CHAPTER 292**HOUSE BILL NO. 1243**
(Representative Kretschmar)**AIRCRAFT AFTERMARKET RISK CONTRACTS**

AN ACT relating to aftermarket risk contracts and insurance requirements for purchasers of aircraft and aircraft components manufactured in this state.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. As used in this Act:

1. "Aftermarket risk insurance" means aircraft and aircraft component product and completed operations liability insurance that conforms with sections 2 and 3 of this Act.
2. "Aircraft" means general aviation light craft that is powered and intended to fly above the ground; is designed to carry one person or more, but with a maximum seating capacity of fewer than twenty passengers; and weighs less than twelve thousand five hundred pounds [5669.9 kilograms].
3. "Aircraft component" means a manufactured part or assembly intended for use in the construction, replacement, or repair of an aircraft. The term includes any complete aircraft subsystem, including the aircraft engine, that carries its own manufacturer's warranty or services provided separately from the warranty of the manufacturer of the aircraft.
4. "Aviation manufacturer" means a manufacturer of aircraft or aircraft components who has its place of manufacture and place of production of aircraft or aircraft components located within this state. The term includes a manufacturer located in this state who imports raw materials, components, and aircraft subassemblies from outside the state for manufacturing purposes. The term also includes a person who modifies, maintains, alters, repairs, or installs aircraft components in aircraft in accordance with federal aviation administration regulations and holds a repair station certificate issued by the federal aviation administration.

SECTION 2. North Dakota aftermarket risk contract. The sale of aircraft and aircraft components sold by an aviation manufacturer and the performance of any modification, maintenance, alteration, repair, or installation of components in aircraft in this state are governed by an aftermarket risk contract. The contract between the seller or aviation manager and the purchaser must be executed at the time of purchase and reconsidered at each subsequent resale. The first and subsequent seller or aviation manufacturer shall agree to be bound by North Dakota law and the aftermarket risk contract or to provide a fully paid aftermarket product liability insurance policy that covers exposure to tort liability within the United States. The option of providing the insurance policy applies only to aircraft or aircraft components that sell for more than two thousand dollars.

SECTION 3. Aftermarket risk insurance requirements - Encumbrances.

1. An aftermarket risk insurance policy purchased pursuant to section 2 of this Act must hold harmless all aviation manufacturers that manufactured, modified, maintained, repaired, or altered the aircraft or aircraft component assembled or first sold in this state.
2. The aviation manufacturer or seller of the aircraft or aircraft component may offer in the sales contract aftermarket risk insurance based on continued choice of North Dakota law. The aftermarket risk insurance option must be attached to the original sales contract as a lien on the aircraft holding the first owner and each subsequent owner financially responsible for the cost of purchasing and maintaining aftermarket risk insurance and binding the owner to governance by North Dakota law. An aftermarket insurance obligation must be recorded as a lien on the aircraft at the federal aviation administration aircraft registry.

SECTION 4. Stabilization of aftermarket risk insurance market.

1. An aviation manufacturer and a purchaser of an aircraft or aircraft component which intend to be bound by North Dakota law must be covered by insurance that meets the requirements of insurance laws of this state. The sales contract must include a dispute resolution procedure for aftermarket risk contracts and insurance contracts.
2. An aftermarket risk insurance provider domiciled in this state may limit coverage to include any caps and limitations permitted by law at the time of the first sale of the product.
3. Upon resale of an aircraft or aircraft component, the purchaser agrees to purchase insurance and the insurance carrier shall provide evidence of coverage. A default on the insurance may reinstate, by contract, the lien back to the aviation manufacturer. An aftermarket risk contract may include a requirement for removal of the aircraft or aircraft component from service, consent to be governed by North Dakota law, and purchase of additional passenger and public risk insurance coverage.
4. An aviation manufacturer or value-added reseller shall provide confidential access to data necessary for actuarial analysis by aftermarket insurance carriers to assist in maintaining a competitive insurance market with a choice of alternative carriers.

SECTION 5. Financial responsibility. An owner of an aircraft or aircraft component manufactured in this state shall provide proof of financial responsibility in the amount of one hundred thousand dollars, per occurrence, for property damage and personal injury or death on the ground resulting from the use of the aircraft or aircraft component.

HEALTH PROVIDER COOPERATIVES

AN ACT to create and enact a new chapter to title 26.1 of the North Dakota Century Code, relating to health provider cooperatives; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new chapter to title 26.1 of the North Dakota Century Code is created and enacted as follows:

Definitions. As used in this chapter:

1. "Commissioner" means the commissioner of insurance.
2. "Health care provider" means any person or institution licensed to provide health care services in this state.
3. "Health provider cooperative" means a corporation organized under this chapter and operated on a cooperative plan to provide health care services to purchasers of those services.
4. "Member" means a licensed health care provider or an organization owned, controlled, or affiliated with a health care provider, including without limitation, a professional corporation, partnership, or other similar organization.

Organization - Licensure. A health provider cooperative shall organize under chapter 10-15 unless otherwise provided in this chapter. After incorporation the health provider cooperative is subject to chapter 10-15 unless otherwise provided in this chapter. If a provision of this chapter conflicts with chapter 10-15, the provision of this chapter applies. A health provider cooperative organized under this chapter is not an insurance company under chapter 26.1-12, a health maintenance organization under chapter 26.1-18.1, or a nonprofit health service corporation under chapter 26.1-17. A health provider cooperative does not violate limitations on the corporate practice of medicine.

Powers. In addition to the powers granted a cooperative under chapter 10-15, a health provider cooperative has the powers granted a nonprofit corporation under chapter 10-24. The power granted under chapter 10-15 controls over any inconsistent power granted by chapter 10-24.

Provider contracts. A health provider cooperative and its members may execute service contracts permitting the provider members to provide some or all of their health care services through the health provider cooperative to the enrollees, members, subscribers, or insureds of a nonprofit health service plan, health maintenance organization, accident and health insurance company, or the state medical assistance program. Each purchaser may execute contracts for the purchase of health services from a health provider cooperative in accordance with this section.

A contract between a health provider cooperative and a purchaser must provide for payment by the purchaser on a substantially capitated or similar risk-sharing basis.

1. Every contract between a health provider cooperative and a purchaser must be in writing and must provide that if the purchaser fails to pay for health care services as set forth in the contract, the enrollee is not liable to the provider for any sums owed by the purchaser.
2. A member provider, agent, trustee, or assignee thereof, may not maintain any action at law against an enrollee to collect sums owed by the purchaser.

Contract filing - Approval. The health provider cooperative shall file each contract between the cooperative and a purchaser with the commissioner. The commissioner shall disapprove any contract:

1. In which the consideration paid for health services is unreasonably high in relationship to the services provided.
2. That fails to include evidence of the specific procedures used to inform prospective enrollees of any limitations imposed on the enrollee's right to receive care from a health provider of the enrollee's choice.
3. Under which a health provider cooperative assumes a corridor of risk greater than fifteen percent in its first year of operation, or greater than thirty percent in any year thereafter.

Any actuarial costs incurred by the department in review of that filing must be borne by the cooperative. The commissioner may adopt rules implementing this section.

Election of directors - Vote by mail. Directors of health provider cooperatives are elected under procedures set forth in chapter 10-15. A member may vote by mail for a director unless mail voting is prohibited for election of directors by the articles or bylaws of the cooperative. The board of directors shall prescribe the form of the ballot. The members shall mark the ballot for the candidate chosen and mail the ballot to the cooperative in a sealed plain envelope inside another envelope bearing the member's name. If the ballot of the member is received by the cooperative on or before the date of the regular members' meeting, the ballot must be accepted and counted as the vote of the absent member.

State and federal governmental participation. The state or federal government, or any entity or political subdivision of the state or federal government, may be a member of a health provider cooperative. Any state or federal governmental hospital may be a member of a health provider cooperative. With respect to federal governmental participation:

1. A health provider cooperative may limit its enrollment to those persons entitled to care under the federal program responsible for the health provider cooperative.
2. A health provider cooperative may request that the commissioner waive the eligibility requirements for participation that are contrary to federal law or regulations.

3. The commissioner shall consult with federal officials to develop procedures to allow a health provider cooperative to use the federal government as a guaranteeing organization.
4. In developing and implementing initiatives to expand access to health care, the commissioner must recognize the unique problems of veterans and consider methods to reach underserved portions of the veteran population.

Prohibited practices - Penalty.

1. It is unlawful for any person, company, or corporation or any agent, officer, or employee thereof, to coerce or require any person to agree, either in writing or orally, not to join or become or remain a member of any health provider cooperative as a condition of securing or retaining a contract for health care services with the person, firm, or corporation.
2. It is unlawful for any person, company, or corporation, or any combination of persons, companies, or corporations, or any agents, officers, or employees thereof, to engage in acts of coercion, intimidation, or boycott of, or any refusal to deal with, any health care providing entity arising from that entity's actual or potential participation in a health provider cooperative.
3. It is unlawful for any health provider cooperative to engage in any acts of coercion, intimidation, or boycott of, or any concerted refusal to deal with any health plan company seeking to contract with the cooperative on a competitive, reasonable, and nonexclusive basis.
4. It is unlawful for any health provider cooperative to refuse membership to any licensed health care provider or organization that applies for membership and that otherwise agrees to the membership requirements of the health provider cooperative.
5. Any person violating subsections 1 through 4 is deemed to have committed a violation of chapter 51-08.1 and is subject to the provisions, procedures, and penalties of that chapter.

PRODUCTS LIABILITY ACTIONS AND DAMAGES

AN ACT to create and enact three new sections to chapter 28-01.3 of the North Dakota Century Code, relating to limitations, rebuttable presumptions against defects, and exemplary damages in products liability actions; and to amend and reenact section 32-03.2-11 of the North Dakota Century Code, relating to exemplary damages.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Three new sections to chapter 28-01.3 of the 1993 Supplement to the North Dakota Century Code are created and enacted as follows:

Declaration of legislative findings and intent.

1. The legislative assembly finds that products liability reforms enacted in 1979, 1987, and 1993 have provided a needed degree of certainty in the laws governing civil actions against product manufacturers and sellers.
2. In recent years it has become increasingly evident that there are still serious problems with the current civil justice system. As a result, there is an urgent need for additional legislation to establish clear and predictable rules with respect to certain matters relating to products liability actions.
3. The purpose of the following sections is to clarify and improve the method of determining responsibility for the payment of damages in products liability litigation; to restore balance and predictability between the consumer and the manufacturer or seller in product liability litigation; to bring about a more fair and equitable resolution of controversies in products liability litigation; to reenact a statute of repose to provide a reasonable period of time for the commencement of products liability litigation after a manufacturer or seller has parted with possession of its product; to address problems that have been created by judicial interpretation of our previous enactments; to enact, with minor changes, several provisions of former chapter 28-01.1; and to simplify and provide an increased degree of certainty and predictability to our products liability laws.

Statute of limitation and repose.

1. Except as provided in subsections 4 and 5, there may be no recovery of damages in a products liability action unless the injury, death, or property damage occurs within ten years of the date of initial purchase

for use or consumption, or within eleven years of the date of manufacture of a product.

2. This section applies to all persons, regardless of minority or other legal disability.
3. If a manufacturer, wholesaler, or retailer issues a recall of a product in any state or becomes aware of any defect in a product at any time and fails to take reasonable steps to warn users of the product defect, the provisions of subsection 1 do not bar a products liability action against the manufacturer or seller by a user of the product who is subsequently injured or damaged as a result of the defect.
4. An action to recover damages based on injury allegedly resulting from exposure to asbestos composed of chrysotile, amosite, crocidolite, tremolite, anthrophyllite, actinolite, or any combination thereof, must be commenced within three years after the injured person has been informed of discovery of the injury by competent medical authority and that the injury was caused by exposure to asbestos as described in this subsection, or within three years after the discovery of facts that would reasonably lead to the discovery, whichever is earlier. No action commenced under this subsection based on the doctrine of strict liability in tort may be commenced or maintained against any seller of a product that is alleged to contain or possess a defective condition unreasonably dangerous to the buyer, user, or consumer unless the seller is also the manufacturer of the product or the manufacturer of the part of the product claimed to be defective.
5. An action to recover damages based on injury to property allegedly resulting from the presence of products containing asbestos fibers of any type must be commenced within six years of the date upon which the owner of that property knew or should have known of facts giving rise to the cause of action.

Rebuttable presumption against defects. There is a rebuttable presumption that a product is free from any defect or defective condition where the plans, designs, warnings, or instructions for the product or the methods and techniques of manufacturing, inspecting, and testing the product were in conformity with government standards established for that industry or where no government standards exist then with applicable industry standards, which were in existence at the time the plans, designs, warnings, or instructions for the product or the methods and techniques of manufacturing, inspecting, and testing the product were adopted.

SECTION 2. AMENDMENT. Section 32-03.2-11 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

32-03.2-11. When court or jury may give exemplary damages.

1. In any action for the breach of an obligation not arising from contract, when the defendant has been guilty by clear and convincing evidence of oppression, fraud, or actual malice, ~~actual or presumed~~; the court or jury, in addition to the actual damages, may give damages for the sake of example and by way of punishing the defendant. Upon commencement of the action, the complaint may not seek exemplary damages. After filing the suit, a party may make a motion to amend the pleadings to claim exemplary damages. The motion must allege an

applicable legal basis for awarding exemplary damages and must be accompanied by one or more affidavits showing the factual basis for the claim. At the hearing on the motion, if the court finds prima facie evidence in support of the motion, the court shall grant the moving party permission to amend the pleadings to claim exemplary damages. For purposes of tolling the statute of limitations, pleadings amended under this section relate back to the time the action was commenced.

2. If either party so elects, the trier of fact shall first determine whether compensatory damages are to be awarded before addressing any issues related to exemplary damages. Evidence relevant only to the claim for exemplary damages is not admissible in the proceeding on liability for compensatory damages. If an award of compensatory damages has been made, the trier of fact shall determine whether exemplary damages are to be awarded.
3. Evidence of a defendant's financial condition or net worth is not admissible in the proceeding on exemplary damages.
4. If the trier of fact determines that exemplary damages are to be awarded, the amount of exemplary damages may not exceed two times the amount of compensatory damages or two hundred fifty thousand dollars, whichever is greater; provided, however, that no award of exemplary damages may be made if the claimant is not entitled to compensatory damages. In a jury trial, the jury may not be informed of the limit on damages contained in this subsection. Any jury award in excess of this limit must be reduced by the court.
5. In order for a party to recover exemplary damages, the finder of fact shall find by clear and convincing evidence that the amount of exemplary damages awarded is consistent with the following principles and factors:
 - a. Whether there is a reasonable relationship between the exemplary damage award claimed and the harm likely to result from the defendant's conduct as well as the harm that actually has occurred;
 - b. The degree of reprehensibility of the defendant's conduct and the duration of that conduct; and
 - c. Any of the following factors as to which evidence is presented:
 - (1) The defendant's awareness of and any concealment of the conduct;
 - (2) The profitability to the defendant of the wrongful conduct and the desirability of removing that profit and of having the defendant also sustain a loss; and
 - (3) Criminal sanctions imposed on the defendant for the same conduct that is the basis for the exemplary damage claim, these to be taken into account if offered in mitigation of the exemplary damage award.

6. Exemplary damages may not be awarded against a manufacturer or seller if the product's manufacture, design, formulation, inspection, testing, packaging, labeling, and warning complied with:
 - a. Federal statutes existing at the time the product was produced;
 - b. Administrative regulations existing at the time the product was produced that were adopted by an agency of the federal government which had responsibility to regulate the safety of the product or to establish safety standards for the product pursuant to a federal statute; or
 - c. Premarket approval or certification by an agency of the federal government.
7. The defense in subsection 6 does not apply if the plaintiff proves by clear and convincing evidence that the product manufacturer or product seller:
 - a. Knowingly and in violation of applicable agency regulations withheld on misrepresented information required to be submitted to the agency, which information was material and relevant to the harm in question; or
 - b. Made an illegal payment to an official of the federal agency for the purpose of securing approval of the product.
8. Exemplary damages may be awarded against a principal because of an act by an agent only if at least one of the following is proved by clear and convincing evidence to be true:
 - a. The principal or a managerial agent authorized the doing and manner of the act;
 - b. The agent was unfit and the principal or a managerial agent was reckless in employing or retaining the agent;
 - c. The agent was employed in a managerial capacity and was acting in the scope of employment; or
 - d. The principal or managerial agent ratified or approved the doing and manner of the act.

AIRCRAFT PRODUCT LIABILITY

AN ACT relating to product liability actions against manufacturers of general aviation light aircraft.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. As used in this Act:

1. "Aircraft" means general aviation light craft that is powered and intended to fly above the ground; is designed to carry one person or more, but with a maximum seating capacity of fewer than twenty passengers; and weighs less than twelve thousand five hundred pounds [5669.9 kilograms].
2. "Aircraft component" means a manufactured part or assembly intended for use in the construction, replacement, or repair of an aircraft. The term includes any complete aircraft subsystem, including the aircraft engine, that carries its own manufacturer's warranty or services provided separately from the warranty of the manufacturer of the aircraft.
3. "Aviation manufacturer" means a manufacturer of aircraft or aircraft components who has its place of manufacture and place of production of aircraft or aircraft components located within this state. The term includes a manufacturer located in this state who imports raw materials, components, and aircraft subassemblies from outside the state for manufacturing purposes. The term also includes a person who modifies, maintains, alters, repairs, or installs aircraft components in aircraft in accordance with federal aviation administration regulations and holds a repair station certificate issued by the federal aviation administration.
4. "State-of-the-art product" means an aircraft or aircraft component manufactured by utilizing the most recent scientific, mechanical, and technological developments at the time of manufacture.

SECTION 2. Compliance with federal standards - Presumptions and defenses.

1. There is a disputable presumption that a product is free from any defect or defective condition if the product was in compliance with:
 - a. Government standards established for that product; or
 - b. If no government standards exist, applicable industry standards that were in existence at the time of manufacture.

2. An aviation manufacturer or a seller of aircraft or aircraft components may utilize the presumption provided by subsection 1 if the manufacture, design, formulation, inspection, testing, packaging, labeling, or warning complied with:
 - a. Federal aviation administration or department of transportation regulations that relate to the safety or establish safety standards for the aircraft or aircraft component and which existed at the time the aircraft or aircraft component was produced;
 - b. Any premarket approval or certification by the federal aviation administration or any other federal agency; and
 - c. Applicable industry standards that were in existence at the time the plans, designs, warnings, or instructions for the aircraft or aircraft component or the methods and techniques of manufacturing, inspecting, and testing the product were adopted.
3. The presumption under subsection 1 is not available if the plaintiff proves by clear and convincing evidence that the aviation manufacturer or product seller knowingly and in violation of applicable agency regulations made misrepresentations, made illegal payments to an official for the purpose of securing approval, committed fraud, or concealed evidence.
4. There is an absolute defense to any product liability action brought against an aviation manufacturer when a claimant, in violation of federal aviation administration regulations, has used alcohol or illicit drugs while operating or using an aircraft or aircraft component.
5. This Act does not affect the authority of the federal aviation administration or any other federal agency with regard to the regulation of aircraft and aircraft components.

SECTION 3. State-of-the-art defense. An aviation manufacturer or seller of aircraft or aircraft components may not be held liable for any personal injury, death, or damage to property sustained as a result of an alleged defect in a state-of-the-art product. An aircraft or aircraft component is presumed to be a state-of-the-art product if the plaintiff cannot show by a preponderance of the evidence that a safer aircraft or aircraft component was on the market at the time of manufacture. No evidence of subsequent design or modification of an aircraft or aircraft component is admissible to prove that an aircraft or aircraft component is not a state-of-the-art product. The state-of-the-art comparisons must be made to products with similar-intended utility. The trier of the fact shall consider the defense that the designer's choice averted greater peril for a large subclass of intended users and shall consider the economic viability of the component or product.

SECTION 4. Useful safe life - Statute of repose - Statute of limitation.

1. An aviation manufacturer may not be held liable in a product liability action if the defendant establishes that the harm was caused after the period of useful safe life of the aircraft or aircraft component had expired. The useful safe life of an aircraft or aircraft component may be measured in units of time or in other units that accurately gauge the useful safe life of a product.

2. In a claim for relief that involves injury more than ten years after the date of first delivery of the aircraft or aircraft component to the first user, purchaser, or lessee, a disputable presumption arises that the harm was caused after the useful safe life had expired. The presumption may only be rebutted by clear and convincing evidence. If the aviation manufacturer or seller expressly warrants that its product can be utilized safely for a period longer than ten years, the period of repose is extended according to the warranty or promise.
3. With respect to any aircraft component that replaced another product originally in, or which was added to, the aircraft, and which is alleged to have caused the claimant's damages, no claim for damages may be made after the useful safe life of the component, the period stated in the warranty, or ten years after manufacture of the component, whichever is later.
4. A product liability action may not be brought more than two years after the time the claimant discovered, or in the exercise of due diligence should have discovered, the harm and cause of the action.

AN ACT to amend and reenact subsection 1 of section 28-32-02 and sections 28-32-03 and 28-32-03.3 of the North Dakota Century Code, relating to the authority of the administrative rules committee over the effectiveness of administrative rules; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹⁶⁹ SECTION 1. AMENDMENT. Subsection 1 of section 28-32-02 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. The authority of an administrative agency to adopt administrative rules is authority delegated by the legislative assembly. As part of that delegation, the legislative assembly reserves to itself the authority to determine when and if rules of administrative agencies are effective. Every administrative agency may adopt, ~~and from time to time to~~ amend, or repeal; reasonable rules in conformity with the provisions of this chapter and any statute administered or enforced by the agency.

SECTION 2. AMENDMENT. Section 28-32-03 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

28-32-03. Filing of rules - Force and effect of rules - Form and style of rules - Rules invalid unless in compliance with chapter.

1. A copy of each rule adopted by an administrative agency, and the attorney general's opinion thereon, must be filed by the adopting agency with the office of the legislative council for publication in the North Dakota Administrative Code.
2. Nonemergency rules approved by the attorney general as to legality, adopted by an administrative agency, and filed with the office of the legislative council become effective the first day of the month after the month of publication as provided for in section 28-32-03.1, except that if a later date is required by statute ~~or~~, specified in the rule, or provided under section 28-32-03.3, the later date is the effective date. A rule found to be void by the committee on administrative rules is void from the time provided under section 28-32-03.3. If publication is delayed due to technological problems or lack of funds, nonemergency rules,

¹⁶⁹ Section 28-32-02 was also amended by section 2 of Senate Bill No. 2429, chapter 308, and section 2 of Senate Bill No. 2405, chapter 309.

unless otherwise provided, become effective on the first day of the month after the month publication would have occurred but for the delay.

3. Upon becoming effective, rules have the force and effect of law until amended or repealed by the agency, declared invalid by a final court decision, suspended or found to be void by the committee on administrative rules, or determined repealed by the office of the legislative council because the authority for adoption of the rules is repealed or transferred to another agency.
4. The office of the legislative council may prescribe a format, style, and arrangement for rules which are to be published in the code, and may refuse to accept the filing of any rule that is not in substantial compliance therewith. In arranging rules for publication, the office of the legislative council may make such corrections in spelling, grammatical construction, format, and punctuation of the rules as deemed proper. The office of the legislative council shall keep and maintain a permanent code of all rules filed, including superseded and repealed rules, which must be open to public inspection during office hours.
5. A rule is invalid unless adopted in substantial compliance with this chapter. However, inadvertent failure to supply any person with a notice required by section 28-32-02 does not invalidate a rule. Notwithstanding subsection 2 of section 28-32-15, an action to contest the validity of a rule on the grounds of noncompliance with this chapter may not be commenced more than two years after the effective date of the rule.

SECTION 3. AMENDMENT. Section 28-32-03.3 of the North Dakota Century Code is amended and reenacted as follows:

28-32-03.3. Committee on administrative rules - Finding that rules are void - Objection to rules - Effects of objection.

1. The legislative council's committee on administrative rules may find that all or any portion of a rule is void if that finding is made within ninety days after the date of the administrative code supplement in which the rule change appears or, for rule changes appearing in the administrative code supplement from November first immediately preceding a regular session of the legislative assembly through the following May first, if that finding is made at the first meeting of the administrative rules committee following the regular session of the legislative assembly. The committee on administrative rules may find a rule or portion of a rule void if the committee makes the specific finding that, with regard to that rule or portion of a rule, there is:
 - a. An absence of statutory authority.
 - b. An emergency relating to public health, safety, or welfare.
 - c. A failure to comply with express legislative intent or to substantially meet the procedural requirements of this chapter for adoption of the rule.
 - d. A conflict with state law.

- e. Arbitrariness and capriciousness.
 - f. A failure to make a written record of its consideration of written and oral submissions respecting the rule under subsection 3 of section 28-32-02.
2. Within three business days after the committee on administrative rules finds that a rule is void, the office of the legislative council shall provide written notice of that finding and the committee's specific finding under subdivisions a through f of subsection 1 to the adopting agency and to the chairman of the legislative council. Within fourteen days after receipt of the notice, the adopting agency may file a petition with the chairman of the legislative council for review by the legislative council of the decision of the committee on administrative rules. If the adopting agency does not file a petition for review, the rule becomes void on the fifteenth day after the notice from the office of the legislative council to the adopting agency. If within sixty days after receipt of the petition from the adopting agency the legislative council has not disapproved by motion the finding of the committee on administrative rules, the rule is void.
3. If the legislative council's committee on administrative rules objects to all or any portion of a rule because the committee deems it to be unreasonable, arbitrary, capricious, or beyond the authority delegated to the adopting agency, the committee may file that objection in certified form in the office of the legislative council. The filed objection must contain a concise statement of the committee's reasons for its action.
- 2- a. The office of the legislative council shall attach to each objection a certification of the time and date of its filing and, as soon as possible, shall transmit a copy of the objection and the certification to the agency adopting the rule in question. The office of the legislative council shall also maintain a permanent register of all committee objections.
- 3- b. The office of the legislative council shall publish an objection filed pursuant to this section in the next issue of the code supplement. In case of a filed committee objection to a rule subject to the exceptions of the definition of rule in section 28-32-01, the agency shall indicate the existence of that objection adjacent to the rule in any compilation containing that rule.
- 4- c. Within fourteen days after the filing of a committee objection to a rule, the adopting agency shall respond in writing to the committee. After receipt of the response, the committee may withdraw or modify its objection.
- 5- d. After the filing of a committee objection, the burden of persuasion is upon the agency in any action for judicial review or for enforcement of the rule to establish that the whole or portion thereof objected to is within the procedural and substantive authority delegated to the agency. If the agency fails to meet its burden of persuasion, the court shall declare the whole or portion of the rule objected to invalid and judgment must be rendered against the agency for court costs. These court costs must include a

reasonable attorney's fee and must be payable from the appropriation of the agency which adopted the rule in question.

4. An agency may amend or repeal a rule or create a related rule if, after consideration of rules by the committee on administrative rules, the agency and committee agree that the rule amendment, repeal, or creation is necessary to address any of the considerations under subsection 1. A rule amended, repealed, or created under this subsection is not subject to the other requirements of this chapter relating to adoption of administrative rules and may be resubmitted by the agency to the legislative council for publication as amended, repealed, or created and reconsidered by the committee on administrative rules at a subsequent meeting at which public comment on the agreed rule change must be allowed.

SECTION 4. AMENDMENT. Section 28-32-03.3 of the North Dakota Century Code is amended and reenacted as follows:

28-32-03.3. Committee on administrative rules - Suspension of rules - Objection to rules - Effects of objection.

1. The legislative council's committee on administrative rules may find, for any reason under this subsection, that all or any portion of a rule should be reviewed by the legislative assembly, and the committee may suspend the rule or portion of a rule under this subsection if the suspension is made within ninety days after the date of the administrative code supplement in which the rule change appears or, for rule changes appearing in the administrative code supplement from November first immediately preceding a regular session of the legislative assembly through the following May first, if that suspension is made at the first meeting of the administrative rules committee following the regular session of the legislative assembly. A rule or a portion of a rule suspended under this subsection becomes permanently ineffective unless it is ratified by both houses of the legislative assembly during the next session of the legislative assembly, in which case it is effective as of the date of ratification by the second house of the legislative assembly. An agency seeking ratification of its rule shall introduce a bill for that purpose. The committee on administrative rules may suspend a rule or portion of a rule if the committee specifically finds that, with regard to the rule, there is:
 - a. An absence of statutory authority.
 - b. An emergency relating to public health, safety, or welfare.
 - c. A failure to comply with express legislative intent or to substantially meet the procedural requirements of this chapter for adoption of the rule.
 - d. A conflict with state law.
 - e. Arbitrariness and capriciousness.
 - f. A failure to make a written record of its consideration of written and oral submissions respecting the rule under subsection 3 of section 28-32-02.

2. Within three business days after the committee on administrative rules suspends a rule, the office of the legislative council shall provide written notice of that suspension and the committee's specific finding under subdivisions a through f of subsection 1 to the adopting agency and to the chairman of the legislative council. Within fourteen days after receipt of the notice, the adopting agency may file a petition with the chairman of the legislative council for review by the legislative council of the decision of the committee on administrative rules. After receipt of the petition and before the next session of the legislative assembly, the legislative council by motion may lift the suspension and reinstate the rule's effectiveness.
3. If the legislative council's committee on administrative rules objects to all or any portion of a rule because the committee deems it to be unreasonable, arbitrary, capricious, or beyond the authority delegated to the adopting agency, the committee may file that objection in certified form in the office of the legislative council. The filed objection must contain a concise statement of the committee's reasons for its action.
 - 2- a. The office of the legislative council shall attach to each objection a certification of the time and date of its filing and, as soon as possible, shall transmit a copy of the objection and the certification to the agency adopting the rule in question. The office of the legislative council shall also maintain a permanent register of all committee objections.
 - 3- b. The office of the legislative council shall publish an objection filed pursuant to this section in the next issue of the code supplement. In case of a filed committee objection to a rule subject to the exceptions of the definition of rule in section 28-32-01, the agency shall indicate the existence of that objection adjacent to the rule in any compilation containing that rule.
 - 4- c. Within fourteen days after the filing of a committee objection to a rule, the adopting agency shall respond in writing to the committee. After receipt of the response, the committee may withdraw or modify its objection.
 - 5- d. After the filing of a committee objection, the burden of persuasion is upon the agency in any action for judicial review or for enforcement of the rule to establish that the whole or portion thereof objected to is within the procedural and substantive authority delegated to the agency. If the agency fails to meet its burden of persuasion, the court shall declare the whole or portion of the rule objected to invalid and judgment must be rendered against the agency for court costs. These court costs must include a reasonable attorney's fee and must be payable from the appropriation of the agency which adopted the rule in question.
4. An agency may amend or repeal a rule or create a related rule if, after consideration of rules by the committee on administrative rules, the agency and committee agree that the rule amendment, repeal, or creation is necessary to address any of the considerations under subsection 1. A rule amended, repealed, or created under this subsection is not subject to the other requirements of this chapter relating to adoption of administrative rules and may be resubmitted by

the agency to the legislative council for publication as amended, repealed, or created and reconsidered by the committee on administrative rules at a subsequent meeting at which public comment on the agreed rule change must be allowed.

SECTION 5. EFFECTIVE DATE - SUSPENSION. This Act is effective for any rule adopted by an administrative agency after July 30, 1995. Section 4 of this Act is suspended from operation and becomes effective retroactive to August 1, 1995, upon a ruling by the North Dakota supreme court that any portion of subsection 1 of section 28-32-03.3 as created by section 3 of this Act is unconstitutional.

GOVERNMENTAL TAKINGS ASSESSMENTS

AN ACT to create and enact a new section to chapter 28-32 of the North Dakota Century Code, relating to the preparation of taking assessments in an administrative rulemaking procedure and reconsideration of administrative rules.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 28-32 of the North Dakota Century Code is created and enacted as follows:

Takings assessment of government agency appeal.

1. An agency shall prepare a written assessment of the constitutional takings implications of a proposed rule that may limit the use of private real property. The agency's assessment must:
 - a. Assess the likelihood that the proposed rule may result in a taking or regulatory taking.
 - b. Clearly and specifically identify the purpose of the proposed rule.
 - c. Explain why the proposed rule is necessary to substantially advance that purpose and why no alternative action is available that would achieve the agency's goals while reducing the impact on private property owners.
 - d. Estimate the potential cost to the government if a court determines that the proposed rule constitutes a taking or regulatory taking.
 - e. Identify the source of payment within the agency's budget for any compensation that may be ordered.
 - f. Certify that the benefits of the proposed rule exceed the estimated compensation costs.
2. Any private landowner who is or may be affected by a rule that limits the use of the landowner's private real property may request in writing that the agency reconsider the application or need for the rule. Within thirty days of receiving the request, the agency shall consider the request and shall in writing inform the landowner whether the agency intends to keep the rule in place, modify application of the rule, or repeal the rule.

3. In an agency's analysis of the takings implications of a proposed rule, "taking" means the taking of private real property, as defined in section 47-01-03, by government action which requires compensation to the owner of that property by the fifth or fourteenth amendment to the Constitution of the United States or section 16 of article I of the Constitution of North Dakota. "Regulatory taking" means a taking of real property through the exercise of the police and regulatory powers of the state which reduces the value of the real property by more than fifty percent. However, the exercise of a police or regulatory power does not effect a taking if it substantially advances legitimate state interests, does not deny an owner economically viable use of the owner's land, or is in accordance with applicable state or federal law.

 - a. Amounts included in the augmented estate under subdivision a of subsection 2 of section 30.1-05-02 which pass or have passed to the surviving spouse by testate or intestate succession and amounts included in the augmented estate under subdivision c of subsection 2 of section 30.1-05-02; and
 - b. Amounts included in the augmented estate under subdivision d of subsection 2 of section 30.1-05-02.

2. If, after the application of subsection 1, the elective-share amount is not fully satisfied or if the surviving spouse is entitled to a supplemental elective-share amount, amounts included in the decedent's probate estate and in the decedent's nonprobate transfers to others, other than amounts included under subparagraph a or b of paragraph 3 of subdivision b of subsection 2 of section 30.1-05-02, are applied first to satisfy the unsatisfied balance of the elective-share amount or the supplemental elective-share amount. The decedent's probate estate and that portion of the decedent's nonprobate transfers to others are so applied that liability for the unsatisfied balance of the elective-share amount or for the supplemental elective-share amount is equitably apportioned among the recipients of the decedent's probate estate and of that portion of the decedent's nonprobate transfers to others in proportion to the value of their interests therein.
3. If, after the application of subsections 1 and 2, the elective-share or supplemental elective-share amount is not fully satisfied, the remaining portion of the decedent's nonprobate transfers to others is so applied that liability for the unsatisfied balance of the elective-share or supplemental elective-share amount is equitably apportioned among the recipients of that remaining portion of the decedent's nonprobate transfers to others in proportion to the value of their interests therein.

30.1-05-04. (2-204) Waiver of right to elect and of other rights Personal liability of recipients.

1. **The right of election of a surviving spouse and the rights of the surviving spouse to homestead allowance, exempt property, and family allowance, or any of them, may be waived, wholly or partially, before or after marriage, by a written contract, agreement, or waiver signed by the surviving spouse.**
2. **A surviving spouse's waiver is not enforceable if the surviving spouse proves that:**
 - a. **The waiver, if given effect, would reduce the assets or income available to the surviving spouse to an amount less than those allowed for persons eligible for a program of public assistance;**
 - b. **The surviving spouse did not execute the waiver voluntarily; or**
 - c. **The waiver was unconscionable when it was executed and, before execution of the waiver, the surviving spouse:**
 - (1) **Was not provided a fair and reasonable disclosure of the property or financial obligations of the decedent;**
 - (2) **Did not voluntarily and expressly waive, in writing, any right to disclosure of the property or financial obligations of the decedent beyond the disclosure provided;**
 - (3) **Did not have, or reasonably could not have had, an adequate knowledge of the property or financial obligations of the decedent.**

3. An issue of unconscionability of a waiver is for decision by the court as a matter of law.
 4. Unless it provides to the contrary, a waiver of "all rights" or equivalent language in the property or estate of a present or prospective spouse or a complete property settlement entered into after or in anticipation of separation or divorce is a waiver of all rights of elective share, homestead allowance, exempt property, and family allowance by each spouse in the property of the other and a renunciation by each of all benefits that would otherwise pass to the person from the other by intestate succession or by virtue of any will executed before the waiver or property settlement.
1. Only original recipients of the decedent's nonprobate transfers to others, and the donees of the recipients of the decedent's nonprobate transfers to others, to the extent the donees have the property or its proceeds, are liable to make a proportional contribution toward satisfaction of the surviving spouse's elective-share or supplemental elective-share amount. A person liable to make contribution may choose to give up the proportional part of the decedent's nonprobate transfers to the person or to pay the value of the amount for which the person is liable.
 2. If any section or part of any section of this chapter is preempted by federal law with respect to a payment, an item of property, or any other benefit included in the decedent's nonprobate transfers to others, a person who, not for value, receives the payment, item of property, or any other benefit, is obligated to return that payment, item of property, or benefit, or is personally liable for the amount of that payment or the value of that item of property or benefit, as provided in section 30.1-05-03, to the person who would have been entitled to it were that section or part of that section not preempted.

30.1-05-05. (2-205) Proceeding for elective share - Time limit.

1. Except as provided in subsection 2, the election must be made by filing in the court and mailing or delivering to the personal representative, if any, a petition for the elective share within nine months after the date of the decedent's death, or within six months after the probate of the decedent's will, whichever limitation later expires. The surviving spouse shall serve a copy of the petition for the elective share on, and shall give written notice of the time and place set for hearing to persons interested in the estate and to the distributees and recipients of portions of the augmented estate whose interests will may be adversely affected by the taking of the elective share. Except as provided in subsection 2, the decedent's reclaimable estate nonprobate transfers to others, described in subdivision b of subsection 2 of section 30.1-05-02, is not included within the augmented estate for the purpose of computing the elective share, if the petition is filed more than nine months after the decedent's death.
2. Within nine months after the decedent's death, the surviving spouse may petition the court for an extension of time for making an election. If, within nine months after the decedent's death, the spouse gives notice of the petition to all persons interested in the decedent's reclaimable estate nonprobate transfers to others, the court for cause shown by the surviving spouse may extend the time for election. If the court grants the

spouse's petition for an extension, the decedent's ~~reclaimable estate nonprobate transfers to others~~, described in subdivision b of subsection 2 of section 30.1-05-02, is not excluded from the augmented estate for the purpose of computing the elective-share and supplemental elective-share amounts, if the spouse makes an election by filing in the court and mailing or delivering to the personal representative, if any, a petition for the elective share within the time allowed by the extension.

3. The surviving spouse may withdraw a demand for an elective share at any time before entry of a final determination by the court.
4. After notice and hearing, the court shall determine the elective-share and supplemental elective-share amounts, and shall order its payment from the assets of the augmented estate or by contribution as appears appropriate under ~~section 30.1-05-07~~ sections 30.1-05-03 and 30.1-05-04. If it appears that a fund or property included in the augmented estate has not come into the possession of the personal representative, or has been distributed by the personal representative, the court nevertheless shall fix the liability of any person who has any interest in the fund or property or who has possession thereof, whether as trustee or otherwise. The proceeding may be maintained against fewer than all persons against whom relief could be sought, but no person is subject to contribution in any greater amount than the person would have been under ~~section 30.1-05-07~~ sections 30.1-05-03 and 30.1-05-04, had relief been secured against all persons subject to contribution.
5. An order or judgment of the court may be enforced as necessary in suit for contribution or payment in other courts of this state or other jurisdictions.
6. A copy of the order or judgment of the court shall be forwarded immediately to the tax commissioner by the court.

30.1-05-06. (2-206) Effect of election on statutory benefits Right of election personal to surviving spouse - Incapacitated surviving spouse. If the right of election is exercised by or on behalf of the surviving spouse, the surviving spouse's homestead allowance, exempt property, and family allowance, if any, are not charged against but are in addition to the elective share and supplemental elective-share amounts.

