FOREWORD

CALIFORNIANS come from everywhere. Every State—nearly every county—in the Union is represented here. While a few other cities are as “cosmopolitan” as Los Angeles, no other city in the world is made up of so many intelligent and well-to-do people so far from their old homes and from homes so widely scattered. Perhaps in proportion to population there is no other city in whose households

are in vogue so many varieties of cookery from so many lands and localities. It is therefore a place where housewives may have a most cosmopolitan comparing of notes. Without going outside their own ward or their own “social set,” they may exchange recipes for English puddings, New England pies, French sautés, Italian pastes, Swiss hassenpfeffer, Virginia cornpone, Mexican chocolate—in fine, the dishes of every land, and from typical housekeepers thereof.

Taking a hint from this fact, a committee of ladies connected with the Landmarks Club (Mrs. J. G. Mossin and Mrs. George H. Wadleigh) have compiled the following book from the best personal sources; and it is offered to the public in the belief that it will be of real worth to housekeepers, not only in California but elsewhere.

The chapter of recipes for the most famous dishes of old-time California, Mexico and Spanish America in general, is believed to be the only reliable collection of the sort available.

A brief account of the purposes and work of the Landmarks Club is given on page V.

SPANISH-AMERICAN COOKERY

BY CHAS. F. LUMMIS

THE generic food habits of all long-established peoples are invariably based upon the average hygienic requirements of their habitat. The fruit-and-vegetable diet of the tropics; the omnivorous but heavily meat-consuming diet of northern lands; the still more heating fat diet of the polar regions—all are essential, in a broad way, to people in those respective environments. They have not been reasoned out by philosophers, indeed; but they have been arrived at by the slow, sure, common-sense gravitation of the race in its natural conditions. It is only in over-civilization, when other things than our real bodily needs begin to dictate our menu, that dyspepsia becomes our tenant. And it is a stupid traveler who mocks the ancient wisdom of the country as to what in that country should be eaten.

In the most important parts of Spanish America, and particularly in the high and dry regions—the “arid lands” like California, Arizona, New Mexico, the great Mexican plateau, Peru, etc.—the unconscious experimentation of centuries has shaped a general dietary plan of its own; varying in details with the locality, but harmonious enough to be reckoned as a class by itself. It is, of course, the oldest American “School of Cookery,” with more than 350 years at its back; and it is also the most wide-spread. It probably also derives more from the wisdom of a still remoter American antiquity than does any other national cuisine on this continent. If we incline to turn up our noses at Indians as instructors in eating, we may remember that they taught us potatoes of both sorts—for not only the sweet, but the “Irish” potato were exclusive natives of

America and were never heard of in the Old World till the Spanish acquired them in the New—our corn, sago, succotash, chocolate, cocoa, tapioca, peanuts, Lima beans and a great many other foodstuffs. And some of these, though in every-day use among us, are never tasted in their perfection except in Spanish America. For perfect chocolate, go to Mexico; while a Guatemala Indian would be ashamed to offer anyone what a majority of us would call a cup of coffee.

Palatable anywhere, this general dietary plan is almost indispensable in the countries where it has grown up. It admits of infinite variation; but its essential features are not to be disregarded. "Americans," for instance, who settle in California and continue to eat precisely as they used to in Maine or New Jersey or Indiana, need not wonder if in the long run their digestions fare as would the digestion of an Eskimo removing to Ecuador and maintaining his diet of blubber. In a word, diet must be adapted to climate. Natural man always does so adapt it—by the slow process of the survival of the least foolish—and has his reward. He has little need of dentists or appetizer, and biliousness, dyspepsia and gout are strangers to him. It is well for civilized people to be as wise. For such as dwell in the arid half of the United States, the Spanish-American menu can give many profitable hints.

Without going into an exhaustive essay on the details of this food-scheme, it will be enough to note a few of its vital characteristics. It is on the whole simpler than our average United States menu, with less pastry, less meat, and less flummiddiddle bread. Fruits, vegetables and soups are rather more predominant in it. For anti-bilious reasons it is much more highly seasoned than our own cookery. One of its characteristics is a liberal use of the chile, or native American red pepper, both green and ripe. This is not like the vicious cayenne or the venomous tabasco, but sweeter, more agreeable and more healthful than either. Most Americans do not at first flush like dishes in which it predominates; but it is an easily acquired taste—and once learned, there is nothing of which one becomes fonder

than a good concoction of chile. Green, it is chopped and fried with potatoes or meat or beans, to their great advantage. It is also used whole as a wrapper for stuffing of forced-meat, cheese, etc. When ripe, dried or fresh, it is ground up and cooked as the sauce of hundreds of dishes. Its "hotness" can easily be regulated without destroying its flavor, by soaking, by removing the seeds, by adding tomatoes, and so on. In any shape it is palatable, and in almost every shape beneficial to the system—though some few people find the green chiles, particularly when uncooked, too laxative. It is really a necessity of the arid lands; an unequalled stimulant to the liver, which tends in these climates to become torpid.

A number of the most famous and typical dishes of old-time California, New Mexico, Mexico and Peru, are here printed—most of them for the first time in English. There is very little precise measuring done among these old-fashioned cooks—much depends upon the instinct and practice of the chef. I myself—who learned to cook for myself on the frontiers, and to cook well—always take "some" of this and "some" of that, and have not made a very bad dish in a good many years. As with my grandmother's doughnuts—the first things I assayed to cook in my early "baching it" in New Mexico—there had to be a sort of enlightened guess-work on my part. But after a few trials my doughnuts were as good as anyone's. So with these Spanish-American dishes. Even if the precise proportions could be given, they might be "too rich" for a strange palate at first trial. A reasonable cook, with the following directions, can very soon adjust proportions to personal taste. When that shall have been done, the family dietary will have been enriched by just so many new, agreeable and hygienic dishes.

THE Landmarks Club, under whose auspices and for whose benefit this book is published, is an organization of well known men and women, incorporated under the laws of the State, to preserve the historic landmarks of Southern California. Its officers receive no compensation whatever.

The largest effort of the club has been to preserve from further spoliation and decay the remains of the old Franciscan Missions. The noblest and most impressive ruins in the United States, these venerable piles were going to pieces with fearful rapidity, an unprotected prey of vandals and the weather. The club has secured long leases on San Juan Capistrano (1776) and San Fernando (1797) and is about to secure one on the "Mother Mission," San Diego (1769). It has raised about \$4700 by subscription and other means, and applied it to extensive preservative repairs upon these three Missions. There is no Philistine "restoration." All work is done under the expert supervision of men who have long and seriously studied the Mission architecture and history. The ruined roofs have been replaced with new and massive structures upon which the original tiles have been used. Over *two acres* of roof have been put on. Breached walls have been repaired, leaning walls underpinned and tied, crumbling masonry buttressed, several

hundred tons of debris removed, and a new era of care-taking introduced. Without such steps, most of these great buildings (being of adobe, which is almost imperishable if protected but very vulnerable to dampness) would have been mere mounds by 1905. As it is, the repaired ones will now stand about as they are for another full century. Yet only a very small part of the necessary work of protection has yet been accomplished. Each of these Missions was not a mere church, but a little walled city in the wilderness, with scores of buildings and miles of walls. Only the chief buildings at each of these three places have thus far been safeguarded—and of their size and beauty, as well as of the work done upon them by the club, some idea may be had from the illustrations in this volume. For the great work yet to be done, funds are urgently needed; and the club appeals to all who can feel for such a cause. Membership in the club is \$1 a year, and there are no other bars. Life memberships are \$25; and a few public spirited men and women have given larger sums. All contributions are acknowledged by receipt and in the magazine *OUT WEST*. Moneys may be sent to the president or secretary.

Besides this work upon the Missions, the club has saved the historic Plaza of Los Angeles from obliteration, and preserved several hundred of the historic street names which were being replaced with irrelevant new titles.

It is now also engaged in extensive repairs to the Mission chapel at Pala.

CHAPTER I.

SOME SPANISH-AMERICAN DISHES OF CALIFORNIA, MEXICO, PERU, ETC.

FURNISHED BY CHAS. F. LUMMIS.

CHUPE, THE "NATIONAL SOUP" OF PERU.

Boil potatoes, white or sweet. Shrimps are the highest touch of Chupe, but in Peru they are as large as a young lobster. The large Barataria shrimps will do. In default of them, use slices of any large, meaty fresh fish—cod, halibut, etc. A smother is made in a pot, with butter, salt, a pinch of sweet marjoram, a little strong vinegar and a little pepper. Into this put successively the potatoes, cut in halves, the shrimps or fish, quarter of a pound (for an ordinary family) of fresh cream cheese, cut up into pieces the size of the finger, and break into it four eggs. Pour on the boiling water in which the potatoes were cooked, and boil slowly for an hour. Properly made, Chupe is admitted by travelers to be one of the most delicious soups in the world.

SANCOCHADO (PERU).

In a pot set water to boil, salting it first. Take rump beef, with plenty of fat, soup bones, and some dried beef. Wash carefully, and put in the pot when the water boils. Add a handful of rice, and one of peas, soaked over night. When it boils again, skim thoroughly, and add parsnips cut up, a whole onion and a couple of red chiles. When the meat is very tender, set back and allow to settle. In serving, the soup should be sprinkled with green peppers, onions, parsley and coriander, all chopped very fine.

AJIACO (PERU).

Boil prime potatoes. In a stew-pan prepare a smother with salt, ground red chile, plenty of lard or butter, and shredded onions. Put in the potatoes, cut up but not smashed, and plenty of grated fresh cheese. Stir well and add a little broth, that it be not too thick. Serve with hard-boiled eggs cut in four; and sprinkle with chopped parsley and grated cheese.

TORREJAS DE PESCADO (PERU).

(Fish fritters): Take fried fish, remove all bones and pick to bits. Chop onion, parsley, marjoram and tomatos, and stir well together. In separate dish beat up two to four eggs till very light; pour into them, without stopping beating, the minced onion, etc. When these are well beaten together, add a little flour and continue beating until the whole is well mixed. Then add the picked-up fish, pepper and salt, all the time beating the batter. Have a pan of hot lard ready, as for doughnuts, and drop the batter into this, a spoonful at a time, and cook them a delicate brown.

Very delicious shrimp fritters are made in the same way.

LOMITO (PERU).

Take a piece of fresh pork tenderloin and slice it as for beefsteak. Take a plenty of ground chile, a little cayenne pepper, and dissolve all in good vinegar. Put the slices in this for one hour, and then lay them aside to dry off. To use, grease them with a little butter, and broil.

PAPAS RELLENAS (PERU).

(Stuffed Potatos): Mash potatos soft and moist and season well with salt and pepper. Mince up cooked beef, and make a cone of it, with raisins, clove, a little good port wine, minced hard-boiled egg and stoned ripe olives. Cover this with the batter of mashed potato, forming a ball, and fry in hot lard like doughnuts, to a golden brown.

TAMAL CRIOLLO (PERU).

(Creole Tamales): Take white hulled corn and mash thoroughly. Put in a clean covered dish. Put in a pot to boil, a little water with morsels of fresh pork (or chicken), with salt. When it comes to a boil, take out the meat and wet up the corn-dough with this broth. Warm a pound of lard or butter, add ground chile and a little anise, and mix this thoroughly with the dough. Fry the pieces of meat well with a little lard and plenty of ground chile. Make a wrapper of clean corn husks six or eight inches long, lapping so they will thoroughly enclose an oblong roll two inches in diameter. Tie one end

with corn husk. Lift half the wrapper, and in the lower cradle put a handful of the corn-dough; nest in its center a piece of the meat, a little of the sauce in which the meat was fried, a stoned ripe olive, three or four roasted peanut kernels (peeled), and a small piece of hard-boiled egg. Cover all with another portion of the corn-dough, draw the corn-husk wrapper over the whole and tie the other end, making the package oblong. A pot of boiling water, fairly salted, must be ready; and in this the tamales should be boiled three hours.

HUATIA (PERU).

Boil fresh pork and then fry it. Boil good sweet potatoes separately. Prepare a sauce with plenty of lard, ground chile, salt, cumin and the juice of a sour orange (or lemon) in a stewpan. Put in the meat, cut in pieces, and the sweet potato in slices, and cook slowly two hours.

BIFSTEK A LA CHORRILLANA (PERU).

In a smother of tomatos, onions, pepper, shredded green peppers and a little vinegar, all with plenty of lard, cook the beefsteak in slices until thoroughly done. Serve with boiled sweet and white potatoes, sliced.

PERUVIAN ALBONDIGAS.

(Stuffed green peppers; the Mexican Albondiga is entirely different):

Boil mutton till tender. Scald large green chile peppers and remove their thin outer skin. Hash the meat and make it into a stuffing with raisins, stoned ripe olives and hard-boiled eggs minced fine. Fill the peppers with this stuffing, and put them in a pot in which has already been prepared a sauce of tomatos, whole red chile peppers, raisins, onion and a little broth, and heat slowly, twenty minutes, without stirring. Garlic can be added.

MEXICAN TAMALES.

A good Mexican recipe for tamales is as follows:

Place some ripe corn with a little piece of lime, and enough of water to well cover it, on the fire and let boil until the corn

begins to peel. When it is cool, rub between the hands until the skin and the kernel separate. Rinse in several waters, and with a knife pick the little black points out of each grain, and leave it soaking in water out in the air over night—the Mexicans believe the dews possess special virtue for blanching the corn, and a good cook prides herself on the whiteness of her tamales. The next day the corn is ground on the *metate* (in a mortar will do). Then for nine pounds of the prepared corn take a pint of warm water and an ounce of salt; mix and beat with the hands, adding gradually 2 lbs. of melted lard. Continue beating until when you place a little ball of the dough on water it will float. Have some dried corn husks ready (which have been well washed), and on each husk place a generous spoonful of the dough; add some *guiso* (stuffing), tie up and steam for about four hours.

GUIISO.—Toast some red peppers, taking care that they do not burn; then soak them in tepid water until they are soft. Remove the seeds and veins; grind in a mortar with a piece of bread fried in lard a little bit of chocolate, some cinnamon, all moistened with a little stock, in which a small bit of pork has been boiled. Put all these, with a little lard, into a saucepan, and when it bubbles, add the pork minced fine. Let it boil up, and it is ready for the dough.

SWEET TAMALES.—Are made in precisely the same way, only that the salt is omitted and 1 lb. of white sugar added, and raisins, cut up almonds and anise seed are put in the dough according to taste.

Of course, the above quantity makes a large number of tamales. They are difficult to make well, but are extremely delicate and delicious.

PATITAS CON MANI (PERU).

(Trotters with Peanuts): Sheep's feet or pig's feet thoroughly boiled; parboiled potatoes, quartered, are to be put in a smother made with plenty of roasted peanuts, part whole, part ground up, and seasoned with allspice. Fry all together in this batter for ten minutes, stirring constantly. If very thick, add a little broth.

PAPAS CON AJI (PERU).

(Peppered Potatos): Boil potatos of the best quality, not too soft. Make a smother of the best red chile (Mexican peppers), much lard, fresh cheese chopped fine, a little chopped onion, and a little fine vinegar. Put this in a saucepan, put in the potatos whole, and stir well while cooking, about 20 minutes. Add a little broth, that the sauce may not be too thick.

CARNE EN ADOBO (PERU).

(Meat in Pickle-sauce): Cut into small lumps a good-sized piece of fresh pork, and put it to fry. When half fried, add chopped onion and plenty of ground red chile, stir well, add a little strong vinegar, and cook 15 minutes.

MIGAS (PERU).

Soak stale bread, squeeze the water out, put it in a smother with plenty of lard, ground chile, chopped onion and a pinch sweet marjoram; add plenty of fresh cheese crumbled up, and stir all constantly till well mixed, say ten minutes. Dress with stoned olives (ripe), crumbled fresh cheese and hard-boiled eggs chopped. Goat's cheese is best for Migas.

TAMAL SERRANO (PERU).

(Mountaineer Tamales): Corn-dough made in the same method as for Creole tamales, and wrappers prepared the same. Take $\frac{1}{2}$ lb. lard, the pieces of pork cooked in the broth with which the dough is wet up; onion chopped very fine, country sausage-meat, peeled roasted peanuts, a few grains of anise, stoned ripe olives and a little good sweet wine (sherry or port). Fry all this together well, and let cool off. Put corn-dough in the wrapper as before, and in the center put one of each of the things in the sauce—meat, olives, etc.—and a quantity of the sauce. Cover with dough, tie wrappers as before and boil three hours.

GATO DE LIEBRE.

(Hare "Pie"): This dish will have a curious sound to many ears; but it is fit for a king, and held in grateful remembrance by those who have ever eaten it cooked by an expert. Even

the "udder of a cow" can be procured by pre-arrangement with the butcher. This preparation disputes with the Swiss "Hassen pfeffer" precedence as the most delicious dish ever made from hare or jackrabbit.

Remove all bones, membranes and tendons from a hare (or jackrabbit) roasted beforehand. Pick to pieces roughly, and grind (upon a metate or in a mortar) all the meat, together with the boiled udder of a cow. Mix all, when ground, with bread crumbs moistened in soup, adding salt, pepper, parsley, a bit of garlic, thyme and bay leaves, all chopped very fine. Wet up with yolks of eggs, and give the whole another turn in the mortar. Cover the bottom of a tin pan with thin slices of ham or bacon, putting the preparation on top and covering it with other slices of ham or bacon. Bake in the oven; or cook in a steamer until done, and then fry brown. Remove from pan by putting the latter in boiling water. Remove the slices of bacon and cover the dish with bread-crumbs.

PICHONES BORRACHOS.

("Drunken Pigeons"): Stew your pigeons till nearly done. Toast a number of very red tomatos, remove the skins, and put them to fry with a good slice of bread (broken up) and a handful of almonds. Fry separately a little ground parsley (and a bit of garlic if desired), and add a pint of claret, all the broth in which the pigeons were cooked, a handful of raisins, a few pieces of citron, some ripe olives, a little sugar, cinnamon, pepper and clove. Put the pigeons into this broth and let them cook a few minutes until done.

GALLORIA.

(Fried Bananas): Ripe bananas, cut lengthwise, fried in butter or olive oil. They may also be dipped first in a batter of beaten egg. In Michoacan there is a great business in dried bananas, which are also delicious when fried.

POLLOS DE LA BELLA MULATA.

(Chickens *á la* the Beautiful Mulatto): For four small chickens, brown in lard half a pound of fresh pork, quarter of a pound of almonds, a piece of bread, four ripe tomatos. Grind all in a mortar or metate. Fry onions chopped fine, with a

little parsley (a bit of garlic if desired). Add the other ingredients and fry all together. Add the chickens, with the broth in which they have been fully cooked, with pepper, salt, ground clove and cinnamon. Let come to a boil, add a cup of sherry, and serve.

OSTRAS DE LA BUENA MUJER.

(“Good Woman’s Oysters”): Slightly stew the oysters in their own liquor; dry them, and cut them up very fine. Mix up bread moistened in milk (no crusts), with parsley, onion and anchovies, all chopped very fine, salt and a little fresh butter. Knead up with the oysters, stirring in several yolks of eggs. This mixture can be laid in cakes upon the shells or in a pan powdered with fine bread-crumbs and put into the oven to brown.

QUESADILLAS DE PRISA.

(“Hurry-up Cheese Cakes”): Upon small and thin pancakes crumble cheese, old or fresh. Double the pancake over, and run a thread through the edges so the cheese cannot fall out. Put them in the oven or in the frying-pan until the cheese begins to melt. Then the Quesadillas should be eaten hot—for when cold they lose all their flavor.

GUAXOLOTE EN MOLE VERDE.

(Turkey in Green Sauce): One of the simpler of scores of ways to prepare the famous Mexican dish of turkey “en mole” (mó-ly) is as follows:

Grind up well (on metate or in mortar) a good quantity of tomatos with some toasted green chiles—taking the veins out of the latter if it be desired that the “mole” shall not “bite.” Grind also one or two branches of green coriander. Fry the turkey raw in medium-sized pieces; and fry the tomatos, chiles and coriander by themselves. Then put the pieces of turkey in this sauce, add water, salt it and let it boil till tender; adding a little ground clove, some tiny green chiles, some very small summer-squash (boiled) and some twigs of coriander.

CHILE SAUCE (MEXICO).

The Mexican chile colorado or red pepper, is sweeter and less vicious than the Eastern article, and is used in innumer-

able dishes. It is one of the most healthful condiments in the world, and almost a hygienic necessity in California and other non-humid lands. If an acquired taste, it is certainly one of the last to be given up.

For ordinary sauces, toast lightly your red chiles, dry or fresh, in the oven. Soak in water a few minutes, and grind on a milling-stone or in a mortar, to a wet pulp. Strain in a colander to remove bits of skin. The "hotness" can be graduated by leaving or removing the seeds, which contain most of the fire. Add a little salt and a tablespoonful of vinegar, and fry all together with a little butter.

CHILE CON CARNE (MEXICO).

Is made by frying beefsteak or other meat, cut in cubes, in this sauce. The sauce is also excellent cold for any meat, beans, etc.

ENCHILADAS.

(There are very many recipes, but this is my favorite.)

One of the most famous dishes of Mexico and early California. Make a chile sauce, as above described, of about 15 red chiles. Make corn-meal pancakes, rather thin and six inches across.

Dip each into the fried chile mixture, lay on a large plate, cover with raw onion chopped fine, grated cheese, and stoned ripe olives cut in half. Lay on this as many other pancakes soaked in the chile and covered with the onion, cheese, and olives, as desired. Pour the chile mixture over the top; set in a hot oven about three minutes. Serve very hot, cutting it like a layer cake. Or, each pancake may be folded like a turnover, with this sauce inside; but this is much more trouble.

ANOTHER CHILE SAUCE.

Take some ripe peppers and toast on the fire until they are the color of gold. While they are still warm, remove the outer skin, the veins and seeds. Add to what remains, when cool, the juice of an equal number of tomatoes toasted in the same manner as the peppers, a little salt, an onion (if liked), and crush all together with a little water.

CHILES RELLENOS CON QUESO (MEXICO).

(Green Chiles stuffed with cheese) : Take big green chiles and put in hot oven until blistered. Remove from oven and wrap in a cloth, to keep the steam in to make them peel easier. Peel while still hot. Take out seeds and veins—and put inside each chile a long slice of American cheese. Dip into a light batter of eggs and flour with a little baking powder, and fry in hot fat, like doughnuts. Serve hot.

Another kind of chiles rellenos is stuffed with minced meat (raisins added, if desired), and fried with a very little butter till brown.

CHILES RELLENOS DE PICADILLO (MEXICO).

