Applicants without qualifications.

Fifth—To grant life diplomas authorizing the holders to serve for life in the public schools in the capacities specified in said diplomas. The county board of education, after such hearing, shall report to the state board of education its findings and a summary of the evidence and shall make a definite recommendation concerning the revocation or suspension of such life diploma or other teachers' credential or document. Upon receipt of a copy of such findings, summary of evidence and recommendation, the state board of education may suspend or revoke such life diploma or other teachers' credential or document for the causes hereinbefore stated, or order the charges dismissed.

The state board is authorized to assign to the commission of credentials such other duties relating to life diplomas, certificates, certification, and accrediting of institutions for purposes of certification, as it may see fit.

Upon retirement, voluntary or involuntary, such teacher shall be entitled to receive during the period of such disability, an annual retirement salary, payable in installments quarterly by warrant drawn as provided in section eight of this act, which shall be the same fraction of the maximum retirement salary of five hundred dollars as said teacher's time of service in the public schools of this state is of thirty years; *provided*, that such retirement salary shall in no case begin to accrue until the date when formal application for the same is received in the office of the public school teachers' retirement salary fund board; *and provided, further*, that application for such salary be made within two years after the last month of service. All teachers who had been out of the public school service of this state on August 10, 1913, for two years or more, not being on leave of absence, and were therefore not eligible to apply for retirement without further teaching, shall, if they return to the teaching service in this state and seek to qualify for retirement, be required to teach at least two years in order to establish their status as teachers subject to the provisions of this act.

If it shall be brought to the attention of the insurance commissioner or if written charges be filed with him showing that any agent licensed hereunder has wilfully misstated any material fact in his application, or that the purpose of applying for such license was to avoid or prevent the operation or enforcement of any antirebate law or any insurance law of this state, or that such agent licensed hereunder conducts his business in a dishonest manner or misrepresents the policies or contracts he sells or misrepresents the policies or contracts of other agents or companies or other insurers, or is incapable, or is conducting his business in such a manner as to cause injury to the public or those dealing with him, or if said agent or other person licensed hereunder obtained his license in an unfair manner or by concealment or misrepresentation, then the insurance commissioner shall give notice to such agent licensed hereunder and cite him to appear before the insurance commissioner and show cause why his license as an insurance or surety agent or other person licensed hereunder should not be suspended or revoked. CHAPTER 356.

An act to amend section six hundred thirty-three b, of the Political Code, concerning insurance and surety companies, agents and brokers, requiring that policies or contracts of insurance, or surety bonds shall show the correct premium consideration and the risks insured thereunder; prohibiting the giving or receiving of rebates on insurance or surety bonds and providing penalty therefor, and for the suspension of certificate of authority of any insurance or surety company and the revoking or suspension of the license of any agent or broker violating the same, and prescribing the powers and duties of the insurance commissioner in relation thereto and providing a penalty for misrepresenting the pay roll upon which an insurance premium is based or for accepting a pay roll, which is known to be false, upon which a premium is based, and restricting the time of credit for the payment of premiums.

[Approved June 14, 1923.]

The people of the State of California do enact as follows:

SECTION 1. Section six hundred thirty-three b of the Political Code is hereby amended to read as follows:

Policy must contain true statement of premium and risk.

633b. No insurance or surety company or society or other insurer, nor any agent thereof, shall insure any risk in this state, nor shall any agent or broker assist in arranging any such insurance, the policy or contract for which does not contain a true and correct statement of the premium consideration paid or to be paid therefor, and of the risk covered for such premium consideration; *provided, however*, that if the insurance be of a character where the exact premium is only determinable upon the termination of the policy or contract, such policy or contract must contain a true and correct statement of the basis and rates upon which the said final premium or consideration is to be determined and paid, and of the risk covered for such premium consideration.

Covering notes.

This section shall not be construed to prohibit the use of covering notes to temporarily bind insurance or surety bonds pending the issuance of the policy or contract; *provided*, that for every such covering note so used, within ninety days thereafter a policy or contract shall be issued in lieu thereof, including within its terms the identical insurance protected under said covering note and premium consideration paid or to be paid therefor.

Rebates prohibited.

No insurance or surety company or society or other insurer, by itself or by any other party, and no agent, or insurance broker, or other person licensed under this title, personally

or by any other party, shall offer, promise, allow, give, set off or pay, directly or indirectly, as an inducement to insurance on any risk in this state, now or hereafter to be written, any rebate of or part of the premium payable on the policy or contract of insurance or surety bond, or of the agent's or broker's commission thereon; nor shall any such company, or society, or other insurer, agent, or broker, or other person licensed under this title, personally or otherwise, offer, promise, allow, give, set off, or pay, directly or indirectly as an inducement to such insurance, any earnings, profits, dividends, or other benefit, founded, arising, accruing, or to accrue, on such insurance or surety bond, or therefrom, or any other valuable consideration which is not clearly specified, promised or provided for in the policy or contract of insurance, or in the application for such surety bond.

Any person or party named as the insured in any policy or named as the principal, or obligee, in any surety bond or their agents or representatives who shall, directly or indirectly, knowingly accept or receive any such rebate from the premium specified in a policy or in the application for a surety bond shall be guilty of a violation of this section and shall be punishable therefor as follows: Penalty.

Any employer who, himself, or knowingly through one employed by him, shall obtain or receive or agree to obtain or receive a rebate by wilfully misrepresenting the amount or segregation of pay roll upon which the premium under a compensation or other casualty form of policy is to be based, shall be guilty of a misdemeanor and be liable to the state in ten (10) times the amount of the difference in premium paid and the amount the employer should have paid had his pay roll been correctly computed, and the liability to the state under this section shall be enforced by a civil action in the name of the insurance commissioner and shall be collected by the commissioner. Any person or party who shall in any other manner knowingly receive or obtain a rebate of premium shall be guilty of a misdemeanor and shall, upon conviction, be fined three (3) times the amount of such rebate for each offense or be imprisoned in the county jail for a period of not exceeding thirty (30) days or both. Obtaining or receiving rebates

Nothing in this section shall be construed to prevent an insurer, issuing policies on a participating plan, from returning any portion of the premium as a dividend after the expiration of the term covered by such policy; *provided*, that a life insurance company issuing policies on a participating plan may return any portion of the premium as a dividend at any time.

Nothing in this section shall be construed to prohibit any insurance or surety company or society or other insurer, or agent for such company or society or other insurer, or broker or other person licensed under this title, from paying commission to another company, society, insurer, agent, or insurance broker, or other person licensed under this title, nor shall this section be construed to prohibit any marine insurance company, agent, or broker or other person licensed under this title, Commission.

Discount on marine insurance.

from allowing any insured, such usual discount as is sanctioned by custom among marine insurers as being additional to the agent's or broker's commission, but this exemption shall in no wise operate to relieve marine insurance in any other respect from the full operation of this section.

The paying or allowing of any commission or other valuable consideration on insurance or surety business or risks in this state to other than an insurance or surety company or other insurer authorized to transact an insurance or surety business under the laws of this state or to an insurance or surety agent or insurance broker or other person licensed under this title shall be a violation of this section.

Agent's
commission
on own
insurance.

This section, except as heretofore specifically provided, shall not be construed to prevent any insurance or surety company or other insurer from paying to another insurance or surety company or other insurer, or to an agent or broker, or other person licensed under this title, or to prevent any insurance or surety company or other insurer or such an agent or broker, or other person licensed under this title, from receiving a commission in respect to any policy under which it, itself, or he, himself, is insured.

This section shall not be construed to prevent any life insurance company paying, or contract holders receiving special compensations, or allowing and receiving credits already agreed upon in contracts now in force.

The acceptance, by an insurance company, society or other insurer, through one employed by it in a managerial capacity, of a statement, known to be materially false, of the amount or segregation of pay roll upon which the premium under a compensation or other casualty form is to be based, shall be a violation of this section.

Credit
without
interest.

The allowing of credit, without interest at current rates extending the time of paying premiums beyond sixty days after the end of the month in which an insurance policy or surety bond (but not covering notes) becomes effective shall be construed as a rebate under this section; except, however, in cases where the policy or bond is not delivered within fifty (50) days after the end of the month in which it becomes effective, in which case there may be a credit without interest for ten (10) days after the end of the month in which delivery of such policy or bond is made, and also, except in cases where, by the terms of the policy or bond, the premium or any part

thereof is not due when the policy or bond becomes effective, in which case a credit of sixty (60) days without interest may be allowed after the end of the month in which the premium becomes due.

If the premium be paid by the insured named in a policy or the principal or obligee, named in a surety bond to an agent or broker authorized to receive same, within the time required herein, such payment shall be deemed a compliance with the provisions of this section by such insured named in a policy or the principal or obligee named in a surety bond.

Every insurance company or society or other insurer shall be charged with full responsibility to exercise reasonable diligence for the observance of this section by its agents and it shall be unlawful for any insurance or surety company or other insurer to appoint as its agent any person, firm or corporation, or the employee or nominee of said person, firm, or corporation, for the purpose of enabling such person, firm or corporation to obtain a policy or contract of insurance at a cost less than that specified in any policy or contract of insurance issued to such person, firm or corporation, or at a cost less than that specified in any application for any surety bond issued in behalf of such person, firm or corporation.

Responsibility of company.

Any officer or employee of any insurance or surety company or society, or other insurer, or any agent or broker, or any officer or employee of such agent or broker who violates any of the provisions of this section shall be guilty of a misdemeanor. Upon it being proven to the insurance commissioner after a hearing upon reasonable notice to the accused of the time and place of such hearing that any insurance or surety company or society or other insurer shall knowingly have violated any of the provisions of this act, or shall knowingly have permitted any officer, managerial agent, or managerial employee, to violate any of the provisions of this act, he shall have authority to suspend the certificate of authority of such insurance or surety company or society or other insurer to do the kind of business in which the violation of the provisions of this act occurred.

The people of the State of California do enact as follows:

SECTION 1. Section one hundred sixty-four of the Civil Code is hereby amended to read as follows:

Community
property.

164. All other property acquired after marriage by either husband or wife, or both, including real property situated in this state, and personal property wherever situated, heretofore or hereafter acquired while domiciled elsewhere, which would not have been the separate property of either if acquired while domiciled in this state, is community property; but whenever any property is conveyed to a married woman by an instrument in writing, the presumption is that the title is thereby vested in her as her separate property. And in case the conveyance is to such married woman and to her husband, or to her and any other person, the presumption is that the married woman takes the part conveyed to her, as tenant in common, unless a different intention is expressed in the instrument, and the presumption in this section mentioned is conclusive in favor of a purchaser or encumbrancer in good faith and for a valuable consideration. And in cases where a married woman has conveyed, or shall hereafter convey, real property which she acquired prior to May nineteenth, one thousand eight hundred eighty-nine, the husband, or his heirs or assigns, of such married woman, shall be barred from commencing or maintaining any action to show that said real property was community property, or to recover said real property, as follows: As to conveyances heretofore made, from and after one year from the date of the taking effect of this act; and as to conveyances hereafter made, from and after one year from the filing for record in the recorder's office of such conveyances, respectively.

In filing briefs on said appeal the parties must, however, print in their briefs, or in a supplement appended thereto, such portions of the record as they desire to call to the attention of the court.

The court may in all cases, upon good cause shown, extend time to a party to print and file his brief, provided that the application is made before calling of the calendar for oral argument on the appeal or upon good cause being shown the court may extend time to a party to print and file a supplemental brief.

proceedings be claimed, in the sum of one hundred dollars plus a sum equal to twice the amount of the judgment, including costs, when the judgment is for the payment of money; or plus twice the value of the property including costs, when the judgment is for the recovery of specific personal property; and must be conditioned, when the action is for the recovery of money, that the appellant will pay the amount of the judgment appealed from, and all costs, if the appeal be withdrawn or dismissed, or the amount of any judgment and all costs that may be recovered against him in the action in the superior court. When the action is for the recovery of or to enforce or foreclose a lien on specific personal property, the undertaking must be conditioned that the appellant will pay the judgment and costs appealed from, and obey the order of the court made therein, if the appeal be withdrawn or dismissed, or any judgment and costs that may be recovered against him in said action in the superior court, and will obey any order made by the court therein. When the judgment appealed from directs the delivery of possession of real property, the execution of the same can not be stayed unless a written undertaking be executed on the part of the appellant, with two or more sureties, to the effect that during the possession of such property by the appellant, he will not commit, or suffer to be committed any waste thereon, and that if the appeal be dismissed or withdrawn, or the judgment affirmed, or judgment be recovered against him in the action in the superior court, he will pay the value of the use and occupation of the property from the time of the appeal until the delivery of possession thereof; or that he will pay any judgment and costs that may be recovered against him in said action in the superior court, not exceeding a sum to be fixed by the justice of the court from which the appeal is taken, and which sum must be specified in the undertaking. A deposit of the sum of one hundred dollars plus the amount of the judgment, including all cost appealed from, or plus the value of the property, including all costs, in actions for the recovery of specific personal property, with the justice or judge, is equivalent to the filing of the undertaking, and in such cases, the justice or judge must transmit the money to the clerk of the superior court, to be by him paid out on the order of the court.

A motion for judgment notwithstanding such verdict may also be made in the alternative form, asking therefor and reserving, if that be denied, the right to apply for a new trial. If the motion for a directed verdict or for judgment notwithstanding the verdict be denied, the trial court on motion for new trial or the appellate court on appeal from the judgment may order judgment to be so entered when it appears from the whole evidence that a verdict should have been so directed at the trial; and when the motion is made in the alternative form, the court may also so order on appeal from the other denying such motion for judgment notwithstanding the verdict, whether a new trial was granted or denied.

963. An appeal may be taken from a superior court in the following cases:

1. From a final judgment entered in an action, or special proceeding, commenced in a superior court, or brought into a superior court from another court;

2. From an order granting a new trial or denying a motion for judgment notwithstanding the verdict in an action or proceeding tried by a jury where such trial by jury is a matter of right, or granting or dissolving an injunction, or refusing to grant or dissolve an injunction, or appointing a receiver, or dissolving or refusing to dissolve an attachment, or changing or refusing to change the place of trial, from any special order made after final judgment, from any interlocutory judgment, order, or decree, hereafter made or entered in actions to redeem real or personal property from a mortgage thereof, or lien thereon, determining such right to redeem and directing an accounting; and from such interlocutory judgment in actions for partition as determines the rights and interests of the respective parties and directs partition to be made, and interlocutory decrees of divorce.

3. From a judgment or order granting or refusing to grant, revoking or refusing to revoke, letters testamentary, or of administration, or of guardianship; or admitting or refusing to admit a will to probate, or against or in favor of the validity of a will, or revoking or refusing to revoke the probate thereof; or against or in favor of setting apart property, or making an allowance for a widow or child; or against or in favor of directing the partition, sale or conveyance of real property, or settling an account of an executor, administrator or guardian, or refusing, allowing or directing the distribution or partition of an estate, or any part thereof, or the payment

of a debt, claim, or legacy, or distributive share; or confirming or refusing to confirm a report of an appraiser or appraisers setting apart a homestead; from an order, judgment or decree fixing inheritance tax or determining that no inheritance tax is due.

The board shall also have power to maintain actions in the name of the people of the State of California to restrain the doing of any act or thing

that may be injurious to any of the works necessary to said plan of flood control or that may interfere with the successful execution of said plan or for damages for injury thereto, and any damages so recovered shall be deposited with the state treasurer to the credit of said district and shall be applicable to the payment of warrants against any assessment for the particular portion or project affected by such injury; to establish a standard of levee construction; to do any and all things necessary or incident to the powers hereby granted or to carry out the objects specified herein; to maintain actions in the name of the people of the State of California to compel by injunction the owner or owners of any bridge, trestle, wire line, viaduct, or embankment or other structure which shall be intersected, traversed or crossed by any by-pass, drainage canal, or overflow channel, so to construct or alter the same as to offer a minimum of obstruction to the free flow of water through any such by-pass, drainage canal, or overflow channel, and wherever necessary in the case of existing works, to compel the removal or alteration of any such embankment or other structure; to maintain actions in the name of the people of the State of California to restrain the diversion of the waters of any stream that will increase the flow of water in said Sacramento or San Joaquin rivers or their tributaries, and such diversion of the waters of any stream into said rivers or either of them or any of their tributaries, is hereby declared to be a public nuisance which may be prevented or abated by the reclamation board; to dispose, by sale, exchange, in payment for work done or services rendered, or for any other purpose which the reclamation board might deem advisable, of any land, property, material, equipment, or any other thing in the possession of the Sacramento and San Joaquin drainage district, which, in the opinion of the reclamation board, is no longer needed for the purposes of flood control works or other necessary or convenient purposes.

In case any land, right of way or easement is or shall be needed for any work of channel excavation, enlargement, rectification or control, or for the construction of any weir, which is a part of the plans to be carried out as contemplated by this act, and which is to be done or constructed in whole or in part by the United States or by the State of California and it is or shall be necessary or be required by the United States or by the State of California before doing such work or constructing such weir, that such land, right of way or easement be conveyed to or provided for the use of the United States or the State of California free of cost, the reclamation board shall have power to acquire such land, right of way or easement and cause the same to be conveyed to the United States or to the State of California free of cost, or to be condemned for the use and in the name of the United States or the State of California in the manner provided by the laws of this state or of the United States, and to pay the cost and expense of acquiring such land, right of way or easement out of the funds of any assessment by said board applicable

Plans and
estimates.

SEC. 2. Section thirteen of said act, approved December 24, 1911, as amended, is hereby amended to read as follows:

SEC. 13. Whenever in the opinion of the reclamation board it shall be necessary to levy an assessment upon any lands within said drainage district for any of the purposes herein specified, including the expenses of bonding said assessment if authorized by law, other than an assessment to pay the costs and expenses necessary for the maintenance, repair and operation of its existing works of reclamation and flood control, and the costs and expenses necessary for the completion, maintenance and operation of any project adopted by said board prior to April 1, 1923, said board shall adopt plans therefor and shall make careful estimates of the costs and expenses thereof. The plans to be carried out shall be divided by said board into separate portions or projects in such manner as will in its judgment best facilitate the levying of assessments for each particular portion or project in a just and equitable manner according to benefits upon the lands in said district affected by such portion or project; *provided, however,* that each separate and particular project or unit shall include all by-passes, cuts, canals, sumps, levees, pumping plants and other works of flood control and drainage as shall be necessary by reason of the carrying out and construction of the particular project, to properly conduct the water of any stream, natural or otherwise, the outlet of which has been intercepted by the construction of any levee or embankment included in such project or unit into such by-pass.

Said board shall enter in the minutes of the board a resolution to the effect that the execution of each such separate portion or project which they may determine upon is a public necessity. Each such particular portion or project shall be

designated by the board in such resolution by name and number. All assessments, plans and funds intended for or connected with the execution of each particular portion or project shall be designated by such name and number and shall be kept separate and shall be used only for the purpose of carrying out such particular portion or project. Thereafter the board shall appoint three assessors who shall be disinterested persons, and shall have no interest in any real estate within said drainage district, and each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real estate within said district, directly or indirectly, and that he will perform the duties of an assessor to the best of his ability. Said assessors shall be exempt from the provisions of the civil service laws of this state. After said assessors have examined the plan or plans of the works contemplated and the estimates of the cost, they shall make a preliminary report to the reclamation board indicating the exterior boundaries of the lands that in their opinion will be benefited by the expenditures. The assessors shall then appoint a time and place in each county in which any of said lands proposed to be assessed are situated, when and where they will hear objections to the said report and also evidence concerning the manner in which said assessment should be apportioned. They shall give notice of such hearing in each of such counties by publication in a newspaper published in such county once a week for three weeks, the first publication to be not later than the twenty-first day before the day of hearing, which notice shall contain a general designation of the lands which will in their opinion be so benefited, as aforesaid, and shall refer to said preliminary report on file in the office of the reclamation board for such exterior boundaries. Said assessors, may amend, modify or change the exterior boundaries of the lands that, in their opinion, will be benefited by such expenditures.

