

STATUTES OF CALIFORNIA

PASSED AT THE

FORTY-FIFTH SESSION OF THE LEGISLATURE

CHAPTER 1.

An act to validate certain bonds of certain levee and joint levee districts and all proceedings relative thereto, and to provide for the levy and collection of taxes to pay the principal and interest on such bonds, and to declare the urgency of said act.

[Approved January 23, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Whenever prior to the taking effect of this act proceedings have been taken by any levee district or joint levee district organized or purported to be organized under any general law or laws of this state, for the issuing and selling of bonds of such district, for any purpose or purposes, all the acts and proceedings of the board of trustees of such district and all of the acts of the board of supervisors of the county or counties in which such district or any part thereof is situated and all of the acts of all public officers in connection therewith leading up to and including the issuance of such bonds if they have hitherto been issued or sold, and all such acts and proceedings heretofore had although the bonds are not yet issued or sold, are hereby legalized, ratified, confirmed and validated to all intents and purposes, and the power of such district to issue such bonds is hereby acknowledged, granted, ratified, confirmed and declared, and the bonds heretofore issued and sold and the bonds heretofore authorized to be issued which may be hereafter issued and sold, are declared to be and shall be the legal and binding obligations of, and against the district having heretofore issued, or hereafter issuing, such bonds, and the faith and credit of such district is hereby pledged for the prompt payment and redemption of the principal and interest of said bonds.

SEC. 2. For the purpose of paying the interest on such bonds as it becomes due and the principal thereof at maturity, the board of trustees of the levee district and the board of supervisors of the county or counties in which such levee district or any part thereof lies, and the various county officers of the respective counties who are charged with duties in connection with the assessment, levy and collection of taxes, shall have the same powers and shall perform the same duties as are provided by law relative to the assessment, levy and collection of taxes, and custody of funds, for the payment of the principal and interest of bonds of levee dis-

tricts and joint levee districts respectively, at the times and in the manner respectively set forth in the respective law or laws authorizing or purporting to authorize the incurring of bonded indebtedness or issuance of bonds by such districts.

Bonds
excepted.

SEC. 3. This act shall not operate to legalize the sale hereafter of any bonds of any such district at a price of less than par, nor to legalize any bonds in cases where the question of issuing the same has been submitted to the vote of the qualified electors or of the taxpayers, and has failed to obtain the number of favorable votes required by the particular statute under which the proceedings were taken.

Urgency
measure.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section one, article four of the constitution of the State of California, and shall take effect immediately.

The facts constituting such urgency are as follows:

In many of the levee districts of the state proceedings have been taken under one or more general laws looking toward or resulting in the issuance of bonds of such districts. Divers irregularities which the legislature deems and declares not to affect injuriously the public interest or any private rights have occurred in connection with said proceedings and among other matters serious doubt has arisen whether the incurring of a bonded indebtedness for certain public purposes frequently mentioned in such bond proceedings has been duly authorized by any existing statutes. For these reasons the marketability of many of such issues has been most injuriously affected and many districts are unable to sell bonds when offered for sale and can not continue the work of constructing levees, ditches, canals, and various other protective works to insure such levee districts and the inhabitants thereof against loss and injury by reason of floods and overflows, and said districts can not make maturing payments on contracts for doing such work, and the danger occasioned thereby to life, health and property is urgent because of the pending and threatened high water, floods and freshets of the late winter, spring and early summer.

CHAPTER 2.

An act making an appropriation to defray the expenses of legislative mailing handled by the chief of the division of printing of the department of finance for the forty-fifth session of the legislature of the State of California.

[Approved January 29, 1923.]

The people of the State of California do enact as follows:

Appropriation:
legislative
mailing.

SECTION 1. The sum of three thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of

any moneys in the state treasury not otherwise appropriated, to defray the expense of mailing handled by the chief of the division of printing of the department of finance during the forty-fifth session of the legislature of the State of California.

SEC. 2. This act inasmuch as it provides for an appropriation for the usual current expenses of the state shall, under the provisions of section one of article four of the constitution take effect immediately. Urgency measure.

CHAPTER 3.

An act to amend section four of an act entitled "An act concerning tunnels, tubes and subways under navigable streams and bodies of water in the State of California," approved March 23, 1911.

[Approved January 30, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Section four of an act entitled "An act concerning tunnels, tubes and subways under navigable streams and bodies of water in the State of California," approved March 23, 1911, is hereby amended to read as follows: Stats. 1911, p. 475, amended.

4. Whenever any such tube, tunnel or subway, or any part thereof, shall reach within the limits of any incorporated town, or city, or city and county, and the governing body of each of such incorporated towns, or cities, or cities and counties, and the board of supervisors of the county in which such incorporated towns, or cities, are situated shall first so agree, the board of supervisors shall have the power to call an election and submit to the electors of said county the question whether bonds of said county shall be issued and sold for the purpose of building and constructing such tube, tunnel or subway in the manner prescribed in section one of this act. When tunnel reaches within limits of city.

SEC. 2. Inasmuch as this act concerns and is necessary to the immediate preservation of the public safety for the reason that the officials of the United States government have declared that two of the present bridges crossing the estuary between Oakland and Alameda, in the county of Alameda, are a menace to navigation and dangerous to the lives and property on vessels navigated on the estuary and must be removed at once, and a subway or tube can not be constructed until the above entitled act be amended, this act is hereby declared to be an urgency measure within the meaning of section one of article four of the constitution of the State of California and it shall take effect immediately. Urgency measure.

CHAPTER 4.

An act to legalize bonds heretofore issued and sold, or to be issued and sold, by municipalities where authority for such issuance has already been given by vote of not less than two-thirds of the electors of such municipality voting upon the question of incurring such indebtedness.

[Approved February 2, 1923.]

The people of the State of California do enact as follows:

Municipal
bonds
validated

SECTION 1. In all cases where the legislative branch of any municipality in this state has deemed it necessary to incur an indebtedness in excess of the ordinary annual income and revenue of such municipality, for any purpose or purposes, and has called an election for the purpose of submitting to the qualified electors of such municipality the question whether such indebtedness shall be incurred, and where at such election not less than two-thirds of all the qualified electors voting thereat shall have voted in favor of incurring such indebtedness, and the mode of creating such indebtedness has been by the proposed issuance of the bonds of such municipality, the power of such municipality to issue such bonds and all the acts and proceedings of such municipality leading up to and including the issuance and sale or the proposed issuance and sale of such bonds are hereby legalized, ratified, confirmed and declared valid to all intents and purposes; and all such bonds, sold either before or after the passage of this act for not less than their par value are hereby legalized and declared to be legal and valid obligations of and against such municipality so issuing and selling the same, and the faith and credit of such municipality is hereby pledged for the prompt payment and redemption of the principal and interest of said bonds.

Levy of
taxes.

SEC. 2. The legislative branch of such municipal corporation shall at the time of fixing the general tax levy and in the manner for such general tax levy provided, levy and collect annually each year until said bonds are paid, or until there shall be a sum in the treasury of said municipal corporation, set apart for that purpose sufficient to meet all sums coming due for the principal and interest on such bonds a tax sufficient to pay the annual interest on such bonds and also such part of the principal thereof as shall become due before the time for fixing the next general tax levy; *provided, however*, that if the maturity of the indebtedness created by the issue of bonds be made to begin more than one year after the date of the issuance of such bonds, such tax shall be levied and collected at the time and in the manner aforesaid annually each year, sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof on or before maturity. The taxes herein required to be levied and collected shall be in addition to all other taxes levied for municipal purposes and shall be collected at the time and in the same manner as other

municipal taxes are collected and be used for no other purpose than for the payment of said bonds and the accruing interest thereon.

SEC. 3. This act shall not operate to legalize any bonds which have been sold for less than par, nor to legalize any bonds the issuance of which has not received the assent of two-thirds of the qualified electors of such municipal corporation, voting at an election held for the purpose of determining whether such indebtedness should be incurred, nor to legalize any bonds which mature at a date more than forty years from the time of their issuance. Bonds
excepted.

SEC. 4. This act is hereby declared to be an urgency measure within the meaning of section one of article four of the constitution of the State of California, and shall take effect immediately. Urgency
measure.

The following is a statement of the facts constituting such urgency:

The lives of many school children are endangered by reason of the fact that they are compelled to cross railroad tracks and highways on their way to school. In order that cities of the sixth class can properly take care of this dangerous condition, bonds have been issued which have been questioned as to their legality. Each day that the sale of bonds is delayed is dangerous to the life of little children and makes the immediate passage of this act necessary.

CHAPTER 5.

An act making an appropriation for the completion of the printing plant at Sacramento.

[Approved February 2, 1923.]

The people of the State of California do enact as follows:

Appropriation:
completion state
printing
plant.

SEC. 2. Inasmuch as the present state printing plant has been condemned by the department of engineering as in an unsafe and dangerous condition and is liable at any time to collapse and cause the death of the state employees working in said plant, and owing to the fact that the appropriation made by the forty-fourth session of the legislature has been inadequate to complete the new printing plant, which is now under course of construction, this act is hereby declared an urgency measure and shall, under the provisions of section one of article four of the constitution, take effect immediately. Urgency
measure

Urgency measure.

SEC. 2. Inasmuch as it is necessary to complete the building as rapidly as possible as leases for the various state offices in San Francisco have expired and it is impossible to procure new quarters, this act is declared to be necessary for the public interest and to be an urgency measure and shall, under the provisions of section one of article four of the constitution, take effect immediately.

CHAPTER 7.

counties.

Expenses incurred thereafter prior to the receipt of money by the district from taxes or assessments, bond sales, or otherwise shall be paid from the general funds of the respective counties proportionately upon the order of the board of supervisors, and shall be paid upon certification of the clerk of the board of supervisors of such order, specifying the amount and purpose of the claims to the auditor of each county, who shall

thereupon at once issue his warrant to the treasurer of his county. Upon receipt of funds by the district from the sale of bonds or by taxation or assessment the funds so advanced by the counties shall be repaid.

As soon as any district shall have been organized under this act, and a board of directors shall have been elected and qualified, such board of directors shall recommend to the board of supervisors and the board of supervisors shall have the power and authority to levy upon the property within the district an assessment not to exceed three mills on each one hundred cents of the assessed valuation thereof as a level rate to be used for the purpose of paying expenses of organization, for surveys and plans, and for other incidental expenses which may be necessary up to the time money is received from the sale of bonds or otherwise. This assessment shall be certified to the auditors of the various counties having property within the district and by them to the respective treasurers of their counties. If such items of expense have already been paid in whole or in part from other sources, they may be repaid from the receipts of such levy, and such levy may be made although the work proposed may have been found impracticable or for other reasons is abandoned. The tax collector shall at once proceed to collect said assessment and the collection of such assessment levy shall conform in all matters to the collection of taxes and assessments for the district outlined in this act, and the same provisions concerning the nonpayment of taxes shall apply. In case a district is disbanded for any cause whatever before the work is contracted, the data, plans and estimates which have been secured shall be filed with the clerk of the board of supervisors with which the petition thereupon was filed, and shall be matters of public record available to any person interested.

Tax levy
for incidental
expenses.

SEC. 2. This act is hereby declared to be an urgency measure within the meaning of section one of article four of the constitution of the State of California, and shall take effect immediately.

Urgency
measure.

The facts constituting such urgency are as follows:

That the provisions of said section thirty-five of the conservancy act of the State of California as the same now reads, do not provide for the raising of sufficient funds to enable districts organized under said act to pay the expenses of organization, for surveys and plans and for other incidental expenses which may be necessary up to the time money is received from the sale of bonds or otherwise, and that delay in providing suitable means for raising sufficient funds for said purposes will result in great damage to the lands located within said districts and to the owners of said lands for the reason that none of the conservancy works provided for in said conservancy act can be done this year unless sufficient funds are immediately available to pay the said preliminary expenses.

CHAPTER 19.

An act to amend an act entitled "An act to promote drainage," approved March 18, 1885, as amended, by adding a new section thereto to be numbered twenty a, providing for the alteration of the boundaries of drainage districts.

[Approved April 17, 1923.]

The people of the State of California do enact as follows:

SECTION 1. A new section is hereby added to an act entitled "An act to promote drainage," approved March 18, 1885, as amended, to be numbered twenty a and to read as follows:

Boundaries may be changed.

Sec. 20a. The boundaries of any drainage district now organized, or which may hereafter be organized, under the provisions of this act, may be changed, and tracts of land which were not included within the original boundaries, or changed boundaries of said district, at or after its organization, may be included therein, and tracts of land which were included within the boundaries of said district, at or after its organization, may be excluded therefrom in the manner in this section prescribed; but neither such change of the boundaries of the district, nor such inclusion or exclusion of land in or from the district, shall impair or affect its organization or its right in or to property or any of its rights or privileges of whatever kind or nature; nor shall any inclusion or exclusion of land from the district affect, impair or discharge any contract, obligation, lien or charge for or upon which said district may become liable or chargeable had such change of

its boundaries not been made, or had said land not been included or excluded from the district.

1. The owner or owners in fee of one or more tracts of land susceptible of the same mode of drainage as the land within the boundaries of the district, and contiguous to the boundaries of said district, may jointly or severally file with the board of supervisors of the county in which the district was formed a petition praying that such tract or tracts may be included within the exterior boundaries of said district. The petition shall state the grounds and reasons upon which it is claimed that such land should be included. Such petition must be acknowledged in the same manner and form as is required in the case of conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such a conveyance. The clerk of the board of supervisors shall cause a notice of filing of such petition to be published at least two weeks in some newspaper of general circulation published in the county where said district was formed, and if any portion of such territory to be included lies within another county or counties, then such notice shall be so published in a newspaper published within each of said counties; or if no newspaper be published therein then by posting such notice for the same time in at least three public places within said district, and in the case of posting of said notices one of said notices must be so posted on the land proposed to be included. In addition to the notice by publication or posting, as above provided, he shall cause such notice to be mailed to each person owning property within said district, by United States mail, postage prepaid to the post-office address of such landowner if known, and if not known then to his last known address. Said notice shall be mailed at least ten days before the day set for such hearing. The notice shall state the filing of such petition, the names of the petitioners, a description of the land mentioned in said petition and the prayer of said petition, and it shall notify all persons interested in, or who may be affected by the change of the boundaries of said district, to appear at the office of said board at the time named in said notice, and show cause in writing, if any they have, why the change of the boundaries of said district as proposed in said petition should not be made. The time specified in the notice at which they shall be required to show cause shall be at a regular meeting of the board. The board of supervisors at the time and place mentioned in the notice, or at any time or times to which the said petition may be adjourned, shall proceed to hear the petition and all evidence or proofs that may or shall be introduced by or on behalf of the petitioner or petitioners, and all objections to said petition that may or shall be presented in writing by any person showing cause as aforesaid, and all evidence or proofs that may be introduced in support of such objection. Such evidence shall be taken down in shorthand and a record made thereof and filed with the board.

Petition to include additional land.

Publication of notice.

Personal notice to property owners.

Hearing of petition.

Assent of interested parties

The failure of any person interested in said district, other than the holders of legally issued warrants of said district, to show cause in writing why the tract or tracts of land mentioned in said petition should not be included in said district, shall be deemed and taken as an assent by him to the inclusion of such tract or tracts of land or any part thereof in said district; and the filing of such petition with said board as aforesaid shall be deemed and taken as an assent by each and all of such petitioners to the inclusion within the said district of land mentioned in the petition or any part thereof. The expense of giving said notice and of the aforesaid proceeding, should be paid by the person or persons filing such petition.

Expense.

Board may deny petition.

If, upon the hearing of any such petition, no evidence or proofs in support thereof be introduced, or if the evidence fails to sustain said petition or if the board deems it not for the best interests of the district that the land or some portion thereof mentioned in the petition should be included within said district, the board shall order that said petition be denied as to such land; but if the board deems it for the best interest of the district that the land mentioned in the petition or some portion thereof be included within the district, and if no person interested in the district show cause in writing why the said land or some portion thereof should not be included within the district, or if having shown cause, withdraws the same, or upon the hearing fails to establish such objections as he may have made then it shall be the duty of the board forthwith to make an order that the lands mentioned and described in the petition or some defined portion thereof be included within said district; *provided*, that if the holders of the legal title representing ten per cent of the total acreage embraced within the exterior boundaries of said district, as appears from the last assessment list made and placed in said district, or if none has been made, then as appears from the petition for the organization of the district or the supplemental petitions filed to include and exclude lands from the district, file with the board of supervisors of said county written objections to the inclusion of such land within the district, it shall be the duty of said board of supervisors to forthwith deny said petition and refuse to include said land within the boundaries of said district.

Or may grant.

Petition may be blocked by owners of 10 per cent of acreage of district.

If granted, petitioners shall contribute on account of past expenditures.

In the event the board of supervisors determine that the land described in said petition or any portion thereof should be included within the exterior boundaries of said district, then the board shall require evidence of the amount of money expended theretofore by the district for improvements and expenses, and before it shall make its order declaring said land or a portion thereof to be included in said district, the board shall require said petitioners to pay to the county treasurer the amount which said board shall deem equitable as and for the contribution of said tract of lands or a portion thereof toward the work already done by the district and the money expended by the district, which said money shall be paid

into the county treasury in the county in which said district is formed, and the board before making its written order declaring said tract of land or a portion thereof a part of said district, shall require a receipt from the petitioner or petitioners showing that the sum of money ordered by the board to be paid into the county treasury has been paid. In case there is at the time of such application, or at any time prior to the final determination thereof, a lien upon the lands within the district for assessment, then, in addition to the foregoing, the board of supervisors must determine the amount that the tract of land to be included within the district should be assessed for, and shall so order, and from the time that the order is so made the same shall constitute a lien against said land included within the district, and shall have the same force and effect as the liens hereinbefore provided for in this act, and the same shall be due and payable at the same time or times as the assessment made upon the lands already within the district.

Shall also be included in current assessments.

2. The owner, or owners in fee, of one or more tracts of land within the boundaries of the district, may jointly or severally file with the board of supervisors of the county in which the district or greater part thereof is situate, a petition praying that such tract or tracts may be excluded from said district. The petition shall state the grounds and reasons upon which it is claimed that such land should be excluded. Such petition must be acknowledged in the same manner and form as is required in the case of conveyance of land and the acknowledgment shall have the same force and effect as the acknowledgment of such a conveyance. The clerk of the board of supervisors shall cause a notice of filing of such petition to be published at least two weeks in some newspaper of general circulation published in the county where said district was formed, and if any portion of such territory to be excluded lies within another county or counties, then such notice shall be so published in a newspaper published within each of said counties; or if no newspaper be published therein, then by posting such notice for the same time in at least three public places within said district, and in the case of posting of said notices one of said notices must be so posted on the land proposed to be excluded. In addition to the notice by publication or posting, as above provided, he shall cause such notice to be mailed to each person owning property within said district, by United States mail, postage prepaid to the post-office address of such land owner, if known, and if not known then to his last known address. Said notice shall be mailed at least ten days before the day set for such hearing. The notice shall state the filing of such petition, the names of the petitioners, a description of the land mentioned in said petition and the prayer of said petition, and it shall notify all persons interested in, or who may be effected by, the change of the boundaries of said district to appear at the office of said board at the time named in said notice, and show cause in writing, if any they have, why the change of

The time specified in the notice at which they shall be required to show cause shall be at a regular meeting of the board. Such evidence shall be taken down in shorthand and a record made thereof and filed with the board. The failure of any person interested in said district, other than the holders of legally issued warrants of said district, to show cause in writing why the tract or tracts of land mentioned in said petition should not be excluded from said district, shall be deemed and taken as an assent by him to the exclusion of such tract or tracts of land or any part thereof from said district; and the filing of such petition with said board as aforesaid shall be deemed taken as an assent by each and all of such petitioners to the exclusion from said district of the land mentioned in the petition or any part thereof. The expenses of giving said notice and of the aforesaid proceeding, shall be paid by the person or persons filing such petition. If, upon the hearing of any such petition, no evidence or proofs in support thereof be introduced, or if the evidence fails to sustain said petition, or if the board deems it not for the best interests of the district that the land or some portion thereof mentioned in the petition should be excluded from said district, the board shall order that said petition be denied as to such land; but if the board deems it for the best interest of the district that the land mentioned in the petition, or some portion thereof, be excluded from the district, and if no person interested in the district show cause in writing why the said land or some portion thereof should not be excluded from the district, or if, having shown cause withdraws the same, or upon the hearing fails to establish such objections as he may have made, then it shall be the duty of the board forthwith to make an order that the lands described and mentioned in the petition, or some defined portion thereof, be excluded from said district; *provided*, that if the holders of the legal title representing ten per cent of the total acreage embraced within the exterior boundaries of said district, as appears from the last assessment list made and placed in said district, or if none has been made, then as appears from the petition for the organization of the district or the supplemental petitions filed to include and exclude land from the district, file with the board of supervisors of said county written objections to the exclusion of such land from the district, it shall be the duty of said board of supervisors forthwith to deny said petition and refuse to exclude said land from the boundaries of said district.

CHAPTER 20.

An act to validate bonds of school districts and high school districts and to provide for the levy and collection of taxes to pay the principal and interest on such bonds.

[Approved April 17, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Where in any school district of any kind or class, including union school districts and joint union school districts or high school districts of any kind or class, including city high school districts, union high school districts and joint union high school districts, proceedings have been taken for the purpose of issuing and selling bonds of such district, for any purpose or purposes, all the acts and proceedings of the board of trustees, board of education or other governing body of such district and all the acts and proceedings of the board of supervisors of the county within which such district is situated, leading up to and including the issuance of such bonds if they have heretofore been sold, and all such acts and proceedings heretofore had although the bonds are not yet sold, are hereby legalized, ratified, confirmed and validated to all intents and purposes, and the power of such district and of the board of supervisors of the county in which such district is situated, to issue such bonds, is hereby ratified, confirmed and declared, and the bonds heretofore sold are declared to be, and the bonds hereafter sold shall be, the legal and binding obligations of and against the district having heretofore issued, or hereafter issuing, such bonds, and the faith and credit of such district is hereby pledged for the prompt payment and redemption of the principal and interest of said bonds.

Bonds of

districts and
high school
districts

SEC. 2. For the purpose of paying the interest on such bonds as it becomes due and the principal thereof at maturity, the assessors, treasurers, boards of supervisors, and other officers of the respective counties, shall have the same powers and shall perform the same duties as are provided by law relative to the assessment, levy and collection of taxes, and custody of funds, for the payment of the principal and interest of bonds of school districts and high school districts of every kind or class, respectively.

Levy of
taxes.

Bonds
excepted.

SEC. 3. This act shall not operate to legalize any bonds which have been sold for less than par, nor to legalize any bonds the issuance of which has not received the assent of two-thirds of the qualified electors of such district, voting at an election held for the purpose of determining whether such indebtedness shall be incurred, nor to legalize any bonds which mature at a date more than forty years from the time of their issuance, but shall legalize all bonds of issues in excess of the limitation prescribed by law upon the bonded indebtedness of any district where at the time of the taking effect of this act the total outstanding bonded indebtedness of such district does not exceed such debt limit.

Urgency
measure.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section one of article four of the constitution of the State of California and shall take effect immediately.

The facts constituting such urgency are as follows:

In certain of the school and high school districts of the state schoolhouses have been destroyed by explosion and fire leaving such districts entirely without buildings or facilities for carrying on their work whereby the pupils are prevented from attending school. In certain of such districts proceedings have been taken for the purpose of, or resulting in the issuance of bonds of such districts, the sale of which would make possible the building of new schools and relieve the aforementioned situations. However, the marketability of many of such bond issues has been most injuriously affected due to the fact that serious doubts have arisen as to the regularity of the proceedings taken in connection with the issuance of such bonds, and for these reasons such districts are not able to go ahead with the work of constructing new buildings and can not take care of the pupils who have been forced out of school.

CHAPTER 21.

An act to approve, confirm, ratify and validate sales and conveyance of real property made by school districts or high school districts or by boards of education or boards of trustees or other governing bodies thereof, or by the board of education of any city, and to approve, confirm, ratify and validate instruments executed or delivered in connection with or as a part of any such sales.

[Approved April 19, 1923.]

Proviso.

Candidates for delegate grouped together on the same nomination paper and selected as aforesaid shall be similarly grouped, in the same order of names, upon the ballots of their party; *provided*, that such group of candidates for delegate has the endorsement of that candidate for presidential nominee for whom the members of said group have filed a preference, or the endorsement of such a state campaign committee created in support of the candidacy of said presidential nominee as shall not be repudiated by him as lacking authority to make such endorsement; said endorsement, either of the candidate or of the state campaign committee supporting him, to be filed with the secretary of state. No candidates for delegate not thus endorsed shall have their names printed upon the ballot in a group, but such candidates must appear as individuals; *and further provided*, that the name of no candidate shall appear more than once on the ballot, and that any candidate whose nomination paper is filed in more than one group, or in the same group differently arranged, shall have his name printed on the ballot as a part of that group which has had first filed the endorsement as herein recited; *provided*, that one of the groups in which his name occurs has received such endorsement. But the neglect or failure of any candidate to include any statement of preference for presidential nominee shall not be a valid ground on the part of the secretary of state for refusal to receive and file the nomination paper containing his name.

Additional statement.

However, each candidate for delegate whose name is filed upon a nomination paper together with the names of other candidates, as hereinbefore in this section provided, in order to have his name printed upon the ballot in a group with such other names, must file such statement of preference, and shall add to it the following:

To the right of the last column shall be a column headed by the words "blank column" in heavy face, ten point, gothic type, which column shall contain as many blank spaces as there are delegates to be elected by the political party concerned. In case that there are no names of candidates for delegate to be placed in a "no preference column," such "no preference column" shall be omitted from the ballot, and the "blank column" as herein provided for shall be placed to the right of and contiguous to the last column headed by the surname of a candidate for presidential nominee.

Lengthwise along this blank column shall be printed "A cross (X) stamped in this square shall be counted for each name of the group to the left." The line separating any name from any other name not in a group or from any group of names shall be heavier than any line separating the individual names in such group, and shall extend across the blank column provided for in this paragraph. Security for utility bonds.

All bonds issued by a railroad or other public utility corporation must be secured by a mortgage or deed of trust which at the time of said certification is: either

II. A first mortgage or deed of trust containing provisions restricting the issuance of further bonds until such time as the income of said corporation shall have been at least sufficient, during the twelve months next preceding the issuance of any additional bonds, to meet the earning requirements heretofore specified in either paragraph (d) or (e) of subdivision 6 of this section applicable to such corporation after including the additional bonds then proposed to be issued; or,

In the case of bonds secured by an underlying or divisional closed mortgage or deed of trust, the net income required by this section shall be

based exclusively upon the income, maintenance charges, operating expenses, taxes and mortgage indebtedness of or against the property covered by such underlying or divisional closed mortgage or deed of trust or, if such income, maintenance charges or operating expenses can not be definitely ascertained, on the proper proportionate share of such property in the general income, maintenance charges, operating expenses and taxes of the corporation then owning such property and on the mortgage indebtedness of or against the property covered by such underlying or divisional closed mortgage or deed of trust.

In determining the market value of any real estate under the provisions of the preceding paragraph where such real estate, improved or unimproved, consists of oil or other mineral or timber land, the value represented by such oil or other mineral or timber shall not be included in fixing such market value. Nothing herein contained shall prevent savings banks from making loans secured by mortgage or deed of trust upon lands wherein redwood timber is included in fixing the market value thereof.

