DRAFT

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS
Civil Information and Education Section

12 September 1947

MEMORANDUM FOR THE CHIEF, CIE:

SUBJECT: Plan for Information Program on Housing

I. THE PROBLEM PRESENTED

To formulate an information program on housing, the initial steps of which already have been taken (See attached plan).

II. FACTS BEARING UPON THE PROBLEM

1. The housing reconstruction program for Japan is lagging far behind schedule. An estimated 4,000,000 units are needed to replace war losses but only about 685,000 have been constructed in the two years since the surrender.

2. More than 200,000 houses have been destroyed by fire since the surrender, partly nullifying construction efforts.

3. Blackmarketing of building materials into non-essential tea houses, dance halls, high-priced restaurants and other buildings in the past drained off a large part of the critical materials badly needed for dwellings.

4. The Japanese Reconstruction Board, in cooperation with ESS Construction Branch, has begun the enforcement of new legislation to cope more effectively with the blackmarket and other bulding problems. Branch offices of the Reconstruction Board have been set up in all of the 46 prefectures and 2,000 building inspectors have been employed to enforce regulations.

5. Planning and zoning attempted by most war-damaged cities has never advanced further than the paper stage, due largely to public apathy.

6. "Scrap Towns", haphazard building and lack of planning for adequate parks, playgrounds, etc., with their inherent social and economic evils, are a menace to the orderly reconstruction of Japanese cities.

III. CONCLUSIONS

1. The Japanese public, in general, is poorly informed concerning building regulations, government facilities to assist builders and other steps taken to help rehabilitate war-damaged cities.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DRAFT

2. The concept of community responsibility for better housing, planning and zoning, more adequate parks and playgrounds and other civic improvements is new to Japan and must be crystalized if municipal government is to fully exercise its democratic function of serving all of its people.

3. The Japanese Reconstruction Board, like most Japanese government agencies, does not have a well integrated Information Service, and most public information on reconstruction has been haphazard and ineffective.

4. A complete information program on housing and reconstruction is badly needed.

IV. RECOMMENDATIONS

1. That the attached housing information plan, which has been coordinated with all agencies concerned, be approved.

2. That the information program extend over a period of at least six months.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DRAFT

# PLAN FOR INFORMATION PROGRAM ON HOUSING

## PURPOSES

1. To assist the Japanese in relieving the housing shortage by building more homes, converting old buildings into housing and sharing available dwellings with the homeless.

2. To create interest in better housing with suggestions for incorporating into Japanese homes, when feasible, improved sanitary facilities, modern kitchens, better lighting, etc.

3. To promote city planning and zoning.

## APPEALS

1. The home as the basis of Japanese society.

2. Adequate housing, a moral, civic necessity.

3. Community and civic responsibility for housing.

## PROCEDURE FOR USE OF INFORMATION MEDIA

1. Press

a. Press conferences, (Two already held. More to be scheduled as required, probably minimum of once a month.)

b. Magazine conferences. (One already held this month. Another probably will be scheduled for October.) The first emphasized the emergency nature of the housing crisis and steps necessary to overcome it. The second magazine conference will stress long-range objectives of the program, including city planning, adequate fire protection, etc.

c. A series of magazine articles with drawings on improved designs in low-cost Japanese homes and apartments will be prepared by the Japanese Reconstruction Board in cooperation with the Japan Architectural Society and the ESS Construction Board.

d. Articles will be prepared with drawings on some long range improvements in Japanese houses including better sanitary facilities, modern kitchens, etc.

e. Feature article by CIS Public Safety Branch on proposed new building code, aimed primarily at reducing fire hazards.

f. A feature article by the PH&W Sanitary Division on "A Plan for Improving Sanitation in Japanese Homes".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

g. A series of short magazine and newspaper articles with drawings by Takashi Hiroyama, Tokyo Imperial University architect, on "The Modern Japanese Home" stressing improved sanitation, fire protection, etc. (One already placed in Asahi Wedkly.).

2. Radio

a. Tokyo Networks

(1) Radio talks by high officials of the Japanese Board of Reconstruction on new building material allocation regulations, procedure in building a new home, the necessity of eliminating the black market, and community responsibility in solving housing problems. (Four already presented.)