If, within six months after the completion of said hearings there is filed with the board, written consent to such contemplated project, signed and acknowledged by the owners of land representing sixty-six per cent of the value of the land excluding improvements within the district, as described in the preliminary report of said appraisers, or as modified thereafter, as such value is shown by the last preceding county tax assessment roll of the county in which said land is situate, and also written consent to such contemplated project, signed and acknowledged by sixty-six per cent of the owners of land within said district as described in said preliminary report, or as modified thereafter, the board shall cause an assessment to be levied in the manner and form hereinafter provided

Consent to
project.

Said assessors must assess upon the lands within said drainage district proposed to be assessed for the plans adopted by the reclamation board the said sums included in the estimates of said board, and shall apportion the same according to the benefits that will accrue to each tract of land in said

district, respectively, affected by any particular portion or project by reason of the expenditure of said sums of money.

In determining the benefits that will or may accrue to each particular tract of land by the construction or maintenance of the works contemplated by any particular project or unit, the works of such project or unit shall be considered as a whole and lands shall be assessed for the works embraced in such project or unit only in the proportion that they will or may be benefited by the construction of the entire works embraced in the said project or unit, and no lands shall be considered as benefited by the construction or maintenance of the works embraced in such project or unit, or any part or portion thereof, nor shall any lands be assessed for the expense of the construction or maintenance of such project or unit or any part or portion thereof, because such lands have been or may be first endangered or flooded, or the natural drainage thereof obstructed by the construction or maintenance of any part or portion of the works embraced in such project or unit in advance of or prior to the completion of the construction of the entire works embraced in such project or unit.

Assessment
list.

Said assessors shall make a separate list of the lands so assessed in each county, which list shall contain a description of the tracts of land assessed by swamp land surveys, legal subdivisions, or other boundaries or references sufficient to identify the same, the name of the owner, if known, or if unknown, that fact, and the amount of the charge assessed against each tract. The name of the owner of land which is or is supposed to be the property of the estate of a deceased person in course of administration may be stated as estate of (such person, naming him), deceased. When there are two or more owners or supposed owners of any tract of land, partly known and partly unknown, the assessment may be to such known owner or owners by name and to other owners unknown. No mistake in the name of the owner, or supposed owner, of any real estate shall invalidate the assessment. In the assessment list for any county the assessors may make use of any abbreviation in common use in that county, without explanation thereof. The assessors may also in the assessment list for any county make use of other abbreviations, provided a schedule and explanation thereof with reasonable certainty shall, unless printed on each page of such assessment list, be prefixed to said assessment list and a reference thereto written, printed or stamped on each page of said assessment list whereon any such abbreviation is used. In case any land shall in the assessment list for any county be described in whole or in part by reference to a map, plat or survey, which map, plat or survey shall be on file or of record in any public office, it shall be sufficient in such description to designate such map, plat or survey by name, number or other designation sufficient to identify the same in a schedule of such maps, plats and surveys, which schedule shall be prefixed to said assessment list and shall set forth with reasonable certainty where each such map, plat or survey may be found, and shall be referred

to by a reference written, printed or stamped on each page of said assessment list whereon such method of description is relied upon. The assessors appointed for any assessment may also prepare or cause to be prepared a map or maps of the whole or any part or parts of the lands to be assessed with sufficient detail to indicate thereon and identify the several tracts of lands to be separately assessed or any of them, each of which such separate tracts shall be designated on such map or maps by a distinctive number. Each of such maps shall be inscribed and designated as "reclamation board assessment map No. --," giving each map a distinctive number. Any such map may consist of any number of sheets attached together and designated as one map. Such map or maps when approved by the reclamation board, shall be certified by the secretary of said board as having been so approved, and shall be filed for record in the office of the county recorder of the county wherein the land indicated on such map or maps is situated. Thereupon and thereafter, for the purpose of said assessment, or of any future assessment levied by said reclamation board, the assessment list for any county may, for the description of any tract of land so indicated on any such map, refer to such map and to the number by which such tract is designated on such map, and such reference, if used for that purpose, shall be a sufficient description of such tract for the purposes of such assessment list, and for the purposes of the notice of delinquent sale, certificate of sale and deed in pursuance of such sale, and all other proceedings under this act based upon such assessment. No provision of any other statute of this state relative to the filing or recording of maps in the office of the county recorder shall apply to the maps in this section referred to; *provided, however,* that the maps herein referred to shall have no legal effect for any purpose except for the convenient reference to and description of the tract of land indicated thereon for the purposes of description of such tracts of land by reference thereto in the matter of assessments levied by the reclamation board and acts and proceedings based thereon as herein provided. No fee shall be charged by any such county recorder for the filing for record of such map as in this section provided. Said lists when completed shall be filed with the secretary of the board and said secretary shall forward to the county treasurer of each county in which any lands so assessed are situated, the assessment list for such county, and the same shall be open for inspection by the public for at least sixty days. The compensation of said assessors shall be fixed and allowed by the board. The reclamation board shall appoint a time and place not less than sixty days after said list has been filed with the county treasurer when and where it will meet in each county wherein any of the lands so assessed are situated for the purpose of hearing objections to said assessments, and notice of such hearing in each county shall be filed with the county treasurer and published once a week for four weeks in some newspaper published in such county. At any time before or during such hearing any

person interested in any land upon which any charge has been assessed, may file in the office of the reclamation board or with any member thereof, written objections to such assessment, stating the grounds of such objections, which said statement shall be verified by the affidavit of such person or some other person who is familiar with the facts. At such hearing, the board shall hear such evidence as may be offered touching the correctness of such assessment or the manner of its apportionment, and may modify or amend the same, and may reapportion all or any part of the entire assessment. Unless the aggregate amount of the whole of such assessment shall be modified or amended by the reclamation board so as to cause a difference of more than two and one-half per cent greater or less than the original total amount of said assessment, it shall be deemed that the assessment has not been substantially modified and no necessity shall exist for a reapportionment thereof.

Notice of reapportionment.

If said assessment shall be reapportioned the board shall give two weeks notice as before and proceed to hear objections in each county affected, as before, and shall then reconsider said assessment and make an order approving said assessment as finally fixed; and the decision of said board shall be final, and thereafter said assessment list shall be conclusive evidence, except in the suit hereinafter provided, that the said assessment has been levied and apportioned according to law. Any person interested, as aforesaid, in any land upon which any charge has been so assessed, aggrieved by the decision of the board approving said assessment, may commence an action against the district in the superior court of the county in which said land or the greater part thereof is situated, to have said assessment upon such land modified or annulled. Such action must be commenced within sixty days after the reclamation board has approved such assessment and the assessment list for such county has been deposited in the office of the county treasurer as provided in the next section, and shall have preference over all civil actions in fixing the time of trial.

Special assessment on annexed territory.

Whenever an assessment has been levied by the reclamation board upon lands in said district for general administrative expenses and other expenses not pertaining to any particular project, and the boundaries of said district have been or shall be extended so as to include lands other than the lands included within said district at the time such assessment was levied, the reclamation board shall make an estimate of the fair and equitable amount which should be contributed by the lands so included in the district by such change of boundaries for the purposes of such assessment previously levied by said board for general administrative expenses and other expenses not pertaining to any particular project, and shall levy and cause to be assessed, equalized and collected in the manner in this act provided, an assessment to the amount of such estimate upon lands so included in the district by such change of boundaries, according to benefits in the manner in this act provided.

In the event that consent in writing be not filed in the manner and at the time hereinbefore provided, no further expenditures for said project shall be made, nor shall any obligations be incurred therefor; *provided, however,* that the board may cause an assessment to be levied in the manner hereinbefore provided for the purpose of paying the necessary engineering and other expenses in preparing the plans for said project, in making the preliminary report of said assessors and in holding the hearings thereon.

Effect of nonconsent.

SEC. 3. Section fourteen of said act, approved December 24, 1911, as amended, is hereby amended to read as follows:

Stats. 1915, p. 1318, amended.

Sec. 14. After the reclamation board has held the hearings in each county pursuant to section thirteen of this act and the assessment lists have been made to conform with its decision, said lists shall be certified by the secretary of the board to be correct, and shall thereupon be filed in the offices of the county treasurers, respectively, of the several counties in which are situated any of the lands assessed thereby. Each such county treasurer shall endorse thereon the date and time to the hour and minute when the same was so filed in his office; and thereafter from that time such assessment shall constitute a lien upon the lands so assessed in such county, and shall impart notice to all subsequent purchasers or incumbrancers or any person acquiring any interest in or lien upon said lands. The assessment shall then be paid to the respective county treasurers in one or more installments of such amounts, and at such times, respectively, as the board, from time to time, in its discretion, may, by order entered in its minutes, direct.

Assessment becomes lien on land.

At the time within thirty days after said assessment list has been so filed in the office of the county treasurer as provided above, the whole amount of such assessment upon any tract of land therein separately assessed may be paid in cash to the county treasurer and thereupon the county treasurer shall issue his receipt therefor and shall endorse the fact and date of such payment upon the assessment list, and thereupon the lien of such assessment upon such tract of land shall cease. No interest shall be charged on any assessment paid in full within this thirty-day period. All assessments not paid in full within said period of thirty days shall bear interest at the rate of seven per cent per annum from and after the time when the assessment list is filed in the office of the county treasurer for collection. The remaining portion not yet ordered paid by said board of the assessment upon any tract of land may be voluntarily paid in full, with the accrued interest thereon, at any time after the lien of such assessment has accrued.

When payable

If any installment shall remain unpaid at the expiration of thirty days from the date of the board order calling said installment, then said installment shall become delinquent, together with accrued interest thereon to date of delinquency. When any such installment shall become delinquent, a penalty of one dollar, together with ten per cent of the amount of such installment plus interest, shall be added thereto and col-

lected for the use of the district; *provided*, that if any action is pending in any court to have the assessment on any tract of land reviewed, modified or annulled, as provided herein, such assessment, if not annulled in said action, may, in the discretion of the board, become delinquent thirty days after any judgment rendered therein shall become final. From date of delinquency until time of delinquent sale, such unpaid installment, together with added interest and penalty, shall bear interest at the rate of seven per cent per annum.

Notice of delinquency and sale.

After the said installment has become delinquent, the board, when it shall deem it advisable, shall publish in each county where such delinquencies exist, at least once a week for two weeks in some newspaper of general circulation published in the said county, a list in one notice of all said delinquencies in such county which notice shall contain a description of the property assessed as described in the assessment list or by other descriptions sufficient to identify the same, the name of the owner to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact, the amount of the delinquent installment, interest and penalty as above provided, and a further notice that each of said parcels will be sold at public auction by said county treasurer in front of the court house of said county at a specified day and hour, to pay said installment with accrued interest and the penalty, together with its proportion of the total cost of publication of said notice of sale.

Sale.

At the time and place stated in said notice, or such other time to which said sale may have been postponed, the county treasurer shall sell each parcel of land described in said notice to the highest bidder for gold coin of the United States unless prior thereto he shall have received payment in full of said delinquent installment, interest, penalty and cost of publication. If not completed on the first day the sale may be continued from day to day and over Sundays and legal holidays until completed. No license shall be required of the county treasurer for conducting such sale. No bid for any parcel shall be accepted which is less than the aggregate sum then due for said installment thereon, together with accrued interest, penalty and cost of publication. If no bid is made for any parcel at such delinquent sale which is equal to the total amount then due thereon, the county treasurer shall bid in and sell said parcel to the said Sacramento and San Joaquin drainage district for the amount of said delinquent installment or installments, together with accrued interest, penalty and cost of publication.

Certificate of sale.

The county treasurer shall execute to each purchaser at such delinquent sale including said drainage district, a certificate of such sale, which certificate of sale shall be recorded by said purchaser in the county recorder's office of said county. Out of the proceeds of said sales the county treasurer shall transmit to the state treasurer the total amount then due on the property so sold as shown in said notice, and shall pay to the owner of said property any surplus remaining after such pay-

ment to the state treasurer. The county treasurer shall, when directed by the reclamation board, postpone the said delinquent sale from time to time for not less than ten nor more than thirty days by a written notice posted at or near the place of sale, which written notice shall be substantially as follows: The sale of property for delinquent assessment under (name and number of assessment) of the Sacramento and San Joaquin drainage district, which was fixed for (time and place of sale) has been postponed to (time to which postponed) at the same place.

Any person interested in any tract of land sold at such delinquent sale may redeem the same at any time within one year after the date of sale by paying to the county treasurer for such purchaser a sum equal to the purchase price stated in the certificate of sale with interest thereon at the rate of twelve per cent per annum from the date of sale to the date of such redemption, together with the amount remaining due and unpaid of any installment upon any assessment on said land under the reclamation board act, with the penalty prescribed above for such other delinquencies. If no redemption shall be made within one year the reclamation board upon demand and the surrender of such certificate of purchase and the delivery of a certificate of the county treasurer that no redemption has been made within such year from date of sale, shall execute to the purchaser, his heirs or assigns, a deed of conveyance of the parcel of land described in such certificate, which deed shall convey to the grantee therein named the said land free and clear of all encumbrances except state, county and municipal taxes, assessments levied or assessed by statutory authority, and the unpaid balance of said or any assessment made by said drainage district, which said balance must be called in and collected in the same manner as other assessments, except that no parcel sold and conveyed to the Sacramento and San Joaquin drainage district shall thereafter, until redeemed or until sold and disposed of by the reclamation board, be subject to sale by the treasurer for subsequent installments of the said or any assessment as in this act provided.

Each deed by the reclamation board purporting to be executed under this act shall be prima facie evidence of the truth of the matters therein recited and of ownership by grantee of the lands therein described. All deeds herein required to be executed by the reclamation board may be executed by the president and secretary thereof on behalf of said board. Any parcel of land bid in and purchased by the Sacramento and San Joaquin drainage district at such delinquent sale shall be held in trust for the assessment under which the same was sold and may be sold and conveyed by said reclamation board or their successors in office at any time after the expiration of said redemption period of one year at public or private sale and with or without notice, to any person paying not less than the amount for which said parcel was bid in by said county treasurer at such delinquent sale for said drainage district,

with interest thereon at the rate of twelve per cent per annum compounded yearly from the date of such delinquent sale, and also the amount of all subsequent installments or other assessments then delinquent, with accrued interest and penalties thereon.

Payment for the land so purchased shall be made in gold coin of the United States, and the reclamation board shall execute a deed to such purchaser at such sale conveying said property, free of all encumbrances except state, county and other municipal taxes, assessments levied or assessed by statutory authority and the unpaid balance of all assessments of said drainage district, which balance must be called in and collected in the same manner as other assessments. If any lands so held by said drainage district remain unsold then the reclamation board shall sell all such lands so held by said drainage district at public auction to the highest bidder for cash, upon two weeks published notice substantially in the manner provided for notice upon above delinquent sales, and shall execute to the purchaser a conveyance, which deed shall convey title to the land as above prescribed. The proceeds of such sale shall be deposited with the state treasurer to the credit of the assessment under which the property became delinquent.

Expense.

No county or public officer shall charge or receive any fee for any of the services required to be performed by him under the provisions of this act; but any reasonable and necessary expense actually incurred by any officer in carrying out any of the provisions of this act relating in any manner to the collection or enforcement of any assessment, shall be paid out of the funds of said drainage district applicable thereto.

SEC. 17. The reclamation board shall have power to promote the construction, completion, maintenance and repair of levees along all rivers, streams, overflow channels and basins and by-passes where, in the opinion of the board, such levees are insufficient or necessary for the purpose of the plans for flood control to be carried out by said board under this act.

Notice of
intention.

Whenever any such levee is in the opinion of said board insufficient or necessary for the purpose aforesaid, the reclamation board shall give notice, by publication in the manner hereinafter provided, that such levee is insufficient or necessary, and that it is the intention of said board to construct, repair or complete such levee and pay the cost thereof out of an assessment levied or to be levied and assessed upon the lands within said drainage district directly or indirectly benefited by such levee. Such notice shall be signed in the name of the reclamation board by its president and secretary and shall be published once a week for three weeks in some newspaper published in the county wherein such levee or the greater part thereof is situated or is to be constructed, and the giving of such notice by publication shall be deemed completed on the twenty-first

day after the first publication thereof. Any land owner or owners, and any reclamation district, drainage district, levee district, municipal corporation or other organization or association authorized by law to construct, repair or complete such levee shall have thirty days after completion of the giving of such notice by publication as aforesaid within which to apply to said reclamation board for leave to construct, repair or complete such levee, which application shall be in writing and signed by such applicants or their respective executors, administrators, guardians, trustees or duly constituted and authorized officers, and filed in the office of the reclamation board; and in case such application be filed within thirty days, as aforesaid, such applicants shall have sixty days after the filing of such application, or such further time as said reclamation board may by order entered in its minutes allow, within which to present to said reclamation board their plans and specifications for the construction, repair or completion of such levee, and obtain the approval by said board of such plans and specifications, and to commence the work. Each such application for leave to construct, repair or complete such levee shall designate the name and postoffice address of at least one and not more than three of the applicants signing the same as the person or persons to whom any notice or communication may be addressed by the reclamation board in the matter of such application. In case there shall be two or more such applications filed in the office of the reclamation board within said period of thirty days last above mentioned the reclamation board may determine which of such applications shall be recognized and may reject the others. Any such levee constructed or work done by such applicants as hereinbefore provided, pursuant to such notice from the reclamation board and according to plans and specifications approved by said board, shall be considered as constructed or done with the permission of said board within the meaning of section eighteen of this act. If such application shall not be filed in the office of said reclamation board for permission to do such work, as aforesaid, within thirty days after completion of the giving of such notice by publication, or if such applicants shall fail to present to said board and obtain its approval of such plans and specifications and to commence the work as aforesaid, within said period of sixty days or such further time as the board may allow, or shall fail to complete such work with reasonable diligence after the same shall have been so commenced, the reclamation board shall thereupon be and is hereby empowered to proceed with the construction, repair or completion of such work, and to pay the cost thereof by assessment upon the lands within said drainage district directly or indirectly benefited by such levee according to such benefits, as in this act provided, which assessment may be either an assessment specially levied and assessed for that purpose, or any assessment levied and assessed by said board and applicable to the payment of such work. CHAPTER 379.

An act to amend section twenty-seven of the "workmen's compensation, insurance and safety act of 1917," as approved May 23, 1917, as amended, by removing limitations of time for employee to file claim where a settlement agreement has not been approved by the industrial accident commission.

[Approved June 15, 1923.]

The people of the State of California do enact as follows:

Stats. 1917, p. 837, amended.

SECTION 1. Section twenty-seven of the "workmen's compensation, insurance and safety act of 1917," approved May 23, 1917, as amended, is hereby amended to read as follows:

Sec. 27. (a) No contract, rule or regulation shall exempt the employer from liability for the compensation fixed by this act, but nothing in this act contained shall be construed as impairing the right of the parties interested to compromise, subject to the provisions herein contained, any liability which may be claimed to exist under this act on account of such injury or death, or as conferring upon the dependents of any injured employee any interest which such employee may not divert by such compromise or for which he, or his estate, shall, in the event of such compromise by him, be accountable to such dependents or any of them. Right to compromise.

(b) The compensation herein provided shall be the measure of the responsibility which the employer has assumed for injuries or death that may occur to employees in his employment when subject to the provisions of this act, and no release of liability or compromise agreement shall be valid unless it provide for the payment of full compensation in accordance with the provisions of this act or unless it shall be approved by the commission. Valid release or compromise agreement.

(c) A copy of such release or compromise agreement signed by both parties shall forthwith be filed with the commission. When such release or compromise agreement is filed with the commission and approved by it, the commission may of its own motion, or on the application of either party, without notice, enter its award based upon such release or compromise agreement. Award based on release or compromise agreement.

(d) Every such release or compromise agreement shall be in writing, duly executed and attested by two disinterested witnesses, and shall specify the date of the accident, the average weekly wages of the employee, determined according to section twelve hereof, the nature of the disability, whether total or partial, permanent or temporary, the amount paid or due and unpaid to the employee up to the date of the release or agreement or death, as the case may be, and, if any, the amount of the payment or benefits then or thereafter to be made, and the length of time that such payment is to continue. SECTION 1. Section fifty of an act entitled "An act to provide for the organization of the railroad commission, to define its powers and duties and the rights, remedies, powers and duties of public utilities and their offices, and the rights and remedies of patrons of public utilities, and to provide penalties for offenses by public utilities, their officers, agents and employees and by other persons and corporations, creating the 'railroad commission fund' and appropriating the moneys therein to carry out the provisions of this act and repealing title fifteen of part four of division first of the Civil Code and all acts and parts of acts inconsistent with the provisions of this act," approved April 23, 1915, as amended, is hereby amended to read as follows:

New construction only after commission's certificate.

