135 Fordhook Giant Swiss Chard

BURPEE NOVELTY FOR 1924

BURPEE'S FORDHOOK GIANT is an outstanding new Swiss Chard, which, in addition to its great value as a vegetable, makes such a handsome plant that it might be grown solely for decorative purposes in our flower borders. The color of the leaves is a rich blue-green, much crinkled or savoyed, the fully grown leaves averaging 10 inches in width by 2½ feet in length. The entire plant makes a

magnificent bush, not quite 2½ feet in diameter. The texture of the leaves is thick and fleshy, and their quality is highly appreciated when they are boiled. The stems

or stalks are pearly white and they measure 2½ inches in width. They are thick and succulent, and may be served as a separate dish in the same manner as asparagus, for which it is a splendid summer substitute.

FORDHOOK GIANT is a greatly improved variety of Swiss Chard, and we feel sure it will, when known, become the most popular Swiss Chard in cultivation. With every year more and more gardeners are including Swiss Chard in their planting list, as it is one of the great health-giving greens and there is no more profitable vegetable for the market grower as it will yield continuously. Greens in abundance are absolutely essential to our general health and well-being and they may be had in a most palatable form in our

NEW FORDHOOK GIANT SWISS CHARD. Even in markets where

Swiss Chard is little known it sells well under the name of Summer Spinach. Pkt. 25¢; oz. 45¢; 4 ozs. \$1.35; ½ lb. \$2.50; 1b. \$4.50.

1117 Burpee's Self-Pruning Tomato

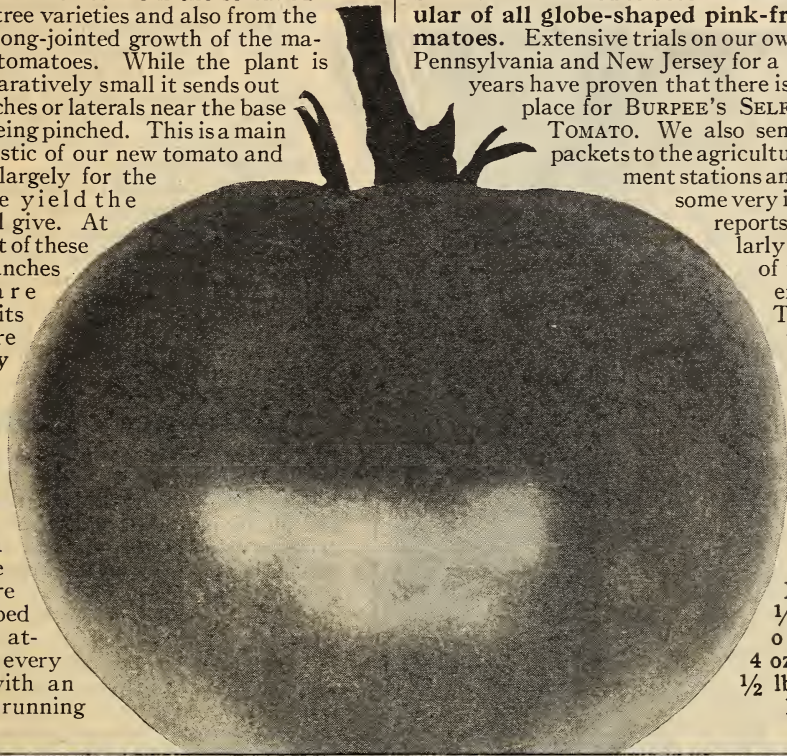

BURPEE NOVELTY FOR 1924

BURPEE'S NEW SELF-PRUNING TOMATO is entirely distinct from all other tomatoes we have ever seen. The name Self-Pruning explains one of the outstanding characteristics of this most valuable novelty. The habit of the plant is distinct from the so-called dwarf or tree varieties and also from the ordinary long-jointed growth of the majority of tomatoes. While the plant is still comparatively small it sends out side-branches or laterals near the base without being pinched. This is a main characteristic of our new tomato and accounts largely for the immense yield the plants will give. At every joint of these lateral branches there are borne fruits which are perfectly smooth and very solid. The color of the skin is a bright pinkish red. The fruits are globe-shaped and most attractive in every respect, with an even color running

from the stem to the blossom end. The interior of the fruit is a deep carmine-red and the flesh is solid, juicy, and altogether free from fiber or a hard core.

In season it is a second-early variety and we believe it is destined to become the most popular of all globe-shaped pink-fruited tomatoes. Extensive trials on our own farms in Pennsylvania and New Jersey for a number of years have proven that there is a distinct place for BURPEE'S SELF-PRUNING TOMATO. We also sent out trial packets to the agricultural experiment stations and received some very interesting reports, particularly from some of the southern states. The variety was found to be as disease-resistant as some special strains which were bred for this purpose.

Tomatoes are a Great Burpee Specialty

Two Fine New Sweet Corns for 1924

Never since the introduction of Burpee's famous Golden Bantam Sweet Corn had we seen a variety which, in our opinion, could measure up to that wonderful little gem, until Dr. Herbert Hoffman, of Merchantville, N. J., called our attention to two sports which originated in his garden.

Dr. Hoffman, who practises osteopathy in Philadelphia, is a devoted gardener and an enthusiastic Burpee booster. Dr. Hoffman says: "During the fall of 1916 I found among my Golden Bantam an ear which showed all the characteristics of that variety but which had a few white kernels in it. No other corn being in the vicinity, I was very much interested in following up the origin of the white kernels and therefore separated them from the yellow kernels on the ear.

The following season I was much astonished to find that both came perfectly true. When I tried the first ears I was struck by the similarity of flavor between Golden Bantam and my twin sports which had also grown considerably larger ears the following year."

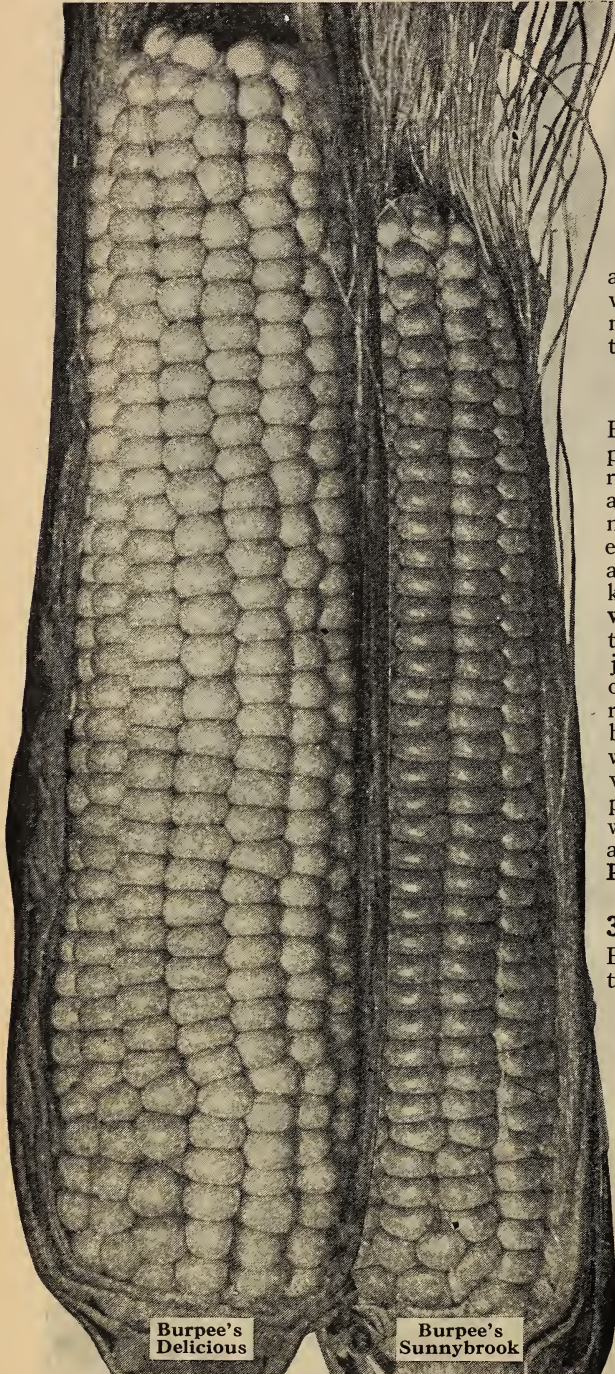

After we had tested both the white and the yellow varieties for a number of years and under varying conditions of soil and weather, we fully agreed with Dr. Hoffman that both Burpee's Sunnybrook and Burpee's Delicious have inherited the wonderful sweet buttery flavor of the mother Golden Bantam, besides growing to considerably larger size.

316 Burpee's Delicious

BURPEE'S DELICIOUS is a strong grower with plenty of healthy deep green foliage. As a rule each stalk bears at least **two fine ears** and quite often an individual plant will make as many as three or four stalks. The ears measure close to **eight inches in length** and they are closely filled with broad deep kernels. The color of the kernels is pearly **white** and it seems that the strong substantial husk aids considerably in preventing injury to the ears due to insects or bad weather conditions. BURPEE'S DELICIOUS is most remarkable on account of its **most delicious** buttery flavor. No other white Sweet Corn we know of, and we have tested almost every variety that has ever been offered, can compare with it in richness. This is the only white Sweet Corn that has the substance and flavor of Burpee's Golden Bantam. Pkt. 25¢; 1/2 lb. 95¢; 1b. \$1.75.

325 Burpee's Sunnybrook

BURPEE'S SUNNYBROOK is the other one of the twin sports and in size is a trifle smaller than Burpee's Delicious, but it makes up for its smaller size in maturing in from a few days to a week earlier. The ears have a small core and are closely set with broad kernels of a **bright yellow** color. BURPEE'S SUNNYBROOK is extremely meaty and of a **luscious sweet** flavor, which heretofore was the sole property of Golden Bantam. Growing to larger size it will be welcome to all those who showed preference for an ear somewhat larger than Burpee's Golden Bantam. We feel convinced that this will prove one of the most salable varieties on almost all markets. On account of its rich creamy color, it should prove of special value for canning purposes. Pkt. 25¢; 1/2 lb. 95¢; 1b. \$1.75.