Any bank, however, may, without such certification by the superintendent of banks, purchase any note or bond or issue of notes or bonds provided for in said paragraph (f) of subdivision six of this section, whenever such purchase constitutes the entire amount of notes or bonds executed by the makers thereof and secured by the same real estate; *provided*, that no savings bank shall hold any such notes or bonds unless such holding constitutes the entire issue thereof at any time outstanding; *and provided, also*, that nothing in this paragraph shall be construed to permit savings banks to invest in notes or certificates evidencing participation in any mortgage on real estate unless by law specifically authorized, or in or on any form of obligation secured by any undivided interest in real estate designed to distribute the obligation so secured.

(g) Collateral trust bonds or notes when secured by either:

(1) Deposit of notes or bonds authorized for investment by this section of a market value at least fifteen per centum,

in excess of the par value of the collateral trust bonds or notes issued; or,

Acceptances:

Book value
of bonds.

Any bonds authorized by this section as a legal investment for savings banks may be carried on the books of said bank at their investment value, based on their market value at the time they were originally bought, unless the superintendent of banks shall require any or all of the bonds which may thereafter have a market value less than the original investment value to be written down to such new market value which shall be done gradually if practicable and in such manner as he may determine or he may, by a plan of amortization to be determined by him, require such gradual extinction of premium as will bring such bonds to par at maturity.

Nothing herein shall prohibit any commercial bank from taking or receiving any kind, character or amount of security whatsoever, either real or personal, for the protection of any loan made under the provisions of this subdivision, but no such loan or any part thereof shall be considered or construed as a secured loan unless the whole thereof is loaned upon security worth at least fifteen per centum more than the amount of such loan; or,

2. Fifteen per centum, in addition to the amount that may be loaned under the provisions of subdivision one of this section, upon security worth at least fifteen per centum more than the amount of such loan so secured; *provided*, the total amount which can be loaned under subdivisions one and two hereof can not exceed twenty-five per centum in all; *provided, however*, that a separate note or notes shall be taken for the unsecured loans and a separate note or notes shall be taken for the secured loans, and the secured and unsecured loans shall not be combined in any way within one note, or notes; or,

No commercial bank shall accept, whether in a foreign or domestic transaction, for any one person, company, firm, or corporation to an amount equal at any time in the aggregate to more than ten per centum of its paid-up and unimpaired capital and surplus, unless the bank is secured either by attached documents or by some other actual security growing out of the same transaction as the acceptance; and no commercial bank shall accept such bills to an amount equal at any time in the aggregate to more than one-half of its paid-up and unimpaired capital and surplus; *provided, however*, that the superintendent of banks, under such general regulations as he may prescribe, which shall apply to all commercial banks alike regardless of the amount of capital and surplus, may authorize any commercial bank to accept such bills to an amount not exceeding at any time in the aggregate one hundred per centum of its paid-up and unimpaired capital and surplus.

The cost of making such examination shall be a charge against the bank for which such examination is made.

SEC. 2. Section three of the said act, approved April 7, 1911, as amended, is hereby amended to read as follows:

Resolution
of intention
to improve.

SEC. 3. Before ordering any work done or improvement made which is authorized by this act, the city council shall pass a resolution of intention to do so, referring to the street by its lawful or official name, or the name by which it is commonly known; when the work is not upon a public street or public way, then by briefly describing the property or right of way on which same is to be constructed, and briefly describing the work. The said resolution of intention shall be sufficient if it states in general terms the class or kinds of work contemplated such as grading, paving, sewerage or other work or improvements, and gives in general the location of the proposed improvement and refers to plans, profiles, detailed drawings and specifications or such of them as may be suitable or proper for the full and detailed description of the said proposed work or improvement. Said resolution shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why said proposed improvement should not be carried out in accordance with said resolution; said time shall not be less than fifteen nor more than forty days from the date of the passage of said resolution. The city clerk shall cause said resolution of intention to be published twice in one or more daily newspapers published and circulated in said city: *provided*, if there be no daily newspaper, then the publication shall be made in one or more newspapers published and circulated therein less than six days a week, and said publication shall be had twice therein. If no newspaper be published in said city, then the publication shall be made twice in some newspaper published in the county in which said city is located. The city council may include in one proceeding, under one resolution of intention and in one contract, any of the different kinds of work mentioned in this act on any number of streets, properties and rights of way or portions thereof, contiguous or otherwise, and it may except therefrom any of said work already done. The lots and portions of lots fronting upon said excepted work already done shall not be included in the assessment for the class of work from which the exception is made.

Publication.

Grade.

The grade to which any work shall be done or improvement made shall be such as may be shown on the plans or profiles therefor or it may be done on such a grade as may have been formally established by the city council. If any official grade has already been adopted or established for any of the streets, avenues, or other places or property proposed to be improved, it shall be lawful for the resolution of intention to provide that said work shall be done to new grades or grades different

from those so established or adopted, and shall refer to plans, profiles or specifications for the description of the grade at which the work is to be done. Any property owner whose property is to be assessed to pay the costs and expenses of the proposed improvement may at the time fixed in the resolution of intention for hearing of objections to the proposed work and improvement, appear before the city council and make objection to the proposed grade or proposed modification of grade. A failure to make objection at such time shall be deemed to be a waiver of all objections to the proposed grade or proposed change or modification of grade and shall operate as a bar to any claim for damages or any subsequent action looking to the prevention of the work or the recovery of damages on account of the performance of the work to such grade or changed grade. The provisions of this section relative to grades are alternative and shall not repeal other provisions of this act or other statutes relative to change of grade.

Objections.

Sec. 4. Whenever the contemplated work or improvement, in the opinion of the city council, is of more than local or ordinary public benefit, or whenever, according to estimate to be furnished by the city engineer, the total estimated costs and expenses thereof would exceed one-half the total assessed value of the lots and lands assessed, if assessed upon the lots or land fronting upon said proposed work or improvement, according to the valuation fixed by the last assessment roll whereon it was assessed for taxes for municipal purposes, and allowing a reasonable depth from such frontage for lots or lands assessed in bulk, the city council may make the expense of such work or improvement chargeable upon a district, which the said city council shall, in its resolution of intention, declare to be the district benefited by said work or improvement, and to be assessed to pay the cost and expense thereof. Such district may be described by stating the exterior boundaries thereof, or by giving a description thereof according to any official or recorded map or maps or by referring to a plat or map which shall be on file in the office of the city clerk or city engineer at the time of passing the resolution of intention, which shall indicate by a boundary line the extent of the territory included in the proposed district, which said plat or map shall govern for all details as to the extent of the said assessment district. The said district need not be described in any of the notices or resolutions provided for herein, other than the resolution of intention.

Should no bids be received in response to this second call for proposals, the council may again advertise for and receive bids under the same proceedings at any time within six months from the time set for the first reception of bids, and let the contract to the then lowest bidder, and such delay shall in no way affect the validity of any of the proceedings or assessments levied thereunder. The bids of all persons and the election of all owners, as aforesaid, who have failed to enter into the contract, as herein provided, shall be rejected in any bidding or election subsequent to the first for the same work.

Said notice shall state that it is made in pursuance of this section. All objections to any act or proceeding occurring prior to the time within which such objections are permitted to be filed in relation to said improvement, not made in writing and in the manner and at the time aforesaid, shall be waived, provided the resolution of intention to do the work has been actually published, as provided in this act.

may be deemed requisite by the city council, together with all other incidental expenses incurred up to the time of entering into the contract. And in case the work is abandoned by the city, the incidental expenses incurred previous to such abandonment shall be paid out of the city treasury.

SEC. 18. The superintendent of streets is hereby authorized in his official capacity, to make all written contracts, and to receive all bonds authorized by this act, and to do any other act, either express or implied, that pertains to the street department under this act; and he shall fix the time for the commencement, which shall not be more than fifteen days from the date of the contract, and for the completion of the work under all contracts entered into by him, which work shall be prosecuted with diligence from day to day thereafter to completion; and he may extend the time so fixed from time to time, under the direction of the city council. All applications for such extensions of time, if in writing, must be filed in the office of the city clerk before the expiration of the original time fixed in the contract, or of the time granted by extension, as the case may be. An extension of time may be granted by the council after the expiration of the time originally fixed in the contract or extended as herein provided, and the extension so granted shall be deemed to commence and be effective from the date of such expiration. Any such extension of time shall not release the sureties upon any bond required under this act. The work must, in all cases, be done under the direction and to the satisfaction of the superintendent of streets and the materials used shall comply with the specifications and be to the satisfaction of said superintendent of streets and all contracts made therefor must contain a provision to that effect; *provided, however*, that if the city council by resolution adopted within ten days after the passage of the resolution ordering the work so directs the work shall be done under the direction of the city engineer and the materials used shall comply with the specifications and be to the satisfaction of said engineer, instead of said superintendent of streets, and in such case the contract shall contain a provision to that effect; *and provided, further*, that the city council may by resolution adopted within said ten days provide and direct that the assessment thereafter to be made in the proceeding shall be made and signed by the city engineer instead of by the superintendent of streets. Said contract shall contain also express notice that, in no case, except where it is otherwise provided by law or the city charter will the city, or any officer thereof, be liable for any portion of the expense, nor for any delinquency of persons or property assessed. An act to amend sections eleven and twelve and one-quarter of an act entitled "An act to provide for work upon streets, lanes, alleys, places and sidewalks, and for the construction of sewers within municipalities," approved March 18, 1885, as amended.

[Approved April 30, 1923.]

The people of the State of California do enact as follows:

Stats. 1885,
p. 150,
amended.

SECTION 1. Section eleven of an act entitled "An act to provide for work upon streets, lanes, alleys, places and sidewalks, and for the construction of sewers within municipalities," approved March 18, 1885, as amended, is hereby amended to read as follows:

Objections to
assessment.

Sec. 11. The owners, whether named in the assessment or not, the contractor or his assigns, and all other persons directly interested in any work provided for in this act, or in the assessment, feeling aggrieved by any act, or determination of the superintendent of streets in relation thereto, or who claim that the work has not been performed according to the contract in a good and substantial manner, or having or making any objection to the correctness or legality of the assessment or other act, determination, or proceedings of the superintendent of streets, shall, within thirty days after the date of the warrant, appeal to the city council, as provided in this section, by briefly stating their objections in writing and filing the same with the clerk of the said city council.

Notice of
hearing.

Notice of the time and place of the hearing, briefly referring to the work contracted to be done, or other subject of appeal, and to the acts, determinations or proceedings objected to or complained of, shall be published for five days. Upon such appeal, the said city council may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the superintendent of streets relative to said work, may confirm, amend, set aside, alter, modify or correct the assessment in such manner as to them shall seem just, and require the work to be completed according to the directions of the city council, and may instruct and direct the superintendent of streets to correct the warrant, assessment or diagram in any particular, or to make and issue a new warrant, assessment and diagram, to conform to the decisions of said city council in relation thereto, at their option. All the decisions and determinations of said city council upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appeal under the provisions of this section, as to all errors, informali-

ties, and irregularities, which said city council might have remedied and avoided during the progress of the proceedings or which it can at that time remedy. No assessment, warrant, diagram or affidavit of demand and nonpayment after the issue of the same and no proceedings prior to the assessment shall be held invalid by any court for any error, informality or other defect in the same where the resolution of intention of the city council to order the work to be done, for which the assessment is made has been actually published in any newspaper of said city for the length of time prescribed by law.

Sec. 2. Section twelve and one-quarter of said act approved March 18, 1885, as amended, is hereby amended to read as follows:

Stats. 1913,
p. 409,
amended.

Sec. 12½. Whenever any assessment heretofore issued or which may be hereafter issued is or shall be void, or unenforceable, for any cause, or if bonds shall have been, or shall be, issued to represent any assessments and such issuance shall not have been, or shall not be effective through the curative provisions thereof to make them valid and enforceable, then, in any of such events a reassessment therefor may be issued. The true intent and meaning of this section is to make the cost and expense of work or improvement made through an attempted compliance with this act, payable by the real estate benefited by such work or improvement by making a reassessment therefor.

New assessments and bonds, when old have been declared invalid.

Such power of reassessing embraces both a full and a partial reassessment, and is not exhausted by a single attempted exercise thereof.

A reassessment shall be ordered under any one of three circumstances:

First—Where the owner or holder of any assessments, or of bonds issued under the provisions of the act entitled "An act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvements within municipalities, and also for the payment of such bonds," approved February 27, 1893, to represent assessments requests the legislative body of the city in which the assessment has been or shall be issued to order a reassessment. In such event if said legislative body be of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented by the bonds owned or held by such petitioner.

Legislative body of city may set aside assessment.

Second—Whenever any court of competent jurisdiction in any suit to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent any assessments issued under this act, has for any reason held such lien unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Court may order reassessment.

Third—Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment, or in any suit to quiet title against

the lien of any such assessment, or bond, shall in its judgment decree such assessments or bonds to be void, or unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

The manner of making, issuing and enforcing the reassessments shall be as follows:

The superintendent of streets shall, upon entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, proceed to make a reassessment, in the following manner:

If the reassessment be a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. If it be a full reassessment, however, then it shall be upon the lots fronting on said work if the original assessment was one made on the front foot plan; if the original assessment was made against a district, then the superintendent of streets shall prepare and file with the reassessment a diagram showing the lots, pieces or parcels of land deemed by him to have been benefited by the work or improvement. The reassessment shall assess upon and against each of the lots, pieces, or parcels of land contained therein an amount arrived at as follows: The benefits derived, or to be derived by each of the said lots, pieces or parcels of land from the work or improvement estimated as of the date of the original assessment shall first be listed. Then there shall be added thereto interest thereon from thirty days after the date of recording the original assessment at the rate of seven per cent (7%) per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost of the work or improvement. Such assessment need not be in any prescribed form, but shall refer to the original assessment, give the date of the original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time must be at least twenty days after the reassessment is so presented. The city clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the improvement for which the assessment was made, was published unless the legislative body directs publication in some other newspaper. If the reassessment is to be against certain specified lots only, this fact, together with an enumeration of the lots shall be stated in the notice. If the reassessment is to be against the lots fronting upon the improvement, this fact shall be stated in the notice. If the reassessment is to be against the property in a district then this fact shall be stated in the notice and a description of the district shall be set forth and the assessment diagram referred to for all particulars.

Manner of making reassessment.

Time and notice of hearing.

Such notice shall be published for five insertions, if the paper be a daily, or for two insertions if the paper be published less frequently. At the time fixed for said hearing, or at such time or times to which the same may thereafter be adjourned the legislative body shall consider the objections to said reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot, piece or parcel of land thereby benefited the amount of the actual benefits derived from said improvement. When such reassessment shall have been revised, or corrected or modified so as to comply with the judgment of said legislative body, then it shall pass a resolution confirming the reassessment. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city clerk, that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the same, together with interest on such payment at the rate of seven per cent per annum from and after the date of such payments. Such reassessments shall be collectible and payable in the same manner as an original assessment and shall be enforceable by suit in the same manner provided in this act for enforcing an original assessment, and shall have the same weight in evidence. In the event that bonds issued under the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lot, piece or parcel of land covered thereby. When the reassessment is recorded the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New bonds shall not be issued until the original bonds are delivered up to the city treasurer, who shall cancel the same. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of the original assessment.

An act to amend sections twenty-one, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, and twenty-eight of an act entitled "An act to provide for work in and upon streets, avenues, lanes, alleys, courts, places and sidewalks within municipalities, and upon property and rights of way owned by municipalities, and for establishing and changing the grades of any such streets, avenues, lanes, alleys, courts, places and sidewalks, and providing for the issuance and payment of street improvement bonds to represent certain assessments for the cost thereof and

providing a method for the payment of such bonds," approved April 7, 1911, as amended.

[Approved April 30, 1923.]

The people of the State of California do enact as follows:

Stats. 1915,
p. 1467,
amended.

SECTION 1. Section twenty-one of "An act to provide for work in and upon streets, avenues, lanes, alleys, courts, places and sidewalks within municipalities, and upon property and rights of way owned by municipalities, and for establishing and changing the grades of any such streets, avenues, lanes, alleys, courts, places and sidewalks, and providing for the issuance and payment of street improvement bonds to represent certain assessments for the cost thereof and providing a method for the payment of such bonds," approved April 7, 1911, as amended, is hereby amended to read as follows:

Assessment
to cover
work.

Sec. 21. After the contractor of any street work has fulfilled his contract to the satisfaction of the street superintendent of said city, or the city engineer, if such power has been delegated to him, as hereinbefore provided, the superintendent or the city engineer, if the power and duty to do so has been delegated to him as hereinbefore provided shall make an assessment to cover the sum due for the work performed and specified in said contract (including all incidental expenses), in conformity with the provisions of the preceding section according to the character of the work done. The assessment shall briefly refer to the contract, the work contracted for and performed, and shall show the amount to be paid therefor, together with all incidental expenses, the amount of each assessment against each lot or portion of a lot, the number of each lot or portion or portions of a lot so assessed, and shall have attached thereto a diagram exhibiting each street or street crossing, lane, alley, place or court, property or rights of way on which any work has been done, showing the relative location of each lot, or portion of lot to the work done, numbered to correspond with the numbers of the assessments. The said assessment shall then be filed with the city clerk.

Notice.

Said clerk shall then give notice of the filing of said assessment and of a time to be therein fixed by said clerk when all persons interested in the work done, or in the assessment will be heard by the city council. Such notice shall be posted for not less than five (5) days on or near the council chamber door, and in addition be published twice in a newspaper published in such city if there be any, the first of which publications shall be not less than fifteen (15) days before the time fixed for such hearing. Such notice shall also be given by mailing a post card to the owner of each lot listed according to the name and address appearing on the last equalized assessment roll for city taxes prior thereto, or as known to the clerk; *provided*, that a failure of the clerk to give such notice by mailing or of the person addressed to receive same shall not affect the jurisdiction of

the council to proceed with the hearing noticed. Reference shall therein be made to the resolution of intention and the date of its passage for a description of the work therein mentioned and no other description thereof shall be necessary. The owners, the contractor, or his assigns, and all other persons interested in any work done under this act, or in the assessment, feeling aggrieved by any act or determination of the superintendent of streets, or city engineer in relation thereto, or who claim that the work has not been performed according to the contract in a good and substantial manner, or who claim that any portion of the work for any reason was omitted or illegally included in the contract for the same, or having or making any objection to the correctness of the assessment or diagram or other act, determination or proceedings of the superintendent of streets, or city engineer, shall prior to the day fixed for the hearing upon the assessment, appeal to the city council by briefly stating in writing the grounds of appeal. Upon such appeal, the said city council may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the street superintendent or city engineer, relative to said work: may confirm, amend, alter, modify or correct the assessment or diagram in such manner as to them shall seem just, and require the work to be completed according to the directions of the city council; and may instruct and direct the street superintendent to correct the warrant, assessment, or diagram in any particular. All the decisions and determinations of said city council, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appeal under the provisions of this section, as to all errors, informalities, and irregularities which said city council might have avoided, or have remedied, during the progress of the proceedings, or which it can at that time remedy. No assessment, warrant, or diagram, and no proceedings prior to the assessment, shall be held invalid by any court for any error, informality, or other defect in the same, where the resolution of intention of the council to do the work, has been actually published as herein provided. When no appeal is taken or when the orders and determinations of the council upon appeal have been complied with, and the council is satisfied with the correctness of the assessment, thereupon the street superintendent shall attach thereto a warrant bearing the date of said order of said city council.

Consolidation of actions.	be had in said actions may be had in such manner as is prescribed in the codes and laws of this state. Stats. 1921, p. 293, amended.	SEC. 7. Section twenty-eight of said act approved April 7, 1911, as amended, is hereby amended to read as follows:
Reassessments.	Sec. 28. Whenever any assessment heretofore issued or which may be hereafter issued is or shall be void, or unenforceable, for any cause, or if bonds shall have been, or shall be, issued to represent any assessments and such issuance shall not have been, or shall not be effective through the curative provisions in relation thereto, or any curative act that may be passed by the legislature in relation thereto to make them valid and enforceable, then, in any of such events a reassessment therefor may be issued. The true intent and meaning of this section is to make the cost and expense of work or improvement made through an attempted compliance with this act, payable by the real estate benefited by such work or improvement by making a reassessment therefor.
When to be ordered	Such power of reassessing embraces both a full and a partial reassessment, and is not exhausted by a single attempted exercise thereof. A reassessment shall be ordered under any one of three circumstances: <i>First</i> —Where the owner or holder of any assessments, or of bonds issued under this act to represent assessments request

the legislative body of the city in which the assessment has been or shall be issued to order a reassessment. In such event if said legislative body be of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented by the bonds owned or held by such petitioner.

Second—Whenever any court of competent jurisdiction in any suit to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent any assessments issued under this act, has for any reason held such lien unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Third—Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment, or in any suit to quiet title against the lien of any such assessment, or bond shall in its judgment decree such assessments or bonds to be void, or unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

The manner of making, issuing and enforcing the reassessments shall be as follows:

Manner of making reassessment.

The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, proceed to make a reassessment in the following manner:

If the reassessment be a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. If it be a full reassessment, however, then it shall be upon the lots fronting on said work if the original assessment was one made on the front foot plan; if the original assessment was made against a district, then the superintendent of streets shall prepare and file with the reassessment a diagram showing the lots, pieces or parcels of land deemed by him to have been benefited by the work or improvement. The reassessment shall assess upon and against each of the lots, pieces, or parcels of land contained therein an amount arrived at as follows: The benefits derived, or to be derived by each of the said lots, pieces or parcels of land from the work or improvement estimated as of the date of the original assessment shall first be listed. Then there shall be added thereto interest thereon from twenty (20) days after the date of recording the original assessment at the rate of seven per cent (7%) per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost of the work or improvement. Such assessment need not be in any prescribed form, but shall refer to the

Interest.

original assessment, give the date of the original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time must be at least twenty (20) days after the reassessment is so presented. The city clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the improvement for which the assessment was made, was published unless the legislative body directs publication in some other paper. If the reassessment is to be against the lots fronting the improvement, this fact shall be stated in the notice. If the reassessment is to be against the property in a district, then this fact shall be stated in the notice and a description of the district shall be set forth and the assessment diagram referred to for particulars. Such notice shall be published for five insertions, if the paper be a daily, or by two insertions if the paper be published less frequently. At the time fixed for said hearing, or at such time or times to which the same may be thereafter adjourned, the legislative body shall consider the objections to said reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot, piece or parcel of land thereby benefited the amount of the actual benefits derived from said improvement. When such reassessment shall have been revised, or corrected or modified so as to comply with the judgment of said legislative body, then it shall pass a resolution confirming the reassessment. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city clerk, that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the same, together with interest on such payments at the rate of seven per cent (7%) per annum from and after the date of such payments. Such reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable by suit in the same manner provided in this act for enforcing an original assessment, and shall have the same weight in evidence. In the event that bonds issued under the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lot, piece or parcel of land covered thereby. When the reassessment is recorded the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New bonds shall not be issued until

the original bonds are delivered up to the city treasurer, who shall cancel the same. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of the original assessment.

An act to add a new section to the Code of Civil Procedure, to be numbered one thousand seven hundred eighteen, relative to the judicial ascertainment and establishment of the presumption of death in certain cases.

[Approved May 2, 1923.]

The people of the State of California do enact as follows:

SECTION 1. A new section is hereby added to the Code of Civil Procedure, to be numbered one thousand seven hundred eighteen, and to read as follows:

Judicial
ascertain-
ment and
establi-
shment
of death
in cer-
tain
cases.

1718. When the right of any child to receive state aid, county aid, or state and county aid, under the provisions of chapter two *a* of title five of part three of the Political Code depends upon the presumptive death of the father of such child, any person interested in the welfare of such child may file in the superior court of the county in which such child resides a petition setting forth the facts giving rise to the presumption that the father of such child is dead and praying that such presumption of death be judicially ascertained and established by the court. Upon receiving such petition the clerk of the court shall set a time for the hearing thereof, not less than ten days subsequent to the date of filing, and shall deliver forthwith a copy of such petition, to be furnished by the petitioner, to the district attorney of such county, unless such petition be filed by the district attorney, to which there shall be appended, or endorsed thereon, a statement of the time and place fixed for the hearing thereof.

At the appointed time, or at any subsequent time to which the matter may be continued, the court shall proceed to hear such petition and all objections that may be interposed thereto. If, as a result of such hearing, the court is satisfied that the evidence adduced in support thereof is sufficient to establish the presumption that the father of such child is dead, it shall make an order adjudging such father to be presumptively dead. Upon the filing of such order the clerk shall send a certified copy thereof to the secretary of the state board of control, at Sacramento. The clerk shall not charge or collect any fee for the filing of such petition or for any other service rendered by him under the provisions of this section. A petition once heard and denied shall not be renewed in the same or any other court except upon the ground of newly discovered evidence. Any such subsequent petition shall contain a recital of the former presentation and denial of a similar petition in behalf of such child and shall distinctly set forth a statement of the newly discovered evidence.

CHAPTER 95.

An act to amend sections one, two and three of an act entitled "An act to provide for the establishment and maintenance by fire insurance corporations of guaranty surplus funds and special reserve funds and thereby limiting liability and to provide for the waiver by policyholders of recourse against stockholders of such corporations," approved May 31, 1917, and to add a new section to said act to be numbered section four, relating to guaranty surplus and special reserve funds of fire insurance corporations.

[Approved May 2, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Section one of an act entitled "An act to provide for the establishment and maintenance by fire insurance corporations of guaranty surplus funds and special reserve funds and thereby limiting liability and to provide for the waiver by policyholders of recourse against stockholders of such corporations," approved May 31, 1917, is hereby amended to read as follows:

Stats 1917,
p 1378,
amended.

Section 1. Every domestic corporation having a capital stock issuing fire insurance policies may at its option create a guaranty surplus fund and a special reserve fund by the adoption of a resolution by its board of directors at a regular meeting, and by filing with the insurance commissioner a copy thereof, declaring their desire and intention to create such funds and to do business under this and the two following sections. The insurance commissioner shall thereupon make or cause to be made an examination of the condition of such corporation and a certificate of the result thereof, which shall particularly set forth the amount of surplus funds held by it at the date of the examination, and the same may be equally divided between and set apart to constitute guaranty surplus and special reserve funds to the extent necessary to constitute such two funds. Said certificate shall be recorded in the office of the insurance commissioner. Thereafter all policies of fire insurance and renewals of such policies issued by such corporation shall contain a provision that they are issued under and in pursuance of this act, of which this is amendatory, referring to the same by the title of this said act, and all such policies and renewals shall be subject to the provisions of this act, and a policyholder, by accepting the policy, becomes bound thereby. After the passage and filing of such resolution, the corporation shall not make, declare, or pay in any form any dividend upon its capital stock exceeding seven per centum per annum thereon, and upon the surplus funds to be formed thereunder, until after its guaranty surplus fund and its special reserve fund shall have together accumulated to an amount equal to twice the minimum amount of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state; and until such funds shall together amount to a sum equal to twice the minimum amount

of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state, the entire surplus profits of the corporation above such annual dividend of seven per centum shall be equally divided between and be set apart to constitute such guaranty surplus and special reserve funds, which funds shall be held and used as hereinafter provided and not otherwise. Any such corporation which shall declare or pay any dividend contrary to the provisions herein contained, shall be deemed to have forfeited its charter. In estimating the profits of any such corporation for the purpose of making a division thereof between the guaranty surplus fund and the special reserve fund, until such funds shall together amount to a sum equal to twice the minimum amount of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state, there shall be deducted from the gross assets of the corporation, including for the purpose the amount of the guaranty surplus fund and the special reserve fund, the sum of the following items:

1. The amount of all outstanding claims.

2. An amount sufficient to meet the liability of the corporation for the unearned premiums upon all of its unexpired policies of every class, which shall be at least equal to the unearned premiums on policies having one year or less to run, and a pro rata proportion of the premiums received on the policies having more than one year to run, and shall be known as the reinsurance liability.

