---

---

**TERMS**—Invariably cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Bank Draft.

It is important that you order early. For the benefit of customers who wish to order early, but who do not care to spare all of the money when the order is sent, we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

**DIRECTIONS FOR ORDERING**—Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when the stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

**FREE FREIGHT, FREE EXPRESS**—On all orders over \$10.00, accompanied by full remittance, we will **prepay** the Freight or Express charges to your R. R. Station if east of Denver, Colo., and El Paso, Tex.

**THE PRICES** are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates respectively.

**PACKING**—All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customers' best interest. Everything is labeled.

**OUR GUARANTEE**—The fact that nurserymen, planters and fruit-growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of thirty-three years' standing. But if any mistakes occur we will cheerfully rectify them.

We use the greatest care possible to have our stock true to name, and should any prove not true, we stand ready to replace it free of charge or to refund the purchase money, but do not hold ourselves liable for any greater amount than the first cost of stock that may prove not true.

All our shipments of trees will be accompanied by **Certificate of Inspection of Prof. J. M. Stedman, Entomologist**. This is a guarantee to the buyer that our stock is free from all disease. Missouri-grown trees are the best Good stock, true to name, sold direct to the planter at reasonable prices is our aim.

**OUR LOCATION** is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first-class and we have special low **Express rates**.

Remember that we pay the **Freight or Express Charges on all orders amounting to over \$10.00 and guarantee safe arrival of shipments**.

We solicit Correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

**NEW HAVEN NURSERIES**  
(J. Bagby & Sons Co.) NEW HAVEN, MISSOURI

## Remarks on Varieties, Sizes, Etc.

We wish to say that the **small size trees are strictly first-class and well rooted**, and by many will be preferred to the larger size.

**VARIETIES**—So many ask, "What should I plant in my locality?" that we will here name a few of the popular and profitable sorts for general planting.

**APPLES**—Ben Davis, Jonathan, Mam. Black Twig, Gano, York Imperial, Home Beauty, Wine Sap, Grimes' Golden, Maiden Blush, Yellow Transparent. This is our **Commercial List**. Others would add perhaps, **Wealthy, Arkansas Black, Ingram, Missouri Pippin, Duchess of Oldenburg**, etc. All of the above are good profitable sorts, both for home use and the market.

**PEACHES**—If you want to market your fruit, avoid planting too many early sorts. **Reeves, Queen, Carman, Family Favorite, Fitzgerald, Champion, Mixon Free, Stump, Elberta, Heath Cling, Miller Cling, Chair's Choice, Capt. Ede, Gold Dust, Gold Medal, Salway, Golden Gate and Crawford's Late** are all profitable for market. Should early sorts be desired, **Triumph, Alexander** and **Sneed** are what you should plant. If for home use, plant general assortment, including above, for a succession. Be sure to include **Golden Gate, Queen and Carman**. The peach tree should have the shoots and branches shortened every year or two. The land should be kept in a high state of cultivation.

**PEARS**—The fact is more and more apparent that **Kieffer and Garber** will stay in the lead for **profit**. **Duchess, Seckel, Bartlett, Jersey**, etc., should also be in most orchards.

**CHERRIES**—Early **Richmond, Dychouse, Montmorency, Wragg, English Morello** (sour), **Gov. Wood, Elton and Magann** (sweet), do very well and are profitable. **Try the sweet variety—MAGANN.**

**PLUMS**—Wild Goose (native), **Common Damson, Shrop. Damson, German Prune** (European), **Abundance, Wickson, Red June and Burbank** (Japanese)). are all good bearers and profitable. We consider the **Abundance, Wickson, Red June and Burbank** the best of the well-known Japanese sorts. Try some or all of the **Japan sorts**.

**THINNING FRUIT**—When the trees are heavily laden, the fruit should be thinned when about one-third grown, else the fruit will be poor and the trees injured. The necessity for thinning was fully demonstrated during the dry summer of 1901.

**WHOLE ROOT TREES**—Pear, Peach, Plum and Cherry trees are all grown on "whole roots." Our Apples are all on so-called whole roots, grafted and planted so that the cion also roots. Don't pay extra prices for "trade-marks." We give our customers the **very best**, and we don't ask **two prices**. A trial order will convince you.

**NOTE**—That we offer heavy budded one year apple trees—budded above ground—on branched root stocks (whole roots). Our one-year buds are equal to two-year grafts, grown by many nurserymen.

Our shipments for Fall of 1903 and Spring of 1904 consisted of **over one million fruit trees**, which went to thirty-six states and territories. These shipments were twenty-six furniture car load lots, closely packed in bulk, 1,148 cases and 618 bales in less than car load lots. A total of about sixty-five furniture car loads. Some of the materials required for the above shipments are as follows: 100,000 feet of lumber for cases; three furniture car loads moss and excelsior for packing roots of trees; 120,000 labels; 16,000 pounds of paper and twine. We are now growing on our premises over two million fruit trees, all clean and healthy; nothing over two years from bud or graft.

