SECTION 8. A new chapter to title 10 of the North Dakota Century Code is created and enacted as follows:

Definitions. As used in this chapter, unless the context otherwise requires:

1. "Board of directors" means the board of directors of the corporation.
2. "Corporation" means the North Dakota development fund, incorporated, established under this chapter.
3. "North Dakota business" means a business owned by a North Dakota resident, partnership, association, corporation, or limited liability company domiciled in this state or a corporation or limited liability company, including a wholly owned subsidiary of a foreign corporation or limited liability company that does business primarily in this state or does substantially all of its production in this state.
4. "Primary sector business" means an individual, corporation, limited liability company, partnership, or association which through the employment of knowledge or labor, adds value to a product, process, or

service that results in the creation of new wealth. The term includes tourism, but does not include production agriculture.

Purpose and fund uses.

1. It is the purpose of this chapter to create a statewide nonprofit development corporation that will have the authority to take equity positions in, to provide loans to, or to use other innovative financing mechanisms to provide capital for new or expanding businesses in this state, or relocating businesses to this state. The corporation's principal mission is the development and expansion of primary sector business in this state. The corporation may form additional corporations, limited liability companies, partnerships, or other forms of business associations in order to further its mission of primary sector economic development.
2. The exclusive focus of this corporation is business development in this state; however, it is not excluded from participation with other states or organizations in projects that have a clear economic benefit to state residents in the creation of jobs or secondary business. Emphasis should be to develop jobs that provide an income adequate to support a family above the poverty level.
3. Moneys in the development fund may be used to provide working capital or for financing the purchase of fixed assets, but not to refinance existing debt. Moneys may also be used to make matching grants to county-authorized or city-authorized development corporations for the acquisition, leasing, or remodeling of real estate facilities for locating a prospective new primary sector business. A grant must be made as part of a package of financing in which the state is a participant.
4. The director of the department of economic development and finance shall adopt rules, subject to the approval of the board of directors, necessary to implement the administration of the fund. The rules to implement the grant program must be developed to encourage local fundraising initiatives for developing locations for businesses financed by the corporation.

Organization. A board of directors shall manage the corporation. The board of directors shall adopt and amend articles of incorporation and bylaws consistent with the purposes detailed in this chapter. The board of directors consists of eight members who shall serve three-year terms. The terms must be staggered so that no more than three positions require reappointment in any one year. The governor shall appoint the members and shall only consider representatives who serve in executive capacities from the following areas in making the selections: private sector manufacturing, finance, exported services, including tourism, and industrial technology and research. There must be at least one member who is enrolled in a federally recognized North Dakota Indian tribe who need not serve in an executive capacity, the director of economic development and finance, and one member from a rural area, on the board of directors. Members may be reappointed for additional terms.

Powers. The corporation must be organized as a nonprofit corporation under chapter 10-24. In addition to the powers in chapter 10-24, the corporation may:

1. Cooperate and contract with any private or public entity.

2. Receive appropriations from the legislative assembly and other public moneys as well as contributions from other private or public contributors.

Management. The deputy director of the finance division of the department must be the chief executive officer of the corporation. The board of directors shall determine minimum qualifications of all other staff positions.

All investments, contracts, partnerships, limited liability companies, and business transactions of the corporation are the responsibility of the deputy director and the board of directors. The board may provide that normal operating costs anticipated in an approved budget may be incurred and paid without prior board approval.

Divestiture. The board of directors shall establish a policy for divesting the corporation's interest in any business when certain levels of profitability are obtained.

Confidentiality of corporation records. The following records of the corporation are confidential:

1. Commercial or financial information, whether obtained by the corporation directly or indirectly, of any entity in which an equity interest is purchased or considered for purchase, to which a loan has been made, or capital otherwise provided, under this chapter.
2. Internal or interagency memorandums or letters which would not be available by law to a party other than in litigation with the corporation.

Annual audit. The board of directors shall contract with a certified public accounting firm to audit annually the financial statements of the corporation in accordance with generally accepted auditing standards. The cost of the audit must be borne by the corporation.

Annual report. The corporation shall prepare and publish an annual report of its activities for the information of the governor, the legislative assembly, and the public. The report must include audited financial statements of the corporation for the fiscal year covered by the report and must specify:

1. The investment strategy and workplan approved by the board of directors.
2. The total investments made annually by the corporation in North Dakota businesses.
3. An estimate of jobs created and jobs preserved by investments of the corporation in North Dakota businesses.

North Dakota development fund - Continuing appropriation. The North Dakota development fund is established from moneys appropriated from the general fund and transfers from other funds. This is a revolving fund, and all moneys transferred into the fund, interest upon fund moneys, and payments to the fund are hereby appropriated for the purposes of this chapter. This fund is not subject to section 54-44.1-11.

SECTION 9. AMENDMENT. Section 54-34.3-08 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

54-34.3-08. Patents. The department of economic development and finance, technology transfer, incorporated, the North Dakota ~~future~~ development fund, incorporated, and the North Dakota agricultural products utilization commission may hold or assign for remuneration all or a portion of their interest in patents or royalty rights acquired in the course of their operation and performance of duties as provided by law.

SECTION 10. LEGISLATIVE INTENT - TECHNOLOGY TRANSFER, INC. - PROJECT FUNDS. It is the intent of the legislative assembly that project funds be distributed by technology transfer, inc., consistent with the mission and policies established by the technology transfer, inc., board and that project funds be distributed, to the extent practical and efficient, directly to businesses and individuals receiving project funding approval. Funding recipients may use the project funds to purchase services, on a fee for service basis, from business and industry development centers located on the campuses of the institutions of higher education.

If the federal government combines funding for separate programs in a block grant resulting in a reduction of total federal funds available for those programs, the administering agency, department, or institution may, subject to budget section approval, prioritize or reprioritize programs as necessary in making programmatic reductions. The agency, department, or institution may administer funds available under a new federal block grant or similar measure, consistent with the terms of that measure, notwithstanding any other provisions of law intended to conform to or implement the provisions of the repealed federal Act, and shall report any program terminations, reductions, or changes resulting from this section to the budget section of the legislative council for its approval.

Except as provided in subsection 2, the case law that states the conditions and circumstances under which the corporate veil or limited liability shield of a corporation may be pierced under North Dakota law also applies to limited liability partnerships, taking into account the differences between corporations and partnerships.
2. The use of informal procedures or arrangements for the management and for the conduct of business is not a ground for piercing the limited liability shield of the limited liability partnership.

45-22-10. Liability of partners for illegal distributions. With respect to the liability of partners for illegal distributions:

1. A partner who receives a distribution from a limited liability partnership that would have been in violation of section 10-19.1-92 had the limited liability partnership been a corporation with a board of directors is liable to the limited liability partnership, its receiver, or other person winding up its affairs, but only to the extent that the distribution received by the partner exceeded the amount that properly could have been paid under section 10-19.1-92.

The registered agent may be an individual residing in this state, a domestic corporation, a domestic limited liability company, or a domestic limited liability partnership, or a foreign corporation, foreign limited liability company, or foreign limited liability partnership authorized to transact business in this state.

registered agent, need not be responsive to subdivision c or f of subsection 1 and must state that a copy of the statement has been mailed to each of those limited liability partnerships or to the legal representative of each of those limited liability partnerships.

45-22-13. Voluntary withdrawal of status.

1. A partnership may end its status as a limited liability partnership at any time by filing a withdrawal statement with the secretary of state.
2. The withdrawal statement must contain:
 - a. With respect to a domestic limited liability partnership:
 - (1) The name of the domestic limited liability partnership.
 - (2) A statement that the domestic limited liability partnership is withdrawing its current registration.
 - (3) An acknowledgment by the domestic limited liability partnership that the withdrawal ends its limited liability partnership status.
 - b. With respect to a foreign limited liability partnership:

 - (2) The jurisdiction of its original registration.

 - (7) A post-office address to which a person may mail a copy of any process against the foreign limited liability partnership.
3. The withdrawal statement may state a delayed withdrawal date, if that date is before the expiration date of the current registration. If the withdrawal statement does not state an effective date, then the statement is effective when filed.

4. If the foreign limited liability partnership is not the surviving organization in a merger or termination, then the filing with the secretary of state of a certificate to that effect authenticated by the proper officer of the state or country under the laws of which the foreign limited liability partnership is originally registered constitutes a valid withdrawal statement.

45-22-14. Filing after dissolution.

1. A dissolved limited liability partnership may continue its status as a limited liability partnership through termination either by:
- a. Continuing to file annual renewal registrations until termination; or
 - b. Filing a final renewal registration that, in addition to providing the information required by subsection 3 of section 45-22-03:
 - (1) States that the partnership is dissolved and is winding up its affairs.
 - (2) Identifies the cause of the dissolution.
 - (3) States that the renewal registration is the final renewal registration and will remain in effect until termination.

limited liability partnership regardless of any dissolution, winding up, and termination.

2. If a limited liability partnership dissolves and its business is continued by a successor general partnership under section 45-20-02, then the limited liability described in sections 45-22-08 and 45-22-09 also applies to that successor limited liability partnership until the expiration of the registration that the dissolved limited liability partnership had in effect under section 45-22-03 at the moment of dissolution. The successor general partnership may at any time file its own registration under section 45-22-03.

 - a. The secretary of state has given the limited liability partnership at least sixty days' notice of the reason for the pending revocation by mail addressed to its registered office or, if the limited liability partnership fails to appoint and maintain a registered agent in this state, then addressed to its principal executive office; and
 - b. During the sixty-day period, the limited liability partnership has failed:
 - (1) To appoint and maintain a registered agent as required by this chapter;
 - (2) To file the report of change regarding the name or business address of the registered agent;

- (4) To file a renewal registration as provided in subsection 2 of section 45-22-04; or

 3. Upon the expiration of the sixty-day period without the limited liability partnership having cured the reason for the pending revocation set forth in the notice, the registration is revoked. The secretary of state shall note the revocation in the records of the secretary of state and shall give notice of the revocation to the limited liability partnership. Notice by the secretary of state must be mailed to the last registered agent at the last registered office of record. If the limited liability partnership failed to appoint and maintain a registered office in this state, then to its principal executive office.
- 45-22-17. Service of process on a limited liability partnership.

1. A process, notice, or demand required or permitted by law to be served on a limited liability partnership may be served either on the registered agent of the limited liability partnership or on any responsible person found at the registered office of the limited liability partnership or on the secretary of state as provided in this section.
2. If neither the registered agent nor a responsible person can be found at the registered office and if a responsible person affiliated with the limited liability partnership cannot be found at the principal place of business in this state, the secretary of state is the agent of the limited liability partnership on whom the process, notice, or demand may be served.
 - a. The return of the sheriff, or affidavit of a person not a party, that no registered agent or responsible person may be found at either the registered office or at the principal place of business of the limited liability partnership in this state is conclusive evidence that the limited liability partnership has no registered agent or responsible person at its registered office or at its principal place of business in this state.
 - b. Service on the secretary of state of any process, notice, or demand is deemed personal service on the limited liability partnership and may be made by filing with the secretary of state one original and two copies of the process, notice, or demand together with the fees provided in section 45-22-22.

3. The secretary of state shall maintain a record of every process, notice, and demand served on the secretary of state under this section, including the date of service and the action taken with reference to it.

4. This section does not limit the right of a person to serve process, notice, or demand required or permitted by law to be served on a limited liability partnership in any other manner permitted by law.

45-22-18. Foreign limited liability partnership governing law. The laws of the jurisdiction under which a foreign limited liability partnership is originally registered govern its organization and its internal affairs. A foreign limited liability partnership may not be denied registration to transact business in this state by reason of any difference between those laws and the laws of this state. A foreign limited liability partnership holding a valid registration in this state has the same, but no greater, rights and privileges as a domestic limited liability partnership. The registration does not authorize the foreign limited liability partnership to exercise any of its powers for purposes that a domestic limited liability partnership is forbidden by law to exercise in this state.

45-22-19. Transacting business and obtaining licenses and permits by a foreign limited liability partnership. No foreign limited liability partnership may transact business in this state or obtain any license or permit required by this state until the partnership has registered with the secretary of state.

45-22-20. Transaction of business by a foreign limited liability partnership without registration.

1. A foreign limited liability partnership transacting business in this state may not maintain any cause of action in any court of this state until the partnership has registered with the secretary of state.
2. The failure of a foreign limited liability partnership to register with the secretary of state does not impair the validity of any contract or act of the foreign limited liability partnership or prevent the foreign limited liability partnership from defending any claim for relief in any court of this state.
3. A foreign limited liability partnership, by transacting business in this state without having registered with the secretary of state, appoints the secretary of state as its agent upon whom any notice, process, or demand may be served.
4. All persons who assume to act as a foreign limited liability partnership without registration are jointly and severally liable for all debts and liabilities incurred or arising in this state as a result.

45-22-21. Transactions by a foreign limited liability partnership not constituting the transaction of business.

1. The following activities of a foreign limited liability partnership, among others, do not constitute transacting business within the meaning of this chapter:
 - a. Maintaining, defending, or settling any proceeding.
 - b. Holding meetings of its partners or carrying on any other activities concerning its internal affairs.

 - i. Holding, protecting, renting, maintaining, and operating real or personal property in this state so acquired.
 - j. Selling or transferring title to property in this state to any person.
 - k. Conducting an isolated transaction that is completed within thirty days and that is not one in the course of repeated transactions of a like manner.
2. As used in this section, the term "transacting business" has no effect on personal jurisdiction under the North Dakota Rules of Civil Procedure.
 3. For purposes of this section, any foreign limited liability partnership that owns income-producing real or tangible personal property in this state, other than property exempted under subsection 1, is considered transacting business in this state.
 4. This section does not apply in determining the contracts or activities that may subject a foreign limited liability partnership to service of process or taxation in this state or to regulation under any other law of this state.

45-22-22. Fees and charges.

The answers to the interrogatory must be full and complete and be made in writing and under oath.

- b. If an interrogatory is directed:
 - (1) To an individual, it must be answered by that individual; or
 - (2) To a limited liability partnership, it must be answered by a managing partner.
 - c. The secretary of state need not file any document to which an interrogatory relates until the interrogatory has been answered, and not then if the answers disclose that such document is not in conformity with this chapter.
 - d. The secretary of state shall certify to the attorney general, for any action the attorney general determines appropriate, any interrogatory and answers which disclose a violation of this chapter.
 - e. Each managing partner of a limited liability partnership who fails or refuses within the time provided by this section to answer truthfully and fully every interrogatory propounded to that person by the secretary of state is guilty of an infraction.
 - f. Any interrogatory propounded by the secretary of state and the answers are not open to public inspection under section 44-04-18. The secretary of state may not disclose any facts or information obtained from an interrogatory except insofar as may be permitted by law or insofar as is required for evidence in any criminal proceedings or other action by this state.
3. If the secretary of state rejects any document required by this chapter to be approved by the secretary of state before the document may be filed, the secretary of state, within ten days after receipt of the document, shall give written notice of the rejection to the person who delivered the document, specifying the reasons for rejection. That person may appeal to the district court of the county in which the registered office of the limited liability partnership is, or is proposed to be, situated by filing with the clerk of such court a petition setting forth a copy of the document sought to be filed and a copy of the written rejection of the document by the secretary of state. The court shall try the matter de novo. The court shall either sustain the action of the secretary of state or direct the secretary of state to take any action the court determines proper.
4. If the secretary of state revokes the registration of any foreign limited liability partnership, pursuant to section 45-22-16, the partnership may appeal to district court of the county where the registered office of the partnership in this state is situated by filing with the clerk of such court a petition setting forth a copy of its registration and a copy of the notice of revocation given by the secretary of state. 45-22-24. Certificates and certified copies to be received in evidence.

1. All copies of documents filed in accordance with this chapter, when certified by the secretary of state, must be taken and received in all courts, public offices, and official bodies as prima facie evidence of the facts stated.

A certificate by the secretary of state under the great seal of this state, as to the existence or nonexistence of the facts relating to limited liability partnerships which would not appear from a certified copy of any of the foregoing documents or certificates, must be taken and received in all courts, public offices, and official bodies as prima facie evidence of the existence or nonexistence of the facts stated.

SECTION 2. A new section to chapter 5-04 of the North Dakota Century Code is created and enacted as follows:

Each bond must contain on its face a statement to the effect that the bond bank is obligated to pay such principal or interest, and redemption premium, if any, and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal of or the interest on such bonds. Specific funds pledged to fulfill the bond bank's obligations are obligations of the bond bank.

All expenses incurred in carrying out the purposes of this chapter are payable solely from revenues or funds provided or to be provided under this chapter and nothing in this chapter may be construed to authorize the bond bank to incur any indebtedness or liability on behalf of or payable by the state.

3. In an action under subdivision b of subsection 1 involving a corporation that is not a publicly held corporation at the time the action is commenced and in which one or more of the circumstances described in that subdivision is established, the court, upon motion of a corporation or a shareholder or beneficial owner of shares of the corporation, may order the sale by a plaintiff or a defendant of all shares of the corporation held by the plaintiff or defendant to either the corporation or the moving shareholders, whichever is specified in the motion, if the court determines in its discretion that an order would be fair and equitable to all parties under the circumstances of the case.
- a. The purchase price of any shares so sold must be the fair value of the shares as of the date of the commencement of the action or as of another date found equitable by the court. 4. In determining whether to order equitable relief or dissolution, the court shall take into consideration the duty which all shareholders in a closely held corporation owe one another to act in an honest, fair, and reasonable manner in the operation of the corporation and the reasonable expectations of the shareholders as they exist at the inception and develop during the course of the shareholders' relationship with the corporation and with each other. ~~5~~ 6. If the court finds that a party to a proceeding brought under this section has acted arbitrarily, vexatiously, or otherwise not in good faith, it may in its discretion award reasonable expenses, including attorneys' fees and disbursements, to any of the other parties.

10-32-31. Assignment of financial rights.

1. Except as provided in subsection 3, a member's financial rights are transferable in whole or in part.
2. An assignment of a member's financial rights entitles the assignee to receive, to the extent assigned, only the share of profits and losses and the distributions to which the assignor would otherwise be entitled. An assignment of a member's financial rights does not dissolve the limited liability company and does not entitle or empower the assignee to become a member, to exercise any governance rights, to receive any notices from the limited liability company, or to cause dissolution. The assignment may not allow the assignee to control the member's exercise of governance rights.
3. A restriction on the assignment of financial rights may be imposed in the articles, in the operating agreement, by a resolution adopted by the members, or by an agreement among or other written action by members or among them and the limited liability company. A restriction is not binding with respect to financial rights reflected in the required records before the adoption of the restriction, unless the owners of those financial rights are parties to the agreement or voted in favor of the restriction.

A Subject to subsection 5, a written restriction on the assignment of financial rights that is not manifestly unreasonable under the circumstances and is noted conspicuously in the required records may be enforced against the owner of the restricted financial rights or a successor or transferee of the owner, including a pledgee or a legal representative. Unless noted conspicuously in the required records, a restriction, even though permitted by this section, is ineffective against a person without knowledge of the restriction.
5. With regard to restrictions on the assignment of financial rights, a would be assignee of financial rights is entitled to rely on a statement of membership interest issued by the limited liability company under section 10-32-28. A restriction on the assignment of financial rights, which is otherwise valid and in effect at the time of the issuance of a statement of membership interest but which is not reflected in that statement, is ineffective against an assignee who takes an assignment in reliance on the statement.
6. Notwithstanding any provision of law, articles of organization, member-control agreement, operating agreement, other agreement,

resolution, or action to the contrary, a security interest in a member's financial rights may be foreclosed and otherwise enforced, and a secured party may assign a member's financial rights in accordance with title 41 without the consent or approval of a member whose financial rights are subject to the security interest.

2. Subject to subsection 6, a member may, without the consent of any other member, assign governance rights, in whole or in part, to another person already a member at the time of the assignment. Any other assignment of any governance rights is effective only if all the members, other than the member seeking to make the assignment, approve the assignment by unanimous written consent, unless the articles of organization provide for written consent by fewer than all members. Subject to subsection 6, a member may grant a security interest in a complete membership interest or governance rights without obtaining the consent required by this subsection. However, a secured party may not take or assign ownership of governance rights without first obtaining the consent required by this subsection. If a secured party has a security interest in both a member's financial rights and governance rights, including a security interest in a complete membership interest, this subsection's requirement that the secured party obtain consent applies only to taking or assigning ownership of the governance rights and does not apply to taking or assigning ownership of the financial rights.
3. When an assignment of governance rights ~~coupled with financial rights~~ is effective under subsection 2:
 - a. ~~The~~ If the assignment is not a security interest, the assignee becomes a member, if not already a member; and
 - b. If the assignor does not retain any governance rights, the assignor ceases to be a member, and the ~~unanimous~~ written consent required under subsection 2, also constitutes the dissolution avoidance consent necessary to avoid dissolution that would otherwise ensue under subdivision e of subsection 1 of section 10-32-109 on account of the assignor ceasing to be a member if the consent required to avoid dissolution is not greater than the consent required under subsection 2.
4. When an assignment other than a security interest is effective under subsection 2, unless the written consent under subsection 2 otherwise provides:

- a. The assignee is liable ~~for any in proportion to the interest assigned for the~~ obligations of the assignor under section 10-32-56, including liability for unperformed promises that have been reflected as contributions in the required records, and section 10-32-65 existing at the time of transfer, except to the extent that, at the time the assignee became a member, the liability was unknown to the assignee, and could not be ascertained from the required records; and
 - b. The assignor is not released from liability to the limited liability company for obligations of the assignor existing at the time of transfer under sections 10-32-56 and 10-32-65.
5. If any purported or attempted assignment of governance rights is ineffective for failure to obtain the consent required in subsection 2:
- a. The purported or attempted assignment is ineffective in its entirety; and
 - b. Any assignment of financial rights that accompanied the purported or attempted assignment of governance rights is void.
6. Restrictions on the transfer of governance rights may be imposed following the same procedures and under the same conditions as stated in subsections 3 and 4 of section 10-32-31 for restricting the transfer of financial rights.
7. Notwithstanding any provision of law, articles of organization, member-control agreement, operating agreement, other agreement, resolution, or action to the contrary, a security interest in a member's full membership interest or governance rights may be foreclosed and otherwise enforced, and a secured party may assign a member's complete membership interest or governance rights in accordance with title 41, all without the consent or approval of the member whose full membership interest or governance rights are the subject of the security interest.

SECTION 54. AMENDMENT. Section 10-32-33 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

10-32-33. Effective date of assignments. Any permissible assignment of financial rights under section 10-32-31 ~~and or~~ of governance rights ~~coupled with financial rights or a complete membership interest~~ under section 10-32-32 will be effective as to and binding on the limited liability company only when the assignee's name, address, and the nature and extent of the assignment are reflected in the required records of the limited liability company, except that a permissible and otherwise valid security interest in a complete membership interest, financial rights, or governance rights will be effective as to and binding on the limited liability company as provided in title 41 whether or not the information about the secured party or the permissible and otherwise valid security interest is reflected in the required records of the limited liability company.

SECTION 55. AMENDMENT. Subsection 2 of section 10-32-35 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2. If an event referred to in subsection 1 causes the termination of a member's membership interest and ~~the remaining members give dissolution avoidance consent~~ is avoided under subdivision e of subsection 1 of section 10-32-109, then:
 - a. As provided in subsection 3 of section 10-32-30, the terminated member's interest will be considered to be merely that of an assignee of the financial rights owned before the termination of membership; and
 - b. The rights to be exercised by the legal representative of the terminated member will be limited accordingly.