3. The amount of its guaranty surplus fund and its special reserve fund.

4. The amount of its capital.

5. Interest at the rate of seven per centum per annum upon the amount of its capital and of such funds for whatever time shall have elapsed since the last preceding cash dividend. The balance shall constitute the net surplus of the corporation subject to the equal division between the funds as herein provided. When the corporation shall notify the insurance commissioner that it has fulfilled the requirements of this section, and that its guaranty surplus fund and its special reserve fund, taken together, equal twice the minimum amount of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state, he shall make an examination of the corporation and make a certificate of the result thereof; and thereafter such corporation may continue, out of any subsequent profits of its business, to add to such funds, either the whole or only a part thereof, but when any addition is made to the special reserve fund, an equal sum shall be carried to the guaranty surplus fund.

SEC. 2. Section two of said act, approved May 31, 1917, is hereby amended to read as follows:

Sec. 2. Such guaranty surplus fund shall be held and invested by such corporation in the same manner as its capital stock and surplus accumulations, and shall be liable and applicable

in the same manner as the capital of the corporation to the payment generally of its losses. Such special reserve fund, until it shall amount to a sum equal to the minimum amount of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state, shall be invested in the same manner as the capital of the corporation, and any additional sum added to such fund shall be invested by the corporation in any securities in which the corporation is by law authorized to invest its capital or its surplus accumulations, and shall be deposited from time to time, as the same shall accumulate and be invested, with the insurance commissioner. Such special reserve fund shall be deemed a fund to protect such corporation and its policyholders other than claimants for losses already existing or then occurred in case of any extraordinary conflagration or conflagrations as hereinafter mentioned, and shall not be regarded as any part or portion of the assets of the corporation so as to be liable for any claim for loss by fire or otherwise, except as herein provided.

No corporation, after it has declared its desire and intention, as provided in section one hereof, to create a guaranty surplus fund and a special reserve fund, shall have the right thereafter to insert in its policy a provision to the effect that the insured, by accepting the policy, waives recourse against the stockholders of the corporation, until such corporation has created, as herein provided, a guaranty surplus fund and a special reserve fund each in amount equal to the minimum amount of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state; but when it has so done, then it may thereafter insert in any policy of fire insurance it may thereafter issue a provision in red ink to the effect that the insured, by accepting the policy, waives any recourse to its stockholders and agrees, in case of making any claim thereunder, to look solely to the assets and property of the corporation as and to the extent herein provided.

Waiver of

against
stockholders.

Sec. 3. Section three of said act approved May 31, 1917, is hereby amended to read as follows:

Stats. 1917,
p. 1380,
amended.

Sec. 3. When any extensive conflagration or conflagrations shall occur whereby the claims upon the corporation shall exceed the amount of its capital stock and surplus, including said guaranty surplus fund, the corporation shall notify the insurance commissioner of the fact, who shall then make or cause to be made, an examination of the corporation, and shall issue his certificate in duplicate of the result, showing the amounts of capital, of guaranty surplus fund, of special reserve fund, of reinsurance liability, and all other assets. One of such certificates shall be given the corporation, and the other shall be recorded in the office of the insurance commissioner. Such special reserve fund shall be immediately held to protect all policyholders of the corporation other than such as are claimants upon it at the time, or such as become claimants in consequence of such conflagration or conflagrations. The amount

of such special reserve fund, and an amount equal to the unearned premiums of such corporation, to be ascertained as hereinbefore provided, shall constitute the capital and assets of such corporation for the protection of policyholders other than such claimants, and for the further conduct of its business. Such certificate of the insurance commissioner shall be binding and conclusive upon all parties interested in the corporation, whether stockholders, creditors or policyholders. Upon the payment to the claimants for losses or otherwise, existing at the time of or caused by such general conflagration or conflagrations, of an amount to which they are respectively entitled in proportion to their several claims, of the full sum of the capital of the corporation and of its guaranty surplus fund, and of its assets, except only such special reserve fund and an amount of its assets equal to the liability of the corporation for unearned premiums, as certified by the insurance commissioner, such corporation shall be forever discharged from any and all further liability to such claimants and to each of them on any policy of insurance issued after the creation as above provided of the special reserve fund in the amount hereinbefore specified. The insurance commissioner shall, after issuing such certificate, upon the demand of the corporation, transfer to it all such securities as shall have been deposited with him by it as such special reserve fund. If the amount of such special reserve fund shall be less than the minimum amount of capital required by the laws of this state to be maintained by fire insurance companies admitted to do business in this state, a requisition shall be issued by the insurance commissioner upon the stockholders to make up the capital to that proportion of its full amount. If the corporation, after such requisition, shall fail to make up its capital to at least such amount as herein directed such special reserve fund shall be held as security and liable for all losses occurring upon policies of such corporation after such conflagration or conflagrations. If any amount greater than a sum equal to the minimum amount of capital required by law to be maintained by fire insurance companies admitted to do business in this state shall, by such corporation, under the provisions of the two preceding sections, have been deposited, as aforesaid, with the insurance commissioner, he shall retain of such securities a sum equal to one-half of the amount he shall so hold thereof in excess of such minimum amount of capital, and transfer the balance thereof to the corporation as herein provided. The amount so transferred to the corporation shall, from the time of such transfer, if not less than two hundred thousand dollars, constitute the capital stock of the corporation for the further conduct of its business as hereinbefore provided. The sum so retained by the insurance commissioner shall thenceforth constitute the special reserve fund of the corporation, to which additions may be made as herein provided, and shall be held in the same manner, for the same purposes and under the same conditions as the original special reserve fund of the

corporation was held. The corporation shall in an annual statement to the insurance commissioner set forth the amount of such special reserve fund and of its guaranty surplus fund. If in consequence of the payment of losses by fires, or of the expenses of the business, or of the interest payable under the provisions hereof to stockholders, or from any cause, the guaranty surplus fund shall be reduced in amount below the amount of the special reserve fund, the directors of the corporation shall have the right, at their option, at the time of making any division of the net profits as herein provided, to carry a larger sum to the guaranty surplus fund than to the special reserve fund; but this privilege shall cease when the two funds are made equal in amount. The policy registers, insurance maps, books of record and other books in actual use by the corporation in its business, are not to be considered as assets, but shall be held by it for its use in the protection of its policyholders not claimants for losses at the time of such general conflagration. If after the accumulation of such special reserve fund, it shall appear upon examination by the insurance commissioner that the capital of the corporation has, in the absence of any such extensive conflagration, become impaired, he shall order a call upon the stockholders to make up such impairment, and the board of directors may either comply with such order and require the necessary payments of the stockholders, or, at their option, they may apply for that purpose so much of such special reserve fund as will make such impairment good. No corporation doing business under this and the two preceding sections shall insure any larger amount upon any single risk than is permitted by law to a corporation possessing the same amount of capital irrespective of the funds hereinbefore provided for.

SEC. 4. A new section is hereby added to said act, approved May 31, 1917, to be numbered four and to read as follows:

Sec. 4. Any domestic fire insurance corporation which has heretofore established a guaranty surplus fund and special reserve fund may, at a regular meeting of its board of directors, adopt a resolution declaring its desire and intention to discontinue such funds and to cease to do business under and in pursuance of the act of which this is amendatory, and file a certified copy of such resolution with the insurance commissioner.

fund and
special
reserve fund

Upon the adoption and filing of such resolution, all rights of such corporation to withhold such special reserve fund from its general creditors shall be terminated and the corporation shall discontinue printing its policies or renewals the notice provided for in sections one and two of said act, and thereafter the provisions of said act shall cease to apply to such corporation; *provided*, that the special reserve fund and guaranty surplus fund of such corporation shall continue to be held and invested as provided in said sections, but only for the purpose of assuring to the holders of policies at the time such resolution is filed with the insurance commissioner such rights and privileges as may inure to them under said act.

Return
of fund

At the expiration of five years after the adoption and filing of such resolution by any such corporation, the special reserve fund shall be reduced to an amount equal to the unearned premium upon and all losses incurred and unpaid under any remaining policies which were outstanding at the time of the adoption and filing of such resolution; and the excess of the special reserve fund above such amount shall be returned by the insurance commissioner to such corporation; and when all liabilities under policies which were outstanding at the time of the adoption and filing of such resolution shall have terminated by expiration, cancellation, or otherwise, the entire balance of such special reserve fund shall be returned to such corporation.

Return of
excess
deposit.

If any corporation shall at any time have deposited with the commissioner of insurance under the provisions of this act, a sum in excess of the minimum amount of said special reserve fund herein required to be deposited by such corporation, the commissioner of insurance, upon request of such corporation evidenced by certified copy of a resolution of the board of directors thereof, shall return to such corporation such excess, or the portion thereof, requested to be so returned.

CHAPTER 96.

An act creating a state commission on voting machines, defining their powers, and providing for the use at the option of indicated local authorities of voting machines for receiving and registering the vote in one or more precincts of any county, or city and county, city or town, at any or all elections held therein, and for ascertaining the immediate result of such elections; and providing for the punishment of all violations of the provisions of this act.

[Approved May 3, 1923.]

The people of the State of California do enact as follows:

Voting
machines
may be used
generally.

SECTION 1. At all state, county, city and county, city, town and district elections of any character, primary, general, special or otherwise, hereafter held in the State of California, ballots or votes may be cast, registered, recorded and counted by means of voting machines, as hereinafter provided, and in compliance with section six of article two of the constitution of the State of California.

State
commission
created.

Examination
and approval
of machines.

SEC. 2. The governor, secretary of state and attorney general, and their successors in office are hereby created and constituted the state commission on voting machines. It shall be the duty of said commissioners to examine all voting machines, which may be offered for their inspection, in order to determine whether such machines comply with the requirements of this act, unless the said machine or machines shall have previously received the approval of a majority of said commission as herein provided.

Any machine or machines which shall have the approval of a majority of said commission may be provided for use at elections by the boards authorized so to do under the provisions of this act. The report of said commission on each and every kind of voting machine shall be filed with the secretary of state within thirty days after their examination of said machines and the secretary of state must within five days after the filing of any report approving any machine or machines, transmit to the boards of supervisors or other boards having charge and control of elections in each of the counties, cities and counties, cities or towns of the state, a list of the machines so approved.

No machine or machines shall be used unless such type of machine shall have received the approval of the state commission prior to any election at which such machine or machines are to be first used.

SEC. 3. Any person or corporation owning or being interested in any voting machine may apply to the state commission on voting machines to examine such machine and report on its accuracy and efficiency to register the votes cast thereon. The commissioners shall examine the machine and report accordingly. The report shall be filed in the office of the secretary of state and shall state whether in their opinion the kind of machine so examined can be safely used by such voters at elections, under the conditions prescribed in this act. If the report states that the machine can be so used, it shall be deemed approved by the commissioners and machines of its kind may be adopted for use at elections as herein provided. When the machine has been so approved by the commissioners any improvement or change that does not impair its accuracy and efficiency shall not render necessary a reexamination or reapproval thereof. Any form of voting machine not so approved, or which has not been heretofore examined by said commissioners and reported on pursuant to law and its use specifically authorized by law, can not be used at any election.

Procedure
attending
examination
and approval

For the purpose of assistance in examining such machine the said commissioners may employ not more than three expert machinists at a cost of not more than ten dollars for each day employed. The compensation of said machinists shall be paid by the person or corporation submitting the machine. Within thirty days after completing the examination of any voting machine the commissioners shall make and file with the secretary of state written or printed description and such drawings and photographs as shall clearly identify such machine and the mechanical operation thereof; and within ten days after receiving such report, the secretary of state shall send a copy thereof to the board of supervisors or other board having charge of elections of each of the counties, cities and counties, cities and towns.

SEC. 4. No voting machines shall be approved by the state commission on voting machines unless it be so constructed to fulfill the following requirements: It shall secure to the voter secrecy in the act of voting. It shall provide facil-

ities for voting for the candidates of as many political parties or organizations as may make nominations, and for or against questions. The voting devices for the candidates at primary elections shall be arranged in separate parallel party lines, one or more lines for each party and in parallel office rows transverse thereto, and for general elections shall conform as nearly as practicable to the form of ballot provided for in section 1197 of the Political Code. No voting machine shall be approved except such as provides in the general election, for grouping, under the name of the office to be voted on, all the candidates for such office with the designation of the parties, if any, by which they were respectively nominated. It shall permit the voter to vote for any person for any office that he shall have the right to vote for but none other. It shall, except at primary elections, permit the voter to vote for all the candidates of one party or in part for the candidates of one party and in part for the candidates of one or more other parties. It shall permit the voter to vote for as many persons for an office as he is lawfully entitled to vote for but no more. It shall prevent the voter from voting for the same person more than once for the same office. It shall permit the voter to vote for or against any question he may have the right to vote on but none other. When used in primary elections it shall be so equipped that the election officials can lock out all rows except those of the voter's party by a single adjustment on the outside of the machine. It shall correctly register or record all votes cast for any and all persons and for or against any and all questions. It shall be provided with a lock or locks by which all operation of the registering mechanism can be prevented as soon as the polls of the election are closed. It shall be provided with a "protective counter," or "protective device" whereby any operating or tampering with the machine before or after the election will be detected. It shall be provided with a counter which shall show at all times during an election how many persons have voted. It shall be provided with a mechanical model, illustrating the manner of voting on the machine suitable for the instruction of voters. It may also be provided with one device for each party, for voting for all the presidential electors of that party by one operation, and a ballot label therefor containing only the words "presidential electors" preceded by the name of the party and followed by the names of the candidates thereof for the offices of president and vice president, and a registering device therefor which shall register the vote cast for said electors when thus voted collectively, and similarly may be provided with one device for each party for voting, at the May presidential primary election, by one operation for such groups of candidates to national conventions as may be voted for as a group according to the provisions of the presidential primary act; *provided, however*, that means shall be furnished whereby the voter can cast a vote in part for the candidates for delegates to a national convention or for presidential electors of

one party and in part for those of one or more other parties or in part or in whole for persons not nominated by any party; *and provided, further*, that no straight party voting device shall be used except for delegates to a national convention or for presidential electors as set forth herein. Voting machines shall provide for the same order of the list of candidates for any office as is provided for in section 1197 of the Political Code.

SEC. 5. The board of supervisors or other board having charge and control of elections in each of the counties, and cities and counties, cities or towns, of the state may adopt for use at elections any kind of voting machine approved by the state commission on voting machines, or the use of which has been specifically authorized by law; and thereupon such voting machine may be used at any or all elections held in any county, city and county, city, town or any political subdivision thereof for voting, registering and counting votes cast at such elections. Voting machines of different kinds may be adopted for different districts in the same county, city and county, city, town or political subdivision thereof. Party nominations may be designated by usual or reasonable abbreviation of party names.

Local boards may adopt approved machines.

The local authorities adopting voting machines shall, as soon as practicable thereafter, provide for each polling place one or more voting machines in complete working order, and shall have the custody thereof and of the furniture and equipment of the polling place when not in use at an election. If it shall be impracticable to supply each and every election district with a voting machine or voting machines at any election following such adoption, as many may be supplied as it is practicable to procure, and the same may be used in such election district or precincts within the county, city and county, city, town or other political subdivision as the officers adopting the same may direct.

Shall supply machines.

SEC. 6. The local authorities of a county, city and county, city or town authorized by the last section to adopt a voting machine may provide for the experimental use, at an election in one or more precincts, of a machine which it might lawfully adopt, without a formal adoption thereof; and its use at such election shall be as valid for all purposes as if it had been lawfully adopted.

Experimental use of machine.

SEC. 7. The board of supervisors or other board having charge of elections of the several counties and cities and counties and the legislative bodies of the incorporated cities, and towns therein, may provide for the payment of a voting machine or machines in such manner and method as they may deem for the best local interest, and also may for that purpose issue bonds, certificates of indebtedness or other obligations which shall be a charge on the county, city and county, city or town. Such bonds, certificates or other obligations may be issued with or without interest, payable at such time or times as the authorities may determine, but shall not be issued or sold at less than par.

Payment for machines.

"Ballot
label."

SEC. 8. That portion of cardboard, paper or other material placed on the front of the machine containing the names of the candidates, or a statement of a proposed constitutional amendment or other question or proposition to be voted on, shall be known in this act as a ballot label. The ballot label shall be caused to be printed and shall be furnished by the county clerk, registrar of voters or other officer having control of elections and shall be printed in black ink on clear white material of such size as will fit the machine and in plain, clear type as the space will reasonably permit.

Sample
ballots.

SEC. 9. The officers or board charged with the duty of providing ballots for any polling place shall provide therefor two sample ballots which shall be arranged in the form of a diagram showing such part of the face of the voting machine as shall be in use at that election. Such sample ballots shall be either in full or reduced size and shall contain suitable illustrated directions for voting on the voting machine. Such sample ballots shall be open to public inspection at such polling place during the election day. In all elections where voting machines are used there shall be furnished a sufficient number of such sample ballots of reduced size, one of which sample ballots shall be mailed by the proper officer to each registered voter at least five days before the day of election. Such sample ballots shall be printed on tinted paper.

Ballot
labels.

SEC. 10. Two sets of ballot labels shall be provided for each voting machine for each election. Such ballot labels shall be delivered to the officer in charge of the voting machines at least ten days before the election.

Preparation
of machines
for elections.

SEC. 11. The county clerk, registrar of voters, or other officer having charge and control of elections in each of the counties and cities and counties, cities or towns of the state, shall cause the proper ballot labels to be placed on the machines corresponding with the sample ballots herein provided for, and the machine in every way put in order, set and arranged, ready for use in voting at such election; and for the purpose of so labeling, putting in order, setting and arranging the machine, shall employ competent persons who shall be sworn to perform their duties honestly and faithfully. No person shall be appointed to serve unless he shall be fully qualified to perform his duties in connection with the complete preparation of the machines for the election and the instructing of the election officers and voters. Said assistants, shall, under the direction of said board or officer having charge and control of the arrangement of the machines, cause said machines to be so labeled, put in order, set, arranged and delivered to the polling places of the election district in which the election is to be held, together with all furniture and appliances necessary for the proper conducting of the election, at least five hours before the time set for the opening of the polls on election day. In preparing a voting machine for an election said officer or officers shall according to the printed directions furnished, arrange the machine and the ballot labels therefor so that it will in every

particular meet with the requirements for voting and counting at such election, and thoroughly test the same. Before preparing a voting machine for any general election written notice shall be mailed to the chairman of the county, city and county, city or town committee of at least two of the principal political parties, stating the time and place where machines will be prepared, at which time one representative of each of such political parties will be afforded an opportunity to see that the machines are in proper condition for use in the election; such representatives shall be sworn to faithfully perform their duties but shall not interfere with the officials or assume any of their duties. When a machine has been so examined by such representative it shall be sealed with a numbered metal seal. Such representatives shall certify to the number of the machines; whether all of the counters are set at zero (000) and the number registered on the protective counter, and on the seal. After the preparation of the machines, an officer or officers or some one duly authorized, other than the person who has prepared them for the election, shall inspect each machine, and report in writing whether all of the registering counters are set at zero (000) and the machine is arranged in all respects in good order for the election and locked, the number registered on the protective counter, and the number on the seal. When a voting machine has been properly prepared for election, it shall be locked against voting, and sealed; and the keys thereof shall be delivered to the board of officials having charge and control of elections, together with a written report, made on blanks furnished stating that it is in every way properly prepared for the election. All voting machines shall be transferred to the polling places in charge of an authorized official, who shall certify to their delivery in good order. Every voting machine shall be furnished with a lantern, or proper substitute for one, which shall give sufficient light to enable electors while in the booth to read the ballot labels and suitable for use by the election officers in examining the counters. The lantern or light fixture shall be prepared in good order for use before the opening of the polls. All voting machines used in any election shall be provided with a screen, hood, or curtain which shall be so made and adjusted as to completely conceal the elector and his action while voting.

SEC. 12. Not less than ten days before each election, the officer in charge of elections shall instruct each board of election officials that is to serve in an election precinct in the use of the machine, and in their duties as members of the board of election in connection therewith; and he shall give to each officer of election that has received such instruction and is fully qualified to properly conduct the election with the machine, a certificate to that effect. For the purpose of giving such instruction the official in charge of elections shall call such meeting, or meetings, of the boards of election as shall be necessary. The board of election of each election precinct in which a voting machine is used, shall attend such meeting, or meetings, as shall be called, for the purpose of receiving such

instruction, concerning their duties as shall be necessary for the proper conduct of the election with the machine. No member of a board of election shall serve in any election at which a voting machine is used, unless he shall have received such instruction and is fully qualified to perform his duties in connection with the machine, and has received a certificate to that effect; *provided, however*, that this shall not prevent the appointment and service of a member of an election board to fill a vacancy in an emergency.

Supplies
for election
boards.

SEC. 13. The county clerk, registrar of voters, or other officer having charge of elections as the case may be, shall cause to be delivered to the inspector or one of the judges of the election not later than twelve hours before the time for opening the polls the keys for the voting machine, which shall be delivered in a sealed envelope on which shall be written the designation and location of the election precinct, the number of the voting machine, the number or other designative mark on the seal, and the number registered on the protective counter, for which a receipt shall be taken on the blank attached thereto, two diagrams, one extra set of ballot labels, one envelope containing seal for sealing the machine after the polls are closed, one envelope for the return of the keys, two statements of the result of the vote cast and all other supplies necessary for conducting the election. The envelope containing the keys shall not be opened until at least two members of the board shall be present at the polling place and shall have examined the envelope to see that it has not been opened.

Statements
of vote cast.

SEC. 14. In each election district where voting machines are used, statements of the result of the vote cast shall be printed to conform with the type of voting machine used, on form approved by the secretary of state. The designating number and letter on the counter for each candidate shall be printed next to the candidate's name on the statements of result of the vote cast. Two such statements shall be used in each such election district. The board must also, before it adjourns, post conspicuously, on the outside of the polling place, a copy of the result of the votes cast at such polling place; such copy of the result must be signed by the members of the board and attested by the clerks. The board must also immediately transmit unsealed to the county clerk or other official in charge of elections a copy of the result of the votes cast at such polling place, which copy must be signed by the members of the board, and which copy shall be open to the inspection of the press and public.

Preliminaries
to opening
polls.

SEC. 15. The board of election of each precinct shall meet at the polling place therein at least three-quarters of an hour before the time set for the opening of the polls at each election, and shall proceed to arrange for the proper conduct of the election. The board shall thereupon cause at least two instruction cards to be posted conspicuously within the polling place. Before opening the envelope all election officers present shall examine the number on the seal on the machine, also the number registered on the protective counter, and shall see

if they are the same as the numbers written on the envelope containing the keys. If the numbers on the seal and protective counter are found to agree with the numbers on the envelope the inspectors shall proceed to open the doors concealing the counters. Before the polls are open for election, each member of the board shall carefully examine every counter and see that it registers zero (000) and the same shall be subject to the inspection of the official watchers. The machine shall remain locked against voting until the polls are formally opened, and shall not be operated except by voters in voting. If any counter is found not to register zero (000), the board of election shall immediately make a written statement of the designating letter and number of such counter, together with the number registered thereon, and shall sign and post same upon the wall of the polling room, where it shall remain throughout the election day, and in filling out the statement of return of votes cast, they shall subtract such number from the number then registered thereon.

SEC. 16. Ballots voted for any person whose name does not appear on the machine as a nominated candidate for office, are herein referred to as irregular ballots. Where two or more persons are to be elected to the same office, and each candidate's name is placed upon or adjacent to a separate key or device, and the machine requires that all irregular ballots voted for that office be deposited, written or affixed in or upon a single receptacle or device, a voter may vote in or by such receptacle or device for one or more persons whose names do not appear upon the machine with or without the names of one or more persons whose names do so appear.

"Irregular
ballots,"
manner of
voting.

In voting for presidential electors, a voter may vote an irregular ticket made up of the names of persons in nomination by different parties, or partially of names of persons so in nomination and partially of names of persons not in nomination, or wholly of names of persons not in nomination by any party. Such irregular ballot shall be deposited written or affixed in or upon the receptacle or device provided on the machine for that purpose.

With these exceptions, no irregular ballot shall be voted for any person for any office whose name appears on the machine as a nominated candidate for that office; any irregular ballot so voted shall not be counted. An irregular ballot must be cast in its appropriate place on the machine, or it shall be void and not counted.

SEC. 17. The exterior of the voting machine and every part of the polling places shall be in plain view of the election officers and watchers. The voting machine shall be placed at least four feet from the poll clerk's table. The voting machine shall be so located in the polling place, that, unless its construction requires otherwise, the ballot labels on the face of the machine can be plainly seen by the election officers when not in use by voters. The election officer attending the machine shall inspect the face of the machine after each voter

has cast his vote, to see that the ballot labels are in their proper places.

Instructions
to voters.

SEC. 18. After the opening of the polls, the board shall not allow any voter to enter the voting machine until they ascertain that he is duly entitled to vote. Before each voter enters the voting machine, the board of the election shall, so far as possible, inform him how to operate the machine, and illustrate same upon the model of the machine, and call his attention to the diagram. If any voter shall, after entering the voting machine, ask for information regarding its operation, the board of election shall give him the necessary information. No voter shall remain within the voting machine booth longer than two minutes, and if he shall refuse to leave it after the lapse of two minutes, he may be removed by the board of election.

Certificates
to be signed
by board.

SEC. 19. There shall be printed directions in the statement of result of votes cast to the election officers for their guidance before the polls are opened and when the polls are closed; a certificate of which shall be signed by the election officers before the polls are opened, showing the delivery of the keys in a sealed envelope; the number on the seal; the number registered on the protective counter, whether all of the counters are set at zero (000); whether the public counter is set at zero (000); whether the ballot labels are properly placed in the machine. Also a certificate which shall be filled out after the polls have been closed, that the machine has been locked against voting and sealed; the number of electors as shown on the public counter; the number on the seal; the number registered on the protective counter, and that the voting machine is closed and locked. The statement of result of votes cast shall show the total number of votes cast for each office, the number of votes cast for each candidate as shown on his counter, and the number of votes for persons not nominated, which shall be certified by the board of election. As soon as the polls of the election are closed, the board of election shall immediately lock the voting machine against voting, and open the counting compartments, in the presence of the watchers and all other persons who may lawfully be within the polling place, giving full view of all counter numbers. The chairman of the board of election shall, in the order of the offices as their titles are arranged on the machine, read and announce in distinct tones the designating number and letter on each counter for each candidate's name, the result as shown by the counter numbers, and shall then read the votes recorded for each office on the irregular ballots. He shall also in the same manner announce the vote on each constitutional amendment, proposition or other question. The vote as registered shall be entered on the statements of result of votes cast, in the same order on the space which has the same designating number and letter, after which the figures shall be verified by being called off in the same manner from the counters of the machine by another member of the board. The counter compartment of the voting machine shall remain open

until the official returns and all other reports have been fully completed and verified by the election board. During such time any candidate or watcher who may desire to be present shall be admitted to the polling place. The proclamation of the result of the votes cast shall be deliberately announced in a distinct voice by the board of election who shall read the name of each candidate, with the designating number and letter of his counter, and the vote registered on such counter; also the vote cast for and against each question submitted. During such proclamation ample opportunity shall be given to any person lawfully present to compare the result so announced with the counter dials of the machine and any necessary corrections shall then and there be made by the election board, after which the doors of the voting machine shall be closed and locked. Before adjourning the board shall, with the seal provided therefor, so seal the operating lever and lock the machine that the voting and counting mechanism will be prevented from operation.

Who may be present.

Proclamation of result

SEC. 20. The board of election shall, as soon as the count is complete and fully ascertained, lock the machine against voting and it shall remain locked and sealed against operation until the time for filing contest of election has expired which shall not exceed a period of thirty (30) days following any state, primary, general or special election or a period of eight (8) days following any city, city and county, town or other election, held by any municipal corporation or subdivision of this state at which voting machines are used in any or all of the precincts.

