1. The Commanding General desires that you screen, or cause to be screened, all of your Provost Court cases for prospective Christmas Clemency consideration. The following SOP is recommended.

a. Cases will be screened by an Officer who is not at present a Provost Court Officer and who has not tried any of the cases which are to be screened.

b. This Officer is to be a field grade officer, preferably with considerable experience in Japan, so that he has a perspective of the Provost Court problem.

2. The purpose of the screening is to scale down the punishment formalum prohibitum cases (violation of regulations) as distinguished from the malum per to (crime wrong in themselves) cases.

3. Your recommendation is sought by the Division Commander for all cases in which your screening indicates that additional clemency may be granted for Christmas without endagering the system of Provost Court enforcement of Occupation Directives. Your recommendations for clemency will cover:

a. Cases out of line with your table of average sentences as over severe.

b. Cases of extreme hardship to families where the accused has given indication of reform.

c. Minor cases where the sentence of the accused to confinement at hard labor would expire by its terms shortly after Christmas 1949.

Commanding Officer, 34th Infantry Regiment, APO 24
Commanding Officer, Chugoku Civil Affairs Region, APO 248

1. The Commanding General desires that you screen, or cause to be screened, all of your Provost Court cases for prospective Christmas Clemency consideration. The following SOP is recommended.

a. Cases will be screened by an Officer who is not at present a Provost Court Officer and who has not tried any of the cases which are to be screened.

b. This Officer is to be a field grade officer, preferably with considerable experience in Japan, so that he has a perspective of the Provost Court problem.

2. The purpose of the screening is to scale down the punishment formalum prohibitum cases (violation of regulations) as distinguished from the malum per to (crime wrong in themselves) cases.

3. Your recommendation is sought by the Division Commander for all cases in which your screening indicates that additional clemency may be granted for Christmas without endagering the system of Provost Court enforcement of Occupation Directives. Your recommendations for clemency will cover:

a. Cases out of line with your table of average sentences as over severe.

b. Cases of extreme hardship to families where the accused has given indication of reform.

c. Minor cases where the sentence of the accused to confinement at hard labor would expire by its terms shortly after Christmas 1949.

d. Any case which to the Area Commander appears to be the proper object of additional clemency.

4. Recommendations for such clemency consideration will be in this Headquarters by 15 December 1949 to enable the necessary consideration and processing to be completed by 25 December 1949.

Subject: The matter concerning parole on prisoner who was sentenced at Provost Court

We received the direction No 24, Legal Section BCOF Hq., dated on 14th Sept 1949. However, I have following questions in the direction, therefore I am asking your suggestion to clearify the question.

1. Shall I notify this direction to all prisons in Chugoku Region or only to Hiroshima Prison and Iwakuni Juvenile Prison?

2. When parole a prison (sentenced by Provost Court) the warden of prison can parole prison without any approval same as before?

ie = Ordinal prisoners (sentenced by Japanese Court) must have approval of DAOPAR Commission or DYOPAR Commission which established by Law of Crime prevention and Rehabilitation.

3. Should parole be cancelled if prisoner (sentenced at Provost Court) who was sentenced by Japanese Court for another offence while he was under parole? If so who has authority to cancel?

In case of ordinary prison above mentioned commission has authority

4. Should parole be cancelled if prison (sentenced by Japanese Court) was sentenced by Provost Court while he was under parole?