1. The right of election may be exercised only by a surviving spouse who is living when the petition for the elective share is filed in the court under subsection 1 of section 30.1-05-05. If the election is not exercised by the surviving spouse personally, it may be exercised on the surviving spouse's behalf by the surviving spouse's conservator, guardian, or agent under the authority of a power of attorney.
2. If the election is exercised on behalf of a surviving spouse who is an incapacitated person, the court shall set aside that portion of the elective-share and supplemental elective-share amounts due from the decedent's probate estate and recipients of the decedent's nonprobate transfers to others under subsections 2 and 3 of section 30.1-05-03 and shall appoint a trustee to administer that property for the support of the surviving spouse. For the purposes of this subsection, an election on behalf of a surviving spouse by an agent under a durable power of attorney is presumed to be on behalf of a surviving spouse who is an

incapacitated person. The trustee shall administer the trust in accordance with the following terms and any additional terms as the court determines appropriate:

- a. Expenditures of income and principal may be made in the manner, when, and to the extent that the trustee determines suitable and proper for the surviving spouse's support, without court order but with regard to other support, income, and property of the surviving spouse exclusive of benefits of medical or other forms of assistance from any state or federal government or governmental agency for which the surviving spouse must qualify on the basis of need.
- b. During the surviving spouse's incapacity, neither the surviving spouse nor anyone acting on behalf of the surviving spouse has a power to terminate the trust; but if the surviving spouse regains capacity, the surviving spouse then acquires the power to terminate the trust and acquire full ownership of the trust property free of trust, by delivering to the trustee a writing signed by the surviving spouse declaring the termination.
- c. Upon the surviving spouse's death, the trustee shall transfer the unexpended trust property in the following order: under the residuary clause, if any, of the will of the predeceased spouse against whom the elective share was taken, as if that predeceased spouse died immediately after the surviving spouse; or to that predeceased spouse's heirs under section 30.1-09.1-11.

30.1-05-07. (2-207) Charging spouse with owned assets and gifts received - Liability of others for balance of elective share Waiver of right to elect and of other rights.

1. In a proceeding for an elective share, the following are applied first to satisfy the elective share amount and to reduce or eliminate any contributions due from the decedent's probate estate and recipients of the decedent's reclaimable estate:
 - a. Amounts included in the augmented estate which pass or have passed to the surviving spouse by testate or intestate succession;
 - b. Amounts included in the augmented estate under subdivision c of subsection 2 of section 30.1-05-02;
 - c. Amounts included in the augmented estate which would have passed to the spouse but were disclaimed;
 - d. Amounts included in the augmented estate under subdivision d of subsection 2 of section 30.1-05-02 up to the applicable percentage thereof. For the purposes of this subdivision, the "applicable percentage" is twice the elective share percentage set forth in the schedule in subsection 1 of section 30.1-05-01 appropriate to the length of time the spouse and the decedent were married to each other.
2. If, after the application of subsection 1, the elective share amount is not fully satisfied or if the surviving spouse is entitled to a supplemental elective share amount, amounts included in the decedent's probate estate

and that portion of the decedent's reclaimable estate other than amounts irrevocably transferred within two years before the decedent's death are applied first to satisfy the unsatisfied balance of the elective-share amount or the supplemental elective-share amount. The decedent's probate estate and that portion of the decedent's reclaimable estate are so applied that liability for the unsatisfied balance of the elective share amount or for the supplemental elective-share amount is equitably apportioned among the recipients of the decedent's probate estate and that portion of the decedent's reclaimable estate in proportion to the value of their interests therein.

3. If, after the application of subsections 1 and 2, the elective-share or supplemental elective-share amount is not fully satisfied, the remaining portion of the decedent's reclaimable estate is so applied that liability for the unsatisfied balance of the elective-share or supplemental elective-share amount is equitably apportioned among the recipients of that portion of the decedent's reclaimable estate in proportion to the value of their interests therein.
 4. Only original recipients of the reclaimable estate described in subdivision b of subsection 2 of section 30-1-05-02, and the donees of the recipients of the reclaimable estate to the extent the donees have the property or its proceeds, are liable to make a proportional contribution toward satisfaction of the surviving spouse's elective-share or supplemental elective-share amount. A person liable to make contribution may choose to give up the proportional part of the reclaimable estate or to pay the value of the amount for which the person is liable.
1. The right of election of a surviving spouse and the rights of the surviving spouse to homestead allowance, exempt property, and family allowance, or any of them, may be waived, wholly or partially, before or after marriage, by a written contract, agreement, or waiver signed by the surviving spouse.
 2. A surviving spouse's waiver is not enforceable if the surviving spouse proves that:
 - a. The waiver, if given effect, would reduce the assets or income available to the surviving spouse to an amount less than those allowed for persons eligible for medical or other forms of assistance from any state or federal government or governmental agency for which the surviving spouse must qualify on the basis of need;
 - b. The surviving spouse did not execute the waiver voluntarily; or
 - c. The waiver was unconscionable when it was executed and, before execution of the waiver, the surviving spouse:
 - (1) Was not provided a fair and reasonable disclosure of the property or financial obligations of the decedent;
 - (2) Did not voluntarily and expressly waive, in writing, any right to disclosure of the property or financial obligations of the decedent beyond the disclosure provided; and

- (3) Did not have, or reasonably could not have had, an adequate knowledge of the property or financial obligations of the decedent.
3. An issue of unconscionability of a waiver is for decision by the court as a matter of law.
4. Unless it provides to the contrary, a waiver of "all rights" or equivalent language in the property or estate of a present or prospective spouse or a complete property settlement entered into after or in anticipation of separation or divorce is a waiver of all rights of elective share, homestead allowance, exempt property, and family allowance by each spouse in the property of the other and a renunciation by each of all benefits that would otherwise pass to the person from the other by intestate succession or by virtue of any will executed before the waiver or property settlement.

SECTION 4. Section 30.1-05-08 of the North Dakota Century Code is created and enacted as follows:

30.1-05-08. (2-208) Protection of payers and other third parties.

1. Although under section 30.1-05-02 a payment, item of property, or other benefit is included in the decedent's nonprobate transfers to others, a payer or other third party is not liable for having made a payment or transferred an item of property or other benefit to a beneficiary designated in a governing instrument, or for having taken any other action in reliance on the validity of a governing instrument, upon request and satisfactory proof of the decedent's death, before the payer or other third party received written notice from the surviving spouse or spouse's representative of an intention to file a petition for the elective share or that a petition for the elective share has been filed. A payer or other third party is liable only for actions taken two or more business days after the payer or other third party received written notice of an intention to file a petition for the elective share or that a petition for the elective share has been filed. The written notice must indicate the name of the decedent, the date of the decedent's death, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that the spouse intends to file a petition for the elective share or that a petition for the elective share has been filed. Any form of service of notice other than that described in subsection 2 is not sufficient to impose liability on a payer or other third party for actions taken pursuant to the governing instrument.
2. The written notice must be mailed to the payer's or other third-party's main office or home by registered mail or served upon the payer or third party in the same manner as a summons in a civil action. Notice to a sales representative of the payer or other third party does not constitute notice to the payer or other third party. Upon receipt of written notice of intention to file a petition for the elective share or that a petition for the elective share has been filed, a payer or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate, or if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the

decedent's residence. The availability of an action under this section does not prevent the payer or other third party from taking any other action authorized by law or the governing instrument. If no probate proceedings have been commenced, the payer or other third party shall file with the court a copy of the written notice received by the payer or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payer or other third party for any such payment, transfer, or deposit with the court, even if no probate proceedings have been commenced before the payment, transfer, or deposit. The court shall hold the funds or items of property and, upon its determination under subsection 4 of section 30.1-05-05, shall order disbursement in accordance with the determination. If no petition is filed in the court within the specified time under subsection 1 of section 30.1-05-05, or, if filed, the demand for an elective share is withdrawn under subsection 3 of section 30.1-05-05, the court shall order disbursement to the designated beneficiary. A filing fee, if any, may be charged upon disbursement either to the recipient or against the funds or property on deposit with the court, in the discretion of the court. Payments, transfers, or deposits made to or with the court discharge the payer or other third party from all claims under the governing instrument or applicable law for the value of amounts paid to or items of property transferred to or deposited with the court.

3. Upon petition to the court by the beneficiary designated in a governing instrument, the court may order that all or part of the property be paid to the beneficiary in an amount and subject to conditions consistent with this section.

SECTION 5. AMENDMENT. Section 30.1-06-01 of the North Dakota Century Code as created by section 16 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-06-01. (2-301) Entitlement of spouse - Premarital will.

1. If the testator's surviving spouse married the testator after the testator executed a will, the surviving spouse is entitled to receive, as an intestate share, no less than the value of the share of the estate the surviving spouse would have received if the testator had died intestate as to that portion of the testator's estate, if any, that neither is devised to a child of the testator who was born before the testator married the surviving spouse and who is not a child of the surviving spouse nor is devised to a descendant of such a child or passes under section 30.1-09-05 or 30.1-09-06 to such a child or to a descendant of such a child, unless:
 - a. It appears from the will or other evidence that the will was made in contemplation of the testator's marriage to the surviving spouse;
 - b. The will expresses the intention that it is to be effective notwithstanding any subsequent marriage; or
 - c. The testator provided for the spouse by transfer outside the will and the intent that the transfer be in lieu of a testamentary provision is shown by the testator's statements or is reasonably inferred from the amount of the transfer or other evidence.

2. In satisfying the share provided by this section, devises made by the will to the testator's surviving spouse, if any, are applied first, and other devises, other than a devise to a child of the testator who was born before the testator married the surviving spouse and who is not a child of the surviving spouse or a devise or substitute gift under section 30.1-09-05 or 30.1-09-06 to a descendant of such a child, abate as provided in section 30.1-20-02.

SECTION 6. AMENDMENT. Subsection 3 of section 30.1-06-02 of the North Dakota Century Code as created by section 16 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

3. ~~Except as provided in subsection 1, if~~ If at the time of execution of the will the testator fails to provide in the will for a living child solely because the testator believes the child to be dead, the child is entitled to share in the estate as if the child were an omitted afterborn; or after-adopted child.

SECTION 7. AMENDMENT. Subsection 2 of section 30.1-07-03 of the North Dakota Century Code as created by section 20 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

2. If the right to an elective share is exercised on behalf of a surviving spouse who is an incapacitated person, the personal representative may add any unexpended portions payable under the homestead allowance, exempt property, and family allowance to the trust established under subsection 2 of section ~~30.1-05-03~~ 30.1-05-06.

SECTION 8. AMENDMENT. Section 30.1-09-05 of the North Dakota Century Code as amended by section 31 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09-05. (2-603) Antilapse - Deceased devisee - Class gifts.

~~1.~~ **In this section:**

- a. ~~"Alternative devise" means that a devise that is expressly created by the will and, under the terms of the will, can take effect instead of another devise on the happening of one or more events, including survival of the testator or failure to survive the testator, whether an event is expressed in condition precedent, condition subsequent, or any other form. A residuary clause constitutes an alternative devise with respect to a nonresiduary devise only if the will specifically provides that, upon lapse or failure, the nonresiduary devise, or nonresiduary devises in general, pass under the residuary clause.~~
- b. ~~"Class member" includes an individual who fails to survive the testator but who would have taken under a devise in the form of a class gift had the individual survived the testator.~~
- c. ~~"Devise" includes an alternative devise, a devise in the form of a class gift, and an exercise of a power of appointment.~~
- d. ~~"Devisee" includes a class member if the devise is in the form of a class gift, an individual or class member who was deceased at the time the testator executed the will as well as an individual or class~~

member who was then living but who failed to survive the testator, and an appointee under a power of appointment exercised by the testator's will:

- e. "Stepchild" is a child of the surviving, deceased, or former spouse of the testator or of the donor of a power of appointment, and not of the testator.
 - f. "Surviving devisee" or "surviving descendant" means a devisee or a descendant who neither predeceased the testator nor is deemed to have predeceased the testator under section 30.1-09.1-02.
 - g. "Testator" includes the donee of a power of appointment if the power is exercised in the testator's will.
2. If a devisee fails to survive the testator and is a grandparent, a descendant of a grandparent, or a stepchild of either the testator or the donor of a power of appointment exercised by the testator's will, the following apply:
- a. Except as provided in subdivision d, if a devise is not in the form of a class gift and the deceased devisee leaves surviving descendants, a substitute gift is created in the devisee's surviving descendants. They take by representation the property to which the devisee would have been entitled had the devisee survived the testator.
 - b. Except as provided in subdivision d, if a devise is in the form of a class gift, other than a devise to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", "family", or a class described by language of similar import, a substitute gift is created in the deceased devisee or devisee's surviving descendants. The property to which the devisees would have been entitled had all of them survived the testator passes to the surviving devisees and the surviving descendants of deceased devisees. Each surviving devisee takes the share to which the devisee would have been entitled had the deceased devisees survived the testator. Each deceased devisee's surviving descendants who are substituted for the deceased devisee take by representation the share to which that deceased devisee would have been entitled had the deceased devisee survived the testator. For the purposes of this subdivision, "deceased devisee" means a class member who failed to survive the testator and left one or more surviving descendants.
 - c. For purposes of section 30.1-09-03, words of survivorship, such as in a devise to an individual "if the individual survives me", or in a devise to "my surviving children", are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section.
 - d. If the will creates an alternative devise with respect to a devise for which a substitute gift is created by subdivision a or b, the substitute gift is superseded by the alternative devise only if an expressly designated devisee of the alternative devise is entitled to take under the will.

- c. Unless the language creating a power of appointment expressly excludes the substitution of the descendants of an appointee for the appointee, a surviving descendant of a deceased appointee of a power of appointment can be substituted for the appointee under this section; whether or not the descendant is an object of the power.
3. If under subsection 2, substitute gifts are created and not superseded with respect to more than one devise and the devises are alternative devises, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:
- a. Except as provided in subdivision b, the devised property passes under the primary substitute gift.
- b. If there is a younger-generation devise, the devised property passes under the younger-generation substitute gift and not under the primary substitute gift.
- c. In this subsection:
- (1) "Primary devise" means the devise that would have taken effect had all the deceased devisees of the alternative devises who left surviving descendants survived the testator.
- (2) "Primary substitute gift" means the substitute gift created with respect to the primary devise.
- (3) "Younger-generation devise" means a devise that is to a descendant of a devisee of the primary devise, is an alternative devise with respect to the primary devise, is a devise for which a substitute gift is created, and would have taken effect had all the deceased devisees who left surviving descendants survived the testator except the deceased devisee or devisees of the primary devise.
- (4) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation devise. If a devisee who is a grandparent or a lineal descendant of a grandparent of the testator is dead at the time of execution of the will, fails to survive the testator, or is treated as if the devisee predeceased the testator, the issue of the deceased devisee who survive the testator by one hundred twenty hours take in place of the deceased devisee and if they are all of the same degree of kinship to the devisee they take equally, but if of unequal degree, then those of more remote degree take by representation. One who would have been a devisee under a class gift if that person had survived the testator is treated as a devisee for purposes of this section where that person's death occurred before or after the execution of the will.

SECTION 9. AMENDMENT. Section 30.1-09-07 of the North Dakota Century Code as amended by section 33 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09-07. (2-605) Increase Change in securities - Accessions - Nonademption.

1. If a testator executes a will that devises intended a specific devise of certain securities and the testator then owned securities that meet the description in the will, the devise includes additional securities owned by the testator at death to the extent the additional securities were acquired by the testator after the will was executed as a result of the testator's ownership of the described securities and are securities of any of the following types rather than the equivalent value thereof, the specific devisee is entitled only to:
 - a. Securities of the same organization acquired by reason of action initiated by the organization or any successor, related, or acquiring organization, excluding any acquired by exercise of purchase options. As much of the devised securities as is a part of the estate at the time of the testator's death.
 - b. Securities of another organization acquired as a result of a merger, consolidation, reorganization, or other distribution by the organization or any successor, related, or acquiring organization. Any additional or other securities of the same entity owned by the testator by reason of action initiated by the entity excluding any acquired by exercise of purchase options.
 - c. Securities of the same organization acquired as a result of a plan of reinvestment. Securities of another entity owned by the testator as a result of a merger, consolidation, reorganization, or other similar action initiated by the entity.
 - d. Any additional securities of the entity owned by the testator as a result of a plan of reinvestment.
2. Distributions in cash before death with respect to a described specifically devised security not provided for in subsection 1 are not part of the specific devise.

SECTION 10. AMENDMENT. Section 30.1-09-08 of the North Dakota Century Code as amended by section 34 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09-08. (2-606) Nonademption of specific devises - Unpaid proceeds of sale, condemnation, or insurance - Sale by conservator or agent.

1. A specific devisee has the right to the specifically devised property in the testator's estate at death and:
 - a. Any balance of the purchase price, together with any security interest, owing from a purchaser to the testator at death by reason of sale of the property.
 - b. Any amount of a condemnation award for the taking of the property unpaid at death.
 - c. Any proceeds unpaid at death on fire or casualty insurance on or other recovery for injury to the property.

- d. Property owned by the testator at death and acquired as a result of foreclosure, or obtained in lieu of foreclosure, of the security interest for a specifically devised obligation.
- e. ~~Real or tangible personal property owned by the testator at death which the testator acquired as a replacement for specifically devised real or tangible personal property.~~
2. If specifically devised property is sold or mortgaged by a conservator or by an agent acting within the authority of a durable power of attorney for an incapacitated principal, or if a condemnation award, insurance proceeds, or recovery for injury to the property are paid to a conservator or to an agent acting within the authority of a durable power of attorney for an incapacitated principal, the specific devisee has the right to a general pecuniary devise equal to the net sale price, the amount of the unpaid loan, the condemnation award, the insurance proceeds, or the recovery. This subsection does not apply if, after the sale, mortgage, condemnation, casualty, or recovery, it was adjudicated that the testator's incapacity ceased and the testator survived the adjudication by one year.
3. The right of a specific devisee under this subsection 2 is reduced by any right the devisee has under subsection 1.
4. ~~For the purposes of the references in subsection 2 to a conservator, subsection 2 does not apply if after the sale, mortgage, condemnation, casualty, or recovery, it was adjudicated that the testator's incapacity ceased and the testator survived the adjudication by one year.~~
5. ~~For the purposes of the references in subsection 2 to an agent acting within the authority of a durable power of attorney for an incapacitated principal, "incapacitated principal" means a principal who is an incapacitated person; no adjudication of incapacity before death is necessary; and the acts of an agent within the authority of a durable power of attorney are presumed to be for an incapacitated principal.~~

SECTION 11. AMENDMENT. Section 30.1-09-10 of the North Dakota Century Code as amended by section 36 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09-10. (2-608) Exercise of power of appointment. ~~In the absence of a requirement that a power of appointment be exercised by a reference, or by an express or specific reference, to the power, a A general residuary clause in a will, or a will making general disposition of all of the testator's property, expresses an intention to does not exercise a power of appointment held by the testator only if the power is a general power and the creating instrument does not contain a gift if the power is not exercised or the testator's will manifests an unless specific reference is made to the power or there is some other indication of intention to include the property subject to the power.~~

SECTION 12. AMENDMENT. Section 30.1-09.1-02 of the North Dakota Century Code as created by section 39 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09.1-02. (2-702) Requirement of survival by one hundred twenty hours.

1. For the purposes of this title, ~~except for purposes of sections 30.1-31-21 through 30.1-31-30, and~~ except as provided in subsection 4 an individual who is not established by clear and convincing evidence to have survived an event, including the death of another individual, by one hundred twenty hours is deemed to have predeceased the event.
2. Except as provided in subsection 4 ~~and except for a security registered in beneficiary form under sections 30.1-31-21 through 30.1-31-30,~~ for purposes of a provision of a governing instrument that relates to an individual surviving an event, including the death of another individual, an individual who is not established by clear and convincing evidence to have survived the event by one hundred twenty hours is deemed to have predeceased the event.
3. Except as provided in subsection 4, if it is not established by clear and convincing evidence that one of two coowners with right of survivorship survived the other coowner by one hundred twenty hours, one-half of the property passes as if one had survived by one hundred twenty hours and one-half as if the other had survived by one hundred twenty hours and there are more than two coowners and it is not established by clear and convincing evidence that at least one of them survived the others by one hundred twenty hours, the property passes in the proportion that one bears to the whole number of coowners. For purposes of this subsection, the term "coowners with right of survivorship" includes joint tenants, tenants by the entirety, and other coowners of property or accounts held under circumstances that entitles one or more to the whole of the property or account on the death of the other or others.
4. ~~This section does not apply~~ Survival by one hundred twenty hours is not required if:
 - a. The governing instrument contains some language dealing explicitly with simultaneous deaths or deaths in a common disaster and that language is operable under the facts of the case;
 - b. The governing instrument expressly indicates that an individual is not required to survive an event, including the death of another individual, by any specific period or expressly requires the individual to survive the event by a specific period; but survival of the event or the specified period must be established by clear and convincing evidence;
 - c. Imposition of a one-hundred-twenty-hour requirement of survival would cause a nonvested property interest or a power of appointment to fail to qualify for validity under subdivision a of subsection 1, subdivision a of subsection 2, or subdivision a of subsection 3 of section 47-02-27.1, or to become invalid under subdivision b of subsection 1, subdivision b of subsection 2, or subdivision b of subsection 3 of section 47-02-27.1; but survival must be established by clear and convincing evidence; or
 - d. The application of ~~this section~~ a one-hundred-twenty-hour requirement of survival to multiple governing instruments would result in an unintended failure or duplication of a disposition; but survival must be established by clear and convincing evidence.

5. a. A payer or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument who, under this section, is not entitled to the payment or item of property, or for having taken any other action in good faith reliance on the beneficiary's apparent entitlement under the terms of the governing instrument, before the payer or other third party received written notice of a claimed lack of entitlement under this section. A payer or other third party is liable for a payment made or other action taken after the payer or other third party received written notice of a claimed lack of entitlement under this section.
 - b. Written notice of a claimed lack of entitlement under subdivision a must be mailed to the payer's or other third party's main office or home by registered mail or served upon the payer or other third party in the same manner as a summons in a civil action. Upon receipt of written notice of a claimed lack of entitlement under this section, a payer or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate, or if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds or item of property and, upon its determination under this section, shall order disbursement in accordance with the determination. Payments, transfers, or deposits made to or with the court discharge the payer or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.
6. a. A person who purchases property for value and without notice, or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation, is neither obligated under this section to return the payment, item of property, or benefit nor is liable under this section for the amount of the payment or the value of the item of property or benefit. But a person who, not for value, receives a payment, item of property, or any other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.
 - b. If this section or any part of this section is preempted by federal law with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or any other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted.

SECTION 13. AMENDMENT. Subdivision b of subsection 1 of section 30.1-09.1-06 of the North Dakota Century Code as created by section 39 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

- b. "Beneficiary" means the beneficiary of a beneficiary designation under which the beneficiary must survive the decedent and includes a class member if the beneficiary designation is in the form of a class gift and includes an individual or class member who was deceased at the time the beneficiary designation was executed as well as an individual or class member who was then living but who failed to survive the decedent, but excludes a joint tenant of a joint tenancy with the right of survivorship and a party to a joint and survivorship account.

SECTION 14. AMENDMENT. Subdivision b of subsection 2 of section 30.1-09.1-06 of the North Dakota Century Code as created by section 39 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

- b. Except as provided in subdivision d, if the beneficiary designation is in the form of a class gift, other than a beneficiary designation to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", "family", or a class described by language of similar import, a substitute gift is created in the surviving descendants of any deceased beneficiary of beneficiaries' surviving descendants. The property to which the beneficiaries would have been entitled had all of them survived the decedent passes to the surviving beneficiaries and the surviving descendants of the deceased beneficiaries. Each surviving beneficiary takes the share to which the surviving beneficiary would have been entitled had the deceased beneficiaries survived the decedent. Each deceased beneficiary's surviving descendants who are substituted for the deceased beneficiary take by representation the share to which the deceased beneficiary would have been entitled had the deceased beneficiary survived the decedent. For the purposes of this subdivision, "deceased beneficiary" means a class member who failed to survive the decedent and left one or more surviving descendants.

SECTION 15. AMENDMENT. Section 30.1-09.1-07 of the North Dakota Century Code as created by section 39 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09.1-07. (2-707) Survivorship with respect to future interests under the terms of a trust - Substitute takers.

1. In this section:
 - a. "Alternative future interest" means to an expressly created future interest that can take effect in possession or enjoyment instead of another future interest on the happening of one or more events, including survival of an event or failure to survive an event, whether an event is expressed in condition-precedent, condition-subsequent, or any other form. A residuary clause in a will does not create an alternative future interest with respect to a future interest created in a nonresiduary devise in the will, whether or not the will specifically provides that lapsed or failed devises are to pass under the residuary clause.
 - b. "Beneficiary" means the beneficiary of a future interest and includes a class member if the future interest is in the form of a class gift.

- c. "Class member" includes an individual who fails to survive the distribution date but who would have taken under a future interest in the form of a class gift had the individual survived the distribution date.
 - d. "Distribution date", with respect to a future interest, means the time when the future interest is to take effect in possession or enjoyment. The distribution date need not occur at the beginning or end of a calendar day, but can occur at a time during the course of a day.
 - e. "Future interest" includes an alternative future interest and a future interest in the form of a class gift.
 - f. "Future interest under the terms of a trust" means a future interest that was created by a transfer creating a trust or to an existing trust or by an exercise of a power of appointment to an existing trust, directing the continuance of an existing trust, designating a beneficiary of an existing trust, or creating a trust.
 - g. "Surviving beneficiary" or "surviving descendant" means a beneficiary or a descendant who neither predeceased the distribution date nor is deemed to have predeceased the distribution date under section 30.1-09.1-02.
2. A future interest under the terms of a trust is contingent on the beneficiary's surviving the distribution date. If a beneficiary of a future interest under the terms of a trust fails to survive the distribution date, the following apply:
- a. Except as provided in subdivision d, if the future interest is not in the form of a class gift and the deceased beneficiary leaves surviving descendants, a substitute gift is created in the beneficiary's surviving descendants. They take by representation the property to which the beneficiary would have been entitled had the beneficiary survived the distribution date.
 - b. Except as provided in subdivision d, if the future interest is in the form of a class gift, other than a future interest to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family", or a class described by language of similar import, a substitute gift is created in the surviving descendants of any deceased beneficiary ~~or beneficiaries' surviving descendants~~. The property to which the beneficiaries would have been entitled had all of them survived the distribution date passes to the surviving beneficiaries and the surviving descendants of the deceased beneficiaries. Each surviving beneficiary takes the share to which the surviving beneficiary would have been entitled had the deceased beneficiaries survived the distribution date. Each deceased beneficiary's surviving descendants who are substituted for the deceased beneficiary take by representation the share to which the deceased beneficiary would have been entitled had the deceased beneficiary survived the distribution date. For the purposes of this paragraph, "deceased beneficiary" means a class member who failed to survive the distribution date and left one or more surviving descendants.

- c. For purposes of section 30.1-09.1-01, words of survivorship attached to a future interest are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this ~~section~~ section. Words of survivorship include words of survivorship that relate to the distribution date or to an earlier or an unspecified time, whether those words of survivorship are expressed in condition-precedent, condition-subsequent, or any other form.
 - d. If a governing instrument creates an alternative future interest with respect to a future interest for which a substitute gift is created by subdivision a or b, the substitute gift is superseded by the alternative future interest only if an expressly designated beneficiary of the alternative future interest is entitled to take in possession or enjoyment.
 3. If, under subsection 2, substitute gifts are created and not superseded with respect to more than one future interest and the future interests are alternative future interests, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:
 - a. Except as provided in subdivision b, the property passes under the primary substitute gift.
 - b. If there is a younger-generation future interest, the property passes under the younger-generation substitute gift and not under the primary substitute gift.
 - c. In this subsection:
 - (1) "Primary future interest" means the future interest that would have taken effect had all the deceased beneficiaries of the alternative future interest who left surviving descendants survived the distribution date.
 - (2) "Primary substitute gift" means the substitute gift created with respect to the primary future interest.
 - (3) "Younger-generation future interest" means a future interest that is to a descendant of a beneficiary of the primary future interest, is an alternative future interest with respect to the primary future interest, is a future interest for which a substitute gift is created, and would have taken effect had all the deceased beneficiaries who left surviving descendants survived the distribution date except the deceased beneficiary of beneficiaries of the primary future interest.
 - (4) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation future interest.
 4. If Except as provided in subsection 5, if, after the application of subsections 2 and 3, there is no surviving taker, the property passes in the following order:
 - a. If the trust was created in a nonresiduary devise in the transferor's will or in a codicil to the transferor's will, the property passes under

the residuary clause in the transferor's will; for purposes of this section, the residuary clause is treated as creating a future interest under the terms of a trust.

- b. If no taker is produced by the application of subdivision a, the property passes to the transferor's heirs under section 30.1-09.1-11.

5. If, after the application of subsections 2 and 3, there is no surviving taker and if the future interest was created by the exercise of a power of appointment:

- a. The property passes under the donor's gift-in-default clause, if any, which clause is treated as creating a future interest under the terms of a trust; and
- b. If no taker is produced by the application of subdivision a, the property passes as provided in subsection 4. For purposes of subsection 4, "transferor" means the donor if the power was a nongeneral power and means the donee if the power was a general power.

SECTION 16. AMENDMENT. Section 30.1-09.1-09 of the North Dakota Century Code as created by section 39 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

1. In this section:
 - a. "Deceased child" or "deceased descendant" means a child or a descendant who either predeceased the distribution date or is deemed to have predeceased the distribution date under section 30.1-09.1-02.
 - b. "Distribution date", with respect to an interest, means the time when the interest is to take effect in possession or enjoyment. The distribution date need not occur at the beginning or end of a calendar day, but can occur at a time during the course of a day.
 - c. "Surviving ancestor", "surviving child", or "surviving descendant" means an ancestor, a child, or a descendant who neither predeceased the distribution date nor is deemed to have predeceased the distribution date under section 30.1-09.1-02.
2. If ~~an applicable statute or~~ a governing instrument calls for property to be distributed ~~"by representation" or~~ "per capita at each generation", the property is divided into as many equal shares as there are surviving descendants in the generation nearest to the designated ancestor which contains one or more surviving descendants and deceased descendants in the same generation who left surviving descendants, if any. Each surviving descendant in the nearest generation is allocated one share. The remaining shares, if any, are combined and then divided in the same manner among the surviving descendants of the deceased descendants as if the surviving descendants who were allocated a share and their surviving descendants had predeceased the distribution date.

3. If an applicable statute or a governing instrument calls for property to be distributed "by representation" or "per stirpes", the property is divided into as many equal shares as there are surviving children of the designated ancestor and deceased children who left surviving descendants. Each surviving child is allocated one share. The share of each deceased child with surviving descendants is divided in the same manner, with subdivision repeating at each succeeding generation until the property is fully allocated among surviving descendants.
4. For the purposes of subsections 2 and 3, an individual who is deceased and left no surviving descendant is disregarded, and an individual who leaves a surviving ancestor who is a descendant of the designated ancestor is not entitled to a share.

SECTION 17. AMENDMENT. Section 30.1-09.1-11 of the North Dakota Century Code as created by section 39 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

30.1-09.1-11. (2-711) Future interests in heirs and like. If an applicable statute or a governing instrument calls for a present or future distribution to or creates a present or future interest in a designated individual's "heirs", "heirs at law", "next of kin", "relatives", or "family", or language of similar import, the property passes to those persons, including the state ~~under section 30.1-04-05~~, and in such shares as would succeed to the designated individual's intestate estate under the intestate succession law of the designated individual's domicile if the designated individual died when the disposition is to take effect in possession or enjoyment. If the designated individual's surviving spouse is living but is remarried at the time the disposition is to take effect in possession or enjoyment, the surviving spouse is not an heir of the designated individual.

SECTION 18. AMENDMENT. Subsection 4 of section 30.1-10-01 as created by section 40 of chapter 334 of the 1993 Session Laws is amended and reenacted as follows:

4. The effects of disclaimer are:
 - a. If property or an interest therein devolves to a disclaimant under a testamentary instrument, under a power of appointment exercised by a testamentary instrument, or under the laws of intestacy, and the decedent has not provided for another disposition of that interest, should it be disclaimed, or of disclaimed or failed interests in general, the disclaimed interest devolves as if the disclaimant had predeceased the decedent, but if by law or under the testamentary instrument the descendants of the disclaimant would ~~take the disclaimant's share in the disclaimed interest~~ by representation or otherwise were the disclaimant to predecease the decedent, then the disclaimed interest passes by representation, or passes as directed by the governing instrument, to the descendants of the disclaimant who survive the decedent. A future interest that takes effect in possession or enjoyment after the termination of the estate or interest disclaimed takes effect as if the disclaimant had predeceased the decedent. A disclaimer relates back for all purposes to the date of death of the decedent.
 - b. If property or an interest therein devolves to a disclaimant under a nontestamentary instrument or contract and the instrument or

contract does not provide for another disposition of that interest, should it be disclaimed, or of disclaimed or failed interests in general, the disclaimed ~~interest~~ interest devolves as if the disclaimant has predeceased the effective date of the instrument or contract, but if by law or under the nontestamentary instrument or contract the descendants of the disclaimant would ~~take the disclaimant's share in the disclaimed interest~~ by representation or otherwise were the disclaimant to predecease the effective date of the instrument, then the disclaimed interest passes by representation, or passes as directed by the governing instrument, to the descendants of the disclaimant who survive the effective date of the instrument. A disclaimer relates back for all purposes to that date. A future interest that takes effect in possession or enjoyment at or after the termination of the disclaimed interest takes effect as if the disclaimant had died before the effective date of the instrument or contract that transferred the disclaimed interest.

- c. The disclaimer or the written waiver of the right to disclaim is binding upon the disclaimant or person waiving and all persons claiming through or under either of them.

If no personal representative of a decedent's estate has been appointed in any proceeding within three years after the decedent's death, a proceeding for formal probate of a will or for adjudication of intestacy, with a request for an appointment of a personal representative, may be commenced at any time three years or more after the decedent's death for the sole purpose of establishing inheritance or succession of property in which the decedent possessed an interest at the time of death and for appointment of a personal representative to convey title to that property to the decedent's heirs or devisees. A description of the property must be included within the petition to the court. In addition to the parties specified in section 30.1-15-03, notice of a proceeding under this subsection must also be given to any person in possession of the property and to any person claiming an ownership interest in the property of whom the petitioner has actual or constructive notice. An informal appointment or a formal testacy or appointment proceeding may be commenced thereafter if no proceeding concerning the succession or estate administration has occurred within the three-year period after the decedent's death, but the personal representative has no right to possess estate assets as provided in section 30.1-18-09 beyond that necessary to confirm title to the assets in the successors to the estate and claims other than expenses of administration may not be presented against the estate.
5. A formal testacy proceeding may be commenced at any time after three years from the decedent's death for the purpose of establishing an instrument to direct or control the ownership of property passing or distributable after the decedent's death from one other than the decedent

when the property is to be appointed by the terms of the decedent's will or is to pass or be distributed as a part of the decedent's estate or its transfer is otherwise to be controlled by the terms of the decedent's will.

These limitations do not apply to proceedings to construe probated wills or determine heirs of an intestate. In cases under subsection 1 or 2, the date on which a testacy or appointment proceeding is properly commenced shall be deemed to be the date of the decedent's death for purposes of other limitations provisions of this title which relate to the date of death.

The finding of the fact of death is conclusive as to the alleged decedent only if notice of the hearing on the petition in the formal testacy proceeding was sent by registered or certified mail addressed to the alleged decedent at his last known address and the court finds that a search under subsection 2 of section 30.1-15-03 was made.

If the alleged decedent is not dead, even if notice was sent and search was made, he may recover estate assets in the hands of the personal representative. In addition to any remedies available to the alleged decedent by reason of any fraud or intentional wrongdoing, the alleged decedent may recover any of the estate or its proceeds from distributees which is in their hands, or the value of distributions received by them, to the extent that any recovery from distributees is equitable in view of all of the circumstances.

3. "DNA" means deoxyribonucleic acid.

SECTION 2. DNA testing - Admissibility as evidence. This section does not otherwise limit the introduction of any relevant evidence bearing upon any question at issue before the court. The court shall, regardless of the results of the DNA analysis, if any, consider other relevant evidence of the identity of the person as is admissible in evidence.

SECTION 3. Persons to be tested - Costs. The court shall order any person convicted on or after the effective date of this Act of any sexual offense or attempted sexual offense in violation of sections 12.1-20-03, 12.1-20-04, 12.1-20-05, 12.1-20-06, subdivision e or f of subsection 1 of section 12.1-20-07, or section 12.1-20-11 or any other offense when the court finds at sentencing that the person engaged in a nonconsensual sexual act or sexual contact with another person during, in the course of, or as a result of, the offense and any person who is in the custody of the department on or after the effective date of this Act as a result of a conviction of one of these offenses to have a sample of blood and other body fluids taken by the department for DNA law enforcement identification purposes and inclusion in law enforcement identification data bases. Notwithstanding any other provision of law, if the sentencing court has not previously ordered a sample of blood and other body fluids to be taken, the court retains jurisdiction and authority to enter an order that the convicted person provide a sample of blood and other body fluids as required by this section. Any person convicted on or after the effective date of this Act who is not sentenced to a term of confinement shall provide a sample of blood and other body fluids as a condition of the sentence or probation at a time and place specified

Any person who tampers or attempts to tamper with any sample of blood or other body fluids or the collection container without lawful authority is guilty of a class C felony.

SECTION 5. DNA data base established - How utilized. The division shall establish a centralized data base of DNA identification records for convicted sexual offenders. The established system must be compatible with the procedures set forth in the national DNA identification index to ensure data exchange on a national level. The centralized DNA data base must be used to assist federal, state, and local criminal justice and law enforcement agencies within and outside the state in the identification or prosecution of sex-related crimes. The division shall receive, analyze, and classify samples in compliance with section 4 of this Act, and shall record the DNA result in a centralized data base for identification and statistical purposes. The division may contract with another laboratory for the analysis and classification of the samples. A report of the analysis certified by the division is admissible in any court as prima facie evidence of the facts stated in the report.

A person whose DNA profile has been included in the data base pursuant to this Act may petition the district court for expungement on the grounds that the conviction on which the authority for including the DNA profile was based has been reversed or the case dismissed. The division shall expunge all identifiable information in the data base pertaining to the person and destroy all samples from the person upon receipt of a certified order.

When the electing eligible employee is a member of the teachers' fund for retirement, the employee's assessments and employer's contributions together with interest credited at the current rate for one-year certificates then being paid by the Bank of North Dakota shall be transferred to the employee's account in the alternate program. Such election shall be made prior to July 1, 1980, and shall relinquish all rights the eligible employee or the employee's beneficiary may have to benefits provided in chapters 15-39 and 15-39.2;

However, before the employer's contribution may be used for an annuity purchase, the employee's combined years of service with the public employees retirement system and the alternate retirement program must equal or exceed the years of service necessary to be

eligible for retirement benefits under the public employees retirement system. An employee who transferred from the public employees retirement system prior to March 30, 1987, and who received a refund of that employee's contribution is entitled to have the employer's contribution, with interest, used to purchase an annuity even if that employee did not purchase an annuity in the alternate employee program with the employee's contribution. COMMERCIAL REAL ESTATE DEFICIENCY
JUDGMENTS

AN ACT to amend and reenact sections 32-19-06.1 and 32-19.1-07 of the North Dakota Century Code, relating to deficiency judgments on commercial real estate loans.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 32-19-06.1 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

32-19-06.1. Deficiency judgments on commercial real property. Notwithstanding any other provision of law, a person mortgagee holding a mortgage on commercial real property may obtain a deficiency judgment against the mortgagor of commercial real property contracted for after August 1, 1993, and any successor in interest of the mortgagor who has assumed the debt secured by the mortgage. In an action for involving the foreclosure of a mortgage on commercial real property, the plaintiff foreclosing party shall state in the complaint its pleading whether a deficiency judgment will be sought, identify the defendant or defendants parties claimed to be personally liable for the amount due payment of the debt secured by the mortgage being foreclosed, and demand a deficiency judgment against those defendants parties. Within ten ninety days after filing and serving the summons and complaint on the defendants the later of the filing or service of the pleading seeking the foreclosure of a mortgage, the plaintiff party seeking a deficiency judgment on commercial real property shall file with the clerk of district court a request notice for an appraisal of the real property by a licensed or certified appraiser and serve mail a copy of the request upon the defendants to the parties claimed to be liable for a deficiency, at their last known residences or business addresses by first-class mail. The request notice must contain the plaintiff's foreclosing party's agreement to pay the cost of the appraisal, which must be included as a cost allowed to the plaintiff the foreclosing party if judgment is entered granting foreclosure. Upon the filing of the request notice, the plaintiff foreclosing party shall arrange for an appraisal of the property and shall notify the defendants, at their last known address, of the request for an appraisal. Within not more than twenty days after completion of the appraisal, the appraiser shall provide to the plaintiff foreclosing party and file with the clerk of court a written report indicating the present fair market value of the commercial real property. The plaintiff foreclosing party shall also serve mail copies of the report on to the defendants named in the complaint parties claimed to be personally liable to their last known residences or business addresses by first-class mail. Within fifteen days of the filing and serving later of the filing or mailing of the report of the foreclosing party's appraisal, any party may file a notice of intention to obtain an additional appraisal to be conducted by a licensed or certified appraiser at the party's own expense. The additional appraisal report must be served upon the foreclosing party and filed within thirty days of the filing of the notice of intention appraisal and must be considered, with other appraisal reports filed, in the determination by the court of the present fair market value of the property which determination as to fair market value must be made as of the date of the foreclosing party's appraisal. At the time

of the entry of the judgment, the court shall include in its findings of fact the ~~present~~ fair market value of the property and, if the ~~present~~ fair market value is less than the amount found to be due the ~~plaintiff~~ foreclosing party, identify the persons who are liable for any deficiency remaining after a sheriff's sale of the property pursuant to foreclosure judgment. The foreclosure judgment must be docketed as a money judgment against the persons personally liable in an amount equal to the balance then due and owing on the mortgage, plus costs taxed by the court. Upon entry of an order confirming the sheriff's sale in the foreclosure, the clerk of court shall note the amount to be credited ~~thereon~~ on the foreclosure judgment, which credit must be at least the amount bid at the sheriff's sale, less the cost of the sheriff's sale, which credit may not in any event be less than the ~~present~~ fair market value established by the court. However, only the amount actually paid in excess of the foreclosure judgment may constitute surplus payable to the debtor pursuant to section 28-23-09. At any time after the ~~sheriff's sale and final entry of judgment~~, the plaintiff may order confirming sale, the clerk shall enter a money judgment to the extent of the deficiency against those parties found by the court to be personally liable for the deficiency. The foreclosing party may thereafter pursue the same remedies to collect the deficiency judgment as those are available to collect other money judgments. The amount collectible must include deficiency judgment must be for the entire amount found to be due the plaintiff foreclosing party in the foreclosure judgment, together with interest on the amount of the foreclosure judgment at the rate provided in the note secured by the mortgage, less the amount credited by the clerk of court upon entry of the order confirming the sheriff's sale. The deficiency judgment must bear interest at the same rate as the foreclosure judgment. As used in this section, "commercial real property" means any real property except residential real property consisting of fewer than three residential units and agricultural property, whose primary use is determined as of the time the mortgage is executed, as defined by section 57-02-01. As used in this section, "fair market value" means the highest price that commercial real property can be sold for in the open market by a willing seller to a willing buyer, neither acting under compulsion and both exercising reasonable judgment, reduced by the value of any liens paramount to the lien of the foreclosing party. In addition to the appraisals filed by the parties, the court, in its determination of the fair market value of the property, may consider affidavits from the parties or other proof of paramount liens and other matters that may affect the value.