SEC. 21. The keys of the machine shall be enclosed in an envelope which shall be supplied by the officials on which shall be written the number of the machine and the precinct and other district where it has been used, which shall be securely sealed and indorsed by the election officers, and shall be so returned to the officer from whom they were received. The number on the seal and the number registered on the protective counter, shall be written on the envelope containing the keys. A public officer who, by any provision of law, is entitled to the custody of a machine for any period of time shall be entitled to the keys therefor while such machine is in his charge. It shall be unlawful for any unauthorized person to have in his possession any key or keys of any voting machine used in an election; and all election officers, or persons entrusted with such keys for election purposes, or in the preparation of the machine therefor, shall not retain them longer than necessary to use them for such legal purpose.

Custody of keys.

SEC. 22. Whenever it shall appear that there is a discrepancy in the returns of any election precinct, the county clerk, registrar of voters or other official in charge and control of elections shall summon the board of election thereof and said board shall, in the presence of said official make a record of the number of the seal and the number on the protective counter, open the counter compartment of said machine, with-

out unlocking said machine against voting, and shall recanvass the vote cast thereon.

Election
precincts.

SEC. 23. For any election in any county, city and county, cities or towns in which voting machines are to be used, the election precincts in which such machines are to be used may be created, united, divided or combined by the officers charged with the duty of creating election precincts, at any time on or before the fortieth day preceding any election.

Election
boards.

The board of election where voting machines are used shall consist of one inspector and two judges; the judges shall act as clerks, provided where more than one voting machine is used in any precinct there shall be appointed an additional inspector for each additional machine.

of other
laws.

SEC. 24. All the provisions of the Political Code, the Penal Code, and the general laws relating to elections, of the primary election laws, and of any city, or city and county, charter or ordinance not inconsistent with this act shall apply to all elections in districts or precincts where voting machines are used; and any provision of law, or of any city, or city and county charter, or ordinance, which conflicts with the use of such machines as herein set forth, shall not apply to the districts or precincts in which voting machines are used; and all acts, or parts of acts, or city, or city and county charters, or ordinances, in conflict with any of the provisions of this act, shall be of no force or effect in election districts or precincts where voting machines are used.

Any petition provided for by this act may consist of any number of separate instruments which, either before or at the time of presenting to the board of supervisors, shall be incorporated into one instrument and thereafter be considered as one petition. Failure to report.

SEC. 5. At said hearing the board of supervisors shall determine whether or not said petition complies with the requirements hereinbefore set forth and the affidavit of any three or more of the petitioners that they have examined said petition and are acquainted with the locality of said proposed district and that the said petition is signed by the required number of land owners, may be taken as prima facie evidence of the facts stated therein, and whether or not the notice has been given as required, and said board must hear all competent and relevant testimony offered in support of or in opposition thereto and shall make such changes in the proposed boundaries as it may deem advisable and shall define and establish such boundaries, but said board of supervisors shall not modify such boundaries so as to exclude from such proposed district any land which may be benefited by the drainage works of the proposed district, or any irrigated lands which through the use of water thereon contribute to the need for drainage in the proposed district, or deprive itself of jurisdiction. During the time of the hearing any person, corporation, guardian, executor, administrator or other person owning and controlling land that will be benefited by the drainage works of the proposed drainage district may petition the board of supervisors to have such land included. If said petition is granted it shall become a part of the original petition and said owner or owners shall thereafter be considered as having signed the original petition and shall be subject to all conditions imposed on other petitioners. After hearing all of the evidence to be submitted the board of supervisors must by resolution either dismiss or grant the petition as presented or as altered by it. The dismissal of such petition shall be without prejudice to a new petition covering the same or other matter at this or any future meeting of the board of supervisors. Upon the passing of any resolution to dismiss or to grant the petition as herein provided, the board of supervisors shall make an order setting forth all of the facts, which shall be entered in the minutes of the said board of supervisors and a copy thereof shall be filed in the office of the state engineer. At or before the regular meeting of the board of directors which precedes the annual meeting, the engineer shall make an annual report showing the progress of any engineering work including construction, repair and maintenance done during the preceding year. Said report of the engineer when adopted by the board of directors shall become a part of its annual report.

Upon receipt of the final report of the engineer concerning surveys made of the lands and other property in the district and the plans and specifications for draining, reclaiming or protecting the same, the board of directors shall examine and may adopt such report or modification thereof and thereafter such adopted report shall be the plan for draining, reclaiming, or protecting such lands and other property, and it shall be known as "the plan for drainage," which plan shall be filed with the secretary of the board of directors and by him made a part of the records of the district. If the work to be constructed is of such a nature and in such location as to be within the jurisdiction of the state reclamation board, the approval of said board shall be obtained before the plans are adopted. "Plan for drainage."

SEC. 18. The board of directors of any drainage district organized under the provisions of this act shall, as soon as appointed and qualified, levy a uniform tax, to be designated and hereafter known as the "organization tax," which tax shall not exceed two dollars per acre upon each acre of land within the district as defined in the order of the board of supervisors creating such district, to be used for the purpose of paying expenses incurred or to be incurred in organizing said district, making surveys of the same and assessing the benefits and awarding damages and to pay other expenses necessary to be incurred before other funds are available. Said organization tax immediately shall become due and payable at the office of the treasurer of the district and shall become delinquent sixty days after date of notice, and shall "Organization tax."

bear interest thereafter at the rate of twelve per cent per annum.

Tax list.

As soon as said organization tax is levied the secretary of the board of directors shall prepare a list of said taxes which shall be signed and certified to by the president and secretary of the board of directors, attested by the seal of the district, and the same shall thereafter become a permanent record in the office of the secretary.

Notice.

The board of directors shall immediately upon the completion of the organization tax list give notice thereof as prescribed in section six of this act, describing the property to be taxed, the number of acres, rate per acre and total amount of tax, the place for paying same and the date said tax becomes delinquent.

Record of payment.

Upon payment of any organization tax the treasurer of the district shall give his receipt therefor and preserve a record showing the amount paid, date of payment and the name of the person making such payment.

Added land subject to tax.

Not more than one organization tax shall be levied in any district organized under the provision of this act; *provided, however,* in case the boundary lines of the district be extended under the provisions of a subsequent section of this act so as to include lands not described in the order creating the district, the same uniform organization tax shall apply to such lands as soon as the same shall have been annexed and included in the district. In case the sum from such organization tax exceeds the total cost of items for which same has been levied, the surplus shall be placed in the general fund of the district and be credited to the assessment for the construction fund.

Delinquent taxes.

SEC. 19. Immediately after the expiration of the date on which organization taxes are delinquent the secretary of the district shall transmit a certified copy of that part of said organization tax list which is delinquent, affecting land in each county, to the tax collector of each county in which lands of said district are situated, who shall collect such taxes at the same time and in the same manner as delinquent state and county taxes and when collected shall pay the same to the treasurer of said district.

Directors to assess lands.

SEC. 20. After adopting the plan for drainage as provided for in section seventeen, the board of directors accompanied and assisted by the engineer or one of his assistants shall proceed to view the lands of the district and determine the value of all land and other property within or without the district to be acquired or used for rights of way for any drain or other works set forth in the plan for drainage, and shall assess the amount of benefits, and award the amount of damage, if any, that are to accrue to each tract or subdivision of land, railroad, and other interest or property by the carrying out and putting into effect the plan for drainage heretofore adopted. The board of directors may, if in their opinion more equitable

assessments can be made thereby, adopt a certain number of acres as the maximum-sized tract to be assessed separately. If the board of directors shall determine that the benefit to the lands in the district will be uniform and equal they may assess the amount of benefits that are to accrue to each tract by reason of the proposed improvement at a uniform amount per acre. The assessed benefits to railroads, and other rights of way, excepting, however, canals carrying water for irrigation, power, domestic, or other use and their respective rights of way, shall be based on the increased physical efficiency and decreased maintenance cost to result from the proposed improvements; *provided*, the assessed benefit shall not exceed per acre the benefits assessed to adjoining lands.

In ascertaining the benefits to canals carrying water for irrigation, power or domestic or other purposes or their respective rights of way, the board of directors may consider the relation between the probable amount of water lost by seepage or waste from said canals to the detriment of lands and other property in the district and the probable total amount of water causing such detriment. If the district be irrigated, the board of directors in determining the benefits to any tract of land, shall consider the protection of the tract itself against future injury or the provision for caring for the seepage or waste water from the tract which may be of injury to other land. The board of directors shall prepare a report of its findings which will show in a clear and concise manner and in tabular form, the owner of property, description of property, number of acres in each tract assessed, amount of benefits assessed, amount of damages awarded, and the assessment for the construction fund which must be in proportion to the assessment of benefits. In establishing the construction fund, the board of directors shall, with the engineer of the district, estimate the cost of the work set out in the plan for drainage, which estimate shall include cost of property required for rights of way and other works, discount on bonds including interest on bonds for a period not exceeding two years, interest on warrants, and such other expenses as are right and proper plus an amount equal to fifteen per cent of the sum of the foregoing, to provide for delinquencies and incidentals, and said report shall also contain an estimate of the amount of bonds to be issued and shall be signed by the board of directors.

SEC. 21. Upon its completion the report provided for in section twenty shall be filed with the clerk of the board of supervisors of the county in which the district was organized. Within ten days after filing of said report the board of supervisors shall give notice thereof, in the manner provided in section six, to all persons against whose property benefits have been assessed or damages have been awarded, or from whom rights of way are to be acquired as set forth in said report. It

shall not be necessary to publish the report but it will be sufficient to say:

Clerk of board of county supervisors,
----- county.

The date set for hearing shall be not less than ten days nor more than forty days after the date of the last publication as herein provided for.

Hearing by supervisors.

SEC. 22. Any interested person may appear and advocate or remonstrate against said report or any assessment of benefits or award of damages. All remonstrances shall be in writing and be filed before the time set for hearing, setting forth the facts upon which they are based. All remonstrances shall be heard by the board of supervisors as herein provided and determined in such manner as to carry out the purposes and needs of the district, and if it appears to the satisfaction of the board of supervisors, after having heard and determined all of said remonstrances, that the assessment of benefits and the assessment for the construction fund and the award of damages are just and reasonable, and that the estimated cost of constructing the improvements contemplated is not excessive and is less than the benefits assessed against the land and other property in said district and that the plan for drainage is in all respects adequate and feasible, and that the proposed bond issue is necessary and ample, the board of supervisors shall by order approve and confirm said report as submitted by the board of directors or as modified and amended, equalizing and finally determining the assessment of benefits made and levied upon each tract of land and other property within the district, and shall approve the bond issue proposed therein, but if it is found that the assessment for the construction fund is excessive or is greater than the assessment of benefits, the board of supervisors shall by order dis-

miss the proceedings or may upon the unanimous recommendation of the board of directors declare the district dissolved; *provided, however*, that no district shall be dissolved until all outstanding indebtedness against the district of whatsoever nature has been paid or otherwise settled.

From and after the filing of the list or certified copy thereof with the recorder, the charges assessed upon any tract of land within the county shall constitute a lien thereon and notice thereof shall be imparted to all persons. No subsequent act or conduct of the directors shall invalidate said assessment or lien but such directors may be compelled by mandate, or other proper proceedings, to perform their duties as required by law.

The clerk of the board of supervisors shall transmit a certified copy of the order and a copy of the report as approved to the secretary of the board of directors of the drainage district and it shall be made and become a part of the permanent records of the district. The clerk of the board of supervisors shall make and transmit to the recorder of each county in which the district is located a certified copy of the said order and that part of the said report affecting land in such county and the same shall be filed for record.

Any moneys remaining in the treasury of the district after its dissolution, as in this section provided, shall be proportioned equally as to each acre of the district and paid to the owners of such land by warrants drawn on the treasurer of the district.

Sec. 23. Immediately after the approval by the board of supervisors of any bond issue and any report of the directors as provided for in section twenty-two of this act, the board of directors shall submit a certified copy of said report to the commission authorized by law to approve bonds of irrigation districts for certification as legal investments for savings banks and for other purposes specified in the act creating said commission. The provisions of said act and amendments thereto now existing or which may hereafter be made not inconsistent therewith are hereby made applicable to drainage districts organized under this act and said commission is hereby authorized to make such examinations and reports on the bonds of drainage districts as are authorized by said act to be made in the case of irrigation districts. Said commission shall forthwith examine said report and any data in its possession or in the possession of said district and shall make such additional surveys and examinations at the expense of the district as it may deem proper or practicable, and as soon as practicable thereafter shall make to the board of directors of said district a report which shall contain such matters as, in the judgment of the said commission, may be desirable; *provided*, that it may state generally the conclusions of said commission regarding the nature of the soil proposed to be drained or protected from the effects of water as to its fertility and susceptibility of drainage, the plan for drainage, the cost of the works and other necessary procedure for a complete and satisfactory project, the proper dates of maturity for the bonds proposed

to be issued and whether in its opinion it is advisable to proceed with the proposed bond issue. If the estimate of the amount of said bond issue shall have included any amount for the payment of interest on bonds of such issue, as provided in section twenty of this act, and such estimate for the payment of interest, or any part thereof, is approved by the commission in said report, it shall be lawful for the board of directors, if the issuance of such bonds is hereafter authorized by vote of the electors of the district, to use for the payment of interest on any bonds of such issue so much of the proceeds of the sale of said bonds as may have been approved for that purpose in said report of the commission.

Directors
to follow
recommendations
of
commission.

SEC. 24. If after such examination and investigation the said commission shall deem it advisable that said plans be modified or that the amount of the bonds proposed to be issued be changed, or that certain conditions should be prescribed to insure the success of the project, or that in its opinion it is not advisable to proceed with the proposed bond issue, it shall so state in its report to the board of directors. After receiving said report, or if no report is received within ninety days after the submission of said directors' report to said commission, said board of directors, if it shall determine and declare by resolution that the proposed plan for drainage or some modified plan recommended by said commission is satisfactory, shall make an order determining the amount of bonds that should be issued in order to raise the money necessary therefor; *provided*, that if any district shall issue bonds to carry out any plans approved by said commission as herein provided it shall be unlawful for said district to make any material change in said plans thereafter without the consent of said commission; *and provided, further*, that if any changes are made in the plans for drainage by said commission which shall cause a less benefit to any lands or other property than that approved by the board of supervisors as in section twenty-two provided the board of directors may proceed only after instituting and conducting proceedings similar so far as practicable to those provided for in section twenty-two of this act.

Bond
election.

SEC. 25. Upon the approval of any bond issue by the irrigation district bond commission the board of directors shall call an election at which shall be submitted to the electors of such district the question whether the bonds of such district shall be issued in the amount so approved. Notice of such election shall be given as prescribed in section six of this act, which notice must specify the time of holding the election, the boundaries of precincts established by the board of directors, the voting places in such precincts, and the amount of bonds proposed to be issued. Said board of directors may by resolution establish one or more precincts for such election and the location of the voting places therein.

SEC. 26. In case of condemnation proceedings, the board of directors of said drainage district shall proceed, in the name of the district, under the provisions of title seven of part three of the Code of Civil Procedure and amendments thereto now existing or which may hereafter be made, which said provisions are hereby made applicable for that purpose, and it is hereby declared that the use of the property which may be condemned, taken or appropriated under the provisions of this act, is a public use, subject to the regulations and control of the state in the manner prescribed by law. SEC. 27. The board of directors of said district shall have full power and authority to build, construct, excavate, complete and maintain all or any works and improvements which may be needed to carry out the plan for drainage. If the bids are again rejected the board of directors shall call a mass meeting of the property owners as provided for in section thirteen at which time the manner and method of carrying out the provisions of the plan for drainage will be discussed. Each bid shall be accompanied by a certified check, or an acceptable bidder's bond, payable to the district, in amount of not less than five per cent of the amount of such bid. The check or bond accompanying the accepted bid shall be kept by the secretary of the board of directors until the contract for doing such work has been entered into. The bidder to whom the contract is awarded shall, upon entering into said contract, Powers of directors regarding works and improvements. Contracts. Contractor's bond.

The engineer shall have charge of all the works and improvements and shall whenever required and at least once each year as hereinbefore provided, make a full report to the board of directors of all work done and improvements made and make such suggestions and recommendations to the board of directors as he may deem proper. Whenever, from time to time, during the progress of the work it is found that it will be to the advantage of the district to make changes in the plan for drainage heretofore adopted such changes may be made with the approval of the board of directors; *provided*, that changes which will cause a less benefit to any land or other property than that approved by the board of supervisors shall be made only after instituting and conducting proceedings similar so far as practicable to those provided for in section twenty-two of this act.

The tax so levied shall, by the county auditor, be computed in proportion to the benefits as shown by the

equalized assessment of benefits and entered on the assessment roll and shall be collected at the same time and in the same manner as the state and county taxes and when collected shall be paid into the county treasury for the use of said district. In the event that such budget is not so submitted or is insufficient to provide for the bond fund requirements, it shall be the duty of the board of supervisors forthwith to require that such budget be immediately submitted or amended. If such district lies in more than one county the budget shall be divided by the board of directors in proportion to the assessment of benefits on the lands of said district in each county and shall certify to the board of supervisors of each county the part of said budget apportioned to such county.

The treasurer of any county in which part of said district may lie but in which county said district was not organized, must at intervals, not less than twice a year pay all said taxes received by him to the treasurer of the county in which said district was organized. The treasurer of the district shall keep all funds received by him from any source whatsoever in a depository which is legally entitled to receive deposits of public money. All interest accruing on such funds shall be credited to the district.

SEC. 31. Whenever in the progress of the construction of any of the improvements set forth in the plan for drainage it shall become necessary to construct any portion of said improvement across, over or under any public highway, canal, railroad or right of way, the secretary of the board of directors shall serve notice in writing upon the public officers, corporation or persons having charge of or controlling or owning such public highway, canal, railroad or right of way of the present necessity of such crossing, giving the location, kind, dimensions, and requirements thereof, for the purposes of the district, and stating a reasonable time to be fixed by the engineer, within which plans for such crossings must be filed for approval of the engineer and the board of directors of the district. In case the public officers, corporations, or persons controlling or owning such public highway, canal, railroad or right of way desire to construct such crossing, within the time fixed in the notice they may submit duplicate detailed plans for the approval of the engineer of the district who shall examine and may modify the same to meet the requirements of the district, and when such plans or modified plans are approved by the board of directors of the drainage district, one copy shall be retained by said board of directors for its records, the other copy to be returned and the officers, corporation, or person controlling such public highway, canal, railroad or right of way shall, within the time specified by the board of directors, construct said crossing in accordance with said approved plans.

The bonds of the district and the interest thereon shall be paid from the moneys in the bond fund and it shall be the duty of the treasurer of the county in which the district was organized to have custody of such funds and pay the interest due upon presentation of coupons and to take up the bonds as they mature. He shall cancel said coupons and bonds and deliver same to the treasurer of the district.

New or amended plans, formulation and execution.

SEC. 36. Where the works set out in the plan for drainage of any drainage district are found insufficient to reclaim in whole or in part any or all of the land or otherwise fully to accomplish the object of the district the board of directors shall have the power to formulate new or amended plans for such new or altered drains or other works which in its opinion will accomplish the desired results, and additional assessments may be made in conformity with the provisions of section twenty, the same to be made in proportion to the equalized assessment of benefits and in all respects the procedure shall be the same as hereinbefore provided for putting into effect the plan for drainage as provided for in section seventeen. If it is found that for any other reason the original assessment for the construction fund is inadequate, additional assessment or assessments may be made and bonds sold in conformity with the foregoing provisions; *provided*, that the sum of all assessments for the construction fund shall not exceed the assessment of benefits.

Reapportionment of assessed benefits.

SEC. 37. The board of directors, either upon its own motion or upon petition of the owners of land within the district against whom fifty per cent or more of the benefits have been assessed may make a reapportionment of assessed benefits; *provided*, that at least five years shall have elapsed since the last previous assessment of benefits has been equalized; *provided, further*, that the total assessment of benefits shall not be reduced. In making such reapportionment the procedure shall be in every respect as provided for in the original assessment of benefits.

Existing drains to be taken over or connected with.

SEC. 38. At the time of construction of the works set forth in the plan for drainage hereinbefore referred to, all drains, systems of drainage, ditches, waste ditches, spillways or other water courses, if necessary to the drainage or protection of any of the lands in said district, shall be connected with and made a part of the works and improvements of said district. No drains, or systems of drainage, ditches, waste ditches, spillways or other similar works constructed within or without said district after the completion of the aforesaid plan of drainage shall be connected therewith, unless the consent of the board of directors shall be first obtained, which consent shall be in writing and shall particu-

larly describe the method, terms, and conditions of such connection which shall be in strict accord with the method, terms and conditions laid down in said consent. If the owner or owners wishing to make such connection are refused by the board of directors or decline to accept the consent granted, the said landowner or owners may file with the board of supervisors having jurisdiction in said district, a petition for such connection and the matter in dispute shall be in a summary manner decided by the board of supervisors which decision shall be final and binding on the district and the landowner or owners.

SEC. 39. Any two or more adjacent districts whether situated in the same or different counties may be united and consolidated in one district and such new district and the board of directors thereof shall have the rights, powers and privileges of any districts organized under this act. In order to effect such consolidation the board of directors of each of the original districts shall call the attention of the landowners to such proposed consolidation at the same time and in the same notice as that hereinbefore provided for calling the annual meeting at which time a vote shall be taken on the matter of consolidation. If a majority of the votes cast in each district are in favor of the proposition to unite and consolidate such districts the boards of directors of the districts shall present a petition to the board of supervisors of the county in which the greatest amount of land is located, accompanied by complete minutes of said meetings, in which shall be stated the names of the original districts, when organized, the names of the owners of the lands and the boundaries of the districts. When said petition has been filed the clerk of the board of supervisors shall give notice, to all persons named in said petition, of such filing, in the manner provided for in section six, said notice to state the contents of said petition and the time of hearing. Any person owning land in either district may not later than five days before the time set for hearing, which shall be not less than two weeks after the date of the last publication, file objections to the regularity or sufficiency of any of the proceedings had in the premises, and if such objections are overruled, or if no objections are made, the board of supervisors shall make an order that the prayer of the petition be granted and that the two or more districts be so united as one district, under some appropriate designation, with all the rights, powers and privileges of such districts organized under this act and the lands so included shall be subject to all liens, liabilities and obligations of both of the original districts. At the time of making such order the board of supervisors shall appoint out of the boards of directors of the original districts three directors fixing their terms of office at three, two and one years respectively, or such directors may be elected in accordance with the alternative method provided in section eight. A certified copy of the order uniting any two or more districts shall be

Any drainage district in the State of California organized under the provision of any law of this state, may be reorganized under the provisions of this act, and after so organized shall be entitled to the benefits of all of the provisions of this act and any and all acts amendatory thereto. Such reorganization shall be effected by presenting to the board of supervisors of the county in which the district was organized a consent thereto signed by fifty, or a majority, of the holders of title or evidence of title, who shall hold a majority of the lands of said district. Upon the filing of such consent said board of supervisors shall immediately set a date for hearing which shall be not less than one month nor more than two months from such filing. Said board of supervisors shall give notice of said hearing in the manner provided for in section six of this act. At the time and place designated in such notice said board of supervisors shall receive such evidence as may be offered in support of such reorganization and in support of any written objection thereto and may continue said hearing from time to time and shall determine the matter of such reorganization and make and enter in its minutes an order providing that said district shall or shall not be reorganized under this act. If the order is that said district be reorganized said order shall include the appointment and fixing the terms of office of the board of directors of said district as in the organization of a new district, or such directors may be elected in accordance with the alternative method provided in section eight. A certified copy of such order shall be filed for record in the office of the county recorder of each county in which any lands embraced in said district are situated and in the office of the state engineer and from and after such filing the reorganization of said district shall be complete.

Requirements
unnecessary,
what.

When a drainage district has been reorganized under this act the board of directors will not be required to follow, except as provided for in section forty-one of this act, such steps or requirements of this act as are inconsistent with or rendered unnecessary by the work that has already been done and proceedings had in the district; *provided*, that no such change of organization shall have the effect of in any way invalidating any indebtedness, liability, or obligation of any nature incurred under the former organization, but any such indebtedness, liability or obligation shall attach to the reorganized district and all property of the former district shall become the property of the reorganized district.

Reappoint-
ment of
assessments.

SEC. 41. In any district which has been reorganized as provided for in section forty of this act and in which the assess-

ment of benefits has been equalized or the cost of drainage otherwise apportioned as provided for in the law under which said district was originally organized, it shall be the duty of the board of directors to reapportion said assessment of benefits and award of damages and to otherwise follow the proceedings relating thereto as provided for in this act; *provided, however,* that any drainage taxes which have already been collected or which have been levied and are due under the provisions of the law under which the district was originally organized, on the date of the approval of said reassessment of benefits by the board of supervisors as provided for in section twenty-two of this act, shall not be reapportioned but shall remain and be collected as already levied.

SEC. 42. The boundaries of any drainage district organized under the provisions of this act may be changed in the manner herein prescribed; but such change of boundaries shall not impair or affect the organization of the district or its rights in or to property or any of its rights or privileges; nor shall it affect, impair, or discharge any contract, obligation, lien or charge for which it was or might become liable or chargeable, had such change of boundaries not been made. Change of boundaries.

The holder or holders of title or evidence of title holding one-half or more of any body of land adjacent to a drainage district organized under this act, may file with the board of directors of said district a petition, in writing, praying that the boundaries of said district be so changed as to include therein said lands. The petition shall describe the boundaries of said lands but such descriptions need not be more particular than is required when such lands are entered by the county assessor in the assessment roll. Such petition must contain the assent of the petitioners to the inclusion of said lands, or any part thereof, within such district and must be acknowledged in the same manner as conveyances of real property. Extension of boundaries.

SEC. 43. The secretary of the board of directors shall cause notice of the filing of such petition to be given in the manner prescribed in section six of this act. The notice shall state the filing of such petition, a copy of the description of the lands recited in said petition, and the prayer of such petition, and shall notify all persons interested in such change of the boundaries of the district to appear before said board at its next regular meeting after expiration of the period of publication and show cause in writing why such change of boundaries should not be made. Said petitioners shall advance to the secretary sufficient money to pay the estimated costs of all proceedings arising from such petition. Notice of hearing on change of boundaries.

SEC. 44. Said board of directors shall hear said petition and all written objections thereto and determine said matter. The board of directors may require as a condition precedent to the granting of the same, that there shall be paid to the district an amount not exceeding such sums, as nearly as the same can be estimated by the board, as the owners of said land would have been required to pay as district taxes, had such lands been included in said district when organized. Costs.

Hearing by directors.

