PROFIT IN BUSINESS

(Continued from Page 1)

prosperity, for profit is like a great prosperity, for profit is like a great chain running over a sprocket wheel. For, if one link should weaken and finally break and if a fair profit has not been laid aside as a resource to repair it and weld it together, then we have hard times. Then some great events will have to occur to again weld the chain and do away with the stagnation caused by this that for profit. with the stagnation caused by this that for profit.

en. A great war has broken forth in Europe and is again about to join this chain. How? By taking away the over-production caused by our under-consumption, which in turn was caused by the masses' lack of backbone to stand up for the profit which they were entitled to.

Then when the new year comes every many will be able to most his fellow.

either working or selling our goods so cheaply that our competitors, in trying to meet our prices, will fail.

Use your natural ingenuity and personality, but do not resort to the

breach.

And now the great chain of prosperity has been weakened and broken. A great war has broken forth in effect: "Profit to me means profit

which they were entitled to.

This being the case, and I dare say we are all of us more or less guilty for the condition of this chain, let us return to our business, fully resolved that we will not be guilty of solved that we will not the process of the new year comes every man will be able to meet his fellow man and say: "I have not sold or labored so cheaply that if my fellow man met the price he had to deprive himself of an honest profit."
