reporting of its loss and countrywide expense experience, in order that the experience of all insurers may be made available at least annually in such form and detail as may be necessary to aid the commissioner in determining whether rating systems comply with the standards set forth in section 26.1-25-03. The rules and plans may also provide for the recording and reporting of expense experience items which are specially applicable to this state and are not susceptible of determination by a prorating of countrywide expense experience. In adopting the rules and plans, the commissioner shall give due consideration to the rating systems on file with the commissioner and, in order that the rules and plans may be as uniform as is practicable among the several states, to the rules and to the form of the plans used for the rating systems in other states. No insurer may be required to record or report its loss experience on a classification basis that is inconsistent with the rating system filed by it. The commissioner may designate one or more rating advisory organizations or other agencies to assist the commissioner in gathering such experience and making compilations thereof, and the compilations must be made available, subject to reasonable rules adopted by the commissioner, to insurers and rating advisory organizations.
2. Reasonable rules and plans may be adopted by the commissioner for the interchange of data necessary for the application of rating plans.
3. In order to further uniform administration of rate regulatory laws, the commissioner and every insurer and rating advisory organization may exchange information and experience data with insurance supervisory officials, insurers, and rating advisory organizations in other states and may consult with them with respect to ratemaking and the application of rating systems.
4. The commissioner may adopt reasonable rules necessary to effect the purposes of this chapter.

SECTION 15. AMENDMENT. Section 26.1-25-14 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-14. False or misleading information. No person or organization may willfully withhold information from, or knowingly give false or misleading information to, the commissioner, any statistical agency designated by the commissioner, any rating advisory organization, or any insurer, which will affect the rates or premiums chargeable under this chapter. A violation of this section subjects the offender to the penalties provided in section 26.1-25-18.

SECTION 16. AMENDMENT. Section 26.1-25-17 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-17. Hearing procedure and judicial review. Any insurer or rating advisory organization aggrieved by any order or decision of the commissioner made without a hearing may, within thirty days after notice of the order to the insurer or organization, make written request to the commissioner for a hearing thereon. The commissioner shall hear the party within twenty days after receipt of the request and shall give not less than ten days' written notice of the time and place of the hearing. Within fifteen days after the hearing, the commissioner shall affirm, reverse, or modify the previous action, specifying the reasons therefor. Pending the hearing and decision thereon the commissioner may suspend or postpone the effective date of the previous action. This chapter does not require the observance at any hearing of formal rules of pleading or evidence.

SECTION 17. AMENDMENT. Section 26.1-25-18 of the North Dakota Century Code is amended and reenacted as follows:

26.1-25-18. Penalties. Any person who violates this chapter shall be guilty of a class B misdemeanor.

The commissioner may suspend the license of any rating advisory organization or insurer which fails to comply with the order of the commissioner with the time limited by the order or any extension thereof which the commissioner may grant. However, no right to suspend any license exists until after the time for appeal from the order has expired, or if an appeal has been taken, until the order has been affirmed, and no right of suspension exists if prompt compliance with the order is made following the expiration of the time for appeal or the entry of a final order or judgment of affirmance upon appeal. The commissioner may determine when a suspension becomes effective and it remains in effect for the period fixed by the commissioner, unless the commissioner modifies or rescinds the suspension, or until the order upon which the suspension is based is modified, rescinded, or reversed.

A license may not be suspended or revoked except upon a written order of the commissioner, stating the findings, made after a hearing held upon not less than ten days' written notice to the person or organization specifying the alleged violation.

SECTION 18. Section 26.1-25-19 of the North Dakota Century Code is created and enacted as follows:

26.1-25-19. Exemptions. The commissioner may, by rule, exempt any market from any or all of the provisions of this chapter, if and to the extent that the exemption is necessary to achieve the purposes of this chapter.