833 Burpee's Sunnybrook Pepper

The Sweetest and Most Prolific of all Pimento Peppers

BURPEE'S NEW SUNNYBROOK PEPPER is sure to become a leading variety for market as well as for home use. Early in September, when inspecting our fields of BURPEE'S SUNNYBROOK PEPPER on Burpee's Sunnybrook Farm in Gloucester County, New Jersey, we were very much pleased to find that our expectations for this fine variety did not only hold true but surpassed anything we had ever anticipated.

The plants are much branched and all side shoots are heavily set with fruit. Upon counting a few plants we found that they bear as many as **40 perfect ripe fruits** on one plant.

The bushes grow 15 inches high and measure approximately 22 inches in diameter. The branches, laden with clusters of fruit, bend down under the weight of the peppers. The photograph illustrates well the characteristic habit of the clusters. The individual fruits run from $2\frac{1}{2}$ to $3\frac{1}{4}$ inches in diameter.

They are from 2 to $2\frac{1}{4}$ inches deep from stem to blossom end. The skin is smooth and glossy, of a rich deep scarlet color.

The most remarkable feature of BURPEE'S SUNNYBROOK PEPPER is its sweetness. We do not know of any other variety of pepper which really is as **sweet and palatable** as BURPEE'S SUNNYBROOK PEPPER.

The flesh is **unusually thick** and in well-developed fruits measures five-eighths of an inch in thickness, surpassing in that respect any other pepper. The foliage is rich deep green, smooth, and seems to resist insects and diseases well. Its shape and solidity make it a foremost **shipping variety** not liable to be damaged. BURPEE'S SUNNYBROOK PEPPER is a wonderful novelty. It matures very early, bears fruits continuously until frost, and is truly the sweetest and most tasty of all peppers. $\frac{1}{2}$ oz. 65¢; oz. \$1.20; 4 ozs. \$3.60; $\frac{1}{2}$ lb. \$6.60; lb. \$12.00.

Sweet as an Apple One of the visitors to Burpee's Sunnybrook Farm in New Jersey, when first tasting the new Sunnybrook Pepper, exclaimed: "My! It's as sweet as an apple."

Burpee's Sunnybrook Pole Lima Bean

Introduced by Burpee in 1922

The HOUSE OF BURPEE has reason to be proud of its work in connection with the improvement and introduction of new lima beans. The first large-podded bush lima bean in existence, namely, Burpee's Bush Lima, was introduced by us in 1890. In 1907 both the Burpee Improved Bush Lima and Fordhook Bush Lima were placed on the market by Burpee. In 1910 Burpee's Giant-Podded Pole Lima was introduced by Burpee, and in 1922 we offered this most outstanding pole lima bean which we have named BURPEE'S SUNNYBROOK POLE LIMA BEAN.

The main features of this fine new pole lima bean are its **extreme earliness** and **tremendous prolificness**, both qualities which are of **foremost importance to market growers**. The long flower-spikes are produced in great abundance from the base of the plant, in some instances even before the vines have taken hold of the pole, to the very summit of the vine. The individual spikes carry from 5 to 10 pods of large size. Each pod is closely packed with 4, and often 5, large thick meaty light green beans of the **finest quality**. It is considerably earlier in producing pods ready for picking than any other large-seeded pole lima, and has proven to be even as **early** as the Small-Seeded Carolina or Sieva variety.

The vines are of most vigorous growth, producing many lateral or side branches, all of which are literally covered with the deep green pods throughout the season. The plants begin to set pods even before they have made any appreciable growth of vines.

*The illustration shows how
freely the pods are produced
and how well they are filled
with luscious beans*

One of the foremost lima bean growers in California assured us that, besides Burpee's Giant - Podded Pole Lima for late use, he **would grow no other variety but Burpee's Sunnybrook Pole Lima**. An opinion like this from an authority on the subject speaks indeed well for this variety.

At the time of writing this page we have again had an opportunity to convince ourselves that this wonderful new pole lima bean fully lives up to the remarkable claims we made two years ago when we first introduced it to our friends and customers. It has proven to be a remarkable yielder of unusual earliness and superb quality. Market growers will find that it sells very readily on account of the good appearance of the pods.

Pkt. 25¢; ½ lb. 40¢; lb. 75¢; 10 lbs. \$7.20.

66 Burpee's New PHILADELPHIA Bush Lima

The Earliest Maturing of all Lima Beans

The introduction of BURPEE'S PHILADELPHIA BUSH LIMA marks a distinct advance in the development of this popular and delicious vegetable. We are proud to realize that again we have an outstanding and **most meritorious novelty** in our NEW PHILADELPHIA BUSH LIMA. It is the result of a cross between Burpee's Fordhook Bush Lima and Wood's Prolific, and embodies the good qualities of both parents. The pods are ready for picking seven days ahead of Wood's Prolific and are of considerably larger size.

All extra-early varieties of Bush Limas hitherto introduced have small pods which usually contain but two or three beans, while our NEW PHILADELPHIA BUSH LIMA produces pods which are comparatively **large, flat, and nearly straight**. The average pods measure $4\frac{3}{4}$ inches in length and $1\frac{1}{8}$ inches in width, containing four fair-sized flat beans of **excellent quality**. In color and general appearance the foliage is similar to Wood's Prolific, but slightly larger. The plants are of upright habit, **producing pods in the greatest abundance** well to the tip of the flower spikes which rise clear above the foliage. The earlier pods, however, are set quite close to the ground and are borne in **clusters of six to eight**. Southern planters will find that it far surpasses the bush Sieva or "Butter Bean," as it matures its pods considerably earlier and bears a much heavier crop.

BURPEE'S PHILADELPHIA BUSH LIMA is hardy and requires a comparatively short season, which is of the greatest importance to our northern customers who are located in sections where other Lima Beans cannot be successfully grown due to the short season. In other sections its earliness will mean bigger profits for the market grower.

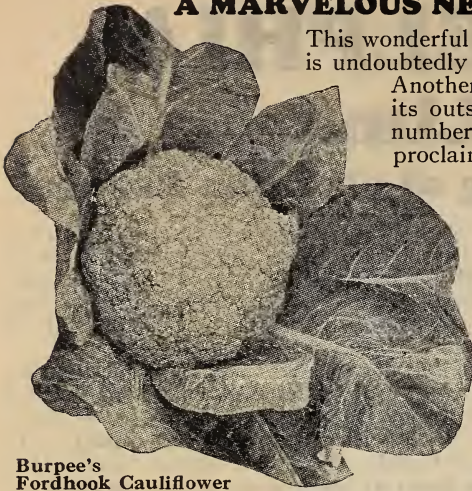

Pkt. 25¢; $\frac{1}{2}$ lb. 35¢; lb. 60¢; 10 lbs. \$5.80.

246 **Burpee's Fordhook Cauliflower**

A MARVELOUS NEW EARLY CAULIFLOWER

Burpee's
Fordhook Cauliflower

This wonderful new cauliflower was introduced by us last year. It is undoubtedly the **finest and best of all early cauliflowers**.

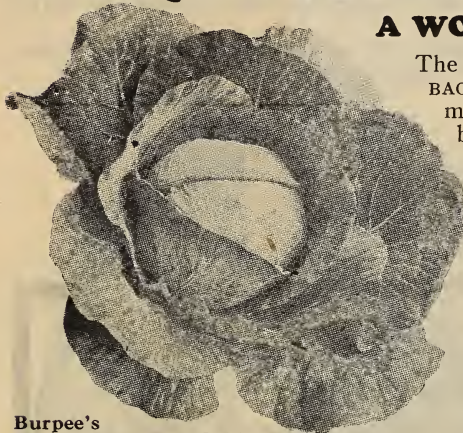

Another season's experience with this variety has proven its outstanding merits. We have had occasion to talk to a number of growers who have tried it and all unanimously proclaim it the best early cauliflower in existence.

The plants are **dwarf and compact**, measuring about 16 inches in diameter. The stem is short so that the head is produced quite close to the ground. The heads are very firm and solid. They measure 6 to 9 inches in diameter and are of the very finest quality.

BURPEE'S FORDHOOK CAULIFLOWER has never failed to form good heads in our trials, even in a most unfavorable season, and when all other early varieties were almost a complete failure. The curd is snow-white, even, and exceptionally solid. We have cut fine heads in 85 days after sowing Pkt. 25¢; ¼ oz. 80¢; ½ oz. \$1.55; oz. \$3.00; 4 ozs. \$9.00; ½ lb. \$16.50; lb. \$30.00.

166 **Burpee's Fordhook Forcing Cabbage**

A WONDERFUL NEW EARLY CABBAGE

Burpee's
Fordhook Forcing Cabbage

The introduction of BURPEE'S FORDHOOK FORCING CABBAGE has been of quite some importance, particularly to market growers, as it is essential to get into the market before there is an abundance of cabbage.

While BURPEE'S FORDHOOK FORCING CABBAGE is admirably **adapted for forcing** it is mostly, however, grown for **first early in the open**. The plants form comparatively small heads. They are perfectly round and of unusual solidity. On account of the few small outer-leaves, the plants may be set as closely as 8 inches apart so that the yield in weight from an equal area is fully as heavy as that received from varieties with larger heads. BURPEE'S FORDHOOK FORCING CABBAGE originated with our friend Mr. Hartmann, of Copenhagen, Denmark. Pkt. 25¢; oz. \$1.20; 4 ozs. \$3.60; ½ lb. \$6.60; lb. \$12.00.