Sec. 50. (a) No railroad corporation whose railroad is operated primarily by electric energy, street railroad corporation, gas corporation, electrical corporation, telegraph corporation, telephone corporation or water corporation shall henceforth begin the construction of a street railroad, or of a line, plant, or system, or of any extension of such street railroad or line, plant, or system, without having first obtained from the commission a certificate that the present or future public convenience and necessity require or will require such construction; *provided*, that this section shall not be construed to require any such corporation to secure such certificate for an extension within any city and county, or city or town within which it shall have theretofore lawfully commenced operations, or for an extension into territory either within or without a city and county, or city or town, contiguous to its street railroad, or line, plant, or system, and not theretofore served by a public utility of like character, or for an extension within or to territory already served by it, necessary in the ordinary course of its business; *and provided*,

further, that if any public utility, in constructing or extending its line, plant, or system, shall interfere or be about to interfere with the operation of the line, plant, or system of any other public utility, already constructed, the commission, on complaint of the public utility claiming to be injuriously affected, may, after hearing, make such order and prescribe such terms and conditions for the location of the lines, plants, or systems affected as to it may seem just and reasonable.

(b) No public utility of a class specified in subsection (a) hereof shall henceforth exercise any right or privilege under any franchise or permit hereafter granted, or under any franchise or permit heretofore granted but not heretofore actually exercised, or the exercise of which has been suspended for more than one year, without first having obtained from the commission a certificate that public convenience and necessity require the exercise of such right or privilege; *provided*, that when the commission shall find, after hearing, that a public utility has heretofore begun actual construction work and is prosecuting such work, in good faith, uninterruptedly and with reasonable diligence in proportion to the magnitude of the undertaking, under any franchise or permit heretofore granted but not heretofore actually exercised, such public utility may proceed, under such rules and regulations as the commission may prescribe, to the completion of such work, and may, after such completion, exercise such right or privilege; *and provided*, *further*, that this section shall not be construed to validate any right or privilege now invalid or hereafter becoming invalid under any law of this state.

(c) Before any certificate may issue, under this section, a certified copy of its articles of incorporation or charter, if the applicant be a corporation, shall be filed in the office of the commission. Every applicant for a certificate shall file in the office of the commission such evidence as shall be required by the commission to show that such applicant has received the required consent, franchise or permit of the proper county, city and county, municipal or other public authority. When a complaint has been filed with the commission alleging that a public utility of the class specified in subsection (a) of this section is engaged or is about to engage in construction work without having secured from the commission a certificate of public convenience and necessity as required by the provisions of this section, the commission shall have power, with or without notice, to make its order requiring the public utility complained of to cease and desist from such construction until the commission makes and files its decision on said complaint or until the further order of the commission. The commission shall have power, after hearing, to issue said certificate, as prayed for, or to refuse to issue the same, or to issue it for the construction of a portion only of the contemplated street railroad, line, plant or system, or extension thereof, or for the partial exercise only of said right

or privilege, and may attach to the exercise of the rights granted by said certificate such terms and conditions, including provisions for the acquisition by the public of such franchise or permit and all rights acquired thereunder and all works constructed or maintained by authority thereof, as in its judgment the public convenience and necessity may require. If a public utility desires to exercise a right or privilege under a franchise or permit which it contemplates securing, but which has not as yet been granted to it, such public utility may apply to the commission for an order preliminary to the issue of the certificate. The commission may thereupon make an order declaring that it will thereafter, upon application, under such rules and regulations as it may prescribe, issue the desired certificate, upon such terms and conditions as it may designate, after the public utility has obtained the contemplated franchise or permit. Upon the presentation to the commission of evidence satisfactory to it that such franchise or permit has been secured by such public utility, the commission shall thereupon issue such certificate.

Vessels not to be operated without commission's certificate.

(d) No corporation or person, their lessees, trustees, receivers or trustees appointed by any court whatsoever, shall hereafter operate or cause to be operated, any vessel between points exclusively on the inland waters of this state, without first having obtained from the railroad commission a certificate declaring that present or future public convenience and necessity require or will require, such operation, but no such certificate shall be required of any corporation or person which is actually operating vessels in good faith, at the time this act becomes effective, between points exclusively on the inland waters of this state under tariffs and schedules of such corporations or persons, lawfully on file with the railroad commission.

Every applicant for a certificate shall file in the office of the commission, application and evidence in such form as shall be required by the commission, and the commission shall have power, after hearing, to issue said certificate, as prayed for, or to refuse to issue the same, or to issue it for operation between certain points only.

When a complaint has been filed with the commission alleging that any vessel is being operated without a certificate of public necessity and convenience, as required by the provisions of this subsection, the commission shall have the power, with or without notice, to make its order requiring the corporation, or person, their lessees, trustees, receivers or trustees appointed by any court whatsoever, operating or managing such vessel, to cease and desist from such operation, until the commission makes and files its decision on said complaint, or until further order of the commission.

State's reserved power over utilities.

(e) The legislature hereby declares that the provisions of this section are being enacted under the state's reserved power over public utilities or corporations, or both, as the case may be, for the purpose of acting on the right of the grantee of a

public utility franchise granted by a county, city and county or incorporated city or town, to exercise rights thereunder, and not for the purpose of acting on the right of any city and county or incorporated city or town to grant any such franchise. The legislature hereby declares that the provisions of this section shall be and remain in full force and effect concurrently with the right of any city and county or incorporated city or town to grant franchises for public utilities upon the terms and conditions and in the manner prescribed by law.

No allotment sold under the provisions of this act shall, voluntarily or involuntarily, by operation of law or otherwise, be transferred, assigned, encumbered, leased, let or sublet, in whole or in part, without the written consent of the board, until the purchaser has paid therefor in full and has complied with all the terms and conditions of his contract of purchase; *provided, that*, when a purchaser dies, indebted to the board under contract of purchase, his rights acquired under this act and such contract shall devolve upon his heirs, devisees or personal representatives, pursuant to the laws of the State of California, but subject to all rights, claims and charges of the board. Default on the part of such heir, devisee or personal representative, with respect to any right, claim or charge of the board shall have the same effect as would default on the part of the purchaser but for his death.

SEC. 18. Section twenty of said act is hereby amended to read as follows:

Sec. 20. In the event of a failure of a purchaser to comply with any of the terms of his contract of purchase and agreement with the board, the state and the board shall have the right at its option to cancel such contract of purchase and agreement, and thereupon shall be released from all obligations, at law or in equity, to convey the property, and the purchaser shall forfeit all right thereto and all payments theretofore made shall be deemed to be rental paid for occupancy. Upon such forfeiture, the board shall take possession of the property covered by such contract of purchase, and shall remove all persons and the personal property therefrom without any liability whatsoever on the part of the board or of any official or employee thereof for any damage or injury caused by or incident to said entry or removal.

The board may require of the purchaser such mortgage or deed of trust or other instrument as may be necessary under the terms and conditions of the contract of purchase in order to adequately protect and secure the board. There may be included in such contract of purchase, mortgage, deed of trust or other instrument any conditions with reference to sale of the property or reconveyance back to the board or notice of

such sale or reconveyance as may in the discretion of the board be required to be so included in such contract of purchase, mortgage, deed of trust or other instrument, in order to so adequately protect the said board in the premises.

Failure
to cancel.

The failure of the board or of the state to exercise any option to cancel or other privilege under the contract of purchase for any default shall not be deemed a waiver of the right to exercise the option to cancel, or other privilege under the contract of purchase for any other default on the part of the purchaser. But no forfeiture so occasioned by default on the part of the purchaser shall be deemed in any way, or to any extent, to impair the lien and security of the mortgage or trust instrument securing any loan that the board may have made as is in this act provided.

property.

In the event of a forfeiture of a contract of purchase under the provisions of this act, the board may sell, or otherwise dispose of, or lease or let, the property covered by the forfeited contract of purchase, to such person or persons, and upon such terms and conditions as it deems proper.

In such event the board shall have a first lien upon said crop or crops for all moneys expended under this section and may sell such crop or crops so harvested. Out of the proceeds of such sale or sales the board may reimburse itself for any expense which it may have incurred in the cultivation of the land, the harvesting of crops and the sale thereof, and retain any moneys due to the board from the purchaser, and the balance, if any, shall be paid by the board to the purchaser.

Each appraisalment shall be verified by the maker thereof, which verification shall state, among other things, that it is made in good faith, and that the valuation is honestly determined and represents the bona fide opinion of the maker.

Upon such forfeiture, the board shall take possession of the property covered by such contract of purchase, and shall remove all persons and personal property therefrom without any liability whatsoever on the part of the board or of any official or employee thereof for any damage or injury caused by or incident to said entry or removal. The failure of the board to exercise any option to cancel or other privilege under the contract of purchase for any default shall not be deemed a waiver of the right to exercise the option to cancel, or other privilege under the contract of purchase for any other default on the part of the purchaser.

Sale of
reverted
property.

In the event of a forfeiture of a contract of purchase under the provisions of this act, the board may sell or otherwise dispose of the property covered by the forfeited contract of purchase, to such person or persons, and upon such terms and conditions as it deems proper.

The board may, in the contract of purchase between it and a veteran purchaser, provide that in the event of default by such purchaser and forfeiture of his rights under said contract and subsequent sale of the property by the board, it may, in its discretion pay to him the net gain, if any, realized by the board upon such subsequent sale. The board shall be the sole judge of said net gain.

Sec. 19. If the board of directors recommends that said project be carried out in accordance with the plans and specifications in its said report contained and if within sixty days after the filing of said report in the office of the state engineer there shall be presented to and filed with said state engineer a

petition signed by the owners of more than fifteen per cent of the total assessed valuation of the land in the district requesting that an election be held to ascertain whether such recommendation of the board of directors shall be adopted, the state engineer shall immediately give notice of such an election, which election shall be held and conducted and the result thereof determined and declared in all respects as provided in section eighteen of this act, and if the result of such election shows a majority of all votes cast are "Completion of project—No" the project shall be deemed abandoned and proceedings shall be thereafter taken as provided in said section eighteen in case of abandonment, but if no petition shall be filed as aforesaid or if an election be held and the majority of the votes cast thereat are "Completion of project—Yes" then the state engineer shall forthwith appoint three commissioners whose duty it shall be to assess the cost of the project, upon the benefited lands within the district which shall be done, and the said cost shall be apportioned in accordance with the benefits that will accrue to each tract of land held in separate ownership in said district by reason of the expenditures of said sums of money, and the completion of the project, such assessment to be in gold coin of the United States; *provided, however,* that where any such tract of land consists of more than one section such apportionment to such tract of land shall be made according to legal subdivisions thereof or to other boundaries sufficient to identify the same in subdivisions not greater than one section in area, but any failure or defect in complying with this requirement shall not invalidate said apportionment or said assessment. One of said commissioners shall be a civil engineer and one shall have a practical knowledge of irrigation, and none of said commissioners shall have any interest in any land in the district either directly or indirectly, and each commissioner before entering upon his duties shall take and subscribe an oath that he is not in any manner interested directly or indirectly in any land in the district and that he will perform the duties of commissioner to the best of his ability, and said commissioners shall be paid as compensation for the services rendered by them such sum, or sums, as the state engineer shall fix and determine, which shall be considered a part of the cost of the project, and said state engineer may issue warrants therefor, which shall be payable out of the funds of said district and may be included in any bond issue authorized for the purposes of said district. The said commissioners shall receive from the board of directors of the district the detailed plans, specifications, and estimate of the costs of the project, which have theretofore been duly approved by the state engineer. The said commissioners shall thereupon prepare and certify to the state engineer in triplicate rolls which shall contain:

Election.

Commissioners to assess cost of project.

Triplicate rolls: contents of.

(1) A description of each tract assessed held in separate ownership by legal subdivisions, governmental surveys, or other boundaries sufficient to identify the same;

- (2) The number of acres in each tract;
- (3) The name and address of the owner of each tract, if known, and if unknown, that fact, but no mistake or error in the name of the owner or supposed owner of the property assessed, and no mistake in any other particular, shall render the assessment thereof invalid;
- (4) The rate per acre of such assessment upon said tract;
- (5) The total amount of the assessment as computed;
- (6) Any other statement which may be required by the state engineer and as to which notice is given in writing to the commissioners at the time of transmitting the plans and specifications and costs of the work for the district beforementioned.

Rolls for
lands in
different
counties.

The rolls shall be separately made for lands lying within different counties contained within said district. Said rolls when completed shall be accompanied by the written report of the commissioners wherein is set out with particularity the exact nature and quantum of the benefits so assessed, both in respect of the right in and to stored surplus waters, and the right to store water in the reservoir or reservoirs of the district, apportioned and allocated to each such tract of land in said district and also through any drainage or reclamation work connected therewith. In such report lands embraced within a comprehensive area or a political subdivision of the state may be referred to generally as lands lying within such area or subdivision without further description.

In the event of the conveyance of a part of a tract of land in said district and in the absence of any provisions in the instrument conveying the same, said lands so conveyed shall be deemed to share ratably in the benefits apportioned to the entire tract.

Adjustment
board to
equalize
assessments.

Said rolls when completed shall be duly certified by said commissioners and forthwith by them filed in the office of the state engineer. Said state engineer shall forthwith transmit two copies of said rolls to the board of directors of said district, who shall file one copy in their records and thereupon transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county. Thereafter the executive directors and the president of the board of directors of the water storage district in which the lands described in said rolls are situated shall become and constitute a board, in the nature of a board of equalization, which shall be known and designated as the "adjustment board" and whose functions shall be to consider and act upon objections, if any, presented as herein provided to the assessment made by said commissioners. For that purpose said adjustment board shall at once organize by the election from its members of a president and a secretary and shall thereupon appoint times and places not less than thirty days after said rolls have been filed in the records of said board of directors when and where it will meet within each county wherein lands of said district are situated for the purpose of hearing objections to said assessments, and notice of such hearing shall be

published at least once a week for two successive weeks in each county in which any land within said district may be situate. Said objections, if any, must be in writing verified and filed with the state engineer, and shall set forth the grounds of such objections. Such verification shall be made by the affidavit of the objector or some other person who is familiar with the facts. Said adjustment board may postpone such hearings from time to time. At such hearings the adjustment board shall hear such evidence as may be offered touching the correctness of such assessment, and may modify, amend, or approve the said assessment in any particular and may reapportion the whole or any part thereof; *provided, however*, that no assessment shall be increased except after personal notice or notice by registered mail given to the owner if known by depositing in the postoffice at the place in which the office of said district is located in a sealed envelope addressed to each of such owners at his last known, if any, place of residence or business otherwise at the county seat of the county in which any portion of his lands are situated, with full postage paid, at least two weeks before said hearing, or if unknown by publication at least once a week for two successive weeks in the county in which said land in the district may be located, and upon a hearing of objections thereto if made.

Said adjustment board, after said hearings, must make an order approving such assessment as finally fixed or modified, which order shall be filed with and entered in the records of the state engineer, and the apportionment and determination of said adjustment board shall be final and conclusive, and no action or defense shall ever be maintained attacking the same in any respect. Two copies of said assessment roll as finally fixed and approved by the adjustment board shall be forthwith certified by the secretary of such adjustment board and transmitted to the board of directors of the said district, who shall file one copy in their records and thereupon immediately transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county, together with a copy of the order of approval of such assessment roll by said adjustment board. Thereafter said assessment roll shall be conclusive evidence before any court or tribunal that said assessment has been made and levied according to law.

When the board of directors shall file with the county treasurer of a county within such district the said assessment list or roll as finally approved as hereinbefore provided the charges assessed thereby upon the several tracts of land within the county shall constitute a lien thereon which shall be prior to all other liens except state, county, and municipal taxes, and assessments or taxes levied or assessed by or under statutory authority, and shall impart notice thereof to all persons. Where bonds of such district have been issued upon any such assessment no act or conduct on the part of such board of directors, or any officer herein mentioned, shall invalidate any

SEC. 7a. Section twenty-one of said act is hereby amended to read as follows:

Unpaid assessments.

Sec. 21. At the end of thirty days the treasurer must make return to the board of directors of the district of all assessments paid. All unpaid assessments shall bear interest at the rate of seven per cent per annum. Thereafter all unpaid assessments and accrued interest shall be collected when and as called, and paid to the treasurer of the county or counties, who shall collect and hold such moneys to the credit of the district. Unless bonds shall have been authorized as hereinafter provided, all such payments shall be made in such amounts or installments and at such times respectively as the said board, from time to time, in its discretion, by order entered in its minutes, may direct. Upon making any order fixing and calling such installment or amount, the secretary shall also enter in the minutes of the board, and certify to each county treasurer for signature and mailing or publication in the counties in which any lands within the district are situated a notice in substantially the following form:

Order fixing amount and time of installment.

NAME: (Name) water storage district. (Location of the principal place of business.) Notice is hereby given that, at a meeting of the board of directors held on----- an installment of ----- per cent of assessment number ----- was ordered paid within sixty days from the date thereof to the respective county treasurers of the counties wherein lands of such districts are situate. Any installment which shall remain unpaid on the (day fixed) will be delinquent, together with the accrued interest thereon, with ten per cent of such installment and interest added as penalty.

(Signed)-----
Treasurer of-----County.

Such notice must be sent through the mail, addressed to each owner of land in the district at his place of residence if known or entered upon the assessment roll of the district, and if not known, at the place where the principal office of the district is situated, or in lieu thereof such notice shall be published once a week for two successive weeks in each such county.

Installment becomes delinquent when.

If any such installment shall remain unpaid at the expiration of said sixty days from the date of the order, then the said installment of said assessment shall become delinquent, together with the accrued interest thereon and a penalty of ten per cent of the amount of said installment and interest shall be added thereto and collected for the use of the district.

Notice of sale for delinquent installment.

Immediately after the said installment has become delinquent the said county treasurer or county treasurers must publish once a week for two successive weeks in each county wherein lands of the district are situate, in one notice a list of all delinquencies in such county, which notice shall contain a description of the property assessed, the name of the person to whom it is assessed or a statement that it is assessed to

unknown owners, if such is the fact, the amount then due on said property, and a notice that the property assessed will be sold on the date therein stated in front of the courthouse of said county to pay the amount then due on said property. The date of said sale shall not be less than ten days after the date of the last publication of said notice. At the time stated in said notice, or such other time to which said sale may have been postponed, the county treasurer must sell said property to the highest bidder for gold coin of the United States. Out of the proceeds of said sale the county treasurer must deposit the amount due on said property as shown in said notice to the proper fund of the said district. The county treasurer must pay to the owner of said property any surplus remaining after said deposit to the credit of the district, after first deducting any expense of sale. Except where bonds have been issued upon an assessment the board of directors may direct the county treasurer to postpone said sale from time to time for not less than ten nor more than thirty days at one time, by a written notice posted at the place of sale.

If no bid is made for said property equal to the amount due thereon, it must be struck off to the district for the said amount so due. A certificate of such sale shall be executed by the county treasurer to the purchaser, or to the district if the property shall have been struck off to the district, and this certificate of sale shall be recorded in the office of the county recorder of said county. Any person interested in said property may redeem the same at any time within three years after the date of said sale, by paying to the county treasurer the amount for which the said property was sold, and interest on the said sum at the rate of two per cent per month from the date of said sale, which amount shall be credited to the proper fund of said district.