# NEW HAVEN (MISSOURI) NURSERIES

A Portion of Block of 900,000 Apple Trees.

## Apple Trees

Our apple are all grown on Missouri River upland, are well rooted, smooth, clean and well grown in every respect. **No better Trees can be found anywhere.** We offer also **Budded Trees**, which are ideal. They are smooth and clean with **splendid roots**.

	Each	10	100	1000
1 year old, 2 to 4 feet.....	\$0.07	\$0.70	\$6.00	\$45.00

### SELECT VARIETIES.

**SUMMER APPLES**—*Carolina Red June* (Red June)—Medium size, red; flesh white. Last of June.

**Duchess Oldenburg**—Russian—Medium to large size; skin yellow, streaked with red and somewhat blushed. Productive; August.

**Early Harvest**—Medium to large, bright straw color; flesh white. Tree moderately vigorous and productive; one of the best. First of July.

**Keswick Codlin**—Large, excellent for cooking; productive and early in bearing. July and August.

Prosser, Washington, March 31, 1903.

"Your invoice of trees shipped the 5th inst., received the 27th inst. In spite of the long time in transit, trees are in first-class condition, and I am much pleased with the kind of stock sent, being much finer than I expected."

F. W. NEESLY.

# NEW HAVEN (MISSOURI) NURSERIES

---

## Apple Trees—Continued

---

**Red Astrachan**—Large, crimson, handsome; rather acid, but good and crisp; profitable. Early.

**Summer Queen**—Medium to large; surface yellow, blotched and streaked with red; flesh yellow. August.

**Yellow Transparent**—This valuable Apple is said to be of Russian origin. However, we find it to be a very valuable addition to our list. Fruit medium to large; nearly white.

**FALL APPLES—Maiden's Blush**—Rather large, evenly shaded red cheek or blush on a clear pale yellow ground; bears large crops. August and September.

**Rambo**—Medium; streaked with dull red and somewhat dotted, productive and vigorous. September to November.

**Rome Beauty**—Large, yellow, shaded with red; tender, juicy, sub-acid. October to February.

**Wealthy**—An apple of fine appearance and quality an early and profuse bearer; a good market apple of its season. Tree hardy; in size and beauty it equals Baldwin, and is a better dessert apple. Ripens here in August. Winter apple North.

**WINTER APPLES Arkansas Black**—Origin Bentonville, Arkansas. The tree is a beautiful upright grower, young wood very dark. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly sub-acid, crisp. One of the best cooking apples; vigorous. January to May.

**Ben Davis**—Fruit medium to large, flesh white; an excellent variety. Tree very hardy, a free grower, coming into bearing early, and very productive; very popular. December to March.

**Clayton**—Large, conical, flattened, regular; red, with darker stripes; flesh yellow, breaking sub-acid. Tree a strong grower, long lived. December to March.

**Grimes' Golden**—Medium to large; rich golden yellow; flesh tender, mild, sub-acid. Should be gathered before turning yellow and put in a cool place, and often keeps until February. For canning purposes it nearly equals the pear. Tree hardy, vigorous; an early and abundant bearer. November to January.

**Huntsman's favorite**—Originated in Johnson County, Missouri. Very large; golden yellow, with bright red cheek; nearly sweet, fine flavor, very aromatic. One of the best and highest selling market apples; tree very healthy and moderately productive. November to January.

**Gano**—This apple was introduced to the public in 1886. Tree very hardy; it bears very young. Fruit bright red on yellow ground, no stripes; large, oblong, tapering to the eye; surface smooth, takes a very high polish, making it valuable as a stand fruit; flesh white. An early, annual and prolific bearer. December to May.

**Ingram**—A seedling of the old Janet. Originated near Springfield, Mo. Its habits are similar to the Janet, but the tree is a more upright grower, and the apple is not subject to crack. Size medium; striped bright red in the sun; flesh greenish yellow, agreeable, sub-acid flavor; good keeper. Tree hardy, late bloomer and very productive.

**Janet**—Rawle's Janet—Medium, roundish, greenish yellow, striped with red; rich and juicy, one of the best and longest keepers in the South and Southwest; valuable for its high quality and its late blooming; moderate grower. January to March.

# NEW HAVEN (MISSOURI) NURSERIES

---

## Apple Trees—Continued

---

**Jonathan**—Fruit medium, roundish; skin yellow, nearly covered with dark or lively red; moderate grower. One of the best apples for home use or market. October to January.

**Mammoth Black Twig**—Supposed to be seedling of the Wine Sap, but tree a better grower in the nursery and fruit much larger; or, in other words, an improved Wine Sap. Tree a fine, upright, spreading grower.