119 **Burpee's New Sunnybrook Beet**

Burpee's
Sunnybrook
Beet

This is a new beet which should prove of unusual value, particularly to market growers, as it combines earliness, good appearance, and good quality. The roots are almost **globular** in form and sometimes slightly flattened. They are of medium size and have a rich **dark crimson** skin. When bunched they make a most attractive appearance. The flesh is deep crimson throughout. It is extremely juicy, fine-grained, **tender**, and very **sweet**. The foliage is deep green, veined with rich crimson. The stalks of the leaves are also a rich deep crimson color. In cross section the beet makes the most attractive appearance with its alternate rings of deep crimson and blackish crimson. One of the outstanding characteristics of

BURPEE'S SUNNYBROOK BEET is the fact that it retains its color well during cooking. It is an ideal all season variety and excellent for storing. Pkt. 15¢; oz. 20¢; 4 ozs. 45¢; ½ lb. 85¢; lb. \$1.50.

Chinese or Celery Cabbage

NOTE.—Ten pounds or more will be supplied at 100-pound rates

The most essential requirement for successfully raising Chinese cabbage is cool weather. Where the summers are warm, sowing must be delayed until early August. In the vicinity of Philadelphia, the first week of August is the best time. The plants develop quickly, forming large, tightly folded heads of tender leaves which are well blanched in the heart. Chinese cabbage can be served as salad like lettuce or, when cut, makes a delicious cold-slaw. Boiled, it is even more palatable than ordinary cabbage.

Burpee's Floradale Farms

The many acres of this California Home of Flowers are devoted to the growing of selected stocks of the finest varieties of Flower seeds. For its Sweet Peas alone it is famous the world over. Alyssum, Snapdragon, Larkspurs, Calendulas, Marigolds and others, too numerous to mention, grow to perfection in the fertile climate of sunny Santa Barbara County. A visit to Floradale Farms when the Sweet Peas and other Flowers are in bloom is worth a trip across the continent.

Burpee's Sunnybrook Farm

The warm soils of Gloucester County, New Jersey, are particularly well adapted for the growing of some of the more tender crops. At Sunnybrook Farms we grow seed of Peppers, Egg Plants, Melons, and Cucumbers and the famous Sunnybrook strain of Earliana Tomato, as well as many other Vegetables and choice Flower seeds. And at Sunnybrook Farm we make our purity trials of Melons, Squashes, Pumpkins and other Vine crops.

Burpee's Fordhook Farms

The largest and most complete trial grounds in America are located near Doylestown, Bucks County, Pennsylvania. It is at Fordhook Farms that we test and prove the quality, the vitality and purity, of every lot of seed sold by the House of Burpee. Each year over 15,000 germination tests are made in the greenhouses at Fordhook, and over 7,000 purity trials in the open trial grounds, in addition to the numerous plantings for stock seed selection. Here also are acres of Tomatoes, Phlox, Poppies, Salvia, Zinnia and many other Vegetable and Flower Seed crops.

BURPEE'S ANNUAL—The Leading American Seed Catalog

BURPEE'S ANNUAL for 1924 is an interesting book of 188 pages with more than a hundred of the finest vegetables and flowers illustrated in colors. It tells the plain truth about the Best Seeds That Grow.

BURPEE'S ANNUAL is indispensable as a reference book for market growers and florists. It gives true and detailed descriptions of all the leading vegetables and flowers, with hundreds of illustrations throughout the book. Our notes on planting dates and the information regarding the quantities of seed to sow are accurate and have been compiled from notes taken on our FORDHOOK FARMS in Pennsylvania. Keep your copy of BURPEE'S ANNUAL handy.

Burpee's New

THE PRESIDENT

w Sweet Pea

ENT HARDING

Named by Special Permission of the Late

PRESIDENT OF THE UNITED STATES

The President Harding is the greatest new Sweet Pea of the century. It originated on Burpee's Floradale Farms in California, the home of the Burpee Sweet Peas.

The blooms are magnificent in every way. They are bold and impressive, yet well proportioned and of exquisite texture. Both the standard and wings are attractively waved and crimped. The flowers are borne profusely, nearly every stem holding four large blooms.

**The President Harding is an entirely new color in Sweet Peas
Peach Red or Salmon Cerise suffused Orange**

The President Harding Sweet Pea was awarded the highest honors both in America and England. The American Sweet Pea Society gave it the ONLY SILVER MEDAL for the finest new Sweet Pea. The National Sweet Pea Society of Great Britain acknowledged its value with the ONLY CERTIFICATE OF MERIT for two years, and it is the ONLY AMERICAN SWEET PEA that has ever received an Award of Merit from the English Sweet Pea Society.

The President Harding is exclusively Burpee's and cannot be purchased elsewhere.

No. 3551 Pkt. (15 seeds) 25¢; 3 pkts. 60¢;
½ oz. \$2.75; oz. \$5.00

*Not more than two ounces can be sold to any
one customer*

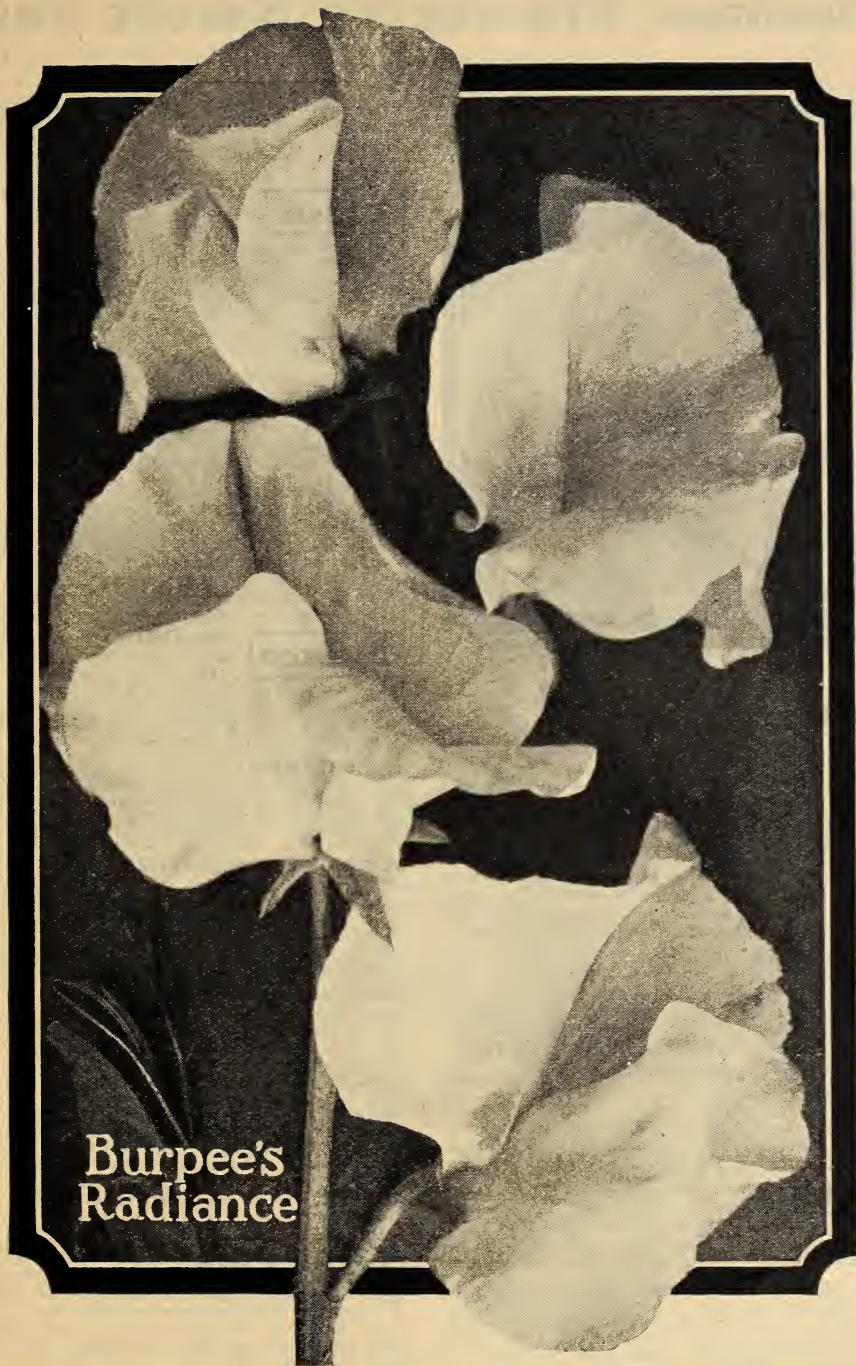

Burpee's
Sapphire

3584 **Sapphire—Burpee Novelty for 1924**

SAPPHIRE is the best blue Sweet Pea. It might be described as a bright Delphinium-blue. The flowers are very large and are borne usually in fours on long stiff stems. The standard is broad and well-waved and the wings are also of excellent form, and their size is in proportion to the standard.

BURPEE'S SAPPHIRE is a most vigorous grower and extremely free-flowering. We feel

sure that it will be one of the most popular Sweet Peas whether grown for exhibition, for cutting, or for garden decoration. The fine flowers are artistically arranged on the stems and easily made up into dainty bunches. As the supply of seed is very short, not more than one ounce can be supplied to a single customer. Pkt. (15 seeds) 25¢; 3 pkts. 60¢; ½ oz. \$2.75; oz. \$5.00.