The provisions of this section are not available unless the ~~promissory note obligation and mortgage executed by the parties named as defendants in an action for a deficiency judgment contains~~ upon which the deficiency liability is based contain language located immediately above the signatures of the parties advising them that the ~~lender mortgagee~~ has the right to proceed to obtain and collect a deficiency judgment ~~against the parties personally liable~~, together with foreclosure of the real property mortgaged under applicable laws.

SECTION 2. AMENDMENT. Section 32-19.1-07 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

32-19.1-07. No deficiency judgment allowed. When any mortgage has been foreclosed under this chapter, the mortgagee or any party claiming by, through, or under said mortgagee shall not be entitled to any judgment for deficiency, except as provided in section 32-19-06.1. However, notwithstanding other provisions of state law, where a promissory note or other obligation and a mortgage, other than a first mortgage, upon real estate have been given to secure a debt contracted on or after August 1, 1993, a mortgagee may bring an action on the promissory note or other obligation of the mortgagor if the mortgagee waives the right to foreclosure of the mortgage given to secure the note or other obligation. The provisions of this section

allowing a mortgagee to bring an action on the promissory note or other obligation of the mortgagor if the mortgagee waives the right to foreclosure of the mortgage given to secure the note or other obligation apply only to residential real property consisting of four or fewer residential units.

Any promissory note ~~taken by a lender in connection with or other obligation secured by a second mortgage on real estate, other than a first mortgage,~~ must contain the following notice or direct action is not allowed:

"This ~~promissory note~~ obligation may be the basis for a personal action against the promisor or promisors in addition to other remedies allowed by law."

The notice must appear in printed or typed boldface capital letters within the body of the promissory note or other instrument evidencing the obligation.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. In this Act:

1. "Defamatory" means tending to harm reputation.
2. "Economic loss" means special, pecuniary loss caused by a false and defamatory publication.
3. "Person" includes any legal or commercial entity. The term does not include a government or governmental subdivision, agency, or instrumentality.

SECTION 2. Scope. This Act applies to all publications, including writings, broadcasts, oral communications, electronic transmissions, or other forms of transmitting information.

SECTION 3. Request for correction or clarification.

1. A person may maintain an action for defamation only if the person has made a timely and adequate request for correction or clarification from the defendant or the defendant has made a correction or clarification.
2. A request for correction or clarification is timely if made within the period of limitation for commencement of an action for defamation. However, a person who, within ninety days after knowledge of the publication, fails to make a good faith attempt to request a correction or clarification may recover only provable economic loss.
3. A request for correction or clarification is adequate if the request:
 - a. Is made in writing and reasonably identifies the person making the request;
 - b. Specifies with particularity the statement alleged to be false and defamatory and, to the extent known, the time and place of publication;

 5. The period of limitation for commencement of a defamation action is tolled during the period allowed in section 6 of this Act for responding to a request for correction or clarification.

SECTION 4. Disclosure of evidence of falsity. A person who has been requested to make a correction or clarification may ask the requester to disclose reasonably available information material to the falsity of the allegedly defamatory statement. If a correction or clarification is not made, a person who unreasonably fails to disclose the information after a request to do so may recover only provable economic loss. A correction or clarification is timely if published within twenty-five days after receipt of information disclosed under this section or forty-five days after receipt of a request for correction or clarification, whichever is later.

SECTION 5. Effect of correction or clarification. If a timely and sufficient correction or clarification is made, a person may recover only provable economic loss, as mitigated by the correction or clarification.

SECTION 6. Timely and sufficient correction or clarification.

1. A correction or clarification is timely if it is published before, or within forty-five days after, receipt of a request for correction or clarification, unless the period is extended under section 4 of this Act.
2. A correction or clarification is sufficient if it:
 - a. Is published with a prominence and in a manner and medium reasonably likely to reach substantially the same audience as the publication complained of;

 - (3) In the case of a statement attributed to another person, disclaims an intent to assert the truth of the statement; and
 - c. Is communicated to the person who has made a request for correction or clarification.
3. A correction or clarification is published in a medium reasonably likely to reach substantially the same audience as the publication complained

of if it is published in a later issue, edition, or broadcast of the original publication.

 - b. Reasonable steps are taken to correct undistributed copies of the original publication, if any; and
 - c. It is published in the next practicable issue, edition, or broadcast, if any, of the original publication.
5. A correction or clarification is timely and sufficient if the parties agree in writing that it is timely and sufficient.

SECTION 7. Challenges to correction or clarification or to request for correction or clarification.

1. If a defendant in an action governed by this Act intends to rely on a timely and sufficient correction or clarification, the defendant's intention to do so, and the correction or clarification relied upon, must be set forth in a notice served on the plaintiff within sixty days after service of the summons and complaint or ten days after the correction or clarification is made, whichever is later. A correction or clarification is deemed to be timely and sufficient unless the plaintiff challenges its timeliness or sufficiency within twenty days after the notice is served.
2. If a defendant in an action governed by this Act intends to challenge the adequacy or timeliness of a request for correction or clarification, the defendant must set forth the challenge in a motion to declare the request inadequate or untimely served within sixty days after service of the summons and complaint. The court shall rule on the motion at the earliest appropriate time before trial.

SECTION 8. Offer to correct or clarify.

2. If the person accepts in writing an offer to correct or clarify made pursuant to subsection 1, the person is barred from commencing an action against the publisher based on the statement or if an action has been commenced, the court shall dismiss the action against the defendant with prejudice after the defendant complies with the terms of the offer.
3. A person who does not accept an offer made in conformance with subsection 1 may recover in an action based on the statement only damages for provable economic loss and reasonable expenses of litigation, including attorney's fees, incurred before the offer, unless the person failed to make a good faith attempt to request a correction or clarification in accordance with subsection 2 of section 3 of this Act or failed to disclose information in accordance with section 4 of this Act.
4. On request of either party, a court shall promptly determine the sufficiency of the offered correction or clarification.
5. The court shall determine the amount of reasonable expenses of litigation, including attorney's fees, specified in subsections 1 and 3.

SECTION 9. Scope of protection. A timely and sufficient correction or clarification made by a person responsible for a publication constitutes a correction or clarification made by all persons responsible for that publication other than a republisher. However, a correction or clarification that is sufficient only under paragraph 3 of subdivision b of subsection 2 of section 6 of this Act does not constitute a correction or clarification made by the person to whom the statement is attributed.

SECTION 10. Admissibility of evidence of correction or clarification.

1. The fact of a request for correction or clarification under this Act, the contents of the request, and its acceptance or refusal are not admissible in evidence at trial.
2. The fact that a correction or clarification under this Act was made and the contents of the correction or clarification are not admissible in evidence at trial except in mitigation of damages pursuant to section 5 of this Act. If the fact that a correction or clarification was made or the contents of the correction or clarification are received in evidence, the fact of the request may also be received.
3. The fact of an offer of correction or clarification, or the fact of its refusal, and the contents of the offer are not admissible in evidence at trial.

2. If a vehicle is withdrawn from a proportionally registered fleet during the period for which it is registered, the registrant of the fleet shall notify the department. The department may require surrender of cab cards and other identification devices with respect to the vehicle. If at the end of the registration year there remains an unused portion of fees paid with respect to the permanently withdrawn vehicles, the unused fees must be applied against registration fees for the registration year immediately following the year during which the vehicles were permanently withdrawn. The used portion of fees of a vehicle permanently withdrawn from a fleet is a sum equal to the amount paid with respect to the vehicle when it was first proportionally registered in the registration year, reduced by one-twelfth of the total annual proportional registration fee applicable to the vehicle for each calendar month of the registration year including the month the notice of withdrawal is received by the department, except that no unused portion of fees of less than five dollars may be considered or

SECTION 2. AMENDMENT. Section 39-06-27 of the North Dakota Century Code is amended and reenacted as follows:

39-06-27. Suspending licenses upon conviction, suspension, or revocation in another state. The ~~commissioner~~ director may suspend or revoke the license of any resident of this state or the privilege of a nonresident to drive a motor vehicle in this state upon receiving notice of the conviction of such person in another state of an offense therein which, if committed in this state, would be grounds for the suspension or revocation of the license of an operator. This section may not be construed as authorizing the assessment of points against a resident driver's record in accordance with chapter 39-06.1, except upon conviction of a resident driver for a criminal offense in another state which is equivalent to one of those offenses defined in section 39-06.1-05. No suspension or revocation may be imposed for convictions for driving under suspension or revocation in another state if a valid North Dakota license or permit was in effect at the time of the violation. For the purposes of this section, originals, photostatic copies, or electronic transmissions of the records of the drivers licensing authority of the other ~~state~~ jurisdiction are sufficient evidence whether or not they are certified copies.

Upon receipt of a certification that the operating privileges of a resident of this state have been suspended or revoked in any other state pursuant to a law providing for the suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle accident, under circumstances which would require the ~~commissioner~~ director to suspend a nonresident's operating privileges had the accident occurred in this state, the ~~commissioner~~ director shall suspend the license of such resident if he was the driver of a motor vehicle involved in such accident. Such suspension continues until such resident furnishes evidence satisfactory to the ~~commissioner~~ director of his compliance with the laws of such other state relating to the deposit of security or payment of a judgment arising out of a motor vehicle accident, to the extent that such compliance would be required if the accident had occurred in this state.

SECTION 3. AMENDMENT. Subsection 4 of section 39-06-32 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

4. Refusal to submit to an implied consent chemical ~~alcohol~~ test in another state. For purposes of this subsection the specific requirements for establishing a refusal used in the other state may not be considered, and photostatic copies of the records of the other ~~state's~~ jurisdiction's drivers licensing authority are sufficient evidence of the refusal whether or not those copies are certified. The suspension must be for the same length of time as the revocation in section 39-20-04. If the refusal arose out of an arrest or stop of a person while operating a commercial motor vehicle, the period of suspension must be the same as the period of revocation provided in section 39-06.2-10.

SECTION 4. AMENDMENT. Subsection 2 of section 39-06-33 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

~~director~~ chapter 28-32, except the hearing must be heard within sixty days of the receipt of the request for hearing and in the county of the licensee's residence, unless the parties agree to a different time and place for the hearing. At the hearing, the regularly kept records of the director may be introduced and are prima facie evidence of their content without further foundation.

SECTION 5. AMENDMENT. Section 39-06.1-14 of the North Dakota Century Code is amended and reenacted as follows:

39-06.1-14. Failure to surrender license. The ~~commissioner~~ director shall extend the period of suspension or revocation in all cases that involve a time period, within this title, when the person whose license or permit has been suspended or revoked fails to surrender such license or permit within forty-eight hours after ~~constructive~~ delivery of the order of suspension or revocation. Such period of suspension or revocation must be extended by one day for each day such person fails to surrender such license. Delivery of the order must be deemed to have occurred seventy-two hours after the order is mailed by regular mail to the address of record in the department under section 39-06-20.

SECTION 6. AMENDMENT. Section 39-16-03 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

39-16-03. Abstract - Not admissible in evidence - Fee. The ~~commissioner~~ director upon request shall furnish any person a certified abstract of the operating record of any person subject to the provisions of this chapter which must include the convictions, adjudications, and admissions of commission of traffic offenses of any driver and suspensions, revocations, and restrictions of a person's driving privileges. Any person, except law enforcement or judicial officers functioning in their official capacity, requesting the abstract shall indicate in writing the reason for the request and shall identify the person or firm for whom or which the request is made and the intended recipient of the abstract.

Copies of abstracts are not admissible as evidence in any civil or criminal trial arising out of a motor vehicle accident.

A fee of three dollars must be paid for each abstract of any operating record, complete operating record, or record of clearance, except no fee will be assessed to law enforcement agencies. The ~~commissioner~~ director shall send an additional copy of the abstract to the driver whose abstract was requested, accompanied by a statement identifying the person making the request, identifying the person or firm for whom or which the request is made, identifying the intended recipient of the abstract, and providing the reason for the request. No abstract or statement may be sent to a driver where the request for the driver's abstract was made by the federal bureau of investigation or the United States central intelligence agency, or their agents, or by any law enforcement agency of this state, or of its political subdivisions.

SECTION 7. AMENDMENT. Section 39-16-03.1 of the North Dakota Century Code is amended and reenacted as follows:

39-16-03.1. Entries on driver record abstract more than three years old confidential. Notwithstanding any other provisions of this chapter, no entry more than three years old or an entry concerning a suspension under subsection 4, 5, 6, or 7 of section 39-06-03, or subsection 2, 5, or 6 of section 39-06-32, after the suspension ceases, on a driver record or abstract shall be available to the public,

except for statistical purposes, other than by order of a court of competent jurisdiction. The order must be accompanied by a fee of twenty-five dollars.

SECTION 8. AMENDMENT. Subsection 1 of section 39-16-05 of the North Dakota Century Code is amended and reenacted as follows:

1. The ~~commissioner~~ director, within ~~sixty~~ ninety days after the receipt of a report of a motor vehicle accident within this state for which a driver is required to file a report under section 39-08-09, shall suspend the license or nonresident operating privilege of each driver of each vehicle in any manner involved in the accident unless the driver deposits security as provided in sections 39-16-09 and 39-16-10 in a sum which is sufficient in the judgment of the ~~commissioner~~ director to satisfy any judgment or judgments for damages resulting from the accident as may be recovered against such driver. Notice of suspension and opportunity for hearing must be sent by the ~~commissioner~~ director to the driver not less than ten days prior to the effective date of the suspension and must state the amount required as security. However, if a driver, either resident or nonresident, involved in the accident purchases an insurance policy with at least the amount of coverage required by this section, and files proof and satisfies financial responsibility requirements thereof with the ~~commissioner~~ director, that driver may retain the license or privilege until the driver has accepted responsibility for the accident or agreed to a settlement of claims arising from the accident or until a court of this state has determined that the driver was negligent or responsible for the accident in whole or in part. If the driver is found negligent or responsible for the accident, in whole or in part, the license or privilege must be suspended and will not be returned until the driver complies with this chapter.

SECTION 2. AMENDMENT. Section 39-10-46.1 of the North Dakota Century Code is amended and reenacted as follows:

39-10-46.1. Permitting use of vehicle to violate section 39-10-46 prohibited - Penalty - Presumption of permission - Defense - Dual prosecution prohibited. The registered owner of a motor vehicle may not permit that motor vehicle to be operated in violation of section 39-10-46. ~~A person violating this provision is subject to a civil penalty of twenty dollars.~~ If a motor vehicle is seen violating section 39-10-46, it is a disputable presumption that the registered owner of the motor vehicle permitted that violation. It is a defense to a charge of violating this section that the registered owner of the vehicle was not operating the vehicle, if that registered owner identifies the person authorized by that owner to operate the motor vehicle at the time of the violation of section 39-10-46, or if that motor vehicle had been taken without the registered owner's permission. A person may not be charged both with violating this section and with violating section 39-10-46. Violation of this section is not a lesser included offense of violation of section 39-10-46.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 39-12-04 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. A total outside width, including load thereon, of eight feet six inches [2.59 meters]. This limitation does not apply to:
 - a. Construction and building contractors' equipment and vehicles used to move such equipment which does not exceed ten feet [3.05 meters] in width when being moved by contractors or resident carriers.
 - b. Implements of husbandry being moved by resident farmers, ranchers, dealers, or manufacturers between sunrise and sunset. Furthermore, the limitation does not apply to implements of husbandry being moved between sunset and sunrise by resident farmers, ranchers, dealers, or manufacturers on public state, county, or township highway systems other than interstate highway systems.
 - c. Hay in the stack or bale being moved along the extreme right edge of a roadway between sunrise and sunset by someone other than a commercial mover.
 - d. Commercial movement of haystacks or hay bales with vehicles designed specifically for hauling hay, overwidth self-propelled fertilizer spreaders, and overwidth hay grinders, which may be operated on the highway after obtaining a permit issued by the highway patrol. The highway patrol shall issue permits that are valid during daylight hours on any day of the week to any commercial mover otherwise qualified under this subdivision. The permit is in lieu of registration requirements for the permit period. No permit may be issued, unless proof of financial responsibility in a minimum of three hundred thousand dollars is filed and the appropriate permit fee is paid. The permit may also be issued for hauling hay bales with vehicles or vehicle combinations other than those designed specifically for hauling haystacks. This permit,

however, will not be in lieu of registration requirements. All permit fees must be deposited in the state highway distribution fund.

- e. Safety devices that the highway patrol determines are necessary for the safe and efficient operation of motor vehicles may not be included in the calculation of width.
 - f. Any nonload carrying safety appurtenance as determined by the highway patrol which extends no more than three inches [7.62 centimeters] from each side of a trailer is excluded from the measurement of trailer width. The width of a trailer is measured across the sidemost load carrying structures, support members, and structural fasteners.
 - g. The highway patrol may adopt reasonable rules for those vehicles exempted from the width limitations as provided for in this subsection.
2.
 - a. A height of fourteen feet [4.27 meters], whether loaded or unloaded. This height limitation does not affect any present structure such as bridges and underpasses that are not fourteen feet [4.27 meters] in height.
 - b. The limitation in subdivision a does not apply to vehicles that are at most fifteen feet six inches [4.72 meters] high when all of the following apply:
 - (1) The vehicle is an implement of husbandry and is being moved by a resident farmer, rancher, dealer, or manufacturer.
 - (2) The trip is at most sixty miles [96.56 kilometers].
 - (3) The trip is between sunrise and sunset.
 - (4) None of the trip is on an interstate highway.
 3. A length limitation as follows:
 - a. A single unit vehicle with two or more axles including the load thereon may not exceed a length of fifty feet [15.24 meters].
 - b. A combination of two units including the load thereon may not exceed a length of seventy-five feet [22.86 meters].
 - c. A combination of three or four units including the load thereon may not exceed a length of seventy-five feet [22.86 meters], subject to any rules adopted by the director that are consistent with public highway safety. The rules do not apply to a three-unit combination consisting of a truck tractor and semitrailer drawing a trailer or semitrailer.
 - d. A combination of two, three, or four units including the load thereon may be operated on all four-lane divided highways and those highways in the state designated by the director and local authorities as to the highways under their respective jurisdictions and may not exceed a length of one hundred ten feet [33.53 meters],

subject to any rules adopted by the director that are consistent with public highway safety.

- e. Length limitations do not apply to:

 - (2) Emergency tow trucks towing disabled lawful combinations of vehicles to a nearby repair facility.
 - (3) Vehicles and equipment owned and operated by the armed forces of the United States or the national guard of this state.

Length exclusive devices are appurtenances at the front or rear of a commercial motor vehicle semitrailer or trailer, whose function is related to the safe and efficient operation of the semitrailer or trailer.
- f. The length of a trailer or semitrailer, including the load thereon, may not exceed fifty-three feet [16.15 meters] except that trailers and semitrailers titled and registered in North Dakota prior to July 1, 1987, and towed vehicles may not exceed a length of sixty feet [18.29 meters].

**DEPARTMENT OF TRANSPORTATION MOTOR
CARRIER REGULATION**

AN ACT to create and enact a new chapter to title 39 of the North Dakota Century Code, relating to motor carrier regulation by the department of transportation and enforcement by the highway patrol; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new chapter to title 39 of the North Dakota Century Code is created and enacted as follows:

Common household goods carrier defined. In this chapter, unless the context otherwise requires, "common household goods carrier" means any person that holds oneself out to the public as willing to undertake for hire to transport by motor vehicle from place to place the household goods of others who may choose to employ that person.

Application of chapter to intrastate commerce. This chapter applies to persons and motor vehicles engaged in intrastate commerce only to the extent permitted by the constitution and laws of the United States and this state.

Carriers must operate in accordance with law and rules. It is unlawful for any common household goods carrier to transport persons or property for hire unless:

1. The carrier has obtained the certificate or permit required by this chapter; and
2. The carrier complies with this chapter and any applicable rules adopted by the department.

Regulation of common household goods carriers by the department. The department may regulate common motor carriers of household goods except for transportation provided wholly within a city in this state or within a distance beyond the corporate limits of a city as determined by the department and:

1. May require the filing of tariffs and schedules; and
2. Shall supervise the relations between common household goods carriers and the public to comply with the provisions of this chapter.

Household goods carriers - Transportation of commodities. A carrier may specify, by tariff publication, the quantity or quantities of commodities the carrier is obliged to transport.

Household goods carrier - Certificate of public convenience - Temporary permit - Application. No common household goods carrier may operate within this state without having obtained from the department a certificate of public convenience and

necessity. An application must be upon the form prescribed by the department. The application must contain a financial statement.

Notice of opportunity for comment on application. Upon the filing of an application for a certificate of public convenience and necessity or permit, the department shall mail notice of opportunity for comment to the North Dakota motor carriers association and may send notice to appropriate news media.

Factors to be considered by department in granting certificate. Before granting a certificate to a common household goods carrier, the department shall take into consideration the fitness and ability of applicant to provide service and any other information the department determines appropriate.

Testimony - Issuance of certificate of permit - Conditions. A party opposing an application may offer written testimony if that party filed a protest within twenty days of receipt of the notice. The protest must state the objection. Based upon the evidence, the department may grant or deny, in whole or in part, the certificate or permit requested.

Reasonable rates to be made by household goods carriers. All charges by a common household goods carrier must be reasonable and may not be unlawfully discriminatory. A carrier shall operate at the rate set in its tariff and may not refund in any manner. The use of a tariff bureau to promulgate and file a proposed tariff creates no presumption that the carrier using the bureau is violating the Constitution of North Dakota. Rate reductions may be filed with the department effective on one or more day's notice. The department has the right to suspend rate reductions within thirty days of filing.

Certificates - Permits - Duration - Transfer. Certificates and permits issued to carriers by the department under this chapter remain in force subject to this chapter. Those certificates or permits are transferable only upon approval by the department, after notice to and opportunity for comment by all interested parties.

Fees - Household goods carrier. Every household goods carrier operating in this state, when applying for a certificate of public convenience and necessity or permit, shall pay a fee of one hundred dollars. The nonrefundable fee for an application for transfer of a certificate of public convenience and necessity is one hundred dollars.

Regulations furnished to holder of certificate or permit. The department shall mail each holder of a certificate or permit under this chapter the rules the department adopts to implement this chapter.

Insurance required of carrier - Liability of insurer. The department, before granting a certificate to any common motor carrier, shall require the owner or operator to procure public liability insurance. The conditions of the liability insurance must guarantee the payment of any loss or damage to property or on account of the death or injury to any person resulting from the negligence of the carrier. The carrier shall file the insurance policy with the department and the policy must be kept in full force. Upon failure of a carrier to maintain insurance required by this section, the department shall cancel the certificate. A certificate of any company authorized to write liability or property damage insurance in the state, in a form approved by the department and certifying that there is in effect a liability insurance policy required by this section, may be filed instead of the policy.

Deposit of fees. The department shall deposit monthly all fees collected under this chapter in the highway fund in the state treasury.

Enforcement of chapter. Any law enforcement officer may make an arrest for any violation of this chapter, and the state's attorney of the county in which the offense was committed shall prosecute the offender. The highway patrol shall enforce this chapter in any part of the state. Upon written request of the department or the highway patrol, the attorney general shall prosecute or assist in the prosecution of any person alleged to have violated this chapter or any rule adopted to implement this chapter.

Penalty. Any person who willfully violates this chapter, or any order or rule issued or adopted under this chapter, is guilty of an infraction.

PAYMENTS IN LIEU OF TAXES ALLOCATION

AN ACT to amend and reenact section 40-57.1-03 of the North Dakota Century Code, relating to the distribution of payments in lieu of taxes.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹⁹⁶ **SECTION 1. AMENDMENT.** Section 40-57.1-03 of the 1994 Special Supplement to the North Dakota Century Code is amended and reenacted as follows:

40-57.1-03. Municipality's authority to grant tax exemption or payments in lieu of taxes - Notice to competitors - Limitations. After negotiation with a potential project operator, a municipality may grant a partial or complete exemption from ad valorem taxation on all buildings, structures, fixtures, and improvements used in or necessary to the operation of a project for a period not exceeding five years from the date of commencement of project operations. A municipality may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations.

In addition to, or in lieu of, a property tax exemption granted under this section, a municipality may establish an amount due as payments in lieu of ad valorem taxes on buildings, structures, fixtures, and improvements used in the operation of a project upon which initial construction is begun after June 30, 1994. The governing body of the municipality shall designate the amount of the payments for each year and the beginning year and the concluding year for payments in lieu of taxes, but the option to make payments in lieu of taxes under this section may not extend beyond the twentieth year from the date of commencement of project operations. To establish the amount of payments in lieu of taxes, the governing body of the municipality may use actual or estimated levels of assessment and taxation or may establish payment amounts based on other factors. The governing body of the municipality may designate different amounts of payments in lieu of taxes in different years to recognize future project expansion plans or other considerations.

By November first of each year, the municipality that granted the option to make payments in lieu of taxes shall certify to the county auditor the amount of payments in lieu of taxes due under this section in the following year. After receiving the statement from the municipality, the county auditor shall certify the payments in lieu of taxes to the county treasurer for collection at the time when, and

in the manner in which, ad valorem taxes must be certified. Upon receipt by the county treasurer of the amount of payments in lieu of taxes under this section, the county treasurer shall apportion and distribute that amount to taxing districts on the basis on which the general real estate tax levy is apportioned and distributed. The municipality may enter into a written agreement with the local school district and any other local taxing districts that wish to enter the agreement for an alternate method of apportionment and distribution. If such an agreement is entered into, the county treasurer shall apportion and distribute the money according to the written agreement. All provisions of law relating to enforcement, administration, collection, penalties, and delinquency proceedings for ad valorem taxes apply to payments in lieu of taxes under this section. However, the discount for early payment of taxes under section 57-20-09 does not apply to payments in lieu of taxes under this section. The buildings, structures, fixtures, and improvements comprising a project for which payments in lieu of taxes are allowed under this section must be excluded from the valuation of property in the taxing district for purposes of determining the mill rate for the taxing district.

Negotiations with potential project operators for tax exemption or payments in lieu of taxes must be carried on by the city council or commission if the project is proposed to be located within the boundaries of a city, and by the board of county commissioners if the project is proposed to be located outside the corporate limits of any city. A partial exemption must be stated as a percentage of the total ad valorem taxes assessed against the property. Unless the governing body of the municipality determines that there is no existing business within the municipality for which the potential project would be a competitor, the potential project operator shall publish two notices to competitors, the form of which must be prescribed by the tax commissioner, of the application for tax exemption or payments in lieu of taxes in the official newspaper of the municipality at least one week apart. The publications must be completed not less than fifteen nor more than thirty days before the governing body of the municipality is to consider the application. The municipality shall determine whether the granting of the exemption or payments in lieu of taxes, or both, is in the best interest of the municipality, and if it so determines, shall give its approval.

The legislative assembly finds that the practice of nursing is directly related to the public welfare of the citizens of the state of North Dakota and is subject to regulation and control in the public interest to assure that qualified, competent practitioners and high quality standards are available. It is essential to govern qualifications for nursing practice with requirements for the maintenance of high standards and to state sanctions by which an illicit, unqualified, dishonest person or one that is otherwise against the public interest can be disciplined. The legislative assembly further declares that it is the policy of this state to regulate through the board of nursing the practice of nursing, those engaged in licensed nursing practice, and all persons who assist in the practice of nursing. A person who practices or offers to practice nursing or who represents that the person is licensed under this chapter or is qualified to assist in the practice of nursing without qualifying under this chapter endangers the public health. Duties supersede common law.

SECTION 1. AMENDMENT. Section 45-11-01 of the North Dakota Century Code is amended and reenacted as follows:

45-11-01. Use of fictitious partnership name. Any partnership transacting business in this state under a fictitious name or under a designation that does not show the names of the persons interested as partners must file a fictitious name certificate with the secretary of state, together with a filing fee of twenty-five dollars. When a partnership has more than two members, an additional three dollars must be paid for each additional member not to exceed two hundred fifty dollars. A limited partnership or a foreign limited partnership transacting business under a name filed under chapter 45-10.1 and as provided in section 45-11-03 or a partnership transacting business under a name filed under section 45-13-05 is not required to file a fictitious name certificate under this section.

The fictitious name:

1. May not contain the word "corporation", "company", "incorporated", "limited liability company", or "limited", or an abbreviation of any of those words. This subsection does not preclude the word "limited" from being used in conjunction with the word "partnership".
2. May not be the same as or deceptively similar to any corporate name, limited liability company name, trade name, partnership name on file with the secretary of state, limited partnership name, foreign limited partnership name, or fictitious name certificate on file with the secretary of state, unless there is filed with the fictitious name certificate a written consent of the holder of the similar name to use the proposed name and a filing fee of ten dollars.

The person exercises reasonable diligence if it maintains reasonable routines for communicating significant information to the individual conducting the transaction and there is reasonable compliance with the routines. - (2) All of the partners or a number or percentage specified in the partnership agreement may authorize or ratify, after full disclosure of all material facts, a specific act or transaction that otherwise would violate the duty of loyalty;

- d. Unreasonably reduce the duty of care under subsection 3 of section 45-16-04 or subdivision c of subsection 2 of section 45-18-03;
- e. Eliminate the obligation of good faith and fair dealing under subsection 4 of section 45-16-04, but the partnership agreement may prescribe the standards by which the performance of the obligation is to be measured, if the standards are not manifestly unreasonable;

45-13-05. (105) Execution, filing, and recording of statements.

- 1. A statement may be filed in the office of the secretary of state. A certified copy of a statement that is filed in an office in another state may be filed in the office of the secretary of state. Either filing has the effect provided in chapters 45-13 through 45-21 with respect to partnership property located in or transactions that occur in this state.
- 2. A certified copy of a statement that has been filed in the office of the secretary of state and recorded in the office for recording transfers of real property has the effect provided for recorded statements in chapters 45-13 through 45-21. A recorded statement that is not a certified copy of a statement filed in the office of the secretary of state does not have the effect provided for recorded statements in chapters 45-13 through 45-21.
- 3. A statement filed by a partnership must be executed by at least two partners. Other statements must be executed by a partner or other person authorized by chapters 45-13 through 45-21. An individual who executes a statement as, or on behalf of, a partner or other person named as a partner in a statement shall personally declare under penalty of perjury that the contents of the statement are accurate.
- 4. A person authorized by chapters 45-13 through 45-21 to file a statement may amend or cancel the statement by filing an amendment or

cancellation that names the partnership, identifies the statement, and states the substance of the amendment or cancellation.

5. A person who files a statement pursuant to this section shall promptly send a copy of the statement to every nonfiling partner and to any other person named as a partner in the statement. Failure to send a copy of a statement to a partner or other person does not limit the effectiveness of the statement as to a person not a partner.
6. A partnership name filed in a statement under this section may not be the same as or deceptively similar to the name of any other partnership filed under this section or any corporation, limited liability company, or limited partnership, or a trade name or fictitious name certificate on file with the secretary of state, unless there is filed with the partnership statement a written consent of the holder of the similar name to use the name proposed by the partnership.
7. Any statement filed under this section must be renewed every five years from the date of the initial filing. A statement of renewal must be executed by the partnership on a form furnished by the secretary of state which is sent to the address of the chief executive office at least sixty days before the deadline for filing. If the secretary of state finds that the statement of renewal conforms to the requirements of this section, and the proper filing fee has been paid, the secretary of state shall file the statement of renewal. If the secretary of state finds that the statement of renewal does not so conform, the secretary of state shall return the statement of renewal to the partnership for any necessary corrections. If the statement of renewal is not returned corrected within thirty days after the statement of renewal was returned for correction, the statement of renewal is subject to cancellation. If any partnership fails to file the statement of renewal, the secretary of state shall cancel the initial statement and shall mail notice of the cancellation to the address of the chief executive office.
8. A partnership shall notify the secretary of state in writing upon a change in address of the partnership's chief executive office. A statement of renewal filed by the secretary of state which reflects a change of address of the chief executive office of the partnership may serve as such notice.
9. a. The secretary of state shall charge and collect a fee for:
 - (1) Filing a statement under this section, one hundred dollars.
 - (2) Filing an amendment under this section, forty dollars.
 - (3) Filing a cancellation under this section, twenty-four dollars.

45-13-07. (107) Partnership subject to amendment or repeal of Act. A partnership governed by chapters 45-13 through 45-21 is subject to any amendment to or repeal of chapters 45-13 through 45-21.

SECTION 4. Chapter 45-14 of the North Dakota Century Code is created and enacted as follows:

45-14-01. (201) Partnership as entity. A partnership is an entity distinct from its partners.

45-14-02. (202) Formation of partnership.

1. Except as otherwise provided in subsection 2, the association of two or more persons to carry on as coowners a business for profit forms a partnership, whether or not the persons intend to form a partnership.
2. An association formed under a statute other than chapters 45-13 through 45-21, a predecessor statute, or a comparable statute of another jurisdiction is not a partnership under chapters 45-13 through 45-21.
3. In determining whether a partnership is formed, the following rules apply:
 - a. Joint tenancy, tenancy in common, tenancy by the entireties, joint property, common property, or part ownership does not by itself establish a partnership, even if the coowners share profits made by the use of the property.
 - b. The sharing of gross returns does not by itself establish a partnership, even if the persons sharing them have a joint or common right or interest in property from which the returns are derived.
 - c. A person who receives a share of the profits of a business is presumed to be a partner in the business, unless the profits were received in payment:
 - (1) Of a debt by installments or otherwise;
 - (2) For services as an independent contractor or of wages or other compensation to an employee;
 - (3) Of rent;
 - (4) Of an annuity or other retirement benefit to a beneficiary, representative, or designee of a deceased or retired partner;
 - (5) Of interest or other charge on a loan, even if the amount of payment varies with the profits of the business, including a direct or indirect present or future ownership of the collateral, or rights to income, proceeds, or increase in value derived from the collateral; or
 - (6) For the sale of the goodwill of a business or other property by installments or otherwise.

45-14-03. (203) Partnership property. Property acquired by a partnership is property of the partnership and not of the partners individually.

45-14-04. (204) When property is partnership property.

1. Property is partnership property if acquired in the name of:
 - a. The partnership; or
 - b. One or more partners with an indication in the instrument transferring title to the property of the person's capacity as a partner or of the existence of a partnership but without an indication of the name of the partnership.
2. Property is acquired in the name of the partnership by a transfer to:
 - a. The partnership in its name; or
 - b. One or more partners in their capacity as partners in the partnership, if the name of the partnership is indicated in the instrument transferring title to the property.
3. Property is presumed to be partnership property if purchased with partnership assets, even if not acquired in the name of the partnership or of one or more partners with an indication in the instrument transferring title to the property of the person's capacity as a partner or of the existence of a partnership.
4. Property acquired in the name of one or more of the partners, without an indication in the instrument transferring title to the property of the person's capacity as a partner or of the existence of a partnership and without use of partnership assets, is presumed to be separate property, even if used for partnership purposes.

SECTION 5. Chapter 45-15 of the North Dakota Century Code is created and enacted as follows:

45-15-01. (301) Partner agent of partnership. Subject to the effect of a statement of partnership authority under section 45-15-03:

1. Each partner is an agent of the partnership for the purpose of its business. An act of a partner, including the execution of an instrument in the partnership name, for apparently carrying on in the ordinary course the partnership business or business of the kind carried on by the partnership binds the partnership, unless the partner had no authority to act for the partnership in the particular matter and the person with whom the partner was dealing knew or had received a notification that the partner lacked authority.
2. An act of a partner which is not apparently for carrying on in the ordinary course the partnership business or business of the kind carried on by the partnership binds the partnership only if the act was authorized by the other partners.

45-15-02. (302) Transfer of partnership property.

1. Partnership property may be transferred as follows:
 - a. Subject to the effect of a statement of partnership authority under section 45-15-03, partnership property held in the name of the partnership may be transferred by an instrument of transfer executed by a partner in the partnership name.
 - b. Partnership property held in the name of one or more partners with an indication in the instrument transferring the property to them of their capacity as partners or of the existence of a partnership, but without an indication of the name of the partnership, may be transferred by an instrument of transfer executed by the persons in whose name the property is held.
 - c. Partnership property held in the name of one or more persons other than the partnership, without an indication in the instrument transferring the property to them of their capacity as partners or of the existence of a partnership, may be transferred by an instrument of transfer executed by the persons in whose name the property is held.
2. A partnership may recover partnership property from a transferee only if it proves that execution of the instrument of initial transfer did not bind the partnership under section 45-15-01 and:
 - a. As to a subsequent transferee who gave value for property transferred under subdivision a or b of subsection 2, proves that the subsequent transferee knew or had received a notification that the person who executed the instrument of initial transfer lacked authority to bind the partnership; or
 - b. As to a transferee who gave value for property transferred under subdivision c of subsection 1, proves that the transferee knew or had received a notification that the property was partnership property and that the person who executed the instrument of initial transfer lacked authority to bind the partnership.
3. A partnership may not recover partnership property from a subsequent transferee if the partnership would not have been entitled to recover the property, under subsection 2, from any earlier transferee of the property.
4. If a person holds all of the partners' interests in the partnership, all of the partnership property vests in that person. The person may execute a document in the name of the partnership to evidence vesting of the property in that person and may file or record the document.

45-15-03. (303) Statement of partnership authority.

1. A partnership may file a statement of partnership authority, which:
 - a. Must include:
 - (1) The name of the partnership;
 - (2) The street address of its chief executive office and of one office in this state, if there is one;

statement, or the most recent amendment, was filed with the secretary of state.

45-15-04. (304) Statement of denial. A partner or other person named as a partner in a filed statement of partnership authority may file a statement of denial stating the name of the partnership and the fact that is being denied, which may include denial of a person's authority or status as a partner. A statement of denial is a limitation on authority as provided in subsections 3 and 4 of section 45-15-03.

45-15-05. (305) Partnership liable for partner's actionable conduct.

1. A partnership is liable for loss or injury caused to a person, or for a penalty incurred, as a result of a wrongful act or omission, or other actionable conduct, of a partner acting in the ordinary course of business of the partnership or with authority of the partnership.
2. If, in the course of the partnership's business or while acting with authority of the partnership, a partner receives or causes the partnership to receive money or property of a person not a partner, and the money or property is misapplied by a partner, the partnership is liable for the loss.

45-15-06. (306) Partner's liability.