If no redemption shall be made within said three years, the purchaser or the district, if the property shall have been sold to the district, shall be entitled to a deed executed by the county treasurer or his successor in office, and the effect of such deed shall be to convey said property free and clear of all liens and incumbrances, except state, county and municipal taxes, assessments or taxes levied or assessed by or under statutory authority and any water storage district assessment or portion thereof remaining unpaid at the date of said sale, each installment whereof may be called and collected as herein provided. The board of directors may sell such property sold to the district at any time at public auction after notice given for the same period and in the same manner as is herein provided for sale of delinquent assessments, but not for a sum less than the amount for which said property was sold, with interest at seven per cent per annum, and the deed executed in pursuance of such sale shall convey said property free of all incumbrances except as herein above provided for said deed by the county treasurer.

Sec. 24. Whenever in any water storage district any assessment has been levied and assessed upon the lands of said district and remains unpaid in whole or in part, and, in the judgment and opinion of the board of directors of said district, it shall be for the best interest of the district or the landowners therein to issue bonds for the purpose of obtaining money to pay the costs of the proposed project, the indebtedness of the district, or any other lawful charge, or when a petition signed by the owners of more than one-fourth of the total acreage of the assessed land in the district requesting it is filed with the secretary of said board, the board of directors of such district shall by order entered upon the records of said board order a special election to be held in said district, at which special election shall be submitted to the owners of assessed land in said district the question whether or not bonds of said district shall be issued in an amount equal to the amount of such assessment, or the part of such assessment remaining unpaid, which said amount shall be entered by said board of directors in its records and stated by them in the order for such special election.

Qualifica-

voters.

The notice of such special election must state in addition to other statements required to be made therein, the aggregate face value of bonds proposed to be issued. Only owners of lands which have been assessed as provided herein shall be qualified to vote at such election. Said bonds shall be of the denomination of not less than one hundred dollars nor more than one thousand dollars each; they shall be signed by the president of the board of directors of the district and attested by the treasurer of said district, and shall be numbered consecutively in order of their maturity, and shall bear interest at a rate not to exceed six and one-half per cent per annum payable semi-annually on the first day of January and the first day of July in each year at the office of said treasurer, and at any other place within the United States which may be designated by said board, upon the presentation of the proper coupons therefor. Coupons for each installment of interest shall be attached to said bonds and shall bear the facsimile signature of the treasurer of said district. he will sell a specified amount of said bonds, and stating the day, hour, and place of such sale, and asking sealed proposals for the purchase of said bonds, or any part thereof. At the time appointed said treasurer shall open the bids and award the bonds to the highest responsible bidder. The treasurer upon written request of a majority of the directors must reject any or all bids. Any party not in default may have the right to appeal to the supreme court within thirty days after the entry of judgment. Judgment for the plaintiff in such proceedings shall be considered as a judgment in rem and shall be conclusive against said district and against all lands therein, and all owners thereof and other interested persons.

Action to determine legality of bonds.

the county treasury of the county from which the same arose to the credit of the bond fund of such water storage district, and shall be used exclusively for the payment of principal and interest of said bonds issued on such assessment.

Certification
of bonds as
legal
investments.

Whenever the board of directors shall by resolution declare that it deems it desirable that any contemplated or outstanding bonds of a water storage district organized under this act, including any bonds of such district authorized but not sold, shall be made available for the purpose provided for in section seven of an act of the legislature of the State of California entitled "An act relating to bonds of irrigation districts, providing under what circumstances such bonds shall be legal investments for funds of banks, insurance companies, and trust companies, trust funds, state school funds and any money or funds which may now or hereafter be invested in bonds of cities, cities and counties, counties, school districts or municipalities, and providing under what circumstances the use of bonds of irrigation districts as security for the performance of any act may be authorized," approved June 13, 1913, as amended, the said board of directors shall thereupon file a certified copy of such resolution with the commission created by, and provided for in, said act of June 13, 1913, which commission, and the state controller in connection therewith, are hereby given the same power and authority in respect of the investigation and certification of bonds issued under this act as is given to them in respect of the investigation and certification of irrigation district bonds by said act, as amended, except as the same may be limited by, or inconsistent with, any provision of this act, and bonds of water storage districts provided for in this act which have been so investigated and certified and by authority of such investigation and certification are declared to be legal investments for the purposes stated in said act of June 13, 1913, as amended, may be lawfully purchased, or received in pledge for loans by savings banks, trust companies, insurance companies, guardians, executors, administrators, and special administrators, or by any public officer or officers of this state or of any county, city, or city and county, or other municipal or corporate body within this state having or holding funds which they are allowed by law to invest or loan; *provided, however*, that where said irrigation district bond commission has passed upon one issue of bonds of districts formed hereunder, that all subsequent issues of said districts shall be submitted to said commission as in said act provided.

Supple-
mental
assessment
to pay
principal
and interest.

The lien of any unpaid assessment upon which bonds shall have been issued shall continue until all said bonds shall have been paid in full, and if for any reason any part of the principal or interest of said bonds shall remain unpaid after enforcement of said assessment as in this act provided, the board of directors shall order an additional or supplemental assessment to be made as provided in this act sufficient to pay such unpaid principal and interest; which additional or sup-

plemental assessment shall be enforced and collected in the same manner as the original assessment.

If any district having authorized the issuance of a series of bonds shall issue an additional series of bonds based on another assessment, the dates of maturity of such additional series of bonds shall be such that the latest maturities thereof shall not exceed fifty years and the earliest maturity of bonds of such additional series shall be later than the latest maturity of bonds of any earlier series. All provisions of this section relative to the original issue of bonds shall apply to such additional series of bonds.

Maturity of additional bonds.

Upon a sale of any of the bonds provided herein the treasurer of the district is hereby authorized to accept in payment for said bonds, either in whole or in part, outstanding warrants of such district at their face value, together with the accrued interest thereon.

Where bonds of the district have been authorized to be issued on such assessments all unpaid assessments shall bear interest at the rate of seven per cent per annum from the date of the bonds issued thereon until such bonds shall have been fully paid and discharged, and the interest due at any time on said unpaid assessments may be called without calling any installment of the said assessment. The word installment as used in this section shall be construed as applying to interest as well as to principal as the case may be.

Interest on unpaid assessments.

At least ninety days before any interest date of the bonds, the treasurer of the district shall certify to the county treasurer of each county in which lands of the district are situated an estimate of the amount of money and the percentage of the assessment together with the interest thereon, or only of the interest, necessary to pay interest and principal or the interest maturing on such interest date after crediting thereon the funds in the treasury applicable to the payment thereof to be collected by such county treasurer, and shall add thereto fifteen per cent of such aggregate sum to cover possible delinquencies, and each said county treasurer shall thereupon cause to be published, once a week for two successive weeks in the county of which he is county treasurer, a notice substantially in the following form:

Notice is hereby given that an installment of assessment (describing it) or (amount or proportion thereof including interest thereon or only for interest) is payable within thirty days from date by all assessed landowners of said district in the county of (name of county) to the treasurer of said county. All or any part of said installment of interest which remains unpaid on the (day fixed) will be delinquent, together with accrued interest thereon, with ten per cent of such installment and interest added as penalty.

If no newspaper is published in said county, such publication shall be made in a newspaper published in an adjoining county. If any part of such installment or any interest thereon shall remain unpaid at the expiration of thirty days from the date of said notice, it shall become delinquent and ten per cent of the unpaid amount of said installment and interest shall be added thereto and collected by said county treasurer. When any installment shall have become delinquent, said treasurer shall, within ten days, publish in said county once a week for two successive weeks a notice containing a description of each parcel of land assessed in the district in said county wherein such installment is delinquent, as such description appears on the assessment list, the name of the person to whom it is assessed, to unknown owners, if such is the fact; the amount of the installment delinquent on such parcel, the amount of interest thereon reckoned to the day of sale, the amount of said ten per cent penalty thereon, and a notice that each of said parcels will be sold at public auction by said county treasurer in front of the courthouse of said county, at a specified day and hour, which shall not be less than thirty nor more than sixty days from the date of delinquency, to pay said delinquent installment, with said accrued interest and penalty. At the time stated in said notice, the county treasurer shall sell each parcel of land described in said notice to the highest bidder, unless prior thereto he shall have received payment in full of said delinquent installment, together with interest and penalty. No bid for any parcel shall be accepted less than the aggregate sum then due on said installment thereon with interest and penalty, and such sale shall be made for cash, except the treasurer may receive from any purchaser at their face value in lieu of cash bonds of said district or their interest coupons, issued on said assessment and then matured or to mature within sixty days after such sale. Any bond or coupon so received in payment shall be by the county treasurer forthwith canceled and filed in the office of the treasurer of the district. If the entire amount of such bond or coupon tendered in payment shall not be required to complete payment of the purchase money, the county treasurer shall endorse thereon as paid the amount of such purchase money credited thereon. If no bid is made for any parcel at such sale equal to the amount of the installment delinquent thereon, with interest and penalty, the county treasurer shall bid in and sell said parcel to himself and his successors in office, as trustee of the bond fund of said district, as purchaser, for the amount of said installment, interest, and penalty. The county treasurer shall execute to each purchaser, including himself as trustee a certificate of sale, and shall record a duplicate in the county recorder's office. Any person interested in the said property may redeem the same at any time within three years after the date of sale by paying to the county treasurer for such purpose a sum equal to the purchase price stated in the certificate, with interest thereon

at the rate of twelve per cent per annum from the date of sale to such redemption. If no redemption shall be made within three years, the said county treasurer upon demand and surrender of such certificate of purchase, shall execute to the purchaser, his heirs or assigns, a deed of conveyance of the parcel of land described in such certificate, which deed shall convey to the grantee therein named the said land free and clear of all encumbrances, except state, county and municipal taxes, assessments or taxes levied or assessed by or under statutory authority, and any water storage district assessment, or portion thereof, remaining unpaid at the date of said sale each installment whereof may be called and collected as herein provided, except that no parcel sold and conveyed to the district shall thereafter be subject to sale by the county treasurer for delinquent installments. Every deed by a county treasurer purporting to be executed under this section shall be prima facie evidence of the truth of the matters therein recited, and of ownership by the grantee of the lands therein described. The county treasurer of each county shall credit to the bond fund of the district all moneys collected by him by sale or otherwise, upon assessments against which bonds shall have been issued, including interest and penalties, and he shall likewise credit to said fund the amounts of purchase money paid in bonds or coupons on sales made under said assessment. Each county treasurer shall charge to the general fund of the district, or to the bond fund if he has no money to the credit of the general fund, the expense of publication of notices and of recording certificates of sale, and shall notify the treasurer of the district thereof. The county treasurer shall transmit to the treasurer of the district all canceled bonds and coupons received in payment on any delinquent sale, and a memorandum of all sums endorsed as paid upon account of purchase money on any bonds or coupons, specifying the same. All moneys collected by any county treasurer upon account of an assessment on which bonds shall not have been issued shall be similarly accounted for to the treasurer of the district, and shall be credited to the general fund of the district. Any parcel of land bid in and purchased by any county treasurer as aforesaid, as trustee of the bond fund of the district, may be sold and conveyed by him or his successor in office at any time after the expiration of said redemption period of three years, at public or private sale and with or without notice, to any person paying him the amount for which said parcel was bid in by said treasurer at delinquent sale, with interest thereon at the rate of seven per cent per annum, compounded yearly, from the date of said delinquent sale, and also the amount of all subsequent installments then delinquent, with accrued interest and penalties thereon. Such payment may be made either in cash or in matured bonds and coupons issued on said assessment, taken at their face value, and such treasurer shall execute a deed to such purchaser upon such sale, conveying said property free of encumbrances, except as hereinbefore provided for deeds

Sec. 3. The board of supervisors of Riverside county (in which county by far the greater part of the property within the proposed district is situated) shall, not sooner than thirty (30) days after this act takes effect, but within sixty (60) days from that date, give notice of an election to be held in such proposed district for the purpose of determining whether or not the same shall be organized under the provisions of this act. Such notice shall state that the lands comprised within the proposed district are all the lands comprised within both the Palo Verde joint levee district of Riverside and Imperial counties, California, and the Palo Verde drainage district, and shall refer to this act for a particular description of the boundaries of this proposed district. The notice shall also designate some convenient place to be selected by the board of supervisors of Riverside county, within the city of Blythe, where the voters of the district, entitled to vote, may cast their ballots, and shall also state that the owners of real property or an interest therein within the district, shall, on a date to be fixed by the said board of supervisors, and designated in the notice, which shall not be more than forty (40) days following the first publication of the notice, be called upon to vote upon the question of whether the district created by this special act shall be approved and organized for the purposes and with all the powers and duties provided herein; and likewise, that they will be called upon to vote for the election of seven (7) persons to comprise the members of the board of trustees of said district, to serve until their successors are elected and qualified as provided in this act, and that the seven persons receiving the highest number of votes at such election shall be deemed elected, and shall take office provided the organization of such district under this act is approved by a majority of the votes of the property owners.

Notice of election relative to organization and of trustees.

Such notice shall also state that only owners of real property within the district, or an interest therein, and whose property appears upon the last equalized county assessment roll as having been assessed for taxation, shall be entitled to vote, but that such property owners may vote by proxy as well as personally, all as more fully set forth in the provisions of this act, reference to which shall be made in said notice.

The notice calling the election above mentioned shall be given by said board of supervisors by causing a copy thereof to be posted in at least three (3) public places within the district, at least twenty (20) days prior to the date of the election, and also by publishing a copy of such notice by three weekly publications preceding the election, in some newspaper of general circulation published within the district.

Publication of notice.

Affidavits of the publication and posting of such notice must be filed with the clerk of the board of supervisors of Riverside county, and shall be prima facie proof of performance of the acts therein set forth.

Provided, however, that the board of supervisors of Riverside county shall not call such election nor give the notice unless requested to do so in writing, signed by an owner of

real property within the district, which request must be presented to the board within the time for the calling of the election as above provided; and unless also said request is accompanied with a good and sufficient undertaking to be approved by the board of supervisors of Riverside county, in double the amount of the probable cost of organizing such district, conditioned that the surety shall pay all of said costs of calling and holding such election in case the creation and organization of said district is not approved.

Ballot.

SEC. 4. The Ballot, and Manner of Conducting Election. The board of supervisors shall provide a ballot to be used at said election, and the proposal to organize this district shall be submitted thereon in substantially the following form:

Shall the proposed Palo Verde irrigation district be organized as provided in the act of the legislature known as the "Palo Verde irrigation district act," adopted by the legislature at its last regular session.

Opposite, shall be the word "Yes", followed by a space for the insertion of a cross; and also opposite the proposal, the word "No", followed by a space for a cross; so that the voter may indicate his intention of voting for or against the same by stamping a cross in the space opposite the word "Yes" or "No".

Not less than twelve (12) days before the election, any ten or more owners of property within the district may file with the board of supervisors of Riverside county a petition requesting that certain persons specified in such petition be placed on the ballots as candidates for the office of trustee. The names proposed by the various petitions so filed, and no others, shall be printed on the ballots. But there shall be sufficient blank spaces left in which electors may write other names if they so desire, and when a name is written in such blank space, the vote shall be counted for the person whose name is so written in. The petition shall be preserved by said board of supervisors. Suitable instruction shall be printed on the ballot, informing the voter of his right to vote for seven persons, either by stamping a cross opposite any seven of the names appearing on the ballot, or by writing in other names, but that he shall not vote for more than seven altogether.

Election board.

Said board of supervisors shall also, by the order calling such election, appoint a board of election for conducting the election at the polling place, which board shall consist of three owners of land within the district and assessed on the county assessment roll. If any person appointed a member of the board of elections shall fail to attend at the opening of the polls, the adult persons then present, voting individually, may appoint in his place, any land owner in the district. Each member of the election board must, before entering upon his duties, take and subscribe to an official oath to faithfully perform his duties as an officer of such election, which oath may be administered

by any officer authorized to administer oaths, or by a land owner in the district.

The election officers shall have not only the powers prescribed by the general election laws so far as consistent with the provisions of this act, but also all such other powers as are conferred hereby in respect to the passing upon the qualification of voters, and the number of votes they are entitled to cast, and such election shall be conducted as nearly as practicable in accordance with the general election laws of the state, but no particular form of ballot shall be required.

SEC. 5. Qualifications of Trustees. The board of trustees of the district shall consist of seven persons elected at large from among the owners of property within said district, and the ownership of real property within the district shall be essential to qualify any person for such office, but a majority of the trustees must be residents of the district. Qualifications of trustees.

The manner of nominating candidates for the office of trustee at all elections, and the manner of placing their names upon the ballots shall be as above prescribed with respect to the first election to be held.

SEC. 6. Qualification of Voters. Any person, firm or corporation owning any real property and/or the improvements thereon, or any interest in real property and/or the improvements thereon (but not including personal property) which interest or ownership is assessed for taxation on the last preceding equalized tax roll of the county in which the land is situated (and only the owners of property so assessed) shall be entitled to vote at such election or at any subsequent election, special or general, for the election of trustees or for any other purpose pertaining to the affairs of said district. Each property owner so qualified to vote shall be entitled to cast one vote for each one hundred dollars of assessed valuation or fraction thereof greater than fifty dollars, as the same appears to have been assessed on the equalized assessment roll last preceding the holding of the election. In determining the total number of votes any voter is entitled to cast, the total assessed value of all parcels owned by the voter shall be divided by one hundred, and the quotient shall determine the number of votes. Qualifications of voters.

SEC. 7. Conduct of Election. For the purpose of determining who is entitled to vote, and the number of votes each voter is entitled to cast, the board of supervisors of the county of Riverside shall cause to be prepared, certified and furnished to the election board at each polling place, a true and correct copy of the next preceding equalized assessment roll so far as such assessment roll applies to any lands or improvements therein, or interest therein, within such district in Riverside county, and the board of supervisors of Imperial county shall do likewise with respect to such properties which are within the district created by this act, assessed on the assessment roll of Imperial county. But the board of supervisors of Imperial county shall not be required to furnish the same for the first election until requested in writing to do so by some property Who may vote and votes entitled to.

owner of the district, and unless such request is accompanied by a good and sufficient bond to be approved by said board, in double the amount that said board may estimate to be the cost thereof, conditioned for the reimbursement of Imperial county of the amount which may be advanced for that purpose, in the event the proposal to organize the district is defeated.

Said certified assessment rolls shall be used by the election board in determining the number of votes each voter is entitled to cast.

Executors, administrators, special administrators and guardians may cast the vote of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to vote; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced by the voter.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to vote as being the person shown on the assessment roll or otherwise as entitled to vote. And unless satisfactory evidence is furnished of the right to vote, the request to vote may be denied.

Where land is assessed to unknown owners, the production of a duly recorded or other transfer or conveyance, accompanied by a certificate of a searcher of title certifying that a search of the official records of the county since the date of the deed discloses no conveyance or transfer out from the grantee or transferee named in said instrument, shall entitle said grantee or transferee to vote.

Where property appears to be owned in common or jointly, or where letters of representatives of decedents, minors or guardians are joint, any one of the owners or representatives may cast all the votes that such joint owners or representatives are entitled to vote for all, provided the party claiming the right to vote for all produces the written consent of his co-owners or representatives, to do so, but if such consent is not produced, then the number of votes shall be apportioned to each owner or representative claiming the right to vote, according to the proportionate ownership or representation shown on the assessment roll, if such proportion is shown, but if not so shown, it shall be presumed that such ownership or right of representation is equal, and the voting right determined accordingly.

Where property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to vote the same, and if assessed in the name of more than one trustee the voting right shall be determined in like manner as above provided with respect to co-owners.

The vote of any public or quasi public corporation, private corporation or unincorporated association, may be cast by any person authorized by the board of directors or trustees

or other managing body thereof, which authorization shall be in writing, and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board of election. Any member of any partnership firm may vote in behalf of such firm.

All parties entitled to vote may have their votes cast by proxy, but no person shall vote by proxy unless authority to cast such vote shall be evidenced by an instrument in writing, duly acknowledged and certified in the same manner as grants of real property, and filed with the board of election.

The owner of any real property or interest therein appearing upon the assessment roll, which has been assessed in the wrong name, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to cast the votes represented thereby, either by the production of a proxy from such former owner or by furnishing evidence of his ownership by examination upon oath by the election board, or a conveyance duly acknowledged showing the title vested in the person claiming the right to vote, or a certificate of a competent searcher of title may be accepted by the board, as evidence of the right to vote.