**Burpee's
Radiance**

3566 Radiance—Burpee Novelty for 1924

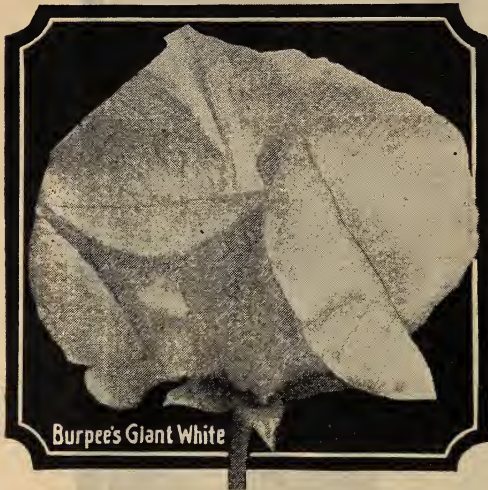

It is almost impossible to express in words the exquisite beauty of this new Sweet Pea. The color is a pleasing and appealing shade of La France pink, which deepens in the center and toward the edges of the standard to eosine-pink. There is a delightful suffusion of salmon throughout both the standard and wings. The standard is very broad and erect, much frilled, and has a ray of rose-salmon down the center.

RADIANCE has a charming form. It is of immense size. The huge flowers are produced in great profusion on long stout stems. The plant is of the strongest constitution and we know of no variety that is more floriferous.

Crop very short. Not more than one ounce can be supplied to a single customer. Pkt. (15 seeds) 25¢; 3 pkts. 60¢; ½ oz. \$2.75; oz. \$5.00.

Summer Flowering Sweet Peas

We recommend these for general outdoor growing throughout the United States, except in the extreme South, where Sweet Peas flower during the winter and where the Early Flowering type gives best results. Many Sweet Pea lovers plant a short row of the Early Flowering kinds to get the advantage of early blooms, but we recommend the Summer Flowering Sweet Peas for your principal crop for outdoor planting either during the spring or fall.

Burpee's Giant White

White

3490 KING WHITE Remarkable for the glistening purity of the whiteness and the perfect finish of the flower. Of truly gigantic proportions. Strong and very free-flowering. It is the finest white-seeded white variety, altogether free from any color tints. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3475 BURPEE'S GIANT WHITE A gigantic flower of exquisite form and pure color. GIANT WHITE is black-seeded and has been awarded a Certificate of Merit by both The American Sweet Pea Society and The Pennsylvania Horticultural Society. The handsome sprays carry four large blooms each. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

3435 CONSTANCE HINTON A well-known and popular black-seeded, white-flowered variety. The flowers are of large size and come at times with a blush tinge. The vines make a strong and vigorous growth, producing a wealth of four-flowered sprays. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3467 EDNA MAY IMPROVED A large flowering white variety of exquisite form carried in fours on long substantial stems. An old favorite. Pkt. 10¢; ½ oz. 25¢; oz. 40¢; 4 ozs. \$1.20; ½ lb. \$2.20; lb. \$4.00.

Cream

3456 Floradale Fairy This was for many years the finest in its class, but is now surpassed in richness, color, and size of flower by our Floradale Fairy Improved, which is described below. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3554 QUEEN VICTORIA The background is deep primrose flushed with rose. The flowers are large and of good texture. A strong grower and profuse bloomer. QUEEN VICTORIA is an old favorite. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3454 FLORADALE FAIRY IMPROVED This is a decided advance over all other cream-colored Sweet Peas. The standard and wings are large, exquisitely waved, and of wax-like texture. The flower-stems are long, carrying four large flowers. Pkt. 15¢; ½ oz. 40¢; oz. 70¢; 4 ozs. \$2.10; ½ lb. \$3.85; lb. \$7.00.

3419 Daffodil An outstanding new English Sweet Pea of a rich deep cream color. A vigorous variety with long stems carrying four well-formed flowers. The blooms are exquisitely frilled. Pkt. (10 seeds) 25¢.

3508 MATCHLESS A new cream variety with much frilled and waved standard and wings. The blooms are of extra large size and are borne freely. Pkt. 20¢; ½ oz. 40¢; oz. 70¢; 4 ozs. \$2.10; ½ lb. \$3.85; lb. \$7.00.

Blush

3449 ELEGANCE Delicate and beautiful in color, robust and free in growth and habit, this charming new Sweet Pea is destined to become a general favorite with all growers. The flowers, of immense size, are borne freely on four-flowered sprays. The color is blush-lilac, or white faintly suffused with a pinkish lilac which is most artistic and altogether charming. Pkt. 10¢; ½ oz. 20¢; oz. 35¢; 4 ozs. \$1.00; ½ lb. \$1.95; lb. \$3.50.

3497 BURPEE'S LILAC-PINK An entirely new shade, representing a charming combination of salmon, amber, and pale lilac on cream ground. The standard is suffused with salmon-pink. A strong grower with large flowers produced freely in fours. Easily arranged in attractive bunches. Pkt. (15 seeds) 25¢; ½ oz. \$1.55; oz. \$3.00; 4 ozs. \$9.00; ½ lb. \$16.50; lb. \$30.00.

3583 Valentine This is a newer variety of great merit. The plants make a strong vigorous growth and bear large flowers of a most pleasing shade of light pink. Beautifully waved and well placed on the long stout stems. It is unsurpassed for cutting or exhibition and is one of the best of this color. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

Picotee

3440 DAINTY A beautiful standard variety in this most charming class. The flowers are large, well frilled, and have a beautiful and distinct pink edge on a white ground. It makes up into very pretty bunches and is useful for all kinds of decorations. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3433 CHERUB One of the most attractive of all picotee varieties. A deep rich cream, charmingly edged with bright rose. Very large and free-flowering, with plenty of four-flowered sprays. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

3526 MRS. J. T. WAKEFIELD An extremely dainty and attractive variety, the color being particularly pleasing. The fine, large, and charmingly waved flowers are edged and suffused with bright deep pink on a cream ground. Of fine habit and most floriferous, with long-stemmed flowers arranged artistically. Pkt. 10¢; ½ oz. 20¢; oz. 30¢; 4 ozs. 90¢; ½ lb. \$1.65; lb. \$3.00.

Burpee's Floradale Farms

in California have earned a reputation as the source of the finest Sweet Peas in the world. Floradale is located in the Lompoc Valley, about ten miles inland from the Pacific Ocean. The even and moderate climate and the fine alluvial soil combine to produce well-ripened plump seed full of vitality and vigor.

The quality of Burpee's Sweet Peas is further assured by the extensive trials made each year on BURPEE'S FORDHOOK FARMS in Pennsylvania. All varieties are carefully tested at Fordhook, first for vitality and second for purity. Close comparisons of all strains give us a unique opportunity to produce Sweet Pea seed of superquality.

BURPEE NOVELTIES

Early-Flowering Sweet Peas for 1924

3317 **Miss Spokane**

This wonderful new Burpee Sweet Pea was given the name "MISS SPOKANE" by special request of the Mayor of the city of Spokane, The Chamber of Commerce of Spokane, the Advertising Club of Spokane, and the Florists' Club of Spokane, Washington.

MISS SPOKANE was awarded a Certificate of Merit at The International Flower Show, New York, March 1922, and at the National Flower Show at Indianapolis, March, 1922.

Whenever exhibited, it was one of the "feature" bunches, always drawing special attention on account of its unusual color, immense size, length of stem, and remarkably fine form. The standard is peach-red, the wings bright scarlet, blending into a bunch effect of rich orange-scarlet. The color is most appealing, either by day or under artificial light.

MISS SPOKANE is an "easy doer" of perfect form, with immense flowers well placed and freely produced in threes and fours. The habit is vigorous and the color always true, even in mid-winter.

Pkt. (15 seeds) 25¢; 1/2 oz. \$2.75; oz. \$5.00; 4 ozs. \$15.00; 1/2 lb. \$27.50; lb. \$50.00.

3305 **Chevalier**

BURPEE'S CHEVALIER is a true rose color with just a suspicion of yellow toward the base, giving the whole flower a particularly bright and pleasing life-like effect, which we do not find in other rose selfs. The blooms are borne with the greatest freedom and the flowers are artistically arranged in fours on long and substantial stems.

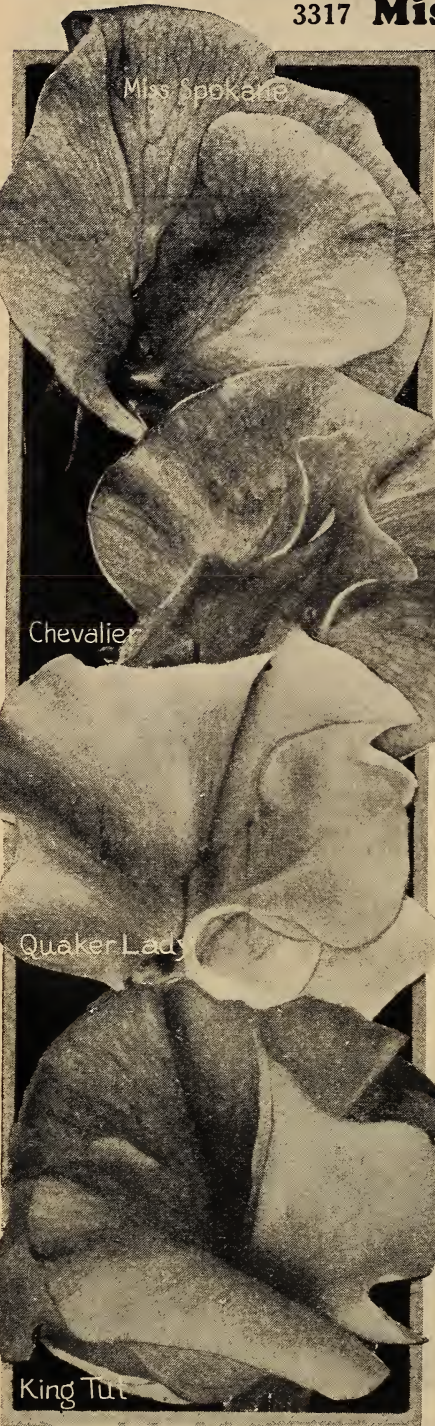

BURPEE'S CHEVALIER was awarded a Certificate of Merit at the International Flower Show, New York, March, 1922, and the National Flower Show, Indianapolis, March, 1922. Pkt. (15 seeds) 25¢; 1/2 oz. \$2.75; oz. \$5.00; 4 ozs. \$15.00; 1/2 lb. \$27.50; lb. \$50.00.