1. Except as otherwise provided in subsection 2, all partners are liable jointly and severally for all obligations of the partnership unless otherwise agreed by the claimant or provided by law.
2. A person admitted as a partner into an existing partnership is not personally liable for any partnership obligation incurred before the person's admission as a partner.

45-15-07. (307) Actions by and against partnership and partners.

1. A partnership may sue and be sued in the name of the partnership.
2. An action may be brought against the partnership and any or all of the partners in the same action or in separate actions.
3. A judgment against a partnership is not by itself a judgment against a partner. A judgment against a partnership may not be satisfied from a partner's assets unless there is also a judgment against the partner.
4. A judgment creditor of a partner may not levy execution against the assets of the partner to satisfy a judgment based on a claim against the partnership unless:
 - a. A judgment based on the same claim has been obtained against the partnership and a writ of execution on the judgment has been returned unsatisfied in whole or in part;
 - b. The partnership is a debtor in bankruptcy;
 - c. The partner has agreed that the creditor need not exhaust partnership assets;

- d. A court grants permission to the judgment creditor to levy execution against the assets of a partner based on a finding that partnership assets subject to execution are clearly insufficient to satisfy the judgment, that exhaustion of partnership assets is excessively burdensome, or that the grant of permission is an appropriate exercise of the court's equitable powers; or
 - e. Liability is imposed on the partner by law or contract independent of the existence of the partnership.
5. This section applies to any partnership liability or obligation resulting from a representation by a partner or purported partner under section 45-15-08.

45-15-08. (308) Liability of purported partner.

1. If a person, by words or conduct, purports to be a partner, or consents to being represented by another as a partner, in a partnership or with one or more persons not partners, the purported partner is liable to a person to whom the representation is made, if that person, relying on the representation, enters into a transaction with the actual or purported partnership. If the representation, either by the purported partner or by a person with the purported partner's consent, is made in a public manner, the purported partner is liable to a person who relies upon the purported partnership even if the purported partner is not aware of being held out as a partner to the claimant. If partnership liability results, the purported partner is liable with respect to that liability as if the purported partner were a partner. If no partnership liability results, the purported partner is liable with respect to that liability jointly and severally with any other person consenting to the representation.
2. If a person is thus represented to be a partner in an existing partnership, or with one or more persons not partners, the purported partner is an agent of persons consenting to the representation to bind them to the same extent and in the same manner as if the purported partner were a partner, with respect to persons who enter into transactions in reliance upon the representation. If all of the partners of the existing partnership consent to the representation, a partnership act or obligation results. If fewer than all of the partners of the existing partnership consent to the representation, the person acting and the partners consenting to the representation are jointly and severally liable.
3. A person is not liable as a partner merely because the person is named by another in a statement of partnership authority.
4. A person does not continue to be liable as a partner merely because of a failure to file a statement of dissociation or to amend a statement of partnership authority to indicate the partner's dissociation from the partnership.
5. Except as otherwise provided in subsections 1 and 2, persons who are not partners as to each other are not liable as partners to other persons.

SECTION 6. Chapter 45-16 of the North Dakota Century Code is created and enacted as follows:

45-16-01. (401) Partner's rights and duties.

1. Each partner is deemed to have an account that is:
 - a. Credited with an amount equal to the money plus the value of any other property, net of the amount of any liabilities, the partner contributes to the partnership and the partner's share of the partnership profits; and
 - b. Charged with an amount equal to the money plus the value of any other property, net of the amount of any liabilities, distributed by the partnership to the partner and the partner's share of the partnership losses.
2. Each partner is entitled to an equal share of the partnership profits and is chargeable with a share of the partnership losses in proportion to the partner's share of the profits.
3. A partnership shall reimburse a partner for payments made and indemnify a partner for liabilities incurred by the partner in the ordinary course of the business of the partnership or for the preservation of its business or property.
4. A partnership shall reimburse a partner for an advance to the partnership beyond the amount of capital the partner agreed to contribute.
5. A payment or advance made by a partner which gives rise to a partnership obligation under subsection 3 or 4 constitutes a loan to the partnership which accrues interest from the date of the payment or advance.
6. Each partner has equal rights in the management and conduct of the partnership business.
7. A partner may use or possess partnership property only on behalf of the partnership.
8. A partner is not entitled to remuneration for services performed for the partnership, except for reasonable compensation for services rendered in winding up the business of the partnership.
9. A person may become a partner only with the consent of all of the partners.
10. A difference arising as to a matter in the ordinary course of business of a partnership may be decided by a majority of the partners. An act outside the ordinary course of business of a partnership and an amendment to the partnership agreement may be undertaken only with the consent of all of the partners.
11. This section does not affect the obligations of a partnership to other persons under section 45-15-01.

45-16-02. (402) Distributions in kind. A partner has no right to receive, and may not be required to accept, a distribution in kind.

45-16-03. (403) Partner's rights and duties with respect to information.

1. A partnership shall keep its books and records, if any, at its chief executive office.
2. A partnership shall provide partners and their agents and attorneys access to its books and records. It shall provide former partners and their agents and attorneys access to books and records pertaining to the period during which they were partners. The right of access provides the opportunity to inspect and copy books and records during ordinary business hours. A partnership may impose a reasonable charge, covering the costs of labor and material, for copies of documents furnished.
3. Each partner and the partnership shall furnish to a partner, and to the legal representative of a deceased partner or partner under legal disability:
 - a. Without demand, any information concerning the partnership's business and affairs reasonably required for the proper exercise of the partner's rights and duties under the partnership agreement or chapters 45-13 through 45-21; and
 - b. On demand, any other information concerning the partnership's business and affairs, except to the extent the demand or the information demanded is unreasonable or otherwise improper under the circumstances.

45-16-04. (404) General standards of partner's conduct.

1. The only fiduciary duties a partner owes to the partnership and the other partners are the duty of loyalty and the duty of care set forth in subsections 2 and 3.
2. A partner's duty of loyalty to the partnership and the other partners is limited to the following:
 - a. To account to the partnership and hold as trustee for it any property, profit, or benefit derived by the partner in the conduct and winding up of the partnership business or derived from a use by the partner of partnership property, including the appropriation of a partnership opportunity;
 - b. To refrain from dealing with the partnership in the conduct or winding up of the partnership business as or on behalf of a party having an interest adverse to the partnership; and
 - c. To refrain from competing with the partnership in the conduct of the partnership business before the dissolution of the partnership.
3. A partner's duty of care to the partnership and the other partners in the conduct and winding up of the partnership business is limited to refraining from engaging in grossly negligent or reckless conduct, intentional misconduct, or a knowing violation of law.

4. A partner shall discharge the duties to the partnership and the other partners under chapters 45-13 through 45-21 or under the partnership agreement and exercise any rights consistently with the obligation of good faith and fair dealing.
5. A partner does not violate a duty or obligation under chapters 45-13 through 45-21 or under the partnership agreement merely because the partner's conduct furthers the partner's own interest.
6. A partner may lend money to and transact other business with the partnership, and as to each loan or transaction, the rights and obligations of the partner are the same as those of a person who is not a partner, subject to other applicable law.
7. This section applies to a person winding up the partnership business as the personal or legal representative of the last surviving partner as if the person were a partner.

45-16-05. (405) Actions by partnership and partners.

1. A partnership may maintain an action against a partner for a breach of the partnership agreement, or for the violation of a duty to the partnership, causing harm to the partnership.
2. A partner may maintain an action against the partnership or another partner for legal or equitable relief, with or without an accounting as to partnership business, to:
 - a. Enforce the partner's rights under the partnership agreement;
 - b. Enforce the partner's rights under chapters 45-13 through 45-21, including:
 - (1) The partner's rights under section 45-16-01, 45-16-03, or 45-16-04;
 - (2) The partner's right on dissociation to have the partner's interest in the partnership purchased pursuant to section 45-19-01 or enforce any other right under chapter 45-18 or 45-19; or
 - (3) The partner's right to compel a dissolution and winding up of the partnership business under section 45-20-01 or enforce any other right under chapter 45-20; or
 - c. Enforce the rights and otherwise protect the interests of the partner, including rights and interests arising independently of the partnership relationship.
3. The accrual of, and any time limitation on, a right of action for a remedy under this section is governed by other law. A right to an accounting upon a dissolution and winding up does not revive a claim barred by law.

45-16-06. (406) Continuation of partnership beyond definite term or particular undertaking.

1. If a partnership for a definite term or particular undertaking is continued, without an express agreement, after the expiration of the term or completion of the undertaking, the rights and duties of the partners remain the same as they were at the expiration or completion, so far as is consistent with a partnership at will.
2. If the partners, or those of them who habitually acted in the business during the term or undertaking, continue the business without any settlement or liquidation of the partnership, they are presumed to have agreed that the partnership will continue.

SECTION 7. Chapter 45-17 of the North Dakota Century Code is created and enacted as follows:

45-17-01. (501) Partner not coowner of partnership property. A partner is not a coowner of partnership property and has no interest in partnership property which can be transferred, either voluntarily or involuntarily.

45-17-02. (502) Partner's transferable interest in partnership. The only transferable interest of a partner in the partnership is the partner's share of the profits and losses of the partnership and the partner's right to receive distributions. The interest is personal property.

45-17-03. (503) Transfer of partner's transferable interest.

1. A transfer, in whole or in part, of a partner's transferable interest in the partnership:
 - a. Is permissible;
 - b. Does not by itself cause the partner's dissociation or a dissolution and winding up of the partnership business; and
 - c. Does not, as against the other partners or the partnership, entitle the transferee, during the continuance of the partnership, to participate in the management or conduct of the partnership business, to require access to information concerning partnership transactions, or to inspect or copy the partnership books or records.
2. A transferee of a partner's transferable interest in the partnership has a right:
 - a. To receive, in accordance with the transfer, distributions to which the transferor would otherwise be entitled;
 - b. To receive upon the dissolution and winding up of the partnership business, in accordance with the transfer, the net amount otherwise distributable to the transferor; and
 - c. To seek under subsection 6 of section 45-20-01 a judicial determination that it is equitable to wind up the partnership business.
3. In a dissolution and winding up, a transferee is entitled to an account of partnership transactions only from the date of the latest account agreed to by all of the partners.

4. Upon transfer, the transferor retains the rights and duties of a partner other than the interest in distributions transferred.
5. A partnership need not give effect to a transferee's rights under this section until it has notice of the transfer.
6. A transfer of a partner's transferable interest in the partnership in violation of a restriction on transfer contained in the partnership agreement is ineffective as to a person having notice of the restriction at the time of transfer.

45-17-04. (504) Partner's transferable interest subject to charging order.

1. On application by a judgment creditor of a partner or of a partner's transferee, a court having jurisdiction may charge the transferable interest of the judgment debtor to satisfy the judgment. The court may appoint a receiver of the share of the distributions due or to become due to the judgment debtor in respect of the partnership and make all other orders, directions, accounts, and inquiries the judgment debtor might have made or which the circumstances of the case may require.
2. A charging order constitutes a lien on the judgment debtor's transferable interest in the partnership. The court may order a foreclosure of the interest subject to the charging order at any time. The purchaser at the foreclosure sale has the rights of a transferee.
3. At any time before foreclosure, an interest charged may be redeemed:
 - a. By the judgment debtor;
 - b. With property other than partnership property, by one or more of the other partners; or
 - c. With partnership property, by one or more of the other partners with the consent of all of the partners whose interests are not so charged.
4. Chapters 45-13 through 45-21 do not deprive a partner of a right under exemption laws with respect to the partner's interest in the partnership.
5. This section provides the exclusive remedy by which a judgment creditor of a partner or partner's transferee may satisfy a judgment out of the judgment debtor's transferable interest in the partnership.

SECTION 8. Chapter 45-18 of the North Dakota Century Code is created and enacted as follows:

45-18-01. (601) Events causing partner's dissociation. A partner is dissociated from a partnership upon the occurrence of any of the following events:

1. The partnership's having notice of the partner's express will to withdraw as a partner or on a later date specified by the partner.
2. An event agreed to in the partnership agreement as causing the partner's dissociation.

3. The partner's expulsion pursuant to the partnership agreement.
4. The partner's expulsion by the unanimous vote of the other partners if:
 - a. It is unlawful to carry on the partnership business with that partner;
 - b. There has been a transfer of all or substantially all of that partner's transferable interest in the partnership, other than a transfer for security purposes, or a court order charging the partner's interest, which has not been foreclosed;
 - c. Within ninety days after the partnership notifies a corporate partner that it will be expelled because it has filed a certificate of dissolution or the equivalent, its charter has been revoked, or its right to conduct business has been suspended by the jurisdiction of its incorporation, there is no revocation of the certificate of dissolution or no reinstatement of its charter or its right to conduct business; or
 - d. A partnership that is a partner has been dissolved and its business is being wound up.
5. On application by the partnership or another partner, the partner's expulsion by judicial determination because:
 - a. The partner engaged in wrongful conduct that adversely and materially affected the partnership business;
 - b. The partner willfully or persistently committed a material breach of the partnership agreement or of a duty owed to the partnership or the other partners under section 45-16-04; or
 - c. The partner engaged in conduct relating to the partnership business which makes it not reasonably practicable to carry on the business in partnership with the partner.
6. The partner's:
 - a. Becoming a debtor in bankruptcy;
 - b. Executing an assignment for the benefit of creditors;
 - c. Seeking, consenting to, or acquiescing in the appointment of a trustee, receiver, or liquidator of that partner or of all or substantially all of that partner's property; or
 - d. Failing, within ninety days after the appointment, to have vacated or stayed the appointment of a trustee, receiver, or liquidator of the partner or of all or substantially all of the partner's property obtained without the partner's consent or acquiescence, or failing within ninety days after the expiration of a stay to have the appointment vacated.
7. In the case of a partner who is an individual:
 - a. The partner's death;

- b. The appointment of a guardian or general conservator for the partner; or
 - c. A judicial determination that the partner has otherwise become incapable of performing the partner's duties under the partnership agreement.
- 8. In the case of a partner that is a trust or is acting as a partner by virtue of being a trustee of a trust, distribution of the trust's entire transferable interest in the partnership, but not merely by reason of the substitution of a successor trustee.
 - 9. In the case of a partner that is an estate or is acting as a partner by virtue of being a personal representative of an estate, distribution of the estate's entire transferable interest in the partnership, but not merely by reason of the substitution of a successor personal representative.
 - 10. Termination of a partner who is not an individual, partnership, corporation, trust, or estate.

45-18-02. (602) Partner's power to dissociate - Wrongful dissociation.

- 1. A partner has the power to dissociate at any time, rightfully or wrongfully, by express will pursuant to subsection 1 of section 45-18-01.
- 2. A partner's dissociation is wrongful only if:
 - a. It is in breach of an express provision of the partnership agreement; or
 - b. In the case of a partnership for a definite term or particular undertaking, before the expiration of the term or the completion of the undertaking:
 - (1) The partner withdraws by express will, unless the withdrawal follows within ninety days after another partner's dissociation by death or otherwise under subsections 6 through 10 of section 45-18-01 or wrongful dissociation under this subsection;
 - (2) The partner is expelled by judicial determination under subsection 5 of section 45-18-01;
 - (3) The partner is dissociated by becoming a debtor in bankruptcy; or
 - (4) In the case of a partner who is not an individual, trust other than a business trust, or estate, the partner is expelled or otherwise dissociated because it willfully dissolved or terminated.
- 3. A partner who wrongfully dissociates is liable to the partnership and to the other partners for damages caused by the dissociation. The liability is in addition to any other obligation of the partner to the partnership or to the other partners.

45-18-03. (603) Effect of partner's dissociation.

1. If a partner's dissociation results in a dissolution and winding up of the partnership business, chapter 45-20 applies, otherwise, chapter 45-19 applies.
2. Upon a partner's dissociation:
 - a. The partner's right to participate in the management and conduct of the partnership business terminates, except as otherwise provided in section 45-20-03;
 - b. The partner's duty of loyalty under subdivision c of subsection 2 of section 45-16-04 terminates; and
 - c. The partner's duty of loyalty under subdivisions a and b of subsection 2 of section 45-16-04 and duty of care under subsection 3 of section 45-16-04 continue only with regard to matters arising and events occurring before the partner's dissociation, unless the partner participates in winding up the partnership's business pursuant to section 45-20-03.

SECTION 9. Chapter 45-19 of the North Dakota Century Code is created and enacted as follows:

45-19-01. (701) Purchase of dissociated partner's interest.

1. If a partner is dissociated from a partnership without resulting in a dissolution and winding up of the partnership business under section 45-20-01, the partnership shall cause the dissociated partner's interest in the partnership to be purchased for a buyout price determined pursuant to subsection 2.
2. The buyout price of a dissociated partner's interest is the amount that would have been distributable to the dissociating partner under subsection 2 of section 45-20-07 if, on the date of dissociation, the assets of the partnership were sold at a price equal to the greater of the liquidation value or the value based on a sale of the entire business as a going concern without the dissociated partner and the partnership were wound up as of that date. Interest must be paid from the date of dissociation to the date of payment.
3. Damages for wrongful dissociation under subsection 2 of section 45-18-02, and all other amounts owing, whether or not presently due, from the dissociated partner to the partnership, must be offset against the buyout price. Interest must be paid from the date the amount owed becomes due to the date of payment.
4. A partnership shall indemnify a dissociated partner whose interest is being purchased against all partnership liabilities, whether incurred before or after the dissociation, except liabilities incurred by an act of the dissociated partner under section 45-19-02.
5. If no agreement for the purchase of a dissociated partner's interest is reached within one hundred twenty days after a written demand for payment, the partnership shall pay, or cause to be paid, in cash to the

dissociated partner the amount the partnership estimates to be the buyout price and accrued interest, reduced by any offsets and accrued interest under subsection 3.

6. If a deferred payment is authorized under subsection 8, the partnership may tender a written offer to pay the amount it estimates to be the buyout price and accrued interest, reduced by any offsets under subsection 3, stating the time of payment, the amount and type of security for payment, and the other terms and conditions of the obligation.
7. The payment or tender required by subsection 5 or 6 must be accompanied by the following:
 - a. A statement of partnership assets and liabilities as of the date of dissociation;
 - b. The latest available partnership balance sheet and income statement, if any;
 - c. An explanation of how the estimated amount of the payment was calculated; and
 - d. Written notice that the payment is in full satisfaction of the obligation to purchase unless, within one hundred twenty days after the written notice, the dissociated partner commences an action to determine the buyout price, any offsets under subsection 3, or other terms of the obligation to purchase.
8. A partner who wrongfully dissociates before the expiration of a definite term or the completion of a particular undertaking is not entitled to payment of any portion of the buyout price until the expiration of the term or completion of the undertaking, unless the partner establishes to the satisfaction of the court that earlier payment will not cause undue hardship to the business of the partnership. A deferred payment must be adequately secured and bear interest.
9. A dissociated partner may maintain an action against the partnership, pursuant to paragraph 2 of subdivision b of subsection 2 of section 45-16-05, to determine the buyout price of that partner's interest, any offsets under subsection 3, or other terms of the obligation to purchase. The action must be commenced within one hundred twenty days after the partnership has tendered payment or an offer to pay or within one year after written demand for payment if no payment or offer to pay is tendered. The court shall determine the buyout price of the dissociated partner's interest, any offset due under subsection 3, and accrued interest, and enter judgment for any additional payment or refund. If deferred payment is authorized under subsection 8, the court shall also determine the security for payment and other terms of the obligation to purchase. The court may assess reasonable attorney's fees and the fees and expenses of appraisers or other experts for a party to the action, in amounts the court finds equitable, against a party that the court finds acted arbitrarily, vexatiously, or not in good faith. The finding may be based on the partnership's failure to tender payment or an offer to pay or to comply with subsection 7.

45-19-02. (702) Dissociated partner's power to bind and liability to partnership.

1. For two years after a partner dissociates without resulting in a dissolution and winding up of the partnership business, the partnership, including a surviving partnership under chapter 45-21, is bound by an act of the dissociated partner which would have bound the partnership under section 45-15-01 before dissociation only if at the time of entering into the transaction the other party:
 - a. Reasonably believed that the dissociated partner was then a partner;
 - b. Did not have notice of the partner's dissociation; and
 - c. Is not deemed to have had knowledge under subsection 4 of section 45-15-03 or notice under subsection 3 of section 45-19-04.
2. A dissociated partner is liable to the partnership for any damage caused to the partnership arising from an obligation incurred by the dissociated partner after dissociation for which the partnership is liable under subsection 1.

45-19-03. (703) Dissociated partner's liability to other persons.

1. A partner's dissociation does not of itself discharge the partner's liability for a partnership obligation incurred before dissociation. A dissociated partner is not liable for a partnership obligation incurred after dissociation, except as otherwise provided in subsection 2.
2. A partner who dissociates without resulting in a dissolution and winding up of the partnership business is liable as a partner to the other party in a transaction entered into by the partnership, or a surviving partnership under chapter 45-21, within two years after the partner's dissociation, only if at the time of entering into the transaction the other party:
 - a. Reasonably believed that the dissociated partner was then a partner;
 - b. Did not have notice of the partner's dissociation; and
 - c. Is not deemed to have had knowledge under subsection 4 of section 45-15-03 or notice under subsection 3 of section 45-19-04.
3. By agreement with the partnership creditor and the partners continuing the business, a dissociated partner may be released from liability for a partnership obligation.
4. A dissociated partner is released from liability for a partnership obligation if a partnership creditor, with notice of the partner's dissociation but without the partner's consent, agrees to a material alteration in the nature or time of payment of a partnership obligation.

45-19-04. (704) Statement of dissociation.

1. A dissociated partner or the partnership may file a statement of dissociation stating the name of the partnership and that the partner is dissociated from the partnership.

2. A statement of dissociation is a limitation on the authority of a dissociated partner for the purposes of subsections 3 and 4 of section 45-15-03.
3. For the purposes of subdivision c of subsection 1 of section 45-19-02 and subdivision c of subsection 2 of section 45-19-03, a person not a partner is deemed to have notice of the dissociation ninety days after the statement of dissociation is filed.

45-19-05. (705) Continued use of partnership name. Continued use of a partnership name, or a dissociated partner's name as part thereof, by partners continuing the business does not of itself make the dissociated partner liable for an obligation of the partners or the partnership continuing the business.

SECTION 10. Chapter 45-20 of the North Dakota Century Code is created and enacted as follows:

45-20-01. (801) Events causing dissolution and winding up of partnership business. A partnership is dissolved, and its business must be wound up, only upon the occurrence of any of the following events:

1. In a partnership at will, the partnership's having notice from a partner, other than a partner who is dissociated under subsections 2 through 10 of section 45-18-01, of that partner's express will to withdraw as a partner, or on a later date specified by the partner.
2. In a partnership for a definite term or particular undertaking:
 - a. The expiration of ninety days after a partner's dissociation by death or otherwise under subsections 6 through 10 of section 45-18-01 or wrongful dissociation under subsection 2 of section 45-18-02, unless before that time a majority in interest of the remaining partners, including partners who have rightfully dissociated pursuant to subdivision a of subsection 2 of section 45-18-02, agree to continue the partnership;
 - b. The express will of all of the partners to wind up the partnership business; or
 - c. The expiration of the term or the completion of the undertaking.
3. An event agreed to in the partnership agreement resulting in the winding up of the partnership business.
4. An event that makes it unlawful for all or substantially all of the business of the partnership to be continued, but a cure of illegality within ninety days after notice to the partnership of the event is effective retroactively to the date of the event for purposes of this section.
5. On application by a partner, a judicial determination that:
 - a. The economic purpose of the partnership is likely to be unreasonably frustrated;

- b. Another partner has engaged in conduct relating to the partnership business which makes it not reasonably practicable to carry on the business in partnership with that partner; or
 - c. It is not otherwise reasonably practicable to carry on the partnership business in conformity with the partnership agreement.
6. On application by a transferee of a partner's transferable interest, a judicial determination that it is equitable to wind up the partnership business:
- a. After the expiration of the term or completion of the undertaking, if the partnership was for a definite term or particular undertaking at the time of the transfer or entry of the charging order that gave rise to the transfer; or
 - b. At any time, if the partnership was a partnership at will at the time of the transfer or entry of the charging order that gave rise to the transfer.

45-20-02. (802) Partnership continues after dissolution.

- 1. Subject to subsection 2, a partnership continues after dissolution only for the purpose of winding up its business. The partnership is terminated when the winding up of its business is completed.
- 2. At any time after the dissolution of a partnership and before the winding up of its business is completed, all of the partners, including any dissociating partner other than a wrongfully dissociating partner, may waive the right to have the partnership's business wound up and the partnership terminated. In that event:
 - a. The partnership resumes carrying on its business as if dissolution had never occurred, and any liability incurred by the partnership or a partner after the dissolution and before the waiver is determined as if dissolution had never occurred; and
 - b. The rights of a third party accruing under subsection 1 of section 45-20-04 or arising out of conduct in reliance on the dissolution before the third party knew or received a notification of the waiver may not be adversely affected.

45-20-03. (803) Right to wind up partnership business.

- 1. After dissolution, a partner who has not wrongfully dissociated may participate in winding up the partnership's business, but on application of any partner, partner's legal representative, or transferee, the district court, for good cause shown, may order judicial supervision of the winding up.
- 2. The legal representative of the last surviving partner may wind up a partnership's business.
- 3. A person winding up a partnership's business may preserve the partnership business or property as a going concern for a reasonable time, prosecute and defend actions and proceedings, whether civil,

criminal, or administrative, settle and close the partnership's business, dispose of and transfer the partnership's property, discharge the partnership's liabilities, distribute the assets of the partnership pursuant to section 45-20-07, settle disputes by mediation or arbitration, and perform other necessary acts.

45-20-04. (804) Partner's power to bind partnership after dissolution. Subject to section 45-20-05, a partnership is bound by a partner's act after dissolution which:

1. Is appropriate for winding up the partnership business; or
2. Would have bound the partnership under section 45-15-01 before dissolution, if the other party to the transaction did not have notice of the dissolution.

45-20-05. (805) Statement of dissolution.

1. After dissolution, a partner who has not wrongfully dissociated may file a statement of dissolution stating the name of the partnership and that the partnership has dissolved and is winding up its business.
2. A statement of dissolution cancels a filed statement of partnership authority for the purposes of subsection 3 of section 45-15-03.
3. For the purposes of sections 45-15-01 and 45-20-04, a person not a partner is deemed to have notice of the dissolution and the limitation on the partners' authority as a result of the statement of dissolution ninety days after it is filed.
4. After filing and, if appropriate, recording a statement of dissolution, a dissolved partnership may file and, if appropriate, record a statement of partnership authority which will operate with respect to a person not a partner as provided in subsections 3 and 4 of section 45-15-03 in any transaction, whether or not the transaction is appropriate for winding up the partnership business.

45-20-06. (806) Partner's liability to other partners after dissolution.

1. Except as otherwise provided in subsection 2, after dissolution a partner is liable to the other partners for the partner's share of any partnership liability incurred under section 45-20-04.
2. A partner who, with knowledge of the dissolution, incurs a partnership liability under subsection 2 of section 45-20-04 by an act that is not appropriate for winding up the partnership business is liable to the partnership for any damage caused to the partnership arising from the liability.

45-20-07. (807) Settlement of accounts and contributions among partners.

1. In winding up a partnership's business, the assets of the partnership, including the contributions of the partners required by this section, must be applied to discharge its obligations to creditors, including, to the extent permitted by law, partners who are creditors. Any surplus must

be applied to pay in cash the net amount distributable to partners in accordance with their right to distributions under subsection 2.

2. Each partner is entitled to a settlement of all partnership accounts upon winding up the partnership business. In settling accounts among the partners, the profits and losses that result from the liquidation of the partnership assets must be credited and charged to the partners' accounts. The partnership shall make a distribution to a partner in an amount equal to any excess of the credits over the charges in the partner's account. A partner shall contribute to the partnership an amount equal to any excess of the charges over the credits in the partner's account.
3. If a partner fails to contribute, all of the other partners shall contribute, in the proportions in which those partners share partnership losses, the additional amount necessary to satisfy the partnership obligations. A partner or partner's legal representative may recover from the other partners any contributions the partner makes to the extent the amount contributed exceeds that partner's share of the partnership obligations.
4. After the settlement of accounts, each partner shall contribute, in the proportion in which the partner shares partnership losses, the amount necessary to satisfy partnership obligations that were not known at the time of the settlement.
5. The estate of a deceased partner is liable for the partner's obligation to contribute to the partnership.
6. An assignee for the benefit of creditors of a partnership or a partner, or a person appointed by a court to represent creditors of a partnership or a partner, may enforce a partner's obligation to contribute to the partnership.

SECTION 11. Chapter 45-21 of the North Dakota Century Code is created and enacted as follows:

45-21-01. (901) Definitions. In this chapter:

45-21-02. (902) Conversion of partnership to limited partnership.

1. A partnership may be converted to a limited partnership pursuant to this section.
2. The terms and conditions of a conversion of a partnership to a limited partnership must be approved by all of the partners or by a number or percentage specified for conversion in the partnership agreement.

3. After the conversion is approved by the partners, the partnership shall file a certificate of limited partnership in the jurisdiction in which the limited partnership is to be formed. The certificate must include:
 - a. A statement that the partnership was converted to a limited partnership from a partnership;

5. A general partner who becomes a limited partner as a result of the conversion remains liable as a general partner for an obligation incurred by the partnership before the conversion takes effect. If the other party to a transaction with the limited partnership reasonably believes when entering the transaction that the limited partner is a general partner, the limited partner is liable for an obligation incurred by the limited partnership within ninety days after the conversion takes effect. The limited partner's liability for all other obligations of the limited partnership incurred after the conversion takes effect is that of a limited partner as provided in chapter 45-10.1.

45-21-03. (903) Conversion of limited partnership to partnership.

1. A limited partnership may be converted to a partnership pursuant to this section.
2. Notwithstanding a provision to the contrary in a limited partnership agreement, the terms and conditions of a conversion of a limited partnership to a partnership must be approved by all of the partners.

4. The conversion takes effect when the certificate of limited partnership is canceled.

45-21-04. (904) Effect of conversion - Entity unchanged.

1. A partnership or limited partnership that has been converted pursuant to this chapter is for all purposes the same entity that existed before the conversion.
2. When a conversion takes effect:

- a. All property owned by the converting partnership or limited partnership remains vested in the converted entity;
- b. All obligations of the converting partnership or limited partnership continue as obligations of the converted entity; and
- c. An action or proceeding pending against the converting partnership or limited partnership may be continued as if the conversion had not occurred.

45-21-05. (905) Merger of partnerships.

1. Pursuant to a plan of merger approved as provided in subsection 3, a partnership may be merged with one or more partnerships or limited partnerships.

 - a. In the case of a partnership that is a party to the merger, by all of the partners, or a number or percentage specified for merger in the partnership agreement; and
 - b. In the case of a limited partnership that is a party to the merger, by the vote required for approval of a merger by the law of the state or foreign jurisdiction in which the limited partnership is organized and, in the absence of such a specifically applicable law, by all of the partners, notwithstanding a provision to the contrary in the partnership agreement.
4. After a plan of merger is approved and before the merger takes effect, the plan may be amended or abandoned as provided in the plan.
5. The merger takes effect on the later of:
 - a. The approval of the plan of merger by all parties to the merger, as provided in subsection 3;

45-21-06. (906) Effect of merger.

- a. The separate existence of every partnership or limited partnership that is a party to the merger, other than the surviving entity, ceases;
- b. All property owned by each of the merged partnerships or limited partnerships vests in the surviving entity;
- c. All obligations of every partnership or limited partnership that is a party to the merger become the obligations of the surviving entity; and
- d. An action or proceeding pending against a partnership or limited partnership that is a party to the merger may be continued as if the merger had not occurred, or the surviving entity may be substituted as a party to the action or proceeding.

2. AN ACT to create and enact a new section to chapter 49-05 of the North Dakota Century Code, relating to test years a public utility may use in rate filings with the public service commission.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 49-05 of the North Dakota Century Code is created and enacted as follows:

Test year - Public utility rate filings.

1. A public utility, at its option, may use any one of the following twelve-month periods as its test year for rate filings with the commission:
 - a. A historical test year, which may be either the latest twelve-month period for which actual data is available at the time of filing new schedules or the latest calendar or fiscal year for which actual data is available at the time of filing new schedules.
 - b. A current test year, which is any consecutive twelve-month period ending not later than twelve months after the date new schedules are filed. A public utility selecting a current test year also shall file data for the twelve-month period immediately preceding the current test year selected and that period is the "historical period" for the public utility.
 - c. A future test year, which is any consecutive twelve-month period ending no later than twenty-four months after the date new schedules are filed. A public utility selecting a future test year must file data for the twelve consecutive months immediately preceding the future test year and that period is the "current period" for the public utility.
2. A public utility selecting a current or future test year shall present the following information:
 - a. A comparison of forecast data to historical period data to demonstrate the reliability and accuracy of the utility's forecast including a comparison of the prior years' forecast or budgeted data to actual data for those periods.
 - b. A statement that the public utility's forecast is reasonable, reliable, and was made in good faith and that all basic assumptions used in making or supporting the forecast are reasonable, evaluated, identified, and justified to allow the commission to test the appropriateness of the forecast.

- c. A statement that the accounting treatment that has been applied to anticipated events and transactions in the forecast is the same as the accounting treatment to be applied in recording the events once they have occurred.
3. The public utility may update its filing for material changes as actual data becomes available up to thirty days before the hearing. Except for good cause shown, a public utility may not submit more than one updated filing before the hearing. In the absence of an updated filing by the public utility, the commission may require a public utility to update its filing when the commission staff introduces evidence that a material change has occurred.
4. A public utility may propose estimated or calculated adjustments to the selected historical or current test year for all known and measurable changes in operating results as measured in the test year. The adjustments must be made in the same context and format as the information was provided in the original filing. The adjustments may reflect material changes in plant investment, operating revenues, expenses, and capital structure if the changes occurred during the selected historical or current test year or are reasonably certain to occur subsequent to the selected test year within twelve months from the date of the rate filing.

 - b. The name, address, and telephone number of the excavator;
 - c. The date and time when excavation is scheduled to begin;

 - c. When an operator cannot establish the exact location of the underground facility to convey water, the operator shall mark the location as accurately as possible and the excavator may proceed with caution. When excavation operations approach the estimated location of the underground facility to convey water, the exact location of the facility must be determined by safe and acceptable means. The uncovered facility must be supported and protected to prevent damage.
 - d. Markers used to designate the approximate location of underground facilities must follow the current color code standard used by the American public works association.
 - e. If the operator cannot complete marking of the excavation area before the excavation commencement time stated in the excavation notice, the operator shall promptly contact the excavator.
 - f. After facilities are located by an operator, an excavator shall notify the notification center if:

 - (2) The markings have been obliterated or obscured;
 - (3) Weather conditions have impeded visibility of the markings;
 - (4) The site shows evidence of recent excavation; or
 - (5) The excavator has other reason to believe the markings are incorrect or missing.
 - g. An excavator may not use a location more than seventy-two hours, or any extension of that period, after the planned excavation date

unless the excavator has made previous arrangements with the operators affected.

- h. If in the course of excavation the excavator is unable to locate the underground facility or discovers that the operator of the underground facility has incorrectly located the underground facility, the excavator shall promptly notify the operator or, if unknown, the one-call notification center.
 - i. A facility owner, excavator, or other person may not present or presume that an underground facility is abandoned, or treat an underground facility as abandoned, unless the facility has been verified as abandoned by reference to installation records or by testing. The notification center shall establish a method of providing personnel from a facility owner qualified to safely inspect and verify whether a facility is abandoned or inactive if necessary. AN ACT to create and enact a new section to chapter 14-09, a new chapter to title 26.1, a new subsection to section 50-06-05.1, and a new section to chapter 50-24.5 of the North Dakota Century Code, relating to implementation of the medicaid requirements of the Omnibus Budget Reconciliation Act of 1993; and to amend and reenact section 14-09-08.11, subsection 5 of section 14-09-09.10, sections 26.1-36-12, 50-24.1-02.3, and 50-24.1-07 of the North Dakota Century Code, relating to pre-need funeral plans and implementation of the medicaid requirements of the Omnibus Budget Reconciliation Act of 1993.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 14-09-08.11 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

14-09-08.11. Eligible child - Coverage to continue Employer to permit enrollment. A minor child that When an obligor is required to cover a minor child as a beneficiary under section 14-09-08.10, the child is eligible for health insurance coverage as a dependent of the obligor until the child's eighteenth birthday or until further order of the court. Insurance companies and nonprofit health service corporations licensed in this state shall continue coverage of a minor child insured under an accident and health insurance policy or health service contract while the legal custody of the minor child has been given by the court to the obligee to the same extent as the general public is covered as long as the minor child meets all the other usual qualifications for insurability and payment continues on the policy or contract premiums. Insurance companies and nonprofit health service corporations licensed in this state shall provide coverage for minor children of an obligor who has been ordered to obtain dependent health insurance under the terms and conditions applicable to coverage for newly born children, as though the date of the order issued under section 14-09-08.10 was the day of the child's birth, and further provided that coverage must be provided to the same extent the general public is covered as long as the minor child meets all the other usual qualifications for insurability and policy or contract premiums are paid. A determination that legal custody will be with a parent other than a parent who pays policy or contract premiums, or on whose behalf payment of policy or contract premiums is made, may not be a basis for cancellation of the minor child's accident and health insurance policy or health service contract. If health insurance coverage required under section 14-09-08.10 is available through an income payer, the income payer must:

1. Permit the obligor to enroll under family coverage any child who is otherwise eligible for coverage without regard to any open enrollment restrictions.

2. If the obligor is enrolled but fails to make application to obtain coverage for the child, enroll the child under family coverage upon application by the obligee.
3. Not disenroll or eliminate coverage for any child unless the income payer is provided satisfactory written evidence that:
 - a. The order issued under section 14-09-08.10 is no longer in effect;
 - b. The child is or will be enrolled in comparable coverage that will take effect no later than the effective date of disenrollment; or
 - c. The income payer has eliminated family health coverage for all of its employees; and
4. Withhold from the obligor's compensation the obligor's share, if any, of premiums for health insurance coverage and pay this amount to the health insurance provider.
5. If the amount required to be withheld under subsection 4, either alone or when added to the total of any withholding required by an order issued under section 14-09-09.15, exceeds fifty percent of the obligor's disposable income, withhold fifty percent of the obligor's disposable income. Withholding required by an order issued under section 14-09-09.15 must be satisfied before any payment is made to the health insurance provider. If the amount remaining is insufficient to pay the obligor's share of premiums for health insurance coverage, the obligor may authorize additional withholding to pay the obligor's share. If the obligor does not authorize additional withholding, and the health insurance coverage will lapse as a result, the income payer must promptly inform the clerk of court that issued the order under section 14-09-09.15 of the insufficiency.

SECTION 2. A new section to chapter 14-09 of the North Dakota Century Code is created and enacted as follows:

Health insurance reimbursements received by but not owed to obligor to be paid over - Finding of contempt - Treatment as delinquent child support.

1. A payment for services rendered by a medical provider to an obligor's dependent which is directed to the obligor in the form of reimbursements from health insurance must be paid to the medical provider, custodial parent, or public authority when the reimbursement is not owed to the obligor.
2. Any child support order that requires an obligor to provide health insurance is deemed to include the requirements of this section. An obligor retaining insurance reimbursement not owed to the obligor may be found in contempt of a child support order that requires the obligor to provide health insurance.
3. Any insurance reimbursement received by the obligor, but not owed to the obligor, may be treated as delinquent child support thirty days after receipt by the obligor if not sooner paid to the medical provider, custodial parent, or public authority, as their interests may appear, and

 - a. The court or administrative order is no longer in effect; or
 - b. The child is or will be enrolled with comparable coverage that will take effect no later than the effective date of disenrollment.

Providing information and paying claims. If a child has health coverage through the insurer of a noncustodial parent, the insurer shall:

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Five new subsections to section 54-06-25 of the North Dakota Century Code are created and enacted as follows:

Each member of the classified service may be a candidate for election to the state employees compensation commission. A member of the nonclassified service may be a candidate for election to the commission if the employee occupies a regularly funded and approved position. In order to vote for a candidate in the election to fill a vacancy on the commission, an employee must be a member of the classified service or must occupy a regularly funded and approved position. Student and temporary employees, elected state officials, and appointees of the governor are not eligible to serve on the commission, participate as a candidate for election to the commission, or vote for members of the commission.

The commissioner of labor shall ensure that a notice of an opening on the commission and the election is provided to an officer at each agency and institution. The officer at each agency and institution shall post the notice in a conspicuous place. The notice must include a statement of voter and candidate eligibility, the candidate nomination requirements, the date of the election, and where to obtain the nomination petitions for filing.