SECTION 19. AMENDMENT. Section 26.1-30.1-02 of the North Dakota Century Code is amended and reenacted as follows:

26.1-30.1-02. ~~Midterm cancellation of liability commercial insurance.~~ No insurer may cancel a policy of commercial ~~liability~~ insurance during the term of the policy, except for one or more of the following reasons:

1. Nonpayment of premiums;
2. Misrepresentation or fraud made by or with the knowledge of the insured in obtaining the policy or in pursuing a claim under the policy;
3. Actions by the insured that have substantially increased or substantially changed the risk insured;
4. Refusal of the insured to eliminate known conditions that increase the potential for loss after notification by the insurer that the condition must be removed;
5. Substantial change in the risk assumed, except to the extent that the insurer should reasonably have foreseen the change or contemplated the risk in writing the contract;
6. Loss of reinsurance by the insurer which provided coverage to the insured for a significant amount of the underlying risk insured. Any notice of cancellation pursuant to this subsection must advise the policyholder that the policyholder has ten days from the date of receipt of the notice to appeal the cancellation to the insurance commissioner and that the commissioner will render a decision as to whether the cancellation is justified because of the loss of reinsurance within five business days after receipt of the appeal;
7. A determination by the insurance commissioner that the continuation of the policy could place the insurer in violation of the insurance laws of this state; or
8. Nonpayment of dues to an association or organization, other than an insurance association or organization, where payment of dues is a prerequisite to obtaining or continuing such insurance; except this provision for cancellation for failure to pay dues does not apply to persons who are retired at sixty-two years of age or older or to any person who is disabled according to social security standards.
9. A violation of any local fire, health, safety, building, or construction regulation or ordinance with respect to any insured property or the occupancy thereof which substantially increases any hazard insured against.

SECTION 20. AMENDMENT. Section 26.1-30.1-03 of the North Dakota Century Code is amended and reenacted as follows:

26.1-30.1-03. Notice. Cancellation under subsections 2 through ~~8~~ 9 of section 26.1-30.1-02 is not effective prior to thirty days after notice to the policyholder. The notice of cancellation must contain a specific reason for cancellation as provided in section 26.1-30.1-02. A policy may not be

canceled for nonpayment of premium pursuant to subsection 1 of section 26.1-30.1-02 unless the insurer, at least ten days prior to the effective cancellation date, has given notice to the policyholder of the amount of premium due and the due date. The notice must state the effect of nonpayment by the due date. No cancellation for nonpayment of premium is effective if payment of the amount due is made prior to the effective date set forth in the notice.

SECTION 21. Section 26.1-30.1-03.1 of the North Dakota Century Code is created and enacted as follows:

2. The commissioner may adopt rules that specify prohibited medicare supplement policy provisions not otherwise specifically authorized by statute which, in the opinion of the commissioner, are unjust, unfair, or unfairly discriminatory to any person insured or proposed for coverage under a medicare supplement policy.
  3. Notwithstanding any other law, a medicare supplement policy may not deny a claim for losses incurred for more than six months from the effective date of coverage for a preexisting condition. The policy may not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six months before the effective date of coverage.
  4. A policy or certificate of insurance providing medicare supplement benefits which is sold to a consumer in addition to another medicare supplement policy or which is sold to a consumer to replace such a policy may not contain any provision limiting payment of benefits due to preexisting conditions of the insured except if there is any time period remaining relating to the exclusion of coverage for preexisting conditions as specified in the underlying policy that remaining waiting period for coverage of preexisting conditions applies to the new policy unless the policy otherwise provides.

The commissioner shall adopt rules to establish minimum standards for medicare supplement policy loss ratios on the basis of incurred claims experience and earned premiums for the entire period for which rates are computed to provide coverage and in accordance with accepted actuarial principles and practices.

26.1-36.1-05. Medicare supplement policy disclosure standards.

1. To provide for full and fair disclosure in the sale of medicare supplement policies, no medicare supplement policy may be delivered or issued for delivery in this state and no certificate may be delivered pursuant to a group medicare supplement policy delivered