(2) Spot announcements stressing new building regulations and the necessity for cooperation of the public in stamping out black marketing on building materials. (In progress.)

(3) A "Man-on-the-Street" program, using the subject, "What Can the Japanese Citizen Do To Help Believe the Japanese Housing Shortage?" (President Mikishi Abe of the Reconstruction Board spoke in June.)

(4) Programming of housing information in spot news announcements, question-and-answer programs and, wherever suitable, in the Adult Education Radio programs, Women's Hour, Citizens' Hour, etc. (A Three-months radio program to begin 1 October 1947 has been drafted by the Radio Unit in cooperation with ESS Construction Branch, and the Japanese Reconstruction Board.)

3. Exhibits "The City Practical"

a. City planning, its effect on fire prevention, transportation, safety, public health and efficiency.

b. Low income housing - prefabs, new methods of construction, etc.

c. History of Housing in the U.S., an exhibit with Japanese captions prepared in the United States, is being supplied by Washington and will be shown at Mitsukoshi's and elsewhere in Japan.

4. Schools - Building of new concepts of housing, planning and zoning, fire prevention, sanitation, etc., will be sought through participation of CIE Education Division in the housing information program. CIE Education Division has submitted the following outline of assistance it hopes to ive in this campaign.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

a. Study Activities

(1) Encourage the Ministry of Education to develop supplementary material on housing, fire prevention, city planning and related subjects for social studies in the following units:

Grade 1 - Units 2,3,4.....health, housing, clothing
Grade 2 - Units 2, 8 .....health and neighborhood cleanliness
Grade 3 - Unit 5.....public utilities
Grade 4 - Unit 4 .....use of equipment
Grade 5 - Units 2,3,5,8,9.....life in industrial civilization
Grade 6 - Units 1,3,6.....living in the modern world
Grade 7 - Units 4,5.....rural and urban life
Grade 8 - Unit 6 .....conserving life and property
Grade 9 - Unit 3 .....governing ourselves
Grade 10- Unit 4 .....fighting poverty and insecurity

The education Division will ask the Ministry to emphasize the above units when they appear in the curriculum and will offer suggestions for suitable class activities. Professional classes in institutions of higher learning will be encouraged to develop studies in these areas.

(2) Supplementary Material

(a) Provide supplementary material such as pamphlets, books, posters, special information, etc., to MG officers for distribution and use by teachers and pupils at the local school level.

(b) Provide suitable material to various youth organizations on activities in housing, fire prevention, city planning and zoning, beautification, etc., which they might undertake.

(c) Draft a list of Japanese educational films pertaining to the subject for circulation among interested Japanese groups and MG officers in the field.

(d) Encourage the Ministry of Education to provide material to adult education groups on housing and related subjects. Material on this subject will be incorporated by the Adult Education Officer in periodical speeches delivered to prefectural chiefs of social education. It is also proposed to include suitable material in the SOCIAL EDUCATION NEWS.

(3) Physical Education

(a) Material on playgrounds, public recreation, etc., will be prepared for distribution by the advisor on Recreation at regional conferences to be held this fall.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DRAFT

5. Motion Pictures

a. News reel coverage of noteworthy housing developments.

b. One documentary film, "Tokyo After Twenty Years," has already been produced. A second documentary, "A Magic Pencil," stressing city planning and zoning is in production.

c. Suitable documentary films on model housing produced by Federal Housing Administration and other U. S. organizations are being sought for screening in Japan.

6. CIE Libraries

a. Exhibits and posters depicting various aspects of housing problem will be displayed.

b. Displays will be arranged of pamphlets, booklets and magazine articles on housing, city planning and zoning, fire prevention and related subjects.

c. A bibliography of books, magazine articles and other material in CIE libraries relating to housing and reconstruction has been prepared and will be distributed to Reconstruction Board offices and to other interested Japanese agencies in vicinities where CIE libraries are located.