SECTION 56. AMENDMENT. Subdivision d of subsection 1 of section 10-32-50 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

5. After the date established under subsection 3, the secretary of state shall notify any nonprofit corporation or foreign nonprofit corporation failing to file its annual report that its certificate of incorporation or certificate of authority is not in good standing and that it may be dissolved or revoked pursuant to subsection 4. A "material default" is a failure to pay, the effect of which is to cause indebtedness to become due prior to its stated maturity or to cause termination or reentry under a lease prior to its stated expiration, if the indebtedness or the rental obligation for the

unexpired term exceeds five percent of the issuer's (and its consolidated subsidiaries') total assets, or if the arrearage in required dividend payments on preferred stock is not cured within thirty days.

- g. Provided that, if the securities to be issued are listed, or approved for listing upon notice of issuance, on the New York stock exchange, inc., or the American stock exchange, inc., and the current original listing standards of that exchange are satisfied as of the end of the issuer's most recent fiscal year, the conditions of subdivision c need be met for only five years and the annual net earnings requirement of paragraph 1 of subdivision d shall be two hundred fifty thousand dollars.

"Liquid assets" means cash, receivables payable on demand or not more than twelve years following the close of the company's last fiscal year, and readily marketable securities, in each case less applicable reserves and unearned income.

7. Any note, draft, bill of exchange, or bankers' acceptance which arises out of a current transaction or the proceeds of which have been or are to be used for current transactions, is not the subject of a public offering, is prime quality negotiable commercial paper which is eligible for discounting by federal reserve banks, has at the time of issuance a definite maturity (after all days of grace, if any) of not exceeding nine months, is payable in cash only, and is not convertible into and does not carry an option or right to receive payment or any bonus in any other security.
8. Securities, other than common stock, providing for a fixed return, which have been outstanding and in the hands of the public for not less than five years and upon which no default has occurred during the five years next preceding the date of sale. evidences of debts secured thereby. Before any security described in this subsection is offered for sale, the person intending to offer it shall file with the commissioner descriptive circulars of the collateral securities and pay a filing fee to the commissioner of twenty-five dollars. Unless the commissioner makes his order within three days after the receipt of such circulars requiring the securities to be qualified by application under this chapter, the securities shall be exempt.

12. The execution of orders for purchase of securities by a registered dealer provided such dealer acts as agent for the purchaser, has made no solicitation of the order to purchase such securities, has no direct material interest in the sale or distribution of the securities ordered, receives no commission, profit, or other compensation other than the commissions involved in the purchase and sale of the securities and delivery to the purchaser of written confirmation of the order which clearly itemizes the commissions paid to the registered dealer. - 3- 5. No child subject to the jurisdiction of the juvenile court, either before or after reaching eighteen years of age, may be prosecuted for an offense previously committed unless the case has been transferred as provided in this section.

Unless otherwise ordered by the court, the criminal record report must be conducted by the department of corrections and rehabilitation after consulting with the prosecuting attorney regarding the defendant's criminal record. The criminal record report must be in writing, filed with the court before sentencing, and made a part of the court's record of the sentencing proceeding.

1. A court may sentence a convicted offender to an extended sentence as a dangerous special offender or a habitual offender in accordance with the provisions of this section upon a finding of any one or more of the following:
 - a. The convicted offender is a dangerous, mentally abnormal person. The court ~~shall~~ may not make such a finding unless the presentence report, including a psychiatric examination, concludes that the offender's conduct has been characterized by persistent aggressive behavior, and that such behavior makes ~~him~~ the offender a serious danger to other persons.
 - b. The convicted offender is a professional criminal. The court ~~shall~~ may not make such a finding unless the offender is an adult and the presentence report shows that the offender has substantial income or resources derived from criminal activity.
 - c. The convicted offender is a ~~persistent~~ habitual offender. For the purposes of this

⁶⁷ Section 12.1-32-02 was also amended by section 5 of Senate Bill No. 2264, chapter 124, and section 17 of House Bill No. 1027, chapter 120.

subdivision, a felony conviction in another state or under the laws of the United States shall be considered a felony of class ~~B~~ C or above if it is punishable by a maximum term of imprisonment of ~~ten~~ five years or more.

- d. The offender was convicted of an offense which seriously endangered the life of another person, and the offender had previously been convicted of a similar offense.
- e. The offender is especially dangerous because ~~he~~ the offender used a firearm, dangerous weapon, or destructive device in the commission of the offense or during the flight therefrom.

A conviction shown on direct or collateral review or at the hearing to be invalid or for which the offender has been pardoned on the ground of innocence ~~shall~~ must be disregarded for purposes of subdivision c. In support of findings under subdivision b, it may be shown that the offender has had in ~~his own name or under his control~~ of income or property not explained as derived from a source other than criminal activity. For purposes of subdivision b, a substantial source of income means a source of income which for any period of one year or more exceeds the minimum wage, determined on the basis of a forty-hour week and a fifty-week year, without reference to exceptions, under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended, for an employee engaged in commerce or in the production of goods for commerce, and which for the same period exceeds fifty percent of the offender's declared adjusted gross income under chapter 57-38.

2. The extended sentence may be imposed in the following manner:
 - a. If the offense for which the offender is convicted is a class A felony, the court may impose a sentence up to a maximum of life imprisonment.
 - b. If the offense for which the offender is convicted is a class B felony, the court may impose a sentence up to a maximum of imprisonment for twenty years.
 - c. If the offense for which the offender is convicted is a class C felony, the court may impose a sentence up to a maximum of imprisonment for ten years.
3. Whenever an attorney charged with the prosecution of a defendant in a court of this state for an alleged felony committed when the defendant was over the age of eighteen years has reason to believe that the defendant is a dangerous special offender or a habitual offender, ~~such~~ the attorney, at a reasonable time before trial or acceptance by the court of a plea of guilty, may sign and file with the court, and may amend, a notice specifying that the defendant is a dangerous special offender or a habitual offender who upon conviction for ~~such~~ the felony is subject to the imposition of a sentence under subsection 2, and setting out with particularity the reasons why ~~such~~ the attorney believes the defendant to be a dangerous special offender or a habitual offender. In no case ~~shall~~ may the fact that the prosecuting attorney is seeking sentencing of the defendant as a dangerous special offender or a habitual offender be disclosed to the jury. If the court finds that the filing of the notice as a

public record may prejudice fair consideration of a pending criminal matter, it may order the notice sealed and the notice shall not be subject to subpoena or public inspection during the pendency of such criminal matter, except on order of the court, but shall be subject to inspection by the defendant alleged to be a dangerous special offender or a habitual offender and ~~his~~ the offender's counsel.

4. Upon any plea of guilty, or verdict or finding of guilt of the defendant of such felony, a hearing must be held, before sentence is imposed, by the court sitting without a jury. Except in the most extraordinary cases, the court shall obtain a presentence report and may receive a diagnostic testing report under subsection 5 of section 12.1-32-02 before holding a hearing under this subsection. The court shall fix a time for the hearing, and notice thereof must be given to the defendant and the prosecution at least five days prior thereto. The court shall permit the prosecution and counsel for the defendant, or the defendant if the defendant is not represented by counsel, to inspect the presentence report sufficiently prior to the hearing as to afford a reasonable opportunity for verification. In extraordinary cases, the court may withhold material not relevant to a proper sentence, diagnostic opinion which might seriously disrupt a program of rehabilitation, any source of information obtained on a promise of confidentiality, and material previously disclosed in open court. A court withholding all or part of a presentence report shall inform the parties of its action and place in the record the reasons therefor. The court may require parties inspecting all or part of a presentence report to give notice of any part thereof intended to be controverted. In connection with the hearing, the defendant is entitled to compulsory process, and cross-examination of such witnesses as appear at the hearing. A duly authenticated copy of a former judgment or commitment is prima facie evidence of such former judgment or commitment. If it appears by a preponderance of the information, including information submitted during the trial of such felony and the sentencing hearing and so much of the presentence report as the court relies upon, that the defendant is a dangerous special offender or a habitual offender, the court shall sentence the defendant to imprisonment for an appropriate term within the limits specified in subsection 2. The court shall place in the record its findings including an identification of the information relied upon in making such findings, and its reasons for the sentence imposed.

SECTION 5. A new section to chapter 12.1-32 of the North Dakota Century Code is created and enacted as follows:

Any offender who is convicted of a crime in violation of section 12.1-16-01, 12.1-16-02, 12.1-17-02, 12.1-18-01, subdivision a of subsection 1 or subdivision b of subsection 2 of section 12.1-20-03, section 12.1-22-01, subdivision b of subsection 2 of section 12.1-22-02, or an attempt to commit the offenses, and who receives a sentence of imprisonment is not eligible for release from confinement on any basis until eighty-five percent of the sentence imposed by the court has been served or the sentence is commuted.

PATERNITY ACKNOWLEDGMENT PROCEDURES

AN ACT to create and enact a new chapter to title 14 and a new section to chapter 14-09 of the North Dakota Century Code, relating to the establishment of paternity; to amend and reenact section 14-17-11 of the North Dakota Century Code, relating to the use of genetic tests in paternity proceedings; to provide an effective date; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 14-09 of the North Dakota Century Code is created and enacted as follows:

Full faith and credit for paternity determinations. In any proceeding in which paternity or nonpaternity of a child is alleged, full faith and credit must be given to a determination of paternity by another state, made before a determination of paternity under the laws of this state, whether established through voluntary acknowledgment or through administrative or judicial process.

SECTION 2. A new chapter to title 14 of the North Dakota Century Code is created and enacted as follows:

Definitions. In this chapter, unless the context otherwise requires:

1. "Birthing hospital" means a hospital licensed under chapter 23-16 which provides obstetrical services.
2. "Department" means the department of human services.
3. "Donor" means a woman whose body produced an egg for the purposes of assisted conception, but does not include a woman whose body produces an egg used for the purpose of conceiving a child for that woman.
4. "Gestational carrier" means a woman who enters into an agreement to have an embryo implanted in her and bear the resulting child for intended parents, where the embryo is conceived by using the egg and sperm of the intended parents.
5. "Married woman" includes a woman who attempted to marry by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid.
6. "Mother" means a woman who gives birth to a child or, if pregnancy resulted from assisted conception, the woman who is the donor but not the woman who is the gestational carrier.

7. "Party" means the man with whom the relationship of father and child is sought or established, the child's mother, and, for purposes of proceedings to relieve a party of the relationship of father and child, the child.
8. "Relationship of father and child" means the legal relationship existing between a father and his natural or adoptive child incident to which the law confers or imposes rights, privileges, duties, and obligations.

Construction of chapter - Place of acknowledgment or birth need not be within this state. This chapter is a remedial law and is to be broadly construed to provide a simple civil process for establishing the relationship of father and child through voluntary acknowledgment of paternity. This chapter may be applied to establish the relationship of father and child with respect to children not born in this state. A voluntary acknowledgment executed or acknowledged outside this state is effective under this chapter if the acknowledgment substantially complies with the requirements of this chapter.

Establishment of relationship of father and child. The relationship of father and child may be established by an acknowledgment of paternity, signed by both parents, given before a witness if:

1. The acknowledgment is made on a form, approved by the department, which provides:
 - a. Instructions for filing the acknowledgment with the department of health and consolidated laboratories;
 - b. Places for entry of the parents' names, addresses, and social security numbers; parents' signatures; and witnesses' signatures; and
2. The witness, or any agent of a child support agency, verifies that the parents have been provided:
 - a. Written materials about paternity establishment, including the manner in which the relationship of father and child established under this chapter may be vacated; and
 - b. A written description of the rights and responsibilities of acknowledging paternity.

Effect of voluntary acknowledgment of paternity - Who may dispute. The relationship of father and child established under this chapter has the force and effect of a relationship of father and child established through judgment of a court of competent jurisdiction. This is a presumption establishing paternity, and must be recognized as a basis for a support order, in any proceeding to establish, enforce, or modify a child support order, with no further proceedings to establish paternity. The establishment of the relationship may be contradicted only as provided in this chapter.

Filing of acknowledgment. An acknowledgment of paternity made under this chapter must be filed with the department of health and consolidated laboratories. Upon request of the department, the department of health and consolidated laboratories shall furnish a certified copy of an acknowledgment of paternity to the department.

Hospital-based program for acknowledgment of paternity - Effect of noncompliance.

1. During the period immediately preceding or following the birth of a child to an unmarried woman in a birthing hospital, the hospital, at a minimum, shall:
 - a. Provide to the mother and the alleged father, if he is present in the hospital:
 - (1) Written materials about paternity establishment;
 - (2) The forms necessary to voluntarily acknowledge paternity;
 - (3) A written description of the rights and responsibilities of acknowledging paternity; and
 - (4) The opportunity to speak, either by telephone or in person, with staff who are trained to clarify information and answer questions about paternity establishment;
 - b. Provide the mother and the alleged father, if he is present, the opportunity to voluntarily acknowledge paternity in the hospital;
 - c. Afford due process safeguards by informing, in writing, the mother and the alleged father, if he is present, of the manner in which a relationship of father and child established under this chapter may be vacated; and
 - d. Forward completed acknowledgments to the department of health and consolidated laboratories.
2. The department may withhold medical assistance payments from any hospital that fails to comply with this section. At least thirty days in advance of any withholding, the department shall notify the hospital of the department's intention to withhold medical assistance payments from the hospital. The hospital may appeal the decision to withhold medical assistance benefits to the department.

Immunity from liability. A hospital, its agents, or its employees acting in accordance with this Act or attempting in good faith to do so are immune from civil liability for that activity.

Powers and duties of the department. The department shall:

1. Provide each birthing hospital in the state:
 - a. Written materials about paternity establishment.
 - b. Forms necessary to voluntarily acknowledge paternity.
 - c. A written description of the rights and responsibilities of acknowledging paternity.

2. Provide training, guidance, and written instructions regarding voluntary acknowledgment of paternity reasonably necessary to assist a birthing hospital in its duties under this chapter.
3. In cooperation with the department of health and consolidated laboratories, secure information on each birthing hospital's paternity acknowledgment program at least annually.
4. In cases involving applications for child support services made to a child support agency which require paternity establishment, determine if a voluntary paternity acknowledgment has been filed with the department of health and consolidated laboratories.

When acknowledgment is voidable. An acknowledgment of paternity for a child born to a married woman is voidable unless:

1. The man acknowledging paternity was the woman's husband at the time of the child's birth; or
2. The acknowledgment is agreed to in writing by each man who was the woman's husband within three hundred days before the child's birth.

Vacation of acknowledgments - Time for commencing actions - Effect on presumptions under section 14-17-04 - Notice.

1. An acknowledgment of paternity made under this chapter may be vacated:
 - a. By a notarized writing signed by either the father or the mother and filed with the department of health and consolidated laboratories within ten days after the execution of the acknowledgment of paternity;
 - b. By order of the district court upon a showing, by a party, that an acknowledgment of paternity made under this chapter was the result of mistake, fraud, or misrepresentation by another party, or any other reason justifying relief;
 - c. By order of the district court upon a showing that a voidable acknowledgment of paternity made concerning the birth of a child to a married woman should be made void; or
 - d. By the department of health and consolidated laboratories upon receipt of two or more acknowledgments of paternity concerning the same child.
2. A party shall commence a claim for relief under subdivision b of subsection 1 within one year after execution of the acknowledgment of paternity. This limitation may only be extended:
 - a. Due to the minority of a child in a case brought by the child with respect to whom the relationship of father and child was established; or
 - b. Upon a showing that continued enforcement of a judgment based on an acknowledgment of paternity made under this chapter would

be manifestly unjust and unconscionable to all parties; that the party seeking relief was prevented by fraud or fraudulent concealment from discovering the claim for relief; and that the claim is commenced within one year after the claim was discovered or might, in the exercise of diligence, have been discovered.

3. The vacation of an acknowledgment of paternity under this section does not affect any presumption of paternity provided under section 14-17-04.
4. If the department of health and consolidated laboratories vacates an acknowledgment under this section, it promptly shall provide notice of its action to the mother, to each acknowledged father of the child, and, if the department has requested a certified copy of any vacated acknowledgment, to the department.

SECTION 3. AMENDMENT. Section 14-17-11 of the North Dakota Century Code is amended and reenacted as follows:

14-17-11. **Evidence relating to paternity.** Evidence relating to paternity may include:

1. Evidence of sexual intercourse between the mother and alleged father at any possible time of conception.
2. An expert's opinion concerning the statistical probability of the alleged father's paternity based upon the duration of the mother's pregnancy.
3. Genetic test results, weighted in accordance with evidence, if available, of the statistical probability of the alleged father's paternity. Verified documentation of the chain of custody of the genetic specimens is competent evidence to establish the chain of custody. A verified report obtained from an examiner appointed pursuant to section 14-17-10 must be admitted at trial unless a challenge written objection to the testing procedures or the results of genetic analysis has been made at least ten days before trial or at an earlier time determined by the court.
4. Medical or anthropological evidence relating to the alleged father's paternity of the child based on tests performed by experts. If a man has been identified as a possible father of the child, the court may, and upon request of a party shall, require the child, the mother, and the man to submit to appropriate tests.
5. A voluntary acknowledgment of paternity executed under this Act.
6. All other evidence relevant to the issue of paternity of the child.

SECTION 4. EFFECTIVE DATE. Sections 1 and 2 of this Act become effective April 1, 1995, if the fifty-fourth legislative assembly adjourns sine die on or before March 31, 1995, but otherwise become effective July 1, 1995.

SECTION 5. EMERGENCY. This Act is declared to be an emergency measure.

18. "Spousal-support order" means a support order for a spouse or former spouse of the obligor.
19. "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or insular possession subject to the jurisdiction of the United States. The term "state" includes an Indian tribe and includes a foreign jurisdiction that has established

procedures for issuance and enforcement of support orders which are substantially similar to the procedures under this chapter.

20. "Support enforcement agency" means a public official or agency authorized to seek:
- a. Enforcement of support orders or laws relating to the duty of support;
 - b. Establishment or modification of child support;
 - c. Determination of parentage; or
 - d. Location of obligors or their assets.
21. "Support order" means a judgment, decree, or order, whether temporary, final, or subject to modification, for the benefit of a child, a spouse, or a former spouse, which provides for monetary support, health care, arrearages, or reimbursement, and may include related costs and fees, interest, income withholding, attorney's fees, and other relief.
22. "Tribunal" means a court, administrative agency, or quasi-judicial entity authorized to establish, enforce, or modify support orders or to determine parentage.

14-12.2-02. (102) Tribunal of this state. The district court is the tribunal of this state.

14-12.2-03. (103) Remedies cumulative. Remedies provided by this chapter are cumulative and do not affect the availability of remedies under other law.

14-12.2-04. (201) Bases for jurisdiction over nonresident. In a proceeding to establish, enforce, or modify a support order or to determine parentage, a tribunal of this state may exercise personal jurisdiction over a nonresident individual or the individual's guardian or conservator if:

1. The individual is personally served with a summons within this state;
2. The individual submits to the jurisdiction of this state by consent, by entering a general appearance, or by filing a responsive document having the effect of waiving any contest to personal jurisdiction;
3. The individual resided with the child in this state;
4. The individual resided in this state and provided prenatal expenses or support for the child;
5. The child resides in this state as a result of the acts or directives of the individual;
6. The individual engaged in sexual intercourse in this state and the child may have been conceived by that act of intercourse; or
7. There is any other basis consistent with the constitutions of this state and the United States for the exercise of personal jurisdiction.

14-12.2-05. (202) Procedure when exercising jurisdiction over nonresident. A tribunal of this state exercising personal jurisdiction over a nonresident under section 14-12.2-04 may apply section 14-12.2-28 to receive evidence from another state, and section 14-12.2-30 to obtain discovery through a tribunal of another state. In all other respects, sections 14-12.2-13 through 14-12.2-47 do not apply and the tribunal shall apply the procedural and substantive law of this state, including the rules on choice of law other than those established by this chapter.

14-12.2-06. (203) Initiating and responding tribunal of this state. Under this chapter, a tribunal of this state may serve as an initiating tribunal to forward proceedings to another state and as a responding tribunal for proceedings initiated in another state.

14-12.2-07. (204) Simultaneous proceedings in another state.

1. If the petition or comparable pleading is filed after a petition or comparable pleading is filed in another state, a tribunal of this state may exercise jurisdiction to establish a support order only if:
 - a. The petition or comparable pleading in this state is filed before the expiration of the time allowed in the other state for filing a responsive pleading challenging the exercise of jurisdiction by the other state;
 - b. The contesting party timely challenges the exercise of jurisdiction in the other state; and
 - c. If relevant, this state is the home state of the child.
2. If the petition or comparable pleading is filed before a petition or comparable pleading is filed in another state, a tribunal of this state may not exercise jurisdiction to establish a support order if:
 - a. The petition or comparable pleading in the other state is filed before the expiration of the time allowed in this state for filing a responsive pleading challenging the exercise of jurisdiction by this state;
 - b. The contesting party timely challenges the exercise of jurisdiction in this state; and
 - c. If relevant, the other state is the home state of the child.

14-12.2-08. (205) Continuing, exclusive jurisdiction.

1. A tribunal of this state issuing a support order consistent with the law of this state has continuing, exclusive jurisdiction over a child support order:
 - a. As long as this state remains the residence of the obligor, the individual obligee, or the child for whose benefit the support order is issued; or
 - b. Until each individual party has filed written consent with the tribunal of this state for a tribunal of another state to modify the order and assume continuing, exclusive jurisdiction.

2. A tribunal of this state issuing a child support order consistent with the law of this state may not exercise its continuing jurisdiction to modify the order if the order has been modified by a tribunal of another state pursuant to a law substantially similar to this chapter.
3. If a child support order of this state is modified by a tribunal of another state pursuant to a law substantially similar to this chapter, a tribunal of this state loses its continuing, exclusive jurisdiction with regard to prospective enforcement of the order issued in this state, and may only:
 - a. Enforce the order that was modified as to amounts accruing before the modification;
 - b. Enforce nonmodifiable aspects of that order; and
 - c. Provide other appropriate relief for violations of that order which occurred before the effective date of the modification.
4. A tribunal of this state shall recognize the continuing, exclusive jurisdiction of a tribunal of another state which has issued a child support order pursuant to a law substantially similar to this chapter.
5. A temporary support order issued ex parte or pending resolution of a jurisdictional conflict does not create continuing, exclusive jurisdiction in the issuing tribunal.
6. A tribunal of this state issuing a support order consistent with the law of this state has continuing, exclusive jurisdiction over a spousal support order throughout the existence of the support obligation. A tribunal of this state may not modify a spousal support order issued by a tribunal of another state having continuing, exclusive jurisdiction over that order under the law of that state.

14-12.2-09. (206) Enforcement and modification of support order by tribunal having continuing jurisdiction.

1. A tribunal of this state may serve as an initiating tribunal to request a tribunal of another state to enforce or modify a support order issued in that state.
2. A tribunal of this state having continuing, exclusive jurisdiction over a support order may act as a responding tribunal to enforce or modify the order. If a party subject to the continuing, exclusive jurisdiction of the tribunal no longer resides in the issuing state, in subsequent proceedings the tribunal may apply section 14-12.2-28 to receive evidence from another state and section 14-12.2-30 to obtain discovery through a tribunal of another state.
3. A tribunal of this state which lacks continuing, exclusive jurisdiction over a spousal support order may not serve as a responding tribunal to modify a spousal support order of another state.