In order to be placed on the commission ballot, an employee shall contact the commissioner of labor for a petition form. The petition form must be returned to the commissioner of labor no more than twenty calendar days after the publishing date of the notice by the commissioner of labor with at least one hundred signatures of eligible state employees. Petition forms that are not complete, or are returned after the required date, must be declared void.

The ballot must be prepared by the commissioner of labor and distributed to each agency and institution payroll officer. An officer of each agency and institution shall provide mailing labels for all qualified employees to the commissioner of labor upon the commissioner's

request. A ballot for the election must be distributed with each employee's payroll check on the employee's regularly scheduled payday.

Employees of the commissioner of labor shall count the ballots following the final day that the ballots must be returned. Each candidate may have one overseer present at the ballot counting who may examine each ballot as to its sufficiency after the ballot has been counted. A candidate may act as that candidate's overseer. If a candidate wishes to designate a representative to act as that candidate's overseer, the candidate must provide a notarized authorization to the election committee at the counting of ballots. An overseer may act on behalf of more than one candidate; however, the overseer must show required authorization from each candidate represented. The overseer may question the decision of the ballot counters regarding a ballot immediately after the counting of the ballot. If questioned, the comments of the overseer must be heard. The commissioner of labor or the commissioner's representative shall decide if the complaint is valid and whether the ballot will be accepted.  - a. Provide notice by certified mail to each institution of higher education in this state that participates in the federal family education loan program or the federal direct student loan program, under title IV of the Higher Education Act of 1965 [Pub. L. 89-329; 79 Stat. 1245; 20 U.S.C. 1070 et seq.] of any assessment necessary to reimburse the state for the institution's proportionate share of any fee charged to the state by the secretary of education under the Higher Education Act of 1965 [Pub. L. 89-329; 79 Stat. 1230; 20 U.S.C. 1001 et seq.].
 - b. The amount of reimbursement due from any institution must be based upon a fee structure approved by the United States secretary of education which has been provided to the director of the office of management and budget by the student loan guarantee agency. The student loan guarantee agency shall submit the fee structure to the director of the office of management and budget prior to implementation. The fee charged must be determined based upon the fee structure established by the student loan guarantee agency and must be based on the institution's cohort default rate and the state's risk of loss as provided by section 4201 of the Omnibus Budget Reconciliation Act of 1993 [Pub. L. 103-66; 107 Stat. 370; 20 U.S.C. 1078(n)].
2. The student loan guarantee agency may adopt rules to implement this section. The rules may provide for a process and standards to exempt

an institution from reimbursement or allow an adjustment of the required reimbursement if the institution demonstrates that exceptional mitigating circumstances contributed to the cohort default rate. Prior to implementing any exemption process and standards, the student loan guarantee agency shall obtain comments on the exemption process and standards from the director of the office of management and budget. Chapter 28-32 does not apply to rules adopted under this section.

3. If any institution fails to reimburse the office of management and budget within sixty days of receiving an assessment under subsection 1, the amount of the assessment plus interest on the assessment at the rate of nine percent from the date of receipt of the assessment and reasonable collection costs, including attorney's fees, constitutes a lien against all assets of the institution. The lien has priority over all other liens and encumbrances acquired after the date the institution was notified of the required reimbursement by the office of management and budget. The state may enforce any lien created under this subsection against real property in the manner provided in chapter 35-22, against personal property in the manner provided in chapter 32-20, or against the owner of any institution by garnishment in the manner provided in chapter 32-09.1, except that the restrictions of subsection 1 of section 32-09.1-03 do not apply to a garnishment commenced to collect an assessment established under this section.

The filed objection must contain a concise statement of the budget section's reasons for the objection.
2. This subsection shall be construed to exempt farm buildings and improvements only, and shall not be construed to exempt from taxation industrial plants, or structures of any kind not used or intended for use as a part of a farm plant, or as a farm residence. Any structure or improvement used in connection with a retail or wholesale business other than farming, any structure or improvement located on platted land within the corporate limits of a city, or any structure or improvement located on railroad operating property subject to assessment under chapter 57-05 is not exempt under this subsection.
- b. It is the intent of the legislative assembly that this exemption as applied to a residence shall be strictly construed and interpreted to exempt only a residence which is situated on a farm and which is occupied or used by a person who is a farmer and that the exemption shall not be applied to property which is occupied or used by a person who is not a farmer. For purposes of this subdivision:
 - (1) "Farm" means a single tract or contiguous tracts of agricultural land containing a minimum of ten acres [4.05 hectares] and which normally provides a farmer, who is actually farming the land or engaged in the raising of livestock or other similar operations normally associated with farming and ranching, with not less than fifty percent of his annual net income.

- (3) "Net income from farming activities" described in paragraph 2 means taxable income from those activities as computed for income tax purposes pursuant to chapter 57-38 adjusted to include the following:
 - (a) The difference between gross sales price less expenses of sale and the amount reported for sales of agricultural products for which the farmer reported a capital gain.
 - (b) Interest expenses from farming activities which have been deducted in computing taxable income.
- (4) For purposes of applying the income requirements of this subdivision, if a husband and wife reside together in a residence claimed as exempt under this subdivision because both or one of them is a farmer, not less than fifty percent of their combined net income from all sources must be net income from farming activities as defined in paragraph 3 in order for the residence to qualify for the exemption.
- (5) When exemption is claimed under this subdivision for a residence, the assessor may require that the occupant of the residence who it is claimed is a farmer provide to the assessor for the year or years specified by the assessor a written statement in which it is stated that fifty percent or more of the net income of that occupant was, or was not, net income from farming activities; provided, that if that occupant is married and they both occupy the residence, it shall be stated in the written statement that their net income from farming activities was, or was not, fifty percent or more of their combined net income from all sources.
- (6) In addition to any of the provisions of this subsection or any other provision of law, a residence situated on agricultural land is not exempt for the year if it is occupied by an individual engaged in farming who had nonfarm income, including that of a spouse if married, of more than thirty thousand dollars during each of the three preceding calendar years. The provisions of this paragraph do not apply to an individual who is retired because of illness or age and who at the time of retirement owned and occupied as a farmer the residence in which he lives and for which the exemption is claimed.

IRRIGATED CROPLAND ASSESSMENTS

AN ACT to amend and reenact section 57-02-27.2 of the North Dakota Century Code, relating to consideration of irrigation in the valuation of cropland; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-02-27.2 of the North Dakota Century Code is amended and reenacted as follows:

57-02-27.2. Valuation and assessment of agricultural lands. "True and full value" of agricultural lands must be their agricultural value for the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04. Agricultural value is defined as the "capitalized average annual gross return". The "annual gross return" must be determined from crop share rent, cash rent, or a combination thereof reduced by estimated property taxes and crop marketing expenses incurred by farmland owners renting their lands on a cash or crop share basis. For purposes of this section, "annual gross return" for cropland used for growing crops other than sugar beets and potatoes means thirty percent of annual gross income produced, "annual gross return" for cropland used for growing sugar beets and potatoes means twenty percent of annual gross income produced, and "annual gross return" for land used for grazing farm animals means twenty-five percent of an amount determined by the agricultural economics department of North Dakota state university to represent the annual gross income potential of the land based upon the animal unit carrying capacity of the land. The "average annual gross return" for each county must be determined as follows:

1. Total the annual gross returns for the most recent six years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the six.
2. Divide the figure arrived at in subsection 1 by four.

To find the "capitalized average annual gross return" for years after 1983, the average annual gross return must be capitalized by a rate which is a ten-year average of the gross federal land bank mortgage rate of interest for North Dakota. The ten-year average must be computed from the twelve years ending with the most recent year used in subsection 1, discarding the highest and lowest years, and the gross federal land bank mortgage rate of interest for each year must be determined in the manner provided in section 20.2032A-4(e)(1) of the United States treasury department regulations for valuing farm real property for federal estate tax purposes, except that the interest rate may not be adjusted as provided in paragraph (e)(2) of section 20.2032A-4.

It is the duty of the agricultural economics department of North Dakota state university to compute annually an estimate of the average agricultural value per acre [.40 hectare] of agricultural lands on a statewide and on a countywide basis, to

compute the average agricultural value per acre [.40 hectare] for cropland and noncropland, which is agricultural land, for each county, and to provide the tax commissioner with this information by December first of each year. Fifty percent of the annual gross income from irrigated cropland must be considered additional expense of production and may not be included in computation of the average agricultural value per acre [.40 hectare] for cropland for the county as determined by the agricultural economics department. Prior to January first of each year, the tax commissioner shall provide to each county director of tax equalization these estimates of agricultural value for each county.

Prior to February first of each year, the county director of tax equalization in each county shall provide to all assessors within the county an estimate of the average agricultural value of agricultural lands within each assessment district. Such estimate must be based upon the average agricultural value for the county adjusted by the relative values of lands within each assessment district compared to the county average. In determining the relative value of lands for each assessment district compared to the county average, the county director of tax equalization shall, wherever possible, use soil type and soil classification data from detailed and general soil surveys. Where such data cannot be used, the county director of tax equalization shall use whatever previous assessment data is best suited to the purpose.

It is the duty of each local assessor to determine the relative value of each assessment parcel within his jurisdiction and to determine the agricultural value of each assessment parcel by adjusting the agricultural value estimate for the assessment district by the relative value of the parcel. Each parcel must then be assessed according to the provisions in section 57-02-27. If either a local assessor or a township board of equalization develops an agricultural value for the lands in its assessment district differing substantially from the estimate provided by the county director of tax equalization, written evidence to support the change must be provided to the county director of tax equalization.

SECTION 2. EFFECTIVE DATE - EXPIRATION DATE. This Act is effective for the first three taxable years beginning after December 31, 1994, and is thereafter ineffective.

GAME AND FISH PAYMENTS IN LIEU OF TAXES

AN ACT to amend and reenact subsection 1 of section 57-02.1-05 and section 57-02.1-06 of the North Dakota Century Code, relating to payments in lieu of real estate taxes made by the game and fish department.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 1 of section 57-02.1-05 of the North Dakota Century Code is amended and reenacted as follows:

1. Upon receipt of the decision of the state board of equalization, the director of the game and fish department shall compute the payments due to the counties in which property subject to valuation is located by extending the mill levies which apply to other taxable property in the taxing districts in which the property is located. The mill levies must be extended against the property subject to valuation in the same manner as used for other taxable property in the taxing districts. If the property subject to valuation is leased or held by lease or license from the United States, the director of the game and fish department shall deduct from the payment due to the county any amount paid to that county by the United States or any agency or instrumentality of the United States in lieu of real estate taxes on that property, up to a maximum of seventy-five cents per acre [hectare]. The payments due to each county are the figure determined as herein provided. No county may receive less in these payments for any parcel or tract of land for any year than the county received in payments made pursuant to this chapter for 1974.

SECTION 2. AMENDMENT. Section 57-02.1-06 of the North Dakota Century Code is amended and reenacted as follows:

57-02.1-06. Allocation of revenue within counties. The revenue to which the county level of government is entitled must be determined according to the proportion the county mill levy on other real property bears to the total mill levies on real property of each taxing district wherein the property subject to valuation is located. The revenue remaining after apportionment to the county level must be apportioned and distributed among the various taxing districts in which the property for which payments are made is located by the county auditor upon a pro rata basis to be determined according to the proportion the assessed value of the property subject to valuation in each taxing district bears to the total assessed value of all such property subject to valuation within the county. However, if the property subject to valuation is leased or held by lease or license from the United States, the payment made by the director of the game and fish department must be apportioned and distributed among the various taxing districts, other than the county, in which the property for which payments are made is located, by the county auditor upon a pro rata basis to be determined according to the proportion the assessed value of the

property subject to valuation in each taxing district bears to the total assessed value of all such property subject to valuation within the county. The amount of revenue allocated to each taxing district in which ~~such~~ the property subject to valuation is located must be divided among the various funds of ~~such~~ the district according to the proportion that the mill levy for any fund bears to the total of all mill levies spread against other property in the taxing district that is assessed and taxed on an ad valorem basis.

PROPERTY TAX LEVY LIMITATIONS

AN ACT providing optional property tax levy authority for political subdivisions and providing limitations on that authority; and to provide an effective date and an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Protection of taxpayers and taxing districts. Each taxing district may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:

1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.
2. For purposes of this section:
 - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year; and
 - b. "Budget year" means the taxing district's year for which the levy is being determined under this section.
3. A taxing district may elect to levy two percent more in taxable year 1995 and two percent more in taxable year 1996 than the amount levied in dollars in the base year and for taxable years 1997 and 1998 may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
 - a. Reduced by an amount equal to the sum determined by the application of the base year's mill rate for that taxing district to the final base year taxable valuation of any property that is not included in the assessment for the budget year but was included in the assessment for the base year. However, no reduction may be made under this section due to the exemption of the personal property of railroads by enactment of House Bill No. 1396 by the fifty-fourth legislative assembly.
 - b. Increased by an amount equal to the sum determined by the application of the base year's mill rate for that taxing district to the final budget year taxable valuation of any property that was not included in the assessment for the base year but which is included in the assessment for the budget year.

- c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district.
4. A taxing district may levy an amount in dollars equal to the amount levied in any of the previous three years reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district and increased by an amount equal to the sum determined by the application of any unused mill levy authority from that year, which was authorized by law or by the electors of that taxing district but not levied for that year, to the budget year taxable valuation of the taxable property in that taxing district. A taxing district electing to increase its levy under this subsection may not add any amount permitted by subsection 3 to the amount levied under this subsection.
5. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
6. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:

School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
8. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

SECTION 2. Protection of taxpayers and taxing districts. Each taxing district may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:

1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.

 - b. "Budget year" means the taxing district's year for which the levy is being determined under this section; and
 - c. "Calculated mill rate" means the mill rate that results from dividing the base year taxes levied by the sum of the taxable value of the taxable property in the base year plus the taxable value of the exempt property calculated in the same manner as taxable property.
3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
 - a. Reduced by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable and exempt property that is not included in the taxing district for the budget year but was included in the taxing district for the base year.
 - b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable and exempt property that was not included in the taxing district for the base year but which is included in the taxing district for the budget year.
 - c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district.

A taxing district electing to increase its levy under this subsection may not add any amount permitted by subsection 3 to the amount levied under this subsection.
5. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
6. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:

- a. Any irrevocable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
 - b. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
7. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
 8. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

AN ACT to amend and reenact section 57-40.6-02 of the North Dakota Century Code, relating to imposition of a telephone access line excise tax by counties and cities.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-40.6-02 of the North Dakota Century Code is amended and reenacted as follows:

57-40.6-02. Authority of counties or cities to impose excise tax on telephone access lines - Procedure. The governing body of a county or city may impose an excise tax on the use of telephone access lines in accordance with the following requirements:

1. The governing body shall adopt a resolution that proposes the adoption of the excise tax permitted under this section. The resolution must specify an effective date for the tax which is no more than two years before the expected implementation date of the emergency services communication system to be funded by the excise tax. The resolution must include a provision for submitting the proposed excise tax to the electors of the county or city before the imposition of the tax is effective. The resolution must specify a tax that does not exceed one dollar per month per telephone access line.
2. The question of the adoption of the excise tax must be submitted on a ballot on which the ballot title of the proposition includes the maximum monthly rate of the proposed tax authorized under subsection 1. The question of the adoption of the excise tax may be submitted to electors at a general, primary, or special election or at a school district election if the boundaries of the school district are coterminous with the boundaries of the governing body adopting the resolution proposing the adoption of the excise tax. The tax is not effective unless it is approved by a majority of the electors voting on the proposition. The ballot must be worded so that a "yes" vote authorizes imposition of the tax for an initial six-year period.
3. If the tax authorized by this section is approved by the electors, the tax may be reimposed for six additional years without resubmitting the question to the electors.
4. ~~If the equipment necessary to establish an emergency service communication system is not available from a telephone company serving the county or city and would prove to be economically infeasible to install based on the surcharge in this section, the county or city may not impose the excise tax.~~ In any geographic area, only one political subdivision may impose the excise tax.

5. In the interest of public safety, where the customers exchange boundary and the boundary of the political subdivision imposing the tax do not coincide, and where all of the political subdivisions within the exchange boundary have not complied with subsection 1, and where a majority of the E911 subscribers within the exchange boundary have voted for the tax, an exchange customer residing outside the political subdivision may receive E911 services by signing a contract agreement with the political subdivision providing the emergency telecommunications system. The telephone company may collect an additional tax, equal in amount to the basic tax on those subscribers within the exchange boundary. The additional tax amounts collected must be remitted as provided in this chapter.

Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil for any consecutive five-month period in any year is thirty-three dollars or more. However, the exemption is reinstated if, after the aforementioned trigger provision becomes effective, the average price of a barrel of crude oil is less than thirty-three dollars for any consecutive five-month period in any year.

If it is desired to provide for maintenance of an assessment drain in whole or in part by means of special assessments, the levy in any year for ~~such~~ the maintenance ~~shall~~ may not exceed one dollar and fifty cents per acre [.40 hectare] on any agricultural lands benefited by the drain. The district ~~may~~, at its own discretion, may utilize either of the following methods for levying special assessments for ~~such~~ the maintenance:

1. The assessment of other agricultural lands in the district ~~shall~~ must be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full one dollar per acre [.40 hectare]. Nonagricultural property ~~shall~~ must be assessed ~~such~~ the sum in any one year as the ratio of the benefits under the original assessments or any reassessment bears to the assessment of agricultural lands bearing the highest assessment.

If the cost of, or obligation for, the cleaning and repair of any drain exceeds the total amount ~~which can~~ that may be levied by the board in any ~~two-year~~ four-year period, the board shall obtain the approval of the majority of the landowners as determined by chapter 61-16.1 ~~prior to~~ before obligating the district for ~~such~~ the costs.

Agricultural lands ~~which that~~ carried the highest assessment when the drain was originally established, or received the most benefits under a reassessment of benefits, may be assessed the maximum amount of one dollar and fifty cents per acre [.40 hectare]. The assessment of other agricultural lands in the district must be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full one dollar and fifty cents per acre [.40 hectare]. ²⁸⁰ **SECTION 1. AMENDMENT.** Section 61-24.6-01 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

61-24.6-01. Findings and declaration of policy. It is hereby found and declared by the legislative assembly that many areas and localities in northwestern North Dakota do not enjoy safe drinking water, and that the water in these areas and localities contains iron, sulfates, alkali, salt, nitrates, fluoride, and other hazardous and discoloring substances. It is also found and declared that other areas and localities in northwestern North Dakota do not have sufficient quantities of water to ensure a dependable, long-term supply. It is further found and declared that supplementation of the water resources of northwestern North Dakota with water supplies from the Missouri River, utilizing a pipeline transmission and delivery system, may be the only alternative to provide northwestern North Dakota with a safe, good quality, dependable source, and adequate quantity of water.

It is further declared that effective development and utilization of the land and water resources of this state; the opportunity for greater economic security; the protection of health, property, enterprise, and the preservation of the benefits from the land and water resources of this state; and the promotion of the prosperity and general welfare of all of the people of North Dakota involve, necessitate, and require the exercise of the sovereign powers of the state and concern a public purpose. Therefore, in order to accomplish this public purpose, it is hereby declared necessary that a project be pursued that would supply and distribute water to the people of northwestern North Dakota through a pipeline transmission and delivery system for purposes including domestic, rural water districts, municipal, livestock, light industrial, mining, and other uses, with primary emphasis on domestic, rural water district, and municipal uses. In furtherance of this public purpose, the industrial commission may issue bonds in accordance with chapter 61-02 to finance the costs of the project.

²⁸⁰ Section 61-24.6-01 was also amended by section 17 of Senate Bill No. 2204, chapter 588.

The provisions of this chapter may not be construed to abrogate or limit the rights, powers, duties, and functions of the state water commission or the state engineer, but must be considered supplementary to those rights, powers, duties, and functions.

NO NET LOSS OF WETLANDS LAW REPEAL

AN ACT to amend and reenact sections 61-32-03 and 61-32-07 of the North Dakota Century Code, relating to drainage permits and closing drains; and to repeal sections 61-32-01, 61-32-02, 61-32-04, 61-32-05, 61-32-06, 61-32-09, and 61-32-11 of the North Dakota Century Code, relating to wetlands.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-32-03 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

61-32-03. Permit to drain waters required - ~~Replacement of wetlands - Downstream impacts~~ - Penalty. Any person, before draining water from a wetland pond, slough, or lake, or any series thereof, which has a watershed area comprising eighty acres [32.37 hectares] or more, shall first secure a permit to do so. The permit application must be submitted to the state engineer. The state engineer shall refer the application to the water resource district or districts within which is found a majority of the watershed or drainage area of the wetland pond, slough, or lake for consideration and approval, but the state engineer may require that applications proposing drainage of statewide or interdistrict significance be returned to the state engineer for final approval. A permit may not be granted until ~~the state water resources policy has been considered and~~ an investigation discloses that the quantity of water which will be drained from the wetland pond, slough, or lake, or any series thereof, will not flood or adversely affect downstream lands. If the investigation shows that the proposed drainage will flood or adversely affect lands of downstream landowners, the water resource board may not issue a permit until flowage easements are obtained. The flowage easements must be filed for record in the office of the register of deeds of the county or counties in which the lands are situated. An owner of land proposing to drain shall undertake and agree to pay the expenses incurred in making the required investigation. ~~In addition to the above requirements of this section; the state engineer and the director must jointly find that the wetland acres proposed to be drained will be replaced by an equal acreage of replacement wetlands; or through debits to the wetland bank as provided in section 61-32-05; before any permit for drainage may be approved by the state engineer or water resource board. The provisions of this~~ This section does not apply to the construction or maintenance of any existing or prospective drain constructed under the supervision of a state or federal agency, as determined by the state engineer; ~~for which mitigation is required as part of the project.~~

Any person draining, or causing to be drained, water of a wetland pond, slough, or lake, or any series thereof, which has a watershed area comprising eighty acres [32.37 hectares] or more, without first securing a permit to do so, as provided by this section, is liable for all damage sustained by any person caused by the draining, and is guilty of an infraction; and is required to restore the wetland so drained in accordance with sections 61-32-01 through 61-32-11. The state engineer may adopt rules for temporary permits for emergency drainage. When temporary

ponding of water occurs due to spring runoff or heavy rains, an area not in excess of eighty acres [32.37 hectares] may be drained without first securing a permit.

SECTION 2. AMENDMENT. Section 61-32-07 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

61-32-07. Closing a noncomplying drain - Notice and hearing - Appeal - Injunction - Frivolous complaints. Only a landowner experiencing flooding or adverse effects from an unauthorized drain constructed before January 1, 1975, may file a complaint with the water resource board. Any person may file a complaint about an unauthorized drain constructed after January 1, 1975. ~~A complaint must be filed on a form made available by the state engineer.~~ Upon receipt of a complaint of unauthorized drainage, the water resource board shall promptly investigate and make a determination of the facts with respect to the complaint. If the board determines that a drain, lateral drain, or ditch has been opened or established by a landowner or tenant contrary to the provisions of this title or any rules adopted by the board, the board shall notify the landowner by registered mail at the landowner's post-office address of record. A copy of the notice must also be sent to the tenant, if known. The notice must specify the nature and extent of the noncompliance and must state that if the drain, lateral drain, or ditch is not closed or filled within ~~such~~ a reasonable time as the board determines, but not less than thirty days, the board shall procure the closing or filling of the drain, lateral drain, or ditch and assess the cost thereof, or such portion as the board determines, against the property of the landowner responsible. The notice must also state that the affected landowner may, within fifteen days of the date the notice is mailed, demand, in writing, a hearing on the matter. Upon receipt of the demand, the board shall set a hearing date within fifteen days from the date the demand is received. In the event of an emergency, the board may immediately apply to the appropriate district court for an injunction prohibiting the landowner or tenant from constructing or maintaining the drain, lateral drain, or ditch and ordering the closure of the illegal drain. Any assessments levied under ~~the provisions~~ of this section must be collected in the same manner as assessments authorized by chapter 61-16.1. If, in the opinion of the board, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in proportion to the responsibility of the landowners. Any person aggrieved by action of the board under ~~the provisions~~ of this section may appeal the decision of the board to the district court of the county in which the land is located in accordance with the procedure provided in section 28-34-01. A hearing as provided for in this section is not a prerequisite to an appeal. If, after the first complaint, in the opinion of the board, the complaint is frivolous, the board may assess the costs of the frivolous complaint against the complainant.

SECTION 3. REPEAL. Sections 61-32-01, 61-32-02, 61-32-04, 61-32-05, 61-32-06, 61-32-09, and 61-32-11 of the 1993 Supplement to the North Dakota Century Code are repealed.

61-35-02. Petition. A petition may at any time be filed with the state engineer requesting the state engineer to organize a district encompassing an area in one county or in two or more adjacent counties for the purpose of providing an adequate supply of water for the residents of the area. 61-35-03. Petition contents. The petition must be signed by the owners of at least fifty percent of all real property lying within the outside perimeter of the area designated for inclusion in the proposed district, and must state:

The order shall be published in the same newspaper or newspapers that published the notice of hearing. The state engineer shall prepare and preserve a complete record of the hearing on the petition and the state engineer's findings and action.

61-35-08. Meeting of members - Election of board. As a part of the order organizing the district, the state engineer shall fix the time and place at which the members shall meet to select from their number a board of directors. Selection of the initial board may not be later than thirty days after the hearing. The number of directors on the board, not to exceed nine, must be determined by a majority vote of those members present. Any member elected a director who fails to become a participating member, within thirty days after entry in the minutes of the board of a declaration of availability of benefit units for subscription, forfeits the office of director.

61-35-09. Bylaws submitted at special meeting. Within thirty days after election of the original board, proposed bylaws must be submitted for adoption at a special meeting of members of the district, written notice of which must be mailed to each member. Members present at the special meeting may adopt or amend any of the proposed bylaws, and may propose and adopt alternative or additional bylaws by a majority vote. The bylaws may subsequently be amended at any annual or special meeting of the participating members of the district. However, the bylaws of each district must provide:

1. For an annual meeting of participating members each year after the year of organization of the district and for mailing of written notice of the time and place of each annual meeting to each participating member and publication of the notice in the official newspaper of the county or counties served by the district not less than ten nor more than thirty days before each meeting.
2. That each participating member of the district is entitled to one vote at all annual and special meetings of the district for each benefit unit to which the member has subscribed.

61-35-10. Directors divided into classes - Terms - Vacancies. The initial board of each district shall divide its members by lot into three classes of as nearly equal size as possible. The terms of the directors in the first, second, and third classes expire on dates of the annual meetings in the first, second, and third years, respectively, following the year in which the district is organized, or as soon thereafter as their successors are elected and have qualified. At the annual meeting in each year after the year in which the district is organized, a director must be elected to succeed each director whose term of office expires on that date, and each director so elected holds office for a term of three years and until a successor is elected and has qualified. Vacancies must be filled for the unexpired term by appointment by the remaining directors.

61-35-11. Board meetings. The board shall meet annually on the same day as, and immediately following, the annual meeting of participating members, and may meet at other times it determines, or upon the call of the president or any two directors. At the first meeting of the initial board following its election, and at each succeeding annual board meeting, the board shall elect a president, vice president, secretary, and treasurer for the ensuing year. Board members are entitled to reasonable compensation to cover the expenses of serving on the board.

61-35-12. Powers of district board. Each district board has the power to:

1. Sue and be sued in the name of the district.
2. Exercise the power of eminent domain in the manner provided by title 32 for the purpose of acquiring and securing any rights, titles, interests,

estates, or easements necessary or proper to carry out the duties imposed by this chapter, and particularly to acquire the necessary rights in land for the construction of pipelines, reservoirs, connections, valves, pumping installations, or other facilities for the storage, transportation, or utilization of water and all other appurtenant facilities necessary to carry out the purposes of its organization.

3. Accept funds, property, and services or other assistance, financial or otherwise, from federal, state, and other public or private sources for the purpose of aiding and promoting the construction, maintenance, and operation of projects within the district.
4. Cooperate and contract with the state, its agencies, or its political subdivisions or any federal agency in research and investigation or other activities promoting the establishment, construction, development, or operation of projects within the district.
5. Furnish assurances of cooperation, and as principal and guarantor, or either, to enter into contracts with any federal agency, and with public corporations and political subdivisions of this state for the performance of obligations for the construction, operation, or maintenance of the district or for the delivery of water to any such department, agency, or political subdivision.
6. Construct, lease, or purchase separately or in cooperation with any federal agency or the state, its agencies, or political subdivisions, and to equip, maintain, and operate an office and principal place of business for the district, or other buildings or facilities to carry out activities authorized by this chapter.
7. Appoint and fix the compensation of such employees as the board deems necessary to conduct the business and affairs of the district and to procure the services of engineers and other technical experts, and to retain attorneys to assist, advise, and act for it in its proceedings.
8. Sell or exchange any and all real property purchased or acquired by the district. All money received from any such sale or exchange must be deposited to the credit of the district and may be used to pay expenses of the district.
9. Borrow money as provided in this chapter.
10. Issue and sell bonds in an amount or amounts determined by the board, including an amount or amounts for costs of issuance and financing, and any necessary reserve funds, for the purpose of financing the cost of a project.
11. Refund and refinance its bonds from time to time as often as it is advantageous and in the interest of the district.
12. Pledge any and all income, profits, and revenues received by the district in connection with the operation, lease, sale, or other disposition of all or any part of a project to secure the payment of bonds issued and sold to finance the project.

13. Pledge all or any part of any assessments levied under this chapter to secure the payment or redemption of any bonds issued in anticipation of the levy and collection of the assessments.
14. Acquire by gift, purchase, or the exercise of the right of eminent domain, property required to construct, reconstruct, improve, better, or extend any project, whether completely or partially within or outside the district, and easements, rights in lands, and water rights in connection with the project.
15. Operate and maintain any project for its own use and for the use of public and private consumers and users within and without the territorial boundaries of the district.
16. Prescribe, revise, and collect rates, fees, tolls, or charges for the services, facilities, or commodities furnished by the project, and in anticipation of the collection of the revenues of the project, issue revenue bonds to finance all or part of the cost of the acquisition, construction, reconstruction, improvement, betterment, or extension of any project.
17. Pledge revenues of the project to the punctual payment of principal and interest on bonds. A pledge under this subsection applies to the revenues of improvements, betterments, or extensions of the project which may be constructed or acquired after the issuance of bonds as well as the revenues of existing systems, plants, works, instrumentalities, and properties of any part of the project improved, bettered, or extended.
18. Make all contracts, execute all instruments, and do all things necessary or convenient in the exercise of its powers or in the performance of its covenants or duties or in order to secure the payment of its bonds, but an encumbrance, mortgage, or other pledge of property of the district may not be created by any such contract or instrument.
19. Enter into and perform long-term or short-term contracts with any nongovernmental unit for the provision and operation by the district of sewerage facilities, when the board of the district determines such action to be in the public interest and necessary for the protection of the public health, in order to abate or reduce the pollution of waters caused by discharges of industrial wastes by the nongovernmental unit, and for the payment periodically by the nongovernmental unit to the district of amounts the board deems sufficient to compensate the district for all costs associated with providing, operating, and maintaining the sewerage facilities serving the nongovernmental unit.
20. Enter into and perform such contracts and agreements with other districts, political subdivisions, and state institutions as the board deems proper and feasible concerning the planning, construction, lease, or other acquisition and the financing, maintenance, and operation of sewerage facilities. Any districts contracting with each other may provide in any contract or agreement for a board, commission, or such other body as their boards deem proper to supervise, manage, and operate the sewerage facilities and may prescribe its powers and duties and compensation of its members.

21. Accept from any authorized federal agency loans or grants for the planning, construction, acquisition, lease, or other provision of any project, and to enter into agreements with such agency respecting such loan or grants.
22. Contract debts and borrow money, pledge property of the district for repayment of indebtedness other than bonded indebtedness, and provide for payment of debts and expenses of the district.

Property of the district may not be liable to be forfeited or taken in payment of any bonds issued under this chapter, and debt on the general credit of the district may not be incurred in any manner for payment of bonds under this chapter.

61-35-13. Contracts for construction or maintenance of a project. If the cost of construction or maintenance of a project does not exceed fifty thousand dollars, the work may be done on a day work basis or a contract may be let without being advertised. If the cost of the construction or maintenance exceeds fifty thousand dollars, the lowest and best bid must be accepted. The board must comply with the requirements of sections 61-35-88 through 61-35-103 when bidding a project.

The competitive bid requirement of this section may be waived if the board determines that an emergency exists requiring the prompt repair of a project and a contract may be made for the prompt repair of the project without seeking bids.

61-35-14. Financing project through improvement bonds or special assessments - Apportionment of benefits. A board may acquire needed interest in property and provide for the cost of construction, alteration, repair, operation, and maintenance of a project with funds raised by special assessments. A board may issue improvement bonds in anticipation of the levy and collection of special assessments. If a board decides to acquire property or interests in property to construct, operate, alter, repair, or maintain a project with funds raised in whole or in part through special assessments, the assessments must be apportioned to and spread in proportion to benefits accruing to lands or premises benefited by the project. The board shall assess the proportion of the cost of the project, or the part of the cost to be financed with funds raised through levy and collection of special assessments which any lot, piece, or parcel of land bears in proportion to the benefits accruing to the property and any county, city, or township that is benefited.

61-35-15. Revenue bonds. A district may issue revenue bonds, not exceeding an aggregate total outstanding of twenty-five million dollars, to finance construction of projects and incidental facilities authorized by this chapter. Issuance of revenue bonds must be approved by two-thirds of all of the members of the district board. The district shall pledge sufficient revenue from any revenue-producing facility constructed with the aid of revenue bonds for the payment of principal and interest on the bonds and shall establish rates for the facilities at a sufficient level to provide for the operation of such facilities and for the bond payments. Revenue bonds may not be a general obligation of any political subdivision and may not be secured by property taxes.

61-35-16. Plans and specifications. As soon as reasonably possible after organizing a district, the board shall file with the state engineer copies of the plans and specifications for, and estimates of the cost of, any improvements authorized by this chapter which the board proposes to construct or acquire. The board shall determine a reasonable fee that each member shall pay for the privilege of utilizing the district's facilities, which shall be known as a benefit unit. By publication in the official county newspaper of each county in which all or part of the district is

located, the board shall generally describe the planned improvements, the area to be served, and the fee members will be required to pay for each service connected to the water system.

61-35-17. Selling water. If the capacity of the district's facilities permits, the district may sell water by contract to any political subdivision, other district, or other person, public or private, not within the boundaries of the district.

61-35-18. Inclusion of property in district - Inclusion of municipality - Merger.

1. Owners of real property outside any district which can economically be served by the facilities of the district may petition to be attached to the district. The petition must be filed with the state engineer and the state engineer shall proceed in substantially the same manner as is provided by this chapter for filing of and proceeding on a petition for organization of a district.
2. All or part of an incorporated city may be included in the boundaries of any existing district or a district being newly organized, provided the governing body of the city by resolution or ordinance gives its consent.
3. Boards of two or more districts by concurrent action and by approval of the state engineer may merge their districts into one. In case of merger the members of the boards of the merged districts may serve until the next annual meeting at which time the district shall comply with the requirements of section 61-35-08 regarding the number and eligibility of directors, adopt new bylaws, and set the terms of the new board according to section 61-35-10. The resulting district shall take over all the assets and legal liabilities of the districts joining in the merger. Obligations of any district secured by the revenue of the systems operated by the district must continue to be required, or a sinking fund must be established for that purpose created from revenue from the system operated over the same area by the resulting district in accordance with the laws under which the obligations were issued, until all obligations of the old district have been retired.
4. If there is a conflict between two or more districts concerning which district will serve an area, the state engineer, after a public hearing, shall determine which district can more adequately and economically provide service within the area.

61-35-19. Taxing prohibited. A district has no power to levy any taxes. The facilities constructed or otherwise acquired by any district, including ponds, reservoirs, pipelines, wells, deck dams, and pumping installations, the revenues obtained by the district from the sale of water, and the revenue bonds or interest on the revenue bonds issued by any district are not taxable in any manner by the state or a political subdivision.

61-35-20. Exclusion of real property from district. If it becomes apparent that any real property included within a district but contiguous to a border cannot economically or adequately be served by the facilities of the district, the owners of the real property or the board may file with the state engineer a petition to the state engineer requesting that the real property be excluded from the district. The petition must:

1. Describe by full and partial section and by township and range, or by lot number and subdivision, as the case may be, the real property that it is proposed to exclude from the district.
2. State that the real property cannot economically or adequately be served by the facilities of the district and that it is not feasible for the district to enlarge or extend its facilities to economically and adequately serve the real property.
3. Be signed by the owners of all the real property that it is desired to exclude from the district or by all of the board.

61-35-21. Inactive district dissolved. A petition may be filed with the state engineer requesting the state engineer to dissolve an inactive district. The petition must:

1. List all real and personal property of any kind exclusive of records, maps, plans, and files and state that all of its debts and obligations have been fully paid.
2. State that the district is not functioning and will probably continue to be inoperative.
3. Be signed by three-fourths of the members of the district.

61-35-22. Hearing. Upon the filing with the state engineer of a petition under section 61-35-20 or 61-35-21, the state engineer shall fix a time for consideration of the petition. The state engineer may hold a hearing on the petition. After consideration of the petition, and after the hearing if one is held, the state engineer shall ascertain whether:

1. The petition meets all of the requirements prescribed by section 61-35-20 or 61-35-21.
2. It appears from all information available to the state engineer that each allegation included in the petition is factual.

If the state engineer's finding on each of the foregoing points is positive, the state engineer shall declare the real property described in the petition detached from the district or declare the district dissolved, as the case may be. The state engineer shall notify the secretary of the district of the state engineer's action and the secretary shall amend the records of the district to show that the real property described in the petition has been detached from the district. Within thirty days, the secretary shall deliver to the state engineer all records, maps, plans, and files of the dissolved district.

61-35-23. Disposition of assets. If a district is dissolved the state engineer shall provide for the disposition of any property owned by the district and for the apportionment of the proceeds and any other moneys belonging to the district to an adjoining district. If there is no adjoining district the state engineer shall apportion and dispose of the property and proceeds to the general fund of each county in the district in proportion to their area in the district. Any pledge or lien given with respect to any outstanding bonds of the district remains and any property so encumbered must be handled in conformity with the bond resolution or trust indenture. Money, property, or the proceeds from property may not be distributed to any private interests.

61-35-24. Not exempt from other requirements. This chapter does not exempt any district from the requirements of any other statute, whether enacted before or after August 1, 1995, under which the district is required to obtain the permission or approval of, or to notify, the water commission, or the state department of health and consolidated laboratories, or any other agency of this state or of any of its political subdivisions before proceeding with construction, acquisition, operation, enlargement, extension, or alteration of any works or facilities that the district is authorized to undertake under this chapter.

61-35-25. Alternate operation by nonprofit corporation or cooperative. A nonprofit corporation or cooperative association established under title 10 for the specific purpose of operating a rural water system may petition the state engineer to organize a district, in the manner provided by section 61-35-02. The signatures of the corporation's or cooperative's officers on the petition and a resolution adopted by the members in the manner provided in section 10-15-37 for amendments to articles or in the manner provided in subsections 1 and 2 of section 10-26-01, as the case may be, approving the petition suffice in lieu of signatures of owners of fifty percent of the real property in the proposed district, if the petition presenter provides evidence satisfactory to the state engineer that a sufficient number of members of the proposed district will subscribe or have subscribed to benefit units to make its operation feasible. The procedure for hearing and determination of disposition of the petition is as provided by this chapter. In any district organized upon the petition of a nonprofit corporation or cooperative association, the following procedures apply:

1. After final approval of the petition by the state engineer, the secretary of the corporation or cooperative shall file a notice with the corporation or cooperative in accordance with title 10.
2. Upon filing of the notice, the nonprofit corporation or cooperative ceases to exist as a title 10 entity and all assets and liabilities of the nonprofit corporation or cooperative become the assets and liabilities of the newly organized district without any further meetings, voting, notice to creditors, or other actions by the members of the board.
3. The officers and board of directors of the corporation or cooperative are the officers and board of the district.
4. The applicable laws of the state and the articles of incorporation and bylaws of the corporation or cooperative control the initial size and initial term of office of officers and the board, in lieu of sections 61-35-08 through 61-35-11.
5. The district shall bring its operation and structure into compliance with the requirements of section 61-35-08 regarding the number and qualification of directors, section 61-35-09 regarding new bylaws, section 61-35-10 regarding dividing its directors into classes, and section 61-35-11 regarding board meetings at the first annual meeting of the participating members and board. The new district has all the rights and all the property of the original corporation or cooperative and is responsible for all its obligations. Title to any property is vested in the new district with no reversion or impairment of ownership rights caused by the conversion to a district. A water supply agreement entered by a nonprofit corporation or cooperative association is binding for its term on a successor district organized by the nonprofit corporation or cooperative association, unless otherwise agreed in writing by all parties

to the agreement. The right of any creditor may not be impaired by this section without the creditor's consent.