(Stuffed Green Peppers) : Choose large green peppers with a thick skin. Toast them for a few minutes (the Mexicans put them right on the coals, but they toast nicely on the stove or on a hot pan). Then remove the thin outer skin, the seeds and the veins, which are very hot (or, as the Mexicans say, "*muy bravo*"). Let them soak in salt and water for an hour; this will remove all unpleasant fieriness. Stuff and fry either plain or rolled in egg and bread crumbs; and before removing them from the fire pour over them some tomato sauce. To make the stuffing, chop up some cold meat fine, mix with it an onion, a clove, salt, all chopped fine, and cook; adding, if you wish, a sprinkle of vinegar. To make the sauce, toast the tomatoes in the same manner as the peppers, mash them with a little salt, strain and cook with a little butter.

MEXICAN STUFFING FOR TURKEY.

Soak a couple of rolls or a piece of bread, finely crumbled, in a quart of milk. When sufficiently soaked, add three eggs (without beating), 2 oz. butter, a little salt and dust of nutmeg, 4 oz. almonds blanched and cut into small pieces. After beating this mixture well, put it to bake in the oven; and when it is cooked (you can tell this by testing it with a straw as you would a cake) stuff the turkey.

FRIJOLÉS* (MEXICO AND CALIFORNIA).

The *Frijol*, "Mexican brown bean" or "pink bean," is about twice as large as our Navy bean, and much richer and more

*Pronounced free-hó-less.

nutritious if properly prepared. The great secret is to cook it sufficiently—and the oftener it is warmed over the better it becomes.

Boil two cupfuls of frijoles slowly at least a day. They are often eaten thus, but are improved by frying them with hot fat, butter or salt pork. They are also excellent fried with fat and chile sauce made as directed.

The favorite Lummis recipe is to heat them in a frying-pan with a little grease and very little of their liquor; and when hot stir in two-thirds of a cup of grated American cheese, rather biting. Stir thoroughly and cook ten minutes.

BUÑUELOS (MEXICAN FRITTERS).

THE BUÑUELOS MOULD.

These are made in Mexico with a buñuelos iron like the cut. Any tinsmith can make it. But buñuelos are as good, if not as pretty, dropped from a spoon into the hot fat. Take $1\frac{1}{2}$ lbs. of flour, $1\frac{1}{2}$ pints of milk, 1 egg, a pinch of sugar and salt, 3 teaspoonfuls of Royal baking powder. Mix the flour, baking powder, sugar and salt together and sift. Beat the egg and mix it with the milk; beat again, then add to the other ingredients and stir thoroughly. The batter should be as thick as rather thick pancake batter. Have some lard hot as for frying doughnuts; dip the mould carefully into the batter, just enough to cover the bottom, then shake it gently in the lard until the buñuelo floats away on the lard. When it is cooked to a golden brown, fish it out with a fork. Continue to dip the mould first in the batter, then in the lard, until all the

batter is used up. Then either dip the cakes in a simple syrup of sugar and water, or powder with sugar.

RANFAÑOTE (PERU).

Bring cane molasses to a boil, with a few orange peels and sticks of cinnamon. As it starts to boil, add plenty of American cheese, crumbled fine, walnuts, peanuts and cocoanut all well broken up, very small pieces of dry bread, a few cloves, and a little butter. Let it come to a hot boil, cool on plates and sprinkle with cinnamon.

COCADA (PERU).

(Cocoanut Sweets): Grate an ordinary cocoanut, grate a sweet potato and remove the starch. The fibre that is left mix with the grated nut thoroughly as possible. Put in a kettle a little water with three lbs. sugar and make a syrup. As soon as this begins to boil, clarify it with an egg. Then put into it the mixed cocoanut and sweet potato, and stir well with a wooden spoon. When it is about to boil, add the well-beaten yolks of six eggs; stir, and let it come barely to a boil. Remove and sprinkle well with cinnamon.

CAMOTES CON DULCE (PERU).

("Candied Sweet Potatos"): Parboil small, peeled sweet potatoes, cut in quarters lengthwise. Let them merely come to a boil. Put them in cane molasses or brown cane sugar syrup, as if for candy. Add four cloves and a little pepper, well ground. Boil four hours over a slow fire. Before serving, sprinkle with powdered cinnamon.

CANDIED PEACHES (MEXICO).

Take twenty-five large peaches and let them lie in water for a little while; then remove the down by rubbing with a cloth. Stone them and put them in a kettle with two lbs. granulated sugar—a layer of peaches and a layer of sugar—add one-half pint water and place on a moderate fire. When the syrup is thick, take off the fire, and put peaches and syrup together in a dish. Flatten the peaches with a wooden spoon and turn from time to time, putting them in a place where the sun will shine on them. When they are nearly dry roll in colored sugar. They will keep a long time.

ATOLE DE PIÑA (MEXICO).

(Pineapple Gruel): The Mexicans prepare the corn for *atole* in much the same way as for *tamales*; but it is very nice made as follows: Into five pints of fast-boiling water besprinkle eleven heaping tablespoons of Indian meal and one teaspoon of salt. Stir well and boil for an hour. Grate one-half of a large pineapple; mix with it one pound of sugar, a small bit of cinnamon, one pint of boiling water, stir well and strain into the boiling meal. Stir the mixture well again, pour into a pitcher and serve hot or cold. If cold, it looks pretty in glass custard cups.

CAJETA DE CAMOTE Y PIÑA (MEXICO).

Clarify one and one-half pounds of sugar, strain and place again on the fire, and let it boil until when you let it fall from the spoon it is clear and smooth as a mirror. Take it off the fire and add two pounds of *camote* (sweet potatoes) which have been boiled, mashed, and pressed through a sieve. Return to the fire, stir constantly so that it will not stick, and when you can see the bottom of the saucepan add one-quarter of a pineapple which has been grated on a bread grater, and strained. Place again on the fire until you can see bottom once more, and it is done. Serve in a preserve dish and eat with a fork or spoon. This makes a delicious dessert, and is well worth any trouble to make.

Instead of pineapples, apples may be used in this recipe with great success, and it is much easier made. Peel, slice and core one and one-half pounds of apples, stew very soft and add to the mixture in place of the pineapple.

CAJETA DE LECHE (MEXICO).

Take six pints of milk, one and one-half pounds of brown sugar, and a tablespoon of flour. First clarify the sugar, that is, beat up the white of one egg thoroughly with a cup of cold water, and add this to the sugar dissolved with one of water. Heat the whole mixture until a scum appears. Remove from the fire and skim. Repeat until no scum arises. Then put three pints of the milk, the clarified sugar, and the flour (pre-

viously mixed with a little milk) in a saucepan on the fire. Stir it constantly, being careful not to remove the spoon, and let it boil until you can see the bottom of the saucepan. Then add another one and one-half pints of milk and repeat the operation; lastly add the remaining one and one-half pints of milk and continue to stir until you can again see the bottom of the saucepan.

Two things of importance are, to stir constantly and never to take the spoon with which you are stirring it, out of the saucepan until you remove it from the fire; then continue to stir briskly until it is thick. Pour on a plate, let it cool and it is ready to serve.

ALMOND PASTE (MEXICO).

Six pints milk, sweetened to taste. Add the yolks of six eggs previously beaten with a little milk. Add four ounces almonds, blanched and pounded up (with a wooden potato-masher is easiest). Put this on the fire; and when it thickens, add four ounces more of almonds toasted and pounded. Let it boil up three times and it is done. Turn into plates and sprinkle with powdered sugar. Next day put it into the oven until it becomes a light brown..

WALNUT PASTE (MEXICO).

Dissolve one and one-half pounds sugar in one quart milk. Strain it. Add one-half pound ground walnuts, and boil. When done, take it from the fire and stir till it thickens.

CAJETA DE CELAYA (MEXICO).

Six pints of cow's milk, three pints of goat's milk, mix and boil; allow it to cool, and remove the cream or scum. Burn one and one-half pounds sugar and then stir it into the milk, and add to it four and one-half pounds more of sugar, and six ounces of ground rice. Place the mixture on the fire and let it boil until it is thick. One can tell this, if when one takes a little of the paste in a spoon and whirls it around it adheres to the spoon. Then remove from the fire and add half a pint of sherry, stir until it is well mixed, and pour into plates or pretty dishes.

LECHE DE PIÑA (MEXICO).

(Pineapple Milk) : Six pints of milk, the yolks of six eggs, six ounces of pounded almonds, one pineapple.

Sweeten the milk to taste and beat it into the yolks ; strain and put on the fire. When it has boiled, add the pounded almonds and let it cook, then mix in the pineapple, previously mashed, and boil until it is thick, and remove from the fire. It should be quite thick, but not enough to cut into squares, and must also be eaten with a spoon or fork. It makes a dainty dessert.

CHAPTER II.

SOUPS.

Broth or stock may be made by boiling the cracked joints of beef, veal, or mutton in water, in the proportion of two and one-half pints to each pound of bones and meat. The bones and meat should be of about equal weight. Chicken and veal added to beef make a more delicate soup.

Put the meat in the pot, cover with cold water, and let it come to a boil, then skim. Next set the pot where it will simmer slowly four or five hours, when it should be done.

The next day, when the broth is cold, and the fat which has hardened on the top has been removed, a nice jelly will be formed, which, if kept in a cold place, should keep one week. When vegetables are used, they should be added only in time to become well cooked. If onions are used, they should be fried in a little hot butter, before they are added to the soup. Potatos and cabbage should be boiled in separate water, before they are added to a soup.

Just before dinner each day, if soup is to be served, it is only necessary to cut off some of the jelly, heat it, serve it alone or add any flavoring desired, as onion, tomato, asparagus, green peas, macaroni, vermicelli, tapioca, or any other flavoring.

Stock should be kept in a stone jar, and is valuable aside from making soups, for gravies, sauces, and stews.

TO CLEAR SOUP STOCK.

Allow the white and shell of one egg for every quart of stock. Set it on the fire and stir till hot, let simmer ten minutes, then add a cup of cold water, and strain through a fine strainer or napkin.

Now cut asparagus in half length; that is, use only the short, soft part, and prepare these in any preferable style as a vegetable dish.

MRS. WILLIAM S. CROSS.

OYSTER PUREE.

One quart oysters, six ounces butter, three tablespoons sifted flour, one quart cream, salt and pepper. Cook the oysters well and put through a colander; set the liquor aside and chop the oysters fine. Make a cream sauce of the other ingredients as follows: Put the butter in a saucepan and when it bubbles add the flour, stirring constantly until the flour is without a lump. Add the cream and let boil a minute. Then add liquor and chopped oysters, salt and pepper.

MRS. FRANK THOMAS.

SCOTCH BROTH.

Two pounds neck of mutton, one cup of barley, one onion filled with cloves, one carrot cut fine, bit of thyme. Cook altogether; when well done remove the meat and onions, cut a lot of meat in small cubes to put back in the soup, then stir well. Before serving stir in a small cup of cream or half milk and cream and serve at once.

MRS. SLAUSON.

TOMATO SOUP.

Take a can of tomatos or a quart of fresh tomatos and bring them to a boil; strain through a coarse strainer. Add one teaspoonful of dry soda and when the foaming ceases add a quart

MISS ELIZABETH SHANKLAND.

TURKEY SOUP.

Crack all the bones and cut all the meat of a cold turkey left over from a meal. Add an onion, a carrot, a turnip, celery, parsley, in fact any vegetable you may happen to have at hand. Boil slowly for three hours. Strain and add boiled rice.

MRS HERMANN HELLMAN.

TURTLE BEAN SOUP.

One pint turtle beans, two quarts cold water, one pound beef, one small onion, small pieces salt pork, pinch cayenne pepper, salt if not sufficiently seasoned from the pork, stalk of celery or saltspoonful of celery seed, half dozen cloves, half dozen allspice, small blade of mace, one bay leaf, little thyme, parsley and majoram, small teaspoonful of Worcestershire sauce; a cup of tomato added is an improvement. Soak the beans over night in water enough to cover them; in morning pour off water, put them in to boil in two quarts of cold water, simmer (after comes to a boil) five or six hours, until the beans are cooked to a pulp. If too thick, add a little stock—should be a good consistency, not thin. Press through a strainer. Pour soup in tureen, adding two sliced hard-boiled eggs, one sliced lemon, one wine glass of sherry. Serve hot with croutons.

It is the turtle bean which is purple which is used, not the black bean. If made properly it is excellent and better the second day.

MRS J. G. CHANDLER.

first layer enough cream sauce to cover. Then another layer of crab until the dish is filled. Sift some cracker crumbs over the top. Put some bits of butter on the top and bake a light brown.

The cream sauce is made with a lump of butter, melted in a saucepan, to which a tablespoonful of flour is added. This is stirred over a moderate fire; milk is added until the sauce is only moderately thick.

MRS. GEORGE J. DENIS.

Return the mixture to the fire, stir long enough to well set the egg. Butter a platter on which put the lobster about half an inch thick; place on ice for two or three hours, then form it into chops, pointed at one end, turn in bread crumbs, egg and crumbs again, fry in boiling lard; stick a claw in each one.

Place in a bowl one tablespoonful of Indian curry, with half a wine glassful of good white wine, mix well together, then pour it into the lobster. Cook for two minutes. MRS. A. HAAS.

OYSTER RAREBIT.

One pint oysters, three tablespoons butter, one cup oyster liquor, one-third cup bread crumbs, salt, paprika, mustard, cayenne, six slices buttered toast or zephyrettes, one saltspoon soda, one cup grated cheese. Drain oysters from liquor, wash and remove head, muscle, and mince them; mix with well-beaten eggs. Melt butter in double boiler and mix in cheese and seasoning. Serve on toast or zephyrettes.

MISS KATE E. WHITAKER, San Francisco.

SCALLOPED OYSTERS.

MRS. HUGH W. VAIL.

SALMON Á LA MOLD.

Season well with pepper, salt and parsley, then mix well with fish. Put in a buttered mold and steam one hour. Serve with drawn butter sauce poured around it.

MISS MAURICE.

SALMON LOAF.

A mold of salmon that is very good hot or cold is an appetizing variation from the ordinary canned salmon as a lunch or supper dish. Take out the contents of a pound can of salmon, remove all particles of bone and skin; beat two eggs lightly; add to the fish with one cupful of stale bread crumbs; season with salt and pepper, one tablespoonful of lemon juice and one sprig of finely chopped parsley; pack in a well buttered mold and steam two hours.

MRS. H. A. McCRANEY, Sacramento.

Melt two tablespoonfuls of butter, add two tablespoonfuls of flour and pour on slowly one pint of hot water. Add one

teaspoonful of salt, half a saltspoon of pepper, two scant table-spoonfuls of butter, beaten yolks of two eggs and a teaspoonful of lemon juice. It is better to add a little of the hot mixture to the eggs before combining the whole, to blend perfectly.

MRS. ADOLF PETSCH.

FRICASSEE OF SHRIMPS.

Put a large spoonful of lard or butter in a saucepan, add a heaping spoonful of sifted flour; stir until a golden brown color, then add a little finely chopped onion, stirring constantly until the onion is thoroughly wilted. Put in a quart of shelled raw shrimps; continue to stir until the shrimps become of a pale pink color; then add three cloves, salt, red and black pepper to taste; also a little Worcestershire sauce, and half a can of stewed tomatos which have been passed through a sieve. Let all this boil over a slow fire until ready to serve. Lastly, add a small glass of sherry. Crabs can be prepared the same way. ✓

MRS. L. A. GRANT.

FILLET OF SOLE, IN CASES.

Put one teacupful of finely minced mushrooms into a frying pan with two table-spoonfuls of chopped shallots and one table-spoonful of chopped parsley; add a lump of butter and season with pepper and salt. Toss the above ingredients over the fire until cooked, then put them by until cold. Fillet the soles, mask one side of them with the above mixture, roll them up, secure them with a piece of thread, place them between two buttered plates and bake them. Prepare some white sauce. Put each fillet into a small paper case, place a small mushroom on the top of each, fill up the cases with the hot sauce, and serve them at once.

MRS. M. J. CONNELL.

FRIED FROGS' LEGS.

Marinate them by laying them in two table-spoons oil, two table-spoons vinegar or lemon juice, a little salt and pepper; let them lie three hours, then plunge them in fritter batter; fry in hot lard five minutes.

Fritter Batter: Quarter pound of flour, yolk of one egg, one teaspoon of lemon juice, thirty drops of oil; beat well together, then add just enough wine to make a batter. When ready to use, beat up the white of an egg, and add to mixture.

MRS. J. G. MOSSIN.

CHAPTER IV. POULTRY AND GAME.

BROILED CHICKEN.

Cut in half small chickens. Butter, salt and pepper. Broil over live coals about twenty minutes. Serve with bits of parsley and thin slices of lemon.

MRS. JERRY CONROY.

CHICKEN EN FRICASSEE (FRENCH).

The real fricassee must be perfectly white; it will be if the following directions are exactly followed. The chicken must be left entire, well cleaned and tied compactly. Put in a large saucepan a lump of fresh butter; when it begins to melt mix in two tablespoonfuls of flour, and pour in enough hot water (but not boiling) so that it may cover half of the chicken, when it shall be put in. Mix the sauce well; when it boils put the chicken in and also its neck and head; a little laurel and lemon peel, all of which should be taken out before serving. After half an hour of slow boiling, the pan being kept well covered, turn the chicken and place around it a dozen small round onions and cook again until done. If the sauce is too thin, take out the chicken and onions and let the sauce reduce by boiling. Just before serving, stir the sauce slowly into a yellow of egg well beaten. The chicken will be white and excellent, and the sauce is to be poured over it. Mushrooms which have been boiled separately will improve the fricassee if placed in it a few minutes before it is done.

MARTHE DURNERIN.

FRIED CHICKEN.

Cut in pieces, wipe dry, dip in flour, fry (first rapidly then steam slowly, so as not to dry up) in lard. Take up chicken, add two tablespoons flour to grease, let it cook up and add one cup milk and half cup cream for gravy.

MRS. JERRY CONROY.

CORN MEAL BALLS FOR CHICKEN.

One cup white meal scalded, salt to taste, one tablespoon sugar, quarter cup flour, two eggs, milk to thin so it will just drop off spoon in deep hot fat; brown and serve around fried chicken.

MRS. JERRY CONROY.

CHICKEN A LA MARENGO.

Take four tablespoonfuls of sweet oil, put in a pot and let get very hot, then cut up one rooster and put in the oil with a little garlic and let it get very brown. Then throw away oil and put chicken into butter about size of two eggs with chopped parsley, onion and garlic. Boil two wine glasses of white wine and pour over chicken, a little pepper, salt and nutmeg, strain in three fresh tomatos, cover very tight and let boil slowly for one and a quarter hours. Garnish with fried eggs, half a can of mushrooms and fried toast around the dish.

MISS ROSE NEWMARK.

CHICKEN A LA PACHECO.

Mix meat from one boiled fowl cut into dice and a can of French mushrooms, contents quartered. Make a sauce of two tablespoons of butter, the same of flour and enough milk added to make one pint. Mix well with chicken and mushrooms. Pour into a baking dish and cover thickly with cracker crumbs and pieces of butter.

CARRIE T. WADDILOVE.

CHICKEN PIE.

Prepare your chicken as for stewed chicken for the table. Add some small bits of dough, make a rich gravy of milk, butter, salt, pepper and flour. Skim off all the fat after cooking the chicken. Prepare your crust as for pastry, line your pan if you like with crust, add a top crust and bake quickly.

MRS. JAUCH.

CHICKEN PIE.

Cut two chickens into pieces and boil with quarter pound salt pork, sliced thin, and four potatos, salt and pepper. Simmer two hours. Drain off liquid and to it add a pint of milk

thickened with a little flour. Boil for a minute and pour over the chicken, which has been placed in a deep baking dish. Cover with parsley and bake very quickly.

MRS. GEORGE A. SINSABAUGH.

ROAST CHICKEN.

Singe and truss carefully. Broilers, as they are called, are better without stuffing, unless very large. Season with salt, put small bits of butter over meat and place in pan with a little water; baste occasionally and dredge with flour before taking from oven. A spring chicken cooked in any style is not to be despised, but a well known epicure once said:

“To roast spring chicken is to spoil it.

Just split it down the back and broil it.”

MRS. GEORGE H. WADLEIGH.

FORCEMEAT FOR CHICKEN, VEAL, ETC.

Three cups of stale bread crumbs, one cup of chopped suet, one tablespoonful of chopped parsley, quarter lemon peel (grated), pepper, salt, a pinch of thyme, a very little milk.

CHICKEN SOUFFLE.

One pint of cooked chicken, one pint cream sauce, one tablespoon minced parsley, one teaspoon onion juice. When the cream sauce is boiling add the meat, which has been minced fine and yolks of two eggs. Let stand until cold, add the beaten whites of the eggs; butter a baking dish, put in mixture which you put in a larger pan with a little boiling water; bake in a hot oven twenty minutes. Serve at once with a tomato sauce.

SUPREME OF CHICKEN, TOULOUSE STYLE.

Take three chickens, singe, draw and wipe; remove the skin from the breasts; make an incision on top of the breastbone from end to end and with a sharp knife carefully cut off the entire breast on each side, including the small wing bone, which must not be separated. Under each breast will be found a small fillet; carefully remove it and place on a dish for future use. With a sharp knife make an incision three inches in length by one inch in depth in each breast at the thinner end, season the insides with salt and pepper equally distributed and stuff

them with two ounces of chicken forcemeat mixed with two truffles and four mushrooms also finely sliced. Butter a copper sauté pan and lay in gently the six breasts. Take each small fillet and press it gently with the fingers to give it shape; then make six small slanting incisions on top of each and insert in these slices of truffle cut with a tube half an inch in diameter. Slightly moisten the top of every breast with water, carefully arrange one fillet on top of each lengthwise and sprinkle over a little clarified butter, using a feather brush. Pour into the pan, but not over the supreme, a quarter of a wineglassful of Madeira wine and two tablespoonfuls of mushroom liquor. tightly cover with the lid and place it in the hot oven for ten minutes. Pour one pint of hot Toulouse garnishing on a hot dish, take out the supreme from the oven, neatly arrange it over the garnish, adjust paper ruffles on each wing bone, and serve at once.

MRS. M. J. CONNELL.

CHICKEN A LA TERRAPIN.

Three pints of cold boiled chicken, three hard-boiled eggs, three heaping tablespoonfuls of flour that has been browned in the oven, half a pint of chicken stock, one pint of good, rich milk, one wine glass of Madeira, one even teaspoon of salt, a pinch of cayenne pepper, one-half teaspoon of mace, one cup of butter. Mince the chicken fine, rub the eggs through a fine sieve, melt the butter in a large stewpan and add the flour; next add the stock and milk which has been scalded; the chicken in which all the seasoning has been mixed and eggs; cook slowly half an hour on the back of the stove. Just before serving, add the wine. Serve on brown toast. Sufficient for twenty-five persons.

MRS. M. T. ALLEN.

WILD DUCKS.

