My Dear Mrs. Chapman

Well, we have survived five days of Terrific weather and last night had a storm which brought the temperature down to a cool point. Received your card regarding the freezer and have it packed and ready to go but the express Co., would not come for it before Monday or Tuesday of next week. I phoned Mr. Peterson and he is going to pick it up the first day he is down this way and take it to the Express office.

Received the following dividends which I am depositing to-day.

Suppose you saw the account of the Earl Diverce in the paper. He certainly must be one rare bird. Fine example of a gentleman. Have heard nothing further from Bill. As far as we know they are still tied up in Naples.

Remember me to everyone and best regards,

Yours very truly,