- Order.** If the board of directors deem it for the best interest of said district and of said lands proposed to be included, it may order that the boundaries of said district be so changed as to include therein the lands or some part thereof described in said petition. Such order may be made upon conditions prescribed by said board as to taxation and payment for additional works required by reason of the inclusion of such lands.
- Record.** A certified copy of such order shall be filed for record in the office of the state engineer and in the office of the county recorder in each county in which lands embraced in the district are situated, and from and after such filing in the office of the county recorder the change of boundaries of said district shall be complete and thereupon the district shall be and remain a drainage district as fully for all purposes as if the lands which are included in the district by the change in boundaries had been included in said district at its organization.
- Validity of change of boundaries.** **SEC. 45.** At any time after such change of boundaries the board of directors or any interested party may bring an action following the procedure set forth in section seven of this act in the superior court of the county in which said district was organized to determine the validity of such change in boundaries.
- Additional plan for drainage.** **SEC. 46.** Said board of directors may cause to be made a plan for drainage of lands included in the district by such change of boundaries, may make an assessment of benefits to such lands, an assessment for the construction fund, issue bonds and construct such works as may be necessary to put such plan for drainage into effect, following as nearly as may be practical the provisions of this act relating to such matters.
- Dissolution of district, petition to superior court for.** **SEC. 47.** Any district organized under the provisions of this act in which action has been taken by the board of directors subsequent to those provided for in section twenty-two of this act may be dissolved as hereinafter provided for. The board of directors shall present to the superior court of the county in which the district was organized a verified petition signed by not less than three-fourths of the holders of title or evidences of title owning not less than three-fourths in acreage of the land in the district as shown by the last preceding assessment roll, praying for such dissolution. Said petition shall set forth in full the reason or reasons for such proposed dissolution and shall further contain and set forth the amount of the outstanding bonds, coupons, warrants, or other indebtedness, if such there be, together with a general description of the same, and the holders, so far as known, showing the amount of each description of indebtedness and the ownership, so far as known, of the same. Also the estimated cost of the dissolution of said district. Said petition shall also state the assets of said district, including drainage systems, if any, ditches, pumping plants, water rights, franchises, rights of way, also all assessments unpaid, and the amount upon each lot or tract of land and all assets of the district; and in case

any proposition has been made by the holders of said indebtedness to settle the same, said proposition, together with any plan proposed to carry same into execution, shall be included in said petition.

SEC. 48. Action on said petition for dissolution in the superior court shall be in the nature of a proceeding in rem, and jurisdiction of all parties interested may be had by publication of notice of the pendency of the proceedings for at least once a week for three weeks in some newspaper of general circulation published in the county where action is pending; *provided*, that if the property of the district is situated in more than one county then the publication shall be made in one paper in each such county, such paper or papers to be designated by the court having jurisdiction of the proceeding; jurisdiction shall be complete thirty days after the date of the last publication. Anyone interested may at any time before the expiration of said thirty days appear and contest the validity of the proceedings already had and of the plan proposed for the dissolution of said district, or any portion thereof, including the validity of any portion of the indebtedness set out in said petition, and the court may determine the validity of any sales for assessments and may determine the amount of any assessment or assessments due upon the various parcels of land or other property within said district, and may determine the amount of any assessment or assessments heretofore paid upon the various parcels of land or other property and may in said proceedings adjust and determine the rights and liabilities of all parties. Such action shall be speedily tried and judgment rendered. Either party shall have the right to appeal at any time within thirty days after the entering of any such judgment, and the appeal shall be entitled to an early hearing and determination.

SEC. 49. At the hearing on said petition for dissolution the court shall hear and determine the regularity, legality and correctness of all proceedings, and in doing so shall disregard any error, irregularity or omission which does not affect the substantial rights of the parties, the rules of pleading and practice in the Code of Civil Procedure not inconsistent with the provisions of this act are made applicable to the proceedings herein provided. The costs of any contest may be allowed and proportioned between the parties or taxed to the losing party in the discretion of the court.

SEC. 50. The court in its decree shall have power to make the orders necessary to carry out said proposition for the discharge of the indebtedness and distribution of the property of said district, including the right to apportion any indebtedness found due, and to declare said portions liens upon the various parcels of land within the district, and may decree a sale of its assets in such manner as may effectuate said proposition and as said court may judge best.

CHAPTER 103.

An act to add a new title to part four of division first of the Civil Code to be known as title twenty-three, consisting of sections numbered six hundred fifty-three aa to six hundred fifty-three xx inclusive, and relating to non-profit cooperative associations with or without capital stock.

[Approved May 4, 1923.]

The people of the State of California do enact as follows:

SECTION 1. A new title is hereby added to part four of division first of the Civil Code to be known as title twenty-three, consisting of sections numbered six hundred fifty-three aa to six hundred fifty-three xx inclusive, and to read as follows:

Declaration of policy.

653aa. Declaration of policy. (a) In order to promote, foster and encourage the intelligent and orderly marketing of

agricultural products through cooperation; and to eliminate speculation and waste; and to make the distribution of agricultural products between producer and consumer as direct as can be efficiently done; and to stabilize the marketing of agricultural products, this act is passed.

653bb. Definitions. As used in this act:

Definitions.

(a) The term "agricultural products" shall include horticultural, viticultural, forestry, dairy, live stock, poultry, bee and any farm products.

(b) The term "member" shall include actual members of associations without capital stock and holders of common stock in associations organized with capital stock.

(c) The term "association" means any corporation organized under this act; and

(d) The term "person" shall include individuals, firms, partnerships, corporations and associations.

Associations organized hereunder shall be deemed "non-profit," inasmuch as they are not organized to make profit for themselves, as such, or for their members, as such, but only for their members as producers.

(e) For the purposes of brevity and convenience this act may be indexed, referred to and cited as "the cooperative marketing act."

653cc. Who may organize. Five (5) or more persons, a majority of whom are residents of this state, engaged in the production of agricultural products, may form a non-profit, cooperative association, with or without capital stock, under the provisions of this act.

Who may organize.

653dd. Purposes. An association may be organized hereunder to engage in any activity in connection with the marketing or selling of the agricultural products of its members, or with the harvesting, preserving, drying, processing, canning, packing, grading, storing, handling, shipping, or utilization thereof, or the manufacturing or making of the by-products thereof; or in connection with the manufacturing, selling or supplying to its members of machinery, equipment or supplies; or in the financing of the above enumerated activities; or in any one or more of the activities specified herein.

Purposes of associations.

653ec. It is here recognized that agriculture is characterized by individual production in contrast to the group or factory system that characterizes other forms of industrial production; and that the ordinary form of corporate organization permits industrial groups to combine for the purpose of group production and the ensuing group marketing and that the public has an interest in permitting farmers to bring their industry to the high degree of efficiency and merchandising skill evidenced in the manufacturing industries; and that the public interest urgently needs to prevent the migration from the farm to the city in order to keep up farm production and to preserve the agricultural supply of the nation; and that the public interest demands that the farmer be encouraged to attain a superior and more direct system of

No association, however, shall handle the agricultural products of any non-member, except for storage, unless it is so empowered to do in its articles of incorporation, and in such event it shall not handle the agricultural products of non-members to an amount greater in value than the value of such products as are dealt in or handled by it for its own members or stockholders.

Incidental and necessary powers.

(h) To do each and every thing necessary, suitable or proper for the accomplishment of any one of the purposes or the attainment of any one or more of the subjects herein enumerated; or conducive to or expedient for the interest or benefit of the association; and to contract accordingly; and in addition to exercise and possess all powers, rights and privileges necessary or incidental to the purposes for which the association is organized or to the activities in which it is engaged; and, in addition, any other rights, powers and privileges granted by the laws of this state to ordinary corporations,

except such as are inconsistent with the express provisions of this act; and to do any such thing anywhere.

The articles must be subscribed by the incorporators and directors and acknowledged by each before an officer authorized by the law of this state to take and certify acknowledgments of deeds and conveyances; and shall be filed in accordance with the provisions of the general corporation law of this state; and when so filed the said articles of incorporation, or certified copies thereof, shall be received in all the courts of this state and other places, as prima facie evidence of the facts contained therein and of the due incorporation of such association.

By-laws.

653*jj*. By-laws. Each association incorporated under this act must, within thirty (30) days after its incorporation, adopt for its government and management, a code of by-laws, not inconsistent with the powers granted by this act. A majority vote of the members or subscribed capital stock or the written assent, of a majority of the members or of stockholders representing a majority of all the subscribed capital stock is necessary to adopt such by-laws. Each association, under its by-laws, may provide for any or all of the following matters:

Optional provisions.

(a) The time, place and manner of calling and conducting its meetings.

653kk. Directors—Election. The affairs of the association shall be managed by a board of not less than five directors, elected by the members or stockholders from their own number.

Directors—
election.

The by-laws may provide that the territory in which the association has members shall be divided into districts and that directors shall be elected from the several districts. In any such case, the by-laws shall specify the number of directors to be elected by each district, the manner and method of reapportioning the directors and of redistricting the territory covered by the association. The by-laws may also provide that primary elections shall be held to nominate directors. Where the by-laws provide that the territory in which the association has members shall be divided into districts, the by-laws may also provide that the results of the primary elections in the various districts shall be final and must be ratified at the annual meeting of the association. The by-laws may also provide that one or more directors may be nominated by any public official or commission or by the other directors selected by the members. Such directors shall represent primarily the interest of the general public in such

associations. The directors so nominated need not be members or stockholders of the association; but shall have the same powers and rights as other directors. Such directors shall not number more than one-fifth of the entire number of directors.

An association may provide a fair remuneration for the time actually spent by its officers and directors in its service and for the service of the members of its executive committee.

The by-laws may provide for an executive committee and may allot to such committee all the functions and powers of the board of directors, subject to the general direction and control of the board.

Vacancies.

When a vacancy on the board of directors occurs other than by expiration of term, the remaining members of the board by a majority vote, shall fill the vacancy, unless the by-laws provide for an election of directors by districts. In the latter case the board of directors shall immediately call a special meeting of the members or stockholders in that district to fill the vacancy.

Officers.

653*ll*. Election of officers. The directors shall elect from their number a president and one or more vice presidents. They shall also elect a secretary and a treasurer, who need not be directors or members of the association; and they may combine the two latter offices and designate the combined office as secretary-treasurer; or unite both functions and titles in one person. The treasurer may be a bank or any depository and as such, shall not be considered as an officer, but as a function of the board of directors. In such case, the secretary shall perform the usual accounting duties of the treasurer, excepting that the funds shall be deposited only as and where authorized by the board of directors.

Certificate of membership.

653*mm*. Stock—Membership certificate—When issued—Limitations on transfer and ownership. When a member of an association established without capital stock has paid his membership fee in full, he shall receive a certificate of membership.

Payment for stock.

No association shall issue stock to a member until it has been fully paid for. The promissory notes of the members may be accepted by the association as full or partial payment. The association shall hold the stock as security for the payment of the note; but such retention as security shall not affect the member's right to vote.

Limit.

An association, in its by-laws, may limit the amount of common stock which one member may own.

Preferred stock

Any association organized with stock under this act may issue preferred stock. Such stock may be redeemable or retireable by the association on such terms and conditions as may be provided for by the articles of incorporation and printed on the face of the certificate.

Transfer restricted.

The by-laws shall prohibit the transfer of the common stock of the associations to persons not engaged in the production of the agricultural products handled by the association;

and such restrictions must be printed upon every certificate of stock subject thereto.

The association may, at any time, as specified in the by-laws, except when the debts of the association exceed fifty (50) per cent of the assets thereof, buy in or purchase its common stock at the book value thereof, as conclusively determined by the board of directors, and pay for it in cash within one (1) year thereafter.

Association may buy in common stock.

653nn. Removal of officer or director. Any member may bring charges against an officer or director by filing them in writing with the secretary of the association, together with a petition signed by five per cent of the members, requesting the removal of the officer or director in question. The removal shall be voted upon at the next regular or special meeting of the association and, by a vote of a majority of the members, the association may remove the officer or director and fill the vacancy. The director or officer, against whom such charges have been brought, shall be informed in writing of the charges previous to the meeting and shall have an opportunity at the meeting to be heard in person or by counsel and to present witnesses; and the person or persons bringing the charges against him shall have the same opportunity.

Removal of officers and directors.

In case the by-laws provide for election of directors by districts with primary elections in each district, then the petition for removal of a director must be signed by twenty per cent of the members residing in the district from which he was elected. The board of directors must call a special meeting of the members residing in that district to consider the removal of the director; and by a vote of the majority of the members of that district, the director in question shall be removed from office.

653oo. Marketing contract. The association and its members may make and execute marketing contracts, requiring the members to sell, for any period of time, not over fifteen years, all or any specified part of their agricultural products or specified commodities exclusively to or through the association, or any facilities to be created by the association. If they contract a sale to the association, it shall be conclusively held that title to the products passes absolutely and unreservedly, except for recorded liens, to the association upon delivery; or at any other specified time if expressly and definitely agreed in the said contract. The contract may provide that the association may sell or resell the products delivered by its members, with or without taking title thereto; and pay over to its members, the resale price, after deducting all necessary selling, overhead and other costs and expenses, including interest on preferred stock, not exceeding eight (8) per cent per annum, and reserves for retiring the stock, if any; and other proper reserves; and interest not exceeding eight (8) per cent per annum upon common stock.

stockholder to the association upon the breach by him of any provision of the marketing contract regarding the sale or delivery or withholding of products; and may further provide that the member will pay all costs, premiums for bonds, expenses and fees, in case any action is brought upon the contract by the association; and any such provisions shall be valid and enforceable in the courts of this state: and such clauses providing for liquidated damages shall be enforceable as such and shall not be regarded as penalties.

Injunctions.

(b) In the event of any such breach or threatened breach of such marketing contract by a member, the association shall be entitled to an injunction to prevent the further breach of the contract and to a decree of specific performance thereof. Pending the adjudication of such an action and upon filing a verified complaint showing the breach or threatened breach, and upon filing a sufficient bond, the association shall be entitled to a temporary restraining order and preliminary injunction against the member.

Presump-
tions.

(c) In any action upon such marketing agreements, it shall be conclusively presumed that a landowner or landlord or lessor is able to control the delivery of products produced on his land by tenants or others, whose tenancy or possession or work on such land or the terms of whose tenancy or possession or labor thereon were created or changed after execution by the landowner or landlord or lessor, of such a marketing agreement; and in such actions, the foregoing remedies for non-delivery or breach shall lie and be enforceable against such landowner, landlord or lessor.

653gg. Purchasing business of other associations, persons, firms or corporations—Payment—Stock issued. Whenever an association, organized hereunder with preferred capital stock, shall purchase the stock or any property, or any interest in any property of any person, firm or corporation or association, it may discharge the obligations so incurred, wholly or in part, by exchanging for the acquired interest, shares of its preferred capital stock to an amount which at par value would equal the fair market value of the stock or interest so purchased, as determined by the board of directors. In that case the transfer to the association of the stock or interest purchased shall be equivalent to payment in cash for the shares of stock issued.

Application
of other
laws.

653rr. Conflicting laws not to apply. Any provisions of law which are in conflict with this act shall not be construed as applying to the associations herein provided for.

Any exemptions under any and all existing laws applying to agricultural products in the possession or under the control of the individual producer, shall apply similarly and completely to such products delivered by its farmer members, in the possession or under the control of the association.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,

SACRAMENTO, May 7, 1923.

To the Assembly of the State of California.

Assembly Bill No. 999, known as the budget bill, is approved except for certain items hereinafter specifically set forth, which are reduced or eliminated in accordance with the powers conferred on me by the provisions of sections sixteen and thirty-four of article four of the constitution, and which are objected to for the reasons hereinafter mentioned, to wit: Items disapproved.

1. I object to the item on page 6 [245] under the heading "Preventive" reading as follows: "For salaries of employees state board of health, three hundred sixty thousand six hundred sixty-three and 42/100 dollars.", and reduce the amount to three hundred six thousand two hundred ninety-eight dollars, for the reason that the last named amount is ample.

2. I object to the item on page 6 [245] under the heading "Preventive" reading as follows: "For support, state board of health, three hundred eight thousand five hundred thirty-six and 58/100 dollars.", and reduce the amount to two hundred forty-eight thousand three hundred thirty-eight dollars, for the reason that the last named amount is ample.

3. I object to the item on page 7 [246] under the heading "Preventive" reading as follows: "For salaries of railroad commissioners and employees, six hundred thirty-seven thousand two hundred dollars.", and reduce the amount to five hundred fifty-two thousand two hundred dollars, for the reason that the last named amount is ample. There is an item in the budget of thirty thousand dollars which can be expended for engineers if that be necessary. There are also certain positions which can be eliminated and engineers substituted. I propose to ask the state board of control to make a survey of this department in the interests of economy and efficiency. It is my firm conviction that if we had a few men on the railroad commission like the late John M. Eshleman that department could function with at least one hundred thousand dollars less than the amount herewith allowed.

Items
disapproved.

4. I object to the item on page 8 [248] under the heading "Benevolent" reading as follows: "All funds hereafter received from the government of the United States in aid of said veterans' home, or of the members thereof, either by way of a per capita tax for said members, or otherwise received are made available, and are hereby appropriated to be expended upon the approval of the state board of control for the maintenance, construction and repair of buildings, or for the use and benefit of such members.", on the ground that it carries an indefinite appropriation which is unnecessary, and is fully covered in the other items of appropriations for the Veterans' Home of California.

5. I object to the item on page 11 [250] under the heading "Penal" reading as follows: "For salaries and support of officers and employees of the California Industrial Farm for Women, seventy-five thousand dollars.", and reduce the amount to four thousand dollars on the ground that the increase is unnecessary as there are no facilities at the farm for caring for these delinquent women owing to the burning of the building.

6. I object to the item on page 11 [250] under the heading "Penal" reading as follows: "For permanent improvements, California Industrial Farm for Women, one hundred twenty thousand dollars.", for the reason that I consider this large expenditure at this time for this purpose unnecessary.

7. I object to the item on page 16 [254] under the heading "Educational" reading as follows: "For salaries of officers and employees, Chico State Teachers College, one hundred eighty-nine thousand eight hundred eighty dollars.", and reduce the same to one hundred fifty-eight thousand eight hundred eighty dollars, for the reason that the last named amount is ample.

8. I object to the item on page 16 [254] under the heading "Educational" reading as follows: "For salaries of officers and employees, Fresno State Teachers College, two hundred seventy-five thousand dollars.", and reduce the amount to two hundred sixty-nine thousand two hundred eighty dollars, for the reason that the last named amount is ample.

9. I object to the item on page 16 [255] under the heading "Educational" reading as follows: "For support, Fresno State Teachers College, forty-two thousand dollars.", and reduce the amount to twenty-seven thousand dollars, for the reason that the last named amount is ample.

10. I object to the item on page 16 [255] under the heading "Educational" reading as follows: "For salaries of officers and employees, San Diego State Teachers College, two hundred fifty-three thousand seven hundred forty dollars.", and reduce the amount to two hundred seventy-seven thousand seven hundred forty dollars, for the reason that the last named amount is ample.

11. I object to the item on page 16 [255] under the heading "Educational" reading as follows: "For salaries of officers and employees, San Jose State Teachers College, four hundred thousand dollars.", and reduce the amount to three hundred eighty-one thousand seven hundred sixty dollars, for the reason that the last named amount is ample.

12. I object to the item on page 16 [255] under the heading "Educational" reading as follows: "For support, San Jose State Teachers College, sixty thousand dollars.", and reduce the amount to forty-two thousand six hundred dollars, for the reason that the last named amount is ample.

13. I object to the item on page 16 [255] under the heading "Educational" reading as follows: "For salaries of officers and employees, Santa Barbara State Teachers College, one hundred sixty-five thousand seven hundred sixty dollars.", and reduce the amount to one hundred fifty thousand seven hundred sixty dollars, for the reason that the last named amount is ample.

14. I object to the item on page 17 [255] under the heading "Educational" reading as follows: "For salaries of officers and employees, San Francisco State Teachers College, three hundred thirteen thousand five hundred dollars.", and reduce the amount to two hundred forty-nine thousand six hundred dollars, for the reason that the last named amount is ample.

15. I object to the item on page 17 [255] under the heading "Educational" reading as follows: "For support, San Francisco State Teachers College, thirty-nine thousand four hundred fifty dollars.", and reduce the amount to thirty-two thousand three hundred dollars, for the reason that the last named amount is ample.

16. I object to the item on page 17 [255] under the heading "Educational" reading as follows: "For new buildings, San Francisco State Teachers College, one hundred ninety thousand dollars.", on the ground that it is not wise at the present time to build any more buildings for this college even if the state had sufficient funds with which to do it.

17. I object to the item on page 7 [246] under the heading "Preventive" reading as follows: "For salaries of industrial accident commissioners and

employees, four hundred one thousand nine hundred twenty dollars.", and reduce the amount to three hundred eighty-seven thousand nine hundred twenty dollars, for the reason that fourteen thousand dollars was added to the above item in anticipation of work to be done in mining inspection. As the legislature failed to approve the consolidation plan proposed this addition is not now necessary and the amount remaining is ample. Items disapproved.

18. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For support, superintendent of public instruction, forty-three thousand three hundred thirty dollars.", and reduce the amount to thirty-eight thousand three hundred thirty dollars, for the reason that the printing fund of thirty thousand dollars provided in the budget is five thousand dollars larger than necessary.

19. I object to the item on page 20 [258] in section four, reading as follows: "provided, that the state controller shall at the request of the state director of education set over and transfer from the appropriations for salaries and support for the several teachers colleges and special schools, an amount not exceeding one per cent of such appropriations and the amount so transferred shall be designated as the administrative allotment of the state department of education and shall be available for use by the director of education for the payment of the salaries and support of the general administrative office of the division of normal and special schools, during the seventy-fifth and seventy-sixth fiscal years.", for the reason that such appropriation is unnecessary and a willful waste of the money of the taxpayers. The director of education has an ample allowance for running his department if it is put on an economical and businesslike basis.

20. I object to the item on page 17 [256] under the heading "Educational" reading as follows: "For salaries of officers and employees of the California School for Deaf and the California School for the Blind, two hundred fifty-three thousand dollars.", and reduce the amount to two hundred twenty-three thousand three hundred sixty-four dollars, for the reason that the last named amount is ample for the support of this institution which has been more liberally treated by the budget than by any other in the history of California.

21. I object to the item on page 17 [256] under the heading "Educational" reading as follows: "For construction and equipment of new buildings for California School for the Blind, one hundred eighty thousand dollars.", and reduce the amount to ninety thousand dollars, for the reason that it is not expedient to build more than one new building during the next biennial period, even if the state had sufficient funds with which to build more. The lack of buildings for this institution is due to the failure of those responsible to care for it at the last session of the legislature when money was being expended so lavishly.

22. I object to the item on page 17 [256] under the heading "Educational" reading as follows: "For salaries of officers and employees, California Polytechnic School, one hundred eighty-six thousand dollars.", and reduce the amount to ninety-six thousand five hundred dollars, for the reasons set forth below.

In my budget message I called attention to the fact that the California Polytechnic School was not properly a state institution, was entirely out of joint with the educational system of the state, and that work was being done there for pupils of high school age which in other parts of the state was being done by the school districts. I also pointed out that if the state is to go into the business of conducting polytechnic high schools, it would have to have scores of similar institutions throughout the state at great cost to the taxpayers. I also suggested that this institution should be changed into some other line of work or used for some other state institution.

In my message of April 9th, I again called attention to my recommendation and asked that you give it consideration. In the meantime, it has been suggested that this institution might be used as an agricultural school for the southern part of the state. You have not acted upon this suggestion but have simply increased the allowance, and I do not feel that the state would be justified in spending a quarter of a million dollars on it during the next biennial.

23. I object to the item on page 17 [256] under the heading "Educational" reading as follows: "For support, California Polytechnic School, sixty-eight thousand dollars.", and have reduced the same to twenty-eight thousand dollars, for the reasons set forth above.

24. I object to the item on page 6 [245] under the heading "Administrative" reading as follows: "For traveling expenses of the state board of equalization such sum or sums as are provided in section three thousand seven hundred two of the Political Code," for the reason that this appropria-

25. I object to the items on page 6 [245] under the heading "Administrative" reading as follows: "For investigations and appraisements, state board of equalization, such sum or sums as are provided in chapter four hundred twenty-eight, statutes of one thousand nine hundred twenty-one.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

26. I object to the item on page 8 [247] under the heading "Preventive" reading as follows: "For salaries and support of the state real estate department such sum or sums as are provided in chapter six hundred five, statutes of one thousand nine hundred nineteen, and the amendments thereto, such amounts to be paid from the real estate commissioner's fund created thereby.", and reduce the same to "For salaries of state real estate commissioner, deputies and employees, one hundred forty-six thousand two hundred forty dollars. For support, state real estate department, eighty-three thousand two hundred forty dollars.", for the reason that the last named amounts are ample. The amendment proposed by the legislature might leave the state real estate department without any appropriation at all.

27. I object to the item on page 9 [248] under the heading "Benevolent" reading as follows: "For support of orphans such sum or sums as are provided in section two thousand two hundred eighty-three of the Political Code.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

28. I object to item on page 12 [251] under the heading "Conservation" reading as follows: "For purchase of land California redwood park, such sum or sums as are provided in chapter six hundred ninety, statutes of one thousand nine hundred seventeen.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

29. I object to the item on page 13 [252] under the heading "Developmental" reading as follows: "For statistics state agricultural society, such sum or sums as are provided in chapter five hundred eighty-four, statutes of one thousand nine hundred eleven.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

30. I object to the item on page 13 [252] under the heading "Developmental" reading as follows: "For support of California highway commission all revenues from bond sales under authority of section two, article sixteen of the constitution; all revenues from motor vehicle registration, as provided in chapter one hundred eighty-eight, statutes of one thousand nine hundred fifteen and amendments thereto; all receipts from the federal government under an act of congress and authority provided by chapter five hundred thirty-seven, statutes of one thousand nine hundred seventeen.", for the reason that this appropriation is provided for by existing statutes and also is authorized by the provisions of section one of this bill.

31. I object to the item on page 13 [252] under the heading "Developmental" reading as follows: "For highway bond interest and redemption, such sum or sums as are provided in chapter three hundred eighty-three, statutes of one thousand nine hundred nine; chapter four hundred four, statutes of one thousand nine hundred fifteen; chapter ninety-three, statutes of one thousand nine hundred nineteen.", for the reason that this appropriation is provided for by existing statutes and also is authorized by the provisions of section one of this bill.

32. I object to item on page 14 [253] under the heading "Developmental" reading as follows: "For investigation of water resources, such sum or sums as are provided in chapter seven hundred four, statutes of one thousand nine hundred nine.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

33. I object to the item on page 14 [253] under the heading "Developmental" reading as follows: "For salaries, support and permanent improvements for the fish and game commission, such sum or sums as are provided in chapter two hundred fifty-six, statutes of one thousand nine hundred nine and all amendments thereto, such payments to be made from the fish and game preservation fund created thereby.", and reduce the same to "For salaries of officers and employees of the fish and game commission, four hundred thirty-eight thousand three hundred seventy dollars. For support of the fish and game commission, three hundred seventy-one thousand one hundred fifty dollars.", for the reason that the last named

sums are ample. The amendments proposed by the legislature might leave the fish and game commission without any appropriation at all. Items disapproved.

34. I object to the item on page 14 [253] under the heading "Developmental" reading as follows: "For Sacramento and San Joaquin drainage district number six such sum or sums as are provided in chapter five hundred fifty-six, statutes of one thousand nine hundred nineteen.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

35. I object to the item on page 14 [253] under the heading "Developmental" reading as follows: "For Los Angeles flood control such sum or sums as are provided in chapter seven hundred forty-nine, statutes of one thousand nine hundred twenty-one.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

36. I object to the item on page 14 [253] under the heading "Developmental" reading as follows: "For uses veterans' welfare board for purchase of farms and homes such sum or sums as are provided in initiative act approved November seventh, one thousand nine hundred twenty-two.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For vocational rehabilitation such sum or sums as are provided in chapter seven hundred fifty-eight, statutes of one thousand nine hundred twenty-one.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

38. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For vocational education (Smith-Lughes act) such sum or sums as are provided in chapter seven hundred twenty, statutes of one thousand nine hundred seventeen.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

39. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For teachers permanent fund such sum or sums as are provided in chapter six hundred ninety-four, statutes of one thousand nine hundred thirteen.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

40. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For textbooks for orphans such sum or sums as are provided in chapter four hundred seventy-two, statutes of one thousand nine hundred seven.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

41. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For support of elementary schools such sum or sums as are provided in section six of article nine of the constitution.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

42. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For support of secondary schools such sum or sums as are provided in section six of article nine of the constitution.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

43. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For support of junior colleges such sum or sums as are provided in chapter four hundred seventy, statutes of one thousand nine hundred twenty-one.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

44. I object to the item on page 15 [254] under the heading "Educational" reading as follows: "For university building interest and redemption of bonds such sum or sums as are provided in chapter nine hundred twenty-three, statutes of one thousand nine hundred fifteen.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

46. I object to item on page 18 [256] under the heading "Miscellaneous" reading as follows: "For Sacramento building interest and redemption

of bonds, such sum or sums as are provided in chapter two hundred thirty-nine, statutes of one thousand nine hundred thirteen.", for the reason that this appropriation is provided for by existing statute and also is authorized by the provisions of section one of this bill.