61-35-26. Annexation of land by a municipality. A district organized under this title or title 10 must be fairly compensated for losses resulting from annexation by a city under chapter 40-51.2. If a district has outstanding bonds the annexation proceedings must be in accordance with the bond resolution or trust indenture. The governing body of a city and the board of directors of the district may agree to terms that provide that the facilities owned by the district and located within the city must be retained by the district for the purpose of transporting water to customers outside the municipality.

61-35-27. Personal liability. Except as otherwise provided in this chapter, a director, officer, employee, or other personnel of the board are not liable for the district's debts or obligations and a director, officer, employee, or volunteer of the board is not personally liable in that capacity for a claim based upon an act or omission of the person in the discharge of the person's duties, except for any of the following:

1. A breach of the duty of loyalty to the district.
2. Acts or omissions not in good faith or which involve intentional misconduct or knowing violation of the law.
3. A transaction from which the person derives an improper personal benefit.

61-35-28. Proceedings to confirm contracts, special assessments, and other acts. Any district board, before making any contract, levying special assessments, or issuing special assessment improvement bonds or revenue bonds, or before taking any special action, may commence a special proceeding in district court by which the proceeding leading up to the making of such contract, levying special assessments, issuing improvement bonds or revenue bonds, or leading up to any other special action, may be judicially examined, approved, and confirmed. Such judicial proceedings must substantially comply with the procedure required in the case of judicial confirmation of proceedings, acts, and contracts of an irrigation district.

61-35-29. Authorization to organize association of rural water systems. A district, upon resolution of the district board, may organize and participate in an association of rural water systems organized under chapters 10-24 through 10-28.

61-35-30. Resolution authorizing project and the issuance of revenue bonds. The acquisition, construction, reconstruction, improvement, betterment, or extension of any project and the issuance of bonds in anticipation of the collection of the revenues of such project to provide funds to pay the associated costs may be authorized by a resolution of the board adopted after appropriate notice by the affirmative vote of a majority of the board. The amount of such bonds may not exceed the amount authorized by the participating members of the district as provided in this chapter. Unless otherwise provided in the resolution, the resolution under this section takes effect immediately and need not be laid over, published, or posted.

61-35-31. Refunding bonds authorized by resolution - Adoption - Taking effect. Refunding bonds must be authorized by resolution of the board. The resolution may be adopted at a regular or special meeting, including the meeting at which it is

introduced, by the affirmative vote of a majority of the members of the board, and takes effect immediately upon adoption. Other proceedings or procedure are not required for the issuance of refunding bonds by the district.

61-35-32. Cost of project - How determined. In determining the cost of a project, the board may include the estimated cost of bond issuance, all engineering, inspection, fiscal, and legal expenses, any bond reserves, and the estimated interest that will accrue during construction, and within six months after completion of construction.

61-35-33. Provisions governing bonds. The resolution authorizing the issuance of revenue bonds or refunding bonds under this chapter or resolutions adopted after the adoption of the original resolution must prescribe:

1. The rate or rates of interest, payable semiannually.
2. Whether the bonds will be in one or more series.
3. The date or dates the bonds will bear.
4. The time or times, not exceeding forty years from their respective dates, when the bonds will mature.
5. The medium in which the bonds will be payable.
6. The place or places where the bonds will be payable.
7. Whether or not the bonds will carry registration privileges and what those privileges, if any, will be.
8. The terms of redemption, if any, to which the bonds will be subject.
9. The manner in which the bonds will be executed.
10. The terms, covenants, and conditions that the bonds will contain.
11. The form in which the bonds will be issued.

61-35-34. Sale of bonds - When private sale authorized - Public sale and notice. Revenue bonds or refunding bonds must be sold at not less than ninety-eight percent of par. The bonds may be sold at private sale without notice or at public sale after notice of the sale has been published once at least five days before the sale in a newspaper circulating in the district. Bonds sold at private sale must bear interest at a rate and be sold at a price resulting in an average net interest cost not exceeding twelve percent per annum. There is no interest rate ceiling on issues sold at public sale or to the state or any of its agencies or instrumentalities. As to any series or issue of bonds for which a notice of sale was published but for which no bids were received or all bids received were rejected, the board, without readvertising the bonds for sale, may negotiate the sale of all of the bonds to any person upon terms complying with those specified in the published notice of sale and, if bids were rejected, more favorable to the district than those specified in the rejected bid.

61-35-35. Bonds and receipts or certificates issued pending preparation of bonds - Negotiability. Pending the preparation of the definitive bonds, bond anticipation notes may be issued and sold in the form and with the provisions determined by the board.

61-35-36. Validity of bonds. Revenue bonds or refunding bonds bearing the signatures of the appropriate officers who are in office on the date of signing are valid and binding obligations notwithstanding that before the delivery and payment any or all of the persons whose signatures appear on the bonds have ceased to be officers of the issuing district. The validity of the bonds is not dependent upon or affected by the validity or regularity of any proceedings relating to the acquisition, purchase, construction, reconstruction, improvement, betterment, or extension of the project for which the bonds are issued. The resolution authorizing the bonds may provide that the bonds must contain a recital that they are issued under this chapter and the recital is conclusive evidence of their validity and of the regularity of their issuance.

61-35-37. Bonds exempt from taxation. Bonds issued under this chapter and their income are exempt from taxation by the state or by any political subdivision.

61-35-38. Covenants that may be inserted in resolution authorizing bonds. Any resolution authorizing the issuance of bonds under this chapter to completely or partially finance or refinance the acquisition, construction, reconstruction, improvement, betterment, or extension of a project may contain covenants that limit the exercise of powers conferred by this chapter as to:

1. The rates, fees, tolls, or charges to be charged for the services, facilities, and commodities of the project.
2. The use and disposition of the revenues of the project.
3. The creation, maintenance, regulation, use, and disposition of reserves or sinking funds.
4. The purpose to which the proceeds of the sale of bonds may be applied and the use and disposition of the proceeds.
5. The events of default and the rights and liabilities arising upon default and the terms and conditions upon which the holders of bonds issued under this chapter may bring any suit or action on said bonds.
6. The payment by the district to the account of the project of a fair and reasonable amount for the services, facilities, or commodities furnished the district or any of its departments by the project.
7. The issuance of other or additional bonds or instruments payable from or constituting a charge against the revenue of the project.
8. The insurance to be carried upon the project and the use and disposition of insurance moneys.
9. The keeping, inspection, and audit of books of account.
10. The terms and conditions upon which any or all of the bonds become or may be declared due before maturity and the terms and conditions upon which the declaration and its consequences may be waived.
11. The rights, liabilities, powers, and duties arising upon the breach by the district of any covenants, conditions, or obligations.

12. The vesting in a trustee of the right to enforce any covenants made to secure, to pay, or in relation to, the bonds, the powers and duties of such trustee, and the limitations of liabilities thereof.
13. The terms and conditions upon which the holders of the bonds, or the holders of any proportion or percentage of them, may enforce any covenants made or any duties imposed under this chapter.
14. A procedure by which the terms of any resolution authorizing bonds or of any other contract with bondholders, including an indenture of trust or similar instrument, may be amended or abrogated, and the amount of bonds that holders of which must consent to the resolution or contract, and the manner in which such consent may be given.
15. The subordination of the security of any bonds issued under this chapter and the payment of principal and interest on those bonds, to the extent deemed feasible and desirable by the governing body, to other bonds or obligations of the district issued to finance or refinance the project or that may be outstanding when the bonds thus subordinated are issued and delivered.

Nothing in this section authorizes any district to do anything in any manner or for any purpose which would result in the creation or incurring of a debt or indebtedness or the issuance of any instrument which would constitute a debt or indebtedness within the meaning of any provision, limitation, or restriction of the Constitution of North Dakota relating to the creation or incurring of a debt or indebtedness or the issuance of an instrument constituting a debt or indebtedness.

61-35-39. Liability of district for bonds - Taxing power prohibited - Bond not a lien. Revenue and refunding bonds issued under this chapter may not be payable from or charged upon any funds other than the revenue pledged to their payment and the district issuing the bonds may not be subject to any pecuniary liability. The holder of any such bonds may not enforce payment of the bonds against any property of the district. Bonds issued under this chapter do not constitute a charge, lien, or encumbrance upon any property of the district. Each bond issued under this chapter must recite in substance that the bond, and interest on the bond, is payable solely from the revenue pledged to the payment and that the bond does not constitute a debt of the district within the meaning of any constitutional or statutory limitation.

61-35-40. Duties of district and officers. To adequately secure the payment of bonds and interest on the bonds, any district issuing bonds under this chapter, and the district's officers, agents, and employees shall:

1. Pay or cause to be paid punctually the principal and interest of every bond on the dates, at the places, in the manner, and out of the funds provided in the refunding bond and in accordance with the resolution authorizing its issuance.
2. Operate the project in an efficient and economical manner and establish, levy, maintain, and collect related necessary or proper fees, tolls, rentals, rates, and other charges. Such fees, tolls, rentals, rates, and other charges must be sufficient, after making due and reasonable allowances for contingencies and for a margin of error in the estimates, at least:

- a. To pay all current expenses of operation and maintenance of the project;
 - b. To pay the interest and principal on the bonds as they become due;
 - c. To comply with the terms of the resolution authorizing the issuance of the bonds or any other contract or agreement with the holders of the refunding bonds; and
 - d. To meet any other obligations of the district which are charges, liens, or encumbrances upon the revenues of the project.
3. Operate, maintain, preserve, and keep every part of the project in good repair, working order, and condition.
 4. Preserve and protect the security of the bonds and the rights of the bondholders and warrant and defend such rights against all claims and demands.
 5. Pay and discharge all lawful claims for labor, materials, and supplies, which, if unpaid, might become by law a lien or charge upon the revenues, or any part of the revenues, superior to the lien of the bonds or which might impair the security of the bonds.
 6. Hold in trust the revenues pledged to the payment of the bonds for the benefit of the holders of the bonds and apply the revenues only as provided by the resolution authorizing the issuance of the bonds, or, if the resolution is modified, as provided in the modified resolution.
 7. Keep proper separate books of record and accounts of the project in which complete and correct entries must be made of all transactions relating to any part of the project. All books and papers of the district are subject to inspection by the holders of ten percent or more of the outstanding bonds or of their representatives authorized in writing.

None of the duties contained in this section require any expenditure by the district of any funds other than revenue received from the project. The performance of the duties enumerated in this section is of the essence of the contract of the district with the bondholders.

61-35-41. Remedies of bondholders in general. Subject to any contractual limitations binding upon the holders of any issue of bonds, or a trustee for the holders, including the restriction of the exercise of any remedy to a specified proportion or percentage of the holders, any holder of bonds or trustee, for the equal benefit and protection of all bondholders similarly situated, may:

1. By mandamus or other suit, action, or proceeding at law or in equity, enforce the holder's rights against the district and its board and any of its officers, agents, and employees and may require the district or the board or any officers, agents, or employees of the district or board to perform their duties and obligations under this chapter and their covenants and agreements with bondholders.
2. By action or suit in equity, require the district and the board to account as if they were the trustees of an express trust.

3. By action or suit in equity, enjoin any acts or things that may be unlawful or in violation of the rights of the bondholders.
4. Bring suit upon the bond.

A right or remedy conferred by this chapter upon any bondholder, or upon any trustee for a bondholder, is not intended to be exclusive of any other right or remedy, but each such right or remedy is cumulative and in addition to every other right or remedy and may be exercised without exhausting and without regard to any other remedy conferred by this chapter or by any other law of this state.

61-35-42. Receiver of project - When appointed. If the district defaults in the payment of the principal or interest on any of the bonds when due, whether at maturity or upon call for redemption, and the default continues for a period of thirty days, or if the district or the board, or officers, agents, or employees of the district fail or refuse to comply with the provisions of this chapter, or default in any agreement made under this chapter, or default in any agreement made with the holders of the bonds, any bondholder, or the trustee for any bondholder, may apply to the district court of the county in which all or any part of the project is located for the appointment of a receiver of the project whether or not all of the bonds have been declared due and payable and whether or not the holder or trustee is seeking or has sought to enforce any other right or to exercise any other remedy in connection with the bonds. Upon such application, the court may appoint a receiver of the project. If the application is made by the holders of twenty-five percent in principal amount of the outstanding bonds, or by any trustee for holders of the bonds in that principal amount, the court shall appoint a receiver of the project.

61-35-43. Powers and duties of receiver of project. A receiver appointed under section 61-35-42, directly or by agents and attorneys, shall immediately enter into and upon and take possession of the entire project and may exclude from the project the district, its board, officers, agents, and employees, and all persons claiming under them. The receiver shall have, hold, use, operate, manage, and control the entire project in the name of the district or otherwise as determined by the receiver. The receiver shall exercise all the rights and powers of the district with respect to the project. The receiver shall maintain the project and restore and keep it insured and make all repairs the receiver deems necessary, proper, or expedient. The receiver shall establish, levy, maintain, and collect such fees, tolls, rentals, and other charges in connection with the project as the receiver deems necessary, proper, and reasonable. The receiver shall collect all revenues, deposit them in a separate account, and apply them as the court directs.

61-35-44. Court may direct receiver to surrender possession of project. After payment of all that is due upon the bonds and any other obligations that are a charge, lien, or encumbrance on the revenues of the project under any of the terms of any covenants or agreements with bondholders, and after all defaults have been made good, the court, after notice and hearing as it deems proper, may direct the receiver to surrender the possession of the project to the district. The holders of the bonds have the same right to secure the appointment of a receiver upon any subsequent default as is provided in this chapter in the case of an original default.

61-35-45. Receiver subject to jurisdiction of court - Jurisdiction of court. A receiver under this chapter acts under the direction and supervision of the appointing court and is subject to the orders of that court and may be removed by it. This chapter does not limit the jurisdiction of the court to enter orders it deems necessary for the receiver to exercise any functions set forth in this chapter.

61-35-46. Construction. Powers under this chapter are in addition and supplemental to and not in substitution for, and the limitations imposed by this chapter do not affect the powers conferred by, any other law. Bonds may be issued under this chapter without regard to any other laws of this state, except as provided in section 61-35-39. The project may be acquired, purchased, constructed, reconstructed, improved, bettered, and extended, and bonds may be issued under this chapter for those purposes, notwithstanding that any other law may provide for the acquisition, purchase, construction, reconstruction, improvement, betterment, and extension of a like project or for the issuance of bonds for like purposes, and without regard to the requirements, restrictions, debt, or other limitations or other provisions contained in any other law, including any requirement for any restriction or limitation on the incurring of indebtedness or the issuance of bonds. If this chapter is inconsistent with any other law of this state, the provisions of this chapter are controlling with reference to the issuance of bonds.

61-35-47. Limitations on authorizations contained in chapter - Effect of chapter on bonds issued before August 1, 1995. Nothing in this chapter may be deemed in any way to:

1. Alter the terms of any agreements made with the holders of any outstanding notes, bonds, or other obligations of the district, before August 1, 1995;
2. Authorize the district to alter the terms of any such agreements, or to impair, or to authorize the district to impair, the rights and remedies of any creditors of the district; or
3. To authorize any district to do anything in any manner or for any purpose which would result in the creation or incurring of a debt or indebtedness or the issuance of any instrument that would constitute a debt or indebtedness within the meaning of any provision, limitation, or restriction of the Constitution of North Dakota relating to the creation or incurring of a debt or indebtedness or the issuance of an instrument constituting a debt or indebtedness.

61-35-48. Power of district to defray expense of improvements by special assessments. Upon complying with this chapter, a district may defray the expense of any or all of the improvements by special assessments, including the construction of all or part of a water supply system or a sewerage system, or both, or any improvement, extension, or replacement of such systems, including the construction and erection of wells, intakes, pumping stations, settling basins, filtration plants, standpipes, water towers, reservoirs, water mains, sanitary and storm sewer mains and outlets, facilities for the treatment and disposal of sewage and other district, industrial, and domestic wastes, and all other appurtenances, contrivances, and structures used or useful for a complete water supply and sewerage system. In planning an improvement project the board may include in the plans any and all items of work and materials which in its judgment are necessary or reasonably incidental to the completion of an improvement project of that type.

61-35-49. Waterworks and water mains - Acquisition of waterworks, sewage treatment and disposal plants and sewer systems. The provisions of this chapter relating to water mains and waterworks apply only to districts that own or contemplate owning a system of waterworks and water mains. In the purchase of a waterworks system or of a sewage treatment or disposal plant or of a system of sewers, either by eminent domain or otherwise, a district may create improvement districts, direct the preparation of plans and specifications, adopt a resolution

declaring the purchase of the facilities necessary, and take all other proceedings prescribed by this chapter which would be taken in case of the construction of such facilities by the district itself for the purpose of defraying the cost by special assessment of the benefited property. The benefited property may be specially assessed for the purchase of such facilities, either separately or as a part of a new system, the same as if the facilities were constructed entirely anew.

61-35-50. Acquiring property for sewers, water mains, and water supply beyond district limits. When it is necessary to conduct the sewage of a district or to acquire a supply of water beyond the district limits and to construct mains or aqueducts to conduct water or sewage to the district limits, the board by grant, purchase, or condemnation proceedings may acquire private property over which to construct the sewer, or upon and over which to establish facilities for obtaining and storing such water supply and aqueducts or mains for conducting water to the corporate limits. Public property may be acquired for those purposes by grant or purchase from the government or public corporation owning the property. The cost of acquiring such property and building such sewer or other facilities upon or over the property may be included in the cost of construction or acquisition of a district waterworks or sewerage system and in the district's special assessments levied, or the entirety of such a project may be completed as an improvement to an existing waterworks or sewage system and special assessments may be levied for that purpose in accordance with the provisions of this title.

61-35-51. Condemnation of land and rights of way for special improvements - Taking of possession - Trial - Appeal - Vacation of judgment. When property required to make any improvement authorized by this chapter is to be taken by condemnation proceedings, the court, upon request by resolution of the board of the district making the improvement, shall call a special term of court for the trial of the proceedings and may summon a jury for the trial. The proceedings must be instituted and prosecuted in accordance with chapter 32-15, except that when the interest sought to be acquired is a right of way for the laying of any main, pipe, ditch, canal, aqueduct, or flume for conducting water, storm water, or sewage, whether within or without the district, the district may make an offer to purchase the right of way and may deposit the amount of the offer with the clerk of the district court of the county in which the right of way is located, and may then take possession of the right of way. The offer must be made by resolution of the board of the district, and a copy of the resolution must be attached to the complaint filed with the clerk of court in accordance with section 32-15-18. The clerk shall immediately notify the owners of the land on which the right of way is located of the deposit by causing a notice to be appended to the summons when served and published in the proceedings as provided in the North Dakota Rules of Civil Procedure, stating the amount deposited or agreed in the resolution to be deposited. The owner may then appeal to the court by filing an answer to the complaint in the manner provided in the North Dakota Rules of Civil Procedure, and may have a jury trial, unless a jury is waived, to determine the damages. However, upon due proof of the service of the notice and summons and upon deposit of the aggregate sum agreed in the resolution, the court may without further notice make and enter an order determining the district to be entitled to take immediate possession of the right of way. If under laws of the United States proceedings for the acquisition of any right of way are required to be instituted in or removed to a federal court, the proceedings may be taken in that court in the same manner and with the same effect as provided in this section and the clerk of the district court of the county in which the right of way is located shall perform any and all of the duties set forth in this section, if the clerk is directed to do so by the federal court. The proceedings must be determined as speedily as practicable. An appeal from a judgment in the condemnation proceedings must be taken within sixty days after the entry of the judgment and appeal must be given

preference by the supreme court over all other civil cases except election contests. No final judgment in the condemnation proceedings awarding damages to property used by a district for sewer or other purposes may be vacated or set aside if the district pays to the defendant, or into court for the defendant, the amount awarded in cash. The district may levy special assessments within the district to pay all or part of the judgment. To provide funds for the payment of the judgment or for the deposit of the amount offered for purchase of a right of way, the district may issue bonds on the fund of the improvement district as provided in section 61-35-84, in anticipation of the levy and collection of special assessments or revenues to be appropriated to the fund in accordance with this chapter. The bonds may be issued upon or after the commencement of the condemnation proceedings. Upon the failure of the district to make payment in accordance with this section, the judgment in the condemnation proceedings may be vacated.

61-35-52. Improvement districts to be created. For an improvement project under section 61-35-48 and defraying the cost of the project by special assessments, a district may create water districts, sewer districts, and water and sewer districts, and may extend any such district when necessary. The appropriate special improvement district must be created by resolution. The district must be designated by a name appropriate to the type of improvement for which it is created and by a number distinguishing it from other improvement districts. Nothing in this chapter prevents a district from making and financing any improvement and levying special assessments for the improvement under any alternate procedure in this title. For examinations or surveys, the board or its employees, after written notice to each landowner, may enter upon any land on which the proposed project is located or any other lands necessary to gain access.

61-35-53. Size and form of improvement districts - Regulations governing. Any improvement district created by a district may embrace two or more separate property areas. Each improvement district must be of such size and form as to include all properties which in the judgment of the board, after consultation with the engineer planning the improvement, will be benefited by the construction of the improvement project which is proposed to be made in or for the district, or by any portion of the project. A single district may be created for an improvement of the type specified in section 61-35-48, notwithstanding any lack of uniformity among the types, items, or quantities of work and materials to be used at particular locations throughout the improvement district. The jurisdiction of a district to make, finance, and assess the cost of any improvement project may not be impaired by any lack of commonness, unity, or singleness of the location, purpose, or character of the improvement, or by the fact that any one or more of the properties included in the improvement district is subsequently determined not to be benefited by the improvement, or by a particular portion of the improvement project, and is not assessed for that purpose. The board may omit from a water or sewer district properties within the district limits which are benefited by the improvement but do not abut upon a water or sewer main, without prejudice to the right and power of the district subsequently to assess such properties to the extent and the manner permitted by law. The board may by resolution enlarge an improvement district in which an improvement is proposed or under construction upon receipt of a petition signed by the owners of three-fourths of the area to be added to the district.

61-35-54. Engineer's report required - Contents. After a special improvement district has been created, the board, if it deems it necessary to make any of the improvements set out in section 61-35-48 in the manner provided in this chapter, shall direct the engineer for the district, or some other competent engineer, to prepare a report as to the general nature, purpose, and feasibility of the proposed improvement. The engineer shall prepare profiles, plans, and specifications of the

proposed project and estimates of the total cost. The estimate of costs prepared by the engineer must include acquisition of right of way, and must be in sufficient detail to allow the board to determine the probable share of the total costs that will be assessed against each of the affected landowners in the proposed assessment district.

61-35-55. Approval of plans, specifications, and estimates. After receiving the engineer's report required by section 61-35-54, the board may direct the engineer to prepare detailed plans and specifications for construction of the improvement. The plans and specifications must be approved by a resolution of the board.

61-35-56. District engineer to retain copy of plans, specifications, and estimates - Sale of copies. The engineer acting for the district shall retain a copy of the plans, specifications, and estimates that have been prepared for any improvement. The engineer shall furnish copies at the request of any person at a reasonable cost.

61-35-57. Plans, specifications, and estimates filed in office of district. The plans, specifications, and estimates prepared as directed under section 61-35-55 are the property of the district, must be filed in the district office, and must remain on file subject to inspection by any interested person.

61-35-58. Hearing - Notice - Contents. Upon the filing of the engineer's report provided for in section 61-35-54, and after satisfying the requirements of section 61-35-55, the district board shall fix a date and place for public hearing on the proposed project. The place of hearing must be in the vicinity of the proposed project and must be convenient and accessible for the majority of the landowners subject to assessment for the project or whose property is subject to condemnation for the proposed project. The board shall cause a complete list of the benefits and assessments to be made, setting forth each county, township, or city assessed in its corporate capacity as well as each lot, piece, or parcel of land assessed, the amount each is benefited by the improvement, and the amount assessed against each. At least ten days before the hearing, the board shall file with the county auditor of each county in which the project is or will be located the list showing the percentage assessment and approximate assessment in dollars against each parcel of land benefited by the proposed project. Notice of the filing must be included in the notice of hearing. Notices of the hearing must contain a copy of the resolution of the board as well as the time and place where the board will conduct the hearing. The notice of hearing must specify when and where votes concerning the proposed project may be filed and contain an assessment list showing the percentage assessment and approximate assessment in dollars against each parcel of land benefited by the proposed project. The board shall cause the notice of hearing to be published once a week for two consecutive weeks in newspapers of general circulation in the area in which the affected landowners reside and in the official county newspaper of each county in which the benefited lands are located. The date set for the hearing may not be fewer than twenty days after the mailing of the notice. A record of the hearing must be made by the board, including a list of affected landowners present in person or by agent, and the record must be preserved in the minutes of the meeting. Affected landowners and the governing body of any county, township, or city to be assessed must be informed at the hearing of the probable total cost of the project and their individual share of the cost and the portion of their property, if any, to be condemned for the project.

61-35-59. Voting on proposed projects. At the hearing, the affected landowners and any county, township, or city to be assessed must be informed when and where votes concerning the proposed project may be filed. Affected landowners and the governing body of any county, township, or city to be assessed, have thirty

days after the date of the hearing to file their votes with the secretary of the district. Once the deadline for filing votes has been reached, no more votes may be filed and no person may withdraw a vote. Any withdrawal of a vote concerning the proposed project before that time must be in writing. When the votes have been filed and the deadline for filing votes has passed, the board shall immediately determine whether the project is approved. If the board finds that fifty percent or more of the total votes filed are against the proposed project, then the vote constitutes a bar against proceeding further with the project. If the board finds that the number of votes filed against the proposed project is less than fifty percent of the votes filed, the board shall issue an order establishing the proposed project and may proceed, after complying with the requirements of sections 61-35-62 and 61-35-63, to contract or provide for the construction or maintenance of the project in substantially the manner and according to the forms and procedure provided in sections 61-35-88 through 61-35-103. The board may enter into any agreement with any federal or state agency under the terms of which the contract for the project is to be let by the federal agency, the state agency, or a combination thereof. In projects where there is an agreement that a party other than the board will let the contract, the board may dispense with all of the requirements of sections 61-35-88 through 61-35-103. Upon making an order establishing or denying establishment of a project, the board shall publish notice of the order in a newspaper of general circulation in the area in which the affected landowners reside and in the official county newspaper of each county in which the benefited lands are located. Any right of appeal begins to run on the date of publication of the notice.

61-35-60. Voting right or powers of landowners. In order that there may be a fair relationship between the amount of liability for assessments and the power of objecting to the establishment of a proposed project, the voting rights of affected landowners on the question of establishing the project are as provided in this section. The landowner of land affected by the project has one vote for each dollar of assessment to which the land is subject or one vote for each dollar of the assessed valuation of land condemned for the project, as determined in accordance with title 57. The governing body of any county, township, or city to be assessed has one vote for each dollar of assessment against such county, township, or city. There may be only one vote for each dollar of assessment, regardless of the number of owners of a tract of land. If more than one owner of a tract of land exists, the votes must be prorated among them in accordance with each owner's property interest. A written power of attorney authorizes an agent to protest a project on behalf of any affected landowner or landowners.

61-35-61. Assessment of cost of project. When the district board proposes to make any special assessment under this chapter, the board, prior to the hearing required under section 61-35-58 shall inspect any and all lots and parcels of land that may be subject to assessment and shall determine from the inspection the particular lots and parcels of lands which, in the opinion of the board, will be especially benefited by the construction of the work for which the assessment is made and shall assess the proportion of the total cost of acquiring right of way and constructing and maintaining such improvement in accordance with benefits received but not exceeding such benefits, against:

1. Any county, township, or city, in its corporate capacity, which may be directly or indirectly benefited by the improvement.
2. Any lot, piece, or parcel of land that is directly benefited by the improvement.

In determining benefits the board shall consider, among other factors, property values, degree of improvement of properties, and productivity. Property belonging to the United States is exempt from assessment unless the United States has provided for the payment of any assessment that may be levied against its property for benefits received. Benefited property belonging to the state, a county, a city, a school district, a park district, or a township is not exempt from assessment and political subdivisions that own assessed property shall provide for the payment of such assessments, including installments and interest, by the levy of taxes according to law. Any county, township, or city assessed in its corporate capacity for benefits received shall provide for the payment of those assessments, installments, and interest from its general fund or by levy of a general property tax against all the taxable property in the political subdivision in accordance with law. No tax limitation provided by any statute of this state applies to tax levies made by any political subdivision for paying any special assessments made under this chapter. There must be attached to the list of assessments a certificate signed by a majority of the members of the board certifying that it is a true and correct assessment of the benefit described to the best of their judgment and stating the several items of expense included in the assessment.

61-35-62. Assessment list to be published - Notice of hearing - Alteration of assessments - Confirmation of assessment list - Filing. After entering an order establishing the project, the district board shall cause the assessment list to be published once each week for two successive weeks in the newspapers of general circulation in the district and in the official county newspaper of each county in which the benefited lands are located. The publication must include a notice of the time and place the board will meet to hear objections to any assessment by any interested party, or an agent or attorney for that party. The date set for the hearing must be not less than twenty days after the first publication of the notice. At the hearing, the board may make such alterations in the assessments as in its opinion may be just and necessary to correct any error in the assessment but must make the aggregate of all assessments equal to the total amount required to pay the entire cost of the work for which the assessments are made or the part of the cost to be paid by special assessment. An assessment may not exceed the benefit as determined by the board to the parcel of land or political subdivision assessed. The board shall then confirm the assessment list and the secretary shall attach to the list a certificate that it is correct as confirmed by the board. The secretary shall file the list in the office of the district secretary.

61-35-63. Appeal to state engineer. Within ten days after the hearing under section 61-35-62, affected landowners and any political subdivision subject to assessment, having not less than twenty-five percent of the possible votes as determined under section 61-35-60, who believe that the assessment has not been fairly or equitably made, or that the project is not properly located or designed, may appeal to the state engineer by petition, to review the assessments and examine the location and design of the proposed project. Upon receipt of a petition the state engineer shall examine the lands assessed and the location and design of the proposed project, and if it appears that the assessments have not been made equitably, the state engineer may proceed to correct the assessments, and the state engineer's correction and adjustment of assessments is final. If it appears to the state engineer that the project has been improperly located or designed, the state engineer may order a relocation and redesign, which must be followed in the construction of the proposed project. Upon filing a bond for two hundred fifty dollars with the board for the payment of the costs of the state engineer in the matter, any landowner or political subdivision claiming to receive no benefit from the project may appeal to the state engineer the question of whether there is any benefit. The appeal must be filed with the state engineer within ten days after the hearing on assessments in

section 61-35-62. The state engineer may not determine the specific amount of benefit upon an appeal by an individual landowner or political subdivision and may determine only if there is any benefit to the landowner or political subdivision. The determination of the state engineer upon the appeal is final.

61-35-64. When assessments may be made. After the requirements of this chapter have been satisfied and a contract and bond for any work for which a special assessment is to be levied have been approved by the district board, the board may direct special assessments to be levied for the payment of appropriate costs and the secretary shall certify to the board the items of total cost to be paid by special assessments so far as they have been ascertained. The certificate must include the estimated construction cost under the terms of any contract, a reasonable allowance for cost of extra work that may be authorized under the plans and specifications, acquisition of right of way, engineering, fiscal agents' and attorneys' fees for any services in connection with the authorization and financing of the improvement, cost of publication of required notices, printing of improvement bonds, cost necessarily paid for damages caused by such improvement, interest during the construction period, and all expenses incurred in making the improvement and levy of assessments.

A contract or contracts may not be awarded which exceed, by forty percent or more, the estimated cost of the project as presented to and approved by the affected landowners.

61-35-65. Reassessment of benefits. The district board may hold at any time or, upon petition of any affected landowner or political subdivision which has been assessed after a project has been in existence for at least one year, shall hold a hearing for the purpose of determining the benefits of the project to each tract of land affected. At least ten days' notice of the hearing must be given by publication in the newspaper or newspapers having general circulation in the district and in the official county newspaper of each county in which the benefited lands are located and by mailing notice by ordinary mail to each owner of land whose assessment is proposed to be raised as determined by the records of the register of deeds or county treasurer. The provisions of this chapter governing the original determination of benefits and assessment of costs apply to any reassessment of benefits carried out under this section. The board may not be forced to make a reassessment more than once every ten years. Any assessment or balance of an assessment supporting a project fund may not be reduced or impaired by reassessment or otherwise so long as bonds payable out of such fund remain unpaid and moneys are not available in such fund to pay all such bonds in full, with interest. Costs of maintenance must be prorated in accordance with any plan for reassessment of benefits that has been adopted.

61-35-66. Correction of errors and mistakes in special assessments - Requirements governing. If mathematical errors or other mistakes occur in making any assessment resulting in a deficiency in that assessment, the district board shall cause additional assessments to be made in a manner substantially complying with chapter 40-26 as it relates to special assessments.

61-35-67. Lien of special assessment. A special assessment imposed by a district, with accrued interest and penalties, is a lien upon the property on which the assessment is levied from the time the assessment list is approved by the district board until the assessment is fully paid. The liens have precedence over all other liens except general tax liens and may not be divested by any judicial sale. Mistake in the description of the property covered by the special assessment lien or in the name of the owner of such property does not defeat the lien if the assessed property

can be identified by the description in the assessment list. This chapter must be considered notice to all subsequent encumbrances of the priority of special assessments imposed under this chapter.

61-35-68. Sewer or water improvements in districts may be paid for by service charges. A district constructing a sewer or water improvement under the special assessment method may resolve in the resolution or ordinance required by section 61-35-52, that a portion of the cost of the improvement must be raised by service charges for the use of the improvement and of the utility of which it forms a part. If the district so resolves, it may determine in its resolutions, ordinances, and other proceedings relating to the levying of special assessments and the issuing of bonds to pay the cost of such improvement, that a specified portion or all of such cost must be assessed specially against any property specially benefited and may cause to be assessed only the portion so determined. In that event the entire remainder of the cost, including interest as well as principal of any bonds issued, over and above the amount of special assessments actually collected and received from time to time in the fund of the improvement district, must be paid from the net revenues derived from the service charges. All of the applicable provisions of this chapter relating to special assessments are applicable to such improvements except as to the portion of the cost of improvements resolved or ordained to be paid by service charges. The board of the district shall provide for the establishment, imposition, and collection of service charges for the services furnished by the improvement and the utility of which it forms a part, and in that connection it has all the rights and powers respecting such service charges as it would have with respect to like matters if the improvement were made in accordance with chapter 40-35. The net revenues derived from the imposition and collection of the service charges or any portion of the service charges as are determined by the board in the resolutions and ordinances, must be paid into the appropriate improvement district funds created under section 61-35-83. The revenues when collected must be used and applied in the same manner as moneys paid into such funds from the collection of special assessments. The board of any district issuing bonds to finance any such improvement, in its resolutions and ordinances, may establish an assessment reserve in the fund of the improvement district, to which it may appropriate net revenues of the utility or system from time to time received in excess of amounts required, with special assessments then on hand, to meet the principal and interest next due on the bonds. Before November first of any year the district may by resolution determine the proportion which the amount then on hand in the assessment reserve, and irrevocably appropriated to the payment of the bond, bears to the aggregate amount of the installment of the special assessments levied for the improvement which is payable in the following year, including interest. The district may direct the auditor to reduce, by not more than a proportionate amount, the total of that installment and interest which would otherwise be placed upon the tax list of the district for the current year, against each lot and tract of land assessed or taxed for improvement. If the installment of the special assessment on any property has been prepaid, the board may direct the district to refund, out of the assessment reserve, to the owner of the property at the time of the refund as indicated in the records of the register of deeds of the county, a sum not exceeding a similar proportion of the principal amount of such installment, excluding interest.

61-35-69. Abbreviations, letters, or figures may be used in proceedings for levy and collection of special assessments. In all proceedings for the levy and collection of special assessments, abbreviations, letters, and figures may be used to denote all or parts of additions, lots, lands, blocks, sections, townships, ranges, years, days of the month, and amounts of money.

61-35-70. District office to keep complete record of improvements - Record as evidence. The district office shall keep a complete record of all the proceedings taken in the matter of making any improvements under this chapter. The record must include all reports and confirmations, all petitions, orders, notices and proofs of publication, and resolutions of the board. The record, a certified transcript of the record, or the original papers, proofs of publications, orders, or resolutions on file in the office must be admitted in evidence in any court or place in this state without further proof as evidence of the facts in those documents.

61-35-71. Defects and irregularities in improvement proceedings are not fatal. Defects and irregularities in any proceedings had or to be had under this chapter relating to district improvements by the special assessment method, if the proceedings are for a lawful purpose and are unaffected by fraud and do not violate any constitutional limitation or restriction, do not invalidate the proceedings, and no action may be commenced or maintained and no defense or counterclaim in any action may be recognized in the courts of this state founded on any such defects or irregularities in the proceedings, unless commenced within thirty days of the adoption of the resolution of the board awarding the sale of bonds to finance the improvement.

61-35-72. Payment of special assessments - Interest. All special assessments levied under this title may be paid without interest within ten days after they have been approved by the board and thereafter bear interest at an annual rate not exceeding one and one-half percentage points above the average net annual interest rate on any bonds for the payment of which they are pledged on the total amount remaining unpaid.

61-35-73. Lien between vendor and vendee of special assessments. As between a vendor and vendee of real property, unless the purchase contract otherwise provides, the installments of all special assessments for local improvements which are required to be certified and returned to the county auditor in each year become a lien upon the real property upon which they are assessed from and after the first day of December in that year.

61-35-74. Sewer special assessments extended over a period of not more than thirty years. Special assessments for the payment of the cost of constructing any sewer are payable in equal annual amounts, or in such annual amounts as will permit the annual increase in payment of principal to approximate the annual decrease in the interest on amounts remaining unpaid, extending over a period of not exceeding thirty years as the board may fix by ordinance or resolution.

61-35-75. Water main and waterworks special assessments extended over a period of not more than thirty years. Special assessments for the payment of the cost of constructing or laying any water mains or constructing any waterworks are payable in equal annual amounts, or in such annual amounts as will permit the annual increase in payment of principal to approximate the annual decrease in the interest on amounts remaining unpaid, extending over a period of not more than thirty years as the board may fix by ordinance or resolution.

61-35-76. Payments in full of assessments - Payments to county treasurer or district treasurer - Receipts. The owner of any property against which an assessment has been made under this title for the cost of any improvement may pay in full or in part the amount remaining unpaid and the unpaid accumulated interest. The payment in full discharges the lien of the assessment upon that property. The payment may be made to the county treasurer upon all installments of the assessments which have been certified to the county auditor, and may be made to

the district treasurer upon all portions of the assessment which have not been certified. Any person desiring to pay any portion of the assessment to the district treasurer shall obtain from the district treasurer a certificate of the amount due upon the assessment which has not been certified to the county auditor and shall present the certificate to the district treasurer. The district treasurer shall receive and collect that amount and issue a receipt to the person paying the assessment. The district treasurer shall note upon the treasurer's records the payment of the assessment.

61-35-77. Certification of assessments to county auditor. When a district board, by resolution, has caused special assessments to be levied to cover the cost of constructing a project, the board shall determine the rate of interest unpaid special assessments are to bear, which rate may not exceed one and one-half percent above the bond rate. Interest on unpaid special assessments commences on the date the assessments are finally confirmed by the board. Special assessments may be certified and made payable in equal annual installments, the last of which must be due and payable not more than thirty years after date of the bonds to be paid. The secretary of the district shall certify to the county auditor of the county in which the district is situated, or if the district embraces more than one county, to the county auditor of each county in which district lands subject to such special assessments are situated, the total amount assessed against each piece, parcel, lot, or tract of land. The secretary of the district shall also file with the county auditor of each county in which district lands lie a statement showing the cost of the project and the part of the project to be financed by special assessments. Funds needed to pay the cost of maintaining a project may be raised in the same manner as funds were raised to meet construction costs. If the project was financed in whole or in part through the use of special assessments, the district board shall prorate the cost of construction or, if a reassessment of benefits has been adopted, the costs must be prorated in accordance with the reassessment of benefits as authorized by section 61-35-65. The district treasurer shall annually certify to the county auditor all uncertified installments of assessments which are to be extended upon the tax lists of the district for the current year, in the manner provided in this section. The annual certification must continue until the amount of moneys on deposit in the fund established under section 61-35-83 is sufficient to cover outstanding principal of and interest on any obligations issued to fund the projects, and in addition, to repay the district for any payments made by the district to fund deficiencies in the fund established under section 61-35-83.