Four or five wild ducks, one onion chopped fine, three slices bacon cut fine, three cups of stale bread crumbs wet in a little milk, one teaspoon chopped parsley, one teaspoon salt, one dozen black olives cut in pieces, one egg. In preparing the ducks, wash and wipe well the inside, and rub with onion or garlic, according to taste. This will remove any fishy taste

that the ducks may have. Fill them with the following dressing: Put the bacon in the frying pan with the chopped onion and fry until the onion becomes a light brown, then add the bread crumbs, seasoned with salt, pepper, parsley and olives. Heat this through, then stir in the egg. Fill the ducks and sew them up. Roast them in a hot oven for about twenty-five or thirty minutes, basting often, otherwise they will be dry and tasteless. Large Canvas-back and Mallards will require a little longer to cook. Serve with a sauce made as follows: One tablespoon butter, one-half tablespoon flour, one cup of stock, one wineglass of claret, one cup of water, ten or twelve black olives cut fine, one-half clove or garlic. Small bunch of parsley, a little thyme and bay leaf. Cook the olives in boiling water for fifteen or twenty minutes. Remove the pits and cut the meat in small pieces. Rub butter and flour together in frying pan. When melted, add stock, water and wine. Tie the garlic and herbs together. Put these in the sauce and cook slowly for half an hour or more. Remove the garlic and herbs, add the olives, and cook a little longer. Adding a little of the drippings from the duck makes the sauce richer. If olives have been used in the dressing, they may be omitted in the sauce, and vice versa.

MRS. EUGENE O. McLAUGHLIN.

FRIED TEAL.

Split the ducks down their back, spread open and rub with onion, or garlic. Fry in butter or with bacon. Make a sauce with the grease the ducks have been fried in, and add a little flour and water or stock.

MRS. EUGENE O. McLAUGHLIN.

ROAST GOOSE.

The goose is best in the autumn and early part of winter—never good in spring. What is called a green goose is four months old. It is insipid after that, though tender. Pick well and singe the goose, then clean carefully. Put the liver and gizzard on to cook as a turkey's. When the goose is washed, and ready for stuffing, have boiled three white potatoes, skin and mash them; chop three onions very fine, throw them into

cold water; stir into the potatos a spoonful of butter, a little salt and black pepper, a tablespoonful of finely-rubbed sage leaves; drain off the onions and mix with the potato, sage, etc. When well mixed, stuff the goose with the mixture. Have ready a coarse needle and thread, and sew up the slit made for cleaning and introducing the stuffing. (A full-grown goose requires one and three-quarters hours.) Roast it as a turkey, dredging and basting. The gravy is prepared as for poultry, with the liver and gizzard. Apple sauce is indispensable for roast goose.

MRS. GEORGE H. WADLEIGH.

LARDED FILLETS OF HARE.

Skin and clean a hare, cut off the fillets; lard and put them in a basin, season with ground mixed spice, pour over enough oil to moisten; let them soak for one hour. In the meantime pour some stock in a stew-pan and reduce nearly to glaze, then add slice of bacon and the larded fillets, cover with a piece of buttered paper and cook for twelve minutes, by which time the fillets should be well cooked and brown. Great care should be taken not to let the fillets burn. Put them on a dish, add a little rich stock, stir well, pour it over and serve.

MRS. J. G. MOSSIN.

JUGGED HARE (ENGLISH).

Wash the hare, cut in pieces, dredge with flour and fry in butter. Have ready one and one-half pints of good stock thickened with a little flour; add the pieces of fried hare, an onion stuck with six cloves, a lemon (peeled and cut in half), and a good seasoning of pepper, salt and cayenne. Cover well and let stew gently for two hours. When nearly done, pour in one-half pint of port wine, and add a few forcemeat balls, fried or baked in the oven a few minutes before they are put in the gravy. Serve with red currant jelly.

F. S. C.

ROAST BELGIAN HARE.

Clean the hare thoroughly and soak in salted water for a few hours. Parboil the liver and heart and add a slice of raw fat salt pork, and chop all together very fine; mix with this enough seasoned bread crumbs to make a good stuffing for

the hare, and after stuffing sew or skewer it up. Rub with butter and sprinkle with seasoned flour. Baste often and cook in a hot oven for one hour. Serve with currant jelly.

MRS. C. E. THOM, Santa Monica.

FORCEMEAT FOR HARE.

Two ounces of ham or lean bacon, one-fourth pound of suet, rind of half a lemon, one teaspoonful of minced parsley, one tablespoonful minced sweet herbs, salt, cayenne and pounded mace to taste, six ounces of bread crumbs, two eggs; shred the ham or bacon, chop the suet, lemon peel and herbs, add seasoning and blend all thoroughly together with the bread crumbs before wetting. Work in the eggs (well beaten) with the other ingredients. Make into balls. Fry in boiling lard, or put them on a tin and bake in the oven. In forcemeat for hare the liver is sometimes used. Boil for five minutes, mince very fine and add to the other ingredients.

ROASTED PARTRIDGES.

Pluck the partridges, draw and truss them, and fasten some thin slices of fat bacon around them, and roast for fifteen minutes in a hot oven. Five minutes before dishing take the bacon off, sprinkle a little salt over the birds, and brown them. Put the partridges on a hot dish, and serve them with a sauceboatful of brown gravy.

MRS. M. J. CONNELL.

PIGEONS.

From six pigeons take the hearts and livers, put in a cup; use enough lean fresh pork and calves' liver to make a cup of the meat; put through the grinder. Add a slice of bread cut in dice and browned in butter, about a teaspoon of grated onion, one-fourth cup of currants, one sour apple grated, two eggs, half teaspoon of salt, quarter teaspoon of pepper, quarter teaspoon of paprika, quarter teaspoon kitchen bouquet, same of minced parsley. After dressing them, tie down wings and legs, put two tablespoons of butter in a frying pan, when hot lay the pigeon in to brown, then add half cup of soup stock; put them on back of range to simmer three-quarters of an hour. Melt half cup jelly to add to the gravy, with a little flour.

MRS. J. G. MOSSIN.

POTTED PIGEONS.

Stuff, salt, season with salt and pepper, roll in flour, brown in salt pork fat, put in stew-pan and cover with brown gravy, cook till tender. Brown two tablespoons of butter, add two tablespoons of flour, brown, pour on one pint hot water, cover the pigeons; add half spoon Worcestershire sauce.

MRS. OZRO W. CHILDS.

BROILED QUAILS.

Singe and draw the quails, split them lengthwise down the back and wipe them with a damp cloth. Season with salt and pepper, rub them well in warm butter and dredge with flour. Place the birds on a gridiron over a clear fire and broil for ten minutes. Cut some thick slices of bread, remove the crusts, toast and butter them and lay them on a hot dish. Place a quail when cooked on each side, garnish with parsley and serve.

MRS. M. J. CONNELL.

SMOTHERED QUAILS.

Split quail up back, rub all over with flour, salt and pepper, enough water to keep from burning. Butter entire bird, let bake in covered pan half hour. Make gravy of what is in pan by adding a little flour. Serve each bird on toast with gravy poured over it.

MRS. JERRY CONROY.

JUGGED RABBIT.

Clean a rabbit, disjoint it, cut the body in four pieces, cut one-half pound of salt pork in small pieces, put them in a stew-pan with one ounce of butter and toss it over the fire until the butter has melted; then put in the pieces of rabbit and fry until lightly browned. Sprinkle on one tablespoon of flour, pour in half pint each of claret and of broth, add eight small onions, a bunch of sweet herbs, a clove of garlic, two or three cloves, and place the stew-pan over the fire until it boils; then move to one side and allow to simmer gently until tender. When cooked, place the pieces of rabbit on a hot dish, arrange the onions around them, strain the cooking liquor through a hair sieve and serve.

MRS. J. G. MOSSIN.

SQUABS EN CASSEROLE.

Clean and truss five or six squabs, sauté in bacon fat, with half an onion cut in rings; arrange in the casserole; add a bay leaf, and half cover with hot water or broth; cover and bake until nearly tender; then season with salt and pepper, and just before serving skim off the fat and add one pint of cooked peas.

MISS MARIANNE T. ETCEMENDY.

ROASTED TURKEY.

Make a dressing as follows: Chop half onion fine, let cook slightly in frying pan. Soak sufficient bread in oyster juice until soft, salt, pepper and a pinch of sage; cook slightly in onion pan; take off fire, add one can oysters and two eggs beaten light. Stuff the turkey and bake slowly for 3 hours. Gravy is made from the drippings in pan and liver and gizzard chopped fine.

MRS. JERRY CONROY.

ROASTED TURKEY.

For a turkey weighing from eight to ten pounds, allow one loaf of stale baker's bread, one quart or one can of raw oysters, one lemon, two roots of celery and one-quarter of a pound of butter. It is taken for granted that the turkey is thoroughly pickled, singed, cleaned and wiped dry before putting the stuffing in. Crumb the bread till very fine; season with pepper and salt. Drain the oysters, setting the liquor aside. Now take a very sharp knife and peel off the outer rind of the lemon, being careful not to have any of the bitter and tough white skin left on; cut the peel in very small bits; chop the white part of the celery very fine, adding the butter and the juice of the lemon; mix the ingredients mentioned, stirring until thoroughly mixed; then proceed to stuff body and crop. A turkey of the size spoken of requires two and a half to four hours' baking, and it should be basted frequently; the liquor of the oysters should be put in the pan when the pan is first set in the oven, and this is to be used in basting. The giblets and liver should be cooked in a basin on top of the stove, then chopped very fine, and when the gravy is made add them to it.

MRS. GEORGE H. WADLEIGH.

DRESSING FOR TURKEY.

Two cups of breadcrumbs or one of cracker and one of bread, one teaspoonful of salt, one of sage, one egg, one tablespoonful of butter, milk to make it quite moist, sage to taste—two teaspoonfuls of sage; sweet marjoram, summer savory to suit.

MRS. GEORGE H. WADLEIGH.

TRUFFLE AND CHESTNUT STUFFING FOR POULTRY AND GAME.

Remove the outer skin of a quart of chestnuts, put them in a saucepan with a bay leaf, a lump of salt, plenty of coriander seeds; cover them with water, boil until tender and drain the chestnuts, peel off the inner skin; allow half pound fat bacon, quarter pound truffles cut up in small pieces, season with pepper, spices; add a little thyme and marjoram; it is ready for use.

MRS. J. G. MOSSIN.

CHAPTER V.

MEATS.

HINTS FOR CHOOSING MEAT.

Good beef should be of bright red color in the lean parts, and white in the fatty portions.

Healthy mutton is of a clear, dark red color in the lean, clear, white fat, and a great deal of it. Mutton is very nutritious and easily digested.

Lamb is juicier than mutton, but of much the same color. The bones will be red and the fat hard and white.

Young pork should be white, firm and dry.

Good veal will have white, firm fat and the lean a pinkish tinge. It should never be blue.

Choose your chickens by seeing that the breast bone yields to the touch, that the scales of the legs are smooth and the comb red.

Select a goose with clean, white skin, plump breast, and yellow feet. If the feet are red, the bird is old.

A young turkey should have legs black and smooth, the spurs short, and feet limber.

GENERAL DIRECTIONS FOR COOKING MEATS.

The great point in cooking meats is to have them tender without wasting the juices. In boiling, allow from eighteen to twenty minutes for every pound of meat. Boil slowly in as little water as possible; the meat will be more savory and tender. Put fresh meat in hot, salted meat in cold, water. Never let meat stand in the water after it is done. Strain off all scum rising. The sirloin is best for roasting. The round is best for boiling. The juice which flows from the meat is the best gravy; season, and if too thin, sift in a little flour. If too greasy, skim.

MRS. BONSALL.

Roasting.—Have a brisk oven, rub a very little flour over the joint, but neither salt nor pepper. Salt draws out the juices, which it is your object to keep in, and parching in-

jures the flavor of pepper. This applies also to broiling and frying. Pepper after an article is cooked. Carefully turn your roast once, that it may be browned on both sides.

Broiling.—A brisk, clear fire is indispensable to this mode of cooking. Let the gridiron come to a gradual heat that it may not be burning hot on the surface. Rub the bars with a bit of clean suet and lay on your steak or chops, which should not be more than three-quarters of an inch in thickness. If too thick it will be overdone on the outside while inside it is still raw. Turn it but once while broiling, and when it is a delicate brown outside with a rare line inside it is finished. Lay it on a well heated platter and dress with butter and a little salt. If you have allowed your fire to get too low, do not attempt to use the gridiron, but feed your fire anew, and if you cannot wait for it to burn low again, broil in a frying pan, following the same directions. The essential point in broiling is to have the pan so hot that it will sear the surface of the meat at once, and thus prevent the escape of its juices.

Frying.—Professional cooks agree that the perfection of frying-fat is equal parts lard and beef drippings, and yet there are families where the drippings are never looked after, and all the rich fat from roast beef, pork, corn beef, and soup-bones goes to waste.

Batter for Frying.—Three cups of sifted flour, mixed with three tablespoons of butter melted in water; pour the butter off the water into the flour first, then enough of the water to make a soft paste, which beat smooth, then more warm water till it is thick enough to mask the back of the spoon dipped into it, and salt to taste; add, the last thing, the whites of two eggs well beaten.

Bread Crumbs for Frying.—Never allow stale bread to go to waste. Dry it thoroughly in a slow oven, roll and sift it and keep in a jar ready for use. It is better than cracker crumbs for cutlets, etc., and costs nothing.

ROAST BEEF.

A sirloin or rib roast is best. Have the bones removed. Roll the meat and fasten in shape with skewers or tie with strong string. Place on a rack in a dripping pan and put in

a very hot oven to sear it over in order to retain the juices. Keep the oven closed for about ten minutes, then open, dredge with flour, salt and pepper, and baste with the gravy. Turn the meat when necessary and baste often. Bake a six-pound roast one hour if liked rare, and an hour and a quarter if liked well done. Serve with gravy made from the drippings of the meat, or with Yorkshire pudding.

A. C. B. "How We Cook in Los Angeles."

ENGLISH YORKSHIRE PUDDING.

One pint of milk, four tablespoons of flour mixed in part of the milk to a smooth batter; then add the remainder, with a little salt and two well beaten eggs; bake in a well-buttered pan thirty minutes, or in the pan with the roast, placing the roast on a drip stand.

MRS. J. S. SLAUSON.

BEEF Á LA MODE.

Round of beef, eight pounds; have larded at butcher's, bind with piece of muslin to keep in place. Have ready tablespoonful cloves, allspice and cinnamon, salt and pepper. Take seven carrots, five turnips, boil slightly, cut in strips, drop in spices and put in places where larded a few pieces of garlic. Put in covered baking pan, sprinkle with flour, half pint of water in the pan; bake slowly three hours. Chop carrots and bits of pork fine, put on top, add in pan whole carrots, onions and turnips, and cook one hour more. Last half hour baste with sherry. Gravy: One turnip, one carrot, half pint water; let boil and thicken slightly; add half pint sherry just before serving. Put meat on platter, the bits of fat and carrots browned, on top, the whole vegetables on top.

MRS. JERRY CONROY.

BOEUF Á LA MODE.

With strips of cloth bind six or eight pounds of beef from the round into circular shape. Make incisions with a sharp knife, and into these press strips of salt pork half an inch thick; make other incisions and press into these one small clove of garlic cut into pieces. Heat drippings, and in this brown the outside of the meat, together with one small onion and a carrot sliced; then half cover with boiling water and

let simmer until tender. Garnish with boiled onions, seasoned, basted with butter and browned in a hot oven. Skin the fat from the liquid in which the meat was cooked, thicken the latter with flour and water, strain and serve as a sauce with the meat.

MRS. M. T. ÉTCHEMENDY.

BŒUF À LA MODE (FRENCH).

The piece chosen must be well beaten and a few incisions made in it, where thin pieces of salt pork are introduced. Melt some thin slices of salt pork over a rather brisk fire, and place the meat in it, turning it until it is brown on both sides. Do the same with some onions and carrots. Then lower the fire till it is very small, and pour in with the meat a glass of tepid water and half a glass of white wine; add a little sugar (about a teaspoonful), some pepper and cloves. Let it cook *very* slowly, keeping the pan tightly closed, for about six hours. This is excellent, either warm or cold.

MARTHE DURNERIN.

FILLETS DE BŒUF AUX CHAMPIGNONS.

Cut the meat in slices, not too thin. Sprinkle with salt and pepper, and allow to smother in melted butter for about an hour over a very slow fire. Then increase the heat until the meat has browned. Remove the meat from the pan and add one tablespoonful of flour mixed with some bouillon; add the mushrooms which have been cleaned and peeled. Replace the meat and cook until the mushrooms are done. Serve with lemon juice. Pour the thick sauce over the fillets and place the mushrooms around. One may add a little Madeira wine to the sauce while cooking. The fillets may be served without the mushrooms, but with a tomato sauce.

MRS. EUGENE O. McLAUGHLIN.

BEEF OMELET LOAF.

Three pounds of beef chopped fine, three eggs well beaten, six crackers rolled fine, one tablespoon salt, one tablespoon melted butter, one tablespoon pepper, sage to taste. Mix well and form into a loaf. Put a little water and bit of butter with the pan. Turn a pan over the top and bake an hour and a quarter, basting occasionally.

MRS. JOHN H. NORTON.

BEEF SAUTÉ.

Heat some thick slices of tender boiled beef in melted butter. Keep the dish covered. When very hot, pour over a tablespoonful each of mushroom catsup and Worcestershire sauce. Serve hot on potatoes.

MRS. STEPHEN M. WHITE.

GATEAU OF BEEF.

One pound of cold roast beef, three cups of stale bread, one tablespoonful of chopped parsley, two eggs, two tablespoonful of salt, quarter teaspoonful of pepper, half cup of stock or milk, one onion (grated); chop up meat quite fine, soak bread in a little cold water, squeeze out as dry as possible and add to the chopped meat; then add parsley and the seasoning. Beat up the eggs and mix them with the stock or milk. Grease some cups or a bowl, almost two-thirds full; cover with greased paper and steam in one mold one and one-half hours; if in cups, three-quarters of an hour. Set cups in boiling water half way up. Take out when done. Serve with tomato sauce.

KATE E. WHITAKER.

BEEFSTEAK PIE.

Two pounds of round steak (very thin), six sheeps' kidneys, two tablespoonfuls of flour, two teaspoonfuls of salt, half teaspoonful of pepper, quarter cup of water; cut up meat in oblong pieces, kidney in small pieces. Wash kidneys, mix flour, pepper and salt together, dip pieces of beef into it, roll up a piece of kidney in each piece of beef; fill up your dish; put in quarter cup of water, cover with paste (first putting a narrow strip round edge of dish); bake about one and one-half hours. Stew the bones, etc., and when the pie is done, pour the hot stock into the pie through the hole in center.

South Kensington School of Cookery.

BEEFSTEAK AND ONIONS—A "SMOTHERED VENUS."

Cut one dozen white onions into slices; fry a quarter pound salt pork or bacon until all the fat is fried out. Remove the cracklings, and into the hot fat put the onions; fry and stir for twenty minutes over a brisk fire, then add a teaspoonful of salt, pepper to taste, and a cup of boiling water. Place over a moderate fire to simmer half an hour, when the water should

have entirely evaporated and the onions be a nice even brown. Have ready a boiled steak, place it in the pan with the onions, cover the top with some of them and place in the oven for five minutes, then place the steak in a hot dish and heap the onions over and around it and serve.

CARRIE T. WADDILOVE.

SOUR POT ROAST (GERMAN).

A three or four pound pot roast larded, put in an earthen vessel and cover with vinegar and water to taste (one cup strong vinegar and two of water is good). Slice in an onion, two or three bay leaves, two or three cloves and some whole peppers. Soak three days, turning once or twice a day. Put in kettle two tablespoons drippings and brown the beef well all over, and then pour in the vinegar, water, etc., and let boil two and one-half hours. Take out meat, thicken gravy and serve.

MRS. KOEPLI.

BEEF TONGUE, TERRAPIN STYLE.

Put a salted beef tongue into a pan of cold water, bring to a boil at once, then let simmer until tender—usually three hours. Remove it, drain, cut in halves lengthwise, trim off all fat and bristle, stick a few cloves in, put pieces into another saucepan with sufficient water to cover, add onion cut in slices, a little mace and browned flour; boil for a few minutes, and put in three finely-chopped hard-boiled eggs; remove the pan from the fire, pour in one wineglassful of sherry, turn the whole out on a dish and serve very hot, with a garnish of hard-boiled eggs cut in slices.

MRS. J. G. MOSSIN.

TAGLIARINI, ITALIAN STYLE.

Take flour, put it on a good-sized kitchen table, make a nest of it. Into this flour nest break four eggs, add a pinch of salt and half a cup of luke-warm water and flour enough to make a stiff dough, work dough for fully twenty minutes, roll out very thin, same as rolling out pie crust, dredge with flour now and then to keep from sticking. Let it remain on table to dry for about an hour, then roll it up in a tight scroll like a sheet of music. With a good sharp knife begin at the end and slice it into strips as thin as possible. While

you are cutting, take care to remove and spread now and then what you have cut, not forgetting to sprinkle flour so as to prevent them from sticking. You now have the tagliarini or noodles, as some prefer to call them; the next thing to make is the gravy or sauce. Take a good roast pot, put a little butter and good olive oil or lard (the former is preferred), let it get good and hot, put into pot pieces of roast beef, let it brown well, then add half a cup of white wine; let it cook a while, then add a well chopped onion, a slice of garlic, half a cup of chopped dried mushrooms. Care must be taken that the mushrooms are first soaked in hot water for about fifteen minutes and well washed. Add a couple of tomatos well chopped, some salt and pepper and let it cook slowly for a couple of hours at least; keep adding to sauce a little broth now and then, either the chicken or beef. Your sauce is now made and you are ready for the cooking of the noodles. Take a good-sized soup pot, fill one-half full with boiling water, add a pinch of salt; when boiling, drop your noodles, little at a time, and stir carefully; let them boil say five minutes; do not let them boil any longer, as they will go to pieces. Take out, strain and put into a good-sized flat dish; then add some of the gravy and some grated Parmesan cheese; add another layer of noodles and repeat with layer of gravy and cheese.

LOUISE GUASTI.

CALF'S HEAD.

One shaved calf's head, two turnips, two carrots, two onions, two green peppers, one leek, if obtainable, a few *whole* allspice berries, pepper-corns and cloves.

For the Sauce—Half dozen tomatos, or half can of tomatos, one heaping tablespoon of butter, one tablespoon of cornstarch, one and one-half dozen white button onions, one and one-half dozen olives, one can French mushrooms, three or four tablespoons cooking sherry, or any white wine.

Parsley or water cress for garnish.