Where property has been contracted to be sold, the vendee shall be entitled to cast the ballots, unless such property is assessed in the name of the vendor, in which event the vendor shall be entitled to cast the vote or votes represented thereby.

All instruments evidencing or supporting a claim of a right to vote shall likewise be filed with the election board. And if at such election the proposal to create the district is approved, all such documents shall be turned over to the board of trustees of the district; otherwise, to the board of supervisors of Riverside county for preservation.

As each voter establishes his right to vote, and the number of votes to which he is entitled is determined, there shall be delivered to him as many ballots as he is entitled to votes, or one ballot representing such votes, as next herein provided. In order to simplify the voting and avoid the necessity of a voter having a large number of votes, stamping numerous ballots, one member of the board of election, in the presence of the voter and other members, shall write upon the ballot or ballots the number of votes represented by his ballot, and after the voter has voted it shall be the duty of the election board to examine all ballots cast and see that it is the same ballot delivered to the voter, and correctly represents the number of votes he is entitled to cast before the same is passed into the ballot box.

The polls shall be kept open from eight o'clock a.m. of the day of election until six o'clock p.m. of that day.

At the close of the polls the board of election shall at once proceed to canvass the votes and declare the result, and shall forward a certificate showing such result, and the num-

ber of votes cast for and against the proposal to organize the district under this act, and the number of votes cast for all candidates for membership on the board of trustees, and which certificate together with the ballots shall be forwarded to the board of supervisors of Riverside county. If a majority of all the votes cast are in favor of the creation and organization of this district, then this district shall be deemed to be and shall be created with all the rights, powers and duties prescribed in this act, and the trustees shall proceed to organize and carry out the purposes of this act; *but provided, however,* that before the creation of the district becomes effective, the board of supervisors of Riverside county must make a certificate to the effect that the proposal to create the district was adopted, and cause the same to be filed with the secretary of state of California, from which date the district shall be deemed created, and as soon as moneys are available to the district for that purpose, and at least within one year from the date of organization, the board of trustees shall reimburse the counties of Riverside and Imperial for any moneys advanced or expense incurred in the performance of the duties imposed upon their respective boards of supervisors by this act, and recourse shall be had if necessary to the taxing power of the district for raising such funds; but if said indebtedness is not paid within one year from the date of the creation of this district, then the bondsmen shall be liable to the respective counties therefor;

Likewise, if the proposal to organize the district is defeated, the result shall be certified in the same manner as above set forth, and the respective counties reimbursed for expenses paid or incurred by the bondsmen on the bonds hereinbefore provided for.

Record of
creation
of district.

If the district is created, certified copies of the order of the board of supervisors of Riverside county, or certificate declaring that fact, shall be recorded in the office of the county recorder of Riverside county, and of the county recorder of Imperial county, and shall impart notice to all interested persons as to the result of said election, and the creation of said district.

The order of the board of supervisors of Riverside county declaring the result of said election and certifying to the fact that the proposal to create the district was duly adopted (if it shall be adopted) shall be final and conclusive evidence that all steps necessary for the creation and organization of said district have been duly performed, and that said district has been duly created as such.

Contest
of election.

Provided, however, that the election for the organization of the district, whether the result be for or against, may be contested by any person owning property within the proposed district. The trustees elected at such election shall be made parties defendant, but any property owner in the district may intervene and be heard.

Such contest shall be brought in the superior court of the county of Riverside, and must be brought within twenty days from the time the vote is canvassed, and the result is declared. If more than one contest is filed, they may be consolidated and tried together. The court shall speedily try such contest and determine upon the hearing whether the election was fairly conducted, and in substantial compliance with the requirements of this act, and enter its judgment accordingly.

The right of appeal to the supreme court is hereby given to any party to the record within thirty days from the entry of judgment. The proceedings both as to the trial and appeal must conform substantially to the rules governing civil actions, and the appeal must be determined by the supreme court within sixty days from the time the record on appeal is filed therein.

If no contest is filed, or if as a result of any such contest so filed the adoption of the proposal to create and organize the district as certified by the board of supervisors be confirmed by the judgment; then said judgment and the certificate of the board of supervisors above set forth shall have the conclusive effect hereinbefore declared.

Sec. 8. Organization of the Board of Trustees. Upon the adoption of the proposal to organize the district, the members of the board of trustees elected to that office shall qualify by taking and filing with the county clerk of Riverside county the oath of office commonly administered to public officials, and they shall without delay meet and organize by the selection of one of their number as president of the board, and likewise the selection of a secretary who may or may not be a member of the board. Organization of board of trustees.

The compensation of trustees and of all officers shall be fixed by the trustees themselves from time to time. The compensation of trustees, however, shall not exceed ten dollars per diem. All officers shall hold office respectively until their successors are elected and qualify, but the regular term of office of trustees shall be three years from the date of election (except as next herein provided with respect to the members of the first board of trustees), but elections shall be held annually on the third Tuesday of September of each year. The trustees so elected shall qualify by taking the oath as herein provided, and shall organize at their first meeting, which shall be held not later than ten days after the creation of this district becomes effective. Compensation.

At their first meeting the trustees shall so classify themselves as that three of the members shall hold office until the next general election in September, 1924, and two shall hold office until the annual election of 1925, and two until the annual election of 1926. As the successors of the retiring trustees are elected each year, such successors shall hold office for the term of three years. Terms.

The president of the trustees and the secretary or any other officers selected by the board shall hold office at the pleasure of the board. Four members shall be necessary to constitute Quorum

a quorum, and the decision of the majority present shall bind the district except as may be otherwise in this act provided.

By-laws.

The board shall have the power to adopt the proper rules or regulations to govern their procedure, and for the preservation and disbursement of its funds, time, place and manner of holding meetings, but a regular meeting day fixed by the board for a definite time and place each month must be provided to be held, and no notice of regular meetings need be given, and the president or any two members of the board shall have the right to call special meetings upon giving notice to the other trustees of the time and place thereof, not less than five days in advance of holding the meeting. Meetings may be held at any time or place when all the trustees are present and consent thereto, or at any time and place fixed by written consent or call signed by all the trustees. If vacancies occur in the office of trustee, such vacancies shall be filled by persons selected by the remaining trustees, and shall hold office until the next annual election or until a successor is elected and qualifies.

Sec. 11. Acquiring or Controlling the Water System of the Palo Verde Mutual Water Company. As soon as may be practicable after the organization of the district, the board of trustees is empowered and it shall be its duty to take steps for the acquisition of the water rights and water system of the Palo Verde Mutual Water Company and its stockholders, in the manner authorized and provided by this section, as follows: Acquisition of water system of Palo Verde Mutual Water Company.

Subdivision 1. If after investigation and negotiations with the representatives of the Palo Verde Mutual Water Company, it is found practicable to contract for the purchase of the water rights and system of the Palo Verde Mutual Water Company, either by payment therefor in money or in bonds to be issued by this district as hereinafter provided, then a complete inventory and appraisal of all water rights and properties or property rights owned by said mutual water company shall be made up and appraised by competent engineers and appraisers selected by the parties for that purpose. But such inventory and appraisal shall comprise only the water rights and operating properties forming a part of the system or pertaining thereto. If, as a result of such negotiations, investigation and appraisal the board of trustees is able to agree with said water company upon what they deem to be a fair valuation of said properties to be fixed as the purchase price thereof, then the proposed plan of purchase and the price agreed to be paid therefor, with the terms and manner of payment, shall be reduced to writing, duly executed by both Mutual agreement.

parties, and shall constitute the basis of acquisition, and shall be carried out as agreed upon.

Submission
to state
water
commission.

If, however, the trustees and said water company are unable to agree upon the price, terms or manner of purchase, the proposal to purchase may, at the option of the board of trustees, be submitted to the water commission of the State of California, for determination of the value of the property and property rights to be acquired, and the terms and manner of carrying the purchase into effect, provided the water company shall agree to such submission and to be bound thereby. If the submission is agreed upon, it shall be the duty of the water commission to cause an investigation to be made in such manner and to such extent as it may deem necessary or proper (but at the expense of the district) and may, if it deems proper to do so, have a public hearing thereon conducted at such time and place and in such manner and after such notice as may be prescribed by the commission. But the commission shall, within ninety days after notice of the agreement of submission, make findings of the reasonable and fair valuation of the properties and property rights involved, and the reasonable and proper terms upon which the purchase price shall be made, and such findings shall be binding upon the parties, and the trustees are authorized and empowered to proceed with the necessary steps to carry into effect the purchase on those terms. But if the board of trustees and the representatives of the water company can not agree upon a submission of the same to the water commission, then the board of trustees is hereby authorized and empowered and the district is hereby granted the power to institute and maintain condemnation proceedings for the acquisition of said water rights and water system, and the acquisition of the same is hereby declared to be a beneficial public use and said district is empowered to acquire the same by proceedings in eminent domain conducted substantially in the manner provided by the general laws for the acquisition of private property for a public use by such procedure.

Condemna-
tion
proceedings.

Rights of
stockholders
and users.

In the acquisition of the water rights and water system of said Palo Verde Mutual Water Company by the district, the board of trustees, in its discretion, may acquire the water rights and system, subject to whatever existing rights the stockholders or users of said water may have to have water supplied to their lands to the extent that the same is appurtenant thereto, in which event the title conveyed to the district shall be subject to such rights and the district shall assume the obligation of supplying water to such land owners to the extent of their rights and in the manner and upon the terms which such users are entitled to receive the same; but in the acquisition of the water rights and system of the Palo Verde Mutual Water Company and its stockholders, the board of trustees is, in its discretion, authorized and empowered to take over and acquire the water rights of the stockholders as well as the property rights of the corporation, either by pur-

chase or condemnation to the end that ultimately all waters available for supply or which may be made available for supply to the lands and inhabitants of the district, may be distributed in accordance with uniform rules and regulations throughout the entire district, and all priorities or discrimination eliminated.

Subdivision 2. If after investigation and negotiation it is found feasible and practicable to acquire the ultimate ownership and control of the water rights and system of the Palo Verde Mutual Water Company and its stockholders, by taking over by purchase or otherwise, all of the outstanding stock of said corporation and through that means ultimately cause all of the water rights and system of said mutual water company to be conveyed to the district, and thereby eliminate vested rights or priorities so that the entire body of water available may be distributed under uniform regulations throughout the district, the board of trustees is hereby authorized and empowered to do and perform all things necessary for the purpose of acquiring all the stock of the stockholders of said water company, either through the purchase, exchange of bonds therefor, or condemnation proceedings, and it may, with that ultimate object in view or by way of expediting or assisting in bringing about the acquisition of the water rights and plant from the corporation itself, or from the corporation and the stockholders as provided in the previous subdivision, purchase or contract to purchase, or procure options, for the whole or any part of the stock of said mutual water company from time to time, or may institute and prosecute condemnation proceedings for that purpose until all of the stock is acquired or all of the properties of said mutual water company are acquired as herein before provided; but before any stock of said company is purchased or contracted to be purchased, the question of the value thereof must be carefully investigated by the board of trustees, with the assistance of competent appraisers, and no stock shall be purchased at a price in excess of the maximum amount found by the trustees to be the reasonable and fair value thereof. But, within the price so fixed, the district through its board of trustees, may purchase or contract to purchase any part of the stock, but nothing herein contained shall in any manner impair the right of the district to maintain condemnation proceedings for the acquisition of the stock or water rights of the stockholders of said water company, at any time, and such acquisition is likewise hereby declared to be a beneficial public use.

Subdivision 3. If after negotiation and investigation or at any time it is found impracticable or inadvisable to acquire the whole or any part of the water rights and water system of the Palo Verde Mutual Water Company and its stockholders by purchase, exchange or condemnation, or pending the ultimate acquisition of the whole of the system and the water rights mentioned, then the district, through its board of trustees, is hereby authorized and empowered to take over the management, control and operation of such system and water

If the control and management of the system and water rights is thus taken over by the district, the same shall be operated in such manner as to conform to and respect vested rights and priorities of the stockholders or users of said water to the extent that they may be entitled to have any lands to which said waters are appurtenant, supplied with water from said system; but in so far as may be lawfully possible, all water shall be made available for distribution and shall be distributed to all lands within the district, under uniform rules and regulations and without discrimination, and the district shall be authorized and empowered to carry on all work necessary to safeguard and expand the distribution of water supply, and to protect the system against floods from the Colorado river, and to conserve and extend the beneficial use of the water to the utmost throughout the district, by reclamation, protection, or otherwise.

All bondholders and creditors or other persons having rights or relations with said joint levee district or the trustees or officers thereof are hereby authorized and empowered to deal with the trustees of this district, and to enforce their rights as against this district in like manner as might be done against the joint levee district above mentioned and the trustees and officers thereof, and all notices, demands, tenders or other dealings that might have been had with said joint levee district or the trustees or officers thereof may be made to or had with the trustees of this district with the same force and effect. Likewise, all obligations or duties or indebtedness undertaken or contracted to be paid or performed by any persons, firms or corporations, to or with said joint levee district, may be enforced for or paid to this district with the same force and effect, and in like manner as undertaken to be performed for or paid to said joint levee district. The title to all properties of the joint levee district and all property and other rights belonging to or existing in favor of said district are hereby vested in this district, and this district shall have the right to maintain suits or other proceedings necessary for the protection and enforcement of any of the rights of said levee district, and may be sued and shall have the right to defend in like manner as suits might have been

All bondholders and creditors or other persons having rights or relations with said drainage district or the trustees or officers thereof are hereby authorized and empowered to deal with the trustees of this district, and to enforce their rights as against this district, in like manner as might be done against the drainage district above mentioned, and the trustees and officers thereof, and all notices, demands, tenders or other dealings that might have been made to, or had with the said drainage district or the trustees or officers thereof may be made to or had with the trustees of this district with the same force and effect. Likewise, all obligations or duties or indebtedness undertaken or contracted to be paid or performed by any persons, firms or corporations, to or with said drainage district, may be performed for or paid to this district with the same force and effect, and in like manner as undertaken to be performed for or paid to said drainage district. Succession to property and management.

Upon the taking over of the property and affairs of said drainage district, the board of trustees of this district is authorized and empowered, and it shall be its duty to proceed as rapidly as may be practicable, with the necessary construction work for the improvement and better drainage and reclamation of the lands and improvements within the district, and to maintain and operate the same to the end that the greatest area within this district may be rendered cultivable. works.

SEC. 14. Extension and Improvement of Existing Levees, Drainage Canals and Water System. The district, through its board of trustees, is further authorized and empowered, and it shall be the duty of the trustees, as soon as may be practicable and as rapidly as funds may be available for that purpose, to proceed with the strengthening and extension of existing levees or other works for the protection of the valley against overflow and inundation from the Colorado river; and likewise, the further extension and development of the water system to be taken over by the district, and the strengthening and improvement of its canals, laterals, head-works and distribution system generally; and also for the further construction of drainage canals and ditches and other works necessary for the drainage of the swamp and overflowed lands; also for the further protection of the inhabitants of the district and the improvement of health or other conditions in the valley to take such steps as may be necessary or proper for the elimination of mosquitos or other insect pests; *provided, however*, that no new construction work shall be contracted, nor shall any replacement or repair work be contracted, where the cost thereof will exceed three thousand dollars without first causing a description of the work to be performed, with specifications and plans to be prepared and at least ten days' notice given of an intention to contract for the work, and inviting sealed bids. Such notice must be given by publishing notice at least once during the week preceding the time for submitting bids, in a newspaper published within the district, or if none is published therein, then within the county of Riverside, State of California, as the board of trustees may direct. The work must be let to the lowest and best responsible bidder, but the trustees shall have the right to reject any and all bids; *provided, however*, that in the event the properties or inhabitants within the district, or the levees, water system or reclamation works, or any part thereof, shall be threatened with destruction or serious damage by reason of rapid or unusual rise of water in the Colorado river, or from any other cause, and in the judgment of the board of trustees, necessity exists for immediate and prompt action, all materials may be purchased, all labor contracted or otherwise procured, and all other indebtedness may be incurred which, in the judgment of the board of trustees, may be necessary to meet the emergency, without the necessity of competitive bidding or notice, and all indebtedness thus contracted shall be a legal obligation against the district; *but provided, however*, that the determination of the board of trustees that an emergency does exist must be entered in the minutes of the board; *provided, further*, that nothing herein contained shall be construed as requiring the board of trustees to carry on any of its construction, maintenance, repair or other work through contracting or letting the same, but it

shall be optional with the district, through its board of trustees, to contract all or any part of such work through competitive bidding as above provided, or the district may, through its board of trustees, employ the necessary labor and furnish the necessary materials to carry on any and all work authorized by this act, under the supervision of the board of trustees, and full power is vested in the board of trustees for that purpose; *but provided, however,* that if the trustees undertake to carry on such construction, replacement, repair or other work through its own supervision, and it becomes necessary to purchase materials or supplies in lots of a greater value than two thousand dollars, competitive bidding must be invited by like notice as hereinbefore provided with respect to the letting of contracts, and the property must be purchased from the lowest responsible bidder, but the board, however, shall have the right to reject any and all bids.

SEC. 15. Issuance of Bonds. For the purpose of acquiring the water rights and irrigation system of the Palo Verde Mutual Water Company or any other water rights or system which it may, by the trustees, be deemed advisable to acquire; for the purpose also, of strengthening, and extending the present levees, adding to and providing other levees, and for other protection work; for the purpose of maintaining, repairing and improving and extending the water system and the acquisition of further water rights, and the further development of water and improving and maintaining the system; for the purposes of maintaining, repairing, extending the drainage canals and of carrying on other reclamation work, including the destruction of pests or other nuisances incident to swamp conditions, and for the purpose of maintaining and operating the whole system of protection, irrigation and reclamation works, and for the purpose of making the necessary surveys, examinations, drawings and plans for all such work; also for the purpose of payment of principal and interest upon outstanding bonds or other obligations of the Palo Verde joint levee district of Riverside and Imperial counties, California, the Palo Verde drainage district, and the Palo Verde Mutual Water Company (if the system of said company is taken over by this district as hereinbefore authorized), or for the purpose of redeeming any or all of such bonds, or for the purpose of providing for the refunding of the same, or any part thereof; and generally, for defraying the expense of carrying all the purposes of this act into effect, the district is authorized to issue and dispose of its bonds as herein provided.

for which
bonds may
be issued.

SEC. 16. Determining Amount of Bonds to be Issued. For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, the board of trustees shall cause such inventories, appraisals, surveys, examinations, drawings and plans to be made as shall furnish the proper basis for such estimates. Such appraisals, surveys, examinations, drawings and plans, and the estimates based

thereon, may provide that the works necessary for a completed project shall be acquired and constructed progressively during a period of years. In the estimate of the amount of money to be raised by the first issue of bonds for any project or purpose, the board of trustees may include a sum sufficient to pay the interest on all such bonds as may be issued by this district, and also all such bonds or other obligations of the Palo Verde joint levee district of Riverside and Imperial counties, California, or the Palo Verde drainage district, or the Palo Verde Mutual Water Company as may be assumed by this district, for a period of three years, or less, in advance of the time such interest obligations shall accrue. All such surveys, appraisals, examinations, drawings and plans shall be made under the direction of a competent engineer, and shall be certified by him. The board of trustees may divide the plans for the completed project of acquisition and construction of a unified protection, irrigation and reclamation system into various items, recommending those that are most urgent for first acquisition or construction, and the estimated amount thereof, and those that might be deferred for carrying out at subsequent times, so that the bonded indebtedness necessary for the entire plan may be imposed upon the district in such installments over a period of years as the district is built up and improved and as a favorable market exists for the bonds. But the board of trustees may, in its discretion, provide for the issuance of the amount of bonds necessary to carry out the completed enterprise contemplated by this act, and arrange for the disposition of the bonds in installments at different times so as to accomplish the same purpose; or, if it is deemed practicable and expedient to do so, the board may provide for the issuance of all the bonds estimated to be necessary to carry out the completed project.

Investigation
and report
of bond
certification
commission.