7. Pamphlets

a. A pamphlet will be prepared by the Reconstruction Board in cooperation with ESS Construction Branch and CIE Economic Affairs Information Officer on "ABC's of the Japanese Reconstruction Act." (Already done.)

b. A pamphlet will be prepared in cooperation with CID Public Safety Branch and the Japanese Reconstruction Board on "Planning for Safety", stressing fire prevention.

c. A pamphlet will be prepared in cooperation with PH&W and the Japanese Reconstruction Board on "Modern Sanitation - a Guide for the Home Builder."

8. Conferences

a. A round-table discussion on housing sponsored by the Reconstruction Board and one of the big newspapers will be held in Tokyo. Participants will include representatives of GHQ, The Japanese Board of Reconstruction, the Ministry of Commerce and Industry, the Welfare Ministry, Building Contractors and other interested personnel.

DECLASSIFIED E.O. 12065 SECTION 3-407/NNDG NO. 775013

DRAFT

b. Similar round-table discussions on housing are planned in all of the large war-damaged cities in Japan, the meeting to be sponsored by the prefectural office of the Reconstruction Board and one of the big newspapers in the area.

c. CIE Women's Affairs Officer will arrange a meeting in Tokyo at which the subject "Women's Role in Solving Japan's Housing Shortage" will be discussed. Participants will include representatives of ESS Construction Branch, PH&W Sanitary Unit and CID Public Safety Branch. Similar meetings, if practicable, will be held in other large cities.

BERNARD DECKLE
Economic Affairs Information Officer

DECLASSIFIED E.O. 12065 SECTION 3-407/NNDG NO. 775013

# DRAFT OF SUMMARY FOR PLANS ON HOUSING INFORMATION

## Purpose

1. To prevent the lowering of quality and quantity of dwellings.
2. To make or prepare pleasant residential plot.

## Contents

I. How to remedy present tendency of lowering of the quantity of dwellings.

1. Thorough propagation of the contents of the Temporary Building Restriction Regulation.
2. Thorough propagation of the contents of the Dwelling Emergency Measure.
3. Method for prolonging the life of dwellings.
4. Use of the substitute building materials.
5. Propagation of the methods for mass production.
6. Problem of land.
7. Problem of fund.
8. Temporary Measure for Lease of Land and House.

II. How to remedy present tendency of lowering of the quality of dwellings.

1. Thorough propagation of sanitary provisions for dwellings.
2. Thorough propagation of fire proof provisions for dwellings.
3. Showing the methods in building, use and manner of living in dwellings.
4. How to make pleasant residential plots (Problems of City Planning).

## Method of Propaganda

1. By utilizing newspapers.

a. By way of announcement (as in New column) from time to time.

DECLASSIFIED E.O. 12065 SECTION 3-407/NNDG NO. 775013

e. By means of using Theaters and department stores ... occasionally

7. Exhibition ... 2 or 3 times a year. (Treating quantity and quality separately or by subdividing in to some more details).

a. By means of models, reliefs and drawings.
b. By means of photographs.
c. By means of full size samples
d. Travelling exhibition on train

Points in Propaganda

I. The following methods are mainly used for thorough propagation of the Temporary Building Restriction Regulation and Dwelling Emergancy Measure.

1. By talk-announcement and conversazione in newspapers
2. By spot broadcast, street broadcasting, conversazione, Impromptu answers, radio-comedy, etc. through radio.
3. Taking a part as spot show in cinema news and cinemaad in Cinema.
4. By pamphlet and leaflet.
5. By ad-tower, circulars, advertisement in theaters and cinemas.
6. In part of an exhibition.
7. In general follow the methods of spot propaganda.

II. The following methods will be used for contents other than given above.

1. As contributions in newspapers and magazines
2. In redio in way of essay readings, lectures, impromptu answers, radio-comedy, and etc.
3. By cultural cinema.
4. By exhibition.
5. By others.

Fund

To meet expenses for cinema, exhibition, and other advertisements cooperations of prefectural government and private organazations are expected. For instance such organization as the City Planning Ass'n. The Modern Residence Ass'n, the Inventors Ass'n, and etc. may be counted upon.