Procure what is termed a "shaved calf's head." Have the butcher saw the head in two lengthwise. With a sharp, pointed knife remove the skin and flesh from the bone. Put the brains and tongue in fresh water to draw out the blood. Soak the skin and flesh in fresh water for an hour or more

and then plunge them into *boiling* water for not more than three minutes. In that time the skin should have swelled to nearly twice its original thickness. Cut the skin into pieces suitable for serving. Have ready an agate iron kettle with *tightly fitting top*. Place in the kettle the pieces of skin and flesh, the tongue, two each medium-sized turnips, carrots and onions, all peeled and cut in two, one leek, if obtainable, being sure to cut off the green tops, and two green peppers, from which the seeds have been removed. Add three or four each whole peppercorns, allspice berries and cloves. *Do not* put in any parsley, or herbs of any kind, as these turn the meat dark. Moisten a heaping tablespoonful of flour, working out all the lumps, until thin enough to pour; stir into water enough to just cover the meat and vegetables. Pour into the kettle and cover tightly. An excellent way to keep in all the steam is to put two thicknesses of light brown wrapping paper under the cover, doubling in the edges just under the cover and placing a weight on top. Move to the back of the stove before the water boils and let simmer for three hours.

The brains may or may not be used, according to taste. If they are to be used, clean them in the usual way, by removing the membrane which envelops them, and putting them in three or four changes of fresh water to remove the blood. Three-quarters of an hour before serving the calf's head, put the brains into the kettle. This is ample time to cook them. Skin the tongue and arrange slices of it, with the meat, on a large platter and pour over the whole a sauce made as follows:

Stew slowly, for an hour or more, or until they have stewed down to an even consistency, six medium-sized tomatos or one-half can of tomatos. Melt a generous tablespoonful of butter, and mix into it a tablespoonful of cornstarch. Stir into the tomatos, cook a few minutes, and strain through a colander. Return to the fire and add about one and one-half dozen white button onions, which have been boiled tender, one and one-half dozen olives, which have been freed from the seed. If the olives are "free-stones," the seeds can be easily pressed out through the stem end. Otherwise the olive must be cut from the seed in a thick spiral, with a sharp, thin-bladed knife.

Drain the liquor from a can of French mushrooms and add pepper, and lastly add three or four tablespoonfuls of cooking sherry, or any white wine preferred. Pour over the meat in the platter and garnish with parsley and watercress.

This sauce should be rather thick and very smooth. It may be made before it is needed and warmed over just before serving. This receipt makes a dish for twelve people, and can easily be halved, as the dealers will sell the half of a calf's head.

MRS. F. W. WOOD.

CALF'S HEAD.

Calf's head, water, little salt, four tablespoonfuls of melted butter, one tablespoonful of minced parsley, pepper and salt to taste, teaspoonful of lemon juice. After the head has been thoroughly cleaned, lay it in cold water for half an hour to bleach; remove the brains first, and lay them to soak in warm water for an hour. Put the head in a stew-pan large enough to hold it with sufficient cold water to cover it, and when it boils add a little salt; take off every particle of scum as it rises, and boil until tender, about one and a half to two hours, according to size. Boil brains, chop them with melted butter, parsley, pepper and salt and lemon juice in above proportions; take up the head, skin the tongue, and put it on a small dish with the brains around it, have ready some minced parsley and melted butter, smother the head with it or make a white sauce with a tablespoonful of flour, two ounces of butter, half a pint of milk and salt to taste, mix butter and flour smoothly together over the fire, pour in the milk, stirring all the time with a wooden spoon; let it boil up quickly for a minute or two, then pour it over the calf's head with some minced parsley.

MRS. HENRY WORTHINGTON.

ESCABECHI.

Soak a dried smoked tongue over night; boil until tender, and skin; when cold, slice not too thin. Slice and soak in boiling water two large onions for several hours. Take a flat-bottomed dish, put a layer of tongue, then a layer of the onion, then a layer of black olives, then sprinkle over a little thyme, then another layer of tongue, onion, olives, until all the

tongue is used. Then take half a cup of vinegar and half a cup of olive oil and pour over, cover tightly and let it set over night. Fresh tongue may be used, but the dried is much nicer.

MRS. JAMES C. KAYS.

STUFFED HAM.

Boil ham, take off skin while hot, pour over it half cup vinegar, then take two cups chopped meat or chicken, half cup chicken broth to bind, one cup cracker crumbs, salt and pepper to taste. Then take a long skewer, make holes about one inch apart, put filling in holes. Make a paste of one cup brown sugar, half cup flour, cream enough to make soft paste, rub all over ham. Bake brown, baste with one pint sherry. When cold, slice thin and serve.

MRS. JERRY CONROY.

HOW TO BOIL AN OLD VIRGINIA HAM.

First weigh the ham, then scrub thoroughly with a stiff brush in luke-warm water, being careful to remove every particle of mold. Cover it with cold water, add one pint of vinegar and a tablespoon of herbs. Let it simmer slowly, keeping it on the fire, allowing half hour for every pound in weight of the ham. Take it from the fire and let it remain in the water until nearly cold, then peel off the skin and either sprinkle brown sugar and rolled cracker crumbs over the top or cover with a paste made with one teaspoonful of brown flour and half cup brown sugar, moistened with a little port wine. Then put it in the oven and brown nicely. Dress the knuckle with a white paper ruffle.

Sauces to Serve with Ham—Serve with brown sauce, flavored with half glass of champagne.

To serve cold boiled ham, cut in thin slices, season highly with cayenne pepper or with mustard and lemon juice, and boil two minutes. Melt half glass currant jelly, add a teaspoonful of butter and a little pepper, and when hot, add several small slices of ham. Let it boil up and serve at once. For herbs, use one tablespoonful herbs, consisting in part of thyme, summer savory, sweet marjoram; also use one stalk celery, one sprig parsley.

MRS. L. W. BLINN.

LAMB CUTLETS BROILED.

Cut some cutlets of a neck of lamb and trim them as for mutton cutlets, beat the yolks of two eggs with a little warmed butter, dip in the cutlets, then in bread crumbs, and then put them on a gridiron over a clear fire; and when they are done on one side turn them, arrange on a dish and serve with gravy.

MRS. M. J. CONNELL.

SADDLE OF LAMB ROASTED.

Wash, salt and flour the meat, and put it in a baking pan in a hot oven to roast, basting often until done. Place it on a hot dish and serve it with mint sauce.

MRS. M. J. CONNELL.

BOILED MUTTON WITH CAPER SAUCE.

Put the meat in a pot with plenty of water, salted; cook twelve minutes to a pound, then take out and wipe carefully with a hot wet cloth; butter all over and serve with sauce. Caper sauce is made by adding capers to drawn butter sauce.

MUTTON CUTLETS.

Trim them well, scraping the bones, roll in a little melted butter or oil, season and broil them. Or they are nice rolled in egg or bread crumbs and fried or broiled. Serve them round a bed of mashed potatoes, or with tomato sauce. They are very nice with almost any kind of vegetable, such as peas or string beans in the center of the dish with the cutlets in a circle around.

MRS. STEPHEN M. WHITE.

PIGS' FEET.

A nice breakfast or luncheon dish. Cook fresh pigs' feet until very tender. When cold, cut lengthwise, dip in batter and fry in hot lard or drippings, and serve very hot.

MRS. JAMES C. KAYS.

STUFFED PIG.

Take dressing the same as for turkey, except oysters. Chestnuts may be used instead of oysters if cared for. I prefer plain. Bake slowly, and when done, put on large platter with a lemon in mouth.

MRS. JERRY CONROY.

COUNTRY SAUSAGES.

Prepare a sausage forcemeat and divide it into small portions, flour the hands and roll it into balls. Put some butter in a frying pan, and when it is hot, fry the balls, a few at a time, adding more butter when required. Turn them constantly, and when equally browned drain them, put them on a hot dish, garnish with fried parsley and serve.

MRS. M. J. CONNELL.

BOILED TONGUE WITH CHESTNUT DRESSING.

Place a pickled tongue in a bowl of water to soak, then put in a saucepan with water to cover and boil two hours; take it out, remove the skin; cover the bottom of a saucepan with a carrot, small turnip, one and one-half onion and thyme or marjoram to taste; place the tongue on top and pour in enough broth and white wine to moisten to half its height; cover with paper, place on a slow fire, cook until the tongue is tender, turning occasionally to glaze both sides; have ready a puree of chestnuts, moderately thick, spread it on a dish and place the tongue on it; add a little more broth to the liquor in the saucepan, boil well, skim and strain in another saucepan, reduce it to half glaze, pour over the tongue and serve. The chestnuts must be boiled after being peeled and blanched, put through ricer with seasoning of salt, pepper, little butter, some of the liquor of the tongue.

MRS. J. G. MOSSIN.

MOCK TERRAPIN.

Select a calf's head with care—not too young. Have thoroughly cleaned by butcher. Then have the cook again wash and wipe dry with a coarse cloth. Place in an iron pot and in cold water with a very little salt. Boil gently until the meat is tender enough to pierce easily with a fork. It must be very well done. Remove them from the fire, place the pot where it is cool, and let the calf's head remain in the liquor until the next morning. Take out then and boil down the liquor to one-half pint.

Then cut the meat up carefully, with a knife, in small pieces. Place again over the fire, add two or three tablespoons of the liquor, a half cup of cream, one tablespoonful of butter, pepper

and salt to taste. A hock glass of sherry wine (as you remove from the stove) and the yolks of as many hard-boiled eggs as you like, minced fine. Pour into a large earthen vessel, let stand until the next day. Then one hour before serving, put over the fire, add a little more cream and sherry to taste.

Send to the table *very hot*, and serve with "bits" of dry toast.

MRS. W. A. ELDERKIN.

VEAL, BIRDS.

Slice of veal from the loin, cut very thin. Remove bones, skin and fat and pound till one-fourth of an inch thick. Trim into pieces two and a half by four inches. Chop the trimmings fine with one square inch of fat salt pork (not smoked) for each bird; add half as much fine cracker crumbs as you have meat; season highly with salt, pepper, lemon, cayenne and onion; moisten one egg and a little hot water as for veal loaf. Spread the mixture on each slice nearly to the edge; roll up tightly, and tie or fasten with skewers. Dredge with salt, pepper and flour. Fry them slowly in hot butter till a golden brown, but not dark or burned. Then half cover with cream and simmer for fifteen or twenty minutes. Remove the strings and serve on toast; pour the cream over them; garnish with points of toast and lemon. This is easily cooked in a chafing dish, or is especially nice as a meat course for luncheon.

MRS. MATHEW T. ALLEN.

VEAL AND HAM PIE.

Two pounds veal cutlets, half pound of boiled ham, two tablespoonfuls of minced or dried herbs, two blades of pounded mace, pepper and salt to taste, yolks of two hard-boiled eggs, half pint of water, nearly half pint of good, strong gravy. Pie crust.

Cut the veal into nice square pieces, put a layer into bottom of pie dish, sprinkle over these a portion of the herbs, spices, seasoning and the yolks of eggs cut in slices; cut ham very thin and put layer of this in. Proceed in this manner until dish is full, so arranging that ham comes on top. Lay paste on edge of dish, pour in water, cover with crust, leav-

ing opening in top, brush over with yolk of egg (uncooked), bake in well-heated oven for one to one and one-half hours or longer should the pie be very large. When it is taken out of oven, pour in at opening on top through a funnel nearly half a pint of strong gravy. This pie may be enriched by adding a few mushrooms, oysters or sweetbreads; for those who like it a little sherry may be added to the gravy.

Kidneys and round steak also make a good pie; care must be taken to remove all fat and string from the kidneys. Cut in slices, cook in boiling water for five minutes, pour off water, recover with boiling water and cook five minutes longer. Cut steak as directed for cutlets, and arrange in pie dish as for veal and ham pie. A little onion juice is a great improvement to kidneys.

MRS. HENRY WORTHINGTON.

VEAL OLIVE PIE.

Two pounds veal, without bone, rind of quarter lemon, quarter pound lean ham, one tablespoon parsley, one cup bread crumbs, two teaspoons salt, one teaspoon butter, quarter teaspoon white pepper, two eggs, one salt spoon paprika, quarter cup cold water, some short paste. Cut up veal in very thin slices and then into oblong slices, three inches by one and one-half. Chop up the ham very fine, also the parsley; mix with them the bread crumbs, the butter melted, the eggs well beaten, and half the pepper, salt and paprika. Spread this over the pieces of veal and roll them up. Fill up a deep pie dish with the rolls; let it be higher in the middle than the sides. Sprinkle the rest of the seasoning over and put in the quarter cup of water. Roll out a piece of rich, short crust, one inch larger every way than the top of your pie dish; cut off an inch breadth all round, wet the edge of your dish and press on the paste, joining it neatly; wet this edge and put on the cover. Trim it round with a sharp knife. Scallop the edges of your pastry and make a hole to let out steam in the top. Brush over with well-beaten egg, ornament with pastry cut into leaves, etc. Bake in a hot oven for ten minutes, then moderate heat and bake altogether about one and one-quarter hours. Fill up pie with boiling water or stock before serving.

MISS KATE E. WHITAKER.

STEWED VEAL (GERMAN).

Two or three pounds of lean veal cut in pieces ready to serve. Put two tablespoons of drippings in kettle and get very hot; put in veal, season with pepper, salt, bay leaf and trifle nutmeg, and let brown all over. Then slice in one good-sized onion and let brown. Cover with boiling water and stew for about an hour, just keeping enough water to make a nice gravy. Then put in two or three tablespoons sherry (or some white wine) and thicken with tablespoon flour in a little water. Let boil a few minutes and serve.

MRS. J. O. KOEFFEL.

CHAPTER VI.

SALADS.

APPLE AND CELERY SALAD.

Prepare beforehand a good mayonnaise, seasoned well, and do not forget a pinch of cayenne. Peel tart crisp apples, one at a time, cutting in slices, and these in turn into dice, mixing and covering at once with the mayonnaise, a slice at a time to keep from turning dark. The celery should be one-half the amount of the apple; very crisp and white, and cut into bits, about one-half by one-quarter of an inch long. Mix the apple and celery in turn, and when altogether, put in a bowl with white lettuce leaves.

If a richer salad is desired, English walnuts, blanched and broken in small bits, may be added, about one-quarter as much as the apple being used.

2. Beets may be used with celery instead of apple, and this makes a delicious salad, too. Cauliflower, a fine head, boiled whole and salted, and when tender allowed to cool and drain, makes a good salad served with mayonnaise poured over the whole, and garnished with small hearts of lettuce, and bits of boiled beets.

MRS. WILLIAMSON DUNN.

BRUSSELS SPROUT SALAD.

Throw a quart of Brussels sprouts into boiling water, after removing the dead leaves and cutting the little brown knots from the stems. Boil briskly or they will change their color; twelve minutes will cook them. Throw them into a colander to drain. While hot, pour over a French dressing. Surround with lettuce leaves. Set in ice-box an hour before serving. Two ounces of cold boiled tongue cut in neat pieces is an addition to this salad. Canned sprouts can be used when fresh ones are not in the market.

MISS MACDONALD.

CABBAGE SALAD.

Take very tender, fresh cabbage, slice very thin, and dress at the table with salt, oil, and red pepper. This sounds plain, but it is very appetizing.

M. R. P.

CELERY AND APPLE SALAD.

Cut tender, white celery into small dice, cut the heart, leaves and all. Season well with salt and pepper. Then cut into very small, thin slices, tender, tart apples, an equal quantity: mix together, and add mayonnaise dressing till it is of good consistency. Serve on lettuce leaf or garnish with celery leaves, or with the pink seeds of pomegranates.

MRS. GEORGE H. WADLEIGH.

CELERY ROOT SALAD.

One bunch celery root (three small or two large in a bunch). Boil until you can stick a fork into them, peel and remove the centers. One head of celery, two hard-boiled eggs; chop them all and mix with the following mayonnaise dressing: Yolk of one egg, one-quarter teaspoonful of mustard wet with a little water, one-half pint olive oil, one-half tablespoonful vinegar, the juice of a half of a lemon, salt. Stir into the yolk of the egg the mustard, then add the oil, drop by drop, stirring all the time, then the vinegar and lemon juice, and last the salt. More salt will be required after mixing all together, as this salad takes more salt than others. This makes a sufficient quantity for six or seven persons.

CHESTNUT SALAD.

Boil enough chestnuts to allow four or five for each person, slice, and add finely sliced celery, cut up olives, a little vinegar and salt, mix with mayonnaise, and garnish as desired.

MRS. GEORGE J. DENIS.

CHICKEN SALAD.

Cut chicken in small pieces, not too fine, half as much celery. Take four hard-boiled eggs, mash yolks fine, add one teaspoonful mustard, salt and pepper to taste, then oil until a smooth paste, vinegar one cup. Pour tablespoon vinegar

over chicken and celery. Toss all with silver fork, put in bowl, and on top bits of mayonnaise dressing, rounds of whites of eggs and capers. Fresh sprigs of celery all around dish and in center.

MRS. JERRY CONROY.

CHICKEN AND CHEESE SALAD.

Three hard-boiled eggs, one and one-half cups of grated cheese, one cup of chicken or veal chopped half fine, one teaspoonful of mustard, one and one-half teaspoonfuls salt, one-tenth teaspoonful cayenne, two tablespoonfuls of oil or butter, two tablespoonfuls of vinegar; rub yolks of eggs through fine sieve, gradually add oil, stirring all the time; add all the seasoning, mix in meat and cheese lightly; garnish with lettuce, celery and whites of eggs.

KATE E. WHITAKER.

CHIFFONADE SALAD.

This salad consists of all the salads in season. For example, lettuce, romaine, chicory, escarol, tomato, beets, and celery cut in long slices.

The dressing for this salad is made as follows: Take one hard-boiled egg and mash it as fine as possible with a fork; then add two pinches of paprika and a pinch of salt, half a teaspoonful of French mustard, a teaspoonful of hashed chives, a teaspoonful of hashed estragon, two tablespoonfuls of oil and three tablespoonfuls of vinegar. Add this to the salad, mix it well together and serve.

MRS. M. J. CONNELL.

CODFISH AND POTATO SALAD.

Slice boiled potatoes thin, add cooked codfish shredded fine, in layers (potato then codfish), season with salt and pepper, and onion minced fine, and pour oil over all; mix well with a silver fork or wooden spoon. When the potatoes have thoroughly soaked up the oil, then add vinegar. Place in salad dish and slice hard-boiled egg over all. A good luncheon dish.

MRS. ADOLF PETSCH.

CRAB SALAD.

Two heads of lettuce, flesh of two boiled crabs. Break in small pieces. Place them with lettuce in salad bowl and pour a mayonnaise dressing over it. Garnish with hard-boiled eggs. This makes enough for six persons.

CUCUMBER SALAD WITH CREAM DRESSING.

To make this salad a success, have some sour cream. Take five tablespoonfuls of sour cream, two tablespoonfuls of vinegar, half a teaspoonful of paprika, one pinch of salt and half a teaspoonful of hashed up chives; mix it well, so that the paprika does not form little balls. When well mixed add it to the cucumbers and serve.

MRS. M. J. CONNELL.

EGG SALAD.

Cover a platter with lettuce, using only the little yellow leaves. Boil eggs until hard, but not long enough so that the yolks will turn dark. Use eggs in proportion to number of persons to be served. Spread mayonnaise over the lettuce; cut up yolks and whites of eggs separately and not too fine. Place in alternate stripes, about two inches wide, on the lettuce, taking care to have the stripes uniform and even.

FISH SALAD.

Any kind of cold white fish. If you boil fresh fish, put a little vinegar in to flake it. Add fresh beans, peas, carrots (this can be omitted) and beets; French dressing mixed thoroughly with fish. When served, pour over a mayonnaise made with vinegar from capers; put a few capers on top.

MISS MAURICE.

FRUIT SALAD.

Cut the tops from one dozen oranges and scoop out pulp into a bowl; add one small box red strawberries, one-half pound fresh cherries from which the seeds have been removed, one-half teacup preserved fruit of any kind and three bananas, sweetening to taste. Stir thoroughly together and fill the orange skins. Whip one pint of cream stiff, and on top of each filled orange place a large spoonful of the whipped cream. Serve on delicate lettuce leaves as first course at a dinner or luncheon.

FRUIT SALAD.

Six large apples, almonds, celery; peel, core and chop the apples; blanc and chop the nuts; chop crisp celery; mix about equal parts of each with a cooked salad dressing. Just before serving stir in two-thirds cup of whipped cream.

MRS. H. KERCKHOFF.

FRUIT SALAD.

Make a dressing by boiling a cup of water and one-fourth cup of sugar for five minutes; then put away to cool. Beat the yolk of one egg till thick and creamy; add to it four table-spoons of thick, sweet cream, and when mixed add the syrup and the juice from the fruit which you have prepared for the salad.

Use one banana sliced, one cup of diced pineapple, four fresh apricots and one pint of raspberries. Arrange the fruit in a pyramid form and pour the dressing over it, being careful that it is equally distributed. Arrange it in a glass dish and garnish with grape leaves underneath.

FRENCH FRUIT SALAD.

One head lettuce, one dozen walnuts, two dozen large white grapes, three bananas, two oranges, mayonnaise dressing.

Peel the oranges, divide into lobes and cut each lobe into three pieces, removing the seeds. Skin with a very sharp knife the grapes and seed them. Shell and halve the walnuts and slice the bananas with a silver knife. Arrange the fruit on the lettuce, rejecting all the leaves but the crispest and most delicate. Cover with the mayonnaise dressing.

SALAD OF GRAPE FRUIT AND NUTS.

Put meats of eight walnuts and pulp of a large grape fruit in a bed of crisp lettuce. Just before serving, dress with four tablespoonfuls olive oil in which has been stirred half teaspoonful salt, one teaspoonful sugar, one teaspoonful vinegar.

MRS. GEORGE SINSABAUGH.

LETTUCE SALAD.

Take two fine lettuces, remove the outer green leaves, core, wash and drain in a wire basket, then split and cut the leaves into quarters and put them in a bowl. Have tomatoes cut in thin slices, and place over the lettuce. Season as follows: Mix one pinch of salt and one-half pinch of pepper in two tablespoonfuls of vinegar, add one and one-half tablespoonfuls of oil, pour over the salad and serve.

MRS. M. J. CONNELL.

LETTUCE SALAD WITH TOMATO JELLY.

To make tomato jelly, take a can of tomatoes of clear color and fine flavor. Fry in butter a slice of carrot, two slices of onion, one sprig of thyme, half of one bay leaf, six peppercorns and two stalks of celery. Add the quart of tomatoes, season with salt, pepper and let simmer half an hour. Strain and add a third of a box of English gelatine to each pint of liquid. Soak the gelatine in a quarter of a cup of cold water for every third of a box used. It will dissolve, if it has been soaked, as soon as it is stirred into the tomato mixture. Strain again through a cloth jelly strainer, and put into little cups holding about a gill each to mold. Put each mold of this jelly on a bleached lettuce leaf and a tablespoon of mayonnaise with chopped walnuts (chopped very fine).

MRS. HUGH VAIL.

butter, one tablespoon celery. Mix all dry ingredients, beat three eggs light, add dry ingredients, then scalded milk and last vinegar. Let boil until thick as molasses. Use half receipt and pour over equal parts potatoes cut in dice, and celery in small pieces. Garnish dish with sliced hard-boiled eggs, celery and capers.

Put in deep bowl in layers. Pour over three tablespoonfuls salad oil; a sprinkle of paprika, salt. Cover closely and place in the refrigerator until chilled.