When a determination has been made by the board of the properties to be acquired and the construction work to be performed, and the estimated amount thereof for which the board proposes to issue bonds, the board shall thereupon submit a copy of said estimate and report to the commission authorized by law to approve bonds of irrigation districts, for certification as legal investments for savings banks, and for other purposes specified in the act creating said commission. Said commission shall forthwith examine said report and any data in its possession or in the possession of the district, and shall make such additional surveys and examinations at the expense of the district as it may deem proper or practicable, and as soon as practicable thereafter shall make to the board of trustees of said district a report which shall contain such matters as in the judgment of said commission may be desirable; *provided*, that it may state generally the conclusions of said commission regarding the general characteristics of the property and the project, the cost of the proposed work, water rights and other property necessary for a complete and satisfactory project, the proper dates of maturity for the bonds proposed to be issued, and whether in its opinion it is advisable to proceed

with the proposed bond issue. If the estimate of the amount of said bond issue shall have included any amount for the payment of interest on said bonds for such issue, as provided in section fifteen of this act, and such estimate for the payment of interest or any part thereof is approved by the commission in said report, it shall be lawful for the board of trustees, to use for the payment of interest on any bonds of such issue, so much of the proceeds of the sale of said bonds as may have been approved for that purpose in said report of the commission.

And likewise, whatever amount may be included in the estimate for upkeep and maintenance expense, if approved by the commission, may be lawfully used by the trustees and applied in the upkeep and maintenance of its levees, water system and reclamation works.

SEC. 16a. If after such examination and investigation the said commission shall deem it advisable that the said plans be modified, or that the amount of the bonds proposed to be issued be changed, or that certain conditions should be prescribed to insure the success of the project, or that in its opinion it is not advisable to proceed with the proposed bond issue, it shall so state in its report to the board of trustees. After receiving said report, or if no report is received within thirty days after the submission of said estimate and engineer's report to said commission, said board of trustees, if it shall determine and shall declare by resolution that the proposed plan of works or some modified plan recommended by said commission is satisfactory and that the said project or said modified plan is feasible, shall make an order determining the amount of bonds that should be issued in order to raise the money necessary therefor; *and provided, further*, that if this district shall issue bonds to carry out any plans approved by said commission as herein provided it shall be unlawful for said district to make any material change in said plans thereafter without the consent of said commission.

SEC. 17. Provisions for Making Bonds Legal Investments for Trust Funds, etc. Whenever the board of trustees shall by resolution declare that it deems it desirable that any contemplated or outstanding bonds of said district, including any bonds authorized but not sold, shall be made available for the purposes provided for in section seven of an act of the legislature of the State of California entitled, "An act relating to bonds of irrigation districts, providing under what circumstances such bonds shall be legal investments for funds of banks, insurance companies, and trust companies, trust funds, state school funds and any money or funds which may now or hereafter be invested in bonds of cities, cities and counties, counties, school districts or municipalities, and providing under what circumstances the use of bonds of irrigation districts as security for the performance of any act may be authorized," approved June 13, 1913, as amended, the said board of trustees shall thereupon file a certified copy of such resolution with the

commission created by, and provided for in, said act, which commission, and the state controller in connection therewith, are hereby given the same power and authority in respect of the investigation and certification of bonds issued under this act as is given to them in respect of the investigation and certification of irrigation district bonds by said act, as amended, except as the same may be limited by, or inconsistent with, any provision of this act, and bonds of said district which have been so investigated and certified and declared to be legal investments for the purposes stated in said act approved June 13, 1913, as amended, may be lawfully purchased or received in pledge for loans by savings banks, trust companies, insurance companies, guardians, executors, administrators, and special administrators, or by any public officer or officers of this state or of any county, city, or city and county, or other municipal or corporate body within this state having or holding funds which they are allowed by law to invest or loan; *provided, however,* that where said commission has passed upon one issue of bonds of said district, all subsequent issues of said district shall be submitted to said commission as in the said act provided.

Special
election for
bond issue.

SEC. 18. Special Election for Bond Issue. After the amount of the proposed bond issue is determined by the board of trustees, said board may call a special election, at which shall be submitted to the owners of property within the district qualified to vote, as hereinbefore provided, the question whether or not the bonds of said district in the amount determined by said board shall be issued, and said board must call such an election and submit said question upon receipt of a petition signed by at least one hundred owners of real property within the district assessed for taxation on the last preceding equalized assessment roll, provided that such petition shall include the holders of title or evidence of title to not less than twenty per cent in value of the real property within the district. In determining the value of any lands within the district for the purpose of determining the sufficiency of such petition the last equalized assessment roll of the county within which the lands within the district is situated, shall be conclusive evidence of such facts for such purpose. But the board of trustees by an affirmative vote of three of its members may call such election without the necessity of receipt of any petition.

Notice of
special
election and
manner of
conducting
same.

SEC. 19. Notice of Special Election and Manner of Conducting Same. Notice of such election must be given by posting notices in three public places in each election division in said district for at least twenty days, and also by publication of such notices in some newspaper published within the district, or if none is published therein, then within the county of Riverside, State of California, as the board of trustees may direct, by at least three weekly publications prior to the election. Such notice must specify the time of the holding of the election, the amount of bonds proposed to be issued,

and in a general way, the purpose thereof; and said election must be held and the result thereof determined and declared in all respects as nearly as practicable in conformity with the provisions of this act, governing the election for the determination of whether this district shall be organized and the election of the first trustees.

The qualification of voters, their right to vote, and the number of votes which each is entitled to cast, shall be determined by reference to the appraised value of their real estate holdings on the assessment roll as in this act heretofore provided, and in all other respects the provisions of this act in reference to conducting elections shall conform to the provisions heretofore made with respect to the elections and the general election laws of the state so far as may be applicable, as well also as the further provisions of this act with respect to the ballot; but no informalities in conducting such an election shall invalidate the same if the election shall have been otherwise fairly conducted.

SEC. 20. Ballots. At such election questions as to the ^{Ballots.} issuance of bonds may be submitted separately on the same ballot if estimates of the cost of the respective projects have been made, and the respective propositions have been stated in the notices of the election. At such election the ballots shall contain a general statement of the proposition or propositions to be voted on, including the amount of bonds proposed to be issued for each purpose, but no informality in such statement shall vitiate the election. Each proposition shall be followed by the words "Yes" and "No", on separate lines, with a small inclosed space after each of said words. The electors shall vote for or against any proposition by stamping a cross (X) in the voting space after the word "Yes" or "No" respectively. On the ballot shall be printed substantially the following under the heading "Instructions to voters": "To vote for a proposition, stamp a cross (X) in the voting space after the word 'Yes' following the proposition. To vote against a proposition, stamp a cross (X) in the voting space after the word 'No' following the proposition." If a majority or more of the votes cast for and against any proposition are for "Yes", the board of trustees shall cause bonds in the amount specified in such proposition to be issued. If the number of votes for any proposition is less ^{When vote} than the number required herein to authorize the issuance ^{insufficient.} of the bonds provided for therein, the result of the vote on said proposition shall be entered of record, but said proposition may be again submitted to the qualified voters of the district at a special election upon the presentation to the board of trustees of a petition therefor, signed as provided in section eighteen of this act.

SEC. 21. Form of Bonds, Interest, Life of Bonds. Subject ^{Issuance of} to the provisions of this act the trustees of the district shall ^{bonds.} prescribe the form of bonds issued by the district, and of the interest coupons to be attached thereto. An issue of bonds is

hereby defined to be all the bonds issued in accordance with a proposal approved by the electors of the district qualified to vote as provided in this act. Each issue of bonds of the district shall be numbered consecutively as authorized, and the bonds of each issue shall be numbered consecutively. The board of trustees shall fix the date of said bonds and may divide said issue into two or more divisions, and shall fix the dates of the bonds for each respective division. The interest coupons shall also bear the signature of the secretary of the board of trustees or a fac simile of such signature. The board of trustees shall fix the denomination of said bonds, which shall not be less than one hundred dollars nor more than one thousand dollars. Said bonds shall bear interest at a rate to be fixed by the board of trustees, but the rate shall not exceed six per cent per annum. The interest shall be payable on the first day of January and the first day of July of each year. The board of trustees shall also designate the place or places at which bonds or any of them and the interest thereon shall be payable. Each issue or each designation of each issue of said bonds shall be payable in gold coin of the United States in twenty series as follows, to wit: At the expiration of twenty-one years from the date of any issue or any division of any issue of said bonds, two per centum of the whole amount of such issue or division; at the expiration of twenty-two years from said date, two per centum of the whole amount of such issue or division; at the expiration of twenty-three years from said date three per centum of the whole amount of such issue or division; at the expiration of twenty-four years from said date, three per centum of the whole amount of such issue or division; at the expiration of twenty-five years from said date, four per centum of the whole amount of such issue or division; at the expiration of twenty-six years from said date, four per centum of the whole amount of such issue or division; at the expiration of twenty-seven years from said date, four per centum of the whole amount of such issue or division; at the expiration of twenty-eight years from said date, four per centum of the whole amount of such issue or division; at the expiration of twenty-nine years from said date, five per centum of the whole amount of such issue or division; at the expiration of thirty years from said date, five per centum of the whole amount of such issue or division; at the expiration of thirty-one years from said date, five per centum of the whole amount of such

par.

SEC. 23. Election on Sale of Bonds for Less Than Par. If the board of trustees of this district deems it desirable that said board shall be authorized to sell said bonds for less than the par value thereof, the board may call a special election to submit to the qualified voters of the district such proposition. Such election shall be held, and notice shall be given in the same manner as is provided herein in the case of special elections to authorize the issuance of bonds; or the board may submit such a proposal to the voters at any special election called for the purpose of authorizing the issuance of bonds, but in such event the notice of election shall specify that such proposal shall be submitted. If, however, the proposal to sell bonds at less than par is submitted at a subsequent or special election, such election shall be held and notice thereof shall be given in the same manner as is provided herein in the case of special elections to authorize the issuance of bonds. In any event the proposal shall be stated in substantially the following form: "Shall the board of trustees of the Palo Verde irrigation district be authorized to sell bonds of the district for less than the par value thereof?", followed by the words "Yes" and "No". If at least a majority of the legal votes cast at such election are for "Yes" then the board of trustees may sell any bonds authorized by said district to be issued, to the highest responsible bidder or bidders, as provided in the foregoing section. If less than a majority of the legal votes cast shall be for "Yes" the result shall be entered of record.

Exchange of
bonds for
property.

Nothing in the foregoing provision shall prevent the board of trustees exercising the power conferred upon them by this act to exchange any bonds issued in pursuance of this act in the acquisition of the water rights, water system or stock of the Palo Verde Mutual Water Company, or any other proper-

ties to be acquired for the irrigation system of the district, but in no case shall any bonds of the district be exchanged on a basis of less than the par value and accrued interest of such bonds, nor for a price in excess of the price fixed by appraisal or determination of the value of such properties by the trustees as hereinbefore provided.

SEC. 24. Paid by Annual Assessment. All bonds issued and the interest thereon shall be paid from revenue derived from an annual assessment upon the land within the district and the improvements thereon, and all said properties within the district shall be and remain liable to be assessed for such payment, as hereinafter provided, in so far as any bonds created or authorized under the provisions of this act are concerned; but with respect to all bonds that have been issued and sold, or which may hereafter be sold, of the said Palo Verde joint levee district and the Palo Verde drainage district, the interest and principal thereof shall be paid from revenue derived from the annual assessment upon the properties within the boundaries of said respective districts, which are taxable therefor under the provisions of said bonds and the acts in pursuance of which they were created.

SEC. 25. Assessment to Complete Works—Notice of Election Ballots. In case the money raised by the sale of bonds issued be insufficient, or in case bonds be unavailing for the completion of the plan of construction, maintenance or repair of the works undertaken to be performed under this act, or the acquisition of the necessary property, water rights and water system, or for other properties authorized to be acquired by this act or proposed to be acquired, and additional bonds be not voted or sold, it shall be the duty of the board of trustees to provide for the completion of said plan and the acquisition of such properties, water and water rights by levy of assessments therefor; *provided, however,* that such levy of assessments shall not be made except first an estimate of the amount required for such purpose has been made by the board of trustees, and the question as to the making of said levy submitted to a vote of the qualified voters of the district. Before such question is submitted the order of submission shall be entered in the minutes of the board stating the amount to be levied and the purposes therefor, and if submitted at a special election said orders shall in addition fix the date of election. Notice of such election must be given by posting notice in three public places in each election precinct in said district for at least twenty days, and also by publication of such notice in some newspaper published within the district, if there is one, but if not, then in Riverside county, California, by at least three weekly publications. Such notice must specify the time of holding the election and the amount of assessment proposed to be levied; said election must be held and the result thereof determined and declared in all respect as nearly as practicable and in conformity with the provisions of this act governing the elections hereinbefore provided for; *provided, however,* that no informalities in conducting said election shall

If a majority of the votes cast are "Assessment—Yes" the board of trustees shall cause an assessment in the amount named in the order of submission to be made and collected in the same manner herein provided with regard to annual assessments. It shall be the duty of the proper county officials of each of the counties in which the lands within this district are located, to cause the necessary assessment to be levied for taxes fixed and collected in the manner provided by the revenue laws for the assessment and collection of county taxes. If a majority of the votes cast are "Assessment—No" the result of such election shall be so declared and entered of record.

SEC. 26. Estimate of Annual Money Requirements of the District. The board of trustees of the district shall each year before the first day of September, and at such other times as the boards of supervisors of the counties of Riverside and Imperial may deem advisable, cause to be prepared and submitted to said boards of supervisors of the counties of Riverside and Imperial, a detailed statement showing the estimated amount of money that will be required for the purpose of payment of the interest payments or installments of principal to become due, upon any of the outstanding bonds of the Palo Verde joint levee district of Riverside and Imperial counties, California, or the Palo Verde Mutual Water Company (should the system of that company be taken over and any of its bonds assumed by this district), or the Palo Verde drainage district, or the bonds of this district, and also a detailed statement of the amount necessary to maintain, repair and operate the levees, water works, or reclamation works, or the maintenance, upkeep or operation of any other works under the control of the district, and likewise to defray the expenses of administering or conducting the affairs of the district, and of carrying into effect the purposes of this act during the forthcoming fiscal year. The statements of the interest payments to become due upon the bonds of this district, the levee district, and the drainage district, or other bonds assumed by this district, as well as the expenditures necessary for the levee protection work, drainage or reclamation work constructed by said respective districts shall all be separately stated. Should the board of trustees of the district fail to furnish such statement, it shall nevertheless be the duty of the boards of supervisors of said counties to ascertain the amount required to meet interest and installments of principal which will accrue during the forthcoming year, as well as such payments as may have accrued and remain unpaid, and assess and collect said amount as herein provided.

Said statement shall also indicate the value of all personal property assessable within said joint levee district, and any and all other data necessary to enable the board of supervisors of their respective counties, or the board of trustees of this district, to fix the tax rate or to levy such assessments upon the taxable property within all said districts which may be taxable therefor under the provisions of this act, or the acts under which said joint levee district and drainage district were organized.

SEC. 28. Annual Tax Levy. At the time when by law it is the duty of the board of supervisors of each of said counties to fix the annual tax rate for said respective counties of Riverside and Imperial, the said boards of supervisors taking as a basis the last previous report of the board of trustees of the estimated amount to be required to be raised for the forthcoming fiscal year and valuation of the lands and improvements thereon within the district, as provided them by said county official having custody of said assessment rolls, must levy a tax upon all of the lands, with the improvements thereon, in the district sufficient to raise the amount set forth in the report as made by said board of trustees as aforesaid, but in levying said tax, a rate shall be fixed for raising the amount to meet the principal and the accrued interest on the outstanding bonds of the said Palo Verde joint levee district, and the amount necessary for the maintenance, repair and operation of the levees constructed by said levee district, based upon the assessed value of the lands within the boundaries of said district, and a separate rate for the raising of money necessary to meet accrued installments of principal and interest on the bonds of the said drainage district, estimated amount for maintenance, repair and operating the drainage or reclamation systems installed or constructed by that district, and a separate rate also for raising the amount necessary to meet installments of principal and interest accruing on the bonds of this district, and all other expenses incident to the purpose

In ascertaining the rate of taxation fifteen per cent shall be deducted from the aggregate value of the lands and improvements within the district, as shown by the statement prepared and furnished to said boards of supervisors by the assessors, or other county official, as hereinbefore provided, for anticipated delinquencies, and then the sums necessary to be raised shall be divided by the remainder of such aggregate assessed value as shown in said statements furnished by said officers. The taxes so levied shall be copied and entered on the assessment roll by the proper county officers and collected at the time and in the same manner as county taxes; and when collected shall be paid into the county treasury for the use of the district. Upon the requisition of the board of trustees the auditor is authorized to draw a warrant from time to time in favor of the district for the purpose of providing an emergency fund for the payment of emergency expenses, and the treasurer is authorized to pay such warrant, but the trustees shall cause the same to be deposited in a reputable bank to the credit of the district, and such fund may be disbursed on checks in the name of the district signed by the president and secretary and countersigned by one member of the board of trustees in addition to the president and secretary for emergency purposes; *but provided, however,* that the amount on deposit in that fund shall never exceed five thousand dollars, and an itemized statement of the disposition of the same shall be made at least every thirty days, verified by the oath of the president and secretary and filed with the county auditor of Riverside county; *and provided, further,* that the board of trustees shall at all times keep in force a good and sufficient indemnity bond executed by a reputable corporation authorized to engage in the business of executing fidelity bonds in the State of California in an amount to be fixed by the board of trustees.

The petition shall describe the boundaries of said parcel or tract of land, and shall also describe the boundaries of several parcels owned by the petitioners, if the petitioners be the owners respectively of distinct parcels, but such descriptions need not be more par-

Such petition must contain the assent of the petitioners to the inclusion within said district of the parcels or tracts of land described in the petition, and of which said petition alleges they are, respectively, the owners; and it must be acknowledged in the same manner that conveyances of land are required to be acknowledged.

SEC. 43. Notice of Filing of Petition. The secretary of the board of trustees shall cause a notice of the filing of such petition to be given and published in the same manner and for the same time that notices of special elections for the issue of bonds are required by this act to be published. The failure by any person interested in the district, or in the matter of the proposed change of its boundaries, to show cause, in writing, as aforesaid, shall be deemed and taken as an assent on his part to a change of the boundaries of the district as prayed for in said petition, or to such a change thereof as will include a part of said lands. And the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent on the part of each and all of such petitioners to such a change of said boundaries that they may include the whole or any portion of the lands described in said petition.

SEC. 46. Change in Boundaries. If the board of trustees deem it for the best interest of the district that the boundaries of said district be changed and if no person interested in said district or the proposed change of its boundaries shows cause, in writing, why the proposed change should not be made, or, having shown cause, withdraws the same, the board may order that the boundaries of the district be so changed as to include therein the lands mentioned in said petition or some part thereof. The order shall describe the boundaries as changed and shall also describe the entire boundaries of the district as they will be after the change thereof as aforesaid is made; and for that purpose the board may cause a survey to be made of such portions of such boundary as is deemed necessary; *provided, however,* that any public land of the United States of America adjoining the boundaries of this district may be included within the boundaries of this district by order or resolution of the board of trustees of such district without any petition being filed asking for such inclusion; *and provided, further,* that when additional land is included within this district and the board of trustees of such district finds that such inclusion without condition would work an injury to the land already in the district either by an impairment of water right or by requiring a greater expense for furnishing water to the lands proposed to be included, the board may prescribe conditions upon such inclusion of land, either by providing for priority of right to water or for the payment of an additional annual charge or such other condition as may to the board seem just. If such inclusion is upon petition of property owners all such property owners must sign and acknowledge an agreement with the district, specifying such conditions and describing the land so to be included. Such agreement must be recorded in the office of the county recorder of the county in which such lands are situated together with a certified copy of the order including such lands, and thereupon such lands shall become a part of this district subject to such conditions.