61-35-78. District treasurer to insert amount of improvements in county real estate book or other forms - Regulations governing. The district treasurer shall notify the county auditor not later than August twentieth in each year of any special assessments that were made in the district in addition to those reported in the previous year. The county auditor shall make and deliver to the district treasurer on or before September twentieth each year a copy of the real estate assessment book or other forms for the current year covering all additions in which any special assessments have existed and where any will appear for the current year as advised by the district treasurer. The district treasurer shall insert in the proper columns under the appropriate headings the amount of each of the installments of the assessments on the lots or subdivisions of lots or tracts of land which are to be extended upon the tax lists of the district for the current year. The district treasurer shall show the total amount of special assessments certified to the county auditor for the current year. If a division of property has been made since the original assessment, the district treasurer shall make or cause to be made the proper division of the special assessments on the lots or tracts of land in the same manner as general taxes are divided and assessed as furnished by the county auditor. The district treasurer shall certify the special assessments to the county auditor by November first of each year.

61-35-79. Extension of special assessments on tax lists - Collection - Payment over to district. The county auditor shall extend the special assessments upon the tax lists of the district for the current year and the assessments with interest and penalties must be collected as general taxes are collected and paid over to the district treasurer and shall be placed by the district treasurer in the respective funds for which they were collected.

61-35-80. Special assessment record book kept by county auditor - Assessments certified for more than one year. The county auditor shall keep a special assessment record. When any district causes the installments of special assessments for a period of more than one year to be certified, the county auditor shall cause the certified special assessments to be recorded for the respective years and in the amounts shown in the certificate of the district treasurer. The certificate of the district treasurer must include a list of all lots and tracts of land upon which such assessments are levied, designating the purpose of the assessment, the fund to which it belongs, and the installment of such assessment for each year against each lot or tract, including interest.

61-35-81. County treasurer to certify and receipt for amount of special assessments collected - Contents of certificate - Procedure for abatement. Special assessments of any kind certified to the county auditor by the district treasurer must be paid to the county treasurer and included in the receipt required by section 57-20-08. If the county treasurer receives less than the full amount of taxes and special assessments due at any time on any lot or tract of real estate, the county treasurer shall allocate the amount of such payment between taxes and special assessments in proportion to the respective amounts of taxes and special assessments which are then due. When prorating any tax payment received before October fifteenth, the term "due", as it pertains to real estate taxes, includes only the first installment of real estate taxes. Special assessments are not subject to abatement or refund by proceedings under chapter 57-32, but may be reviewed and corrected only in the manner and upon the conditions provided in chapter 40-26. The county treasurer, at the time set by law for the payment to the district treasurer of all the taxes and special assessments collected during the preceding month, shall certify the amounts of special assessments collected. The certificate must state specifically the lot or known subdivision as it appears on the tax books of the county treasurer, and the block, addition, amount collected, and amount credited to each lot or known subdivision, and the year for which the sum was collected. The certificate must be furnished to the district treasurer.

61-35-82. Interest and penalties added to special assessments - County treasurer to collect and pay over. The county treasurer shall add to all special assessments the same interest and penalties that are added in the case of general taxes and at the same time. The county treasurer shall collect the interest and penalties with the special assessments and shall pay all such interest and penalties collected over to the district treasurer.

61-35-83. Special improvement moneys to be kept separate - Designation and numbering of funds - Diversion of moneys prohibited. All special assessments and taxes levied and other revenues pledged under the provisions of this chapter to pay the cost of an improvement constitute a fund for the payment of that cost, including all principal of and interest on bonds and other obligations issued by the district to finance the improvement, and may be diverted to no other purpose. The district treasurer shall hold all moneys received for any such fund as a special fund to be applied to payment for the improvement. Each fund must be designated by the name and number of the improvement district in or for which the special assessments, taxes, and revenues are collected. When all principal and interest on

bonds and other obligations of the fund have been fully paid, all moneys remaining in a fund may be transferred into the general fund of the district.

61-35-84. Bonds - When payable - Amounts - Interest. At any time after entering into a contract for a project to be financed in whole or in part by special assessments, a district may issue temporary and definitive bonds on the project fund, created for that purpose, in the manner and subject to the limitations prescribed in section 40-24-19. If the bonds are issued to finance a sewer or water project, the net revenues derived from the imposition of service charges to be imposed and collected with respect to the project as provided in section 61-35-68 may be pledged to payment of those bonds, except that the first maturity date of any such bond may not be less than two years from the date of issuance. Bonds issued under this section must be in amounts as in the judgment of the board will be necessary for the project. The bonds must bear interest at a rate or rates and be sold at a price resulting in an average net interest cost not exceeding twelve percent per annum if sold at private sale. There is no interest rate ceiling on bond issues sold at public sale or to the state or any of its agencies or instrumentalities. The bonds must state upon their face the purpose for which they are issued and the project fund from which they are payable and must be signed by the chairman of the board and countersigned by the secretary of the district. The bonds must be payable serially in such amounts as the board determines, extending over a period of not more than thirty years.

61-35-85. Bonds may be used in making payments on contract - Bonds payable out of fund on which drawn - May be used to pay special assessments. Improvement bonds may be used in making payments on contracts for construction of the project for which the special assessment fund was created, or may be sold for cash at not less than ninety-eight percent of par and accrued interest, and the proceeds, less accrued interest, must be credited to the construction account of the fund and must be used exclusively to pay those contracts and construction costs. Any balance remaining in any construction account after completion of any project must be transferred to the sinking fund account of the assessment fund. The treasurer of the district shall pay special assessment bonds as they mature and are presented for payment out of the fund on which they are drawn and shall cancel the bonds when paid.

61-35-86. Refunding special assessment bonds - Purposes for which such bonds may be issued - Payment of bonds. Any district having outstanding special assessment bonds, payable in whole or in part out of collections from special assessments, which are past due or which are redeemable, either at the option of the district or with the consent of the bondholders, may issue refunding special assessment bonds if there is not sufficient money in the project fund against which such bonds are drawn to pay the same. The issuance of refunding bonds must be authorized by resolution of the district board. The resolution must describe the bonds to be refunded and their amount and maturity. Refunding bonds may be issued for any of the following purposes:

1. To extend the maturities of bonds payable in whole or in part by special assessments.
2. To reduce the interest on the bonds.

Refunding bonds must bear such date, be in such date, be in such denominations, and mature serially within such time, not exceeding thirty years from date of issuance, as the board determines. The average rate of interest on the bonds may not exceed the average rate of interest on refunded bonds.

The treasurer of the district shall pay special assessment bonds as they mature and are presented for payment out of the fund against which they are drawn and shall cancel the bonds when paid. Any deficiency in any fund created for the payment of district bonds payable in whole or in part out of collections of special assessment taxes must be the general obligation of the district.

61-35-87. Sale of property when general and special assessment taxes are delinquent. Special assessments imposed under this chapter become due and delinquent and are subject to penalties for nonpayment at the same date and rates as first installments of real estate taxes. Real property must be sold to enforce the collection of special assessments or installments of special assessments which have become delinquent at the same time and in the same manner as provided in title 57. The sale must be made by the same officer making the sale as in the case of the sale of real property for general taxes. Delinquent general taxes and delinquent special assessments, or installments thereof, must be advertised and sold together in one sum and one certificate of sale must be issued therefor.

If real estate is sold for both delinquent general taxes and delinquent special assessments or installments of special assessments and there are no bidders, the county auditor shall strike off the parcel of land to the county and one certificate of sale covers both general taxes and special assessments that are delinquent.

If there is no delinquent general property tax against a tract or parcel of land and it is sold for special assessments alone, the certificate of tax sale must state that the sale was for special assessments and, if there is no private bidder the tax sale certificate and tax deed in such case must be issued in the usual course of procedure.

61-35-88. Call for bids - Contents - Advertising. Proposals for the work of making improvements provided for in this chapter that exceed fifty thousand dollars must be advertised for by the board in the official newspaper of the county where the district office is located once each week for two consecutive weeks. The board may cause the work on two or more improvements to be combined in one advertisement and one contract awarded pursuant to that advertisement. The advertisement for bids must:

1. Specify the work to be done according to the plans and specifications on file in the office of the district;
2. Call for bids upon the basis of cash payment for the work;
3. State the time within which the bids will be received; and
4. State the time within which the work on the improvement is to be completed.

The board may require bidders to state also the rate of interest, not exceeding seven percent per annum, which the bonds to be received and accepted by the bidder at par in payment for the work are to bear.

61-35-89. Bid to be accompanied by a bond - Bond retained upon failure of bidder to contract - Amount of bond. Each bid for any work to be done under this chapter must be accompanied by a separate envelope containing a bidder's bond in the amount of five percent of the amount of the bid, executed as provided in this chapter and running to the district that the bidder will enter into a contract for performance of the work in case a contract is awarded to the bidder. If any bidder to whom a contract is awarded fails or refuses to enter into the contract when

requested to do so, the bond accompanying the bidder's bid must be retained by the district as liquidated damages for the failure. The bond must be delivered to the district office and credited to the fund from which the consideration for the work is payable. The sufficiency of any bond filed by a bidder must be determined by the board at the time of considering bids.

61-35-90. Execution of bidder's bond. The bidder's bond must be executed by the bidder as principal and may be provided by a surety company authorized to do business in this state as surety, or by a bank letter of credit, a cash bond, or a certified check.

61-35-91. Conditions of bidder's bond. A bidder's bond must be made payable to the district and conditioned that if the principal's bid is accepted and the contract for the work of improvement awarded to the bidder, the bidder, within ten days after the acceptance of the bid, or within such further time as the board grants, will enter into and execute a contract bond in a sum equal to the amount of the bid, and a contract in writing to and with the district well and faithfully to perform and complete the work for which the bid was accepted, in accordance with the plans and specifications and the terms of the bid and within the time required by the terms of the contract, and that the bidder will pay for all the labor and materials used in such work. The bond must be for the benefit of the district.

61-35-92. Bids - Filing - Sealing - Endorsing - Opening - Considering. Bids for the work to be let under this chapter must be forwarded to the district office and must be sealed securely to prevent opening without detection. There must be endorsed upon the outside of the envelope containing the bid a statement of what work the proposal is for. The bids must be opened by the board at the expiration of the time limited in the advertisement for receiving the same, which may not be less than fifteen days after the first publication of the advertisement, or at such other time as the board may appoint. Only bids that are accompanied by the bond provided for in section 61-35-89 may be considered by the board.

61-35-93. Opening of bids - Bids to be entered on minutes. After the bids have been opened and made public, they must be entered upon the minutes of the meeting of the board of the district at which they are considered, and they must be preserved carefully by the district secretary.

61-35-94. Rejection of bids - Re-advertising for bids or construction by district without contract - Reevaluation of project. If in its opinion the best interests of the district require, the board may reject any and all bids filed under this chapter. If all bids are rejected, the board may:

1. Readvertise for new bids;
2. Cause the work described in the plans, specifications, and estimates to be done directly by the district by the employment of labor and the purchase of materials required, or in any other manner the board considers proper, and payment for the work may be provided through special assessments in the same manner as though the work had been performed under contract, provided this work amounts to no more than fifty thousand dollars; or
3. Cause the work described in the plans, specifications, and estimates to be reviewed and reevaluated by the engineer for the district so that the board may determine whether the entire project or only a portion of the project is feasible.

61-35-95. Engineer's statement of estimated cost required - Board to enter into contracts. Before adopting or rejecting any bid filed under this chapter, the board shall require the engineer for the district to make a careful and detailed statement of the estimated cost of the work. The board may not award the contract to any bidder if the engineer's estimate prepared under this section exceeds the engineer's estimate prepared under section 61-35-54 by forty percent or more. If all bids are not rejected, the board shall award the contract to the lowest responsible bidder, upon the basis of cash payment for the work, if the bidder has furnished the certified check or bidder's bond required under the provisions of this chapter.

61-35-96. Contractor's bond - Execution. Within the time fixed by the board for executing the contract, the successful bidder shall file with the district a contract bond in a sum equal to the full amount of the contract. The bond must be executed by the bidder or contractor as principal and by a surety company authorized to do business in this state as surety.

61-35-97. Conditions for contractor's bond. The contractor's bond must be made payable to the district and must be conditioned:

1. That the contractor well and faithfully will perform the work bid for in accordance with the terms of and within the time provided for in the contract, and pursuant to the plans and specifications for the work on file in the district office;
2. That the contractor will pay for all labor and material used in that work; and
3. That in case of a default on the part of the bidder or contractor in the performance of the work as provided in the contract, the sum named in the bond must be taken and held to cover the amount necessary to compensate the district for the correction, repair, or replacement caused by the default, and that the full amount may be recovered from the bidder and the bidder's sureties in an action by the district against them on the bond only in the event of a complete failure of performance on the part of the contractor. Nothing in this section may be construed to prevent the district from receiving the amount, not in excess of the amount of the bond, necessary to compensate the district for correction, repair, or replacement caused by default of the contractor which does not constitute complete failure of performance by the contractor.

61-35-98. Approval of bonds - Return of bidder's bond. The contractor's bond must be approved by the governing body, and thereupon it is and remains in full force and effect. Upon the execution of the contract and the approval of the contract bond, the bidder's bond must be returned.

61-35-99. Failure to execute contractor's bond. If the successful bidder, within ten days after the acceptance of the bid or such further time as the board may grant, does not execute a contractor's bond and a contract for the completion of the work described in the bid, the board may cause the work to be done, or it may contract with some other contractor to do or complete the work. In that case, the district may recover in a suit on the defaulting bidder's bond the difference between the actual cost to the district of the improvements and the sum that it would have cost if the defaulting bidder had complied with the bidder's bid.

61-35-100. Insufficiency of bonds - New bonds required - Failure to furnish. If the board, at any time, deems the bond of a contractor insufficient either in form or

as to sureties, it may require the successful bidder or contractor to furnish, within such reasonable time as the board may fix, a new bond to be approved by the board. If the contractor fails, after notice, to furnish the new bond within the time required, the contractor's contract may be canceled, and in that event the contractor's bond will be liable as if the contractor had failed to perform the contract.

61-35-101. Execution and filing of contract. All contracts entered into for any work provided for in this chapter must be entered into in the name of the district and must be executed on the part of the district by the president and countersigned by the secretary. After the contract is signed by the contractor, it must be filed in the office of the district.

61-35-102. Conditions and terms. A contract let under this chapter requires the work to be done pursuant to the plans and specifications on file in the office of the district, subject to the approval of the engineer acting for the district, and must provide:

1. That the board has the right to suspend the work at any time for improper construction and to relet the contract or to order a reconstruction of the work as to any part improperly done.
2. The time within which the work must be completed.
3. The period of time for which the work must be guaranteed as to workmanship and materials.
4. The fund from which the contract price is to be paid by the district.
5. That the consideration expressed in the contract is payable only in bonds drawn on the fund described in the contract.
6. That the district assumes and incurs no general liability under the contract.
7. That failure of the engineer to reject work and materials that are not up to specifications and acceptance of the job by the engineer does not release the contractor from liability for any failure on the contractor's part to perform work or furnish materials in accordance with the plans and specifications.

The engineer acting for the district shall supervise and inspect the work during its progress. In addition to any rights a district may have under its contract for construction of part or all of an improvement after a contract has been awarded and before work under the contract has been completed, a district, with the consent of the contractor and without advertising for bids, may order additional work done by that contractor of the same character as the work that was contracted for, whether within or without the improvement district for which the original contract was made, and upon the same terms and conditions specified in the original contract except as to time of performance, and at the same prices for the additional work; provided, that the total price payable to the contractor for the additional work may not exceed twenty percent of the amount estimated by the engineer for the district to be payable for that character of work under the original contract.

61-35-103. Contractor to be paid during progress of work - Retainage - Failure to pay - Rate of interest - Investment of retainage. If the contractor to whom a contract is let properly performs the work designated in the contract, the board, at least once in each calendar month during the continuance of the contract work, shall meet and receive and consider estimates furnished by the agent, engineer, or architect acting for the district or if not so furnished, then by the contractor, and shall allow such estimates in an amount of the estimated value of the labor and material furnished upon the contract, and of the material then upon the ground for use in the contract, subject to retentions as follows: ten percent of each estimate presented until such time as the project is fifty percent completed, with no further retainage on estimates during the continuance of the contract. Upon completion of ninety-five percent of the contract according to the estimates, the board may pay to the contractor ninety-five percent of the amount retained from previous estimates. Any amount retained after ninety-five percent completion of the contract must be paid to the contractor in such amounts and at such times as are approved by the district, upon estimates by its agent, engineer, or architect or the contractor, with final payment of all moneys due to the contractor to be made immediately following completion and acceptance of the project. Immediately after considering and allowing any such estimate, the board shall certify and forward the same to the district treasurer or other official having the power to draw bonds, who forthwith shall draw a warrant upon the proper fund and transmit the same promptly to the contractor. If the board fails or neglects to receive and allow such estimate or certify any estimate or final payment upon completion and acceptance or the proper officer required to issue such warrant fails or neglects to issue a warrant as provided in this section, for a period of more than thirty days from the date of such estimate or completion date, then the estimate or final payment, together with any retainage properly payable, draws interest from its date at the rate per annum of two percentage points below the Bank of North Dakota prime interest rate as set thirty days from the date of such estimate or completion date until the issuance of a proper warrant. Interest must be computed and added to the face of the estimate, final payment, or retainage by the officer required to issue the warrant, must be included in the warrant when drawn, and must be charged to the fund from which payment for the improvement is to be made. On the amounts of estimates retained, as provided in this section, the board, authorized committee, or public body in charge of the work may invest or deposit the retained amounts in any financial association or institution in this state earning interest or dividends for the benefit of the contractor. Any amounts so invested or deposited must remain in the name of the board, authorized committee, or public body in charge of the work until final payment of all money due to the contractor is to be made. Further, a contractor may not use or pledge such account in any manner until released and received by the contractor upon completion of the contract.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²⁸⁵ SECTION 1. AMENDMENT. Subsection 18 of section 65-01-02 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

18. "Fairly traceable to the employment" when used to modify the term "disease" means only a disease ~~which~~ that:
- a. Arises under conditions wherein it is apparent to the rational mind upon consideration of all the circumstances that there is a direct causal connection between the conditions under which the work is performed and the disease;
 - b. Can be seen to have followed as a natural incident of the work as a result of the exposure occasioned by the nature of the employment;
 - c. Can be fairly traced to the employment; or

However, any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease, hypertension, heart disease, or exposure to infectious disease as defined by sections 23-07.3-01 and 23-07.3-02, or occupational cancer in a full-time paid firefighter, resulting in total or partial disability or death is presumed to have been suffered in the line of duty. The condition or impairment of health may not be attributed to any disease existing before that total or partial disability or death unless the contrary is shown by competent evidence. As used in this subdivision, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic,

²⁸⁵ Section 65-01-02 was also amended by section 1 of Senate Bill No. 2280, chapter 609; section 1 of House Bill No. 1225, chapter 607; section 1 of House Bill No. 1366, chapter 606; section 1 of House Bill No. 1252, chapter 608; and section 24 of Senate Bill No. 2037, chapter 456.

A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this subdivision unless that full-time paid firefighter or law enforcement officer has completed ~~two~~ five years of continuous service and has successfully passed a physical examination which fails to reveal any evidence of such a condition. An employer shall require a physical examination upon employment, and annually thereafter, for any employee subject to this subdivision. Results of the examination must be used in rebuttal to a presumption afforded under this subdivision. For purposes of this subdivision, "law enforcement officer" means a person who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, or a city police department. The presumption also does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed more than ten years, if the condition or impairment is diagnosed more than five years after the employment as a full-time paid firefighter or law enforcement officer ends.

SECTION 2. A new section to chapter 65-01 of the North Dakota Century Code is created and enacted as follows:

Yearly documentation required for firefighter and law enforcement officer. Any full-time paid firefighter or law enforcement officer employed on June 30, 1995, is not subject to this section until July 1, 1997.

SECTION 1. AMENDMENT. Section 65-01-11 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

65-01-11. Burden of proof in compensation matters - Death certificate. If the bureau or an employer claims that an employee is not entitled to the benefits of the North Dakota Workers' Compensation Law by reason of the fact that the employee's injury was caused by the employee's willful intention to injure himself, or to injure another, or by reason of the voluntary impairment caused by use of alcohol or illegal use of a controlled substance by the employee, the burden of proving such exemption or forfeiture is upon the bureau or upon the person alleging the same; however, an alcohol concentration level at or above the limit set by the United States secretary of transportation in 49 CFR ~~383.52~~ 383.51 or a level of an illegally used controlled substance sufficient to cause impairment found by a test required by a physician, qualified technician, chemist, or registered nurse and performed as required by the United States secretary of transportation under 49 CFR part 40, at or above the cutoff level in part 40, creates a rebuttable presumption that the injury was due to impairment caused by the use of alcohol or the illegal use of a controlled substance. An employer or a doctor who has reasonable grounds to suspect an employee's alleged work injury was caused by the employee's voluntary impairment caused by use of alcohol or illegal use of a controlled substance may request that the employee undergo testing to determine if the employee had alcohol or the controlled substance in the employee's system at levels greater than the limit set by the United States department of transportation at the time of the injury. If an employee refuses to submit to a reasonable request to undergo a test to determine if the employee was impaired, the employee forfeits all entitlement to workers' compensation benefits arising out of that injury. Any claimant against the fund, however, has the burden of proving by a preponderance of the evidence that the claimant is entitled to participate in the same. In the event of a claim for death benefits the official death certificate must be considered as evidence of death and may not be used to establish the cause of death. ~~If the employee can prove by a preponderance of the evidence, within one year of a denial based upon impairment caused by the use of alcohol or the illegal use of a controlled substance, that the employee has successfully completed treatment with a licensed addiction facility, the employee's benefits must be reinstated. Costs for treatment under this section may not be paid by the bureau.~~

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-05-09.3 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

65-05-09.3. Retirement presumption - Termination of benefits upon retirement.

1. An employee who has retired or voluntarily withdrawn from the labor force and who is not eligible to receive temporary total disability, temporary partial disability, or permanent total disability benefits, or a rehabilitation allowance from the bureau is presumed retired from the labor market and is ineligible for receipt of disability benefits under this title. The presumption may be rebutted by a preponderance of the evidence; however, the subjective statement of an employee that the employee is not retired is not sufficient in itself to rebut objective evidence of retirement that the worker:
 1. Is actively seeking employment;
 2. Is available for gainful employment;
 3. Has not rejected any job offer made by a former employer, or other bona fide job offer by another employer; and
 4. Has not provided the employer, upon written request, with written notice of a scheduled retirement date.

The presumption does not apply to any employee who is permanently and totally disabled as defined under this title.

2. An injured employee who is receiving permanent total, temporary total, or temporary partial disability benefits, or rehabilitation benefits, and who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits, or who is at least sixty-five years old and is eligible to receive social security retirement benefits or other retirement benefits in lieu of social security retirement benefits, is considered to be retired. CHAPTER 624**SENATE BILL NO. 2202**

(Industry, Business and Labor Committee)
(At the request of the Workers Compensation Bureau)

**PERMANENT IMPAIRMENT UNDER WORKERS'
COMPENSATION**

AN ACT to create and enact a new section to chapter 65-05 of the North Dakota Century Code, relating to workers' compensation permanent impairment; to repeal sections 65-05-12, 65-05-12.1, 65-05-13, and 65-05-14 of the North Dakota Century Code, relating to permanent impairment disputes and scheduled injuries; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 65-05 of the North Dakota Century Code is created and enacted as follows:

Permanent impairment - Compensation - Time paid. When a compensable injury results in permanent loss of, or loss of use of, a member of the body, the bureau shall determine a permanent impairment award on the following terms:

1. If the compensable injury causes permanent impairment and the permanent impairment award payable by the bureau is at least two thousand dollars, the injured employee may defer payment of the permanent impairment award for a period of time not to exceed the date the employee reaches age sixty-five. A permanent impairment award payable by the bureau under this subsection must be paid to the employee in a lump sum that consists of the amount of the award plus any interest that has accrued at the actuarial discount rate in use by the bureau. The actuarial discount rate applied to the award is the average actuarial discount rate in effect for the period of deferment of the employee's award. The bureau shall adopt rules implementing any necessary procedures for award payments made under this subsection.
2. If a compensable injury that occurs after July 31, 1995, causes permanent impairment, the bureau shall calculate the amount of the lump sum payable under subsection 1 by multiplying thirty-three and one-third percent of the average weekly wage in this state rounded to the next highest dollar on the date of the original injury, by the number of weeks specified in subsection 15. The bureau shall pay permanent impairment benefits under subsection 1 at the rate of one hundred twenty-two dollars per week for a compensable injury that occurred before August 1, 1995.
3. The bureau shall notify the employee by certified mail, to the last known address of the employee, when that employee becomes potentially eligible for a permanent impairment award. After the bureau has notified the employee, the employee shall file, within one hundred eighty days from the date the employee was notified, a written request for an evaluation for permanent impairment. Failure to file the written request

within the one hundred eighty day period precludes an award under this section.

4. An injured employee is entitled to compensation for permanent impairment under this section only for those findings of impairment that are permanent and that were caused by the compensable injury. The bureau may not issue an impairment award for impairment findings due to unrelated, noncompensable, or preexisting conditions made symptomatic by the compensable work injury.
5. An injured employee is not eligible for an evaluation for permanent impairment until the employee is at maximum medical improvement. The injured employee's doctor shall report to the bureau the date an employee has reached maximum medical improvement and any evidence of impairment of function the injured employee has after that date. A doctor making an evaluation for permanent impairment shall include a clinical report in sufficient detail to support the percentage ratings assigned.
6. Unless otherwise provided by this section, a doctor evaluating the impairment of an injured employee shall use the edition of the American medical association's "Guides to the Evaluation of Permanent Impairment" in effect on the date of the employee's evaluation to establish a rating for impairment of function. A doctor evaluating the impairment of an injured employee resulting from a mental disorder shall use the edition of the American psychiatric association's "Diagnostic and Statistical Manual of Mental Disorders" in effect on the date of the employee's evaluation to establish a rating for the impairment.
7. The bureau shall deduct, from a subsequent award for impairment, any previous award given or calculated on an earlier claim or the same claim for that same member or body part.
8. A rating for impairment of function from an injury to the spinal cord resulting in paraplegia, hemiplegia, or quadriplegia must be calculated based solely on the percentage the impairment of function bears to total impairment of function of the whole body.
9. A rating for impairment of function of the cervical, thoracic, lumbar, or sacral spine must be calculated according to the doctor's diagnosis of the employee's injury or condition that is directly related to the compensable work injury. The rating may not include a rating for other factors, including loss of range of motion, pain, loss of strength, loss of sensation, and radiculopathy unless established by unequivocal electrodiagnostic evidence of nerve root compromise.
10. A rating of impairment of function resulting from injuries other than amputations, injuries to the cervical, thoracic, lumbar, or sacral spine, and injuries to the spinal cord resulting in paraplegia, hemiplegia, or quadriplegia must be based on a diagnosis directly related to the compensable work injury, if the American medical association's "Guides to the Evaluation of Permanent Impairment" provide for an impairment on a diagnostic basis.

11. A rating for impairment of function for loss of strength and sensation must be based on objective medical evidence of nerve damage.
12. A rating of impairment of function due to loss of range of motion must be based on objective medical evidence of structural damage to a joint or loss of motor function.
13. An injured employee is not entitled to a permanent impairment award due solely to pain.
14. If an employee dies, the right to any compensation payable under this section, which remains unpaid on the date of the employee's death, survives and passes to the employee's dependent spouse, minor children, parents, or estate, in that order. If the employee dies, only those findings of impairment that are objectively verifiable such as values for surgical procedures and amputations may be considered in a rating for impairment. Impairment findings not supported by objectively verifiable evidence may not be included in a rating for impairment. 16. An amputation of a finger or toe at the level of the distal interphalangeal joint or proximal to that joint, or the thumb or the great toe at the interphalangeal joint or proximal to that joint, which is determined by the American medical association's "Guides to the Evaluation of Permanent Impairment" to result in a whole body impairment of less than sixteen percent is payable as a sixteen percent impairment.
17. If the percentage of an injured employee's permanent impairment is disputed, all medical evidence must be submitted to an independent

- doctor who has not treated the employee and who has not been consulted by the bureau in relation to the injury upon which the impairment is based. The bureau shall establish a comprehensive list of doctors who are medical specialists within the state. The bureau shall define, by rule, the process by which the bureau and the injured employee choose an independent doctor to review a disputed permanent impairment rating. The decision of the independent doctor chosen under this process is presumptive evidence of the degree of permanent impairment of the employee. This subsection does not impose liability on the bureau for an impairment award for a rating of impairment for a body part or condition the bureau has not determined to be compensable as a result of the injury. The employee bears the expense of witness fees of the independent doctor if the employee disputes the findings of the independent doctor.
18. The bureau shall establish, by rule, a reasonable hourly rate and a maximum fee to compensate an employee's attorney for legal services rendered as a result of the award or denial of compensation for permanent impairment. An attorney's fees are not payable unless there is a bona fide dispute as to the percentage of the employee's permanent impairment or unless there is a dispute as to the employee's eligibility for an award for permanent partial impairment. An attorney's fees payable in connection with a permanent impairment dispute may not exceed twenty percent of the amount awarded upon final resolution of the dispute, subject to the maximum fees established pursuant to section 65-02-08.
 19. An attorney may not seek or obtain from an employee through a contingent fee arrangement, or on a percentage basis, costs or fees payable in connection with the award or denial of compensation for permanent impairment. A permanent impairment award is exempt from the claims of creditors, including an employee's attorney, except as provided by section 65-05-29.

COMPENSATION**

AN ACT to create and enact a new subsection to section 65-05-28 of the North Dakota Century Code, relating to aggravation of a work-related injury for purposes of determining workers' compensation benefits.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new subsection to section 65-05-28 of the 1993 Supplement to the North Dakota Century Code is created and enacted as follows:

If an employee undertakes activities, whether or not in the course of employment, which exceed the treatment recommendations of the employee's doctor regarding the work injury, and the doctor determines that the employee's injury or condition has been aggravated or has worsened as a result of the employee's activities, the bureau may not pay benefits relative to the aggravation or worsening, unless the activities were undertaken at the demand of an employer. An employer's account may not be charged with the expenses of an aggravation or worsening of a work-related injury or condition unless the employer knowingly required the employee to perform activities that exceed the treatment recommendations of the employee's doctor.

WORKERS' COMPENSATION PREFERRED PROVIDERS

AN ACT to allow an employer covered under the workers' compensation act to require the use of preferred providers.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Employer to select preferred provider. Notwithstanding section 65-05-28, an employer subject to this title who maintains an approved risk management program pursuant to section 65-04-19.1 may select a preferred provider to render medical treatment to employees who sustain compensable injuries. "Preferred provider" means a designated provider or group of providers of medical services, including consultations or referral by the provider or providers.

SECTION 2. Preferred provider - Use required - Exceptions - Notice.

1. During the first sixty days after a compensable injury, an employee of an employer who has selected a preferred provider under this section may seek medical treatment only from the preferred provider for the injury. Treatment by a provider other than the preferred provider is not compensable and the bureau may not pay for treatment by a provider who is not a preferred provider, unless a referral was made by the preferred provider. A provider who is not a preferred provider may not certify disability or render an opinion about any matter pertaining to the injury, including causation, compensability, impairment, or disability. This section does not apply to emergency care nor to any care the employee reasonably did not know was related to a compensable injury.
2. An employee of an employer who has selected a preferred provider may elect to be treated by a different provider provided the employee makes the election and notifies the employer in writing prior to the occurrence of an injury.
3. After sixty days have passed following the injury, the employee may make a written request to the bureau to change providers. The employee shall make the request and serve it on the employer and the bureau at least thirty days prior to treatment by the provider. The employee shall state the reasons for the request and the employee's choice of provider.
4. If the employer objects to the provider selected by the employee under subsection 2 or 3, the employer may file an objection to the change of provider. The employer shall detail in the objection the grounds for the objection and shall serve the objection on the employee and the bureau within five days of service of the request. The employee may serve, within five days of service of the employer's objection, a written response on the employer and the bureau in support of the request for change of

provider. Within fifteen days after receipt of the response or of the expiration of the time for filing the response, the bureau shall rule on the request. Failure of the bureau to rule constitutes approval of the request. Treatment by the employee's chosen provider is not compensable until the bureau approves the request. The preferred provider remains the treating provider until the bureau approves the employee's request to change providers.

5. An employer shall give written notice to its employees when the employer makes an initial selection of a preferred provider or changes the selection of the preferred provider. An employer shall give written notice identifying the selected preferred provider to every employee hired after the selection was made. An employer who has selected a preferred provider shall display notice of the preferred provider in a conspicuous manner at fixed worksites, and wherever feasible at mobile worksites, and in a sufficient number of places to reasonably inform employees of the preferred provider and of the requirements of this section. Failure to give written notice or to properly post notice as required under this subsection invalidates the selection, allowing the employee to make the initial selection of a medical provider.

The purpose of defining substantial gainful employment in terms of earnings is to determine the first appropriate priority option under subsection 4 ~~of section 65-05.1-04~~ which meets this income test set out above.

SECTION 3. AMENDMENT. Section 65-05.1-04 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

65-05.1-04. Injured employee responsibility.

1. The injured employee shall seek, obtain, and retain reasonable and substantial employment ~~in order~~ to reduce the period of temporary disability to a minimum. The employee has the burden ~~to establish~~ of establishing that the employee has met this responsibility.
2. If the injured employee is unable to obtain substantial employment as a direct result of injury, the employee shall promptly notify the bureau under subdivision b of subsection 7 of section 65-05.1-01.
3. The injured employee shall be available for testing under subsection 6 or 7 of section 65-05.1-02, and for any further examinations and testing as may be prescribed by the bureau to determine whether or not a program of rehabilitation is necessary. The injured employee also shall participate in remedial or other educational services when those services are determined to be necessary by the bureau or the vocational consultant. If the employee is noncompliant with this subsection, the bureau shall suspend benefits during the period of noncompliance.
4. If the first appropriate rehabilitation option under subsection 4 of section 65-05.1-01 is return to the same ~~or~~, modified ~~position~~, or alternative occupation, or return to ~~related~~ an occupation that is suited to the employee's education, experience, and marketable skills, or on-the-job training, the employee is responsible to make a good faith work trial or work search. If the employee fails to perform a good faith work trial or work search, the finding of nondisability or partial disability is res judicata, and the bureau may not reinstate temporary total disability benefits or recalculate an award of partial disability benefits in the absence of a significant change in medical condition attributable to the work injury. ~~However, the~~ The bureau shall recalculate the partial disability award, ~~however~~, if the employee returns, in good faith, to gainful employment. If the employee meets the burden of proving that the employee made a good faith work trial or work search and that the work trial or work search was unsuccessful due to the injury, the bureau shall reevaluate the employee's vocational rehabilitation claim. A good faith work search that does not result in placement is not, in itself, sufficient grounds to prove the work injury caused the inability to acquire gainful employment. The employee shall

show that the injury significantly impacts the employee's ability to successfully compete for gainful employment in that the injury leads employers to favor those without limitations over the employee.

5. If the first appropriate rehabilitation option under subsection 4 of section 65-05.1-01 is short-term or long-term training, the employee shall cooperate with the necessary testing to determine whether the proposed training program meets the employee's medical limitations and aptitudes. The employee shall attend a qualified rehabilitation training program when ordered by the bureau. A qualified training program is a rehabilitation plan that meets the criteria of this title, ~~which is the approved option of the rehabilitation consultant, or is a stipulated rehabilitation plan under subsection 6 of section 65-05.1-01,~~ and commences within a reasonable period of time such as the next quarter or semester. The bureau and the employee, by agreement, may waive the income test applicable under this subsection.

6. If, without good cause, the injured employee fails to perform a good faith work trial in a return to the same ~~or, modified position, or alternative occupation,~~ or in an on-the-job training program, or fails to make a good faith work search in return to work utilizing the employee's transferable skills, the employee ~~must be deemed to be~~ is in noncompliance with vocational rehabilitation. If, without good cause, the injured employee fails to attend specific vocational testing, remedial, or other vocational services determined necessary by the bureau or the rehabilitation consultant, the employee is in noncompliance with vocational rehabilitation. If, without good cause, the injured employee fails to attend a scheduled medical or vocational assessment, or fails to attend a specific qualified rehabilitation program within ten days from the date the rehabilitation program commences, the employee ~~must be deemed to be~~ is in noncompliance with vocational rehabilitation. If, without good cause, the employee discontinues a job the employee is performing, or a training program in which the employee is enrolled, the employee ~~must be deemed to be~~ is in noncompliance with vocational rehabilitation. If the employee establishes a pattern of noncooperation as heretofore described, involving two or more incidents of noncooperation at any time the employee is noncompliant without good cause, subsequent efforts by the employee to come into compliance with vocational rehabilitation may are not be deemed considered successful compliance until the employee has successfully returned to the job or training program for a period of sixty days. In all cases of noncompliance by the employee, the bureau, by administrative order, shall discontinue lost-time benefits. If, ~~upon~~ after the bureau order ~~becoming~~ becomes final, the period of noncompliance continues for sixty days, or a second instance of noncompliance occurs without good cause, the bureau has no further jurisdiction in awarding any further temporary total disability, temporary partial disability, permanent total disability, or vocational rehabilitation benefits.

²⁹¹ SECTION 4. AMENDMENT. Subdivision b of subsection 2 of section 65-05.1-06.1 of the 1993 Supplement to the North Dakota Century Code is amended and reenacted as follows:

ADVERTISEMENTS IN WORKERS COMPENSATION BUREAU PUBLICATIONS

AN ACT to amend and reenact section 65-02-09 of the North Dakota Century Code, relating to the inclusion of advertisements in publications of the workers compensation bureau.

VETO

March 22, 1995

The Honorable Clarence Martin
Speaker of the House
State Chamber
State Capitol
Bismarck, ND 58505

RE: House Bill 1251

Dear Speaker Martin:

I am returning House Bill 1251, and hereby veto the same pursuant to Article V, Section 9 of the North Dakota Constitution.

The intent of the bill is to allow the North Dakota Workers Compensation Bureau to solicit persons to place advertisements in any publication. The bill allows the Bureau to apply any revenues generated from the advertising to the cost of publishing and distributing the information, and any excess revenue from this act shall be placed in the Bureau's fund.

The legislation, however well intentioned, raises some serious questions. Subsequently, I have these major objections:

1. Government should not be, and does not belong, in the advertising business.
2. There is great potential for conflict of interest. A business involved in negotiations over a pending claim with the Bureau might feel pressured to purchase advertising since the outcome of the case is in doubt.
3. This sets a dangerous precedent. Where will the search for advertising dollars stop? If we allow one state agency to solicit advertising, why then shouldn't another state agency, such as the Tax Department, be

allowed to solicit advertising to help defray the costs of printing and distributing the state income tax forms?

4. I believe this legislation sends the wrong message to the business and labor community. The mission of the Bureau is to service the needs of the employees and employers, not to solicit businesses for advertising dollars in an effort to reduce costs. Also, I feel strongly that reports from state agencies should contain facts that only pertain to the department. Allowing advertising compromises this policy.

For these reasons, I cannot concur with House Bill 1251, and regretfully veto the same and return the bill to your chamber.

Sincerely,

Edward T. Schafer
Governor

RE: House Bill 1180

Dear Speaker Martin:

Attached please find House Bill 1180, which I am returning to the House, and hereby veto.

The bill seeks to allow Adult Amateur Athletic teams affiliated with public entities to apply for, and receive a permit to run a raffle. Incidentally, it would allow them also to run sports pools and bingo activity. I believe this to be an expansion of gaming by public entities.

I have, therefore, vetoed the bill and respectfully return the same to the House Chambers.

RE: Senate Bill 2067

I am filing with your office, Senate Bill 2067, with my objections thereto, having vetoed the same for the following reasons:

1. This bill was a legitimate effort at resolving complex legal issues, involving the Governor's authority to enter into gaming compacts without legislative oversight, and whether the compacts which were required by federal law, can expressly abrogate state open records law.

These issues are not only complex, but are sensitive as well, involving the relationship of the executive and legislative branches of government, and state-tribal relationships. The bill addresses a number of issues, through the Legislature's recognition of the compacts, and by providing for legislative input for any amendment of the compacts. However, it raises serious questions for the tribes, regarding the state's ability to amend the compacts through future legislation, which the tribes consider to be an unauthorized and unilateral amendment to these agreements.