**Missouri Pippin**—Large, oblong, bright red, with numerous gray dots, very handsome, fair quality, an early and very abundant bearer, and very profitable. December to March.

Jonathan.

**Payne's Keeper**—Is a magnificent winter apple, selling higher than any other variety on the market. Our stock is from the original orchard of the Payne Sisters, near Everton, Mo. The tree is a slow grower in the nursery, and we offer 2-year-olds, 4 to 5 feet, at 20c each, 10 for \$1.50, 100 for \$11.00.

**Salome**—A northern Illinois apple, said to be very hardy, bearing early and abundantly. Resembles the Janet in size and color; a good keeper. January to April.

**Talman's Sweet**—Medium; pale yellow, slightly tinged with red; firm, rich and very sweet; valuable baking apple; vigorous and productive. November to April.

**Vandevere**—An old and popular sort for home use.

**Winesap**—Medium, dark red; a favorite market variety in the West. November to April.

**Wolf River**—Very large and handsome; flesh whitish, sub-acid, a good bearer. November and December.

**York Imperial**—This apple has been gaining in favor, and is being planted largely in the West as a commercial sort. Large.

We also grow **North Western Greening, Western Beauty, Snow, Baldwin.** We pay the Freight on all orders amounting to over \$10.00. Get your neighbors to join with you in an order.

**Crab Apples, Hyslop, Whitney, Transcendent, at same price as other apples.**

# NEW HAVEN (MISSOURI) NURSERIES

## Peach Trees

We are the largest growers of Peach Trees in the West and can supply in any quantity—the best **up-to-date market sorts**. Our Peach are stocky, nicely headed, smooth, straight bodies, well rooted, on healthy Peach stocks and free from any disease. Remember this in comparing prices with eastern establishments. **Freight Paid to Your Station**, on conditions mentioned. Prices as follows, unless otherwise indicated. We indicate the season of ripening here:

	Each	10	100	1000
1 to 2 feet, well rooted, 1 year from bud.....	\$0.06	\$0.50	\$5.00	\$30.00
2 to 3 feet, well rooted, 1 year from bud .....	.08	.75	6.00	40.00
Medium, 3 to 4 feet, nice, well branched .....	.10	.90	7.00	60.00
First class, 3½ to 5 feet, nicely headed .....	.12	1.00	9.00	75.00
Extra select, 4½ to 6 feet .....	.15	1.25	10.00	90.00

Prices on June bud Elberta, in quantities, on application.

### SELECT VARIETIES.

**Alexander Early**—Large size, handsome and regular in form, with deep maroon shade; adheres to the stone; should remain on the tree until fully ripe. White flesh. Last of June.

**Briggs Red May**—Medium size, very highly colored; flesh greenish white, very juicy, vinous, and of very good quality; adheres somewhat to the stone; of firm texture; tree very prolific. Ripens fully ten days later than Amsden.

**Champion**—Originated at Nokomis, Illinois. Fruit large, beautiful in appearance; flavor delicious, sweet, rich and juicy; skin creamy white, with red cheek; freestone. August 15.

**Chinese Cling**—Most popular Southern peach, oblong, creamy skin, with faint flashes of red. August.

**Crawford's Early**—This beautiful yellow peach is highly esteemed for market purposes. Fruit very large, oblong, skin yellow, with fine red cheek; flesh yellow, juicy, sweet and excellent, free. Last of July. Would not advise planting this sort north of Central Missouri.

**Crawford's Late**—Fruit of the largest size; skin yellow, or greenish yellow, with dull red cheek; flesh yellow; productive; one of the best; free. August and September.

**Chair's Choice**—Large, late, yellow. One of the best for home or market planting.

---

**On Club Orders amounting to over \$25.00, 10 per cent additional in stock will be allowed.**

---

Ralls County, Missouri, August 1st, 1904.

I wish to say I have been buying and planting trees for nearly thirty years. In that time I have bought fruit trees from many nurseries, but I can, in all candor and truth, say you are the only people from whom I have bought trees where the trees were always true to name and possessed all the qualities of first-class stock. I am somewhat particular, but in our dealings for over thirteen years there has never been a point of difference between us. You have a good name and you deserve it. It has been honestly won.

R. DALTON.

## *Peach Trees—Continued*

**Capt. Ede**—Originated on farm of Capt. Ede in Illinois. Is a splendid yellow freestone variety. In appearance very much like Elberta, which it equals in every way, except not quite so large, and is better quality.

**Crosby**—If you want peaches every year, try some Crosby. It is of large size, rich orange yellow, splashed with red and of best quality. Midseason.

**Elberta**—A Georgia cross between Crawford and Chinese Cling, very large, well colored; all things considered the finest yellow freestone in cultivation; no one can go amiss by planting it; fruit perfectly free from rot, and one of the most successful shipping varieties. August 20th.