    - d. A statement that the outline of coverage is a summary of the policy issued or applied for and that the policy should be consulted to determine governing contractual provisions.
  3. The commissioner may prescribe by rule a standard form and the contents of an informational brochure for persons eligible for medicare which is intended to improve the buyer's ability to select the most appropriate coverage and improve the buyer's understanding of medicare. Except in the case of direct response insurance policies, the commissioner may require by rule that the information brochure be provided to any prospective insureds eligible for medicare concurrently with the delivery of the outline of coverage. With respect to direct response insurance policies, the commissioner may require by rule that the prescribed brochure be provided upon request to any prospective insureds eligible for medicare by reason of age, but in no event later than the time of policy delivery.
  4. The commissioner may adopt rules for captions or notice requirements, determined to be in the public interest and designed to inform prospective insureds that particular insurance coverages are not medicare supplement coverages, for all accident and health insurance policies sold to persons eligible for medicare, other than:
    - a. Medicare supplement policies.
    - b. Disability income policies.
    - c. Basic, catastrophic, or major medical expense policies.
    - d. Single premium, nonrenewable policies.
  5. The commissioner may also adopt rules to govern the full and fair disclosure of the information in connection with the replacement of accident and sickness policies, subscriber contracts, or certificates by persons eligible for medicare.

26.1-36.1-06. Medicare supplement policies - Notice of free examination. Medicare supplement policies or certificates must have a notice prominently printed on or attached to the first page of the policy stating in substance that the applicant may return the policy or certificate within thirty days of its delivery and have the premium refunded if, after examination of the policy or certificate, the applicant is not satisfied for any reason.

26.1-36.1-07. Filing requirements for advertising. Every insurer, health care service plan, or other entity providing medicare supplement insurance or benefits in this state shall provide a copy of any medicare supplement advertisement within ten days after its first use in this state whether through written, radio, or television medium for review or approval by the commissioner to the extent required or authorized by state law.

26.1-36.1-08. Effect of policy not conforming to chapter. A policy delivered or issued for delivery to any person in this state in violation of this chapter is valid but must be construed as provided in this chapter. 26.1-36.1-09. General penalty - License suspension or revocation. Any person willfully violating any provision of this chapter or order of the commissioner made in accordance with this chapter is guilty of a class A misdemeanor.   - (3) The benefits are reasonable in relation to the premiums charged.
4. "Long-term care insurance" means any insurance policy or rider primarily advertised, marketed, offered, or designed to provide coverage for not less than one year for each covered person on an expense incurred, indemnity, prepaid, or other basis, for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute care unit of a hospital. 5. "Policy" means any policy, contract, subscriber agreement, rider, or endorsement delivered or issued for delivery in this state by an insurer, fraternal benefit society, nonprofit health service corporation, prepaid health plan, health maintenance organization, or any similar entity.

SECTION 4. AMENDMENT. Section 26.1-45-04 of the North Dakota Century Code is amended and reenacted as follows:

The insurer may, however, in accordance with the provisions of the policy, make changes in premium rates as to all insureds who are placed in the same class for purposes of rate determination in the process of issuance of the policy or making it guaranteed renewable.

Unless otherwise provided in the policy or certificate, a preexisting condition, regardless of whether it is disclosed on the application, need not be covered until the waiting period described in subsection 2 expires. No long-term care insurance policy or certificate may exclude or use waivers or riders of any kind to exclude, limit, or reduce coverage or benefits for specifically named or described preexisting diseases or physical conditions beyond the waiting period described in subsection 2.

SECTION 11. AMENDMENT. Section 26.1-45-10 of the North Dakota Century Code is amended and reenacted as follows:

26.1-45-10. Application. This chapter and section 26.1-36-37 do not supersede the obligations of entities subject to this chapter and section 26.1-36-37 to comply with the substance of other applicable insurance laws insofar as they do not conflict with this chapter and section 26.1-36-37;

except that laws and rules designed and intended to apply to medicare supplement insurance policies may not be applied to long-term care insurance. A policy that is not advertised, marketed, or offered as long-term care insurance or solely as nursing home insurance need not meet the requirements of this chapter and section 26.1-36-37. Any policy or rider advertised, marketed, or offered as long-term care or nursing home insurance must comply with the provisions of this chapter and all other applicable insurance laws insofar as they do not conflict with this chapter.

SECTION 12. Section 26.1-45-11 of the North Dakota Century Code is created and enacted as follows:

26.1-45-11. Rulemaking authority. The commissioner may adopt reasonable rules to establish minimum standards for correcting abusive marketing practices, replacement forms, agent testing, penalties, and reporting practices for long-term care insurance.