2. The legislature wisely endorsed SCR 4012, which calls for a study of negotiation, amendment, and renewal of the Indian gaming compacts and requires input from the tribal governments in that effort. That effort should provide us with substantial insight and support for any efforts to clarify these issues during the next legislative session.
3. The compacts themselves provide that either party may seek to amend them, by initiating discussions with the other. (The compacts do NOT allow for unilateral amendment.) If negotiations are initiated in the

future, I have assured the legislative leadership to seek legislative input regarding any of those discussions.

4. The bill if signed, would create a substantial risk of litigation over these sensitive and complex issues. I would prefer to resolve these issues by continuing the dialogue that was initiated months ago. I have spoken with each of the tribal chairs, who recognize the need to continue those discussions and have informed them of the state's interest in having all of these issues fully resolved in an open and timely manner. Senator Stenehjem has also agreed to participate in those discussions to seek a satisfactory resolution.
5. Most importantly perhaps, is the potential impact that the bill may have on long-term state and tribal relations. Currently, the state enjoys a sound and cooperative relationship with each of the tribes in North Dakota. That relationship is important for all North Dakotans. That relationship extends beyond gaming issues, and includes issues regarding game and fish, water development, social concerns, transportation and a host of other issues. Each tribe has made substantial investments in reliance upon the compacts signed years ago. Millions of dollars have been committed to the gaming infrastructure within each reservation based upon the express terms of the compacts themselves. If the State can amend those compacts by legislation today, then what would prevent the State from doing so in the future? Signing SB 2067 into law will drive a wedge deep into the relationship that we have successfully fostered and nurtured for years, and will cause serious harm to state-tribal relations.

The issues surrounding this controversy are legitimate. They need resolution. However, a deal is a deal. North Dakota will stand by its agreements, and we will find other solutions to these concerns.

For these reasons, I respectfully veto SB 2067, and forward the same to you, pursuant to Article V, section 9 of the North Dakota Constitution.

Sincerely,

Edward T. Schafer
Governor

RE: Senate Bill 2013

Dear Secretary Jaeger:

Pursuant to Article V, Sections 9 and 10 of the North Dakota Constitution, I am filing Senate Bill 2013 with your office having signed the same, and hereby veto the \$100,000 appropriation for multitype library authority in subdivision 2 of section one.

I asked for \$4,000 for multitype library authority in the executive budget recommendation. The bill appropriates \$100,000 for that purpose and requires the Legislative Council to study the state library, cooperative library ventures and research and information system during the interim. I cannot approve of this expenditure in view of the study, and the unsettled roll of regional libraries in relation to the state library system. I don't believe making large investments in a system that is currently under review is a wise use of taxpayer dollars. In vetoing the appropriation, I am mindful of the financial constraints of libraries in our State. However, I believe that it is more prudent to complete the study of the system, and then make appropriate investments to best serve all of North Dakota's people.

For these reasons, I respectfully veto this expenditure and file SB 2013 with your office.

Sincerely,

Edward T. Schafer

RE: Senate Bill 2015

Dear Mr. Secretary:

Pursuant to Article V, Sections 9 and 10, of the North Dakota Constitution, I am filing with your office SB 2015 which I have signed, and am vetoing Section 5 of the bill. Section 5 essentially appropriates \$100,000 for legislative committee room renovations from the \$7,069,297 line item appropriation for Facility Management. In effect, section 5 is an appropriation within an appropriation. The \$100,000 is to be used for another legislative hearing room in the capital complex. In vetoing section 5, it is my intent to veto the appropriation of the \$100,000 as well. My reasons for doing so are set forth below.

At present, the capitol has two large rooms for committee hearings, the Brynhild Haugland room and the Pioneer room. Legislative history of section 5 indicates an intent to divide the Pioneer room into two smaller hearing rooms. That would leave only the Brynhild Haugland room for large meetings and hearings within the capitol

building. I am opposed to reducing to one the number of larger hearing rooms available to State government and the citizens of North Dakota. This is more evident, knowing that there are other rooms available to the Legislature in the complex that are not being used for committee work.

In vetoing section 5, I am cognizant of the law as determined by the North Dakota Supreme Court concerning the Governor's line item veto authority in State ex rel. Link v. Olson, 286 NW2d 262 (N.D. 1979). My intention is to fully comply with the law as provided by our State's highest court.

For these reasons, I respectfully veto section 5 of SB 2015, and file the same with your office.

Edward T. Schafer

RE: Senate Bill 2017

Dear Secretary Jaeger:

Pursuant to Article V, Sections 9 and 10, I am filing Senate Bill 2017 with your office, having signed the same, and having vetoed Section 6 as authorized by the North Dakota Constitution.

Section 6 appropriates \$2,250,000 from the veterans post war trust fund, for use as permanent endowments for operations of the veterans home and cemetery. The appropriation is contingent upon the next executive budget and becomes operative if the 1997-1999 budget recommendation identifies and requests any appropriation from the veterans post-war trust fund. My objections to Section 6 of the bill follow.

I do not approve of making appropriations based upon a future contingency, which is tied to the next executive budget recommendation. I do not plan to make any appropriation request from the veterans post war trust fund in the next budget. However, if I were to do so, a request for any amount would make the \$2,250,000 operative. This contingency then impedes the authority of the executive branch to design its budget for legislative examination. Even though the next executive budget recommendation would not be the final budget, it would operate as the mechanism that would release funds appropriated in Section 6.

Secondly, the veterans post war trust fund was established by law. The income derived from it was to be used "only for programs of benefit and service to veterans." Section 6 is not supported by North Dakotas

veterans. I believe they deserve the State's consideration as we consider the expenditure and commitment of funds in the postwar trust fund that was dedicated to their use and benefit.

For these reasons, I must respectfully veto Section 6 and enclose SB 2017.

Sincerely,

Edward T. Schafer

RE: Senate Bill 2066

Dear Secretary Jaeger:

Pursuant to Article V, Section 9, I am filing with your office, Senate Bill 2066, with my objections thereto, having vetoed the same.

The bill would start a new International Trade Council through which the legislature would monitor trade issues.

First, I have sought to streamline North Dakota's government. One of the ways that I have done this is through the merging and elimination of boards and commissions where possible. Creating a new council goes against this trend. International trade includes marketing of North Dakota products, which is already being done by ED&F. In that regard, this council would duplicate those efforts.

Secondly, I agree with the principal of the bill, that the International Trade is a complex area of the law. Currently, however, the State is responding appropriately to those issues. North Dakota receives information and guidance from a variety of sources including: WGA, NGA, NCSL, and NAAG. Agencies, including Legislative Council, within the state are also coordinating their efforts, and sharing information to properly respond to issues and demands relative to international trade and its impact upon North Dakota law and policy.

For these reasons, I respectfully veto SB 2066, and return it to you.

Sincerely,

Edward T. Schafer
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. International trade coordinating council - Membership. The international trade coordinating council consists of the lieutenant governor, the attorney general or a designee of the attorney general, the commissioner of agriculture or a designee of the commissioner, the director of the department of economic development and finance or a designee of the director, three members of the senate and three members of the house of representatives appointed by the chairman of the legislative council, and the person appointed by the governor to be the United States trade representative point of contact. The lieutenant governor is chairman.

SECTION 2. International trade coordinating council - Support services. The department of economic development and finance may provide support services required to achieve the objectives of the council.

SECTION 3. International trade coordinating council - Functions. The international trade coordinating council shall oversee and coordinate policies and activities relating to international affairs of the state. The council shall coordinate efforts to meet requirements and deadlines under international trade treaties. The council shall coordinate the dissemination of information regarding international trade treaties and state requirements, responsibilities, and opportunities under the treaties. The council may make recommendations to the legislative assembly regarding proposed legislation and appropriations. The council may provide information concerning trade promotion to public and private entities.

SECTION 4. APPROPRIATION. There is hereby appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$46,000, or so much of the sum as may be necessary, for expenses that are incurred by the members of the legislative assembly while carrying out the duties and responsibilities of the international trade coordinating council for the biennium beginning July 1, 1995, and ending June 30, 1997.

LEGISLATIVE ASSEMBLY RECONVENED SESSIONS

VETO

April 4, 1995

The Honorable Clarence Martin
Speaker of the House
State Chamber
State Capitol
Bismarck, ND 58505

RE: House Bill 1435

Dear Speaker Martin:

Mr. Speaker:

I am returning HB 1435, which I am vetoing for the reasons set forth below. The bill allows the legislature to reconvene at the call of the legislative council, after adjournment from the traditional session. I am vetoing the legislation for three reasons.

1. I have serious questions of the constitutionality of the bill. Our Constitution provides that the Legislature will meet in December for orientation and organization, and will reconvene not later than January 11th. Article IV, section 7, continues that the "regular session" will not exceed 80 days; that the days need not be consecutive, and that the Legislature may authorize its committees to meet anytime during the interim. But, there is no express authority to reconvene during the biennium. Finally, Article V, section 5, of the Constitution provides that the Governor "shall have power to convene the legislative assembly on extraordinary occasions." Over the course of many decades, this authority has been used by Governors to call for special sessions when they were appropriate. History will show that Governors have been sensitive to the interests and wishes of legislators. I intend to follow suit, and would consider the request of the Legislature to call a special session when the assembly or its members felt it necessary.
2. Secondly, the bill may impinge upon traditional executive branch authority. Our Constitution provides for a carefully balanced separation of powers, where each branch of government is held in check by the

dispersion of power between the other two branches of government. In that division, the Legislature is to establish public policy, and the executive branch is charged with executing those policies. I fully intend to faithfully execute the laws established by the legislature. However, I believe that HB 1435 begins to erode the carefully crafted separation of powers in the North Dakota Constitution, so I will not approve of any legislation for that reason alone.

3. Finally, I believe the bill advances a public policy that does not reflect the wishes of the People, by permitting the extension of a legislative session beyond its traditional time period. The people of North Dakota do not approve of annual legislative sessions, and this bill begins that process. I cannot approve a bill that begins to allow Legislature to hold sessions outside the usual period during which the session has been held for over a hundred years.

For these reasons, I must veto HB 1435, and respectfully return it to the House of Representatives.

Sincerely,

Edward T. Schafer
Governor

PUBLICATION OF CITY GOVERNMENT MINUTES

An initiated measure to create a new section of the North Dakota Century Code, relating to the publication of city government minutes, and to repeal section 40-08-12 of the North Dakota Century Code, relating to the publication of city council proceedings.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. Publication of city government proceedings - Electorate to decide. Beginning with the 1996 biennial municipal elections, and every four years thereafter, all cities in North Dakota, regardless of their form of government, must put on the ballot the question of whether the minutes of its governing body shall be published in its official newspaper. If voters approve publication, the governing body shall, within seven days after each of its meetings, give its official newspaper, for publication, the complete minutes, or a complete summary showing the substantive actions taken at the meeting.

Roll call votes must be published, but may be indicated as "unanimous" where appropriate. A list of the individual checks written by the city and approved by the governing body, showing the payee and the amount of each check, must be published. However, employee salary checks need not be published if the governing body elects to publish an annual salary schedule for each employee. When applicable, these minutes may be labeled, as being published subject to the governing body's review and revision. The minutes shall continue to be published until disapproved at a succeeding quadrennial election.

STATE LAND AND MINERAL INTEREST EXCHANGES

STATEMENT OF INTENT

This amendment allows for the exchange of land and mineral interests between the board of university and school lands and private owners and Indian tribes and eliminate the requirement that the board of university and school lands reserve mineral rights in all land transfers.

BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the following proposed amendment to section 6 of article IX of the Constitution of North Dakota is agreed to and must be submitted to the qualified electors of North Dakota at the primary election to be held in June 1996, in accordance with section 16 of article IV of the Constitution of North Dakota.

SECTION 1. AMENDMENT. Section 6 of article IX of the Constitution of North Dakota is amended and reenacted as follows:

Section 6. No original grant school or institutional land shall be sold for less than the fair market value thereof, and in no case for less than ten dollars (\$10.00) per acre, provided that when lands have been sold on contract and the contract has been canceled, such lands may be resold without reappraisal by the board of appraisal. The purchaser shall pay twenty (20) percent of the purchase price at the time the contract is executed; thereafter annual payments shall be made of not less than six (6) percent of the original purchase price. An amount equal to not less than three (3) percent per annum of the unpaid principal shall be credited to interest and the balance shall be applied as payment on principal as credit on purchase price. The purchaser may pay all or any installment or installments not yet due to any interest paying date. If the purchaser so desires, he may pay the entire balance due on his contract with interest to date of payment at any time and he will then be entitled to proper conveyance.

All sales shall be held at the county seat of the county in which the land to be sold is situated, and shall be at public auction and to the highest bidder, and notice of such sale shall be published once each week for a period of three weeks prior to the day of sale in a legal newspaper published nearest the land and in the newspaper designated for the publication of the official proceedings and legal notices within the county in which said land is situated.

No contract of sale heretofore made under the provisions of this section of the constitution as then providing shall be affected by this amendment, except prepayment of principal may be made as herein provided.

Any of said lands that may be required for townsite purposes, schoolhouse sites, church sites, cemetery sites, sites for other educational or charitable institutions, public parks, airplane landing fields, fairgrounds, public highways, railroad right of way, or other railroad uses and purposes, reservoirs for the storage of water for irrigation, irrigation canals, and ditches, drainage ditches, or for any of the purposes for which private lands may be taken under the right of eminent domain under the constitution and laws of this state, may be sold under the provisions of this article, and shall be paid for in full at the time of sale, or at any time thereafter as herein provided. ~~Any of said lands and any other~~ lands controlled by the board of university and school lands, including state ~~coal~~ mineral interests, may, with the approval of ~~said~~ the board, be exchanged for lands and ~~coal~~ mineral interests of the United States, the state of North Dakota or any county or municipality thereof ~~as the legislature may provide, Indian tribe, or any private individual or entity,~~ and the lands so acquired shall be subject to the trust to which the lands exchanged therefor were subject; ~~and the state shall reserve all mineral and water power rights in land so transferred, except coal mineral interests approved for exchange by the board of university and school lands under this section.~~

When any of said lands have been heretofore or may be hereafter sold on contract, and the purchaser or his heirs or assigns is unable to pay in full for the land purchased within twenty years after the date of purchase and such contract is in default and subject to being declared null and void as by law provided, the board of university and school lands may, after declaring such contract null and void, resell the land described in such contract to such purchaser, his heirs or assigns, for the amount of the unpaid principal, together with interest thereon reckoned to the date of such resale at the rate of not less than three (3%) percent, but in no case shall the resale price be more than the original sale price; such contract of resale shall be upon the terms herein provided, provided this section shall be deemed self-executing insofar as the provisions for resale herein made are concerned.

That house shall immediately enter the governor's objections upon its journal. If, by a recorded vote, two-thirds of the members elected to that house pass a vetoed item or bill, it, along with the statement of the governor's objections, must immediately be delivered to the other house. If, by a recorded vote, two-thirds of the members elected to the other house also pass it, the vetoed item or bill becomes law.

While the legislative assembly is in session, a bill becomes law if the governor neither signs nor vetoes it within three legislative days after its delivery to the governor. If the legislative assembly is not in session, a bill becomes law if the governor neither signs nor vetoes it within fifteen days, Saturdays and Sundays excepted, after its delivery to the governor.

A governor who asks, receives, or agrees to receive any bribe upon any understanding that the governor's official opinion, judgment, or action shall be influenced thereby, or who gives or offers, or promises the governor's official influence in consideration that any member of the legislative assembly shall give the member's official vote or influence on any particular side of any question or matter upon which the member may be required to act in the member's official capacity, or who menaces any member by the threatened use of the governor's veto power, or who offers or promises any member that the governor will appoint any particular person or persons to any office created or thereafter to be created, in consideration that any member shall give the member's official vote or influence on any matter pending or thereafter to be introduced into either house of the legislative assembly, or who threatens any member that the governor will remove any person or persons from office or position with intent in any manner to influence the action of that member, must be punished in the manner now, or that may hereafter be, provided by law, and upon conviction thereof forfeits all right to hold or exercise any office of trust or honor in this state.

SECTION 11. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The lieutenant governor shall succeed to the office of governor when a vacancy occurs in the office of governor. If, during a vacancy in the office of governor, the lieutenant governor is unable to serve because of death, impeachment, resignation, failure to qualify, removal from office, or disability, the secretary of state shall act as governor until the vacancy is filled or the disability removed.

SECTION 12. If Senate Concurrent Resolution No. 4013 is not approved by the fifty-fourth legislative assembly, or if Senate Concurrent Resolution No. 4013 is approved by the fifty-fourth legislative assembly but is not approved by the qualified electors at the primary election held in 1996, then the following new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The lieutenant governor shall serve as president of the senate. If the senate is equally divided on a question, the lieutenant governor may vote on procedural matters and on substantive matters if the lieutenant governor's vote would be decisive.

BOARD OF HIGHER EDUCATION MEMBERSHIP

A concurrent resolution for the amendment of subsection 2 of section 6 of article VIII of the Constitution of North Dakota, relating to the appointment and terms of members of the state board of higher education.

STATEMENT OF INTENT

This amendment reduces the term of office for members of the board of higher education from seven to four years and provides that members may not serve more than two terms. The amendment requires that the membership of the board be maintained in a balanced and representative manner, that no more than one person holding a bachelor's degree from a particular institution serve on the board at any one time, and that the president pro tempore of the senate and the speaker of the house be added to the nominating committee for the board of higher education.

BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the following proposed amendment to subsection 2 of section 6 of article VIII of the Constitution of North Dakota is agreed to and must be submitted to the qualified electors of North Dakota at the general election to be held in 1996, in accordance with section 16 of article IV of the Constitution of North Dakota.

SECTION 1. AMENDMENT. Subsection 2 of section 6 of article VIII of the Constitution of North Dakota is amended and reenacted as follows:

2. a. The state board of higher education consists of eight members. The governor shall appoint seven members who are qualified electors and taxpayers of the state, and who have resided in this state for not less than five years immediately preceding their appointments. These seven appointments are subject to confirmation by the senate.

The governor shall appoint as the eighth member of the board a full-time resident student in good academic standing at an institution under the jurisdiction of the state board. Except for the student member, no more than one graduate of any person holding a bachelor's degree from a particular institution under the jurisdiction of the state board of higher education may serve on the board at any one time. Except for the student member, no person employed by any institution under the control of the board shall serve as a member of the board and no employee of any such institution may be eligible for membership on the state board of higher education for a period of two years following the termination of employment.

The governor shall nominate from a list of three names for each position, selected by ~~the unanimous~~ action of four of the

following five persons: the president of the North Dakota ~~educational~~ education association, the chief justice of the supreme court, ~~and~~ the superintendent of public instruction, the president pro tempore of the senate, and the speaker of the house of representatives and, with the consent of a majority of the members-elect of the senate, shall appoint from the list to the state board of higher education seven members. The governor shall ensure that the board membership is maintained in a balanced and representative manner. The term of office of members appointed to fill vacancies at the expiration of said terms shall be for ~~seven~~ four years, and in the case of vacancies otherwise arising, appointments shall be made only for the balance of the term of the members whose places are to be filled. A member may not be appointed to serve for more than two terms. If a member is appointed to fill a vacancy and serves two or more years of that term, the member is deemed to have served one full term.

- b. In the event any nomination made by the governor is not consented to and confirmed by the senate, the governor shall again nominate a candidate selected from a new list. The nomination shall be submitted to the senate for confirmation and the proceedings shall continue until an appointee has been confirmed by the senate or the session of the legislature has adjourned.
- c. If a term expires or a vacancy occurs when the legislature is not in session, the governor may appoint from a list selected as provided, a member who shall serve until the opening of the next session of the legislature, at which time the appointment must be certified to the senate for confirmation. If the appointee is not confirmed by the thirtieth legislative day of the session, the office shall be deemed vacant and the governor shall nominate another candidate for the office. The same proceedings shall be followed as are set forth in this section. If the legislature is in session at any time within six months prior to the date of the expiration of the term of any member, the governor shall nominate a successor from a list selected as above set forth, within the first thirty days of the session and upon confirmation by the senate the successor shall take office at the expiration of the incumbent's term. No person who has been nominated and whose nomination the senate has failed to confirm is eligible for an interim appointment. On or before July first of each year, beginning in 1995, the governor shall appoint a student member from a list of names recommended by the executive board of the North Dakota student association for a term of one year, beginning on July first. A student member may not serve more than two consecutive terms.

WHEAT GRADING CHANGES URGED

A concurrent resolution urging the Federal Grain Inspection Service to disseminate useful information about technological and regulatory changes affecting the grading of wheat and to encourage the use of first official grades at destination ports.

WHEREAS, the production and sale of wheat directly impacts the economic well-being of farmers and country elevators, and indirectly impacts rural communities, the state, and the nation;

WHEREAS, recent technological advances and regulatory changes have affected the grading of wheat by the country elevators that purchase the wheat from the farmer and by the destination ports that receive the wheat for export; and

WHEREAS, inconsistencies between the test results of wheat that is first graded at country elevators and then graded at destination ports result in country elevators being placed at substantial financial risk;

That the Fifty-fourth Legislative Assembly urges the Federal Grain Inspection Service to disseminate useful information about technological and regulatory changes affecting the grading of wheat; and

BE IT FURTHER RESOLVED, that the Federal Grain Inspection Service be urged to recognize the effect that inconsistently graded wheat has on farmers and country elevators and therefore encourage the use of contractual provisions requiring acceptance of first official grades as the price and quality determinants at destination ports; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the administrator of the Federal Grain Inspection Service and to each member of the North Dakota Congressional Delegation.

**FUNDING LOST FROM ABSENCE OF HELMET LAW
RESTORATION URGED**

A concurrent resolution urging Congress to repeal those sections of a recently passed federal mandate requiring a percentage of federal highway funds be transferred from states that do not enact statutes requiring the use of helmets by motorcyclists.

WHEREAS, the Tenth Amendment to the United States Constitution, part of the original Bill of Rights, reads as follows, "The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people"; and

WHEREAS, the limits on Congress' authority to regulate states' activities, prescribed by the Tenth Amendment, have gradually been eroded, and federal mandates to the states that infringe on these protected areas have become almost commonplace; and

WHEREAS, the regulation of traffic and motor vehicle safety laws is constitutionally the province of state, not congressional, authority; and

WHEREAS, a recently passed federal mandate would require a percentage of federal highway funds be transferred from states that do not enact statutes requiring the use of helmets by motorcyclists; and

WHEREAS, while the stated goal of the federal mandate, to reduce highway fatalities and injuries through increased use of motorcycle helmets, is certainly praiseworthy, it is the opinion of the Fifty-fourth Legislative Assembly that the passage of such legislation by the Congress of the United States would be a blatant transgression upon the states' regulatory authority under the Tenth Amendment;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Fifty-fourth Legislative Assembly urges the Congress of the United States to repeal those sections of the federal mandate that infringe upon the states' constitutional authority to regulate traffic and motor vehicle safety within their respective boundaries and, specifically, to refrain from mandating the passage of state laws requiring the use of motorcycle helmets or precluding their repeal; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Speaker of the United States House of Representatives, the President Pro Tempore of the United States Senate, and to each member of the North Dakota Congressional Delegation, urging them in the performance of their elected responsibilities to protect and strengthen the position of the states in the federal union, avoid intrusion upon states prerogatives, and afford protection to the proper governing authorities of the states.

**DEVILS LAKE FLOOD EMERGENCY DECLARATION
URGED**

A concurrent resolution urging the Governor to declare an emergency concerning the impending flood disaster in the Devils Lake basin and to recognize the impending flood disaster facing property owners adjacent to Devils Lake.

WHEREAS, the high precipitation experienced in the Devils Lake basin the past two years has caused millions of dollars in flood damage to roads, bridges, culverts, cropland, homes, businesses, and other public facilities in the Devils Lake basin; and

WHEREAS, most of the runoff from the 3,800-square-mile Devils Lake drainage basin ultimately finds its way into Devils Lake and has caused the lake to rise eight and one-half feet during the past 18 months; and

WHEREAS, the water level of Devils Lake has been on a general rise since 1940 reaching an elevation of 1430.9 mean sea level on January 1, 1995, a level almost three and one-half feet above flood stage, currently causing an estimated \$1.2 million in damage to roads, homes, cabins, agricultural land, and public facilities adjacent to the lake; and

WHEREAS, the State Engineer has forecast that, with normal spring runoff, Devils Lake may rise an additional one and one-half feet in 1995, causing flood damage in excess of \$10 million; and

WHEREAS, a \$30 million to \$40 million sport fishery of national acclaim has been developed at Devils Lake and will be seriously threatened if water elevation falls to around 1422 mean sea level as it did in early 1993; and

WHEREAS, economic losses of this magnitude due to either devastation of the Devils Lake sport fishery from low water levels or as a result of flooding from high runoff will have a significant negative effect on the entire region and the state; and

WHEREAS, research has shown that Devils Lake water levels can vary widely, with the lake sometimes going completely dry to times when the lake level exceeds an elevation of 1457 mean sea level, the overflow level into the Sheyenne River;

DEVILS LAKE FLOOD EMERGENCY URGED

A concurrent resolution urging the Governor to declare an emergency concerning the impending flood disaster in the Devils Lake basin and urging the Governor to mobilize the National Guard to combat the flood emergency developing in the Devils Lake basin.

WHEREAS, the high precipitation experienced in the Devils Lake basin the past two years has caused millions of dollars in flood damage to roads, bridges, culverts, cropland, homes, businesses, and other public facilities in the Devils Lake basin; and

WHEREAS, most of the runoff from the 3,800-square-mile Devils Lake drainage basin ultimately finds its way into Devils Lake and has caused the lake to rise eight and one-half feet during the past 18 months; and

WHEREAS, the water level of Devils Lake has been on a general rise since 1940 reaching an elevation of 1430.9 mean sea level on January 1, 1995, a level almost three and one-half feet above flood stage currently causing an estimated \$1.2 million in damage to roads, homes, cabins, agricultural land, and public facilities adjacent to the lake; and

WHEREAS, the State Engineer has forecast that, with normal spring runoff, Devils Lake may rise an additional one and one-half feet in 1995 causing flood damage in excess of \$10 million; and

WHEREAS, research has shown that Devils Lake water levels can vary widely with the lake sometimes going completely dry to times when the lake level exceeds an elevation of 1457 mean sea level, the overflow level into the Sheyenne River;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-fourth Legislative Assembly urges the Governor to declare an emergency concerning the impending flood disaster in the Devils Lake basin and to mobilize the National Guard to combat the flood emergency developing in the Devils Lake basin; and

BE IT FURTHER RESOLVED, that upon mobilization the National Guard construct a canal or other appropriate feature from Devils Lake to the Stump Lake system and from the Stump Lake system to the Sheyenne River to alleviate flooding in the Devils Lake basin; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Governor, the Adjutant General, the State Engineer, and to each member of the State Water Commission.

MISSOURI RIVER MASTER MANUAL REVISION

A concurrent resolution urging the United States Army Corps of Engineers to include provisions for the protection of recreation, municipal, industrial, irrigation, and other interests on the Missouri River in North Dakota in developing a revised master manual for the future operation of the Pick-Sloan project.

WHEREAS, the Flood Control Act of 1944, as amended, assured benefits to all ten states within the Missouri River basin under a control and management program that came to be commonly known as the Pick-Sloan project; and

WHEREAS, the Congress of the United States has directed the United States Army Corps of Engineers to build, operate, and maintain all the features of the Pick-Sloan project; and

WHEREAS, the Pick-Sloan project provides major flood control benefits, recreational benefits, water supply benefits, hydropower benefits, and navigational benefits for the downstream states of Iowa, Nebraska, Missouri, and Kansas through construction of large reservoirs in states lying upstream from these states, and by channelizing the Missouri River from Sioux City, Iowa to St. Louis, Missouri at federal expense; and

WHEREAS, the Pick-Sloan project reservoirs have been in place for many years, thus providing the downstream states in the Missouri River basin all of the benefits promised in the Pick-Sloan project; and

WHEREAS, construction of facilities under the Pick-Sloan project has, to date, resulted in \$4.9 billion of flood protection to downstream interests and has allowed these downstream interests to develop the original floodplain of the Missouri River for industrial, municipal, and agricultural uses; and

WHEREAS, under the Pick-Sloan project, North Dakota has sacrificed over 550,000 acres of land, which has meant the permanent loss of 2,641 jobs, \$45 million of annual personal income, and \$131 million of annual gross business volume; and

WHEREAS, the United States Army Corps of Engineers is now in the process of revising its master manual for the operation of the entire Pick-Sloan project in future years; and

WHEREAS, the construction of the Pick-Sloan project has divided the Missouri River in North Dakota into four distinct regions, namely, the Missouri River reach above Williston, Lake Sakakawea, the Missouri River reach from Garrison Dam to the headwaters of Lake Oahe, and Lake Oahe; and

WHEREAS, as the recreation industry on the Missouri River mainstem in North Dakota, which has developed into a \$67 million per year industry, suffered

severely when the United States Army Corps of Engineers allowed lake levels to drop drastically during the drought of the late 1980s and the early 1990s; and

WHEREAS, the United States Army Corps of Engineers, in its new proposed operation plan called the Missouri River Master Manual Preferred Alternative, is planning to allow Lake Sakakawea to drop to 1,775 feet msl and Lake Oahe to 1,540 feet msl, in future drought years, thereby again severely damaging the recreation industry; and

WHEREAS, the river banks in the Garrison Dam to Oahe Reservoir reach consist of ancient floodplain deposits that have been and will be severely eroded with great loss of valuable land whenever high water flows are released from Garrison Dam; and

WHEREAS, the irrigators, fishermen, boaters, industrial and municipal water intakes, dredged channels, and marinas have all utilized the moderate summer river levels of the Garrison to Oahe reach both before and after the construction of the Garrison Dam; and

WHEREAS, the United States Army Corps of Engineers in its proposed master manual is proposing high spring releases every third year and these releases will cause severe bank erosion and loss of much valuable land; and

WHEREAS, the United States Army Corps of Engineers is also proposing very low water releases during the summer to allow endangered shore birds to nest which will seriously affect many irrigators, recreation users, water intakes, dredged channels, and marinas;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-fourth Legislative Assembly requests the United States Army Corps of Engineers to respect the large sacrifice North Dakota has made so the Pick-Sloan project could be built; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers, in its new master manual, provide for Lake Sakakawea minimum levels of at least 1,802 feet msl, and Lake Oahe levels of at least 1,569 feet msl, so that North Dakota's flourishing recreation industry may continue to operate; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers, in its master manual, carefully examine the proposed high and very high spring water releases on the free flowing reaches of the Missouri River, and minimize impacts to the unnecessary loss of valuable land and the increase in flood damages; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers, in its master manual, continue the moderate summer "irrigation and recreation releases" that have been highly satisfactory to the river users of this reach; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers more evenly balance the needs of endangered species in the upper Missouri River basin with the requirements for water supply and recreation, and flood control in the free flowing stretches of the Missouri River; and

BE IT FURTHER RESOLVED, that Governor Schafer, Senator Conrad, Senator Dorgan, Representative Pomeroy, the state engineer and staff, director of the Game and Fish Department and staff, and many others be commended for their efforts to date and are urged to continue to work diligently at the local and national levels to influence the United States Army Corps of Engineers to adopt a master manual for the future operation of the Missouri River that is acceptable to all areas of the Missouri River in North Dakota; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Division Commander of the Missouri River Division of the United States Army Corps of Engineers in order to be part of the public record for the Missouri River Master Manual Draft Environmental Impact Statement; the Secretary of the Army; the Secretary of the Interior; the District Engineer, Omaha District, United States Army Corps of Engineers; the Governor, each member of the State Water Commission; and each member of the North Dakota, South Dakota, Wyoming, and Montana Congressional Delegations.

MISSOURI RIVER BANK PROTECTION

A concurrent resolution urging the Congress of the United States and the United States Army Corps of Engineers to assume responsibility for Missouri River bank erosion downstream from all Pick-Sloan project dams, including the Garrison Dam to Oahe Reservoir reach in North Dakota, and to continue a program of annually appropriating funds for the maintenance and construction of bank protection projects.

WHEREAS, the Flood Control Act of 1944, as amended, assured benefits to all ten states within the Missouri River basin under a control and management program that came to be commonly known as the Pick-Sloan project; and

WHEREAS, the Congress of the United States has directed the United States Army Corps of Engineers to build, operate, and maintain all the features of the Pick-Sloan project; and

WHEREAS, the Pick-Sloan project provides major flood control benefits, recreational benefits, water supply benefits, hydropower benefits, and navigational benefits for states lying below Sioux City, Iowa, through construction of large reservoirs in states lying above that point, and by channelizing the Missouri River from Sioux City, Iowa to St. Louis, Missouri, at federal expense; and

WHEREAS, the Pick-Sloan project reservoirs have been in place for many years, thus providing the downstream states in the Missouri River basin all of the benefits promised in the Pick-Sloan project; and

WHEREAS, construction of facilities under the Pick-Sloan project has, to date, resulted in \$4.9 billion of flood protection to downstream interests and has allowed these downstream interests to develop the original floodplain of the Missouri River for industrial, municipal, and agricultural uses; and

WHEREAS, the United States Army Corps of Engineers has stabilized and continues to maintain the entire channel of the Missouri River from Sioux City, Iowa to St. Louis, Missouri, all at federal expense; and

WHEREAS, under the Pick-Sloan project, North Dakota has sacrificed over 550,000 acres of land, which has meant the permanent loss of 2,641 jobs, \$45 million of annual personal income, and \$131 million of annual gross business volume; and

WHEREAS, almost two-thirds of the inexpensive hydroelectric power generated by Garrison Dam in North Dakota which was built pursuant to the Pick-Sloan project is used in states other than North Dakota; and

WHEREAS, the United States Army Corps of Engineers stated in its final report to Congress dated December 1981 concerning the Missouri River streambank erosion that "bank erosion in this reach results in a permanent net loss of high value

lands. This process, unless halted, would eventually transform the present river into a wide area of sandbars and channels, occupying an increasing proportion of the valley width between the bluffs"; and

WHEREAS, the lands adjacent to the Missouri River have been and will continue to be seriously eroded and permanently lost to the local landowners and the state of North Dakota because of reservoir management that releases highly fluctuating amounts of clear water capable of eroding and transporting large amounts of soil; and

WHEREAS, soil eroded from the banks of the Missouri River is being deposited as a delta in the headwaters of the Oahe Reservoir and Lake Sakakawea thereby causing the watertable to rise under the adjacent land, and is increasing the frequency and severity of ice jam hazards and has, according to recent United States Army Corps of Engineers pronouncements, endangered 6,000 acres of land containing 40 homes and valuable farmland around Lake Oahe, and in the headwaters area of Lake Sakakawea, the delta is endangering the Buford-Trenton irrigation district, is endangering the water intake for the city of Williston, and many acres of valuable farmland; and

WHEREAS, a similar bank erosion problem exists for a 58-mile reach on the South Dakota-Nebraska border downstream from the Gavins Point Dam and also between Fort Peck Dam in Montana and Lake Sakakawea; and

WHEREAS, destructive bank erosion continues when high winter water releases for power generation occur; and

WHEREAS, Section 33 of the Water Resource Development Act of 1988 amended the Flood Control Act of 1944 and directed the Secretary of the Army to undertake measures that the Secretary of the Army determines are needed to alleviate bank erosion and related problems associated with reservoir releases along the Missouri River between Fort Peck Dam in Montana and a point 58 miles downstream of the Gavins Point Dam on the South Dakota-Nebraska border; and

WHEREAS, at the request of Congress, a 1988 General Accounting Office study agreed that since the closure of the Garrison Dam accretion no longer occurs and a net loss of land results and the study also identified one option of funding bank stabilization projects as allocating these costs, whether economically justifiable or not, to Pick-Sloan Project purposes; and

WHEREAS, Congress appropriated \$1.5 million in fiscal year 1992 and \$1.5 million in fiscal year 1993 for the purpose of protecting the banks of the Missouri River; and

WHEREAS, the United States Army Corps of Engineers has not used any of these funds, except for maintenance of existing bank protection projects, and insists that new protection projects cannot be constructed unless a benefit cost ratio greater than one exists which is contrary to the language and intent of Section 33 of the Water Resource Development Act of 1988 and contrary to the funding criteria of many other projects the United States Army Corps of Engineers has found necessary as a completion of the Pick-Sloan project;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-fourth Legislative Assembly urges the Congress of the United States to assume responsibility for the protection of lands endangered below all Pick-Sloan project dams by the operation of the Pick-Sloan project; and

BE IT FURTHER RESOLVED, that Congress is urged to continue a program of annually appropriating funds to repair existing bank protection projects now in danger of failure and to begin to construct bank protection projects in the most critical locations; and

BE IT FURTHER RESOLVED, that Senator Kent Conrad, Senator Byron Dorgan, and Congressman Earl Pomeroy are urged to work diligently with the Senators and Congressmen of the states of Montana, South Dakota, and Nebraska to secure appropriations of these necessary funds; and

BE IT FURTHER RESOLVED, that funding for this project not be a normal federal water project appropriation, but rather be charged to the construction and maintenance of the Pick-Sloan project; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers be urged to initiate a program to construct bank protection structures along the Missouri River between Fort Peck and a point 58 miles downstream of Gavins Point Dam, as directed by Section 33 of the Water Resource Development Act of 1988; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Secretary of the Army; Secretary of the Interior; District Engineer, Omaha District, United States Army Corps of Engineers; the Governor; each member of the North Dakota State Water Commission; and each member of the North Dakota, South Dakota, Nebraska, and Montana Congressional Delegations.

WHEREAS, Indian gaming is authorized by the federal Indian Gaming Regulatory Act of 1988; and

WHEREAS, one of the purposes of the federal Indian Gaming Regulatory Act of 1988 is to promote tribal economic development, tribal self-sufficiency, and strong tribal government; and

WHEREAS, in compliance with the Indian Gaming Regulatory Act of 1988, the state has executed five tribal-state compacts with the tribes of this state; and

WHEREAS, the state is facing complex legal, social, and economic challenges with the appearance of casino gaming and other high-stakes gaming on Indian lands in the state; and

**POWER MARKETING ADMINISTRATIONS SALE
OPPOSED**

A concurrent resolution urging the President and the Congress to reject any proposal to sell any of the power marketing administrations or otherwise dispose of their assets.

WHEREAS, the Western Area Power Administration is one of five power marketing administrations that markets hydroelectric power from dams along the Missouri River and other river systems in the western United States; and

WHEREAS, hydroelectric power produced by the power marketing administrations is a key component of supplying electricity for North Dakota's rural electric cooperatives, municipal utilities, state institutions, and federal installations located in North Dakota; and

WHEREAS, hydroelectric power is marketed to these customers at cost-base rates that fully repay the federal government's cost of investment as well as interest, operation, and maintenance expenses; and

WHEREAS, hydroelectric power helps North Dakota's farmers, ranchers, small businesses, cities, and state institutions to keep expenses for electricity lower than they otherwise might be; and

WHEREAS, proposals brought forth at the federal level have suggested that sale of the power marketing administrations is one method to raise funds to reduce the federal deficit; and

WHEREAS, these proposals are receiving serious consideration by the Administration and the Congress; and

WHEREAS, the sale of hydropower assets would threaten consumer-owned utilities, state institutions, and federal installations with uncertainty of supply and significantly increase wholesale power costs; and

WHEREAS, any sale would undermine the economic stability of the state's consumer-owned utility customers, state institutions, and federal installations located in this state; and

WHEREAS, any sale would renege on the existing multiuse concept of the Pick-Sloan plan for the Missouri River basin; and

WHEREAS, any sale would impede the efficient operation of federal multipurpose water projects that provide flood control protection and water for irrigation, domestic use, and recreation purposes; and

WHEREAS, the Legislative Assembly is strongly opposed to the sale, transfer, exchange, lease, or other disposition of federal power marketing administrations or the power plants or related facilities used for the production and transmission of electricity;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

WHEREAS, the national grasslands in North Dakota extend over 1.2 million acres and support approximately 550 ranch families who belong to six cooperative grazing associations; and

WHEREAS, farming and ranching in the national grasslands contribute \$24.3 million directly to the local economies and another \$50.5 million indirectly; and

WHEREAS, parents of severely emotionally disabled persons age 22 and younger often require access to public funds in order to provide out-of-home mental health services; and

WHEREAS, out-of-home mental health services are provided in an equal manner regarding residence of families, unrealistic time lines, and requirements of court action to receive services; and

WHEREAS, the parents of children in attendance at the state's nonpublic schools also support the public school system through payment of sales, income, and property taxes; and

WHEREAS, many parents with children in attendance at the state's nonpublic schools incur significant financial burdens because they have selected an educational alternative to the public school system; and