ECONOMY IS EFFECTED.

Economy effected.

My original budget presented to you totaled \$78,074,828.55, and was a redemption of my pledge to the people to give them an economical and efficient administration. On April 9, 1923, I made certain recommendations and changes to the budget which made the total \$79,425,188.55.

Certain bills were introduced to carry out suggestions by me for combining the board of charities and corrections, building and loan commission, immigration and housing commission, and the mining bureau with other departments. These bills were not acted upon favorably by your body and hence it has been necessary for me to make increases covering these departments. With these increases the present total is \$79,754,336.55.

Your body has increased this total by \$1,170,049.68. All of these increases are returned to you without my approval, thus saving the taxpayers, who ultimately pay every dollar of tax, more than one million dollars.

The reductions and eliminations made by me bring the budget total to a figure twelve million dollars less than the \$91,865,000 of appropriations of 1921.

Budget -----	\$70,425,188 55
Deductions -----	255,080 00
	\$70,170,108 55
Increases -----	584,228 00
	\$79,754,336 55

The increases made in the legislature by my suggestion were:

Charities and corrections -----	\$49,080 00
Building and loan commission -----	29,160 00
Immigration and housing commission -----	124,890 00
Mining bureau -----	359,898 00
Board of forestry -----	16,200 00
Woman's Relief Corps -----	5,000 00
	\$584,228 00

The deductions made from the budget were:

Building and loan commission -----	\$30,000 00
Surveyor general -----	138,080 00
Mining Bureau -----	68,000 00
Industrial accident commission -----	14,000 00
Superintendent of public instruction -----	5,000 00
	\$255,080 00

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.

CHAPTER 122.

An act to add a new section to the Political Code, to be numbered one thousand seven hundred thirty-four c, relating to the change of boundaries of high school districts.

[Approved May 7, 1923.]

The people of the State of California do enact as follows:

SECTION 1. A new section to be numbered one thousand seven hundred thirty-four c is hereby added to the Political Code to read as follows:

1734c. Except as otherwise provided by law, the boundaries of a high school district shall be changed only between the first day of October and the tenth day of February in any year.

Boundaries changed, when.

When two-thirds of the heads of families residing in any elementary school district which is a part of any high school district and the nearest part of which is more than six miles by traveled road from the high school building of said high school district, as shown by the affidavit of one or more of the petitioners, shall present to the county superintendent of schools having jurisdiction over such high school district, a petition asking that such elementary school district be excluded from such high school district and annexed to a contiguous high school district, accompanied by an agreement signed by the high school board of the high school district to which annexation is sought, agreeing to such annexation; such superintendent of schools shall, after verification of the signatures thereto and finding them sufficient, transmit such petition and agreement with or without his recommendation thereon, to the board of supervisors of the county in which such elementary school district is situated.

Transfer of elementary school district to another high school district.

If, by the exclusion of the elementary school district, the assessed valuation of the property of the high school district would be less than five million dollars, or if by the exclusion of the elementary school district the outstanding bonded indebtedness of the district would exceed five per cent of the value of the taxable property remaining in the district, said board of supervisors shall refuse to call an election for the purpose of determining whether said elementary school district shall be excluded. Otherwise, said board of supervisors may, in its discretion, within thirty days after receipt of the petition and agreement, call an election in the district so petitioning, and shall appoint three qualified electors of the district to conduct the election. Said election shall be held at the public schoolhouse of the district petitioning and shall be called by posting notice at least fifteen days before the election in three public places in the district, one of which shall be at the public schoolhouse, if there be such in the district; said board shall also publish the notice once a week for two weeks in a newspaper published in the district, or, if there be none such, in a newspaper in general circulation in the district.

Call of election.

Conduct
of election.

Said election shall be conducted by officers appointed for that purpose in the manner provided by law for conducting school elections; the ballots at such election shall contain the words "For exclusion from ----- high school district and annexation to ----- high school district"; the name of the high school district from which exclusion is sought and the name of the high school district to which annexation is desired must be printed on the ballot, whereon the elector shall stamp or make a cross after the word "yes" or the word "no," also printed on said ballot.

Canvass
of vote.

It shall be the duty of said election officers to canvass the vote of said election and report the result to the said board of supervisors within five days subsequent to the holding of said election.

Protest
of transfer.

If two-thirds of the votes cast at such election shall be in favor of such exclusion and annexation, said board of supervisors shall, within fifteen days after receiving such notice, notify the high school board of the high school district of the result of such election, and if said high school board does not protest the exclusion of such district from the high school district, within thirty days after receiving notice, the board of supervisors shall exclude said territory from said high school district and annex it to the contiguous high school district, as provided in said election; however, should the high school board of said high school district protest such exclusion and annexation, the board of supervisors shall notify the superintendent of public instruction of the election and its result, and of the protest of the high school board, whereupon the superintendent of public instruction shall create a board of review composed of three county superintendents of schools of counties not contiguous to the county or counties in which is located the high school district from which the elementary school desires separation.

Hearing.

Said board of review shall, upon a date set by the superintendent of public instruction, survey the situation and conduct a public hearing on the question as to whether or not the elementary school district shall be excluded from the local high school district and annexed to a contiguous high school district. Said hearing shall be held at the high school building of the high school district to which the territory desiring exclusion at the time belongs; and said hearing shall be conducted under such rules of procedure as may be prescribed by such board of review, which may, in its discretion, require any or all evidence and information to be submitted under oath administered by a member of the board.

Notice.

The superintendent of public instruction shall notify the county superintendents concerned and said county superintendents shall notify the interested high and elementary school boards, of the date of the inspection and the date and place of the public hearing, and shall give publicity to said meeting by printing an announcement of the same in a newspaper published in the high school district, or, if there be none such, in a newspaper in general circulation in said district.

In arriving at its conclusion, the board of review shall take into consideration the present and future effect on public welfare only, and said board shall, before it adjourns, recommend in writing to the board of supervisors either that the petition of the elementary school district be granted, or, if it so decrees, that it shall be denied. Recom-
mendation.

The board of supervisors must, within fifteen days thereafter, act in accordance with the recommendations contained therein, entering upon its minutes an order excluding the territory of said elementary school district from the high school district and annexing it to the contiguous high school district, if such be the recommendation of the board of review; or an order denying exclusion and annexation of said elementary school district, if such be the recommendation of the board of review. Supervisors
to follow
recom-
mendation.

A certified copy of the order of the board of supervisors shall be entered by its clerk in his record of high school districts, and he shall also send copies thereof to the county clerks of each county in which any part of such elementary school district or high school district is situated; and they shall also enter it in their records of high school districts; *provided, however,* that the district so withdrawing shall not be released from responsibility for any of the bonded indebtedness incurred while it was a part of the high school district from which it has withdrawn. Record.

Superintendents of schools are hereby authorized and required by law to perform the duties prescribed herein. The high school board of any high school district wherein the superintendent of public instruction has ordered a review of the petition of an elementary school district to be excluded from said high school district and annexed to a contiguous high school district, is hereby authorized and required to pay the actual and necessary traveling expenses of the members of the board of review, provided for in this section. Duties of
school
officers.

CHAPTER 123.

An act confirming, validating and declaring the organization and existence of school districts and high school districts of any kind or class.

[Approved May 8, 1923.]

The people of the State of California do enact as follows:

SECTION 1. All school districts of any kind or class, including joint districts, union school districts and joint union school districts, and all high school districts of any kind or class, including city high school districts, union high school districts and joint union high school districts which have acted and existed as such for more than one year prior to the taking effect of this act, are hereby declared to be legally and duly formed, organized, established, incorporated and existing, and Validation
of school
districts.

as such school districts or high school districts under their respective appropriate names shall have all the rights and privileges and be subject to all of the duties and obligations of duly formed, organized, established or incorporated school districts or high school districts.

CHAPTER 124.

An act to amend section six hundred forty-six of the Civil Code, relative to building and loan associations.

[Approved May 8, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Section six hundred forty-six of the Civil Code is hereby amended to read as follows:

Deposit
with state.

646. Every building and loan association, and every other corporation, association or society organized under and by virtue of the laws of any other state or territory or of any foreign country, for the purpose of conducting and carrying on a business of a character similar to that authorized by this title, or whose by-laws, rules, prospectus, contracts or methods of business provide for the conducting or carrying on the business of accumulating the periodical payments or savings of its shareholders, members or investors in the manner of building and loan associations, or as authorized and provided in this title, desiring to enter the State of California for the transaction of business or for selling its bonds, debentures, certificates, shares of stock, shares of membership, contracts, or other similar securities, must first comply with the requirements of sections four hundred five and four hundred eight of the Civil Code and immediately thereafter deposit with the official vested by law with state supervision and license not less than fifty thousand dollars in lawful money of the United States or in bonds of the United States or of the State of California, or of any county, municipality or school district of said state, or of any public utility corporation, or of any irrigation district in said state, the bonds issued by which district are legal investments for savings banks or any notes or bonds secured by mortgage or deed of trust payment of which is guaranteed by a policy of mortgage insurance, or mortgage participation certificates, issued by a mortgage insurance company in accordance with the provisions of chapter eight, title two, part four of division first of the Civil Code or in lieu thereof promissory notes secured by first mortgages or deeds of trust upon real estate located within this state, satisfactory to the official vested by law with state supervision and license of building and loan associations, all duly assigned or endorsed in blank, to be held by the said official as a guarantee fund for the protection and indemnity of residents of the State of California who shall invest in any of its bonds,

debentures, shares, contracts, agreements or other securities, or with whom it shall do business.

It must also procure from the official vested by law with state supervision and license of building and loan associations, the license provided for building and loan and similar corporations and associations, paying the statutory fee therefor before entering upon the transaction of business, and annually renew the same; *provided, however*, that the official or officials, vested by law with state supervision and license of building and loan associations may, before issuing license to any building and loan association, or other corporation, organized under and by virtue of the laws of any other state or territory, or of any foreign country, doing a business which would properly place it under the supervision of the state building and loan commission, require such corporation, or corporations, to so modify or change their contracts, certificates of membership shares, or stock that they will conform in all respects to the requirements of associations organized within the State of California; and shall likewise conform in all other respects to the provisions of sections six hundred thirty-three to six hundred forty-eight *a* of the Civil Code of the State of California.

License requirements.

With the consent of the said official vested by law with state supervision and license any of the securities deposited as herein provided may be withdrawn at any time upon the substitution and deposit of others of form and character herein specified and of like or greater net value, so long as the aggregate net convertible value of all equals or exceeds the amount named herein. The fund thus created is not to be foreclosed or realized upon except for the liquidation of a final judgment in favor of residents of California who were investors in any of the above mentioned securities of such foreign company, corporation or association, and then only after certified proof thereof has been filed with the custodian.

Change of securities.

Except as above provided, securities deposited as herein specified shall not be withdrawn until satisfactory proof of the liquidation of all liabilities to residents of California, approved by the official vested by law with state supervision and license, shall be filed with the custodian, when all may then be withdrawn.

Withdrawal requirement.

Any person or persons who shall be found in the state, as principal, agent, solicitor, or in any other capacity, soliciting or conducting the business of selling, disposing of, or taking or soliciting subscriptions for the sale of any of the forms of bonds, debentures, shares, contracts, agreements or other securities of any such foreign company, corporation or association which has not complied with all the requirements of this section shall be deemed guilty of a misdemeanor punishable, upon conviction, by a fine of not less than one hundred nor more than one thousand dollars or by imprisonment in the county jail for not less than one nor more than twelve months, or by both such fine and imprisonment.

Penalty.

Sec. 5. If, by the certificate of the county clerk, any petition hereinabove provided for is found to be insufficient, he shall certify to the number of qualified electors required to make such petition sufficient in addition to the signatures already thereon and verified by him, and said petition may then be amended by filing a supplemental petition within ten days from the date of such certificate. The county clerk, shall within ten days after the filing of such supplemental petition make a like examination of the same and certify to the result of such examination, as herein provided. If this certificate shall show any such petition as amended to be insufficient, it shall be filed by him in his office and kept as a public record, without prejudice, however, to the filing of any other petition to the same effect at some future time not less than six months thereafter. But if by such certificate such petition, or such petition as amended, is shown to be sufficient, the clerk shall present the same to the board of supervisors of such county, without delay, with his certificate attached thereto and properly dated.

Said hearing may be adjourned from time to time for the determination of said facts, not exceeding two weeks in all. No defect in the contents of the petition or in the title to or form of the notice shall vitiate any proceedings thereon; provided such signatures attached to said petition are sufficient. At such hearing the board shall make such changes in the proposed boundaries as it may deem advisable and shall define and establish such boundaries. Any person owning lands adjoining any of the lands described in said petition may, upon his verified application, in the discretion of the board, have his lands included within such proposed district. If said board shall determine and find from the evidence taken at such hearing that said petition complies with the law, said board shall then call an election to be held in such proposed district for the purpose of determining whether or not the same shall be organized under the provision of this act.

Publication
of notice
of hearing.

The publication hereinabove provided for shall be for at least ten consecutive times in a daily newspaper of general circulation, printed, published and circulated in the respective unincorporated territory, or, if no such newspaper is printed, published and circulated in such territory, then in such daily newspaper printed and published elsewhere in the county and deemed most likely to give notice to the electors of such territory: or for at least three consecutive times in a weekly newspaper of general circulation similarly printed, published and circulated, if there be no such daily newspaper.

Said clerk shall then give notice of the filing of said list and of a time, to be therein fixed by said clerk, when interested persons may appear before the city council and show cause why bonds should not be issued upon the security of the unpaid assessments shown on said list. Such notice shall be posted for not less than five days on or near the council chamber door and be published twice in a newspaper published in such city, if there be any, the first of which publications shall be not less than five days before the time fixed for such hearing. Such notice shall also be given by mailing same to the owner of each lot listed according to the name and address appearing on the last equalized assessment roll for city taxes prior thereto, or as known to the clerk; *provided*, that a failure of the clerk to give such notice by mailing or of the person addressed to receive same shall not affect the jurisdiction of the council to proceed with the hearing noticed. Sec. 9. The city treasurer may advance the maturity of any bond to the second day of January or July in any year and pay and cancel the same whenever there shall be surplus moneys in the redemption fund with which to pay same, by giving notice of such redemption as herein provided. Such notice may be given in writing to the holder or owner thereof by registered mail or personal service, or it may be addressed "To whom it may concern" and be given by publication twice in a daily or weekly newspaper published in said city; *provided*, that if such notice be so given by publication or posting then a copy of same shall be mailed to the last known holder or owner thereof at his last known address at least sixty days prior to such date of advanced maturity. If the service be made personally it shall be made at least sixty days before the date fixed for advanced maturity; if by registered or other mail the mailing shall be made at least sixty days before such date; if by publication or posting the first publication or posting shall be made at least sixty days before such date. In the event of such notice being given, the maturity of such bond shall be advanced and said bond shall be deemed to mature on the date fixed for the advanced maturity of same, at which time the same shall be paid; *provided, however*, that the holder or owner of such bond may prior thereto surrender same and receive the principal thereof together with interest thereon to date of payment and together with a premium thereon equal to five per centum of the principal. On said second day of January or July fixed for advanced maturity, if said bond has not been sooner surrendered, the treasurer shall set aside to the credit of the owner of said bond the amount of principal and accrued interest then due on said bond together with such premium of five per centum of the principal, and said bond shall then be deemed to have matured and interest thereon shall thereafter cease to accrue on said bond. The amount so set aside shall on demand be paid to the holder or owner of said bond on surrender and cancellation of the same. The costs of such advertising, or other service, shall be paid from the redemption fund. More than one bond may be covered in a single notice. Prior to the surrender of any bond or the setting aside of said funds, the treasurer may waive and vacate any notice of advanced maturity upon being tendered for cancellation some other bond or bonds of an

In selecting bonds for retirement, the treasurer will choose the bond of earliest maturity that is feasible; conditioned, nevertheless, on provision being made for returning to owners releasing unpaid assessments under section fifteen hereof all interest not accrued less any premium and interest paid on bonds redeemed besides costs of publication as therein provided.

Assessments
payable in
instalments.

Sec. 5. Section twelve of said act approved June 11, 1915, as amended, is hereby amended to read as follows:

Sale of
land upon
default of
payment.

Purchase
by city.

Purchase
by state.

Sec. 12. Such unpaid assessments shall be payable in annual series corresponding in number to the number of series of bonds issued and an even annual proportion of each assessment shall be payable in each year preceding the date of maturity of each of the several series of bonds so issued. Such annual proportion of each assessment coming due in any year, together with the annual interest on such assessment, shall in turn be payable in annual or semiannual instalments according as the general municipal taxes of such city on real property are payable in annual or semiannual instalments, and such instalments and said annual interest shall be payable and become delinquent at the same times and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as to the general municipal taxes on real property of said city. Upon default in payment, the lands securing such instalments and assessments shall be sold in the same manner in which real property in such city is sold, for the nonpayment of general municipal taxes, and be subject to redemption within one year from date of sale in the same manner as such real property is redeemed from such delinquent sale, and upon failure of such redemption shall in like manner pass to the purchaser. The city may be the purchaser at any delinquent sale in like manner in which it becomes or may become the purchaser of property sold for nonpayment of the general municipal property tax, and in the event of its so becoming the purchaser shall pay and transfer into said redemption fund the amount of the delinquent assessment and of the delinquent interest thereon upon which said sale is made. In cases where the municipal property tax is collected by county or city and county officials and sales for nonpayment of such taxes are made to the state, the state shall be the purchaser at any such sale hereunder, but shall hold the title acquired at such sale upon behalf of the city and shall account to the city for any moneys received upon redemption or from the sale of such property, the city for the purposes of this act being deemed the real purchaser. In other cases where under the law the city is not always the purchaser at sales for delinquent municipal taxes, the city shall become such purchaser

at any delinquent sale hereunder where there is no other purchaser. In the event of there being no available funds in the treasury with which to make such payment, the tax collector shall delay the entry of the certificate of sale until such funds are available, making demand in the meantime upon the city council that a suitable amount be included in the next tax levy for the purpose of providing funds with which to make such payment; *provided, however*, that the period of redemption from such tax sale shall not be extended thereby nor the rights or privileges of the property owner be thereby in any wise affected. In the event of such purchase being made by the city and of any succeeding instalment of such assessment or of such interest not being paid in any future year, the property shall not be sold unless there has previously been a redemption from such sale or unless under the law it is then being sold for delinquent taxes. The city shall nevertheless, unless a resale has been made by it, from time to time when due pay and transfer into said redemption fund the amount of any such future delinquent assessment and interest pending redemption, and no redemption shall be made until any such subsequent payments, with interest and penalties, shall also be paid. The purchaser, whether at tax collector's sale or at resale by the city in the event of the city having become the purchaser, or at foreclosure sale by order of court, shall take the property subject to all unpaid instalments, interest and penalties under the same proceeding and to all public improvement assessments which may have priority thereover.

Sec. 6. Section thirteen of said act, approved June 11, 1915, as amended, is hereby amended as follows:

Stats. 1921,
p. 220,
amended.

Sec. 13. (a) Interest on all unpaid assessments shall begin to run from the date of filing of the contractor's statement, or as otherwise provided in said street work act and shall be computed at the same rate specified in the bonds secured by such assessments. Such interest shall be payable annually or semiannually as above provided, according as such general municipal taxes on real property in such city are payable annually or semiannually, but shall for each year be computed and collected up to the next second day of July succeeding, no deduction being made by reason of any instalment of such assessment being due or paid prior thereto in such year.

Interest
on unpaid
assessments.

(b) Wherever it shall appear to the council that, according to the dates when taxes are collected in any city, there will be an insufficient amount on hand to pay the interest when due, according to the method of collection provided by the preceding provisions of this act, then said council may direct that such interest or some portion of same be collected in the year preceding that in which the same would otherwise be collected under this act, and thereupon such interest or portion thereof shall be extended on the rolls for such preceding year and be due and collected therein.

SEC. 7. Section fourteen of said act amended June 11, 1915, as amended, is hereby amended as follows:

Sec. 14. (a) A copy of the order of the council determining the assessments remaining unpaid and upon the security of which bonds are issued shall be filed in the office of the auditor. The auditor shall keep a record in his office showing the several instalments of principal and interest on said assessments which are to be collected in each year during the term of said bonds. The auditor shall annually enter in his assessment roll on which taxes will next become due, opposite each lot or parcel of land affected in a space marked "public improvement assessment," or by other suitable designation, the several instalments of such assessment coming due during the fiscal year covered by such assessment roll, including in each case the interest due on such total unpaid assessments as herein provided, and also including a percentage of one-fourth of one per cent of the amount of such instalments and of such interest so entered. Such percentages when collected shall belong to the city or county and shall cover the expenses and compensation of the city or county treasurer incurred in the collection of such assessments, and of the interest and penalties thereon. No other percentage shall be claimed for any such collections. In the event that such collections are made by the county officials the county auditor shall at the close of the tax collecting season promptly render to the city auditor a detailed report showing the amounts of such instalments, interest, penalties and percentages so collected on each proceeding and from what property collected, and also giving a statement of the percentages retained for the expenses of making such collections. Taxpayers shall have the like right to pay such assessment as so entered with interest, and any penalties thereon, under protest as they have to pay general municipal taxes under protest, but in making such payment under protest must accompany the payment with their written protest. In the event of the lot or parcel of land affected by any assessment not being separately assessed on said roll so that the instalment to be collected can be conveniently entered thereon, then said auditor shall enter on said roll a description of the lot or parcel affected, with the name of the owners if known, but otherwise described as "unknown owners," and extend the proper instalment opposite same.

(b) In the event of a subdivision of the lot or parcel affected into separate holdings, the owners of same may in writing request the auditor to separate the instalments according to some fixed proportions to be stated by them and to enter same in said roll opposite their respective holdings in accordance therewith. Such owners shall in connection therewith in writing waive objections to the proceeding and to the method of collecting assessments proposed by them and agree to pay future instalments in accordance therewith. Thereafter the auditor shall enter such instalments opposite the respective lots or parcels of land in the proportions agreed upon; *provided, however*, such division of the instalments shall not be

so disproportioned to the relative values of the separate holdings of land as to jeopardize the security of the assessments.

Sec. 8. Section fifteen of said act, amended June 11, 1915, as amended, is hereby amended to read as follows:

Stats. 1921,
p. 230,
amended.

Sec. 15. Any interested owner may release and pay any such unpaid assessment by depositing with the city treasurer the total unpaid balance of any such assessment together with the total interest which would become due on such assessment were it paid in the regular way; *provided*, that if the amount of same be sufficient to provide surplus moneys with which to redeem any bond outstanding and not due the next second day of July, then such person so releasing such assessment may direct the treasurer to redeem such bond, and the treasurer shall then give the proper notice for redeeming such bond, by advancing its maturity as hereinbefore provided upon which redemption the person releasing such assessment shall be entitled to credit and reimbursement for the par value of any coupons thereon which shall be canceled but not paid less any accrued interest paid thereon and less the premium paid on said bond as hereinbefore provided, and less any costs incurred for publishing or serving any notice of redemption.

Sec. 17. (a) In the event of sale by the tax collector of any lot or parcel of land for nonpayment of taxes and of any instalment of the assessment thereon, or of the penalties, interest or costs on same, or for nonpayment of any instalment, penalties, interest or costs, then any certificate of such sale and deed issued pursuant thereto, is primary evidence of the regularity of all proceedings theretofore had, and shall be conclusive evidence of all things of which bonds issued upon the security thereof are conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issuance of the bonds, and such deed conveys to the grantee the absolute title to the lands described therein, free of all incumbrances, except the lien for other state, county and municipal taxes and unpaid instalments, interest and penalties under the same proceeding and except all public improvement assessments which may have priority thereover.

(b) Upon application by the city council or of any holder or interested party, the superintendent of banks shall examine into the regularity of the issuance of said bonds and relative to the sufficiency of the security provided for the payment thereof and if satisfied therewith may certify the same as suitable for investment by savings banks and trustees whereupon the same may be so used for investment of savings deposits and trust funds. The cost of any required appraisal may on approval of the city council be paid out of any surplus moneys in the redemption fund not required for the payment of the interest or principal of said bonds.

[Approved May 18, 1923.]

The people of the State of California do enact as follows:

Stats. 1921,
p. 228,
amended.

SECTION 1. Section eleven of an act entitled "An act to provide for the issuance of improvement bonds to represent and be secured by certain assessments made for the cost of certain work and improvements made in and upon streets, avenues, lanes, alleys, courts, places and sidewalks within municipalities and upon property and rights of way owned by municipalities, to provide for the collection of such assessments, the sale of the property affected thereby and for the payment of the bonds so issued," approved June 11, 1915, is hereby amended to read as follows:

Unpaid
assessments
a trust
fund and
a lien.

Sec. 11. (a) In the event of such bonds being so issued, then the assessments, which shall be unpaid, as shown on the list filed by the superintendent of streets and determined by the city council, and any reassessments which may be issued thereon or in lieu thereof, together with interest thereon, shall remain and constitute a trust fund for the redemption and payment of said bonds and of the interest which may be due thereon. Such assessments and reassessments and each installment thereof and the interest and penalties thereon shall be and shall continue to constitute a lien against the lots and parcels of land on which made, until the same be paid, but for a period not exceeding the time within which an action might be brought on the last series of bonds issued upon the security of such unpaid assessments. Such lien shall be prior and superior to all other liens, except the lien for state, county and municipal taxes and public improvement assessments and reassessments which may have priority thereover; *provided, however,* that unmatured installments, interest and penalties shall not be deemed to be within the terms of any general warranty of title.

(b) Whenever any assessment heretofore issued or which may be hereafter issued is or shall be void or unenforceable, for any cause, or if bonds shall have been, or shall be, issued hereunder to represent or be secured by any assessments and such issuance shall not have been or shall not be effective through the curative provisions in relation thereto under said street work act or under this act to make them valid and enforceable, then, in any of such events a reassessment therefor may be issued. Such reassessment shall be issued upon the demand of the owner or holder of bonds aggregating one-third of the principal amount outstanding and shall be issued and made in the manner and form provided by said street work act. When so issued the reassessment made shall stand and constitute a trust fund for the redemption and payment of the original bonds so issued; *provided*, that the city council may call in the original issue of bonds outstanding and issue new bonds upon the security of the reassessment in lieu thereof. The city council may determine that new serial bonds shall be issued upon the security of such reassessment, in which event it shall so declare in the notice of hearing upon such reassessment and set forth therein the description of said bonds as provided for in section four hereof. In such event upon confirmation of the reassessment said council may issue said bonds after notice by the clerk as provided in section five thereof. Upon calling in by the city council of the original issue of bonds outstanding, the council may direct the city treasurer to, and the treasurer shall thereupon, advance the maturity of said bonds outstanding bearing interest in the manner provided in section 9 hereof, notwithstanding that there may not be surplus moneys in the redemption fund with which to pay same. Such new bonds shall be issued in an aggregate amount equal to the total balance of the reassessment unpaid and shall bear interest from the date of recordation of the reassessment at the rate fixed by the council. After such issuance of said new bonds and upon surrendering of the bonds outstanding, new bonds shall be issued ratably to the holders of the original bonds outstanding, each holder of such original bonds being entitled to such proportion of the new bonds as the total amount of the principal and interest due him on his original bonds, as of the date of such recordation of the reassessment, bears to the total amount of the principal of such new bonds. In making distribution the council shall have authority to assign the different bonds and allot maturities in such manner as to it shall seem equitable.

ment, when
issued.