ROSE SALAD.

This salad was given to me by a member of the Sultan's household. I have tried it and found it very delicious. Pound in a mortar and pestle the leaves of three large red roses and six almonds. Heat, but do not boil, a cup of strained honey, add the rose leaves and rub through a fine strainer. Take twelve ripe figs, or those conserved in glass, the syrup of which can be used instead of honey. Arrange them in a mound on a glass dish, add a wineglass of Chartreuse to the rose leaf syrup and pour over the figs. Place candied rose leaves over the mound and about its base, ornamenting the outer rim with fresh roses and thin green leaves. Mulberries may be used in place of the figs, or strawberries or peaches, if you wish to make an American adaptation of an Oriental salad.

Remnants of roasts, especially veal, pork, chickens and beef—chop very fine, add onion or juice of onion, season highly with cayenne pepper, a little chile, salt, grated lemon, celery salt, marjorie, parsley, all finely prepared, two eggs beaten, all mixed thoroughly.

The covering is made of German pancakes, a thin batter of flour, two eggs, salt and water, fried the full size of skillet or gridiron, make seven or eight pancakes; fill these when cool lengthwise with the prepared meat, roll until it holds together nicely. Place the filled pancakes in baking pan and baste with soup stock. If gravy is left over, add this shortly before serving. One-half hour is sufficient time to bake—be careful to keep moist.

Put them into a stew-pan, cover them with water and cook until tender. Rub one tablespoonful of flour with a quarter of a pound of butter ; when well mixed put in a saucepan with a tablespoonful of milk or water ; set in a double boiler, stir well and allow it to come to a boil. sauce. Mix the yellows perfectly with a little salt and vinegar; turn very regularly and always the same way, while you pour in little by little ten large spoonfuls of very fresh olive oil and one of vinegar. If well made, the sauce becomes thick and nearly white. Mustard and "fines herbes" chopped very fine may be added according to taste. CHAPTER IX.

VEGETABLES.

All vegetables except potatos, asparagus, peas, and cauliflower should boil as fast as possible; these four only moderately. To prevent the bad odor arising from boiling cabbage, put it in plenty of boiling water, add a pinch of soda, cover closely, boil fast; keep boiling for half an hour, no longer.

Onions should be boiled in milk and water—equal parts. Potatos should be pared before being boiled, if you wish to have them mashed and look white. Pour off the water the minute they are done and stand on the back of the stove covered with a napkin. Sweet potatos should not be pared, and they require longer cooking than the common potato.

Potatos are good with all meats. Turnips, beets, cabbage, cauliflower, and greens are eaten with boiled meats. Mashed turnip, onion, and apple sauce, with roast pork. Tomatos are good with every kind of meat. Green peas, green corn, string beans, with either boiled or roasted meats.

LOUISE GUASTI.

STUFFED ARTICHOKES.

Trim your artichokes by cutting off the top and ends of the leaves with knife and scissors. Boil in salt water fifteen minutes. Let cool, and remove the hearts and tender leaves; chop, then crush through a colander. Leave only a good thickness for a shell. Add to the hearts a little soaked bread, butter, cream, pepper, salt, a suspicion of onion and yolks of two eggs (for one dozen artichokes). Stuff and bake in pan ten minutes.

BAKED BEANS WITH TOMATO.

Three cups of beans, half onion, one can tomatos, one tablespoon butter, bacon about three inches square, one tablespoon molasses, one chile; soak the beans over night; in the morning let them boil up with a pinch of soda. Pour off the water and cover with cold water; add the bacon and molasses, cook until tender; then put them in the oven and bake one hour. Add the onion which has been browned in the butter, the tomatos, chile, salt and cayenne pepper (to taste) strained. As it cooks down, keep adding this sauce, and, if necessary, a little water, until the beans are done, which will require a slow oven the greater part of a day.

MRS. FRANK W. KING.

CURRIED BEANS WITH TOMATO.

Pick over and wash a pint of pink beans and put on the fire with cold water. Let them heat slowly, and when they have come to a boil, add half a teaspoon of baking soda. This softens the skins and makes the beans wholesome. Boil for fifteen minutes, drain, and return to the stove with plenty of boiling water. Cook for ten minutes or so, then drain and rinse thoroughly. Peel and chop some apple (or an orange, if you can't get an apple) and a good-sized onion, and fry with a table-

spoon of butter and a teaspoon of curry powder. Put them in a bean-pot, or a two-quart stone jar, with a well-fitting cover, with the beans; add one tablespoon sugar, one teaspoon salt, a good tablespoon butter, a cup of tomato, a pinch of mustard, and a small bird-pepper chopped fine and full of seeds (or a little cayenne); add water to cover, and watch that the beans don't get dry. Bake eight hours at least, very slowly. When the jar is emptied, wash it, fill it with wood ashes and boiling water and let it stand in the oven for a morning. This keeps it nice and sweet.

M. R. P.

BEANS SPANISH.

Soak over night two small cups of pink beans. Then boil until tender. Put five or six red peppers on to boil until soft enough to rub through hair sieve. Put a large tablespoonful of lard in the frying pan and add a couple of slices of bacon or salt pork. Let fry until a little brown, and add the pepper sauce and a green pepper cut in small pieces. Put in small quantities of garlic cut very fine, so as not to be noticeable. Then put in the beans and plenty of the juice. Add a little salt, some grated California cheese; cook all together until thoroughly done and well flavored.

MRS. GEORGE W. LICHTENBERGER.

STATE OF MAINE BAKED BEANS.

Soak one pint of beans over night. In the morning drain from water and add one teaspoon molasses, one teaspoon of sugar and a little salt, if there is no lean in the pork, and one-half pound of salt pork (in one piece, not cut in slices). Cover with water and bake in the oven slowly all day. Water should be added frequently during the forenoon, but if properly cooked none will be needed at least two hours before serving.

MRS. FLORENCE PORTER COLLINS.

STRING BEANS.

Two pounds of string beans, half small onion cut fine, one teaspoon chopped parsley, two tablespoons butter. Cut the ends and remove the strings. When large, cut them diagonally in small pieces. Put in boiling water and boil until tender. By

adding a pinch of soda to the water, it will keep the beans green. When cooked, pour into the colander to remove all the water, place the butter in the pan with the onion and brown; then add the beans seasoned with salt, pepper and parsley. Cook for a few minutes, shaking well, then serve.

MRS. EUGENE O. McLAUGHLIN.

STRING BEANS.

Meanwhile put the yolks of three eggs in a basin, beat with half cup of cream, adding a tablespoon of butter. Put this mixture on the beans when quite hot; mix in a tablespoon vinegar together with the beans, which have been drained. Remove pan from the fire, steam gently for six or seven minutes, stirring constantly. When done turn on a dish and serve at once.

Place the sprouts on a dish, turn the sauce on them.

MRS. J. G. MOSSIN.

STEWED RED CABBAGE.

Put two ounces of butter in a saucepan, two tablespoons flour, and stir over the fire until well mixed. Then pour in half pint clear broth and continue to stir while

boiling. Season with salt, throw in the chestnuts; keep them simmering at the fire until soft. Serve with turkey. They are delicious.

Take a layer of corn, season with butter, pepper and salt; then a layer of cracker crumbs, then corn, and season, the last layer cracker crumbs. Fill bake-dish with sweet milk, just so you can see it up to crumbs. Bake one-half hour. Canned corn can be used.

MRS. HUGH W. VAIL.

BAKED STUFFED CUCUMBERS.

This is a delicious dish, which usually finds favor with the gentlemen. Take cucumbers of fairly good size—say six to eight inches in length; cut them in two lengthwise and scoop out the inside, seeds and all, but leave the outside shell whole and thick enough to be firm. Put the seeds and pulp into the chopping bowl, and add salt and pepper, or green chile peppers chopped very fine; tomato and bread crumbs. Chop all very fine and mix well; fill each half shell, and put plenty of butter in the stuffing and on top, so it will brown well. Bake in a hot oven for an hour. The stuffing should be very hot in seasoning, and the cooking thoroughly done.

MRS. MATHEW T. ALLEN.

VEGETABLE CURRY.

Cut in shapes or slice the vegetables. The onions only should be fried, and the rest of the vegetables should be stewed in strong stock or cream and thickened with curry paste. When dished, the vegetables should be moist, but they should not be covered with sauce.

cloth. Cut off the stem ends, remove the seeds with a large spoon, and stuff the peppers with any kind of minced cold meat, mixed with an equal quantity of stale bread moistened with cold water, and properly seasoned with salt. Replace the stems, set the peppers in a deep earthen dish or plate, pour in as much cold gravy as the dish will hold, and bake them in a moderate oven for half an hour. They may be stuffed with sausage meat and bread. Cheese may be grated and mixed with bread crumbs for stuffing peppers, and they should then be fried instead of being baked.

MRS. M. J. CONNELL.

With a sharp knife cut around the stems of the peppers, making little corns; remove the seeds and fill the shells with the mixture of bread crumbs and meat; moisten with the juice and pulp of tomatos and melted butter. Fill peppers with the mixture, put them in a vegetable dish and let them stand covered in the oven until they are hot through.

MRS. ELIZABETH SHANKLAND.

POTATOS "Á LA GRANDE DUCHESSE."

Take one pound of mashed potatoes, add two ounces of butter, and salt to taste; one tablespoonful of powdered white sugar, and work up into a light paste, adding two well beaten eggs. Make the paste into oval balls, roll them in melted fresh butter, and place them in the oven on greased paper until well cooked. They make a nice garnish.

MRS. H. W. O'MELVENY.

POTATO BALLS.

Mince very finely some lean uncooked mutton or beef; add salt and pepper and a saltspoon of ground ginger. Make this into balls the size of a large walnut. Have ready previously some mashed potato (be very careful that there are no lumps in them). Dry and then mix with them eggs sufficient to make them into a soft paste. Now make a crust of this around the meat balls, about one-third of an inch thick, and fry in plenty of boiling butter that has been previously clarified from salt.

MRS. WILLIAM S. CROSS.

POTATOS, MAITRE D'HOTEL.

Peel and boil some carefully selected potatoes, taking care not to boil too long; then drain them and let them become cold, after which they are to be cut into rather thick slices. Place

in a flat stew-pan a good-sized lump of butter and dredge in a half tablespoonful of flour; stir until well dissolved and melted; then mix in gradually a breakfast cupful of broth and stir continually until boiling; then place the potatoes in with a tablespoonful of chopped parsley, with pepper and salt to the taste. Stew them for two or three minutes, move the pan to the edge of the fire and stir in quickly the yolk of an egg previously well beaten, with a teaspoonful of cold water and a very small amount of strained lemon juice. When the egg has become thickened, turn the potatoes together with their sauce on to a flat dish and serve.

MRS. M. J. CONNELL.

POTATO PUFF.

MRS. JERRY CONROY.

POTATO PUFF.

Peel and boil about six large potatoes. When soft and dry, beat them briskly with a little salt and two tablespoonfuls of butter till white and creamy. Now add the yolks of two eggs well beaten, and two tablespoonfuls of cream. About twenty minutes before the potato is wanted whip the whites of two eggs till firm, mix them lightly with the mashed potato, turn into a deep dish and bake till brown. If successfully managed, the potato will be light, puffy and delicious.

MRS. WILLIAM S. CROSS.

MRS. CAPEN.

POTATOS WALDORF.

Peel and wash some potatos and then cut them round and round in curls in the same manner in which apples are peeled; place two flat stew-pans over the fire with an equal quantity of lard in each; when boiling, throw in the pieces in one of the pans and fry until just commencing to color, then remove quickly with a drainer and throw into a second pan of boiling lard. When they have become nicely browned and soft, take the potatos out of the fat, drain them for a minute or two on kitchen paper at the front of the fire; spread a folded napkin over a hot dish, pile on the potatos, dredging a small quantity of salt over them, and serve while hot.

MRS. M. J. CONNELL.

CANDIED SWEET POTATOS.

Peel desired number of sweet potatos and boil with generous quantity salt until "under done." Put them in oven pan with bit of butter on each and baste frequently with maple syrup. In a very hot oven, it takes about fifteen minutes for them to brown properly.

MRS. E. R. KELLAM.

RICE.

Rice one pint, tomato one (large one or one cup of canned with juice turned off), one green pepper (thoroughly seeded), half of an onion (well chopped), salt and pepper, butter two tablespoonfuls. Boil the rice well. Put the butter to brown, and then throw in the onions, then the green peppers and tomatoes, and when thoroughly cooked mix well with the rice and serve hot.

MRS. MARY LONGSTREET.

RICE WITH TOMATOS.

Boil one cupful of rice soft in hot water; shake it now and then, but do not stir it. Drain and add a little milk in which a beaten egg has been mixed; one teaspoonful of butter, and a little pepper and salt. Simmer for five minutes, and if the rice has not absorbed all the milk, drain it again. Put the rice round a dish, smooth it into a wall, wash it over with the yolk of a beaten-up egg, and put it into the oven till firm. Take half a bottle of tomato conserve (or the strained juice and the pulp of seven or eight tomatos), season with pepper, a little salt, sugar, and half a chopped onion; stew for twenty minutes, then stir in one tablespoonful of butter and two tablespoonfuls of fine bread crumbs. Stew three or four minutes to thicken, then pour the tomato into the dish in the middle of the rice, and serve.

MRS. H. W. O'MELVENY.

SAVORY RICE.

One-half pound rice, one onion, three tablespoons grated cheese, three tablespoons tomato sauce, one teaspoon chopped parsley, herbs, cayenne and salt, one ounce butter. Boil the rice in water with small onion chopped fine; when tender and nearly dry stir in other ingredients. It should be stiff enough to make a mound in the dish. Serve hot. (Thyme and marjoram are the herbs used.)

MRS. WALTER ALLEN.

RICE, SOUTHERN.

In taking the quantity, remember that in cooking, rice swells to about three times its original size. Wash the rice with the hands, quickly, in two or three waters to remove the powdered starch, as that will make the rice sticky. A saucepan with about three quarts of salted water, boiling hard, should be on the hottest part of the stove. Put in it two cups of the rice. It should begin to boil again in a couple of minutes; after it has boiled from seven to ten minutes, test it by rubbing a grain between the fingers, and if it is soft on the outside, with a tiny hard core in the middle, pour off every drop of water, leaving it as dry as possible. Cover tightly; place on the back of the stove and let it steam for one-half hour; or it

may stand longer without injury. The steaming cooks the center, and the rice should prove to be snow white and dry, so that each grain is separate. Do not stir the rice while cooking. This is served as a vegetable.

MRS. WILLIAMSON DUNN.

RICE SPANISH. GOOD FAMILY LUNCHEON DISH.

One cup rice, one large tomato, one green pepper, one large onion, one tablespoonful of lard, one teaspoonful salt. Put the lard in a spider and when hot pour the rice (dry) into it and keep moving it until the rice is thoroughly heated, but not colored. Then add three pints of boiling water in which the salt has been dissolved, then the vegetables chopped fine; let all cook together until rice is tender. More boiling water may be added should it become too dry.

MRS. CLEVES MOORE.

RISOTTO Á LA MILANESE.

Take some butter or sweet oil or lard, but the former preferred, when good and hot add some fine chopped onion, when brown add some chopped tomatoes and half a cup of well chopped dried mushroom; care must be taken that the mushrooms are first soaked in warm water for at least fifteen minutes and well washed. After allowing all this to cook for about ten minutes, add a handful of Italian rice for each person you expect to serve, a little pepper, no salt, as the cheese contains salt, and stir continually, adding now and then some chicken broth. When the rice is nearly cooked put in a handful of grated Parmesan cheese and then serve.

LOUISE GUASTI.

SOUR-KROUT.

Take a dozen solid heads of cabbage, shred very fine, put in a large jar and sprinkle as much salt as would require in cooking. Use a potato masher to pack. After one head has been packed use another with same quantity of salt. When all has been packed, put a napkin over and use a plate to cover; and a weight of about six pounds to keep it well pressed. After third day wash napkin, replacing for about three weeks, when it is ready to cook.

SOUR-KROUT COOKED.

Put your sour-kROUT on with a quart of cold water; let it come to a boil, then simmer three hours, with a piece of pork that has been in brine three days. Wiener or Frankfurter wurst are served. They are put in a pan of boiling water and kept very hot, not to boil, for fifteen minutes; then put around the pork as garnish.

MRS. J. G. MOSSIN.

SPINACH.

Wash and pick over the spinach carefully and thoroughly, let soak in clean water until ready to cook. Put just enough water in stew-pan to cover the bottom, about one-fourth of a cup. Put in spinach, crowding down well; cook until wilted or tender, about thirty minutes, drain, put in chopping bowl, and chop very fine, return to stew-pan and dry out; add a teaspoonful of melted butter, pepper and salt to taste; serve with hard-boiled eggs cut in slices or chopped finely, and sprinkled over the top.

N. B. Tripe and spinach are very easily digested.

MRS. HENRY WORTHINGTON.

PLAIN SPINACH.

Boil spinach ten or fifteen minutes in just enough water to prevent burning, with a little salt. Drain, squeeze quite dry and chop fine. Put into a clean stew-pan with one ounce of butter and a little pepper. Stir over the fire until quite hot, put on a hot dish and garnish with small pieces of toast.

MRS. WALTER ALLEN.

CREAMED SPINACH.

Boil spinach in very little water ten or fifteen minutes, drain well, chop it fine and put into stew-pan with two ounces of butter, stir over a gentle fire and when the butter has dried away add a little pepper and tablespoon of boiled cream. Simmer for about five minutes. Serve with small pieces of toast.

MRS. WALTER ALLEN.

SPANISH SOUFFLÉ

Take a cupful of spinach prepared as in "Spinach à la Crema." Beat up one yolk of an egg, mix with the spinach and stir over the fire until the egg is set. Then let it cool, and

before serving stir the well-beaten whites of three eggs lightly into it. Fill china cups, or buttered paper forms, half full; put them into a hot oven for ten or fifteen minutes, and serve at once. If too little baked, or not served at once, the soufflé will be spoiled.

MRS. H. W. O'MELVENY.

SUCCOTASH.

Place corn scraped from six medium sized ears (or a can of corn) in a saucepan with a pint of cooked lima beans, adding one tablespoon butter, a pinch of salt and pepper, half pint of milk. Heat it thoroughly for five minutes, add two tablespoons of hot bechamel sauce; stir all together. Serve very hot.

MRS. J. G. MOSSIN.

GREEN TOMATOS SERVED AS A VEGETABLE.

Six green tomatos; slice the tomatos, then roll them in flour and dip in a beaten egg. Have the lard boiling, so that a piece of bread browns as soon as dropped in it; then drop in the slices of tomato, a few at a time, and let them remain until well cooked. Serve at once.

MRS. M. A. WILCOX.

BAKED TOMATOS.

Cut a half dozen tomatos in halves, remove the pips and fill the inside with a mixture of one part Parmesan cheese and two parts bread crumbs. Place a piece of butter on each half and lay them close together in a well buttered tin. Bake half an hour in a slow oven and serve.

MRS. FRED WALTON.

BAKED TOMATOS, STUFFED WITH MACARONI AND CHEESE.

Six tomatos, as near the same size as possible, one and a half cup of macaroni, broken in small pieces; two tablespoonfuls of grated cheese, any good, dry kind, but Holland cheese is the best; butter the size of a walnut, dash of paprika, salt and pepper to taste. Cook macaroni in boiling water until soft. Cut a small opening in the top of the tomatos, remove seeds with a teaspoon, leaving as much of the pulp as possible. Fill tomatos with macaroni, add butter, salt and pepper, put cheese on last, cook in medium hot oven thirty minutes.

MRS. HENRY WORTHINGTON.

STUFFED TOMATOS, BAKED.

Choose large tomatos. Do not skin them but scoop out a small place at the top which fill with bread crumbs, minced onion, cayenne and salt. First fry the onions in a little butter, add the bread crumbs moistened with a little water, and seasoned with a very little cayenne pepper and enough salt. Fill the cavities allowing the stuffing to project half an inch above the tomato and smooth it over the top. Bake.

MISS BESSIE BONSTALL.

TOMATO SOUFFLÉ.

Take one-half pint tomato pulp that has been rubbed through a sieve; one ounce butter, two ounces grated cheese, one and a half ounce boiled macaroni, one ounce bread crumbs, one teaspoonful made mustard; mix all together in a saucepan and stir over the fire until boiling; take from the fire, let cool; add first the yolks of two eggs and then the whites of three, with oven to bake quickly. Draw over with grated Parmesan cheese.

MARIE N. GRIFFITH.

CHAPTER X.

EGGS

BOILED EGGS.

Soft-boiled eggs should have the albumen creamy, not hard. To obtain this, slow heat is required. Hence receipt No. 1 is recommended. No. 2 gives a soft egg, but the time is difficult to determine exactly. No. 3 gives satisfactory results. To have eggs hard, boil them for twenty-five minutes. The yolks will then be dry and mealy. When done, place them in cold water for fifteen minutes. Then roll them lightly on the table to crush the shells, which can then be peeled off easily, leaving the surface smooth and white. Use a sharp, thin knife for cutting them, so the pieces will be clean and smooth.

No. 1: Place the eggs in warm water, to heat the shells, so they will not crack when put into boiling water. Let the water in the saucepan boil violently; put the eggs in carefully, and when the water again bubbles, remove it from the fire; cover, and let the eggs remain in for five minutes.

No. 2: Put the eggs into boiling water, and cook for three minutes, the water boiling all the time.

No. 3: Place the eggs in cold water on the fire, and remove as soon as the water boils.

In these receipts have plenty of water—about a pint for two eggs.

POACHED EGGS, NO. 1.

The white of a poached egg should be a white, translucent, jelly-like mass. To obtain this result, which makes it an easily digested food, it must cook very slowly, the water never reaching the boiling point. Place in a shallow pan as many muffin-rings as you have eggs to poach. Turn in enough boiling water to just cover the rings; add a little salt. When the water boils, draw the pan to the side of the range, and break an egg into each ring. It should take ten to fifteen minutes to cook the eggs to the translucent state desired. Have ready

even pieces of toast a trifle larger than the muffin-rings. Moisten them with hot water, and spread with a little butter. Remove the eggs carefully with a pancake turner, and place one on each piece of toast; then lift off the rings, and place a spot of pepper in the center of each yolk.

MARY RONALD in "Century Cook Book."

BEATEN OMELET.

Beat very light the whites of four eggs; beat until light colored the yolks of the four eggs; add three tablespoonfuls of milk, a speck of pepper, a sprinkle of salt. Pour this mixture into the beaten whites, and fold—not stir—slightly together. Put into an omelet-pan a tablespoonful of butter; when melted and hot, pour in the eggs. As soon as set, shake slightly all the time, until firm; with a buttered knife keep the edge of the omelet from sticking to the pan. When firm and brown upon the bottom, place in a hot oven for about three minutes to thoroughly cook the top. When finished, turn once, put on a hot platter, and serve immediately.