**Elberta.**

**Emma**—A popular new sort of Southern origin.

**Family Favorite**—Free, seedling of Chinese Cling, of better color, large, clear, waxy complexion with blush, prolific, firm, valuable for shipping, canning or drying. Last of July.

**Foster**—Same season as Crawford's Early, but much more productive; yellow, with red cheek; quality best; good size.

**Gold Dust**—If you want the very best canning variety, this is the peach. Large yellow clingstone; juicy, productive and of best quality. Season, September 15th to 20th.

**General Lee**—An improved Chinese Cling; very valuable. August 20th.

**Globe**—An improvement on Crawford's Late; fruit large, globular, of a rich golden yellow with a red blush, flesh yellow, juicy. August.

**Henrietta**—(Levy)—Magnificent yellow cling, large size, mostly covered with bright crimson; hardy, productive; always commands fancy prices. September 25th.

**Heath Cling**—Large, oblong, creamy white, slightly tinged with red in the sun; very tender, juicy, melting; very rich and luscious. September 15th.

**Mountain Rose**—Large, red; flesh white, rich, juicy, excellent. Season August 1st.

**Miller Cling**—An extra large clingstone. Hardy, productive, and of best quality. We consider it the best white clingstone, ripening early in September.

**Muir**—A small yellow freestone. Hardy; productive. September.

# NEW HAVEN (MISSOURI) NURSERIES

## Peach Trees—Continued

**Old Mixon Cling**—Large, with red cheek; juicy, rich and high flavored; one of the best clingstone peaches. White flesh. August 15th.

**Old Mixon Free**—Large, white flesh, with deep red cheek; rich and good; one of the best. August.

**Picquet's Late**—A variety of large size; yellow, with red cheek; flesh yellow; freestone. September.

**Ringgold Cling**—Much larger than Heath, every way an improvement on that popular kind. September 1st.

**Reeve's Favorite**—Flesh yellow, tree hardy and productive; unexcelled quality; one of the best and most reliable yellow market peaches. Season about August 10th.

**Salway**—Fruit large, yellow, with red cheek; flesh yellow; a late showy market sort; freestone. Last of September.

**Smock Free**—Fruit large, skin orange yellow, mottled with red, a good market sort. September 15th.

**Sneed**—Ripens earlier than Alexander, and belongs to an entirely different type; it is very distinct in tree and fruit, belonging to the Chinese Cling type; size medium.

**Stump the World**—Very large, roundish; skin white, with a bright red cheek; flesh white; freestone. End of August.

**Susquehanna**—One of the handsomest peaches; large, yellow flesh; rich and good; freestone. September.

**Thurber**—A seedling of the Chinese Cling, which it resembles in size and color; skin white, with light crimson mottlings; freestone. Ripens in August.

**Triumph**—The earliest yellow peach known. Productive, hardy and profitable for market. Originated in Georgia.

**Wonderful**—Color rich yellow; flesh yellow, highly flavored, firm. Ripens in October.

**Wheatland**—Large, roundish, skin golden yellow shaded with crimson on the sunny side; flesh yellow and of fine quality; tree vigorous. August and September.

### SPECIAL SORTS.

	Each	10	100	1000
4½ to 6 feet, select, ½ up .....	\$0.25	\$2.00	\$12.00	\$100.00
3½ to 5 feet, first class .....	.25	1.50	10.00	85.00
3 to 4 feet, well branched .....	.15	1.00	8.00	70.00

**Athens**—The finest yellow cling in existence. Very large, hardy and productive. Season September.

**Barnes**—A late Blood Cling. Season October 1st.

**Carman**—White flesh, large with beautiful mottled red cheek. A valuable home or market sort. Season about ten days later than Alexander and about two weeks earlier than Elberta. Our stock came from the originator.

**Fitzgerald**—Of Crawford type. A seedling found at Oakville, Ont., where it stands the winter perfectly, is undoubtedly very hardy. Quality first-class, freestone, and we recommend it with entire satisfaction.

**Gold Medal**—Elberta shape and color, larger and about ten days later than Elberta, but not quite so prolific; freestone.

**Golden Gate**—Originated by Dr. Smith, of Hermann, Mo. Very productive, large, beautiful yellow. Season a week later than Elberta.

**Queen**—A very late September variety. Originated in Howell County, Missouri; Freestone, white flesh, red cheek. Season September.

**Lady Ingold**—In great demand as a popular market sort. Yellow, Free.

**Miller Cling Peach**—An extra large clingstone. Hardy, productive, and of best quality. Earlier season than Heath Cling, but large and better color. We consider it the **best of all clingstones.**

**Matthews Beauty**—Originated in Georgia. A late yellow freestone. Fully as large as Elberta and two weeks later. Would advise extensive planting of this sort.