New bonds.

(c) In the event of nonpayment of any assessment or reassessment or installment thereof, or of any interest thereon, and as a cumulative remedy, the same when due as hereinafter provided, may by order of the council be collected by suit brought to foreclose the lien thereof in the same manner as provided in said street work act for the foreclosure of other assessments by action in a superior court, and with like costs, attorneys' fees and other relief. Thereupon the tax collector shall be credited upon the assessment roll then in his hands

with the amount charged against him on account of such assessments or reassessments ordered to suit and be relieved of further duty in regard thereto.

Procedure.

(d) Such action shall be brought in the name of the city. The complaint may be brief and include substantially only the following allegations with reference to the assessments sought to be collected: that on a date stated the council passed its resolution ordering certain work to be done, without describing the same; that work was done thereunder; that an assessment and warrant to pay for the cost thereof was duly given and made; that same was returned on a stated date; that certain property (describing it) was therein assessed a stated amount; that bonds upon the security of such assessment were duly issued giving the date of said bonds their interest rate and the number of years the last installment of same were to run and that same were duly issued under this act, but it shall be unnecessary to state the amount, number, denomination or other term thereof; that on a date stated a certain sum came due against said property on said assessment and had not been paid and that the council had directed the action to foreclose. adopt like ordinances to form such district, or such ordinance may, in one or more of said counties, be adopted by the electors of the county under the provisions of the law applicable to the passage of ordinances by the initiative. Each of said counties shall be contiguous to another county therein; *provided*, that counties separated by any of the waters of this state are contiguous within the meaning of this act: In such ordinance it shall be directed that a petition be circulated therefor, and the board shall, by resolution, name and appoint persons to circulate and secure signatures for the same.

Such petition which may consist of any number of separate instruments shall be presented to the secretary of state, signed by qualified electors, residing within the boundaries of the proposed bridge and highway district, equal in number to at least ten per centum of the number of such qualified electors in each county from which such petitions are presented voting for governor of this state at the last general election prior to the presentation of such petition. The board of supervisors of any county may, in lieu of proceeding by petition, call an election, as provided for the calling of special elections under the laws pertaining thereto, to be held in conformity therewith, where and when the same may be determined by a majority vote of the electors voting thereat.

Such petition shall set forth the extent of the district, either by describing its exterior boundaries, or by naming the counties proposed to be included therein, as having been determined by said ordinance and in case only part of any county is proposed to be included therein, the extent of the part of the county included may be indicated by naming the county and excepting therefrom, some administrative or governmental subdivision or subdivisions thereof, such as townships, school districts or other similar subdivisions, or such excluded portion may be described by its boundaries, and in any of said descriptions of included or excluded territory, reference to recorded instruments may be made for the purpose of defining such boundaries, and shall contain a prayer that such proposed bridge and highway district be incorporated under the provisions of this act. The county clerk shall within ten days after the filing of such supplemental petition or petitions make like examination of the same and certify to the result of such examination as hereinabove provided. If his certificate shall show any such petition or said petition as amended to be insufficient it shall be filed by him with the secretary of state and kept by him as a public record without prejudice however to the filing of a new petition to the same effect, but if, by the certificate of the county clerk such petition or said petition as amended is shown to be sufficient the county clerk shall present the same to the secretary of state without delay. If any supplemental petition be filed all of the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of qualified electors signing the petition. Such proceedings for a writ of review must be taken within ten days after the entry of the judgment in the superior courts, and if not so taken all judgments of the superior courts shall become final.

SEC. 6. [Approved May 20, 1923.]

The people of the State of California do enact as follows:

Powers of
supervisors.

SECTION 1. The board of supervisors of any county of the state may create, maintain and govern sanitation districts within the county as in this act provided.

Resolution
of intention.

SEC. 2. Any board of supervisors desiring to create a sanitation district shall adopt a resolution of its intention so to do. Such resolution shall contain the following matters:

The time to be fixed for the hearing of objections shall be not less than thirty days after the adoption of such resolution, and the place of such hearing shall be the regular meeting place of the board of supervisors or else some place within the boundaries of the proposed district.

The resolution shall, prior to the time of hearing, be published at length twice in at least one of the newspapers of general circulation in the proposed district and brief notices of the passage of such resolution and the time and place of hearing provided thereby may be published in one or more of the daily and weekly newspapers published and circulated in said proposed district. Notice.

SEC. 3. At the time provided in the resolution of intention or at any time to which the hearing may be continued, the board of supervisors shall hear any objections to the creation of the district or to the extent thereof. At such hearing the board of supervisors may exclude any territory which in the opinion of the board would not be benefited by being in the district. Hearing.

If written objection to the creation of the district, signed by two per cent of the registered electors of the district be filed with the board it must, and in any event it may, either adopt an order abandoning the creation of the proposed district, or order the matter of the creation of the district with the boundary lines determined upon at the close of the hearing to be submitted to the electors of the district at an election to be called for that purpose. SEC. 5. Such sanitation district shall be governed by a board of directors of not less than three members. The presiding officer of the governing body of each incorporated city, the whole or part of which is included in such district, shall automatically become a member of such board of directors. If unincorporated territory and but one incorporated city or part thereof be included in such district, the presiding officer, and one other member, of the board of supervisors of the county in which said district is organized shall be members of the board of directors, unless the population of such city or part thereof exceed that of the unincorporated territory included within such district, in which event the presiding officer of such board of supervisors and the presiding officer of the governing body of such city and one other member of such governing body shall constitute such board of directors; but whenever unincorporated territory and two or more cities or parts thereof are included in such district, the presiding officer of the board of supervisors of the county in which such district is located shall be a member of such board of directors. In the event such district contains no unincorporated territory, the board of directors thereof shall consist of the presiding officers of the governing bodies of the cities wholly or in part within said district; and in event there be but two cities or parts thereof in such district, one additional member shall be selected from the governing body of each such city. (c) To issue bonds of the district in the manner hereinafter set forth.

(d) To levy and collect an assessment upon all the taxable real property within the district sufficient to meet the obligations evidenced by the bonds and to maintain the works of the district.

Upon the creation of any sanitation district it shall become the duty of the board of directors to employ one or more sanitation engineers to make a survey of the problems of the district concerning sanitation and especially with reference to the matter of sewage collection, treatment and disposal. Such resolution shall direct such engineer or engineers to prepare and file with the board of directors of the district a report setting forth:

The board of directors may at any time remove any or all the engineers or other persons employed under the provisions of this act, and may fill all vacancies however arising.

SEC. 7. When the engineers' report is filed the board of directors shall examine it and may thereupon (a) reject it and direct that a new report be prepared; (b) direct that changes be made in it; or (c) if it complies with the provisions of the preceding section and is satisfactory to said board the board shall fix a time and place for hearing objections to said report and to the doing of the work therein referred to or to any part thereof. Notice of said hearing shall be given by the board by publishing the same for at least five times in a daily or twice in a weekly newspaper circulated in the district, as the board may direct. At the time and place so fixed, or at such time and place to which the hearing may be from time to time continued, the board shall hear all objections made.

Action of
board upon
report of
survey.

At the conclusion of the hearing the board shall either order the report to be changed to conform to some or all the objections made or shall approve and adopt the report as made. In the event changes in the report are ordered a further hearing shall be had upon the same as amended and reported back to the board as above provided and further hearings shall be had until the board of directors approves and adopts said report. It may, thereafter, have such portions of the report

as are adopted to publication or a resume thereof published for free distribution to the public.

Bond
election.

SEC. 8. After the approval and adoption of said report the board of directors of the district shall proceed to submit to the voters of the district the proposition of incurring a bonded indebtedness to obtain fund, with which to acquire the property and do the work set forth in the report. For that purpose a special election shall be called by resolution. Such resolution shall state: (a) the general objects and purposes for which it is proposed to incur an indebtedness; (b) a reference to the report filed with the board of directors for particulars; (c) the amount of the principal indebtedness proposed; (d) the part of the principal to be paid each year, which part shall not be less than one fortieth; (e) the rate of interest to be paid, which rate shall not be more than six per cent; (f) the date of such election; (g) the election precincts, polling places and election officers.

For the purposes of the special election the board of directors may consolidate into one precinct several precincts established for general election purposes and describe the precinct by reference to the general election precincts.

An election board consisting of one inspector, one judge and one clerk shall be appointed by the board of directors for each precinct.

Only qualified registered electors of the district shall be eligible to vote at such election.

The resolution calling the election shall be published once a week for three successive weeks in such newspaper having a general circulation in the district as the board of directors may designate. No other notice of such election need be given.

Issuance
of bonds.

SEC. 9. If at such election two-thirds of the votes cast are in favor of incurring the bonded indebtedness as proposed, then bonds of the district for the amount stated in the resolution calling the election shall be issued and sold.

The validity of such bonds after their issuance shall not be questioned in any court except upon the ground that the provisions of this act authorizing the issuance thereof are unconstitutional, or that the hearing provided for in section two hereof was not legally held or proper notice of it was not given.

The board of directors shall, subject to the provisions of this act, prescribe by resolution the form of the bonds, and of the interest coupons attached thereto. Said bonds shall be payable substantially in the following manner: A part to be determined by said board, and which shall not be less than one-fortieth part of the whole amount of such indebtedness, shall be payable each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The bonds shall be issued in such denominations as the said board of directors may determine, except that no bonds

Whenever any weight limit different from those specified in this act is fixed in accordance with this section the board of supervisors shall cause signs

indicating the maximum gross weight allowed to be erected at each end of that portion of any county highway upon which the permissible gross weight is altered as herein provided.

For the purposes of this act an improved highway is hereby defined to be a highway paved with cement concrete, or asphaltic concrete, or a highway having a hard surface and distinct roadway not less than four inches thick made up of a mixture of rock, sand, or gravel bound together by an artificial binder other than natural soil.

SEC. 89. Restrictions as to tire equipment. (a) Whenever any vehicle or other contrivance equipped with solid rubber tires shall be driven or moved upon any public highway, such solid rubber tire shall have rubber on its entire traction surface at least one inch thick above the edge of the flange of the entire periphery.

(b) No tire on any vehicle driven or moved upon any public highway shall have on its periphery any block, stud, flange, cleat, ridge, bead or any other protuberance of metal or wood which projects beyond the tread of the traction surface of the tire; but this subsection shall not be so construed as to prohibit the use of tire chains of reasonable proportions on vehicles when required for safety because of snow or ice or other conditions tending to cause such vehicle to slide or skid. The provisions of this subsection shall not apply to vehicles actually engaged in the construction or repair of public highways when operated on unimproved portions of the public highways, and this subsection shall not apply to traction engines or tractors the propulsive power of which is exerted not through wheels resting upon the ground but by means of a flexible band or chain known as a movable track and having transverse corrugations upon the periphery of such movable tracks when such traction engines or tractors are moved or operated under the conditions of a permit first obtained from the department of public works of the State of California, or from the proper authorities in charge of or having jurisdiction over such highways.

SEC. 90. Trailers. (a) No motor vehicle or motor unit composed of a tractor and semi-trailer shall be driven upon any public highway drawing or having attached thereto more than one trailer or other vehicle nor shall the total combined length of any such motor vehicle or motor unit and trailer or other vehicle exceed sixty feet except that this limitation shall not apply to implements of husbandry temporarily moved upon the highway.

or cloth not less than twelve inches in length nor less than twelve inches in width.

Permits for heavier or wider loads.

SEC. 91. Department of public works may issue permits allowing greater weights. Upon application in writing to the department of public works or to the proper authorities in charge of, or having jurisdiction over a public highway, such department or authorities may in their discretion issue a special permit to the owner or operator of any vehicle allowing heavier or wider loads than hereinabove in this section or elsewhere in this act permitted to be moved or carried over and on the public highways and bridges, or allowing more than one trailer to be drawn by a motor vehicle; and may also issue such special permit to increase the permissible weights per inch of width of tire and may also permit the use of corrugations on the periphery of the movable tracks of traction engines or tractors propelled not by wheels resting upon the ground but by flexible bands or chains. Such permits shall be in writing and they may limit the time of use and operation over the particular highways and bridges which may be traversed and may contain such special conditions and provisions and require such undertaking or other security as the said department of public works shall deem to be necessary to protect the public highways and bridges from injury, or provide indemnity for any injury resulting from such operation. All such special permits shall be carried in the vehicles to which they refer and shall upon demand be open to the inspection of any peace officer, any authorized agent of the department of public works or of the division, or any officer or employee charged with the care or protection of the public highways. It shall be unlawful for any person to violate, or to cause or permit to be violated, the limitations or conditions of such special permits and any such violation shall be deemed for all purposes to be a violation of the provisions of this act.

SEC. 92. Unlawful to exceed weight capacity of bridges, etc. It shall be unlawful for the owner, operator, driver or mover of any vehicle, object or contrivance to move, operate or drive the same over any public bridge, causeway, viaduct, trestle or dam, the weight of which vehicle, object or contrivance is greater than the maximum load which can, with safety to such bridge, causeway, viaduct, trestle or dam, be carried thereon. Whenever in the judgment of the California highway commission, any public bridge, causeway, viaduct, trestle or dam can not, with safety to itself, sustain the maximum loads permitted under this act or upon the request of any board of supervisors or any other body having jurisdiction thereof, it shall be the duty of the California highway commission to cause an engineering investigation to be made and to publicly hear and consider the results thereof, and any other evidence that may be offered, as to the load capacity of such bridge, causeway, viaduct, trestle or dam, and to determine and declare in writing the maximum load capacity thereof. Such commission shall, if it finds and declares such

bridge, causeway, viaduct, trestle or dam incapable of sustaining loads permitted by this act, cause or permit suitable signs to be erected and maintained specifying the maximum load which such bridge, causeway, viaduct, trestle or dam is capable of sustaining, such signs to be placed at a distance of not less than one hundred feet or more than one hundred fifty feet from each of the approaches thereto. Upon the trial of any person charged with violating the provisions of this section, a certified copy of the finding of such commission shall be prima facie evidence as to the load capacity of such bridge, causeway, viaduct, trestle or dam; upon such trial it shall also be necessary for the prosecution to prove the erection and existence, in accordance with the terms hereof, of the signs herein specified.

Sec. 93. Responsibility for damage to highway or bridge. Anything to the contrary herein notwithstanding, the owner and the operator, driver or mover of any vehicle, object or contrivance over a public highway or bridge, shall be jointly and severally responsible for all damages which said highway or bridge may sustain as the result of illegally operating or driving or moving such vehicle, object or contrivance, or as the result of driving or moving any vehicle, object or contrivance weighing in excess of the maximum weight specified in this act, but authorized by a temporary permit, and the amount of such damages may be recovered in an action at law by the authorities in control of such highway or bridge.

to persons approaching such lights or to persons whom such headlights may approach.

Headlights shall be presumed to comply with this section if they comply with the following requirements and limitations when the vehicle upon which they are affixed is fully loaded; such compliance shall be presumed if such headlights are affixed to such vehicle in the manner required by this act and are of a type, or are equipped with lenses, reflectors or control devices which have been found to meet such requirements and limitations by the laboratory test provided in section one hundred two and when used in accordance with the instructions of the testing agency.

The light projected by such headlights shall be as follows:

In the median vertical plane, one degree of arc below the level of the center of the lamps, not less than seven thousand two hundred apparent candle power and there shall not be less than seven thousand two hundred apparent candle power anywhere on the horizontal line through this point one degree to the left or to the right of this point.

3. In the median vertical plane one degree of arc above the level of the center of the lamps not more than fifteen hundred, nor less than five hundred, apparent candle power.

4. Four degrees of arc to the left of the median vertical plane and one degree of arc above the level of the center of the lamps not more than eight hundred apparent candle power.

5. One and one-half degrees of arc below the level of the center of the lamps and three degrees of arc to the left and to the right respectively of the median vertical plane not less than five thousand apparent candle power nor less than this amount anywhere on the line connecting these two points.

6. Three degrees of arc below the level of the center of the lamps and six degrees of arc to the left and to the right, respectively, of the median vertical plane not less than two thousand apparent candle power nor less than this amount anywhere on the line connecting these two points.

Omitting to provide child with necessities.

imprisonment in the county jail not exceeding two years or by a fine not exceeding one thousand dollars (\$1,000), or by both. This statute shall not be construed so as to relieve such father from the criminal liability defined herein for such omission merely because the mother of such child, or any other person, or organization, voluntarily or involuntarily furnishes such necessary food, clothing, shelter or medical attendance for such child, or undertakes to do so. Proof of abandonment or desertion of a child by such father, or the omission by such father to furnish necessary food, clothing, shelter or medical attendance for his child is prima facie evidence that such abandonment or desertion or omission to furnish necessary food, clothing, shelter or medical attendance is wilful and without lawful excuse. In the event that the father of either a legitimate or illegitimate minor child is dead or unable by reason of physical or mental infirmity to furnish the necessary food, clothing, shelter or medical attendance for his minor child, the mother of said child shall become subject to the provisions of this section and be criminally liable for the support of said minor child during the period of inability on the part of the father to the same extent and in the same manner as the father would have been had it not been for his physical or mental infirmity. The provisions of this section are applicable whether the parents of such child are married or divorced, and regardless of any decree made in any divorce action relative to alimony or to the support of the wife. Penalty.

CHAPTER 287.

An act to amend section three thousand four hundred eighty of the Political Code, relating to the issuance of bonds by reclamation districts, and to add a new section to the Political Code, to be numbered three thousand four hundred eighty and one-half, providing for a method of funding the installments of the principal of any reclamation district now or hereafter issued as and when the said installments shall mature, or any part of said installments.

[Approved June 1, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Section three thousand four hundred eighty of the Political Code is hereby amended to read as follows:

Reclamation
district
may issue
bonds

3480. Whenever in any reclamation district in this state, now formed or which may hereafter be formed, any assessment has been levied and assessed upon the lands of said district, and remains unpaid in whole or in part, where in the judgment and opinion of the board of trustees of said district it would be for the best interest of said district or the land-owners therein to issue bonds for the purpose of obtaining money to pay the costs of reclamation, the indebtedness of the district, or any other legal charge, or when a petition signed by the owners of more than one-half of the land in the district is filed with the secretary of the board, the board of trustees of such district shall by order entered upon the records of said board, order a special election to be held at some place in said district to be designated by said board of trustees, at which said special election shall be submitted to the owners of land in said district the question of whether or not bonds of said district shall be issued in an amount equal to the amount of such assessment, or the part of such assessment remaining unpaid, which said amount shall be entered by said board of trustees in its records and stated by them in the order for such special election.

Special
election.

Evidence of
ownership
and value

For all purposes of this article relating to signing petitions and by-laws and voting at any election of reclamation districts the equalized assessment roll for the year last preceding, in each county wherein any land of the district is situated shall be sufficient evidence of ownership and of value of lands in the district as hereinafter provided. Guardians, executors, administrators and other persons holding land in a trust capacity under appointment of court may sign such petitions or by-laws or may vote without obtaining special authority therefor.

Notice of
election.

Notice of such special election must be given by the board of trustees by posting notices thereof in at least three public places in the district at least twenty-one days prior thereto, and also by publication for the same length of time in some newspaper of general circulation published in each county in which any portion of said district may be situated; and such notice must specify the time and place of holding such election,

the aggregate face value of bonds proposed to be issued and the names of three landholders of the district to act as a board of election. Affidavits of the publication and posting of such notice must be filed with the county clerk of the county in which said district or the greater part thereof is situated (herein designated as the main county), together with a copy of said order calling the election, certified by the president of the board of trustees.

At such election each owner of lands in the district shall be entitled to vote in person or by proxy and shall have the right to cast one vote for each dollar's worth of real estate owned by him in the district, such value and ownership thereof to be determined from the next preceding assessment roll of the county or counties in which the lands of said district are situate, and the board of trustees of the district shall, prior to the election, cause to be prepared and certified by the proper officer and furnished to the board of election, a true and correct copy of the said next preceding assessment roll of the said county or counties, which said certified roll shall be used by the said board of election in determining the number of votes each voter is entitled to cast. Executors, administrators, special administrators and guardians may cast the votes of the estates represented by them.

No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing, duly acknowledged and certified in the same manner as grants of real property and filed with the board of election. The ballots cast at such election shall contain the words: "Bonds—yes," or the words "Bonds—no," and also the name of the person casting the ballot with the number of votes cast by him. A list of the ballots cast shall be made by the board of election, containing the name of each voter, and, if the ballot be cast by proxy, the name of the person casting it, and the number of votes cast by each, and whether the same be cast for or against the issuing of the bonds.

If any person appointed as a member of the board of election shall fail to attend at the opening of the polls, the voters then present may appoint in his place any landholder of the district. Each member of such board of election, must, before entering upon his duties take and subscribe an official oath, which oath may be administered by an officer authorized to administer oaths or by any landholder in the district. The polls shall be kept open from ten o'clock a.m., of the day of election until four o'clock p.m. At the close of the polls the board of election shall at once proceed to canvass the votes and declare the result and shall forward a certificate showing such result and the number of votes cast for and against the issuing of bonds, to the county clerk of the main county, and shall deliver a duplicate thereof to the board of trustees of the district, and shall also deliver to the said county clerk of the main county all ballots cast at such election and all documents and papers used at such election. Any person interested may contest such election within twenty days after such filing of

said certificate with the said county clerk by bringing suit in the superior court of the main county; otherwise the declaration of the result by the board of election shall be final and conclusive.

Said bonds shall be of the denomination of not less than one hundred dollars nor more than one thousand dollars each; they shall be signed by the president of the board of trustees of the district and attested by the county auditor of said main county, and shall be numbered consecutively in the order of their maturity, and shall bear interest at a rate not to exceed six per cent per annum, payable semi-annually on the first day of January and the first day of July in each year at the office of said county treasurer upon the presentation of the proper coupons therefor. Coupons for each installment of interest shall be attached to said bonds and shall bear the facsimile signature of the county auditor. Before making a sale of said bonds, notice shall be given by the said county treasurer by publication at least once a week for two weeks in a newspaper of general circulation published in said main county, that he will sell a specified amount of said bonds, and stating the day, hour and place of such sale, and asking sealed proposals for the purchase of said bonds, or any part thereof. At the time appointed the county treasurer shall open the bids and award the bonds to the highest responsible bidder. He may, and upon written request of a majority of the trustees must, reject any and all bids. It shall be sufficient to describe said lands as all lands in the district (naming it) without a more specific description. Warrants.

The board of trustees of said district may draw warrants upon the said county treasurer against the funds provided by sale of bonds, which said warrants shall be approved by the board of supervisors of said main county.

All moneys collected by any county treasurer upon any assessment upon which bonds shall have been issued, including all moneys derived from sale of land for delinquent installments, or from redemption thereof, or from sale of lands bought by the treasurer at any such sale, shall be by such treasurer

forthwith paid into the main county treasury to the credit of the bond fund of such reclamation district, and shall be used exclusively for the payment of principal and interest of said bonds issued on such assessment, and of the principal and interest of any refunding bonds issued thereon.

invest-
ment.

If the trustees deem it advisable they may order a special election to be held prior to making an assessment, to determine whether or not bonds shall be issued for an amount to be stated in the order for such election, but no bonds shall, in such instance, be issued until an assessment for the amount of the bonds authorized at such election shall have been made and filed with the county treasurer.

Special
election.

The lien of any unpaid assessment upon which bonds shall have been issued shall continue until all said bonds, and any refunding bonds which may be issued, shall have been paid in full, and if for any reason any part of such principal or interest of said bonds, or of refunding bonds shall remain unpaid after enforcement of said assessment as in this article provided, the board of supervisors of the main county shall order an additional or supplemental assessment to be made as provided in section three thousand four hundred fifty-nine, sufficient to pay such unpaid principal and interest; which additional or supplemental assessment shall be enforced and collected in the same manner as the original assessment.

Additional
assessment.

If any district having authorized the issuance of a series of bonds shall issue an additional series of bonds based on another assessment, the dates of maturity of such additional series of bonds shall be such that the latest maturities thereof shall not exceed thirty years and the earliest maturity of bonds of such additional series shall be later than the latest maturity of bonds of any earlier series, excepting refunding bonds. Such bonds shall be executed by all of the persons who are required by law to execute the original bonds for which such exchange is made, and the said bonds so deposited shall be thereupon canceled by the treasurer of the main county and the board of trustees of the district.

Bonds
issued
prior to
this
amend-
ment.

Whenever in any reclamation district in the state a bond issued of said district has been authorized prior to this amendment then the provisions of this section hereby amended in respect to the manner of procedure by which the assessments are called in to meet payments on account of principal or interest of such bonds, and also the provision herein contained by which the assessment shall continue in full force and effect as constituting a lien upon the several tracts of land within said district under the provisions of section three thousand four hundred sixty-three of this code until the principal and interest of all bonds issued on the basis of said assessment shall have been paid in full, and also the provisions in reference to refunding bonds, shall apply to and inure to the benefit of the bonds which may have been issued by any reclamation district in this state prior to the date of the enactment of this amendment.

Warrants
accepted.

Upon a sale of any of the bonds provided herein (except refunding bonds) the county treasurer of the main county is hereby authorized to accept in payment for said bonds, either in whole or in part, outstanding warrants of such district at their face value, together with the accrued interest thereon.

Interest on
unpaid
assessments.

Where bonds of the district have been authorized to be issued on such assessments all unpaid assessments shall bear interest at the rate of seven per cent per annum from the date of the bonds originally issued thereon until such bonds and any refunding bonds issued thereon shall have been fully paid and discharged, and the interest due at any time on said unpaid assessments may be called without calling any installment of the said assessment. The word installment as used in this section shall be construed as applying to interest as well as the principal as the case may be.

Estimate
of amount
to pay
interest and
principal.

At least ninety days before any interest date of the bonds, including refunding bonds, the county treasurer of the main county shall estimate the amount of money necessary to pay interest and principal maturing on such interest date after crediting thereon the funds in the treasury applicable to the payment thereof, and shall add thereto fifteen per cent of such aggregate sum to cover possible delinquencies, and said county treasurer shall thereupon cause to be published once a week for two weeks in some newspaper of general circulation published in each county in which any of the district may be situate a notice substantially in the following form:

Form of
notice.

(Name of reclamation district.) Notice is hereby given that an installment of assessment (describing it) of (amount or proportion thereof including interest thereon or only for interest) is payable within thirty days from (date) by all assessed land-owners of said district in the county of (name of county) to the treasurer of said county. All or any part of said installment

or interest which shall remain unpaid on the (day fixed) will be delinquent, together with accrued interest thereon, with twenty per cent of such installment and interest added as penalty.

Dated (date).

(Signed) _____
Treasurer of _____ county.