14-12.2-10. (207) Recognition of child support orders.

1. If a proceeding is brought under this chapter, and one or more child support orders have been issued in this or another state with regard to

an obligor and a child, a tribunal of this state shall apply the following rules in determining which order to recognize for purposes of continuing, exclusive jurisdiction:

- a. If only one tribunal has issued a child support order, the order of that tribunal must be recognized.
 - b. If two or more tribunals have issued child support orders for the same obligor and child, and only one of the tribunals would have continuing, exclusive jurisdiction under this chapter, the order of that tribunal must be recognized.
 - c. If two or more tribunals have issued child support orders for the same obligor and child, and more than one of the tribunals would have continuing, exclusive jurisdiction under this chapter, an order issued by a tribunal in the current home state of the child must be recognized, but if an order has not been issued in the current home state of the child, the order most recently issued must be recognized.
 - d. If two or more tribunals have issued child support orders for the same obligor and child, and none of the tribunals would have continuing, exclusive jurisdiction under this chapter, the tribunal of this state may issue a child support order, which must be recognized.
2. The tribunal that has issued an order recognized under subsection 1 is the tribunal having continuing, exclusive jurisdiction.

14-12.2-11. (208) Multiple child support orders for two or more obligees. In responding to multiple registrations or petitions for enforcement of two or more child support orders in effect at the same time with regard to the same obligor and different individual obligees, at least one of which was issued by a tribunal of another state, a tribunal of this state shall enforce those orders in the same manner as if the multiple orders had been issued by a tribunal of this state.

14-12.2-12. (209) Credit for payments. Amounts collected and credited for a particular period pursuant to a support order issued by a tribunal of another state must be credited against the amounts accruing or accrued for the same period under a support order issued by the tribunal of this state.

14-12.2-13. (301) Proceedings under this chapter.

1. Except as otherwise provided in this chapter, sections 14-12.2-13 through 14-12.2-31 apply to all proceedings under this chapter.
2. This chapter provides for the following proceedings:
 - a. Establishment of an order for spousal support or child support under section 14-12.2-32;
 - b. Enforcement of a support order and income-withholding order of another state without registration under sections 14-12.2-33 and 14-12.2-34;

- c. Registration of an order for spousal support or child support of another state for enforcement under sections 14-12.2-35 through 14-12.2-46;
 - d. Modification of an order for child support or spousal support issued by a tribunal of this state under sections 14-12.2-06 through 14-12.2-09;
 - e. Registration of an order for child support of another state for modification under sections 14-12.2-35 through 14-12.2-46;
 - f. Determination of parentage under section 14-12.2-47; and
 - g. Assertion of jurisdiction over nonresidents under sections 14-12.2-04 and 14-12.2-05.
3. An individual petitioner or a support enforcement agency may commence a proceeding authorized under this chapter by filing a petition in an initiating tribunal for forwarding to a responding tribunal or by filing a petition or a comparable pleading directly in a tribunal of another state which has or can obtain personal jurisdiction over the respondent.

14-12.2-14. (302) Action by minor parent. A minor parent, or a guardian or other legal representative of a minor parent, may maintain a proceeding on behalf of or for the benefit of the minor's child.

14-12.2-15. (303) Application of law of this state. Except as otherwise provided by this chapter, a responding tribunal of this state:

1. Shall apply the procedural and substantive law, including the rules on choice of law, generally applicable to similar proceedings originating in this state and may exercise all powers and provide all remedies available in those proceedings; and
2. Shall determine the duty of support and the amount payable in accordance with the law and support guidelines of this state.

14-12.2-16. (304) Duties of initiating tribunal. Upon the filing of a petition authorized by this chapter, an initiating tribunal of this state shall forward three copies of the petition and its accompanying documents:

1. To the responding tribunal or appropriate support enforcement agency in the responding state; or
2. If the identity of the responding tribunal is unknown, to the state information agency of the responding state with a request that the petitions and documents be forwarded to the appropriate tribunal and that receipt be acknowledged.

14-12.2-17. (305) Duties and powers of responding tribunal.

1. When a responding tribunal of this state receives a petition or comparable pleading from an initiating tribunal or directly under subsection 3 of section 14-12.2-13, it shall cause the petition or pleading

to be filed and notify the petitioner by first-class mail where and when it was filed.

2. A responding tribunal of this state, to the extent otherwise authorized by law, may do one or more of the following:
 - a. Issue or enforce a support order, modify a child support order, or render a judgment to determine parentage;
 - b. Order an obligor to comply with a support order, specifying the amount and the manner of compliance;
 - c. Order income withholding;
 - d. Determine the amount of any arrearages, and specify a method of payment;
 - e. Enforce orders by civil or criminal contempt, or both;
 - f. Set aside property for satisfaction of the support order;
 - g. Place liens and order execution on the obligor's property;
 - h. Order an obligor to keep the tribunal informed of the obligor's current residential address, telephone number, employer, address of employment, and telephone number at the place of employment;
 - i. Issue a bench warrant for an obligor who has failed after proper notice to appear at a hearing ordered by the tribunal and enter the bench warrant in any local and state computer systems for criminal warrants;
 - j. Order the obligor to seek appropriate employment by specified methods;
 - k. Award reasonable attorney's fees and other fees and costs; and
 - l. Grant any other available remedy.
3. A responding tribunal of this state shall include in a support order issued under this chapter, or in the documents accompanying the order, the calculations on which the support order is based.
4. A responding tribunal of this state may not condition the payment of a support order issued under this chapter upon compliance by a party with provisions for visitation.
5. If a responding tribunal of this state issues an order under this chapter, the tribunal shall send a copy of the order by first-class mail to the petitioner and the respondent and to the initiating tribunal, if any.

14-12.2-18. (306) Inappropriate tribunal. If a petition or comparable pleading is received by an inappropriate tribunal of this state, it shall forward the pleading and accompanying documents to an appropriate tribunal in this state or another state and notify the petitioner by first-class mail where and when the pleading was sent.

14-12.2-19. (307) Duties of support enforcement agency.

1. A support enforcement agency of this state, upon request, shall provide services to a petitioner in a proceeding under this chapter.
2. A support enforcement agency that is providing services to the petitioner as appropriate shall:
 - a. Take all steps necessary to enable an appropriate tribunal in this state or another state to obtain jurisdiction over the respondent;
 - b. Request an appropriate tribunal to set a date, time, and place for a hearing;
 - c. Make a reasonable effort to obtain all relevant information, including information as to income and property of the parties;
 - d. Within two business days, exclusive of Saturdays, after receipt of a written notice from an initiating, responding, or registering tribunal, send a copy of the notice by first-class mail to the petitioner;
 - e. Within two business days, exclusive of Saturdays, after receipt of a written communication from the respondent or the respondent's attorney, send a copy of the communication by first-class mail to the petitioner; and
 - f. Notify the petitioner if jurisdiction over the respondent cannot be obtained.
3. This chapter does not create or negate a relationship of attorney and client or other fiduciary relationship between a support enforcement agency or the attorney for the agency and the individual being assisted by the agency.

14-12.2-20. (308) Duty of attorney general. If the attorney general determines that the support enforcement agency is neglecting or refusing to provide services to an individual, the attorney general may order the agency to perform its duties under this chapter or may provide those services directly to the individual.

14-12.2-21. (309) Private counsel. An individual may employ private counsel to represent the individual in proceedings authorized by this chapter.

14-12.2-22. (310) Duties of state information agency.

1. The department of human services is the state information agency under this chapter.
2. The state information agency shall:
 - a. Compile and maintain a current list, including addresses, of the tribunals in this state which have jurisdiction under this chapter and any support enforcement agencies in this state and transmit a copy to the state information agency of every other state.
 - b. Maintain a register of tribunals and support enforcement agencies received from other states.

- c. Forward to the appropriate tribunal in the place in this state in which the individual obligee or the obligor resides, or in which the obligor's property is believed to be located, all documents concerning a proceeding under this chapter received from an initiating tribunal or the state information agency of the initiating state.
- d. Obtain information concerning the location of the obligor and the obligor's property within this state not exempt from execution, by such means as postal verification and federal or state locator services, examination of telephone directories, requests for the obligor's address from employers, and examination of governmental records, including, to the extent not prohibited by other law, those relating to real property, vital statistics, law enforcement, taxation, motor vehicles, driver's licenses, and social security.

14-12.2-23. (311) Pleadings and accompanying documents.

1. A petitioner seeking to establish or modify a support order or to determine parentage in a proceeding under this chapter must verify the petition. Unless otherwise ordered under section 14-12.2-24, the petition or accompanying documents must provide, so far as known, the name, residential address, and social security numbers of the obligor and the obligee, and the name, sex, residential address, social security number, and date of birth of each child for whom support is sought. The petition must be accompanied by a certified copy of any support order in effect. The petition may include any other information that may assist in locating or identifying the respondent.
2. The petition must specify the relief sought. The petition and accompanying documents must conform substantially with the requirements imposed by the forms mandated by federal law for use in cases filed by a support enforcement agency.

14-12.2-24. (312) Nondisclosure of information in exceptional circumstances. Upon a finding, which may be made ex parte, that the health, safety, or liberty of a party or child would be unreasonably put at risk by the disclosure of identifying information, or if an existing order so provides, a tribunal shall order that the address of the child or party or other identifying information not be disclosed in a pleading or other document filed in a proceeding under this chapter.

14-12.2-25. (313) Costs and fees.

1. The petitioner may not be required to pay a filing fee or other costs.
2. If an obligee prevails, a responding tribunal may assess against an obligor filing fees, reasonable attorney's fees, other costs, and necessary travel and other reasonable expenses incurred by the obligee and the obligee's witnesses. The tribunal may not assess fees, costs, or expenses against the obligee or the support enforcement agency of either the initiating or the responding state, except as provided by other law. Attorney's fees may be taxed as costs, and may be ordered paid directly to the attorney, who may enforce the order in the attorney's own name. Payment of support owed to the obligee has priority over fees, costs, and expenses.

3. The tribunal shall order the payment of costs and reasonable attorney's fees if it determines that a hearing was requested primarily for delay. In a proceeding under sections 14-12.2-35 through 14-12.2-46, a hearing is presumed to have been requested primarily for delay if a registered support order is confirmed or enforced without change.

14-12.2-26. (314) Limited immunity of petitioner.

1. Participation by a petitioner in a proceeding before a responding tribunal, whether in person, by private attorney, or through services provided by the support enforcement agency, does not confer personal jurisdiction over the petitioner in another proceeding.
2. A petitioner is not amenable to service of civil process while physically present in this state to participate in a proceeding under this chapter.
3. The immunity granted by this section does not extend to civil litigation based on acts unrelated to a proceeding under this chapter committed by a party while present in this state to participate in the proceeding.

14-12.2-27. (315) Nonparentage as defense. A party whose parentage of a child has been previously determined by or pursuant to law may not plead nonparentage as a defense to a proceeding under this chapter.

14-12.2-28. (316) Special rules of evidence and procedure.

1. The physical presence of the petitioner in a responding tribunal of this state is not required for the establishment, enforcement, or modification of a support order or the rendition of a judgment determining parentage.
2. A verified petition, affidavit, document substantially complying with federally mandated forms, and a document incorporated by reference in any of them, not excluded under the hearsay rule if given in person, is admissible in evidence if given under oath by a party or witness residing in another state.
3. A copy of the record of child support payments certified as a true copy of the original by the custodian of the record may be forwarded to a responding tribunal. The copy is evidence of facts asserted in it, and is admissible to show whether payments were made.
4. Copies of bills for testing for parentage, and for prenatal and postnatal health care of the mother and child, furnished to the adverse party at least ten days before trial, are admissible in evidence to prove the amount of the charges billed and that the charges were reasonable, necessary, and customary.
5. Documentary evidence transmitted from another state to a tribunal of this state by telephone, telecopier, or other means that do not provide an original writing may not be excluded from evidence on an objection based on the means of transmission.
6. In a proceeding under this chapter, a tribunal of this state may permit a party or witness residing in another state to be deposed or to testify by telephone, audiovisual means, or other electronic means at a designated tribunal or other location in that state. A tribunal of this state shall

cooperate with tribunals of other states in designating an appropriate location for the deposition or testimony.

7. If a party called to testify at a civil hearing refuses to answer on the ground that the testimony may be self-incriminating, the trier of fact may draw an adverse inference from the refusal.
8. A privilege against disclosure of communications between spouses does not apply in a proceeding under this chapter.
9. The defense of immunity based on the relationship of husband and wife or parent and child does not apply in a proceeding under this chapter.

14-12.2-29. (317) Communications between tribunals. A tribunal of this state may communicate with a tribunal of another state in writing, or by telephone or other means, to obtain information concerning the laws of that state, the legal effect of a judgment, decree, or order of that tribunal, and the status of a proceeding in the other state. A tribunal of this state may furnish similar information by similar means to a tribunal of another state.

14-12.2-30. (318) Assistance with discovery. A tribunal of this state may:

1. Request a tribunal of another state to assist in obtaining discovery; and
2. Upon request, compel a person over whom it has jurisdiction to respond to a discovery order issued by a tribunal of another state.

14-12.2-31. (319) Receipt and disbursement of payments. A support enforcement agency or tribunal of this state shall disburse promptly any amounts received pursuant to a support order, as directed by the order. The agency or tribunal shall furnish to a requesting party or tribunal of another state a certified statement by the custodian of the record of the amounts and dates of all payments received.

14-12.2-32. (401) Petition to establish support order.

1. If a support order entitled to recognition under this chapter has not been issued, a responding tribunal of this state may issue a support order if:
 - a. The individual seeking the order resides in another state; or
 - b. The support enforcement agency seeking the order is located in another state.
2. The tribunal may issue a temporary child support order if:
 - a. The respondent has signed a verified statement acknowledging parentage;
 - b. The respondent has been determined by or pursuant to law to be the parent; or
 - c. There is other clear and convincing evidence that the respondent is the child's parent.

3. Upon finding, after notice and opportunity to be heard, that an obligor owes a duty of support, the tribunal shall issue a support order directed to the obligor and may issue other orders under section 14-12.2-17.

14-12.2-33. (501) Recognition of income-withholding order of another state.

1. An income-withholding order issued in another state may be sent by first-class mail to the obligor's employer without first filing a petition or comparable pleading or registering the order with a tribunal of this state. Upon receipt of the order, the employer shall:
 - a. Treat an income-withholding order issued in another state which appears regular on its face as if it had been issued by a tribunal of this state;
 - b. Immediately provide a copy of the order to the obligor; and
 - c. Distribute the funds as directed in the withholding order.
2. An obligor may contest the validity or enforcement of an income-withholding order issued in another state in the same manner as if the order had been issued by a tribunal of this state. Section 14-12.2-38 applies to the contest. The obligor shall give notice of the contest to any support enforcement agency providing services to the obligee and to:
 - a. The person or agency designated to receive payments in the income-withholding order; or
 - b. If no person or agency is designated, the obligee.

14-12.2-34. (502) Administrative enforcement of orders.

1. A party seeking to enforce a support order or an income-withholding order, or both, issued by a tribunal of another state may send the documents required for registering the order to a support enforcement agency of this state.
2. Upon receipt of the documents, the support enforcement agency, without initially seeking to register the order, shall consider and, if appropriate, use any administrative procedure authorized by the law of this state to enforce a support order or an income-withholding order, or both. If the obligor does not contest administrative enforcement, the order need not be registered. If the obligor contests the validity or administrative enforcement of the order, the support enforcement agency shall register the order pursuant to this chapter.

14-12.2-35. (601) Registration of order for enforcement. A support order or an income-withholding order issued by a tribunal of another state may be registered in this state for enforcement.

14-12.2-36. (602) Procedure to register order for enforcement.

1. A support order or income-withholding order of another state may be registered in this state by sending the following documents and information to the appropriate tribunal in this state:

- a. A letter of transmittal to the tribunal requesting registration and enforcement;
 - b. Two copies, including one certified copy, of all orders to be registered, including any modification of an order;
 - c. A sworn statement by the party seeking registration or a certified statement by the custodian of the records showing the amount of any arrearage;
 - d. The name of the obligor and, if known:
 - (1) The obligor's address and social security number;
 - (2) The name and address of the obligor's employer and any other source of income of the obligor; and
 - (3) A description and the location of property of the obligor in this state not exempt from execution; and
 - e. The name and address of the obligee and, if applicable, the agency or person to whom support payments are to be remitted.
2. On receipt of a request for registration, the registering tribunal shall cause the order to be filed as a foreign judgment, together with one copy of the documents and information, regardless of their form.
 3. A petition or comparable pleading seeking a remedy that must be affirmatively sought under other law of this state may be filed at the same time as the request for registration or later. The pleading must specify the grounds for the remedy sought.

14-12.2-37. (603) Effect of registration for enforcement.

1. A support order or income-withholding order issued in another state is registered when the order is filed in the registering tribunal of this state.
2. A registered order issued in another state is enforceable in the same manner and is subject to the same procedures as an order issued by a tribunal of this state.
3. Except as otherwise provided in this article, a tribunal of this state shall recognize and enforce, but may not modify, a registered order if the issuing tribunal had jurisdiction.

14-12.2-38. (604) Choice of law.

1. The law of the issuing state governs the nature, extent, amount, and duration of current payments and other obligations of support and the payment of arrearages under the order.
2. In a proceeding for arrearages, the statute of limitation under the laws of this state or of the issuing state, whichever is longer, applies.

14-12.2-39. (605) Notice of registration of order.

1. When a support order or income-withholding order issued in another state is registered, the registering tribunal shall notify the nonregistering party. Notice must be given by first-class, certified, or registered mail or by any means of personal service authorized by the law of this state. The notice must be accompanied by a copy of the registered order and the documents and relevant information accompanying the order.
2. The notice must inform the nonregistering party:
 - a. That a registered order is enforceable as of the date of registration in the same manner as an order issued by a tribunal of this state;
 - b. That a hearing to contest the validity or enforcement of the registered order must be requested within twenty days after the date of mailing or personal service of the notice;
 - c. That failure to contest the validity or enforcement of the registered order in a timely manner will result in confirmation of the order and enforcement of the order and the alleged arrearages and precludes further contest of that order with respect to any matter that could have been asserted; and
 - d. Of the amount of any alleged arrearages.
3. Upon registration of an income-withholding order for enforcement, the registering tribunal shall notify the obligor's employer.

14-12.2-40. (606) Procedure to contest validity or enforcement of registered order.

1. A nonregistering party seeking to contest the validity or enforcement of a registered order in this state shall request a hearing within twenty days after the date of mailing or personal service of notice of the registration. The nonregistering party may seek to vacate the registration, to assert any defense to an allegation of noncompliance with the registered order, or to contest the remedies being sought or the amount of any alleged arrearages pursuant to section 14-12.2-41.
2. If the nonregistering party fails to contest the validity or enforcement of the registered order in a timely manner, the order is confirmed by operation of law.
3. If a nonregistering party requests a hearing to contest the validity or enforcement of the registered order, the registering tribunal shall schedule the matter for hearing and give notice to the parties by first-class mail of the date, time, and place of the hearing.

14-12.2-41. (607) Contest of registration or enforcement.

1. A party contesting the validity or enforcement of a registered order or seeking to vacate the registration has the burden of proving one or more of the following defenses:
 - a. The issuing tribunal lacked personal jurisdiction over the contesting party;

- b. The order was obtained by fraud;
 - c. The order has been vacated, suspended, or modified by a later order;
 - d. The issuing tribunal has stayed the order pending appeal;
 - e. There is a defense under the law of this state to the remedy sought;
 - f. Full or partial payment has been made; or
 - g. The statute of limitation under section 14-12.2-38 precludes enforcement of some or all of the arrearages.
2. If a party presents evidence establishing a full or partial defense under subsection 1, a tribunal may stay enforcement of the registered order, continue the proceeding to permit production of additional relevant evidence, and issue other appropriate orders. An uncontested portion of the registered order may be enforced by all remedies available under the law of this state.
 3. If the contesting party does not establish a defense under subsection 1 to the validity or enforcement of the order, the registering tribunal shall issue an order confirming the order.

14-12.2-42. (608) Confirmed order. Confirmation of a registered order, whether by operation of law or after notice and hearing, precludes further contest of the order with respect to any matter that could have been asserted at the time of registration.

14-12.2-43. (609) Procedure to register child support order of another state for modification. 3. At such hearing the committee shall consider testimony and documentary evidence with respect to any of the following factors:

- a. The value and amount of all school property and all bonded and other indebtedness of each school district affected by a change in boundaries.

6. a. If the annexation is approved by the state board, the county committee may cause a tax to be levied against each district affected in accordance with section 15-47-21 which will equalize the several interests fairly. The unobligated cash balance in excess of ten thousand dollars not designated for indebtedness is a credit for those who own property within the annexed school district against taxes levied by the receiving school district in the year or years following the annexation based on the previous five-year average of the total mills levied for education by the district being annexed, as calculated by the county auditor. The cash refunds must be calculated proportionately to the total taxable value of the annexed district during the last year taxes were levied.
7. If the school districts involved in the proposed annexation are situated in more than one county, the county committee of the county encompassing the major portion of each school district shall consider and jointly effect the annexation if a majority of the members of each of such county committees approves the annexation. If the annexation is approved by a majority of the members of one of the two county committees, the county superintendent of the county in which the annexing district is located shall submit the annexation to the state board for approval or disapproval, and in such instance approval of the annexation shall have the same effect as approval by all county committees.
8. 7. Whenever a petition for annexation has failed to be approved by any county committee, a petition involving any of the same area may not be submitted to the county committee for a period of three months after the filing of the original petition with the county. The petition may not be submitted to considered by the county committee more than twice in twelve consecutive months.
8. 8. Whenever a petition for annexation has failed to be approved by the state board, a petition involving any of the same area may not be

submitted to the state board county committee for a period of three months after the filing of the petition state board's determination not to approve the annexation. The petition may not be submitted to considered by the state board more than twice in twelve consecutive months.

- ~~10- 9.~~ If the school districts are situated in more than one county but the major portions of both such school districts are situated in the same county, the county committee of such county shall consider the matter.
- 11- 10. Any determination made by a single county committee with respect to an annexation proposed under this section may be appealed to the state board. A decision of the state board with respect to a proposed annexation may in turn be appealed to the district court of the judicial district in which the territory proposed is located in accordance with chapter 28-32.

If the county committee fails to call a hearing or to give the required public notice, a petition signed by twenty-five percent of the qualified electors in the area proposed to be included in the new school district and presented to the committee makes it mandatory for a hearing to be called. Notice of the hearing must be published within ten days after the petition has been filed, and must set forth the date selected for the hearing, which may not be more than twenty days after the date of publication. The county committee shall also hear at such time as may be fixed by it, testimony offered by any person or school district interested in the reorganization proposal. The testimony and documentary evidence considered by the county committee must include any information regarding the following factors:

1. The value and amount of all school property of whatever nature involved in the proposed action.
2. The nature, amount, and value of all bonded, warrant, and other indebtedness of each school district affected by the proposed action, including all unexecuted obligations with separate consideration given to the amount of outstanding indebtedness incurred for current expenses, the amount incurred for permanent improvements, and the location of such improvements in order that an equitable adjustment of all property, debts, and liabilities among the districts involved be made.