For a sweet omelet, add a tablespoonful of sugar, and omit pepper. Variations are made by spreading an omelet, just before turning, with chopped meat of any kind, with tomato, or with jelly.

ANCHOVY EGGS.

Boil eggs, halve and take out yolks. Mix with a little anchovy paste. Put mixture back into the white parts of the eggs, and skewer together with toothpicks to keep firm. Dip in beaten eggs and bread crumbs twice. Drop into *boiling* lard, brown and serve at once.

KATE S. VOSBURG.

ANCHOVY WITH POACHED EGGS.

Cut slices of bread round with a biscuit cutter; toast a light brown; spread with anchovy paste. Poach eggs to cover the spread toasts. Serve very hot.

MRS. A. HAAS.

BAKED EGGS.

Ingredients: Six eggs, one teacupful of rich gravy, one teaspoonful of chopped parsley and mushrooms mixed, bread crumbs.

Mix the parsley and mushrooms with part of the gravy, season with pepper and salt. Pour into a pie dish and place in the oven till it begins to bubble. Break the eggs carefully in, strew bread crumbs over, and return the dish to the oven for three minutes. Warm and pour in the rest of the gravy. Strew over a few more bread crumbs, and bake until the eggs are set.

MRS. H. W. O'MELVENY.

BAKED EGGS (MEXICAN).

Use an earthenware pie plate of the old fashioned kind, or a regular porcelain flat dish for baking eggs. Let it heat slowly; have ready one small onion, minced very fine with some parsley and other sweet herbs, if preferred, and a green chile. Put into the hot dish with a heaping tablespoonful of butter. Mix, then drop in carefully, so as not to break them, enough eggs to cover the bottom of the dish; put in one by one, and bake until the whites are set. They can be cooked on the top of stove, using an asbestos cover if over gas.

MRS. GILBERT E. OVERTON.

COLUMBUS EGGS.

Take eight fine green peppers, large enough to contain one egg each; cut off the tops and empty them well, being careful to extract every seed; stand them upright in a sauté-pan, and break an egg into each one, then set the pan in the oven for eight or ten minutes. Take out, lay the peppers on toasts and pour a little tomato sauce around.

MRS. M. J. CONNELL.

CURRIED EGGS.

Ingredients: Eight eggs, three-quarters pint of milk, one large Spanish onion, one teaspoonful of sugar, one tablespoonful of curry powder, one tablespoonful of flour, two ounces of butter, one lemon.

Boil the eggs for ten minutes, throw them into cold water and take off the shells. Cut off the ends to allow them to stand. Slice the onion and fry it white in the butter. CHAPTER XIII.

PASTRY.

If pastry is to be served, have it of the best—light, flaky and tender.

To pastry belongs, first, puff paste; second, plain paste.

Puff paste, which to many seems so difficult of preparation, is rarely attempted by any except professionals. As a matter of fact, one who has never handled a rolling pin is less likely to fail, under the guidance of a good teacher, than an old cook, who finds it difficult to overcome the bad habit of using too much force in rolling. It is necessary to work rapidly and with a light touch. A cold room is of great advantage.

For making pastry, pastry flour and the best shortenings, thoroughly chilled, are essential. Its lightness depends on the amount of air enclosed and expansion of that air in baking. The flakiness depends on the kind and amount of shortening used. Lard makes more tender crust than butter, but lacks flavor which butter gives. Puff paste is usually shortened with butter, though some chefs prefer beef suet.

Butter should be washed if pastry is to be of the best, so as to remove salt and buttermilk, thus making it of a waxy consistency, easy to handle.

Rules for washing butter. Scald and chill an earthen bowl. Heat palms of hands in hot water, and chill in cold water. By following these directions butter will not adhere to bowl nor hands. Wash butter in bowl by squeezing with hands until soft and waxy, placing bowl under a cold water faucet and allowing water to run. A small amount of butter may be washed by using a wooden spoon in place of the hands.

PUFF PASTE.

One pound butter, one pound pastry flour, cold water. Wash the butter, pat and fold until no water flies. Reserve two tablespoons of butter and shape remainder into a circular piece one-half inch thick, and put on floured board. Work two tablespoons of butter into flour with the tips of fingers of the

right hand. Moisten to a dough with cold water, turn on slightly floured board, and knead one minute. Cover with towel and let stand five minutes.

Pat and roll one-fourth inch thick, keeping paste wider than long, and corners square. If this cannot be done with rolling pin, draw into shape with fingers. Place butter on middle of lower half of paste; cover butter by folding upper half of paste over it. Press edges firmly to enclose as much air as possible.

Fold right side of paste over enclosed butter, the left side under same. Turn paste half way round, cover, and let stand five minutes. Pat and roll one-fourth inch thick, having paste longer than wide, lifting often to prevent sticking, and dredging board slightly with flour when necessary. Fold from ends towards center, making three layers; cover, and let stand five minutes. Repeat twice, turning paste half way round each time before rolling. After fourth rolling, fold from ends to center, and double, making four layers. Put in cold place to chill. If outside temperature is not sufficiently cold, fold paste in a towel, put in a dripping-pan, and place between dripping-pans of crushed ice. If paste is to be kept for several days, wrap in a napkin, put in tin pail and cover tightly, and put in cold place. If in ice box, do not allow pail to come in direct contact with the ice.

TO BAKE PUFF PASTE.

Baking of puff paste requires as much care and judgment as making. After shaping, chill thoroughly before baking. Puff paste requires a hot oven, the greatest heat coming from the bottom, that the paste may properly rise. While rising it is often necessary to decrease the heat by lifting covers or opening the check to the stove. Turn frequently that it may rise evenly. When it has risen to its full height, slip a pan under the sheet on which the paste is baking, to prevent burning on the bottom. Puff paste should be baked on a tin sheet covered with a double thickness of brown paper; or a dripping-pan may be used, lined with brown paper.

BEST SHORT CRUST.

Two cups of flour, half teaspoonful of baking powder, half teaspoonful of salt, one tablespoonful of sugar, one egg, three-quarters cup of butter (or butter and clarified fat), one teaspoonful of lemon juice, enough ice cold water to form a stiff dough. Sift all the dry ingredients and rub in shortening. Beat up egg and water and add to the mixture until you get a stiff dough. Roll out on well floured board about one-sixth of an inch in thickness.

KATE E. WHITAKER.

PLAIN PASTRY.

The proportion commonly used is four cups flour to one and a half cups shortening (half butter, half lard), one level teaspoonful baking powder. About a coffee-cupful of water will give the right consistency. This will make three pies.

Two cups flour, scant half cup of shortening, pinch of salt, one-half teaspoonful baking powder, ice water to moisten. This amount will make one pie with two crusts.

Make a soft-boiled custard of three eggs to a quart of milk, add a teaspoonful of cornstarch and sugar to taste. CHAPTER XIV.

DESSERTS.

FROZEN DESSERTS.

SUGGESTIONS FOR FREEZING.

Pour the mixture that is to be frozen into the tin can, put the beater in this, and cover. Place in the tub, being careful to have the point on the bottom fit into the socket in the tub. Place on the cross-piece, and turn the crank to see if everything is in place.

Next comes the packing. Ice should be broken in large pieces, put in a canvas bag and pounded fine. Put a thick layer in the tub; then a thin layer of salt. Continue until the tub is full, and pack down solid with a paddle or a piece of wood. Turn a few times and add more ice as the mass settles. Remember that if the freezer is packed solid at first, no more ice or salt is needed. The water should not be let off, as it is one of the strongest elements in the freezing.

Turn the crank for twenty minutes—not fast at first, but very rapidly the last ten minutes. Turn back the cross-piece, wipe the salt and ice from cover, and remove cover without displacing the can itself. Work a large spoon up and down in the mixture until it is light and the space left by taking out the beater is filled. Cover the can, cork the hole from which the beater was taken, and set the tub in a cool place for an hour or more.

MISS PARLOA.

Any mixture to be frozen should be thoroughly chilled before it is turned into the can of the freezer, lest a second supply of ice be needed.

A mixture too sweet will not freeze readily; a mixture that is lacking in sweetness freezes quickly, but will be coarse and granular in texture.

The proportion of salt to ice affects the time required in freezing, and, incidentally, the smoothness of the product. With a freezer operated by a crank, use three measures of ice

to one of salt, when cream, ices and sherbert are to be frozen.

Uncooked cream expands more in freezing than does cooked cream. It gives an ice of light, fluffy texture. Cooked cream loses in quality, but gives a firm, close grained ice. Always scald cream in a double boiler; and it is sufficiently scalded when the water in the outside kettle boils.

Ices are much better when the sugar is added in the form of syrup. A cup of syrup is equivalent to one cup of sugar.

Boston Cooking School Magazine.

Philadelphia ice creams are made of cream sweetened, flavored and stirred while freezing.

French ice creams are custards of different degrees of richness, stirred while freezing.

Parfaits and mousses are whipped cream, with or without eggs or fruit juices; frozen without stirring.

Water ices are fruit juices, sweetened with sugar syrup, stirred while freezing.

Punches and sherbets are water ices with liquors mixed with them either before or after freezing.

SYRUPS.

To prepare syrups without a gauge, the following method may be employed: Put into a saucepan three and one-half cupfuls of sugar and two and one-half of water. Stir it over the fire until the sugar is dissolved. After it is boiled five minutes from the time it is actually boiling, it will register 28°; every five minutes' additional boiling will thicken it one degree. At the end of 15 minutes it is 30°; at the end of 25 minutes it is 32°; at the end of 35 minutes it is 34°.

For parfaits, syrup should register 20°; for water ices it should register 32°, and for frozen fruits the same.

The Century Cook Book.

ICE CREAM.

One quart pastry cream whipped, one quart coffee cream. Sweeten to taste; it is preferable to make a syrup of the sugar. Flavor with real vanilla extract. This may be used plain or as a foundation for many fruit ice creams by adding fruit or berries that have been pressed through a colander and sweet-

ened. A delicious tutti-frutti is made by using the above and adding when almost frozen, glacé cherries, limes and pineapple, nuts, etc., cut into bits.

CARRIE T. WADDILOVE.

ICE CREAM.

Make a foundation of one quart of milk, eight eggs, half a vanilla bean, one and a quarter cups sugar; cook until thick as cream; cool, half freeze, then add one quart whipped cream.

MRS. JERRY CONROY.

CARAMEL ICE CREAM.

One pint milk, two eggs, one small tablespoon flavor, one cup granulated sugar. Make like a custard. Keep this hot while making caramel. For this take one cup sugar and dissolve on stove till it gets liquid, then stir quickly into custard while hot. If lumpy, strain. Add this to one quart cream, flavor with vanilla and freeze.

EVELYN R. LUTZ

FROZEN PUDDING.

One generous pint of milk, two cups granulated sugar, half cup flour, two eggs, two tablespoons gelatine, one quart of cream, half pound candied cherries, four tablespoons sherry wine. Let milk come to a boil; beat eggs, flour and one cup sugar together; stir into milk; cook twenty minutes; add gelatine which has been soaked in cold water. Set away to cool. When cold, add wine, sugar and cream; freeze ten minutes, then add fruit and finish freezing.

MISS H. KNICKERBOCKER.

LEMON FRAPPÉ.

Take two quarts of milk and let stand in ice cream freezer until as cold as it can get without freezing. Take juice of about eight medium sized lemons, one cup of sugar, and let it stand two hours. Taste and see if sweetened to your liking, allowing for milk. Then mix juice and milk and churn until frozen.

FRANCES WIDNEY WORKMAN.

PEACH ICE CREAM.

A can of peaches run through a colander, or a quart of peaches mashed fine and sweetened to taste. Add quart of cream and freeze.

MRS. JERRY CONROY.

PRUNE ICE CREAM.

Stew one pint of prunes with two slices of lemon and one stick of cinnamon; sweeten to taste; mash through a sieve; mix with one quart of thick cream and freeze.

MRS. OZRO W. CHILDS.

TAPIOCA ICE CREAM.

Two tablespoons ground tapioca stirred into one and a half pints boiling water. Let it boil. A piece of butter size of walnut; sugar enough to make quite sweet. When part cool, stir into the mixture two well beaten eggs; any kind of flavoring preferred. Just before putting into freezer, add one pint good cream.

MRS. H. M. LUTZ.

VANILLA CREAM.

Put a quart of milk in a pot; add the yolks of three eggs, well beaten, six tablespoons of sugar (more if desired), and allow to cook until slightly thickened. When cool, add the whites of the eggs, beaten stiff. Beat briskly for two minutes, then strain and set in a cool place. When cold, add a pint of cream, whipped and sweetened. Freeze immediately.

MRS. A. P. KERCKHOFF, COVINA.

CAFÉ MOUSSE.

Two soup-*spoon*fuls of ground coffee. Over this pour one large cup boiling water; let stand on stove five minutes, and then strain over the well beaten yolks of four eggs, and one large cup of granulated sugar. When this is cold, add one pint of cream, whipped. Pour in mold and pack in dishpan with equal parts of ice and salt, same as ice cream. Flavor with one teaspoon vanilla. Let stand in ice five hours. This makes enough for ten people.

MRS. ROBERTSON.

MOUSSE OF CHESTNUT.

With one-half pound of chestnut purée mix about six ounces of sugar flavored with vanilla; beat it well with a spoon until it is quite smooth, and then add three wineglassfuls of sweetened whipped cream. Pour the preparation into a dome-shaped mold previously buried in salted ice; cover the mold, solder

its joints with flour and water paste, and keep it in the ice for an hour. When ready to serve, dip the mold in hot water, wipe, and turn the mousse out on a folded napkin.

MRS. M. J. CONNELL.

STRAWBERRY MOUSSE.

Pour one large tablespoon of cold water over one even tablespoon of gelatine and let it stand two hours. Mash one pint of strawberries, cover with half pint of sugar and set away two hours. Then pour two tablespoons of boiling water over gelatine and stir till dissolved. Rub sweetened fruit through colander or strainer, add gelatine, and setting the bowl in a pan of ice water, stir till it begins to thicken, then stir in one pint of cream that has been whipped till it is very stiff. When thoroughly mixed pour into freezer and pack in ice for six hours. Take dasher out of freezer, as it must not be turned.

MISS H. KNICKERBOCKER.

FRUIT MOUSSE.

Whip a pint of cream and drain carefully. Mix with it a cupful any fruit pulp, also carefully drained and mixed with enough powdered sugar to give the same consistency as the whipped cream. A little vanilla if desired. Mold, seal carefully and pack in ice and salt for three hours.

CHOCOLATE PARFAIT.

Put a quarter of a pound of chocolate into a saucepan with a little water, and stir until dissolved. Prepare a custard with a pint of milk, ten eggs and sugar to taste. Mix the chocolate with this, and pass the whole through a silk sieve, then place the mixture over ice, and work in a small quantity of cream and syrup. When smooth, pack it in ice for two hours.

MRS. M. J. CONNELL.

MAPLE PARFAIT—A FRENCH DESSERT.

Heat one cupful maple syrup in a double boiler, then add the yolks of four eggs, well beaten, and stir until thick. When cold, add one quart of whipped cream and set in the freezer. Pack with ice and salt, and let it stand three or four hours. Do not turn the freezer.

MRS. L. A. GRANT.

MAPLE PARFAIT.

Beat the yolks of six eggs until light; add three and a quarter cupfuls of maple syrup. Place the mixture on the stove and stir constantly until the eggs have thickened enough to make a thick coating on a spoon. Turn it into a bowl and beat until it is cold. It will then be very light. When thoroughly cold add one pint of cream whipped to a stiff froth. Stir lightly together. Turn the mixture into a mold holding three pints, and keep in ice for four hours.

MRS. BONSALE.

AMERICAN SHERBET.

Secure some tin molds to imitate high-shaped wineglasses; fill them with cold, pure water; close them securely, and pack them in pounded ice. In the meantime mix in equal quantities some fruit syrup, wine and orange or lemon juice. Almost any kind of fruit syrup may be used. Pour the mixture into a freezing pot, and work it well until frozen. The sherbet must not be frozen too firmly, yet it must be consistent enough to be piled up in pyramids in the ice glasses. When the water has frozen enough to take the form of the molds, turn it out carefully, drain out any liquid that has not frozen, and fill up the ice glasses with the frozen syrup, piling it up high. Stand the glasses on a fancy dish and pass them around. If desired, the water may be colored before being frozen in the molds, and a different color may be used in almost every mold. This will have a very pretty effect when served.

MRS. M. J. CONNELL.

GINGER SHERBET.

One quart of water, one pint of sugar, juice of two lemons, whites of two eggs, four good sized pieces of peeled ginger, two tablespoonfuls of whisky. Make a syrup of the water and sugar. When it cools, add the lemon juice, the ginger cut very fine, and the whisky; put into the freezer. When partly frozen, add the beaten whites of the eggs and finish freezing.

MRS. FRANK W. KING.

LEMON SHERBET.

Boil one quart of milk, with one pound of sugar. When cool, put in the freezer and half freeze. Have ready the juice

of five lemons and whites of three eggs beaten to a froth. Add a little sugar to the lemon juice. Add this mixture to the half frozen milk, and freeze solid.

MRS. GEORGE B. SENTER.

CHAPTER XVI.

CAKE.

GENERAL DIRECTIONS FOR MAKING CAKE.

Cake is a mixture of part or all of the following materials: Eggs, sugar or molasses, flour, butter or cream, milk or water, fruit, soda, cream of tartar, spices, etc. An analysis of the hundreds of receipts given in the books would show that the general principles involved may be included under two divisions, namely, receipts for sponge cakes, made without butter; and receipts for pound or cup cakes, made with butter. Sponge cakes are made rich with eggs, the lightness depending wholly upon the amount of air beaten into the egg; or an inferior quality is made by substituting soda and cream of tartar (or baking powder) for part of the eggs, and adding more flour and milk or water. They vary in color according as the white or yolk of the egg is used. Butter cakes are varied in the same way, and also by the addition of fruit, or spices, or various coloring and flavoring materials.

There is no one department in cooking where so much depends upon the baking as in making cake. The fire should be steady and not too strong. In many coal stoves it is exceedingly difficult to bake cake by a morning fire, as so much coal is put on that the fire is too hot, and cannot be checked sufficiently. The oven should be less hot than for bread. Thin cakes require a hotter oven than those baked in thick loaves. If the oven be not hot enough at first, or be cooled too suddenly during the baking, the cake will not be light. Cakes with molasses in them burn more quickly than others. Thin cakes should bakè from fifteen to twenty minutes; thicker cakes from thirty to forty minutes; very thick loaves about an hour, and fruit cake from two to three hours. Whichever kind you are baking, divide the time into quarters. During the first quarter the heat is not manifested in appearance, except by the rising; during the second the cake should continue to rise and begin to brown; then it should become all

over a rich golden brown; and in the last quarter it should settle a little, brown in the cracks, and shrink from the pan. Be careful not to take it out too soon. If necessary to move it, do it very gently, and never move it when it has risen to the full height, but is not yet browned or fixed in its shape.

If cake brown before rising, the oven is too hot. When it rises more in the center, cracks open, and stays up, it is too stiff with flour. It should rise first on the edges, then in the middle, crack slightly, settle to a level again, when the cracks usually come together.

Mrs. Lincoln's Boston Cook Book.

TEST FOR OVEN.

The following test for heating the oven is given by Miss Parloa: Put in a piece of white paper. If at the end of five minutes the paper is a rich yellow color, the oven is right for sponge cake; if light yellow, it is too cool; if dark brown, it is too hot. For pound or butter cakes it should be light yellow at the end of five minutes. For gingerbreads and thin rolled cakes it should be dark brown.

CHAPTER XVII.

FRUITS, JELLIES, ETC.

PRESERVES.

General Directions.

Skim off all scum as it rises. It is considered best, in jams and jellies, to boil and reduce them some before the sugar is added. Do not use a tin or iron spoon to stir jelly. By taking out a spoonful in a saucer and setting it in cold water, the state of the jelly can easily be found out. Tin pans alter the color of any fruit.

DIRECTIONS FOR CANNING FRUIT.

	Cook	Sugar	Fruit	Water
Cherries	5 minutes	6 ounces	1 quart	1 cup
Raspberries	6 minutes	4 ounces	1 quart	1 cup
Blackberries	6 minutes	6 ounces	1 quart	1 cup
Strawberries	8 minutes	8 ounces	1 quart	1 cup
Plums	10 minutes	10 ounces	1 quart	1 cup
Bartlett Pears	20 minutes	6 ounces	1 quart	1 cup
Peaches	8 minutes	4 ounces	1 quart	1 cup

Boil full amount of sugar and water. Drop a portion of the fruit into the boiling syrup. When cooked the necessary time, dip out with a strainer and put into the hot jars. Repeat this process until all the fruit is cooked, then cover the fruit in the jars with the rich syrup and seal at once. Berries cooked this way will keep for years.

MRS. DORA A. MACNEIL.

APPLE JELLY.

Halve and quarter nice, large green apples. Take out the cores, wash and put them in a preserving kettle, with water enough to cover well. Let them boil until quite tender; take off and drain first through a colander, then a jelly bag. To every cup of juice add one cup of sugar. Let the juice come to a boil before putting in the sugar. Will jell in a few minutes.

MRS. J. B. DUKE.

APRICOT JAM.

Three-quarters as much sugar as peeled apricots. Drop them into a syrup made of the sugar. Cook forty minutes. A few minutes before taking the juice from the stove put in a few of the cracked nuts of the apricots.

MRS. PETERS, San Francisco.

APRICOT MARMALADE (ENGLISH).

To every pound of ripe apricots (weighed after being stoned and skinned) allow one pound of sugar. Strew the sugar over the apricots, which should be placed on dishes, and let them remain for twelve hours. Break the stones, blanch the kernels and put them with the sugar and fruit into a preserving pan. Let them simmer very gently till clear. Take out the pieces of apricot singly as they become so, and as fast as the scum rises, carefully remove it. Put the apricots into small jars; pour over them the syrup and kernels. Cover the jam with pieces of paper dipped in salad oil and stretch over the tops of jars tissue paper cut about two inches longer, and brush over with the white of an egg. When dry it will be perfectly hard and air tight.

MRS. WILLIAM S. CROSS

MRS. JERRY CONROY.

CRANBERRIES.

Put three pints of washed berries in a granite kettle. On top of them put three cups of granulated sugar and three gills of water. After they begin to boil, cook them ten minutes, closely covered. Do not stir them. Remove the scum. They will jell when cold, and the skins will be soft and tender.

Bring the fruit to a boil, then add the sugar and keep stirring it over a gentle fire until it is melted. Remove all the scum as it rises, and just before the jam is done boil rapidly for five minutes. Have ready half the kernels, blanched; put them into the jam. Give them one boil and pour the preserves into pots. When cold, cover down with oiled paper, and over these tissue paper, brushed on both sides with the white of an egg. Time for boiling, three-quarters of an hour after the sugar is added.

MRS. WILLIAM S. CROSS.

GUAVA PASTE.

RHUBARB AND ORANGE JAM.