3324 **Quaker Lady**

BURPEE'S QUAKER LADY is a magnificent light Lobelia-violet, which we are convinced will quickly become a leading variety. The bunch effect is a clear rich lavender. The large and well-waved flowers are produced freely in fours on fine long stems. Awarded a Certificate of Merit at the International Flower Show, New York, March, 1922. Pkt. (15 seeds) 25¢; 1/2 oz. \$2.75; oz. \$5.00; 4 ozs. \$15.00; 1/2 lb. \$27.50; lb. \$50.00.

3354 **King Tut**

The flowers of KING TUT are very large and they are borne on a stem of great length. The vines are vigorous and very free-flowering. The well-waved standard is a deep rich rose-pink and the wings are slightly lighter. The reverse or back of the standard is heavily flushed with rose-pink, the ground color being white. The bunch effect is a charming pastel shade of light rose-pink. Awarded a Certificate of Merit at the International Flower Show, New York, March, 1923. Pkt. (15 seeds) 25¢; 1/2 oz. \$2.75; oz. \$5.00; 4 ozs. \$15.00; 1/2 lb. \$27.50; lb. \$50.00.

Early Flowering Sweet Peas

For Greenhouse or Outdoor Culture

Burpee's Early or Winter Flowering strain of Spencer Sweet Peas is the result of more than ten years' careful scientific work. The results of our hybridizing work surpassed all expectations. The Burpee Early Flowering Sweet Peas are recognized as leaders in their various colors, and they are grown extensively by all who demand the very best.

The Winter Flowering Spencers are invaluable to florists for greenhouse culture, and they are also adapted to outdoor planting in warmer climates, such as our own Southern States, Australia, and South Africa, where the Summer Flowering Spencers cannot be grown successfully. In cooler climates they are of value because they bloom a week or ten days sooner than the Summer Flowering varieties.

White 3391 BURPEE'S WHITE STAR A first-class black-seeded white Sweet Pea, lacking any suspicion of pink or other coloring. Of large size. Pkt. 20¢; ½ oz. 55¢; oz. \$1.00; 4 ozs. \$3.00; ½ lb. \$5.50; lb. \$10.00.

3392 SNOWSTORM IMPROVED This is by far the finest of all white winter-flowering varieties. The flowers are extra-large, of fine form, with a magnificent and boldly waved standard. A vigorous grower, with enormous flowers which are invariably borne in fours on very long stems. A very free bloomer. Pkt. 15¢; ½ oz. 40¢; oz. 70¢; 4 ozs. \$2.10; ½ lb. \$3.85; lb. \$7.00.

3390 EARLY SANKEY This fine black-seeded white was awarded a special Silver Medal when exhibited at the Great International Flower Show in New York, March 20, 1915; also a Certificate of Merit at the Spring Show of the Pennsylvania Horticultural Society, Philadelphia, March 23, 1915. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3326 SNOWFLAKE This excellent white-flowered variety bears a profusion of large well-waved blooms, carried gracefully four on a stem. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; 4 ozs. \$1.80; ½ lb. \$3.30; lb. \$6.00.

Cream 3375a Lemon Beauty As the name indicates, this variety is a soft primrose or pale lemon color, the standard and wings being softly tinted amber, and sometimes lightly veined with rose-pink. Pkt. 15¢; ½ oz. 40¢; oz. 70¢; 4 ozs. \$2.10; ½ lb. \$3.85; lb. \$7.00.

3342 Canary Bird This is a splendid rich deep cream or primrose-colored self. The flowers are of great size, beautifully waved, borne three or four on a stem. It can be flowered at any season. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

Deep Pink 3351 ENCHANTRESS A bright rose-pink, becoming deeper toward the edges of standard and wings, gradually softening in tone toward the center of the flower. The large, well-waved flowers are carried on strong stems, usually borne in fours. The vines grow most vigorously and are simply covered by masses of flowers. Enchantress is a standard variety for the winter market. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3383 Pink Beauty The color is a soft rose-pink on white ground, richer toward the edges, gradually softening in color as it reaches the center of standard and wings. This is one of the best of all deep pinks, with large flowers borne freely in fours. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3389 ROSE QUEEN A most pleasing shade of rich pink with a suffusion of rose. Blooms profusely and early. The flowers are large, well waved, and are borne most freely on long strong stems. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3343 CHEERFUL Rich begonia-pink. The standard is broad and well waved. The wings are also much frilled. An immense flower, borne most profusely. Pkt. (20 seeds) 25¢; ½ oz. 95¢; oz. \$1.80; 4 ozs. \$5.40; ½ lb. \$9.90; lb. \$18.00.

3337 ZVOLANEK'S ROSE Many growers consider this variety one of the best in the deep pink class. The flowers are large and bold. They are carried in fours on long and strong stems. A free-blooming and easily grown variety. Fine for mid-winter. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

Light Pink 3382 Peach Blossom A pale amaranth-pink which deepens somewhat toward the edges of the standard and wings. A true self, standard and wings being of the same shade. A vigorous grower and free-flowering, with stems of great length. It is a superb flower of a fine shade. Pkt. 15¢; ½ oz. 40¢; oz. 70¢; 4 ozs. \$2.10; ½ lb. \$3.85; lb. \$7.00.

3376 Loveliness The entire flower is suffused soft pink until it reaches the edges, which are distinctly picoteed with rose-pink. A very free-flowering and strong-growing variety with plenty of flowers. It blooms early, flowering freely during the short days. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3395 SWEET BRIAR Color a lovely shade of pink throughout, with a soft salmon or amber suffusion, this being more accentuated in the younger flowers and buds. Grown under glass, this variety attains a height of only 5 to 6 feet. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

Cream-Pink 3348 DAYBREAK A pleasing shade of rich rose-pink on cream ground, the color becoming deeper toward the edges of standard and wings. The entire flower is lightly suffused with salmon. The plants make a strong and sturdy growth and bear a wonderful crop of fine long-stemmed blooms. It is a fine mid-winter variety. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3386 RISING SUN Rose-pink on cream. A bright and most attractive flower. Grown under glass, the plants attain a height of only 5 to 6 feet and are therefore valuable for pots or side-benches. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3394 Sunburst Improved A strong-growing rich salmon-pink with large well-waved flowers borne on long stems. It is a free-blooming, tall-growing variety of unusual beauty and takes the place of the old Sunburst, which was of dwarf growth. Pkt. 15¢; ½ oz. 45¢; oz. 80¢; 4 ozs. \$2.40; ½ lb. \$4.40; lb. \$8.00.

Rose 3387 Rosebud The flowers are of immense size and freely produced in threes and fours. Color bright shining rose with a suspicion of bronzy suffusion throughout the standard. Very attractive flowers produced with great freedom on substantial and long stems. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3362 Fordhook Rose, Improved A charming shade of rosy carmine. The flowers are of largest size and usually borne in threes and fours on long stiff stems. The plants grow vigorously and bloom profusely. It is a favorite variety on all larger markets on account of its large size and long stems. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3393 SPLENDOR A magnificent deep rose self. The rich rosy carmine color is accentuated by the distinct white blotch at the base of standard and wings. The flowers are of great size, usually borne in fours on very long stems. The vines are strong and vigorous and they are covered with long-stemmed flowers. Pkt. 10¢; ½ oz. 30¢; oz. 50¢; 4 ozs. \$1.50; ½ lb. \$2.75; lb. \$5.00.

3305 CHEVALIER A true rose color livened with a suspicion of lemon. We are sure it will quickly become a leader. This fine Burpee Novelty for 1924 is fully described on page 42. Pkt. (15 seeds) 25¢; ½ oz. \$2.75; oz. \$5.00; 4 ozs. \$15.00; ½ lb. \$27.50; lb. \$50.00.

Burpee's Winter-Flowering Sweet Peas in the Fordhook Greenhouses

Burpee's Snapdragons

The Snapdragons or *Antirrhinum* are a most important crop for all florists. They are cool house plants and should not be exposed to high temperatures, particularly during mid-winter. For mid-winter flowering the seed should be sown in April or May but it is mostly for early spring blooming, particularly around Easter, that florists are growing Snapdragons to follow Chrysanthemums. Many florists have discarded the idea of using cuttings as they find that plants grown from seed are more vigorous and more rust-resistant. Our improved strain of Snapdragons comes perfectly true. Every florist should grow a good lot of Snapdragons for summer and fall supply.

New Giant Snapdragons

This is an entirely new class of Snapdragons with blooms of immense size and wonderfully long flower stems. The plants are strong and robust. The foliage is substantial and withstands to a large degree diseases, insect attacks, and unfavorable weather conditions. The plants send forth a large number of flower stems which bear all along their lengths the large well-shaped blooms. This class contains some wonderful new colors.

1713 ORCHID The flowers are a beautiful mauve-pink, not unlike the shade of *Cattleya*-orchid. The tube is a somewhat darker shade of mauve and there is just a tip of yellow on the lip. The flower spikes are immense and the individual blooms are very much larger than any other Snapdragons. They are closely set along the majestic and substantial spikes. The handsome spikes are excellent for cutting or decorations. $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00; oz. \$6.60.