## Plums

	Each	10	100	1000
First Class trees, 5 to 6 feet, 11-16 up.....	\$0.35	\$3.00	\$25.00	\$200.00
First Class trees, 4 to 5 feet .....	.30	2.50	20.00	170.00
First Class trees, 3 to 4 feet .....	.25	1.70	15.00	130.00
Small size trees, 2 to 3 feet .....	.20	1.50	10.00	85.00

### OUR SELECT LIST OF VARIETIES.

**Abundance**—A hardy, productive Japanese sort. Large purplish red; quality very best. Season, early in July.

**Burbank**—Large, varying less in size than the other Japanese Plums; it is nearly globular; clear cherry-red, with a thin lilac bloom; flesh deep yellow, firm and meaty, tree vigorous and productive.

**Common Damson**—Well known and very productive. Season September.

**Golden Beauty**—Round; rich golden yellow; very firm; small seed, nearly free, excellent in quality, immensely productive. September.

**German Prune**—Very profitable, and will succeed wherever Common Damson can be grown. Very large. We consider it the best of European sorts. August and September.

**Ogon**—It is large, nearly round; of the brightest golden yellow; flesh firm, sweet, rich and dry; ripens a little earlier than Abundance or Botan. Freestone.

**Red June**—One of the best Japanese varieties. Ripening before Abundance. Tree upright, vigorous, hardy.

**Shropshire Damson**—A plum of fine quality, sprightly. In market it has commanded nearly double the price of the Common Damson, and is enormously productive. Last of September.

**Willard**—One of the imported Japanese varieties, ripening before Abundance. When ripe is dark red. Very early, but poor quality.

**Wild Goose**—Large, rich, crimson, beautiful flesh, soft, rich, melting, delicious, with a full, fruity flavor. Tree a strong grower, prolific. This variety is among plums what the Ben Davis is among apples—referring to the American class of plums. July.

**Wickson**—We regard this as the best of the late ripening Japan sorts. Readily parts from the seed. Extra large and we can advise extensive planting for home and market. Season August.

# NEW HAVEN (MISSOURI) NURSERIES

## Standard and Dwarf Pear Trees

Our Pears are especially clean, smooth and well rooted, grown on XX French imported stocks. Varieties marked D. and S. can be supplied in either standard or dwarf.

	Each	10	100	1000
Leading sorts, first-class, 5 to 7 feet, 2 yrs....	\$0.40	\$2.50	\$18.00	\$160.00
Leading sorts, 4 to 6 feet, 2 yrs., 5/8 to 3/4.....	.30	2.00	16.00	130.00

Leading sorts, sours, small size, 1 yr., 1½ to 2½ ft.	.20	1.50	12.00	90.00

### OUR SELECT LIST OF VARIETIES.

**Baldwin**—A new variety of great promise, hardy and said to be productive.

**Dyehouse**—Very early and sure bearer; ripens before Early Richmond; but not quite as productive. May.

**English Morello**—Medium to large; blackish red; acid; juicy. Very productive. July.

**Early Richmond**—(Kentish, Virginian or Early May)—Medium size, red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is exceedingly productive. First of June.

**Elton**—A splendid sweet sort, about ten days later than Gov. Wood, which it somewhat resembles.

**Gov. Wood**—One of the best cherries; very large, light red, juicy, rich and delicious. Tree healthy and a great bearer. May and June.

**Montmorency**—No doubt one of the finest acid cherries; tree very hardy and an immense bearer; commences to fruit while young, and is loaded annually thereafter with fine crops; fruit of good size, fine flavor, and of bright, clear,

shining red; valuable everywhere, especially for northern latitudes; larger than Early Richmond, and fully ten days later. End of June.

**Magann Cherry**—A new hardy, sweet cherry. Original tree in Franklin

# NEW HAVEN (MISSOURI) NURSERIES

## Cherry Trees—Continued

County, Missouri, supposed to be about forty years of age, and producing annually. Fruit large, almost black when fully ripe, growing in large clusters. It will pay you to include some of these in your order for other stock.

**Wragg**—Originated in Iowa. Medium to large in size, long stem, dark purple when fully ripe. A variety well adapted for the high latitude and prairie regions of the Northwest. This is the very best late sour variety. July.

## Apricot Trees

## THE NEW HAVEN NURSERIES.

From the Franklin County Tribune.

While in New Haven recently, the Tribune editor took dinner, as usual when in that city, with his old friend, Robert J. Bagby, treasurer and active manager of the New Haven Nurseries. After dinner we gladly accepted an invitation from Mr. Bagby to take a ride over the nurseries.