SECTION 8. AMENDMENT. Section 15-27.3-06 of the North Dakota Century Code is amended and reenacted as follows:

AN ACT to amend and reenact sections 15-27.3-10, 15-27.3-19, 15-27.3-20, 15-40.1-16, and 15-40.1-18 of the North Dakota Century Code, relating to the school district transportation services and changes in school district reorganization proposals.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

15-27.3-10. Transportation required provisions effective until changed. A reorganized school district shall establish a schedule of transportation payments as is proper under the circumstances affecting that district, but the schedule of payments may not be less than the amount determined under subsection 2 of section 15-40.1-16 for state aid for family-type transportation effective before August 1, 1995, must remain in effect until changed in accordance with section 15-27.3-19.

SECTION 2. AMENDMENT. Section 15-27.3-19 of the North Dakota Century Code is amended and reenacted as follows:

15-27.3-19. Changes in reorganization proposal. At any time after the reorganization proposal has become effective, any provision of the reorganization proposal, including provisions affecting the adjustment of assets and liabilities but excepting provisions defining the boundaries of the district, may be changed by a majority vote of the qualified electors without approval of the state board or the county committee. The school board in the reorganized district may, upon its own motion, or shall, upon the filing with it of a petition signed by qualified electors equal in number to twenty percent of the persons enumerated in the most recent school district census, unless the census is greater than four thousand, in which case only fifteen percent of the number of persons enumerated in the school census is required, submit the question of authorizing a change in the school district's adopted reorganization proposal at the next regular or special election. However, not fewer than twenty-five signatures of qualified electors is required unless the district has fewer than twenty-five qualified electors, in which case the petition must be signed by not less than twenty-five percent of the qualified electors of the district. In districts with fewer than twenty-five qualified electors, the county superintendent for the county in which the school is located shall determine the number of qualified electors in the district. If a majority of all votes cast by the electors residing in each of the

If a reorganization plan has been in effect for at least ten years, any proposed change to geographic voting areas is effective upon a majority vote in an election at large by the qualified electors of the district. A school board in a reorganized school district may change, by resolution, to at large voting for school board candidates if there is a variance of more than ten percent in the population between any of the district's established geographic areas with resident candidates.

SECTION 3. AMENDMENT. Section 15-27.3-20 of the North Dakota Century Code is amended and reenacted as follows:

15-27.3-20. Powers of school board in reorganized district - Exceptions. After five years from the effective date of the reorganization proposal, the school board of a reorganized district shall exercise the powers granted to a school board by section 15-29-08 or any other provisions of law regardless of limitations contained in the reorganization proposal. This section does not authorize the school board of a reorganized district to exercise any powers prohibited or limited by section ~~15-27.3-10, 15-27.3-17, or 15-27.3-19.~~

 - b. The mileage payments provided for in this subsection must be made to each school district for transporting students to and from school. Payments may be made only to school districts operating schoolbuses in

2. For students transported by family transportation in accordance with section 15-34.2-03, the state shall reimburse school districts in an amount determined by using the rate of forty cents per day for each mile [1.61 kilometers] over two miles [3.22 kilometers] according to the distance between the student's home and the school. The superintendent shall use the difference to increase the per student payments provided for in subsections 1 and 2 of section 15-40.1-16 by the same amount under each subsection.~~ For purposes of this section, actual costs include the transportation operating expenditures reported to the superintendent of public instruction for the most recent year plus the eight-year average cost of transportation equipment determined by the superintendent of public instruction.

SCHOOL DISTRICT DISSOLUTION TAX CREDITS

AN ACT to amend and reenact section 15-27.4-03 of the North Dakota Century Code, relating to tax credits resulting from the dissolution of school districts.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

⁹⁰ **SECTION 1. AMENDMENT.** Section 15-27.4-03 of the North Dakota Century Code is amended and reenacted as follows:

15-27.4-03. Unobligated cash balance of dissolved school district - Tax credits. The unobligated cash balance in excess of ten thousand dollars which is not designated for indebtedness of any school district dissolved after January 1, 1989, is a credit for those who own property within the dissolved school district against taxes levied by the school district the dissolved school district is attached to in the year or years following the dissolution based on the previous five-year average of the total mills levied for education by the district being annexed, as calculated by the county auditor. If a school district is dissolved and attached to more than one school district, the credit that those who own property within the attached school district receive from the receiving school district must be in the same proportion to the remaining unobligated cash balance as the taxable valuation of the property bears to the total taxable valuation of the property in the school district that existed prior to dissolution. Upon approval of the board of county commissioners, a political subdivision required to provide a tax credit under this section may provide a cash refund in lieu of the tax credit. At the request of the county auditor, the school district holding the unobligated cash balance shall pay to the county treasurer the amount to be paid to those who own property within the dissolved district. The treasurer shall issue the refund to the owner of the property, as shown on the county's assessment list at the time of payment. If there is a lien for unpaid taxes against the property, the treasurer shall first apply the tax credit toward the outstanding balance. The amount remaining may then be paid to the property owner.

AN ACT to amend and reenact section 15-28-02 of the North Dakota Century Code, relating to definitions of rural and urban areas for purposes of school board membership elections; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-28-02 of the North Dakota Century Code is amended and reenacted as follows:

15-28-02. Rural members of school board - Definitions. When a school district is composed of six or more sections of land having a city within its boundaries and when the population of the school district does not exceed two thousand persons, at least two members of the school board must be residents upon farms outside the corporate limits of the city. When a school district is composed of six or more sections of land and has within its boundaries a city with a population of more than two thousand but less than fifteen thousand persons, and has at least twenty-five families residing upon farms outside the corporate limits of the city but upon farmsteads located within the school district and sending children to school in such school district, at least one member of the board must be a resident upon a farm outside the corporate limits of the city. However, if the taxable valuation of agricultural property in the rural area of a school district containing a city is greater than the taxable valuation of the urban area of the district, the majority of the members of the school board shall reside upon farms outside the corporate limits of the city; provided, that all voters of the school district, regardless of whether the district is reorganized, are entitled to vote for each candidate to the school board whenever the variance in population between any of the geographic voting areas of the school district is in excess of ten percent.

For purposes of this section, school board members must be considered as rural members and as residing upon a farm if they reside within a city that according to the latest federal census has a population of two hundred or less and is located within a school district that has four or more incorporated cities within its boundary. SCHOOL BOARD MEMBER TERMS

AN ACT to amend and reenact section 15-28-03 of the North Dakota Century Code, relating to the terms of office of school board members.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-28-03 of the North Dakota Century Code is amended and reenacted as follows:

15-28-03. Annual and special elections - When held - Officers elected - Terms - Optional joinder with city election or primary election.

1. An annual election must be held in each public school district on a date between April first and June thirtieth, at the discretion of the school board. At each annual election, members of the school board must be elected to fill all vacancies ~~therein~~ caused by the expiration of terms of office or otherwise. Each member elected shall serve for a term of three years, except when elected to serve an unexpired term. The term of any elected member commences at the annual meeting in July following the member's election, and continues until a successor is elected and qualified. In addition to the annual election, a special election may be held at any time, if approved by a resolution of the school board, for any purpose provided for by law.
2. The annual election provided for in this section may, upon resolution of the school board, be held in conjunction with the regularly scheduled city election, established by state law or established pursuant to the home rule powers of the city, held in a city located wholly or partially within that school district. The school board may enter into an agreement with the governing body of the city concerning the sharing of election personnel, the printing of election materials, the use of one set of pollbooks, and the apportioning of election expenses. If only one set of pollbooks is used, the pollbook must contain a reference indicating the voter's eligibility to vote in the city or school board election, or both. References in this chapter to the date of school board elections, insofar as they relate to a school board that holds its elections in conjunction with a city, are deemed to mean or to refer to the date of the applicable city election.
3. Such a A school board ~~has the further option to~~ may convert the terms of office of its members to four years rather than three years in order that school board elections like city elections may be held biennially rather than annually. A school board may convert the future terms of its members to four years by passing a resolution requiring the conversion. Upon the expiration of the three-year term of each incumbent in office on the date the resolution is passed, the term of office for that position on the board is four years, except that the resolution may provide that one of the positions being converted to a

four-year term must first be converted to one two-year term before becoming a four-year term. If the resolution provides for one two-year term, that term must be chosen by lot. If the extension of a term to four years results in the term ending in an odd-numbered year, one additional and transitional term of three years must be provided before the term becomes a four-year term of office. Once the school board has accomplished the transition to biennial elections, references in this title to annual elections as they apply to the school board are deemed to mean biennial elections, and the election held pursuant to section 15-28-11 must be held in even-numbered years.

4. A school board that has converted the terms of its members to four years may revert to three-year terms by passing a resolution providing for the reversion. When the four-year term of each board member holding office on the date of the resolution's passage expires, the term of office for that position becomes three years.

~~3~~ 5. If the school election is held in conjunction with the primary election, the school board may enter into an agreement with the governing body of the county or counties in which the district lies concerning use of a single canvassing board, the sharing of election personnel, the printing of election materials, and the apportioning of election expenses.

HOME-BASED SCHOOL INSTRUCTION

AN ACT to amend and reenact sections 15-34.1-06 and 15-34.1-07 of the North Dakota Century Code, relating to home-based instruction.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-34.1-06 of the North Dakota Century Code is amended and reenacted as follows:

15-34.1-06. Home-based instruction. Home-based instruction is an educational program for students based in the child's home and supervised by the child's parent or parents. A parent who provides home-based instruction may only invoke the home-based instruction exception to compulsory attendance. A parent is qualified to supervise a program of home-based instruction if the parent is certified to teach in North Dakota; has a ~~high school education or has received a general educational development certificate and is monitored by a certified teacher baccalaureate degree~~; or has met or exceeded the cut-off score of the national teacher exam given in North Dakota, or in any other state if North Dakota does not offer such a test. A parent who has a high school diploma or a general education development certificate is qualified to supervise home-based instruction but must be monitored by a certificated teacher during the first two years the parent supervises that instruction, and if the child being instructed receives a composite standardized achievement test score below the fiftieth percentile nationally, the monitoring required by this section must continue during the following school year or longer if the child has not achieved the fiftieth percentile. Home-based instruction must include those subjects required to be taught in accordance with sections 15-38-07, 15-41-06, and 15-41-24 and must be provided for at least four hours per day for a minimum of one hundred seventy-five days per year. Every parent supervising home-based instruction shall maintain an annual record of courses taken by the child and the child's academic progress assessments, including any standardized achievement test results. A parent shall furnish these records to any school to which the child may transfer upon request of the superintendent or other administrator of that public school district. A parent intending to supervise home-based instruction for the parent's child shall file an annual statement with the superintendent of the public school district in which the child resides. If the school district does not employ a local school superintendent, the statement must be filed with the county superintendent of schools for the county of the child's residence. The statement must be filed at least thirty days prior to the beginning of the school semester for which the parent requests an exemption except when residency of the child is not established by that date. If residency has not been established, the statement must be filed within thirty days of the establishment of residency within the district. The statement must include:

1. The names and addresses of the parent who will supervise and the child who will receive home-based instruction;
2. The date of birth and grade level of each child;

3. The intention of the parent to supervise home-based instruction;
4. The qualifications of the parent who will supervise the home-based instruction;
5. A list of courses or extracurricular activities in which the child intends to participate in the public school district;
6. Proof of an immunization record as it relates to section 23-07-16;
7. Proof of identity as it relates to section 54-23.2-04.2; and
8. An oath or affirmation that the parent will comply with all provisions of this chapter.

SECTION 2. AMENDMENT. Section 15-34.1-07 of the North Dakota Century Code is amended and reenacted as follows:

15-34.1-07. Students receiving home-based instruction - Quality assurance. In order to meet the state's compelling interest in assuring that citizens of the state receive a quality education, the following minimum indices of quality education are established:

1. A standardized achievement test used by the public school in the school district in which the parent resides or, if requested by the parent, a nationally normed standardized achievement test used by a state-approved nonpublic school must be given ~~annually~~ to each child receiving home-based instruction ~~starting with grade three and annually thereafter in grades three, four, six, eight, and eleven.~~ The test must be given in the child's learning environment or the public school and must be administered by a certified teacher. The cost of such testing must be borne by the local school district in which the parent resides if the test is administered by a certified teacher employed by a public school district or by the parent of the child if the test is ~~administered by a certified teacher not employed by a public school~~ a nationally normed standardized achievement test requested by the parent. Results of such testing must be filed with the local public school superintendent. If the parent resides in a school district which does not employ a local school superintendent, the results must be filed with the county superintendent of schools for the county of the parent's residence.
2. If the child's basic composite score on a standardized achievement test falls below the thirtieth percentile nationally, the child must be professionally evaluated for a potential learning problem. If the multidisciplinary assessment team evaluation determines that the child is not handicapped according to the eligibility criteria of the department of public instruction and the child does not require specially designed instruction according to rules adopted by the department of public instruction, the parent providing instruction may continue to provide home-based instruction, upon filing with the superintendent of public instruction a statement, from an appropriately licensed professional, that the child is currently making reasonable academic progress when the learning abilities of the child are taken into consideration. If such statement is not filed, the parent is not entitled to an exemption under subsection 5 of section 15-34.1-03. If the evaluation of the multidisciplinary assessment team determines that the child is

handicapped, but not developmentally disabled, according to the eligibility criteria of the department of public instruction, and the student requires specially designed instruction due to the handicap and that this instruction cannot be provided without special education and related services, the parent providing instruction may continue to provide home-based instruction, upon filing with the superintendent of public instruction an individualized education program plan, formulated within rules adopted by the department of public instruction, indicating that the child's needs for special education are being appropriately addressed by persons qualified to provide special education or related services. If such a plan is not filed, the parent is not entitled to an exemption under subsection 5 of section 15-34.1-03.

3. Any certified teacher monitoring home-based instruction shall spend a minimum average of one hour per week in contact with the first student and in conjunction with the parent. With two or more children under supervision, the teacher shall monitor a minimum additional one-half hour per month for each child under the teacher's supervision who is receiving home-based instruction. The time may be reduced proportionately if the child is in attendance in a public school or an approved private school. The teacher shall evaluate the student's progress and report the student's progress at least twice annually to the local public school superintendent. If the school district does not employ a local school superintendent, the report must be filed with the county superintendent of schools for the county of the child's residence.
4. If the local superintendent of public schools or the county superintendent of schools in those school districts that do not employ a local superintendent determines that the child is not making reasonable academic progress consistent with the child's age or stage of development, the parent of the child must be notified of the conclusion reached and the basis for the conclusion. Upon receipt of that notice, the parent shall make a good faith effort to remedy any deficiency. The appropriate official shall report the failure on the part of a parent to make a good faith effort to the state's attorney pursuant to section 15-34.1-04 as a violation of this chapter. The superintendent of public instruction shall adopt rules to assist local superintendents of schools, county superintendents of schools, and the licensed professionals referred to in subsection 2, in determining whether a child is making reasonable academic progress.

For the purposes of this subsection, final average monthly salary means one thirty-sixth of the total of the member's highest annual salaries earned between July first of a calendar year and June thirtieth of the subsequent calendar year for any three years of service under the fund.

3. Notwithstanding any other provision of this section, no member who retired on July 1, 1993, or after and is eligible to receive benefits under former chapter 15-39, chapter 15-39.1, or section 15-39.2-02, may receive benefits which are less than:

2. The amount of the disability annuity is the greater of the amount computed by the retirement formula in section 15-39.1-10 without consideration of age or the amount computed by that formula without consideration of age but assuming the member had twenty years of credited service. A member determined eligible for a disability annuity under this section may elect to receive an annuity under any of the options allowed in section 15-39.1-16.
3. The disability annuity continues until the death or prior recovery of the disabled annuitant. The board shall ascertain by periodic medical examinations the continued disability status of a disabled annuitant.
4. If a disabled annuitant recovers and returns to active teaching, that annuitant is entitled to the retirement benefit credits which the annuitant earned prior to the time of disablement, and the credits which the annuitant earned after returning to active teaching must be added to those earned prior to disablement.
5. ~~If the member elected a disability annuity under an option allowed under section 15-39.1-16, then subsequent retirement benefits must also be under that option.~~

SECTION 5. AMENDMENT. Section 15-39.1-20 of the North Dakota Century Code is amended and reenacted as follows:

15-39.1-20. Withdrawal from fund. The one-hundred-twenty-day requirement may be waived by the board when it has evidence the teacher will not be returning to teach in North Dakota. The refund is in lieu of any other benefits to which the member may be entitled under the terms of this chapter. The accumulated assessments of a member who ceases to be eligible to participate in the fund before accumulating five years of service credit must be automatically refunded. The assessments plus interest earned, if not claimed by the member, must be returned during the month of January next following the date of termination. The automatic refund must be waived provided the member presents the board with a statement of intent to return to teach in North Dakota within thirty-six months after eligibility to participate in the fund ceases. The board may waive the automatic refund for members who present to the board a statement of intent to return to teach in North Dakota within a period exceeding thirty-six months after eligibility to participate in the fund ceases. For distributions made after January 1, 1993, notwithstanding any provision of the plan to the contrary that would otherwise limit a member's refund election under this chapter, a member may elect, at the time and under rules established by the board, to have any portion of an eligible rollover distribution paid directly in a direct rollover to an eligible retirement plan specified by the member.

SECTION 6. AMENDMENT. Section 15-39.1-24 of the North Dakota Century Code is amended and reenacted as follows:

15-39.1-24. Purchase of additional credit. Prior to retirement a teacher may purchase additional credit for use toward retirement in the following instances and manner:

1. Any teacher may purchase service credit for years of teaching service at an out-of-state school or educational institution supported by public taxation out of North Dakota. However, a teacher must complete five years of creditable service in this state before the teacher is eligible to purchase the first five years of service credit for out-of-state teaching under this subsection. The teacher may purchase any part of the remaining years of service credit for out-of-state teaching with each year of service credit conditional upon the teacher completing one additional year of creditable service in this state following the out-of-state teaching. The years of out-of-state teaching service do not qualify for credit in this state if the years claimed also qualify for retirement benefits from an out-of-state retirement system.
2. Any teacher who has received an honorable discharge from military service of the United States of America may receive credit for no more than four years of active service, upon filing application and proof with the board and subject to the terms of this chapter upon teaching one year in North Dakota subsequent to military service. Members qualified to receive military credit under the Veterans' Reemployment Rights Act [Pub. L. 93-508; 88 Stat. 1594; 38 U.S.C. 2021 et seq.] shall only pay member assessments plus interest pursuant to rules adopted by the board. For those individuals becoming eligible to receive military credit under the Veterans' Reemployment Rights Act after June 30, 1991, the employer shall pay the required employer contribution for military service.

3. A teacher who attends a college, university, or other recognized school for two consecutive semesters or three consecutive quarters, other than summer sessions, for the purpose of improving the teacher's qualifications in the teaching profession is entitled to have such periods while in attendance at that college, university, or school credited, not to exceed three years of teaching service, under this chapter. To be eligible for purchasing credit under this subsection, the teacher must have taught at least one full school year in North Dakota immediately preceding entrance into the college, university, or school, or, immediately following such training, the teacher must have taught not less than one full school year in a public school or state institution of this state.
4. A teacher may purchase service credit for the time during each legislative session spent serving as a member of the legislative assembly while holding eligible employment under this chapter. Service credit for a legislative session must be purchased within one year after the adjournment of that legislative session. As an alternative to a teacher purchasing service credit under this subsection, a teacher and the governmental body employing the teacher may enter into an agreement by which payment for service credit for time spent during each legislative session by the teacher serving as a member of the legislative assembly is made pursuant to section 15-39.1-09. The agreement must provide that contributions made pursuant to section 15-39.1-09 are calculated based on the teacher's annual salary without reduction for a leave of absence taken by the teacher during the legislative session.
5. A teacher may purchase credit for service as an administrator or teacher in the field of education if employed by an agency of the United States government teaching school age children. The maximum service that may be purchased under this subsection is ten years.
6. An active teacher who is elected president of a professional educational organization recognized by the board and who serves in a full-time capacity in lieu of teaching may purchase service credit for the time spent serving as president. The service credit must be purchased within one year after the teacher leaves the position. As an alternative to purchasing service credit under this subsection, a teacher and the governmental body employing the teacher may enter into an agreement under which payment for service credit for the time spent as president of the professional educational organization is made pursuant to section 15-39.1-09. The agreement must provide that contributions made pursuant to section 15-39.1-09 are calculated based on the teacher's annual salary as president.
7. Except as provided in subsections 2 ~~and~~, 4, and 6, the amount of additional service eligible to be purchased under this section must be credited to the teacher when the teacher has made the required payment. In all cases, the purchase cost must be on an actuarial equivalent basis.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 15-40.1 of the North Dakota Century Code is created and enacted as follows:

Per student payments for small but necessary schools. Per student payments made in accordance with sections 15-40.1-07 and 15-40.1-08 must be adjusted as follows:

1. For each elementary school that has less than fifty students and in which fifteen percent or more of the elementary students enrolled would have to travel beyond a fifteen-mile [24.15-kilometer] radius from their residences in order to attend another school, the weighting factor provided under section 15-40.1-08 must be increased by twenty percent for the first fifteen students. If the school has fewer than fifteen students, the payment received must be for fifteen students.
2. For each high school that has less than thirty-five students and in which fifteen percent or more of the high school students enrolled would have to travel beyond a twenty-mile [32.2-kilometer] radius from their residences in order to attend another school, the weighting factor provided under section 15-40.1-07 must be increased by twenty percent for the first twenty students. If the school has fewer than twenty students, the payment received must be for twenty students.

SECTION 2. A new section to chapter 15-40.1 of the North Dakota Century Code is created and enacted as follows:

Per student payments for students attending school out of state. For each student attending school out of state in accordance with section 15-40.2-09, the weighting factors provided in sections 15-40.1-07 and 15-40.1-08 must be increased by twenty percent.

⁹⁴ SECTION 3. AMENDMENT. Section 15-40.1-06 of the North Dakota Century Code is amended and reenacted as follows:

15-40.1-06. Declaration of legislative intent - Educational support per student - School district equalization factor - Limitations.

1. It is the intent of the legislative assembly, not considering any separate and supplemental payments as may be provided by law, to support elementary and secondary education in this state from state funds based on the educational cost per student. In determining the educational cost per student, the following criteria may not be used:
 - a. Expenditures for capital outlay for buildings and sites, or debt service.
 - b. Expenditures from school activities and school lunch programs.
 - c. Expenditures for the cost of transportation, including the cost of schoolbuses.
2.
 - a. The educational support per student during the first year of the ~~1993-95~~ 1995-97 biennium must be one thousand ~~five~~ seven hundred ~~seventy~~ fifty-seven dollars and for the second year of the biennium the educational support per student must be one thousand ~~six~~ eight hundred ~~thirty-six~~ sixty-two dollars and is the basis for calculating grants-in-aid on a per student basis as provided in sections 15-40.1-07 and 15-40.1-08.
 - b. School districts operating high schools not meeting the minimum curriculum as provided in section 15-41-24 or the teacher qualifications in section 15-41-25 must be supported in the amount of two hundred twenty dollars, which is the basis for calculating grants-in-aid on a per student basis as provided in section 15-40.1-07.
 - c. School districts operating high schools that are not accredited pursuant to the accreditation standards adopted by the superintendent of public instruction on July 1, 1991, or that become unaccredited in any succeeding school year must be supported for the 1991-92 school year or for the first year that they become unaccredited in the amount of the educational support per student established in subdivision a, which is the basis for calculating grants-in-aid on a per student basis as provided in section 15-40.1-07, but those school districts are not entitled to the amounts resulting from applying the factors in that section. The amount of aid a school district is entitled to under this subsection for each high school that is not accredited must be reduced by two hundred dollars times the number of students in the school for the second school year that the high school is unaccredited, and an additional two hundred dollars per student in the unaccredited school for each

⁹⁴ Section 15-40.1-06 was also amended by section 2 of Senate Bill No. 2063, chapter 194.

additional year the school remains unaccredited. Any high school that becomes accredited is entitled to the per student payments provided for in section 15-40.1-07 for the entire school year in which the school becomes accredited.