DECLASSIFIED E.O. 12065 SECTION 3-407/NNDG NO. 775013

## Plan according to month

July: Problem of Sanitation ... Ventilation, problem of sanitary equipments.
Making of pleasant residential plots.

August: Instructions for making, use, manner of living, and etc., of dwellings.

Sept.: Problem of quantity of dwellings.

Oct.: Problem of sanitation ... Problem of natural lighting.
Making of pleasant residential plots.

Nov.: Problem of fire prevention.
Making of pleasant residential plots.

# OUTLINE OF CITY-MANAGED DWELLING PROGRAM WITH CONTIDIONS OF DEMAND AND SUPPLY OF HOUSING IN KOCHI CITY

NOV. 15

HOUSING SECTION OF CITY MINSEI-DEPT.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

I. CATEGORIES OF CITY-MANAGED DWELLINGS

1. Simple dwellings: (Kani Jutaku) Cedar-skin thatched houses with an average area of 4 tsubo ( 1 tsubo equals 36 square feet) equitted with a common kitchen and toilet-room for every 4 houses.

2. Converted dwellings( Tenyo Jutaku): Converted houses made available by partitioning of rooms of the already-existing houses or buildings and equipped with a common kitchen and toilet-room.

3. Emergency dwellings(Okyu Jutaku): Cedar-skin thatched emergency houses with the same equipments as " simple dwellings".

4. People's dwellings(Shomin Jutaku): Permanent houses roofed with cement tiles or galvanized iron sheets. These are termed " post-quake emergency dwellings" in the budgetary section of the 1946 dwelling program.

5. Bunjo (for sale)dwellings: Permanent houses with an average area of 12 tsubo for sale in addition to these, there are a total of 37 old houses built before the earth-quake.

II. CONSTRUCTION CONDITIONS OF CITY-MANAGED DWELLINGS

| Classification | plan | completed | under construction | not yet under construction | Total |
|---|---|---|---|---|---|
| Simple dwellings | 300 | 246 | | | 246 |
| Converted " | 100 | | | | 100 |
| Emergency " | 500 | 512 | | | 512 |
| People " | 464 | 124 | 254 | 87 | 465 |
| Bunjo " | 50 | | | 50 | 50 |
| Total | 1415 | 982 | 254 | 137 | 1373 |

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Simple dwellings: of the 300 houses under the construction program of 246 houses are constructed, the rest being cancelled due to soaring up commodities price.

| Location | No. of houses built |
|---|---|
| Former site of Kutanda school | 96 |
| Former site of Shioyazaki school | 72 |
| Hituzan-cho | 64 |

| Total | 512 | | |

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. People's Dwellings: 300 houses and 165 houses under the construction programs for 1946 and 1947 respectively are now under construction, the process conditions of which are as follows:

| Location | Area | Completed | Under Construction | Not yet started | Notes |
|---|---|---|---|---|---|
| Saiwaicho | 733 | 22 | | | |
| Obiyamachi | - | 16 | | | |
| 5-chome, Sanbashidori | 749 | | 31 | | Expected to be completed on Nov. 30 |
| Echizenmachi | 400 | | 10 | | " on Jan. 31 |
| 2-chome, Atago-cho | 504 | | 16 | | " on Jan. 31 |
| Site of Nippon Plug Co. | | | | | |
| Matuikecho | 5308 | | 120 | 45 | " on March 31 |
| 200 places owned by individuals | - | 86 | 77 | 37 | |
| Undecided | - | | | 5 | |
| | | 124 | 254 | 87 | Total 465 |

Furthermore, negotiations for release of some 500 tsubo of land in front of the Kakegawa Shrine, Azone and about 350 tsubo of land owned by the Temman Shrine, Tenjin-cho are under way with the cultivators and owners concerned respectively.

5. Bunjo Dwellings: Construction of 50 houses under the 1st 1947 program was already decided upon and preparation is going on for receiving applications from December 1.
As regards the 2nd program of consructing a total of 350 houses for which the application was made already to the Rehabilitation Board, it is very likely to be approved by the authorities concerned.