As the citizens of Franklin County outside of New Haven and vicinity, have but little conception of the magnitude and rapid growth of this institution in the past few years, a brief description of the same may not be inappropriate. The nursery business of Bagby & Sons Co. was started about 1870 by Julian Bagby on a forty acre farm on Cedar Fork, twelve miles south of New Haven; when we first saw the nursery as a boy, it comprised less than five acres. Here the business prospered in a small way and the farm on Cedar Fork was sold and a small track was bought just within the city limits of New Haven and the nursery was moved there to offer better shipping facilities. The Tribune has not the space to describe the growth and expansion of the business for the last thirty years at New Haven. How well this business has prospered is attested by the fact that the nursery now comprises between four and five hundred acres of rich Missouri River bluff land, which is one of the finest and most productive soils in the world. Here on this land is grown the young trees that have made the New Haven Nurseries known from the Atlantic to the Pacific oceans and from the Canadian border to the Gulf of Mexico, for the New Haven Nurseries shipped goods last year to thirty-three states and territories. The New Haven Nurseries have all the appliances, conveniences and most approved methods for handling their young trees quickly and safely. They have large cold storage buildings in which to keep their trees at the proper temperature and moisture. They can be shipped whenever the weather is suitable and the shipper does not have to wait for the ground to be in condition for digging.

In going through the nursery one could not help noticing the absolute cleanliness of everything, no weeds were in sight, which indicated thorough cultivation. To see the acres and acres of thrifty young trees made us almost wish that we owned the entire Franklin County, so we could plant

# NEW HAVEN (MISSOURI) NURSERIES

all this vast amount of apple, peach, pear, cherry, plum and other trees which were seen to be growing in this nursery. It was one of the prettiest sights we ever beheld. The Bagbys keep about fifty men employed the year round. When we were there most of them were going over the young peach trees rebudding where the first budding had failed to set. Others were employed in planting peach pits, the firm having just received a car-load; others were engaged in counting the number of trees of each kind and variety. It is a part of the system of the firm to carefully count and classify their growing trees so that they will know just how many of each kind they will have to market. There are now between two and three million young trees in the nursery and one may know that it is a task to merely count the trees. The trees are not only counted, but are classified in four grades and each grade counted. After looking at the immense fields and blocks of growing trees one can well believe that every tree sold by the Bagbys is grown by them. The young seedling plum, pear, quinces and cherry trees, however, are imported from France and are budded after they have been planted in the nursery. Statistics as a rule are dry reading, but we were so impressed with the extensiveness of the business that after we returned to the office we asked Mr. Bagby to give us a few figures relative to the present business of the firm, this he kindly consented to do, taking all his facts and figures from the books of the company. The shipments during the last season were as follows:

STATES	Cars	Boxes	Bales	Weight	Trees
Arizona .....		1		800	218
Alabama .....		4	1	2,740	3,150
Arkansas .....	3	99	30	141,525	144,108

# NEW HAVEN (MISSOURI) NURSERIES

---

There are now growing in the nursery over one million peach trees of which 400,000 will be for sale this fall, and besides these they have just budded 600,000 to be for sale in two years, one-half million of apple trees, which will be on the market this season; 200,000 cherry trees, 50,000 of which are for sale; 100,000 pear, one and two year old, 52,000 plum trees for sale and 90,000 just budded, besides various other trees, shrubberies, flowers, etc. We would advise any Franklin County citizen or anyone else for that matter, to pay the New Haven Nursery a visit. It would be well worth the time.

We called on our young friend Wm. J. Godt, postmaster of New Haven, who bears the reputation of being one of the most accommodating postmasters in the country. He was also rejoicing over the fact that on October 1 his office would be raised from the fourth class to a presidential office. This he said was entirely due to the increasing business of the New Haven Nurseries. Other incidents of our New Haven trip will be mentioned later.

---

**Extract from paper read before the Missouri State Horticultural Society at New Haven, June 5th. Suggestions on Peach Culture. By W. R. Wilkerson, President State Board of Agriculture and Vice President Apple Growers' Congress:..**

I prefer Missouri-grown trees, one year old from bud, and know of no better nursery than the one situated right here in New Haven, Mo. I have bought thousands of these trees from them and have always found their output true to name, and good trees in every respect.

## *What Some of Our Customers Say*

J. W. George, Creek County, I. T., April 13, 1904

"Our trees arrived in excellent shape. You can look for more business from this part next year."

L. S. Shibley, Carroll County, Ark., December 10, 1903.

"The trees shipped to Berryville, Ark., arrived yesterday in good shape and seemed to give good satisfaction."

J. J. Britt, Benton County Ark., November 22, 1904.

"The 10,000 peach trees arrived a week ago. All in good condition and a very fine lot of little trees. They look to be all Elberta. The entire 10,000 all go to one man, all set in one orchard and I had to give him my guarantee that they are Elberta and this is the reason I ordered them from you. I could have bought them a little cheaper, but I thought I'd run no risk if I bought from Bagby & Son."