- d. School districts operating elementary schools that are not accredited pursuant to the accreditation standards adopted by the superintendent of public instruction on July 1, 1992, or that become unaccredited in any succeeding school year must be supported for the 1992-93 school year or for the first year that they become unaccredited in the amount of the educational support per student established in subdivision a, which is the basis for calculating grants-in-aid on a per student basis as provided in section 15-40.1-08, except that the amount of aid that a school district is entitled to under this subsection for each elementary school that is unaccredited must be reduced by two hundred dollars times the number of students in the school each year that the elementary school is unaccredited. Any elementary school that becomes accredited is entitled to the per student payments provided for in section 15-40.1-08 for the entire school year in which the school becomes accredited.
3. In determining the amount of payments due school districts for tuition apportionment provided in section 15-44-03, and per student and transportation aid under this section, the amount of tuition apportionment, per student aid, and transportation aid for which a school district is eligible must be added together, and from that total, the following amounts must be subtracted:
 - a. The product of ~~twenty-three~~ twenty-eight mills for the ~~1993-94~~ 1995-96 school year and ~~twenty-four~~ thirty-two mills for ~~each year thereafter~~ the 1996-97 school year times the latest available net assessed and equalized valuation of property of the school district. For succeeding school years, the number of mills to be used in the computation must be determined as follows:
 - (1) The superintendent of public instruction shall determine the percentage resulting from dividing the number of mills used in the computation the previous year by the state average school district general fund mill levy.
 - (2) The superintendent of public instruction shall determine the amount of foundation aid estimated to be distributed during the current year and subtract from that the amount of foundation aid that was distributed during the prior year, and divide the result by the amount of foundation aid distributed during the prior year.
 - (3) The superintendent of public instruction shall multiply the quotient determined under paragraph 2 by forty percent and shall add this product to the percentage obtained in paragraph 1. This sum shall be multiplied times the state average school district general fund mill levy to determine the number of mills to be used in the computation provided in subdivision a. However, the number of mills used may not

fall below thirty-two mills, nor rise above twenty-five percent of the state average school district general fund mill levy.

- b. The amount that the unobligated general fund balance of a school district on the preceding June thirtieth is in excess of three-fourths of the actual expenditures, plus an additional twenty thousand dollars.
4. No school district may receive foundation payments beyond the October payment unless the following reports have been filed with the superintendent of public instruction:
 - a. Annual average daily membership report.
 - b. Annual school district financial report.
 - c. The September tenth fall enrollment report.
 - d. The personnel report forms for certified and noncertified employees.
 5. No school district may receive the January foundation payment unless the taxable valuation and mill levy certifications are on file with the department of public instruction by December fifteenth.

SECTION 4. AMENDMENT. Section 15-40.1-07 of the North Dakota Century Code is amended and reenacted as follows:

15-40.1-07. High school per student payments - Amount - Proportionate payments. Payments must be made each year from state funds to each school district operating a high school and to each school district contracting to educate high school students in a federal school, subject to adjustment as provided in section 15-40.1-09, as follows:

1. For each high school district having under seventy-five students in average daily membership in grades nine through twelve, the amount of money resulting from multiplying the factor 1.625 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.625 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of high school students in grades nine through twelve registered in that school district, times the educational support per student as provided in section 15-40.1-06. Beginning July 1, ~~1994~~ 1996, the factor is 1.625 adjusted by ~~five~~ sixty-five percent of the difference between 1.625 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
2. For each high school district having seventy-five or more, but less than one hundred fifty students in average daily membership in grades nine through twelve, the amount of money resulting from multiplying the factor 1.335 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.335 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of high school students in grades nine through twelve registered in that school district, times the educational support per student provided in section 15-40.1-06.

Beginning July 1, ~~1994~~ 1996, the factor is 1.335 adjusted by ~~fifty~~ sixty-five percent of the difference between 1.335 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.

3. For each high school district having one hundred fifty or more, but less than five hundred fifty students in average daily membership in grades nine through twelve, the amount of money resulting from multiplying the factor 1.24 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.24 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of high school students in grades nine through twelve registered in that school district, times the educational support per student provided in section 15-40.1-06. Beginning July 1, ~~1994~~ 1996, the factor is 1.24 adjusted by ~~fifty~~ sixty-five percent of the difference between 1.24 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
4. For each high school district having a total high school enrollment of five hundred fifty or more students in average daily membership in grades nine through twelve, the amount of money resulting from multiplying the factor 1.14 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.14 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of high school students in grades nine through twelve registered in that school district, times the educational support per student provided in section 15-40.1-06. Beginning July 1, ~~1994~~ 1996, the factor is 1.14 adjusted by ~~fifty~~ sixty-five percent of the difference between 1.14 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
5. For high schools having an approved alternative education program, the amount of money resulting from multiplying the factor in:
 - a. Subsection 1 times the number of students registered in the alternative education program, times the educational support per student provided in section 15-40.1-06, if the alternative education program has less than seventy-five students in average daily membership.
 - b. Subsection 2 times the number of students registered in the alternative education program, times the educational support per student provided in section 15-40.1-06, if the alternative education program has seventy-five or more, but less than one hundred fifty students in average daily membership.
 - c. Subsection 3 times the number of students registered in the alternative education program, times the educational support per student provided in section 15-40.1-06, if the alternative education program has one hundred fifty or more, but less than five hundred fifty students in average daily membership.
 - d. Subsection 4 times the number of students registered in the alternative education program times the educational support per

student as provided in section 15-40.1-06 if the alternative education program has five hundred fifty or more students in average daily membership.

Every high school district must receive at least as much in total payments as it would have received if it had the highest number of students in the next lower category. Payments may not be made unless four or more units of standard high school work approved by the superintendent of public instruction are offered during the current year, only certificated teachers have been employed, and the other standards prescribed by this chapter have been met. Payments must be made to the high school district in which the student is enrolled for graduation and units of approved vocational education in accordance with the provisions of chapter 15-20.1, and other courses approved by the superintendent of public instruction, earned in another high school district must be included to meet the minimum four required units. In the case of students enrolled in nonpublic schools for graduation or students enrolled in less than four units of standard high school work who are in their fourth year of high school coursework and who are enrolled in approved alternative high school curriculum programs, proportionate payments must be made to the public school district in which the student is enrolled for specific courses. School districts offering high school summer school programs are eligible for proportionate payments provided each course offered satisfies requirements for graduation, comprises at least as many clock hours as courses offered during the regular school term, and complies with rules adopted by the superintendent of public instruction. The superintendent may adopt rules regarding eligibility for school districts to receive proportionate payments for summer education programs. The proportionate payment made under this section during the biennium for high school summer school programs may not exceed one and one-half percent of the total amount appropriated by the legislative assembly for foundation aid and transportation aid during the biennium.

SECTION 5. AMENDMENT. Section 15-40.1-08 of the North Dakota Century Code is amended and reenacted as follows:

15-40.1-08. Elementary per student payments - Amount. Payments must be made from state funds to each school district operating an elementary school and to each school district contracting to educate elementary students in a federal school, employing teachers holding valid certificates or permits in accordance with section 15-47-46 and chapter 15-36, adjusted as provided in section 15-40.1-09, as follows:

1. For each one-room rural school, the amount of money resulting from multiplying the factor 1.28 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.28 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of students in that school in grades one through eight in average daily membership, up to a maximum of sixteen students, times the educational support per student provided in section 15-40.1-06. There must be paid .9 times each additional student in its school in grades one through eight in average daily membership times the educational support per student provided in section 15-40.1-06, except that no payment may be made for more than twenty students in average daily membership. If the one-room rural school is located in a school district with another elementary school, the weighting factor for the students in grades one through six must be based on the average daily membership in the district in grades one through six as provided in subsections 2 through 4. If the one-room rural school is located in a school district with another school that has students in grade seven or eight, the weighting factor for the students in grade seven or

- eight must be the same as that provided for in subsection 5. Beginning July 1, ~~1994~~ 1996, the factor is 1.28 adjusted by ~~twenty-five~~ fifty sixty-five percent of the difference between 1.28 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
2. For each elementary school in school districts having under one hundred students in average daily membership in grades one through six, the amount of money resulting from multiplying the factor 1.09 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.09 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of students in that school in grades one through six in average daily membership in each classroom or for each teacher, ~~up to a maximum of twenty students per classroom or per teacher, times the educational support per student provided in section 15-40.1-06. There must be paid .9 times each additional student in that school in grades one through six in average daily membership in each classroom or for each teacher times the educational support per student provided in section 15-40.1-06,~~ except that no payment may be made for more than twenty-five students in average daily membership in each classroom or for each teacher. Beginning July 1, ~~1994~~ 1996, the factor is 1.09 adjusted by ~~twenty-five~~ fifty sixty-five percent of the difference between 1.09 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
 3. For each elementary school in school districts having one hundred or more students in average daily membership in grades one through six, and provided the districts in which such schools are located have an average daily membership of less than one thousand elementary students in grades one through six, the amount of money resulting from multiplying the factor .905 adjusted by ~~twenty-five~~ fifty percent of the difference between .905 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of students in that school in grades one through six in average daily membership in each classroom or for each teacher times the educational support per student provided in section 15-40.1-06, except that no payment may be made for more than thirty students in average daily membership in each classroom or for each teacher. Beginning July 1, ~~1994~~ 1996, the factor is .905 adjusted by ~~twenty-five~~ fifty sixty-five percent of the difference between .905 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
 4. For each elementary school in school districts having an average daily membership of one thousand or more elementary students in grades one through six, the amount of money resulting from multiplying the factor .95 adjusted by ~~twenty-five~~ fifty percent of the difference between .95 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of students in that school in grades one through six in average daily membership in each classroom or for each teacher times the educational support per student provided in section 15-40.1-06, except that no payment may be made for more than thirty students in average daily membership in each classroom or for each teacher. Beginning July 1, ~~1994~~ 1996, the factor is .95 adjusted by ~~twenty-five~~ fifty

- ~~sixty-five~~ percent of the difference between .95 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction. ~~Beginning July 1, 1995, the factor is .95 adjusted by seventy-five percent of the difference between .95 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction. Beginning July 1, 1996, the superintendent of public instruction shall establish the factor that reflects the five-year average cost of education per student for this category.~~
5. For each of the above classes of elementary schools, except for one-room rural schools that are not located in a district with another school having students in grade seven or eight, there must be paid to each school the amount of money resulting from multiplying the factor 1.01 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.01 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of students in that school in grades seven and eight in average daily membership in each classroom or for each teacher times the educational support per student provided in section 15-40.1-06, except that no payment may be made for more than thirty students in average daily membership in each classroom or for each teacher. Beginning July 1, ~~1994~~ 1996, the factor is 1.01 adjusted by ~~fifty~~ sixty-five percent of the difference between 1.01 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
 6. For each elementary school having students under the compulsory age for school attendance, but not less than three years of age, in a special education program approved by the director of special education, the amount of money resulting from multiplying the factor 1.01 adjusted by ~~twenty-five~~ fifty percent of the difference between 1.01 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of special education students in that school under the compulsory age for school attendance in average daily membership in each classroom or for each teacher times the educational support per student provided in section 15-40.1-06. Beginning July 1, ~~1994~~ 1996, the factor is 1.01 adjusted by ~~fifty~~ sixty-five percent of the difference between 1.01 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.
 7. For each elementary school providing a kindergarten that is established according to provisions of section 15-45-01, the amount of money resulting from multiplying the factor .50 adjusted by ~~twenty-five~~ fifty percent of the difference between .50 and the factor representing the five-year average cost of education per student for this category, as determined by the superintendent of public instruction, times the number of students in that school in average daily membership in each classroom or for each teacher times the educational support per student, as provided under section 15-40.1-06, except that no payment may be made for more than twenty-five students in average daily membership in each classroom or for each teacher. The full per student payment may be made only to those kindergarten programs providing the equivalent of ninety full days of classroom instruction during any twelve-month period. Programs providing shorter periods of instruction during the

same time period must receive a proportionately smaller per student payment. Beginning July 1, ~~1994~~ 1996, the factor is .50 adjusted by ~~fifty~~ sixty-five percent of the difference between .50 and the five-year average cost of education per student for this category, as determined by the superintendent of public instruction.

The superintendent of public instruction shall make proportionate payments to each public school district educating students who are also enrolled in nonpublic schools.

Every school district must receive at least as much in total payments for elementary students as it would have received if it had the highest number of students in the next lower category.

SECTION 6. A new section to chapter 15-40.1 of the North Dakota Century Code is created and enacted as follows:

Supplemental payment to high school districts.

1. The superintendent of public instruction shall calculate the average valuation of property per student by dividing the number of students in average daily membership in grades one through twelve in a high school district into the district's latest available net assessed and equalized taxable valuation of property. If the quotient is less than the latest available statewide average taxable valuation per student and if the district's educational cost per student is below the most recent available statewide average cost of education per student, the superintendent of public instruction shall:
 - a. Determine the difference between the latest available statewide average taxable valuation per student and the average valuation per student in the high school district;
 - b. Multiply the result determined under subsection 1 by the number of students in average daily membership in grades one through twelve in the high school district;
 - c. Multiply the result determined under subsection 2 by the number of general fund mills levied by the district in excess of one hundred thirty-five, provided that any mills levied by the district which are in excess of two hundred may not be used in this calculation; and
 - d. Multiply the result determined at under subsection 3 by twenty-five percent. The result is the supplemental payment to which a high school district is entitled, in addition to any other amount provided under chapter 15-40.1.
2. The supplemental payment contained in subsection 1 is effective through June 30, 1997. If such a plan is to be continued after June 30, 1997, it must be reviewed by an interim committee under the direction of the legislative council. The legislative council shall report its findings and recommendations, including whether or not the plan should be continued and if continued, whether or not the plan should be modified, together with any legislation required to implement the recommendations, to the fifty-fifth legislative assembly.

SECTION 7. AMENDMENT. Section 15-40.1-09 of the North Dakota Century Code is amended and reenacted as follows:

15-40.1-09. Application for payments - Verification and determination of payments for high school students - Report of county superintendent of schools - Appeal. Immediately upon the completion of the registration of students at the beginning of each school term and in no event later than September tenth of each year, the business manager of each school district within or without this state which is claiming payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a claim on a form prescribed by the superintendent of public instruction stating the number of students registered in high school and elementary grades for which payments are claimed, and such other information as may be reasonably requested by the superintendent of public instruction. Not later than December first, the superintendent of public instruction shall certify to the office of management and budget a list of the school districts and schools not operated by school districts entitled to payments from state funds, together with the amounts to which the several districts and schools are entitled. Per student aid as provided under sections 15-40.1-06, 15-40.1-07, and 15-40.1-08 must be computed on the basis of the previous year's average daily membership less the number of students attending school during the current school year in another district under the provisions of open enrollment or the current year's fall enrollment, whichever is greater provides the greatest payment, for all current grade levels. Adjustments must be made in the subsequent year according to a comparison between the average daily membership for the year for which the adjusted payment is being made and the year preceding the year for which the adjusted payment is being made, whichever is greater, for grade levels that existed in both years. The greater of the two preceding years' average daily membership must be used in computing any adjustment in a district's foundation aid payments. For purposes of this chapter, "average daily membership" shall mean the total days all students in a given school are in attendance, including days set aside for the North Dakota education association convention, plus any three holidays selected from those listed in subsections 2 through 10 of section 15-38-04.1 which have been decided upon after consultation with the teachers, the total days all students are absent, and the two parent-teacher conference days authorized in section 15-47-33, divided by one hundred eighty days. School districts educating children of agricultural migratory workers or offering high school summer school programs during the months of June, July, and August shall not be restricted to payments for a one hundred eighty-day school term.

Immediately upon the termination of the school term and in no event later than July fifteenth of each year, the business manager of each school district within or without this state which has received payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a verified statement of the name, residence, and membership of elementary and high school students as provided for in this section, and number of units of high school work taken by each high school student enrolled during the previous school year. The statement shall be attested to by the county superintendent of schools. The county superintendent shall investigate the validity of the statement and shall determine the residence and other qualifications of each student named in the statement. The county superintendent shall certify to the superintendent of public instruction on or before September first of each year the number of enrolled students in each district in the county for the previous school year upon which any adjustment may be based as provided in this section. If any statement is disallowed in whole or in part, notice of the disallowance and the names of students who are disallowed shall be reported to the superintendent of public instruction and to the district filing the statement. Any district may appeal to the superintendent of public

instruction from the determination of the county superintendent of schools on or before September fifteenth in the year in which the determination is made. The superintendent of public instruction may change or modify the determination of the county superintendent if the evidence submitted by the district warrants a modification. The judgment of the superintendent of public instruction shall be final.

SECTION 8. AMENDMENT. Section 57-15-14 of the North Dakota Century Code is amended and reenacted as follows:

57-15-14. Tax levy limitations in school districts. The aggregate amount levied each year for the purposes listed in section 57-15-14.2 by any school district, except the Fargo school district, may not exceed the amount in dollars which the school district levied for the prior school year plus eighteen percent up to a general fund levy of one hundred ~~eighty~~ eighty-five mills on the dollar of the taxable valuation of the district, except that:

1. In any school district having a total population in excess of four thousand according to the last federal decennial census:
 - a. There may be levied any specific number of mills that upon resolution of the school board has been submitted to and approved by a majority of the qualified electors voting upon the question at any regular or special school district election.
 - b. There is no limitation upon the taxes which may be levied if upon resolution of the school board of any such district the removal of the mill levy limitation has been submitted to and approved by a majority of the qualified electors voting at any regular or special election upon such question.
2. In any school district having a total population of less than four thousand, there may be levied any specific number of mills that upon resolution of the school board has been approved by fifty-five percent of the qualified electors voting upon the question at any regular or special school election.
3. In any school district in which the total assessed valuation of property has increased twenty percent or more over the prior year and in which as a result of that increase the school district is entitled to less in state foundation aid payments provided in sections 15-40.1-06 through 15-40.1-08 because of the deduction required in subsection 3 of section 15-40.1-06, there may be levied any specific number of mills more in dollars than was levied in the prior year up to a general fund levy of one hundred ~~eighty~~ eighty-five mills on the dollar of the taxable valuation of the school district. The additional levy authorized by this subsection may be levied for not more than two years because of any twenty percent or greater annual increase in assessed valuation. The total amount of revenue generated in excess of the eighteen percent increase which is otherwise permitted by this section may not exceed the amount of state aid payments lost as a result of applying the deduction provided in subsection 3 of section 15-40.1-06 to the increased assessed valuation of the school district in a one-year period.

The question of authorizing or discontinuing such specific number of mills authority or unlimited taxing authority in any school district must be submitted to the qualified electors at the next regular election upon resolution of the school board or upon the

filing with the school board of a petition containing the signatures of qualified electors of the district equal in number to twenty percent of the number of persons enumerated in the school census for that district for the most recent year such census was taken, unless such census is greater than four thousand in which case only fifteen percent of the number of persons enumerated in the school census is required. However, not fewer than twenty-five signatures are required unless the district has fewer than twenty-five qualified electors, in which case the petition must be signed by not less than twenty-five percent of the qualified electors of the district. In those districts with fewer than twenty-five qualified electors, the number of qualified electors in the district must be determined by the county superintendent for such county in which such school is located. However, the approval of discontinuing either such authority does not affect the tax levy in the calendar year in which the election is held. The election must be held in the same manner and subject to the same conditions as provided in this section for the first election upon the question of authorizing the mill levy.

SECTION 9. LEGISLATIVE COUNCIL STUDY OF EDUCATION FINANCE. The legislative council shall appoint a committee to study the financing of elementary and secondary schools and the availability of state support for school construction. The legislative council shall ensure that the committee contains a balanced representation. During the 1995-96 interim, the committee shall review the formulas used to equalize state aid including formulas for student transportation and special education, funding sources that would be alternatives to property tax, and any other issues related to the financing of elementary and secondary schools. The legislative council shall report its findings and recommendations, together with any legislation necessary to implement the recommendations, to the fifty-fifth legislative assembly.

PER STUDENT SPECIAL EDUCATION PAYMENTS

AN ACT to create and enact a new section to chapter 15-40.1 of the North Dakota Century Code, relating to per student payments for special education; to amend and reenact subsection 3 of section 15-40.1-06, subsection 6 of section 15-40.2-08, sections 15-59-02.1, 15-59-06, and 15-59-07 of the North Dakota Century Code, relating to school district liability for special needs students; to provide legislative intent; and to provide for a legislative council study.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 15-40.1 of the North Dakota Century Code is created and enacted as follows:

Per student payments - Special education. Each biennium, the superintendent of public instruction shall distribute moneys appropriated by the legislative assembly for per student special education payments to each school district in the state on the basis of students in average daily membership. The superintendent of public instruction shall forward the payments, as calculated under subsection 3 of section 15-40.1-06, to eligible school districts in the same manner and at the same time that the superintendent distributes foundation aid payments. For purposes of this section, "special education" means the provision of special services to students who have special needs, including students who are gifted and talented. Expenditures under this section may not conflict with nonsupplanting and maintenance of effort provisions under the Individuals with Disabilities Education Act, 20 U.S.C. 1400 et seq.

⁹⁵ **SECTION 2. AMENDMENT.** Subsection 3 of section 15-40.1-06 of the North Dakota Century Code is amended and reenacted as follows:

3. In determining the amount of payments due school districts for per student ~~and transportation~~ aid under this section, the amount of ~~per student~~ foundation aid, special education aid, and transportation aid for which a school district is eligible must be added together, and from that total, the following amounts must be subtracted:
 - a. The product of twenty-three mills for the 1993-94 school year and twenty-four mills for each year thereafter times the latest available net assessed and equalized valuation of property of the school district.

⁹⁵ Section 15-40.1-06 was also amended by section 3 of Senate Bill No. 2519, chapter 193.

- b. The amount that the unobligated general fund balance of a school district on the preceding June thirtieth is in excess of three-fourths of the actual expenditures, plus an additional twenty thousand dollars.

⁹⁶ SECTION 3. AMENDMENT. Subsection 6 of section 15-40.2-08 of the North Dakota Century Code is amended and reenacted as follows:

6. An amount equal to the state average ~~per pupil~~ per student elementary or high school costs, depending on the educational level of the student, is payable to the admitting district or facility as part of the cost of educating the student for the school year. The payment may not exceed the actual ~~per pupil~~ per student cost incurred by the admitting district or facility. The remainder of the actual cost of educating the student not covered by other payments or credits must be paid by the state from funds appropriated for special education in the case of a student with disabilities, or from funds appropriated for foundation aid in all other cases within the limits of legislative appropriations.