Wipe the rhubarb until clean and dry, and cut into fine pieces without peeling. Peel six oranges; cut away the white under-skin; take out the seeds and divide the oranges into quarters. Open each carpel that holds the pulp and take out that, being careful to save all the juice. Put the rhubarb, orange pulp and juice with $1\frac{1}{2}$ pounds of granulated sugar. Stir until the sugar is melted; then cook slowly, until a fine mass. Put away in tumblers and cover with oiled or waxed paper. A very good jam of the rhubarb is also made without the oranges. AURELIO AMILLO.

MRS. E. B. MILLAR.

SPICED PEACHES.

Take yellow Crawford's, peel, cut in two and stone. To seven pounds of peaches allow three and one-half pounds sugar, one pint of vinegar, two ounces whole cloves, two ounces stick cinnamon. Place in a stone crock a layer of peaches, then a part of the spices, then another layer of peaches and more spices, until all are used. Make a syrup of the sugar and vinegar and pour boiling over the spiced fruit. Let this stand,

covered, twenty-four hours. Pour off the syrup, boil again and pour over the peaches. The third morning, after the syrup boils, cook the peaches half an hour in it, then remove the peaches and boil down the syrup. Again pour the boiling syrup over the peaches, which should have been in the jar in which they are to be kept.

MISS KATE VAN NUYS.

SPICED PLUMS.

Five pounds of plums pricked with a needle, two and a half pounds brown sugar, one quart of vinegar, two ounces of cloves, one ounce stick cinnamon, one ounce of mace, one ounce of whole allspice. Boil the sugar and spices in the vinegar and pour over the plums. Repeat boiling the syrup and pouring over the plums three days.

MRS. J. D. HOOKER.

SWEET CUCUMBER PICKLES.

Two gallons of cucumbers, one gallon of best cider vinegar, ten pounds brown sugar, ten cents each of mace, ginger, allspice, cinnamon, celery seed, black pepper, five cents' worth cloves, all whole. Drain cucumbers thoroughly from liquor they come in. Put vinegar, sugar and spices in five-gallon stone jar and add cucumbers. Stir two or three times a week for two weeks, and pickles will then be ready for use, although they improve with time. The same vinegar can be used with fresh cucumbers repeatedly by adding more sugar and spices.

MRS. WALTER S. NEWHALL.

SPICED TOMATOS.

Seven pounds pared ripe tomatos, three and a half pounds brown or white sugar. Boil an hour and a half, stirring occasionally. Add a pint of cider vinegar, one teaspoon ground cinnamon, one teaspoon whole cloves. Boil hour and a half, stirring all the time.

STUFFING FOR OLIVES.

Take large pitted olives and fill them with a mixture made from the yolk of one hard boiled egg, half dozen capers chopped fine, a teaspoonful of onion juice, a heaping teaspoonful of chopped parsley, a teaspoonful of butter and one-half teaspoonful of anchovy paste. This makes a delicious relish.

MRS. DUCOMMUN.

CHAPTER XIX.

BREAD, ROLLS, ETC.

BREAD, BISCUITS, ETC.

The first and indispensable requisite of good bread is good flour; the second, good yeast. It should be mixed as soft as can be handled; it will rise sooner, be lighter, more digestible, and keep fresh longer. Knead thoroughly. Put in warm place to rise. Bake in a moderate oven, with a steady fire. Ordinary sized loaves require one hour. Biscuit requires a quicker oven.

BREAD.

One cake Royal yeast, six cups water, half cup milk, one teaspoon salt, a small piece of butter, flour. Make a thin batter of flour and three cups of water; to this add the yeast, which has been softened in warm water. When light, add the salt, butter, milk, three cups of water, and flour enough to make very stiff. Let it rise over night. In the morning add more flour. Knead thoroughly and make into loaves. This recipe will make most delicious rolls.

YEAST BREAD.

One cake yeast, one pint luke-warm water, one quart new milk, one quart cold water, one tablespoon salt, two tablespoons sugar, flour, butter or lard. At noon soak the yeast in the warm water fifteen minutes, then stir in flour sufficient to make a stiff batter. Set it in a warm place (not too warm) until very light. In the evening scald the milk and add it, with the water, salt, sugar and flour, enough to knead. Knead it half an hour, then rub the top of the dough with butter or lard, to prevent its drying. In the morning knead another half hour, divide into six loaves, and when sufficiently light bake one hour in a hot oven. When taken from the oven, wet the tops of the loaves with sweet milk or butter to soften the crust.

BREAD STICKS.

Four cupfuls flour, quarter cup of butter, one of milk, quarter cake of compressed yeast, three tablespoons cold water, one tablespoon sugar, one teaspoon salt (scant measure), white of one egg. Melt the butter in the milk. Dissolve the yeast in the water. Beat the white of egg to a stiff froth. Add all the ingredients to the flour. Knead well, and let the dough rise over night. In the morning make into balls the size of large walnuts. Roll these into sticks a foot long. Place them two inches apart in long pans. Let them rise half an hour in a cool place. Bake twenty-five minutes in a moderate oven. They should be quite dry and crisp.

HOP YEAST.

Steep half a cupful loose hops in one quart boiling water, in a granite kettle, for five minutes. Mix one cupful of flour, one-fourth of a cupful of sugar and one tablespoonful of salt. Strain the hop water, and pour it, boiling hot, into the flour mixture. Boil one minute, or until thick. When cooled, add one cupful yeast or one cake magic yeast.

POTATO YEAST.

Six good sized potatoes, grated fine. Pour over them one quart of boiling hop-water (not too strong, or it will make the bread dark). Add one-half cup of salt, and one cup of sugar. Stir it well, and when cool, add one yeast cake, or one cup of fresh yeast, or one cake magic yeast. Let it rise, and cork tight and keep in a cool place.

MRS. F. J. WAGNER.

MRS. MOSSIN'S RYE BREAD.

One quart rye flour, tablespoon of salt, half a magic yeast cake dissolved in warm water. Make a batter quite thick, using water hot as you can keep your fingers in. Let stand over night. In the morning dissolve half a cake compressed yeast, one pint sour cream, equal parts of white and of rye flour to knead. Let rise one hour. Bake two hours in moderate oven.

CREAM BREAD.

Dissolve a piece of butter the size of a walnut in one quart of scalding milk; add one pint of cold water. When cool, so that the flour will not scald, add two quarts of sifted flour and beat until very smooth. Dissolve one cake of compressed yeast in a little tepid water, and add to sponge and set in warm place for two hours. Then add to sponge one tablespoon of sugar, one tablespoon of salt, a lump of soda the size of a bean dissolved in a teaspoon of water, and stir in sifted flour until the mass can be handled. Knead twenty minutes or longer if it seems sticky, then let it rise two hours, when it will be ready to form into loaves. This amount should make three good sized loaves and a pan of rolls. Use very little flour when you make the bread into the pans. Knead each loaf five minutes; let them rise thirty minutes, and bake one hour. When taken out of the oven rub top crust with sweet butter and let cool without covering.

MRS. W. P. CRAFT.

WHOLE WHEAT BREAD.

Make a sponge with one cake yeast, one large potato boiled and mashed fine, one pint warm water, made into stiff batter with flour. Let batter rise all night. In the morning add one quart warm water, two cups brown sugar, four tablespoonfuls of salt and one teaspoon soda. Then stir in whole wheat flour to make a very stiff batter. Let rise again, but do not allow it to get too light. This recipe makes four loaves.

BUNS.

One pint milk, one cup sugar, half cup yeast, flour to make stiff batter. Let it rise over night. In the morning add butter size of an egg, a pinch of soda, little salt and currants. Knead until tender; cut into small pieces; roll into balls; place in pans to rise. When very light, bake quickly.

MRS. J. D. HOOKER.

ROLLS.

Take one pint of bread dough, after it has risen. Into this put one-half cup warm milk, two tablespoons of butter and two tablespoons sugar. Mix all together, but not quite as stiff

as ordinary bread dough. Let rise. Then roll up in balls about the size of an egg and let rise again. Roll out and turn over in Parker House shape.

CHARLOTTE E. HAHN.

PARKER HOUSE ROLLS.

Two quarts flour, piece of butter twice the size of an egg, one tablespoon white sugar, one pint cold boiled milk, half cup yeast. Mix at night, putting butter, sugar, milk and yeast together into flour, mixing in the butter with a knife, not the hand. Mold fifteen minutes in the morning and in warm weather set in a cool place. Mold again early in the afternoon, and then roll out. Cut thin and rather large; put a bit of butter in the middle of each before folding over. Let them rise in the pans until time to bake.

MRS. M. H. E.

POTATO ROLLS.

One cup flour, one cup mashed potatoes, three-quarters cup butter or lard, one cup sweet milk, two eggs well beaten, half (scant) cup sugar, salt to taste, half cake of compressed yeast dissolved in half cup luke-warm water. Mix flour, butter, potatoes, sugar, salt and eggs; then milk, then yeast. Set to rise for two hours; make into a soft dough by adding about one quart of flour and set to rise again. Bake in small rolls in quick oven.

MRS. BONSALE.

SALLY LUNN.

Piece of raised dough size of quart cup; add three eggs, two tablespoons sugar, piece of butter size of a small egg. Work it well. Let it rise again and put in large biscuit pan. Let it rise very light once more and bake fifteen minutes. Cut in squares and serve very hot.

SALLY LUNN.

Two eggs, one tablespoonful each of butter and lard, two tablespoonfuls sugar and a little salt, one-half teacupful sweet milk, flour enough to make stiff batter. Bake thirty-five minutes in four well buttered one-pound baking powder boxes with the lids on, and ten minutes with lids off just before done. Use extra corn meal and graham if you have no rye.

MISS MAURICE.

BROWN BREAD (KENTUCKY RECIPE).

Two quarts graham flour (unsifted), one pint sour milk, in which dissolve an even teaspoonful of soda; one tumbler New Orleans molasses, in which dissolve one teaspoonful of ginger; tablespoonful of salt. Mix all together with spoon until thick batter, and bake in buttered pans. Bake in even oven as for bread. Takes longer to cook than wheat bread, and should be baked in long, narrow pans, each loaf to itself. When done the loaf will not give on pressing the top.

BROWN BREAD.

One cup sour milk, one sweet milk, one cup rye flour, one and one-half of graham, one and a half of corn meal, one teaspoon of soda in three-quarters of a cup of molasses, little salt. Steam three hours.

MRS. J. G. MOSSIN.

CORN BREAD.

Take one and a half teacups of sifted meal (the yellow is the best). Add salt and a large tablespoonful of lard. Pour over this a cupful of boiling water, stirring the meal so that all should have some of the water. Sour milk with an even teaspoonful of soda (more or less, according to the milk) dissolved in boiling water is added to the scalded meal until the consistency of mush. Beat the whites and yolks of two eggs separately; mix together and beat again. Add them to the

MISS ELLIS.

CHAPTER XX. BEVERAGES.

COFFEE.

Allow one tablespoonful of coffee to each person. The coffee when ground should be measured, put in the pot, and boiling water poured over it in the proportion of three-quarters of a pint to each tablespoonful. The instant it boils take the pot off, uncover and let it stand a minute or two; then cover, put it back in the fire and boil again. Let it stand for five minutes to settle. It is then ready to pour out.

MRS. M. J. CONNELL.

VIENNA COFFEE.

Allow one heaping teaspoonful of coffee for each person and one extra. Moisten the grounds with cold water and then stir in a beaten egg. Pour on this mixture one-half of the boiling water needed and let coffee stand five minutes *at boiling point*. Then add rest of boiling water and let stand five minutes or more (not boiling). To one cup of cream add the beaten white of half an egg. Put in the cups when serving and pour the coffee upon it.

DIRECTIONS FOR MAKING TEA.

To make a perfect cup of tea, the water must be fresh and quickly boiled, and the teapot hot—an earthen one being preferable.

Put one teaspoonful of tea for each pint of water into the warm pot, pour in the boiling water and let stand from three to four minutes on the back part of the stove. Never allow to boil.

Serve tea from the first infusion, and, if a second cup is wanted, make fresh tea, unless you have transferred the liquid from the leaf before the tannin has had time to be extracted.

Tea is a healthful beverage, if made and used as above; but as commonly used by the majority, it can be properly

called a soup made of tea leaves. There is also more danger of too large a quantity of leaf being used than too little. Very few people like a strong tea.

H. JEVNE.

ICED TEA.

After steeping, strain into a wide-mouthed bottle and keep on ice. Sweeten and serve without cream, filling cup with bits of ice. Or make an infusion quite strong, and pour into glasses in which cracked ice has been placed.

CHOCOLATE.

Take an ounce of chocolate to a cup of milk. Grate the chocolate, add two tablespoonfuls of water and dissolve over hot water. Mash to a smooth paste. Scald the milk and sweeten to taste. When the chocolate is smooth, add to it gradually half the milk, stirring all the while. Return this to the farina boiler with the remainder of the milk and cook for several minutes. Mill it or stir it well, and serve at once. To those chocolates not previously flavored with vanilla, a few drops of the extract improves the taste. In serving chocolate, shake a very little cinnamon over the filled cup, to make the beverage like the chocolate of Mexico and Havana. A very little flavoring of brandy may be added to the above or not, as one wishes.

MRS. E. B. MILLAR.

LEMONADE.

Five lemons, one orange, one-half pound loaf sugar, one pint water, one quart bottle Shasta water, ice. Make a syrup of the water and sugar, add the lemon rinds and let stand one hour. Then remove the rinds, add the strained juice of the lemons and the orange, cut in very thin slices. Pour the lemonade into a bowl, having a block of ice in the center. Add strawberries if desired. The Shasta water should be added just before serving.

FRUIT LEMONADE.

One pint boiling water, one cup sugar, two quarts ice water, juice of three lemons, one can grated pineapple. Put sugar

and boiling water over the fire and cook for five minutes; add lemon juice. When cold, add pineapple. When serving, add ice water and a dozen sliced strawberries.

MISS ELLIS.

ORANGEADE.

A pint of orange juice, juice of one lemon, and a pint of water. Sweeten to taste and just before serving stir in a well beaten egg. Serve very cold.

MRS. GEORGE SINSABAUGH.

MINT JULEP.

Crush mint with the potato masher, add water. The water must be a light green when sufficient mint has been extracted. Always serve in water glasses. For eight juleps, use four glasses of green water, one dozen lumps sugar, juice of two lemons, two glasses whisky, cracked ice fine as snow. Each glass should have a sprig of mint and half thin slice of lemon on top.

MRS JERRY CONROY.

ORANGE CORDIAL.

The rind of eight good sized oranges, put in a gallon of California brandy; let it stand one week. Then make a gallon of syrup from eight pounds of granulated sugar and two and a half quarts of water. When cool, strain the brandy into the syrup, stir well and bottle. Not necessary to seal it. It is very nice to serve at lunch.

MRS. EMMA BANGS.

CLARET CUP (FOR 20 PEOPLE).

One quart bottle champagne, one quart bottle apollinaris water, half pint best cognac, one pint orange juice, one pint raspberry or strawberry juice, half cup lime juice, three-quarters pound sugar. Mix brandy, sugar and fruit juice, and bottle. Keep on ice for three days, then mix with champagne and apollinaris and use.

S. R. M., Santa Barbara.

CHAMPAGNE PUNCH.

Used on New Year's Day in New York in the early sixties by an old New York beau. Half gallon old Jamaica rum, half gallon old Santa Cruz rum. The above proportions may be varied according to taste, one gallon of rum, however, being required. One gallon water, one small cup (demi tasse) of green tea, very strong drawn and strained, for above quantity of rum; juice of six lemons, thoroughly mixed with white granulated sugar; before mixing sweeten to the taste. Put in slices of lemon without the rind; large lump of ice to reduce the strength. Just before serving, pour in one or more bottles of champagne, according to taste. Same proportions must be followed for a less quantity (except as to the rum above stated), particularly as to the green tea and lemons. The above, including melted ice and champagne, will make nearly three gallons of punch. Two bottles of champagne and the above make a very fine punch; excellent for a jolly good headache on the following morning. "Nunc est bibendum." (Copied verbatim from the original.)

MRS H. T. LFE.

PUNCH.

One quart brandy, half pint Santa Cruz rum, one pound crushed sugar, one wineglass maraschino, one wineglass curaçoa, one wineglass kirschwasser, two dozen Sicily lemons, three quart bottles champagne, black tea to taste—about one and a half quarts.

MRS. EMMELINE CHILDS.

PUNCH.

One quart champagne, one pint rum, one pint cold tea, ten quarts lemonade, fruits.

MRS. BELLE M. JEWETT.

EMPIRE PUNCH.

Rub the peel of four oranges and two lemons in one and a half pounds of lump sugar, one pineapple cut in slices, one box of strawberries, two bottles of apollinaris, half gill of maraschino, half gill of curaçoa, half gill of benedictine, half gill of rum, one bottle of brandy, six bottles of champagne, four bottles of tokay wine, two of Madeira, four of Chateau Lafite. Mix well, strain through a sieve; surround the bowl with ice; trim this with leaves from pineapple, strawberries, etc.

MRS. J. G. MOSSIN.

FRUIT PUNCH.

Two dozen oranges, one dozen lemons, three bananas, one can grated pineapple, one cup Ceylon tea, one pound sugar, four quarts apollinaris. This recipe will make six quarts of punch.

MRS. EMMELINE CHILDS.

GRAPEFRUIT PUNCH.

Express the juice from the grapefruit, adding boiled sugar syrup until sweet enough. Flavor with sherry, maraschino or any wine preferred. Freeze, and just before the punch begins to harden add the well beaten whites of two eggs, for a gallon of punch. Serve in sherbet glasses, garnished with strawberries, shredded pineapple, etc.

MRS. GEORGE J. DENIS.

OHIO PUNCH.

One pint brandy, one pint champagne, half pint St. Croix rum, one gill maraschino, one gill curaçoa (white), one and a half quarts lemon juice. Sweeten to taste. If too strong, add sparkling water. Four and a half large coffee cups of sugar, four dozen lemons. Add a pineapple if desired.

LOUISE S. HOLTERHOFF.

WHITE PUNCH.

A very delicious and delicate punch can be made with three bottles of California sauterne, one bottle of Chartreuse and a

very little sugar. Just before serving, add cracked ice and three bottles of Club soda and a little fruit, a few raspberries, preserved cherries or small bits of pineapple, the latter being preferable.

MRS. W. P. CRAFT, Ontario.

GLUE WINE.

Eight cups claret, four cups water, one-half cup sugar, a stick of cinnamon, six cloves, three slices of lemon. Let all come to a boil. Serve hot.

MRS. J. G. MOSSIN.

ORANGE WINE.

Wash the oranges, cut in two and squeeze out the juice, being careful not to get in the oil from the rind. Let juice remain in tubs for eight or ten hours, until all of the fibrous matter can be skinned off. If you want a sweet wine, add five pounds granulated sugar to each gallon juice; if a mild, sour wine, add five pounds granulated sugar to each gallon, and then put one gallon of water to each gallon of juice. Strain the juice into a barrel and let it stand undisturbed for three months. In the bung make a hole into which fit a piece of rubber tubing about a foot long; put the outside end in a vessel of water. This tube is to allow the gas to escape, and will exclude the air and insects. When the juice has ceased to throw off gas, which can be determined by air bubbles coming from end of tube, bung it up tight and let it remain some time; then rack it off into bottles or barrels and keep in a cool place.

MRS. JOHN BOAL, National City.

EGG NOG.

Beat the yolks of four eggs and stir into them a quart of milk. Put in a double boiler and cook until a thin custard. Sweeten to taste. When cold, add a half pint French brandy, the beaten whites and a tablespoonful of Jamaica rum. Serve very cold.

MRS. GEORGE SINSABAUGH.

EGG NOG (AS SERVED IN THE SOUTH).

Six eggs, beaten smartly; to the yolks add three tablespoons of sugar, and to the whites three tablespoons of su-

gar. Pour in brandy or whisky to taste, constantly stirring; then add half pint whipped cream, and lastly add whites, thoroughly mixing. Grated nutmeg on top.

MRS. OZRO W. CHILDS.

RASPBERRY SHRUB.

To four quarts of fresh berries add two quarts best vinegar. Let stand four days. Strain through cloth (without squeezing) and add quart of sugar to quart of juice. Boil twenty minutes. Will keep without sealing.

RASPBERRY VINEGAR.

Five quarts raspberries, one quart vinegar; to every quart of juice one and a half pounds sugar. Let the vinegar and berries stand twenty-four hours or longer. Extract juice and let stand over night. Then pour off clear juice; add sugar and let come to a boil. When cool, bottle and cork.

MRS. KOEPLI.

One gallon blackberry juice, four pounds sugar. Boil and skim. Add one ounce ground cloves, one ounce ground cinnamon, ten nutmegs, grated. Boil down until quite sticky; cool and settle. When cold, strain off and add one pint of brandy. Bottle.

MISS CARRIE E. COLEMAN.

TAMARIND WATER.

Pour a pint of boiling water on one quarter of a pound of preserved tamarinds; allow it to stand for half an hour, keeping quite hot; then strain off the water. It can be served hot or allowed to cool and served with cracked ice. In either case it is a refreshing and wholesome drink for the sick room.

CHAPTER XXI.

CANDIES.

The materials used in the home manufacture of the finest quality of so-called French candy are neither expensive nor difficult to obtain. Aside from sugar, the basis of all confections, these materials consist chiefly of flavors and colorings. These can be procured from your druggist or grocer. The basis of cream nuts, chocolate drops, buttercups, cream bars, cocoanut drops and many others is "fondant," or, in other words, *granulated sugar creamed*.

TO MAKE FONDANT.

Take of granulated sugar four pounds, water one quart, cream tartar half teaspoon. Mix the sugar and water together in a granite or porcelain kettle and put over a hot fire; when it comes to a boil, add the cream tartar. Let the syrup cook to the consistency of jelly, keeping the sides of the kettle wiped down with a cloth and cold water. Try the syrup by dropping into a cup of cold water; when it can be rolled into a ball, it is done and should be taken instantly from the fire and the kettle placed in a large vessel of cold water; now flavor with one tablespoon vanilla. While it is still warm—not hot—stir the mass briskly with a wooden spatula or paddle, always stirring in the same direction, until it is perfectly white and of a soft, creamy texture. Let the stirring be brisk and uninterrupted in order that the syrup may not granulate. After the sugar *creams*, turn it out on to a sheet of tin, or a cake board, and knead as you would dough or bread. When it is worked until perfectly smooth, the cream is ready for use, and should be put into an earthen jar and covered with a damp cotton cloth and closely covered. It will keep for weeks, and can be sliced like butter.

CHOCOLATE CREAM DROPS.