SECTION 13. Section 26.1-45-12 of the North Dakota Century Code is created and enacted as follows:

26.1-45-12. Penalties. In addition to any other penalties provided by the laws of this state, any insurer and any agent found to have violated any requirement of this title relating to the regulation of long-term care insurance or the marketing of such insurance shall be subject to a fine of up to three times the amount of any commissions paid for each policy involved in the violation or up to ten thousand dollars, whichever is greater.

SECTION 14. REPEAL. Sections 26.1-36-31, 26.1-36-32, 26.1-36-33, 26.1-36-34, 26.1-36-35, 26.1-36-36, 26.1-36-36.1, and 26.1-36-37 of the North Dakota Century Code are repealed.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 26.1-06.1 of the North Dakota Century Code is created and enacted as follows:

- g. Providing for a comprehensive scheme for the rehabilitation and liquidation of insurance companies and those subject to this chapter as part of the regulation of the business of insurance, insurance industry, and insurers in this state.   - k. Any other threatened or contemplated action that might lessen the value of the insurer's assets or prejudice the rights of policyholders, creditors, or shareholders, or the administration of any proceeding under this chapter.
2. The receiver may apply to any court outside of the state for the relief described in subsection 1.

26.1-06.1-06. Cooperation of officers, owners, and employees.

1. Any officer, manager, director, trustee, owner, employee, or agent of any insurer, or any other persons with authority over or in charge of any segment of the insurer's affairs, shall cooperate with the commissioner in any proceeding under this chapter, or any investigation preliminary to the proceeding. The term "person" as used in this section includes any person who exercises control directly or indirectly over activities of the insurer through any holding company or other affiliate of the insurer. "To cooperate" includes the following:
  - a. To reply promptly in writing to any inquiry from the commissioner requesting a reply;
  - b. To make available to the commissioner any books, accounts, documents, or other records or information or property of or pertaining to the insurer and in possession, custody, or control of that person; and
  - c. To be available for oral statements and interviews by the commissioner if so requested.
2. No person may obstruct or interfere with the commissioner in the conduct of any delinquency proceeding or any investigation preliminary or incidental thereto.
3. Any person included within subsection 1 who fails to cooperate with the commissioner, or any person who obstructs or interferes with the commissioner in the conduct of any delinquency proceeding or any investigation preliminary or incidental thereto, or who violates any valid order issued by the commissioner under this chapter is guilty of a class A misdemeanor and, after a hearing, may be subject to the imposition by the commissioner of a civil penalty not to exceed ten thousand dollars and may be subject further to the revocation or suspension of any insurance licenses issued by the commissioner.

26.1-06.1-07. Continuation of delinquency proceedings. Every proceeding heretofore commenced under the laws in effect before the enactment

of this chapter shall be deemed to have commenced under this chapter for the purpose of conducting the proceeding henceforth, except that in the discretion of the commissioner the proceeding may be continued, in whole or in part, as it would have been continued had this chapter not been enacted.

26.1-06.1-08. Condition on release from delinquency proceedings. No insurer subject to any delinquency proceedings, whether administrative or judicial, may, until all payments of or on account of the insurer's contractual obligations by all guaranty associations, along with all expenses thereof and interest on all such payments and expenses, have been repaid to the guaranty associations, or until a plan of repayment by the insurer has been approved by the guaranty associations:

1. Be released from the proceeding, unless the proceeding is converted into a judicial rehabilitation or liquidation proceeding;
2. Be permitted to solicit or accept new business or request or accept the restoration of any suspended or revoked license or certificate of authority;
3. Be returned to the control of its shareholders or private management; or
4. Have any of its assets returned to the control of its shareholders or private management.

26.1-06.1-09. Court's seizure order.