⁹⁷ SECTION 4. AMENDMENT. Section 15-59-02.1 of the North Dakota Century Code is amended and reenacted as follows:

15-59-02.1. Legislative intent - Special education. This statement of legislative intent is provided to define more clearly the relationship between the state, school districts, and parents of ~~children~~ students with disabilities in the provision of special education and related services. "Related services" means transportation and such developmental and corrective or supportive services required to assist a ~~child~~ student with disabilities to benefit from special education.

The school administrator or the administrator's appointed representative or director of special education other than the ~~child's~~ student's teacher is responsible for bringing together professionals and parents to share assessment information related to all areas of suspected disability, develop an individualized education program plan for the student with disabilities, and make recommendations for required special education and related services.

The legislative assembly believes that in order to assure equality of services which are provided for by limited state funds, the department of public instruction will be required to approve a contract for services based on an individualized education program developed for each student with disabilities placed in a private school program or in programs outside the student's original special education unit.

~~The legislative assembly believes that when money is distributed to a school district for special education personnel, the department of public instruction should give consideration to the units of services provided by the district, the district's special education program costs, and the district's special education program needs.~~

⁹⁶ Section 15-40.2-08 was also amended by section 6 of Senate Bill No. 2159, chapter 173.

⁹⁷ Section 15-59-02.1 was also amended by section 1 of House Bill No. 1047, chapter 202, and section 2 of House Bill No. 1058, chapter 243.

The legislative assembly recognizes that a student with disabilities whose individualized education program so requires is entitled to an educational program in excess of one hundred eighty days per year if regression caused by an interruption in educational programming, together with a student's limited recoupment capacity, renders it impossible or unlikely that the student will attain the level of self-sufficiency and independence from caretakers that the student would otherwise be expected to reach in view of the disability. All summer programs attended by these students must have approval of the department of public instruction before receiving foundation aid or state special education reimbursement.

In the case of students with disabilities who require boarding care away from the family residence in order to receive special education and related services in an approved program, it is the intent of the legislative assembly that the instructional costs and costs of related services, including boarding care, be borne by state special education funds and school district funds.

"All children students with disabilities have the right to a free appropriate education" means that all students with disabilities have the right to special education and related services which must be provided at no cost to parents. "At no cost" means specifically designed instruction provided without charge but does not preclude expenses normally incurred or charged to parents of children students who are nondisabled. Parents will assume such costs for a child student with disabilities as they would if the child student was nondisabled. Personal items, including hearing aids, eyeglasses, routine medical expenses, physical exams, medications, and all items necessary for a child student who is nondisabled, will be the financial responsibility of the parent.

School districts must require use of family insurance, or similar third-party payments, in whatever amount is allowed, as long as there is no financial loss to the child student or the child's student's parent, for determining a child's student's medically related disability or other required related services which results in the child's student's need for special education. It is the school district's responsibility to assume costs not covered by the insurer or similar third party in the above situation.

The school district in which a student with disabilities resides is responsible to provide transportation for the student as prescribed in the student's individualized education program.

Costs of transportation for the student to attend an approved special education program are the responsibility of the school district with aid from the department of public instruction.

The district of residence may use any reasonably prudent and safe means of transportation at its disposal to carry out the requirements of the individualized education program. Such means may include a regularly scheduled schoolbus, public or commercial transportation where appropriate, charter or specially contracted transportation, or transportation provided by the parent of a child student with disabilities or other responsible party at school district expense.

If the transportation between the district of residence and the educational facility is provided by the parents, the reimbursement to the school district from department of public instruction funds must be for mileage costs only and may not include per diem costs for meals, lodging, lost wages, or other costs of any kind.

As the department of human services has authority under chapter 25-16 to provide early intervention services to meet the needs of children with disabilities ages

zero through two years, the legislative assembly recognizes this provision and requires the department of public instruction, the state department of health and consolidated laboratories, and the department of human services to cooperate in planning and coordinating programs for these children.

SECTION 5. AMENDMENT. Section 15-59-06 of the North Dakota Century Code is amended and reenacted as follows:

15-59-06. State cooperation in special education. ~~Children~~ Students with disabilities who are enrolled in approved programs of receiving special education services must be deemed to be regularly enrolled in the school district of residence and must be included in the determination of elementary and high school per-pupil payments from the state foundation aid program whether or not such pupils are the students regularly attending attend school in the school or school district receiving such the payments. A prorated state foundation aid payment for a student to attend a public school program for students with disabilities, approved by the superintendent of public instruction, may be made provided that if the individualized education program for the child student is written during the last quarter of the school term and specifically requires that the child student attend a summer special education program. In the case of a student who is enrolled in a nonpublic school but who is attending attends a public school special education program, payments must be made to the appropriate public school district in relation to for the proportion portion of a normal schoolday as such the student participates in such special education program. For the purposes of this section, a normal schoolday must be deemed to consist consists of six hours. Upon the determination by the director of special education that the school district has made expenditures for each child with a disability or child who is gifted in such program equal to the average expenditures made in such district for elementary or high school students, as the case may be, the director by vouchers drawn upon funds provided by the legislative assembly for such purpose may provide reimbursement to such school or school district. The amount the school district is required to expend must be reduced proportionately if a child student attends the school for less than an entire year. If any school district within a special education unit has any elementary or high school a student with disabilities who, in the opinion of a qualified psychologist, a medical doctor, district superintendent, and the district or multidistrict director of special education the student's multidisciplinary team, is unable to attend the public schools in the special education unit because of a disability, such the school district shall contract with an in-state public school located outside the special education unit in which the student is a legal resident which, if the school will accept such the student and has proper facilities services for the student's education. No school district may enter into a contract with any in-state public school for the education of any student because of a disability, unless the curriculum services provided by such the school and the contract has have been approved in advance by the superintendent of public instruction. The payment may not exceed the actual per-pupil per student cost incurred by such the in-state public school. The school district's liability must be reduced proportionately if the student attends the in-state public school for less than an entire year. The superintendent of public instruction, upon notification by the admitting district and upon verification by the superintendent that tuition payments are due the admitting district and are unpaid, shall withhold all payments from the state for foundation aid to the district of residence until the tuition due has been paid. The transportation must be furnished as provided by rules of the department

superintendent of public instruction. The remainder of the actual cost of educating the student with disabilities not covered by other payments or credits must be paid from funds provided by the within the limits of legislative assembly appropriations for such that purpose.

SECTION 6. AMENDMENT. Section 15-59-07 of the North Dakota Century Code is amended and reenacted as follows:

15-59-07. ~~Contracts for children students with disabilities to attend private or out-of-state public schools. If any school district in this state has any elementary or high school a student with disabilities who in the opinion of a qualified psychologist, a medical doctor, and the district superintendent the student's multidisciplinary team is unable to attend the public schools in the district because of a physical or mental disability or because of a learning disability, such the school district shall contract with any accredited private nonsectarian nonprofit corporation within or without outside the state or an out-of-state public school which has proper facilities for the education of such the student, if there are is no public schools school in the state with which has the necessary facilities services and which will accept such the student. No school district shall may enter into a contract with any private nonsectarian nonprofit corporation or out-of-state public school for the education of any student having a physical or learning disability, unless the curriculum services provided by such the school and the contract has have been approved in advance by the superintendent of public instruction. A teacher hired after January first has all the rights provided in section 15-47-27.1 except that only one evaluation is required during that school year.

SECTION 2. AMENDMENT. Section 15-47-27 of the North Dakota Century Code is amended and reenacted as follows:

15-47-27. Time for renewal of teachers' contracts. Any teacher who has been employed by any school district; ~~the department of corrections and rehabilitation; or the superintendent of public instruction~~ in this state during any school year, must be notified in writing by the school board; ~~the department of corrections and rehabilitation; or the superintendent of public instruction; as the case may be;~~ not earlier than March first and not later than May first in the school year in which that teacher has been employed to teach, of the determination not to renew the teacher's contract for the ensuing school year, if the determination has been made; and failure to give written notice on or before that date constitutes an offer to renew the contract for the ensuing school year under the same terms and conditions as the contract for the then current year. On or before May first in any year and not earlier than March first, all teachers must be notified of a date, which must not be less than thirty days after the date of the notice, upon which they shall accept or reject proffered reemployment, and failure by the teacher to accept the offer within that time is a rejection of the offer. Any teacher accepting the offer of

reemployment, either by the action or nonaction of the school board; ~~the department of corrections and rehabilitation; or the superintendent of public instruction,~~ on or before May first, as herein provided, is entitled to the usual written contract for the ensuing school year, under law and shall notify the school board; ~~the department of corrections and rehabilitation; or the superintendent of public instruction~~ in writing of the teacher's acceptance or rejection on or before the date specified or before June first, whichever is earlier. Failure by the teacher to provide that notification relieves the school board; ~~the department of corrections and rehabilitation; or the superintendent of public instruction~~ of the continuing contract provision of sections 15-47-26 through 15-47-28. This section does not repeal or limit the operation of any existing law with reference to the dismissal of teachers for cause. Each district shall have an established system through which two written evaluations are prepared for every teacher employed by the district for each of the first three school years the teachers are employed by the school district. These written performance reviews must be completed and made available to the teacher no later than December fifteenth for the first review and March fifteenth for the second review each year. After three years of employment by a school district, each teacher must be evaluated at least once every school year, and the written performance review must be completed and made available to the teacher no later than March fifteenth.

SECTION 3. AMENDMENT. Section 15-47-27.1 of the North Dakota Century Code is amended and reenacted as follows:

15-47-27.1. First-year teachers - Evaluation - Renewal and nonrenewal of contracts. Each school district; ~~the department of corrections and rehabilitation; and the superintendent of public instruction~~ in this state shall have an established system through which two written evaluations are prepared during each school year for every teacher in his or her first year of teaching. The evaluation must be in the form of written performance reviews, and the first review must be completed and available to first-year teachers no later than December fifteenth and the second review must be completed and made available no later than March fifteenth of each year. A school board contemplating not renewing the contract of a first-year teacher shall, after reviewing the evaluations, meet in an executive session with the teacher to discuss the reasons for the proposed nonrenewal. The teacher may be represented at the meeting by two representatives of the teacher's own choosing and the teacher's spouse or one other family member of the teacher's choice. No claim for relief for libel or slander may be brought for any statement expressed either orally or in writing at any executive session of the school board held pursuant to this section. If a school board; ~~the department of corrections and rehabilitation; or the superintendent of public instruction~~ determines not to renew the contract of a first-year teacher, written notification of the decision of nonrenewal must be given to the teacher no earlier than April fifteenth nor later than May first. Failure by a school board; ~~the department of corrections and rehabilitation; or the superintendent of public instruction~~ to provide written notification of nonrenewal to a first-year teacher by May first constitutes an offer to renew the contract of the teacher for the ensuing school year under the same terms and conditions as the contract for the current year. The notification of nonrenewal given to a first-year teacher must contain a detailed description of the reason or reasons for the nonrenewal.

SECTION 4. A new section to chapter 15-47 of the North Dakota Century Code is created and enacted as follows:

Teachers employed by the state industrial school, school for the deaf, and school for the blind.

1. The term "teacher", as used in this section, means a contracted state employee holding a professional certificate and certified by the superintendent of public instruction to teach in this state, whose primary task is to provide direct instruction in a classroom, or on an individualized basis, and whose work schedule must be in accordance with the school calendar, guidance counselors, school librarians, itinerant outreach teachers, and vocational and other technological resource personnel who are required to meet the same teaching and certification requirements. Superintendents, assistant superintendents, principals, supervisory personnel, substitutes, and all paraprofessionals are not included in this definition.

2. The superintendent of public instruction for the school for the blind and the school for the deaf, and the director of the division of juvenile services with the approval of the director of the department of corrections and rehabilitation for the state industrial school in administering the schools under their authority shall develop contracts for employment of teachers in their departments and establish teacher personnel policies needed for administration of the schools. The contracts may include assignment of job duties, teacher salaries, hours, and job titles, a school calendar, and a salary schedule. The personnel policies adopted under this section must include job descriptions and nonrenewal, discipline, and dismissal procedures, and must seek to harmonize the rights of teachers with law governing state employees. The superintendent of public instruction and the director of the division of juvenile services with the approval of the director of the department of corrections and rehabilitation shall work together in the development of personnel policies for teachers employed by their respective departments. Each teacher is entitled to receive a printed copy of a master agreement, which consists of a policy manual and an individualized contract specifying the annual school calendar and each teacher's contracted hours, rate of pay, job title, salary schedule, applicable benefits, and other details pertinent to a teacher's employment.

EDUCATION OF CHILDREN IN LEAST RESTRICTIVE ENVIRONMENT

AN ACT to amend and reenact section 15-59-02.1 of the North Dakota Century Code, relating to legislative intent regarding the delivery of special education.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹⁰¹ **SECTION 1. AMENDMENT.** Section 15-59-02.1 of the North Dakota Century Code is amended and reenacted as follows:

15-59-02.1. Legislative intent - Special education. This statement of legislative intent is provided to define more clearly the relationship between the state, school districts, and parents of children with disabilities in the provision of special education and related services. "Related services" means transportation and such developmental and corrective or supportive services required to assist a child with disabilities to benefit from special education.

The school administrator or the administrator's appointed representative or director of special education other than the child's teacher is responsible for bringing together professionals and parents to share assessment information related to all areas of suspected disability, develop an individualized education program plan for the student with disabilities, and make recommendations for required special education and related services.

The legislative assembly believes that in order to assure equality of services ~~which~~ ~~that~~ are provided for by limited state funds, the ~~department~~ department superintendent of public instruction will be required to approve a contract for services based on an individualized education program developed for each student with disabilities placed in a private school program or in programs outside the student's original special education unit.

The legislative assembly believes that when money is distributed to a school district for special education personnel, the ~~department~~ department superintendent of public instruction should give consideration to the units of services provided by the district, the district's special education program costs, and the district's special education program needs.

The legislative assembly recognizes that a student with disabilities whose individualized education program so requires is entitled to an educational program

¹⁰¹ Section 15-59-02.1 was also amended by section 2 of House Bill No. 1058, chapter 243, and section 4 of Senate Bill No. 2063, chapter 194.

in excess of one hundred eighty days per year if regression caused by an interruption in educational programming, together with a student's limited recoupment capacity, renders it impossible or unlikely that the student will attain the level of self-sufficiency and independence from caretakers that the student would otherwise be expected to reach in view of the disability. All summer programs attended by these students must have approval of the department superintendent of public instruction before receiving foundation aid or state special education reimbursement.

In the case of students with disabilities who require boarding care away from the family residence in order to receive special education and related services in an approved program, it is the intent of the legislative assembly that the instructional costs and costs of related services, including boarding care, be borne by state special education funds and school district funds.

"All children with disabilities have the right to a free appropriate public education" means that all students with disabilities have the right to special education and related services which must be provided at public expense, under public supervision and direction and at no cost to parents. "At no cost" means specifically designed instruction and related services as described in the student's individualized education program plan provided without charge but does not preclude expenses incidental fees that are normally incurred or charged to nondisabled students or their parents of children who are nondisabled as a part of the regular education program. Parents will assume such costs for a child with disabilities as they would if the child was nondisabled. Personal items, including hearing aids, eyeglasses, routine medical expenses, physical exams, medications, and all items necessary for a child who is nondisabled, will be the financial responsibility of the parent.

School districts must require use of family insurance, or similar third-party payments, in whatever amount is allowed, as long as there is no financial loss to the child or the child's parent, for determining a child's medically related disability or other required related services which results in the child's need for special education. It is the school district's responsibility to assume costs not covered by the insurer or similar third party in the above situation.

The school district in which a student with disabilities resides is responsible to provide transportation for the student as prescribed in the student's individualized education program.

Costs of transportation for the student to attend an approved special education program are the responsibility of the school district with aid from the department superintendent of public instruction.

The district of residence may use any reasonably prudent and safe means of transportation at its disposal to carry out the requirements of the individualized education program. Such means may include a regularly scheduled schoolbus, public or commercial transportation where appropriate, charter or specially contracted transportation, or transportation provided by the parent of a child with disabilities or other responsible party at school district expense.

If the transportation between the district of residence and the educational facility is provided by the parents, the reimbursement to the school district from department of public instruction funds must be for mileage costs only and may not include per diem costs for meals, lodging, lost wages, or other costs of any kind.

As the department of human services has authority under chapter 25-16 to provide early intervention services to meet the needs of children with disabilities ages zero through two years, the legislative assembly recognizes this provision and requires the ~~department~~ superintendent of public instruction, the state department of health and consolidated laboratories, and the department of human services to cooperate in planning and coordinating programs for these children.

A constitutional amendment, initiated or referred measure, or other question must, unless otherwise determined by the secretary of state, be stated in full in a legible manner on the paper ballot or the ballot card when using an electronic voting system purchased after June 30, 1985, and the ballot label when using an electronic voting system purchased before July 1, 1985. If the secretary of state concludes the amendment or measure is too long to make it practical to print in full, ~~the amendment or measure may be printed by ballot title only and in the manner specified by the secretary of state. The ballot title must be written by the secretary of state and approved by the attorney general. The size of type to be used on such ballots must be specified by the secretary of state. Immediately preceding the ballot title or the full text of the initiated or referred measure on the printed ballot, the secretary of state in consultation with the attorney general shall cause to be printed a short, concise statement in boldface type summary, which statement must fairly represent the substance of the constitutional amendment, initiated, or referred measure. The attorney general shall approve all such statements written by the secretary of state. Immediately subsequent to~~ After the foregoing statement, the secretary of state shall cause to be printed another short, concise statement of the effect of an affirmative or negative vote on the constitutional amendment or measure, initiated measure, or referred measure in terms of whether the proposal will or will not enact, amend, or repeal a portion or portions of the constitution or laws of the state of North Dakota if an affirmative or negative vote should prevail. This explanatory statement must be drafted by the secretary of state and must be approved by in consultation with the attorney general. The words "Yes" and "No" must be printed on the ballot at the close of the statement regarding the effect of an affirmative or negative vote, in separate lines with a square formed of black lines after each statement in which the voter may indicate by a cross or other mark how he desires to vote on the question. Where two or more amendments or questions are to be voted on, they must be printed on the same ballot. ~~In precincts in which voting machines are used, the ballot title, in the case of amendments or measures submitted by the people, or the title of the legislative bill or resolution, which must serve as the ballot title, in the case of proposed amendments submitted by the~~

legislative assembly, must be set forth in full. Provided, however, in such cases where the ballot title or the title of the legislative bill or resolution is of such length to make it physically impossible to fit such titles upon voting machines, the attorney general shall reduce such titles to a length which will allow the placing of such titles upon voting machines, but shall fully express the purpose of such amendments or questions, and the reduced version of the titles must be used on the voting machines.

The measures to be submitted to the electors must be grouped and classified as constitutional measures, initiated statutes, or referred statutes and must be placed within such groups or classifications by the secretary of state in the order received, for the purpose of placing them on the ballot. Measures submitted by the legislative assembly must be placed first on the ballot within their classification in the order approved by the legislative assembly. Constitutional measures shall be placed first on the ballot, initiated statutes second, and referred statutes third. After all the measures have been placed within the appropriate group or classification, all measures must be numbered consecutively, without regard to the various groups or classifications.

The county auditor shall notify the members of the election boards, poll clerks if applicable, and the state's attorney of the time and place of the session. The state's attorney shall attend all sessions to give advice on election laws. The stamp and inkpad are not required if that information is preprinted on the ballot. If the information is preprinted on the ballot, the name or number of the precinct may be replaced by the word "precinct" followed by a blank line where the judge or inspector shall write in the name or number of the precinct. The county auditor shall deliver or cause to be delivered a suitable seal for the purpose of wrapping and sealing the stamp and inkpad at the close of the voting but before the counting of the ballots if a stamp is required. The county auditor also shall deliver or cause to be delivered a suitable seal, which has the name of the county inscribed thereon, for the purpose of sealing the wrapper containing the ballots as provided in section 16.1-15-08.

form, for a member of the United States armed forces or the United States merchant marine or for a qualified elector living outside the United States, must include a space for the applicant to indicate whether the application is for all statewide elections in the calendar year or only for the election that is immediately after the date of the application. An applicant who is a member of the United States armed forces or the United States merchant marine or is a qualified elector living outside the United States, may apply for and vote by facsimile if otherwise qualified to apply for and vote by absentee ballot. An auditor, clerk, or business manager may send and receive facsimile absentee ballot applications and facsimile absentee ballots to those electors eligible to apply for and vote by facsimile under this section. If the judges find that the statement is sufficient and that the signatures correspond, and that the applicant is then a duly qualified elector of such precinct and has not voted at the election, they shall open the absent voter's envelope in such manner as not to destroy the statement thereon. They shall take out the ballot or ballots contained therein without unfolding the same, or permitting the same to be opened or examined, and after endorsing stamping and initialing or initialing the same as other ballots are endorsed stamped and initialed or initialed, they shall deposit the ballot in the proper ballot box and show in the pollbook of the election that the elector has voted. If the statement is found to be insufficient, or that the signatures do not correspond, or that the applicant is not then a duly qualified elector of the precinct, the vote may not be allowed, but without opening the absent voter's envelope, the election inspector or election judge shall mark across the face thereof "rejected as defective" or "rejected as not an elector", as the case may be. Each person who manufactures commercial feed or whose name appears on the label of a commercial feed, other than pet food or specialty pet food, shall obtain a feed manufacturer's license from the department for each location. Each person who sells commercial feed, other than pet food or specialty pet food, at retail, shall obtain a feed retailer's license from the department. The license application must be on forms furnished by the department and must be accompanied by a fee of ~~fifty one hundred~~ fifty dollars for feed manufacturers or ~~twenty five~~ fifty dollars for feed retailers. The license covers a two-year period

beginning January first and ending December thirty-first. If a manufacturer is also a retailer of feed, the retail license is waived. A feed retailer's license must be obtained for each location used by the retailer. ~~All licenses expire on December thirty-first of each year.~~ Licenses are not transferable. License renewal applications received after January thirty-first may be assessed a penalty fee of ten dollars for retailers and twenty dollars for manufacturers. This subsection does not apply to any person who custom manufactures feed only for another person at that person's request and for that person's own use.

4. Each feed manufacturer required to be licensed under this chapter shall submit and maintain a current label file of all the feeds distributed in the state with the department except custom formula feeds.
5. The department may refuse to register or license any product or applicant not in compliance with the provisions of this chapter and to cancel any registration or license subsequently found not to be in compliance with any provision of this chapter; provided, however, that no registration or license may be refused or canceled until the registrant or licensee has been given opportunity to be heard before the department and to amend the application in order to comply with the requirements of this chapter.