1714 CRUSADER A magnificent variety which has been greatly admired by all who have seen it growing on our farms during the past two seasons. The flowers are very large and borne on spikes of great length. The color is a bright velvety reddish maroon with a cast of crimson. It is one of the very best Giant Snapdragons. $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

1715 FORDHOOK ROSE The color of this beautiful novelty is a combination of rose, pink, and yellow, all delightfully blended and creating a most charming harmony. It might be described as a rich rose shading to rose-pink and having a bright yellow throat, with a rose-pink tube. The great flowers are borne profusely and they are set closely on long stout stems. $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

1716 SNOWFLAKE This is the best white Snapdragon of all the tall varieties. The individual blooms are well-formed and extremely large. They are closely set on long spikes. The color is a creamy white with a pale yellow lip. $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

1717 SUNSHINE A distinct and truly glorious variety that is sure to please all lovers of Snapdragons. The color is unique and outstanding, of a rich bright yellow which is greatly enhanced by a touch of pink in the tube. $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

1718 WALLFLOWER This is quite an unusual shade which has been appropriately named WALLFLOWER, since the blooms are of a rich deep coppery crimson which is a typical shade among the Wallflowers. Even though the color is dark, the blooms carry a brightness which illuminates the whole flower and makes it stand out strongly. The individual blooms are truly immense in size. They are well placed, set closely together on long and handsome spikes. A wonderful cutting variety of great beauty and unusual appeal. $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.10; $\frac{1}{4}$ oz. \$2.00.

1719 GIANT MIXED This mixture of new Giant Snapdragons includes all the six varieties described above, besides an unusual number of seedlings all belonging to this new Giant type. Gardeners everywhere will be delighted with the wonderful range of colors, the magnificent habit of the plants, and the freedom of bloom. $\frac{1}{16}$ oz. 50¢; $\frac{1}{8}$ oz. 95¢; $\frac{1}{4}$ oz. \$1.80.

Snapdragons have been for many years a great Burpee specialty. We are growing every year large quantities of our improved strains of Snapdragons on our Fordhook Farms in Pennsylvania, our Sunnybrook Farm in New Jersey, and our Floradale Farms in California. The introduction of our new Giant Snapdragons listed above means a great advance and we feel sure that all florists who realize the wonderful possibilities of these mammoth-flowering varieties will find them to be good money-makers.

Half-Dwarf Varieties

The half-dwarf varieties grow about 15 inches in height and form round compact bushes which are covered with magnificent spikes. This type is well adapted for beds or borders and the stems are long enough for cutting. Grown under glass the spikes measure fully 2 feet long.

1529 AMBER QUEEN Large heavy spikes of well-shaped flowers; the color is a rich yellow, overlaid with chamois-pink. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 85¢.

Burpee's Zinnias

Fritz Bahr in his latest book on Commercial Floriculture says the following about Zinnias: "The Zinnias are fine summer flowers and even the florist should plant a lot of them to keep up the show. They will stand almost any kind of weather and keep on flowering until late in the fall. The retail grower should always grow on a good-sized batch of them in 2½s for Spring and another batch should be kept coming along in the cold-frame." There is money in selling the seedlings out of the frames at fifty cents a dozen to the trade which comes to you for plants.

Giant Mammoth Zinnias

2821 GIANT ROSE Beautiful rose flowers of perfect shape. It has been greatly admired by all who have seen it growing for the past three seasons on our FORDHOOK FARMS. It is a beautiful new color and always of largest size. ¼ oz. 30¢; ½ oz. 55¢; oz. \$1.00.

2890 GIANT BURNT ORANGE A most appealing shade of burnt orange with a rich bronze sheen. Of very large size. ¼ oz. 35¢; ½ oz. 65¢; oz. \$1.20.

2813 BURPEE'S GIANT MAMMOTH MIXED Our strain of this magnificent large-flowered type is unsurpassed. The blooms are of immense size when well grown, averaging 3½ to 4½ inches in diameter and often 3 to 4 inches in depth. A well-balanced mixture of all colors. ¼ oz. 30¢; ½ oz. 55¢; oz. \$1.00.

2820 BURPEE'S CURLED AND CRESTED The petals are elegantly twisted and curled, giving the flower a most attractive, crested-like appearance. The plant grows 18 inches high by 2 to 2½ feet in diameter and blooms freely until killed by severe frost. The colors range from white through many shades of yellow, rose-pink, and salmon to deepest crimson. BURPEE'S CURLED AND CRESTED is a wonderful cut-flower which will last considerable time in water. This new Zinnia has become very popular within a few years and has always attracted attention. It lends itself particularly well for table decoration. ¼ oz. 30¢; ½ oz. 55¢; oz. \$1.00.

2832 PICOTEE, MIXED The flowers are always of the largest size. Pink, light and rich yellow, orange, etc.—all tipped rich mahogany-brown on the end of each petal. The darker flowers are tipped with a contrasting light shade. ¼ oz. 45¢; ½ oz. 85¢; oz. \$1.60.

2812 Burpee's New Cactus-Flowered Zinnia

Distinct in form from all other Zinnias, as the petals are so quilled that they become almost tubular. They are straight, radiating from the center of the flowers, which thus greatly resemble a fine-petaled Cactus Dahlia. As the back of the petals is of a distinct color and as they incurve to form the tube, it gives the flower a bicolored appearance. The colors range through varying shades of yellow, orange, pink, and rose to scarlet and crimson. The flowers are borne in great abundance; on well-grown plants they will average 4 to 5 inches in diameter. An excellent variety for cut flowers. BURPEE'S CACTUS-FLOWERED ZINNIA have created a sensation within the short time since their introduction. They are most artistic. ¼ oz. 50¢; ½ oz. 95¢; oz. \$1.80.

Dahlia-Flowered Zinnias

BURPEE'S NEW DAHLIA-FLOWERED ZINNIAS are distinct in every respect. The flowers are of immense size, fully rounded, and are made up of a great number of small sized petals. The individual petals stand well apart, giving the flower an open and attractive appearance, which is distinct from the heavy and close effect of the Giant Mammoth type. These new DAHLIA-FLOWERED ZINNIAS grow into strong well-rounded bushes. They bloom profusely all during the summer and fall.

2892 CRIMSON MONARCH This attractive variety produces flowers of immense size. The blooms are perfect in form and are carried on heavy stems. They are borne most profusely and the color is a bright and appealing shade of crimson-scarlet. It is the darkest one of this class. ¼ oz. 75¢; ½ oz. \$1.40; ¾ oz. \$2.65.

2896 EXQUISITE This is truly an exquisite variety of a pleasing shade of reddish rose shaded with deeper rose in the center. The flowers are large and full. They resemble a Decorative Dahlia. ¼ oz. 75¢; ½ oz. \$1.40.

2898 GOLDEN STATE An excellent flower of marvelous size and rich golden yellow color. As the flower ages there appears a cast of orange which is most beautiful. Very large and of true Dahlia form. A very free-blooming variety. ¼ oz. 75¢; ½ oz. \$1.40; ¾ oz. \$2.65.

2904 SCARLET FLAME Truly there is no other Zinnia of such dazzling color as SCARLET FLAME. The well-shaped double flowers are a rich orange-scarlet and never fail to attract the attention of the passerby. Of immense size. ¼ oz. 75¢; ½ oz. \$1.40; ¾ oz. \$2.65.

2894 DREAM The large flowers are a distinct shade of deep lavender shading to bright purple as the flowers age. The blooms are large, of fine form, and are borne most profusely. ¼ oz. 75¢; ½ oz. \$1.40; ¾ oz. \$2.65.

2900 POLAR BEAR This is decidedly the finest of all white Zinnias. The flowers are of great size and pure in color. They are borne in wonderful profusion, simply covering the plants all during the summer and fall. ¼ oz. 75¢; ½ oz. \$1.40; ¾ oz. \$2.65.

2834 DAHLIA-FLOWERED MIXTURE This is a complete mixture of Dahlia-Flowered Zinnias including a most remarkable range of bright and soft colors in the proper proportion. ¼ oz. 45¢; ½ oz. 85¢; oz. \$1.60.

Dwarf Zinnias This type is wonderfully adapted to borders or beds. The plants are compact and are covered with a multitude of flowers all during summer and fall. Well-grown plants measure 12 inches in height.

2817 DWARF FIREBALL (*Zinnia pumila coccinea plena*) Double flowers of a fiery scarlet. Free-flowering compact plants. ¼ oz. 35¢; ½ oz. 65¢; oz. \$1.20.

2819 DWARF SNOWBALL Very double Dahlia-like flowers, of the purest snow-white. Beautiful for beds or borders. ¼ oz. 35¢; ½ oz. 65¢; oz. \$1.20.

2818 DWARF SALMON-ROSE A beautiful shade of soft salmon-rose; large flowers borne in great profusion. ¼ oz. 35¢; ½ oz. 65¢; oz. \$1.20.

2815 POMPON, MIXED The petals form a symmetric smooth cone. Colors range from pure white to the deepest crimson. ¼ oz. 25¢; ½ oz. 45¢; oz. 85¢.

2826 PERFECTION MINIATURE Dwarf and compact plants averaging 9 inches in height and 2 feet in diameter, the whole becoming a complete mass of double flowers, ranging in color from yellow to brown, nearly all of which are perfectly double. The flowers measure 1¼ inches in diameter. ¼ oz. 35¢; ½ oz. 65¢.

Zinnias are a great Burpee specialty. We are growing every year many acres of this fine annual on Burpee's Fordhook Farms in Bucks County, Pennsylvania, and our extensive trials and careful selections are responsible for the excellence of Burpee's Zinnias.

BURPEE'S PANSIES

Our strains of Pansies are recognized to be far superior to the so-called large-flowered strains. The flowers are invariably of much larger size and heavier texture. Grown under favorable conditions, the plants will bloom for a long time. The varieties we list are all standards in their color classes and come true to name, with but an occasional sport, in contrast to the common large-flowered strains which are to a marked degree impure or sporting.