1. The commissioner may file in the district court of this state a petition alleging, with respect to a domestic insurer:
  - a. That grounds exist which justify a court order for a formal delinquency proceeding against an insurer under this chapter;
  - b. That the interests of policyholders, creditors, or the public will be endangered by delay; and
  - c. The contents of an order deemed necessary by the commissioner.
2. Upon a filing under subsection 1, the court may issue forthwith, ex parte, and without a hearing the requested order which shall direct the commissioner to take possession and control of all or a part of the property, books, accounts, documents, and other records of an insurer, and of the premises occupied by it for transaction of its business; and, until further order of the court, enjoin the insurer and its officers, managers, agents, and employees from disposition of its property and from the transaction of its business except with the written consent of the commissioner.
3. The court shall specify in the order the duration of the order which shall be such time as the court deems necessary for the commissioner to ascertain the condition of the insurer. On motion of either party or on its own motion, the court may from time to time hold such hearings as it deems necessary after such notice as it deems appropriate, and may modify the terms or duration of the seizure order. The court shall vacate the seizure order if the commissioner fails to commence a formal proceeding under this

chapter after having had a reasonable opportunity to do so. An order of the court pursuant to a formal proceeding under this chapter shall ipso facto vacate the seizure order.

4. Entry of a seizure order under this section shall not constitute an anticipatory breach of any contract of the insurer.
5. An insurer subject to an ex parte order under this section may petition the court at any time after the issuance of the order for a hearing and review of the order. The court shall hold a hearing and review not more than fifteen days after the request. A hearing under this subsection may be held privately in chambers and it shall be so held if the insurer proceeded against so requests.
6. If, at any time after the issuance of a seizure order under this section, it appears to the court that any person whose interest is or will be substantially affected by the order did not appear at the hearing and has not been served, the court may order that notice be given. An order that notice be given shall not stay the effect of any order previously issued by the court.

26.1-06.1-10. Confidentiality of hearings. In all proceedings and judicial reviews thereof under section 26.1-06.1-09, all records of the insurer, other documents, and all insurance department files and court records and papers, so far as they pertain to or are a part of the record of the proceedings, shall be and remain confidential except as is necessary to obtain compliance therewith, unless and until the district court, after hearing arguments from the parties in chambers, orders otherwise; or unless the insurer requests that the matter be made public. Until such court order, all papers filed with the clerk of the district court shall be held by the clerk in a confidential file.

26.1-06.1-11. Grounds for rehabilitation. The commissioner may apply by petition to the district court for an order authorizing the rehabilitation of a domestic insurer or an alien insurer domiciled in this state on any one or more of the following grounds:

1. The insurer is in such condition that the further transaction of business would be hazardous financially to its policyholders, creditors, or the public.
2. There is reasonable cause to believe that there has been embezzlement from the insurer, wrongful sequestration, or diversion of the insurer's assets, forgery, or fraud affecting the insurer, or other illegal conduct in, by, or with respect to the insurer that if established would endanger assets in an amount threatening the solvency of the insurer.
3. The insurer has failed to remove any person who in fact has executive authority in the insurer, whether an officer, manager, general agent, employee, or other person, if the person has been found after notice and hearing by the commissioner to be dishonest or untrustworthy in a way affecting the insurer's business.
4. Control of the insurer, whether by stock ownership or otherwise, and whether direct or indirect, is in a person or persons found after notice and hearing to be untrustworthy.

5. Any person, whether an officer, manager, general agent, director, trustee, employee, or other person, who in fact has executive authority in the insurer, has refused to be examined under oath by the commissioner concerning its affairs, whether in this state or elsewhere.
6. After demand by the commissioner pursuant to the provisions of sections 26.1-03-19 through 26.1-03-21, or pursuant to the provisions of this chapter, the insurer has failed to promptly make available for examination any of its own property, books, accounts, documents, or other records, or those of any subsidiary or related company within the control of the insurer, or those of any person having executive authority in the insurer so far as they pertain to the insurer.
7. Without first obtaining the written consent of the commissioner, the insurer has transferred, or attempted to transfer, in a manner contrary to chapter 26.1-10 or 26.1-07, substantially its entire property or business, or has entered into any other transaction the effect of which is to merge, consolidate, or reinsure substantially its entire property or business in or with the property or business of any other person.
8. The insurer or its property has been or is the subject of an application for the appointment of a receiver, trustee, custodian, conservator, or sequestrator or similar fiduciary of the insurer or its property otherwise than as authorized under the insurance laws of this state, and the appointment has been made or is imminent, and the appointment might remove the insurer or its property from the jurisdiction of this state, or might prejudice orderly delinquency proceedings under this chapter.
9. Within the previous four years the insurer has willfully violated its charter or articles of incorporation, its bylaws, any insurance law of this state, or any valid order of the commissioner.