III. Prospect of the City-managed dwellings

The city is under the necessity of obtaining permission by the Rehabilitation Board for constructiong a total of 1000 people's houses and of doing reparir of some of simple dwellings and emergency dwellings in the 1948 fiscal year.
Obtainment of building-sites is also necessary. Since it is found imperative to tide over the following difficulties in order to attain this objective, streneous efforts are being made to negotiate with the authorities concerned for its realization taking advantages of every opportunity available.

A. Increase in unit cost of building:

In view of the fact that construction of houses at the official unit building cost of 4000 yen per tubo is remarkably difficult partly due to enforcement of new official prices and partly due to soaring up of labor cost, a nation-wide demand for the raise in official unit cost is being made. Indication is that the raise of unit cost to about 6000 yen per tsubo is likely to be

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

realized for the 1947 fiscal year program. Further it is desired that the similar raise be effected for the 1948 program also.

B. Increase in rate of national subsidy

Hitherto half of the construction expenditures of people's dwellings have been disbursed from the National Treasury and the house rent for these houses have been charged on the basis of the construction cost with the national subsidy reduced. Accordingly this rate of national subsidy necessitates economic over-burden to the dwellers especially when the construction cost is high. It is disired that the rate be raised to more than 70% or, if possible, to 100%.

C. Supply of funds: In view of the unfavorable prospect

In view of the unfavorable prospect of floatation of city loans which have been on the basis of the Government financing hunds, it is desirable that a special housing financing chest be established with a view to supplying loans preferentially to housing programs.

D. Legislation relating to procurement of building-sites

As it is desired that construction of group houses be urged in suburban areas because of the great difficulty faced by those concerned in procuring building-sites, in Kochi City, legislation of proper readustment with the Agrarian Adjustment Law is required to be completed at an earliest possible date.

E. Adequate distribution of raw materials :

It is required that the Government supply necessary quantity of construction materials to the present housing program.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Conditions of demand and supply of housing in Kochi City

Survey conducted as of Nov. 1, 1947

1. Number of houses requireing construction

( On the assumption that no house has been built since the air-raid disaster. )

A. Pre-airraid shortage..... 2696 houses

The number of households as of October 1, 1944 was 30,838 or a population of 139,258 for which a total of 28,142 houses were available for dwelling.

B. Loss by air-raid disaster ..... 12,064

C. HOUSES tatally destroyed by earth-quake..... 1,689

D. Loss by compulsory evacuation and natural calamity other than earth-quake 282

E. Houses needed for housing repatriates..... 2840

The total number of repatriates is 8519 or 3348 households. However, the number of houses needed in reality is calculated as 1 to every three persons.

F. Houses needed due to increased population ..... 1050

The total households as of November 1, 1947 number 34,728 with a population of 148,760, showing an increse of 3890 households over the figure of Oct. 1, 1944. Nevertheless, reducing the 2840 households including repatriates, we can get the figure of 1050.

G. Aggregate Total .....20,621

2. Number of houses constructed after the air-raid disaster ( rooms of apartment house or tenement are calculated as individual houses )

A. Dwellings of public welfare facilities:

| | |
|---|---|
| Kosei-kan ( Municipal, Mothe-and-children House)..... | 40 |
| Hakuaien-Nadeshikoryo (ditto)..... | 18 |
| Chigusaryo fo Brethren Assistance Association (diddo) | 4 |
| City-managed converted dwellings..... | 100 |
| City-managed emergency dwellings..... | 512 |
| Total | 674 |

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

B. Planned dwellings:

| | |
|---|---|
| People's dwellingsmanaged by Housing Corporation..... | 54 |
| " " " Brethren Assistance Association.. | 50 |
| City-managed Simple dwellings..... | 246 |
| City-managed people's dwellings..... | 124 |
| Total | 474 |

C. General Dwellings:

| | |
|---|---|
| Authorized..... | 6,338 |
| Unauthorized..... | 3,584 |
| Total | 9,922 |
| (As of August 1 ..... | 8,411) |

D. Aggregate total 11,070

Total number of house shortage 9.551

# HOUSING DEMAND AND SUPPLY OUTLOOKS IN KOCHI CITY AT PRESENT AND FUTURE

Kochi City Public Welfare Department
Housing Section, date of investigation
September 1st, 1947.