Balls the shape and size of small birds' eggs are made of the fondant, and when they are hardened (which will be in

ten or twelve hours) they may be dipped in chocolate which has been melted; the vessel containing the melted chocolate being kept in a pan of hot water to prevent hardening. Throw the drops into the melted chocolate, one at a time and immediately with a bent wire or a table fork, and place them carefully on a buttered paper to dry. Fruit drops of all kinds may be made in the same way, except that the fondant must be flavored with the desired fruit flavor, and instead of a chocolate coating, use fondant colored to represent the fruit—as red for strawberry, yellow for lemon or peach, etc. Melt the fondant to be used for coating, add the coloring and keep warm; but if it should become too stiff, add carefully a few drops of hot water.

MRS. W. T. CARTER in "How We Cook in Los Angeles."

CREAM WALNUTS.

Take from the fondant pieces the size wanted and roll them into little balls, then press upon them the half of a walnut kernel until flattened; set on edge to dry. Cream dates, cream figs, and cream almonds, are all made in the same way.

CHOCOLATE CANDY.

One cup sugar, quarter cup molasses, quarter cup butter, quarter cup rich milk. Boil twelve minutes, hard, without stirring. After boiling, stir in one cake of chocolate, and add nuts, also one teaspoonful of vanilla. After adding chocolate, nuts and vanilla, stir briskly and cook about four minutes. Then turn out on a buttered plate and mark off in squares before entirely cool. Instead of cake chocolate, half cup of ground chocolate, also walnuts, may be used.

CHARLOTTE WORKMAN.

CHOCOLATE CARAMELS.

Quarter pound Baker's chocolate, quarter pound butter, one cup cream, one pound sugar, one cup molasses, one tablespoon vanilla, quarter teaspoon baking soda, eighth teaspoon cream tartar. Cut the chocolate and mix all the other ingredients together and boil rapidly for about half an hour. Add soda mixed with cream tartar. When done boiling, pour into buttered tins. When partly cool, turn out and cut into squares.

EVELYN R. LUTZ.

CHOCOLATE MACAROONS.

Whites of four eggs beaten stiff, then beat in gradually eight tablespoons granulated sugar, add gently two and a half blocks unsweetened Baker's chocolate grated, and a large cup of chopped walnuts. Drop into well-greased tins or pans with a teaspoon and bake in quite moderate oven for about twenty minutes. This should make about fifty-five cakes. Never remove from pans until quite cold.

PAULINE M. LUTZ.

FUDGE.

One cup and a half light brown sugar, same of white sugar, one-half cup of milk, tablespoon of butter, piece of unsweetened chocolate about two inches square. Let the mixture boil until it hardens when dropped into cold water. Just before removing from fire, season with vanilla and stir in a cupful chopped English walnuts. Stir continually while cooking. Pour on buttered plates to cool.

ADEILADE H. BROWN.

FUDGES.

Four ounces chocolate, one tablespoonful butter, one cup molasses, half cup brown sugar, half cup milk. Cool, stirring until it hardens in water. Pour into buttered pan, and when cool, cut into blocks.

MRS. GEORGE SINSABAUGH.

KISSES.

Whites of two eggs, into which beat gradually two cups powdered sugar and two tablespoons corn starch. Drop on well-buttered paper one teaspoonful to the kiss (two inches apart); place paper on a tin and bake in a moderate oven just long enough to turn a little yellow.

KISSES.

Beat the whites of three eggs to a very stiff snow; add lightly to this a teacup of granulated sugar and a teaspoonful of vanilla. Drop with a teaspoon, or use a pastry bag for fancy shapes. Drop on a board or on the back of granite pans that have been previously covered with smooth-surface wrapping paper. Let stand for a moment, dusting with a little dry

sugar. Place in a moderate oven from a half to three-quarters of an hour, then remove kisses with a sharp knife.

MRS. A. HAAS.

OLD FASHIONED MOLASSES CANDY.

Into a kettle, holding at least four times the amount of molasses to be used, pour a quantity of good Porto Rico molasses; place over the fire and boil slowly about half an hour, stirring constantly to diminish the quantity. If there is danger of its running over, remove to back of stove, or check the fire. Be careful not to let it burn, especially toward the close of its boiling. Drop a little in cold water; if brittle and will snap apart like a pipe-stem, add a small teaspoon of carbonate of soda to a quart of molasses. Stir quickly, and pour into greased pans to cool. As soon as cool enough to handle without burning the hands, pull. The more and faster it is pulled the lighter it will be in color.

PEANUT BRITTLE.

One cup granulated sugar, one cup chopped nuts. Mash or chop the peanuts or walnuts. Put the sugar in pan over the fire and stir until melted. When a liquid, stir in the peanuts quickly and pour on a tin sheet, spread out quite thin with a broad blade knife, dipped frequently into cold water. Cut into blocks.

PAULINE M. LUTZ.

PINOCHÉ.

Four cups brown sugar, one tablespoon butter, one cup milk, one teaspoonful salt, two tablespoonfuls vanilla, two cups chopped walnuts. Boil the sugar, butter, salt and milk until it drops hard in cold water. When done, pour in the vanilla and walnuts and stir constantly until well mixed. Pour on a buttered plate and cut into squares.

CHARLOTTE WORKMAN.

PINOCHÉ.

Three cups brown sugar, one cup white sugar, enough sweet milk to mix thoroughly. Cook, stirring constantly until it can be rolled between the fingers in water. Remove from fire, add a cup of broken walnut meats, stir until it begins to thicken, and pour into buttered pans.

MRS. GEORGE SINSABAUGH.

PEPPERMINTS.

One pound of sugar, nine tablespoons of water. Boil from six to eight minutes. A pinch of cream of tartar when taken from the stove, with half a teaspoon of the oil of peppermint, or less if that is too strong. Beat until it is a creamy white and drop with a teaspoon upon a clean, bright tin sheet.

POP CORN BALLS.

Four cups New Orleans molasses, butter size of a walnut. Boil until it strings or settles in cold water, then add little baking soda and stir. Take off and mix with even dishpanful popcorn thoroughly. Grease hands and make into balls, wrapping each with waxed paper.

EVELYN R. LUTZ.

CANDIED VIOLETS.

Select the desired quantity of perfect sweet violets, spread them on an inverted sieve, and stand in the air until slightly dried, but not crisp. Make a syrup from a half pound granulated sugar and a half pint of water, boil until it spins a thread; then take each violet by the stem, dip down into the hot syrup, put back on the inverted sieve, which should be slightly oiled, and stand aside for several hours. If the violets then look preserved and clear, they will not require a second dipping, but if they look dry, as though a part of the leaves were not saturated with the syrup, dip them a second time. Then melt a half cup of fondant, add two drops of essence of violet and sufficient water, drop at a time to give the fondant a thin, grayish color; then dip the violets into this one at a time, dust with sifted crystallized sugar (or granulated sugar) and place on oiled paper to harden.

MRS. S. T. RORER.

CANDIED ROSE LEAVES.

Proceed precisely the same as for candied violets, using a fine wire to lift the leaves in and out the syrup. The fondant must be flavored with drops of essence of rose, and colored with two drops cochineal.

MRS. S. T. RORER.

GRILLED PECANS.

Blanch the nuts; one cup of sugar, half cup of water; boil for a few minutes; drop in the nuts and leave for ten minutes; remove from fire, stir till it thickens and clings to nuts. Spread on wax paper to cool.

MRS. BELLE M. JEWETT.

SALTED ALMONDS.

Blanch the almonds by pouring boiling water over them, let them stand a few minutes and drain. Do the same with cold water. Then remove the skins and dry them on a clean towel. The next day put them in a shallow pan, sprinkle liberally with salt, and put on pieces of butter as large as the end of a finger quite near together. Put in a hot oven. Watch them carefully, and when they begin to brown, shake them often until they are an even light brown. If too much salt is on them when done, place them in a clean towel and rub them.

MRS. J. H. BARBOUR.

SALTED BRAZIL NUTS.

To each cupful of blanched nuts add one teaspoon salad oil, let stand half an hour; one tablespoon of salt to each cup of nuts, pinch of cayenne pepper to each quantity of salt, well mixed with nuts. Put in oven till brown.

MRS. BELLE M. JEWETT.

SALTED PEANUTS.

Shell and blanch raw peanuts; cover with boiling water with a little salt and teaspoon butter to a quart. Boil half hour; take out nuts and drain. Brown in oven with olive oil.

MRS. J. F. WATERMAN.

CHAPTER XXII.

FOR THE PICNIC LUNCHEON.

ANCHOVY BUTTER.

Cream one-fourth pound (one-half cup) of butter. Beat into this, very gradually, the flesh of six anchovies, a tablespoonful of fine-chopped parsley, and tablespoonful of chopped capers. To prepare the anchovies, drain off the oil, pick off the fins, separate the two fillets from the bones, press the fish through a sieve, or mash very fine with a fork. Spread over slices of bread, or crackers.

STUFFED EGGS.

Take as many eggs as you wish, and boil twenty minutes. Remove the shells and cut in half, lengthwise, leaving the whites unbroken. Take out the yolks and powder them with a spoon; mix with them butter, salt, pepper, mustard, vinegar, and oil to taste, with chopped olives and a little chopped parsley. This makes a thick paste with which to fill the boiled whites. Press together and twist white paper about them.

MRS. R. WEBER.

PRESSED MEAT FOR LUNCHEON OR PICNIC.

Boil together a ham and tongue. Cut off all fat, and chop together very fine; dissolve one box gelatine, pour into it one coffee cup of the liquor meat was boiled in; add to the chopped meat. Mix thoroughly and put in press.

MRS. BELLE M. JEWETT.

POTTED MEATS.

An excellent substitute for the expensive potted meat fillings can be made from the odds and ends of cold meat minced and seasoned with Worcestershire Sauce. Another appetizing sandwich is made from cold sausage crushed fine and spread on the buttered side of a biscuit. Boiled fresh cod or salmon made into a mince or paste used in combination with egg is always palatable. Thin slices of cucumber that have

been upon the ice an hour or more are an addition to this filling. Good sandwiches can be made from all kinds of salads, and their name is legion.

VEAL LOAF.

Take three pounds of veal and one-half pound of smoked ham. Put through a meat chopper, carefully removing all shreds. Add one cup bread crumbs, half cup butter, two beaten eggs, a little salt and a teaspoon of good mixed seasoning. Mold in loaf and bake two hours, basting as soon as there is sufficient liquid in the pan to do so.

FLORENCE COLLINS PORTER.

SANDWICHES.

For winter sandwiches use chicken, tongue, ham, beef, mutton, duck, celery, caviar. For summer, cherries, pineapple and plums blend. Fruits should be chopped. The sandwiches may be cut in different shapes with an ordinary biscuit cutter, any style of crescent, which may be halved; the plain rounds may be halved or quartered. Plain finger shapes are always popular, and good sized squares are probably best of all for hungry picnickers.

CHEESE AND NUT SANDWICH.

A can of soft, rich cheese that you can mash walnuts in. Stir them well together (having chopped the walnuts) and spread between thin slices of bread a day old. Very nice.

MRS. E. C. BANGS, Pasadena.

CHEESE SANDWICH.

Grate desired amount of cream cheese, add a dash of cayenne pepper and soften with a little melted butter. Spread rather thin between thin slices of buttered bread.

MRS. GEORGE SINSABAUGH.

CHICKEN SANDWICH.

Chop cold, cooked chicken very fine. Pound until smooth, adding gradually enough thick, sweet cream to make a paste. To each pint add a teaspoonful of salt, a dash of pepper, a teaspoonful of onion and a tablespoonful of lemon juice. Spread between thin slices of buttered bread.

CUCUMBER SANDWICH.

Slice cucumbers that are small and thin. That there may be no large seeds, peel and slice as thinly as possible into ice water, and let them stand ten minutes. Drain very dry and place them between thin slices of bread which have been spread with mayonnaise dressing.

T. S. W.

EGG SANDWICH.

Chop fine a very little onion and two hard-boiled eggs. Mix with salad dressing until a paste. Spread on thin slices of buttered bread. A little chopped cress may be used instead of the onion.

MRS. GEORGE SINSABAUGH.

FIG SANDWICH.

Scrape out the soft portion of a dozen figs, rejecting the skins; rub this to a paste. Cut the thinnest slices possible, from a loaf of either white or brown bread; butter and remove the crusts. Spread over the paste, roll the bread carefully, pressing for a moment until there is no danger of the roll opening. Then roll it in a piece of tissue paper, twisting the ends as you would an old fashioned motto, or it may be tied with a piece of baby ribbon.

LETTUCE SANDWICH.

Butter thin slices of bread, cover one slice with a crisp lettuce leaf. Spread the leaf with mayonnaise dressing and lay on the other side of the sandwich.

MRS. GEORGE SINSABAUGH.

NUT AND CHEESE SANDWICH.

Grind or chop walnuts or peanuts. Spread over thin slices of bread and sprinkle with Swiss cheese.

MRS. GEORGE SINSABAUGH.

OLIVE SANDWICH.

Chop or cut into small pieces one quart of ripe, split olives. Mix lightly with one-half pint of mayonnaise dressing and the yolks of two hard-boiled eggs, rubbed to a paste with two tablespoonfuls of thick, sweet cream. Season with paprika and a little salt, unless the olives are very salt.

H. C. W.

SARDINE SANDWICH.

Mix yolks of hard-boiled eggs with equal quantity of sardines, rubbed to a paste. Season with lemon juice and spread on thin slices of bread. Cut in narrow strips.

SHRIMP AND LOBSTER SANDWICH.

One can meat chopped fine, equal part celery chopped fine, one teaspoon vinegar, and pepper and salt to taste. When ready to serve, mix with one very small cup of stiff mayonnaise. Have your bread well buttered, put in a leaf of lettuce and spread with mixture. This portion makes thirty-six sandwiches.

ELIZABETH KERCKHOFF.

WALNUT SANDWICH.

Shell half a pound of English walnuts. Put the kernels into a pint of boiling water; boil for a minute; drain, and cover with stock; add a bay leaf, a few celery tops and a slice of onion. Cook gently for twenty minutes, drain and skim; chop fine, add half a teaspoonful of salt and a dash of cayenne or paprika. Spread between thin slices of buttered bread. These are very nice served with lobster *a la* Newberg.

WALNUT SANDWICH.

Put nuts through a meat grinder, or chop them very fine; mix with salad dressing sufficient to make a paste. Spread on buttered bread. Peanuts may be used in the same way.

MRS. GEORGE SINSABAUGH.

CHAPTER XXIII.
INVALID COOKERY.

ARROWROOT JELLY.

One cup boiling water, two heaping teaspoonfuls arrowroot, two teaspoonfuls white sugar, three tablespoonfuls blackberry cordial. Excellent for children with bowel trouble.

MRS. J. F. CONROY.

APPLE WATER.

One apple, one tablespoon sugar, one cup boiling water, one strip lemon peel. Wipe a large, sour apple and cut it without paring, into thin slices. Put them into a bowl with the lemon peel and boiling water; cover it, and let it stand till cold. Add the sugar, and when dissolved strain it.

RHUBARB WATER.

One small stalk rhubarb, one cup boiling water, one strip lemon peel, one tablespoon sugar. Wipe the rhubarb, cut into pieces an inch long. Add lemon peel and boiling water. Let it stand till cold. Add sugar, and when dissolved strain it.

BEEF EXTRACT.

Soak finely-chopped lean beef in an equal weight of cold water for an hour, then gradually raise to a boiling point. Simmer for fifteen minutes and strain.

QUICK BEEF TEA.

Take a round steak (always the best piece of meat for invalids), cut into pieces the size of your hand. Have ready a cup in hot water. Broil your steak quickly on both sides, turning quickly to retain the juice; broiling only enough to start the juice. Squeeze with a lemon squeezer the juice into the hot cup; add a little salt, and carry to the invalid with the cup still in hot water, to prevent coagulation.

MRS. J. F. CONROY.

BARLEY BROTH.

Wash well a cup of pearl barley; pour over it a quart of water and let boil until the barley is quite soft. Strain off the water, salt and give to the patient several times a day.

MRS. T. WADDILOVE.

BARLEY WATER.

A teacup of pearl barley to two quarts water; boil in a double porcelain boiler two and a half hours; add one cup table raisins an hour before you remove from stove. It will look milky and thick. Squeeze the juice of three lemons in a pitcher, sweeten and salt to taste; strain the hot barley water over the lemon; pick out the raisins to add with the liquor. Throw barley away. Very acceptable to a fever patient.

MRS. MOSSIN.

CURRANT ICE WATER.

Press the juice from ripe currants, strain, add a pound of sugar to every pint of juice. The sugar may be dissolved either by stirring it in the juice in a saucepan over the fire, or putting it in bottles, setting them over the fire in a saucepan of cold water, allowing them to become gradually heated to a boiling point. When cold they should be taken out, corked, sealed, and put in a cool, dry place. Mix with ice water or Shasta water for a beverage. The juice of other acid fruits may be preserved in the same manner.

FLOUR GRUEL.

Put one pint milk on fire in double boiler. Mix one gill of cold water with one tablespoon flour, and add to the boiling milk. Cook twenty minutes, season with scant half teaspoon salt; strain and serve hot. If this is desired more nutritious, add half cup raisins, and a grating of nutmeg if patient desires.

MRS. MOSSIN.

OATMEAL GRUEL.

Sprinkle one generous tablespoon of oatmeal with one quart boiling water; set where it will simmer two hours. Add salt, scant half teaspoon. Strain as hot as may be best for patient. Fill a delicate cup half full of gruel; add half or quarter cup cream or milk.

MRS. MOSSIN.

KOUMISS (SOMETIMES CALLED MILK BEER.)

Into one quart of new milk put one gill of fresh buttermilk and three or four lumps of white sugar. Mix well and see that the sugar dissolves. Put in warm place to stand ten hours, when it will be thick. Pour from one vessel to another until it becomes smooth and uniform in consistency. Bottle and keep in warm place twenty-four hours; it may take thirty-six in winter. The bottles must be tightly corked and the corks tied down. Shake well five minutes before opening. It makes a very agreeable drink, which is especially recommended for persons who do not assimilate their food, and for young children may be drunk as freely as milk. Instead of buttermilk, some use a teaspoonful of yeast. It is the standard beverage of the Tartars, who almost live upon it in summer, and is also used largely by the Russians. The richer your milk, which should be unskimmed, the better will be your koumiss.

MILK PORRIDGE.

Two dozen raisins quartered, two cups milk, one tablespoon flour, one saltspoon salt. Boil the raisins in a little water twenty minutes. Let the water boil away, and add the milk. When boiling, add the flour rubbed to a thin paste with a little cold milk. Boil eight or ten minutes. Season with salt, and strain before serving.

MULLED BUTTERMILK.

One quart buttermilk, one scant, rounded tablespoon flour. Put the buttermilk in a bowl; place in a saucepan of cold water and put over the fire; stir slowly all the time. Mix the flour smooth with a little buttermilk or water; when the buttermilk is a little more than lukewarm, stir in the thickening. Now stir thoroughly, watching closely, and when it looks as if full of fine grains as it runs from the spoon, remove from the fire, take out of the hot water and keep stirring for five or ten minutes. In order to make this successfully, the buttermilk *must* be fresh, and procured where churning is done frequently, so that it shall be good and sweet.

WINE WHEY.

Three tablespoons milk; when boiling, add one tablespoon port wine. Strain and sweeten to taste for invalids.

EGGS FOR INVALIDS.

One of the most delicate ways in which to prepare an egg for an invalid is to beat the yolk and white separately until extremely light. Add a pinch of salt, pour into a china cup, which set in a saucepan of hot water, stirring constantly till scalded, but not cooked. When this is done slowly, the egg just thickens slightly, but puffs up until the cup is almost filled with the creamy custard. Set in the oven a moment and serve at once.

Topeka Journal.

OYSTER ROAST.

Heat half pint oysters in their own liquor to boiling point, add one generous tablespoon butter, enough salt and pepper to season. Pour the oysters and liquor over a slice of hot toast. Serve at once.

UNLEAVENED BREAD.

Take graham, rye or oatmeal, add a very little salt, and water enough to make a batter as for griddle cakes; beat and work it, the more the better; have your oven hissing hot; make a thin loaf about a quarter of an inch thick.

CHAPTER XXV. MISCELLANEOUS.

CAMPHOR ICE.

One-half ounce gum camphor with alcohol enough to dissolve it, one-half ounce white wax, one-half ounce vaseline jelly. Put all together in a tin cup; heat enough to melt thoroughly.

SUBSTITUTE FOR CREAM IN COFFEE.

Beat the white of an egg, put to it a small lump of butter and pour the coffee into it gradually, stirring it so that it will not curdle. It is difficult to distinguish this from fresh cream. Many drop a tiny piece of sweet butter into their cup of hot coffee as a substitute for cream.

COLD CREAM.

Oil sweet almonds, seven ounces, French rose water four ounces, spermaceti two ounces, white wax 240 grains. Melt the wax and spermaceti, both shaved fine, with the oil. When nearly cold, beat in the rose water with a Doan egg beater, being careful not to let it separate. Benzoin or attar of rose may be added.

J. F. W., Santa Barbara.

SILVER POLISH.

Alcohol six ounces, aqua ammonia half ounce, soft water three ounces; electro silicon to make it the consistency of cream. Keep the bottle tightly corked. Apply with a soft cloth and rub off when dry.

J. F. W., Santa Barbara.

JAVA WATER.

One pound chloride lime, two pounds sal soda, fourteen quarts boiling water. Strain and bottle for use. This will remove fruit and wine stains. Dip in the water a few moments until the stain disappears. It must be well rinsed in cold water before putting into hot.

MRS. J. G. MOSSIN.

FURNITURE POLISH.

Dissolve four ounces shellac in one quart ninety-five per cent alcohol; to this add one quart linseed oil and one pint of turpentine. When mixed, add four ounces sulphuric ether and four ounces aqua ammonia. Mix thoroughly before using. Apply with a sponge and rub until the polish appears.

H. C. W.

CLEANING SOLUTION.

One gallon deodorized benzine, half ounce each of ether and chloroform, one ounce alcohol. Can be used for cleaning gloves, lace or silk goods. Will not leave a ring.

MRS. J. G. MOSSIN.

SOAP BARK FOR CLEANSING.

Steep ten cents' worth (two ounces) of soap bark in a gallon of water. Strain and wash the goods in the usual way. Steep the same bark a second time for a rinsing water. All grease will be removed. Dampen and press.

MRS. J. G. MOSSIN.

TO CLEAN BRASSWARE.

Ten cents' worth of oxalic acid dissolved in a pint of hot water. Bottle, label and keep out of the reach of children, as it is a deadly poison. Pour a little in a cup and apply with a swab. Be sure not to allow the acid to touch the hands.

MRS. E. B. MILLAR.

TO TAKE PAINT OUT OF WASH CLOTHING.

Equal parts of ammonia and turpentine will take paint out of clothing, no matter how dry or hard it may be. Saturate the spot two or three times, then wash out in soap suds.

MRS. E. B. MILLAR.

TO REMOVE FRUIT AND OTHER STAINS FROM THE HANDS.

Use half a lemon; rub the spots thoroughly, then wash in soap and water.

MRS. E. B. MILLAR.