P. R. Craven & Son, Washington County Ark., March 25, 1904.

"Our trees arrived on the 25th. All in good condition."

W. C. Moreduke, Chariton County, Mo., April 28, 1904.

"Cherry trees received all right. They are very fine."

T. C. McIntyre, Boone County, Mo., April 20, 1904.

"The box of trees received yesterday. Well pleased with them."

A. Wampler, Johnson County, Mo., April, 1904.

"Am well pleased with the trees, and for fair dealing and prompt delivery I recommend the New Haven Nurseries to my friends and neighbors."

John Johnson, Henry County, Mo., April 5, 1904.

"Trees arrived all O. K. Am well pleased."

Anderson, Putnam County, Mo., March 25, 1904.

"Cherry trees arrived all O. K."

Z. T. Russell, Jasper County, Mo., March 23, 1904.

"The trees ordered of you this spring, and shipped by you this spring, have been received and are in the best condition; packing all right, and trees clean and healthy and fully up to grade, or in some cases over."

Sid Mixon, Barry County, Mo., March 28, 1904.

"The bill of trees I ordered of you have been received, and I found them in first-class condition. The people in this section bought trees from a nursery in New York, and all that saw mine say they wished they had ordered from you."

# NEW HAVEN (MISSOURI) NURSERIES

---

J. A. Durkes, Platte County, Mo., March 30, 1904.  
"Have received the trees, and they opened all right in perfect condition. Am well pleased with them."

C. L. Manley, Lawrence County, Mo., April 2, 1904.  
"The trees come yesterday and all right."

Prof. W. L. Howard, Columbia, Mo., Nov. 20, 1903.  
"The two boxes of trees arrived in good condition. The trees are about the size that I desired; in the main they are entirely satisfactory."

W. G. Gano, Parkville, Mo., August 17, 1904.  
"Trees checked out all O. K. Splendid trees. Grade and promptness could not be better. All the trees we have bought of you have proven to be very vigorous and healthy and true to name."

C. H. Dutcher, Pres. State Hort. Society, Warrensburg, Mo., Aug. 19, 1904.  
"My dealings with your firm have always been highly satisfactory."

W. R. Wilkinson, St. Louis, Mo., August 10, 1904.  
"I have sold my peach crop on the trees at a good price; quality No. 1. I expect to plant a big block again next year, and shall want your trees. All Elberta."

C. R. Pile, Carlisle County, Kentucky, August 27, 1904.  
"I send you today photo of my orchard. I can say for you that I have bought many fruit trees, etc., from you for myself and others for many years, and have always found them O. K."

W. Q. Daniels, Jefferson County, Kan., August 8, 1904.  
"Have planted 2,000 trees from your nurseries in the past five years, all of which have given perfect satisfaction. Have planted trees from other nurseries beside yours. The other fellow's agent had to admit your trees were the best. Expect to continue to deal with your firm."

H. A. Darting, Harrison County, Iowa, August 2, 1904.  
"In reply to your favor will say we have some very fine trees growing which came from your nursery."

George L. Wood, Jefferson County, Ill., March 21, 1904.  
"I received your trees last Friday. Opened them the following day. I must say I was surprised to find the trees in such excellent condition; just as you represented them, if not better."

J. W. Palmer, Washington County, Ill., April 13, 1904.  
"Trees arrived all right today, and am well pleased with them."

J. T. Sharp, Montgomery County, Ill., April 5, 1904.  
"The Kieffer trees arrived in good shape and am very much pleased with them."

John Mueller, St. Clair County, Ill., April 3, 1904.  
"We got the trees from the station and found them satisfactory. They were fine trees."

Chas. E. Hill, Muskegon County, Mich., April 7, 1904.  
"The stock I ordered of you was shipped March 19th, received here April 4th. The floods throughout the country I think was the cause of the delay. Stock arrived in fine condition. Must confess I am very much pleased with it. I have notified several parties who are interested in your stock to examine it."

O. S. Claggett, Suffolk County, Long Island, N. Y., April 20, 1904.  
"I received the box of trees and have them all set out in an orchard, and am well pleased with them all. They are a fine lot of trees, all in fine order and in good shape; in fact, the best lot of trees I ever saw. Our neighbors all say they are a fine lot of trees; good roots and all."

Larrabee & Hubbard, Sabine County, La., April 9, 1904.  
"The trees we got of you are doing finely, and we are giving them the best of care and expect to do a good business for you another fall and spring if everything goes right."

S. Stoneroad, Mifflin County, Pa., March 24, 1904.  
"Your trees received; they are fine. Surely it's no wonder Eastern nurserymen are buying Western trees by the carload, if you can produce such trees at the prices you now offer."

O. G. McKinley, Jefferson County, Pa., April 20, 1904.  
"I received the trees in good order and am well pleased with them."