¹²⁸ SECTION 2. AMENDMENT. Section 19-13.1-06 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

19-13.1-06. Inspection fees. There must be paid to the department for all commercial feeds and customer-formula feeds, except pet foods and specialty pet foods, distributed in this state an inspection fee at the rate of twenty cents per ton [907.18 kilograms]. However, customer-formula feeds are exempted if the inspection fee is paid on the commercial feeds that they contain, and distribution of commercial feeds to manufacturers is exempted if the commercial feeds so distributed are used solely in manufacture of feeds that are registered. Every person, except as hereinafter provided, who distributes commercial feed in this state shall:

1. File, not later than the thirty-first day of January of each year, an annual statement under oath, setting forth the number of net tons [kilograms] of commercial feeds distributed in this state during the preceding year; and upon filing such statement shall pay the inspection fee. ~~When more than one person is involved in the distribution of a commercial feed, the person who distributes to the consumer is responsible for reporting the tonnage~~ The person whose name appears on the label as the manufacturer, guarantor, or distributor shall assume the liability for reporting and paying the inspection fee.
2. Keep such records as may be necessary or required by the department to indicate accurately the tonnage of commercial feed distributed in this state, and the department has the right to examine such records to verify statements of tonnage.

¹²⁸ Section 19-13.1-06 was also amended by section 4 of Senate Bill No. 2075, chapter 219.

Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided herein constitutes sufficient cause for the cancellation of all licenses on file for the distributor.

19-20.1-03. Registration. Each brand and grade of fertilizer, material, foliar fertilizer, micronutrient, specialty fertilizer, soil amendment, or plant amendment must be registered in the name of the person whose name appears upon the label before being offered for sale or distributed in this state. The application for registration must be submitted to the department on a form furnished by the department and must be accompanied by a fee of ~~twenty-five~~ fifty dollars. Upon approval by the department, a certificate of registration must be furnished to the applicant. All registrations expire on June thirtieth of each year. Registrations cover a two-year period beginning July first and ending June thirtieth. Distribution of fertilizer products without prior registration or renewal received after July thirty-first must be assessed a penalty of twenty-five dollars per product. A distributor is not required to register any brand of fertilizer, soil amendment, or plant amendment which is already registered under this chapter by another person, providing the label complies with the issued registration. Compost that is transferred between parties without compensation is exempt from these requirements.

¹³² SECTION 3. AMENDMENT. Section 19-20.1-03.4 of the North Dakota Century Code is amended and reenacted as follows:

19-20.1-03.4. Guaranteed analysis. Until the department prescribes the alternative form of guaranteed analysis in accordance with the provisions of this section, guaranteed analysis must be claimed in the following order and form:

1. Total Nitrogen (N) _____ percent

Available ~~Phosphoric Acid~~ Phosphate (P₂O₅) _____ percent

Soluble Potash (K₂O) _____ percent

2. For unacidulated mineral phosphatic materials and basic slag, bone, tankage, and other organic phosphatic materials, the total ~~phosphoric acid phosphate~~ or degree of fineness, or both, may also be guaranteed.
3. Guarantees for plant nutrients other than nitrogen, phosphorus, and potassium may be permitted or required by rules adopted by the department. The guarantees for such other nutrients must be expressed in the form of the element. The sources of other nutrients including oxides, salt, and chelates may be required to be stated on the application for registration and may be included as a parenthetical statement on the label. Other beneficial substances or compounds, determinable by laboratory methods, also may be guaranteed by permission of the department and with the advice of the director of the agricultural experiment station. When any plant nutrients or other substances or compounds are guaranteed, they are subject to inspection and analysis in accord with the methods and rules prescribed by the department.

¹³¹ Section 19-20.1-03 was also amended by section 34 of Senate Bill No. 2075, chapter 219.

¹³² Section 19-20.1-03.4 was also amended by section 38 of Senate Bill No. 2075, chapter 219.

4. The department may, by rule, require potential basicity or acidity expressed in terms of calcium carbonate equivalent in multiples of one hundred pounds [45.36 kilograms] per ton [907.18 kilograms].
5. At any time after July 1, 1967, when the department finds, after public hearing following due notice, that the requirement for expressing the guaranteed analysis of phosphorus and potassium in the elemental form would not impose an economic hardship on distributors and users of fertilizer by reason of conflicting labeling requirements among the states, it may require by rule that the guaranteed analysis be in the following form:

Total Nitrogen (N) _____ percent

Available Phosphorus (P) _____ percent

Soluble Potassium (K) _____ percent

The effective date of a rule under this subsection may not be less than six months following the issuance of the rule and for a period of two years following the effective date of the rule the equivalent of phosphorus and potassium may also be shown in the form of phosphoric acid and potash. After the effective date of a rule issued under this section, requiring that phosphorus and potassium be shown in the elemental form, the guaranteed analysis for nitrogen, phosphorus, and potassium constitutes the grade.

6. The guaranteed analysis of a soil amendment or plant amendment must be an accurate statement of composition including the percentages of each ingredient. If the product is a microbiological product, the number of viable microorganisms per milliliter for a liquid or the number of viable microorganisms per gram for a dry product must also be listed.

¹³³ SECTION 4. AMENDMENT. Section 19-20.1-06 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

19-20.1-06. Inspection fees and tonnage reports. There must be paid to the department for all fertilizers, soil amendments, or plant amendments distributed in this state an inspection fee at the rate of twenty cents per ton [907.18 kilograms]. Sales to manufacturers or exchanges between them are exempt from the inspection fee. Fees collected under this section must be used for the payment of the costs of inspection, sampling, and analysis, and other expenses necessary for the administration of this chapter.

Individual packages of fertilizers, soil amendments, or plant amendments sold exclusively in packages of twenty-five pounds [11.34 kilograms] or less are exempt from the provisions of this section. If a person sells fertilizer, soil amendments, or plant amendments in packages of twenty-five pounds [11.34 kilograms] or less and in packages over twenty-five pounds [11.34 kilograms], that portion sold in packages

¹³³ Section 19-20.1-06 was also amended by section 40 of Senate Bill No. 2075, chapter 219.

over twenty-five pounds [11.34 kilograms] is subject to the same inspection fee of twenty cents per ton [907.18 kilograms] as provided in this chapter.

Every licensed person who distributes a fertilizer, soil amendment, or plant amendment to a nonlicensed person in this state shall file with the department, on forms furnished by the department, an annual statement for the calendar year, setting forth the number of net tons [kilograms] of each fertilizer, soil amendment, or plant amendment so distributed in this state during such period. A licensed end user shall report all sales and purchases and pay the appropriate tonnage tax. The statement is due on or before January thirty-first of the following year. The person filing the statement shall pay the inspection fee at the rate stated in this section. If the tonnage statement is not filed and the payment of inspection fee is not made by January thirty-first, a collection fee amounting to ten percent, minimum ten dollars, of the amount must be assessed against the licensee, and the amount of fees due constitute a debt and become the basis of a judgment against the licensee.

¹³⁴ SECTION 5. AMENDMENT. Section 19-20.1-13 of the North Dakota Century Code is amended and reenacted as follows:

19-20.1-13. Deficiencies.

1. A product is deficient if one or more of its guaranteed primary plant nutrients or other guaranteed active ingredients falls below the investigational allowances and compensations as established by rule or if the overall index value of the fertilizer is shown below the level established by rule.
2. A deficiency in an official sample of mixed fertilizer resulting from nonuniformity is not distinguishable from a deficiency due to actual plant nutrient shortage and is properly subject to official action.
3. For the purpose of determining the commercial index value to be applied, the department shall determine at least annually the values per unit of nitrogen, available ~~phosphoric acid~~ phosphate, and soluble potash in fertilizers in this state.
4. If any fertilizer, soil amendment, or plant amendment in the possession of the consumer is found by the department to be short in weight, the registrant of the product shall within thirty days after official notice from the department pay to the consumer a penalty equal to four times the value of the actual shortage.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 19-20.2 of the North Dakota Century Code is created and enacted as follows:

Definition. "Anhydrous ammonia storage facility" means a bulk anhydrous ammonia storage facility with a capacity exceeding six thousand gallons [22712.47 liters] which is owned or operated by a user or vendor of anhydrous ammonia.

SECTION 2. AMENDMENT. Section 19-20.2-01 of the North Dakota Century Code is amended and reenacted as follows:

19-20.2-01. Anhydrous ammonia safety rules. ~~Except as otherwise required by law, the~~ The commissioner of agriculture shall adopt rules necessary to implement this chapter and adopt the 1989 American national standard safety requirements for the storage and handling of anhydrous ammonia, except sections 2.5, 5.2.1, 5.2.2.1, and 5.2.2.2 of the 1989 American national standard safety requirements are adopted as follows:

1. (2.5) Refers to paragraphs U-68, U-69, U-200, or U-201 of section VIII of the boiler and pressure vessel code of the American society of mechanical engineers, 1949 edition, or to section VIII division I of the boiler and pressure vessel code of the American society of mechanical engineers, 1950 edition, through the current edition including addenda and applicable code case interpretations.

Where referenced in this standard only section VIII division I of the American society of mechanical engineers code applies except that paragraphs UG-125 through UG-135 and paragraph UW-2 do not apply.

2. (5.2.1) Containers used with systems covered in sections 6, 9, 11, and 12 must be made of steel or other material compatible with ammonia, and tested in accordance with the current American society of mechanical engineers code. An exception to the American society of mechanical engineers code requirements is that construction under table UW 12 at a basic joint efficiency of under eighty percent is not authorized.

3. (5.2.2.2) Steels used in fabricating pressure containing parts of a container must have a tensile strength no greater than a nominal seventy-five thousand pounds per square inch [517110 kilopascals]; except this does not apply to sections 8, 9, and 10. (5.2.2.1) For new tanks installed or purchased after January 1, 1996, the entire container must be post-weld heat treated after completion of all welds in or to the shells and heads. The method employed must be as prescribed in the American society of mechanical engineers code. It is recommended that post-weld heat treatment be performed in a furnace of a size sufficient to accommodate the entire container. Welded attachments to pads may be made after post-weld heat treatment.
4. (5.2.2.2) Steels used in fabricating pressure containing parts of a container may not exceed a specified tensile strength of seventy-five thousand pounds per square inch [517110 kilopascals], as noted in the American society of mechanical engineers code, section II, part D, except that this does not apply to sections 8, 9, and 10. Allowances for tensile strength of up to twenty thousand pounds per square inch [137900 kilopascals] above those given in the American society of mechanical engineers code, section II, part D, are permitted.

SECTION 3. AMENDMENT. Section 19-20.2-02 of the North Dakota Century Code is amended and reenacted as follows:

19-20.2-02. License required - Existing anhydrous ammonia storage facilities. Any user or ~~retail~~ vendor of anhydrous ammonia owning ~~one or more bulk or operating an anhydrous ammonia storage facilities exceeding six thousand gallons [22,712.47 liters] of storage capacity and constructed before July 1, 1985, facility~~ shall apply for an operator's license to the commissioner of agriculture ~~before September 30, 1985. However, any~~ and the board of county commissioners of the county in which the facility is located. Any permanent anhydrous ammonia storage facility constructed before July 1, 1985, is exempt from the siting requirements of this chapter, and may receive a license under this chapter regardless of noncompliance with the siting requirements. The commissioner may deny a license for failure to remit the proper fee with the application, or failure to comply with the rules adopted pursuant to this chapter. The license is valid indefinitely, but may not be transferred.

SECTION 4. AMENDMENT. Section 19-20.2-03 of the North Dakota Century Code is amended and reenacted as follows:

19-20.2-03. License required - Construction of anhydrous ammonia facilities. No ~~permanent~~ anhydrous ammonia storage facility may be constructed ~~after June 30, 1985, or operated~~ without a license issued by the commissioner of agriculture and the board of county commissioners of the county in which the facility is to be constructed. An application for a license to site and operate an anhydrous ammonia storage facility must be made to the commissioner of agriculture and to the board of county commissioners. The commissioner or the board may deny a license for failure to remit the proper fee to the commissioner of agriculture, for failure to comply with the siting requirements of this chapter and rules adopted pursuant to this chapter if constructed after June 30, 1985, or for failure to comply with local siting requirements. The commissioner of agriculture also may deny a license if the chief boiler inspector does not certify that the facility meets the initial inspection standards required by this chapter and by any rules adopted pursuant to this chapter. In order to obtain a license, an individual shall submit two sets of drawings or photographs and signed affidavits stating and showing the facility has been measured and meets the siting requirements along with the application for license.

The drawings or photographs must show the proposed location of the tank, the locations, and the surroundings in all directions. One set of drawings or photographs is for the commissioner of agriculture and the other is for the board of county commissioners.

SECTION 5. AMENDMENT. Section 19-20.2-04 of the North Dakota Century Code is amended and reenacted as follows:

19-20.2-04. State license fee. The commissioner of agriculture shall charge a one-time fee for a license for each anhydrous ammonia storage facility site. The licensing fee is twenty-five dollars for a ~~bulk~~ an anhydrous ammonia storage facility exceeding six thousand gallons [22,712.47 liters] of storage capacity and one hundred dollars for each retail and storage site. Expansion of an existing anhydrous ammonia storage facility, including the expansion of a facility constructed before July 1, 1985, does not require reapplication for licensing, but all siting requirements must be met. When an anhydrous ammonia storage facility changes ownership, the new owner shall obtain a license.

SECTION 6. AMENDMENT. Section 19-20.2-05 of the North Dakota Century Code is amended and reenacted as follows:

19-20.2-05. State siting requirements - Facilities Anhydrous ammonia storage facilities constructed after June 30, 1985. For facilities constructed after June 30, 1985:

1. Any ~~permanent~~ anhydrous ammonia storage facility with a container nominal capacity of less than one hundred thousand gallons [378541.2 liters] must be ~~sited~~ located at least:
 - a. Fifty feet [15.24 meters] from the line of any adjoining property which may be built upon, or any highway or railroad mainline.

 - b. Six hundred feet [182.88 meters] from any place of public assembly or residence, other than the company's business office.
 - c. One thousand feet [300.48 meters] from any institution residence.
3. Upon relocation of any permanent storage container to an anhydrous ammonia storage facility, the container must be hydrostatically pressure tested at the maximum allowable working pressure of the vessel or wet fluorescent magnetic particle tested, also referred to as black light tested. Before the container may be put into service and before licensing may

occur, proof of testing must be supplied to the county and the commissioner of agriculture.

4. All valves and other appurtenances to any anhydrous ammonia storage facility must be protected against physical damage. All shutoff valves must be kept closed and locked when not in use and when the facility is unattended.

23-17.5-04. Certificate termination. The department may, after notice and hearing, terminate a certificate of public advantage if the department determines that:

1. The likely or actual benefits to health care consumers that result, or may result, from ~~a~~ the certified agreement no longer outweigh the disadvantages attributable to a potential or actual reduction in competition ~~resulting~~ which results, or may result, from the agreement; or
2. Performance by the parties under the certified agreement does not conform to the representations made by the parties in the application or to the provisions of any conditions attached to the certificate of public advantage by the department at the time the application was granted.

SECTION 9. AMENDMENT. Section 23-17.5-07 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

23-17.5-07. Cooperative agreement enjoined - Automatic stay - Standards for adjudication. The attorney general may seek to enjoin the operation of a cooperative agreement for which an application for certificate of public advantage has been filed by filing suit against the parties to the cooperative agreement in district court. The attorney general may file an action before or after the department acts on the application for a certificate, but the action must be brought no later than forty days following the department's approval of an application for certificate of public advantage. Upon the filing of the complaint, the department's certification, if previously issued, must be stayed and the cooperative agreement is of no further force unless the court orders otherwise or until the action is concluded. The attorney general may apply to the court for ancillary temporary or preliminary relief necessary to stay the cooperative agreement pending final disposition of the case. In any action, the applicants for a certificate bear the burden of establishing by clear and convincing evidence that the likely benefits to health care consumers which may result from the cooperative agreement outweigh ~~any~~ the disadvantages attributable to a potential reduction in competition ~~that~~ which may result from the agreement. The court shall review whether the agreement constitutes an unreasonable restraint of trade under state or federal law in assessing the disadvantages attributable to a potential reduction in competition ~~likely to~~ which may result from the agreement.

SECTION 10. AMENDMENT. Section 23-17.5-08 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

23-17.5-08. Cancellation of a certificate of public advantage. If, at any time following the forty-day period specified in section 23-17.5-07, the attorney general determines that, as a result of changed circumstances, the benefits to health care consumers which result from a certified agreement no longer outweigh the disadvantages attributable to a reduction in competition resulting from the agreement, the attorney general may file suit in district court seeking to cancel the certificate of public advantage. In an action brought under this section, the attorney general has the burden of establishing by a preponderance of the evidence that, as a result of changed circumstances, the likely or actual benefits to health care consumers which result, or may result, from the agreement and the unavoidable costs of canceling the agreement are outweighed by the disadvantages attributable to a potential or actual reduction in competition ~~resulting~~ which results, or may result, from the agreement. If the attorney general first establishes by a preponderance of the evidence that the department's certification was obtained as a result of material misrepresentation to the department or the attorney general as the result of coercion, threats, or intimidation toward any party to the cooperative agreement, the parties to

the agreement bear the burden of establishing by clear and convincing evidence that the likely or actual benefits to health care consumers which result, or may result, from the agreement and the unavoidable costs of canceling the agreement are outweighed by the disadvantages attributable to any a potential or actual reduction in competition resulting which results, or may result, from the agreement.

¹⁴³ SECTION 11. AMENDMENT. Section 23-17.5-10 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

23-17.5-10. Effective certification - Validity Exclusion from state antitrust enforcement - Federal antitrust immunity intended - Application. A cooperative agreement for which a certificate of public advantage has been issued is a lawful agreement. If the parties to a cooperative agreement file an application for a certificate of public advantage governing the agreement with the department, the conduct of the parties in negotiating a cooperative agreement is lawful conduct. This section does not immunize any person for conduct in negotiating a cooperative agreement for which an application for a certificate of public advantage is not filed. If the department or the district court determines that the applicants have not established by clear and convincing evidence that the likely benefits to health care consumers which result from a cooperative agreement outweigh any disadvantage attributable to a potential reduction in competition resulting from the agreement, the agreement is invalid and has no force or effect. A health care provider or third-party payer who participates in the discussion or negotiation of a cooperative agreement for which an application is filed is engaged in conduct for which no action may be brought pursuant to chapter 51-08.1 for penalties, damages, injunctive enforcement, or other remedies. A health care provider or third-party payer who participates in the implementation of a cooperative agreement, for which a certificate of public advantage was issued, is engaged in conduct for which no action may be brought pursuant to chapter 51-08.1 for penalties, damages, injunctive enforcement, or other remedies. The intent of this section is that the conduct be provided state action immunity from federal antitrust laws. This exclusion from state antitrust enforcement and intended federal antitrust immunity applies unless the discussion or negotiation exceeds the scope of a cooperative agreement as authorized by this chapter or the implementation exceeds the scope of the cooperative agreement for which a certificate of public advantage was issued. This section does not exempt hospitals or other health care providers from compliance with laws governing hospital cost reimbursement. This chapter does not apply to any agreement among hospitals by which ownership or control over substantially all of the stock, assets, or activities of one or more previously licensed and operating hospitals is placed under the control of another licensed hospital or hospitals. Notwithstanding any provisions to the contrary, any improvements, construction, expansion, or acquisition of health care equipment or services approved as a condition of a cooperative agreement is not subject to laws governing certificate of need.

The parties may require that the determination of the need for an additional amount is subject to approval by the state health council. An appeal may be taken under chapter 28-32 from a determination of the health council. After consultation with the parties, the department may require the payment of the assessment on an incremental basis and may require separate payments for the process of evaluating the application or for the process of active supervision. The assessment may be modified by agreement between the department and the parties to the cooperative agreement. The department shall deposit the moneys received under this section in the health care cooperative agreement fund of the state treasury.

SECTION 13. A new section to chapter 23-17.5 of the North Dakota Century Code is created and enacted as follows:

9. "Practitioner" includes an optometrist, a physician, ~~or a chiropractor,~~ or an advanced registered nurse practitioner duly licensed to practice his or her one's profession under North Dakota law.

SECTION 19. AMENDMENT. Subsection 1 of section 26.1-36-04 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. Except as provided in subsection 3, each accident and health insurance policy delivered or issued for delivery to any person in this state must contain provisions described in this section. The provisions contained in any policy may not be less favorable in any respect to the insured or the beneficiary.
 - a. A provision that the policy, including the endorsements and the attached papers, if any, constitutes the entire insurance contract and that no change in the policy is valid until approved by an executive officer of the insurer and unless the approval is endorsed on or attached to the policy.
 - b. A provision that no agent has authority to change the policy or to waive any of its provisions.
 - c. A provision that the validity of the policy may not be contested except for nonpayment of premiums, after it has been in force for two years from its date of issue; and that the validity of the policy may not be contested on the basis of a statement made relating to insurability by any person covered under the policy after the insurance has been in force for two years during the person's lifetime unless the statement is contained in a written instrument

signed by the person making the statement; provided, however, that no such provision precludes the assertion at any time of defenses based upon the person's ineligibility for coverage under the policy.

- d. A provision specifying the additional exclusions or limitations, if any, applicable under the policy with respect to a disease or physical condition of a person, not otherwise excluded from the person's coverage by name or specific description effective on the date of the person's loss, which existed prior to the effective date of the person's coverage under the policy. Any such exclusion or limitation may only apply to a preexisting disease or physical condition which first manifested itself in the five years immediately prior to the effective date of the person's coverage. The exclusion or limitation may not apply to loss incurred or disability commencing after the end of the two-year period commencing on the effective date of the person's coverage.
- e. A provision that the policyholder is entitled to a grace period of thirty-one days for the payment of any premium due except the first, during which the policy continues in force, unless the policyholder has given the insurer written notice of discontinuance in advance of the date of discontinuance and in accordance with the terms of the policy. The policy may provide that the policyholder is liable to the insurer for the payment of a pro rata premium for the time the policy was in force during the grace period.
- f. A provision that if any renewal premium is not paid within the time granted the insured for payment, a subsequent acceptance of premium by the insurer or by any agent duly authorized by the insurer to accept the premium, without requiring in connection therewith an application for reinstatement, reinstates the policy; provided, however, that if the insurer or the agent requires an application for reinstatement and issues a conditional receipt for the premium tendered, the policy will be reinstated upon approval of the application by the insurer or, lacking the approval, upon the forty-fifth day following the date of the conditional receipt unless the insurer has previously notified the insured in writing of its disapproval of the application. The policy must provide that the reinstated policy covers only loss resulting from an accidental injury sustained after the date of reinstatement and loss due to any sickness that begins more than ten days after the date. The policy must provide that in all other respects the insured and insurer have the same rights thereunder as they had under the policy immediately before the due date of the defaulted premium, subject to any provisions endorsed thereon or attached thereto in connection with the reinstatement. The provision may include a statement that any premium accepted in connection with a reinstatement will be applied to a period for which premium has not been previously paid, but not to any period more than sixty days prior to the date of reinstatement. This statement may be omitted from any policy which the insured has the right to continue in force subject to its terms by the timely payment of premiums (1) until at least age fifty or (2) in the case of a policy issued after age forty-four, for at least five years from its date of issue.