Nominations for the office of trustees at such recall election shall be made in the manner prescribed in sections four and ten of this act. If the board of trustees refuses to call an election upon the presentation of the petition as above provided, and any property owner within the district claims that such petition is sufficient, such person may apply to the superior court of the

On such ballots under such question there shall be printed names of those persons who have been nominated as candidates to succeed the person recalled in case he shall be removed from office by such recall election; but no vote shall be counted for any candidate for said office unless the voter also votes on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If a majority of all votes cast on said question of the recall of any incumbent from office shall be "No" said incumbent shall continue in said office. If the majority of votes cast on said question of recall shall be "Yes" said incumbent shall thereupon be deemed removed from said office upon the qualification of his successor. The election shall be conducted, canvass of all votes for candidates for said office shall be made and the result declared in like manner as in this act provided for regular elections of the trustees within this district. If the vote at any such recall election shall recall the trustee then the candidate who has received the highest number of votes for the office shall thereby be declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within ten days after having been elected, the office shall be deemed vacant and shall be filled according to the provisions of this act governing the filling of vacancies. The board of directors must meet at its usual place of meeting on the first Monday after each election to canvass the returns. If, at the time of meeting, the returns from each precinct in the district in which the polls were opened have been received, the board of directors must then and there proceed to canvass the returns; but if all

the returns have not been received, the canvass must be postponed from day to day until all the returns have been received, or until six postponements have been had. The canvass must be made in public and by opening the returns and estimating the vote of the district for each person voted for, and declaring the result thereof.

Sec. 28. The secretary of the board of directors must, as soon as the result is declared, enter in the records of such board a statement of such result, which statement must show: (a) The whole number of votes cast in each division of the district; (b) the names of the persons voted for; (c) the office to fill which each person was voted for; (d) the number of votes given in each precinct to each of such persons; (e) the number of votes given in each division for the office of director. The board of directors must declare elected the persons elected according to the provisions of this act. The secretary must immediately make out and deliver to each such person a certificate of election, signed by him, and authenticated with the seal of the board. In case of a vacancy in the office of director, the vacancy shall be filled by appointment by the board of supervisors of Santa Clara county, from the division in which the vacancy occurred. An officer appointed as above provided shall hold his office until the next regular election for said district, and until his successor is elected and qualified.

Within ten days from the date of filing such petition, the secretary of the board shall examine and from the records of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and he shall attach to said petition his certificate showing the result of said examination. If by the said certificate the petition is shown to be insufficient, it may be supplemented within ten days from the date of such certificate, by the filing of additional papers, duplicates of the original petition except as to the names signed. The secretary shall, within ten days after such supplementing papers are filed, make like examination of a supplementing petition, and if a certificate shall show that all the names to such petition, including the supplemental papers, are still insufficient, no action shall be taken thereon; but the petition shall remain on file as a public record; and the failure to secure sufficient names shall be without prejudice to the filing later of an entirely new petition to the same effect. If the petition shall be found to be sufficient, the secretary shall submit the same to the board of directors without delay, whereupon the board shall forthwith cause a special election to be held within not less than thirty-five nor more than forty days after the date of the order calling such election, to determine whether the voters will recall such officer; *provided*, that if a general election is to occur within sixty days, from the date of the order calling for such election, the board may in its discretion postpone the holding of such election to such general election or submit such recall election at any such general election for officers of such district occurring not less than thirty-five days after such order. If a vacancy occur in said office after a recall petition is filed, the election shall nevertheless proceed as in this section provided. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If a majority of those voting on said question of the recall of any incumbent from office shall vote "no", said incumbent shall continue in said office. SEC. 33. For the purpose of constructing or purchasing necessary irrigation canals and works, and acquiring the necessary property and rights therefor, and for the purpose of acquiring waters, water rights, reservoirs, reservoir sites, and other property necessary for the purposes of said district, and for the purpose of reimbursing the general fund of the district for money expended for surveys, examinations, drawings, and plans, in this section provided for, and otherwise carrying out the provisions of this act, or any other act under which said district is or may be authorized to acquire property or construct works, the board of directors of said district must estimate and determine the amount of money necessary to be raised. For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, said board shall cause such surveys, examinations, drawings and plans to be made as shall furnish the proper basis for said estimate. Said surveys, examinations, drawings and plans, and the estimate based thereon may provide that the works necessary for a completed project shall be constructed progressively during a period of years. In the estimate of the amount of money necessary to be raised by the first issue of bonds for any particular project, the board of directors may include a sum sufficient to pay the interest on all of such bonds for three years or less. All such surveys, examinations, drawings and plans shall be made under the direction of a competent irrigation engineer and shall be certified by him. The plans to be carried out may be divided by said board into separate portions or projects in such manner as will in its judgment best facilitate the levying of assessments or issue of bonds, for each particular portion or project in a just and equitable manner according to benefits upon the lands in said district. Said board shall enter in the minutes of the board, a resolution to the effect that the execution of each such separate portion or project which they may determine upon is a public necessity.

SEC. 34. The board of directors shall then submit a copy of the said engineer's report to the commission authorized by law to approve bonds of irrigation districts for certification as legal investments for savings banks and for the other purposes specified in the act creating said commission. Said commission shall forthwith examine said report and any data in its possession or in the possession of said district and shall make such additional surveys and examinations at the expense of the district as it may deem proper or practicable, and as soon as practicable thereafter shall make to the board of directors of said district a report which shall contain such matters as, in the judgment of the said commission, may be desirable; *provided*, that it may state generally the conclusions of said commission regarding the supply of water available for the project, the nature of the soil proposed to be irrigated as to its fertility and susceptibility to irrigation, the probable amount of water needed for its irrigation, and the probable need of drainage, the cost of works, water rights and other property necessary for a complete and satisfactory project, the proper basis for apportionment of benefits and whether in its opinion it is advisable to proceed with the proposed bond issue. If the estimate of the amount of said bond issue shall have included any amount for the payment of interest on the bonds of such issue, as provided in section thirty-three of this act, it shall be lawful for the board of directors, if the issuance of such bonds is thereafter authorized by vote of the electors of the district, to use for the payment of interest on any bonds of such issue so much of the proceeds of the sale of said bonds as may have been approved for that purpose in said report of the commission.

SEC. 35. If after such examination and investigation the said commission shall deem it advisable that the said plans be modified or that the amount of the bonds proposed to be issued be changed, or that certain conditions should be prescribed to insure the success of the project, or that in its opinion it is not advisable to proceed with the proposed bond issue, it shall so state in its report to the board of directors. After receiving said report, or if no report is received within ninety days after the submission of said data to said commission, said board of directors, if it shall determine and shall declare by resolution that the proposed plan of works or some modified plan recommended by said commission is satisfactory and that the said project or said modified plan is feasible, shall make an order determining the amount of bonds that should be issued in order to raise the money necessary therefor; *and provided, further*, that if the district shall issue bonds to carry out any plans

Said assessors must assess upon the lands within said district the said sums so estimated by the board, and shall apportion the same according to the benefits that will accrue to each tract of land in said district, respectively, by reason of the expenditure of said sums of money.

After said assessors have examined the plan or plans of the works contemplated and the said estimates of the cost, they shall make a preliminary report to the board indicating the exterior boundaries of the lands that in their opinion will be benefited by the expenditure. The assessors shall then appoint a time and place in Santa Clara county when and where they will hear objections to the said report, and also evidence concerning the manner in which said estimated costs should be apportioned. They shall give twenty days' notice of said hearing by publication in a newspaper published in said county. They shall exclude any land that will not be benefited by the expenditure of said sums and shall assess all lands that will be benefited thereby. At any time before the date of such hearing any person interested in any real estate upon which any charge has been assessed, may file in the office of the secretary of the board written objections to such assessment, stating the grounds of such objections, which said statement shall be verified by the affidavit of such person or some other person who is familiar with the facts. At such hearing the board shall hear such evidence as may be offered touching

Reapportionment.

SEC. 36. Within thirty (30) days after said lists are filed with the county treasurer an election shall be called and held by the board in that part of said district affected by said assessment or the issuance of said bonds, to determine whether the money necessary to pay the costs of the works and other expenses to be paid out of such assessment shall be raised and whether it shall be raised by calls to be made upon such assessment in such installments as may from time to time be determined by said board, or whether bonds of the district shall be issued in an amount equal to the amount of such assessment, which amount shall be entered by the board in its records and stated by said board in its order for said election, which order shall be entered upon the minutes of said board.

Actions to
determine
validity of
bonds.

SEC. 51. The board shall deliver the bonds prepared pursuant to this act duly signed and attested, to the said county treasurer. Within ten days after said bonds have been delivered to the treasurer, an action may be commenced by the board in the superior court of the State of California, in and for the county of Santa Clara, against the land and all persons owning the same or interested therein, in that portion of the Santa Clara county irrigation district affected by said assessment or the issuance of said bonds, to have it determined that said bonds are a legal obligation of said district. Such action shall be in the nature of a proceeding in rem and the defendants in such action shall be designated as "All persons owning or claiming any interest in or lien upon any lands within the district affected by that certain assessment known and designated as (giving the name and number of the assessment)." It shall be sufficient to describe said lands as all lands affected by such assessment, without a more specific description. A summons shall be issued in such action, which summons, beside the matters required by section four hundred seven of the Code of Civil Procedure, shall contain a statement that the action is brought to determine the validity of the bonds of the district to the amount stated therein executed by the board and delivered to the said county treasurer and based upon and to be paid out of an assessment levied by said board upon lands within the district assessed in and by that certain assessment known and designated as (giving name and number of the assessment). Jurisdiction by the court over all parties interested in said action shall be obtained by publication of a copy of the summons at least once a week for three successive weeks in a newspaper of general circulation published in Santa Clara county, which newspaper shall be designated by the court or a judge thereof. Within thirty days after completion of the publication of such summons any owner of land assessed by said assessment or any one interested in any such land may appear and answer the complaint in such action which answer shall be verified and shall set forth the facts relied upon to show the invalidity of said bonds. The default of all defendants not so appearing may be entered. Such action shall be given precedence in hearing and trial over all other civil actions or proceedings in such court, and judgment shall be rendered therein declaring such bond either

valid or invalid. Any party not in default shall have the right within thirty days after the entry of such judgment to appeal therefrom to the supreme court of this state, which appeal shall be advanced upon the calendar of the court in which the appeal may be pending and shall be determined as early as possible. Judgment for the plaintiff in such action declaring such bonds to be valid shall be considered as a judgment in rem and shall be conclusive against said district and against all lands therein subject to said assessment and bonds and all owners thereof and all other interested persons. Costs may be awarded to or against any party appearing in such action as the court in its discretion may determine. are entered by the county assessor in the assessment book. Such petition must contain the assent of the petitioners to the inclusion within said district of the parcels or tracts of land described in the petition, and of which said petition alleges they are respectively, the owners; and it must be acknowledged in the same manner that conveyances of land are required to be acknowledged.

Notice
of filing of
petition.

SEC. 104. The secretary of the board of directors shall cause a notice of the filing of such petition to be given and published in the same manner and for the same time that notices of elections for the issue of bonds are required by this act to be published. The notice shall state the filing of such petition and the names of the petitioners, a description of the lands mentioned in said petition, and the prayer of said petition; and it shall notify all persons interested in, or that may be affected by such change of the boundaries of the district, to appear at the office of said board, at a time named in said notice, and show cause in writing, if any they have, why the change in the boundaries of said district, as proposed in said petition, should not be made. The time to be specified in the notice at which they shall be required to show cause shall be the regular meeting of the board next after the expiration of the time for the publication of the notice. The petitioners shall advance to the secretary sufficient money to pay the estimated costs of all proceedings under this act.

Hearing of
petition.

SEC. 105. The board of directors, at the time and place mentioned in the said notice, or at such other time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition, and all the objections thereto, presented in writing by any person showing cause as aforesaid why said proposed change of the boundaries of the district should not be made. The failure by any person interested in said district, or in the matter of the proposed change of its boundaries, to show cause, in writing, as aforesaid, shall be deemed and taken as an assent on his part to a change of the boundaries of the district as prayed for in said petition, or to such a change thereof, as will include a part of said lands. And the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent on the part of each and all of such petitioners to such a change of said boundaries that they may include the whole or any portion of the lands described in said petition.

Condition
precedent.

SEC. 106. The board of directors may require, as a condition precedent to the granting of the same, that the petitioners shall severally pay to such district such respective sums, as nearly as the same can be estimated (the several amounts to be determined by the board), as said petitioners or their grantors would have been required to pay to such district as assessments, had such lands been included in such district at the time the same was originally formed.

Order
granting
petition.

SEC. 107. If the board of directors deem it for the best interest of the district that the boundaries of said district be

changed and if no person interested in said district or the proposed change of its boundaries shows cause, in writing, why the proposed change should not be made, or, having shown cause, withdraws the same, the board may order that the boundaries of the district be so changed as to include therein the lands mentioned in said petition or some part thereof. The order shall describe the boundaries as changed and shall also describe the entire boundaries of the district as they will be after the change thereof as aforesaid is made; and for that purpose the board may cause a survey to be made of such portions of such boundary as is deemed necessary; *provided, however,* that any public land of the United States of America adjoining the boundaries of any irrigation district may be included within the boundaries of any such irrigation district by order or resolution of the board of directors of such district without any petition being filed asking for such inclusion; *and provided, further,* that when additional land is included within said district and the board of directors of such district finds either that such inclusion without condition would work an injury to the land already in the district either by an impairment of water right or by requiring a greater expense for furnishing water to the lands proposed to be included, the board may prescribe conditions upon such inclusion of land, either by providing for priority of right to water or for the payment of an additional annual charge of such other conditions as may to the board seem just. If such inclusion is upon petition of property owners all such property owners must sign and acknowledge an agreement with the district, specifying such conditions and describing the land so to be included. Such agreement must be recorded in the office of the county recorder of Santa Clara county, together with a certified copy of the order including such lands, and thereupon such lands shall become a part of said district subject to such conditions.

Conditions
subsequent.

SEC. 108. If any person interested in said district or the proposed change of its boundaries shall show cause as aforesaid why such boundaries should not be changed and shall not withdraw the same or if the board of directors deem it not for the best interests of the district that the boundaries thereof be changed so as to include therein the lands mentioned in the petition or some part thereof, the board shall adopt a resolution to that effect. The resolution shall describe the exterior boundaries of the land which will be included within the boundaries of the district when changed, but before calling the election provided for in the next section, the board may require an undertaking, with sufficient sureties, from the petitioners that they will pay all of the cost of holding such election for the inclusion of such lands in case such inclusion should be denied.

Board may
submit
proposition
to electors.

SEC. 109. Upon the adoption of the resolution mentioned in the last preceding section, the board shall order that an election be held within said district, to determine whether the

boundaries of the district shall be changed as mentioned in said resolution; and shall fix the time at which such election shall be held, and cause notice thereof to be given and published. Such notice shall be given and published, and such election shall be held and conducted, the returns thereof shall be made and canvassed, and the result of the election ascertained and declared, and all things pertaining thereto conducted in the manner prescribed by said act in case of a special election to determine whether bonds of the district shall be issued. The ballots cast at said election shall contain the words "for change of boundary," or "against change of boundary," or words equivalent thereto. The notice of election shall describe the proposed change of the boundaries in such manner and terms that it can readily be traced.

Action of board following election.

SEC. 110. If at such election a majority of all the votes cast at said election shall be against such change of the boundaries of the district, the board shall order that said petition be denied, and shall proceed no further in that matter. But if a majority of such votes be in favor of such change of the boundaries of the district, the board shall thereupon order that the boundaries be changed in accordance with said resolution adopted by the board. The said order shall describe the entire boundaries of said district, and for that purpose the board may cause a survey of such portions thereof to be made as the board may deem necessary.

Record of order changing boundaries.

SEC. 111. Upon a change of the boundaries of the district being made, a copy of the order of the board of directors ordering such change, certified by the president and secretary of the board, shall be filed for record in the recorder's office of Santa Clara county, and thereupon the district shall be and remain an irrigation district, as fully, and to every intent and purpose, as if the lands which are included in the district by the change of the boundaries, as aforesaid, had been included therein at the original organization of the district.

Records in minutes of board.

SEC. 112. Upon the filing of the copies of the order, as in the last preceding section mentioned, the secretary shall record in the minutes of the board the petition aforesaid; and the said minutes, or a certified copy thereof, shall be admissible in evidence, with the same effect as the petition.

Rights of guardians, etc.

SEC. 113. A guardian, an executor, or an administrator of an estate, who is appointed as such under the laws of this state, and who, as such guardian, executor, or administrator, is entitled to the possession of the lands belonging to the estate which he represents, may, on behalf of his ward, or the estate which he represents, upon being thereunto authorized by the proper court, sign and acknowledge the petition in this act mentioned, and may show cause, as in this act mentioned, why the boundaries of the district should not be changed.

Redivision of district.

SEC. 114. In case of the inclusion of any land within the district by proceedings under this act, the board of directors

must, at least thirty days prior to the next succeeding general election, make an order redividing such district into six divisions, which shall be numbered first, second, third, and so on, and a director, or directors, shall thereafter be elected by each division as hereinabove provided. For the purposes of elections, the board of directors must establish a convenient number of election precincts in said districts, and define the boundaries thereof, which said precincts may be changed from time to time by the board of directors in the manner hereinbefore provided.

SEC. 115. All laws of the State of California providing for the dissolution of irrigation districts shall apply to said Santa Clara county irrigation district as to other irrigation districts. Other laws applicable.

AMENDMENT No. 48.

That Sections 9 and 11 of Chapter II of Article II be amended so as to read as follows:

Sale of certain lands and procedure therefor.

Section 9. The City and County of San Francisco shall have power to sell all lands owned by the City and County, excepting lands for parks, squares and children's playgrounds, and subject to the restrictions contained in Sections 11 and 12 of this chapter, and the Board of Supervisors of said City and County may by ordinance determine that the public interest or necessity demands the sale of such lands so owned or held by the City and County.

Such ordinance must describe the lands to be sold, and the terms of sale which must be for cash in United States gold coin. The land may be sold in one parcel or in subdivisions, as the Supervisors may in such ordinance determine, and sales shall be made by the Mayor as hereinafter provided.

Every such sale must be at public auction, unless the Supervisors shall, in and by such ordinance, determine that all or a portion of such lands shall be sold at private sale.

When a sale at public auction is to be had, the Clerk of the Board of Supervisors must give notice thereof by publishing the same in the official newspaper, and one other daily newspaper published in the City and County, at least three weeks successively next before the sale, which said notice shall describe the lands to be sold with common certainty.

Such sales at public auction must be made in the City and County and must be between the hours of 9 o'clock in the morning and 5 o'clock in the afternoon, and must be made on the day named in the notice of sale, unless the same is postponed.

When it shall have been determined by the Supervisors, as hereinbefore provided, that the sale of such lands shall be at private sale a notice shall be published in the official newspaper, and one other daily newspaper published in the City and County, for two weeks successively next before the day on or after which the sale is to be made, and the land and tenements to be sold must be described therein with common certainty. The notice must state a day on or after which the sale will be made, and must state that all bids or offers will be received by the Mayor of the City and County at this office. The day last referred to must be at least fifteen days from the first publication of notice; and the sale must not be made before that day, but must be made within six months thereafter. The bids or offers must be in writing, and must be filed with the Mayor at his office.

No sale of real estate at private sale shall be confirmed by the Supervisors as hereinafter provided unless the sum offered shall be at least 90 per cent of the appraised value thereof, to be fixed and determined as next hereafter provided.

An appraisal of such lands shall be made and filed with the Supervisors, within three weeks after the final passage of the ordinance hereinbefore mentioned, by the Mayor, the Assessor, and the chairman of the Finance Committee of the Supervisors, who are hereby constituted a board of appraisal for such purpose.

When a sale shall have been made by the Mayor, at public auction or at private sale, as hereinbefore provided, he shall require from the person to whom the property is sold a deposit amounting to 10 per cent of the sum bid. He shall immediately thereafter at the next meeting of the Supervisors, report the fact of such sale to the Supervisors with a statement of the sum bid and the name of the bidder, with a request that the Board confirm such sale.

The Clerk of the Supervisors shall immediately thereupon give notice by publication in the official newspaper, and one other daily newspaper published in the City and County, that at a meeting of the Supervisors, to be not less than twenty nor more than thirty days from the first publication of such notice, that such sale has been made, the amount for which the property has been sold and the name of the purchaser. Such notice shall also contain a statement that at such meeting, if an offer of 10 per cent more in amount than that named in said notice shall be made to the Supervisors, in writing, by a responsible person, the Supervisors will confirm such sale to such person, or order a new sale as hereinafter provided.

