REMARK

NAME OF PLANT: The Osaka Kiko K.K. , Itami Plant.

This factory has been permitted to convert itself to the production of civilian commodities and is exerting all efforts to repair & manufacture spinning machines. This factory has an allotment of one third of the 100,000 spindles that are covered by the Commerce & Industry Ministry's project for the 4th quarter of the year. It is expected that 1,000 spindles will be manufactured & repaired every month. The number of workers is at present 1,500 - 1,600. The factory is showing monthly products of 5,000 electric baking machines (9 kw) for the Allied Forces.

It is estimated that 4,000 baking machines (13 kw) will be manufactured every month for the Allied Forces.

It must be paid attention to the fact that the factory has a considerable quantity of bolts and the others as shown in the list and there are a great deal of things that are essential in the above mentioned working.

There are practically no idle facilities that can be removed without affecting the preservation of machinery designated as objects of reparation.

K. Asling

Local Liaison Officer

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

STATEMENT RE MATERIALS

The Osaka Kiko Co., Ltd. was established in 1915 and has been engaged in manufacturing textile machines and water meters at their Toyosaki Factory (No. 10,Tohwa-cho,Kita-ku,Osaka). Specially, they have not only experience in the manufacture of textile machineries for more than 30 years, but their actual production in 1936 occupied about 35 o/o of the actual production of whole Japan. Since 1932 this Company has became to increase the productive capacity of textile machines according to the greater demand for the textile machines.

It was, however, impossible to expand to be in the non-industrial zone by the City Planning Regulations of the Osaka Municipality and was ordered to remove. There was, also, no room for further expansion at their Kajima Factory for the Diesel Engine Shop was already constructed. Therefore, this Company had to find new site elsewhere.

It took several years before this Company finally succeeded to obtain the present site of Inagawa Factory in March,1939, and started to build a factory.

The manufacture of textile machines was incidentally stopped in 1938. So that we took the advantage of their plan of building factory to manufacture machine tools, and started to manufacture those in 1939.

In 1945 the Machine Tool Shop was converted and started to repair textile machines after the termination of war. Motors for textile machines have been manufactured at the Motor Shop.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

In 20th May,1946 we have received the Permission to manufacture textile machines, motors and machine tools from 94th HQ & HQ. Def. Mil. Govt. GP (APO 660, File:107. OK-210).

In 24th May,1946 we have, also, received the order-sheet as a factory of production of Essential Civilian Commodities by the Governer of Hyogo Prefecture.

A. Monthly products after reconversion permit granted:-

	Textile machines	Electric motors	Machine tools
May 1946	65 sets	124 sets	0
June "	119 "	114 "	5 sets
July "	30 "	30 "	3 "
Aug. "	6 "	51 "	0
Sept. "	40 "	91 "	0
Oct. "	48 "	73 "	0
Nov. "	66 "	58 "	0
Dec. "	38 "	45 "	0

B. Outstanding orders of textile machines:-

Name of company	No. of Orders
Kanebo	50,000 spdls
Shikishima	50,000 "
Kurashiki	30,000 "
Nippon Seni	30,000 "
Total	160,000 "

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

C. a. We need following materials for the manufacturing of the orders (as monthly production 10,000 spindles):-

Name of material	No. of material
Pig iron	311,800 kg
Steel	141,900 "
Copper	1,090 "
Tin-plate	3,800 "
Lumber	135 Koku
Leather	182 Shaku-tsubo

b. We need, also, following materials for manufacturing of electric motors (as monthly production 100 sets):-

Name of material	No. of material
Pig iron	7,200 kg
Steel	2,900 "
Copper	1,700 "
Silicon-steel plate	9,800 "

We desire the materials which explain in the remarks on their uses to be exempted as they should be necessary to make textile machines and motors as above mentioned.

S. Hoshizumi

S.HOSHIZUMI. (Sgd.)

President of Osaka Kiko K. K.