- g. A provision that written notice of claim must be given to the insurer within twenty days after the occurrence or commencement of any loss covered by the policy. Failure to give notice within this time does not invalidate nor reduce any claim if it is shown not to have been reasonably possible to give the notice and that notice was given as soon as was reasonably possible.
- h. A provision that the insurer will furnish to the person making claim, or to the policyholder for delivery to such person, the forms usually furnished for filing proof of loss. If the forms are not furnished before the expiration of fifteen days after the insurer receives notice of any claim under the policy, the person making the claim is deemed to have complied with the requirements of the policy as to proof of loss upon submitting within the time fixed in the policy for filing proof of loss, written proof covering the occurrence, character, and extent of the loss for which claims are made.
- i. A provision that in the case of claim for loss of time for disability, written proof of loss must be furnished to the insurer within ninety days after the commencement of the period for which the insurer is liable, and that subsequent written proof of continuance of the disability must be furnished to the insurer at such intervals as the insurer may reasonably require, and that in the case of claim for any other loss, written proof of loss must be furnished to the insurer within ninety days after the date of loss. Failure to furnish the proof within this time does not invalidate nor reduce any claim if it was not reasonably possible to furnish the proof within that time, provided the proof is furnished as soon as reasonably possible and in no event, except in the absence of legal capacity of the claimant, later than one year from the time proof is otherwise required.
- j. A provision that all benefits payable under the policy other than benefits for loss of time will be payable according to the provisions of section 26.1-36-37.1, and that, subject to due proof of loss, all accrued benefits payable under the policy for loss of time will be paid not less frequently than monthly during the continuance of the period for which the insurer is liable, and that any balance remaining unpaid at the termination of such period will be paid as soon as possible after receipt of proof of loss.
- k. A provision that benefits for loss of life of the person insured will be payable to the beneficiary designated by the insured person. However, if the policy contains conditions pertaining to family status, the beneficiary may be the family member specified by the policy terms. In either case, payment of these benefits is subject to the provisions of the policy in the event no such designated or specified beneficiary is living at the death of the insured person. All other benefits of the policy are payable to the insured person. The policy may also provide that if any benefit is payable to the estate of a person, or to a person who is a minor or otherwise not competent to give a valid release, the insurer may pay the benefit, up to an amount not exceeding five thousand dollars, to any relative by blood or connection by marriage of the person deemed by the insurer to be equitably entitled to the benefit.

- l. A provision that the insurer may examine the individual for whom claim is made when and so often as it may reasonably require during the pendency of claim under the policy and also may make an autopsy in case of death where the autopsy is not prohibited by law.
- m. A provision that no action may be brought to recover on the policy prior to the expiration of sixty days after proof of loss has been filed in accordance with the requirements of the policy and that no such action may be brought at all unless brought within three years from the expiration of the time which proof of loss is required by the policy.
- n. ~~A provision that benefits under the policy may not be denied for any health care service performed by a registered nurse licensed pursuant to chapter 43-12.1 if the following conditions are met: (1) the service performed is within the scope of the registered nurse's license; (2) the policy currently provides benefits for identical services performed by a provider of health care licensed by this state; (3) the service is not performed while the registered nurse is employed within a hospital, skilled nursing facility, or intermediate care facility; and (4) the policy does not offer, at the option of the policyholder, coverage for services rendered by self-employed registered nurses licensed pursuant to chapter 43-12.1. No lack of signature, referral, or employment by any other health care provider, and no provision of chapter 43-17 may be asserted to deny benefits under this provision.~~
- e. A provision that in the event of the death of an insured, the insurer will refund within thirty days after notice to the insurer of the insured's death the portion of the premium, fees, or other sum paid beyond the month of death after deducting any claim for losses during the current term of the policy. This provision does not apply where the insurer has a valid defense to the payment of benefits under the policy.

SECTION 20. AMENDMENT. Subdivision e of subsection 2 of section 26.1-36-04 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

- e. ~~A~~ Subject to section 22 of this Act, a provision that the insurer may cancel the policy at any time by written notice delivered to the insured, or mailed to the insured's last address as shown by the records of the insurer, stating when, not less than five days thereafter, the cancellation is effective; and after the policy has been continued beyond its original term the insured may cancel the policy at any time by written notice delivered or mailed to the insurer, effective upon receipt or on such later date as may be specified in the notice. The provision must provide that in the event of cancellation, the insurer will return promptly the unearned portion of any premium paid, and, if the insured cancels, the earned premium will be computed by the use of the short-rate table last filed in the state where the insured resided when the policy was issued. The provision must provide that if the insurer cancels, the earned premium shall be computed pro rata. The provision must

provide that cancellation is without prejudice to any claim originating prior to the effective date of cancellation.

SECTION 28. AMENDMENT. Subsection 1 of section 26.1-36.3-04 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. Premium rates for health benefit plans subject to this chapter and section 26.1-36-37.2 are subject to the following:
 - a. The index rate for a rating period for any class of business may not exceed the index rate for any other class of business by more than fifteen percent.
 - b. For a class of business, the premium rates charged during a rating period to small employers with similar case characteristics for the same or similar coverage, or the rates that could be charged to the employers under the rating system for that class of business, may not vary from the index rate by more than twenty percent of the index rate.
 - c. The percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of:
 - (1) The percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period. In the case of a health benefit plan into which the small employer carrier is no longer enrolling new small employers, the small employer carrier shall use the percentage change in the base premium rate, provided that the change does not exceed, on a percentage basis, the change in the new business premium rate for the most similar health benefit plan into which the small employer carrier is actively enrolling new small employers;
 - (2) Any adjustment due to the claim experience, health status, or duration of coverage of the employees or dependents of the small employer as determined from the small employer carrier's rate manual for the class of business; however, the adjustment may not exceed fifteen percent annually and must be adjusted pro rata for rating periods of less than one year; and
 - (3) Any adjustment due to change in coverage or change in the case characteristics of the small employer, as determined from the small employer carrier's rate manual for the class of business.
 - d. Adjustments in rates for claim experience, health status, and duration of coverage may not be charged to individual employees or dependents. Premium rates charged for a health benefit plan may not vary by a ratio of greater than four to one after January 1, 1997. Any adjustment must be applied uniformly to the rates charged for all employees and dependents of the small employer.

- e. Premium rates for health benefit plans must comply with the requirements of this section notwithstanding any assessment paid or payable by a small employer carrier pursuant to section 26.1-36.3-07.
- f. A small employer carrier may utilize industry as a case characteristic in establishing premium rates, but the highest rate factor associated with any industry classification may not exceed the lowest rate factor associated with any industry classification by more than fifteen percent.
- g. In the case of health benefit plans delivered or issued for delivery before August 1, 1993, a premium rate for a rating period may exceed the ranges set forth in subdivisions a and b of subsection 1 for a period of three years following August 1, 1993. Under this subdivision, the percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of:
 - (1) The percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period. In the case of a health benefit plan into which the small employer carrier is no longer enrolling new small employers, the small employer carrier shall use the percentage change in the base premium rate, provided that the change does not exceed, on a percentage basis, the change in the new business premium rate for the most similar health benefit plan into which the small employer carrier is actively enrolling new small employers.
 - (2) Any adjustment due to change in coverage or change in the case characteristics of the small employer, as determined from the carrier's rate manual for the class of business.
- h.
 - (1) Small employer carriers shall apply rating factors, including case characteristics, consistently with respect to all small employers in a class of business. Rating factors must produce premiums for identical groups which differ only by amounts attributable to plan design and do not reflect differences due to the nature of the groups assumed to select particular health benefit plans.
 - (2) A small employer carrier shall treat all health benefit plans issued or renewed in the same calendar month as having the same rating period.
- i. For the purposes of this subsection, a health benefit plan that uses a restricted provider network may not be considered similar coverage to a health benefit plan that does not use a restricted provider network, if the use of the restricted provider network results in substantial differences in claims costs.
- j. A small employer carrier may not use case characteristics, other than age, gender, industry, geographic area, family composition, and group size, without prior approval of the commissioner.

Gender may not be used as a case characteristic after January 1, 1996.

- k. The commissioner shall adopt rules to:
- (1) Assure that differences in rates charged for health benefit plans by small employer carriers are reasonable and reflect objective differences in plan design, not including differences due to the nature of the groups assumed to select particular health benefit plans;
 - (2) Prescribe the manner in which case characteristics may be used by small employer carriers; and
 - (3) Otherwise implement this section.

4. An excess of capital over the amount produced by the risk-based capital requirements contained in this chapter and the formulas, schedules, and instructions referenced in this chapter is desirable in the business of insurance. Accordingly, insurers should seek to maintain capital above the risk-based capital levels required by this chapter. Additional capital is used and is useful in the insurance business and helps to secure an insurer against various risks inherent in, or affecting, the business of insurance and not accounted for or only partially measured by the risk-based capital requirements contained in this chapter.
5. If a domestic insurer files a risk-based capital report that in the judgment of the commissioner is inaccurate, then the commissioner shall adjust the risk-based capital report to correct the inaccuracy and notify the insurer of the adjustment. Upon notification from the commissioner, the insurer shall prepare a revised risk-based capital plan, which may incorporate by reference any revisions proposed by the commissioner, and shall submit the revised risk-based capital plan to the commissioner:
- a. Within forty-five days after the notification from the commissioner; or

26.1-03.1-07. Hearings. Upon:

1. Notification to an insurer by the commissioner of an adjusted risk-based capital report;
2. Notification to an insurer by the commissioner that:

 - b. Such notification constitutes a regulatory action level event with respect to the insurer;
3. Notification to any insurer by the commissioner that the insurer has failed to adhere to its risk-based capital plan or revised risk-based capital plan and that the failure has a substantial adverse effect on the ability of the insurer to eliminate the company action level event with respect to the insurer in accordance with its risk-based capital plan or revised risk-based capital plan; or
4. Notification to an insurer by the commissioner of a corrective order with respect to the insurer;

the insurer is entitled to a confidential departmental hearing, on a record, at which the insurer may challenge any determination or action by the commissioner. The insurer shall notify the commissioner of its request for a hearing within five days after the notification by the commissioner under subsection 1, 2, 3, or 4. Upon receipt of the insurer's request for a hearing, the commissioner must set a date for the hearing, which date must be no less than ten nor more than thirty days after the date of the insurer's request.

26.1-03.1-08. Confidentiality - Prohibition on announcements - Prohibition on use in ratemaking.

1. All risk-based capital reports, to the extent the information therein is not required to be set forth in a publicly available annual statement schedule, and risk-based capital plans, including the results or report of any examination or analysis of an insurer performed under this chapter and any corrective order issued by the commissioner pursuant to examination or analysis, with respect to any domestic insurer or foreign insurer that are filed with the commissioner constitute information that might be damaging to the insurer if made available to its competitors, and therefore must be kept confidential by the commissioner. This information may not be made public or be subject to subpoena, other than by the commissioner and then only for the purpose of enforcement actions taken by the commissioner under this chapter or any other provision of the insurance laws of this state.
2. It is the judgment of the legislative assembly that the comparison of an insurer's total adjusted capital to any of its risk-based capital levels is a regulatory tool that may indicate the need for possible corrective action with respect to the insurer, and is not intended as a means to rank insurers generally. Therefore, except as otherwise required under this chapter, the making, publishing, disseminating, circulating, or placing before the public, or causing, directly or indirectly, to be made, published, disseminated, circulated, or placed before the public, in a newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over any radio or television

station, or in any other way, an advertisement, announcement, or statement containing an assertion, representation, or statement with regard to the risk-based capital levels of any insurer, or of any component derived in the calculation, by any insurer, agent, broker, or other person engaged in any manner in the insurance business would be misleading and is prohibited. However, if any materially false statement with respect to the comparison regarding an insurer's total adjusted capital to its risk-based capital levels, or any of them, or an inappropriate comparison of any other amount to the insurer's risk-based capital levels is published in any written publication and the insurer is able to demonstrate to the commissioner with substantial proof the falsity of the statement, or the inappropriateness, as the case may be, then the insurer may publish an announcement in a written publication if the sole purpose of the announcement is to rebut the materially false statement.

3. It is the further judgment of the legislative assembly that the risk-based capital instructions, risk-based capital reports, adjusted risk-based capital reports, risk-based capital plans, and revised risk-based capital plans are intended solely for use by the commissioner in monitoring the solvency of insurers and the need for possible corrective action with respect to insurers and may not be used by the commissioner for ratemaking nor considered or introduced as evidence in any rate proceeding nor used by the commissioner to calculate or derive any elements of an appropriate premium level or rate of return for any line of insurance that an insurer or any affiliate is authorized to write.

26.1-03.1-09. Supplemental provisions - Rules - Exemption.

1. This chapter is supplemental to any other laws of this state, and does not preclude or limit any other powers or duties of the commissioner under these laws, including chapters 26.1-06.1 and 26.1-06.2.
2. The commissioner may adopt rules necessary for the implementation of this chapter.
3. The commissioner may exempt from the application of this chapter any domestic property and casualty insurer that:
 - a. Writes direct business only in this state;
 - b. Writes direct annual premiums less than an amount determined by the commissioner; and
 - c. Assumes no reinsurance in excess of five percent of direct premium written.

26.1-03.1-10. Foreign insurers.

1. Upon the written request of the commissioner, any foreign insurer shall submit to the commissioner a risk-based capital report as of the end of the calendar year just ended, the later of:
 - a. The date a risk-based capital report would be required to be filed by a domestic insurer under this chapter; or

- b. Fifteen days after the request is received by the foreign insurer.

At the written request of the commissioner, any foreign insurer shall promptly submit to the commissioner a copy of any risk-based capital plan that is filed with the insurance commissioner of another state.

2. In the event of a company action level event, regulatory action level event, or authorized control level event, with respect to any foreign insurer as determined under the risk-based capital statute applicable in the state of domicile of the insurer, or, if no risk-based capital provision is in force in that state, under the provisions of this chapter, if the insurance commissioner of the state of domicile of the foreign insurer fails to require the foreign insurer to file a risk-based capital plan in the manner specified under that state's risk-based capital statute, or, if no risk-based capital provision is in force in the state, the commissioner may require the foreign insurer to file a risk-based capital plan with the commissioner under section 26.1-03.1-03. In such event, the failure of the foreign insurer to file a risk-based capital plan with the commissioner is grounds to order the insurer to cease and desist from writing new insurance business in this state.
3. In the event of a mandatory control level event with respect to any foreign insurer, if no domiciliary receiver has been appointed with respect to the foreign insurer under the rehabilitation and liquidation statute applicable in the state of domicile of the foreign insurer, the commissioner may make application to the district court permitted under section 26.1-06.1-04 with respect to the liquidation of property of foreign insurers found in this state, and the occurrence of the mandatory control level event is adequate grounds for the application.

26.1-03.1-11. Immunity. There is no liability on the part of, and no cause of action may arise against, the commissioner or the insurance department or its employees or agents for any action taken by them in the performance of their powers and duties under this chapter.

26.1-03.1-12. Notices. All notices by the commissioner to an insurer that may result in regulatory action hereunder are effective upon dispatch if transmitted by registered mail, or in the case of any other transmission is effective upon the insurer's receipt of the notice.

26.1-03.1-13. Phasein provision.

1. For risk-based capital reports required to be filed by life insurers with respect to 1993, the following requirements apply in lieu of the provisions of sections 26.1-03.1-03, 26.1-03.1-04, 26.1-03.1-05, and 26.1-03.1-06:
- a. In the event of a company action level event with respect to a domestic insurer, the commissioner may take no regulatory action hereunder.
- b. In the event of a regulatory action level event under subdivision a, b, or c of subsection 1 of section 26.1-03.1-04, the commissioner shall take the actions required under section 26.1-03.1-03.

subpoena and must not be made public by the commissioner, the national association of insurance commissioners, or any other person, except to insurance departments of other states, without the prior written consent of the insurer to which it pertains unless the commissioner, after giving the insurer who would be affected notice and an opportunity to be heard, determines that the interest of policyholders, shareholders, or the public will be served by publication, in which event the commissioner may publish all or any part in the manner the commissioner deems appropriate.

26.1-10.1-02. Acquisitions and dispositions of assets.

1. Materiality. Acquisitions or dispositions of assets need not be reported under section 26.1-10.1-01 if the acquisitions or dispositions are not material. For purposes of this chapter, a material acquisition, or the aggregate of any series of related acquisitions during any thirty-day period, or disposition, or the aggregate of any series of related dispositions during any thirty-day period, is one that is nonrecurring and not in the ordinary course of business and involves more than five percent of the reporting insurer's total admitted assets as reported in its most recent statutory statement filed with the insurance department of the insurer's state of domicile.
2. Scope.
 - a. Asset acquisitions subject to this chapter include every purchase, lease, exchange, merger, consolidation, succession, or other acquisition other than the construction or development of real property by or for the reporting insurer or the acquisition of materials for this purpose.
 - b. Asset dispositions subject to this chapter include every sale, lease, exchange, merger, consolidation, mortgage, hypothecation, assignment whether for the benefit of creditors or otherwise, abandonment, destruction, or other disposition.
3. Information to be reported.
 - a. The following information is required to be disclosed in any report of a material acquisition or disposition of assets:
 - (1) Date of the transaction;
 - (2) Manner of acquisition or disposition;
 - (3) Description of the assets involved;
 - (4) Nature and amount of the consideration given or received;
 - (5) Purpose of, or reason for, the transaction;
 - (6) Manner by which the amount of consideration was determined;
 - (7) Gain or loss recognized or realized as a result of the transaction; and

(8) Names of the persons from whom the assets were acquired or to whom they were disposed.

b. Insurers are required to report material acquisitions and dispositions on a nonconsolidated basis unless the insurer is part of a consolidated group of insurers that utilizes a pooling arrangement or one hundred percent reinsurance agreement that affects the solvency and integrity of the insurer's reserves and the insurer ceded substantially all of its direct and assumed business to the pool. An insurer is deemed to have ceded substantially all of its direct and assumed business to a pool if the insurer has less than one million dollars total direct plus assumed written premiums during a calendar year that are not subject to a pooling arrangement and the net income of the business not subject to the pooling arrangement represents less than five percent of the insurer's capital and surplus.

26.1-10.1-03. Nonrenewals, cancellations, or revisions of ceded reinsurance agreements.

1. Materiality and scope.

a. Nonrenewals, cancellations, or revisions of ceded reinsurance agreements need not be reported under section 26.1-10.1-01 if the nonrenewals, cancellations, or revisions are not material. For purposes of this chapter, a material nonrenewal, cancellation, or revision is one that affects:

(1) As respects property and casualty business, including accident and health business written by a property and casualty insurer:

(a) More than fifty percent of the insurer's total ceded written premium; or

(b) More than fifty percent of the insurer's total ceded indemnity and loss adjustment reserves.

(2) As respects life, annuity, and accident and health business, more than fifty percent of the total reserve credit taken for business ceded, on an annualized basis, as indicated in the insurer's most recent annual statement.

(3) As respects either property and casualty or life, annuity, and accident and health business, either of the following events constitutes a material revision that must be reported:

(a) An authorized reinsurer representing more than ten percent of a total cession is replaced by one or more unauthorized reinsurers; or

(b) Previously established collateral requirements have been reduced or waived as respects one or more unauthorized reinsurers representing collectively more than ten percent of a total cession.

b. However, filing is not required if:

- (1) As respects property and casualty business, including accident and health business written by a property and casualty insurer, the insurer's total ceded written premium represents, on an annualized basis, less than ten percent of its total written premium for direct and assumed business; or
 - (2) As respects life, annuity, and accident and health business, the total reserve credit taken for business ceded represents, on an annualized basis, less than ten percent of the statutory reserve requirement prior to any cession.
2. Information to be reported.
- a. The following information is required to be disclosed in any report of a material nonrenewal, cancellation, or revision of ceded reinsurance agreements:
 - (1) Effective date of the nonrenewal, cancellation, or revision;
 - (2) The description of the transaction with an identification of the initiator of the transaction;
 - (3) Purpose of, or reason for, the transaction; and
 - (4) If applicable, the identity of the replacement reinsurers.
 - b. Insurers are required to report all material nonrenewals, cancellations, or revisions of ceded reinsurance agreements on a nonconsolidated basis unless the insurer is part of a consolidated group of insurers that utilizes a pooling arrangement or one hundred percent reinsurance agreement that affects the solvency and integrity of the insurer's reserves and the insurer ceded substantially all of its direct and assumed business to the pool. An insurer is deemed to have ceded substantially all of its direct and assumed business to a pool if the insurer has less than one million dollars total direct plus assumed written premiums during a calendar year which are not subject to a pooling arrangement and the net income of the business not subject to the pooling arrangement represents less than five percent of the insurer's capital and surplus.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 26.1-07-01 of the North Dakota Century Code is amended and reenacted as follows:

26.1-07-01. Domestic companies - Consolidation - Reinsurance. As used in this chapter, "consolidate" includes consolidation and merger and "reinsurance" ~~refers to reinsurance~~ includes only those obligations ceded or assumed by an assumption agreement. An "assumption agreement" is one that transfers all of the direct insurer's obligations under policies of insurance to another insurer and relieves the transferring insurer of any obligations under the policies. A domestic insurance company organized on the stock, mutual, stipulated premium, or assessment plan may not consolidate with any other company, or reinsure its risks or any part thereof with any other company, or assume or reinsure the whole or any portion of the risks of any other company, except in the manner provided by this chapter. ~~This chapter does not prevent a company, whether organized on the stock or mutual plan, from reinsuring a fractional part of any single risk.~~

SECTION 2. AMENDMENT. Section 26.1-07-02 of the North Dakota Century Code is amended and reenacted as follows:

26.1-07-02. Petition for allowance of consolidation or reinsurance. When any company described in section 26.1-07-01 proposes to consolidate with any other company, or to enter into any contract of reinsurance, it must file its petition with the commissioner setting forth the terms and conditions of the proposed consolidation or reinsurance contract and asking for approval or modification as provided by this chapter. The company shall file as an exhibit to the petition the proposed consolidation or reinsurance contract.

SECTION 3. AMENDMENT. Section 26.1-07-04 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

26.1-07-04. Notice of petition for consolidation or reinsurance. When a petition is filed, the commissioner, within thirty days after filing of the petition, shall issue an order requiring notice by mail to each policyholder of the petitioning domestic company if any of its policyholders are being reinsured or it is proposing to consolidate with another company, of the pendency of the petition and of the time

when and place where a hearing on the petition will be held. The hearing must be scheduled not more than ninety days from the date of the order. The commissioner shall publish the order of notice and the petition in five newspapers, one of which must be a daily newspaper published at the state capital, at least two weeks before the hearing upon the petition. By mutual agreement between the petitioning company and the commissioner, the time frame set forth in this section may be modified, changed, or extended.

SECTION 4. A new section to chapter 26.1-07 of the North Dakota Century Code is created and enacted as follows:

Hearing on petition - General duties of commissioner. The commissioner shall hold a hearing on the petition and determine whether the consolidation or reinsurance will be allowed. The hearing must be conducted under chapter 28-32. Within sixty days of the close of the hearing, the commissioner shall enter findings of fact, conclusions of law, and an order either approving or disapproving any petition. The commissioner in making the determination shall consider the following:

1. Whether the proposed consolidation or reinsurance contract is inequitable to the policyholders of any domestic insurance company involved;
2. Whether the proposed consolidation or reinsurance contract would materially reduce the financial security of policyholders of the domestic insurer in this state or elsewhere; and
3. Whether the competence, experience, and integrity of the persons of a foreign insurance company who would control the operation of the consolidated insurance company or the reinsuring company are such that it would not be in the interest of the policyholders of the company to permit the consolidation or reinsurance contract.

The findings of fact, conclusions of law, and order entered by the commissioner are subject to appeal under chapter 28-32.

SECTION 5. REPEAL. Section 26.1-07-05 of the North Dakota Century Code is repealed.