| | | |
|---|---|---|
| 1. | Destroyed Houses since the day of war damage: | 19,657 |
| a. | Already wanted number before the war damage: | 2,696 |
| | Population and number of households at October 1st, 1944: 139,258 30,838 households (Consider common cooking families as one household) | |
| | Possible houses to live in for above mentioned people: | 28,142 |
| b. | Burnt-houses by war | 12,064 |
| c. | Unapplying houses by the earthquake | 1,689 |
| d. | Houses, destroyed by inevitable accidents, such as calamity and fire etc., other than compulsory removal and earthquake. | 247 |
| e. | Needed for rehabilitates | 2,762 |
| f. | Needed caped with population increase | 199 |
| | Number of households Date: August 1st, 1947 (Excluded rehabilitates) | 31,037 |
| | Date: October 1st, 1944 | 30,838 |
| 2. | Constructed houses after the war damage: (Remarks--About apartment houses and tenement houses consider a chamber as a house) | 9,489 |
| a. | Houses for public welfare institutions | 660 |
| | Municipal public welfare building (Boshiryo at Godaisan) | 40 |
| | Nadeshiko-ryo of the Philanthropists Union (Boshiryo at Honmachi) | 18 |
| | Chigusa-ryo of the Brethren Supporting Union (Boshiryo at Ekimae) | 4 |
| | Municipal emergency houses (1946) | 500 |
| | Municipal shifting houses (1946) | 98 |

9406

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. Planned houses

| | |
|---|---|
| Municipal simple houses (1945) | 246 |
| Municipal masses houses (1946) | 68 |
| Masses houses of the Brethren Supporting Union (1946) | 50 |
| Masses houses of the Housing Planning Union (1946) | 54 |

c. Private owned houses 8,411

Permitted houses 5,506

Unpermitted houses 2,905

3. House shortage at present 10,168

4. Number of houses, which are scheduled to be constructed within this year:

Municipal masses houses 397

Municipal for sale houses 50

5. Houses presumed to be needed by the fact of damage of calamity and fire in average years and population increase: 350

6. Construction plan hereafter:

If a five years plan hereafter would be enforced, 2,350 houses should be constructed every year and if it were a ten years plan 1,350 houses and if it were a twenty years plan 850 should be.

These plans include the number of private owned houses. But, as among the already constructed private owned houses are a plenty of unpermitted residences, the authorities will hereafter remove these. And yet, among the already constructed municipal emergency residences and shifting houses are those, which need to be moved or be removed at once and are for only three to five years durable. Therefore, it is expected that the authorities should build roughly 1,000 houses every year for five years since 1948.

7. As a scheme to build 1,000 houses every year since 1948 solution of below mentioned items is eagerly desired.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

a. The increase of national subsidy.

So far the masses residences receive the national subsidy for the half of their managing expense, but at least 70%, if possible 100%, of their cost should be boarded by the national subsidy. If necessary even for residences consisted of a chamber of 4.5 'jo' space or apartments, the subsidy should be needed.

b. Preparation of funds.

Although so far the issue of municipal loan is made by means of the governmental finance funds, hereafter this means will become difficult. Therefore, a special banking organ for house-building, such as residence banking cash-office, should be provided for in order to preferencially lend the planned residences money. In this city particularly funds to gain the sites are wanted.

c. Legislation for gaining the sites

For gaining the sites of planned residences so far complex measures have been needed. As it would be ideal to select proper grounds in the suburb and build collective residences, if would be desired to enforce legal measures and regulate it properly with the Arable Lands Regulating Law.

d. Proper distribution of the materials

Among the materials lumber is comparatively easy to get in this city, but to gain the by-materials, such as nail,cement, glass and straw mat covers, so far has been rather troublesome. Proper measures would be needed to gain these materials in future.

e. Perfection of accommodation of sectional houses.

These houses are now being built partially under direct undertaking of the authorities and for the most part by contracts. In the future, authentic and effective direct undertakings, using plainers and belt-saws, should be introduced; not to mention the intense utilization of the municipal saw-mill.