2421 Snow Queen A magnificent pure white of large size and heavy texture. A free bloomer with well-rounded flowers. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2423 Golden Queen The finest pure rich golden yellow Pansy in existence. The large flowers are well-shaped and borne most profusely. We have a particularly fine strain. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2427 Celestial Medium-size flowers of an attractive light blue color. Excellent for bedding, as it is very free flowering. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2429 Lord Beaconsfield Ultramarine-blue, shaded with violet, gradually shading to a velvety white on the upper petals. A most wonderful and showy Pansy with large flowers. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2430 Peacock A beautiful shade of violet-blue, as iridescent as the eye in peacock feathers. Blooms very freely and continuously. It is a most appealing variety of large size. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2431 IMPERIAL BLUE This has occupied a most prominent place for many years, which is not to be wondered at when we consider the remarkable freedom, large size, exquisite form, and beautiful color of the variety. The blooms are a bright ultramarine-blue with a large blotch of deeper blue on the three lower petals. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2433 Andromeda This fine mauve variety gives an unusual opportunity for delicate color combinations. A very free bloomer. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

2435 Royal Purple The flowers are remarkably large and bold. A beautiful deep rich royal purple, contrasting well with the green foliage. Beautiful and rich in color. Combines well with light shades and comes perfectly true. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2437 Victoria Pleasing wine-red or nearly blood-red flowers of well-rounded form. Extra fine. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2425 Hydrangea-Rose The large and heavy flower has broad, expanded petals. The ground color is a beautiful HYDRANGEA-ROSE, shading off into a silvery white at the edge. The three lower petals each have a large deep purplish black blotch which radiates into the Hydrangea-pink margin, giving the whole flower a soft and graceful effect. An appealing variety of large size. $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.20; $\frac{1}{4}$ oz. \$2.20.

2424 Fire King This is an exceptionally bright variety with well-shaped flowers of good size. The lower petals have a broad band of bright golden yellow shaded with orange. Each of the petals has a large blotch of deep mahogany-red, shaded with purplish black in the center. The two upper petals are a bright and shining copper-brown with a deeper shading toward the base and a narrow edge of bright golden yellow. Truly magnificent. $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.20; $\frac{1}{4}$ oz. \$2.20.

2422 Cardinal This magnificent variety belongs to the Cassier race, having flowers that have a well-defined dark blotch on the three lower petals. The flowers are a bright cardinal-red, shaded with mahogany. The three lower petals each have a deep blackish maroon blotch which stands out sharply from the small white and yellow eye. $\frac{1}{16}$ oz. 65¢; $\frac{1}{8}$ oz. \$1.20; $\frac{1}{4}$ oz. \$2.20.

2441 Golden Bronze A fine large flower of an odd shade. Old gold or golden bronze with lighter margin. Blooms freely. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2442 Meteor The three lower petals are brown with bright canary-yellow border, and the two upper ones vary from reddish brown to dark purple, margined with gold or silver. The contrast of colors is striking and beautiful. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2443 Black King Large coal-black flowers of a velvety texture. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2445 PRESIDENT CARNOT There are quite a number of Pansies which are more or less similar in coloring to PRESIDENT CARNOT, yet PRESIDENT CARNOT has always been the most outstanding in our trials. The flowers are unusually large and of such heavy substance that they are attractively waved and crinkled on the edges. The contrast of the large dark purple blotch and the broad pure white border is most attractive. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

2447 LORD BALTIMORE This is truly a giant among all Pansies. The flowers are of immense size and very much waved and crinkled.

Each petal has a shining blotch of deep maroon-black and a bright outer band of a most intensely rich golden yellow. The veins of the petals carry the color of the deep blotch into the margin. Blooms most profusely. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

2449 Hortense Rose Each flower-petal is blotched with rose, varying in shade, but all delicately beautiful. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

2451 Madame Perret The lower petals are usually canary-yellow, white, or rose-pink, marked with purple or crimson. The upper petals are either self-colored in bright red and deep purple or delicately outlined with white. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2450 Giant Bridesmaid Beautiful apple-blossom shadings or lovely rose on white ground. Delicate and beautiful. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

2463 Giant Ruffled Masterpiece The truly giant-sized flowers are of the most striking character; the petals have so much substance that they are heavily ruffled, giving them the effect of a double flower. The colors are mainly rich dark shades, bordered, blotched, or marked in ray-like veinings with contrasting colors. We feel confident that our special strain of this will give entire satisfaction. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

Giant Ruffled Masterpiece

2513 Burpee Blend of Giant Fancy Pansies

This blend cannot be surpassed. It contains the largest and most beautiful of all blotched Pansies that have been developed after many years of careful and close selection.

The Burpee Blend contains only well-formed, expanded flowers of uniform large size with an unusual range of colors and markings. The texture of the blooms is heavy and thick, so that the blooms are well waved and crinkled on the edges. The large flowers are borne upon long and stiff stems which hold them well above the foliage and make them admirably suited for cutting. The seed of the Burpee Blend is necessarily expensive, but it is well worth all it costs.

$\frac{1}{16}$ oz. 75¢; $\frac{1}{8}$ oz. \$1.25;
 $\frac{1}{4}$ oz. \$2.25; oz. \$8.00.

2500 Steele's Mastodon

Greenhouse Special Mixture (O. K. outside)

Immense and well-shaped flowers with thick and well-waved petals. Includes everything from pure white to deep mahogany. The very fine lavender, rose, cerise, and light blue shades deserve special mention. This mixture is particularly fine for the greenhouse or for frames, but will do just as well out in the open.
 $\frac{1}{16}$ oz. 60¢; $\frac{1}{8}$ oz. \$1.00; $\frac{1}{4}$ oz. \$1.75; oz. \$6.00.

2461 BUGNOT This is a very large-flowering strain with blooms of thick texture and rich coloring. Each petal has a large dark blotch and the color from this blotch radiates toward the margin of the petals. A unique and most beautiful strain that will please all Pansy lovers. $\frac{1}{16}$ oz. 35¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.20.

2459 PARIS IMPROVED BLOTCHED

This is another very fine large-flowered strain which blooms profusely and continuously. Each petal is marked with a well-defined, large dark blotch.
 $\frac{1}{16}$ oz. 30¢; $\frac{1}{8}$ oz. 55¢; $\frac{1}{4}$ oz. \$1.00; $\frac{1}{2}$ oz. \$1.90.

2460 Cassier's Giant The flowers are of immense size, and all are either three- or five-spotted. Very pretty and free-flowering.
 $\frac{1}{16}$ oz. 30¢; $\frac{1}{8}$ oz. 65¢; $\frac{1}{4}$ oz. \$1.10; oz. \$4.00.

2455 Striped, Mixed Nearly all plants are attractively striped and mottled in a wide range of shades. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2453 Auricula-Flowered Exquisite shades, resembling Auricula Primroses. Most free-flowering. $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 80¢.

2420 Extra Fine Bedding Pansies,

Mixed These are valuable for making beds where the size of the individual flower does not count so much. They are of stocky growth, and the plants are covered with blooms during the entire summer. They flower profusely from seed sown in the open early in the spring. Our mixture contains a remarkably large number of different colors, all bright and beautiful. $\frac{1}{16}$ oz. 20¢; $\frac{1}{8}$ oz. 35¢; $\frac{1}{4}$ oz. 65¢.

2457 Trimardeau, or Giant Mixed A beautiful mixture of all giant-flowered varieties properly blended.
 $\frac{1}{16}$ oz. 25¢; $\frac{1}{8}$ oz. 45¢; $\frac{1}{4}$ oz. 85¢.

2417 Orchid-Flowered Pansies

This distinct and beautiful strain of Pansies will appeal to those who prefer delicate tints and soft shades of coloring. The flowers are all of fine form and good size. They bloom freely from spring until late in the fall, and the unique colorings are altogether different from any other Pansies.
 $\frac{1}{16}$ oz. 50¢; $\frac{1}{8}$ oz. 95¢; $\frac{1}{4}$ oz. \$1.80.

Burpee's Asters

Asters are a very important crop for florists. In starting with good seed, giving the plants the proper cultivation, one will always realize a good profit from them. There is a strong demand for young Aster plants in the spring from home gardeners, and it is worth while to sow a number of different varieties and colors in order to be prepared for the demand for cut flowers.

Queen of the Market
Shell-Pink

Queen of the Market

This is still the earliest of all commercial Asters. In order to have large flowers on long stems the plants should be kept growing without checking their growth in any way. The blooms are nearly round and when well grown measure fully three inches in diameter. The flower stems measure 10 to 12 inches in length. This type is extensively grown by florists who are eager to get the profits that are in the early kinds.

Daybreak Asters

The plants grow 10 to 15 inches high and bloom most profusely throughout the summer. The flowers measure 2 inches in diameter and they are borne in the greatest profusion. On account of their rather short stems they are exclusively grown for bedding or as pot plants.

Early Branching Royal—Lavender

Early Branching Royal

The Early Branching Royal Asters occupy a most important place. The flowers are large, measuring 3 1/2 inches in diameter and they are fully double and nearly round in form. They make a strong growth forming well-rounded compact bushes 2 to 3 feet in height. The blooms are carried upright on long and strong stems. We have had many enthusiastic letters from our florist friends in which they have praised our strain and told us that they made money on it. In season of bloom the Royal Asters come in just as the Queen of the Markets have passed their prime.

**Crego's Giant
Shell-Pink**

Crego's Giant

These typical American Asters enjoy great popularity. It is a free-blooming strain of strong sturdy growth with large flowers borne in great abundance. The individual petals are loosely arranged and the center is tightly curled. They bloom about the same time as King Asters and on account of their artistic flowers are in great demand for all kinds of decoration.

The King Asters follow the Early Branching Royal in season. They bloom about the same time as the Crego Asters. The Upright Type of King Asters make a strong growing upright plant, carrying large well-developed flowers on bushes 2 to 2½ feet in height. The petals are narrow and folded. It is an excellent type for cutting.

Burpee's Beauty Type

This has made a sensation, particularly with florists who needed a flower to fill in the season between the American Late Branching Asters and the early Chrysanthemums. We have received some very enthusiastic reports about the good qualities of this fine type. The blooms are always double, well-rounded, and carried on long strong stems.