If no newspaper is published in said county, such publication shall be made in a newspaper published in an adjoining county. If any part of such installment or any interest thereon shall remain unpaid at the expiration of thirty days from the date of said notice, it shall become delinquent and twenty per cent of the unpaid amount of said installment and interest shall be added thereto and collected by said treasurer. When any installment shall have become delinquent, said treasurer shall publish once a week for two weeks in a newspaper of general circulation in each county in which any portion of the said delinquent land may lie (or if no newspaper is published therein, then in a newspaper published in an adjoining county), a notice containing a description of each parcel of land assessed in the district whereon such installment is delinquent, as such description appears on the assessment list, the name of the person to whom it is assessed, to unknown owners if such is the fact; the amount of the installment delinquent on such parcel, the amount of interest thereon reckoned to the day of sale, the amount of said twenty per cent penalty thereon, and a notice that each of said parcels will be sold at public auction by said county treasurer in front of the courthouse of said main county, at a specified day and hour which shall not be less than thirty days nor more than sixty days from the date of delinquency, to pay said delinquent installment, with said accrued interest and penalty. At the time stated in said notice, the county treasurer shall sell each parcel of land described in said notice to the highest bidder, unless prior thereto he shall have received payment in full of said delinquent installment together with such interest and penalty. No bid for any parcel shall be accepted less than the aggregate sum then due on said installment thereon, with interest and penalty, and such sale shall be made for cash (except the treasurer may receive from any purchaser at their face value in lieu of cash, bonds of said district or their interest coupons, issued on said assessment and then matured or to mature within sixty days after such sale). Any bond or coupon so received in payment shall be by the treasurer forthwith canceled and filed in his office. If the entire amount of any such bond or coupon tendered in payment shall not be required to complete payment of the purchase money, the treasurer shall endorse thereon as paid, the amount of such purchase money credited thereon. If no bid is made for any parcel at such sale equal to the amount of the installment delinquent thereon, with interest and penalty, the treasurer shall bid in and sell said parcel to himself and his successors in office, as

The treasurer shall execute to each purchaser, including himself as trustee, a certificate of sale, and shall record a duplicate in the county recorder's office. Any person interested in the said property may redeem the same at any time within one year after the date of sale, by paying to the county treasurer for such purchaser a sum equal to the purchase price stated in the certificate, with interest thereon at the rate of twelve per cent per annum from the date of sale to such redemption. If no redemption shall be made within one year, the treasurer upon demand and surrender of such certificate of purchase, shall execute to the purchaser, his heirs or assigns, a deed of conveyance of the parcel of land described in such certificate, which deed shall convey to the grantee therein named the said land free and clear of all encumbrances, except state, county and municipal taxes, and except any portion of any reclamation assessment remaining unpaid at the date of said sale; each installment whereof may be called and collected as herein provided, except that no parcel sold and conveyed to the district shall thereafter be subject to sale by the treasurer for delinquent installments. Every deed by a county treasurer purporting to be executed under this section shall be prima facie evidence of the truth of the matters therein recited, and of ownership by the grantee of the lands therein described. The treasurer shall credit to the bond fund of the district all money collected by him by sale or otherwise, upon assessments against which bonds shall have been issued, including interest and penalties, and he shall likewise credit to said fund the amounts of purchase money paid in bonds or coupons on sales made for said assessment. The treasurer shall charge to the general fund of the district, or to its bond fund if he has no money to the credit of its general fund, the expense of publication of notices and of recording certificates of sale. Any parcel of land bid in and purchased by a treasurer as aforesaid, as trustee of the bond fund of the district, may be sold and conveyed by him or his successor in office at any time after the expiration of said redemption period of one year, at public or private sale and with or without notice to any person paying him the amount for which said parcel was bid in by said treasurer at delinquent sale, with interest thereon at the rate of seven per cent per annum, compounded yearly, from the date of said delinquent sale, and also the amount of all subsequent installments then delinquent, with accrued interest and penalties thereon. Such payment may be made either in cash or in matured bonds and coupons issued on said assessment, taken at their face value, and the treasurer shall execute a deed to such purchaser upon such sale, conveying said property free of encumbrance except state, county and municipal taxes, and the unpaid balance of said assessment. If any land so held by a county treasurer as trustee of the bond fund of a district shall remain unsold after the final installment of the assessment shall have been collected by pay-

Any balance remaining in such bond fund, after payment in full of the principal and interest of all outstanding bonds of the district, shall be by the treasurer transferred to the general fund of the district.

Balance transferred to general fund.

In the event that ownership of any property in the district is changed after the making of the last assessment roll for the district, the owner thereof shall be entitled to vote thereon upon production of the original or of certified copy of the record thereof in the office of the county recorder of the county in which the property is situate. Any person not legally qualified to vote who shall make any false statement in respect to his right to vote shall incur all of the penalties provided in the Penal Code of the State of California for persons illegally voting at elections.

All bonds hereafter issued under this section or under section three thousand four hundred eighty and one-half shall contain a provision as follows:

Provision for calling in bonds.

“This bond is callable, in the manner provided by law, for payment on only interest-payment date, at its face value plus a premium of two per cent; and whenever, on or after such date, funds are provided for payment, interest hereon shall cease.”

Not less than ninety days before any interest-payment date the trustees, by a two-thirds vote, may adopt an order calling bonds of the district, in any amount, for payment on such date. The order shall specify the maturities of the bonds called, commencing with the earliest maturities. If less than all bonds of any maturity are called then the trustees, by a drawing, shall ascertain the bonds to be called in such maturity and the order shall designate the numbers of the bonds so drawn. A certified copy of the order shall be delivered to the county treasurer and he shall add the principal of said bonds, with a premium of two per cent, to the amount which he is required to collect for payment of the next maturing interest coupons. In his notice of call of assessment the county treasurer shall specify the amount which is included for payment of principal of bonds and premium. Bonds shall be paid in order of presentation.

SEC. 4. Section four of said act approved April 21, 1911, as amended, is hereby amended to read as follows:

SEC. 4. Before ordering any work done, or improvement made, which is authorized by section two of this act, the said

council, or the said board of supervisors, shall pass a resolution of intention so to do and describing the work, which shall be posted conspicuously for two days on or near the chamber door of said council, or board, and published by two insertions in one or more daily, semi-weekly, or weekly newspapers published and circulated in said municipality, and designated by said council, or board, for that purpose. The street superintendent of said municipality, when the resolution is passed by said council, or the county surveyor, when the resolution is passed by said board, shall thereupon cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than one hundred feet in distance apart, but not less than three in all, or when the work to be done is only upon an entire crossing, or any part thereof, in front of each quarter block and irregular block liable to be assessed, notices of the passage of said resolution. Said notice shall be headed "Notice of street work," in letters of not less than one inch in length, and shall, in legible characters, state the fact of the passage of the resolution, its date, and briefly describe the work or improvement proposed, and refer to the resolution for further particulars. He shall also cause a notice, similar in substance, to be published for two days in one or more daily newspapers published and circulated in said municipality, and designated by said council, or board, or in municipalities where there is no daily newspaper, by one insertion in a semi-weekly or weekly newspaper so published, circulated and designated. In case there is no such paper published in said municipality, said notice shall be posted for six days on or near the chamber door of said council, or board, and in two other conspicuous places in said municipality. The owners of a majority of the frontage of the property fronting on said work or improvement, where the same is for one block or more, may make a written objection to the same within ten days after the expiration of the time of the publication and posting of said notice, which objection shall describe the land of each objector and be signed by each objector or his duly authorized agent and shall be delivered to the clerk of the council, or board, who shall indorse thereon the date of its reception by him. Said council, or board, shall at its next meeting, fix a time for hearing said objections not less than one week thereafter. The clerk of said council, or board, shall thereupon notify the persons making such objections, by depositing a notice of the time and place fixed for the hearing of said objections, in the post office of said municipality, postage prepaid, addressed to each objector, or his agent, when he appears for such objector. At the time specified said council, or board, shall hear the objections urged and pass upon the same, and its decision thereon shall be final and conclusive; *provided*, that in all instances where the council, or board, finds and determines that the owners of a majority of the frontage of the property fronting on said proposed work or improvement, have delivered to said clerk written objections as hereinbefore prescribed, against the said work or improve-

ment, such objections shall be a bar for six months to any further proceedings in relation to the doing of said work or the making of said improvement, unless the owners of one-half or more of the frontage as aforesaid shall in the meanwhile petition for the same to be done. At the expiration of twenty days after the expiration of the time of said publication of said notice given by said street superintendent, or county surveyor, and at the expiration of twenty-five days after the advertising and posting, as aforesaid, of any resolution of intention, if no written objection to the work therein described has been delivered, as aforesaid, by the owners of the majority of the frontage of the property fronting on said proposed work or improvement, or if any written objection has been overruled by the said council, or board, the said council, or board, shall be deemed to have acquired jurisdiction to order any of the work to be done, or improvement to be made, which is authorized by this act; which order or resolution, when made, shall be published for two days, the same as provided for the publication of the resolution of intention. Before passing any resolution for the construction of said improvements, plans and specifications and careful estimates of the costs and expenses thereof, shall be furnished said council, or board, if required, by the city engineer of said municipality, or the county surveyor, and for the work of constructing sewers, specifications shall always be furnished by him. Whenever the contemplated work of improvement, in the opinion of the council, or board, is of more than local or ordinary public benefit, or whenever, according to estimate to be furnished by the city engineer, or county surveyor, the total estimated costs and expenses thereof, would exceed one-half of the total assessed value of the lots and lands assessed, if assessed upon the lots or land fronting upon said proposed work or improvement, according to the valuation fixed by the last assessment roll whereon it was assessed for taxes for county purposes, and allowing a reasonable depth from such frontage for lots or lands assessed in bulk, the council, or board, may make the expense of such work or improvement chargeable upon a district, which district may include territory in one or more municipalities and also unincorporated territory, and which district the said council, or board, shall, in its resolution of intention, declare to be the district benefited by said work or improvement, and to be assessed to pay the costs and expenses thereof. The said resolution of intention shall in general terms describe the said district and refer to a plat or map approved by the council, or board, which shall indicate by a boundary line the extent of the territory to be included in said assessment district, which plat or map shall be on file in the office of the city engineer or county surveyor before the publication and posting of the notices of street work, and shall govern for all details as to the extent of the said assessment district. Objections to the extent of the district of lands to be affected or benefited by said work or improvement, and to be assessed to pay the costs and expenses thereof, may be made by interested parties in writing,

within ten days after the expiration of the time of the publication and posting of the notice of the passage of the resolution of intention. The council, or board, shall, at its next meeting, fix the time for hearing said objections, not less than one week thereafter. The clerk thereof shall thereupon notify the persons making such objections by depositing a notice thereof in the post office of said municipality, postage prepaid, addressed to each objector. At the time specified the council, or board, shall hear the objections urged, and pass upon the same, and its decision shall be final and conclusive. If the objections are sustained, all proceedings shall be stopped; but proceedings may be immediately again commenced by giving the notice of intention to do the said work or make said improvements. If the objections are overruled by the council, or board, the proceedings shall continue the same as if such objections had not been made.

Sec. 5. Section thirty-six of said act, approved April 21, 1911, as amended, is hereby amended to read as follows: Stats. 1913, p. 372, amended.

Sec. 36. The provisions of this act shall apply to and authorize the improvement of any street or right of way extending along the boundary line between two municipalities or along the boundary line of any municipality and unincorporated territory, or extending from or through one or more municipalities into or through unincorporated territory. The city council of each municipality and the board of supervisors of the county in which said municipalities are situated, shall have concurrent jurisdiction of all proceedings under this act, to effect the improvement of such streets or rights of way: *provided*, that the council or board of supervisors passing the resolution of intention shall thereafter have exclusive jurisdiction of all work and proceedings covered by said resolution, the same as provided in section three of said act. Improvement of street on boundary line, etc

SECTION 1. Section one thousand five hundred fifty-seven of the Penal Code is hereby amended to read as follows:

Expense of
return of
fugitives to
this state.

When the governor of this state, in the exercise of the authority conferred by section two, article four, of the constitution of the United States, or by the laws of this state, demands from the executive authority of any state of the United States, or of any foreign government, the surrender to the authorities of this state of a fugitive from justice, who has been found and arrested in such state or foreign government, the accounts of the person employed to bring back such fugitive must be audited by the board of control and paid out of the state treasury; *provided, however,* that the state shall not pay the expenses of any such person so employed where the fugitive returned is not so arraigned or placed on trial, but such expense shall be a charge upon the county asking the requisitor; *provided, further,* that when a warrant has issued from a superior court, or the presiding judge thereof, endorsed by the district attorney of the county or city and county for the purpose of extraditing a fugitive from justice who has been found and arrested in any state of the United States or any foreign government, the county auditor shall draw his warrant and the county treasurer shall pay to the person designated to return the fugitive the amount of expenses estimated by the district attorney to be incurred in the return of such fugitive; *provided, further,* that no disbursements shall be made from any such fund so advanced without a receipt being obtained therefor showing the amount, purpose for which said sum was expended, place, date and to whom paid. Such receipts must be filed by such person with the county auditor or state board of control, as the case may be, together with an affidavit by such person that the expenditures represented by said receipts were necessarily made in the performance of duty. In every case where the expenses of such person so employed to bring back such fugitive as herein provided, are less than the amount advanced on the recommendation of the district attorney, such person so employed to bring back such fugitive shall return to the county treasurer the difference in amount between the aggregate amount of receipts so filed by him as herein provided and the amount advanced to such person upon the recommendation of the district attorney.

An act to amend section thirty-four of an act entitled "An act approving the report of the California debris commission transmitted to the speaker of the house of representatives by the secretary of war on June 27, 1911, directing the approval of plans of reclamation along the Sacramento river or its tributaries or upon the swamp lands adjacent to said river, directing the state engineer to procure data and make surveys and examinations for the purpose of perfecting the plans contained in said report of the California debris commission and to make report thereof, making an appropriation to pay the expenses of such examination and surveys, and creating a reclamation board, and defining its powers," approved December 24, 1911, as amended.

[Approved June 2, 1923.]

The people of the State of California do enact as follows:

Stats. 1919,
p 1130,
amended.

SECTION 1. Section thirty-four of an act entitled "An act approving the report of the California debris commission transmitted to the speaker of the house of representatives by the secretary of war on June 27, 1911, directing the approval of plans of reclamation along the Sacramento river or its tributaries or upon the swamp lands adjacent to said river, directing the state engineer to procure data and make surveys and examinations for the purpose of perfecting the plans contained in said report of the California debris commission and to make report thereof, making an appropriation to pay the expenses of such examination and surveys, and creating a reclamation board, and defining its powers," approved December 24, 1911, as amended, is hereby amended to read as follows:

Application
of moneys to
flood control
benefits.

Sec. 34. All moneys which may be hereafter paid to the said reclamation board by the State of California under and by virtue of the provisions of an act entitled "An act to appropriate money to be expended under the direction of and by the reclamation board to aid in carrying out the project adopted by the reclamation board for the Sutter-Butte by-pass assessment number six with such modifications and amendments as may hereafter be adopted by the reclamation board, and to aid in carrying out any work described in the plans of said Sutter-Butte by-pass assessment number six, in conformity with the report of the California debris commission, transmitted to the speaker of the house of representatives of the United States by the secretary of war on the twenty-seventh day of June, 1911, and such modifications and amendments as have been, or may be hereafter adopted by the reclamation board, or by the war department, or the congress of the United States, and providing for the future completion of the entire project," or by any law of similar import which has been or may be hereafter adopted by the legislature of the State of California, shall be applied on said Sutter-Butte by-pass

assessment number six, by said reclamation board, to the pro rata payment of such portions of said assessment as are based upon flood control benefits as set opposite each assessment, in the manner hereinbefore provided; *provided, however*, that if no flood control benefit amount is set opposite any tract of land, the assessment upon such tract of land shall not be entitled to any credit for any of the moneys so received by said reclamation board from said state. In case the amount remaining unpaid, including interest, upon the total of said assessment on any tract of land entitled to such pro rata payment or credit out of the money so received from the state shall be less than such pro rata payment or credit to which such tract is so entitled, then the surplus of such pro rata payment or credit shall be by the reclamation board paid to the owner of such tract in cash out of said money so received from the state and deducted from the amount to be paid over by the reclamation board to the state treasurer as hereinafter directed.

The reclamation board shall prepare and furnish to the several county treasurers a statement of the several amounts so applied to the pro rata payment of such portions of the assessments as are by reason of flood control benefit, and the several county treasurers shall enter such amounts on the original assessment lists as payments or credits on account of the several assessments. In making its calls or orders for the collection of installments on said assessment the percentage to be called and paid shall be calculated upon the original total amount assessed against each tract, but no such call or installment need be paid upon the assessment on any such tract except for the excess of the total of such calls over the total of payments so credited to such tract from application of such money received from the state as aforesaid, or otherwise paid thereon.

Amounts
credited on
assessment
accounts

The money so received by the reclamation board from the state shall, unless bonds based upon said assessment shall have been authorized by law, be by the reclamation board paid over forthwith to the state treasurer and by him credited to the funds of said assessment, to be used and expended in the same manner as funds collected from land owners upon said assessment. But if at the time of the receipt of any such money by the reclamation board from the state, bonds based upon said assessment shall have been authorized by law, the money so received from the state shall be deposited by the reclamation board with the state treasurer to be held as a special fund for the redemption of such bonds and shall, under the direction and as required by the reclamation board, be applied to the payment and cancellation of such bonds in the manner following, to wit:

Disposition
of money
received
from state.

Upon receipt of any sum of money under said act or acts of similar import the said reclamation board shall proceed to advertise, at least once a week for four consecutive weeks, in at least one daily newspaper published in the city and county of San Francisco, and one daily newspaper published in the city of Los Angeles, calling for bids or offers for the

sale to said state reclamation board of sufficient of the issued and outstanding bonds to cover the amount represented by said money so received from said state; *provided, however*, that said reclamation board shall not purchase any bonds at a sum in excess of par plus accrued interest. And if the said reclamation board shall receive bids or offers at par plus accrued interest, or less than par plus accrued interest, then the said reclamation board shall purchase a sufficient amount of said bonds to make up the sum of money so received by them from the state and shall proceed forthwith to cancel said bonds so purchased, together with all interest coupons attached thereto.

Payment
of bonds.

But, if the said reclamation board shall not receive bids or offers of a sufficient amount to cover the money so received from the state, then as to the balance thereof, the said reclamation board shall pay bonds in the order of their numbers, beginning as to the first payment, at bond number one, and continuing in numerical order, in a sufficient amount to cover said first payment, and upon such subsequent payments, shall pay the said bonds according to the next succeeding numbers.

Cancellation
of unsold
bonds.

If, however, bonds based upon said assessment shall have been authorized, but said bonds or any of them, shall not have been sold, upon the receipt of any sum of money under said act or acts of similar import, and thereafter and prior to the sale of said bonds, or any of them, the reclamation board may order the cancellation of such number of said bonds so authorized, but not sold, as will, at par, equal the amount of money then on deposit in the state treasury, which may legally be used for the purpose of canceling such unsold bonds as hereinbefore provided and the total of the bonds to be issued shall be reduced by such amount of the money on deposit in the state treasury, and no bonds shall be sold to an amount in excess of the amount originally authorized, as reduced by the bonds so canceled at par. The land owners shall be credited with an amount equal to the amount of bonds so canceled, said sum to be applied on the Sutter-Butte by-pass assessment number six in the pro rata payment of such portions of said assessment as are based upon flood control benefit set opposite any tract of land in the same manner and to the same extent as hereinbefore provided, so that the total amount credited on said assessment for flood control benefit shall equal the money on deposit in the state treasury. The money on deposit in the state treasury at the time these bonds are so canceled, shall thereupon be credited to a fund entitled "Sacramento-San Joaquin drainage district fund, Sutter-Butte by-pass assessment number six, emergency fund" which fund is hereby created and shall be paid out on warrants of the controller on said fund upon order of the reclamation board, and the controller is hereby directed to issue warrants upon said fund whenever drafts of the reclamation board on said fund shall be presented to him, and the state treasurer

is hereby directed to pay such controller's warrants when there is sufficient money in said fund. The intent of this act is to make said funds available for the immediate use of the reclamation board in contracting for the completion of, Sutter-Butte by-pass project number six, and the reclamation board shall contract on a cash basis for additional work included in said project and assessment, but not yet done, and the pay for which funds are not available, and shall meet the payment on said contract or contracts out of said emergency fund hereby created to the extent thereof and the reclamation board shall provide in the manner now or hereafter prescribed by law therefor any further funds required to complete said work and to pay and discharge the outstanding obligations of said project.

SEC. 2. The legislature hereby declares that it deems it necessary for the immediate preservation of the public health and safety that this act shall go into immediate effect, by reason of the following facts, to wit: That unless sufficient levees included in project number six, but not yet built and to construct which funds are not available, are constructed without delay, the effect will be to overflow and greatly damage a large area of valuable land within the boundaries of project number six and damage levees already constructed, all of which will imperil the property and safety of the inhabitants within said boundaries and the land owners assessed by said assessment number six; that the plans of the state for flood control contemplate the construction of said levees and said assessment number six has been levied for that purpose, but that due to certain unavoidable causes sufficient money is not now available from said assessment to complete said work so that certain land assessed under said assessment has become subject to a lien for said assessment but can not now enjoy any benefit therefrom unless said works are at once completed, and unless at once completed damage will result to the works already done and no funds are now available except as in this act provided to complete said levees without great delay. And it is hereby declared that this act constitutes an urgency measure which under the provisions of section one of article four of the constitution of the State of California shall go into immediate effect.

Emergency
Declared.

This act shall take effect immediately.

Sufficient lands may be reserved from any such cemetery lands from which the human remains have been removed to erect a memorial mausoleum or columbarium for the depositing of the bodies disinterred from such cemetery lands and to provide sufficient grounds around the same and to preserve such historical vaults or monuments as the board of directors or other governing body of any such cemetery corporation or association may determine to be proper or necessary, providing the board of supervisors or other governing body of the incorporated city or city and county in which the lands are situated shall approve such use of the reserved lands.

Such order shall be obtained upon petition of said cemetery corporation, and any member of said corporation may support or oppose the granting of the order by affidavit or otherwise. Before making the order, proof must be made to the satisfaction of the court that notice of the application for leave to transfer such funds has been given by publication in such manner and for such time as the court has directed, and that it is for the best interests of the said cemetery corporation that such transfer be made.

SEC. 16. In the disinterment, transportation and removal of human remains made under the provisions of this act, it shall not be necessary for the cemetery corporation, association, corporation sole or other person owning or controlling such cemetery, to obtain from the board of health or health officer of the city, city and county or town where such cemetery lands are located, a separate permit for the disinterment, transportation or removal of the remains of each person so disinterred, transported or removed, but such disinterment, transportation and removal of such human remains shall be made subject to such reasonable rules and regulations relative to the manner of disinterring, transporting or removing such remains as may be adopted by the board of health or health officer of

CHAPTER 313.

An act to require owners of forest lands to provide a fire patrol therefor.

[Approved June 6, 1923.]

The people of the State of California do enact as follows:

Owners of
forest lands
to maintain
fire patrols.

SECTION 1. Every owner of forest land except redwood forest lands in the State of California shall furnish or provide a sufficient and adequate fire patrol therefor during the season of the year when there is danger of forest fires, which patrol shall meet with the approval of the state board of forestry.

"Adequate
fire patrol"
defined.

SEC. 2. For the purpose of this act a sufficient and adequate fire patrol shall be construed to mean one equal to that maintained by forest owners in this state who have entered into cooperative fire protection agreements with the state board of forestry under the provisions of chapter 176, statutes 1919, or who have entered into an agreement with the forest service of the United States department of agriculture, or equal to that maintained by owners of fifty per cent or more of forest land in the same locality, or under similar conditions in other localities, who are in good faith protecting their lands against fire.

SEC. 3. In the event that any owner or owners shall fail or neglect to provide such fire patrol except in cases where

in the judgment of the state board of forestry such patrol is unnecessary then the state forester shall under the direction of the state board of forestry provide the same at a cost not to exceed three cents per acre per annum; *provided*, that when in times and localities of unusual hazard, adequate protection of forest areas demands expenditures in excess of three cents per acre, the state forester with the approval of the state board of forestry, may, after thorough investigation of the need thereof, authorize and approve expense sufficient properly to safeguard the timber resources, but amounts so approved shall not exceed the actual cost of the work performed. Any amounts so paid or contracted to be paid by the state forester in providing adequate patrol for the said land shall be due and payable immediately to the state forester who shall deposit such amounts in the state treasury to the credit of the "state board of forestry fire prevention fund" hereinafter created. Any amount remaining unpaid for a period of thirty days shall become a lien upon the property protected in pursuance of this act. Notice of such lien shall be filed and recorded in the office of the county recorder of the county in which the said property is situated within thirty days after said lien has accrued and a copy of said notice of lien shall be mailed to the person or persons who appear of record to be the owners of any mortgage, trust deed, lien, contract, option, bond or other encumbrances to said property at the last known place of residence of said encumbrancer and if the place of residence of said encumbrancer be unknown to the state forester, then such fact shall be stated in said copy so mailed and it shall be addressed to the county seat of the county wherein said property is situated. Such lien shall take precedence over and shall be paramount to all mortgages, trust deeds, liens, contracts, options, bonds or other encumbrances upon the land, excepting only the lien of taxes. If such sum secured by such lien be not paid within eighty days from the filing of such notice of lien then there shall be added to the same and secured by such lien a penalty of fifteen per cent on the amount of such lien. An action to foreclose such lien shall be commenced within eighty days after the filing and recording of said notice of lien, which action shall be brought in the proper court by the district attorney of the county in the name, and for the benefit of the state board of forestry, and when the property is sold, enough of the proceeds shall be paid into the treasury of the State of California and therein deposited in a fund to be known as the "state board of forestry fire prevention fund" which fund is hereby created, to satisfy the lien and costs. The overplus, if there be any, shall be paid to the owner of the property if he be known, and if not, into the court for his use when ascertained.

By the second Monday of October in each year the state forester shall have prepared a list of all sums due to the state, and upon request of any forest landowner shall then render a statement of any sums from him so due, and upon further

request such owner shall be granted a hearing before the state board of forestry concerning any activity of the said board or the state forester affecting his property or costs charged thereto for protection. On the hearing, any interested person may appear and be heard. The board may take testimony or authorize it to be taken by any judicial officer of the county; and it may adjourn the hearing from time to time. The decision of the board upon any such matters shall be final and conclusive.

Use of fire prevention fund.

All moneys in the said "state board of forestry fire prevention fund" are hereby appropriated to the use of the state forester for the purpose of carrying out the provisions of this act and shall be paid out of said fund upon warrant of the state controller based upon claims to be filed by the state forester approved by the state board of control.

"Forest land" defined.

SEC. 4. For the purpose of this act any land shall be considered forest land which has enough forest growth standing or down or has sufficient inflammable forest debris to constitute, in the judgment of the state board of forestry, a fire menace to itself or adjoining land.

Owners of certain lands excepted.

SEC. 5. The owner or owners of any land coming under the provisions of this act who shall reside within one and one-half miles of the further limits of said land, shall be considered by virtue of said residence to maintain a sufficient fire patrol and shall not be compelled to maintain any additional patrol on said lands.

In counties of the sixth class, the recorder shall be entitled to the actual cost incurred by him for the transcribing of all papers, documents and records in his office, not to exceed seven cents (7c) per folio for each paper or document so transcribed; *provided*, that said recorder shall file monthly, with the county auditor, sworn statements showing in detail the persons and the amounts paid to each for such transcribing.

There now are in the possession and custody of recorders of the counties of the class hereinabove mentioned, a vast number of papers and documents constituting the sole evidence of ownership of, or interest in, real and personal property of great value, which papers and documents said recorders are unable to copy or transcribe at length into the proper books of record, except after prolonged and unusual delay; that the work of copying and transcribing said papers and documents is becoming constantly and daily

more congested and that the mass of uncopied and untranscribed papers and documents is steadily increasing, thereby entailing great risk of the mutilation, destruction, disappearance and loss of such papers and documents, and thereby jeopardizing the rights of owners of, or claimants to, such property, and of their evidence or proof of ownership of, or interest in, the same, to the extent that the entire basis and foundation of ownership of, or claim to, such real and personal property is rendered uncertain, unsafe, insecure and hazardous.