At such meeting, if it appears to the Supervisors that the sum bid is not disproportionate to the value of the property sold, and that a greater sum cannot be obtained, or if an increased bid, as hereinbefore mentioned, be made and accepted, the Board of Supervisors may, by an ordinance, passed by an affirmative vote, of at least fifteen of its members, confirm such sale, and direct conveyances to be executed by the Mayor. A certified copy of such ordinance shall be recorded in the County Recorder's office in the county in which the property is situated.

The Board of Supervisors may, in its discretion, confirm or refuse to confirm any sale.

In the event of the refusal of the Board of Supervisors to confirm the sale all proceedings taken as hereinbefore provided for the sale of the lands shall be void and of no effect.

If the sale is confirmed by the Board of Supervisors, conveyances must thereupon be made by the Mayor to the person to whom the sale shall have been so confirmed and shall be delivered to him upon payment of the balance of the purchase price. Such conveyances shall be in the name of the City and County, and shall be effective to convey all the right, title and interest of the City and County in and to the lands therein described to the grantee therein named.

Section 11. Whenever the Board of Education shall by resolution determine that any of the lots of land reserved or dedicated for school purposes are inadequate or unsuitable

If the Mayor shall concur in said recommendation he shall report the same to the Board of Supervisors and said Board shall make such sale in the manner provided in Section 9 of this Chapter. The proceeds arising from such sale shall be used exclusively for the purpose of purchasing lands for school purposes or sites for school buildings or for additions to existing sites for school purposes.

(4) All candidates the number of whose votes on the first count equal a majority of votes cast for that office shall then be declared elected.

(5) If no candidate has a majority, the lowest candidate is excluded and his votes only are scrutinized again and the second choice votes are added to the votes of the other candidates as the preferences indicate.

The candidates are in this manner successively excluded until only two are left, the candidate having the majority vote between these two shall be declared elected.

(7) Any tie vote not otherwise provided for in this section shall be decided by lot.

Any recount of the ballots shall be made by the central election authorities in accordance with this section except that the references to voting precincts may be neglected. In any recount every ballot shall be made to take the same course that it took in the original counting unless there is discovered a mistake that requires its taking a different course or unless some candidate has become ineligible since the original counting. In either of these cases any required changes shall be made in the courses taken by the ballot. These principles shall apply also to the correction of any error that may be discovered during the original counting.

(9) The candidates or their agents, representatives of the press, and, so far as may be consistent with good order and with convenience in the counting and transferring of the ballots, the public shall be afforded every facility for being present and witnessing these operations.

No percentage shall be paid for the first five (5) years succeeding the date of the franchise, but thereafter such percentage shall be payable annually; and in the event said payment is not made, said franchise shall be forfeited; provided, further, that if the franchise be a renewal of a right already in existence the payment of said percentage of gross receipts shall begin at once.

Publication must state what.

In case the franchise granted shall be an extension of an existing system of street railroad, then the gross receipts shall be estimated to be one-half of the proportion of the total gross receipts of said system which the mileage of such extension bears to the total mileage of the whole system, and said estimate shall be conclusive as to the amount of the gross receipts of said extension.

If an extension.

Said advertisement shall also contain a statement that the said franchise will be struck off, sold and awarded to the person, firm or corporation who shall make the highest cash bid therefor; provided, only, that at the time of the opening of said bids any responsible person, firm or corporation present or represented may bid for said franchise or privilege, a sum not less than ten per cent. above the highest sealed bid therefor, and said bid so made may be raised not less than ten per cent. by any other responsible bidder, and said bidding may so continue until finally said franchise shall be struck off, sold, and awarded by said Common Council to the highest bidder there-

for in gold coin of the United States. Each sealed bid shall be accompanied with cash or a certified check, payable to the treasurer of said City, for the full amount of said bid, and no sealed bid shall be considered unless said cash or check is enclosed therewith and the successful bidder shall deposit, at least, ten per cent. of the amount of his bid with the Clerk of said City before the franchise shall be struck off to him. And if he shall fail to make such deposit immediately, then and in that case, his bid shall not be received, and shall be considered as void, and the said franchise shall then and there be again offered for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit, as above mentioned. Said procedure shall be had until said franchise is struck off, sold, and awarded to a bidder who shall make the necessary deposit of at least ten per cent. of the amount of his bid therefor, as herein provided. Said successful bidder shall deposit with the Clerk of said City, within twenty-four hours after the acceptance of his bid, the remaining ninety per cent. of the amount thereof, and in case he or it shall fail to do so, then the said deposit theretofore made, shall be forfeited, and the said award of said franchise shall be void, and the said franchise shall then and there, by said Common Council, be again offered for sale to the highest bidder therefor, in the same manner, and under the same restrictions as hereinbefore provided, and in case said bidder shall fail to deposit with the Clerk of said City, the remaining ninety per cent. of his bid, within twenty-four hours after its acceptance, the award to him of said franchise shall be set aside, and the deposit theretofore made by him shall be forfeited, and no further proceedings for a sale of said franchise shall be had unless the same shall be readvertised and again offered for sale, in the manner hereinbefore provided.

provide a safe and suitable foundation for the operation of car lines over a paved street. It is the intent and purpose of this section to relieve the owner of a franchise or privilege to operate street cars on the streets of The City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on either side thereof on streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained, however, shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair flush with the street, and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on each side thereof, and between the tracks if there be more than one, in good condition.

Repair of
right of way.

In the event that a street on which a franchise under this section shall have been granted shall be paved or improved under any of the General Laws in force at the time said improvement is started, the property owners shall be required to bear the entire cost of the improvement of the street including the cost of improving that portion of the street occupied by the owner of said franchise, save and except that portion required to be borne by the owner of the franchise, as hereinbefore provided.

Cost of
paving.

The said Common Council shall have power to regulate the rate of speed, and pass ordinances to protect the public from danger or inconvenience in the operation of such roads, and the rates of fare and charges for transporting passengers and goods thereon shall be subject to the regulation by said Common Council.

Rates of
speed, fare
and charges.

Two or more lines of street railway, operated under different managements, may by lease or contract, use the same street or tracks upon such terms as may have been agreed upon between the companies operating such railways; and two lines of street railway operated under different managements may be permitted to use the same street or tracks for a distance of five blocks without such lease or contract, upon payment of an equal portion for the construction of the tracks and appurtenances used by said railways jointly; but in no case shall a company owning or operating one line of street railway be permitted to condemn the right to occupy and use the same street or tracks for a distance of more than five blocks consecutively.

Joint use

Assembly Constitutional Amendment No. 2—A resolution to propose to the people of the State of California an amendment to section eleven of article six of the constitution of the State of California, relative to inferior courts.

[Filed with Secretary of State May 9, 1923.]

Resolved by the assembly, the senate concurring. That the legislature of the State of California at its forty-fifth regular session, commencing on the eighth day of January, 1923, two-thirds of all the members elected to each of the two houses thereof voting in favor hereof, proposes to the people of the State of California to amend section eleven of article six of the constitution of said state to read as follows:

Constitutional
amendment.

Sec. 11. The legislature shall determine the number of each of the inferior courts in incorporated cities or towns, and in townships, counties, or cities and counties, according to the population thereof and the number of judges or justices thereof, and shall fix by law the powers, duties and responsibilities of each of such courts and of the judges or justices thereof; *provided*, such powers shall not in any case trench upon the jurisdiction of the several courts of record, except that the legislature shall provide that said courts shall have

concurrent jurisdiction with the superior courts in cases of forcible entry and detainer, where the rental value does not exceed seventy-five dollars per month, and where the whole amount of damages claimed does not exceed three hundred dollars, and in cases to enforce and foreclose liens on personal property when neither the amount of liens nor the value of the property amounts to three hundred dollars.

CHAPTER 49.

Assembly Joint Resolution No. 17, relative to memorializing congress to adopt a bill introduced by Hon. John E. Raker to provide compensation in lieu of taxes for the several states with respect to certain lands of the United States within the borders of said states, and for other purposes.

[Filed with Secretary of State May 9, 1923.]

Approval of
bill to
provide
compensation
in lieu of
taxes on
certain
U. S. lands.

WHEREAS, Hon. John E. Raker, member of congress from the second district of California, has introduced a bill in the house of representatives (H. R. 11789), which provides: "That the United States government hereby assumes, subject to the conditions of this act or any subsequent act of congress, the payment to the several states of sums of money equivalent to the amounts which such states would receive from the taxation of said lands of the United States within their respective borders if such lands were owned by individuals;" and

WHEREAS, The amount which California would receive from the taxation of the lands of the United States within the boundaries of the state and "set apart, reserved, or withdrawn under the provisions of section twenty-four of the act of congress approved March 3, 1891," would be over five million dollars annually; and

WHEREAS, This amount would be distributed almost entirely among the remote and mountainous counties of the state, thus greatly benefiting communities where assessed valuations are low by reason of the exemption from annual taxation of the lands of the United States above referred to; and where the cost of building and upkeep of roads and highways is high on account of the mountainous surface; and where the population is sparse because these lands of the United States are withdrawn from settlement, improvement and development under the homestead laws; and where forest depletion contrary to economic demands and forest perpetuation are the results of high taxes; and

WHEREAS, The lands of the United States above referred to, comprising at least half the area of several mountain counties and nearly one-fifth the total area of the state, while exempt from annual taxation, are being put to commercial and industrial uses for the benefit of all the people of the United States, which places these lands on the same basis as to use with assessed and taxed lands used for the same purposes; and

WHEREAS, It is only just and right that a heavy burden of local annual taxation should not be placed on the people of any state in which and by reason of the fact that extensive areas of land and great natural resources are set aside and reserved for the economic use and benefit of all the people of the United States; now, therefore, be it

Resolved by the assembly and senate, jointly, That the legislature of the State of California approves the purposes of the bill referred to and respectfully requests its support and adoption by the congress of the United States at the earliest possible date: and be it further

Resolved, That any moneys returned to the State of California under said, or any similar bill, be so returned to said state for the benefit of the several counties in which any such lands are situated, the same to be paid to said counties in the proportion in which said lands are so situated.

Resolved, That the speaker of the assembly be authorized to transmit copies of this resolution by mail to the governors of the states of Oregon, Washington, Idaho, Montana, Wyoming, Utah, Nevada, Colorado, New Mexico, and Arizona, with the request that similar action be taken by their respective legislatures; and be it further

Resolved, That the speaker of the assembly be authorized to transmit copies of this resolution, by mail, to all the members of congress and the senate of the United States.

[Filed with Secretary of State May 19, 1923.]

Constitutional amendment.

Resolved by the assembly, the senate concurring, That the legislature of the State of California, at its forty-fifth regular session, commencing on the eighth day of January, one thousand nine hundred twenty-three, two-thirds of the members elected to each of the two houses of said legislature voting therefor, hereby proposes to the people of the State of California that section fourteen of article thirteen of the constitution of this state be amended to read as follows:

SEC. 14. Taxes levied, assessed and collected as hereinafter provided upon railroads, and street railways, whether operated in one or more counties; sleeping car, dining car, drawingroom car and palace car companies, refrigerator, oil, stock, fruit, and other car-loaning and other car companies operating upon railroads in this state; companies doing express business on any railroad, steamboat, vessel or stage line in this state; telegraph companies; telephone companies; companies engaged in the transmission or sale of gas or electricity; insurance companies; banks, banking associations, savings and loan societies, and trust companies; and taxes upon all franchises of every kind and nature, shall be entirely and exclusively for state purposes, and shall be levied, assessed and collected in the manner hereinafter provided. The word "companies" as used in this section shall include persons, partnerships, joint stock associations, companies, and corporations.

Taxes for
state
purposes.

(a) All railroad companies, and street railways, whether operated in one or more counties; all sleeping car, dining car, drawingroom car, and palace car companies, all refrigerator, oil, stock, fruit and other car-loaning and other car companies, operating upon the railroads in this state; all companies doing express business on any railroad, steamboat, vessel or stage line in this state; all telegraph and telephone companies; and all companies engaged in the transmission or sale of gas or electricity shall annually pay to the state a tax upon their franchises, roadways, roadbeds, rails, rolling stock, poles, wires, pipes, canals, conduits, rights of way, and other property, or any part thereof used exclusively in the operation of their business in this state, computed as follows: Said tax shall be equal to the percentages hereinafter fixed upon the gross receipts from operation of such companies, and each thereof within this state. When such companies are operating partly within and partly without this state, the gross receipts within this state shall be deemed to be all receipts on business beginning and ending within this state, and a proportion, based upon the proportion of the mileage within this state to the entire mileage over which such business is done, of receipts on all business passing through, into, or out of this state.

Taxes on
public utility
companies.

The percentages above mentioned shall be as follows: On all railroad companies, seven per cent; on all street railways, herein defined to include interurban electric railways and gasoline propelled railways, five and one-quarter per cent; on all sleeping car, dining car, drawingroom car, palace car companies, refrigerator, oil, stock, fruit, and other car-loaning and other car companies, five and one-quarter per cent; on all companies doing express business on any railroad, steamboat, vessel or stage line, one per cent; on all telegraph and telephone companies, five and one-half per cent; on all companies engaged in the transmission or sale of gas or electricity, seven and one-half per cent. Such taxes shall be in lieu of all other taxes and licenses, state, county and municipal, upon the property above enumerated of such companies except as otherwise in this section provided: *provided*, that nothing

herein shall be construed to release any such company from the payment of any amount agreed to be paid or required by law to be paid for any special privilege or franchise granted by any of the municipal authorities of this state.

Taxes on
insurance
companies.

(b) Every insurance company or association, except county fire insurance companies organized under and by virtue of an act entitled "An act to provide for the organization and management of county fire insurance companies," approved April 1, 1897, and all acts amendatory thereof, doing business in this state shall annually pay to the state a tax of two and sixty hundredths per cent upon the amount of the gross premiums received upon its business done in this state, less return premiums and reinsurance in companies or associations authorized to do business in this state; provided, that there shall be deducted from said two and sixty hundredths per cent upon the gross premiums the amount of any county and municipal taxes paid by such companies on real estate owned by them in this state. This tax shall be in lieu of all other taxes and licenses, state, county and municipal, upon the property of such companies, except county and municipal taxes on real estate, and except as otherwise in this section provided; *provided*, that when by the laws of any other state or country, any taxes, fines, penalties, licenses, fees, deposits of money, or of securities, or other obligations or prohibitions, are imposed on insurance companies of this state, doing business in such other state or country, or upon their agents therein, in excess of such taxes, fines, penalties, licenses, fees, deposits of money, or of securities, or other obligations or prohibitions, imposed upon insurance companies of such other state or country, so long as such laws continue in force, the same obligations and prohibitions of whatsoever kind may be imposed by the legislature upon insurance companies of such other state or country doing business in this state.

Taxes on
bank stock:

(c) The shares of capital stock of all banks, organized under the laws of this state, or of the United States, or of any other state and located in this state, shall be assessed and taxed to the owners or holders thereof by the state board of equalization, in the manner to be prescribed by law, in the city or town where the bank is located and not elsewhere. There shall be levied and assessed upon such shares of capital stock an annual tax, payable to the state, of one and forty-five hundredths per centum upon the value thereof. The value of each share of stock in each bank, except such as are in liquidation, shall be taken to be the amount paid in thereon, together with its pro rata of the accumulated surplus and undivided profits. The value of each share of stock in each bank which is in liquidation shall be taken to be its pro rata of the actual assets of such bank. This tax shall be in lieu of all other taxes and licenses, state, county and municipal, upon such shares of stock and upon the property of such banks, except county and municipal taxes on real estate and except as otherwise in this section provided. In determining the value of the capital stock of any bank there shall be

deducted from the value, as defined above, the value, as assessed for county taxes, of any real estate, other than mortgage interests therein, owned by such bank and taxed for county purposes. The banks shall be liable to the state for this tax and the same shall be paid to the state by them on behalf of the stockholders in the manner and at the time prescribed by law, and they shall have a lien upon the shares of stock and upon any dividends declared thereon to secure the amount so paid.

The moneyed capital, reserve, surplus, undivided profits and all other property belonging to unincorporated banks or bankers of this state, or held by any bank located in this state which has no shares of capital stock, or employed in this state by any branches, agencies, or other representatives of any banks doing business outside of the State of California, shall be likewise assessed and taxed to such banks or bankers by the said board of equalization, in the manner to be provided by law and taxed at the same rate that is levied upon the shares of capital stock of incorporated banks, as provided in the first paragraph of this subdivision. The value of said property shall be determined by taking the entire property invested in such business, together with all the reserve, surplus, and undivided profits, at their full cash value, and deducting therefrom the value as assessed for county taxes of any real estate, other than mortgage interests therein, owned by such bank and taxed for county purposes. Such taxes shall be in lieu of all other taxes and licenses, state, county and municipal, upon the property of the banks and bankers, mentioned in this paragraph, except county and municipal taxes on real estate and except as otherwise in this section provided. It is the intention of this paragraph that all moneyed capital and property of the banks and bankers mentioned in this paragraph shall be assessed and taxed at the same rate as an incorporated bank, provided for in the first paragraph of this subdivision. In determining the value of the moneyed capital and property of the banks and bankers mentioned in this subdivision, the said state board of equalization shall include and assess to such banks all property and everything of value owned or held by them, which go to make up the value of the capital stock of such banks and bankers, if the same were incorporated and had shares of capital stock.

Taxes on unincorporated banks.

The word "banks" as used in this subdivision shall include banking association, savings and loan societies and trust companies, but shall not include building and loan associations.

(d) All franchises, other than those expressly provided for in this section, shall be assessed at their actual cash value, in the manner to be provided by law, and shall be taxed at the rate of one and six-tenths per centum each year, and the taxes collected thereon shall be exclusively for the benefit of the state.

Taxes on franchises.

(e) Out of the revenues from the taxes provided for in this section, together with all other state revenues, there shall be first set apart the moneys to be applied by the state to the

School and university funds.

support of the public school system and the state university. In the event that the above named revenues are at any time deemed insufficient to meet the annual expenditures of the state, including the above named expenditures for educational purposes, there may be levied, in the manner to be provided by law, a tax, for state purposes, on all the property in the state including the classes of property enumerated in this section, sufficient to meet the deficiency. All property enumerated in subdivisions *a*, *b*, and *d* of this section shall be subject to taxation, in the manner provided by law, to pay the principal and interest of any bonded indebtedness created and outstanding by any city, county, township or district, before the adoption of this section. The taxes so paid for principal and interest on such bonded indebtedness shall be deducted from the total amount paid in taxes for state purposes.

Provisions self-executing, etc.

(*f*) All the provisions of this section shall be self-executing, and the legislature shall pass all laws necessary to carry this section into effect, and shall provide for a valuation and assessment of the property enumerated in this section, and shall prescribe the duties of the state board of equalization and any other officers in connection with the administration thereof. The rates of taxation fixed in this section shall remain in force until changed by the legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section and shall become due and payable on the first Monday in July thereafter. The gross receipts and gross premiums herein mentioned shall be computed for the year ending the thirty-first day of December prior to the levy of such taxes and the value of any property mentioned herein shall be fixed as of the first Monday in March. Nothing herein contained shall affect any tax levied or assessed prior to the adoption of this section; and all laws in relation to such taxes in force at the time of the adoption of this section shall remain in force until changed by the legislature. The state shall reimburse any and all counties which sustain loss of revenue by the withdrawal of property from county taxation for the net loss in county revenue occasioned by the withdrawal of such property from county taxation. The legislature shall provide for reimbursement from the general funds of any county to districts therein where loss is occasioned in such districts by the withdrawal from local taxation of property taxed for state purposes only.

Suits to recover or enjoin tax.

(*g*) No injunction shall ever issue in any suit, action or proceeding in any court against this state or against any officer thereof to prevent or enjoin the collection of any tax levied under the provisions of this section; but after payment action may be maintained to recover any tax illegally collected in such manner and at such time as may now or hereafter be provided by law.