A. M. Beoyles, Rhea County, Tenn., April 8, 1904.  
"The trees came in excellent condition, considering that they were on the road 21 or 22 days."

Miss Lizzie Judd, Lee County, Ia., April 3, 1904.  
"Trees arrived all O. K. and were in fine condition. They were not damaged by frost, as I was afraid they would be. They are perfectly satisfactory in every way."

# NEW HAVEN (MISSOURI) NURSERIES

Mann Spittler, Newton County, Ind., March 30, 1904.

"The trees I ordered of you this winter received and am much pleased with them. I have bought lots of fruit trees, but I can say your trees are the nicest lot I ever bought."

Rising Sun, Ind., April 21, 1903.

"Received the trees in good shape. I am more than pleased with the trees. For medium they are extra fine. Accept thanks for honest trees."

Henry Schrupf, Grantfork, Ill., April 10, 1903.

"We have received the trees ordered from you all O. K. Nice healthy looking trees, well rooted, promising to grow all right."

G. C. Foster, Webster County, Mo., March 11, 1903.

"Enclosed find money order for fruit trees. I ordered 200 trees last fall with Mr. Arthur Stokes. Was well pleased with them. Have concluded to set out more, hence the order."

Edwin Riehl, North Alton, Ill., Dec. 20, 1903.

"Box of trees arrived at my place today and opened up O. K. I have received a great many trees, etc., from different parties, but never opened a box that was so well packed as the one from you. Trees were fine."

George W. Penn, Colbert County, Ala., Dec. 26, 1902.

"Received the 2000 peach trees, 600 pear and 2000 grape. All came in good order. The delay was caused by a washout on the railroad. Your careful packing saved a loss on the trees in transit. The trees appear to be a fine lot, especially the pear."

Martinsville, Ill., April 15, 1903.

"I saw a bill of trees that you shipped to Lafayette Perisho, of Martinsville, Ill., and if they were just an average sample of your trees, you have the nicest trees I ever saw. I have sold trees for several years for different firms and yours beat them all."

C. R. Ingraham, Riley County, Kansas, April 9, 1903.

"The trees arrived yesterday, and I sent mine out today. They came through in good shape, although they were ten days on the road. I am well pleased."

Wm. C. Hagen, Buchanan County, Mo., April 17, 1903.

"Trees came to hand all O. K. and fine shape. After trees were set we had several good rains, and all are starting fine. We want more trees in the near future."

W. P. Jones, Cass County, Mo., April 23, 1903.

"Received trees last Thursday in good condition and came up to my expectations. I am well pleased with them. Please accept my thanks for the Wild Goose plums you sent gratis. When I want more nursery stock I surely will not forget you."

## ABOUT AGENTS

We are not employing traveling salesmen to solicit orders, but we shall be pleased to have you get up a club among your neighbors, and on club orders amounting to \$25.00 or more, we allow you 10 per cent additional in stock. We put up each order in a separate package, so that upon receipt of the goods you have only to hand out the different lots as ordered. Many of our best customers buy in larger quantities at the lowest rates and distribute in lots as ordered by their neighbors.

**References**—Some of our correspondents have asked us to give them bank reference and we hereby comply, and can also refer to other local banks and to the commercial agencies.

A. KAHMANN, President

## FIRST NATIONAL BANK

Washington, Mo., September 12, 1904.

TO WHOM IT MAY CONCERN:

THE NEW HAVEN NURSERIES of New Haven, Mo., have a paid in capital of \$60,000, have been patrons of this bank since its organization, and we know them to be thoroughly reliable in every way.

Established in 1872, they have by progressive methods, fair dealing, and the high quality of their stock, built up a trade which now reaches over the entire country, and places them in the front rank in the nursery business.

At no place do they bear a higher reputation or are held in better favor than in their own vicinity, where they are well known.

We take pleasure in recommending them to purchasers desiring to deal with a thoroughly reliable company. Respectfully,

E. C. STUART, Cashier.

# *New Haben Nurseries*

*New Haben, Missouri*

We mail this condensed list of prices to our friends and customers, and will ask that they favor us with their orders as early as practicable. The **Prices** are for the goods **at your station**, if your order amounts to \$10.00 or more. We have now growing in our nurseries over two million fruit trees by actual count. All clean and healthy. **Entomologist's certificate** with each shipment. No San Jose Scale, Yellows or Rosette has been found in this county.

Shipments to Pacific Coast and Southern States from our frost proof storage during winter months via Southern Routes.

Setting 30,000 Peach Buds per day in field of 80,000 Seedlings.

We are **growers** of what we sell, having over 400 acres devoted exclusively to the nursery business. Many nurserymen are simply jobbers in the trade, and cannot sell stock with the same certainty of its being true to name and free from disease.