Improved American

In this class we have grouped together those Asters which cannot be classed under the headings mentioned before. Practically all varieties, with the exception of Lavender Gem are most wonderful for cutting. Lavender Gem, however, being of dwarfer growth, may be used for small bouquets or still better for bedding. All the varieties listed are of large size and fully double. Sensation, being somewhat smaller than the others, is outstanding on account of its rich deep ruby red color, as it is found in no other Aster. Burpee's Aurora is an outstanding Burpee Novelty for 1924. The petals are exquisitely curled and twisted and they are a bright shade of royal-blue with a broad stripe of pure white in the center. Florists have lately taken notice of Heart of France, which is a beautiful deep red flower of excellent size and formation with plants growing 24 inches high.

Burpee's Flower Seeds

Flower seeds of the finest varieties and highest quality have always been a specialty with the House of Burpee. **Floradale Farms** have come to be known as the California Home of Flowers and, in addition to the many acres devoted there to the production of flower seeds, we grow annually a large number of important varieties at **Fordhook Farms** in Pennsylvania and **Sunnybrook Farm** in New Jersey. Those seeds which we do not grow on our own farms are produced under our direct supervision and every possible safeguard is used to protect the Quality of Burpee's Seeds.

In the list below we have not attempted to give descriptions, for this is primarily a business catalog. BURPEE'S ANNUAL for 1924, our retail catalog, is the Leading American Seed Catalog and gives detailed information and complete descriptions. If any further particulars are desired, we shall be glad to answer inquiries promptly and fully.

Our catalog is our only salesman. We do not send out traveling men to solicit florists' orders. Look through this catalog at your first opportunity and send your order directly to us by mail. It will be filled promptly and carefully.

We do not offer "Trade Packets" of flower seeds as the name "trade packet" is indefinite. In every case we are offering suitable fractions of an ounce of the more expensive varieties at reasonable prices. If still smaller quantities are desired you may order "retail" packets (for which see BURPEE'S ANNUAL) at a discount of 25%.

All FLOWER SEEDS listed in this catalog will be sent to you postpaid at the prices quoted.

We solicit your inquiries and your orders. We are ready to serve you and assure you of our heartiest co-operation in making your business a success.

Ageratum

AGERATUMS fill many a need. The Mexican varieties grow fairly tall and are useful for beds or borders. They are also usually grown in pots for winter blooming, keeping the temperature around 50 degrees. The Tom Thumb varieties are of dwarf compact growth and are used extensively as pot plants, bringing a good price any time during the winter or early spring. They are grown extensively for window boxes. Their luxurious growth and freedom of blooms make them fine for bedding.

Candytuft

These belong among the most useful of hardy annuals. The plants bear the clusters of flowers in great profusion. Candytufts make a most attractive border and they are exceptionally fine for cutting. They bloom profusely during cool weather.

Celosia

The usefulness of CELOSIAS as cut flowers has never been realized as much as today. Florists will find that there is a good demand for CELOSIAS, whether they are grown for selling as young plants in the spring or whether they are planted to produce cut flowers. The Childsii varieties, or Chinese Woolflowers, are particularly handsome flowers, keeping in good condition for a week and longer.

Centaurea

CENTAUREA or Bachelor's Buttons are too well-known to need any description. The Imperialis or cyanus varieties are excellent for cutting. They do best during the cool weather and should be sown early in the spring. The cyanus varieties are also fine for forcing under glass, to bloom during August from seed sown in January. The Imperialis varieties can also be forced under glass in gentle heat. Candidissima and gymnocarpa make fine border plants. A good lot of them should be planted for spring sale.

Cosmos

COSMOS will give variety to the range of cut flowers during late summer and fall but in addition to this purpose there is a good demand for young pot grown plants during spring by customers who want them for their borders and flower beds. The double-crested varieties have been improved within recent years so that a large percentage of flowers come true and for cut flowers they truly surpass all other varieties.

Delphinium

During DELPHINIUM blooming time there is hardly any florist who ever has enough of these stately spikes to supply the cut-flower trade. DELPHINIUMS are hardy and on account of their long flowering period and easy culture they occupy a place ahead even of Peonies and Phlox. Our strain of Belladonna Seedlings is particularly fine, ranging from light sky blue to deep rich purple. It is, however, the Belladonna Light Blue which seems to be in greatest demand for cut flowers. Compact White and Compact Blue are of dwarfier growth and are planted mostly in the perennial border.

Dianthus

The Annual Pinks make a very showy bed or border of neat appearance and are quite attractive, even when the plants are not in bloom. In the Laciniatus varieties the flower petals are deeply cut in and fringed. The perennial DIANTHUS, Plumarius, and Scoticus, fl. pl. are excellent low growing plants for perennial borders or the rock garden. DIANTHUS barbatus is listed under Sweet William, and DIANTHUS caryophyllus is mostly referred to as Carnation and is listed under that heading.

Impatiens

Florists who have a plant trade during spring will need IMPATIENS for customers who want plants that will grow in a shady place. There is no flower that is as well suited for shady locations as the IMPATIENS, and the range of colors will give a variety from mid-summer until frost. IMPATIENS also makes a fine pot plant.

Larkspur

The Annual LARKSPUR is important for all florists. It may be grown for winter or spring blooming indoors or for an outdoor display and cut flowers. Our list of varieties includes a wide range of beautiful colors, some of them quite new and rare among this class. For outdoor blooming sow the seed about March 1st carrying the plants in a cold-frame or spent hotbed. The flowers will begin to appear early in May and for a continuous supply for cutting another sowing should be made early in April in a cold-frame, setting the plants into the open during the early part of May. For a still later supply sow about the middle of June to give you plenty of cut flowers during the fall months when the blue shades are particularly rare.

Salvia

No other flowering plant is in as great demand during the spring season as *Scarlet Sage* or *SALVIA*. The variety *Splendens* is of strong bushy growth with bright red flowers. Dark blood-red is somewhat similar but a shade deeper in color. Zurich and America are both of more compact growth and excellent for bedding. *Farinacea* makes attractive spikes of bright light blue. It is remarkably fine for cutting. *PATENS* is a perennial and has large rich blue flowers. It is used for both bedding and cutting.

Scabiosa

SCABIOSAS are good cut flowers, lasting four to five days in water. They are valuable for table decoration, flower baskets, designs, and bouquets. For extra-early blooming sow the seed in March indoors. These plants will be of good size for your spring plant trade. Sow outdoors early in May and again the middle of June.

Stocks

For best results STOCKS should be grown under glass, except in cooler climates where the plants make fine long flower spikes in the open. STOCKS are also good as pot plants. In addition, for this purpose, sow a good quantity to supply your spring trade which will want some well grown sturdy plants for bedding.

FLOWERING BULBS AND ROOTS

The Florist, as well as the Landscape Gardener, will find much of interest in the following list. Burpee's Bulbs are selected with the same care and attention to Quality as are Burpee's Seeds. All of the bulbs and roots offered herein are first size (unless otherwise stated), sound and healthy, and sure to bloom if given reasonable care.

We take particular pains in specially packing bulbs and roots to ensure their arrival in good condition and, for this reason, *always ship bulbs separately from seeds* when both are ordered. When placing your order, specify when and how you wish your bulbs to be sent. We do not ship in freezing weather unless ordered to do so, and then only at customer's risk. Purchaser pays for transportation of Bulbs.

Our collection of Dahlias is especially worthy of attention. Our lists of Cannas, Gladioli, and Iris are not extensive but are carefully selected and comprise the best varieties for all purposes. Refer to BURPEE'S ANNUAL for 1924, our retail catalog, for complete descriptions.

If you plant Tulips, Hyacinths, Narcissus, Crocus, or Hardy Perennials, send in your name now to receive a copy of BURPEE'S FALL BULB CATALOG (issued September 1st).

NOTE: Three or more bulbs will be supplied at the dozen rates, 25 or more at the 100 rates, and 250 or more at the thousand rates.

Burpee's Ready-Made Collections of Vegetable and Flower Seeds

The collections listed in BURPEE'S ANNUAL FOR 1924 are intended primarily for the amateur, but are occasionally ordered by the commercial grower for his wife or to fill in the odd corner of the garden patch.

To Market Gardeners, Garden Clubs, and Florists, we offer them at a special discount of 15% and, when twelve or more of a single collection are ordered, at a discount of 20%.

These discounts apply also to the special bulb assortments offered in BURPEE'S ANNUAL, when ordered in straight sets.

Decorative Dahlias

The flowers are fully double and have broad, flat, somewhat loosely arranged petals. The points are broad or rounded and the tips may be straight or turned down and in some varieties the margins are slightly rolled back. Within recent years this type of Dahlia has been enriched with quite a number of outstanding novelties. Whether used for garden display or for cut-flowers, they always give the greatest satisfaction.

8102 Break O'Day Large flowers of a lovely shade of lemon-yellow. Blooms freely. 50¢ each; 3 for \$1.30.

8111 Dr. Tevis A delightful shade of salmon-rose suffused with old gold and apricot. One of the largest and finest varieties, the flowers being borne on long and strong stems. 60¢ each; 3 for \$1.50; 6 for \$2.85.

8219 Fordhook Avalanche An outstanding new white with a suspicion of bluish pink on the older petals. The plants are of upright habit. We have measured flowers which, without disbudbing, have averaged 9 inches in diameter. \$2.00 each; 3 for \$5.40; 6 for \$10.00.

8121 George K. Mower A pleasing shade of bronze overlaid with rich salmon-pink. A harmonious and unique color combination. One of the very best in color as well as in form. \$1.30 each; 3 for \$3.30.

8127 Hazel Welton Large flowers of reddish bronze with a silvery sheen. The fine flowers are borne freely on stiff stems and they are very artistic. A strong grower that is sure to please. \$1.00 each; 3 for \$2.70.
